\_\_v\_\_ Coats Bentley was on our visiting list Monday morning. He stays busy and spent most of the time galloping around his furniture store but we did manage to pin him down long enough to find out how many books of stamps it took to buy a certain item displayed in his store. If we mention the item here it might be gone when we get three books of today's "popular currency" together. This stamp business sure has people borrowing, trading, scheming and swapping. Folks that never traded anything in their lives are giving blues for greens, greens for orange, orange for blues, et al. We have been trying to trade a Spanish dagger for a couple of books of a certain color - but since the Legislature passed a law making it illegal due to the blade length we haven't had a bite.

# How to Keep a Free Press FREE

SELDOM does Freedom of the Press disappear in one annihilating blow.

In countries where the Press has been chained, there was first a period when it failed to realize and resist the beginnings of its end - the first encroachments on its freedom. There were powerful interests which wanted certain facts "kept out of the newspapers." There was pressure here and press-

ure there to have the truth withheld. Before the Press of any nation succumbs to tyranny, there always has been a period of failure to speak out.

Here in America there is only the limitation of national security - the necessity to protect and preserve confidential military and scientific information - which can be accepted by a Press that is determined to stay free.

America's newspapers have made, and will continue to make, a conscientious effort to protect that security - at the same time keeping the people informed as fully as possible on all matters concerning their welfare. So long as American newspapers pursue that policy fearlessly, our Press, our people and our country shall remain free of tyranny.

LET THE SUN SHINE ON YOU: IT WILL BURN OUT THE RUBBISH.

TITITH war talk in the air I seem to remember something about the FREEDOM RIDERS. Wonder where they are now? Wonder if they are ready to fight and die for freedom? It's a two-way street - this life we are living in this most magnificant country and if one expects to enjoy the blessings-then surely-he must be ready to back up the flag on the battlefields of the universe. This life in these United States is not just a long holiday—a bus ride—a bait of catfish in a Jackson, Mississippi bus station cafe. Oh-no! There is a place called Berlin - another called Laos - and another called Cuba. AND WHEN THE BUS LEAVES FOR THESE PLACES WE WANT THE FREEDOM RIDERS ON IT.

TN this issue of the paper an advertisement appears for LUCKY STRIKE CIGARETTES, the second of a series scheduled by the AMERICAN TOBACCO COM-PANY through their advertising agency, BATTEN, BAR-TON, DURSTINE & OSBORN, INC., of New York City. In a letter to THE STANTON REPORTER, the agency explains the new campaign: "You will be happy to learn that the American Tobacco Company will launch a substantial advertising campaign in your newspaper. This is newsworthy in that it marks the first country weekly newspaper campaign to be run by the American Tobacco company by Lucky Strike in many, many years." Launching of the Lucky Strike campaign in community newspapers emphasizes the growing importance of such publications.

MONDAY will be DOLLAR DAY. It will be a good time to do a lot of Back-To-School shopping in Martin County. Next week, we plan to run some Back-To-School specials from various merchants. If you are doing business in the county-and miss the dollar day issue—then get your ad copy ready for the big annual event. Our advertising department is loaded with appropriate pictures of all kinds of merchandise you'll want to be unfurling for the parents and students consideration. Let's strive to keep the business at home this year. If the merchants will advertise in the local newspaper we guarantee results. Try it and see for yourself.

TN less than 30 days, school bells, gongs, or maybe sirens, will be calling the children back to books. A faculty meeting has been announced for August 23. Registration will be negotiated on Thursday and Friday, August 24 and 25. Serious business-class room work, will blast off on Monday, August 28. We used sirens in the opening sentence of this paragraph but more to clown some rather than to attempt to inject a serious signal here. We hope the day never comes when school children in America will be free to go and come only after the "all clear" sounds as it did in France and England during World War Two.

WE appreciated the fine letter appearing on page one of this issue of the newspaper. It is refreshing to know that we have many, many good women in the county who have consistently supported our editorial policies. We still think that there is hope for any person willing to take the road back. Church going, of course, is a good step. And if it takes a five gallon bucket of All or Duz to help wash some of the memories of a faded life off - it's worth it.

DICK STOLZENBACK, one of my neighbors, told me Tuesday morning that his wife, RUTH, had been hospitalized at MIDLAND MEMORIAL HOSPITAL. MRS. STOLZENBACK is a teacher in the Stanton Elementary School and her students, and other friends join your editor in wishing for her a swift recovery.

WE were advised this week of the illness of J. D. POE. He was admitted to DR. SANDER'S HOSPITAL in Big Spring the past week. J. D. has been a neighbor of our late editor, JIM KELLY, for a number of years. We trust his recovery will be rapid. He is a good man and has a fine family.

OUR sister-in-law, MRS. CARL ESTES, Longview, is on a doctor's prescribed vacation up in Provincetown, Cape Cod, Mass. She wrote us that she was recuperating nicely and was living in a place at the tip of Cape Cod, on the exact spot where the Pilgrims first landed on November 11, 1620. Her husband's birthday is on November 11, but none of the ESTES clan came over on the MAYFLOWER. Our ancestors washed up on a raft about thirty minutes after the Pilgrim's landed. \_\_\_\_LP\_

CONGRATULATIONS to JESS and PETE WOODY, The Stanton championship pistol team has been invited to participate, representing Texas, at the National Rifle Association annual shoot. MR. and MRS. HORACE BLOCKER are enroute to Germany to visit with MR. and MRS. CORKY BLOCKER and the lastest BLOCKER heir. They attended the ALL-STAR BASEBALL GAME played in Boston Monday afternoon. The game ended in a 1-1 tie and was cailed after nine innings of play because of rain. We have a hunch that fact disappointed HORACE. But he'll gather interest when he sees his new grandchild in Germany.
