VARIETY

Frigid Front Invades Martin County

By NEAL ESTES
We want to devote a great portion of this column this week to acknowledging subscription renewals.

Poll Tax Payments Lagging

County tax officials advised The Stanton Reporter at noon Wednesday that poll tax payments were lagging badly in Martin County.

Congressman Mahon Reviews Money Requests

The President's budget was submitted to Congress this week and referred to the House Appropriations Committee headed by Representative George Mahon.

Judge Caton To Seek Re-Election

R. W. Caton, Judge of the 118th District Court, has announced that he will be a candidate for re-election subject to the Democratic Primary of May 7.

Ralph W. Caton

Honor Roll Announced By Principal

Principal J. M. Yater has announced the honor roll for the Elementary School. The following students are on the honor roll.

Temperatures Fall To Lowest Level In Years

The extremely cold weather was the biggest news story happening in Martin County this week and the weather forecasted promised a second frigid front following the one striking in the area last weekend.

Treasurer Reed Asking Re-Election

Martin County Treasurer Elmo Reed has requested The Stanton Reporter to submit his name as a candidate for re-election.

Editor's Mail

U. S. TREASURY DEPARTMENT Internal Revenue Service Dallas, Texas 75201

Dear Editor: We are enclosing a print-out of the Sales Tax Table for Texas, and a mat for weekly newspapers.

Farm Bureau Members To Attend Rally

Several membership workers and leaders of the Martin County Farm Bureau, will attend an area-wide membership rally February 2, at the Holiday Inn east of Lubbock.

Newcomer Announces For Commissioner

Earl Newcomer, owner and operator of Newcomer Butane and Oil Co., with offices at Ackerly and Patricia, Texas, has authorized The Stanton Reporter, to place his name in the political column as a candidate for County Commissioner, from Precinct No. 4, Martin County, Texas.

YOUR TEXAS POLL TAX It's Very, Very Important

You should realize how important your Texas poll tax is to you and the state. You can do a lot of voting this year if you have a tax receipt or an exemption.

General Earle Wheeler Favors Heavy Bombing

General Earle G. Wheeler, chairman of the Joint Chiefs of Staff, feels a permanent halt in bombings in north Viet Nam would weaken efforts to achieve a negotiated peace.

Local Hospital Employees Attend Meet

Mrs. Zella Graves, administrator, and Mrs. Helen Lisle, medical records, attended the regular bi-monthly meeting of the Central Permian Area Hospital Council in Odessa at the Lincoln Hotel, January 19.

Former Stanton Man Is Injured In New Mexico

M. L. Clements, Midland, and formerly of this city, is a patient at the Midland Memorial Hospital, following an accident near Roswell, New Mexico on Tuesday morning of last week.

Press Meeting Scheduled For Lubbock

The West Texas Press Association will hold a Mid-Winter meeting in Lubbock on February 12.

Stanton Buffs Win Over Slaton Jan. 18

The basketball teams of Stanton High School remain undefeated in district play. The Stanton girls' A and junior varsity teams won both games here Tuesday night, January 18.

Penrose Oil Announces Extender

Penrose Oil Corp. of Midland No. 1 Thomason has been potentialized as a one-mile south extender for the Gordon Street, South (lower Wolfcamp) reservoir in Northwest Glasscock County.

Stantonites Win Grady Tournament

Stanton and Greenwood won championships in the annual Grady Junior High School basketball tournament racked up and finished Monday night.

**Texas High Commission Puts OK On Beautification Plan**

The Texas Highway Department's 1966-67 Highway Beautification Program, Texas' first major push under the recently enacted Highway Beautification Act, was tentatively approved today by the Texas Highway Commission.

The \$10.8 million program, which will cover more than 300 projects throughout the state, will now be submitted to the Bureau of Public Roads.

The program, subject to approval by the Bureau, will be submitted over an extended period. Project plans will go to the Bureau as they are completed.

As prepared by the Highway Department, the program represents Texas' first large effort toward compliance with the Highway Beautification Act of 1965 which was passed by Congress and enacted into law last October.

The program proposes work on 321 projects at a total estimated cost of \$10,862,400.

Of these, 122 projects are on the Interstate System and will cost an estimated \$7,486,800.

One hundred and ninety-nine of the projects are on the ABC system — federal-aid primary roads, federal-aid secondary roads and urban extensions of federal-aid systems. The ABC projects will cost an estimated \$3,378,800.

Of the projects proposed, 147 rest areas are planned; 19 scenic overlooks; landscape plantings for 133 projects; and right of way purchases for 64 projects.

Also, purchase of right of way easements for six projects; 68 comfort stations; 111 water systems; and lighting on 60 projects.

Electric fans were invented in 1892.

**The Exchange Desk**

**MATADOR TRIBUNE:** "Snowfall that covered the ground in Matador to a depth of 3 inches, began falling at 10 p.m. Tuesday. The moisture was welcomed by farmers, ranchers and business men. It was the first moisture in the new year and the first since Dec. 23-24th when .52-in. was recorded."

**THE MERKEL MAIL:** "Even though the weather was a little on the 'nippy' side, Chester Collingsworth, Merkel's vocational agriculture teacher, says the 'stock show was the greatest we've ever had. It just about doubled the size of any other show so far'."

**THE LORENZO TRIBUNE:** "Despite a wide range of offices to be filled this year and in the face of repeated warnings by state and local officials, poll tax payments continued to lag in Crosby County this week. At midweek only 1,051 poll tax receipts had been issued over the county—a number far short of the 2,611 paid in 1964, last major election year. Of the total, 905 had been issued at the tax assessor-collector's office in Crosbyton, 60 at the city office in Lorenzo, and 86 at Security State Bank in Ralls."

**THE GRAHAM REPORTER:** "A Dallas contractor, S. M. Farquhar and Company, was awarded a bid Thursday for the construction of additional sand filters to the Graham municipal water treatment plant. The S. M. Farquhar and Company submitted a low bid of \$32,408.00 for the project to the City Council."

**THE FORT STOCKTON PIONEER:** "With a little more than two weeks to go before the deadline for filing for a place on primary election ballots for 1966, outlook is for one of the quietest political years in quite a while in Pecos County."

**THE WINK BULLETIN:** "The Wink Wildcats suffered their second loss to the Stanton Buffaloes, 79-70, in a game played here Tuesday night."

**THE McCAMEY NEWS:** "The Board of Trustees of the McCamey Independent School District agreed last Thursday night to proceed with an application for funds available under Title I of the Elementary Secondary Education Act of 1964."

**THE GRAHAM LEADER:** "Personnel from the Red River Regional Blood Center, Wichita Falls, will be in Graham Friday for the first Blood Mobile visit this year, according to Walter Oliver. Technicians will be in the RESCO Reddy Room from 11:30 a.m. to 5:30 p.m. Friday with a quota of 85 pints established for the first visit."

You are younger today than you ever will be; make use of it for the sake of tomorrow.

Blood transfusions are administered in the U. S. at the rate of 750,000 gallons of the fluid a year.

**Killer Deer Tops Weird Hunt Tales**

A deer that shot and killed a hunter with his own gun headlined bizarre outdoor recreational accidents as reported to the Texas Parks and Wildlife Department during the last two weeks.

In other tragic incidents: An 8-year-old Ft. Worth boy drowned when a boat containing five persons capsized in Lake Benbrook as it returned to a dock to obtain life preservers;

A Houston man was killed by his 21-year-old son on a deer hunting trip;

A Bryan man maimed his hand and arm when a rifle he was leaning on accidentally fired;

A Lufkin man told authorities he killed his wife when his shotgun was discharged as he prepared to go hunting.

The weird deer-triggered fatality victim was Roy Edgar, 32, of Albany. A ranch hand, he shot a deer, reloaded his gun and leaned it against a tree preparatory to dressing out the animal. The deer twitched and a hoof struck the rifle causing it to discharge.

Another self-inflicted gun death involved a 16-year-old Pearsall boy who was carrying a pistol-grip 22 rifle while hunting rabbits.

In other hunt-related tragedies, a Round Rock man was killed enroute to his deer lease when he fell asleep at the wheel and a Brady man was killed in a traffic crash while returning from a deer hunt.

Apparent heart attacks killed deer hunters from Abbott, Fort Worth and Pearsall.

Outdoor recreational fatalities for the period included fishermen drowned at Longview and Palestine and two Louisiana fishermen off Sabine Pass.

On the credit side, two off-duty Dallas detectives enroute to their lease, stopped to aid a motorist and recognized the man as being wanted in a murder investigation.

Model T Ford cars sold for \$295 in 1923.

**Bible Comment—**

**Suffering Brings Fellowship In Christ**

When Jesus hung upon the cross, one of the two thieves between whom He was crucified reviled Him. Urging Him to save Himself and them. The other thief rebuked this fellow, reminding him that we were suffering justly for their misdeeds, whereas Jesus was suffering for His innocence and goodness. The penitent thief had the reward of hearing Jesus say, "This day thou shalt be with me in Paradise."

It is the distinction between two kinds of suffering which Peter emphasizes in his writings that does so much to encourage suffering Christians. The Christian who suffers is partaker of the sufferings of Christ. Instead of being embittered, he may well glorify God.

Certainly as we observe life, we can not very well say that the ideal life is entirely free from suffering.

**Philosopher Thinks 1 Per Cent Of Land For Cities, 99 Per Cent For Rest, Is Fair**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw takes a look at big city problems this week, from a rather odd viewpoint.)

Dear editor:

While I don't understand New Yorkers, what I mean is, during the transit strike everybody up there was so put out and outraged

because they couldn't get to work, almost having a nervous breakdown, whereas any day I can't get to work I'm fairly well satisfied, still big cities do have some big problems and we people in small towns and the country ought to be giving some thought to them, for a special reason.

For example, I read last night in a copy of a magazine which I keep handy for use during commercials that 70 per cent of the people in this nation now live in the cities, but they occupy only 1 per cent of the land. Furthermore, the trend is still increasing toward more and more migration to the cities.

This is what I'm talking about. If we can manage to keep 70 per cent of the population content to live on 1 per cent of the land, think how much room that leaves us.

Whatever it takes, Federal subsidies, surplus grain, or including them in the Commun-

ity Chest, cities ought to be maintained at all costs. Prizes ought to be offered to the cities that show the most gain in people on the least number of acres, a sort of agricultural prize in reverse, like farmers are honored for doing the same thing with crops. Grow Up, or Out, ought to be the slogan.

The last thing we want is some big city mayor, overwhelmed with absolutely unsolvable problems, to get the idea that if you can't make it in the city you ought to move to the country.

One per cent of the land for cities, 99 per cent for the rest of us — that seems like a fair division.

Yours faithfully  
 J. A.

Named to represent Texas in the national finals and fashion show of the "Make It With Wool Contest" in Portland, Ore., Jan. 20 have been Neida Burch, Denton, junior winner; Sharon Scott, Corpus Christi and Denton, senior winner; and Mrs. W. J. Stroman, Lometa, adults. Judged alternates in the recent state finals held the Texas A&M University were: Marsha Shaver, Rochester, juniors; Mrs. LuAnna Hillmer, San Antonio, seniors; and Mrs. El Ruth McCullough, Nacogdoches, adults. The Texas A&M Extension home economics staff supervised the state contest.

The more often you win an argument, the fewer your friends.

**Nineteen Years Ago**

The Stanton High School students started work on the school year book. Members of the staff are Jean Davis, editor; Belle Jones, associate editor; Louis Anderson, senior editor; Betty Bennett, freshman editor; Cristene Alexander, feature editor; Van Ross, business manager; Mrs. P. G. Smithson, sponsor; Herbert Jones, Jay White, Leroy Gregg, Sue Patton, and Pat Wilkinson, advertising committee.

The Stanton Buffs protected their unbeaten basketball record in the double round-robin district games by thrashing Forsan 41-13 Tuesday night at Stanton. Stanton "B" also won by a 27-17 score. The Stanton Invitational Tournament got underway Thursday night.

Mrs. Noye Hamilton and daughters, Lela and Dorothy Hamilton, visited in Amarillo with H. C. Hamilton and family.

The 4-H and Home Demonstration Clubs of Martin County are scheduled to have a very busy month during January. A new phase of extension work is being introduced this year which is leadership training. The 4-H program for January includes planning a wardrobe, keeping clothing accounts, and making aprons and undergarments. The Home Demonstration program for the month, includes planning the landscape for rural homes and pruning. The 4-H Club boys are studying terracing during January.

Rev. T. R. Hawkins, pastor of the local Baptist Church, was guest speaker at a meeting of the Stanton Parent-Teachers Association January 7. His topic was "Youth and the Uncertain World." Mrs. L. H. Batton, fifth grade teacher, presented her pupils in a program of songs and readings. Readings were given by Norman Blocker and Sue Jane Zimmerman. Lou Ann Barfield and Sue Zimmerman led group singing.

According to the 1945 Census of Agriculture received from the U. S. Department of Commerce, livestock farming has proved most profitable type for Martin County in 1945. Products from 60 livestock farms have been valued at \$424,738. Cotton and grain sorghum farms hold second place, with 485 farms producing \$2,396,222 in farm products. The total value of products from 619 classified farms is listed at \$2,951,419 for 1946.

The search is on for Texas' top conservation homemakers of 1966, reminds Dr. Graham Hard, Texas A&M University Agricultural Extension clothing specialist and chairman for the state judging committee. A champion state conservation homemaker will be named — along with five regional winners — from among the outstanding district and regional candidates whose records are submitted to the state judging committee. Winner of the champion conservation homemaker title in Texas last year was Mrs. Kenneth Kuykendall of Cherokee, wife of a San Saba County rancher.

**Mr. Bell liked to make things better...**

After Alexander Graham Bell invented the telephone in 1876, he did not rest on his laurels. He helped form the National Geographic Society, developed the basic method of making phonograph records on wax discs and pioneered a method of locating icebergs by detecting echoes from them. He made suggestions and contributions that helped give us air conditioning and the iron lung. For 46 years after inventing the telephone, he lived a vigorous and creative life.

Southwestern Bell likes to make things better, too...

Six short years ago, we did not offer the Princess® telephone, Home Interphone, Wide Area Telephone Service, Centrex service, Data-Phone data communications service or Panel Phone. There was no electronic artificial larynx, no automatic dialer and no Speakerphone. Today, these new items help us provide the best telephone service in the world. But we want to make it better. That's our legacy from Mr. Bell.

- Don't order a big cube V8
- Don't order a floor-mounted shift
- Don't order special flat-cornering suspension
- Don't order sporty red-stripe tires
- All that's standard to begin with on a Chevelle SS396

**PERFORMANCE THE CHEVROLET WAY**

The standard engine in both the Chevelle SS convertible and hardtop is a 396-cubic-inch Turbo-Jet V8 with 325 hp. The standard transmission is a fully synchronized 3-speed with floor-mounted stick shift. (Yes, you can order a 4-speed or Powerglide, Strato-bucket front seats and console, too.) And the SS 396 chassis comes complete with

firm-riding, flat-cornering suspension and wide-base wheels with red-stripe nylon tires. Is this the kind of no-compromise road machine you're looking for? Drop into your dealer's and point an SS black grille toward an open stretch of highway. You'll find out — quick.

All kinds of cars, all in one place... at your Chevrolet dealer's Chevrolet • Chevelle • Chevy II • Corvair • Corvette

## National Heart Fund Drive Will Kick-Off In Houston

Eyes of the nation will be on Houston Sunday, January 30, when ceremonies inaugurating the 1966 Heart Fund campaign will be held at the Rice Hotel. The meeting will bring together leaders of the Texas Heart Association and prominent national figures in the Heart Program.

Leading the list of national dignitaries will be Dr. Helen B. Taussig, Baltimore, Maryland, American Heart Association president, who pioneered the "blue baby" operations; Dr. Paul Dudley White, Boston, Massachusetts, a founder of the American Heart Association and President Eisenhower's personal physician during the president's 1955 heart attack; and Owen R. Cheatham, New York City, Board chairman of Georgia-Pacific Corporation and national chairman of the Heart Fund drive to be conducted during February, American Heart Month.

A dinner on Saturday evening, January 29, honoring Mr. Cheatham will serve as a prelude to the national kick-off on Sunday afternoon. Mr. Cheatham's business interests bring him close to the economy of the Lone Star State. Georgia-Pacific Corporation, of which he is board chairman, has ten operations in the state, in Houston, Dallas, El Paso, Fort Worth, Lubbock, Midland, San Antonio and Quanah.

The public is invited to attend the kick-off ceremonies at the Rice Hotel beginning at 2 p.m. They will be able to inspect a heart-lung machine and other equipment used in heart surgery and research.

Speaking for the campaign will be Mr. Cheatham, representing the national drive, Lt. Gov. Preston R. Smith, Texas State Campaign Chairman, and George Bush, Chairman of the Houston campaign.

Dr. Taussig and Dr. White will participate in an open forum type of program immediately following the formal inauguration of the campaign, in which they will outline the progress made in diagnosis and treatment of diseases of the heart and blood vessels. It is possible they may also venture into prophecy about what the fruits of research may mean to the life span of man.

## 4-H Club Activities

The 4-H Friendship Club met Saturday morning at the home of Bob Johnson, when Bill Decker presented a program on leathercraft.

Ronny Johnson presided at the meeting, and Rosalyn Louder led the pledges. Reports on the county show were given by Malene Long, who reported on the sheep division; Leslie Butler, the steer division, and Willie Wells, swine division.

Theodore Wells was elected vice-president to replace Bart Johnson, who has moved away. Following a discussion on the demonstration for the spring contest, two new members were voted into the club, Mark Elland, and Mike Woodrow.

Rosalyn Louder led the games, and Willie Wells served hot chocolate and cookies to the following members: Leslie Butler, Ronny Johnson, Marlene Long, Rosalyn Louder, Theodore Wells, Willie Wells, Mark Elland, Mike Woodrow, and Mrs. Bob Johnson, leader.

## Laquana Jones Honored On Birthday

Miss Laquana Jones was honored on her seventh birthday, in the home of her parents, Mr. and Mrs. James Jones, 811 St. Mary Street, January 20.

Favors of whistles, comb and brush sets were given to those attending.

Cake and punch was served to Terry Wilson, Debbie Webb, Andera Underwood, Mary Lou Matteson, Twila Corder, Pan and Kerry Holcombe, Janie Mayfield, Jamie Polson, Wayne and Tommy Jones, and Mary Overby.

Buy at home and save!

## Mrs. T. W. Angel Honored On Her 88th Birthday

Mr. and Mrs. John Pinkston honored Mrs. Pinkston's mother, Mrs. T. W. Angel, Wednesday, January 19, on her 88th birthday anniversary.

Out of town guests attended were: Mrs. W. D. Thompson, sister of Mrs. Angel; Mrs. Bessie Suggs, niece of Mrs. Angel; Mrs. Mattie Hull, niece of Mrs. Angel, Mrs. Dorothy Hull, niece of Mrs. Angel, all from Big Spring; Mrs. C. L. Williams and Patty, gandraughters, of Midland.

Many local friends and relative sent gifts or came by for delicious refreshments. Among those attending from Stanton were: the J. E. Angels, Tom Ed Angels, Terrell Pinktons, Mr. and Mrs. Les Stripling, and Mrs. Harry Billington.

Since no guest book was on display many names are not available.

## Mary Stamps Circle Met In Jones Home

The Mary Stamps Circle of WMU met Monday, January 24, in the home of Mrs. Paul K. Jones.

Mrs. J. R. Sale presided and read a calendar of prayer. Mrs. Sale also prayed for the missionaries.

Mrs. Alice Stripling gave the devotional. Mrs. Paul Jones taught the first two chapters in the mission study book, "Panama, the Land Between."

Delicious refreshments were served to those attending: Mrs. B. F. White, Mrs. Alice Stripling, Mrs. H. R. Caffey, Mrs. J. R. Sale, Mrs. Eula Eubank, Mrs. T. Y. Allen, (mother of hostess), and hostess, Mrs. Jones.

The meeting was dismissed with a prayer by Mrs. B. F. White.

## Methodist Church Activities

The WSCS met at the First Methodist Church, Tuesday at 3:30 p.m., when Mrs. L. C. Hazelwood led the continuing study on the Book of Acts.

Taking part in the program were: Mrs. James Biggs, with "Why is Acts Called the Story of Changed Lives"; Mrs. Zona Smith, "What was the Significance of Peter's Meeting with Cornelius and the Following Church Conference"; Mrs. O. B. Bryan, "The Organization of the Early Church"; and Mrs. Dewey Williams, "Women in the Early Church."

Members present were: Mmes. L. C. Hazelwood, Martin Gibson, Zona Smith, Jess Burns, A. J. Stallings, Dewey Williams, James Biggs, O. B. Bryan, and Calvin Jones. Mrs. A. J. Stallings dismissed the meeting with prayer.

## Home Demonstration Club Activities

The Lakeview Home Demonstration Club met in the home of Mrs. Bill McIlvian, Jan. 20, for a program on the Youth Conference held in Austin.

Mrs. Claudine Madison, presided, and roll call was answered with "What Makes a Good Leader." Miss Cindy Britton of Stanton, presented an interesting program on her trip to the Attorney General's Youth Conference held in Austin. Following the program, Miss Britton and Mrs. Mildred Eiland answered questions about the district meeting held in Brownwood.

The club voted to send cookies to the Big Spring State Hospital in February, with each member making ten dozen cookies. The club accepted council recommendations, and Mrs. Jewel Tubb was elected club nominee for delegate to attend the district meeting in Odessa in March.

Refreshments of cake, punch, and coffee were served to seven members and three guests.

The next meeting will be held Feb. 3, in the home of Mrs. Curtis Flanagan, for a Valentine party and exchange of secret pal gifts.

The Courtney Morning Home Demonstration Club met in the home of Mrs. G. P. Harrell, Thursday, January

20. Mrs. Burnell Howard presided over the meeting. Roll call was answered by "What Makes a Good Leader."

Mrs. G. P. Harrell gave the council report. Mrs. Burnell Howard was nominated by the club to be a nominee for district delegate. Mrs. W. W. Atchison gave the program on "Citizenship," and then there was an open discussion on each member's idea of citizenship.

Members present were: Mmes. Burnell Howard, W. W. Atchison, Gene Atchison, Bobby Henson, Bobby Campbell, and the hostess, Mrs. G. P. Harrell.

The Courtney Community 4-H Club met in the home of Mr. and Mrs. Burnell Howard on January 19. Mrs. Norwood Hollaway was the leader for the boys, and Mrs. Burnell Howard led the girls.

The girls planned their cooking schedule for the year. Donnie Jones led the program on "Automotive."

The next business meeting will be February 9, in the home of Mrs. Albert Pitman. The next subject matter meeting will be February 9, in the home of Mr. and Mrs. Burnell Howard.

Those present were: Donnie Jones, Doris Howard, Rita

## Mrs. T. Wells Hostess To Garden Club

Mrs. W. T. Wells was hostess to the Stanton Garden Club January 25.

The president, Mrs. Harry Haislip, presided over the meeting, and members answered roll call with "What To Do In The Garden in March."

The program, "Care of Pansies," was given by Mrs. Guy Eiland.

Mrs. Arthur Wilson, decorations chairman, reported that the club will have charge of decorations for the annual Chamber of Commerce banquet again this year.

The Valentine theme was carried out in the arrangements, with Mrs. Owen Kelly presiding at the serving table.

Those present were: Mmes. Guy Eiland, Harry Haislip, Owen Kelly, Joe Stewart, Edmon Tom, E. W. Wheeler, J. A. Wilson, Arthur Wilson, and the hostess, Mrs. Wells.

The next meeting will be February 22 in the home of Mrs. John Pinkston. Mrs. Bill Draper of Big Spring, will give the program on "Flower Arrangements."

Jones, Daniel Howard, Carl Howard, Carl Holloway, Billie Bohanan, Gayland Pitman, G. P. Harrell, Jr., and Linda Posey.

## Our January Sale Has Been Extended!

Due to inclement weather conditions last week we are continuing our January Sale. As a matter-of-fact, we had a good business even in the snowy weather — but we want to continue these special bargains until they are all sold. We want the people to have ample opportunity to come in, look, and get their share of these rocking good values. We know these are the greatest quality bargains we have offered our friends and customers in the more than 30 years we have been in Stanton. You are invited to take home your part of these profit sharing items!

# J. A. WILSON DRY GOODS

# Cooperatives Continuing To Show Gains During '65

Cap Rock Electric Cooperative and its sister organizations experienced continued gain during 1965, although at a slightly lesser rate.

However, value of the system rose to \$7,563,100 at the end of the year, an increase of over \$400,000.

Weather had a big effect on demands for power, and showers during the growing season cut irrigation requirements. Consequently, the 95,671,190 KWH purchased was down by about nine million from the previous year. The gross revenue of \$1,536,749 was also down by \$99,000.

Cap Rock built 44 miles of line during 1965, and it had energized 2,500 miles at the end of the year. The program of "heavying" lines continued with 10 more miles converted from single to three phase.

The cooperative had 5,839 members at the close of the year, a gain of 181, and it could hit the 6,000 mark this year. The number of employees was unchanged at 36.

During the year average monthly domestic consumption gained by 10 KWH, but average commercial consumption dropped by 139 KWH.

One of the major sources of income is from the sale of power to irrigation wells. Last year 61 wells were added (50 less than the previous year), which brought the total irrigation wells connected to 1,329.

Cap Rock serves Midland, Howard, Borden, Dawson, Andrews, Ector, Upton, Reagan, Glasscock, Irion, Sterling and Tom Green counties.

Wes-Tex Telephone Cooperative, Inc. had a steady year. The 1,338 members at the end of 1965 represented a gain of two, and the miles of line held firm at 1,019. During the year, 207 phones were installed and 201 removed, a net

gain of six. The previous year there had been a net loss of seven. The number of extensions, however, gained by 19 in reaching 237.

The cooperative had a value of \$1,377,606 at the close of the year, up nearly \$20,000 for 1965. The year of 1965 was the 11th full year of operation for Wes-Tex Telephone, which operates in Howard, Martin, Glasscock, Borden, Reagan, Dawson and Midland counties.

Cap Rock Refrigeration Cooperative had a steady year also, slaughtering and processing 736 head of cattle, 284 hogs, 10 sheep and goats, 59 deer, 1,750 head of poultry. The total dressed weight of all meat processed during 1965 was 328,218. The refrigerative co-op had 475 members at the close of 1965.

## Cranes Get Safe Convoy From Sports

The comeback of the Whooping Crane has been marked by wholehearted cooperation of the sportsmen, according to a spokesman for the Aransas National Wildlife Refuge where the rare birds spend their winters.

Migration back and forth between here and the Canadian wilds nesting area 2,500 air miles northward has been particularly respected by the countless thousands of hunters during the fall wildlife harvest season.

The refuge reported to the Texas Parks and Wildlife Department, it cannot recall any recent case of a Whooper being shot down, even though some of the majestic birds have disappeared. Authorities believe they were the older cranes simply passing on to the Whooper happy habitat as a matter of normal attri-

## The Road Report . . . BY ARBA

"About one-half of fatal accidents are single-car accidents."

Faulty driving, emergencies and distractions are the main cause of single-car accidents involving women. Those involving men are usually the result of speed, drinking or drowsiness. The chances of being involved in a single-car accident are about 2 1/2 times greater if the driver is alone.

AMERICAN ROAD BUILDERS' ASSOCIATION

## Regents Approve LBJ School At UT

University of Texas regents unanimously approved plans Saturday for a school of public service on the campus in honor of President Johnson.

Chairman W. W. Heath of Austin said the Lyndon Baines Johnson School of Public Service would be the first in the Southwest and "should become the nation's outstanding school of its kind."

Mrs. Eugene Baugh has been a patient in a Lubbock hospital the past week.

Miss Nancy Robnett, student in Texas Tech, has been home for the mid-term holidays. She returned to Lubbock January 26 to resume studies.

Mrs. Wallace Kelly has accepted employment with the Tri-City Dr Pepper Bottling Company here. She was formerly associated with the Physicians Hospital.

The refuge spokesman attributed the hunters' cooperation to broad educational efforts, traceable in part to dramatizing the so-called Whooper Network, or the Whooper Club, created several years ago.

Thus the public interest, plus the increased number of professional wildlife observers, has combined to expand informational facilities about distinctive markings of the big white birds with the seven foot wing spread, the black wing tips, trailing legs and reddish head patch.

On the refuge itself, security is very tight for the 44 Whoopers. Guns are barred within one quarter-mile of the 47,261-acre refuge and refuge staffers maintain constant vigilance. They stress personal contact and emphasize visits with skippers and crews on inter-coastal canal tugs.

Filing a charge against an intruder is rare, indeed, the authorities report. They average one case a year, generally like the goose hunter who ignored signs forbidding retrieving of crippled geese, and now faces Federal prosecution.

## Sports Get Good Marks On Yuletide

The holiday season, usually the peak period for Texas Parks and Wildlife Department field men, was routine, according to headquarters reports.

The department said game warden responsibilities actually mounted during the period when public leisure multiplies, particularly when recipients of gift guns take to the open for the first time.

But discipline this year reportedly was at least normal and law infractions "no greater than usual."

"There is no cease fire for field personnel during the holidays," said a department spokesman. "Our wardens are on patrol, night and day, as usual and our wildlife and fisheries technicians maintain their regular observations."

The routine became grim in a few instances. Wardens helped in the futile search for three missing duck hunters on Sam Rayburn Reservoir near Lufkin. Others aided in searching for a fisherman reported missing on Lake LBJ. There was also a routine investigation of a field gun fatality involving teenage hunters near Irving. And there were the usual lost hunters needing a hand.

"Wardens would like to look the other way, because they have the spirit of Christmas just like everybody else," said the spokesman. "But if a violation against the wildlife code occurs, they are duty-bound just like any other law enforcement officer."

Vaccination — now a common preventive against many diseases — dates back to 1796, according to World Book Encyclopedia. Edward Jenner developed a vaccine against smallpox in that year, giving the first vaccination to an eight-year-old boy named James Phipps.

## Wardens Top 500 Tickets In One Month

Thirteen tickets concerning boating safety violations were among the 501 written by Texas game wardens during the last month.

In the main, the cases involved hunting and fishing infractions but the comparatively few boating incidents were considered significant because of the seasonably quiet water sports activities.

Game wardens have just broadened their operational sphere under a 1965 state law empowering them to help enforce the new water recreational code.

The boating tickets last month were mainly for lacking life preservers for each boat occupant.

The arrest report drops a hint or two to the gun-conscious trade about the extra care needed, now that the main seasons have ended.

Of the 501 cases listed, 98 were for hunting some species or another in closed season.

A Texas Parks and Wildlife Department spokesman suggested that those still with hunting to do had better consult the Texas Hunting and Fishing Guides, or contact local department personnel, preferably the game warden.

In the fishing violation registry, it was the same old story of no fishing licenses for an even 153 receiving tickets.

And there's a tip about how not to get "legal." That is, don't try to bring your old fishing license up to date. One person was tagged for trying that particular sleight of hand to save the \$2.15 fee.

## New Spring "Undercover" Fashions

Bright new ideas and colors mark the new undercover fashions for the young at heart, says Mrs. Lynn Parks Stiles, extension consumer education specialist at Texas A&M University.

Three new shapes have been designed especially for current fashions. All three are found in the liveliest prints and colors possible.

For the shortened skirts this spring, there is a new super short slip, measuring 18 inches long. It is layered in very sheer tricot and printed with bright spring flowers.

Hip-hugging skirts need hip-hugging slips, and a second new style in slips does just that. One model of the new low-slung slip is attached to its own pair of bikini underpants. This new slip is fashioned out of gay stripes and lace. Combined with its matching bra, it is a truly bright addition to any wardrobe.

A new version of the bra slip is called the combination slip. This one, chemise-length and empire-shaped, is embroidered white cotton.

Mrs. Elmer Mashburn has recovered from a recent spell of illness and is back at work at Friendly Food.

## Health And Safety Tips

From The American Medical Association

Bad eyesight plagues one out of every five children in the United States.

And one child in every 25 has hearing trouble.

Either of these difficulties could interfere with your child's success at school or with his social adjustment, says a new leaflet from the American Medical Association.

If you recognize the clues, defective vision is easy to spot. Your child may blink frequently, rub his eyes, squint, frown or balk at doing close work.

Hearing troubles, too, show up in habits. Your child may cock his head to one side, misunderstand or ignore instructions, speak to softly or too loudly, or act inattentive and restless — all because he cannot understand the sounds around him.

If you are concerned about your child's vision or hearing, check with your family physician. After an examination, he may refer you to a physician who specializes in vision or hearing problems.

An ophthalmologist is a physician who specializes in the diagnosis and treatment of eye disease. He may use drugs, prescribe glasses and perform eye surgery. An ophthalmologist can tell when failing eyesight is related just to the lens system of the eye and when it has been caused by injury, disease or possible poisoning.

An otologist is also a medical doctor. He is trained to detect the type and extent of hearing loss and to decide if medical or surgical treatment is needed. The otologist can determine by a variety of tests whether loss of hearing is due to nerve damage or to an interference with the transmission of sound waves to the hearing organ. He may find that a child who is hard of hearing can be helped by some-

ething as simple as removing wax from the ears. In more serious conditions, a hearing aid or one of several operations may be recommended by the otologist.

It is highly important to your child's growth and development to be constantly alert to signs of defective vision or hearing, and to seek medical attention promptly.

Specialist 4th Class Sherman McKaskle, son of Mr. and Mrs. Ezelle McKaskle, left Wednesday for Kitzingen, West Germany, where he is assigned to the medical corps of the U. S. Army.

Mr. and Mrs. J. C. Newland, David and Diane of Midland, visited with Mrs. Eula Eubanks Sunday.

Rev. W. H. Uhlman and J. C. Sale attended the Texas Baptist Convention Evangelistic Conference in Dallas Monday through Wednesday. Paul Harvey and Howard Butts, Jr., were the main speakers.

A Baptist Association Youth Rally will be held in Coahoma Saturday night, January 29. A group from Stanton will leave by bus at 7:15 p.m. for the meeting in Coahoma.

Mr. and Mrs. Truitt Holder visited with Miss Merle Sprawls in Cisco last week. They made hospital calls in Big Spring and visited with relatives there.

Bright new ideas and colors make the new undercover fashions for the young at heart, says Mrs. Lynn Stiles, Agricultural Extension consumer education specialist at Texas A&M University. Three new shapes have been designed especially for current fashions, and all are to be found in the liveliest prints and colors possible, she says.

## STOP! THINK!

IS YOUR DRINKING WATER SAFE?

More than half of all wells in use today are contaminated. The clearest-looking, best-tasting water may be unfit to drink. Even if your water supply is safe today, it may be contaminated tomorrow.

Because of this increasingly serious problem, more and more families are assuring themselves of a safe water supply with an Elanite UV Ultra Violet Water Purifier. Ultra Violet treatment is the modern, scientific way to provide pure water.

Elanite UV guarantees you complete protection from every source of water contamination... without heat... without chlorine... without changing the taste of the water... for less than pennies a day.

Elanite UV is specially designed for farms, homes and business use. There are no moving parts to wear out... no noise. It operates on standard house current and uses no more electricity than a 40 watt bulb. Installation is simple and fast.

Elanite UV is used by leading manufacturers and processors to prevent contamination of pharmaceuticals, toothpastes, soda, breads, meats and other products in every day use.

Now it is available for home use, too.

### FREE HOME DEMONSTRATION

Ask us to stop in to see you and show you our Elanite UV with Elanite. We will arrange a test in your home with our projecting microscope. No obligation.

# Inflation Fears Return

Those persons who keep up with the news of the day are conscious of the fact that inflation fears have returned to Washington. It's about time. Most prices are up, some sharply. The commodity price index is up 2.3 per cent over a year ago after many years of relative stability.

A brief item in National Review by a writer who signs himself CATO, observes that there seems to be little inclination in top government circles to stabilize the economy by stopping the multibillion dollar programs which are the root cause of inflation. So, he concludes, the intention is to blame " . . . every price increase and every jump in the cost of living index on business. Now and then, labor will be slapped across the wrist—but not too often."

If this turns out to be the case, one of the businesses which will be on the firing line is retailing. The reason for that is obvious—it is in the retail store that the consumer buys his merchandise, and it is in the retail store that he sees the price tags boosted. So the retailer is the easiest and most accessible of targets.

Yet—natural and even inevitable as this

situation may be—it is an example of a gross injustice. The retailer is a victim of inflation, not a cause of it. American mass merchandising is one of the most efficient and cost-conscious of all enterprises. It operates on almost unbelievably low profit margins. The food chains, for instance, commonly earn, as net profit, as little as a cent or a cent and a fraction on each dollar of sales. Other kinds of stores, whose problems are different, earn only three or four cents. Margins like these provide no room at all for absorbing price increases which are totally beyond the sellers' control.

Unbridled government spending, continued huge deficits, the cult of welfare-statism, and the countless federal give-away programs here and abroad, are among the chief forces that degrade the dollar and steal away its purchasing power.

Every citizen, looking nervously toward an uncertain future in which the prices of the things he must buy continue to rise, should understand that the root cause is not with the retailers but flows from faulty or improper government planning.

HAPPINESS IS—BEING ALIVE! Kent and Kristie Johnson, children of Mr. and Mrs. Ralph Johnson of Houston, chat with the 1966 Texas Heart Fund Chairman, Lt. Governor Preston R. Smith. Both children are happy, healthy and alive today because of corrective heart surgery made possible through research carried out by Heart Associations with funds voluntarily contributed by the people of Texas. Kent and Kristie represent the many quiet victories being won daily through research in the battle against America's 20th Century Health Epidemic—Diseases of the Heart and Blood Vessels. The annual Heart Fund Drive is held each February.

# LBJ Emits A Strange Speech

Dramatically the rear doors of the House swung open, and in bounced portly William M. Miller, the man known as "Fish Bait." In a voice redolent of his native Pascagoula, Miss., the House doorkeeper bawled: "Mr. Speaker, the President of the United States!"

Thus, with a blend of formality and cornpone, the familiar pageant began again. As required by the Constitution, Lyndon B. Johnson had come to report on the State of the Union.

Each year it seems something new is added. Wednesday night, January 19, for the first time a State of the Union message was televised in color, and more than 40 floodlights lit up the old chamber. Mrs. Johnson wore red, the wife of the vice president, Mrs. Hubert H. Humphrey, wore

blue. If you had to name a color for the speech you'd have to say it was a somber brown.

**Strange Speech**  
This was a strange speech Johnson made, for it was really two talks tacked on to each other.

He opened with a roadmap to the "Great Society," but this halted after six and a half pages with this notation: "(This is the end of the first section.)"

Then came the second half, on Viet Nam. As the President himself said in summing up the nation's prospects: "Over it all—wealth, promise, and expectation—lies our troubling awareness of American men at war."

Johnson was applauded 57 times in the 52 minutes he talked, but, as usual on these occasions, the cheering was often more mechanical than enthusiastic. As always, most members of the party out of power listened silently and glumly.

**Biggest Hand**  
The President was a perfect guest. His suggestion that

# Improvement Due In Postal Service

President Johnson approved Saturday a proposal by Postmaster General Lawrence F. O'Brien to restore six-day-a-week parcel post delivery service and to increase hours of window service in the nation's post offices.

The improved service will go into effect as soon as Congress provides the necessary funds. The cost was estimated by the White House at \$15 million a year.

In approving O'Brien's recommendation, Johnson told him he wants the postmaster general "to provide this country with the finest mail service it has ever known, while managing the Post Office Department efficiently and prudently."

Post Office window hours and parcel post delivery service were cut back as an economy measure in May 1964.

**6-Day Delivery**  
Under O'Brien's proposal, six-day-a-week parcel post

delivery would be restored in 6,091 cities with a population of 3,000 or more which have received such service on a five-day-a-week basis since the curtailment of service. In those cities, one day has been skipped each week except on routes where postmen made deliveries from motor vehicles instead of on foot.

Also under the proposal post office window service on Saturdays, and in some cases Sundays, would be authorized on an as needed basis in nearly 15,000 post offices. Late hour service, where needed, would be resumed on week nights.

### Saturday Service

Postmasters would be authorized to resume selling money orders on Saturdays as part of the window service restoration cities where money order sales have been curtailed.

Despite the added cost of \$15 million annually for the improved service, Joseph Kaitin, assistant White House press secretary, said O'Brien still planned to reduce the Post Office Department's deficit which is estimated at \$400 million for the current fiscal year. He said this would be done through improved efficiency.

## Baptist Hire Music Minister

In a called conference, last Wednesday night, the church called Brother Riley Albertson as Minister of Music and Youth. Riley is a senior at Howard Payne College. He will serve as part-time until the end of school. He will serve full-time for the summer.

Riley will return to part-time service next fall, as he will be returning to college to finish his last semester.

## Crane Harvest Extremely Low

West Texas sportsmen had approximately 200,000 sandhill cranes milling overhead all season long but bagged only 1,315 of the crafty birds, according to the Texas Parks and Wildlife Department.

The gawky but cunning cranes, labeled by sportsmen as Texas' trickiest game bird target, tormented stalkers by staying out of range during the 30-day season.

Crane concentrations as high as 60,000 birds were reported in many West Texas areas. Sportsmen harvested a little more than one-half of one per cent of the total sandhill crane population.

The 1964 combined bag was estimated at 1,260, slightly less than in 1965.

Trade at home and save!

### Former Lameson Indicted By Jury

Ben Mac Dopson, former owner of the Big B Aerial Applicators Co., of Lamesa, was indicted by a federal grand jury Friday for alleged income tax violation.

Dopson was accused of falsifying income tax returns for 1960, 1961, 1962 and 1963. The government claims he earned \$109,560 in four years.

# Drug Controls To Be Tighter

The federal government is expected to move next week to extend strict controls to another score of drugs, including some popular tranquilizers and some that induce hallucinations.

Under the 1965 Drug-Abuse Law, the Food and Drug Administration will begin applying new controls Feb. 1 on the amphetamines and barbiturates—known respectively as pep pills and sleeping pills.

**Other Stimulants**  
These drugs are named in the new act and, in addition, the FDA is authorized to place under control other stimulant and depressant drugs which the agency decides have a potential for abuse.

The FDA will do this by proposing the regulations next week. They will go into effect at some undesignated date after the industry and the pu-

lic have had an opportunity to comment on the proposed rules.

The proposed regulations will be based on recommendations of an advisory committee. This group met in December and considered several classes of drugs, including LSD-25 and other hallucinogenic agents, certain tranquilizers and other stimulant and depressant drugs.

**Illegal Sales**  
The FDA estimates that over nine billion barbiturate and amphetamine capsules and tablets are manufactured annually in this country and about half are sold illegally.

**Daily Double**  
In Sierra Leone, "the CARE" is the name children give to the daily school lunch the agency's Food Crusade provides for 82,500 pupils. One schoolgirl sent this note:

## School Menu

Menu for January 31 through February 4:

**Monday** — Barbecued welters, blackeyed peas, cole slaw, glazed carrots, rolled wheat rolls, butter, mil, brownies.

**Tuesday** — Meat and cheese pizza, cream peas, baked potato, prune cake, rolls, butter, milk.

**Wednesday** — Hot tamales, pinto beans, turnips and greens, fruit cobbler, corn bread, butter, milk.

**Thursday** — Turkey with dressing, giblet gravy, green beans, cranberry sauce, sweet potato pie, rolls, butter, milk.

**Friday** — Ranch burbers, pork and beans, tomatoes, pickles, relish, banana pudding, buns, milk.

"In our class, we thank all the kind people in America who send us CARE. Pray god to make them to meet up their needs double."

FORD 7-LITRE HARDTOP

When we go skiing, we go in style...in our '66 Ford. I choose the speed I want with the automatic speed control...select the music I want with the stereo tape player...and relax with one of the world's quietest rides.

(I should have stayed in the car.)

Ford sales are booming! One reason—engineering magic like this:

New stereo tape player option with easy-loading cartridges. ■ New station wagon Magic Doorgate—swings out like a door for people and down like a tailgate for cargo. ■ New automatic speed control option. ■ A ride so quiet that owners of European luxury cars—from a handcrafted Jaguar to a \$14,000 Mercedes—have said, after a demonstration ride in a Ford XL or LTD, that it was even quieter than their custom-built cars. ■ Quiet-test a '66 Ford for yourself.

By NEAL ESTES

**Y**OUR columnist was recently presented with an engraved watch from the directors of the PERMIAN BASIN PUBLISHING CO., for ten years of service. This week DR. L. L. MORRIS, pastor of the FIRST BAPTIST CHURCH in Midland, distinguished leader in Baptist convention activities and subscriber to this paper and to THE MIDLAND REPORTER-TELEGRAM, mailed us the clipping from the Midland paper and wrote this note: "Congratulations for ten years of outstanding service." I had rather have that personal message from a man of the spiritual strength of DR. MORRIS than any of the material things of this life. He is a forceful pastor—a dedicated man—and a long time ago the Midland preacher delivered the TYLER COURIER TIMES when our brother CARL, was directing the editorial destinies of that publication. DR. MORRIS is a crusader—a Christian crusader. We always liked to think that our brother was a crusader for a cause. He sparked many drives and campaigns while in Tyler. Perhaps, just perhaps, some of the editorial zestiness of our brother caught fire in the young newspaper carrier's heart. He sure does a good job in the pulpit these days. Just last Sunday morning he opened his sermon with this statement: "Are we rolling dice with destiny?" Then he skillfully, diligently, and patriotically reviewed the history of this nation in recent times with two world wars and two major depressions behind us. He was in the service. He knows what it's all about. He realizes the problems facing our country. He prays for our President. He abhors demonstrations, marches and the burning of draft cards. His often expressed love for his country parallels the love he holds for his fine family. DR. MORRIS needs to be heard by all people in the fifty states—he needs to be heard in as many lands and in as many places as modern technical communication systems will permit. Not because he wrote your country editor a short sentence of appreciation, but because he is man with a message. And his message is based on the only certain thing we must rely on to keep the freedom and democracy that has made our nation great—a belief in the power of The Creator.

**A** renewal arrived this week from MR. and MRS. J. W. WELLS would spend a few weeks with her daughter's family, MR. and MRS. FLOYD JONES. She requested that the paper follow her to Fort Worth while she was visiting out of town. We are delighted to know that MRS. WELLS thinks highly of the paper. FLOYD JONES, her son-in-law, is an old classmate of ours in school days in Commerce. He recently retired from a position with the U. S. Dept. of Agriculture in Ft. Worth after many years of loyal and valuable service. He is the son of former Hunt County Commissioner CURT JONES, and MRS. JONES. No finer people ever resided in North Texas or any other place, than the JONES family. Incidentally, we have found the same sterling reputation held by the Commerce JONES'S out here in West Texas with the JONES families we know. We ESTES' have a hard time keeping up with the JONES'S especially since SOL turned sour. However, I hasten to repeat, BILLY is a native Texan. My folks came in from the Old Country through Virginia and Kentucky. My ancestors didn't have bunks on the Mayflower but they washed up on a raft about thirty minutes later.

**T**HE editor had a nice letter from REV. J. R. MURDOCK, formerly of Stanton, and now living in Weatherford. He reported everything running smoothly with MRS. MURDOCK and the family and advised that Weatherford had also been "snowed under" during the past few days. We are happy to have the MURDOCKS with us in our ever-growing reader circle for another year. We send them our best personal regards.

**A** renewal arrived this week from MR. and MRS. W. O. CATON of Waco. The CATONS are parents of JUDGE RALPH CATON, former county attorney of Martin County. MRS. W. O. CATON was a long time resident of Stanton. This splendid Waco couple have been long time subscribers to the county newspaper and we are proud to have them on the mailing list.

**W**E surely appreciate the cooperation we have received from our out-of-town subscribers concerning the addition of their zip codes on renewals. The Postoffice Department is going to require the code and we are doing our dead-level best to run our newspaper within the postal rules and regulations. If including the zip code will move the mail faster—well—there's nothing any person should complain about. We want to acknowledge with appreciation the fact that the E. E. ALEXANDERS in El Paso put their zip code number on their renewal check and so did the W. C. GLAZENERS. The GLAZENERS now live in Sinton, Texas. On writing his check, the former Stanton instructor, included six cents for tax. The tax on circulation is off but we will keep the extra six cents and set MR. GLAZENER up a credit. Better still, when he next visits friends here in Stanton we will buy him a cup of GLENN BROWN coffee.

**W**E turned our good doggie LYNDON out to run in the snow for awhile during the seize of the spell and he liked the exercise so well he barked loudly when we tried to bring him back in the house. We didn't cotton to the idea of the beagle snapping at the hand who'd been feeding him, but we didn't really hold it against him when we rubbed him down Sunday night and shared our electric blanket with him for awhile. He is a very good dog, but he needs to start hunting instead of howling. I don't want him to jump into the "Great Society" stream so suddenly that he might drown. After all, man nor animal can swim in the snow and that's no snow job folks.

## Farm Bureau - -

(Continued from page 1) drive February 7 through February 12. The local organization had 347 members in 1965, has a goal of 385 members for 1966.

Directors in the local organization are: Owen Kelly, president; Billy Mims, vice president; Bruce Key, secretary; Cecil Gilmore, Floyd Martin, Oliver Boyce, Clarence Fryar, Sammy Yates, and J. M. Payne.

## TSTA Supports State Study Of Public Schools

Gov. John Connally's 15-member Public Schools Study Committee received support in editorial production of the Texas State Teachers Association.

The study promises "a new era" in public education, predicted the editorial in Texas Schools, quarterly newspapers of TSTA.

The study was authorized in the teacher pay raise bill, a compromise bill passed by the Legislature in 1965 in lieu of recommendation by the governor and the \$45 in '65 bill supported by TSTA.

The 3-year study will seek answers to problems affecting public school education in Texas.

The editorial observed that Connally's recognition of the need for improvements in public education is welcomed.

## Variety - - -

(Continued from page 1) those who worship at the FIRST BAPTIST CHURCH in Midland, Texas. God Bless America!

I read with a great deal of pleasure Tuesday where my good friend JOE GREENHILL will seek re-election to his second full term as an Associate Justice on the Texas Supreme Court. JUDGE GREENHILL is one of our most able jurists. He married the former MARTHA SHUFORD of Tyler. She was the daughter of PETE SHUFORD, one of Texas' greatest citizens and sister of HARRY SHUFORD who made football history at SMU as a sturdy fullback for the Mustangs. I have a few other good friends down there in Austin serving on the Supreme Court, including CLYDE SMITH of Woodville and our own ROBERT W. HAMILTON, one-time county attorney of Martin County.

A Big Spring youth, age 18, was killed in a one car accident over in Howard County Monday night. He was driving a 1966 model car. The investigating officers said The Big Spring Herald reported that the car was traveling an estimated 85 miles per hour in town when the accident happened. All that can be done now is for friends to sit up with the dead and send in condolences. But is that really all? Just a few days ago, we here in Stanton, were stunned and shocked with grief, when some of our young friends died as a result of a one car crash. Who wins the blame for these apparently useless death accidents? Maybe, friends, it is the "don't-give-a-damn" attitude of those among us charged with the responsibility of doing a better job in safety education. Personally, I intend to contribute all I can muster in the future to stop this futile sacrificing which brings only sorrow to survivors. In the meantime, try and obey the traffic laws of the land—slow down and live!

Stanton is steeped with stop signs. I used to ponder the sense of their installation. Now, after watching a local church member and so-called Christian crash right on through one and almost cause an accident because JAKE BRUTON was on patrol somewhere else in the city and unable to witness this senseless amuk running, I have definitely changed my mind. I don't want to lecture here. I have been guilty of the same offense that good woman committed Tuesday. All of us could have been killed. Ladies and gentlemen, let's slow down when JAKE ain't around!

It would appear the best way to wind up in trouble is to be named "Outstanding Citizen." The latest scandal in Texas financial circles comes from Blanket, Texas, where the bank closed down due to insolvency. It was headed by a man who was mayor of the town and who had been designated the outstanding citizen in 1965. He also headed up the bank at Bangs and at last report the picture indicated the Bangs bank may go boom unless the reorganization helps the climate some.

Mrs. Lila Flanagan and Mrs. Morris Zimmerman attended the apparel market in Lubbock last week. They also attended the market in Dallas this week. Mrs. Zimmerman is associated with a Lamesa retail shop and Mrs. Flanagan is the owner of the Sheila Shop in Stanton.

**NEWSMEN PICK A QUEEN**—Dale Evans, singer, songwriter, author, movie-radio-TV star and Queen of the Cowgirls, has been named Texan of the Year by the Texas Press Association. Announcement of her selection came from Don Coppedge, chairman of TPA's Texan of the Year Committee and publisher of the Waxahachie Daily Light. Uvalde-born Miss Evans is the wife of Roy Rogers, popularly known as King of the Cowboys. Rogers will accompany his wife to San Antonio where the newsmen will present the special award to Miss Evans during TPA's Mid-Winter Convention, Jan. 28-29. Winn Crossley, association president and publisher of the Madisonville Meteor, said this is the first time in the history of the state's largest newspaper organization that a woman has been selected as Texan of the Year.

## SOIL CONSERVATION DISTRICT NEWS

### OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT  
Jack Buchanan, Bob Cox, Bernad Houston, Larry Shaw, J. D. Crawford.

Alfred Floyd Anderson has just completed a system of parallel terraces on his place 5 1/2 miles northeast of Stanton. The system includes 8,105 ft. of terraces which were constructed from the lower side. All dirt was taken from between the terrace ridges with a carryall type tractor and placed in the terrace ridge. This method of building terraces provides for a more level interval between the terraces and should give a more efficient distribution of water between the terraces.

Parallel terraces are just one of many new developments which are now available to the modern day farmer, who is interested in soil and water conservation on his farm or ranch. They are designed for four and six row equipment, which is the rule than the exception in our modern day agriculture.

The Soil Conservation Service in Stanton, will be more than happy to discuss your terrace needs or help you with any other problem you might have on your farm or ranch that deals with soil and water conservation. Cost shares for installation of terraces and many other conservation practices can be obtained through the Great Plains Conservation Program.

## Library Lines

MRS. RALPH CAFFEY, Librarian

Library hours: Monday 1 - 8 p.m.; Tuesday, Wednesday, Thursday, 1 - 5 p.m.; Saturday 10 a.m. - 3 p.m.

When you get past the fundamental concern over health and financial resources, probably the greatest question encountered by older people as they prepare to retire is what are they going to do with all the new-found free time. The desire and problem of utilizing leisure time to maintain an active and useful life provides a continuing challenge to senior citizens.

Every person has his own way of employing his free time. Some may watch television, others may be content to be spectators at athletic events or to participate in them or other recreational pursuits.

There are some who prefer to read, pursue some hobby, or just do some work around the house.

The answer to the question is not to determine what the young and old should do with the additional leisure time, but to find the ways and means to encourage all to use it for their own improvement as well as to promote active and healthful living and thus prevent the slowing and rust-

## Sewing Club Meets With Mrs. C. Ebbersol

The Stitch and Chatter Club met at the home of Mrs. Charles Ebbersol, 309 St. Charles, Street, Wednesday, Jan. 12.

The afternoon was spent doing hand work and visiting. Cake and coffee were served to the following members: Mrs. B. F. Smith, Mrs. John Poe, Mrs. Eddie Bulter, Mrs. Hattie Estes, Mrs. Clayton Burnam, Mrs. T. Y. Allen, Mrs. A. J. Stallings, Mrs. Bess Herring, Mrs. J. A. Wilson, Mrs. Martin Gibson, Mrs. Grady Cross, and the hostess, Mrs. Ebbersol.

The next meeting will be at the home of Mrs. Hattie Estes, 1112 N. St. Joseph, on January 26.

## FTA Members Attend State Convention

The Future Teachers of America have selected members to attend the state convention in Austin on February 25 and 26. This group is sponsored by Miss Molly Miller, and will go by chartered bus with the students of Midland High school.

Those going are: Larry Haggard, Cathy Workman, Beth Biggs, Bill Decker, Linda Franklin, Butch Robnett, Cindy Pickett, Sue Walker, Johnny Louder, and Frances Davenport.

## OES Unit Attends Midland School

Members of the Stanton Order of Eastern Star that attended the "Tall City School of Instruction" held in Midland Thursday night at the Masonic Temple were Mr. and Mrs. Prentiss Hightower, Mr. and Mrs. Ross Hay, Mrs. Jess Angel, Mrs. Roy Pickett, Mrs. J. N. Woody, Jr., and Georgia Welch.

## Walter Graves Back From Trip

Mr. and Mrs. Walter Graves have returned from Stephenville where they visited Mrs. Graves' sister, Mrs. Albert Baugh, who has been ill for the past seven weeks.

Mrs. Fannie Graves was a recent visitor in El Paso where her grandson, David Graves, son of Mr. and Mrs. J. D. Graves, was a hospital patient.

## Hospital News

Physicians Hospital And Clinic

Patients admitted to hospital the week of January 17 to January 24:  
Simon Solis, L. D. Ringener, Mrs. Kelly, and Jimmy Leonard, all of Stanton; Albert Teague, and Lynda Webster and baby, of Midland.

## Tax Man Sam Sez:

Internal Revenue will match your 1965 income tax return with your Social Security records by the automatic data processing before a refund is made. You must get your name and Social Security number right or there will be a delay in issuing your refund. Get that Social Security card out and make sure that your name and Social Security number will match up when the machine gets "ah-old" of it.

Autrey Holder of Seminole, visited friends and relatives in Stanton the past week. He also visited relatives in Big Spring.

The common cold may be one of a number of distinct infections of the respiratory tract, according to World Book Encyclopedia. Although scientist have developed several anti-cold vaccines, none has proved effective against all types of colds.

## Deer Kill Looms Big All Over

Definite indications of apparent heavy deer harvest throughout the state have just reached the Texas Parks and Wildlife Department in reports of a near record mule deer kill west of the Pecos and of a good overall bag in the Panhandle.

A department spokesman said field reports consistently reflect a fine deer harvest throughout the main big game ranges.

Figures on the state at large will be available shortly, according to the department.

Wildlife biologists had hoped for a substantial kill to relieve the pressure on overstocked ranges and to avoid a possible winter dieoff.

The actual count on the Trans-Pecos take show a total of 9,725 deer bagged, running about 90 per cent mule deer. The season there was November 27 through December 12.

In the Panhandle regulatory district, an estimated 499 deer were bagged along with 10, 84 wild turkeys. The season was from November 13 through November 29. The principal big game habitat there is in the narrow Panhandle stream bottoms and in the Palo Duro Canyon.

Mule deer killed in Oldham County near the New Mexico line equaled the whitetail kill in Hemphill County with 94 mule deer and 93 whitetails being harvested in each of the two areas.

Statewide, it appeared to wildlife biologists the overall deer harvest might reach a desired kill on the basis of the estimated number of deer in Texas.

Mr. and Mrs. Hansel Bryson of Midland, visited in the John Pinkston home Sunday. Mrs. Bryson will be remembered as the former Ola Angel, sister of Mrs. Mrs. Pinkston, and daughter of Mrs. T. W. Angel.

Mrs. L. E. Burnstedt of Riverside, California, visited her parents, Mr. and Mrs. Claud Houston, and brothers, Sammy and Billy, the past week. She was the former Merle Houston.

Dr. and Mrs. Charles Schroeder of Monahans, visited with Mr. and Mrs. Martin Gibson this past week. Mrs. Schroeder is the former Rose Elchen Gibson.

Mr. and Mrs. J. J. Holder, former residents of Stanton, are both reported on the sick list. Mr. Holder has been ill at the home of his son and daughter in Irving and Mrs. Holder is a patient in All Saints Hospital in Ft. Worth.

## Stantonites - - -

(Continued from page 1) Debby Dennis had 24 points for Gail and Sandra Nichols 16 for Sands. Forsan over Union for first place in consolation, 28-23. Klondike over Dawson for third place in consolation, 26-25.

## Newcomer - - -

(Continued from page 1) and Brown communities until 1960. In 1955 he took the position of manager of the Paymaster Gin at Brown, and managed it until June of 1957, at which time he was hired to manage the Farmers Cooperative Gin at Ackerly. He resigned this position in the fall of 1959 and purchased the Bristow Butane Co. in Ackerly, and since that time has devoted his time to operating it.

Mr. Newcomer states that he believes the office of county commissioner should be run in a business like manner and upon sound business practices, as the commissioner's court has the responsibility of taking care of the county's business. He also believes a county commissioner is responsible for the way the county roads are maintained and should periodically inspect the roads and see that they are maintained in the best possible condition. This is the first time that I have ever entered a political campaign and the only record I have to run on is my ability as a businessman and my reputation in the communities in which I live. I will attempt to contact as many qualified voters as possible and discuss any problem you might have in the precinct. Let me encourage you to pay your poll tax before January 31, 1966, so that you will be able to express yourself in the May 7, 1966 primary.
