WHEN SUCCESS TURNS A PERSON'S HEAD, HE IS FACING FAILURE.

A ERIAL cropdusting operations from the municipal airport in Navasota were suspended by the city commission after a property owner said that the poison had killed the fish in his pond, across the highway from the airport.

TWO fellows were passing an outdoor telephone booth late one night when the phone rang. One man picked up the phone, said "Wrong number" and hung up. "How come you did that?" his pal asked. "Tell me," the other said, "who'd be calling me at that number at this time of night?"

WHEN children get out of bed two hours earlier each morning, when the sandpile set gathers on the lawn to build tunnels, mountains and make mud pies, when the lawn mowers begin their putt-putt and the sprinklers begin to whirl and the ice cream freezer is oiled and polished for using, when the aroma of flowers perfume the air, when charcoal smoke swirls from backyard barbecue pits, when T-shirts and shorts, or light skirts and trousers become the mode of dress and when Old Glory waves in the Texas breeze, then, neighbors, it's JULY when living is casual and when vacations are in full

No one would particularly care if a person bent on committing moral suicide would confine their activities to the task of self mastication. But they never stop short of dragging some good guy with them. These strollops always find a running mate too. Monday afternoon and evening in Stanton a sloppy display of "button-button-whose-got-the-button" was unfurled before the public eye without regard or respect for anything or anybody. And now is as good a time as any to say that an adult willing to use an innocent child to further plans to ply their disgraceful and down grading desires is too low to rate any recognition what-so-ever by the peoplemuch less an organization supposed to be based on cherished traditions and clean concepts.

radio announcer made a passionate appeal for A guys and gals wanting to spend \$15 a month to send across the waters to support a child of another continent. That's fine-just fine-but the same money spent as a monthly contribution to BOY'S TOWN, BOY'S RANCH, CAL FARLEY'S group or any worthy organization caring for boys and girls here in America is also a sufficient cause for good cheer. We have seen so many people with European blood coursing through their veins over here in the States who have made a mockery of morality and continued to live by the standards of relationship as practiced in "der old country" that it makes us sick. And sick is a good descriptive word for some of the mental misfits we are putting up with in this community right now.

HOW about this one? A certain Texas dentist has a stereophonic music rig that he lets his patients listen to as he works on their teeth. The patient wears a set of earphones, and adjusts the volume of the music on a control box as the dentist drills. The outfit is designed to relax the patient - and drown out the sound of the dental equipment. Wouldn't it be terrible if the musical selection happened to be that oldie, "Tiger Rag" some-

MEXICO CITY officials are going to put a plan into operation to end "professional voting" on election days. It is supposed to stop voters from going from precinct to precinct for the purpose of voting more than one time. Each voter will be marked with indelible ink as he casts his vote. The ink, made by chemists of the BANK OF MEXICO, say that tests show it can't be washed off for four days. Perhaps the election officials in Jim Wells and Duval Counties might want to investigate this miracle ink.

HAVE you heard this one? A little boy asked his dad "what are the holes in this board for?" "They're knotholes," replied the dad. Said the lad: "If they are not holes, then what are they?"
