Twenty-two members and two guests, Bob Truett of Midland and Stanton White were present.

Sandstorms On Schedule In The County

Yes, they're back! Two sandstorms, one a really wheeler-dealer and the other just regular size swept across Martin County and most of West Texas Saturday and Monday, Tuesday's wind was pretty high in the afternoon too.

Trees were uprooted and the wind reached 65 to 75 miles per hour here Saturday afternoon. A few reports of broken window panes were made and Stanton Saperette lost the glass from a front door. Some signs were blown down and lots of garbage cans rolled away.

No major accidents were reported during the sandstorm. Traffic was slowed on U. S. Highway 80 when visibility was reduced to less than a quarter of a mile.

Monday, the second section of the storm was much lighter and Tuesday brought high winds.

In charge will be the outgoing officers, who will install the new officers.

New officers are Glenda Payne, president; Frances Graves, vice president; Mona Epley, secretary, and Jimmy Sale, treasurer.

Retiring officers are Linda Saunders, president; Steve Springer, vice president; Carolyn Manning, secretary, and Bobby Sale, treasurer.

HST Comments On Topic List

In his quick, terse manner, former President Harry S. Truman had this to say Friday in answer to questions by a group of college students:

"If lack of federal financial aid for church schools forced some poorer Catholic families to send their children to public schools, 'it wouldn't hurt them. It would do them good.'"

"He doesn't think anyone will believe what former Vice President Richard M. Nixon has to say when Nixon makes an announced tour next month to criticize the Kennedy administration."

"The negro sit-in demonstrations in the South 'are wrong. The only way to do things is the legal way.'"

"In the Castro situation in Cuba, he, as a president, would have enforced the Monroe Doctrine."

Truman didn't elaborate on any of his comments. He had addressed more than 1,000 students at Kansas City Junior College.

Mrs. Glenn Brown New Twelfth District Head

Mrs. Glenn L. Brown, president of the Twelfth District and past president of the Ninth District, Texas Federation of Music Clubs, attended the forty-sixth annual convention of the Texas Federation of Music Clubs April 5-8 in South Texas.

Headquarter cities for the state convention were Edinburg and McAllen.

During the four-day convention, Mrs. Brown was honored with other district presidents at a dinner, participated in an all-state concert, gave a report from the Ninth District and was installed as president of the Twelfth District.

"Music Is A Magic Mirror" was the theme of the convention, which got underway Wednesday, April 5 with a meeting of the Council of Presidents, including outgoing and incoming, district presidents, vice presidents, club presidents and federation officers in Edinburg, Mrs. Raymond Marshall of Lubbock, state president, presided at the board meeting that followed the president's meeting. Mrs. Glenn L. Brown gave the invocation.

Other activities Wednesday included a music program by the Edinburg High School A Capella Choir; and a Texas Heritage dinner honoring past state presidents and present district presidents.

Following the banquet an all-state concert was given with representatives of the nine districts presenting

parts on the program. Mrs. Brown represented District Nine and sang several vocal numbers.

Thursday's activities opened with a general session at which a welcome from the Edinburg mayor, was given, and a business session at which reports were given by all state officers, the district presidents, district vice-presidents and the extension department. Mrs. Brown gave a report from District Nine.

Mrs. Clifton J. Muir of Coral Gables, Florida, first vice president of the National Federation of Music Clubs, was the featured speaker at a Magic Luncheon Thursday. A business session and an all-valley concert (Continued on page 5)

The Great American Dream

Philosopher Claims Government Not Making It Easy To Shirk Your Responsibilities

Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw lets the world problems slide this week and discusses responsibility, about which he wouldn't be classified as an expert.

Dear editor:
A successful business man stopped by this Martin County grass farm out here the other day and looked the place over and shook his head and propped his foot on an old cultivator wheel grown up in weeds in the corner of a fence and without being asked by me said, "Now I'll tell you, what you need out here is some serious planning. You got to plan your work to get a place like this organized and straightened out."

I thanked him and said I'd see what I could do about it, without adding that I was way ahead of him and what I already saw was that I wasn't going to do anything about it.

I wouldn't say this place suits me exactly like it is, but on the other hand the amount of work it'd take to change it wouldn't suit me either. I figure if I'm going to be dissatisfied a little, I'd rather be dissatisfied comfortable than worn-out.

As a matter of fact, I have done some serious planning about this farm, in fact, I'm years ahead in my planning, but I found out long ago if I did everything I planned to do, I never would have time to do the things I don't plan, and frequently they're more fun.

In this connection, I was reading a criticism of the government the other night and this man was

saying the government is trying to do too much for people. "The government," he said, "is making the shirking of responsibility easy."

I'd just like to say this is one more case of unwarranted criticism of our government. I've got more faith in the individual and anybody who has to rely on the government to help him shirk his responsibilities, just doesn't know the first thing about shirking. He's not half trying.

Why the ability to shirk your responsibility hasn't got anything to do with the government. People were shirking their responsibilities back in the day when the government did practically nothing, when it didn't even build highways and it was every farmer's job to keep the road up in front of his house and people were always getting stuck in the front of mine.

This idea that the government can make it easy for you to shirk your responsibilities is just another half-baked dream. Nobody can make it easy for you, it's hard, but if you have the strength of character, you can do it.

Yours faithfully,
J. A.

Bible Comment—

Religion Of Thanks Typified In Psalms In Praise Of God

When the Apostle Paul, contemplating the blessing of God through Christ, sought to express his wonderment and praise, prose failed him, and he burst into the lyricism of Psalm: "Thanks be unto God for His unspeakable gift."

The giving of thanks was a deep and impassioned thing in Paul the Christian.

And the note of thankfulness was deep and strong in the religion of the Old Testament, which was the heritage of both Paul and His Master.

Its highest expression is in the Psalms.

If one had to choose one Psalm that typifies the religion of Thanksgiving, one would probably pick the 107th, although the group of Psalms from the 103rd through the 107th are full of the note of thanks.

Thankfulness in religion is not only a proper attitude for blessings received. It is also an attitude of receptiveness.

An unthankful soul is a closed soul. Not much can penetrate the wall of an unthankful spirit.

Probably the most beautiful of all the Psalms are those in which the note of thankfulness is uppermost — the Psalms of praise for what God has done, that call upon men and those that express the love of the Lord as the proper response

Sands Places Second In District Meet

Sands School of Ackerly scored 96 points to place second in the District 20-B Interscholastic League literary contest held Saturday in Sterling City.

First was won by Sterling City, who scored 186 points. Garden City was third with 31 points.

The other two teams entered, Water Valley and Knott, won 10 and 5 points respectively in the elementary division and failed to place in the high school division.

Winners in the high school division will go to the regional meet in Stephenville April 21-22.

R. M. Pierce, superintendent of Sands, was general director of the meet in which approximately 75 students were entered. H. L. Lovell, Water Valley, was high school director and E. B. Seago of Sterling City handled the elementary division.

THE WINK BULLETIN: "Officials of the Wink Lions Club considered the annual Lions Easter Egg Hunt, held Saturday morning, a huge success. Some 300 Wink and Kermit children showed up at the county park here to gather the eggs and only a few went away empty-handed, but the park was stripped clean of all signs of the large number of candy eggs which had been scattered earlier by members of the club."

THE POST DISPATCH: "A record number of voters — 423 — went to the polls here Saturday to re-elect E. R. (Buster) Moreland and Russell Wilks Jr. to the board of trustees of the Post Independent School District and elect Dr. John E. Carter as a new member of the seven-man board. The 423-vote total topped the previous high of 391, registered in 1957 — the year the school district was enlarged through consolidation. Last year, 371 voted in the school election. In 1958, the total was 187 and in 1959 a total of 209 votes were cast."

THE MATADOR TRIBUNE: "Strange and wonderful things are awaiting you at the portal of a changing world." Rev. Paul Fullerton, pastor of the First Christian Church, Floydada, told the seniors from Motley County's three high schools at the fourth annual senior banquet sponsored by the American Legion. "It is a wonderful age when dreams come true; a glorious time in which to be alive," he said. During the program tribute was paid to the late Joe Speer, who

started the senior banquet plan four years ago."

Andrews County Scout Exposition was held during the weekend at Andrews, according to THE ANDREWS COUNTY NEWS. Ten Boy Scout and Cub Scout troops and packs set up exhibits on everything from knot tying to Indian dancing. The exposition was held in the exhibit area of the Youth Center.

A record number of voters turned out at Fort Stockton Tuesday, April 4 to vote in the city election, according to THE FORT STOCKTON PIONEER. A total of 1,204 persons turned out to vote in the election. That total eclipsed the previous city election voting record by almost 200. The record had been 1,025, set in 1955 when five candidates were in the lists.

THE MUNDAY TIMES: "The Stamford Production Credit Association will hold its 27th annual stockholders' meeting in the Round-up building, Texas Cowboy Reunion Grounds on April 14. More than 1,000 stockholders, borrowers and special guests are expected to attend."

DENVER CITY PRESS: "A return to Summer water rates for residents of Denver City was the main order of business transacted by the city council. The action was taken to encourage Summer irrigation of lawns and other water uses for the next six months. The new rates will be effective as of the next billing date."

MORE PEOPLE ARE BUYING CHEVROLETS THAN ANY OTHER MAKE!

When one car outsells all the rest the way this new Chevrolet is doing — there's got to be a reason. And we can think of some pretty good ones. The clean-etched looks of the new Body by Fisher, for example. The eager brand of "git" that's under the hood. The easy way it handles. Plus the added advantage of extra-cost options like triple-turbine Turbohydride.

But to sample all these reasons together, you have to get a Chevrolet out on the road. And there's where that Jet-smooth ride takes over with its own gentle kind of

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD

In years past, a favorite topic among legislators about this time in the session was, "When are we going to sine die?"

A sine die (final adjournment) resolution gave everyone a comfortable sense of direction. Now there's no need.

Under the new law, the regular session automatically ends after 140 days. For this session the 140th day will be May 29. But with the time two-thirds gone, there's no assurance vital tasks can be completed by May 29.

Both House and Senate are now working on the tax problem, but other measures of major importance — loan regulation, school consolidation — claim their time and cause delays.

Some observers are freely predicting that the tax question this year, as in 1959, cannot be solved except in special sessions limited to that one subject.

LOAN BILL PASSED — House members passed and sent to the Senate a bill on one of the session's most difficult problems — small loan regulation.

Rep. Criss Cole's bill would allow interest rates up to 29.8 per cent on the smallest loans. An amendment was added to allow loan companies to make a service charge of \$4 every three months in addition to the interest.

Two amendments were passed with the aim of trying to prevent the market's being taken over by large out-of-state chains. One would prevent the licensing of a loan company owned by a non-resident person or corporation. Another would prohibit any one loan firm's having more than 50 branch offices in Texas.

Another amendment would require the finance commissioner, who would be responsible for loan company licensing and regulation, to approve any charges for insurance in connection with loans.

LOAN INSURANCE RULING — Meanwhile, an attorney general's ruling gave additional direction to the effort to control total charges for small loans.

A loan company, said the opinion from Atty. Gen. Will Wilson's office, is not entitled to a commission for group insurance sold in connection with loans.

Many critics of the small loan industry have contended the loan companies have made extra and unjustified profits by serving as "agents" for the sale of credit insurance to borrowers.

Actually, according to the opinion, the creditor (loan company) is the buyer of the insurance policy and, as such, is not entitled to an agent's commission on the sale.

This opinion, it was felt, will help to clear up the sticky problem of keeping a lid on charges for insurance required of borrowers as security for loans.

SCHOOL CONSOLIDATION WEIGHED — Senate ran into problems over a bill designed to encourage small school districts to economize.

Under present law, if several common school districts in a county consolidate, the first result is that state aid for the combined district is less than for the several separate districts. Government research specialists, however, have long advocated more consolidation in the interest of economy, efficiency and better school programs.

Sen. Tom Creighton of Mineral Wells is sponsoring a measure providing that common districts forming a consolidated district of 1,000 pupils or more shall, for 10 years, continue to receive as much state aid as before consolidation.

Sen. Culp Krueger objected that the requirements would penalize many of the low-population counties in his district. Besides, said Krueger, he didn't believe in "pay-

Recent visitors with Mr. and Mrs. Martin L. Gibson were Mr. and Mrs. Roy Beinhauer and family of Dallas, and Mrs. Don Gaddis and children of Fort Davis.

Tuddy Coffin of Big Spring, spent the Easter holidays with Mr. and Mrs. Elmer Mashburn and Mr. and Mrs. Fred Schlosser. She also participated in the Easter Bunny Parade in Stanton.

Soft drink manufacturers were among those protesting at being singled out. Bill was sent to subcommittee for study.

SHORT SNORTS

Car owners have until April 15 to get their autos safely inspected and a new sticker put on the windshield. Col. Homer Garrison Jr., director of the Department of Public Safety, said DPS officers would start handing out tickets to non-stickered cars Sunday, April 16.

A rise in the number of polio cases reported this year has prompted the Department of Health to urge parents to see to their children's shots. Seven more cases were reported for the first quarter of 1961 than for 1960. Health officials recommend that a child receive his first polio shot at 1½ months and succeeding shots at the recommended intervals until five have been received.

Memorial Day would become a legal holiday for state employees under a House-passed proposal. But before passing the measure, sponsored by Rep. Dick Cory of Victoria, members took out Columbus Day as a holiday.

Bureau of Business Research economists are making hedged predictions that Texas business is beginning slowly to pull out of the slump that began in 1960. Dr. John R. Stockton said the third quarter (July, August and September) of 1961 are looked to for the first strong signs of recovery.

Atty. Gen. Will Wilson ruled that only a juvenile court judge has authority to give permission for an operation to be performed on a child that has been declared dependent and neglected. Chief probation officer of the county cannot authorize the operation, said the opinion.

ing people to economize."

SENATE STUDIES ANNEXTION — A House-passed bill setting up ground rules for city annexation is being worked on by a subcommittee of the Senate State Affairs Committee.

Rep. W. T. Dungan of McKinney is sponsor of the bill which would allow cities to ring themselves with "buffer zones" over which they could exercise control of building, health and sanitation standards. A portion of the zone could be annexed each year. Bill also provides that an annexed area not provided with municipal services in three years may "disannex" itself.

Spokesmen for the Texas Municipal League spoke in favor of the bill at committee hearing. A representative of the Texas Home Builders Association spoke against it and asked for more control over city extension of control.

70 MPH BILL PASSED — Senate passed and sent to the House a bill that would allow speed limits up to 70 miles per hour on some state highways.

Power to say which roads would have higher — or lower — speed limits would be in the hands of the State Highway Commissioner.

In support of the varying speed limits, Senator Wardlow Lane of Center said it was unreasonable to have the same 60-mile-an-hour limit on new divided highways and old, narrow, twisting roads.

Senator Preston Smith of Lubbock is sponsor. A controversial amendment by Senator Lane would make inadmissible in a court considering a speeding charge "evidence gained by entrapment" or gained by officers "lying in wait unobserved." Presumably this would, in effect, outlaw radar traps.

GOP ASKS ELECTION CHANGES — Spokesmen for the Texas Republican Party appeared before a House Committee in behalf of four bills to change the election code.

Two of the bills set up qualifica-

tions for poll watchers and election supervisors. Another would allow voters to put a mark beside the name of the person they wish to vote for instead of scratching all others. Another would repeal the provision for disqualifying a ballot on which two or more names are left unscratched for the same office.

GOP officials said that 100,000 ballots were thrown out in the last general election, and that probably 100,000 were counted that should not have been. Clarifying the law, they declared, would protect everyone's vote.

BOARDS FAVOR TEACHER RAISE — Answers to questionnaires sent to local school boards over Texas show that 99 per cent of the school trustees replying favor raises for teachers.

Boards are divided, however, on how much the raise should be. Biggest proportion, 64 per cent, favor the full \$800 sought by the Hale-Aikin Committee and the Texas State Teachers Association. About 22 per cent favor a \$600 a year increase, and 8 per cent a \$400 increase. Remainder favor some other amount.

Other results: a substantial majority of boards favor adding driver education teachers to the list of authorized special personnel.

A committee of the Texas Association of School Administrators and Texas Association of School Boards conducted the poll.

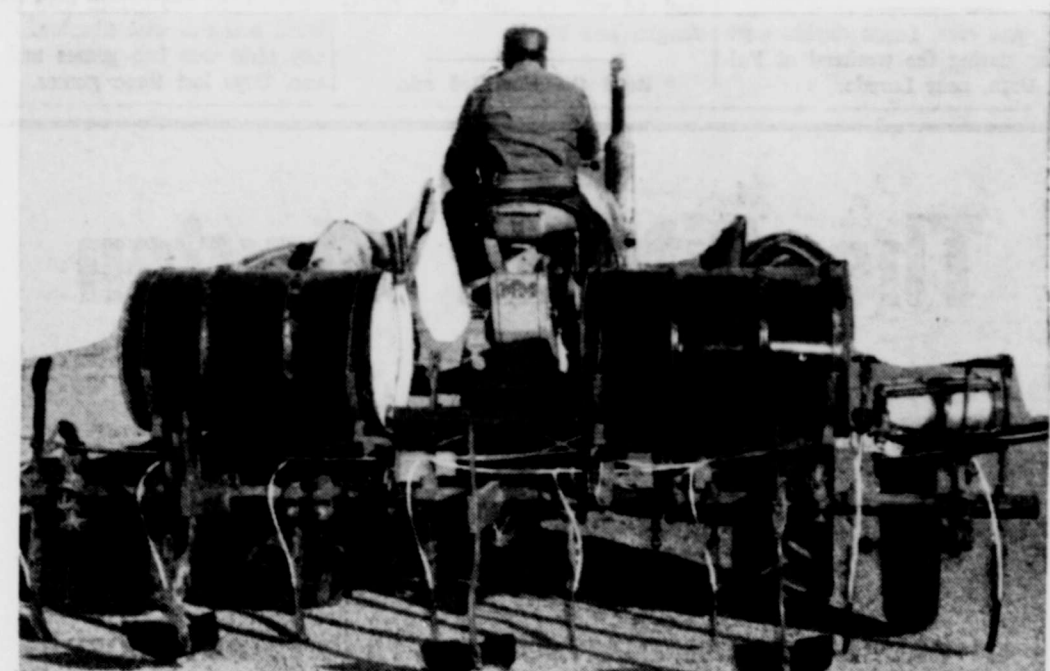

SALES TAX SENT TO FLOOR — A 2 per cent general sales tax designed to raise \$189,000,000 a year has been sent to the full House for a decision.

House Revenue and Taxation Committee unanimously passed out the bill by Rep. John Allen of Longview. Some members who voted to pass the bill out of committee said they would not vote for it on the floor. They apparently felt that the only way to settle the sales tax issue for this session is to get it to the floor for a vote.

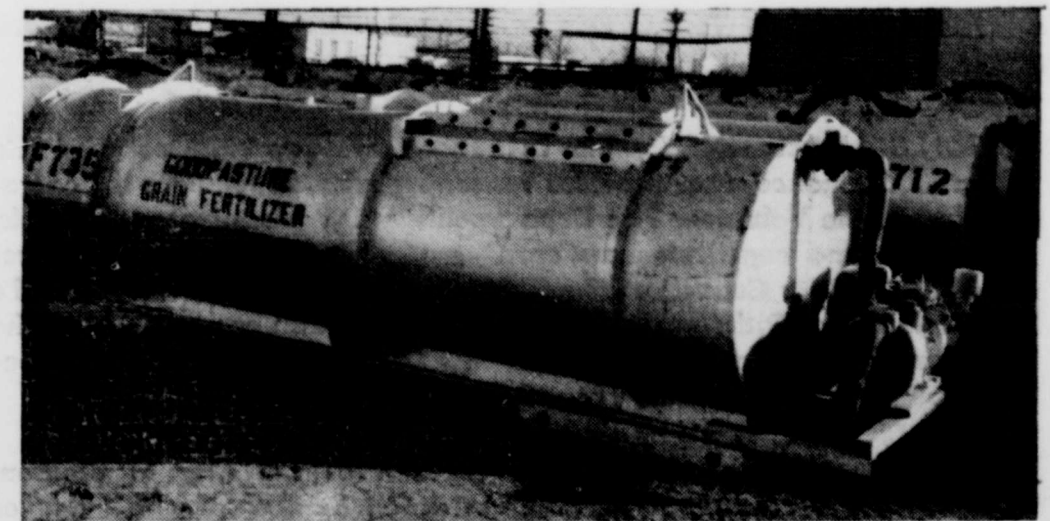

Taxation Committee also heard testimony on an omnibus tax bill by Rep. George Hinson of Mineola. It is supported by the governor.

Hinson's bill would raise an estimated \$156,000,000 a year through taxes of varying percentages on such items as motor boats, jewelry, watches, soft drinks, restaurant meals, building materials, utilities

A PROFITABLE COMBINATION . . . LIQUID FERTILIZER Applicator - Cultivator

GAUGE-WHEEL DRIVE UNIT—This is just one of the many types of Liquid Fertilizer Applicator-Cultivator units you'll find at your local Liquid Fertilizer Dealer. A highly versatile piece of equipment—with it you can fertilize before you plant, you can rig-up to fertilize and plant at the same time, side-dress and cultivate, and you can even apply insecticides as you cultivate and side-dress. See your local Liquid Fertilizer dealer and let him show you how easy it is to own a multiple-use unit.

THE WORKHORSE—This tank takes the work out of fertilizing. It is loaned to the farmer to haul his fertilizer to the field. Mounted on the tank is a pump and gasoline motor. The nozzle, which weighs about fifteen pounds, on the end of the hose, is the heaviest thing the farmer has to lift when he is loading his Liquid Fertilizer applicator. Why be old fashioned in modern day farming . . . use Liquid Fertilizers and let pumps and motor do the work for you. Liquid Fertilizer is never under pressure and it is not dangerous to handle.

Cancer - - -

(Continued from page 1)

The three-word imperative, "Guard Your Family" will again be the theme of the crusade. For the third successive year, the family theme will be used in conjunction with the life-saving phrase, "Fight Cancer With a Checkup and a Check."

Beginning with the coffee Thursday, diminishing coffees will be held the remainder of the month. At the coffee contributions will be made and pamphlets giving information concerning cancer will be distributed.

On Tuesday, April 25 members of the Stanton chapter of Future Homemakers of America will conduct a house to house canvass of Stanton. The house to house drive will be directed by Mu Lambda chapter. Girls will accept contributions and see that a pamphlet telling of the dangers and symptoms of cancer is placed in every home in the city.

The aim of workers is to get the literature into every home, so that county residents may become aware of the danger of cancer.

Each year 85,000 Americans die needlessly of cancer, because they went to their doctors too late. Because of this the Society gives top priority in its April Crusade to its educational effort to prevent the tragic loss of life. The free literature distributed by the volunteers in the house-to-house campaign is designed to stimulate regular health checkups among all adults for early detection of cancer, when most cancers are readily curable.

Local residents who plan to give diminishing coffees, and who do not have the literature to distribute and other campaign materials, may contact Mrs. Leland Nelson.

Rev. Parmer, who is a native of Alabama, came to Texas in 1935 to attend the School of Theology at Southern Methodist University. After three years in Texas, he decided to make Texas his home. He holds degrees from the Bob Jones University in Greenville, South Carolina, Southern Methodist University in Dallas, and Emory University in Atlanta, Georgia.

He served as pastor of country and city churches for seven and one-half years, and also served five years as a chaplain in the U. S. Army. He served as state director of Tell Texas About Christ Crusade in 1958-59, and conducts revivals in full cooperation with the program of evangelism as promoted by the General Board of Evangelism of the Methodist Church.

Ward, who is an evangelist singer, has had 25 years experience. He has served 14 years as a full-time evangelist singer. Prior to that he was associated with the public schools of Texas, and during World War II he served in the ordnance department at McGregor. His singing has a style distinctively all his own, but to all who live to sing great hymns, his directing is an inspiration.

The public is invited to attend and take part in the services.

SOIL CONSERVATION DISTRICT NEWS

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT
Jack Buchanan, Bob Cox, Bernard Houston, Larry Shaw, J. D. Crawford.

Soil and water conservation plans were approved by the Martin-Howard SCD Supervisors on the following farms and ranches at their last meeting. They are W. D. Bryant, R. J. Deatheridge, Dudley McKaskle, Ray Adams and E. B. Dickenson Estate.

Martin County had its worst sand storm of the season Saturday, April 8. Many farmers are to be commended on the fine job of wind erosion control. Wind velocity was registered between 50 and 60 miles per hour and many fields were undamaged. It is good to see so many farmers concerned with soil conservation.

Many farmers are pre-watering cotton land preparing for cotton planting time. Soil temperature is high enough now for planting some crops such as grasses. People who plan to plant grasses should be making preparations.

"Soil erosion expresses itself as a deficiency disease of the land which begets deficiency of food, vitality, and higher values for people and nations." — Dr. Walter Lowermilk.

TELEPHONE TALK

by Cliff Fisher, Manager

SOMETHING NEW AND DIFFERENT

About six months ago we decided to try something new in coin operated telephone service in Stanton, and installed a "Drive Up" telephone on the southeast corner of Broadway and St. Paul. This telephone can be reached from your car and you can make calls in comfort, out of the weather.

Stanton was the first town of its size in this area to have this type service and it appears it has been well accepted by you folks and is used quite often. We are quite happy with this new telephone and it indicates the progressive thinking of Stanton people in accepting new ideas.

SPRING PHONE FAIR

Well, by now most of us in Stanton don't need the weather man to tell us spring is here. There are signs of it everywhere. Have you noticed the kids lately . . . skipping rope, swinging bats, and chasing pop flies?

The grown-ups, too, are busy around the house. Painting and rearranging rooms, even adding on to the house itself to make it more comfortable for the family.

We're busy at the telephone company, too, getting ready for spring with an event called Spring Phone Fair. It is to be our way of reminding you about the many new telephone services we have to help you make your home more convenient and attractive.

For instance, how about a new phone in color for a bedroom? Or a wall phone for the kitchen, playroom or work area? Perhaps you'd like the smart Princess phone for your living room . . . so little, so lovely and it lights. Or maybe you'd prefer the soft musical tones of the bell chime.

If you don't get a chance to see them and would like more information, just call "Operator" and ask for business office or ask any telephone service man.

FREE PROGRAMS FOR YOUR GROUP

Since some Stanton civic, church and social groups already are planning spring programs, this seems like a good time to remind you of our standing offer to provide entertaining and informative telephone programs for your organization.

A booklet describing the variety of programs available—films, talks, lecture-demonstrations, telephone tours—is yours for the asking. Just call the telephone business office, dial "Operator" and ask for business office.

Call by number. It's twice as fast.

T. D. Morgans Attend Funeral In Alabama

Mr. and Mrs. Tilman D. Morgan have returned home from Alabama, where they attended funeral services for her uncle, Tim Lumpkin, 93, of Eclectic, Alabama.

Mr. Lumpkin died March 21. Services were held March 23 in Eclectic.

The Morgans were accompanied to Alabama by her mother, Mrs. J. H. Dawkins of De Leon, and her brother, Houston Dawkins of De Leon.

Mr. Morgan returned home the week of the funeral, but Mrs. Morgan stayed for a week's visit. She returned home Tuesday, April 4.

Bearcats Win Tennis Title

Although it failed to qualify a single player for the Regional meet, Garden City won team honors in the District 18-B tennis meet in San Angelo Friday with a total of 125 points.

Water Valley was second with 85 points, followed by Sterling City, with 80. Forsan failed to scratch in the meet.

Points were figured on a basis of 15 for a title match and ten for runnerup.

Garden City piled up most of its points in the junior division. Only those competing in the senior division are eligible to go to Regional.

Hawks Control Pesky Rodents For The Farmer

Of all the predacious birds, the hawk family is the most persecuted and the least understood, according to Jerome Kasten in his article, "Hawk, Friend or Foe?" in the April issue of Texas Game and Fish magazine. This includes, hawks, kites, harriers, and eagles.

The good these birds do far outweighs the bad. For instance, the major part of a kite's diet reads like the role of the scourage of the land (beetles, moths, locusts, dragonflies, crickets, wasps, caterpillars, and other insects). Farmers would have a greater appreciation for these birds if they knew of this diet, writes the author. "No excuse can be made for the extermination of kites. They are harmless, helpful, and easily recognizable. Yet, their numbers are ever diminishing in the state."

Kasten's article is taken from a study he made in Texas. His findings reveals some interesting facts about the hawk family. For instance, the farmer who is lucky enough to have an osprey or two nesting on his land need never worry about other hawks. The osprey never eats poultry and makes a habit of keeping other hawks well away from its nesting grounds. And the sparrow hawk is almost exclusively insectivorous, and therefore a benefactor to the farmer.

"One bad act, such as a hawk making off with a chicken," writes Kasten, "causes many persons to conclude that all hawks should be killed. They fail to consider that this same hawk may catch field mice as well. A reduction in the number of hawks will certainly remove one effective check on rodents."

Recent visitors with Mr. and Mrs. E. A. Baugh were Mr. and Mrs. J. L. Baugh of Big Spring, and Mr. and Mrs. Fred Hughes of Bronte. Mr. and Mrs. E. A. Baugh accompanied the Hughes family home for a visit.

The Yardener

Drowning in Dirt

A tree or shrub can actually "drown" in dirt.

The tendency of many home gardeners is to transplant shrubs too deep in soil. The transplants seem to do all right for a week or so. Then there comes a loss of foliage; soon twigs and branches die back.

Prevention: observe the soil line mark on the shrub you are planting.

FARM REVIEW and FORECAST

Thinking about building a farm pond? If you are, some careful planning is in order, says W. L. Ulich, extension agricultural engineer.

Ulich says the first step is to decide what the pond is going to be used for — irrigation, livestock water, fishing, recreation, etc. If it is to be used for irrigation, and you have a choice of sites, locate the pond as near as possible to the fields to be irrigated. If the pond is to furnish livestock water, put it where the animals can make maximum use of it.

The watershed for the pond should be large enough to supply your needs and keep water in the pond during dry periods, but not so large that it will create flood hazards during heavy rains. Watersheds may vary from 10 to 100 or more acres, depending on the rainfall and how much water you want to store. If possible, select a watershed covered with grass or woodland. If you cultivate part of the watershed, however, be sure to use erosion control measures so heavy rains won't wash a lot of silt into the pond, Ulich continues.

After you have selected a tentative site, test the soil to make sure it will hold water. The best soil is deep to bedrock, and is heavy, with a lot of clay. Try to avoid sites with rock outcroppings along the bank, or with rock or shale ledges near the surface. Also stay away from sites having sand, gravel, peat or marl through which the water might seep. If you build a pond on a shallow soil, don't borrow the dirt for the fill from the pond area itself, but get it from some other area.

Ask an SCS technician to survey the pond site and prepare plans for the dam. After this is done, get two or more good farm contractors to bid on the project. Be sure you get a reliable man to do the work, as the earth has to be well packed and the overflow part of the spillways must be properly installed. If you expect to get cost-share payments, the structure and pond must be approved to meet ASC specifications, Ulich concludes.

2 Extra Days For Income Tax

The nation's taxpayers will get two extra days this year, until April 17, to file their federal income tax returns.

Because the normal April 15 deadline falls on a Saturday, the law provides for an automatic extension to the following Monday.

Whenever a federal tax deadline falls on a Saturday, Sunday or holiday, it is extended to the next day which is not in this category.

Milk entering interstate commerce can be confiscated by the Pure Food and Drug Administration if it contains insecticidal residues. Dairymen, therefore, should use care in selection and application of insecticides, says C. F. Garner and R. L. Ridgway, extension entomologists.

Certain materials, if they are applied correctly, may be used for the control of external parasites on dairy cattle, but others are not recommended because they may contaminate the milk.

There are several ways that milk from dairy animals can be contaminated, and the dairyman should strive to avoid all of them. Contamination means loss of profits to the producer, point out the specialists.

Garner and Ridgway list the following as ways milk can be contaminated: the application of an insecticide which is not recommended for use on or around dairy cattle; by using excessive dosages of certain recommended insecticides, or by applying the chemical too close to milking time; by feeding animals contaminated feed or allowing them to graze on pasture treated with non-approved chemicals; through careless application of insecticides in the dairy barn; and by contaminating the animal's drinking water with insecticidal drift.

The specialists also warn that when purchasing baled hay or similar feed material, the dairyman should be sure the feed is free from harmful insecticide residues.

There is an estimated 10 to 12 million acres of abandoned cropland and an additional several million acres of denuded or barren rangeland in Texas. This land is producing little or no income for the owners, but reseeding with adapted grasses is one method which may be used to bring at least part of it back into profitable production.

G. O. Hoffman and B. J. Ragsdale, extension range specialists, say there are, however, several things to consider before reseeding any particular plot of land.

One of the first is take a survey of the vegetation currently growing on the land. If 15 percent or more of native key grass species are found in the area, do not reseed. In this case, the specialists say, it will be cheaper and much better to use deferred grazing with proper stocking to rebuild the pasture.

If reseeding is decided on, however, the next thing to do is have a soil test made. Grasses, just like other crops, need the proper nutrients, and soil testing and fer-

tilization is the way to make sure they have them. The soil should be prepared just as it would for a cash crop. This can be done by plowing, growing an annual legume and leaving it or turning it under to enrich the soil. Next should come a sorghum, planted late in the season so the seed will not mature.

Now the land is ready for reseeding with grass. Plant the grass seed in the stubble to reduce damage to the young seedlings by wind erosion, packing from rain, or from high soil temperatures. Hoffman and Ragsdale say that only seed of high quality and high germination should be planted.

The grass should be planted in rows so it can be cultivated for weed control. Cover the seed no more than seven times its diameter, usually one-fourth to one inch, depending on the kind used. It is desirable to pack the soil after planting with a cultipacker or roller, the specialists continue.

After the grass is established, control the weeds and use moderate grazing, and you're in the forage production business, Hoffman and Ragsdale conclude.

Miss Robinson Takes Vows With B. Parker

An exchange of double ring vows united Joyce Robinson and Bruce Parker, Saturday evening in the home of the bride's parents, Mr. and Mrs. T. M. Robinson, Route 1, Ackerly.

The bridegroom is the son of Mr. and Mrs. Fred Parker, Route 1, Knott. Reading the ceremony was the Rev. Vernon King, pastor of the First Baptist Church in Knott.

Neva Jackson, pianist, played wedding music as guests assembled and then as the bride approached the altar, played the traditional wedding march.

The bride, given in marriage by her father, selected a dress of white crystalline, ballerina length, with a fitted bodice. Elbow-length gloves complemented the brief sleeves, and she carried a white Bible topped with an orchid nestled in white carnations.

Judy Roman of Knott was maid of honor; her frock was of blue silk organza over blue satin, fashioned with low neck and a pleated skirt. A cummerbund was of blue satin, and her corsage was made of white carnations.

Richard Parker attended his brother as best man.

For the reception, given in the Robinson home, the bride's table was laid with an ecru crocheted cloth with blue underlay and centered with an arrangement of blue blossoms.

Blue frosting flowers decorated the tiered cake, which was topped with a tiny bride and groom figurine. Serving was done by Anne Ulmer and Martha Robinson, sister of the bride.

The new Mrs. Parker is a graduate of Sands High School; her husband, who graduated from Knott High School, has served two years in the United States Army. The couple will live at Knott, where he is engaged in farming.

Here's the Answer

Here's just ONE of 28 REASONS why... YOU SHOULD COOK ON a GOLD STAR GAS RANGE

FLAME-FLAVORED, CLOSED-DOOR BROILING — Expert chefs agree that nothing brings out the juicy goodness of meats like a live flame. And the broiler door stays closed because Gas flames consume smoke! Twenty-seven other features, including automatic rotisserie and roasting controls, are your assurance of the finest range money can buy!

TRY THIS SIMPLE TEST Hold a lighted match an inch or so above the smoke from a cigarette and see how the smoke disappears. This is the principle of smokeless Gas broiling.

And remember FLAME-FAST GAS cooks at least five times cheaper than "real-type" cooking

OLD INDIAN SAYING: "NEVER JUDGE A MAN UNTIL YOU HAVE WALKED IN HIS MOCCASINS A FORTNIGHT."

JOHN TOWER took Texas last Tuesday in the special senatorial election to fill **JOHNSON'S** seat. The next day we heard this announcement on TV: "FRONTIER BACON, 2 LBS. FOR .89." We wonder what **WILSON'S** sold for—**WILL** was fourth man in the race.

ROY FURR of Lubbock has been elected a director of **SOUTHWESTERN BELL TELEPHONE COMPANY**. The first board meeting attended by **FURR** was held in St. Louis. Somebody called his secretary and asked how he planned to travel. "The Furr is flying," she said.

LOTS of fanfare is being banged around advertising the picture, "The Alamo." We have heard that the true story as filmed has been altered little. We have not seen the picture but plan to. We are interested in seeing if the part played by **MOSES ROSE** is included. **ROSE**, as you probably know, was the fellow who, according to his own account, took a powder from the Alamo. **ROSE'S** story was that the Alamo commander, **COL. TRAVIS**, drew a line in the earth of the compound and asked all who intended to fight to the death to march over the line. **MOSES ROSE** was the only one who didn't cross the line. In fact, he said he went for the nearest exit, and made it through the Mexican lines.

CHETA GILSTRAP is one of the state's better known football coaches. Recently **GILSTRAP** was talking to a banquet crowd. It was reported he compared the life of a college coach to a player's scholarship. "The player gets a scholarship for four years, win or lose and a coach gets a one year contract and he better win."

FOR many years we have been interested in checking the county-by-county election results and for good reason. We are always concerned about **Duval County**. You never find out who is going to get that lop-sided vote down in the **PARR** country until the ballots are all in. We never vote for a candidate in the runoff if he carries **Duval** in the primary, no matter if we supported him at the ballot box the first round. It never has made sense to us how one candidate can get all the votes in **Duval** but a small handful. It happened again on April 4. It is the happy privilege of this columnist to report that neither **BILL BLAKLEY** nor **JOHN TOWER** made a dent in the **Duval County** balloting.

THE other day we dropped in a West Texas cafe for a steak. We put a lot of mileage on our teeth trying to eat it. Reminds us of a land leasing trip we made down in Mississippi a few years ago. On the wall of the cafe, this sign was prominently displayed: "If our steaks are too tough, Get out! This is no place for sissies." And brother, that joint was patronized by customers who looked as tough as the manager and the steaks."

OUR thanks and the appreciation of the entire staff are for **SAM MARTIN** this week. **SAM** passed one of the highest compliments along to the newspaper that could be phrased. He said: "We have a good little newspaper here, and it gets better all the time. I really think it is performing a good service for the people."

MRS. G. B. POLLOCK was another good reader who uttered good words for **THE OLE RELIABLE** this week. **MRS. POLLOCK** appreciates her hometown journal. She liked the extra features last week and said she enjoyed every word in the paper. Thanks to you too, **MRS. POLLOCK**.

THE planned flower arrangement around a portion of the white picket fence in our backyard is not only beautiful but one could call it patriotic too. For the colors are red, white and blue. White blooms gush from the bridal wreath and the red climbing or running roses interlace the vines and blue iris or flags stand like sentinels underneath and around the base of the plants. Yes, **MRS. MARY WILKIE**, the late beloved Stanton citizen, and former owner of our house, sure knew what she was doing when she applied the artistic touch to the outside planting in the backyard.

AMONG those sending in subscriptions this week were: **MRS. E. C. AIRHART**, Big Spring; **J. R. YOUNG**, Five Points, California; **MRS. BIRDIE McARTHUR**, Loraine; **DON SEBASTIAN**, Tulsa, Oklahoma; **HOWELL H. JOHNSON**, Pecos. And **MRS. JOHNSON** penned this note: "We do so appreciate your sending our paper. We like to read your paper, especially the 4-H Club work as our son is your County Agent." That would be **BOB'S** mother and his dad is a newspaperman on the staff of the **Pecos Enterprise**. **MRS. ALICE HIGGINS**, Independence, Iowa, sent in a subscription and wrote: "We enjoy the paper and good luck to Martin County." We are grateful for the out-of-town subscribers and always like to have their comments.
