#### HOME TALENT PLAY

The home talent play, "Miss Prim's Kindergarten" presented last week under the auspices of the Wednesday Club for the benefit of the fund to pay for the lots recently bought by the board of trustees, was a splendid success and one of the most pleasing. Each of the ladies and gentlemen played the part of school girls and boys to perfection. The net receipts for the evening was \$98.00. The Club is untiring in their work for the benefit of the Public School.

The Club desires to thank each one who took part or in any way contributed to the success of the entertainment.

#### DEATHS

##### MISS GEORGIA LAMBERT

Miss Georgia Lambert, aged 64 years, sister of Henry Lambert, died Monday afternoon, May 12, 1919, at the home of her niece, Mrs. Sarah Barclay, with whom she made her home. "Aunt Dump", as she was called by her relatives, has been a cripple for years, and Mrs. Barclay and her son, Norvel Burson, did everything they could to make her happy and comfortable.

The body was taken to Scranton Tuesday and interred in the family burying ground, funeral services being conducted by Rev. D. S. Adams pastor of the Baptist Church, Baird.

We tender sincere sympathy to the bereaved ones.

##### CLAUDIA OLIVER TOWLES

Claudia Oliver, infant daughter of Lieutenant and Mrs. Claude O. Towles, died at the home of Mrs. Towles' parents, Mr. and Mrs. R. N. Higdon, Monday night, May 12, 1919. Funeral services were held Tuesday evening at 5 o'clock at the residence, conducted by Dr. Collier. Interment in Ross Cemetery.

Little Claudia was born Sept. 2, 1917, died May 12, 1919. Lieut. Towles if with the American army in Germany. To him and the mother, grandparents and other relatives who took the death of the little child so hard, we tender sincere sympathy.

#### BASE BALL

In the ball game between Eula second team and Baird first team at the Baird campus last Saturday, Eula defeated Baird, the score being 11 to 10. Both teams showed excellent team work.

#### PREACHING AT BELL PLAINS

There will be preaching at Bell Plains next Sunday morning at 11 o'clock. I have decided to begin by the old time in this service. Let the Sunday School meet promptly at 10 o'clock.

I will also preach in the afternoon at 4 o'clock, fast time.

You are invited to these services. S. L. Culwell.

#### WEDDINGS

Rev. W. E. Hamilton, of Capps, and Miss Verna Miller, of Baird, were united in marriage Thursday evening, May 8, 1919, at 8 o'clock, at the home of the bride's mother, Mrs. A. M. Miller, Rev. J. G. Miller Presiding Elder of the Abilene District, M. E. Church South, officiating. It was a quiet home wedding, only the relatives and a few close friends being present to witness the marriage.

Miss Verna Miller is the youngest daughter of Mrs. A. M. Miller and is one of Baird's most accomplished and worthy young ladies. We join her host of friends here in wishing for her only the good in life, and that the evils be unknown to her.

Rev. Hamilton is the Methodist Pastor at Capps, at which place they will make their home.

Rev. J. R. Williams, of Wayland, Stephens County, and Miss Alice Floyd, of Baird, were united in marriage at Abilene, May 7th, Rev. Williamson is a Methodist preacher, stationed at Wayland, and Miss Alice Floyd is a daughter of Squire and Mrs. T. H. Floyd, of Baird, and she was born and reared here. We join her many friends here in extending congratulation and good wishes for her future happiness.

Hugh Prichard of Baird, and Miss Grace Davis, of Big Springs, were married at Big Springs, Sunday, May 11, 1919 at 4 p. m. They will make their home in Baird. We extend congratulations and good wishes to them.

Mr. L. B. Long and Mrs. Nettie Payne were united in marriage at the Methodist Parsonage, Monday May 12th, Rev. S. L. Culwell officiating.

Mr. and Mrs. Long live at Cross Plains and will be at home after the 25th, of this month.

The Star extends congratulations and wishes for them much happiness.

Mr. Willie Tatum and Miss Carrie Shelton, each of the Admiraj community surprised their friends by driving to the Methodist Parsonage in Baird Thursday May 15 and having Rev. S. L. Culwell perform the ceremony that made them man and wife. We wish them much happiness upon their matrimonial voyage.

#### OIL NEWS

The Cathey well at Putnam was shot Sunday evening with 80 quarts, which caused the hole to bridge over, and the drillers are now cleaning out the hole. The well after the shot seemed to be dry, and if dry after being cleaned out, the well will be plugged back to the 1700 foot sand and shot. At the 1700 foot sand it is supposed that same would produce about forty barrels of oil per day.

Harvey and associates have made a location on the Crosby farm, and they have contracted to commence drilling by May 24th. The derrick on the Seale ranch has been purchased and same has been moved to the Crosby location.

The Humble Oil & Refining Co., expects to make a location on the Isenhour ranch two miles West of Putnam, at an early date. They have three car loads of material for the well at Putnam.

E. H. R. Green has rig for test on Survey 313, R. F. Scott ranch.

The tools for the Dyer test, on Survey 73, just over the line in Shackelford County are expected in, at an early date.

Andy Urbin has rig up on Survey 49, Tabor farm, and they have tools and machinery on cars at Clyde. This well is expected to spud in during next week.

The Henry Childs well is drilling in black lime at 3300 feet.

The New South Association has rig up for a deep test on the Vestal farm two miles north of Cross Plains. Cordwent No. 1, is drilling at 900 feet.

Cordwent No. 2, shallow test on E. S. Heath Survey, location. Odom is drilling at 490 feet.

Pierce Oil Corporation No. 1 on McGowan Bros., ranch two miles South-East of Baird have everything ready to spud in the latter part of this week.

Clyde-Callahan County Oil Co., has purchased derrick and tools for their deep test North-East of Clyde. Hart No. 1, drilling by Alamo Petroleum Co. is drilling at 2500 feet.

#### MARRIED AT PECOS

Ben Qualls, well known to our people, arrived in Pecos Tuesday, and at 7 o'clock that evening took unto himself a wife, choosing Mrs. Minnie Buckles, daughter of W. R. McDermott, the Rev. W. A. McKnight, pastor of the Baptist church performing the ceremony in the presence of relatives and intimate friends of the contracting parties.

To say anything special of these young people would, The Enterprise thinks, be superfluous, for both have lived here for many years and naught but good is recorded of them. Hard workers, both of them, and deserving of every happiness, which their many friends trust will be realized.

Of the groom; however, something might be said, for Ben is a modest kind of a fellow, and all may not have heard of the part he played in the late war in France.

Enlisting early in the game, he was assigned to the famous Rainbow Division, and was lucky enough to be in the thick of the melee, when the tide was turned at Chateau Thierry and Soissons. At the latter place Ben received his first wounds, which laid him low for a spell, but on recovery was back in the thick of it, and when the doughboys began to clean up the sector in the Argonne Forest, he was in at what will be recorded as the greatest round-up the world ever saw—when American soldiers spread over the whole country and drove the Huns before them like chaff before a Texas sandstorm. In these woods another Hun bullet found Ben and put him on the shelf once more. Before he fully recovered the armistice was signed, so Ben has to be satisfied with just two wound stripes on his sleeve. He was recently discharged at San Antonio. Pecos and Reeves county is certainly proud of him and all congratulate him, and wish him and his good wife happiness to the cup's level. Mr. and Mrs. Qualls are now at home on the McDermott farm west of Pecos.—Pecos Enterprise, May 2, 1919.

Mrs. Qualls has many friends in Baird and Callahan county, who wish her and her husband a long and happy wedded life.

**Eccentric Stranger.**  
"A quaint sort of fellow came along here yesterday in a motorcar and stopped in front of the gate," related Gap Johnson of Rumus Ridge. "He asked if he could get a drink of water, and I said: 'I reckon.' He wanted to know if I could tell him how far it was to Tumlinville, and I said I reckon I could. Next he asked how many children I had, and I told him I reckoned there was 14. He inquired if it was going to rain, and I answered that I reckoned it was. "Then he grinned at me and says:

"This seems to be the day of reckoning," and I said: "What say? Just like that."  
"He grinned again and driv on. Something sorter funny about that fellow, and still he didn't 'pear to be precisely crazy. Mebbe he was one of them German propaganders, or something."—Judge.

## THE MOST DANGEROUS OF ALL DISEASES

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to lag in their duties, look out! Danger is in sight.  
Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness, or have pains in the back, wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

Get some GOLD MEDAL Haarlem Oil Capsules at once. They are an old, tried preparation used all over the world for centuries. They contain only old-fashioned, soothing oils combined with strength-giving and system-cleansing herbs, well known and used by physicians in their daily practice. Ask for them at any drug store, but be sure to get the original imported GOLD MEDAL brand. Accept no substitutes. In sealed packages. Three sizes.

**What He Could Do.**  
A good old Quaker was milking a cow whose lively disposition had often taxed his patience severely. The pail was nearly full of foaming milk, when in some manner the cow managed to overturn it. The old man in righteous indignation snatched up a nearby club to strike the exasperating animal when he remembered the precepts of his religion.  
He dropped the stick, and in a voice trembling with anger said:

### LESSON FOR MAY 18. THE GRACE OF GOD.

**LESSON TEXTS**—Ephesians 2:4-10; Titus 2:11-14.  
**GOLDEN TEXT**—We believe that through the grace of the Lord Jesus Christ we shall be saved, even as they.—Acts 15:11.

**ADDITIONAL MATERIAL**—Genesis 6:7; 2 Cor. 4:2; John 1:16, 17; 1 Cor. 15:10; James 4:5; 1 Peter 4:10; 2 Peter 3:18.

Grace means unmerited favor. God's grace means his kindness toward us through Jesus Christ. (Eph. 2:7.) God's mercy does not go out to men because they are good but because he is good and desires to bestow that goodness upon lost and ruined men in order to make them good.

#### 1. The Grace of God in Salvation

Grace brings salvation; it does not send it. Jesus Christ, who is the embodiment of God's love and grace, came bringing salvation with him. In order to apprehend what the grace of God has done, observe:

1. Man's natural state (Eph. 2:1-3). In the natural man is found all that is opposed to the will and purpose of God. (1) Dead in trespasses and sins (v. 1). The supreme need of the dead man is life, therefore he must have life from without himself. The characteristic of one who is dead is that he is (a) without sensation—"past feeling." (4:19.) The natural man, therefore, can neither love God nor hate sin until he is made alive. (b) Without motion. Activity is the demonstration of life. So far as God and holiness are concerned they are motionless. They are as helpless as Lazarus was in the grave. (2) Under the control of fleshly and worldly lusts (v. 2). The carnal nature holds sway over their lives. (3) Under the domination of Satan (v. 2). All unregenerate men and women are ruled by Satan. Since he is the god of this age (2 Cor. 4:4), the prince of this world (John 12:31), all who have not been freed by Christ are under the rule of Satan. (4) Under the condemnation and wrath of God (v. 3). Over all these—death, worldliness, disobedience, lust of the flesh—hangs the wrath and condemnation of God.

2. Man's state by grace (2:4-10). (1) He is alive in Christ (v. 5). The Holy Spirit lays hold upon men dead in sin and quickens them into life. (2) Raised up with Christ (v. 6). God's grace not only makes lost men alive but raises them up with Christ. (3) Association with Christ in glory (v. 6). Christ's incarnation has so identified himself with the race that those who are saved are raised up to be with Christ and shall ultimately share his glory. The actuating principle of God which moved him to thus lay hold upon lost men is his love (v. 4). Man's salvation is due entirely to God's grace. Not only the salvation has been provided in grace but the faith which appropriates it is God's gift (v. 8). Works as grounds of salvation are absolutely excluded. (4) The purpose of God in the salvation of men (vv. 7, 10). (a) It is to display his grace in the coming ages. The demonstration to the inhabitants of the spheres in which sin has not entered. In the ages to come, will be the transformation of dead and lost men and their exaltation with Christ. (b) To glorify God through their good works (v. 10; cf. Matt. 5:16). While good works have absolutely no part in the salvation of men God's purpose in saving them was that they might do good works.

#### II. The Grace of God in Right Living

Grace is not only essential to salvation but essential to right living. It teaches saved men (1) to deny ungodliness (v. 12). The saved man has the divine nature. The grace which has saved him teaches him the necessity of a denial of everything that is opposed to God. (2) Worldly lusts (v. 12). The redeemed man is surrounded with the things of the world which have a downward pull upon him. The grace of God teaches him to renounce them. (3) Sober living (v. 12). The grace of God teaches the saved man self-control; to have the reins of his nature well in command and to rule with a strong hand. (4) Righteous living (v. 12). The grace of God teaches the saved man to live uprightly with reference to those about him. (5) Godly living (v. 12). It teaches him to so live in this present world as to enable him to meet God and abide in his fellowship. (6) It teaches the right motive in living (vv. 13, 14). The blessed hope of the glorious return of the Lord Jesus Christ is the grand incentive to holy living in this present world. He that has it will keep himself pure. (1 John 3:3.)

## The DAIRY

### NEW QUEEN AT BELTSVILLE

Calamity Wayne Pauline II Completes Year Test, Producing Eleven Tons of Milk.

(Prepared by the United States Department of Agriculture.)

A new queen reigns in the herd of Holsteins on the government experiment farm at Beltsville, Md. She is as unassuming and peace loving as any of her subjects, although she bears the name Calamity Wayne Pauline II, and has just completed a test in which she produced in a year more than 11 tons of milk. In 365 days she produced 22,547.8 pounds of milk which averaged 3.805 per cent butter fat, the total fat being 855.4 pounds.

This animal was selected by dairy specialists of the United States department of agriculture from a Michigan herd in July, 1917. She was brought to the Beltsville farm, where she produced a heifer calf, and was started on her test December 7, 1917, at the age of eight years. The test was run through the coldest winter that section had experienced in 40

Calamity Wayne Pauline II.

years, and a summer that was extremely hot. The test for advanced registry was conducted under the rules of the Holstein-Friesian association. During the year the animal was handled by two different herdsmen.

A son of Calamity Wayne Pauline II has been placed at one of the government substations, and one of her half-sisters is making a fine record at the Michigan Agricultural college. Calamity's 305-day record was 19,256.6 pounds of milk, averaging 3.7 per cent butter fat, making a total of 718.13 pounds of fat.  
All the dairy cattle on the Beltsville farm are used for experimental purposes, and will be given at least two advanced registry tests to determine their capacity for production.

### SUPERVISE PURITY OF MILK

List of Equipment Necessary to Furnish Laboratory is Sent Out by Dairy Division.

(Prepared by the United States Department of Agriculture.)

A letter has been sent by the dairy division of the United States department of agriculture to 1,500 health officers in cities having over 5,000 population urging the city governments to supply the health officers with proper laboratory equipment so they can adequately guard the city milk supply. A health department without a laboratory equipment is as helpless as a soldier without arms, says the letter. A city government has no right to hold its health department responsible for the health of the community unless it has provided the department with the equipment necessary to wage the fight against disease.

The work of supervising the safety, cleanliness and purity of its city milk supply is one of the most important duties of the modern health department. Bacteria, dirt, added water and preservatives in milk cannot be determined without chemical and bacteriological apparatus. The letter gives a list of the equipment necessary to furnish a laboratory for milk analysis.

### DAIRY COW MOST PROFITABLE

Animal Never Fails to Return Profit for Feed and Care—Keep Her Comfortable.

The dairy cow is the most profitable animal on the farm if rightly managed, as, under ordinary conditions, she never fails to return a profit for her care and feed, if she is given the right kind of food and just the right quantity. If she is underfed, her product will be correspondingly small, and if she is overfed, she will be unhealthy. Feed the cow just right, keep her quiet and comfortable, and she will be equal in value to the goose that laid golden eggs.

### COOKING GRAINS FOR COWS

Act Does Not Ordinarily Add Much to Palatability—May Decrease Digestibility.

While some unpalatable feeds may be consumed by dairy cows in large quantities if they are cooked, the cooking does not ordinarily add much to the palatability of the grains and may even decrease their digestibility.

## Trust Me! Try Dodson's Liver Tone! Calomel Harms Liver and Bowels

Read my guarantee! Live your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is

mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—Adv.

## WATCH YOUR COLTS

For Coughs, Colds and Distemper, and at the first symptoms of any such ailment, give small doses of that wonderful remedy, now the most used in existence. **SPOHN'S DISTEMPER COMPOUND** Safe for all ages. Colts, Mares in foal, Stallions and all others. An excellent preventive as well as a cure. Sold by druggists. **SPOHN MEDICAL CO., Mfrs., Cochen, Ind., U. S. A.**

**He Knew.**  
Bobbie—Say, mother, when the baby gets one of those yelling fits, why don't you just give him a big stick of candy to keep him quiet?  
Mother—Candy! Mercy! On a six-weeks-old baby! Why, it would kill him!  
"But it didn't today."—Life.

### AN ALL-AROUND SAVING

Thanks to the War, housewives have been given some unforgettable lessons in common sense. Minute saving and penny saving have gained new significance.

One vital economy which has impressed itself upon thousands of practical women is quick breads—the new and better way of supplying the staff of life, always recognized as more essential than bullets.

While the pre-war methods which so frequently suggested the use of yeast were far ahead of the pre-historic practices of soaking grain in water until softened, then making into a paste and baking into a hard, granitic cake, the necessity of using baking powder with substitute flours in the various war recipes has antiquated the old, slow, cumbersome methods which for centuries have handicapped cooks, without sacrificing taste, texture or technique.

Quick breads mean a saving of time and when made of high-grade ingredients are also of better quality and more economical.

The use of baking powder prevents a continuous loss of a small percentage of flour from which there is no escape when yeast is used.

One of my friends writes of her experiences and how she was won over to the new way as follows:

"Through my desire to 'Save Food and Help Win the War,' I became interested in an unusual advertisement for Calumet Baking Powder in which it was claimed that dough left over from the evening meal could be placed in the refrigerator and used for breakfast biscuits with gratifying results. "Early training had taught me to consider yeast as the only leavening element worthy of my time and trouble in baking. I laid aside my prejudices and was delighted to find the problems which formerly worried me are now so easy, and today seem almost unreal. I am filled with a new zeal to cook since I gained the help of this time-saving product."

Even though the world is again following peaceful pursuits, the purchase power of a penny is much less than it was a few years ago. Housewives can only meet this unusual condition by heeding the lessons which the War has taught them, including the tests that have proven the folly of judging values by outward appearances, such as the size of the package or looking at quantity rather than quality, etc., for example—a 10-cent can of Calumet will furnish more leavening than the Big Can of double its size of some cheap mixture, manufactured by haphazard methods.—Adv.

### Tragedy in Marble.

"This is a young city, I understand."  
"Yes."  
"Therefore, I don't suppose you have any picturesque ruins hereabouts?"  
"Haven't we! War stopped work on our new post office building when it was about one-third completed and it's been standing that way ever since. I defy you to find anything in this country that looks more like the ruins of the Roman forum."—Birmingham Age-Herald.

**What is "Spring Fever?"**  
It is simply low vitality, a lack of energy caused by impurities in the blood. GROVE'S FASTELED'S CHILL TONIC restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 50c.

### Big Game Country.

"I understand you came from a great game country?" said the lady on the committee to welcome the grizzly warriors of the Western plains.  
"Indeed, yes, ma'am," was the cowboy's reply.  
"What is the biggest game you have in Wyoming?"  
"Poker, ma'am!"

The purgative properties of Wright's Indian Vegetable Pills are the natural result of their tonic action. Hence they are the ideal Spring medicine.—adv.

Why is it that a silent partner has so much to say?

**Proper Procedure.**  
"What is a young man to do when his attention is arrested by a pretty girl?"  
"Why, carry his case to court, of course."

## FOR TIGHTNESS IN THE CHEST

Theford's Black-Draught, Says Kentucky Lady, is Excellent For Breaking Up a Cold.

Elgin, Ky.—Mrs. Albert Albright, who has lived here many years, says: "I use Black-Draught as a laxative. It is splendid for breaking up colds. I have used it for a bad cold and tightness in the chest. One cup of good warm tea made from Black-Draught I found most helpful. It makes the liver act and gives almost instant relief."

This spring my little daughter began having chills, the hard, shaking kind. After the chills her fever would rise and her head would ache. We are a good ways from the doctor, so I just began giving her good doses of Black-Draught and it cured her. She is in good health, has a good color, and her appetite is all right. So of course we consider Black-Draught as unsurpassed for a family medicine."

Don't wait until you have headache, sick stomach, indigestion, or other disagreeable symptoms, but take an occasional dose of Black-Draught to help keep your system free from poison, your body in good health.

Made from purely vegetable ingredients, Black-Draught acts in a gentle, natural way, and has no bad after-effects. It may be safely taken by young and old.

Try Theford's Black-Draught.—Adv.

# WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mrs. ALBERT SULTZ, 603 Olmstead St., Winona, Minn.

How often do we hear the expression "I am so nervous, I cannot do anything." Such women should profit by Lydia E. Pinkham's Vegetable Compound. It is now considered the standard remedy for such ailments.

# PEACE TERMS FOR GERMANY MADE PUBLIC

Treaty Makes Berlin Responsible for All Losses Caused to Allies.

## FIRST PAYMENT 5 BILLION

**Fact Provides Return of Alsace-Lorraine; Internationalization of Saar Basin and Danzig; Territorial Changes for Belgium, Denmark and East Prussia; Upper Silesia to Poland; For Must Agree to Trial of Ex-Kaiser and Approve League.**

New York, May 8.—An official summary of the peace treaty delivered to the German delegates at Versailles by representatives of the associated powers was made public here by the committee on public information. It follows:

Paris, May 8.—The treaty of peace between the 27 allied and associated powers on the one hand and Germany on the other was handed to the German plenipotentiaries at Versailles. 80,000 Words in Pact. It is the longest treaty ever drawn. It totals about 80,000 words, divided into 15 main sections, and represents the combined product of over 1,000 experts working continually through a series of commissions for the three and a half months since January 18, the treaty printed in parallel pages of English and French, which are recognized as having equal validity.

**Does Not Deal With Foe's Allies.** It does not deal with questions affecting Austria, Bulgaria and Turkey except in so far as binding Germany to accept any agreement reached with those former allies.

Following the preamble and deposition of powers comes the covenant of the league of nations as the first section of the treaty.

The frontiers of Germany in Europe are defined in the second section; European political classes given in the third; European political classes in the fourth. Next are the military, naval and air terms, as the fifth section, followed by a section on prisoners of war and military graves, and a seventh on responsibilities. Reparations, financial terms and economic terms are covered in sections eight to ten. Then comes the aeronautic sections, ports, waterways and railways section, the labor covenant, the section on guarantees and the final clauses.

**Restores Alsace-Lorraine.** Germany, by the terms of the treaty, restores Alsace-Lorraine to France, accepts the internationalization of the Saar basin temporarily and of Danzig permanently, agrees to territorial changes toward Belgium and Denmark and in east Prussia cedes most of upper Silesia to Poland, and renounces all territorial and political rights outside Europe as to her own or allies' territories, and especially to Morocco, Egypt, Siam, Liberia and Stantung. She also recognizes the total independence of German-Austria, Czecho-Slovakia and Poland.

**Must Pay for Damages.** Germany accepts full responsibility for all damages caused to allied and associated governments and nationals, agrees specifically to reimburse all civilian damages beginning with an initial payment of 20,000,000,000 marks (\$5,000,000,000), subsequent payments to be secured by bonds to be issued at the discretion of the reparation commission. Germany is to pay shipping damage on a ton-for-ton basis by cession of a large part of her merchant, coasting and river fleets and by new construction; and to devote her economic resources to the rebuilding of devastated regions.

She agrees to return to the 14 most-favored nations tariffs, without discrimination of sort; to allow allies and associated nationals freedom of transit through.

**Must Agree to Trial of Kaiser.** She agrees to accept highly detailed provisions as to prewar debts, unfair competition, internationalization of roads and rivers, and other economic and financial clauses. She also agrees to the trial of the ex-kaiser by an international high court for a supreme offense against international morality and of other nationals for violation of the laws and customs of war, Holland to be asked to extradite the former, and Germany being responsible for delivering the latter.

**Must Accept League.** The league of nations is accepted by the allied and associated powers as operative and by Germany in principle, but without membership. Similarly, an international labor body is brought into being with a permanent office and an annual convention. A great number of commissions for different purposes are created, some under the league of nations, some to execute the peace treaty. Among the former is the commission to govern the Saar basin till a plebiscite is held 15 years hence, the high commissioner of Danzig, which is created into a free city under the league, and various commissions for plebiscites in Mainz, Schleswig and east Prussia. Among those to carry out the peace treaty are

# WHAT GERMANY MUST DO TO GAIN PEACE

Restoration of Alsace-Lorraine. Temporary internationalization of Saar coal basin. Permanent internationalization of Danzig. Territorial changes toward Belgium and Denmark. Cedes Silesia to Poland. Removes all territorial and political rights outside Europe. Renounces "especially" her rights in Morocco, Egypt and Siam. Freedom of transit through her territories. Highly detailed provisions as to prewar debts. Provisions as to unfair competition, internationalization of roads and rivers and other economic and financial subjects. Agrees to trial of the ex-kaiser by an international high court for a supreme offense against international morality and customs of war. Holland to be asked to extradite the former kaiser and Germany to be responsible for delivering the latter. Accepts league of nations in principle, but without membership.

Germany recognizes total independence of German-Austria, Czecho-Slovakia and Poland. German army reduced to 100,000 men, including officers. Conscription within German territories abolished. All German forts for 50 kilometers east of the Rhine razed. All importation, exportation and nearly all production of war materials stopped. Germany accepts any agreement reached with its former allies. Allied occupation of parts of Germany to continue until reparation is made. Any German violation of conditions pertaining to the Rhine zone constitutes an act of war. German navy reduced to six battleships, six light cruisers and 12 torpedo boats, with no submarines. German navy personnel to consist of not over 15,000.

the reparations, military, naval, air, financial and economic commissions, the international high court and military tribunals to fix responsibilities, and a series of bodies for the control of international rivers. Certain problems are left for solution between the allied and associated powers, notably details of the disposition of the German fleet and cables, the former German colonies and the values paid in reparation. Certain other problems, such as the laws of the air and the opium, arms and liquor traffic are either agreed to in detail or set for early international action.

**Army Cut to 100,000.** Her army is reduced to 100,000 men, including officers; conscription within her territories is abolished; all forts forty kilometers east of the Rhine razed, and all importation, exportation and nearly all production of war material stopped. Allied occupations of parts of Germany will continue till reparation is made, but will be reduced at the end of three five-year periods if Germany is fulfilling her obligations. Any violation by Germany of the conditions as to the zone 50 kilometers east of the Rhine will be regarded as an act of war.

**Navy to Six Battleships.** The German navy is reduced to six battleships, six light cruisers and 12 torpedo boats, without submarines, and a personnel of not over 15,000. All other vessels must be surrendered or destroyed. Germany is forbidden to build forts controlling the Baltic, must demolish Helgoland, open the Kiel canal to all nations and surrender her 14 submarine cables. She may have no military or naval air forces except 100 unarmed seaplanes until October 1 to detect mines, and may manufacture aviation material for six months.

**Agreement of Allies Stated.** It states that: Bearing in mind that on the request of the then imperial German government an armistice was granted on November 11, 1918, by the five allied and associated powers in order that a treaty of peace might be concluded with her, and whereas the allied and associated powers being equally desirous that the war in which they were successfully involved directly or indirectly and which originated in the declaration of war by Austria-Hungary on July 28, 1914, and against France on August 3, 1914, and in the invasion of Belgium, should be replaced by a firm, just and durable peace, the plenipotentiaries (having communicated their full powers found in good and due form) have agreed as follows:

From the coming into force of the present treaty the state of war will terminate. From the moment and subject to the provisions of this treaty official relations with Germany, and with each of the German states, will be resumed by the allied and associated powers. Section 1, League of Nations. The covenant of the league of nations constitutes section 1 of the peace treaty, which places upon the league many specific duties in addition to its general duties.

# LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

**Maligned.** "America has more post offices than any other country." "And yet they say we are not a nation of men of letters."

# A Feeling of Security

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs. Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy. The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root. It is scientifically compounded from vegetable herbs. It is not a stimulant and is taken in teaspoonful doses. It is not recommended for everything. It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles. A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root. If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large. However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

**Took a Little Time.** He—"Did you love me when you first saw me?" She—"Oh, no. I had to get used to you first."

# FOR HEADACHES—

There isn't any Headache remedy that does the work like CAPUDINE. It gives quick relief from Headaches of all kinds. Trial size 10 cts. Larger sizes also—IT'S LIQUID.—adv. One trouble with a watch dog is its tendency to see too much that doesn't interest anyone else.

If your druggist does not have Dr. Peery's "Dead Shot" for Worms and Tapeworm, send 25 cents to 313 Pearl Street, New York, and you will get it by return mail. Adv.

It is a wise contrivance of nature that prevents a man's slumbers from being disturbed by his own snores.

# The Flow of Meat

Two-thirds of the live stock in the United States has to be raised in the West.

One-half of the consumers of meat live in the East.

In other words, most of the live stock is one or two thousand miles distant from most of the people who need it in the form of food.

Fifty years ago, when live stock was raised close to every consuming center, the country butcher could handle the job after a fashion.

But the job got too big.

Now millions of animals have to be moved hundreds of miles to millions of people. Somewhere on the way they have to be turned into meat.

The packers solved the problem. They set up plants where the "live haul" and the "meat haul" were in the right balance. They built up distributing systems—refrigerator cars, refrigerating plants, branch houses. They saved time, money and meat everywhere. The stockraiser benefited in better markets and higher prices; the consumer, in better meat and lower prices.

As the country grew, the packers had to grow, or break down. Because of its present size and efficiency, Swift & Company is able to perform its part in this service at a fraction of a cent per pound profit.

W. E. GILLILAND,  
Editor and Proprietor.

Good rains have fallen all over  
West Texas, this week.

We would be willing to have the  
mothers of Germany, who have lost  
sons in this war, act as a jury to try  
the Kaiser.

Wheat never looked better, as a  
rule, in this county, but there is many  
a slip between wheat in the bloom  
and biscuit in the oven.

From the way German peace dele-  
gates kick about terms, they must  
have had an impression that they  
were invited to a picnic at Versailles.

And there is wailing and gnashing  
of teeth in Germany over the peace  
terms. We expected as much, but  
they will sign up all right, is our  
guess.

Mayor Ole Hanson, of Seattle, be-  
lieves in deporting anarchists who  
make trouble in this country. Right  
he is. There is no room in this  
country for any but Americans. Let  
others get out and stay out.

The attention of the City Dads is  
called to the fact that the streets of  
Baird are in bad condition. As one  
put it, they are in a hellelofax. We  
don't know about that, but they are  
full of chug holes that fill with wa-  
ter everytime it rains and is ruining  
the streets.

Suppose Germany does not sign  
the terms proposed, then what?  
That is for Germany, not the allies,  
to decide. Our own opinion is that  
they will sign in spite of all their  
bluster. It means the end of the  
German nation if they do not make  
peace, and we suppose the men over  
in Germany have sense enough to  
see this.

What did the German delegates  
expect in Paris? From the grouchy  
way they are conducting themselves  
they must have expected the French  
to meet them with a brass band and  
cart loads of good things to eat and  
hail them as brothers in place of re-  
garding them as the destroyers of  
their country. The Germans, call-  
ing to mind the ruthless way in  
which they treated France in 1871  
are in no position to complain of a  
"peace of force."

Old Whiskers, of Mexico is out  
with another attack on the Monroe  
Doctrine. Mexico, of all nations of  
America have been benefited  
most from the enforcement of that  
doctrine by the United States. France  
was notified by this govern-  
ment in 1865 that a longer occupa-  
tion of Mexico by the French army  
would be considered an unfriendly  
act towards the United States. They  
abandoned Mexico speedily. Re-  
minded of this, Old Whiskers said  
Mexico would have driven the French  
out any way. This sounds big,  
coming from a man who has been  
unable to capture Villa after six  
years, or to suppress banditry in  
any part of Mexico.

We have been asked why we do  
not say something about the prohi-  
bition election. Our answer is, we  
prefer to discuss live issues not dead  
ones, and we regard the prohibition  
issue as a "dead issue", settled both  
by state and federal law. Then why  
was an election necessary? We do  
not know. Ask your member of  
the legislature why he voted to put

the people of Texas to the heavy  
expense of holding an election on a  
"dead issue," maybe he can explain.  
He can also explain why the legisla-  
ture ordered two elections on consti-  
tutional amendments this year, when  
one would have saved the tax-payers  
the cost of one election. Ask him.

The world would have more re-  
spect for Germany's wailing and  
cussing over the peace terms if it  
could forget the unthinkable out-  
rages committed by the German  
army upon the people of Northern  
France and Belgium. But the allies  
have not forgotten. That is why  
Germany is to be made to, in some  
measure, pay for the damage they  
have done in this war. They say to  
accept the terms means industrial  
slavery for Germany for at least a  
generation. Guess the Germans  
have forgotten of their boasts that it  
would require a generation for the  
people of Belgium and Northern  
France to rebuild their country wan-  
tonly destroyed by the Germans.

The Germans kick at the peace  
terms, especially the coal conces-  
sions in the Saar Valley, to France,  
but our guess is that if Germany  
does not accept the terms offered,  
the allies will seize all the territory  
west of the Rhine and give it to  
France and Belgium. If the allies  
have to force Germany to terms they  
have the power to do it and in a way  
that the world does not fully under-  
stand. They can isolate Germany  
by blockade on land and sea and de-  
stroy it economically without much  
active war. Germany knows this.  
They will bluster around and end by  
signing. All the allies have to do  
is to stand pat. Hunger will force  
Germany to terms, but we had hoped  
this method would not have to be  
resorted to, because of the old  
men, women and children of Germa-  
ny, but Germany is responsible for  
the war and should be made to real-  
ize this, and furthermore, they must  
get the highfaluten notions out of  
their heads that their armies were  
unbeaten in the field, about which  
they have been boasting since the  
armistice was signed. If they have  
any doubts about this let them con-  
sult old Hindenburg. He knows  
that the German army was whaled to  
a frazzle from Lorraine to the North  
Sea. The Germans never won a  
victory, great or small, after July  
18, 1918.

The Pro Legislature solemnly  
warns the public that the antis have  
a strong organization and are work-  
ing secretly to defeat prohibition.  
If there is any organization of the  
antis in Texas at this time we have  
not heard of it and the election is  
only 8 days away. If the antis are  
working secretly they are working so  
secretly that the rank and file of the  
antis do not know of it. Secret  
work that does not reach the voters  
is not very efficient we would say.  
The truth is the antis of Texas are  
disorganized. There is no anti or-  
ganization in this county and has  
not been in ten years. There was  
absolutely no anti organization in  
this county five or six years ago  
when the last local option was held,  
but the pros thought there was and  
that they were working secretly, just  
as the pros in the State say now.  
The Pros are organized and working  
energetically and by all rules of po-  
litical warfare ought to win, but the  
voters seem apathetic and listless,  
both pros and antis. Most antis  
consider the prohibition issue settled  
both by state and federal law. The  
pros know this, but want to write  
prohibition in the State constitution  
that they have failed to do although  
they came very near winning in 1911  
and it required six months for the  
hair of some leading antis to lay  
down straight. But they have ac-  
cepted the state prohibition law and  
many supported it as a war measure.  
They regard the issue as dead as a  
door nail.

## RAIN AGAIN

A heavy rain fell at Baird Sun-  
day evening. Up in Jones County  
a destruction hail was reported, no  
hail at Baird. Again Tuesday night  
a heavy rain fell. Both rains came  
from the north-west.

## EULA LOCALS

May 12, 1919.—Well Uncle Bill  
how are you and The Star force.  
Well we are having plenty of rain,  
but wheat is sure fine, oats looking  
fine too, in fact all kinds of feed-  
stuff looks fine. Some have cotton  
up, but have plenty of weeds in it,  
but we can afford to work hard for  
a few months to make a feed crop.  
This must be the banner year for  
Callahan County.

Well news is scarce, and so busy  
don't have time to write much.

Our school has closed and the kids  
are all ready to get their hoes and  
swat the weeds.

A. R. Kelton and J. F. Hampton  
moved their cattle from the Loving  
Ranch to Eula, where they have  
them on fine grass.

Miss Vaden, of Denton County is  
visiting Mr. and Mrs. H. E. Jones.

Mrs. Lee Smith spent Sunday  
with Mr. and Mrs. R. P. Stephenson.

Mr. and Mrs. W. F. Gardner  
made a business trip to Abilene this  
week. Mr. Gardner says the roads  
are very rough.

Mr. C. A. Browman and mother,  
of Clyde, were in Eula Sunday.

Well as news is scarce will ring  
off.

"Patsie."

## NOTICE, GUARDIANSHIP

The State of Texas

To the Sheriff or any Constable of  
Callahan, County Texas, Greetings.

You are hereby commanded to  
cite all persons interested in the  
wellfare of Olga Harris, Lena Harris  
and James Dalton Harris, minors,  
and by the due service hereof they  
shall be considered as cited to ap-  
pear at the next regular term of the  
County Court of Callahan Co., to be  
held at the Court House thereof  
on the 1st Monday in June A. D.  
1919, same being the 2d, day of  
June, A. D. 1919, and contest, if  
they see proper to do so, the appli-  
cation of Mrs. J. M. Richardson, which  
has been filed in said court, for the  
guardianship of the person and es-  
tate of said Olga Harris, Lena  
Harris, and James Dalton Harris,  
minors.

Herein fail not, but have you be-  
fore said court at the next term  
thereof, this writ with your return  
thereon showing how you have ex-  
ecuted the same.

Witness Chas Nordyke, Clerk  
of the County Court of Callahan  
County, Texas.

Given under my hand and seal of  
said court at office in the City of  
Baird, this 13th day of May, A. D.  
1919.

Chas. Nordyke, Clerk,  
County Court, Callahan Co., Texas,  
By Agnes Monday, Deputy.

## METHODIST CHURCH SUNDAY

We will have Sunday School Sun-  
day morning at 10 o'clock. Let  
every one be on time promptly in  
order that the Sunday School may  
adjourn at 10:45 and get to the  
School building by 11 o'clock.  
There will be no preaching at the

morning hour on account of the  
sermon at the High School Building.

Our evening services will begin at  
8:45. The public has a very cor-  
dial invitation to be present in this  
service.

Our Centenary campaign has been  
a splendid success. I want to thank  
the Chairman and the Committees  
who helped me and rendered such  
splendid assistance and every con-  
tributor who has helped in this the  
greatest enterprise ever undertaken  
by our church. The Centenary is  
going to grow more and more upon  
our people and we are going to be  
proud of the part we are each to  
have in this great work.

Some few have not yet pledged  
but we can count their pledge if  
gotten in by Sunday.

Thanking you for your splendid  
support I am, Your Pastor,  
S. L. Culwell.

The photodrama is said to be of  
brilliant character, forming a mag-  
nificent background for the fasci-  
nating tale. The outdoor scenes  
are said to form a wonderful pano-  
rama of California's harms of moun-  
tain and vale.

Besides amplifying the story,  
Harold Belle Wright actively assis-  
ted in putting his scenes and charac-  
ters before the camera. It is said  
that novel innovation, both in the  
dramatic unfolding of the story and  
in the technical form of presentment,  
will stamp "The Eyes of the World"  
as a mile-post in the development of  
cinema entertainment, at the Sigal  
Theatre, Saturday, May, 17, 1919.

## IN MEMORY OF LELAND PARNELL

The angles of death has visited  
the home and severed the brittle  
thread of life of one of the noblest  
and best beloved of the family.  
Leland was a boy who was loved,  
honored and respected by everyone  
who knew him. His every day life  
and conversation was worthy to any  
one. He left his home on May 4th,  
full of life and vigorous boyhood  
and was brought home a lifeless  
form.

Leland always had a smile for  
everyone, and was loved by his  
teacher and all his friends at school.

brothers, he has left behind, we  
wish to convey to them the sincere  
and heartfelt sympathy, and we  
pray that our Heavenly Father will  
comfort, support and strengthen  
them so that they may bear up  
under this irreparable loss, and  
that He will shower His greatest  
blessings upon them.

Corpl. Jim Terry, Co. D. 117  
Supply Train, Rainbow Division, re-  
turned home last night. Jim joined  
the Company of National Guards at  
Big Springs in June, 1917, and  
spent over 18 months in France, and  
is entitled to three gold stripes he  
now wears. He also wears a wound  
stripe. Jim was all over the front  
from St Mihiel to the Argonne, and  
was near Sedan when the war ended,  
and saw real war in all its  
horrors. He looks well and says  
he has fully recovered from the dose  
of gas he got from the Bosche last  
summer.

Jim met one of his comrades at  
home last night, W. W. Kelly, who  
was sent home after being gassed  
last fall. He was sent to a govern-  
ment sanitarium at Fort Bayard,  
Ariz., and was only recently dis-  
charged, and returned home last  
week.

We are glad to see that he appears  
to have recovered also.

An announcement of uncommon in-  
terest to theatregoers and book  
readers alike is that one of the  
year's output of extraordinary at-  
tractions involving lavish film pro-  
duction, Clune's multiple-reel pic-  
torial translation of Harold Bell  
Wright's famous story of love and  
adventure, "The Eyes of the World",  
has been booked for presentation  
here at the Sigal Theatre, Saturday,  
May, 17, 1919. 24-1t-adv.

Harry Berry has been trying out  
the new tractor, Fordson, for which  
he is agent, on the streets with a  
drag. How would it do for the city  
to buy one of these small tractors  
and have a man drag the streets  
after each rain? Our streets, for  
want of working, are in bad con-  
dition and getting worse all the time.  
One man with weights on the drag,  
is all the force needed to run the  
outfit.

## OVERSUBSCRIBES THE VICTORY LIBERTY LOAN

FLOOD OF SUBSCRIPTIONS POURS IN ON LAST DAY AND TOTAL MAY REACH SIX BILLION.

Washington.—The fifth and last popular war loan of the United States has been oversubscribed. Although the approximate total subscriptions will not be known for nearly two weeks, figures available show that the American people had responded generously to the appeal to "finish the job."

Fifteen million Americans bought Victory Liberty loan notes in the campaign which closed May 10, according to estimates received by the treasury from federal reserve banks. This compares with about 21,000,000 purchases in the fourth Liberty loan, 17,000,000 in the third, 9,400,000 in the second and 4,000,000 in the first.

The treasury announces that the official total probably would not be known before May 26.

Unofficial advices from the Atlanta and Dallas districts indicated they probably reached their quotas.

The Kansas City district reported a total of \$15,480,150. Oklahoma's subscriptions totaled \$29,499,050.

Atlanta estimates that every state in that district would reach its quota. Florida, Mississippi and Tennessee were all safely over. Tennessee led the states of that district in oversubscriptions.

## GERMAN DELEGATES ABSORBING TREATY

ADDITIONAL NOTES FORWARDED TO FRENCH FOREIGN OFFICE BY GERMANS.

Paris.—The German delegates to the peace congress are working hard to absorb in detail the demands embraced in the lengthy peace treaty. In the meantime Marshal Foch is reported unofficially to have made preparations to return to the front immediately.

Further notes have been forwarded to the French foreign office by the Germans, in addition to the representations made last week by Count von Brockdorff-Rantzau in seeking modifications of terms in the peace treaty that "no nation could endure." These communications deal with the subjects of prisoners of war and labor legislation. In general, the labor clauses of the treaty are satisfactory to the Germans, who declare these do not go far enough.

President Wilson is declared to have actively collaborated in the replies to the first communications of the Germans, in one of which it was set forth that the allies could admit of no discussion of their right to insist upon the terms of the peace treaty substantially as drafted.

Six of the lesser lights of the German peace delegation have departed from Versailles for Berlin.

Late dispatches from Berlin assert that a great wave of dissatisfaction is sweeping over Germany.

Bitter invective is heard everywhere against the allies, and it is said that all parties are one in the opinion that what Germany is asked to give is beyond all reason and fairness and that the treaty should not be signed.

While it is stated that the council of foreign ministers has nearly completed its work of rearranging the Austro-Hungarian boundaries, it is reported in Paris that the council of four has not yet taken up again Italy's demands for the cession to that country of the port of Fiume, to which President Wilson is declared still to be opposed.

A demand for the extradition from Holland of the former German emperor has reached Holland, according to a note issued by the Dutch legation in Paris.

### Texas is Largest Contributor.

Richmond, Va.—Figures at the office here of the foreign mission board of the Southern Baptist convention, which will be read at its meeting to be held in Atlanta next week, show that during the last year the denomination raised \$1,223,150 for current expenses. Texas was the largest contributor, giving \$200,000.

### Ranks Third in Certificate Sales.

Dallas.—Third place in the issue of treasury certificates which closed on May 8, and first place in the issue of March 13, with an oversubscription to each of the last four issues is the excellent manner in which the eleventh federal reserve district responded to the government's call for financial assistance.

### Not Pressing Demand for Fiume.

Paris.—Italy, according to the Echo de Paris, seems inclined to cease pressing, for the time at least, her claim to Fiume and to demand fulfillment of the treaty of London upon which her Dalmatian claims were based.

### Flotilla Attacks Along Two Rivers.

Archangel.—The allied river flotilla has taken the offensive on the Dvina and Vaga rivers. The flotilla bombarded Tulgas, on the Dvina, and Kitzka on the Vaga.

### Appointed West Point Superintendent.

Washington.—Appointment of Brigadier General Douglas MacArthur, formerly brigade commander in the Rainbow division, to be superintendent of the West Point Military academy, is announced by General March.

## ROUSING RECEPTION GIVEN TEXAS HEROES

VAST THROUGHS LINE DALLAS STREETS TO GREET THE RAINBOW BOYS.

## CASUALS ARE WITH DIVISION

These Heroes Who Helped Make the World Safe for Democracy Return to Their Native Land.

Dallas.—The people of this city, lining the streets 100,000 strong gave their Rainbow troops a truly Texas welcome Monday afternoon.

With the city ablaze with the national colors, bands played and flags waving, the demonstration was one of the most striking in the history of Texas. As the veterans of St. Mihiel and the Argonne swung along in some places they had to literally force themselves through the cheering crowds.

At the old Katy depot where the supply train disembarked the crowd simply would not be kept back and literally stormed the train. Husky soldiers bronzed with the sun of France, pulled their mothers and sweethearts up to the windows of the coaches to hug and kiss them. Pretty girls were present by the hundreds, forming groups about each returning soldier. Finally the three companies formed in line in spite of the crowds and the parade moved off.

At the old Katy depot where the supply train disembarked the crowd simply would not be kept back and literally stormed the train. Husky soldiers bronzed with the sun of France, pulled their mothers and sweethearts up to the windows of the coaches to hug and kiss them. Pretty girls were present by the hundreds, forming groups about each returning soldier. Finally the three companies formed in line in spite of the crowds and the parade moved off.

Captain T. J. Brooks, of Big Spring, formerly mayor of that city, was in command of the three companies arriving. They were A, and E of Dallas and D of Big Spring. The other three south Texas companies went to Camp Travis for demobilization. The companies parading here Monday left for Camp Bowie Tuesday morning. The men expect to be discharged from the service within the next week or ten days. Under Captain Brooks' command also came a detachment of the 128th infantry from various points in the southwest. These soldiers paraded with the supply train troops.

The parade was led by General Flagler, commander in chief of the Rainbow division who led the soldiers in France.

Red Cross nurses in uniform rode in special automobiles bearing the signs, "We nursed them over there." An automobile full of wounded men of the Rainbow division was in the parade, the car carrying the notice, "We used to march with these fellows." The Salvation Army float featured "Ma" Burdick, champion doughnut maker of that organization who is just home from France. There were several beautiful allegorical floats carrying bevy of pretty girls and children. One represented Victory and yet another Peace. The memorial car, red with poppies and surmounted by a white cross, was "In Memory of Those Who Sleep Where the Poppies Blow." Hats were doffed as the memorial float passed in parade.

The final features of the reception to the Rainbow soldiers of the 117th supply train Monday afternoon consisted of a brief welcome to the fighters by Governor Hobby and Mayor Wozencraft and a luncheon where their commander, Major General Clement A. F. Flagler spoke to them and their relatives, telling of the record that they made overseas Monday afternoon and evening the soldiers were at liberty to visit friends and relatives until they took their train Tuesday morning for Camp Bowie, their demobilization point.

Hines to Visit Texas.

Dallas.—W. D. Hines, director general of the United States railroad administration, will visit Dallas the latter part of the week. He will arrive from Texarkana in his special train, on which he is making a tour of the country. Mr. Hines will be accompanied by B. P. Bush, regional director of the Southwestern region, and a party of other officials. Information was given by Mr. Bush, regarding the intended visit of Mr. Hines.

Mexico Passport Rules Modified.

Washington.—To facilitate intercourse between the United States and Mexico, passport regulations have been modified by the state department. Modifications provide that residents of either country may obtain permit cards which not only will allow the holders to cross the border, but to visit the interior of the other country in emergency cases.

Soldiers' Voting Bill Printed.

Austin, Texas.—Secretary of State George F. Howard has received 16,000 copies of the bill enacted last week enfranchising honorably discharged soldiers, sailors and marines and the copies were immediately put in the mails.

Severe But Just, Switzerland Says.

Geneva.—Swiss statesmen and the press agree that the peace terms are severe, but just.

German Notes Turned Over to Experts.

Paris.—The council of four at its meeting decided to refer the German notes on labor and war prisoners to experts for consideration instead of answering them at once.

Boy Scout Week June 8 to 14.

Washington.—The week beginning Sunday, June 8, and ending Saturday, June 14, will be observed over the United States as Boy Scout week. Boy Scout week has been designated by President Wilson.

## GERMANY WHIMPERS UNDER THE LASH

PRESIDENT OF IMPERIAL MINISTRY CALLS ON FREE STATES TO SUSPEND AMUSEMENTS

## DELEGATES ARE VERY BITTER

Expected Heavy Bill From Allies, but Were Not Prepared for Claims Presented to Them.

Berlin.—The president of the imperial ministry has sent the following telegram to the governments of the free states:

"In deep distress and weighed down by cares, the German people has waited through the months of the armistice for the peace conditions. Their publication has brought the bitter disappointment and unexpressed grief to the entire people. The imperial government requests that the free states have public amusement suspended for a week and allow in the theaters only such productions as correspond to the seriousness of the grievous days."

The parliamentary leaders of all factions who are in Berlin to attend committee meetings admit they were stunned by the severity of the proposed peace terms.

A leading member of the independent socialists declared the peace offered was wholly dictatorial and that its revision was possible only through a world revolution.

The people, though fairly stricken dumb by the peace terms, are now recovering sufficiently to declare that Germany cannot and will not sign the compact no matter what comes.

There exists a small group of Germans, chiefly conservatives, who prefer to see the entente occupy the whole country than to have it turn anarchist.

Reports from the Versailles correspondents emphasize the feeling of amazement and excitement which prevailed in reading of the terms of the peace treaty. All the correspondents agree that no hasty decision will be reached.

There is much speculation in Berlin as to whether the terms represent maximum demands which may be reduced or whether they are minimum and irreducible.

Premier Hirsch of Prussia, speaking in the Prussian national assembly, characterized the peace terms as representing a purely "mailed fist" peace, which "would mean slavery for the Fatherland and fresh bloodshed for Europe."

## CANANEA, SONORA, IS RAIDED BY BANDITS

FIVE MEN ARE KILLED, INCLUDING CHIEF OF POLICE AND FOUR POLICEMEN.

Douglas, Ariz.—With two military trains bringing soldiers from Nogales and points south of there to Cananea, Sonora, Mexico, and a home guard formation under way in the town, the feeling of trepidation exhibited there as a result of a raid by 77 bandits Friday was largely dispelled. The revised death list is five, the chief of police and four of his men.

Nothing has been heard of the bandits since they rode past the Capote mine of the Cananea Consolidated Copper company and headed toward Los Nogales ranch, about 35 miles southwest of Cananea. The leader of the band is Jose Maria Suarez. The raiders first appeared in Ronquillo, the business section of the municipality. After an unsuccessful endeavor to open the vault of the Banco Mercantile, owned by Frank Proctor of Los Angeles and J. M. Gibbs, American consular agent at Cananea, the bandits went to the cashier's home, forced him to dress and go to the bank. They are said to have exhibited a business-like bomb, which they threatened to use unless he consented to do their bidding. A message from Naco stated the cashier estimated the amount stolen from the bank at \$22,600, American gold.

President Explains Reported Alliance.

Washington.—In response to an inquiry from Secretary Tumulty, President Wilson has cabled: "I have promised to propose to the senate a supplement in which we shall agree, subject to the approval of the council of the league of nations, to come immediately to the assistance of France in case of unprovoked attack by Germany, thus merely hastening the action to which we should be bound by the covenant of the league of nations."

Eastland Selected for Railroad Shops.

Eastland, Texas.—It has been officially announced that the Texas & Pacific railroad will put in shops and establish a freight division headquarters in Eastland.

Troops Will Be Home By August.

Washington.—Secretary Baker has announced that by August the last every man of the American expeditionary forces will have been withdrawn from France.

Supplementary Guarantees for France.

Paris.—France, the United States and Great Britain have concluded an agreement giving supplementary guarantees for France and security for the peace treaty.

Texas Delegation to Meet May 16.

Washington.—A meeting of the Texas delegation has been called by Representative John N. Gardner to be held in his office on the afternoon of May 16 and plans formulated for the special session.

Ask for Bids on Steel Rails.

New York.—Walker D. Hines, director general of railroads, has announced here that the railroad administration will ask immediately for competitive bids for 200,000 tons of steel rails.

## CONGRESS IS CALLED IN EXTRA SESSION

PRESIDENT WILL BE UNABLE TO BE PRESENT AT OPENING, TUMULTUOUS ANNOUNCES.

Washington.—President Wilson has issued a call by cable for a special session of congress to meet Monday, May 19.

Secretary Tumulty, in making the announcement, said it would be impossible, of course, for the president to be here on the opening day.

White House officials said that in naming an early date for the session President Wilson was guided largely by the advice of Secretary Glass as to the necessity of passing annual appropriation measures which failed in the closing days of the last session.

President's Proclamation.

President Wilson's proclamation calling the extra session follows: "Whereas, Public interests require that the congress of the United States should be convened in extra session at 12 o'clock noon, on the 19th of May, 1919, to receive such communications as may be made by the executive:

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do hereby proclaim and declare that an extraordinary occasion requires the congress of the United States to convene in extra session at the capitol in the District of Columbia on the 19th of May, 1919, at 12 o'clock noon, of which all persons who shall at that time be entitled to act as members thereof are hereby required to take notice.

"Given under my hand and the seal of the United States of America, the seventh day of May in the year of our Lord one thousand nine hundred and nineteen and of the independence of the United States the one hundred and forty-third.

"WOODROW WILSON.  
"By the president, ROBERT LANGSING, secretary of state."

## CALLED SESSION OF LEGISLATURE ENDED

ENFRANCHISEMENT OF SERVICE MEN AND CONTROL BILL ARE CHIEF WORKS.

Austin, Texas.—The first called session of the thirty-sixth legislature has completed its labors and adjourned sine die. It finished the work assigned by the governor and went a step beyond.

It has passed a bill enfranchising discharged soldiers, sailors and marines. It amended the board of control law so as to make it effective Jan. 1, 1920, thereby giving the legislature time to perfect its acknowledged defective provisions, and it ordered investigation of the Blue Ridge farm matter. It also adopted a resolution directing the governor and the state prison commission to exercise the state's option to purchase the Blue Ridge farm of 5,000 acres at \$50 an acre. The tender of the money will be made, but a lawsuit is in progress to invalidate the option and for that reason the deal can not be closed, but will await the outcome of the litigation now pending in Fort Bend county.

The second called session will be convened about June 16 and there are a number of matters which will be considered then. Most of them have been outlined. The general appropriation bill and correction of the board of control and state depository laws are included, also a law governing live stock commission merchants so as to protect shippers of live stock.

### Pythian Grand Lodge at Dallas.

Dallas.—The forty-sixth annual session of the Grand Lodge, Knights of Pythias, and the Grand Temple, Pythian Sisters, has convened in this city. The grand officers, Pat M. Neff of Waco, grand chancellor; R. M. Bingham of Corpus Christi, grand vice chancellor; Charles Brewington of Stamford, grand prelate; Henry Miller of Weatherford, grand keeper of records and seals; W. F. Skillman of Dallas, grand master of exchequer; W. S. Lemly of Temple, grand master at arms; Dr. J. W. Duval of Wichita Falls, grand inner guard; W. M. Futch of Henderson, grand outer guard. The Grand Pythian Sisters of Texas are Mrs. Sarah I. Cotton, Weatherford, past supreme chief; Mrs. John F. Onion of Dallas, supreme protector; Mrs. Amanda Blanton of Galveston, grand chief; Mrs. Flora Hey of Marshall, grand mistress record keeper, and Mrs. K. W. Sneed of Wortham, supreme representative.

Border Buildings to Cost \$3,000,000.

San Antonio, Texas.—Plans for military construction work at border stations all along the Rio Grande from Brownsville to Columbus, N. M., involving the expenditure of approximately \$3,000,000, are announced by Major General DeRose C. Cabell, commander of the southern department.

Supplementary Guarantees for France.

Paris.—France, the United States and Great Britain have concluded an agreement giving supplementary guarantees for France and security for the peace treaty.

Texas Delegation to Meet May 16.

Washington.—A meeting of the Texas delegation has been called by Representative John N. Gardner to be held in his office on the afternoon of May 16 and plans formulated for the special session.

## What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. ### WHEN BUYING ASPIRIN ALWAYS SAY "BAYER"

Ask for "Bayer Tablets of Aspirin" in a Bayer package—marked with "Bayer Cross."

Don't buy Aspirin tablets in a pill box. Insist on getting the Bayer package with the safety "Bayer Cross" on both package and on tablets. No other way!

You must say "Bayer." Never ask for merely Aspirin tablets. The name "Bayer" means you are getting the genuine "Bayer Tablets of Aspirin," proven safe by millions of people.

Beware of counterfeits! Only recently a Brooklyn manufacturer was sent to the penitentiary for flooding the country with talcum powder tablets, which he claimed to be Aspirin.

Danger in Abbreviation.  
Even the school nurse has her fun. In a talk before the central philanthropic council the other day, Miss Helen R. Stewart of the board of health told of one little boy who, after he had been examined by the nurse, went to the teacher in tears, complaining that the nurse called him names.

When the teacher expressed her surprise, the boy sought to prove his case by handing her the card the nurse had given to him as her record of the examination.

"Look at that!" he cried.  
"Poor nut," read the card.  
"Poor nutrition," explained the teacher, finally sending the child away with a better opinion of the nurse.—Dallas News.

Von Tirpitz a Pauper.  
The Tribune de Geneve is informed that Grand Admiral von Tirpitz is staying at Wildegg, Switzerland, as the guest of Lieut.-Colonel Wille, son of the former commander-in-chief of the Swiss army.

Tirpitz has lost all his fortune. His son is a clerk in a bank at Zurich, and his daughter is a governess in a Zurich family.

To avoid paying the German war tax of 1913 Tirpitz invested his money in Italian securities, with the result that he is now penniless. What a patriot!

Information Needs Confirmation.  
"Old Dorsey Dudgeon prides himself on knowing where the conflagration is as soon as he hears the fire-bell ring," related the landlord of the Petunia tavern.

"By the time half a dozen whangs have changed he has scurried into a garment or two and is out on his front porch, hollering to the people running by just where he knows the fire is."

"He should be of considerable assistance to the volunteer firemen and others in sending them in the proper direction," commented the interested guest.

"Eh-yah! He would be if he didn't nine times out of ten know it wrong." Kansas City Star.

Glossing Over the Facts.  
"Pa, what is a euphemism?"  
"I'll have to explain that by giving you an example, son."  
"Yes, pa."  
"The dictionary says a euphemism is a figure of speech by which a word or phrase more agreeable or less offensive is substituted for one more accurately expressive of what is meant," as in the case of the society reporter who states that a widow who has been married three or four times is "fed to the altar" by a wealthy old codger who never had the slightest notion of getting married until he faced the preacher."—Birmingham Age-Herald.

# SHIPPING HOME 200,000 MEN A MONTH IS SOME LARGE SIZE JOB

Hilarious Happiness of Doughboys at Embarkation Ports in France Is Infectious Enough to Make a Stone Dog Wag His Tail—Difficulties of the Task Interestingly Described.

By WILLIAM D. HINES.

Bordeaux.—The army is going home, and it is going home happy. I saw 5,000 of them sail for home today, and I've been praising myself on my moral courage ever since. How I ever resisted the temptation to sneak on board with them is more than I can figure out. Their hilarious happiness was infectious enough to make a stone dog wag his tail.

They shouted, they sang, they danced. The oldest and most moss-covered joke got a hearty laugh. Past hardships, dangers and troubles were forgotten; only thoughts of the homeland and all that it can mean to a homesick boy occupied their minds.

At the docks where the big transports are tied up, huge sheds a hundred feet wide and a thousand or more in length have been constructed with roofs and sides of corrugated iron.

Special rooms, with warm fires, have been set aside for the wounded, the stretcher cases occupying one and the walking wounded another. Here Red Cross nurses are bustling, accompanied with orderlies with trays of steaming coffee and sandwiches. Some nurses lift the men's heads tenderly, tuck a pillow beneath so they can assume a sitting posture without effort while eating. The others give them new pajamas, handkerchiefs full of cigarettes and sweets and other comforts.

### Joy of Going Home.

At the Red Cross canteen, in the center of the room, the counters are snow-white and piled high with sandwiches. Behind the counters American women in blue gowns and white, starched head-dresses welcome the doughboys with a smile as they "dig in."

"Say, can I take any word back to the Statue of Liberty for you?" asks one lad with a grin of joy that stretches from ear to ear, as the women pour hot coffee and hand out the sandwiches.

In a winding line they weave past the canteen and then are directed across the way to another counter. Here they pass by two more Red Cross workers, who hand them a khaki handkerchief, package of chewing gum and two packages of cigarettes.

"Good-by, good luck," says the American girl, as she hands out a handkerchief.

One doughboy is seen to use the handkerchief immediately. A lump has suddenly contracted in his throat, and there is a blur before his eyes. He is only a boy, and his joy has reached a climax when the American woman smiled at him and wished him good luck.

As a big, strapping chap lumbers up to the counter and holds out his hand rather sheepishly: "Pleasant voyage and a fine reunion with the old folks," says the girl with a smile. The sheepish look disappears in a flash, the big chap looks grave, and with a courteous nod, he answers: "Thank you; I'll tell the folks how fine you've been to us." It's the girl's turn to choke a bit.

### Caring for the Wounded.

Outside, meanwhile, the stretcher cases and the walking wounded have been stowed comfortably aboard the big liner. "Fall in!" There is a scramble for company formation and all thoughts turn to the boat. As the officers march down the line, giving a last inspection, eyes become a bit worried and fearsome. Suppose they are looking for some one to keep back? Maybe the boat can't take all of the men assigned to it?

The strain is awful. Then the order is given to move forward to the exit of the shed and onto the gang-plank. As each man passes out his name is checked, and at the top of the gang-

plank his squad is tolled off and escorted to quarters.

Whistles toot, the stevedores unloose the hawsers. The band plays on the top deck. Men climb into the masts and rigging. The rails are lined with them. They shout, they scream, they laugh, they cry.

Another regiment has gone home. To the layman it sounds easy, doesn't it? Two hundred thousand men a month, or approximately 65,000 from each of the three main embarkation ports in France—Bordeaux, Saint-Nazaire and Brest! There shouldn't be any difficulty about that.

Well, just listen a moment to the difficulties of the actual work:

First, there is the priority of wounded men on the embarkation lists. Every man able to stand the journey is being sent as soon as possible to America.

But a wounded or sick man cannot be taken immediately from the hospital train at the port to the boat. And unfortunately, the trains and boats don't arrive together. So he must be taken to a hospital at or near the port. His transportation from train to hospital, his care there and his transportation from the hospital to the boat require labor and time.

The handling and care of the wounded also have been worked out to a fine point. The orderlies that receive them at the dock are trained in the handling of stretchers. An ambulance carrying four men is unloaded and ready for inspection at the dock within four minutes from the time it arrives. Each stretcher is met at the gang-plank by a ship orderly and conducted to a place aboard, previously selected, according to the nature of his case. So much for the wounded and sick.

### How They Are Handled.

Then there is the well soldier to be considered. Soldiers on active service, selected for demobilization, are arriving at the embarkation ports in groups which number from 2,000 to 5,000; and at all hours of the day or night. It rains almost every day along the Atlantic seaboard in France. It is a cold, disagreeable rain, which chills the bones and makes mud ankle deep. This means that warm accommodations and hot food must be always ready.

Then they must await their turn to sail. Some may remain in the concentration camp six weeks. It all depends upon the ocean transportation. If they arrive in units—such as regiments, battalions, etc.—they must be kept together and sail together.

Not all soldiers come in regiments or battalions, either. There is the problem of the "casual" for instance. This man is a problem even to himself. He started out in the army as a member of a certain unit. But in the necessary shifting, reducing, increasing and separation of his and other units or outfits, he became detached.

Whether coming in a regiment or alone, too, each man must be carefully checked upon entering and leaving and also at the dock before boarding the transport. This is no small job when 65,000 or more men are handled each month.

### Going Through the "Mill."

Probably the only inkling that a well soldier at the embarkation concentration camps in France has that his instrument is nearly up and that he will soon be on his way home is the order to report at the "mill." The "mill" is a series of buildings, which transform the feelings of a doughboy from that of a cottie, mud-pestered individual to that of a care-free, wealthy boulevard promenade.

The individual doughboy receives

## Here's New Fate for Dog; Hair to Become Cloth

Columbus, O.—Here comes the information that a dog's wool association has been formed—an organization to promote the production and quality of the fleece of dogs for industrial purposes. But, to have been strictly correct, it ought to have been called a dog's hair association and not a dog's wool association. There is a vast difference between hair and wool.

It is stated that hair of such dogs as the spaniel and Pekingese pets especially is commercially valuable, and that when mixed with wool produces a splendid fabric. Dog hair is not unknown in commerce now. Some of the expensive furs of trade are from the dog—trimmed and colored and polished until it is simply lovely in its hue and texture.

his order to report at the front entrance. He enters a huge room with hundreds of others, is assigned to a place on one of the long benches which face each other like the pews in the large railroad station at home. A big clothes rack on rollers faces him. He is given a Red Cross comfort bag for the storage of his valuables, a check with the number of his place on it with a duplicate on his clothes, which he is ordered to remove to the last thread.

So many minutes are allowed him for the disrobing process. There are others, waiting. So the doughboy strips and takes his place in line at the side of the room. The line moves forward and he finds himself in a steam-clouded room with tiny streams of hot water hissing from shower sprays overhead.

A big sergeant shoves a wad of soft-soap into his hand as he passes and shouts: "Make it snappy. You've just got 30 seconds." Sergeants are always in a hurry and expect everyone else to be. The doughboy jumps under one of the sprays with a gasp, which turns to a shout as he feels the hot water bring a glow to his body. At the word "all out" he steps to one side and is handed a towel to dry himself.

Another line is formed and quiet creeps over the crowd. The next room holds the doughboy's fate, and he knows it. It's the medical inspection room. It's the same old feeling he had when he enlisted and came to be examined. Doctors always were the bane of his existence. The door opens and he steps through.

### Medical Inspection.

An officer arises from beneath a sign marked "chest," taps his lungs and listens to his heart. He says nothing, but sits down and marks some hieroglyphics on a card, which he passes to the officer behind him. The doughboy passes on, too. His eyes, ears and throat are gone over by this officer. He passes on; the little white card always preceding him. He tries to glimpse the marks, but even if he does see them, he doesn't know whether they are favorable or not.

He passes to the last of the six tables and feels worse than he did after the Argonne offensive. With the rest he passes on into the next room, where another sergeant with just as loud a voice as the noncom in the bathroom tells him again to "make it snappy" and find his place.

The room resembles the first one in size and equipment. Only the windows are on the opposite side of the building!

The rack on which he placed his clothes in the first room of the "mill" has been rolled, while he has been in the shower, through a side door into a delousing and fumigating room, and inspected and put here. He grabs his clean clothes from the rack with a great grin. Even if his clothes have been adjudged fit for salvage and replaced with an entire new outfit which doesn't really fit, he still grins.

Why wouldn't he? He knows he is going home now. And he is happy. Some job, after all, shipping home 200,000 men a month. Isn't it?

## PICK 7 FOR SPELLING BOARD

New Members Named to Fill Vacancies Caused by Death of Roosevelt and Others.

New York.—The simplified spelling board has made public the names of seven new members elected to fill vacancies caused by the deaths of Col. Theodore Roosevelt, Andrew D. White, E. Benjamin Andrews and others.

They are Frank W. Taussig, chairman of the United States tariff commission; Elmer E. Brown, chancellor of New York university; Dr. William Williams Keen of Philadelphia, past president of the American Philosophical society; Edward O. Sisson, president of the University of Montana; John S. P. Tutlock, professor of English philology in Stanford university; Henry M. Belden, professor of English in the University of Missouri; and Herman Colitz, professor of Germanic philology in Johns Hopkins university. Andrew Carnegie, an original member of the board, has been made an honorary member.

## ATTRACTIVE HOME FOR SMALL FAMILY

White Bungalow Is Very Artistic in Design.

HAS UNIQUE ARRANGEMENT

Placing of Rooms Is Convenient and Building Presents Fine Appearance—Plans Can Easily Be Altered to Suit Ideas of Builder.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie Avenue, Chicago, Ill., and only enclose three-cent stamp for reply.

Since hostilities in Europe ceased and the restrictions that were imposed on building during the war have been removed there have been planted many thousands of homes that will be erected this year. Designs for these homes are as varied as are the individual tastes of the owners. However, there is one type of house that is exceptionally popular. That is the bungalow.

The advantages of a bungalow—that is the house that has all of its rooms on one floor—are so numerous that they explain the popularity of this

architectural design. These houses, planned to contain four, five or six rooms usually, are ideal for small families. Architects, too, have designed them so that they present an attractive exterior appearance and give a great deal of satisfaction to the owner.

Illustrated herewith is a fine sample of bungalow designing. This white bungalow of wood construction has a convenient room arrangement and presents a fine appearance. Ranged across the front are living, dining and bedroom, while at the rear is another bedroom, separated from the kitchen by the bathroom.

The porch set into the house is unusual, while the pergola at the side is an artistic addition to the house. The dimensions of this bungalow are 39 by 32 feet. The entrance at the end of the porch leads into the living room, which is 13 by 15 feet 6 inches. In the exterior wall is a fireplace, on either side of which are windows. Four windows are provided in the front of the room. The dining room is 13 by 11 feet and has a colonnade between it and the living room, which makes it a light and attractive room. Adjoining the dining room at the corner is a bedroom, 11 by 11 feet 6 inches. Back of it, also on a corner, is a second bedroom. Between this

point this design is exceptionally good.

In selecting the design for a home, great care should be exercised, as few families build more than once. Every need of the family should be carefully considered before the contract is let, and then the material specified should be of the best quality. While this entails a little more expense, it pays in the long run, as the upkeep cost will be lower.

Just now home building is uppermost in the minds of all people who have been considering building during the last two years. The government, through the United States department of labor, is urging home building, not only because there is an unusual shortage of places for people to live, but because the work is needed to keep labor fully employed while the industrial activities of the country are being restored to a peace time basis.

While it costs more to build now than it did five years ago, the prices of building materials have not risen in proportion to the costs of other necessities of life. Careful analysis of the situation shows that this increase is about 37 per cent, while the costs of other necessities have risen 100 or more per cent. And this same investigation has disclosed that prices are not liable to come down for several years.

There is a pardonable pride in owning the home in which you live. It makes a better citizen out of every man and woman. It is this fact that will make this country impervious to the social unrest that is sweeping through some of the countries of Europe, students of political economy assert.

It requires thrift for most persons to secure a home. During the war,

many learned for the first time the satisfaction that comes from saving. And there is nothing more worth saving for than a home.

Now that the building season is open it is time to consider what sort of a house to build. The design illustrated here is a good one for those who want bungalows. However, it can be changed to suit the ideas of the builder. By consulting with the local contractor or architect, these changes can easily be made. Also it can be learned what such a bungalow will cost by interviewing the lumber dealer and builder.

Securing the money to build a house is a comparatively easy matter, as banks and individual lenders consider improved real estate the best of security. By paying a small proportion of the cost down, the balance can be paid as rent.

Owning a house is the finest investment in the world, and with all the reasons why building should be done now, home building should be popular this year.

### Be Gentle in Speech.

We should use great care in selecting our thoughts, and especially our words. For every word stamps itself for good or evil on our bodies and becomes manifest in our lives. The

First Floor Plan.

room and the kitchen, which is also a corner room, is the bathroom.

The kitchen is a fine, large room, its dimensions being 14 by 10 feet. A good-sized pantry with an ice box that can be filled from the rear porch is at one end of the kitchen, while in it are the sink and wall case. It also will be noted that numerous closets have been provided, one of them being in the side entry.

The basement is planned to be the full size of the house. This is an important feature of a bungalow, as it provides the storage room for the family. By dividing the basement into rooms with partitions extending to the ceiling, places for the heating plant, vegetable and fruit storage and for such miscellaneous articles as trunks, garden tools, etc., are provided. Considered from almost any view-

reason why we are not happier or more successful is because we have sown so many obnoxious weeds in the ether about us. They are producing a harvest exactly like themselves. Remember that gentle words are, after all, the most powerful words. They are more convincing, more compelling; and when they are projected into the future they bring health, happiness and success.—Fern Howard in Milwaukee Sentinel.

### Adding Insult to Injury.

"What have we here, suspended from a telegraph pole?"

"Just an effigy of the former kaiser."

"Ahem! William used to be proud of his smart uniforms. If he could see the no-descript attire of this figure it would certainly get on his nerves."—Birmingham Age-Herald.

## SAVED BY A FAITHFUL WIFE

Suffered Thirty Years With Stomach Trouble and Hemorrhages of the Bowels.

The Story of a Wonderful Recovery

There is hardly any one who does not experience some trouble with the stomach. It is so common that we frequently pay little or no attention to it. Yet, the stomach is very easily upset, and catarrhal inflammation of the mucous lining develops, grows worse—the pain and distress is incessant and the truth dawns that we have chronic stomach trouble.

The case of Mr. Louis Young, 205 Merrimac St., Rochester, N. Y., is typical. He writes: "I suffered for thirty years with chronic bowel trouble, stomach trouble and hemorrhages of the bowels. We bought a bottle of Peruna and I took it faithfully. I began to feel better. My wife persuaded me to continue and I did for some time as directed. Now I am a well man." Mr. Young's experience is not unusual.

If you suffer from catarrh in any form, whether of the head, stomach, bowels or any other part of the body, try Peruna. It may be just what you need. Peruna comes in either liquid or tablet form and is sold everywhere. Your dealer has it or will get it for you. Ask for Dr. Hartman's World-Famous Peruna Tonic and insist upon having it. If you want your health except nothing else.

All the sick and suffering are invited to write The Peruna Company, Dept. 78, Columbus, Ohio, for Dr. Hartman's Health Book. The book is free and may help you. Ask your dealer for a Peruna Almanac.

### He Swore.

"I won't stand for no man swearing at me," exclaimed J. T., an Easterner lad of three or four summers, confiding his troubles to his mother.

"Who swore at you?" asked his mother.

"Why, John Butler swore at me" (John is a few months younger than J. T.)

"What did he say?"

"Why, he called me a nut."—Indianapolis News.
