Bait And Hook

There is a lesson to be learned from the President's package of civil-rights proposals that has nothing to do with the racial question. It has to do with federal aid.
For years, battles have raged in a hundred fields over whether it is a good idea to take federal aid. Opponents of the aid have argued that federal aid means federal control. Those who favor the aid say such suspicions are nonsense. The money is a gift, they say, and the federal government will never use it to coerce local governments.

The great American holiday—the July 4th weekend — is almost here again.
For millions of American families it will be a four-day holiday this year, and for almost every family the long holiday weekend will bring at least one family picnic.

The July 4th picnic is as traditional in America as the hot dog—which often is a main staple of the picnic lunch. Even the flies and the ants have a big time at picnics.

But now and then picnics end in tragedy — the tragedy of food poisoning. Most foods spoil quickly in hot weather and away from refrigeration. If there are a few staphylococci bacteria present, they need only a few hours of time and a warm temperature to grow rapidly. Some foods can become poisoned in as little as five or six hours on a hot day.

There are some easy and simple ways to avoid food poisoning on a picnic. One valuable item is a good portable icebox. Chill the foods thoroughly in the refrigerator at home. Use plenty of ice. Make sure the lid is tight. This will keep your perishables fresh.

Take along the sandwich ingredients in the original wrappings and containers and make up your picnic lunch on the spot, just before meal-

Bible Comment— Paul Spent Months In Corinth Helping Church

Athens and Corinth were the two outstanding cities of ancient Greece. Athens had a background of a long history of culture and in Paul's day it was the university city of the Roman world. Corinth, which aspired to rival Athens, was the city of commerce. It was noted more for the luxurious living of its inhabitants rather than for its culture.

It was in Corinth that Paul spent one of his longest visits. It lasted 18 months and was his first to the city.

Apparently the church at Corinth was composed mostly of Gentile converts, although they adhered to the Christian way a few noted Jews. There was Crispus, the ruler of the synagogue, and Aquilla and Priscilla with whom Paul lived and worked.

As the Corinthian Church grew in numbers and dissensions appeared, Paul found it necessary to rebuke those who were fostering the feelings of division. Some of the finest chapters in his Epistles deal with the nature of Christian unity.

Philosopher Says Unrest In The Country Running Far Deeper Than He Realized

Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw reports on a new phase of unrest in the country, his letter this week reveals.)

I knew there was unrest in all sections of the nation but I didn't know how deep and how far it had gone until I read a small item in a newspaper last night which a neighbor had wrapped some vegetables in he'd brought me, a favor or I'll return if anything ever volun- teers to grow in my garden. You can't tell, something might come up on its own.

According to it, a judge in some state, I forget which, fined a lawyer \$100 for being 15 minutes late to court.

This is revolutionary. It strikes at the heart of the whole system of jurisprudence. Everything has exploded this summer.

I had thought that if there was any right imbedded in the American system which was completely beyond challenge and incapable of ever being changed, it was the right of a lawyer to never be ready when court opens.

I had thought that the Constitution itself set forth the fundamental principle of law that the more jurors and the more witnesses called on a given case and the more time the lawyers had to prepare, the more likely some lawyer is to argue he's not quite ready and the case should be held over till the next term of court or till next Monday at least or

Independence DAY

WE shall best honor our forefathers and days of old by signing our own declaration of independence from all those elements of selfishness and sordidness that lead to indifference as to the country's welfare and to all-absorbing desires for mere personal ease or acquisition.

—PRINCETON PRESS

ON the very eve of our Independence Day celebration the American people received an unwanted announcement of another spy ring being broken on American soil at the United Nations. FBI agents arrested two married couples, including a Russian diplomat—on charges of conspiring with Soviet intelligence to supply the Kremlin with U. S. military secrets over the last six years. They had worked in this country at the United Nations but were actually described by the FBI as being officers of the GRU, Soviet military intelligence. How long—how long—how long must we put up with this band of international beggars, business meddlers and nation underminers? If we ever read or hear again where any members of the Texas delegation to Congress ever votes one further dollar to support of this miserable band of heritage robbers, freedom bandits, and country plunderers, we promise not only to do everything in our power to arouse the people of the danger, but to dedicate another portion of time to their elimination from public office. This U. N. business is nothing more than a Communistic nesting ground for the intriguing foreigners who would love nothing better than the total destruction of this country. Our representative to the U. N. is another product from the KENNEDY BROTHERS magic mill. Old ADALI STEVENSON, the political punk of yesterday, repulsed and repudiated twice by the voters of this nation at the ballot boxes in tries for the presidency, is our agent up there. You might say our seat in the U. N. is vacant—only until the clowns need more money—then STEVENSON goes up to capital hill to pass the hat.

ANOTHER month of June is gone and I'm glad. Perhaps I have no right to feel about June as I do. The month is a special combination for many people. It brings to them very happy memories of a wedding day, an anniversary, or a birthday. But for your writer, I can truthfully say, it is nice to see each June go by the boards. June dates mark for me all of the sad things I have experienced in life. I lost the best friend I ever had in June—my mother. And before that, nine other times, and on nine other days in bygone Junes, adversity struck me or my dreams and fortunes down. It's July now and there is eleven more full months ahead until another June drops in. And in spite of the KENNEDY BROTHERS, and OLE LYNDON JOHNSON, I look for better times and better days ahead. So Moté It Be.

GEN. DWIGHT EISENHOWER, president before the KENNEDY BROTHERS administration, spoke Sunday in Gettysburg, Pennsylvania on the eve of the three-day Battle of Gettysburg. IKE said: "We must do away with paternalistic—father-like government and call for a reinstatement of sturdy self-reliance." "For my part," EISENHOWER said, "I feel a certain uneasiness when I think of the philosophy being dispensed in Washington." So do we all GENERAL IKE! We can't wait until election time next year to see that A FAIR COUNT OF THE VOTES is made and the end sounds for the present mod-house, clown-type, circus show, going on in Washington, D. C. Did you hear the joke about how we can pay off the national debt? It cannot be put into operation until OLD LYNDON leaves Washington, along with the BROTHERS KENNEDY administration.

Dale Scrath, new president, at the club's officer installation banquet held in the Permian Basin metropolis last week. Cecil Bridges, this city, served as the installing officer. Chamber Chatter

By MAURYNE VARNADORE

Last Thursday, I attended the Permian Basin Chamber of Commerce's meeting in Odessa. Two things of interest were accomplished. We have undertaken to produce a Basin-wide Tourist Brochure and we will hold the next meeting as guests of the J. C. Hunters at their Guadalupe Mountain Ranch August 10 and 11. The Tourist Brochure will point out the interesting sights of each town in the Basin area and will be distributed at all points of entry into Texas. Which reminds me, with F. O. Rhodes and Joe Byrd of Big Spring, I visited the Clem Peters Farm Monday and went down into his well, which is about 60 feet deep, and then we were shown through his dug-out. He has built this over a period of years and it really is something to see. Mr. Peters is willing to make this a tourist attraction and I think we should take him up on his offer, because that is something that not every town has. Mr. Cecil Bridges and Mr. Rhodes made committee reports when the Board of Directors met at the Belvue Restaurant last Tuesday at noon. Directors attending were Roy Pickert, Jimmy Stallings, O. C. Turner, and Bob Cox. Boys and girls—our Junior Cotton Contest entry deadline has been extended to July 10. Be sure to come by the office and enter as the time is growing short. We have several entries, but would like to have every boy and girl in the county participating. So come on and let's see who can grow the biggest and best cotton. Thursday is a holiday, July 4th. Almost everyone will be observing the date of our independence, so be extremely careful if you are on the highways. Our accident statistics are on the rise, so don't be a statistic. The Old Settlers Reunion gets underway this weekend with the main attractions coming up on Monday and Tuesday. This is one event that the people of Martin County really look forward to each year, and it is a wonderful time, what with ex-residents coming back and visiting, as well as having visitors from surrounding areas. The old costumes and the parade and the sidewalk sales takes one back to the good old days. If I can find a costume, I plan to take part even though I am not an old settler. So, good luck and have fun. We cannot do a kindness too soon because we can never know when it will be too late. Bye, now.
