FREEDOM IS A MIGHTY SWORD

Americans can rightly be proud of the fact that we are a peace-loving people. That our aim as a nation is to strive to improve human welfare. with freedom and justice for all. * Such a people is always slow to anger, tolerant and patient. But when patience is exhausted, a peace-loving people can turn its peace-time skills into weapons of fierce and righteous wrath. There is only

one way such a nation could be enslaved. That would be through propaganda that misleads; through lack of knowledge, and of truth. America's greatest strength is... freedom of the printed word ... to give the people truth, truth that builds freedom of thought, of word, and of vision. * This great Freedom tempers the steel out of which a nation and a people can forge mighty swords.
