## FFA Chapter In Midland For Meeting

The Stanton FFA Chapter attended the El Rancho district meet in Midland on Thursday, September 23, in the Midland High School. The purpose of this meeting was to elect new officers for the year.

The Stanton chapter was elected to the office of reporter.

Those attending from Stanton were Bobby Hamm, Allan Springer, Gene Wheeler, and Mr. Parker.

The FFA met again on Thursday, September 30, to elect the district reporter. Bobby Hamm was chosen to represent Stanton as district reporter.

## Flower Grove Loses Contest To Klondike

Flower Grove lost a District 2-B eight-man football game to Klondike Friday night in Klondike by 26-14.

Klondike came from behind in the second half to defeat the Dragons.

Klondike scored first on a Joe Garcia run of eight yards, but Flower Grove came back on touchdown passes of 40 yards and 30 yards from Jack Webb to Jimmy Graves and Johnny Howard. Graves ran the points after the first touchdown and the Dragons took a 14-6 halftime lead.

Garcia came back with touchdowns of 10 yards and 7 yards in the third period to put the Cougars back in front. Barry O'Brien added the final score of the game on an 8-yard run in the final period. Garcia passed to Terrell O'Brien for the points after.

The win left Klondike with a 2-1 record. Flower Grove is 0-3.

## Grady Eighth Graders Elect Class Officers

The Grady eighth grade has elected class officers and class favorites. There are 15 students enrolled in the eighth grade class.

The officers are: Larry Franklin, president; Jerry Welch, vice president; Virginia Pribylia, secretary; Larry Martin, treasurer; and Nancy Madison, reporter.

The class favorites are: Larry Franklin, and Virginia Pribylia.

## Houston Firm Plugs Number One Cowden

Frank Water Oil Co. and Curtis K. Canter of Houston have plugged and abandoned No. 1 Cowden, a Martin County prospector 19 miles west of Stanton.

It is 3 1/2 miles south of the Mabee (San Andres) pool and originally was contracted to 5,500 feet. Total depth was 4,870 feet. Location is 1,980 feet from south and 660 feet from east lines of section 7, block 39, T-1-N, T&P survey.

A drillstem test was conducted at 4,775 - 870 feet for one hour with recovery listed as 210 feet of salty sulphur water, 180 feet of gas-cut drilling mud and 10 feet of slightly oil and gas - cut drilling mud.

Thirty-minute initial shut-in pressure at bottomhole was 1,884 pounds, flowing pressure was from 114 to 183 pounds and 30 - minute final shut-in pressure was 1,699 pounds.

## Chamber Sets Important Odessa Meet

Odessa will be the site of an Industrial Symposium on October 15 at 10:30 a.m.

Chairmen of industrial chambers of commerce committees, presidents and executives are urged to attend the conference.

In addition to the symposium on how to get new industry, the city will also host the first West Texas Inventors congress. Hundreds of new items will be exhibited at the congress.

Dr. Allen Fisher, president of the Martin County Chamber of Commerce has advised the press that a delegation of interested citizens will go to Odessa for the meeting.

## County Cancer Unit Met Oct. 4th At Church

The Martin County Unit of the American Cancer Society met Monday night, October 4, in the Fellowship Hall of the Methodist Church, with 21 persons present.

It was reported that \$20.50 had been received for memorials during the month of September. Mrs. Jack Woodrow was elected as delegate to the state meeting in Dallas October 13-14, and Mrs. John Roueche elected as alternate delegate.

Reports were given concerning the district meeting in Big Spring. R. C. Taylor showed a film on "Smoking."

The next meeting will be November 1 at Cap Rock auditorium and the public is urged to attend. Dr. Leopold of Odessa, will be the speaker.

**WEST TEXAS CHAMBER OF COMMERCE**  
Ablene, Texas  
September 27, 1965

Mr. Neal Estes,  
General Manager  
The Stanton Reporter  
Stanton, Texas

Dear Mr. Estes:

One behalf of four Board of Directors of more than 150 outstanding business and professional leaders in 132 counties, welcome to membership in the West Texas Chamber of Commerce.

You are joining several thousand other members who represent every agricultural, financial, professional, commercial and service type of private enterprise in this region.

The payment of your annual investment in the Program of Work of this organization is greatly appreciated.

Our efforts to expand the economy of West Texas and to improve the business climate in our area will continue. We also will truly continue to make improvements in our efforts and will strive to represent the business community of West Texas in Austin and Washington.

We welcome your suggestions and ideas concerning how we may be of greater service to you and your fellow members. If we may be of assistance to you in any manner, please let us know.

Sincerely yours,  
Jack G. Springer.

**AWARD WINNERS**—Mr. and Mrs. Gerald Hanson of the Stanton Chemical and Seed Company were recent recipients of the top agent award presented by G. A. Kelt, district sales manager for Olin Mathieson Chemical Corp. The Hansons were also given a trip to Ruidoso, New Mexico for outstanding sales and service. Mr. and Mrs. Weiland Atchison accompanied the Hansons on their trip to New Mexico as guests of Olin Mathieson. This marks the sixth year the Hansons have won this fine honor. Shown in the photo from left to right are: George A. Kelt, district sales manager, Gerald Hanson, L. A. Odom, Mrs. Gerald Hanson, C. L. Stanley, field representative for Olin Mathieson, Mrs. L. A. Odom, Mrs. Weiland Atchison, and Commissioner Atchison.

## Bishop Pickett To Speak In Stanton At ME Church

Bishop J. Waskom Pickett, long-time Methodist leader in India and the United States, will be guest speaker at the First Methodist Church in Stanton on Oct. 13 at 8:00 p.m.

Bishop Pickett, now retired and living in Glendale, California, is regarded as one of the best informed Americans on India, and Christian missions throughout the world.

During 46 years in India, he served as pastor, district superintendent, editor, publisher, secretary of regional and national Christian councils, and bishop.

For more than 20 years he was president of the Council on Medical Work of The Methodist Church in Southern Asia, and was closely associated with many of its most educational and missionary institutions in India, Burma, and Pakistan. He organized and served as first president of the United Christian Mission to Nayar, which built up a missionary force of more than 100, and now runs three hospitals and several educational institutions in that Himalayan kingdom which previously had not allowed the entry of missionaries.

Bishop Pickett has known

Bishop J. Waskom Pickett

the leaders of Indian during its long struggle for independence. He conferred often with Mahatma Gandhi and associates before independence, and was frequently consulted during the preparation of the present constitution. When violence broke out as a result of the partition of India and the formation of Pakistan as an Islamic state, Bishop Pickett organized and led the Christian Relief Committee, which was thanked by the governments of India and

## Grand Jury Returns Six Indictments, 4 Sentenced

The Martin County grand jury returned six indictments in session in Stanton on Monday, October 4.

Sheriff Dan Saunders said those indicted were: Baltimore Ruiz, felony theft from Homer and Jimmy Henson; Pablo Arriguin, felony theft from Homer and Jimmy Henson.

Frank Maholly, burglary of Crittenden's Service Station at Ackerly; Robert Lee Boone, burglary of Irvin Snel Grocery at Three Leagues; theft of and automobile belonging to Floyd McArthur and breaking into of the Martin County jail.

Sheriff Saunders stated that later in the day, the fol-

## M. L. Gibson, Jr. Joins Faculty At North Texas

Martin Leroy (Red) Gibson of Stanton, has joined the School of Arts and Sciences faculty at North Texas State University this fall. He will instruct in the department of Journalism.

Gibson received the B. S. degree from North Texas State College in 1955, and the M. S. J. degree in 1959 from Northwestern University.

He was a sports reporter at the Galveston News for one year, and a telegraph editor of the Galveston Tribune. After a year at the Chicago Tribune as a reporter and copy editor, Gibson joined the staff of the Houston Chronicle in 1960. From 1961 to 1965 he was chief of the night copy desk there.

A member of Sigma Delta Chi, Gibson authored "Motivational Research for Newspapers," published in the Quill in 1961.

Gibson is the son of Mr. and Mrs. Martin Gibson of Stanton.

## West Texas Chamber OK's 7 Amendments

The board meeting of the West Texas Chamber of Commerce wound up its annual session Saturday in Lubbock and approved seven of the 10 proposed amendments to the Texas Constitution.

The board urged definite steps be taken to halt an alarming spread of mesquite tree infestations over the rangelands of Texas.

The board approved amendments 1, 3, 4, 5, 8, 9, and 10. They opposed 2 and 7, and took no action on 6.

In expressing the need for action on mesquite and other brush control, the board approved a resolution submitted by the agricultural committee.

The resolution cited the great need for brush eradication, saying such brush is costing millions of dollars each year in Texas in rangelands lost to grazing.

The resolutions said that \$89 million of Texas' 107,131,900 acres of grassland is now

(Continued on page 4)

## Chevrolets, Ramblers On Display

Two more Stanton automobile firms will premier new 1966 model cars this week.

Thursday is show time for Chevrolets at Alsop - Nowlin Chevrolet Company and for Ramblers at the Stanton Supply Corp.

Chevrolet is introducing a complete line of new automobile models. They unfurled their strong truck line last week.

R. C. Vest of Stanton Supply stated that the American Motors would introduce four new lines in the 1966 Ramblers this year.

Both local automobile dealerships will have favors and refreshments on hand for those visiting the premier showings.

The Ford, Mercury, Dodge, and Comet line of automobiles for 1966 were premiered last week at White Motor, Rhodes Motor, and Long Motor and Equipment Company in Stanton.

## McDonald Sentence Affirmed

District Court officials here have been advised that the sentence of Daniel Odell McDonald, convicted for the killing of his grandmother, Mrs. Delsie McDonald, has been affirmed.

Notification of the affirmation of the jury assessed 99-year term was received in Stanton from the Court of Criminal Appeals in Austin. The arrival of the notice to local authorities was Oct. 4.

McDonald was tried before a Martin County jury on the single count of murder and given a 99-year term. Mrs. McDonald lost her life in June of 1964. She operated a small grocery store in the eastern part of the city before her death.

## Texas Electric Sponsoring Dryer Campaign

A two months' program to promote the sale of electric clothes dryers in this area has been launched by Texas Electric Service Company in cooperation with appliance dealers.

Starting October 1 and continuing through November, the electric company's advertising and promotion program will call attention to special money saving installation offers to purchaser of automatic electric dryers during the campaign period.

Texas Electric is using newspapers, radio, television and outdoors posters to publicize "Electric Dryer Fall Festival of Savings" promotion. Dealers also have been supplied with window banners and drop-in ads to tie their advertising into the promotion. Reddy Kilowatt Almanacs, mailed to all electric customers with their electric tomers with their electric tomers, also will feature the special installation offer of dealers.

Dealers also will have available from Texas Electric the services of trained home economists to hold dryer demonstrations in stores. The Fall Festival is timed to coincide with the nation wide "Waltz Through Wash Day" campaign being conducted by the Edison Electric Institute, American Home Laundry Manufacturers Association, U. S. Steel, and other industry groups.

## Birnham Bros. To Be In City On October 7

Thursday, October 7, is Circus Day in Stanton. Yes, the trucks of the Great Birnam Brothers Circus will unload their wonders in Stanton on Thursday at Lamesa Highway and two blocks north of U. S. 80.

Rain or shine, full and complete performances will be presented at 6 p.m. and 8 p.m. respectively. The show will last one day only. Each performance is approximately 90 minutes long. Be on hand early for a ticket and seat.

Birnham Brothers will appear in Stanton under the auspices of the Stanton Lions Club.

The Circus lives on and on with its wonderful acts and fabulous antics, ferocious felines and amazing accomplishments. Children of all ages have been counting the days before circus time in Stanton. The admission price is only .75 cents for anyone, adult and children.

For this one day, the complexion of the city will change. Early on Thursday, the stillness of the community will be broken by the arrival of the circus clan. The noise of mighty engines will be heard as the circus troop moves in. And as if by magic, orderly crews will drive hundreds of stakes into the ground to erect the big top and myriad other tents. All the while strange sounds and smells will assault your senses, rare and unusual animals awake in their cages and the great bulk of the elephant descends from a transport truck.

In a day's time, the city within a city springs into life. And by circus time the crowds begin to swarm on the grounds with the smell of popcorn and pink lemonade in the air.

Here today and gone tomorrow, the real Circus offers something more than just entertainment. It offers a glimpse of another way of life, a mystical magical land, a way to forget your troubles if only for just a day.

As long as there are young people to glimpse the Circus for the first time and older folks to see it through the mists of memory, there'll always be a Circus.

Birnham Brothers will exhibit Thursday, Oct. 7, rain or shine and tickets are available at the box office at the site before each performance.

## Poll Payments Lagging Here

Poll tax payments for the new tax year began Friday morning at the Martin County tax office. The first receipt was issued to Mr. and Mrs. Ohmer Kelly of Stanton, Kathleen Lewis, county tax assessor, reported.

Payments at the Stanton office were slow. Only eight or nine receipts were issued.

The anticipated number of receipts to be issued before the deadline, January 31, 1966, is about 1,000.

Payments made during the month of October will receive a three per cent discount on state and county tax.

## West Texas Officers To Angelo Meeting

Law enforcement officers from a wide slice of West Texas were in San Angelo Monday to attend a seminar on the new Texas Code of Criminal Procedure.

The one-day session opened at 9 a.m. in the River Club and continued until adjournment at 5 p.m.

Speakers included District Judge Tom F. Onion, Jr., of San Antonio and Assistant Attorneys General Howard M. Fender, Sam L. Kelley, and Lonnie F. Zwiener of Austin.

The seminar was attended by lawmen, justices of the peace, prosecutors, judges and newsmen.

Arthur Posey, Martin Gibson, Judge Jim McCoy, and H. M. McReynolds, Stanton, attended the meeting.

## POLSON, SHANKS STAR—

## Stanton Stomps Loraine 50-12

The Stanton Buffaloes, of Dist. 5-A who made only eight points while absorbing losses in their first three games, finally got hold of a team that isn't rated in anyone's top 10 in the state and took advantage of it with a rash of touchdowns in Loraine Friday night.

The Buffs blistered the hapless Loraine Bulldogs 50-12.

Lorraine scored first, on a two-yard plunge by Kenneth Brame in the first quarter. The extra point try was no good.

The early tally set of a stampede the Bulldogs couldn't head as the Buffs snorted and roamed for 286 yards on the ground. They added 109 through the air.

Dink Polson and Roy Powell gave Stanton the lead, Polson on a 48-yard touchdown scamper and Powell on a two-point run.

Stanton's Bobby Holland stole a handoff and went 40 yards for another first quarter score and Polson ran for two.

Buddy Shanks scored six points on a four-yard run and then took a perfect pass from Make Hall for two.

Polson intercepted a pass and raced 45 yards to score. The point try failed and the half-time score was Stanton 30, Loraine 6.

In the third quarter, Powell rambled 35 yards for another Buff score before Randy Britton gave the Bulldogs their final tally on a one-yard plunge.

Stanton's final touchdown came on a 52-yard run by Polson and Shanks to Holland pass which covered sev-

**Legal Conflict In New Code May Dry Up County Revenue**

Texas counties may lose millions of dollars in revenue as a result of the new misdemeanor laws, some legal experts believe.

Under the new laws, which primarily affect driving while intoxicated first offenders, defendants may plead guilty, pay fines and then have the sentence suspended.

This enables the defendant to retain his driver license. The judge can place such defendants on probation, and at the end of the probationary period the case against the defendant is dismissed.

There is a big question whether fines in such probationary cases can be retained when there is no final judgment of the sentence.

In Texas law, a fine is not collectible unless there is final judgment based on the final conviction. In these probationary cases there is not final conviction.

The new law, and other laws on misdemeanors went into effect on Sept. 1.

Mr. and Mrs. M. J. Yell had as their guests at the lake house near Colorado City, Rev. and Mrs. T. L. Pond and Mrs. Ray Davis, two days in the past week. Fellowship and fishing was enjoyed by all. Crappie was the main catch.

**Philosopher Sees Improvement In The Weatherman's Language Is Not The Forecasts**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw reports on a new phase of weather reporting this week.)

Dear editor:  
 I was sitting at home the other night reading a newspaper while I was waiting for a western to come on and decided to turn to an inside page but didn't because about that time I looked over the edge and noticed a spider had started a web from the left side of the paper to my shoulder and if I moved my arm it's break, and after all, watching a spider spin a web is fascinating and when he gets it done it's probably as effective against world problems as the average editorial page anyway, so I just sat there awhile and re-read the front page.

I glanced down at the weather forecast in the lower right-hand corner and got to thinking.

Weather forecasts have improved a great deal in the last year or two.

I don't mean in accuracy, I mean in language.

It used to be that a weather forecast would read: Fair Tomorrow, or Rain Tomorrow. There it was, in black and

white, rain or fair, and if it rained when it had said fair, or was fair when it had said rain, you had the weather bureau over the barrel. "Why can't they learn how to predict the weather?" you'd demand. It was satisfying. It was a clean-cut victory of nature over man.

But not anymore. Now, if there's a possibility of some rain tomorrow, the forecast will read: Showers over 20 percent of the area, or, if they're a little surer, Showers over 30 percent, and they'll even go as high as 40 percent, and on rare occasions when they're dead sure, 70 percent.

This is what I'm talking about. It cuts down on the amount of criticism the weatherman gets. Where's the man who's going to get in his car and travel all over the area seeing if it rained over 20 percent of the territory? Nobody ever knows for sure, and the batting average of the forecaster stays indefinite and unchallenged. It reads good on paper in general but sometimes not in particular, like when the national cost-of-living index dropped 1 percent the same month the transmission fell out of your tractor and your car ran into a light pole.

I don't know what happened to that spider. I fell asleep and dropped the paper.

Yours faithfully,  
 J. A.

**Texas Due High-Priority National Guard Brigade**

A high-priority Texas National Guard brigade, given blank check to buy new weapons and train its 5,049 men, will begin work about Nov. 1 to reach a peak of combat readiness by next summer, the state adjutant general said Friday.

"We'll be favored folks," said Maj. Gen. Thomas Bishop. "Money is no concern."

Bishop said the brigade will be taken primarily from the 36th Guard Division, augmented by part of the 6,500-man 90th Army Reserve Division, which was disbanded under the Defense Department's recent reserve realignment.

He described a brigade of 29 Guard units and 10 Army Reserve units, or about 2,000 men from the 90th.

The 36th's other two brigades apparently will not be touched by the military shake-up.

Bishop said he will go to Washington Oct. 11 to learn more details, probably finding out then what Texas local units will be retained in the high-priority outfit.

The brigade is part of a new backup force of three divisions and six infantry brigades which will help provide the nation's reserve strength while new Army divisions are being trained, he said.

Bishop called the selected reserve force "a hedge against mobilization for a short time."

The Texas brigade will be composed of three infantry battalions, one armored battalion and one 105-mm. artillery battalion.

"It's a rags - to - riches story," said Bishop. "We'll have 100 per cent strength and will be 100 per cent equipped with the latest

**The Exchange Desk**

Stamford American: "A complete reorganization of the Stamford Board of Commerce was the number one recommendation made in the survey conducted here by the Industrial Economics Research Division of Texas A&M University as a prelude to this city's bid for new industry."

The Memphis Democrat: "Over 100 members of the Panhandle Police Communications Association gathered in Memphis for the fall meeting this morning with registration beginning at 9 a.m. in the Community Center."

Longview Morning Journal: "Deafening explosions which shook the ground like a small earthquake and raged fires heavily damaged the big American Petrofina Oil Company plant here Wednesday, sent two men to the hospital — one critically injured and the other in fair condition — and left a large portion of the plant charred and destroyed."

The Comanche Chief: "The Central Texas Fertilizer Co., Inc. announces the sale of the Comanche firm to Hooker Farm Chemicals, Inc. a subsidiary of Hooker Chemical Corp., the nation's largest producer of nitrogen phosphate materials. Central Texas Fertilizer Co. was owned by an equal partnership between F. W. Prather, president; Pat Cagles, vice president, and W. M. Durham, Jr., secretary-treasurer."

The practice of giving away road maps was initiated by oil companies in 1914, reports Marathon World, Today, about 200 million of these maps are given away each year by the industry, while other agencies contributed another 20 million.

Vandalism and disrespect for public property in the National Forests of Oregon and Washington alone is costing taxpayers about \$70,000 a year — enough to build a completely equipped 60-unit campground — according to the regional forester. Malicious vandalism has ranged from destruction of signs and picnic tables to burglary of a forest guard station.

Mr. and Mrs. I. C. Graham returned Sunday, September 26, from Truth or Consequences, New Mexico, where he received treatments for arthritis. His condition is very much improved.

Mrs. Ida Graham of Big Spring, visited with her sister, Nell Wilson, last week. She also visited in Midland with her niece and nephew.

Mrs. C. E. Crow is visiting in Hurst with Mr. and Mrs. Billy Crow and her sister, Mrs. Bill Harris.

Mr. and Mrs. G. E. McDaniels of San Antonio, visited last weekend with her mother, Mrs. C. E. Crow.

Mr. and Mrs. June Graham of Apline, visited over the weekend with friends and relatives in Stanton.

**Bible Comment—**

**Jesus Inspired His Followers To Greater Things**

If we were to disregard the things about Jesus which make Him the unusual figure that He is, we would still find that He stood as a remarkable figure in the pageant of history.

Other men have become famous for the books they have written, power they have won, organizations they have founded, or codes and laws which they have created.

But Jesus wrote nothing, organized only teachers and evangelists, and established no codes. He did not even organize His teachings in codified form.

There was something causal about His life, yet this apparent casualness seems to have been part of God's purpose. The Christian religion, like the Master Himself, was not to become a circumscribed thing, but was to take a free course.

Perhaps it was essential of the future well-being of Christianity that such an attitude as this remained with the early church. The problems to come were many. It there had been no room to adjust to changing conditions, the church would have lacked much of its early vitality.

In this way we see the gen-

eral pattern of His effective influence. The Master, who did not write a book, inspired what was to become the greatest book of our time. Though He had no formal organization of His own, He so inspired the disciples that they carried on after Him and became Christian leaders.

Their church became so well organized it spread out across the world, finding bases for operation in many countries. Later it went still further to reach every part of the globe.

These things are being done today. With the strength and inspiration found in the New Testament, Jesus' twentieth century disciples are still working and building the structure based in His teachings.

It is our privilege, as friends of Jesus, to carry on.

**School Menu**

Menu for October 11 through October 15:

Monday — Barb-cued weiners, black eyed peas, sauer kraut, butter, milk, cookies.

Tuesday — Frito pie, steamed rice, tossed green salad, apple crisps, milk, and crackers.

Wednesday — Pinto beans with chili, steamed cabbage, pickled beets, fruit cobbler, corn bread, and milk.

Thursday — Chicken and spaghetti, seasoned spinach, glazed carrot, Waldorf salad, biscuits, butter milk, peanut butter brownies.

## Editorial . . . LBJ Fever' In Congress Easing Off

There are signs that Congress is making at least a partial recovery from the critical case of "LBJ fever" with which it has been suffering throughout this session.

In the House, a majority has shown a most commendable sense of responsibility by turning down the Administration's District of Columbia "home rule" bill. In spite of denials by its sponsors, this Senate-passed measure was a "civil rights must," a means by which certain politicians could nail the "negro vote" tighter to the wall.

The merits of "home rule" for Washingtonians were debated true enough, but no amount of talk could remove the impression that the bill was to be a "persuader" against racial violence. Nor could it move the bad taste of the White House pressure applied to enough Representatives to spring the bill from committee.

With a majority of Texans expressing their distaste for a decision at this time, the House approved the substitute bill sponsored by Rep. B. F. Sisk, California Democrat, which proposes an orderly approach to the question. If the House sticks to its guns, "home rule"

is a dead issue for this session, an excellent result for all concerned.

In the Senate, a coalition of Democrats and Republicans is expected to stick with its guns to block the repeal of Section 14-B, the "right-to-work" guarantee provided in the Taft-Hartley Act. While the spending of Senate time on a filibuster is deplorable, it is fully justified as the only means of stopping this callous attempt by President Johnson and others to pay off political debts to organized labor.

This time, the filibustering forces, with debate expected to start Monday, are backed by overwhelming public support. The general public has every reason to applaud the "home rule" action in the House and the protection of State "right-to-work" laws in the Senate.

The rebuffs can have a most healthful effect on both President Johnson and the Congress. He and his corps of Congressional liaison men have needed a reminder that Congress is supposed to be run by Congress. And the Congress has been in still greater need of the same reminder.

Rich styling, luxury prevail in

### 1966 Caprice and Chevelle Coupes

Two of Chevrolet's newest additions for 1966 are the luxurious Caprice Custom Coupe (below) and the stylish Chevelle Super Sport 396 Coupe. The Caprice Coupe is destined to be the style leader among regular size cars and the Chevelle Super Sport is distinguished by a new roof line with recessed rear window and a '396 SS' identification in grille and rear cow area. Caprice models feature distinctive wraparound rear lamps. Along with these two models, Chevrolet will offer 48 other models for 1966. Dealers will show the new cars for the first time Oct. 7.

## Alsup-Nowlin Chevrolet To Show New Line Oct. 7

Alsup - Nowlin Chevrolet Company will unveil the new 1966 Chevrolet line in their showrooms in Stanton on October 7.

Variety, safety and new peaks of luxury highlight the 1966 Chevrolets — plus the greatest assortment of models in the division's 56-year history.

E. M. Estes, general manager, said the new Chevrolets, totaling 50 models in six passenger car lines, will go on display in dealer showrooms on Thursday, Oct. 7.

"Model, option, color and interior combinations in the Chevrolets number in the billions, giving the buyer an unparalleled opportunity to individually customize his car," Estes said.

Principal features include: **New Models** — A Caprice top - of - the - line series with four prestige models is added to the top selling regular Chevrolets. A four - door hardtop joins the Chevelle line, plus a distinctive Super Sport 396 series.

**Styling** — The Chevy II receives its first complete redesign since introduction in 1962 models. The Chevelle is restyled, there are design refinements in the Corvair and top - of - the - line series with four prestige models is added to the top selling regular Chevrolets. A four-door hardtop joins the Chevelle line, Corvair, and the regular Chevrolet has an even "bigger car" look.

**Safety Features** — Numerous safety features are made standard on all models ranging from a padded instrument panel and padded sun visors to rear seat belts and backup lamps.

**Mechanical Features** — New engines include a 250-cubic inch L6 and two 427-cubic inch V8's. A new three-speed fully synchronized transmission is standard on all Chevrolet models.

**Options** — Offered for the first time, in addition to the more than 400 options and accessories already available to Chevrolet buyers, are a single-dial automatic heating and air conditioning system, a bench front seat with center armrest, adjustable front seat headrests and tilt-telescoping steering.

**Interiors** — Restled, high fashion interiors are featured in all models. Bucket seats in Chevrolet, Chevelle and Chevy II models are a new slim "Strato" design. Each of the 14 station wagons has an all-vinyl interior.

Here are details on the six Chevrolet lines for 1966:

**Regular Chevrolet** — Headed by the luxury Caprice series, there are 19 models in five series. A color - keyed paint stripe distinguishes the Caprice Custom coupe — which has a special roofline unique among all Chevrolet models — and the Caprice Custom sedan. The two Caprice Custom station wagons have walnut grained exterior trim. All Caprice models have high prestige interiors.

The regular Chevrolets have a more powerful appearance, with a forward - thrust to front fenders and bold horizontal bars in the grille. Individual moldings and ornamentation designate each series. All have taillamps integrated into the rear quarters and deck giving a wider look.

Structural improvements have been made in both chassis and body. New springs, shock absorbers and softer bushings and body mounts increase smoothness and quietness of ride. The 110-inch wheelbase is retained.

Performance of the base six cylinder engine is improved by increasing displacement from 230 to 250 inches. Six V8's are available, including the two new 427 - cubic inch engines. Horsepower range is from 155 to 425. Five basic transmissions are offered, including Turbo Hydra-Matic.

**Chevelle** — The popular 4-door hardtop body style joins Chevelle models for the first time. A total of 12 models in four series are offered. Distinctive will be two Super Sport 396 models. Stimulated scoops on the hood emphasize that a new 396-cubic inch engine is standard on the "SS 396" convertible and a companion "SS 396" sport coupe. The hardtop also has a new roof line employing wide, flowing rear quarters and a recessed rear window.

Length and width of Chevelles are increased approximately one-half inch while the wheelbase remains at 115 inches. Redesigned body panels and front end with wrap-around grille give a longer and rounder silhouette. Rooflines are new for 2 and 4-door sedans.

Seven engines — two sixes and five V8's — give the Chevelle buyer a wide range of power choices. Horsepower ranges from 120 to the two 396-cubic inch V8's rated at 325 and 360 horsepower. Four transmissions are offered.

**Chevy II** — The most complete change in exterior and interior appearance since its introduction in 1962 models gives new beauty to the seven models in three series of Chevy II.

Retaining its 110 - inch wheelbase, the 1966 Chevy II is slightly lower and longer and more than 1.5 inches wider than previous models. There are new rooflines on all sedans and coupes.

A low, wide appearance is given the front end by a massive front bumper and new aluminum grille. Headlamps

are recessed in front fenders. The side treatment emphasizes length with a sweeping peak line. A broad, tailored rear deck includes integral backup lamps in the rear fenders.

Chevy II retains the unitized construction with bolt-on front end. A new plastic panel immediately behind each headlamp increases corrosion resistance. Rear windows are bonded to the body of sedan and coupe models for neater, more effective sealing.

Seven engines — a four cylinder, two sixes and four V8's — allow a broad power choice. The horsepower range is from 90 to 350. There are three transmissions.

**Corvair** — The smooth continental styling of Corvair is continued for 1966. Styling refinements include a new rocker sill and wheel opening moldings, new front panel emblem, plus fresh design of the rear grille and taillights.

There are seven models in three series — all either convertibles or 2 and 4-door hardtops. Wheelbase continues to be highly maneuverable 108 inches.

Four rear-mounted, air cooled six - cylinder engines are offered with horsepower ranging from 95 to 180, and choice of 3-speed, 4-speed or Powerglide transmissions.

**Corvette** — America's only sports car continues its program on annual styling refinement with a new nameplate on the hood, body side trim, grille and wheel covers. There is a special high-domed hood on models with a 427-cubic inch engine.

There are two Sting Ray models — a convertible and a sport coupe — on a 98-inch wheelbase.

Four V8 engines are available. Horsepower begins at 300. Inclusion of the new 427 V8's increases maximum horsepower to 425. Three transmissions are offered.

**Sportvan** — Combining passenger car luxury with durable commercial chassis components, this vehicle rounds out Chevrolet's product versatility.

Three models are offered on a 90 - inch wheelbase. Two six - cylinder engines of 120 and 140 horsepower are available with 3-speed and Powerglide transmissions.

For 1966 Chevrolet offers 15 colors — 6 of them new — with up to 8 two-tone combinations. Vinyl roof covers in black and beige are available for certain hardtop models.

**New Lake Near Lubbock Due To Be Fished**

White River Lake, located 58 miles from Lubbock in a triangle between Foyada, Ralls and Dickens is the latest fish facility for Texas, according to Leo D. Lewis, regional fishery supervisor for the Texas Parks and Wildlife Department.

The October 1 opening date found the lake, constructed in the early 60's and stocked in December 1963, after a preliminary rough fish eradication program, full and teeming with three-year old game fish.

Initial stocking included 45,000 channel catfish and 25,000 black bass from state fish hatcheries.

Lewis said the new lake is expected to produce some fine strings of game fish for lower plains anglers.

## NOW! '66 CHEVROLETS

Caprice Custom Coupe

### NEW CAPRICE BY CHEVROLET

Custom Coupe, Sedan and two luxurious new Custom Wagons now. Liquid smooth ride. Power you can order just as

smooth and pin-drop quiet. Turbo-Jet V8 engines that go all the way up to 425 hp. Shimmering new interiors. The look of hand-rubbed walnut trim. Elegance everywhere. Made by Chevrolet, so you know what a beautiful value it must be.

### NEW CHEVROLET JET-SMOOTHER

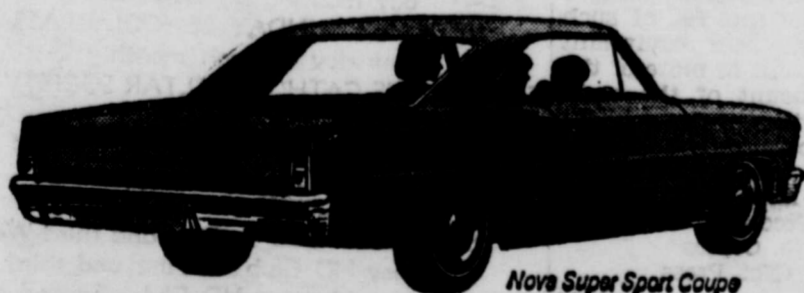

We've again specially tailored those coil springs at every wheel to each body style. We've put in new softer shock absorbers. No Chevrolet has ever had a ride like this. Power begins with a thrifty Six at 155 hp, and goes on from there. Turbo-Jet V8's available at 325 hp, 390 hp and 425 hp in all the new Impalas, Bel Airs and Biscaynes. Model shown: Impala Super Sport Coupe.

### NEW CHEVELLE SUPER SPORT 396

New 300's. New 300 Deluxe models. New Malibus. And two new Super Sport 396's—coupe and convertible—with engines that tell you exactly what kind of Chevelles they are. Both are available with 396-cu.-in. Turbo-Jet V8's, either 325 hp or 360 hp. And both come with special hood, grille, suspension, emblems, red stripe tires, floor-mounted shift. Twelve beautiful new Chevelles in all—and all as new inside as they are outside, headlamps to taillights.

Chevelle Super Sport 396 Coupe

Nova Super Sport Coupe

Corsair Sport Coupe

### ALL NEW CHEVY II

It's so different, we should really call it the Chevy III. Roofs are swept way back on coupes. Fenders, grille, hood, taillights and bumpers are new on all seven models. Interiors are richer. Power available up to a 350-hp Turbo-Fire V8. You can even order headrests for the front seats and Mag-style wheel covers. What's the economical, dependable Chevy II coming to? A lot of smart '66 car buyers, we figure.

### '66 CORVAIR UNIQUE

Still America's only rear-engine car. And with the special steering and suspension you can add, there's no better way to rid yourself of prematurely gray driving. Lots new, Corvair, like all the '66 Chevrolets, has a padded dash, seat belts front and back, new fully synchronized 3-speed. Corsas, Monzas, 500's. Get one. Stay young.

(Continued from page 1) TEXAS TECHNOLOGICAL COLLEGE  
September 28, 1965

Mr. Neal Estes  
Publisher  
Stanton Reporter  
Stanton, Texas  
Dear Mr. Estes:

The Tech Journalism department needs certain representative weekly papers from over the West Texas area for the students to read and compare with other papers in their class.

The Stanton Reporter is one we would like to have. If possible, would you please place us on your mailing list?

Since our library funds are very limited, we don't have money for many newspaper subscriptions. Therefore, if you can put us on your "freelance" list, we'd surely appreciate it. If you can't, we'll understand. Thanks a lot.

Best regards,  
Ralph L. Sellmeyer,  
Assistant Professor  
Journalism Department.

Four new directors were elected. They are Royce Lee of Bronte; Royce Flowers of Chico; James M. Meyer of Granbury and Don R. Workman of Morton.

## District Two Rebekahs Met In Big Spring

The West Texas IOOF and Rebekah Association, District II, met October 2 in Big Spring, with the Big Spring Rebekah Lodge No. 384, as hostesses.

Officers of the association are: E. A. Hood of Midland, president; Mrs. R. L. Blakney, first vice president; Lawrence Odgen of Andrews, second vice president; Mrs. W. G. Slater of Crane, secretary, and Mrs. H. K. McEntyre of Odessa, treasurer. Mrs. Clayton Burnam of Stanton, was elected chaplain.

The morning session began with registration. The business meeting began at 10 a.m. Noon and evening meals were served by the hostess lodge. Business resumed at 1:30 p.m., when reports of committees and lodges were read. Officers were elected.

The evening session included degree work, fancy drills, and entertainment.

## Mrs. G. Graves Persides At Rebekah Meet

The Stanton Rebekah Lodge met Monday, October 4, at 7:30 p.m. in the IOOF Hall with Mrs. Granville Graves, noble grand, presiding.

It was decided that the lodge would hold a miscellaneous rummage sale Saturday, October 9, at the Friendly Food grocery store. The sale will begin at 9:00 a.m. and will last all day.

It was announced that Mrs. Clayton Burnam was elected chaplain at the West Texas Association meeting held recently in Big Spring. Mrs. Loyd Hastings presided as chaplain Monday night. Fifteen visits were reported made during the week.

The Rebekahs voted to contribute ten dollars to the old folks and children of the IOOF homes. These homes are located in Enis and Corsicana.

Those present at the meeting were Mrs. Virgie Johnson, Mrs. Lewis Carlie, Mrs. Jim McCoy, Mrs. Loyd Hastings, Mrs. John Wilkes, Jr., Miss Sammie Laws, Mr. and Mrs. Clayton Burnam, Mrs. Granville Graves, and Mrs. Walter Graves.

## Bishop - - -

(Continued from page 1) Pakistan, and was credited with savings the lives of several hundred thousands of Hindus, Moslems and Sikhs.

When famine threatened the lives of millions in India in 1950, Bishop Pickett, on the request of Prime Minister Nehru appealed to the U. S. government to make wheat and other food grains available, and won the backing of President Truman, Vice President Barkley, and many leading members of the Senate and the House.

When Indo-American relations were at a low ebb in 1954, Bishop Pickett conferred with U. S. State Department officials and with President Eisenhower with gratifying results.

After conducting a prolonged investigation, under the auspices of the Rockefeller-sponsored Institute of Social and Religious Research, Bishop Pickett wrote the book "Christian Mass Movements in India" which was widely acclaimed by sociologists as well as churchmen.

The Archbishop of Canterbury called it the "greatest book in Christian missions written in modern times." Another of his books, "Christ's Way to India's Heart" has been translated into 12 languages. His latest book "The Dynamic of Church Growth" was published by Abingdon in 1963.

After his retirement from episcopal administration in 1956, Bishop Pickett served until recently as professor of missions in Boston University School of Theology, and as consultant on evangelism for the Board of Missions. In the latter capacity he has visited most of the countries where The Methodist Church is at work in Asia, Africa, and Latin America, conducting there preaching missions and institutes on evangelism, and seeking to formulate more productive programs of evangelism.

At present Bishop Pickett is representing the Board of Missions in seeking to find new resources with which to support the work of The Methodist Church, especially in India, and Pakistan.

## Baptist Church Activities

The Ruth Sunday school class of the First Baptist Church met Thursday, September 30, in the home of Mrs. T. D. Stewart, Jr. to elect new officers for the year.

Mrs. Darwin Bland brought a short devotional and prayer. Mrs. L. D. Stripling, the teacher, held the business meeting.

Officers elected were: Mrs. Dora Doyle, associate teacher; Mrs. T. D. Stripling, Jr., president; Miss Elna Sprawls, vice president; Mrs. Cecil Gilmore, secretary - treasurer, and Mrs. Jesse Shaw and Mrs. Glen Petree, group captains.

Those present were: Mrs. Mrs. L. D. Stripling, Mrs. J. D. Mashburn, Mrs. Darwin Bland, Mrs. Jesse Shaw, Miss Elna Sprawls, Mrs. T. D. Stewart, Jr., and Mrs. Cecil Gilmore.

Neal Estes, Editor.

## Odessan Breaks Local Jail But His Liberty Short Lived

Robert Lee Boone, 18, from Odessa, broke out of the Martin County jail Saturday night but his liberty was short lived.

Boone allegedly stole two cars in advancing his escape try. The Odessa youth, also owner of a criminal record dating back to charges in Wyoming was captured near Coahoma and returned to the county jail here He was indicted by a grand jury Monday morning after entering a guilty plea to charges of burglary, automobile theft and jail breaking before Judge R. W. Caton in District Court, was sentenced to a term of five years in the Texas penitentiary.

Boone, who was being held in the old Martin County jail on a burglary charge, escaped about 10:30 p.m. Saturday by using broom handles mop bucket bail and a piece of blanket to open the doors.

Martin County Sheriff D. A. Saunders said once that Boone was out of jail he walked a block and took a 1961 station wagon owned by Floyd MacArthur and headed for Big Spring, broke into a grocery store at Big Spring and then abandoned the station wagon.

Saunders said he took another car in Big Spring and was later taken into custody by officers who hemmed him up in a field a mile east of Coahoma.

Saunders said the youth was taken from the new jail and put in the old jail after trouble was started by Boone and several other prisoners. Saunders said they built a fire and stopped up the drain in the new jail, making it necessary to put them in the old jail while the cell was being cleaned.

Saunders said charges may be filed in Glasscock and Howard Counties for car theft. Additional charges of car theft and jail breaking were filed in Stanton against Boone.

## Chamber Sets Farm Tour

The Chamber of Commerce will have its annual farm tour Tuesday, October 12. The tour will leave by bus from the Walter's and Leonard building at 1:00 p.m.

The purpose of this tour is to study different conservation and management practices on the various farms. There will be about five stops made on this tour.

Everyone in the county is invited to attend.

WOMAN'S SOCIETY OF CHRISTIAN SERVICE, Circle I — First Methodist Church each Monday afternoon.  
WOMAN'S SOCIETY OF CHRISTIAN SERVICE, Circle II — First Methodist Church each Tuesday morning.

STANTON MUSIC CLUB — First and third Wednesday of each month.  
WOMEN'S DEPARTMENT, Reorganized Church of Jesus Christ of Latter Day Saints—First and third Thursdays of each month.

WOMEN'S MISSIONARY UNION, Lenora Baptist Church — each Tuesday afternoon at 4:15 p.m.  
GA'S, Lenora Baptist Church — Wednesday night at 7:45

BROTHERHOOD, Lenora Baptist Church — Fourth Monday of each month at 8 p.m.  
WYA, Lenora Baptist Church—Each Tuesday at 4:15 p.m.

STANTON GARDEN CLUB — Fourth Tuesday of each month.  
WESLEYAN SERVICE GUILD, First Methodist Church — Second Monday evening of each month.

WOMEN'S MISSIONARY UNION, First Baptist Church — Mary Stamps Circle — Third and fourth Mondays Vivian Hickerson Circle — First, third and fourth Tuesday mornings.

Mary Elizabeth Truly Circle — First and second Thursday at 9:30 a.m.  
WMS GENERAL MEETING — All circles, second Tuesday morning of each month.

BETHANY SUNDAY SCHOOL CLASS — Meets last Thursday of each month.  
ST. JOSEPH'S CATHOLIC ALTAR SOCIETY — Second Wednesday.

LEGION OF MARY, St. Joseph's Catholic Church — Each Monday night.  
HOME DEMONSTRATION CLUBS — Stanton HD Club — First and third Wednesdays.

Courtney HD Club — First and third Thursdays.  
Courtney Morning HD Club—Second and fourth Thursday.

Valley View HD Club — Second and fourth Thursday.  
Lakeview HD Club — First and third Thursday.  
Koffee Kup Kraft HD Club — Second and fourth Thursday mornings.

FIRE DEPARTMENT — First and third Monday night of each month at City Hall.  
CANCER SOCIETY — First Monday night of each month at Cap Rock Electric auditorium at 7:30 p.m.

GRADY LIONS CLUB — First and third Tuesday night of each month at Grady School.  
HOME DEMONSTRATION COUNCIL MEETING — Third Tuesday of each month at 2 p.m. at the Cap Rock Electric auditorium.

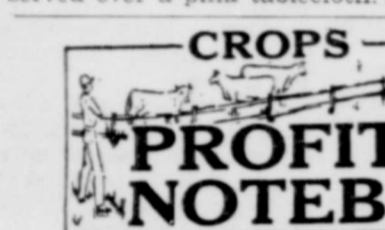

MARTIN COUNTY FARM BUREAU MEETING — Third Tuesday night of each month.  
STANTON PARENT-TEACHERS ASSOCIATION — Second Tuesday night of each month.

## Judy Driver Is Honored With Shower

A pink and blue shower honoring Judy Driver was held Monday, October 4, at 7:00 p.m. in the home of Mrs. Floyd Sorley.

The centerpiece was a stork surrounded by smaller storks, and mint filled miniature diapers. The cake was decorated with a pair of pink icing booties. Pink punch was served over a pink tablecloth.

## CROPS

## PROFIT NOTEBOOK

### DOES YOUR SOIL HAVE ENOUGH AVAILABLE PHOSPHORUS?

by T. R. Cox, Chief Agronomist, Cyanamid Agricultural Research Center

Available is the key word—and that means throughout the entire root zone of your soil. It's true, your soil may have as much as 1500 pounds of phosphorus per acre (most of it in the top soil) if you live in the Corn Belt, yet only 15 pounds of it could really be called available to your plant roots. So even though your 100-bushel corn crop requires only 26 pounds of elemental phosphorus (55 lbs. P<sub>2</sub>O<sub>5</sub>), you can see the importance of making more of this element available annually.

Agronomists say each year more phosphorus is removed from U. S. soils than is returned. Your best approach to your own soil's needs for phosphorus as well as potash and lime is through a soil test. You can take samples any time. In fact, to avoid the spring "rush", growers are urged to have soils tested this fall, taking soil from at least 15 spots for a sample representative of each area sampled.

If soil tests show extra phosphorus is needed, your next step is to decide which phosphate fertilizer to use and when to apply. Whether you use mixed fertilizers or straight phosphate materials, my associates at American Cyanamid Company, Princeton, N. J. agree that late summer or fall is an excellent time to apply either. More and more farmers are feeding the soil in the fall with both lime and fertilizer to avoid the spring rush, and they

are finding it pays big dividends for both row and forage crops.

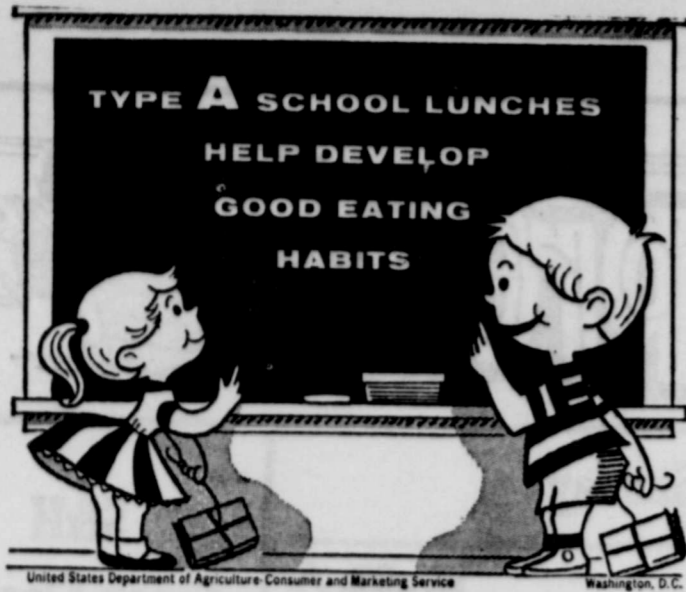

If you are applying straight phosphate fertilizers, choose the material on the basis of cost per pound of available phosphorus and the form which suits you best. More phosphate is being applied directly than ever before, with a mounting grower interest in two phosphate fertilizers—triple superphosphate and diammonium phosphate.

Triple superphosphate contains 46 per cent available P<sub>2</sub>O<sub>5</sub>, and is produced by treating rock phosphate with phosphoric acid. It is widely used in the manufacture of mixed fertilizers — especially high-analysis grades — but it is also increasing in popularity for direct application.

Diammonium phosphate is a versatile fertilizer finding increased use for direct application as well as use in both granular mixed and blended fertilizers. It contains 18 per cent leach-resistant nitrogen and 46 per cent available P<sub>2</sub>O<sub>5</sub>.

U. S. farmers, generally, could benefit greatly from the use of more phosphorus in a balanced plant food program. Balance is a must. It requires an adequate amount of each nutrient the plant needs to get high yields. Get a head start on your soil's phosphorus as well as nitrogen and potash needs for 1966. Have your soil tested, then, fertilize this fall.

**NATIONAL SCHOOL LUNCH WEEK OCTOBER 10-16.** In the current school year about 18 million children will be served nutritious noonday meals under the National School Lunch Program. It is administered by the U.S. Department of Agriculture's Consumer and Marketing Service, which provides about a fifth of the total cost in cash and food. This program makes it possible for children to enjoy a complete lunch for an average payment of only 27 cents. A tenth of the nearly 3 billion lunches consumed last year were served free or at reduced prices to youngsters who could not afford the full price. About 71,000 public and non-profit private schools are expected to take part in the program this year.

### USDA School Lunch Program Reaches 31.1 Texas Students

What kind of lunch does your child have at school? Around 30 percent — 31.1 percent — of all students enrolled in Texas public schools eat in lunchrooms operating under the national school lunch program of the U. S. Department of Agriculture.

This means your child has a wholesome and nutritious meal of meat, poultry or fish or other high protein food; fruits or vegetables; enriched bread, usually baked in the lunchroom; butter or margarine and a half-pint of whole milk.

To call attention to the value and achievements of this program, the President of the United States has proclaimed Oct. 10-16 as National School Lunch Week.

The President cited the national school lunch programs as "an outstanding example of a local - state - federal partnership to protect the health and well-being of the nation's children."

About 3,415 Texas public and private schools are operating under the national school lunch program, which provides federal funds, foods and technical assistance to help keep the price of meals low to students.

Texas students pay an average of 31c per lunch, according to Charles Hicks, chief consultant, school lunch program, Texas Education Agency.

USDA - donated foods are distributed to schools by the Texas Department of Public

Welfare. The school lunch program is handled at the federal level by USDA's Consumer and Marketing Service.

Last year, Texas schools received about \$6,660,000 in federal funds and 50,796,583 pounds of USDA - donated foods, according to John J. Slaughter, southwest area director, food distribution programs, C&MS, Dallas.

### Student Council Elects Officers

The Stanton High School Student Council's officers for this year are: Buddy Shanks, president; Evonnie Welch, vice president; Brenda Dyson, secretary, and Mike Springer, treasurer.

The members of the Student Council are freshman: Frances Deavenport, Doris White, David Adkins, Bill Wilson, alternate; sophomores: Steve Hall, Karl Herzog, Bert Decker, and Glen Lawson, alternate; juniors: Eunice Stephenson, Butch Robnett, Gary Reid, and Janelle Tate, alternate; seniors: Susan Brandt, Brenda Standefer, Sandra Jones, and Lynda White, alternate.

Permanent members are those that make a state convention, or Southern Association convention. They are Tim Bristow, senior; Larry Haggard, senior; Betty Glaspie, senior; Buddy Shanks, junior; Brenda Dyson, junior, and Mike Springer, junior.

## Editorials . . . Hunter Safety

Hunters will become much more active as the fall game harvest season advances in Texas.

This brings up the important matter of hunter safety. Some of the more common causes of gun accidents among hunters are identified by J. B. Phillips, law enforcement coordinator of the Texas Parks and Wildlife Department.

Taking loaded guns out of motor vehicles, and crawling through fences with loaded guns, traditionally cause a surprising number of fatalities. Guns leaned against logs, stumps or there where they can slide or easily be knocked down, also are dangerous.

Phillips said a check with the warden force, which "preaches safety" as a matter of routine focused on the fact that the average hunter should realize the deadly impact of a bullet or a shotgun charge.

"If the wardens had their way," he said,

"hunters would concentrate on unloading their guns before getting into a car, and certainly before returning to camp. Because it's that unloaded weapon that creates so much heart-ache."

Phillips said department statistics show that many upland game hunters do not understand the range of pellets fired from a shotgun. "Ironically, many keep shooting at a bird after it is well out of reach of a killing impact. And others risk a shot when someone else is in actual range of shot."

The law enforcement coordinator said mishandling of gun safeties is responsible for many accidents, in that it is easy to forget and to keep the safety off between shots.

Phillips cautioned all hunters that another common cause of mishaps is clogged gun barrels, when dirt or other foreign substance gets onto the muzzle end of the gun, causing the barrel to splinter when the charge strikes the blocked area.

### Who Pays?

Suppose you work the standard eight-hour day and are in an average income bracket. How much of that time must be used to pay for elements that make up your cost of living?

Some examples: Food and tobacco, 1 hour and 18 minutes; transportation, 39 minutes; clothing and related items, 30 minutes; medical expenses, 21 minutes; recreation, 19 minutes.

There is another item that is bigger than any of these. It is taxes. They account for 2 hours and 20 minutes of your working time — or more than a quarter of your whole week.

To put it another way, it means that you must work more than three months of each year just to earn money to pay the taxes

which Congress levies in order to keep the federal government rolling in funds. Taxes take all you make during this period of more than three months.

Many people have only slight knowledge of the size and scope of the tax bill — the primary reasons being that many taxes are hidden in the cost of goods and services we buy, and that most individual income taxes are paid through the withholding system rather than being paid personally to the government by the wage and salary earner.

Realize or not, however, taxes are the biggest single item of expense to most of us. Who pays for big and wasteful government? We, the people, pay.

### FOR VIET NAM WAR

## Doctors, Dentists, Vets Due January Draft Calls

The military buildup for the Viet Nam conflict brought a Pentagon call for the draft of 1,979 doctors, dentist and veterinarians starting in January.

It is the first request to the Selective Service for dentists and veterinarians since the Berlin crisis in 1961. The 350 dentists and 100 veterinarians requested will all serve in the Army.

The Defense Department asked for the drafting of 1,529 doctors—949 for the Army, 260 for the Navy and 320 for the Air Force.

This is the second medical draft call this year. On Jan. 7 the Defense Department asked for 851 doctors, but this was raised to 950 on Jan. 28 and then to 1,085 in June.

All the medical drafts were required, the Pentagon said, because not enough medical school graduates are volunteering. Men who are deferred from the draft to complete their education are subject to being called into service after completing their internships.

Calls for doctors have been issued periodically since the start of the Korean War some 15 years ago.

Explaining this newest draft quota, the Defense Department announcement said:

"The call is necessary to provide the health services required for the increase in the active armed forces strength announced in July by the President."

President Johnson approved then a 340,000-man boost in the armed forces, to a new total of nearly three million. This brought a jump in general draft calls to 36,450 for November, double what it was a couple of months ago—with the Navy and Marine Corps having to rely on it for the first time in many years.

Marriage was eliminated a grounds for deferment, if the marriage ceremony was after midnight Aug. 26.

The veterinarians who are being drafted will be used chiefly for meat inspection. Few animals are left in the services, with the horse cavalry gone, but the services do use dogs for sentry and other purposes.

A Selective Service spokesman said the doctors, dentists and veterinarians who will be drafted probably will be mostly between the ages of 26 and 35.

First railway bridge across the Mississippi, linking Davenport, Iowa and Rock Island, Illinois, was built in 1856.

Some African gazelles have raced from a car at 40 mph over a short distance according to the Encyclopedia Britannica.

**ARGUMENT SETTLER** — Most Texans hunt deer in a group on a season's lease. At times arguments arise as to which hunter shot which deer once it has been hung on the rack.

To avoid misunderstanding, and to positively identify your deer, write your name on one of the antlers with a felt marking pen before bringing it into camp. Then if your tag becomes detached, your deer still will be identified.

**TAPE WARNS OF DOGS**—Night-hunting dogs such as coon hounds, fox hounds, etc., are in dire danger in this motorized age. Frequently these hunting dogs cross busy highways during their run. You can protect them from being run down by attaching reflector-type tape all around their collars.

This will give them a measure of protection since the tape will glow when caught in the beam of an approaching headlight, and give the motorist time to avoid hitting them. Also, it will enable you to keep better track of your hounds in the woods.

**CAR SICK DOGS** — Car sickness is a common ailment found in many hunting dogs.

Owners of the larger breeds, such as pointers and setters, have recourse only in anti-seasick pills—or other such remedies.

But small dogs owners can slip a plastic bag over the rear end of their animals when transporting them. This will protect car upholstery and simplify the cleanup job later.

**BWARE OF SICK RABBITS**—Most rabbits are healthy. But rabbit hunters always should be on the alert of sick animals.

If you bag one that has acted suspiciously, don't clean it if there is so much as a mosquito bite on your hand.

If the animal's liver seems spotted, throw the carcass away . . . or better yet, bury it. Tularemia is a dreaded disease!

**USE STRING ON FAST DRAW GUN**—Many a handgun has been damaged by being dropped while practicing the fast draw.

You can protect your prized handgun from such damage by tying one end of a string to your belt, and the other end to the gun's trigger guard. String won't interfere with a fast draw, but it will catch the gun should it be dropped.

Needless to say no bullets should be in the gun when you're practicing the fast draw.

M. J. Rathbone, retired Chairman of the Board of Standard Oil Company (New Jersey), said: "The process of economic growth in a free society has been well described as a continuous advance into uncertainty. The mind that is able to analyze, organize, and lead large affairs in the midst of uncertainty and rapid change is the mind that business and indeed all the great institutions of a free people will always prize most highly."

### Howard County College Shows Big Increase

Howard County Junior College shows a final figure of 10,500 semester hours on which it will draw state per capita aid.

The full time equivalent is 700, or 130 more than for the autumn semester of 1964.

Actually there are another 24 fulltime equivalents (12 hours the equivalent of a full-time student), because 314 hours could not be counted because they were being taken by individuals who had already earned 64 credits or who were taking more than 18 hours in one semester.

Based on the per capita on which HCJC now is budgeted, the increase would mean upwards of \$50,000 more in state aid. However, this bill will not materialize unless there should be a special session and some provision made for the state to participate in the unprecedented gain.

The head count at the college this year topped a thousand for the first time this year and ended at 1,026.

# The Giant-Killer Rides Again!

**American Motors Challenges the "Big 3" of Detroit—With 4 New Lines of '66 Cars that Give the Public What it Wants.**

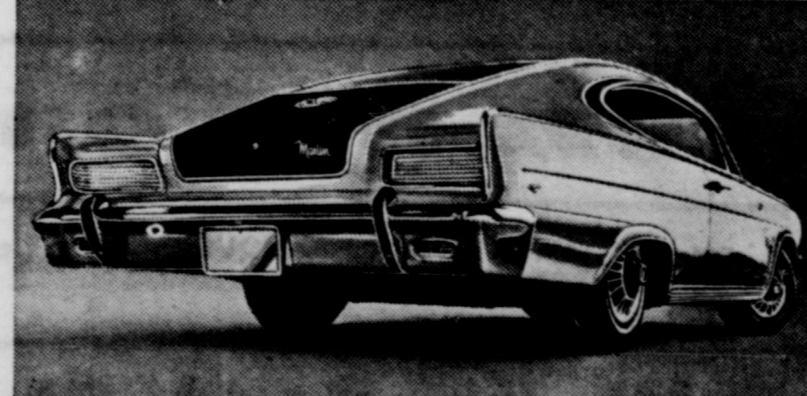

Last time it was size. This time? Quality! Quality that's built in—not added on. The promise: more built-in quality features at no extra price.

**ROGUE:** new razzle-dazzle Rambler. Outperforms every other car in its class (with standard engine). "Do Rogues really come with rally stripes?" "No, but with the big new engine they drive that way." '66 Rambler American Rogue here October 7th.

**REBEL:** new roomy, zoomy Rambler. Doesn't cramp your style, or your legs, or your family, or your pocketbook. Think you know a Rambler when you see one? Think again, look again. See the '66 Rambler Classic Rebel at your friendly Giant-Killer's, October 7th.

**MARLIN '66** by American Motors. Full-size, family-size sports fastback seats 6—in comfort. (Even with bucket seats.\* Flip down the front and rear armrests and turn your Marlin into a 2+2.) Don't miss it at your friendly Giant-Killer's on October 7th.

Remember when American Motors came out with the trim little Rambler and knocked the Detroit "Giants" on their collective ear? Overnight, big fins and fat land yachts went out of style. American Motors came along with the right cars at the right time and caught the competition napping. This year, almost half the automobiles sold are Rambler-size cars.

Round one to the "Giant-Killer." What next? For '66, American Motors again gets the jump on the big boys with a new rallying cry: Quality! A new kind of quiet quality that is built in as standard equipment on every car in the line.

This is the American Motors credo. Quality that's built in—not added on. First, determine what has to go into a car to make it stronger, safer, more dependable, more luxurious. Then put it there. Regardless of cost. Build it in.

Ready to be convinced? Ready to be surprised? Check this page for a preview of the 4 sleek challengers. New cars. New names. Then admire the styling of these exciting new cars. When you have finished, please get on your horse and go to the friendly Giant-Killer in your town, your American Motors/Rambler Dealer.

\*Optional on most models. \*Based on a comparison of manufacturers' suggested retail prices.

**BUILT-IN QUALITY IS BUILT-IN SAFETY.** Only one "Big 3" car (and American Motors) offer a safety package with a Double-Safety brake system at no extra cost: Cadillac.

**BUILT-IN QUALITY IS BUILT-IN PERFORMANCE.** Big new standard engines. Sporty option: 4-on-the-floor. Two automatics\* also available to handle the chore of gear selection.

**TV PREMIERE THURSDAY NIGHT!** See the new American Motors '66 cars on "The Andy Griffith, Don Knotts, Jim Nabors Special," CBS-TV, October 7th

**AMBASSADOR 991** by American Motors. Now you can have your first luxury car while you're still young enough to enjoy it. Coil-spring seats like Cadillac. Double-Safety brakes like Cadillac. Price? Like Impala, Fury, Galaxie. Be sure to see it October 7th.

SEE YOUR FRIENDLY GIANT-KILLER, YOUR AMERICAN MOTORS/RAMBLER DEALER

## SOIL CONSERVATION DISTRICT NEWS

### OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT  
Jack Buchanan, Bob Cox, Bernard Houston, Larry Shaw,  
J. D. Crawford.

It is now the time of the year that the rangeland in the Martin - Howard Soil Conservation District should be checked for proper grazing use as there are only a few more weeks remaining in this year's growing season. The purpose of checking rangeland for proper grazing at this time of the season is to determine if the range is being over used, and if over use has occurred, then adequate adjustment in the stocking rate can be made.

By adjusting the stocking rate at this time of the growing season the grasses will have sufficient time to make adequate growth before being killed by fall frost, and thereby insuring a good plant vigor for next spring. Plant vigor

is necessary so that the climax range grasses can be able to compete for growing space with invader or less desirable plant species when spring growth begins the following year.

The additional plant growth will also help protect that soil from wind and water erosion. Proper use of the grasses on rangeland can be determined by comparing an average sample of used or grazed plants with an average sample of unused plants. The samples should be taken from an average grazed site on the range, and the samples should be taken at the same time.

The range will be considered properly grazed when 50 per cent or less by volume weight of the key or major species have been used at the end of the grazing season or about the normal date for the beginning of the next growing season. A range that is allowed to be over grazed this fall will not make a fast efficient growth next spring. The ability of a grass plant to produce a fast adequate top growth is dependent upon its root system.

That is a plant that is over grazed cannot produce a good deep root system which is necessary to produce a good top growth sufficient to give maximum production. Therefore proper use of rangeland will depend upon adjusting the stocking rate to the point of obtaining the maximum grazing returns which is considered to be 50 per cent or less by volume weight of the current seasons production.

Over used rangeland will produce inferior quality animals, and lower ranching income. Check your range for over grazing use.

If you are a rancher, and should need assistance in planning or determining proper range use on your rangeland you should contact your

## CROP Week Is Proclaimed By Connally

A memorandum from Governor John Connally designating October 24-31 as Texas CROP Week was received by Joe T. Salem of Sudan, chairman of the Texas CROP-CWS Board, during the board's meeting Tuesday at the Gondolier Hotel in Austin.

The document describes the community appeal of Church World Service in Texas and urges participation as follows:

"CROP is the only community-wide church food appeal in our State for overseas programs of the churches. As a program of the Texas Council of Churches, CROP is the program of 20 denominational units of our State through the Division of Christian Mission with its local appeals organized, planned and conducted by local volunteer workers.

"CROP also receives resignations for other overseas church relief agencies such as American Friends Service Committee, Catholic Relief Services, Lutheran World Relief and Mennonite Central Committee.

"Texas is blessed with abundance, and most of its residents are capable of rendering a helping hand to others. Through CROP we have the opportunity to express our gratitude to God by way of our gifts to the needy in other lands.

"Therefore, I, as Governor of Texas, do hereby designate the week of October 24-31, 1965 as Texas CROP Week and urge widest participation to community CROP appeals."

Mr. Salem said, in presenting the document to the board, "With this encouragement I am confident that the people of our State will help us reach our goal of \$100,000 in cash and commodities."

From the Moline, Illinois, Daily Dispatch: "It would be carrying it to far for the country to drift from medicare to full-blown socialized medicine, in which all of the medical needs of the entire population are taken care of by a tax - financed operation run from Washington. Many who want the country to go all the way regard medicare as a foot in the door. Their efforts must be mightily resisted."

## Health And Safety Tips

From The American Medical Association

A stroke occurs when the blood supply to a part of the brain is reduced or completely cut off, says Today's Health Guide, the new manual of health information of the American Medical Association.

This can be caused by a blood clot or by hemorrhage — bleeding from an artery in the brain. Medical terms used for various kinds of strokes are cerebral vascular occlusion, cerebral thrombosis, cerebral embolism and cerebral hemorrhage.

When the nerve cells of a part of the brain are deprived of their blood supply, the part of the body controlled by these nerve centers cannot function normally. The result may be weakness or paralysis, difficulty in speaking or loss of memory.

Some patients recover

quickly, and can resume their normal activities. Others may suffer such serious damage that even a partial recovery will take a long time. Immediate treatment with proper exercises and other forms of therapy can do much toward helping a patient regain the use of muscles and speech.

If a stroke is brought on by a narrowed blood vessel or, in some instances, a blood clot, the doctor may use anticoagulant drugs to prevent another stroke. When neck arteries leading to the brain are involved, a surgical operation can sometimes remove the obstruction to circulation.

Rehabilitation for stroke requires the cooperation of the doctor, the patient and the family. The patient's own will to avoid invalidism and to become independent is especially important.

### Good Teaching

If children were taught in the home by their parents and in the public schools and Sunday schools by their teachers one simple rule of action, it would be amazing how this rule could keep them out of trouble. The sorrow and suffering it could save them, not to mention the countless millions of dollars, would be beyond estimation of value.

This rule of action would require no new laws. It wouldn't cost a dime of taxpayer money. Yet, it would greatly reduce the cost of law enforcement and court trials and the operation of so many prisons and penitentiaries.

There wouldn't be nearly so many reports of murder, robbery, kidnapping, rape, purse snatching, automobile stealing, burglary, theft, etc., etc.

And what is the rule of action that would reduce our vicious crime record, if it became part of the thinking of children when it was taught to them daily by their parents and schools, along with suitable illustrations of what it means?

Rule: "Keep your hands off other people and other people's property." It's just that simple to keep out of trouble.

## Midland Rock Show Date Set

The Midland Rock Show will be held Oct. 23-24 in the National Guard Armory on North Lamesa road, according to Jack Darden, 1965 show chairman. The annual show, sponsored by the Midland Gem and Mineral Society, will display all phases of the rock-hound hobby and lapidary arts.

Mrs. A. B. Parkhurst has lined up and arranged for several special outstanding exhibits.

A working demonstration under the direction Charles McCamey will show rock sawing with a diamond charged saw blade, tumbling, faceting, cutting and polishing cabochons. Visitors to the show will have the opportunity to see rough rock — agate, Jasper, petrified wood, etc. — transformed into a beautiful gem.

Mr. and Mrs. M. W. Keathley will supervise and narrate the fluorescent exhibit of rocks, minerals and oil specimens.

Rock and gem dealers from many parts of the country will offer for sale everything from rough rock to finished jewelry, including cut stones, mountings and findings.

Displays by club members will be made up of faceted stones, hand - crafted jewelry, mineral specimens, Indian artifacts, lamps and tables. Cabochons, referred to as cabs for short, are stones cut with a smooth rounded top and a flat back. No two cabs are ever exactly alike as to color pattern or banding, even though they are cut from the same rock, each one is different.

The hobbyist who rock hunts for his own use, to cut and make into jewelry. Or he may use slabs of his choice "finds" to barter with other rock-hounds. For this reason, and limited supply, stones like these are rarely found in jewelry stores or offered for sale on the commercial market, yet they are classified as semi-precious stones.

The snowy owl is one of the few owl species that migrate.

It is estimated that there are about 1,800 thunderstorms raging in the world at any given moment.

Holland was joined to Belgium until 1830, when the latter became an independent state.

## Urban Renewal Agency of the City of Stanton

400 North St. Peter Street  
Stanton, Texas

### Notice Of Sale

The Urban Renewal Agency of the City of Stanton (further referred to as the LPA) will accept sealed bids, on the following structures to be demolished, at the office of said LPA located at 400 North St. Peter Street until 2:00 P. M. October 25, 1965 at which time said bids will be opened and publicly read. The Agency reserves the right to reject any and all bids. The successful bidder must enter into a written contract with the LPA to demolish the structures on site, remove all salvage and debris from lot and level same. A cashier check payable to the Urban Renewal Agency for \$100.00 must accompany said bid as a guarantee bond that said successful bidder will demolish the structures and clear the lot to the satisfaction of the LPA. Upon satisfactory completion the cashier check will be returned to the Contractor and if lot is not cleared and leveled to the satisfaction of the LPA, the \$100.00 shall be forfeited to the LPA so they may clear the lot.

A cashier check in the amount of the bid payable to the Urban Renewal Agency must accompany each bid and if not successful the bid check and the performance check will be returned to the unsuccessful bidder. A period of 30 days from notice of acceptance of bid will be allowed for demolishing and clearing the site of all debris.

The following structures located as follows are open for bids and may be inspected until 2:00 P. M. October 25, 1965.

Thomas Jefferson was the first president of the United States to be inaugurated in Washington.

Warwick, N. Y. Advertiser: "You hear much of this or that going to be accomplished with either 'state' or 'federal' funds. This is really a misnomer as the State and United Governments have no other source of income than the taxpayer. . . . Therefore, The Advertiser when referring to any of these funds in future articles will use the term 'New York Taxpayer's' for Federal expenditures. We'd like to see all the newspapers in the country adopt the same policy, so that the taxpayer begins to realize he is not 'getting something for nothing'."

Nickname of Cuba is "Pearl of the Antilles."

## TO WAIT OR NOT TO WAIT?

If that's your question on buying a new car, we've got the answer for you... either way!

### TO WAIT!

On Oct. 7, see the sensational '66 Chevrolets before considering any '66 car purchase! We promise you'll be glad you waited to compare our '66 Chevrolet value against any other '66 make!

### NOT TO WAIT!

Take advantage of a big savings opportunity! Now is the No. 1 time to get a No. 1 deal on a brand new car, a 1965 Chevrolet, Chevelle, Chevy II or Corvair!

We have the answers to your new car needs!

## Alsup-Nowlin Chevrolet Co.

## Kick the dull driving habit. Step out in a lively Dodge Coronet.

Forget all you've seen and heard about '66 cars. Because Coronet is here... sharp, smart and sassy the greatest thing from Dodge since Year One. Loaded with luxury the higher-priced cars haven't caught onto yet.

With a choice of five engines, Slant Six or V8, each one designed to make the wails of Dullsville come tumbling down.

And with a whole slew of standard equipment that used to cost extra. Like an outside rear view mirror. A padded dash for extra safety. Variable-speed electric windshield wipers and washers. Backup lights. Turn signals. Seat belts, two front and two rear.

Enough said to get you really tempted? Now let's get away from the look-alike, drive-alike,

first-cousin cars with Coronet for 1966, a car with a lively personality all its own. The Dodge Rebellion wants you!

'66 Dodge Coronet

## The Launching Pad

By NEAL ESTES

**P**RESIDENT LYNDON JOHNSON is scheduled to undergo surgery Friday morning at Bethesda Naval Hospital for the removal of his gall bladder. The editor, along with many other American citizens, trusts the Chief Executive will be permitted to regain his health and we wish him a speedy recovery. Any reader of our column knows that we frequently disagree with the plans, policies and politics of LBJ, but there is certainly nothing personal about it. Early in my newspaper career I served as LYNDON'S campaign manager in a wide area of East Texas. That's the time he campaigned in a helicopter and that was really something in those days. I have a framed personal letter hanging in my home from LYNDON and it is a sentimental communication concerning the service rendered to his past campaigns and a strong statement of personal admiration with the postscript the "LADY BIRD sends her regards." Yes, I admire LBJ personally, but I cannot compromise my conscience in following some of his political philosophy these days—philosophy that he didn't advocate in our days spent on the political trails of the yesterdays.

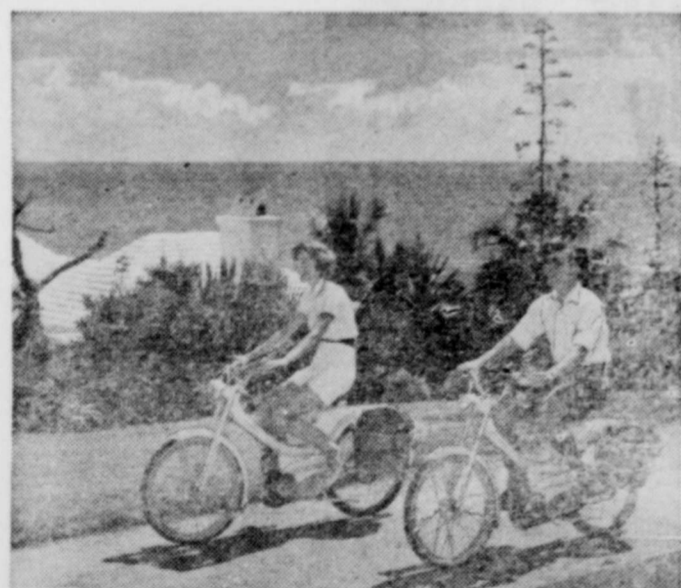

**T**HE editor learned this week that GUY BROWN had been named a member of the staff of the school newspaper at NEW MEXICO MILITARY INSTITUTE where he is attending college. GUY had his early newspaper training on THE STANTON REPORTER under our supervision. As a matter-of-fact, our paper is the only one GUYBO has worked for as an accredited staff writer. He also carries a card in the TEXAS PRESS ASSOCIATION. GUY has the talent, inherited ability, and good sense to make a first class editor out there at NMMI and we know he will.

**P**OPE PAUL had delegates in the UN hanging on every word when he addressed that body this past Monday. And when he quoted the words of the late PRESIDENT KENNEDY, the audience listened in rapt attention. KENNEDY'S words, as quoted by POPE PAUL were: "Mankind must put an end to war, or war will put an end to mankind."

**L**BJ was not present at the UN when the Pope spoke. He was reported to have watched and listened, however, and we hope he did. POPE PAUL SIX is a very able and interesting personality. We caught the tv showing of his arrival at the KENNEDY airport in New York and listened to his address advocating peace at the United Nations. We also observed his departure late Monday evening. My conclusion as regards the "Pilgrim Pope" as the press labelled him is that he is a dedicated, sincere, individual. And we honestly think that his peace mission to this country contributed more toward winning some sort of peace in Viet Nam and in the world that has been proclaimed in the U. S. A. to date. We hope he comes back to see us again. He is a wonderful Pontiff.

**W**E have been hearing a lot about electronic football. I agree with COACH FRANK BROYLES of Arkansas who said: "I'm opposed to special television aids after experimenting with them against TCU. 'You can't win on Saturday depending on mechanical or electronic things. You need blocking and tackling. Too, this type of thing is awfully expensive and cumbersome on a ten-game basis and it will take extra people traveling to maintain it. I'd like like to see it barred right now.'" COACH BROYLES team downed the Christians 28-0 and without benefit of the electronics! Again, I join the Arkansas mentor—I want real, live players out on the field—no robots.

**N**OW that the Immigration Gates have been ordered wide open and more foreigners are going to be allowed to come in and get on our relief rolls we have a suggestion. The more than 250,000 Cubans now holed up in Florida could be mobilized into a fighting force and be sent back in uniform to liberate their homeland from the Communist Castro. Seriously, what's wrong with the idea? It is pretty uncomfortable to have enemy guns just 90 miles away under Castro.

### DOWN THE ROAD IN BERMUDA:

This young couple, the tiny motors of their bicycles humming, head for a day of sight-seeing along the shorelines of Bermuda. The motorized bicycles (they're called auxiliary bikes in Bermuda) are available to tourists on a rental basis, and have become one of the most popular means of transportation. Note the baskets hanging from the rear of the bicycles... handy for straw hats, lunches or the packages bought on a shopping spree. And for those tourists who prefer the less energetic type of transportation, Bermuda also has the small British-size taxis.

Mr. and Mrs. John M. Wells of Kermit, visited with her aunt, Mrs. Ralph Kelly and family Sunday. Preston Kelly of Odessa, also visited in the home.

Vergil Foreman of Richmond, California, has been visiting the past week with the S. P. Foreman family in Lenorah. Also visiting with the Foremans were Sam Foreman of El Paso, Dave Foreman of Andrews, Mr. and Mrs. Dan Foreman and family, Mr. and Mrs. Phil Foreman and family, Ines Luce, and Ova Webb, all of Midland.

## Rush-Diebel Vows Repeated

Paul Rush, son of Mr. and Mrs. O. L. Rush of Stanton, and Miss Billie Diebel were married Sunday, October 3, in Miami, Oklahoma.

The bride-groom is a 1958 graduate of Stanton High School. After his high school education, Rush went into the Army and got out in 1964. He is presently employed with Bell Telephone in Miami.

The bride is a graduate of Ponca City High School, and is employed with a discount house in Miami.

## Mr. Genazzio Weds M. Hauger

Marguerite Hauber of Big Spring, and Alfred Genazzio of Odessa, were married Saturday, September 11, in Big Spring. She is the daughter of Mr. and Mrs. Virgil Brothers of Stanton.

The bride is a 1958 graduate of Stanton High School. She is also a graduate of the School of Anesthesia at Baylor University in Dallas. Now she is employed in the Big Spring Foundation Hospital.

The groom is employed with International Housing and is also a violin instructor.

## M. D. Halls To Celebrate Anniversary

Mr. and Mrs. M. D. Hall will celebrate their silver wedding anniversary Sunday, October 10, from 4 to 6 p.m. in the Cap Rock banquet room.

The hostesses are: Mmes. Robert Turner, Lewis Pinkerton, Bessie Kellers, Johnny Price, D. B. Hall, W. A. Walker, and J. R. Price.

Mr. Hall was born April 1, 1919, in Hermleigh in Scurry County. Mrs. Hall was born March 4, 1923, in Snyder, Scurry County. She moved to Loraine in 1927. The couple was married there on October 12, 1940. They moved to Stanton in 1952. Mr. and Mrs. Hall have three children. They are Sandra, John, and Donna.

Mr. and Mrs. Hall extend their invitation to all of their friends.

Mrs. O. L. Snodgrass, Sr. visited in Brownfield the first part of the week with her daughter and son-in-law Mr. and Mrs. B. J. Sadler and Cindy.

## Glaze Home Is Scene Sunday Birthday Dinner

A birthday dinner was held in the home of Mrs. Joe Glaze, Sunday, October 3. The dinner was held in honor of her husband, Joe, and her daughter, Janis. Janis is teaching the third grade in Plainview.

Those present were: Mr. and Mrs. Bud Stewart, Leslie, Lova Beth, and Daralyn Jo; Mrs. Ginger Brown and Arburn from Midland; Mrs. Sidney Pasco and three children from Flinton, Michigan; Mr. and Mrs. A. T. Wingquad of Shyro, Texas; Mrs. Linda Nichols, Jo Lynn, Ben, and Tommy of Seminole; Mr. and Mrs. G. W. Robertson and Ruth, Mr. and Mrs. Eldon Welch, Rosalyn, Leslie, Faye, and Kara; Mr. and Mrs. Sammy Yates, Jody, Tana, and Judith, and Jimmy Robertson.

## New Arrivals

Mr. and Mrs. Johnny Murdock of Brownfield, formerly of Stanton, are the proud parents of a baby boy.

The young man was born Monday, October 4, and weighed seven pounds and 12 ounces.

The paternal grandparents are Rev. and Mrs. J. R. Murdock of Weatherford. The maternal grandfather is Leslie Hull of El Paso.

## Stitch, Chatter Club Met In Womack Home

The Stitch and Chatter Club met Wednesday, September 22, in the home of Mrs. Oma Womack.

Cookies, cake, sandwiches, and hot punch were served to Mmes. M. P. Smith, Ruth Gibson, Edmund Morrow, John Poe, Bess Herring, Eddie Butler, Hatties Estes, Ruth Holloway, Clayton Burnam, and a visitor, Mrs. Eureda Toqfer.

Mr. and Mrs. Dub Tippit and Tony, and Mr. and Mrs. Beryl Tippit and family, visited in the home of Mr. and Mrs. Claude Nowlin.

THE AUTHENTIC STYLE

if you want to be correct on the campus

Here's the classic of them all for the smart young man about college! Authentic, always-correct slip-on styling; hand-sewn moccasin seams; Cordosell upper leather that shines easily and holds its shine longer. If you want to be right in style, this is your shoe.

## OPPOSE TEACHER GROUP

## Baptists Join Faubus For Antievolution Law

Baptists joined Gov. Orval E. Faubus on Friday in the battle with educators and the defendant in the famous 1925 "great monkey trial" over Arkansas' antievolution law.

The law bans the teaching of the theory that man evolved from a lower order, although it does not prohibit the teaching of the theory of the evolution of anything else.

The Arkansas Baptist Bible Fellowship, representing 13 churches in nine cities, adopted to repeal the 36-year-old law.

The resolution said: "We believe the Bible to be the Divinely inspired word of God and to be God's divine and complete revelation to man. We firmly believe in the image of God by the direct and immediate act of God without process of evolution."

The controversy began three weeks ago when the executive secretary of the 17,000-member Arkansas Education Association proposed the repeal of the law on grounds that it impugns the judgment, integrity and competence of teachers.

Law Restricts Teachers  
Forrest Rozzell of Little Rock, the AEA leader, said the law wrongfully restricts teachers.

Gov. Faubus bowed in by saying he wanted to keep the law to curtail "way out teachers." The governor is a Baptist. He said he would fight any attempt to repeal the statute.

John Thomas Scopes, who was tried at Dayton, Tenn., in 1925 under Tennessee's antievolution law, assailed the Arkansas version and Faubus' stand.

"You'd better find out what the governor's thinking so you can protect your citizens from the governor," Scopes, 65, now retired at Shreveport, La.

### Based On Issue

Scopes tol the Pine Bluff Commercial in a copyright interview this week that his opposition to antievolution laws is based on another issue — "whether a man can say what he wants, teach what he wants, think what he wants."

Such laws, Scopes said, make schools "robot factories that turn out a bunch of robots as citizens."

Many Arkansans, through letters to newspapers, have expressed arguments on both sides of the issue.

One writer who signed himself as Refus Rhesus Monkey of the Little Rock Zoo also opposed, in a letter to the editor, repeal of the law on grounds that "the profligators of nuclear weapons, highway carnage and television could not possible be related to us."

Atchison, Kan. Globe: "The fact that more than a million youngsters annually commit acts beyond misdemeanors and are arrested and often sentenced is more than enough reason for universal concern. Add to that another fact, that millions of other boys and girls flirt with dangerous threats to their moral, spiritual and physical safety, and the problem comes to rest in almost every home in America."

Fee for filing a patent application at the U. S. Patent Office is \$30.

## Library Lines

MRS. RALPH CAFFEY, Librarian

Library hours: Monday 1 - 8 p.m.; Tuesday, Wednesday, Thursday 1 - 5 p.m.; Saturday 10 a.m. - 3 p.m.

The library has just received a group of books that should prove helpful. Entitled "Current Biography," they present articles on the lives and work of people in the news—in national and international affairs, the sciences, the arts, labor, and industry. Sources of information for the articles are newspapers, magazines, books, and in most cases the biographies themselves. We have the book from 1961 - 1964 and will continue to receive each year the present one.

The American Library Association president, Dr. Wagman, defines "the task of librarianship," as one of making "the human record — what we know and what we think — available and useful in promoting the welfare and growth of our society." It isn't always an easy task, but your library is striving to help the growth and knowledge of

## Mrs. Kennedy Is Consoled By Pope Paul

Pope Paul VI spoke words of consolation Monday to Mrs. John F. Kennedy and the former first lady blinked back tears and smiled.

Mrs. Kennedy was the first to be greeted by the pontiff in the delegates' lounge after his address to the United Nations General Assembly.

Jacqueline Kennedy knelt and then kissed the Pope's ring. She wore a tiny black hat on the back of her head and a black dress with three strands of pearls. Pope Paul spoke with her for perhaps a minute and a half, holding her hands. Then he met the others of the Kennedy family present, including the wives of Senators Robert and Edward Kennedy.

Martin County. There are not many adults who take advantage of the facilities and books that the library has to offer, but at ourselves. We have the books from it is possible to find what they need here as time goes by.
