## FHA Group To Observe Special Week

By NEAL ESTES

Many families gathered in the county for an Easter reunion and we attempted to record as many of these special events as possible in this issue of the newspaper. Sons and daughters, parents and friends from many places visited in the city and county the past Sunday, and as far as we could find out not a single accident occurred in Martin County despite the heavy traffic on the highways.

It was nice to make the acquaintance of MARSHALL TRIMM this week. He has been associated with BOB CAIN'S IMPLEMENT and SUPPLY here for the past several weeks. TRIMM is from the Roby-Rotan area and we were impressed with his energy and personality. By-the-way, CAIN TRACTOR has a couple of attractive advertisements in this issue of the paper and you are invited to read both of them carefully.

In the next issue of THE STANTON REPORTER we will print required state regulations concerning the publication laws of Texas. The publication laws concern financial statements, audits, bid notices, etc. They are plainly set down in VERNON'S STATUTES.

A letter and press release from JIM LINDSEY, information officer at TEXAS A&M UNIVERSITY in College Station arrived the past week giving details of the third annual Justice of the Peace and Constable's Institute held there. MARTIN GIBSON was among the twenty-two lawmen attending. A. L. SANDFER, Lamesa justice was also in attendance along with SILAS CLARK of Abilene and OWEN DOGGETT of Andrews.

MRS. JOE STEWART telephoned us that the family missed the last issue of the paper and sent out another one. We have made some recent changes in the personnel of the publication and we feel like, in time, we can get leveled out again because we have a very fine young man, ALTON MCCORMICK now in our mailing department. In the meantime, if you miss your paper, please contact us for our chief purpose in printing is to serve the people who subscribe to our paper.

We have been advised through an area newspaper that JOHN W. BLOCKER, son of our MR. JOHN BLOCKER, and brother of HORACE, MRS. FINLEY RHODES and MRS. O. L. SNOGRASS is a candidate for mayor of Jal, N. M. He is in the insurance and building supply business in Lea County and has a brother, GEORGE, one of our subscribers incidentally, who has served a long time in the New Mexico State Legislature from Lea County. If we lived in Jal it would be our privilege to cast a ballot for JOHN W. BLOCKER.

Mr. and Mrs. George B. Long of Lubbock, spent Saturday in the home of Mr. and Mrs. P. M. Bristow. Mrs. Long is a sister of Mr. Bristow.

Dr. and Mrs. James V. Fisher and children Gail, Gary, Cathy, and Mark of Rusk, spent the weekend with Mr. and Mrs. Bob Latimer. Mrs. Fisher is a niece of Mrs. Latimer. They also visited with her mother, Mrs. Lu Black.

Guests in the R. O. Anderson home during the past weekend were their daughter and family, Mr. and Mrs. Bob Boyce of Dallas, Mrs. Bob Milburn and children, and Mrs. Gerta Anderson, mother of R. O. Anderson.

### Wildcat Test Slated For South Martin

By JAMES C. WATSON

Operations are scheduled to start immediately on a 12-100-foot Ellenburger wildcat in South Martin County.

The prospector, to be drilled by Ken Merren, W. C. Montgomery and James E. Callaway of Midland as No. 1 Shoemaker, is eight miles northwest of Stanton and 11 miles northeast of Midland.

The location is 990 feet from west and 2,173 feet from north lines of section 40, block 37, T-1-N, T&P survey. It is 3/4 miles northeast of the Ellenburger discovery in the multipay Stanton field.

That area, at one time, had a producer from the Wolfcamp and a well in the Fusselman. Production from those three zones has been depleted, however the field still has two marginal Spraberry producers.

### Fee Required For Address Changes

After this week, all changes of address, must be reported directly to The Stanton Reporter, P. O. Box 248, Stanton, Texas.

If you are a subscriber, wish to change your address, and live out of Martin County, just mail us your old and new address. We will change it without charge. If you use any other method of changing your address, we will require a fee of twenty-five cents per change. It takes this much to process a change after two or three notices are received at a charge of ten cents each time. County newspapers, charging only \$3 a year for an out-of-town sub simply can't do business on this basis. We have but this single alternative — either raise the subscription price for all outside subscribers or require the 25 cent fee for changing an address in the future, unless a postal card is mailed directly to the paper. That way any subscriber will only have to pay 4 cents.

If we receive any other changes of address in any manner other than the one specified above, we will simply hold your newspaper up until the twenty-five cent fee for changing is mailed in.

If you live in Martin County, want to change your address, it is plain. Just pick up your phone, report the change, mail in a card, or come by the office when in town. No charge for a local change of address will be made, if you use any one of these three methods.

### Stantonite's Kin Dies In Dallas

Services for Mrs. C. S. Bevers, 68, were held at 10:00 a.m. Tuesday, March 31, at the Franklin-Bartley Funeral Home Chapel, in Lubbock.

Mrs. Bevers was the mother of C. S. Bevers, Jr., of Stanton. Cy Denton, elder of the Primitive Baptist Church, of Stanton.

### Merchants Ready For Big Dollar Day

Stanton merchants are ready for one of the largest Dollar Day festivals in the history of the special day event.

Monday, April 6, will find customers in the county seat from all over the Martin County area.

Area shoppers have learned that there are some mighty good bargains in Stanton, and that the lines and quality of merchandise carried in local county stores are just as good as can be found anywhere else.

Stores in Tarzan and Lenora, and the other Martin County community stores are also doing a fine job in keeping the latest in wanted items in stock.

Read the ads in this issue of the paper and next month the first issue in May, and have an advertisement over your own store signature in the columns of The Stanton Reporter. You'll be pleased at the results.

### County School Elections To Be Held April 4

Judge Jim McCoy, county school superintendent, has announced that all is in readiness for the Martin County school board elections, which will be held on Saturday, April 4.

The polls will be open from 8:00 a.m. to 7:00 p.m.

Boxes will be located for the Stanton Independent School District at the Junior High gymnasium in Stanton, in Lomax in the old Lomax school house, and at Courtney at the Courtney school.

Grady voting box will be at the Grady school, and Flower Grove voting box will be at the Flower Grove school.

Three trustees will be elected for the Stanton Independent School District. Those announcing as candidates are Stanton White, G. P. Harrell, and Fred Holder.

Two trustees will be elected for the Grady Independent School District. Those announcing for the two places are L. V. Welch, Jimmy Sawyer, and Lloyd Mims.

Three trustees will be elected for the Flower Grove School District. Due to the fact that there are no announced candidates, these offices must be filled by write-in ballots.

### Cindy Davis Winner Of Spelling Bee

Cindy Davis, seventh grade student in Stanton Junior High won the Martin County spelling bee held March 25, and earned the right to represent the county in the regional spelling contest to be held in Lubbock April 11.

Cindy is the daughter of Mr. and Mrs. George Davis. Alternate will be Frances Deavenport, daughter of Mr. and Mrs. Bob Deavenport. Thirty students were entered in the contest and these were narrowed down to ten finalists. The finalists were: Sue Walker, Carl Herzog, Sherry Avery, Bill Romine, Melvin White, Danny Murley, David Workman, and Scotty Fisher.

Cindy received a Paper-Mate inscribed pen, and blue ribbon as local winner, and as county champion was awarded an engraved plaque. She will be among 23 county winners.

### Western Production Credit Group To Hold 30th Anniversary Meeting

Farmers and ranchers from throughout a 12-county area of West Texas and the Permian Basin will attend the 30th annual stockholders' meeting of the Western Production Credit Association, to be held at the high school auditorium here Saturday, April 4.

Registration for the meeting of the agricultural financing institution will begin at 9:30 a.m., followed by the business meeting at 10:30 and a barbecue luncheon at noon. General Manager David K. Workman of Stanton announced.

"We want to urge all our stockholders to make every effort to attend their meeting," Workman said. "This will be the highlight of our 30th anniversary and an informative and interesting meeting has been planned."

Guest speaker at the business meeting will be Perry D. Pickett of Midland, District Judge of the 170th Judicial District.

"We are extremely pleased to have Mr. Pickett, an outstanding speaker and a widely known West Texas leader, as our guest speaker," Workman said.

Other business meeting activities will include an election of two directors, a board report, and a financial report.

Nominated for reelection to the board for three year terms are J. W. Broughton of Big Spring, and B. W. Golladay of Midland. Broughton was appointed to the board in 1963 to fill the unexpired term of Walton Poage of Rankin, who resigned. Golladay has served as a director for several years, and both he and Broughton are prominent West Texas agricultural leaders.

Holdover directors are President Jim Franklin of Stanton; Vice President E. G. Branch of Rankin, and George Clark of Odessa.

Director Broughton will give a report on activities of the association during the past year, and Workman will give the financial report. A 1965 nominating committee will be elected and Bryant A. Harris of Glasscock County will preside at the business meeting.

Serving on the 1964 nominating committee were Leonard Coleman of Howard County, O. Robertson of Martin County, and Lloyd Mims.

### Texas Bar Would Enjoin Bell's Texas Practice

The State Bar of Texas has accused San Francisco attorney Melvin Bell of "outrageous conduct" following the Jack Ruby trial and approach of the State Supreme Court for an injunction to prohibit Bell from practicing in Texas.

In a lengthy brief filed by Davis Grant, general counsel, and L. Money Adams, Jr., his assistant, the bar said Bell's "flagrant violations of the canons of ethics have shocked the consciences of not only the lawyers of Texas and the nation, but the public as well."

The motion asked high court permission for leave to file suit for a permanent injunction.

The bar accused Bell of "violent outbursts and outrageous conduct" shortly after Jack Ruby was sentenced to die for the murder of Lee Harvey Oswald.

Perry D. Pickett, PCA Guest Speaker

tin County, Gale W. Pugh of Midland County, John E. Post of Andrews County, Myrtle Kelton of Crane County, Bryant A. Harris of Glasscock County, Ezra Trotter of Upton County, and Eddie Von Gonten of Reagan County.

The Western Production Credit Association, owned and operated in its entirety by more than 300 farmer and rancher stockholder-borrowers has provided nearly \$100,000,000 in agricultural financing to its borrowers since its organization on January 8, 1934.

All association assets are member owned. Workman pointed out, and loan funds are obtained through the sale of bonds to the nation's investing public by the Federal Intermediate Credit Bank of Houston, discount and supervisory agency for all 36 PCA groups in Texas.

"We have but one business," Workman declared, "and that is to provide a dependable source of agricultural credit at the lowest possible cost to qualified borrowers."

The association serves Andrews, Crane, Ector, Glasscock, Howard, Loving, Martin, Midland, Reagan, Upton, Ward and Winkler counties. The association's office is located in Stanton.

Assisting in annual meeting plans were the following office personnel: Assistant Manager, Charles E. Champion; Bookkeeper, Mrs. R. P. Simpson, and Office Secretary Mrs. D. B. Keaton.

### City Election To Be Held On April 7

The city election will be held on April 7, in the basement of the First Methodist Church.

A mayor and three councilmen are seeking re-election for two year terms. S. W. Wheeler will be seeking a two year term as mayor. Delbert C. Franklin, Sam Houston, and Albert A. Johnson are seeking two year terms as city councilmen. All three are serving in that capacity at the present time.

The polls will be open from 8:00 a.m. until 7:00 p.m. and qualified voters are urged to participate in the election.

### Democratic Women To Organize

Mrs. Howard Hurd of Brownfield, Democratic committee woman for senatorial district 28, will in Stanton on Wednesday, April 8, at 10:00 a.m. to assist in the organization of a Democratic women's group in Martin County.

The meeting will be held in the district court room at the courthouse and women who are interested should make an effort to be present at the initial meeting in order that plans may be formulated.

### Grady PTA To Sponsor Variety Show

The Parent Teacher Association of Grady School has announced that they will sponsor a variety show, to be held on April 17 at 7:30 p.m., at the Grady School.

Persons interested in participating in the show are asked to contact Mrs. J. C. Greenhaw or the Grady School office for information.

Admission will be 50 cents for adults, and 25 cents for children, and proceeds from the event will be used for a school project.

### Gay Gates Chosen As Lions Club Sweetheart

Gay Gates was chosen as Lions Club sweetheart by vote of the members at the regular meeting of the Lions Club held at the Belvue Restaurant on Tuesday, March 31.

Gay is the daughter of Mr. and Mrs. Glenn G. Gates, and will represent the local club at the district Lions convention to be held May 1 and 2 in Brownwood.

Candidates for sweetheart were: Susan Brandt, Linda Franklin, Mary Wilson, Gay Gates, and Linda Manning.

Officers for the coming year were also selected by vote of the members. They are: Udell Morris, president; Bob Cain, first vice president; Roy Pehmister, second vice president; John Wood, third vice president; Roy Pickett, secretary; George Walters, Tail Twister; F. O. Rhodes, Lion Tamer; Jack Ireton and James Jones, directors; Pauline Wood, sweetheart, and Rev. C. R. LeMond, chaplain.

Rev. LeMond, program chairman, presented Bill Johnson, high school principal, who introduced officers of the Student Council. They are: Carroll Anderson, president; Dale Thompson, vice president; Larry Haggard, secretary, and (Continued on page 8)

### Local County Members Ready For Big Event

Stanton Future Homemakers of America will observe National FHA Week, beginning Monday, April 6, and continuing through April 11.

Theme of the week is "Good Citizenship" and the chapters will be working to make people aware of the purposes and activities of the organization. FHA members will be wearing citizenship badges to school all week.

To begin the week, local FHA students will present a program on citizenship and flag etiquette at a school assembly in Stanton High School auditorium on Monday. FHA members in charge of the program are Leta Johnson, and Janis Burgess. They will be assisted by members of the Marine Reserve Center in Midland, under the direction of Captain Petross.

Colors will be presented by the color guard from the reserve center. A recording of the history of the flag will be played, and a demonstration will be given on how to store flag, and how to destroy the flag once it is worn.

Leta Johnson will speak on the "Challenge of Citizenship," and immediately following the entire student body will assemble in front of the school building to witness a demonstration on the proper way to raise the American flag.

On Thursday afternoon local FHA members will be guests at a style show and tea, sponsored by homemaking classes.

Officers for the Stanton FHA chapter are: president, Carolyn Springer; vice president, Charlotte Kuhlman; secretary, Nanette Parden; treasurer, Mary Glaspie, and song leader, Brenda Bryant.

Linda Manning has recently been chosen as vice president of Area II of the Future Homemakers of America. The goals of the Future (Continued on page 8)

### Use Of Mexican Laborers To End

Secretary of Labor Willard Wirtz has advised Congress that although the Mexican farm labor program is generally expected to end this year "We are not in a position to be sure about it."

Other Labor Department officials have testified that the task of replacing the nearly 200,000 Mexicans with domestic labor will be formidable.

Robert Goodwin, administrator of the Bureau of Employment Security, said the farm labor service could not carry out a replacement program without more money.

The statements were made at a recent closed hearing of the House subcommittee on Labor Department appropriations. A transcript of the hearing was made public Friday.

The law authorizing the import of Mexicans to work on American farms, first passed in 1950 and renewed several times, expires December 31.

Goodwin said the Labor Department does not favor a continuation of the law.

"Our efforts will be directed toward convincing employers that this source will not be available next year and it is to their own interest to develop a domestic labor source this year," he said.

Of the 213,000 Mexican workers brought into this country last year, 121,000 worked in California and 31,800 in Texas. Others worked in 16 more states.

Wirtz said the expectation is "now quite general that the so-called bracero program is in the windup stage and will not be continued beyond this year, although I should make it clear there are still unresolved questions about that and we are not in a position to be sure about it."

Goodwin said the farm labor service of the Bureau of Employment Security will do what it can in each state to develop field-service teams to explore previously untapped sources of labor for seasonal agricultural employment, and will staff a mobile team to experiment in recruiting, scheduling and dispatching workers to jobs under an interstate annual worker plan.

"The bureau," he said, "is well conscious of the fact that unless we have an adequate seasonal farm labor force in 1965, the farm employers of this country will sustain a great economic loss. We are prepared to go all out, to help them avoid this loss, but I would make it clear that we are facing this task with no additional resources."

"Moreover, throughout the entire federal-state system (Continued on page 8)

Socialism Grows

Everybody knows that the federal government is big business. Not so well known is the incredible extent to which the government has entered business as owner and operator. According to Senator Beall of Maryland, Uncle Sam runs nearly 19,000 commercial and industrial businesses that are in direct competition with private concerns. This list has an almost bewildering variety—coffee-roasting plants, rum distilleries, printing and power plants, the manufacture of medical and dental equipment, plastic-laminating and so on. He even operates movie theatres and ice cream plants. Taxpayers pay private enterprise—the kind we are supposed to be encouraging—pays for this. So do the general taxpayers, for government businesses, in addition to being tax-free, commonly operate at a loss. Socialism is a mighty expensive luxury. As the Citizens Public Expenditure Survey puts it, "Uncle Sam's sole business is to govern and he has no business being in any business." If we really want to spur the economy we'll get the government out of commercial business as swiftly as possible and let competitive taxpayer enterprise do the needed jobs.

Health And Safety Tips

From The American Medical Association

Are you allergic to something? If so, you have a lot of company. About half of us are allergic to something. Pollen in the air can start hay fever, certain foods may start hives. Possible allergens are countless — house dust, animal fur, feathers, cosmetics, bleaches, medicines, foods, pollen. Some people even are allergic to heat, cold or sunlight. And wasn't there a case some years ago of a wife who was allergic to her husband? Most common result of allergy are four illnesses — hay fever, asthma, skin ailments and digestive disturbances. Hay fever is an inflammation of the eyes and nasal passages. Asthma is a disease of the bronchial tubes of the lungs. Food allergies, a sensitivity to one or more foods, can affect the skin, the digestive tract or the respiratory system. Skin allergies cause itching, sometimes rash. Reaction to an allergen varies with individuals. One person may be only slightly upset by eating an egg. Another could become violently ill from the small trace of egg in salad dressing. There still are many unknown factors about the reason why someone suddenly becomes allergic to something. Allergic diseases are not usually fatal, but they cause untold discomfort and suffering. Although worry and stress might be a contributing factor, allergy is not an imaginary illness. It is very real to the sufferer. Sometimes the allergen is known and can be avoided. Sometimes many tests by a physician are required to arrive at the true cause. Medical care is necessary in all cases for relief of discomfort and for protection against future attacks. If you suspect you are allergic to something, see your doctor. Self-diagnosis and treatment is not only futile, it might even be dangerous. **Deer Pal** If you're hunting with a pal and he shoots a deer, stick around. Bible Comment—

St. Paul Describes Riches We Have

"Poor, yet making many rich"; that is how Saint Paul describes the condition and privilege of early Christian believers, many of whom were evidently quite poor in worldly goods. "As having nothing," he adds, "and yet possessing all things." It was not a chance remark or a sentimental idea on the apostle's part, but an expression of his settled philosophy concerning the Christian's possessions. And also, in the First Epistle to the Corinthians, reasoned more directly concerning the Christian's wealth. The Christian belongs to Christ. Christ is God's. All things belong to God. Therefore, he writes to the Corinthians, "All things are yours." The cynic may protest that this sort of wealth will not pay the rent. There is a point in the criticism, but it might also be pointed out that Paul was no visionary dreamer regarding the practical affairs of life. He worked at his trade as tentmaker to support himself, and he insisted that everybody else should work. He would have no loafers in the Christian community. Further, if he admonished Christians to "bear one another's burdens," he qualified this with the declaration that "every man shall bear his own burden." There never has been, even to our time, a clearer statement of social and individual responsibility. His words forcefully bring to the attention that there is a reality of inner wealth and richness of life for which no amount of worldly, material wealth or possession can compensate. One who has missed the Christian's spiritual possessions has missed the greatest treasure that God and life have to offer.

Philosopher Tells How Nation Can Save Billions Of Hours With New Type Lawn Grass

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw reports on a new invention he has run across.) In other words, by the use of this new invention, over the next 50 years the United States alone could save 30,000,000,000 man-hours of labor, and when you come to think of it, 30 billion hours is a lot of time you're missing from television. I am happy to have discovered this item and called it to the attention of the readers of The Stanton Reporter. It was plain generosity, because I don't need such grass myself. I don't mow my lawn, I turn my cows in on it. Yours faithfully, J. A.

Social Security Agent To Be In Stanton Soon

A representative of the Social Security Administration will be in Stanton at the courthouse on Monday, April 27, May 25, and June 22, between the hours of 2:00 and 4:00 p.m. He will assist older or disabled workers and the survivors of those who have died to complete their applications for retirement, disability and family insurance benefits. He will also take applications for social security numbers and furnish information about the social security program to all interested persons. He will also be available for talks to groups upon request. **Camouflage (Hair) Net** A woman's hair net makes a good camouflage net to cover your outdoor motor when duck hunting. ## Fast Cruisers To Aid State Game Wardens

Modernization of state game wardens' motor mounts is being expedited, according to J. Weldon Watson, executive director of the Parks and Wildlife Department.

He said new "Police Specials," powered by 230 horsepower, V-8 engines, are being assigned "where the need is greater." The fast patrol cars replace a slower six-cylinder model.

Watson said the cruisers, standard for agencies held responsible for quick response to calls, "will help overcome a serious handicap to our warden force."

The automobiles, and other vehicles of the department, will be identified by the new department decal. The official insignia basically gives the appearance of the State Seal with an aqua colored disc and "Texas Parks and Wildlife Department" lettered in white. The divisions, wildlife or parks, are lettered in crimson. In the center is a single high-lighted star, encircled by a green wreath, the right side of which is an olive branch—the left, an oak spray. The decal blend with the color of the new "Specials" which are painted neutral gray.

## Brenda Wallace, Aubrey Lee Cox Marry In Ackerly

Brenda Kay Wallace and Aubrey Lee Cox were united in marriage Thursday in the First Baptist Church of Ackerly with the Rev. Walter Smith performing the double ring ceremony.

The bride, daughter of Mr. and Mrs. Norman Wallace of Ackerly, is a student at Sands High School. The bridegroom is the son of Mr. and Mrs. A. M. Cox of Lamesa. He attended West Texas State University and is employed by Bray Implement Company there.

Given in marriage by her father, the bride wore a floor-length gown of white imported peau de sole, with a Chantilly lace jacket. Her tulle veil cascaded from a pearl tiara. She carried a bouquet of yellow roses on a white Bible.

Mrs. Dan Shortes of Ackerly and Mrs. Phil Wallace of Seminole, the bride's sister-in-laws, served as matrons of honor, and the bride's sister, Mary Ann Wallace, was junior bridesmaid. The attendants wore yellow peau de sole dresses and carried white nosegay bouquets.

Revis Reddell of Lubbock, the bridegroom's niece, and Sherila Sawyer of Lenorah, cousin of the bride, were ring girls. Graham Addison and Bill Cleveland, both of Lamesa, served as best men. Reggie Hambrick of Ackerly was junior groomsmen. Ushers were Jackie Wilson and Duane Seay, both of Lamesa.

A reception was held in Fellowship Hall of the church. Mrs. Donald Reddell sister of the bridegroom, registered guests.

The couple will reside in Lamesa.

Mr. and Mrs. H. C. Burnam, Jr., Sherry, Karla, and Randy of Iraan, spent the Easter holiday visiting in the home of his parents, Mr. and Mrs. H. C. Burnam. Other holiday guests were Mr. and Mrs. Floyd Laws of El Paso.

## Betty Alsop Honored With Tea March 27

Miss Betty Alsop, bride-elect of David Givens of Midland, was honored with a tea in the home of Mrs. Glenn L. Brown on Friday, March 27.

Co-hostesses with Mrs. Brown were Mrs. Bob Latimer, and Mrs. Cecil Bridges, Mrs. Brown, Mrs. G. W. Alsop, mother of the bride, and the bride-elect received guests.

Decorations carried out the bride-elect's chosen colors of blue and white. The serving table was covered with a hand cut white linen cloth. Blue napkins were monogrammed in blue, "Betty and David." Centerpiece was a blue and white arrangement of carnations. Appointments were in crystal.

Mrs. L. Curry presided at the punch bowl.

Hostess gift to the honoree was a cut glass crystal rose bowl.

Refreshments of punch, tea sandwiches, bride's cookies, mints and nuts, were served to those attending.

The couple will be married on April 3 at 6:00 p.m. in the First Methodist Church at Stanton.

Approximately 30 guests from Stanton and Midland, called between the hours of 2:00 to 4:00 p.m.

Mr. and Mrs. Cecil Bridges have been visiting his sister, Mrs. E. A. Moore in Hattiesburg, Mississippi, and a brother, G. S. Bridges in Laurel, Mississippi. They were gone about a week.

Mr. and Mrs. Ira Williams of Lubbock, visited in the home of Mr. and Mrs. Phil Berry during the past weekend. The Williams' are former residents of Stanton.

## DPS Head Says Major Crime Soared To New High In 1963

Major crime in Texas soared to a new high in 1963 as a total of 2,261 offenses were committed in an average of every two and a half minutes during the year, was reported today by Col. Garrison, Jr., director of the Texas Department of Public Safety.

Garrison said that crimes reported to the department totaled 229,254 in 1963, representing an increase of 5.8 per cent over 1962, and a hike of 10 per cent over the total for 1953.

The crime rates per 100,000 population increased from 2,261 offenses in 1962 to 2,393 in 1963. Ten years ago, the rate was recorded at 1,583 crimes per 100,000 persons in Texas.

The annual crime report showed an increase in each of the seven major felonies tabulated, as follows:

Murder and homicide, up 8.5 per cent; rape, up 14.2 per cent; robbery, up 10.6 per cent; burglary, up 4.9 per cent; aggravated assault, up 4.4 per cent; theft, up 6.6 per cent; and auto theft, up 2.8 per cent.

"The constant rise in lawlessness in the past 10 years is a shocking and shameful

## Langdon Says Texas Crude Selling High

Texas crude oil currently selling for more dollars than any year since the Suez crisis in 1957, Railroad Commissioner Jim Langdon reports.

Langdon said this should be welcome news to the people of Texas because the Texas oil and gas dollar pays for 42 per cent of the state's cost of public education, and almost 60 per cent of the state's cost of teacher retirement, old-age assistance, blind assistance and aid to dependent children.

He stated that oil production is up three per cent over the previous year, and "an even more encouraging" jump is expected for 1964.

Langdon said the fact that the Texas petroleum industry was in such a healthy state after more than a half a century of intensive development could be laid to two factors: (1) There was a lot of oil to begin with; and (2) it has not been wasted promiscuously.

Critics of the way the Railroad Commission has regulated the oil and gas industries disregarded the commissioner's duty to guard the public interest. When they talked about allowances and production, they ignored the fact that natural gas has in recent years become an important energy source replacing to some extent oil; and that Texas was more dominant in gas production than in crude oil production.

ed last spring. Now he is seek-member of the Railroad Commission, having been appointed the voters' approval to serve the remaining four years of a six-year term. He resigned as chief justice of the El Paso Court of Civil Appeals to accept the Railroad Commission post.

Before moving to El Paso, Langdon was district judge for five West Texas counties. While on the bench and as a practicing attorney in a large oil producing area, he gained vast knowledge of the oil and gas industries, as well as transportation matters, which the commission regulates.

## Hand That Feeds Mail To Be Cut Off By ZIP Code

Within a few years, perhaps as early as 1967, the letter you drop in the mailbox will be processed automatically by an electronic scanner.

It will be postmarked and sorted into bundles for a particular zone in a particular city without the aid of human hands.

The key to this futuristic operation? Your simple little five-digit ZIP Code number.

The scanner will "read" the number — whether hand or typewritten — and go into operation.

If this sounds farfetched, postmasters hasten to remind that it's closer than many people realize.

It is, in fact, the reason for the zoning improvement plan's existence.

Some people complain about not getting results from ZIP Code, but it's no magical system. We have to wait until we get the equipment. It helps the big mailer now," he stated.

Although the new mail addressing plan was received in some quarters with reserva-

tions, Postmaster General John A. Gronouski recently underscored its importance.

"ZIP Code is absolutely essential to modern postal services and we could not possibly do without it," he said.

Gronouski spoke out in answer to scattered reports that the Postoffice Department intend to "scrap" the 9-month-old ZIP Code program.

Admittedly, the success of the program depends on co-operation of the large volume mailer who accounts for about 75 per cent of the billions of pieces of mail handled annually.

Officials are encouraged by early signs of co-operation. Gronouski said 87 per cent of the 30,000 business firms contacted agreed to participate in the program.

In a random sample of 145 Fort Worth businesses, Fort Worth postmaster R. T. Cowan stated, 129 of them used ZIP Code numbers on their stationery.

Large volume mailers using automatic data processing equipment can incorporate ZIP numbers into their systems so that bundles of let-

ters or publications are resorted before being mailed.

These pre-sorted bundles can be dispatched promptly from local postoffices and received at destinations much sooner.

While it may appear at first glance that, private firms are doing the Postoffice's job, Cowan points to these major advantages:

1. Reduced postage rates are given the businesses pre-sorting and using code numbers.
2. This practice helps forestall a general rise in postal costs which might conceivably result some day in a minimum cost of 15 cents for a stamp.

Thus, automation is imperative because of the almost impossible task of manually handling the 90,000,000,000 pieces of mail expected annually in the United States by 1970.

But even with the present system of manually sorting mail, use of ZIP Code numbers will speed the handling of mail and reduce the chance of error, officials say.

The code system, for those who may have missed the explanation, retains existing city zone numbers, preceding them with three digits indicating the geographical area and state or city.

Fort Worth 7, Texas, for example, the former designation for Arlington Heights, now is Fort Worth, Texas 76-107.

The first digit designates one of 10 large geographical sections of the country — 7 is for Texas, Arkansas, Louisiana and Oklahoma.

The second indicates a state, section of a large state or in some cases an area composed of two states with relatively small population. In this case, the 6 stands for the northern section of Texas.

The third digit represents a major city or a mail distribution point serving smaller communities. Fort Worth proper is designated as 1.

Maps illustrating this story list the first three code numbers for every area of the state and the final two digits for every section of Fort Worth.

JIM C. LANGDON is now serving on the Railroad Commission and doing a fine job. Texas oil production has gone up 3 per cent, meaning more income for Texans and more tax revenue. JIM LANGDON is a former high court judge who understands the problems of oilmen, truckers, butane dealers, the railroads and other industries he helps to regulate in the public interest. Texas must keep this man of integrity and ability on the job. Vote in the Democratic Primary May 2 for Railroad Commissioner

Top finance officials of the state now feel reasonably sure the next fiscal year for Texas governmental operations will dawn with an unfamiliar general revenue surplus on hand.

Texas' hard-pressed general fund has been in almost constant deficit for more than six years. As of March 25 it still was \$36,600,000 in the red.

However, budget-makers are impressed with optimistic U. S. Treasury reports that the income tax cut is going to boom state and local revenues by putting more money in circulation. (Theory: more money spent, more sales taxes collected.)

"There will be a surplus. The question is how much," commented one veteran finance observer.

Ideas on "how much stretch all the way from a relatively modest \$35,000,000 — estimated by the comptroller's office — to upwards of \$90,000,000.

While the feeling is general that the Legislature will begin its budget writing next year with prospects of money on hand, the surplus likely will not be big enough to avert a new tax bill.

Public school teachers are campaigning for a \$405 annual pay raise which would cost the state \$68,000,000 for the next biennium. Texas Commission on Higher Education has endorsed a program which totals \$86,000,000 additional spending for the college and university system for 1965-67.

Other state agencies are continuing to grow and few have been known to ask less money.

The surplus should provide a protective cushion. However, governmental finance experts feel that taxpayers won't get by the 1965 legislative session unscathed.

**Loan Regulations Proposed** — The terms "easy payments," "no red tape," and "repayment in easy installments" are considered misleading advertising by money lenders under regulations proposed by Francis A. Miskell, regulatory loan commissioner.

Miskell served notice of his first four "rules of practice and procedure" for lenders and scheduled a public hearing on them for May 8.

Regulations cover books, files and records; advertising; insurance and collection practices.

Under other proposed advertising rules, almost any "comparative" term such as "new reduced rates" or "new type of service" must stand a rigid test of accuracy. Miskell also proposes to ban business solicitation by such devices of credit, claiming the borrowers have an established credit standing.

Stron-arm collection practices would be strictly prohibited. In fact, under the rules, lenders could not solicit payment from anyone other than the borrower, members of his immediate family or signers of the note. Employers could be called on to help collect by their own consent.

Miskell gave the loan firms until May 1 to submit their written views on the rules.

The regulatory loan agency, set up by the Legislature last year to regulate loans up to \$1,500, just now is moving into full scale operation.

**Asks Ruby Moved Here** — Jack Ruby's new lawyer, University of Texas Professor Dr. Hubert Winston Smith, wants the accused slayer of Lee Harvey Oswald moved to the Austin State Hospital for more lab tests.

Smith has indicated he will rely on the university's law-science institute to determine whether Ruby suffers from any form of brain damage.

Smith is both attorney and doctor. He holds degrees from Harvard law and medical schools.

**First Texas Travel Ads Booked** — Texas begins its first official advertising of its vacation attractions in national

publications on April 5.

Initial ad shows a pretty girl on a Texas beach and boasts of Texas fishing, scenery, golfing and horseback riding. It will appear in the spring vacation and travel section of the New York Times. Same ad will run in the Chicago Tribune's travel section on April 12.

Texas Tourist Development Agency plans a number of advertisements in out-of-state newspapers and magazines this spring and summer.

Funds for the travel and tourist promotion, first ever appropriated to the state, were provided by the 58th Legislature.

**Water Hearings** — Texas Water Commission postponed until May 25 hearings on five reservoir projects in the Brazos River watershed.

Reservoirs are Proctor in Comanche County; Stillhouse Hollow in Bell County; Somerville in Washington County; Decordova Bend in Hood County; and Belton in Bell County.

**Population Trend** — Calculations on population growth made by University of Texas researchers indicate a fizzle in the population explosion.

They estimate that Texas experienced a yearly gain in population of 1.8 per cent between April 1, 1960, and April 1, 1963, which would amount to quite a slow-down from the 2.2 per cent annual gain during the 10 years from 1950 to 1960.

Even more significant, the researchers noted, was an evident brake in the population increases in Texas' 21 major cities. Where they gained 3.5 per cent a year from 1950 to 1960, they gained only 2.2 per cent a year in the three years prior to April 1, 1963.

**Retail Sales** — February, usually a bright spot after drab January receipts, showed a four per cent drop in retail sales, reports University of Texas' Bureau of Business Research.

But the bureau had good news for merchants. It reported that retail sales in February topped those of February, 1963, by four per cent. So the state's accelerated economy continues the upward climb of the past three years.

## The Launching Pad

By NEAL ESTES

IT'S nice to know that colleagues in the profession of one's choice are succeeding. Our day would not be complete without at least a light once-over of THE DALLAS NEWS and TIMES HERALD. Years ago we "cut our eye teeth" on those Dallas publications and we have no desire to shake the habit of reading them now. And that is especially so because of the fact that we work with some of the editors, and reporters on the Big D papers back in East Texas. As a matter-of-fact, most of the ones (writers) we know also held staff positions on the Longview newspapers. It has been said that Longview is the Dallas farm club in the field of journalism. Possibly the best known reporter on either of the metropolitan journals is TONY ZOPPI, who is now considered one of the country's top show business columnists. He writes the column styled "Dallas After Dark." TONY's first printing press at Longview and to this day he would do anything under the sun for our brother, CARL, for giving him his opportunity in journalism. SAM PARIS is another "down east" product who is currently getting bylines in the DALLAS TIMES HERALD. He too, worked for the Longview publications. The front door of the NEWS-JOURNAL never closes because the plant gets out two daily papers—one in the morning and one in the afternoon, and during a year's time it is a good bet that forty or fifty extras will be tossed in.

IT'S nice to know that colleagues in the profession deadlines is behind us. We refer to automobile registration. And we know our readers will be glad that newspaper space is destined to be devoted to other more interesting happenings than the deadlines in the weeks to come. We still have a pair of deadlines to meet in April. On the 15th all motor vehicles must display an inspection sticker. I still think some legislator with an interest in an automobile business introduced that bill in Austin. And then there's the income tax deadline for a lot of us on the 15th. We fume and fuss about our income tax payments but where would our government be today without some source of individual revenue? True, a lot of our tax money is wasted on worthless foreign projects—some of it even pocketed by administrative bums—but our flag still flies. Personally, we would like to see that "Congress of Cranks" called the UN junked, but other people a lot smarter than your writer think otherwise. The differences existing among us really boils down to our cherished freedom through heritage. It took taxes to maintain the manpower to preserve that freedom. Pay up by the fifteenth!

WHILE discussing income tax payments here we would like to pass this question along for consideration and thought. How many of those sit-down, door-jamming — brick-tossing — aisle-blocking — b... will pay any taxes at all—on either real and personal property or income to support the government that THEY would really like to destroy?

MY very good friend, MRS. LEWIS CARLILE, is in El Paso this week on a sad mission. Her parents, the N. P. DUKES, are both ill. Her father suffered a stroke. The thoughts and best wishes of all the CARLILE family's friends are with them at this time of crisis.

BOBBY SALE, one of the county's top young citizens and student at TEXAS TECH, was home for the Easter holidays and it was our good fortune to see him for a moment in BROWN'S drug store. He is just as smart and handsome as ever and his intelligence and personality will take him far in life. If every boy graduate of STANTON HIGH could reflect as much credit on the system as BOBBY has there would be a lot less criticism on who is learning what and why not up there.

APRIL is Cancer Crusade Month. For the past nine years we have worked in the slot as publicity chairman for this very worthy drive. MRS. LEO TURNER is the permanent chapter chairman here and she has always managed to nominate good drive directors—including MRS. LELAND NELSON, now of Lubbock. NORMA worked diligently for the crusade in Martin County and her quotas were always attained. DR. NELSON stood solidly in the background and offered many many assists in a quiet way to the financial success of his wife's campaigns for cancer money. And of course there was JENDO, NEAL, and MAC, but this year's crusade is going to miss a gal named NORMA.

WE respectively invite our readers to look all of the advertisements bearing the Dollar Day theme over very carefully this week. Some of our local merchants are trying to stimulate sales and stop the out-of-town traffic by advertising. Other local merchants continue to hitch-hike a free ride and wonder why their sales are down.

NEAL'S NUGGET: When you meet ignorance face-to-face retreat.

## Chamber - - -

(Continued from page 1) The Chamber appreciates the work done by all committee chairmen, and workers who served last year. They did an excellent job and we extend an invitation to everyone to come by the office and give us their ideas for projects for the coming year. We need the cooperation of the county as a whole to get the projects started and bring them to a successful conclusion.

The Merchant's Committee has set May 4, 1964, as the tentative date for our Spring Festival and Pancake Supper. Final plans will be formulated and announced at a later date.

The West Texas Chamber of Commerce is holding its annual convention in Odessa April 9, 10, 11, at the Lincoln Hotel. Featured speakers will include the Honorable John Connally, Governor of Texas, and the Honorable Joe Pool, Texas Congressman-at-Large. President Wheeler and his wife and my husband and I plan to attend some of these meetings.

If you have not visited the Martin County Library, do so soon. The books are being cataloged and it is so nice and clean and neat. April 18 is the date for the open house at the library, so put it on your calendar as a must.

Graduation for another Red Cross Home Nursing Class was held Tuesday in the Cap Rock auditorium. Mrs. June Reid was instructor and as usual, turned out an excellent group of nurses. Congratulations, June, for a job well done.

## New Arrivals

Mr. and Mrs. Milton B. Moody of Midland, are the proud parents of a daughter, born on March 30 in Midland Memorial Hospital. The young lady weighed seven pounds, ten ounces, and has been named Lynette Jinks.
