These subscribers mailed in renewals for the county newspaper this week. We welcome them back for another twelve months. MRS. CLARA ATCHISON, Midland; HOMER HOWARD, Sr., Rt. 1, Stanton; TROY PIERCE, Rt. 1, Stanton; MRS. WRAY BRUCE, Odessa; B. D. COLLIER, Stanton; W. M. BLOCKER, Hobbs, N. M.; W. D. LEO and ALTON TURNER and CLAYTON REYNOLDS are up in the Rocky Mountains on a hunting trip. The local hunters are reported to be attempting to bag an elk. They are scheduled to arrive in Stanton sometime this weekend. One of our neighbors and his wife or off on a deer hunt in Colorado. And when they, MR. and MRS. JOE REYNOLDS come home, CHARLEY BROWN and his wife are due to leave the Texaco station duties to their son-in-law and strike out for Colorado on a deer hunt.

The BOY SCOUT drive got off to a good start recently and we have been advised that Martin County's goal has been subscribed. Scouting is the ideal program for our boys and girls. We are proud of representative troops we have here in the county.

THE STANTON REPORTER printed the SHS student edited paper the past week. The publication looked alright for a first issue. After the contest to name the publication closes we hope to be having regular conferences with the co-editors, RONNIE DRIGGERS and ROGER BOYCE. We enjoyed working with them in their first journalistic effort, and appreciated the compliment paid the staff here in THE REPORTER office for our part in bringing the paper off the press on time.

STANTON HIGH'S football team faces a long ride to Muleshoe Friday. The Muleshoe outfit is supposed to be another tough one. Stanton is going up against a stronger, heavier, more experienced team, but our player won't be caught complaining. COACH MILAM and his cohorts will show up and play. Win or lose, we are behind the team all the way. As a former school football player, don't forget, I wrote here once before that it was my pleasure, and I repeat, pleasure, to play on a team that once wound up the season winless. We all like to win, but a bunch of young lads who are playing for the sportsmanship and fun of the game are not to be criticized if they don't break into the victory column. After all, we will match the character of our young players against a nifty team in the country. You just won't find nicer fellows than those playing for SHS.

GOV. JOHN CONNALLY proved to his acknowledged supporters in Martin County this week that he thinks and operates like a true pork-barrel political professional. Even his warmest supporters in Martin County think he was way out of line in drawing party lines on federal judgeships. I have never yet heard of a single U. S. Judge, regardless of what president appointed him, handing down political decisions.

We might add CITIZEN CONNALLY — and you can tell your Old Buddy LYNDON JOHNSON this for me — Texans never intend to stand by and watch another election be

Beta Sigma Phi To Hold Annual Fall Banquet

The Stanton chapters of Beta Sigma Phi will hold their annual fall banquet, Saturday, October 26, at the Holiday Inn in Big Spring. The program is scheduled to begin at 8:00 p.m.

The banquet is in honor of the new pledges of the sororities. The Xi Theta Nu chapter is in charge of making arrangements for the affair.

Mrs. Hila (Stormy) Weathers will be the guest speaker. Mrs. Weathers works with the Volunteer Service at the State hospital. She is a former resident of Stanton, and is well known in this area.

There are five chapters of Beta Sigma Phi in Stanton. They are Xi Alpha Beta, Mu Lambda, Xi Epsilon Delta, Rho Xi, and Xi Theta Nu.

County Schools Making Annual Carnival Plans

Martin County schools are making plans for Halloween Carnivals.

At Stanton, a carnival will be held on Thursday afternoon, October 31. Courtney's annual Halloween carnival will be on Saturday night, October 26. The Grady School will hold their carnival on Saturday night also, and the Flower Grove school's carnival will be on Monday, October 28.

Courtney's carnival will begin at 7 p.m. at the Courtney School gymnasium.

Representatives of all grades will be in charge of the concession stands, to be held in the cafeteria.

Booths students are to operate include seventh and eighth grade, bingo, trampoline and goal throw; fifth and sixth grades, cake walk, country store, and ring the coke; third and fourth grades, dart throw, doll throw, and white elephant booth; and first and second grades, fish pond, doll walk and toy walk.

Tickets will be ten cents each or three for a quarter. Grady's carnival will be held on October 26 at the school. The concession stands will open at 6 p.m. at the cafeteria. The carnival will get underway at 7 p.m. in the gym. The first grades will be in charge of the fish pond, cartoon movies, and bean bag.

Milton Stinson Speaks To Stanton Lions

Milton Stinson was guest speaker at the Stanton Lions Club meeting Tuesday at the Belvue Restaurant.

Bob Johnson, president, presided over the business meeting. The song service was directed by F. O. Rhodes. The Rev. C. R. LeMond, gave the invocation.

George Costlow, program chairman, introduced Mr. Stinson, area supervisor for the Farmers Home Administration. He spoke on the changing situations in agriculture. He stated there are fewer farms now, and each man is farming a larger area.

The club will meet next Tuesday at the Cap Rock Electric building.

There were 21 members present, and two visitors. The visitors were Thaddeus Allen of Fort Worth and Terrell Pinkston of Stanton.

Mrs. S. Reid To Conduct Nursing School

Mrs. Stanley Reid will conduct a 12 hour home nursing course, "Care of the Sick and Injured." Classes will begin on November 4, at the Cap Rock Electric auditorium.

Mrs. Reid will teach two separate classes. The morning classes will be taught from 9 to 11 a.m. on November 4, 8, 12, 14, 18, and 20.

The afternoon classes will be taught from 2 to 4 p.m. on November 5, 7, 12, 14, 19, and 21.

Mrs. Reid will enroll 16 persons in each class. She now has total enrollment of 23. There are four vacancies in the morning class, and eight in the afternoon sessions. If you are interested in enrolling in this course, contact Mrs. Stanley Reid.

The course is free. The handbooks may be purchased from Mrs. Reid for \$1.25.

To Kick-Off Membership Campaign

The Martin County Chamber of Commerce will launch their annual membership drive with a chili supper on November 4.

The big downtown party will start at 4 p.m. and continue through 7 p.m. An automobile show and an implement display will feature the countywide observation. A Lions Club band will furnish the music and old-fashioned, real homemade chili with or without beans, will be served.

Tickets have been printed by The Stanton Reporter and President Roy Pickett of the Martin County Chamber of Commerce passed them out to be sold and distributed by chamber directors at a special meeting held at 5 p.m. Tuesday afternoon.

Directors of the chamber present included: Cecil Bridges, James W. Wheeler, O. C. Turner, Roy Pickett, and Paige Elland. Mrs. Mauryne Varnadore, chamber manager, and H. M. McReynolds and Neal Estes were also present for the Tuesday afternoon session in the chamber office.

Cecil Bridges, chairman of the membership group stated that the chili supper would launch the drive for members. He stated that a special breakfast would be held on the

By MAURINE VARNADORE

Hello, again . . .

Petitions have been placed in gins, feed houses and other accessible places all over the county for your signatures. These petitions are to be sent to Dr. B. T. Shaw, U. S. Dept. of Agriculture, requesting his aid for research and production of more and better insecticides to benefit the cotton producer. Cost of controlling insect damage has become so expensive for the producer that growing cotton is not economically feasible until measures are taken to improve the situation. Bob Cox, chairman of the Agriculture Committee, will present these petitions at a meeting in Lubbock the last of this month, so get your name on the list and support this effort.

—CC—

Mrs. Stanley Reid and Bob Deavenport have been instrumental in re-organizing the Red Cross Chapter here. Response was very good last week when Mr. W. C. Breeding, field representative from Midland, met with the group to help get this off the ground. It always gives one a good feeling to be able to help others less fortunate in their time of need. Also, the Home Nursing program, with Mrs. Reid in charge, is an excellent one, giving instruction and information that is invaluable to one throughout their lifetime.

With fall in the air and the crops coming in, it is gratifying to note the number of members coming in and renewing their investment in the Chamber. We would like to thank them for their vote of confidence, and pledge our

Stanton Pioneer Recalls Pipe Line Survey Work

J. C. Mott of Stanton, a Permian Basin petroleum pioneer, worked as a rodmann on a surveying crew for a Texaco Inc. pipe line from Monahans to Port Arthur.

"If I'm not mistaken," he said, "it was the first pipe line to go out of the Permian Basin to the coast."

Mott recalled that the late Van Camp of Midland had a contract to survey the west 100 miles for the pipe line from Iraan to Monahans. J. Owen Cochran of Midland was the crew chief, and the late Leslie Floyd of Midland also was with the crew.

The survey began in the spring of 1928, and Mott recalled that teams of horses

8,820 Bales Of Cotton Ginned In Martin County

In Martin County 8,820 bales of cotton have been ginned out of an estimated 75,000 bale crop, according to the Texas Employment Commission in Big Spring. The fields are estimated to be 65 per cent open.

Howard County has ginned 8,640 bales of its estimated 36,500 bale crop and still has 76 per cent of the staple in fields. The crop was estimated at being about 75 per cent open.

Glasscock County has ginned 3,985 of its estimated crop of 10,000 bales. Forty-one per cent of the crop has been gathered, and an estimated 75 per cent of the cotton is open.

Quality of the crop is exceptionally good. The lint is long stapled and white. It is rating high on the grading tables and the Abilene office of the Agricultural Marketing Service in Abilene, said that of 5,500 bales handed in that office from Howard, Martin, Midland and Glasscock counties last week 31 per cent was white cotton—compared with 13 per cent from the same district at this season last year. Sixty-nine per cent of the cotton graded was light spotted. Middling light spotted was the predominant grade, with 45 per cent of the cotton in this category. Twenty-one per

cent was classified as middling.

The office reported the staple length a little shorter this year as compared with the same time in 1962. Bulk seems to be 29-32nd.

Across the district, more and more strippers were reported. In the area served by the Sweetwater office of the Texas Employment Commission, more than 250 of the machines were in the fields in Fisher, Mitchell, Nolan and Scurry counties.

The Big Spring TEC said it could place 550 pickers in Glasscock, Martin and Howard counties if that number should be available.

The continued rainless weather and ideal ripening conditions plus the shift to strippers on every hand has diminished the picker demand acutely.

Dawson County, giant of the eight in this area, is getting into the swing of the season. It doubled the number of bales ginned in the past week and had 21,340 bales on the yards. This is only 15 per cent of the county's 150,000 bale crop.

Generally the TEC cotton men are inclined to stick by their total crop estimates made some weeks ago. None has been changed.

Stanton Drops District Contest Game To Crane

The Stanton Buffaloes were defeated 41-0 by the Golden Cranes of Crane, District 7-AA champions Friday night in a district opener.

The Bison were not badly outnumbered in first downs. The Bison drew six penalties for a 70-yard deficit. Stanton's punting average was good. A 32-yard per boot average was recorded on nine efforts. That's good high school kicking.

Halfback Paul Cormier was the big noise for Crane. He flashed down the field for three touchdowns. His teammate, Jerald Penny racked a pair of markers.

The Golden Cranes appear to be on their way to a fourth straight title. The team is not expected to be upset or defeated by any other district

team. It is accurate to predict that Crane has a powerhouse, experienced, tough eleven that won't be stopped this year.

In addition to their first downs, Stanton registered more than a hundred yards on offensive drives.

Crane scored in every period of play. The game statistics appear below.

Rites Held Tuesday For James Simpson

Funeral services were held Tuesday for James Roy Simpson, 19, who died Sunday night in an Odessa hospital of gunshot wounds accidentally received when a shotgun he was carrying while he was getting out of his car in front of his home in Odessa.

Services were held at 4 p.m. at the First Baptist Church of Stanton, with the Rev. W. H. Uhlman, pastor, officiating. Interment was in the Trinity Park Cemetery at Big Spring, under the direction of Rogers-Riggs Chapel of Roses in Odessa.

He was an employe of Furrs, Inc.

Survivors include the widow, the former Mickie Pinkerton; a step-son, Shandell Smith of the home; the parents, Mr. and Mrs. James M.

Woody Gun, Sporting Goods Expands Merchandise Lines

Woody's Gun and Sport Shop is still that and then some these days.

In addition to expanding merchandise lines and creating more display space for their gun and sporting goods in Stanton, Mr. and Mrs. J. N. Woody, Sr., have installed full and complete lines of toys, gifts, games, wheel goods,

hobby items, and other useful and attractive articles in their store on St. Peter Street.

The Woody's plan an official open house celebration on November 12. Customers and friends have been invited to come in now and register for the many free prizes to be given during the open house.

Martin County HD Members To Observe Achievement Day

Achievement Day will be observed by the Martin County Home Demonstration club members on November 19. The meeting will be held at the Cap Rock auditorium.

The home demonstration members annually observe this special day to call attention to what they have done during the past year.

All home demonstration clubs in the county will have exhibits of articles they have made during the past year. Each club will be in charge of their exhibit table.

The exhibits will be set up at 9 a.m. and open to the public at 10 a.m. A salad luncheon will be served at noon.

Mrs. Ralph Caffey will review the book, "Recovery of Family Life," immediately following the luncheon.

A council meeting will be held for all council delegates, following the program. Mrs. Lewis Carille, president, will preside over the business meeting.

Mrs. Ohmer Kelly is the chairman of the committee in charge of setting up the tables.

School To Dismiss Early On Friday

Beryl D. Clinton, superintendent of Stanton Schools, stated that school will dismiss early on Friday.

School will dismiss at Stanton at 1:30 p.m. and at Courtney at 1:45 p.m., so those wishing to attend the Stanton-Muleshoe football game Friday night, will have ample time to get to Muleshoe.

Elwyn Bass, principal at Grady School, stated that Grady would not dismiss early Friday.

E. G. Murphy Rites Friday At Ackerly

Funeral services were held at Ackerly Friday, October 18, for Ethel Guy Murphy, 57, who died Thursday morning in a Big Spring hospital after a four-year illness.

Mr. Murphy was born January 8, 1906 at Merkel. He farmed in the Ackerly community for several years.

He was a member of the Ackerly Church of Christ, and had served as an elder in that church and the Wilson Church of Christ for 30 years.

Philosopher Doubts Public Opinion Poll Showing 68% Of Us Satisfied With Our Income

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw takes issue with a public opinion poll this week.)

Dear editor:

I have long felt that a public opinion poll is like a sports writer's guess on next week's football scores. When he's right, he's an expert, and when he's wrong, he doesn't know any more about it than the rest of us.

But people like to read such things, and it's a good thing. If they didn't, if they liked to read only things which are 100 percent right and infallibly wise, you and me would be hard up for readers, especially me.

What got me started on this was a national public opinion poll the other day which reported that 68 percent of the white people in this country are satisfied with their income.

I don't know who all the pollsters interviewed, but they didn't get around to me. In fact, come of think of it,

I don't know who they interviewed to come up with this figure. Wasn't anybody I'm acquainted with.

I don't mind saying I'm not satisfied with my income, never have been and never will be. Moreover, I don't know anybody who is. Regardless of what a man makes or how much his income grows, if he has any confidence in his family he knows ahead of time they'll find a place to spend a little more than he makes.

I don't mean to say a lot of people don't consider themselves lucky to be getting what they are, but I just never have encountered a man who wouldn't be interested in a little more. A man with a row boat wishes he had a speedboat. A man with a cabin cruiser, a man with a yacht wishes he had a yacht.

I don't know what it is a man with a yacht wishes, but it's something. Personally, I couldn't use a yacht, but anybody who thinks I'm satisfied with the income from this Martin County grass farm obviously thought Tom Dewey was going to beat Harry Truman.

I don't know how many interviewers the Gallup Poll has—the outfit that took this poll but it would be interesting to find out how many of them are satisfied with their income they have. I have a notion Mr. Gallup could have saved some money just by interviewing his interviewers.

Understand though I'm not so dissatisfied with my income I'd do what it takes to improve it. I didn't say I was dissatisfied with the amount of work I'm doing, only with what I get for it.

Yours faithfully,
J. A.

CAMP COT

This tip goes back pretty far in history. Revolutionary War soldiers slept in comfort on cots like these, for example. Take a large piece of heavy duty canvas, six inches longer than you are and at least 36 inches wide. Sew a hollow fold along both long sides. In camp, cut two light poles. Insert these through folds and prop ends on logs or rocks so cot is well clear of ground. You'll find that limber poles plus the natural stretch of canvas adjusts to the contours of your body and makes good sleeping. Yet canvas rolls up easily for light pack storage.

THE GRAHAM REPORTER: "A 16-year-old Graham High School student, Brenda Sue Wright, was killed and her twin sister, Linda Lou Wright, was injured in a one-car accident 14 miles north of Breckenridge on Farm Road 578 Sunday afternoon. Brenda Sue was pronounced dead at the scene of the accident by W. H. Hughes, Breckenridge peace justice."

THE STAMFORD AMERICAN: "An early harvest interrupted by damp, cold weather, had sent 18,398 bales of cotton through the six gins in this area by Wednesday morning with all of the gins reporting cotton still on the yard and the harvest still moving rapidly."

THE FORT STOCKTON PIONEER: "Bills from the county tax office, which also include levies for state taxes as well as for the Sheffield Independent School District, show a slight drop in totals from 1962 figures, with a reduction both in the total valuations and in the tax actually levied."

ANDREWS COUNTY NEWS: "More than 250 workers attended a kickoff breakfast Thursday morning and will 'cover Andrews like the sands' from dawn to dusk in an all-out effort to collect \$6,000 for the Boy Scouts."

MATADOR TRIBUNE: "A 'Miracle Harvest' is developing in the Foothill Country cotton fields as result of the hot and dry October weather. It has happened before when fields of drought-stricken plant suddenly 'turned to cotton.' It is happening again."

DENVER CITY PRESS: "A Sligo community boy was injured, an automobile damaged, and a horse had to be shot as the result of a car-horse collision in the Sligo area Saturday afternoon. The boy was identified as Jerry Cummins, about 10, who reports said, was riding a horse and started across the road when the horse and car collided."

THE MERKEL MAIL: "Funeral for Earl Lassiter, Taylor County Democratic leader, was held Tuesday at 10 a.m. in Merkel's First Baptist Church, with burial in the Rose Hill Cemetery. Mr. Lassiter, fruder of the Lassiter Employment Service of Abilene, died Sunday."

THE FOARD COUNTY NEWS: "The value of 4-H Club work was dramatically illustrated here this week by the announcement by Foard County's Extension Agents, Joe Burkett and Mrs. Virginia Ileseng, that four Foard County young people are now attending college using scholarships they earned while participating in the 4-H program."

Mrs. J. B. Sample of Big Spring, visited in the E. L. Roman home at Knott Sunday.

Frances Graves, a student at Wayland Baptist College, spent the weekend with her parents, Mr. and Mrs. L. R. Graves.

Sunday visitors with the Woodie Caffey family were Mr. and Mrs. J. V. Bristow of Ackerly, Mr. and Mrs. Roosevelt Shaw and children of Big Spring, and Mr. and Mrs. H. R. Caffey.

Mr. and Mrs. John Calvin Jones spent the weekend in Ruidoso, New Mexico.

Lord's Prayer Outlines Ideal World

When we make that petition which is the Lord's Prayer, what do we mean by it and what should it mean to us?

One thing is certain. When we make that prayer in sincerity and truth the Kingdom has already arrived in our hearts and lives. The Rule of Christ, His law of love, and the following of His example, give evidence of our place in the Kingdom which is above all kingdoms, and whose King is supreme.

If that rule is firmly established in ourselves it becomes a yearning, a passion, and a prayer that it might be established in all hearts, and in all the affairs of men.

It is this yearning and prayer that is so well expressed in the interpreting petition, "Thy will be done on earth, as it is in Heaven."

There was a time not long ago when Allegiance to the Kingdom of God conflicted with allegiance to most of the kingdom of earth. In too many countries that conflict still continues, or has been reasserted, under cruel dictatorships in which godless philosophies and attitudes are manifest in suppression and persecution.

But today, in such democracies as Canada, the United States and Great Britain the evidence of almost revolutionary progress is seen in the fact that such conflicts of allegiance have almost completely disappeared.

If it were not for all the evil that democracy has not yet conquered, we might well say: "Would that all nations and peoples were as we are."

However, evil carries within itself the seeds of destruction, and so in faith and hope we must pray that some day we may realize the Kingdom of God in full, in our every act and deed.

Now... new name, new size, new style, new spirit, new car!

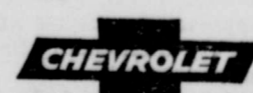

New CHEVELLE! by Chevrolet

New Chevelle Malibu Sport Coupe (foreground) with Malibu Super Sport Convertible

Only this could come between Chevrolet and Chevy II. The Chevelle is a highly polished car on a trim 115-inch wheelbase. With its weight down in the 3,000-pound range. All of which makes it a sweet-handling, easy-to-manuever automobile. But it's roomy and relaxing inside, with the kind of ride you'd expect in a bigger car. And it's styled with a lively grace and refinements (note the curved side windows and pillars, for example) that make its modest price all the more remarkable. A neat trick? We agree. But not so difficult really when you have the skills of seasoned Body by Fisher craftsmen to draw upon. And the advantage of Full Coil suspension developed by the

same engineering talent that came up with the Jet-smooth Chevrolet's ride. And that irreplaceable Chevrolet spirit in a choice of four engines—V8 or 6—including optional-at-extra-cost versions all the way up to 220 hp. Small wonder this one turned out the way it did. Did we say one? Actually there are 11 models—wagons, sedans, sport coupes, convertibles—in three series. Even some cars that have been around for quite a long time don't give you a choice like that. Sound like something you ought to check into further? Consider this your invitation for a real hood-raising, door-slaming, seat-bouncing, wheel-turning time of it at your Chevrolet dealer's.

Chamber Chatter -

(Continued from page 1) abilities to our job to make Martin County a prosperous place in which to make our home.

Monday night, October 28, in the Chamber office—Director's Meeting. Please be here.

Cecil Bridges, Membership Chairman, has called a breakfast meeting Tuesday morning, October 29, at the Bellevue Restaurant. Interested persons are invited to attend at 7:00 a.m.

Thursday evening we will journey to Crane for their annual Chamber banquet. Guest speaker will be Mr. Chester H. Lauck. Mr. Lauck is better known as "Lum" of the Lum and Abner team of radio and movie fame.

Committee leaders for the Fall Festival and Chili Supper to be held the 4th of November met in the Chamber office at 5 p.m. Tuesday afternoon to wind up preparations. We are hoping this will be an even greater success than the Spring Festival. Gather your family and your friends together and join in the fun.

It is better to undertake a large task and get it only half done, than to undertake nothing and get it all done.

Bye, now.

morning of October 29 in Stanton with membership committeemen and women and other visitors invited.

The regular meeting of the Chamber of Commerce directors will be held on the evening of October 28. The group will finalize plans for the chili supper on that date.

Tickets are priced at fifty cents each.

In addition to the chili supper, automobile show and farm implement display, the day will be observed in Stanton with sidewalk sales events and Monday, November 4, will also be dollar day in the city.

The chili supper will be held downtown on St. Anna Street. The format followed in planning and preparing the very successful pancake supper held downtown in Stanton a few months ago will be adopted again.

President Roy Pickett of the chamber said: "We want this chili supper to be an event where citizen can meet citizen, neighbor shake hands with neighbor, and everyone enter into the brotherhood of friendship for the good of our entire community."

The editor of The Stanton Reporter wishes to offer a re-sounding Amen to Attorney Pickett's declaration.

Seismograph Crew

Mott also was a rodmann for the surveyor with a seismograph crew in the Jal, N. M., area the previous year. Readings were taken where some of the major production in Lea and Eddy counties has been developed. Mott was 19 years old at this time.

"That's all the direct work I did in the petroleum industry," Mott said, relating he had lived in Odessa until 1935, when he moved to a 320-acre farm near Stanton where he has lived since then.

The farm had been purchased by Mott's grandfather in 1892. His grandfather, an engineer for Texas and Pacific Railway company, settled in Stanton in 1888 and began pumping water for the railroad.

A well was dug to a depth of 110 feet, with ladders descending to the water level. His grandfather was repairing the pump at the well in 1894, when it is assumed he fell. The accident was fatal.

Father Also Killed
Mott's father, who later took over the job of pumping water for the railroad, was killed at the well in 1910. Equipment had been added to soften the water for steam engines, and the elder Mott was caught in the machinery.

The Motts have four children, Nettie Jean Mott and Ben Mott, both students at Texas Tech, and Mrs. Marshall Huffman of Fort Stockton and Mrs. Charles C. Blocker of Stanton, and three grandsons. Mrs. Mott is the daughter of Mr. and Mrs. Ben Nutter of Odessa.

E. G. Murphy -

(Continued from page 1) Funeral services were held at the Ackerly Church of Christ at 2:30 p.m. Friday. Doyle Harris and John Greason, Church of Christ ministers, officiated. Burial was in the Trinity Memorial Park under the direction of Nalley-Pickle Funeral Home.

Survivors include the widow, Ackerly, one son, Ethel B. Murphy, Big Spring; one daughter, Mrs. Jack Griggs, Ackerly; three brothers, Lloyd B. Murphy, Brownfield; and D. F. Murphy, Corpus Christi; one sister, Mrs. J. O. Burnett, Corpus Christi, and three grandsons.

Palbearers were Arthur Reed, Marlon Gibson, Leo Batson, Leon Yingst, Jess Billingsley, Preston Morrison, Edwin Matthews, and W. J. Spraws.

The location is 1 1/2 miles west of Devonian production in the multipay Breedlove field and 660 feet from west and 990 feet from south lines of tract 95m, league 258, Briscoe County School Land survey.

John L. Cox of Midland has announced location for No. 1 and No. 2 Kydd in the Spraberry Trend area of Martin County, 15 miles northeast of Stanton. Both will be drilled to a depth of 7,700 feet.

No. 1 Kydd is located 1,320 feet from north and west lines of section 13, block 35, T-1-N, T&P survey.

No. 2 Kydd is located 1,320 feet from north and east lines of the same section.

WORMY SUNGLASSES

This tip sounds mighty unlikely and gives us a chance to reiterate that these tips are suggestions only. All should be tested out carefully before being put to use. This one suggests that looking for nightcrawlers, the little wigglers will show up better in the beam of your red-lensed flashlight if you wear your sunglasses. Sounds screwy — but it works for somebody—maybe you.

Cotton Bowl Ticket Sale Slated To Open Today

The Cotton Bowl football game is more than two months away but the sale of tickets for the January 1 classic starts today.

Applications will be accepted for the period October 24 through November 5. They should be mailed to the Cotton Bowl Athletic Association, Box 7185, Inwood Station, Dallas 9, Texas.

The price is \$5.50 per ticket with a 25-cent mailing fee added to each application. There is no limit to the number of tickets any individual may order. However, no more than ten should be ordered on a single application.

For those desiring more than ten tickets, two or more applications should be submitted with separate checks or money orders accompanying each application.

There are 25,000 seats available to the general public in the 75,504 seat stadium. The remaining 50,000 go to bond holders and the competing schools.

When all orders have been received after the filing deadline, a drawing will be conducted to determine the allocation of tickets.

Tickets will be mailed to purchasers shortly after December 1. Unfilled applications and checks will be returned to the senders.

This will be the 28th annual Cotton Bowl game, matching the Southwest Conference champion with a team from another section. Louisiana State defeated Texas 13-0 in the 1963 game.

Dr. Newman holds a B. A. Degree from Baylor University, a Master's degree and a Doctor's Degree from Southwestern Baptist Theological Seminary.

From 1952 to 1955 Dr. Newman served as vice president of Baylor University. Since 1955 he has been president of Howard Payne College.

Dr. Newman is a member of the Rotary Club, the Masonic Lodge, a member of the Executive Board of the Comanche Trail Council of the Boys Scouts of America, on the board of directors for the Texas United Fund, and on the executive board of the Baptist General Convention of Texas.

Extensive study and travel in Western Europe, Mexico, and the United States to observe the effects and trends concerning socialism have given Dr. Newman a keen understanding of the current and future problems of America.

"Democracy-in-Action," an annual program instigated at Howard Payne by Dr. Newman has won the college and himself many honors. On February 20, 1960, he traveled to Valley Forge, Virginia, to accept an award made by the Freedoms Foundation to Howard Payne for the college's outstanding contribution to the democratic way of life.

In recent years Dr. Newman has served on the National Committee for the White House Conference on children and youth, and on the three member board of the Texas Youth Council.

Following Dr. Newman's speech, the students will divide into study groups, in which they will discuss various problems concerning student council work.

Luncheon will be served at 12:15 by the Women's Study Club of McCamey.

Although the afternoon session is mainly a business session, it will include activities concerning the foreign exchange students in member schools.

The president of the West Texas Forum is Permian High School in Odessa. Snyder High serves as vice-president, McCamey as secretary-treasurer, and Iraan High as parliamentarian.

The main purpose of the West Texas Forum is to promote democracy throughout student councils.

Why should you buy U. S. Savings Bonds when there are so many other good investments?

To help your country is one answer—and a good one. But Bonds have other advantages that make them worth your consideration. For instance, they offer you just about the easiest way to save money: either through the Payroll Savings Plan where you work by just asking your employer to put part of your wages aside towards a Bond or by buying Savings Bonds at your bank. Another unique advantage of U.S. Savings Bonds is the way they stick with you. You can get your money any time. But if you're like most people, you'll hang onto your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America. Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever. Buy Savings Bonds. The banks and savings institutions that sell them don't charge you a penny for the service.

Important facts about U. S. Savings Bonds

- You get \$4 for every \$3 at maturity
- Your Bonds are replaced free if stolen, lost or destroyed

Keep freedom in your future with U.S. SAVINGS BONDS

Americans Aren't Eating As Much But They're Eating Higher On Hog

Americans aren't eating as much as their ancestors did 50 years ago but, as the old saying goes they're higher on hog.

In other words, their income enables them to be choosy about what they eat and this adds up to a better diet.

Department of Agriculture officials were asked how food consumption and variety a half century ago stacks up against today's eating habits.

The answers were many; some of the reasons complex. But one thing stood out: along with each 10 per cent increase in per capita income there has been a 2 per cent increase in the amount of food consumed. But processing methods have brought the bulk intake down.

Marguerite C. Burke, a department economist, said that "consumption of beef, poultry, butter, frozen foods, citrus fruits, salad vegetables and ice cream tends to rise as incomes rise." But consumption of the old standbys of the less affluent citizens — potatoes and corn meal — falls accordingly.

Back in 1909-10, Americans who could afford it ate a lot of food. Per capita consumption was 1,619 pounds. By 1962, with hundreds of processed goods on the market, this had dropped to 1,443 pounds. There may be an increase in 1963 but this still is uncertain.

Poundage Not True Measure
Department officials said that poundage today is not really a true measure of consumption nor does it reflect a citizen's food preferences. Instead research experts base their findings on supply and demand.

They said the reduced animal intake reflects less consumption of bulky foods. For example, they said, frozen orange juice now seems more popular than a whole orange. Also, they added, some processed foods are selling better than their fresh counterparts.

In this evolution, big changes have taken place in the American diet. Since 1947-49, consumption of beef, poultry, vegetable oils and processed fruits and vegetables has risen sharply while consumption of cereals, potatoes, fresh vegetables, animal fats, eggs, milk and pork has dropped.

Poultry consumption has been influenced by better handling and lower prices. Trends for some other foods reflect a demand for the more convenient processed foods.

Milk Consumption Down
Officials also said that the considerations of health, obesity and nutrition have cut in the market for animal fats, milk, eggs and cereals. A drop in milk consumption, for example, possible reflects fear of radiation fallout from nuclear weapons test explosions.

Rex F. Daly of the Department of Economic Research said most of the trends now prevalent are expected to continue.

"Further declines are in prospect for pork, eggs, milk, and cereals," he said. "The composite of projected changes point to a further small decline in total

pounds of foods consumed and in the index of per capita food consumption."

Average Is Constant

Average consumption of total protein has stayed just about constant during the past 50 years at about 10 grams a day. But 50 years ago half of this came from animal sources. Today, about 25 of the protein supply is of animal origin while the rest is of plant origin.

In short, there is twice as much high quality, complete animal protein available as plant protein.

The National Live Stock and Meat Board reported that total fat consumption has slowly increased where as total carbohydrate consumption has decreased. The result has been

an overall decrease in calorie consumption.

Consumption of fats and oils has been relatively constant since 1931 but with a decided decrease in butter and lard, accompanied by a corresponding increase in margarine, shortening, and cooking and salad oils.

In 1909, the per capita American consumed 360 pounds of dairy products. In 1945 this went up to 440 pounds. But in 1961 it dropped to 377 pounds. The same American ate 284 eggs in 1909 and 386 in 1945. By 1961, this had dropped to 315.

Meat, fish, and poultry consumed in 1909 by the per capita eater totaled 158 pounds. In 1961, the total was 182 pounds. In 1963, per capita consumption of red meats alone will be a record 166.8 pounds. Beef will lead with 92.3 pounds.

Farm Bureau Members To Meet In Dallas Nov. 10-13

Almost 2,000 Texas Farm Bureau members, including over 750 official voting delegates, are expected for the organization's 30th annual meeting in Dallas November 10-13 at the Hotel Texas, according to President C. H. DeVaney of Waco and Coahoma.

Voting delegates representing the 200 organized county Farm Bureaus in Texas will adopt state policies for 1964 and approve national recommendations which will be considered in December at The American Farm Bureau Federation convention. In addition to policy formulation, the TFB convention program will include the president's annual message by DeVaney, commodity and special conferences, Talk Meet and Talent Find activities for Farm Bureau young people, election of seven directors, addresses by outstanding guest speakers, and the finals of the state-wide queen contest.

In pre-convention activities, the TFB board of directors will meet on the morning of November 6 in Fort Worth. At 2 p.m. that day the 39-member resolutions committee, composed of one director and two lay member resolutions committee, composed of one director and two lay members from each of the 13 districts in the state, will convene to draft tentative resolutions from the hundreds of recommendations on scores of issues sent in by county Farm Bureaus.

Convention registration will get under way Monday morning, November 11, with the annual report by Secretary-Treasurer Edwin Sanderson of Paris and the annual message by President C. H. DeVaney of Waco and Coahoma. A recognition program honoring counties and individuals will conclude the morning session.

A general commodity conference is scheduled to begin at 1 p.m. that day. Special conferences are slated for 2 p.m., and district caucuses will begin at 4 p.m. The annual TFB queen contest will be that evening at 7:30 in the Majestic Theater.

Tuesday morning's activities will start with a breakfast for voting delegates at 7 p.m. Three guest speakers, as yet unannounced, will address the general session that morning. The business or voting session will be called to order at 1:30 p.m., Tuesday, and will continue with voting delegate action on resolutions until 5 p.m. recess. Clayton Rand, Gulfport, Miss., publisher and columnist will be speaker at the annual banquet beginning at 6:30 that evening.

On Wednesday morning, the business session will re-convene at 9 a.m. and continue until all proposed resolutions have been either adopted, amended or rejected. The delegates will also elect state directors for Districts 1, 2, 5, 7, 9, 11, and 13 for two-year terms. Following adjournment, the TFB board will meet to elect officers from among their own number.

Homecoming activities of the Borden County High School in Gall will be held Friday night. The ceremonies will be highlighted by a 7:30 p.m. game between the Gall Coyotes and the Dawson Bulldogs.

In honoring the class of 1954, a reception will be held in the cafeteria after the game.

Kevin, Karen, and Kenneth Bruce of Odessa, spent last week with their grandparents, Mr. and Mrs. Bonnie White.

Mrs. L. D. Adams is a patient in the local hospital.

Record Bridge Ready for Road

NEW YORK CITY'S stately new portal, the Verrazano-Narrows Bridge, presents this appearance to the world as U.S. Steel workmen prepare to install the roadway structure of the record-setting link between Brooklyn and Staten Island. Fifty-one thousand tons of steel will be suspended from the four recently-completed main cables—"spun" from 145,000 miles of special steel wire—in a new construction phase scheduled to start by mid-October. Steel for the center span—the world's longest at 4,260 feet—will be towed on barges down New York Harbor from a Jersey City assembly yard operated by U.S. Steel's American Bridge Division, which is building the bridge for the Triborough Bridge and Tunnel Authority. Ammann and Whitney, consulting engineers, designed the Narrows crossing scheduled to be opened late next year.

COLORED WASHABLES KEEP THEIR SPARKLE WITH CLEAN FLAMELESS ELECTRIC DRYING

Your colored washables retain their bright original look when dried in the clean gentle heat of a flameless electric dryer. Comparative tests* made by the U. S. government show that electric drying produced the least color change of any method of drying. The same tests revealed significantly less yellowing of white fabrics and less deterioration of certain synthetic fabrics with electric drying than with other automatic methods. This means your washables look better and last longer when dried electrically. See your favorite appliance dealer soon.

Highlights and Sidelights FROM Your State CAPITOL

School people have inquired whether passage of the constitutional amendment on November 9, removing the poll tax as a requirement for voting, will cut down on State aid to schools. The answer is "no."

Dr. D. Richard Bowles of Austin, former president of the Texas State Teachers Association, says repeal of the poll tax will not harm public schools financing since the levy provides only three-tenths of one per cent of State aid to local schools.

He noted further that the amendment does not call for cancellation of the poll tax. It merely removes it as a requirement for voting. He added that if a school district lacks anything toward its minimum program, "it will be automatically made up from the Minimum Foundation Fund."

"School people who feel that the poll tax should be removed as a qualification for voting should have no hesitation about voting for Amendment No. 1 on November 9," Dr. Bowles said.

ALCOHOLISM RATE HIGH—Educating the public on alcoholism and trying to give aid to alcoholics is a very difficult job. But it is one to which the six-member Texas Commission on Alcoholism and its director, Macon F. Freeman, are devoted.

It is estimated that there are close to 6,000,000 alcoholics in the U. S. with some 300,000 of these in Texas.

Freeman says the alcoholic tries to hide himself. His family and friends try to shield him. Together they succeed

so well that most people think he's buried on skid row.

"About three per cent are on skid row. But more than 90 per cent are your neighbors," said Freeman. "They have good jobs. But they are disturbed and their families are disturbed."

He said that for every 100,000 alcoholics who are rehabilitated, another 250,000 get sick. Ministers, doctors, nurses, social workers, Alcoholics Anonymous and just plain interested citizens are working just that much harder to combat the disease. He said an estimated 50 to 75 per cent of "identified" alcoholics can be cured.

Texas Commission on Alcoholism works for education and rehabilitation through cooperation with other state agencies, and with some 30 community councils on alcoholism.

TEXAS IS AVIATION MINDED—Texas provides more airports for civilian aircraft than any other state. A recent survey shows that Texas has 621 civilian and joint-use airports. California, which follows second, has 505.

However, California leads in the number of aircraft—12,073—while Texas' civilian aircraft total is 7,325.

Aviation is the subject of a lot of talk among state agencies.

Texas Industrial Commission added a licensed pilot to its community coordinator staff.

Two flight safety supervisors with the Texas Aeronautics Commission—John G. Uranga and Laddie J. Roark—are conducting flight safety courses this month in Graham and Breckenridge.

State Legislative Council is making a study of the possibility of a state agency aircraft pool.

PARKS PULL VISITORS—Texas' 46 parks drew 7,200,000 visitors during the 1962-63 fiscal year. That's an all-time high, according to J. Weldon Watson, executive director of the Parks and Wildlife Department.

Of 2,200,000 autos checked, 112,932 were from out-of-state.

McKenzie Park near Lubbock attracted the most visitors, with 1,800,000, closely followed by Garner at Uvalde with more than 1,000,000, and Huntsville with 614,335.

Garner Park was first in campers with 172,683. Huntsville had 93,310 and Inks Lake 38,811. Parks with more than 25,000 campers included Lake Brownwood, Palo Duro Canyon, Possum Kingdom and Tyler.

STUDY COLLEGES—Commission on Higher Education

points to the need for top physical facilities, sound undergraduate programs and weeding out of course duplications at new Angel (San Angelo) and Pan American (Edinburg) State colleges.

Commission approved graduate programs at The University of Texas Graduate School of Biomedical Sciences at Houston. But it declined to take any action on a second request for two new doctorate programs at Texas A&M.

Dr. Joaquin Gonzales Cigarra Jr., Laredo physician, was sworn in as a commission member. He succeeds Jacks Woodward of San Angelo.

Meanwhile, the Governor's Committee on Education Beyond the High School, which is studying college needs, re-vice director, Dr. A. B. Martin, resigned due to ill health.

Dr. Martin has been on leave of absence from his job as president of Amarillo Junior College. Chairman H. B. Zachry of San Antonio said plans for replacing Martin are incomplete. Meanwhile he will remain as a member of the committee.

PLAN INDUSTRIAL PROGRAM—Texas Industrial Commission set the stage for an expanded program after taking on three new members.

Claude Brown of McCamey, Leslie Burnett of Austin, and J. B. McDuff of Crockett attended their first session.

Ray Horton of Houston accepted appointment by Governor Connally to a new term.

Chairman E. B. Germany of Dallas named Brown chairman of a finance sub-committee. He also appointed McDuff and Burnett to the commission's sub-committee on public relations, along with John Ben Shepperd of Odessa.

Commission ramrods the State's program of advertising for new industry to boost the Texas economy.

OIL OUTPUT CUT—Texas Railroad Commission ordered oil production for November set at the lowest point since January. Figure established was 27.5 per cent of potential. In brief that's 2,898,183 barrels daily as compared with 2,878,206 for October.

Oilmen got into a fuss at the state-wide hearing.

Alvin C. Hope of San Antonio questioned "self-appointed emissaries to Washington who want to bundle up our problems and drop them in the lap of the federal bureaucracy."

Stanley Wood of the Texas Landowners and Oil and Gas Producers Association said Hope was talking about him. Retorted Wood: "Washington isn't interested in taking over. They are concerned with deterioration of our domestic reserves. They want us to get our own house in order."

INSURANCE RULINGS—Insurance companies were given until October 23 to submit recommended credit insurance rules after Atty Gen. Waggoner Carr released an opinion bearing on the \$15,000,000-a-year industry. State Board of Insurance

also announced businessmen will pay lower rates for workmen's compensation insurance coverage. Rate for manufacturing workers will be a 3.7 less; for the contracting industry 0.5 per cent less; for the oil industry 2.4 per cent less; and for all other 2.4 per cent less.

ESTES TRIAL SET—Court of Criminal Appeals has set for October 10 a hearing on the appeal of Billie Sol Estes from an eight year prison sentence.

Last November 7, a Tyler jury convicted Estes, formerly of Pecos, on a swindling charge in connection with liquid fertilizer tank deals. Estes later received a 15-year federal sentence for mail fraud in the tank mortgages.

STUDY BOOK PROTESTS—State Textbook Committee recommended 116 books for public school use after studying written and oral protests against five on economics and three on world geography.

"What we want are books that will tell the students we want small government, not big government, for sound economics," said one witness, Roger K. Harlan of Dallas.

Chairman John W. McFarland, Houston, said some of the objections indicated a lack of understanding of the maturity and thinking level of present-day high school seniors.

In it's final vote, the committee recommended only two books which had drawn protests.

STUDYING DEPARTMENTS—Governor Connally is paying a series of visits to State departments and agencies, studying their problems first hand.

Purpose is to establish better lines of communications between the divisions and his office.

Says the Governor: "We need to articulate what our problems are."

DROUGHT WORRIES—Major Texas reservoirs were less than two-thirds full last month, compared with 79 per cent in September of 1962, the Texas Water Commission reports.

"The drought is not like that of the 1950's, however," says State Agriculture Commissioner John White. "Normal rains in the fall and winter and next year would make this year's deficit incidental." White feels. "But if it's dry again next year, Texas could be in another major drought," he warns.

Rev. C. R. LeMond attended a training meeting in Abilene last week. The meeting began Monday and continued through Thursday.

Mr. and Mrs. W. M. Nichols are visiting their son, Jack Nichols, and Mrs. Nichols at Seagraves.

Weekend guests of Mr. and Mrs. Porter Motley were her sisters, Mrs. P. L. Crawley and Mrs. G. W. Houston of Midland. A sister-in-law, Mrs. Sadie Terry of Lubbock, was also there.

Beta Sigma Phi Activities

The Xi Alpha Beta chapter of Beta Sigma Phi met Thursday evening in the home of Mrs. Pete Woody. Mrs. Leo Turner, president, presided at the meeting.

Mrs. Glen Gates reported on the City Council meeting. Plans were discussed for the fall banquet to be held at the Holiday Inn in Big Spring on October 26.

Mrs. Stanley Reid announced plans for a Home Nursing Course she will teach in November.

Mrs. Joyce Woody, program chairman, introduced the program from the study "In Word and Deed and Thought." Mrs. J. M. Yater gave the program on "Public Speaking."

Refreshments were served to Mrs. Glenn L. Brown, Mrs. P. M. Bristow, Mrs. Helen Dawson, Mrs. Glen Gates, Mrs. Bob Haislip, Miss Sammye Laws, Mrs. Elmer Long, Mrs. Bob Latimer, Mrs. Stanley Reid, Mrs. Jess Tattion, Mrs. Leo Turner, Mrs. John Wood, Mrs. Joyce Woody, Mrs. J. M. Yater, and the hostess, Mrs. Pete Woody.

The Rho Xi chapter of Beta Sigma Phi met in a model meeting Thursday night at the home of Mrs. Tom Ed Angel. Mrs. Benny Welch, president, presided over the business meeting.

Mrs. Welch explained what sorority is to the new rushees. A program on the motto, "Life, Learning, and Friendship," was presented. Mrs. Jay Dee House gave "Life," Mrs. John Calvin Jones presented "Learning" and Mrs. Richard Lewis spoke on "Friendship."

A city council report was given. It was announced that the fall banquet honoring the rushees would be on October 26 at the Holiday Inn in Big Spring. The Xi Theta Nu chapter is in charge of the arrangements.

The Launching Pad

By NEAL ESTES

PAUL (PULLEY) PETERS, an old-time Martin County settler, and former neighbor of the late **JIM KELLY**, sent in a note this week to your editor. It read: "I'll be there with a load of pecans Saturday. That's all. But knowing **PULLEY**, he means that he will have a big load of good pecans priced right to sell and that his truck will be parked on the east side of the courthouse. So you good Martin Countians looking for pecans for Christmas cakes, confections, et al, be here Saturday and contact **PAUL**. Oh yeah, he didn't say what time he would be in town but he is sure to be here unless he breaks a leg between here and Comanche County. This commercial notice is possibly the (longest and freest) we have printed in a long, long time. But the price tag on friendship is never determined."

MARTIN County, like all small centers, can claim it's share of peculiar people. How about this story for an example? A big New Frontiersman from the northern neck of the county was in town recently lining up pallbearers for his wife's funeral. He walked up to a citizen and asked him if he would serve as a pallbearer at his wife's funeral. The stunned citizen said: "When did your wife die?" The man remarked: "She didn't, but when she does, I want to have that much of the worry and bother out of the way."

WORD has drifted down the line that a gal on the staff of the **PECOS INDEPENDENT** is writing a series of articles on the progress of that town during the past seventy-five years. There's a smart writer for you—a storehouse of material from **ROY BEAN** to **BILLIE SOL**. It would be a good idea for her to put her articles in a book. A suggested name for the novel: "From Beans to Billie."

KENNEDY said he sold wheat to Russia to get **GOLD**. In a speech recently, while touring the West, he said the country needed more **WATER**. What's this? Is **JACK** saying the country needs **GOLD-WATER**? We know where there are three brass-collar Democrats who will gulp, belch, and quit laying around on the streets of Stanton, if this thing works out.

CHARLEY ECKERT brought us several cuttings from some of his pecan trees this week and we have them on display in the office. In the next issue of the newspaper we will have a story about the local citizen and his pecan trees. In the meantime, we would like to pass on this clever story. Last year, **ECKERT** took a cluster of large pecans down to the **FIRST NATIONAL BANK** and presented them to **JIM TOM**. **MR. TOM** displayed them and a fellow dropped by the banker's desk for a business talk. He asked **TOM** what they were—and the banker, without cracking a smile replied: "Oh, those, just a new type of cotton." The green pecan clusters were almost the size of cotton bolls.

PRESIDENT **ROY PICKETT** of the **MARTIN COUNTY CHAMBER OF COMMERCE**, presided at a called meeting of the directors and members of the committee on memberships Tuesday afternoon in the chamber office. The newest project announced by **PICKETT** and **MAURINE VARNADORE**, local manager, was discussed. Another town meeting will be held with a chili supper as the big attraction on the evening of November 4. Everyone had a lot of fun at the chamber's Spring Festival, when pancakes were served. Merchants participated generously with attractive outdoor displays, with donation of door prizes, etc. The event will stand a repeat performance. Let's all get behind the event and be sure and buy a ticket. Don't just buy a ticket for your family, get several for your friends and customers too. The tickets are on sale by the directors, membership committeemen and at the Chamber office. They are priced at just fifty cents each.

THE Membership Committee of the **MARTIN COUNTY CHAMBER OF COMMERCE**, under the able leadership of **CECIL BRIDGES** will hold a special breakfast session in Stanton on the morning of October 29. The chili supper will formally launch the annual drive for memberships, **BRIDGES** said.

PATRICIA MILLER, daughter of **MR. and MRS. CLYDE MILLER**, this city, has been selected for a part in a two-act musical drama by **MINOETTI** to be presented at **SUL ROSS STATE COLLEGE**, where **MISS MILLER** is a junior. She is majoring in elementary education. **PATRICIA** is a graduate of Stanton High School.

CONGRATULATIONS go this week to one of the finest women we ever knew and one who is highly admired, loved and appreciated by all residents of Martin County. We refer to **MRS. GLENN L. BROWN**, who was acclaimed as an outstanding civic leader in Stanton last year at the annual Martin County Chamber of Commerce banquet. **MRS. BROWN'S** photo and a nice story of her acknowledged honor appeared in the current issue of "THE TORCH" the official publication of **BETA SIGMA PHI** sororities. On behalf of all of your many friends, **MARY PRUDIE**, we salute you.

NEAL'S NUGGET: If the last session of the Texas Legislature had provided adequate Congressional redistricting, as the law provides, the big ruckus and loud, defiant talking going on in official circles in Austin wouldn't be necessary."

FARM REVIEW AND FORECAST

Recently there has been some confusion among cattlemen about the use of Co-Ral for screwworm and cattle grub control, according to entomologists with the Texas Agricultural Extension Service.

Co-Ral should not be used after October 1 as a 0.375 percent spray as recommended for grub control, they say. However, the 0.25 percent spray of Co-Ral or 0.5 percent Korlan spray as recommended for screwworm control, can be used at any time.

Occasional reports of the death of weak, stressed or anemic animals following the use of Co-Ral may not necessarily be due to the application of the insecticide, but merely coincide with it, say the entomologists. In some cases, as after the administration of anthelmintic drugs, animals have died as the result of handling and undue excitement.

However, as with most insecticides, caution should be used when Co-Ral is used for the control or prevention of screwworms. Any death following the use of chemicals should be investigated, including a post-mortem examination, to accurately determine the factors contributing to the death, they recommended.

Crop damage claims in Texas may exceed \$3¼ million on cotton, wheat and grain sorghum for the 1963 crop year.

This is the estimate of Ben A. Jordan, Jr., state director, of the U. S. Department of Agriculture's Federal Crop Insurance program. It is expected that 3,712 farmers will be paid this amount in the 45 counties where all-risk crop insurance is offered for loss-

es due to drouth, hail and excessive moisture.

Currently, almost 12,000 Texas farmers are carrying more than \$30 million in Federal Crop Insurance protection, Jordan said.

The Federal Crop Insurance Corporation is an agency of the U. S. Department of Agriculture. The payments it makes do not come from tax funds, Jordan pointed out, but from insurance premiums paid by farmers. Nationally, 97c out of every dollar paid in premiums has been returned to farmers in the form of indemnity payments.

Federal Crop Insurance is designed to protect the farmer's high investments in growing crops against all unavoidable crop losses, such as drouth, excessive moisture, hail, insects, plant diseases, etc., Jordan said.

Despite today's trend toward smaller packages of food and more convenient foods, the sale of quarters and sides of beef is on the increase, says Ed Uvacek, livestock marketing specialist, with the Texas Agricultural Extension Service.

In some cases, says the specialist, buying beef in this form can save the consumer

money, but he advises them to look carefully at the economics of such purchases. Unfortunately, all the carcass is not steak and roast. A large portion is cutting loss, fat, bone and low price cuts. In fact, Uvacek says that it takes about 2.16 pounds of a choice grade live animal to yield just one pound of U. S. Choice beef in a retail store.

To compare this price with the one quoted for beef by the side, first divide the price per pound of side by 80 and add the price for storage of the meat, about 5 cents per pound. To decide if buying beef by the side is really a bargain, compare this figure with the retail price per pound, says the specialist.

Other factors to be taken into consideration when buying a side or quarter of beef are to make sure that the same grade is priced in both cases, storage costs may vary tremendously, and remember that processing, cutting and wrapping is assumed to be included in the original quoted carcass price given by the dealer. Also, many low priced cuts, such as flank, plate, brisket and short ribs are included in the ground meat or stew meat percentages, says Uvacek.

Refreshments were served following the meeting. A fall centerpiece was placed on the serving table.

Youth Rally Planning Party

The Big Spring Baptist Association Youth Rally will be held Saturday night, October 26. The group will hold a haunted house Halloween party.

The youth of the First Baptist Church of Stanton will meet at the church at 6:30 p.m. The group and their sponsors will go to the "Haunted House."

The local arrangements are being made by the youth committee, headed by Mrs. J. C. Sale.

The associational plans are made by the youth social committee, with Lynda Pierce of Tarzan, serving as chairman.

James Franklin To Conduct Program Nov. 5

James Franklin, a specialist in landscaping horticulture from A&M University, will conduct a Landscaping Horticulturist program on November 5.

The event, sponsored by the Martin County Building Committee, will begin at 9:30 a.m. at the Cap Rock auditorium.

The public is cordially invited to attend the meeting. Mr. Franklin will conduct a question and answer period pertaining to the landscaping problems in this area.

Those serving on the committee are Jerry Hanson, chairman; Mrs. O. D. Green, Mrs. W. T. Wells, Mrs. John Pinkston, Mrs. Arthur Wilson, and Mrs. Mildred Eiland.

Buffalo "B" Team Defeats Roscoe, 32-12

The Stanton Buffalo "B" team defeated the Roscoe "B" team by a score of 32-12, in a game here Thursday night.

Coach Roy Dodds stated, "This was the best ball game the boys have played this year. They showed a desire and spirit to win the game."

Dodds stated that Darr Huckaby and Larry White were the most outstanding players on offense. Philip Payne was an outstanding player on defense. The coach said he played freshmen boys during most of the game.

The touchdowns were scored by Darr Huckaby, Randy Huckaby, and Butch Robnett. The boys will be idle for the next two weeks. They will play Wink at 7 p.m. on November 7 at Wink.

The "B" team defeated the Roscoe boys earlier in the season. The local team has been defeated by Sterling City, Garden City, Loraine, and Wink.
