About 4,500 persons demonstrated at Sasebo, Japan recently because a United States nuclear-powered submarine visited the seaport. If the Japs had not pulled their sneak attack on Pearl Harbor there wouldn't be any nuclear-powered subs around their seaports today. We will remember the lessons of history. And right now, I wouldn't trust any Jap much further than I could throw a green walnut with a sling—brotherhood or no brotherhood.

A Chicago mob of young people singing "We Shall Overcome" were tossed in the paddy wagon and rushed off to jail for attempting to break up an Unamerican Activities Committee hearing in the Windy City last week. U. S. marshals moved in to do the "removal chores." With the passage of the latest rights bill in Congress this hoodlum is due to vanish. After all—the bill does not grant the right to run over any other person or their right to investigate communism in America. We are still going right on fighting the Red menace in this country and eventually we hope to "overcome" it.

The Veterans Administration Hospital at McKinney is one ear-marked by SEC. McNAMARA to be destroyed. We hear now that GOV. CONNALLY has announced plans for the establishment of a Women's Job Corps training center to replace it. The Texas Education Agency would replace the hospital with this school. Here's the funny side of the story. The state has applied for a \$3,650,000 grant under the federal poverty program to operate the job corps. The reason for closing the McKinney hospital was to curtail expenses at the federal level. It cost about one-sixth of the amount of the poverty grant being asked for to operate this hospital for the veterans. The business of saving money is the bunk in this case. The social equality planners in Washington and some in Austin simply want to get a different breed in personnel and in the corps at McKinney. In other words, the way I see it, the veterans can go hang while the free loaders move in. Things may be changing as the administration in Washington doing the changing and WITH OUR TAX MONEY.

Comment of another columnist: "Two department store clerks were talking about the CLAY - LISTON fight and one remarked: 'I have seen better fights in women's lingerie.'"

Texas is supposed to have had a conservative Legislature. But from the number of recommendations it made we can draw our own conclusion as to the element who made up the recently adjourned law-making body. Take the poll tax repeal for example. Texas voters have already turned down repeal. Yet a handful of liberals managed to get the thing submitted to a constitutional amendment status for another vote in the late hours Saturday night. In 1966 the voters of Texas will again reject repeal of the poll tax and beat a bunch of those double-talking politicians who run for reelection on that plank.

The Texas Senate left the possibility of a special session for the taxpayers when they adjourned without voting a 39-county redistricting bill after they had voted for a (Continued on page 5)

## Midland Men Stake Mabee Wildcat Site

Healey & LeBlond of Midland has staked a wildcat site, the No. 1 Mabee, to drill to 5,000 feet for tests of the San Andres in Martin County, 17 miles northwest of Stanton.

It is 6 1/2 miles east of the San Andres oil production in the Mabee field of West Martin and East Andrews County and spots 1,980 feet from north and 660 feet from east lines of section 7, block 38, T-1-N, G&MMB&A survey.

Connally Oil Co. of Abilene has plugged and abandoned the No. 1 Cowden, a Martin County wildcat operation 2 1/2 miles west of Stanton, at total depth of 13,227 feet. It is 1,980 feet from north and west lines of section 17, block 39, T&P survey.

## Cancer Fund Campaign Extended

Mrs. Leo Turner has reported a total of all monies collected for the Martin County Crusade to fight cancer and the goal is still high.

It's important that Martin County do its part in this campaign. To date a total of \$768.51 has been collected. The county goal was pegged at \$850. Contributions are lagging by only \$86.49 for the goal—but why stop at the goal?

Many citizens who have contributed to the Crusade for funds in the past have simply neglected to mail in their contribution of Mrs. Leo Turner. Some citizens were out of town when the campaign was started and they will undoubtedly be sending along a check.

## Funeral Held Friday For Local Resident

Mrs. Mary Elizabeth Christian, 95, a long-time Stanton resident, passed away May 26 at 7 a.m. at Bennett House in Big Spring after a lengthy illness.

She was born in Crawford County, Illinois, October 26, 1869, and moved to Stanton in 1914 from Mineral Wells. She married Thomas F. Christian in Stanton on March 15, 1915. He preceded her in death in 1926.

She is survived by a niece, Mrs. Lottie Avery of Stanton, and a host of other nieces and nephews. Funeral services were held Friday, May 28, at 10 a.m. at the Church of Christ in Stanton. G. B. Shelburne, Jr., of Amarillo, officiated and was assisted by G. B. Shelburne, Sr.

Interment was in Evergreen Cemetery in Stanton, under the direction of Arrington-Gilbreath Funeral Home. Pat and Mike Springer of Lenorah, spent several days last week with their aunt and uncle, Mr. and Mrs. Woodford Sale.

## Dodds Resign Positions With Local School

Mr. and Mrs. Roy Dodds have announced their resignation from the Stanton school system. Dodds was junior varsity coach at the high school and taught health and physical education. Mrs. Dodds was reading and spelling teacher at Junior High.

The family has gone to Alpine where Dodds will attend Sul Ross State College during the summer. He is to report to Abilene on August 1 for duties as principal of the Butterfield Common School District.

Mrs. Dodds plans to spend her time taking care of their new son, Darrell Kent.

## Vacation Bible School Set At Lenorah

Mrs. J. C. Greenhaw, general superintendent, has announced the plans for Vacation Bible School to be held at the Lenorah Baptist Church from June 7 through June 11. Classes will be held each day from 8 a.m. until 11 a.m.

Preparation day has been set for June 4, at 8 a.m.

Those assisting Mrs. Greenhaw are: Mrs. Ruth Feaster, Cradle Roll; Mrs. Jim Franklin, Beginners; Mrs. Gwen Sawyer, Primary; Mrs. Donna Sawyer, Juniors, and Mrs. Grover Springer, Intermediates.

All children have been extended a cordial invitation to meet with the group for the Bible School.

## Russell Says Reception Center Open

Joe Russell, manager of the Martin County Chamber of Commerce and of Basin Grower's Association has advised the press of the reopening of the Bracero Reception Center at Eagle Pass.

Russell voiced hope that a Texas panel to select quotas to recruit laborers from Mexico for work in this area would shortly be appointed.

He stated that 15,000 braceros would be processed through the center for Michigan and California this week. Ten thousand workers will be approved for California and 5,000 for Michigan.

Russell stated that the migrant workers will come into the States under Immigration Law 414.

## Driver's Course Slated To Begin Monday Morning

Forty-five students have registered for the Driver's Education Course at the high school for this summer. The course will last approximately six weeks.

Classes are scheduled to begin Monday morning, June 7, at 8 a.m. at the high school. After the first day's session, the classes will be divided, with some students having 8 a.m. classes and the remainder having 10 a.m. classes. Each session will be for two hours.

A driving schedule will be (Continued on page 5)

## Author Loyce Haynie Rossman Contributes Book To Library

The Martin County Library was enriched recently when a book classified as Texana and titled, "Rev. John Haynie, Life and Descendants" was presented to the librarian as a gift from the author.

Mrs. William Rossman of Fredericksburg, the former Loyce Haynie, made the presentation in person. She was returning from the state convention of the Daughters of the Republic of Texas, held in Midland.

Mrs. Rossman is the sister of Mrs. John Atchison of Stanton and a cousin of T. W. Haynie, also of this city. She lived in Stanton from 1912 until 1927 and is a graduate of the local school. She wound up her scholastic career here with honors, graduating from Stanton High School as salutatorian. She also earned a scholarship.

Mrs. Rossman has served two years as State Chaplain on the board of management for the Daughters of the Republic of Texas. She also acts as installation officer for the organization, offers prayers and conducts the memorial services for the DRT.

The book was written in 1963 about her great-great-grandfather. The book was reviewed by the Texas State Historical Society and classified as Texana. It has been bought by most all of our state universities as well as colleges and most libraries because of its early Texas data. The interesting book is also the genealogy of the Haynie family.

Rev. John Haynie came to Texas in 1839 and preached the first sermon in Austin, Texas. His name is on the cornerstone of the First Methodist Church in Austin. He was the first pastor of the church there. Rev. Haynie was elected Chaplain of the Congress of the Republic of Texas in 1839 and for several sessions after that.

The book gives the Haynie genealogy from 1650 to 1963.

Rev. Haynie was one of nine preachers to organize the first Texas Methodist Conference in 1840. He also served as Chaplain of the Texas Legislature and performed the first wedding ceremony in Austin. The Southwestern Historical Quarterly, commenting on the (Continued on page 5)

## Frank Tolbert Writes About Tarzan, Guadalupe, Muddig

Franak Tolbert crossed part of Martin County on a recent trip to the Guadalupe, Texas' highest mountains and one indicated he stopped in Tarzan enroute to his destination.

Tolbert also penned a few lines about the Guadalupe and the crossing of the Texas Delaware River and wound up his regular Saturday column talking about a trip down to Muddig, Texas. Muddig is in Hunt County and lots of folks

now living in Martin County know the hamlet well.

Tolbert wrote: "On the way to join a mule and horse-back safari into the Guadalupe, I crossed the Delaware River. The Texas Delaware, called a creek on some maps, isn't much wider than George Washington's rowboat, but it has more and sweeter water right now than the Pecos. And, at least by far West Texas standards, it deserves the dignity

## West Texas Chamber Executive Praises Dr. Fisher's Article

In the last issue of The Stanton Reporter an interesting, well worked, thoroughly thought provoking, and decidedly printed article appeared over the signature of Dr. Allen M. Fisher, president of the Martin County Chamber of Commerce.

The article was well circulated and Ralph E. Duncan, manager, Community Service Department of the West Texas Chamber of Commerce wrote Dr. Fisher a personal letter of congratulations. Copies of the letter were mailed

to W. H. Collins, editor of The Midland Reporter-Telegram and a director in the West Texas Chamber of Commerce, Joe Russell, manager of the local chamber, Cecil Bridges, executive of the West Texas Chamber, and of the Martin County Chamber and past District Governor of Lions International of this district, and Neal Estes, editor of The Stanton Reporter. It appears below:

## Big Spring Girl Granted Scholarship

An 18-year-old Big Spring girl has been named winner of the West Texas Press Association's \$600 journalism scholarship.

The winner is Brenda Greene, a Big Spring High School senior who plans a major in journalism at Texas Tech.

Announcement of the selection was made by Bill Turner, publisher of the Olton Enterprise, chairman of the WTPA scholarship committee.

Brenda was selected from a field of 21 applicants from throughout West Texas. Three alternates were named by the committee, including Terry Dane Uttinger, Odessa, first alternate; Curtis Burton, Paducah, second alternate, and Vicki Inman, Hereford, third alternate.

The WTPA scholarship winners will be awarded \$150 annually, \$75 per semester, during her four years in college, providing normal progress toward a degree is maintained.

This year's award is the eighth annual by the West Press Association. Three students currently are enrolled in area colleges and universities using these scholarships and several have graduated.

Among qualifications for applicants are a standing in the top 25 per cent of the graduating class, a demonstrated ability in newspaper journalism and a desire for a newspaper career.

Brenda served as editor of her school newspaper, The Corral, this year, and has attended various journalism workshops the past two summers.

A member of the National Honor Society at Big Spring High, she is among the top 10 students of the 1965 graduating class there.

## Springer To Be Missionary

Steve Springer, former Howard County Junior College student, left Monday for Wisconsin as a Baptist Student Union summer missionary.

Steve is one of 5 Baptist students from across the state who will be sent by other students at a cost of \$18,700. Baptist students combine their efforts and resources to send fellow students around the world.

Baptist students will be serving in East Africa, Honduras, Israel, Jamaica, Jordan, Thailand, and Germany with Southern Baptist Foreign missionaries. Other students will serve on the home field in areas such as Idaho, Indiana, Miami, Wyoming and New Mexico.

Steve will be helping construct a church in Wisconsin along with 14 other students. The foundation has been laid and the students will do the remainder of the work before the end of the summer. Summer missionaries serve without pay as they devote a summer of their lives to a missionary endeavor.

Steve is the son of Mr. and Mrs. Grover Springer of Lenorah. While in Howard County Junior College he served the Baptist Temple as youth director. He is now a student at Baylor University in Waco.

Recent visitors with Mr. and Mrs. O. B. Bryan were Mr. and Mrs. Ike Kennedy of Ruidoso, New Mexico.

## Dollar Day Values Await Local Shoppers

The Martin County Chamber of Commerce will host a pancake supper in Stanton Monday evening, June 7 to add extra incentive to the regular first Monday Dollar Day event.

Bargain hunters will find shopping to their liking here on June 7 as evidenced by the many values advertised in this issue of The Stanton Reporter.

## Howard County Removed From 19th District

Under the District-by-District remapping of Texas counties Howard County finds itself removed from George Mahon's 19th District.

Counties now included in Mahon's 19th include: Hale, Midland, Floyd, Cochran, Hockley, Lubbock, Crosby, Yoakum, Terry, Lynn, Garza, Gaines, Dawson, Borden, Scurry, Andrews and Martin.

Under the remapping plan passed by the Texas Legislature, Howard County moves over into Congressman Omar Burleson's 17th District. Burleson will also have Glasscock, Mitchell, Sterling, Coke, Nolan, Fisher, Runnels, Taylor, Jones, Haskell, Throckmorton, Shackelford, Callahan, Coleman, Brown, Eastland, Stephens, Comanche, Erath, Mills, Hamilton, Concho and Palo Pinto.

Ticket sales have been reported brisk for the June 7 event. They can be purchased from any member of the chamber's board of directors or from members of the retail merchants committee or from the chamber manager. (Continued on page 5)

The day long bargain event will be wrapped up in good fellowship style when the Chamber of Commerce puts on a pancake supper, with sausage, drink, and no limit on the amount of food the customer desires here Monday evening in downtown Stanton.

Cecil Bridges and Gerald Hanson, and all other chamber committee workers have planned a perfect evening of family entertainment.

Dr. Allen M. Fisher, president of the Martin County Chamber of Commerce said he is expecting a county-wide turnout.

Chamber members will be on hand to start their pancake and sausage serving chores at 5 p.m. on Monday. Serving will continue until 8 p.m. or until everyone is fed.

## Redistricting Plan Gives Mahon Midland

Under the congressional redistricting bill passed by the Legislature just before Monday's adjournment, Midland County comes into U. S. Congressman George Mahon's 19th District.

The proposed bill separates Midland County and Ector County. Mahon's district remains practically intact, including Martin County, under the plan passed early Sunday morning in Austin.

One member of the Texas senate stated that the bill was a "one-way ticket back to the federal court in Houston." Redistricting was ordered by a Supreme Court ruling and a deadline for such a measure set up. The Texas Legislature met the deadline but the bill passed will undoubtedly be tested in U. S. courts before it becomes final.

## Tourists? No!

Since the advent of the automobile, tourists have been blamed by most people for the litter along the nation's highways. They shouldn't be.

Litterbugs, for the most part, do their dirty work near home—which means it's the people who live in the area who litter the highways.

The national anti-litter organization, Keep America Beautiful, conducted a survey. It questioned professional and voluntary litter fighters in the 50 states to obtain their views on litterbug behavior.

Tourists seem to have been exonerated. More than three-quarters of those participating in the survey said local residents produce more litter along the highway than tourists.

The general opinion was summed up by one respondent with this comment: "Like auto accidents, most littering occurs within 25 miles of home."

West Texas likes tourists. We want more of them to visit our area. We hope they will try to keep our highways more attractive.

## Cotton Executive Urges End To Subsidy Program

The general chairman of the American Cotton Congress said this week in Lubbock that legislation will not resolve basic long-range problems of the industry.

"It is only buying us desperately needed time at the moment," Burris C. Jackson of Hillsboro, said. He appeared in Lubbock as the speaker at the 26th annual session.

Research and free markets hold the key to cotton's future, Jackson stated.

"At the present time, we are depending on a price subsidy of six and one-half cents a pound," he said.

"Our potential for reducing costs, however, is at least 11 cents per pound. This has

been fully documented by the research staff of the National Cotton Council."

Jackson said the administration is looking for ways to cut the cost of agriculture subsidy programs.

"We're going to have to convince Washington that cotton's existence will not always be dependant on heavy, continuing government subsidies," he declared. "And if we ourselves are not sure we can survive otherwise, then I'm afraid there isn't much hope for the cotton industry."

He said the industry needs government legislation that will permit cotton to make the transition to independence.

## Plains To Get Hospital To Cost More Than 3 Million

A new St. Mary of the Plains Hospital which will cost in excess of three million dollars is tentatively scheduled to be ready for occupancy by 1967. Information regarding plans for building the new hospital was presented to approximately 200 Lubbock civic and business leaders at a dinner in Lubbock Tuesday.

The new 125-bed, six-story hospital will feature all modern medical facilities and be located on 10 acres at Nashville Avenue and 22nd Place in Lubbock.

A campaign to raise a minimum of \$1,250,000 was officially launched with a dinner meeting Tuesday night, May 25. The speaker was Virgil P. Patterson, chairman of the board of the First National Bank of Amarillo and chairman of that city's \$5 million High Plains Hospital Fund.

The new hospital will replace the present St. Mary of the Plains facilities which have been operated for the past 26 years at 2605 19th Street by the sister of St. Joseph of Texas.

Bob Brummal, manager of the southern division of Southwestern Public Service Company, Lubbock, is chairman of the St. Mary of the Plains Hospital Development Council.

The Texas Forest Service was the first southern state to make extensive use of planes in detecting forest fires.

## Bible Comment—

### Jesus Taught The True Worth Of Giving

When Paul was leaving Miletus after having called the elders of the Christian Church of Spheusus to hear his words of farewell, he bade these Christians to remember the words of the Lord Jesus: "It is more blessed to give than to receive."

No words could express more accurately the spirit of all that Jesus had said and exemplified in His life and death. Nor could any words express more pointedly the challenge of Jesus and His teaching to the ideas and actions of what He called "the world."

Getting and receiving is such a normal process of life and is so natural to happiness and welfare that we might well ask whether Jesus was right in declaring that it is more blessed to give than to receive.

We may ask but there is only one answer. And the answer is found not only in some spiritual blessedness that compensates for the giving or renunciation of some material possession or treasured thing.

Jesus offered men rest: "Come unto me . . . and I will give you rest."

Yet rest is the thing that men, rich, poor, old, young, sick or well cannot do without. That offer of rest by the Master was supreme in its insight into human need.

So, in this matter of the blessedness of giving in any large and spiritual reality, the assertion that it is more blessed to give than to receive is an extension of much that is true in normal. The giving of parents to their children, the giving to loved ones, the innumerable acts of graciousness and self-sacrifice in men and women find supreme satisfaction, bear witness to the testimony of Jesus.

### Philosopher Comes Out Against Investigating Prize Fighting And Beauty Contests

**(Editor's note: The Martin County Philosopher on his gas farm on Mustang Draw apparently doesn't take prize fighting too seriously, his letter this week indicates.)**

Dear editor:

While I don't understand boxing, what I mean is, the way I get it is, if Clay had hit Liston hard enough the fight fans would have been satisfied, whether the fight lasted one minute of thirty, but a gentle tap about like you'd use to get a car off the dining table if you allow cats in the house makes everybody unhappy and feeling cheated, still the thing about the whole affair is the clamor for an investigation.

It's a fact, fight fans are demanding that the fight be investigated, and several Washington officials have risen to the call.

What they say is, here Liston and Clay have fought twice, for a total of about four minutes, and the fans have paid out over eight million dollars to see it, either first-hand or on closed-circuit television, and they are tired of getting cheated and Congress ought to do something about it.

This is what I don't understand. If the fans are convinced the fights are fakes, why trouble Congress to pass a law to keep them from wasting their money? Why don't they just stay away? Why don't they allow nature to take its course? When a football team loses nine games in a row, how many fans show up for the tenth one?

I tell you, when Congress takes on the job of passing laws to keep the public from wasting its money on phony entertainment, it'll be tied up from now on. In fact, if it succeeded, it'd wreck television.

Personally, I've always figured picking the world's champion boxer was about like picking Miss America. There's no such thing as the prettiest girl in the United States, any more than there's such a thing as the world's best refrigerator. After a refrigerator manages to hold the temperature inside it at 38 degrees night and day, anything beyond that is ridiculous. There are thousands of girls in this country, each as pretty as the other, but the ritual requires one to be selected. I doubt if there's anything there worth investigating.

However, if I was a Congressman, I believe I'd rather try to find out what's wrong with boxing than what the answer is to Viet Nam.

Yours faithfully,  
 J. A.

# The Launching Pad

By NEAL ESTES

ONE sure way to get a degree from BAYLOR UNIVERSITY is to get elected President of the United States. The university conferred an honorary degree on PRESIDENT JOHNSON Friday. Two previous chief executives, HARRY TRUMAN and DWIGHT EISENHOWER were both so honored. Incidentally, they are also the only living ex-presidents we have. Perhaps there is something in the water around Waco that make those Baptist love life so much and live so long. The deep water protestant college has also turned out some very fine Texas public officials, among them the late PAT NEFF. PRICE DANIEL, and a few others.

THE Lubbock City Council, in a quick move, voted to abolish the personal property tax on automobiles. This gimmick has been worked in a lot of towns with no reason to do so for it takes too much time and money to collect the small revenue resulting. Car tax collections in rural towns can be compared as trying to milk the last thin dime out of people who pay real, personal and poll taxes. The Lubbock council also voted to keep the parking meters covered up with the idea in their mind to finally remove them entirely. The meters were abandoned several weeks ago on a trial basis. Again, the cost of hiring help to collect these taxes was too much for the city dads of Lubbock.

IT is common knowledge that we have more vacant houses, more houses for rent, and more houses for sale in Stanton than ever in the history of the town. This situation has developed in recent months. The unoccupied houses in Stanton are still taxable. They still belong to somebody. And in lots of cases these former occupied residential units are being literally torn down by those in the community bent on vandalism. Windows are being broken out, doors torn away, and other parts of the houses carried off. This is a flat shame. If you happen to witness any of this vandalism—call the police at once.

SPEAKING of vandalism, we want to send a salute to DR. FISHER on his article appearing on page one in the last issue of the paper. We hope that his message bears results.

IN Austin last week a portrait of PRESIDENT JOHNSON was hung in the Senate chamber. LBJ was present and said: "I appreciate this very much and I am grateful to each of you." Legislators planning on being in the capitol for work that day were told to get inside the building early if they wanted to be admitted at all. The secret service locked the doors to the capitol at 8:30 a.m. and nobody moved without house identification cards for hours. It's been that way with JOHNSON'S visits all over the country since the assassination of KENNEDY. The President of this nation so dedicated to bringing about a political version of the "Great Society" cannot move from place to place, appear in public anywhere, or travel without advance notice to any place in the fifty states without running into the threat of violence. Isn't that something? Have you thought about it? I have. And my judgment tells me that even the Presidency is not worth sleeping with the ghost of KENNEDY in a bed of eternal fear.

JENDO TURNER will appreciate your check for the Martin County Cancer Crusade Fund. JENDO has spearheaded the drive for this worthy cause for years and she has always done a good job. Let's mail in a check to help her, and the other workers recruited by her, attain the county goal for funds to be used in the fight against the killer cancer. I'm sending my tardy check today!

I didn't know until Sunday who the United States Treasurer was. I read a headline in a daily paper saying: "U. S. Treasurer In Good Shape." I figured an error had been made in the caption—thinking that this would be a silly caption—until I read the story. KATHRYN O'HAY GRANAHAN is treasurer of the U. S. She underwent brain surgery at Darby, Pa., at age 69. She was operated on at Fitzgerald-Mercy Hospital — her secretary, who made the announcement, is named JOSEPHINE O'DONOHUE. It appears we still have the Irish with us in government and praise the Lord for that. We were under the impression that another crowd was running Washington these days.

THE METHODISTS are going to publish the first new church hymnal since 1935. It's about time that fine denomination set the world straight about those great old WESLEYAN hymns. The WESLEY brothers would toss in their graves if they knew how the other denominations have "violated their civil song rights." Back in the days when my mother played the piano in church and my dad was chairman of the board of stewards in the Methodist Church, the only choir in town allowed to sing such hymns as: "Jesus Lover of My Soul" was the Methodist. The new hymnal is due to be published next spring.

BIG SPRING teenagers and personnel from WEBB AFB have been reported involved in disturbances and fights. This is a disgrace. These fine, loyal, stalwart airmen are members of our first line of defense against communism. They are entitled to go anywhere they please in Big Spring with the proper protection. City and county officers in Howard County will do well to deal with the loafing bums of the Big Spring underworld before they set up a march protesting the presence of the Air Force Base in Big Spring.

NEAL'S NUGGET: A friend of mine of Latin descent asked me a frank question the other day. She said: "Are you against civil rights?" I quickly replied that I was not—but I also informed her that civil rights were for the folks of my race as well as for the colored. That's the chief trouble with civil rights. Nobody has been able yet to get the real definition over. Civil rights simply means the right for equal opportunity. It does not grant — by legislation — equality. Yes, I believe in civil rights—the kind that GOD gave us all long before the tin-horn politicians started playing politics with poverty.

### Area Farmers Testify As Skip Row Case Aired

The question of skip row planting of cotton was aired at length the past Thursday and Friday before the House Agriculture Committee in Washington.

The committee is considering cotton legislation to be effective next year.

Skip row cotton planting, widely used in the Southwest, is a practice under which a farmer plants a row or two of cotton, then skips a row or two. This enables him, for instance, to spread his ten acre cotton acreage allotment

over 20 acres and obtain a higher yield.

The Agriculture Department has suggested that growers doing this be charged with more than ten acres of allotment — possibly 15 or more.

The practice of skip row was defended by U. S. Rep. W. R. Poage. He said it is a good cultivation practice. This method of planting, he said, is no different than use of fertilizer or irrigation to increase yields.

Some of the other area men

Mr. and Mrs. Stanley Reid had as their guest the past week Mrs. Reid's sister, Mrs. T. A. Short, of Crane.

Mr. and Mrs. Bill Hicks and sons visited Mr. Hicks' father in Comanche last weekend.

Mr. and Mrs. Jack Ward and Scott visited her parents, Mr. and Mrs. Woodford Sale, last week.

Mr. and Mrs. J. C. Newland and children of Monahans, visited recently with Mrs. Mrs. Newland's mother, Mrs. Eula Eubanks.

testifying before the committee included: Carlton Chapman, Big Spring; Max Cariker of Fisher County, and Joe Pate of Lubbock.

Kay Bryan has been visiting her parents, Mr. and Mrs. O. B. Bryan. She left this week for the Methodist Camp Grounds, Ceta Canyon, at Happy, Texas, where she is to be employed for the summer.

Mr. and Mrs. Glen Gates and Gay, Mr. and Mrs. Stanley Reid and Gary, and Mr. and Mrs. P. M. Bristow and Tim attended the Texas Tech graduation exercises in Lubbock Saturday. Mrs. Hughlyn Todd, daughter of the Bristow's, and Kenneth Baker, son-in-law of the Reid's, were in the graduating class.

Guests of Mr. and Mrs. Bill Johnson last week were Mr. and Mrs. Otis Early from Brownwood.

### Striking Mexican Medics Fired

Medicare in Mexico back-fired on the doctors this week when they were fired.

At least 286 striking doctors and interns in government hospitals and clinics were fired from their jobs.

The government ordered their dismissal after they had failed to heed a warning to return to work. The doctors and interns struck a month ago claiming the government had failed to comply with a promised wage hike and other benefits.

A total of 203 doctors were fired at the "20th of November" Hospital and 50 from national railway medical institutions in the federal district.

Mrs. Lillie Harvard visited relatives in Claud last week.

Necessary source material concerning kinship data is often scant or entirely lacking. Thus it is with rejoicing and understanding concealed glee that seasoned biographers view literary accomplishments like "Rev. Haynie, Ancestry, Life and Descendants," by Loyce Rossman. Mrs. Rossman is herself a sixth generation Texan. Her book is, as the title specifies, a biography of Rev. Haynie as well as a survey of Haynie Genealogy from Captain John Haynie, an immigrant to America from England in 1650, to contemporary descendants.

The idea behind the proposed increase in the number of senators was to perpetuate themselves in office by simply adding eight more seats. The voters will speak clearly on that question in November.

In addition to the special event the CHAMBER of COMMERCE will sponsor a pancake supper in downtown Stanton and these outings have always been participated in, and enjoyed by those attending. Dr. Allen M. Fisher, President

Martin County Chamber of Commerce

Stanton, Texas

Dear Dr. Fisher:

I should like to personally commend and congratulate you for your Open Letter to the People in the Thursday, May 27, issue of The Stanton Reporter.

Your firm but most fair appraisal of these continued acts of vandalism and a possible source of elimination through a sponsored functional community house and properly supervised swimming pool will undoubtedly reach the clear thinking of your people.

While as you say, "this might not be the answer to vandalism" it will certainly be a step forward in providing recreational facilities for the youth of the community. There must be an outlet for the energy of our young people.

Yours were words of wisdom when you said "young people must learn what it feels like to build instead of tear down."

I have reread your Open Letter and express, again, my congratulations to you.

Sincerely,

Ralph E. Duncan, Manager Community Service Department

### Financing Problem For Collegians

The problem of financing the college education of one or more children is a concern of a large number of families this year.

How will these funds be raised to finance the college careers? Perhaps it will help to know how many other families manage, says Mrs. Wanda Meyer, Texas A&M University extension home management specialist.

Research studies reveal that:

1. Families and relatives are responsible for two-fifths of the student's income.
2. Another fifth comes from long-term savings—probably contributed largely by parents and grandparents.
3. Students themselves finance over a quarter of their income during the school year and summer.
4. Scholarships account for about one-twentieth of the student's income and were received by about 21 percent of the students.

While the average family income increased 291 percent between 1939 and 1958, the cost of living increased 108 percent during this same period — and college costs increased 129 percent. However, the impact of taxes altered the increase in family income.

The burden of taxes for government services is likely to increase during the coming decade, Mrs. Meyer said.

It flows across Culberson in a northeasterly direction. Coming from the east you can save a few miles and miss a lot of traffic enroute to the Guadalupe by taking State Highway 176 at Big Spring then heading for the mountains by way of the City of Tarzan, Martin County. In Tarzan I couldn't find anyone who is much of a fan of the Edgar Rice Burroughs books about Tarzan, the Ape-man. The town was named in 1928 by Tant Lindsey now a resident of Stanton. Mr. Lindsey who then ran the general store at what is now Tarzan, was quiet a reader. He sent in 14 book titles for suggested names of the post office in '28. The postal authorities decided on Tarzan."

In writing about Muddig, that's in The Stanton Reporter editor's home county, Tolbert said: "There will be big doings at Muddig, Texas on Saturday, June 12. Muddig is just north of Commerce. It is south of Bug Tussel, and almost hub up to Jot 'Em Down, a community on the Hunt and Delta Counties border. On June 12, starting around 6:30 p.m. there will be an "old - fashioned, dinner-on-the-ground." It will be at the old Muddig schoolhouse, no longer in use for educational purposes but owned by the Muddig Veterans of Foreign Wars."

We know the Muddig area well. The town is supposed to have gained it's name because of the fertile, waxy soil in which horse or mule teams would sometimes become mired in wet weather in the olden days. You had to dig a lot of mud to get through there in those times. One night the editor of this journal spent a winter night in that mud when his car slipped out of the channeled ruts.

We might add that Mr. Tolbert is pretty well acquainted up there on the blackland too. He knows where Sweet box is located—it's just to the west of Muddig.

Karen Barrage of Austin is going to Denmark—despite the fact that she is blind and will be getting around in a wheelchair during her three-week stay there.  
Karen will represent the Texas Society for Crippled Children and Adults as Texas' Disabled Goodwill Ambassador. She is one of 53 young people selected by the Easter Seal Societies across the nation to accept a unique invitation from official and voluntary agencies and individuals in Denmark for a specially planned cultural and educational visit. All members of the group will be handicapped.

Tabulation of the activities of the Texas Legislature reveals that the current body has produced more new laws than any of its predecessors. This is a remarkable achievement in view of the pressing time-taking demands of redistricting and increased spending, as well as the controversy on raising the pay of teachers and increasing taxes.

**Redistricting** — State lawmakers have faced up to their most painful job of the session — legislative redistricting.

In a tension-charged atmosphere, senators performed self-surgery (under federal court order) which in effect will cut off seven rural incumbents and transfer their places to major population centers.

Somewhat more peacefully, the House placed the heads of 16 of its members on the chopping block.

Under the Senate plan, 13 incumbents will be jammed into six districts.

**Budget Bill To Comptroller** — A record \$3,600,000,000 state budget bill, major business of the session, finally is in the hands of the State Comptroller for certification, after agreement on corrections and last-minute additions by resolution.

Independent estimates calculate the \$623,400,000 general fund appropriation would leave a surplus of \$700,000.

**Navigation Bill Passed** — House members passed a bill to create a Deep East Texas Navigation District, to build an 18-mile canal linking Sam Rayburn and Toledo Bend reservoirs.

Canal would promote barge traffic from East Texas to the Gulf of Mexico.

Highway Commission, meanwhile, let contracts for two highways to serve recreational facilities on north side of Rayburn Reservoirs.

## Texas Alamo Gets Lights

The Alamo, which has been in the dark for 200 years, was sheathed with light this week.

A system of lights donated by an electric company were turned on during a ceremony which would have turned the heads of Davy Crockett, Jim Bowie, and William Travis.

Seven specially constructed poles with 50 lights top them were turned on. The soft lights gave the old mission a radiant glow and cast subtle shadows on the old stone walls.

During the ceremony, telegrams were read from President Johnson, the Secretary of the Interior, Stuart Udall, and Gov. John Connally.

San Antonio's Mayor Walter W. McAllister called the

he described as "a very dull pocket knife."

They lacerated his knee some more, packed the leg in ice and took a fast ride to an Austin hospital where suction pumps, more ice, injections and "intensive care" got the 28-year-old warden back on his feet within three days.

The law had a bad weekend with snakes in the area. An off duty, Austin policeman, with bitten twice by a copperhead. He also was doing important work—clearing brush at a deer hunting lease near Spicewood, a good size rattler stretch from Warden Kinsey's rendezvous with eight rattles and one button.

## Loy Lake Loses That Weedy Look

Beautiful Loy Lake, lying just north of Sherman and southwest of Denison, has been to the doctor. Moss and aquatic vegetation made it sick, and the Texas Parks and Wildlife Department had the possible cure.

Biologist Ed Bonn and a crew of fisheries personnel gave a sodium arsenate injection. They are now standing by waiting for the malady to dry up and fall to the bottom.

Persons using the lake have been asked to refrain from drinking, swimming or stock watering while the chemicals are still active. The fish, meanwhile, are going happily about their business with no adverse effects.

Fishing, hope the biologists, will improve when the hypo has done its job.

alamo "a shrine whose significance is not duplicated anywhere else in the United States." He said those viewing the Alamo at night will now find it "more attractive and architecturally interesting as a result of this expert illumination."

The Alamo will be lighted from dusk until 11 p.m. each night.

## Teachers Who Are Retiring Honored

Teachers in the Stanton school system who retire this year were honored at a party given by Elementary School teachers, in the Phil Berry home, on May 13 from 5 to 6 p.m. Members of the Future of America Club were also honored guests.

Retiring teachers honored were Miss Ganavera Middleton, Mrs. H. H. Deck, and Mrs. Homer Schwalbe.

FTA members present were Janis Burgess, Leta Johnson, Larry Haggard, Beth Biggs, Sandra Jones, Cindy Pickett, Lella Stewart, Brenda Hightower, Cathy Workman, Buddy Stewart, and Sue Walker. Other guests were Mr. and Mrs. Beryl Clinton, and Mrs. Bob Haislip.

Hostesses were Mrs. J. C. Epley, Mrs. Morgan Hall, Mrs. H. J. Barbee, Mrs. Mary Brunton, Mrs. John Wood, Mrs. Joe Gray, Mrs. Phillip White, Mrs. O. B. Bryan, and Mrs. Berry.

Willamina, Ore., Times: "Not many Americans know that the Federal Office of Education has been authorized to spend approximately \$1.3 billion during the current fiscal year. This is more than double the amount spent during the past fiscal year and it is a good example of the rate at which we are federalizing education. Let us never forget that federal financing means federal control. The Administration in Washington will soon be in position to control the intake of the minds of our children. That means we are losing our freedom."

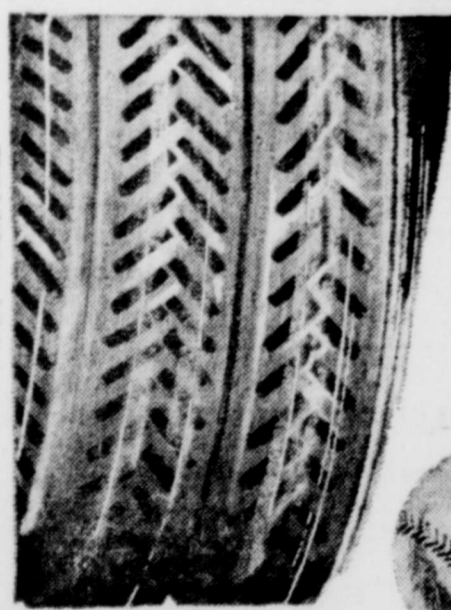

Argo, Ill., News: "... in the Great Society, the rewards of being in the underprivileged class are so golden that those of other classes may well decide to join, rather than remain privileged, or among those who must foot the tax bills for all the benefits."

Sealed proposals, addressed to the President, Board of Trustees, Stanton Consolidated School District, Martin County, Texas, for the construction of an Eight Class Room Under-ground School Building will be received at Stanton High School Office of the Superintendent, Stanton, Texas until 7:00 P. M. on the 9th day of June, 1965, and then publicly opened and read. Bids must be plainly marked with titles of projects proposed.

The successful bidders will be required to enter into a contract with the Stanton Consolidated School District, Martin County, Texas; however the Board reserves the right to reject any and all bids.

One proposal will be received for the entire project including General Construction; Plumbing, Air- Conditioning, and Electrical work.

A cashier's check, certified check or acceptable bidders bond, payable without recourse to the order of President, Board of Trustees, Stanton Consolidated School District, Martin County, Texas, in an amount not less than five percent (5%) of the largest possible total bid, including consideration of alternate, must accompany each bid as a guarantee that, if awarded the contract the bidder will promptly enter into contract and execute bonds, as outlined in the specifications and Instructions to Bidders.

A performance bond in the amount of one hundred percent (100%) of the contract price will be required. No bid may be withdrawn after the scheduled closing time for receipt of bids for at least thirty days.

Attention is called to the fact that not less than the minimum rates prevailing in the locality in which the work is performed for work of a similar character, and not less than the general prevailing rate of per diem wages of legal holidays and overtime work, shall be paid to all laborers, workmen and mechanics employed in the construction of public works.

The minimum wages to be paid laborers and mechanics on this project, as determined by the Owner are listed in the Instructions to Bidders.

Plans and specifications may be examined without charge in the office of the Architect, 600 East Fourth Street, Big Spring, Texas, and may be procured upon a deposit of \$25.00 for each set of General Construction, as a guarantee of the safe return of same. The full amount of this deposit will be returned to each bona fide bidder immediately upon the return of the plans and specifications in good condition. No refund on contract documents and plans returned later than ten (10) days after award of contract will be obligatory. The amount of deposit less the cost of printing will be returned to all parties other than primary bona fide bidders. The amount of deposit less the cost of printing will be returned to bidders for additional sets of documents.

## Welfare Program Means State Program Changes

Legislative action has been completed, and the money is waiting if the voters say "yes" on Nov. 2, to bring to Texans on the state-federal welfare rolls complete medical and hospitalization care under new Congressional action as a part of President Lyndon B. Johnson's medicare program.

Gov. John Connally's signature is needed on SB 405, the enabling legislation.

It skipped through the House on the local and uncontested bills calendar Friday.

The resolution calls for a day, on the heels of HJR 81, constitutional amendment to allow Texas to participate in the expanded program of medical care to persons on welfare rolls. Voters will approve or disapprove that amendment on November 2.

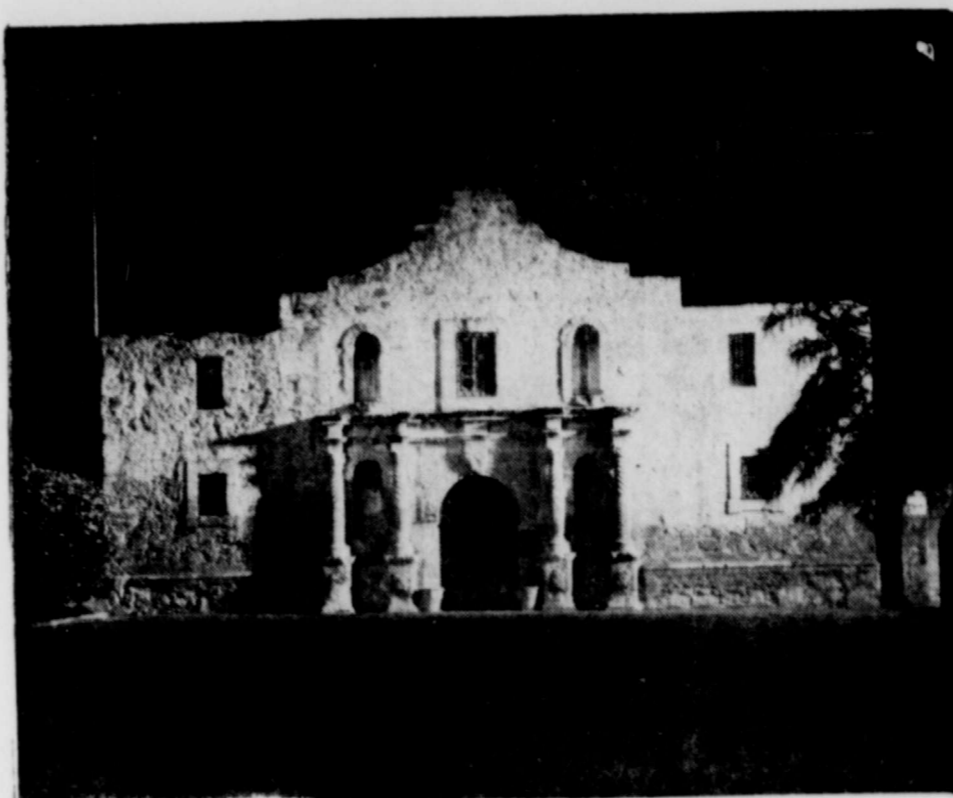

Anticipating a favorable vote, the Legislature passed SB 405, doing the things the resolution gives them permission to do. Should the constitutional amendment fail, however, the bill would have

no effect. Together, the two measures provide for the state to participate with the federal government in providing health care assistance for the needy aged, needy individuals who are permanently and totally disabled, needy blind and needy children and the caretakers of such children.

In order to participate in the federal program, a state must have made provisions for paying medical costs for all these categories of people. This requires some changes in Texas law.

Presently, only Old Age Assistance recipients are on the Texas welfare medical rolls. Aid to dependent children goes only up to the age of 16. The measures now before the Governor and the voters raise age limit to 18, and up to 21 if the dependent child is in high school of a technical school.

The amount of money the state would be able to put into the program is set by the constitution as it stands now at \$60,000,000.

## Farm & Ranch Review

Texas pork producers can look forward to good hog prices for the remaining months of 1965. That is the forecast of Extension Economist John G. McHaney and he cites several factors to back up the optimistic outlook.

The number of hogs on the nation's farms on January 1, 1965 was down by 9 percent from a year earlier. The drop in Texas was 24 percent, and the largest for any state in the nation, said the Texas A&M University economist. He noted that hog numbers were down in each of the regions but was smallest in the Corn Belt, 8 percent. Numbers were down 10 percent in the North Atlantic and South Atlantic regions, 12 percent in the west and 13 percent in the South Central, which includes Texas. On January 1, 79 percent of the nation's hogs were in the Corn Belt region, he said.

Another important factor in the first quarter price increase cited by McHaney was the decline in the number of commercially slaughtered hogs. Commercial pork production also showed a decline due to lighter live and dressed weights of the hogs slaughtered.

McHaney pointed out that the main source of slaughter hogs during the first half of 1965 comes from the June-November 1964 pig crop and that it was 8 percent below the 1963 crop for the same period.

If producers follow their intentions, reported in the December 1, 1964 Pig Crop Survey, the 1965 spring pig crop could be down 7 percent from a year earlier.

The more favorable prices and an improved outlook for this summer and fall may encourage an expansion in farrowings, said McHaney. But, he added, if it happens, supplies and slaughter prices probably will not be affected until late this year or early 1966.

Prices in late summer months of this year may drop

more rapidly than a year ago but should still average above 1964 levels, he said.

Revised U. S. Department of Agriculture beef grading standards went into effect June 1.

The new standards will leave the Prime, Choice, Good and Standard classifications unchanged, but will reduce marbling requirements for beef in those grades, depending on grade and degree of maturity. The marbling reduction angle will not materially affect the requirement for young cattle.

He added that the revision also requires that all beef carcasses offered for grading be "ribbed" to expose the rib-eye muscle for marbling determination. A carcass is ribbed by separating the fore and hindquarter between the 12th and 13th rib.

## PERSONALS

Jimmie Sale, son of Mr. and Mrs. Woodford Sale, is leaving this week for Baylor Camp, near Waco. Jim will be Wrangler and Counselor at the camp for the summer session, June 2 through August 14.

Mr. and Mrs. Carroll Hull and children are moving back to Stanton from Midland.

Gay Gates and Nancy Robnett returned to Texas Tech in Lubbock, Wednesday to attend summer school.

Visiting with Mr. and Mrs. Sid Cross the past weekend were Mr. and Mrs. John Schlagal and children of Midland, and Mrs. Doris Taylor of Big Spring.

Mr. and Mrs. Wesley Williams, Jr., Mrs. Dewey Williams, Mr. and Mrs. Alton Turner and Deborah, attended the Texas Tech graduation exercises in Lubbock Saturday. Weems Williams was in the graduating class.

Mr. and Mrs. Bill Rhodes and family, and Mr. and Mrs.

in cattle 18 - 30 months of age.

Under the revised standards, marbling requirements have been reduced almost one full degree from "Moderate" to "Modest" for carcasses from animals about 28-30 months old. Progressively smaller reductions have been made for carcasses from younger cattle.

"The revised standards will also reduce the number of maturity groups from three to two in the above-mentioned grades and eliminate the consideration of the two degrees of marbling in excess of abundant," the specialist said.

He added that the revision also requires that all beef carcasses offered for grading be "ribbed" to expose the rib-eye muscle for marbling determination. A carcass is ribbed by separating the fore and hindquarter between the 12th and 13th rib.

F. O. Rhodes attended the Rhodes family reunion in Dallas last weekend.

Linda Manning spent last week in Amarillo with her sister and brother-in-law, Mr. and Mrs. Abe Lane.

Mr. and Mrs. Clayton Burnam and his mother, Mrs. Bertha Burnam, visited in Lubbock Saturday.

Mr. and Mrs. Abe Lane and daughter of Amarillo, visited her mother, Mrs. Corene Manning, last weekend. Sheila Manning accompanied them home for a visit.

Guests of Miss Sammie Laws Saturday were her nephew, Bert Laws, his wife and daughters of Odessa.

Mr. and Mrs. Alton Turner and Deborah and Mrs. Leo Turner attended the Lubbock High School graduation last week. Mrs. Weems Williams, daughter of the Alton Turners, was a member of the graduating class.

Mr. and Mrs. Gus Koonce and son, Jerry of Midland, visited Sunday with Mr. and Mrs. M. L. Koonce.

Guests of Mr. and Mrs. F. O. Rhodes last week, were daughter and her family, Mr. and Mrs. June Graham and sons, Clay, Keith, and Kelly, of Alpine.

Morris Donelson of San Angelo, visited the past week with his brother, A. G. Donelson.

Mr. and Mrs. Floyd Smith spent last weekend in Seymour with their daughter and son-in-law, Mr. and Mrs. Delbert Donelson.

Mr. and Mrs. Tom Houston of Walden, Colorado, and Mrs. Curtis Hancock, Jr., of Denver, Colorado, were here last week because of the illness of their father, H. A. Houston. Mr. Houston is a patient in the local hospital.
