

Safety Association Urges Careful Driving At All Times

Whether the perennial prognosticator has forecast good or bad weather in your area for the next six weeks now is no time to let up on safe driving habits, the Texas Safety Association advises.

"Even if the ground hog has predicted that 'spring is just around the corner,' Texas drivers shouldn't forget that the hazards of winter driving may be with us for some time," J. O. Musick, TSA General Manager said.

He explained the three great hazards of winter driving are poor visibility, inadequate traction and temperature change.

"What you can't see can get you killed," he warned. "Seeing danger soon enough, and being seen by other drivers in plenty of time to avoid a crash is basic to survival on the roadways in any weather, but especially during bad weather."

He urged drivers to keep windshields, back windows, outside rear-view mirrors and all lights clear of dirt, frost, mud, sleet and snow. "Even up to 'bluebonnet time' in Texas, there's a chance of sleet and snow," he said. "So, be prepared to pull off the roadway and use a snow brush and scraper if conditions are bad enough to block the view ahead."

Musick added that good windshield wipers can handle most conditions, but the rubber in the blades must be "alive," not "dead." "The arm pressure on the blades against the glass should be strong enough to clear without smear and without riding over snow. One ounce of arm pressure for each inch of blade length is recommended by most safety engineers."

To prevent fogging of windows, he advised motorists to keep air circulating through the car and to carry a clean cloth for cleaning the windshield and side windows.

"The smartest thing a driver can do on rain-slick or snow and ice covered roadways is to slow down and adjust driving to existing conditions," he said.

"No matter how good your tires or snow tires, you just don't have the same control as on dry pavement."

He warned driver to avoid sudden starts and stops and to make stops by properly "pumping" the brakes to maintain steering control.

Musick also urged motorists to pay close attention to temperature because it has a lot to do with accidents.

"Ice near the melting stage is much slippery than when kept 'dry' at lower temperatures," the safety director noted.

He reminded motorists that one of the first places a wet roadway freezes is on a bridge. Ice should be expected on sheltered portions of the roadway, under viaducts, at the foot of some hills because of thawing and draining, and on the inside of some curves.

"Motorists throughout the state also should be prepared for driving under foggy conditions for some weeks to come," he concluded.

Grassroots Opinion

Miles City, Mont., Daily Star: "Economists serving the Senate-Economic Committee have issued a report in which they recommend that the dollar be devalued. It isn't too likely to happen, because the present Administration like the Eisenhower Administration, has vowed not to devalue. Citizens had better hope that our Government keeps this pledge, because devaluation would mean an instantaneous loss of the purchasing power of all savings—including billions of dollars in Government bonds bought because of faith in the Government's fiscal honesty."

Chelan, Wash., Mirror: "The national problems would disappear if two-thirds of our people acted in the common good and for the general welfare."

The first permanent iron works was built in Massachusetts in 1645.

First Baptist Church Holds Annual Sweetheart Banquet

The First Baptist Church held their annual Sweetheart Banquet Thursday, February 14, in Fellowship Hall at the church. The banquet room was decorated in the traditional valentine colors — red and white. Red hearts with cupid in the center were placed on the tables, wall, and pinned to the curtains. Red and white crepe paper formed streamers hung from corner to corner of the ceiling, draping low in the center.
A "Heavenly Heart" centerpiece was placed on the piano. The centerpiece consisted of a red satin heart on a red base, with a large cupid to one side. It was lighted with pin flasher lights. The arrangement was covered completely with white angel hair.
The head table was decorated with a white tree limb with red hearts hanging from the bow. Large white cupid were placed on both sides of this limb. Individual white cupid and red candles were placed on the other tables.
Serving as master of ceremonies was W. H. Uhlman, pastor. Clinton Miller, vice president of the youth council, voiced the invocation. Welcome was given by Lynch Hightower, president of the youth council. Connie Gilliam gave the response.
Mr. Earl Jones, a layman from the Parkdale Baptist Church in Lubbock, presented the entertainment. He gave readings pertaining to sweethearts and valentines and sang songs. Mr. Jones also brought the message in the form of a chalk talk.
Judson Nowotny gave the benediction.
Mrs. J. C. Sale was in charge of the banquet. The ladies of the church formed the various committees.

Mrs. R. Boyce Honored With Shower Here

Mrs. Royce Boyce was honored with a pink and blue shower, Thursday, February 14, in the Delbert Franklin home.
The table was covered with a pink cloth overlaid with white lace. A stork dropping a baby in a cradle was placed in the center of the table.
The group played several games, including each guest telling Mrs. Boyce their favorite name for a boy and a girl.
Pink cookies and blue punch were served to 30 guests.
Mrs. Lois Badgett, Mrs. Kenneth Yates, and Mrs. Dewayne Thompson were hostesses for the occasion.

Training School Opened Feb. 18 At Baptist Church

The First Baptist Church of Stanton is host to a Group Training School which began Monday, February 18 and will continue through Friday night, February 22.
Churches participating in this school are Garden City, Courtney, Lenora, Tarzan, Knott, Lakeview, and Stanton.
Courses are being taught to all ages, from nursery age through adults. There are six books being offered to the adults for the selection of their choice, one to young people, two to Intermediates, two to Juniors, one to Primaries, Beginners, and Nursery.
Judson Nowotny, minister of music of the First Baptist Church, reported 254 enrolled the first night. Garden City was the only church to go over the goal set by the churches of one-fourth of the Sunday School enrollment. Garden City is leading in the contest being held among the churches.

Tarzan Church Meeting Held February 14

The ladies class at Tarzan Church of Christ met Thursday, February 14 for Bible study. The group was taught, "Studies in Matthew," by Carl Peltier, Jr., administrator at the church.
Those attending were Mrs. Homer Howard, Jr., Mrs. Bob Hazlewood, Mrs. Houston Woody, Mrs. Carl Peltier, Jr., and Mr. Peltier.

FHA Sponsors School Contest

The Future Homemakers of America of the Stanton High School sponsored a contest among the elementary classes to see which class could obtain the most stamps for "TUBFRIM." "Tubfrim" is the name of an organization that comes from the words Tuberculosis and FRIMerker, the Norwegian word for stamp.
This organization was formed to market cancelled stamps to collectors, and the profits from this were to go to fight tuberculosis among the children of Norway. "Tubfrim" was organized about 30 years ago.
The contest was won by Mrs. Harrell's fifth grade class.
Mr. Willis Page, grandfather of Mrs. Dale Fryar of Lenora, is a patient in a Big Spring hospital.

Xi Epsilon Group Met In Driggers Home

Xi Epsilon Delta chapter of Beta Sigma Phi met in the home of Mrs. Harold Driggers, Tuesday, February 12. Mrs. Bob Johnson presented the program on emergency calls — "Police and Fire," and the "History of Embalming."
The chapter voted to make contributions to the Exemplar Fund, the Loan Fund, and the Endowment Fund.
A nominating committee was appointed. Those serving on this committee are Mrs. Lois Powell, Mrs. J. N. Woody, Sr., and Mrs. Tull Ray Louder. This committee is to select the officers for the coming year.
Refreshments were served to Mrs. Henry Louder, Mrs. Tull Ray Louder, Mrs. Bob Johnson, Mrs. Floyd Walker, Mrs. Arthur Meixner, Mrs. J. N. Woody, Sr., Mrs. John Rouché, Mrs. Juil Reid, Mrs. Lois Powell, and the hostess, Mrs. Driggers.

Tarzan Church Meeting Held February 14

The women of the Stanton branch of the Reorganized Church of Jesus Christ of Latter Day Saints met Wednesday, February 13, at the church for an all day "work shop." The district leader, Mrs. Otis Baker, Jr., was in charge of the meeting. The lessons were on "Stewardship of Evangelism."
The study was opened with a hymn and a prayer, then the devotional was given by Mrs. L. Saunders, the women's leader for 1963.
Mrs. Otis Baker, Jr., gave the first lesson "We Prepare to Evangelize." Mrs. Carl Leonard, Jr., gave the second lesson, "Evangelism in the Home."
In the afternoon session, Mrs. Baker brought the first lesson, "Our Part in Church Evangelism." Mrs. Herbert Schuelke, Mrs. Marvin Standefer, Mrs. Tommy Hursh, and Mrs. Roy Koonce took part in this lesson.
The last lesson was led by Mrs. Carl Leonard, Jr., in round table discussion on "Our Part in Community Evangelism."
The following women were present: Mrs. L. Saunders, Mrs. Cecil Schuelke, Mrs. Herbert Schuelke, Mrs. Fred Church, Mrs. Carl Leonard, Jr., Mrs. Marvin Standefer, Mrs. Tommy Hursh, Mrs. M. L. Koonce, Mrs. Roy Koonce, Mrs. Douglas Church, Mrs. Steve Church, Mrs. Baker, Jr., and Mrs. Otis Baker, Sr., of Odessa.

Manager Musick Says Home Accident Rate Increasing

The Texas Safety Association today urged Texans to put safety "first" in the home to stop an apparent increase in fatalities and injuries from accidents.

"Preliminary accident reports for the past month show that home accidents are taking a high toll and that the public will have to become more safety conscious to stop this needless loss of lives," J. O. Musick, General Manager of TSA, said.

Reports indicate that approximately 200 persons died and another estimated 1,300 were injured in home accidents in January. Fires, falls and poisonings from gases and vapor accounted for the majority of the fatalities.

Musick pointed out that the first three months of the year are the most dangerous time around the home. Last year, the fatality toll for this period was 444 persons.

"But, this year, with the January fatality toll at approximately 200 persons, accidental deaths during the first three months of 1963 could be considerably higher," he explained.

Portable heaters, often used during extremely cold weather, should be placed well away from curtains, towel racks and bed clothing. Wet clothing should not be placed near or over a stove to dry.

All electrical equipment should be checked for frayed cords and other hazards, and wiring should not be overloaded by using too many appliances at the same time.

He advised senior citizens to use caution in walking and stepping and said handrails should be checked for security. Rubber mats in bath tubs and grip bars can prevent serious falls which often kill or permanently injure an older person.

In concluding, the safety director advised homeowners to check heaters for escaping gas and to make sure a window is open in the bedroom when sleeping—"whether you get your '40 winks' day or night."

Stanton Public School Menu

- For Week of March 1

In Our Time

CANS OF ROAST VEAL
LEFT IN THE ARCTIC BY AN EXPEDITION IN 1884 WERE FOUND A CENTURY LATER; THE VEAL WAS STILL TASTY AND WHOLESOME.

CANNED TIPS...
YOU CAN SAFELY STORE LEFTOVER CANNED FOODS IN THEIR CANS ON JARLS... THE INSIDE OF THE CONTAINER IS STERILE.

CANNED FOODS WILL KEEP FOR YEARS AS LONG AS THE CANS REMAIN SEALED. STORE THEM IN A DRY PLACE AWAY FROM HEAT. A PRODUCT STORED AT 70 DEGREES WILL KEEP ABOUT TWICE AS LONG AS ONE STORED AT 90 DEGREES.

CANNED FOODS NEED LITTLE CARE...
LIKE FAVORITE RED LINENS, CANNED FOODS STORED ON SHELVES SHOULD BE ROTATED... NEW PURCHASES TO THE REAR, EARLIER ONES UP FRONT FOR USE.

Official Highway Maps Of Texas Free For The Asking

The colorful 1963 edition of the official Highway Travel Map of Texas is ready for the asking.

Designed to show Texan and tourist alike how to discover the Lone Star State's vacation "fun-tier," the Texas Highway Department publication is free to the public. Copies may be obtained by writing the Texas Highway Department, Travel Division, Austin. It is also available at the 25 highway district offices and eight Tourist Bureaus operated by the department. County tax offices have special cards for ordering copies of the map.

Within the year, 750,000 or more of the free maps depicting Texas delights in vivid full-color photographs will find their way to glove compartments all over the United States — and the world.

Keyed to the swelling Texas tourist industry — up 14 per cent in visitor volume last year — the new travel map urges users to "Discover Texas — Today's Fun-tier." The map and its "fun-tier" theme are links in a promotional package of publications and other materials aimed at enhancing the image of Texas as a vacation paradise.

Purpose of the map is to stimulate travel in Texas by both Texans and visitors, and to make it easier for motorists to get from place to place. Scenic and cultural diversification of Texas is captured in a message by Governor John Connally urging prospective visitors to "visit our historical site, vacation playgrounds, inland lakes and Gulf Coast beaches—our mountains, plains and piney woods — our cities and towns. The Texas Highway Department will be happy to provide you with any information you may need for your visit."

Eighteen full-color photographs illustrate the Governor's description of Texas' varied vacationlands. Depicting activities ranging from big-lea-

OVER MARKET PROBLEM U. S.-French Relations 'Too Valuable' To Spoil

Since irony is something of a French preoccupation, it is no surprise there is a note of it in the current eyeball to eyeball posture of the U. S. and France.

While Gallic obstruction of British Common Market membership was a shot across the U. S. bow, France is still one of our best financial friends in the world, a rare bright spot in an otherwise cloudy U. S. international economic picture.

And two top government officials who point this out, quietly hope some Congressional grumbling about cutting off aid to France isn't serious. Advocates of not rocking the boat too violently, they choose to be optimistic about the latest signs the Western European problem will work itself out.

Both a State Department expert on European economics and a Treasury Department international finance aide point out the excellent and unusual financial relations this country currently has with France. A disruption might be even more serious than the disagreement over the Western Alliance, they intimate.

The situation is unusual in that it finds the U. S. on the receiving end of financial aid, in a manner of speaking, for probably the first time this century.

In the years from 1946 through 1962 when this nation was engaged in what has been called the greatest collective act of charity in the history of the world — dispensing foreign aid—France received from the U. S. the enormous sum of \$9.4 billion which was more than any

Amen, Senator Dodd

Democratic Senator Thomas J. Dodd, Connecticut, has introduced a bill in Congress to increase federal control over dangerous drugs. Senator Dodd serves as chairman of the senate juvenile delinquency sub-committee.

Citing a nation-wide increase in the use of these drugs and their connection with crimes of violence, Senator Dodd's bill provides strengthening of the food, drug, and cosmetic act.

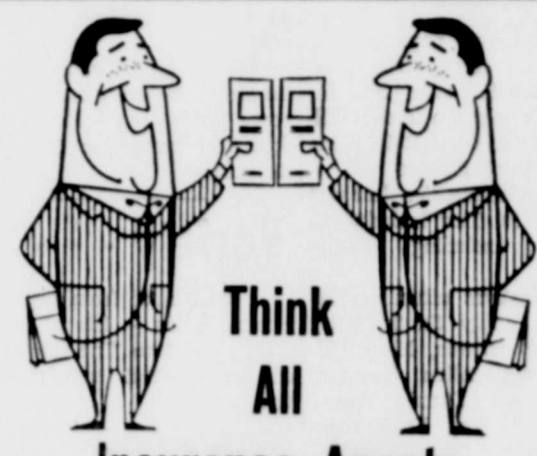

"Often termed the dangerous drugs, the amphetamine and barbiturate families of drugs have become a No. 1 law enforcement problem in the nation," the senator declared.

Dodd said the legislation was the result of 2 years of hearings by his sub-committee in which police officials revealed that the use of so-called pep-pills and goof-balls is increasing at a fantastic rate.

"The use of these drugs is replacing, in many cases, the use of such narcotics as opium, heroin, and cocaine," Dodd said.

"The sale of these drugs without a prescription is already illegal," Dodd said, "but no effective and organized attack on these illegal sales can be made unless law enforcement officials know exactly where and in what quantities these drugs are being produced and to whom they are being shipped for resale."

- The legislation proposed by Dodd would:
1. Require manufacturers to register their names with the government.
 2. Require makers and distributors to keep shipping records of amounts handled and make these records available to the drug inspectors.
 3. Provide drug inspectors authority to inspect all facilities relevant to the disposal of drugs.

Think All Insurance Agents Are Alike?

Don't kid yourself . . .

They are no more alike in their services than all doctors, architects or engineers in theirs. As in every profession, some can serve you better because of their training, contacts, versatility.

Remember this about insurance: your independent agent is the real "pro" in his field.

As an independent agency, we serve you first. Consult us with confidence for your every insurance need.

que baseball to bass fishing, the photographic cross section and easy-to-read map comprise a useful showpiece of the many-splendored charms of Texas.

The 28x36-inch map shows that highways have been growing with Texas and contributing to the growth of its tourist industry. Multi-lane-divided highway miles now completed and indicated on the new map total 2,808 miles.

Nearly 50,000 miles of highways are shown on the current map. Some 22,000 miles of Farm and Ranch to Market roads are shown and all interstates, U. S. and State highways are indicated. Located on the new map are 354 Roadside Safety Rest Areas.

The 1963 map lists 1,837 towns and cities. Major routes in the state's 12 largest cities (over 100,000 population) are shown in inset maps. Cities covered: Amarillo, Austin, Beaumont, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, Lubbock, San Antonio, Waco, and Wichita Falls. Elevations and population symbols are also given for cities.

FDR Jr., IRS May Fight Over Taxes

Internal Revenue Service is on the verge of a \$12,647 court battle with Franklin D. Roosevelt, Jr.

Roosevelt recently was appointed Under Secretary of Commerce by President Kennedy. Several Republican Senators have said they will oppose his confirmation.

Showdown in the tax dispute is set for April 29 in the U. S. Tax Court in New York.

At issue is \$18,615.21 which Roosevelt received in a settlement from the producer of "Sunrise at Campobello." It was a Broadway play about the late President Franklin D. Roosevelt and his family, including F. D. Roosevelt, Jr.

IRS said the money was taxable income.

Roosevelt says it is not.

The dispute dates back to the 1958 tax return of Roosevelt and his wife Suzanne.

The \$12,647 figure is what Roosevelt would have to pay if he loses the court hassle.

Roosevelt claims the money was paid to him by Dore Schary, author and producer of "Sunrise at Campobello," to satisfy claims of privacy invasion, libel and slander.

As a result, it is not taxable income, Roosevelt contends.

IRS denies this, contending no "libel" or "slander" was involved in payment to Roosevelt. Roosevelt was a character in the play, depicted as a young boy.

IRS' total deficiency claim against Roosevelt was \$38,736.61.

Of this \$26,089.61 was for taxes on Roosevelt's income from his Washington automobile agency. He did not dispute this claim.

In the view of Chairman Oren Harris of the House Interstate and Foreign Commerce Committee, Congress must come to grips with the transportation industry's problems and enact some form of legislation. Pointing to the downward trends in total volume of traffic handled by regulated common carriers and the resultant deterioration of their financial condition, particularly of the railroads, he said: "This disclosure of past performance and estimates for the future are most disturbing because they indicate that the very existence of common carriers under private ownership is being threatened."

Major Crime In State Continues Upward Climb

Major crime in Texas continued its upward spiral in 1962, outstripping the population increase as an average of one offense was committed every two and one-half minutes.

Col. Homer Garrison, Jr., director of the Department of Public Safety, reported that crime jumped 6.4 per cent in 1962 over 1961, with the crime of auto theft showing the largest increase of 10.5 per cent.

Garrison said the 1962 figures represent an overall increase in crime in Texas of about 71 per cent since 1955.

"The crime rate per 100,000 population increased from 2,122.0 in 1961 to 2,261.5 in 1962, confirming once again the alarming trend that set in after World War II," he said.

The official 1962 crime report shows that murder was down 8.5 per cent, rape decreased 8.2 per cent, robbery dropped 2.1 per cent, while burglary increased 4.9 per cent, aggravated assault 6.4 per cent, theft 7.4 per cent, and auto theft 10.5 per cent.

In urban areas, there was an increase in major crime of 8.5 per cent, offset by a 3.9 per cent decline in rural areas.

By population groups, the greatest increase was 14.7 per cent in cities between 50,000 and 100,000, while the largest decrease was 15.5 per cent in counties with under five rural population per square mile.

Garrison said there was an 11.8

per cent increase in 1966, a 9.2 per cent increase in 1967, a 9.3 per cent increase in 1968, a 3.9 per cent increase in 1969, a 13.1 per cent increase in 1960, and a 2.2 per cent increase in 1961.

"The 1962 figures, according to our statistical services section, mean that on the average, there was one major crime every 2½ minutes, one murder every 9 hours, one rape every 7½ hours, one robbery every 3 hours, one burglary every 9½ minutes, one aggravated assault every 40½ minutes one theft every 4 minutes, and one auto theft every 32 minutes," Garrison said.

"Overall, there was an estimated 216,650 offenses in 1962, which compares with only 126,791 in 1955."

It is estimated that the sale of chemicals and related products will increase six per cent this year over 1962 for a total of about \$34.5 billion.

THE DEPENDABLES BUILT BY DODGE!

GO FOR THE BIG, STRONG, SILENT TYPE?

TRY THIS ONE

Most people think of Dodge as a medium-price car. Because it has been for many years. Because it's big. Almost 18 ft. long. But in spite of its bigness and tradition, the 1963 Dodge is a low-price automobile. This year, for instance, if you can afford a Chevy, you can afford a Dodge.

Understand, we are not talking about a special model. There are 24 models, in 3 series, all in the low-price field, all with a five-year, 50,000-mile warranty.*

*Your Dodge has a 3-year, 50,000-mile warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair without charge for 100,000 miles of use for five years or 50,000 miles, whichever comes first, on the engine block, head and internal parts, including main shaft, torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential, and rear wheel bearings—provided the vehicle has been serviced at authorized intervals according to the Dodge Certified Car Care schedule.

Tips for OUTDOORSMEN

by Vern Sanford

Emergency Torch

Here's one to keep in mind if you ever need a hot, pin-pointed blowtorch flame and the nearest blowtorch is back in the shop. Fire up your pressure lantern after first removing mantle. Flame burns in steady stream good for light soldering, starting fires, making jury repairs. Replace with new mantle and the lantern is a lantern again.

Two Rod Holders

Both of these will do the job of keeping your rod out of the bilge, out from under your feet, and out of wild snarls that come when a rocking boat scrambles several rods together. Buy several plastic-covered coat hangers at your dry goods store. Cut to proper length and shape in S curve. One loop of S goes over boat's side, the other holds individual rods. Another suggestion is to cut good live rubber or plastic hose in four-inch sections. Slit one side lengthwise. Now screw inner side to boat's side. Push rod through slit. Hose's shape holds rod securely and safely.

Toothbrush Stringer

An old toothbrush, cut to a dull

point on brush end and a one-eighth-inch nylon line spliced into the hole at other . . . makes a first rate fish stringer. Small hardwood peg, drilled and knotted in place makes a neat end stopper.

Home-Made Pocket Fire

Try this trick if making quick small fires is your problem. Roll newspapers loosely until about two and a half inches in diameter. Ties with a string every three inches. Now cut with saw or knife between strings. Soak the small individual rolls in melted paraffin. Cooled they will keep easily and well, start quickly and make enough fire for a two-man breakfast.

Clay Sinkers Molds

Start the new year off right with enough sinkers. And make these yourself using regular children's modeling clay for an easy-to-form mold. Just push the size sinkers you want to make into the clay. Shape remains. Fill with lead. Old hooks with shanks bent into a wiggle can be used as inexpensive eyes.

Camp Hat Rack

A bush trimmed down to its few

essential branches makes a handy hat, towel, clothes, and what-have-you rack good for bric-a-brac. Cut off and sharpen bottom and jam into earth where you wish, as many as you wish.

Kar Kooler

To keep small game fresh on long drives, store them in the "well" between radiator and grill on your car. Flow of air cools them. Keep an eye on car temperatures, though, if you've had a spectacular day and air flow is restricted.

Dog Trunk Carry

Usual way to haul dogs long distance in car trunks, is to cut through the trunk somewhere. Lack of ventilation and danger of carbon monoxide gas can make dogs sick or even kill them. Here comes an easy way to ventilate the area without cutting through the metal of the car. Just cut a hole in the partition between the rear seat and rear window. For appearance's sake mount a low-cost radio speaker cover in space. Your dogs will breathe the same air you do.

Low-Priced Anchor

Required here is a well-shaped hubcap. Shaped, that is, like the top is a mushroom anchor . . . because that's what you can make it into. Drill center of cap, then thread with one-quarter-inch rod. Bend this into eye at one end. Fasten to cap with bolts on either side at other end. Be sure to peen threads so the holding nuts can't come off. If more weight is required, fill cap with lead.

Clean-Smelling Hands

And when you clean all those MAD CATFISH, take the smell off your hands by washing them with soap, then with vinegar (salt is almost as good), then with soap again. Same de-smelling technique works with other objectionable odors as well.

(Try for a \$50 prize. Send your tip to A. A. Contest, Sports Affied, 959 8th Ave., New York 19, N. Y.)

Mr. and Mrs. T. B. Stewart, formerly of Stanton, have moved back to their home here. The Stewart's have lived in Midland the past number of years. Mr. Stewart will be employed by the public school system.

Highlights and Sidelights FROM Your State CAPITOL

According to a description given the House Appropriations Committee relative to the governor's mansion, it's in bad shape. Howard Rose, executive assistant to Gov. John Connally, says:

"On the north side, the mansion is settling so much, there is a gap of several inches between the floor and the bottom of the front door." He added, "There are cracks in the wall and ceiling; a good deal of furniture needs re-stuffing; and the stove won't work right four days in a row."

"Also," says Rose, "we have only one coffee table in the house. If you don't want to hold your coffee cup, you either put it on the floor or balance it on your knee. In the Green Room, there are no pictures. And we don't have eight complete sets of silver."

This prompted Appropriation Committee Chairman Billy Healy of Paducah to comment "I know we've spent between \$100,000 and \$125,000 on the mansion in the last six years."

Governor Connally has not requested any money for major repairs. He is asking for \$32,572 for each of the next two years to operate the mansion, including \$5,000 for utilities; \$1,500 for telephone expenses; and \$2,200 for "other supplies."

DELEGATIONS ORGANIZE — Texas' two largest delegations in the 86th Legislature have organized for the purpose of working closely together "for better representation" of their regions.

An 80-member East Texas delegation elected Rep. John Allen of Longview as chairman.

About 39 West Texas legislators chose Rep. Richard C. Slack of Pecos as their leader.

COURT SHUFFLE PROPOSED — Rep. Henry Stollenwerk, young attorney from Dallas, appears to be the most active of the seven Republican members of the House.

He is an aggressive participant in the five committees he's assigned to, and has co-sponsored several bills by Democrats. Stollenwerk feels he's been able to take an active part without defecting from the Republican political philosophy to which he adheres.

After Governor Connally chided Republican legislators for "obstructionism," Stollenwerk said, "The boys poke with me about what the governor said, and I just joke back

from liability damage suits filed by injured sportsmen.

"The hunter pays the farmer to go on his land," Rep. W. H. Miller of Houston remarked. "That puts the farmer in business. Why not exempt the theater owner from damage suits filed by patrons who slip on popcorn sacks?"

After several other similar remarks, Dungan allowed that the wording of the bill might be improved. But he insisted that such a law would encourage more farmers and ranchers to open their lands to sportsmen.

DEFICIT DOWN — Deficit in the State General Revenue Fund was reduced in some two weeks for more than \$6,000,000 to \$35,401,125, according to a report by State Treasurer Jesse James.

Sharp drop was due to quarterly payments on the state's two per cent sales tax.

CRIME SPIRALS UPWARD — Texas' increase in major crimes during 1962 outstripped the population increase, according to Col. Homer Garrison Jr., director of the Department of Public Safety.

Colonel Garrison said an offense was committed on the average of one every two and one-half minutes last year. Crime jumped 6.6 per cent over the 1961 total.

Largest increase by population groups was 14.7 per cent in cities between 50,000 and 100,000. Largest decrease was 15.5 per cent in counties with less than five people per square rural mile.

APPOINTMENTS — Will bond of Hillsboro was reappointed by Governor Connally to a six-year term on the board of the State Department of Public Welfare. Bond's term was thus extended to January 20, 1968.

Hunter McLean of Fort Worth, newly-appointed member of the State Board of Insurance, was sworn in by Associate Justice Frank P. Culver Jr. of the State Supreme Court in Senate chamber ceremonies. McLean succeeds Dr. Joseph F. Trospir of Dallas whose term ended on January 31.

PENSIONS PROPOSED — A bill to provide retirement pension ranging from \$100 to \$300 a month for elected state officials has been introduced in the House.

Reps. George T. Hinson of Mineola and Joe Chapman of Sulphur Springs are the authors.

Hinson said their bill would pension the governor, lieutenant governor, state treasurer, state comptroller, land commissioner, agriculture commissioner, attorney general and members of the Railroad Commission.

REVENUE NOT ENOUGH — Senate finance committee is finding that the state does not have enough revenue in sight to "meet reasonable requests" of state institutions and agencies.

Sen. George Moffet of Chillicothe, chairman of the subcommittee hearing budget request, told the Senate, "We can't add a lot more items without having a new tax bill."

WRATH OF LADIES — Sen. Martin Dies of Lufkin says he is misunderstood by the ladies.

He voted against the "equal legal rights" amendment passed by the Senate.

"I knew I was going to catch it from the women," Dies said. "I wish they could see that I'm not against women's rights."

Dies' quarrel is with the constitutional revision route taken by a Senate majority. He believes statutes operating against women in the man-

agement and control of property and other matters should be repealed selectively, without disturbing laws that give women needed protection.

TOURISM PUSHED — Texas business leaders are urging the Legislature to invest State money in tourism in order to get back millions in new revenue.

They estimate a return of \$7,500,000 in direct taxes for an initial outlay of \$250,000. That is the sum proposed for a new Texas Tourist Development Agency.

GORVERNOR HOSPITALIZED — Governor Connally entered St. David's Hospital Sunday for a hernia operation. He will be away from his office for at least three weeks. However, he plans to conduct official business by telephone from the Governor's Mansion within three or four days after the operation.

PLAUDITS FOR SPEAKER — House Speaker Byron Tunnell has drawn plaudits from Junior Chamber of Commerce officials.

In a brief ceremony in the Capitol, he was awarded life membership in the state, national and local organization.

Tunnell was active for 10 years in the Jaycees. He commended public service to all young people.

CARE FOR NEEDY — Rep. Will L. Smith of Beaumont has introduced a bill to provide medical care for the needy, totally and permanently disabled persons not covered by the current program.

Smith says nearly 8,000 persons now benefit from the state needy disabled program.

LOAN FUND URGED — A state bond issue of \$200,000,000 has been recommended by the Senate Constitutional Amendments Committee.

Purpose is to create a self-financing industrial development loan fund. Sen. Martin Dies Jr. of Lufkin, sponsor of the amendment, says it is "a must" to enable the state to induce new industries to come to Texas and existing ones to expand.

FOR PRESERVATION — Reps. Stanley Boyesen of Yoakum and John E. Blaine of El Paso have introduced a series of bills authorizing the state, cities and counties to select and protect historic, archaeological and paleontological sites.

One bill would permit local taxes to be spent for the purpose. Two other prescribe fines for destroying or defacing places marked for preservation.

On the state level, the Historical Survey Committee would advise the State Building Commission which structures and sites should be preserved.

Mrs. Floyd E. Ford of Houston, and Mrs. Bess Henderson of Longview, is visiting in the home of Mr. and Mrs. Grady Cross. Mrs. Ford and Mrs. Tensoren are sister of Mrs. Cross.
