Mr. and Mrs. Bill Neill and children, Larry and Jamie will return to their home this week after spending several days visiting their mother and grandmother, Mrs. Flora Morris and with other friends in

One of our employees, Howard Jenkins, is planning a trip to Fort Worth over the week end. He has promised to stop by Weatherford on his way back home and pick up some watermelons for your writer. Those Weatherford melons are indeed tasty ones. That area also has

a reputation for fine fruit.

We mentioned the variety of fruit trees growing in the back space of the Jim Eiland residence the other day in this column. We also visited the cultivation project in the rear area of Charlie Eckhart with Jim but the Eckharts were not at home. We recall one tall cherry tree up there along with some other interesting fruit and vegetable bearing specimens. If we can find time - and are invited - we are going back up to Charlie's house and take a better look around.

More than 500 well wishers. friends, patrons, and just plain interested people visited the Cap Rock | 4-H Club boys and girls are expectproperties here Sunday afternoon ed to attend the second annal 4-H High School cheerleaders. when the Wes-Tex and Cap Rock Conservation Laboratory Thursday Coops observed Open House. Woodward Rites **Held Sunday** In Lamesa

Martin County residents were in Lamesa Sunday afternoon to attend funeral services for Curtis Woodward of Lamesa

Mr. Woodward, who was a brother of Mrs. Edmund Morrow of Stanton, and A. C. Woodward of Tarzan, died Friday in Lamesa.

Services were at the Midway Baptist Church, near Lemesa. He was a long-time resident of the Midway community and had moved to Lamesa last year.

Survivors include the widow; one daughter, Mrs. J. C. Flowers of Lamesa: one son, Richard Woodward of Lamesa: three brothers. W. L. Woodward of Alva, Oklahoma A. C. Woodward of Tarzan, Doyle Woodward of Dallas; two sisters, Mrs. Glady Bay of Santa Anna, and Mrs. Edmund Morrow of Stanton; and four grandchildren.

Attending from Martin County were Mr. and Mrs. Edmund Morrow, A. C. Woodward, John Wood ward, Mr. and Mrs. James Biggs, Mr. and Mrs. Sam Wilkinson, and Mr. and Mrs. Philip White.

Mrs. Arthur Graves and Billy have been visiting in Rayville, La., with Mrs. Graves son-in-law and daughter, Mr. and Mrs. Wayne Presley and new son. They left Saturday July 15 and returned home Wednesday, July 19.

Mrs. Bessie Chapman is visiting with her son-in-law and daughter Mr. and Mrs. James Eiland and

Martin County Home Demonstration Clubs have been furnishing Members of the clubs have been baking the cookies, and then taking them to the hospital each Wednesday. About 900 cookies are taken Payne, president; Frances Graves,

Morning and Stanton home demon- sor stration clubs on July 5 and July 19. On July 12 and July 26 members of the Lakeview, Tarzan, Valley View and Flower Grove clubs took cookies to the hospital.

The project is sponsored by the Martin County Home Demonstration Council, and for the past several years the clubs have been furnishng cookies for patients during July.

Sen. Smith Gets Honorary Post

Preston Smith, Stanton's state senator from the 28th Senatorial District, will be governor for a day on August 4.

There is a possibility that a delegation from Martin County, along with groups from other counties in the senator's district will go to Aus-

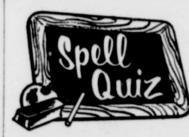

tin for the day. Smith became the third man in line for the Texas governorship when he was named president protem of the Senate. The governor and lieutenant governor plan to be absent from the state August 4 and by tradition places the president pro

tem in the honorary post.

The senator now resides in Lubbock. He is a native of Williamson County and was the seventh child in a family of 13. He moved to West Texas in 1923.

The 28th District included Dawson, Gaines, Martin, Andrews, Lynn, Ann Henson, Robert Quitamaco, Terry, Hockley, Crosby, Yoakum Cochran and Lubbock counties.

It is also a good idea to keep life on the upper part of the tree have ity. Therefore, two vaccinations are eats. On the other hand, some dairymen preservers handy, and to insist that turned color and begun to fall, but

available history noted its presence in birds.

The disease has been widespread able to close its mouth or has diffiswimming time. This is especially ed States for several years, but this occur, it is usually due to the dip-

theritic form. Fowl pox is transmitted by direct and indirect contact, Dr. Carroll continues. It can live in the dried scabs for months and for this reason, can survive on a premise for long periods of time. The primary means of transmission, however, is the mosquito, and the severity of the disease is directly proportional to the mosquito population.

Since the disease is transmitted by mosquitoes, it cannot be prevented by ordinary management and sanitation practices. For this reason, the best prevention is vaccina tion. There are two types of vaccine available - fowl pox and pigeon pox. The pigeon pox produces a low level of immunity of short duration, but the fowl pox vaccine is a virullent vaccine produced in chick embryoe and will produce symptoms

BIG ELECTRIC "TIE-LINE" TO BE POWER- FULL PARTNER IN PROGRESS

Customers of the Texas Electric Service Company power system will benefit by construction of a strong electric power "tie-line", which will extend from the Permian Basin area through the Fort Worth-Dallas area and to Houston. This will bring about one of the nation's largest and strongest reservoirs of power.

The new "tie-line" — a 345,000-volt transmission line nearly 800 miles long and six times greater in electric power capacity than any other line now operating in the Southwest-is to tie together more firmly the power systems of Texas Electric Service Company, Houston Lighting and Power Company, Dallas Power and Light Company, and Texas Power and Light Company.

Added efficiency and economy of operation will be possible for each of the companies when the line is completed, and it will mean that, in the event of an emergency in any of the four utility systems, much larger blocks of power will be available from the other areas than through present interconnections.

Texas Electric now is building its part of the line from Fort Worth to the Permian Basin area in West Texas. It will be part of the company's integrated power system and operated initially at 188,000 volts.

The section of the "tie-line" from Houston to the Fort Worth-Dallas area will be started in 1962 and will be pushed to early completion.

This new transmission "tie-line" is another example of planning and building ahead to assure plenty of dependable, low-cost electric power for continued progress of the more than 100 cities, towns and rural communities served by the power system of Texas Electric in The Opportunity Frontier of Texas.

The Court reserves the right to accept or refuse any and all bids submitted.

Done by order of the Commissioners Court of Martin County, Texas.

> JIM McCOY, Martin County Judge.

A MAN'S OWN CONSCIENCE IS HIS SOLE TRIBUNAL, AND HE SHOULD CARE NO MORE FOR THAT PHANTOM "OPINION" THAN HE SHOULD FEAR MEETING A GHOST IF HE CROSSED THE CHURCHYARD AT DARK.

A STRONAUT VIRGIL GRISSOM also failed to make a history staying statement when be climbed from the capsule Friday morning. His predessor, ALLEN SHEPARD said nothing startling after he made the first space journey and after being picked out of the drink either. We are happy for these fine Americans and their families but we sort of expected some real bell ringing statements from the men. GRISSOM'S first sentence was: "Someone hand me a handkerchief-I want to get this salt water out of my head." Here are samples of the statements we had in mind-all made by great men of the past. "Fire GRIDLEY, when you see the whites of their eyes." "LAFAYETTE we are here." "I shall return." "Give me liberty or give me death." "I regret that I have but one life to give to my country." "All we have to fear is fear itself." "It's not what the country can do for you but what you can do for the country."

COMPLIMENTS continue to pour in on the contents of this column. MRS. EDDYE BUTLER, a fine woman if there ever was one, said she enjoyed the brief editorials contained here. MRS. BUTLER is a member of the METHODIST CHURCH and has recently purchased and moved into the former home of MRS. CARL CLARDY on School Street in Stanton.

TOURIST planning a trip to Old Mexico will be glad to learn that the most traveled highways in that country are patrolled daily by mechanics. They travel in green Jeeps equipped with two-way radio and repair devices. Their help is free except for the actual cost of gasoline, oil, repairs or spare parts.

ATELY we've heard remarks that make us know that there are many who are superstitious. Some of the old-time colored cooks in North Texas used to warn that it was bad luck to open an umbrella in the house. Another old superstition related to black cats; supposed to turn around and go around a block before proceeding forward after a black cat crossed the road. It is supposed to be "bad luck" to start a task on Friday and many do not dare put their hats on the bed. Never take a rake through the house as its a sign of tragedy will befall the household-while others just know its bad luck to walk under a ladder. Some superstitious people think it will bring good luck to "knock on wood." In our football playing days, we knew coaches who wore the same suit as long as the team was winning and lots of players used to go through regular rituals before the game. We have known advertising salesmen who refused to stop selling past a deadline if "they were hot." We might wind up this brief discussion on superstition by mentioning here that it can be bad luck to chase another woman's husband if she owns a gun and catches you. In Texas, it has happened!

MRS. CLAYTON BURNAM telephoned to tell us that she thought the newspaper was doing a jamup good job of printing the news and she especially liked the way the one column photograph of E. DON LAIRD turned out on page one in the last issue. MRS. BURNAM, member of one of the county's first families, including COUNTY JUDGE JIM McCOY, et al, is also a long-time friend of MRS. GEORGE SHELBURNE, grandmother of the young Camp Salem CHAPLAIN LAIRD referred to

SOMETIMES, we feel like some of the investigators for various state and national agencies should be investigated. That reminds us-one of the boys engaged in this kind of work is already being investigatedparticularly in regard to his West Texas activities-both professional and social.

TALKED with H. M. McREYNOLDS Wednesday morning and he advised us that the annual CHAMBER OF COMMERCE Ag tour would be held on August 15. Farmers and merchants will get together for the day of activity and observation of county crops and lands. The group will either eat at noon at Grady or Flower Grove. A definite place will be announced next week.

THE staff received a very nice letter from MYRTLE TIPTON, Hollister, California, this week. She wrote: "We enjoy the paper very much. It has been a little over 32 years since I have lived in Martin County but I still see names that are familiar. My mother, MRS. ANNIE ODELL and my brother, LEROY, still live in Martin County."

BYRON ALEXANDER, manager for SOUTHWEST-ERN BELL TELEPHONE COMPANY, was a pleasant office caller last week. The former Dallas man, now of Big Spring, briefed us up on the BELL people's plan for a communications system in outer space. After we have time to read some of the information BYRON left with us, perhaps an editorial stressing private enterprise, will be in order for the consideration of our readers.
