It makes an editor's heart glad when expressions of appreciation through subscriptions come into the office. We think, perhaps, a new record for our circulation department, was broken this week with these new and old subscribers signing up for another year. One fellow, J. C. SALE just up and mailed in his check for two years. And MRS. GEORGE CATHEY presented her son-in-law, TOM GREGG, Ackerly, with the paper for a birthday present. That's just wonderful and the gift will be with him for 32 full weeks during the year. Our list covers people living from Arlington, Virginia, to within the very shadow of the Martin County courthouse. Here they are and welcome folks: CARLTON CHAPMAN, Big Spring; EARL LANKFORD, Stanton; B. J. PRIDDY, Stanton; BUD DAWKINS, Lenora; A. C. POWELL, Stanton; E. H. IF PATRICK HENRY HAD KNOWN WHAT TAXATION WITH REPRESENTATION WAS LIKE, WOULD HE HAVE KEPT HIS MOUTH SHUT?

Now that the NEW YORK YANKEES have been dethroned and dehorned by the LOS ANGELES DODGERS, maybe we won't have to be punished anymore with that stupid commercial that goes something like this: "My name is TOM TRESH and one day I heard my room-mate ROGER MARIS say: — blah, blah, blah." I think I'll continue to shave with my trusty electric razor.

KRAFT really put the cheese on the air Thursday night on the boob tube — they put two complete hogsheds on — GEORGE BURNS and PERRY COMO. For crying out loud — how silly can a tv show get?

TEXAS TECH broke a long drought in Lubbock Saturday night, upsetting the beefy TEXAS AGGIES 10-0. The RED RAIDERS got all their points in the first period. A&M is winless to date. It might be that those AGGIES are a little frustrated over the girls being allowed to invade the campus down in Aggie land.

VALACHI, the gangster BOBBY KENNEDY brought out of cold storage from a federal pen, is reported to be ready to cut an album. All bums cut an album sooner or later. His will be styled: "VALACHI SINGS." One of the hit tunes will be called: "I Ain't Got a GHOST of a Chance."

Recently the newspapers have been full of stories about the meteoric rises of some young business executives who started off buying land or a couple of cows and wound up multi-millionaire tycoons almost with the speed of sound. After carefully analyzing some of the careers of these men I found they all started out with strong contacts in Washington, D. C. Perhaps their lives will reflect the need for skipping college and going directly to Washington in search of a boondoggling deals for strategic materials.

## Eagles Thrash Stanton, 44-6

The Seagraves Eagles poured it on the Stanton Buffaloes at Seagraves Friday night, romping to a lop-sided 44-6 victory over the winless Bisons in a nonconference football game.

Clyde Keltner, hard-running Seagraves halfback, paced the Eagle attack by scoring four touchdowns. His tallies came on two runs of four yards, one 11 and on a 39-yard pass from Quarterback Charles Flemmons.

Trailing by 28-0 late in the game, the Bisons managed to get into the score-book on a four-yard run by

### CITY COUNCIL WAITS

## Grand Jury Fails To Take Election Action

Stanton's city council failed to set a second special election date at the Tuesday night meeting at city hall to name a mayor and one alderman.

They postponed the setting of an election date because they are waiting the outcome of an election suit filed in the 118th District Court here last Thursday.

The city council did not deem it advisable to call another election until some disposition was made of the first one called here on September 10 to vote yes or no on Urban Renewal and to select four city councilmen.

Councilmen had previously indicated they would set a date for the second special election provided the

Martin County grand jury took some action regarding the impounded ballots from the September 10 ballot.

The grand jury did not act. The grand jury had no recommendation for action in the election suit.

District Attorney Gil Jones was quoted as saying that he had heard no complaints on the contested election held September 10.

In empanelling the grand jury Monday morning, Judge Ralph Caton made no mention of the jury delving into any election irregularities.

The fact remains and the record shows, the ballots from "a September 10 special election in Stanton were impounded."

The election contest suit was filed by J. W. Graham and Albert Johnson.

Judge Caton has not set a trial date for the suit.

Some Stanton citizens were considering asking for a federal grand jury investigation of the entire election picture and since Urban Renewal is a federally sponsored program and that issue was voted on at the September 10 special referendum election, their thoughts in the matter were not considered remote by able area attorneys.

The city councilmen did approve a 16-block paving program at the Tuesday evening session.

## Steward Murder Trial May Be Tried Monday

In view of what happened in the case of State of Texas vs John Myers, you couldn't get any bets down, but right now it looks like James Monroe Steward may go on trial in Big Spring in 118th district court Monday, October 14, for the alleged murder of one Travis R. Hicks.

A Big Spring authority advised The Stanton Reporter Wednesday that

Steward "had voiced dissatisfaction with Judge Ralph Caton's selection of R. H. Weaver as his counsel."

Weaver, in turn, asked to be relieved of the case, it was reported, but Caton countered with the appointment of E. L. Hamby, a Big Spring attorney, as co-attorney to assist Judge Weaver.

Steward, who has told the court

## Cotton Harvest Is Headed For High Gear

Cotton harvest in the Martin County area is gradually heading toward full gear.

The nine counties in the Stanton area almost doubled their ginning totals of the preceding week. In all counties in this section, but particularly in Howard, Fisher, Nolan, Mitchell, and Dawson counties where the crops are further along than in Martin or the other nearby counties, more and more strippers were in the fields.

bales of its 75,000 bale estimated crop. Those figures were supplied to the newspaper Saturday morning and at the close of this week ginnings are expected to total more than 3,500 bales.

Glasscock County, with an estimated crop of 9,000 bales, has ginned 20 per cent or 1,831 bales to date.

Dawson County, the giant cotton producer of the immediate area, has gathered about seven per cent of the predicted 150,000 bale crop.

All Texas Employment Commission

offices report just about the same tale of no luck in finding harvest hands to handle the crops in the nine-county sector.

The total number of bales estimated for Howard, Martin, Glasscock, Dawson, Mitchell, Nolan, Fisher, and Scurry counties is 380,000. The total number of bales ginned to date amounts to 28,241.

Gins are running full blast this week over the entire area and hot weather is the prediction through Sunday.

**A Political Story**

Democrats in Texas are aware of the fact that the party is badly split. Gov. Connally and Lyndon Johnson seem to have united to attempt to unseat Sen. Ralph Yarborough. Texans have branded Yarborough as a liberal; Connally claims to be conservative; Johnson says he is a moderate. (I have a better word for LBJ but can't print it here) yet all three are sailing under Democratic flags. Something has got to give. Connally, with his conservative brand on display in Texas went up to Washington last week and assured Kennedy a super-duper liberal, that he would carry Texas again. How can the governor be a conservative and support JFK? And why don't the Kennedys reach out and put their arm around Ralph Yarborough? Ralph has bought everything the administration has had up for sale. He's gone right down the line on JFK proposals. Yet the brothers won't give him a hand. Kennedy only took Texas by 40,000 odd votes last election year—presidential election that is—and we know where more than that number of changes have occurred politically in one county—Dallas County.

In our humble estimation the Kennedy ticket cannot win again in Texas with Lyndon Johnson on the ballot. Johnson's previously publicized friendship with Billie Sol Estes, Johnson's admitted sponsorship of one Robert Baker, resigned U. S. Senate majority secretary for the Democrats, on the eve of an investigation of his activities, is also against the success of the JFK-LBJ ticket in 1964. Baker was known in senatorial circles as "Lyndon's protégé" and with the blessing of Johnson hanging like a mantle over his head, Baker went out and proceeded to make a bundle on the side. Of course, we are not insinuating that Johnson actually participated in any of Baker's deals or those of Billie Sol, but with our without Lyndon's knowledge, the fact is that Sol often called Lyndon his good friend and the further fact that Baker constantly basked under the political rays of the LBJ sun. The Democratic Party, in Texas, has a lot of tidying up to do before facing opposition of any kind in the general election next year.

**Philosopher Has A Hard Time With The Problem Of Selling Wheat To Russia**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw faces up to a difficult international problem this week.)

Dear editor:

There are some international problems here I'd just as soon not have to solve.

For example, take wheat.

As I understand it, the Russians are trying to buy a lot of surplus wheat from the United States. I guess in order to get enough strength to handle the shovels they're planning on burying us with, and the offer, especially since it mentions cash in advance, is troublesome to answer.

One side says no, don't sell them Communists anything. The other side says why not, we got all this surplus wheat staring us in the face and costing us money to store and if Russia doesn't buy it from us she'll buy from Canada or some other country, so why not take the money and spend it on defense or apply it on the national debt if it's not unconstitutional to reduce it.

It's that cash-in-advance angle that makes this a hard problem to answer. If she wanted to borrow some wheat, or buy it on credit, any

Congressman could give you the answer, but cash on the barrel head . . . this is a question that requires judicious debate.

It stumps me. I don't have the answer, but I think I can tell you what we'll do. We'll sell.

Human nature is hard to control. I've never yet seen a prohibitionist lumberman who wouldn't sell material to build a bar if he got the cash, a reactionary insurance man wouldn't sell insurance to a liberal. Cash, like music, seems to be a universal language.

Personally, I don't have any wheat to sell, but if you hear of any country in the world wanting to buy some Martin County grass seed, let me know and I'll rattle with the problem.

Yours faithfully,  
J. A.

**The Scriptural Conception Of Liberty Is World's Heritage From Jewish People**

The story is well known how Jacob and his great company went down to Egypt and flourished under the power and patronage of his illustrious son, Joseph.

But it is a story that cannot be too well known.

Trouble began for these people in that foreign land when there arose "a pharaoh, who knew not Joseph." Racial and religious prejudice, still rife in our own supposedly enlightened environment, soon wreaked its havoc on the Jews.

Great works of ancient time soon became symbols of injustice and oppression. Forced to make bricks without straw, the remnants of those who had come to Egypt seeking food were cast into bondage, suffering cruelly.

Later, a man, foster son of the palace, renounced his foster mother and his prospect of ease and power to share the affliction of his people. He led them out of bondage toward freedom.

But it was, as we know, by no means as simple as that. Hardships, discouragements, rebellious spirits and yearning to turn back marked the way until the freedom of Canaan was won.

Out of that unpleasant march came what shines with especial glory—the conception of liberty enshrined

in the ancient Jewish Scriptures. In a world marked with slavery, it is remarkable how the Jews designed laws and regulations to protect the community against slavery and the individual in his rights.

One cannot go into this fully here, but one can point to the land's laws designed to prevent serfdom. There was the law which protected debtors from becoming permanent slaves of their creditor. There were the Cities of Refuge where one who had inadvertently injured another could go for safety.

The heritage of liberty that the world owes to the Jews is immense. Unfortunately, the world has never fully appreciated it.

### Vets' Widows Are Eligible For Pensions

Widows of World War II or of Korean conflict veterans are now eligible for pensions on the same basis as World War I widows, Robert W. Sisson, manager of the Veteran Administration regional office in Lubbock, has pointed out.

Prior to July 1, 1960, widows of World War II or of Korean conflict veterans were eligible for pension only if the veteran had a definitely ascertainable service-connected disability at the time of his death. No such requirement existed for World War I widows.

Briefly, the pension requirements now are:

(a) The deceased veteran-husband must have had at least 90 days of service, part during wartime, unless discharged sooner for service-connected disability or he was receiving or was entitled to receive compensation or retirement pay for a wartime service-connected disability, and in all cases, had been discharged under conditions other than dishonorable.

(b) The widow's income is not more than \$1,000 annually (or, with a child or children of the veteran, not more than \$3,000 annually) and she is not the possessor of an estate so large that it is reasonable to look to that estate for support.

Widows of World War II or of the Korean conflict who had applied for pensions prior to July 1, 1960, and were found ineligible should apply

### Check-Up In Preparation For Winter

An autumn home check-up in preparation for the winter heating season should include inspection, repair, and if necessary, installation of a humidification system. Excessive dryness can damage the house, cause discomfort, even illness, and at the same time waste fuel. Aside from the loss of fuel, the destructive qualities of lack of humidity are just as bad in areas where artificial heating is not necessary but where the air is too dry much of the year.

The relative humidity in heated un-humidified homes averages between 10 and 15 per cent in the winter. And in many homes, the relative humidity drops as low as 3 per cent when the inside temperature is 70 degrees Fahrenheit and the outside temperature hits zero. When one shivers in the house, puts on a sweater and pushes up the thermostat, the real need may be higher humidity and not higher temperature.

under the new law, Sisson said, if they believe their income may be within prescribed limits.

Evelyn Ann Yater of Stanton, was among the record 3,850 students to register for the fall semester at Southwest Texas State College. Miss Yater, the daughter of Mr. and Mrs. J. M. Yater, is a freshman student majoring in business administration.

## Poll Tax Repeal Called Premature

Rep. George Hinson of Mineola says repeal of the poll tax as a voting requirement this year would be premature.

The proposed constitutional change is one of four questions before Texas voters November 9.

"The only sure way to reserve your right to participate in all elections in 1964 is to have a poll tax receipt," Hinson said Saturday.

Hinson said the federal effort to ban the poll tax voting requirement can not become effective before January 31, 1964, the deadline for poll tax payments and for voter registration if the state amendment is approved.

He said 11 states, including Texas, have not acted on the federal change and their legislatures will not meet in time to ratify the change before January 31.

## Drivers License Handbook Now Printed In Spanish

Spanish speaking residents of Stanton who know no English, can now study an official Drivers License Handbook in their own tongue.

Harold Decuir, license examiner of Big Spring, has given ten copies of the handbook to Dan Saunders, Martin County sheriff. Saunders stated the books would be placed in the Martin County Library, and the books will be issued on loan to anyone who wants to use them.

Decuir said that he was allotted 100 copies of the original 40,000 volume edition published by the Humble Oil and Gas Company. He placed 10 of the copies in the Howard County

Library, 20 in Lamesa library. He said he had not as yet placed any of the books in Glasscock County, but would do so if a need arises.

He stated the books are duplicates of the official state handbook which prospective license applicants are asked to study ahead of their examination.

Many applicants for license, Decuir said, have difficulty due to their limited knowledge of English. Provided with a text in their own language, he said, applicants readily qualify themselves to take the required state examination.

Borrowers of the books are urged to make certain they are returned.

New all-time highs were recorded in the Federal Bureau of Investigation's accomplishments in all major phases of operations during the 1963 fiscal year. J. Edgar Hoover's report to the Attorney General shows that fines, savings and recoveries in cases investigated by the FBI during his period reached a new peak of \$186,225,348 — a figure representing a return of \$1.37 for every dollar appropriated for the Bureau. Convictions in FBI cases came to 12,816, the largest number for any peacetime fiscal year, and were recorded against 96.1 per cent of all persons brought to trial.

## Unemployment At Low Mark So Far During '62

In the news from Washington: **JOB:** The unemployment ranks were thinned to their lowest point of the year in September, the Labor Department reports.

But the 350,000 decline in the number of jobless — down to 3,516,000 — was accompanied by a dip of more than one million in employment as youths returned to school.

Thus the seasonally adjusted unemployment rate edged up to 5.6 per cent of the labor force.

The drop in the numbers of jobholders and job-seekers was about normal for the season but halted the inroads in unemployment during the summer.

The jobless rate had moved steadily down from 5.0 per cent in May to 5.5 per cent in August.

The employment rate thus wound up just where it was a year ago, even though total employment — at 6,646,000 — was roughly 1 million higher than in September 1962.

least not hurt — two-thirds of the taxpayers who collect dividends.

The tax bill, now before the Senate Finance Committee, would repeal the present provision allowing taxpayers a special credit against their income tax liability of 4 per cent of dividends above \$50 for a single person, \$100 for a couple.

The first \$50 or \$100 does not have to be included in taxable income. The bill would double this exclusion.

The Treasury said a single taxpayer in the 20 per cent bracket receiving up to \$300 a year in dividends, or a married couple receiving up to \$600 would fare better, or no worse, under the new provision than the present one.

Estimating the average dividend yield of stocks at 3.2 per cent, the Treasury said this would mean a single person would have to own stock holdings of \$9,375 before there could be an adverse effect.

**PAYMENTS DEFICIT:** Secretary of the Treasury Douglas Dillon reports that the spring flow of dollars out of this country was cut in half in the 90 days ending September 30.

Dillon said Thursday that the loss of some \$1.3 billion, a record high, in the April-June quarter was reduced to \$650 million.

## Highlights and Sidelights FROM Your State CAPITOL

President John F. Kennedy is coming to Texas around November 22 to help lift the 1964 Democratic presidential campaign off the launching pad in this state.

As early as he is, the President appears to be somewhat behind the political timetable of Texas.

Gov. John Connally, who announced the President's visit, called in nearly 50 of his top supporters to begin getting his own campaign organization in shape.

Republicans also summoned key local leaders to Austin for a "leadership conference." They pow-wowed over finances, talked up their talent scouting for candidates and began organizing a drive to register 600,000 new members of the GOP.

The Republicans picked up another candidate for the U. S. Senate, Dr. Milton V. Davis, Dallas chest surgeon. George H. W. Bush of Houston announced last month.

**SHELL-DREDGING WRANGLE** — A coastal region crisis is being claimed by the state's four largest shell-dredging firms.

Firms are Parker Brothers, Inc., W. H. Haden Company, Horton and Horton, and Bay Dredging Company.

State Park and Wildlife Commission took under advisement their application to expand dredging activities in Galveston and Trinity bays.

Applicants claimed \$1,000,000,000 worth of industry and 10,000 jobs are threatened by an acute shortage of oyster shell in authorized areas. Dredgers supply shell to roadbuilding and concrete industries, as well as chemical, paper and other manufacturing firms in the state.

Oyster fishermen, sports fishermen and conservationists also were on hand during the two-day hearing. They claim that they would face a crisis if shell-dredging areas are expanded in the two bays. Commercial fishermen, who produced 64 per cent of the 1962 oyster crop in Galveston Bay, claimed they would be run out of business. Sportsmen said destruction of live oyster reefs, or reefs which can be revitalized, would destroy every natural attraction in the bays.

Both sides feel that the application fight is a life-or-death situation . . . either for the shell-dredgers or for the oyster men and the vast sporting industry on the upper Gulf Coast.

**CATTLE KILLER** — Agriculture Commissioner John White warned Texas farmers against the "deadly danger" of letting livestock graze in fields which have been defoliated by the use of certain cotton chemicals.

Warning came after a Breckenridge farmer lost more than half his herd of cattle from the effects of arsenic poison.

White urged farmers to seek full information on the effects of any chemical before applying it to their fields.

**OIL INDUSTRY WOES** — The Texas oil industry is in a three-way bind. Governor Connally told the Texas Independent Producers and Royalty Owners Association. Stabilization of foreign imports would strengthen the troubled industry, he said, but Texas

oil also is losing markets to other states and to natural gas. TIPRO backed legislation to require pooling of small tract oil and gas leases for operational purposes. Connally went to Washington to ask Secretary of Interior Stewart Udall for more imports controls.

**TRUCK DRIVERS COMPLAINED** — R. L. Atwell Jr. of Houston says Texas truckers have an excellent safety record because "we live with safety, we breathe it, we think it all day and dream about it at night."

That's why the Texas truck driver is known and recognized as the safest man on the highway, the TMTA director stated.

His remarks were made at an Austin meeting of the Texas Council of Safety Supervisors and the Oil Field Haulers Council of Safety Supervisors.

**BUDGETMAKERS BALK** — Legislative Budget Board declined to give its immediate consent to a new \$1,000,000 conference center building at the University of Texas. Members said they feared Governor Connally might red-line the item.

Board approved additional outlays for new high speed data processing equipment for the State Highway Department and a study to determine future needs of all agencies for such equipment.

Board Director Vernon McGee warned of an approaching revenue problem. He said scare studies of smoking results might drastically cut tobacco tax income.

**EDUCATION FUNDS NEEDED** — The Committee of Governing Boards of State Colleges and Universities estimated \$15,000,000 more will be needed by Texas' 20 tax-supported colleges and universities this fiscal period to keep up with the national pattern of teaching salaries, libraries and research.

Committee will work with the Governor's study committee and the Texas Commission on Higher Education to blueprint educational growth. Governor Connally told the college board members they should take a searching look at their own schools to see if all programs are necessary.

**HAPPY WITH PARKS GIFT** — Land Commissioner Jerry Sadler applauded the gift of 3,000 acres of lake property in Jefferson County to the State Parks and Wildlife Department. Gift was from the J. L. C. McFaddin Estate. He withdrew an old request to the Attorney General to push a State claim to the acreage. Sadler predicted the waters will be developed into a "sportsman's paradise."

**COURTS SPEAK** — Vending machine operators selling items which cost less than 25 cents each have to pay the state sales tax on their take, the Supreme Court ruled. However, the Legislature now has adopted amendments to exempt vending machines, newspapers and merchants with a majority of sales less than 25 cents.

The Supreme Court ordered the state to pay back to four utility companies in Houston, Corpus Christi, Shreveport and Abilene \$355,000 plus interest in franchise taxes. It found

the corporations were exempt from paying the tax on sums kept in reserve to pay deferred federal income taxes.

The high court heard new arguments over constitutionality of the 1961 dedicated reserve gas tax.

**HUNTING LEASE LOTTERY** — Sportsmen will cast lots for the right to hunt game on six State preserves. Applications, available from State Parks and Wildlife Department, must be returned before October 31. Winners of the drawing will be notified a few days thereafter.

Preserves open for the hunt include Kerr Wildlife Management Area; Sierra Diablo area in Culberson County; Gene Howe area in Hemphill County; Angelina area in Sabine and Cherokee counties; Black Gap area in Brewster County; and Engeling area in Anderson County.

**TRUCK DRIVERS COMPLAINED** — R. L. Atwell Jr. of Houston says Texas truckers have an excellent safety record because "we live with safety, we breathe it, we think it all day and dream about it at night."

That's why the Texas truck driver is known and recognized as the safest man on the highway, the TMTA director stated.

His remarks were made at an Austin meeting of the Texas Council of Safety Supervisors and the Oil Field Haulers Council of Safety Supervisors.

**ATWELL'S OWN OPERATION**, Coastal Transport Company, Inc., is a leader in the field of safety. Coastal has won national and other awards for accident-free record.

**SHORT SNORTS**—Shipment by the State Library of Braille books and "Talking Books" for blind people reached all-time highs in September, according to Dr. Dorman H. Winfrey, State Librarian.

Bureau of Business Research statisticians are conducting a detailed study of seasonally-adjusted indexes of Texas business activity, with an eye to determining whether the 30-month upward climb on the business barometer has run its course.

The Railroad Commission ordered oil field boom pits in Stephens, Shackelford, Eastland and Callahan counties be abandoned by March 1.

Lee Thomas was promoted on general counsel of Texas Employment Commission to succeed C. M. Turlington of Marshall, who resigned.

Texas aeronautics Commission's 14th annual "Fly-A-Thon" covered a 34-city and 3,000-mile tour of the state.

State Highway Department is offering a free 16-page calendar of 48 events that are scheduled for Texas towns during the fall and winter months.

Mr. and Mrs. Jack Ward and son, Randal Scott, visited over the weekend with Mrs. Ward's parents, Mr. and Mrs. Woodford Sale.

## Grant Made To 4-H Youth Foundation

4-H Club volunteer adult leaders and 4-H Club members in every county of Texas will benefit from a recent \$25,000 grant made by the Board of Directors of the Moody Foundation to the Texas 4-H Youth Development Foundation.

Calvin T. Johnson of Dallas, chairman of the Texas 4-H Youth Development Foundation, stated on receipt of the grant, "We believe this investment in 4-H, approved by the Directors of the Moody Foundation, is representative of a growing awareness and appreciation on the part of individuals, firms, and foundations in the 4-H Club youth movement. No other youth organization, in my opinion, provides boys and girls greater opportunity to experience first hand principles of our agri-business economic system and to gain an understanding of individual citizen rights inherent in our U. S. Constitution."

The Texas 4-H Youth Development Foundation was organized by Texas leaders of agriculture, business and the professions in October of 1962. The Foundation's mission is to seek and disburse funds from private sources to underwrite 4-H Club activities for which no prior funds were available. Individuals, firms, and non-profit foundations are given opportunity to place with the Texas 4-H Youth Development Foundation a contribution, grant, bequest or through its program will Texas 4-H Club youth money or property.

The Moody Foundation grant is the largest single contribution to the Texas 4-H Youth Development Foundation during its first year of operation. The grant will be invested in 4-H Club volunteer adult and youth leadership training workshops. Fourteen training workshops are to be held across the state. 4-H Club volunteer leaders in each county will have opportunity to attend at least one training workshop. Bob Johnson and Mrs. Mildred Eiland, county extension agents, give supporting direction and supervision to the local area 4-H Club program.

The restyled Ford Fairlane for 1964 presents a big-car appearance and boasts engine performance that was proved in the Indianapolis "500." Although new styling makes the midweight Fairlane look bigger, it remains about the size of the 1956 Ford on the outside and the 1959 Ford on the inside. Five engines are available, three of the same basic design as the Fairlane V-8 that powered Lotus cars to second and seventh places in the grueling Indianapolis race. These include two 289-cubic-inch V-8s, one 260-cubic-inch V-8, plus 174- and 200-cubic-inch six-cylinder engines. Combined with five transmissions, these power plants offer a full array of performance and economy choices for 1964.

Walterboro, S. C., Press And Standard: "Americans should not be overly shocked, nor critical of the British for their current sex scandal. This country has its own scandal, only it does not involve too much sex. The scandal is the buying of votes and support through promises of governmental aid, military installations and the like. Too often elections are determined not on the merits, or issues at hand, but on the politicians' promises. Such is not right, and until the voters realize that they are being paid off with their own money, the taxpayers lot will not improve."

Last Wednesday of each month. The project for this year will be chosen at the next meeting.

The Future Farmers of America elected Maryetta Glaze as their 1963-64 Future Farmers of America Sweetheart.

**TAX MAN SAM SEZ:**

If you are one of those people who believe that the Internal Revenue folks collect money on April 15 and sort of look for work the rest of the year, you are wrong — for several reasons. Tax dollars roll in to the Dallas district office at the rate of \$7,000,000 a day. July is a light collection month, but taxpayers in the northern half of Texas paid \$95,000,000 during July 1963. Some months the taxes run almost \$200,000,000. Withholding taxes, excise taxes, gasoline taxes, and even the \$50 gambling stamps, bring more dollars into the federal till throughout the year than the terrible deadline effort taxpayers make on April 15th.

## Football Spotlight

Stanton dropped the fourth game of the year to Seagraves in Seagraves by a score of 44-6 Friday night. Last year, the Buffaloes defeated the Eagles 19-12. Next Friday night the Bisons journey to Big Lake for a traditional non-district battle with the Owls.

—FS—

Muleshoe fell before Hereford 13-0. That could be good news for Stanton's Bisons. Maybe Muleshoe is not as tough as we have heard. Hereford never has turned out strong in the football wars. We have to play Muleshoe away from home on October 25.

—FS—

Wink stomped McCamey 21-20. The game was a thriller. Stanton catches McCamey on home land in a district game on November 1.

—FS—

Crane's Golden Cranes played a 21-21 tie with Fort Stockton. We meet Crane on October 18, week after next, in Crane. It will mark the beginning of district play. Stanton recently lost a Fort Stockton by 25-0.

—FS—

Here's a score for John Davis. Big Sandy 14, Winona 13. They say the teams fought like East Texas cats—mills all over the red hills and through the pines John. You might say the game ended one sweet potato hill apart.

—FS—

Benavides 14 and Kennedy 14. There will probably be a contest here. Gov Connally will undoubtedly settle for Kennedy. He predicted in Washington that the JFK-LBJ ticket would take Texas in '64. About like Connally will if he has to run against a Houston or San Antonio man.

—FS—

Here's a score for two ex-students of Midlothian High — Neil and Sonny Curry. Midlothian 52, Alvarado 6.

—FS—

Sonora laid one on Ozona 28-0. Stanton takes on Ozona on November 15 in a district game on the home field.

—FS—

Alpine defeated Van Horn 21-0. Alpine is also in the district with the Buffs. We play them here on November 8.

—FS—

Pittsburg beat my old school 7-6. The Tigers of Commerce wouldn't have returned to Hunt County in the days of your writer's playing career if we had allowed the Peach Pickers to run up a victory. As a matter-of-fact, our coach would have put us in the middle of a sandy road, pointed us toward the Louisiana line and advised us to keep right on going.

—FS—

How about this score? Nazareth beat Roosevelt 48-6.

—FS—

Duluth, Minn., Publicity: "If the Government listens to the Chamber of Commerce of Kingfisher, Oklahoma, it can save \$110,000. That body voted to ask Uncle Sam not to build a half-block long post office in their town, and to use the money saved to whittle down the national debt a bit."

Giddings, Texas, News: "Since . . . most all the schools in Texas are receiving federal aid for education, they can well expect to have to take orders from the federal government. At least it should keep the kids under better control. Skipping school (playing hooky) could be a federal rap."

## Children Hurt Most In Home

Accidents kill and injure more children one year of age or older than any disease. And studies show that most of the accidents occurred while the children were in or around their home.

Most accidents in the home can be prevented if parents take reasonable precautions.

Here are some recommendations to use as safety tips for parents in an effort to help cut down home accidents among children in this age group:

1. Never leave a sleeping child alone in the house.
2. Never keep aspirin or drugs in unlocked bathroom cabinet within children's reach.
3. Use high shelves to store cleaning fluids, bleaches and other poisons.
4. Be sure that guns are unloaded and kept out of the reach of children.
5. Teach your child to stay away from a lighted stove.
6. Keep knives, needles, scissors and other sharp objects out of a child's reach.
7. Always turn the handles of pans on the range away from the front when cooking to prevent scalding.
8. Never leave a baby alone in the bathtub.
9. Always keep matches out of reach of young children.

## Pre-Nuptial Event Held In Blocker Home

A pre-nuptial shower honoring Miss Judy Pinkerton was held recently at the home of Mrs. Horace Blocker.

Hostesses with Mrs. Blocker were Mrs. Elinore Johnson, Mrs. Glenn L. Brown, Mrs. Leon Graves, and Mrs. Owen Kelly.

The table decorations carried out the honoree's chosen colors of yellow and white. The table was laid with a white floor length net cloth with gold trim. A fall arrangement of varied shades of yellow flowers formed the centerpiece.

Small square cakes with individual decorated sugar bells and punch were served the guests present. Yellow napkins with "Judy and Tony" inscribed in gold, were used.

Members of the house party were: Carol Smith, June Harrel, Leta Johnson, Janis Burgess, Brenda Standefer, and Joyce Standefer.

Approximately 30 registered between 3 and 5 p.m. Gifts were on display.

Miss Pinkerton and Tony Driver were married September 28 at the home of Mr. and Mrs. George Shelburne.

Mr. and Mrs. Dewayne Thompson and Mark of Big Spring, visited over the weekend with Mr. and Mrs. Delbert Franklin and Terry and Mrs. Dallas Thompson.

## The Launching Pad

By NEAL ESTES

**B**IG-TIME football is the major point of contact between the American college and the people in some cases. Some colleges go for sports headlines as means of identification. Mention NOTRE DAME to ten Americans and immediately nine will think of football. The same is true of OKLAHOMA U.; OHIO STATE and ALABAMA. There is no point in side-stepping the fact: Football is the means by which many people whether alumni or students, can claim excellence in the war of comparisons and competition. It is an instant basis for conversation. It also furnishes an image.

**C**ONGRATULATIONS to brilliant young SANDY KOUFAK. He won the World Series almost alone. And here's a bum's cheer for one JOE PEPITONE. He is 'tone' blind when confronted with a play and absolutely owns no 'pep' in any sense of the word. The big SINATRA looking dogo stood out there on first base as dumb as an organ grinder's monkey full of bananas and while counting his change let a perfect toss from CLETE BOYER ripple through his hands. That was too much for the Yankees. The series was too much for the Yanks. As a St. Louis Cardinal fan first, last and always, I miss the DEANS, PEPPER MARTINS, and ENOS SLAUGHTERS of yesterday. And when we pause to think about it, we miss the BABE RUTHS, GEHRIGS, TED WILLIAMS, TY COBBS, PAUL AND LOYD WARNER, WALTER (BIG TRAIN) JOHNSONS, WARREN SPAHNS, GOOSE GOSLINS, CHARLIE GERRINGS, and CASEY STENGALS of the best years baseball ever knew. I would like to see the life of STAN MUSIAL on tv—there was a real man, a great player—a guy who contributed more to baseball than any other great of our time. STAN just bowed out of the baseball week before last.

**A** GOOD BAYLOR man, PAIGE EILAND, advised us of the score the last time TEXAS defeated RICE in Houston. It was in 1952 and the LONGHORNS took the OWLS 20-7. They also ripped RICE in Houston in 1950 35-7. We are going to advise our towel man that he was badly wrong in saying TEXAS had been unable to defeat the OWLS in Houston in 40 years. We told our readers in this column last week that our towel man was an Ookie. He sure don't like the STEERS. I don't blame him much for TEXAS has humiliated OKLAHOMA before many thousands of State Fair visitors during the past five years in Dallas. We are so confident the 'HORNS will hammer the SOONERS into the ground this Saturday in the Cotton Bowl in Dallas that we predict a 27-14 victory for D. ROYALL & CO.

**D**R. KILDARE lost a law suit the other evening and the next morning a wag we met downtown remarked: "DOC would have won the suit if PERRY MASON hadn't been busy on another network."

**B**ILL COLLYNS, editor of THE MIDLAND REPORTER-TELEGRAM sent us an invitation to be in Midland on October 19, when NAJEEB HALABY, administrator of the Federal Aviation Agency, will be guest of honor and hold a press conference. Accompanying MR. HALABY will be his deputy, LT. GEN. HAROLD W. GRANT; PHILIP SWATEK, public affairs officer; ALLAN BOYD, Civil Aeronautics Board chairman; RAYMOND B. MALOY, Office of International Aviation Affairs, and others. The PERMIAN BASIN AVIATION ASSOCIATION in cooperation with the PERMIAN BASIN CHAMBERS OF COMMERCE, is sponsoring a reception and dinner for MR. HALABY on the evening of October 18. We have made plans to attend.

**N**ANCY ROBBETT wrote her hometown editor a personal note requesting THE STANTON REPORTER be sent to her at Texas Tech where she is a freshman student. We added her name to the mailing list this week. NANCY is one of our community's all-time favorite daughters. I have observed NANCY through early childhood to the present time, and I never saw a sad or ugly expression on her face. She is the daughter of MR. and MRS. ED ROBBETT and a very special girl in her family circle. Always clever, cut, and reservedly friendly, NANCY finished her letter like this: "Send the bill to MR. and MRS. ED ROBBETT, but be sure and send the paper to me." I'm personally putting your name, NANCY, on our mailing list, and I hope the paper does for you what you say: "It sounds good to hear from home and THE REPORTER will help a lot."

**F**LOYD SORLEY brought his son-in-law by the office for an introduction Saturday. WAYNE GRANT married the SORLEY'S daughter, VERONICA SUE, and he is studying to be a doctor. The GRANTS are living in Houston. After WAYNE graduates he expects to be assigned as a medical missionary. He is a very personable young man, handsome and intelligent, and we might add he married a very splendid young lady. It was a pleasure to meet the soon-to-be doctor.

**L**AURENCE MELCHOIR, a good Frenchman, one like GEN. CHARLES DE GAULLE opened the third game of the World's Series with a fine rendition of The Star Spangled Banner. In spite of everything going on in Washington political circles these days they still have the red, the white, and the blue in the flag. Any day now, though, the minority groups whose ancestors never fought a single hour for freedom, will want to change the color in the standard.

**C**COURTHOUSES, in our opinion, are still needed and used to settle community questions calling for legal solutions. We can't imagine going back to the days of the 'Law of the West!' They don't get out the six-shooters anymore in Duval County—why put on a hog leg and go strutting down St. Peter Street at high noon in Stanton?"

## Potential Filed On No. 1 Univ. In NW Martin Co.

By JAMES C. WATSON  
Gordon Knox & Associates of Midland have filed a new potential for No. 1 University, discovery of the MAK (Spraberry) pool in Northwest Martin County, 23 miles northeast of Andrews.

A daily production of 222.72 barrels of 40.5-gravity oil plus 10 per cent water was gauged on the new potential test, through an 18/64-inch choke and perforations at 8,460-8,501 feet, after 2,500 gallons of acid and a 60,000 gallon fracture. Flowing tubing pressure was 200 pounds and the gas-oil ratio was 1,300-1.

It is 660 feet from north and west lines of section 42, block 6, University survey and six miles northwest of Spraberry production in the multi-pay Breedlove field.

The first potential, filed in early July, reported a 24-hour production of 28.65 barrels of 43-gravity oil plus 19 per cent water flowing on a 12/64-inch choke and the same perforations.

No. 1 University is a re-entry of the former Chambers & Kennedy and Zapata Petroleum Corporation No. 1 University, a 12-235-foot Devonian failure abandoned in February, 1958. Knox cleaned out to 9,010 feet and set 4 1/2-inch casing at that point. Since completion of the first well, the MAK pool has gained its second producer, a third is testing to complete and three steps are being drilled.

Knox No. 1-B University is 3/4-mile southwest of the pool discovery and is 1,800 feet from south and east lines of section 42, block 6, University survey. It had progressed below 7,103 feet in lime and shale.

Knox No. 1-C University, one location east of Keystone No. 1 University, the second well and the one-mile southeast extension completed recently, had supped to 75 feet moved in a rotary rig and was drilling below 4,012 feet in lime.

It is 660 feet from north and west lines of section 43, block 6, University survey.

Knox No. 1-D University, 3/4-mile southeast of the Keystone well and 1,980 feet from south and 660 feet from east lines of the same section, block and survey, was making hole

below 6,187 feet in shale and sand. Texas Crude Oil Company and Sinclair Oil & Gas Company No. 1-9 Breedlove is planned as a 12,500-foot Devonian exploration in Martin County, 17 miles northwest of Tarzan.

The drillsite is 5,104 feet from north and 660 feet from east lines of section 9, block HA, H. A. Lanier survey. This prospector earlier had been reported as a 9,500-foot Spraberry test.

It is 1 1/2-miles northeast of the MAK (Spraberry) pool opener and 4 1/2-miles west of Devonian production in the multi-pay Breedlove area, and the same distance northeast of the four-well Block 7 (Devonian) pool, but separated from it by deep failures.

It was drilling below 4,535 feet in anhydrite and lime.

Pan American Petroleum Corporation has scheduled No. 2-D F. D. Breedlove as a 13,000-foot Silurian wildcat in Northwest Martin County, 15 miles northwest of Tarzan.

The drillsite is 1,350 from south and 660 feet from east lines of tract 96, league 257, Briscoe county School Lands survey.

It is one location northwest of the same company's No. 1-F Breedlove, a prospector attempting to complete as a Devonian discovery on the pump from perforations at 12,118-123 feet. Guy Maboe of Midland No. 1-B J. E. Maboe is slated as a 13,600-foot Fusselman and Ellenburger exploration in West Martin County, 20 miles northwest of Midland.

The location is 2,193 feet from east and 1,794 feet from north lines of section 19, block 39, T-2-N, G&MM-B&A survey and a northeast offset to Austral Oil Company Inc., of Houston and Cactus Drilling Corporation of Midland No. 1 Maboe, recently completed dual discovery of the Rueben (Fusselman and Ellenburger) field.

Austral and Cactus No. 2 J. E. Maboe, a 13,700-foot Ellenburger test in Southwest Martin County and worth offset to the discovery was drilling below 4,370 feet in lime.

Location is 853 feet from north and 2,173 feet from west lines of section 19, block 39, T-2-N, G&MM-B&A survey, 14 miles southwest of Tarzan.

## Coin Show To Be Held At Big Spring

Big Spring Coin Club Presents — Second Annual Coin Show and Exhibition, described by Mrs. Dale Smith, general show chairman, as bigger and better than the show last year. It is to be held on October 12 and 13 at the Settles Hotel in Big Spring.

There will be a spectacular display of rare coins exhibited by some of the most widely known collectors in this section of the country. Junior collectors from several cities will team with Big Spring Junior collectors to make the Junior Exhibits very outstanding.

There will be two exhibits from Chase Manhattan Bank (Money Museum), in New York City. These exhibits were made possible through the cooperation of The First National Bank in Big Spring. Part of this exhibit will date from 700 BC, including the first silver coin ever minted, with coins of the Bible — the widow's Mite — Tribute Penny — Thirty Pieces of Silver, and many other ancient Greek and Roman coins. Also in this exhibit is a display of Early Bank Notes in the U. S. dating back before 1861. Mr. W. E. Wozencraft, exhibit chairman, will welcome inquiries relative to this phase of the show.

Mr. M. L. Kirby, who is in charge of Bourse Dealers, reports display space reservation by dealers in Texas, Oklahoma, New Mexico, and California. There are still some dealer's tables open for the show.

Mr. W. A. Kenney is planning a coin auction of more than usual significance. He will be assisted by Col. Dub Bryant, a professional auctioneer.

The show and exhibition will be open to the public on October 12 from 9:00 a.m. until 10:00 p.m., and on October 13 from 9:00 a.m. to 5:00 p.m. The general public is cordially invited to attend and view the fine exhibits and displays offered by the dealers for your pleasure. There will be more than 40 dealers, displaying thousands of coins for your inspection. There will be police protection to safeguard this valuable mass of numismatic material. A popular feature of the show will be several drawings daily for free and valuable door prizes.

The Big Spring Coin Club, of more than 200 active members, gained recognition this year by winning third place award in the U. S. for outstanding work in observation of National Coin Week. The Big Spring Chamber of Commerce is cooperating with us in advertising this show and extends a cordial invitation to all to visit Big Spring and enjoy this grand exhibit of rare and valuable coins and currency.

Mrs. John Calvin Jones and daughter, Jennifer, have just returned from a week's visit in Las Vegas, New Mexico, with her parents, Mr. and Mrs. Roscoe Manning.

Mr. and Mrs. J. F. Airhart of New Home, visited Sunday with Mr. and Mrs. Edgar Airhart.

Mrs. J. W. Fryar of Knott, is a patient in a Big Spring hospital, where she underwent surgery Monday.

The Civil Defense Program being taught in the high school, is going along nicely. God willing, we will never have to use what we are learning, but should a disaster befall us, we will be prepared by knowing what to do and when to do it.

I will be in Midland on Friday to attend an all day managers meeting. During the morning there will be a round-table discussion of local problems common to our area. After lunch, we will make a tour of 18 industrial sites.

Too bad, Bufts, better luck Friday against Big Lake. We hope to be there to see you play, but if we do not make it, you still have our support.

This week's bon mot... Those who do the most complaining about the way the ball bounces are usually the ones who dropped it in the first place.
