

Official Memorandum

By
JOHN CONNALLY
Governor of Texas

AUSTIN, TEXAS

GREETINGS:

The need for efficient vision for every individual citizen is of vital significance to the general welfare and economy of this state and each of its communities.

The need to conserve and protect the irreplaceable gift of vision contributes to the well-being and happiness of citizens in every occupation, in the home, and in the pursuit of education, cultural and recreational activities.

The dedication of the profession of optometry, its schools and colleges, and of the individual doctors of optometry in this state in providing vision care and research and in undertaking continuing public education programs in behalf of the visual welfare of the public contributes greatly to more accurate, more efficient and more comfortable vision of our citizenry.

The Congress of the United States has designated the first full week of March as National Save Your Vision Week.

THEREFORE, I, as Governor of Texas, do hereby designate the week of March 6-12, 1966, as

SAVE YOUR VISION WEEK

and urge all citizens to join with the Texas Optometric Association in observance of this period with appropriate informative activities to stress the value of good vision and its relationship to the progress, safety and enjoyment of our society.

In official recognition whereof, I hereby affix my signature this 1st day of March, 1966.

(SEAL) **JOHN CONNALLY**
Governor of Texas

Mr. and Mrs. L. C. Stovall had the following visitors in their home Friday, Mrs. Mildred Currie, Midland; Mrs. Reba Gross and children, Karen, Sandra, and Larry of Sand Springs; Marshall Williams of Coahoma, and Audrey Halbert of Big Spring.

Mr. and Mrs. C. F. Brumley of Odessa, visited Mr. and Mrs. L. C. Stovall Saturday.

Mr. and Mrs. Bob Cox and children visited in the home of her brother, Mr. and Mrs. Jerry Hall in Austin, over the week end.

Social Calendar

- LIONS CLUB — Each Tuesday at noon.
- ROTARY CLUB — Each Wednesday at noon.
- ORDER OF EASTERN STAR — First Tuesday night of each month.

FARM REVIEW AND FORECAST

THE STANTON REPORTER, THURSDAY, MAR. 10, 1966—7

B. F. Yeates, a former employee of the Texas Agricultural Extension Service, on March 1 returned to the service as animal husbandman-horse.

Extension Director John E. Hutchison said Yeates succeeds Dr. Dale Burnett who resigned on December 31 to join the American Quarter Horse Association as director of their youth activities.

Currently, the director said, the horse project is one of the fastest growing programs among the state's 4-H Club members and is increasing in interest among adult horse breeders and fanciers. In his new position, Yeates will give overall leadership to the service's educational programs in horse production and related fields, the director said.

Landowners in Texas leased their land to hunters for cording to a state summary released by Wallace Klusmann, extension wildlife conservation specialist at Texas A&M University.

The report, compiled by over \$13 million in 1965, as Klusmann form information

4-H Club Activities

The Grady Community 4-H Club met February 28, in the home of Mrs. Leroy Mattingly.

Mildred Elland, county agent, presented a very interesting program on "Safety in the Home."

Members attending were: Brenda Holloway, Charlotte Martin, Deborah Holloway, Rita Pribyla, Nancy Pribyla, Rickey Mims, Jody Yates, David Pribyla, Sandra Chandler, Lova Stewart, Darlyn Jo Stewart, David Chandler, Randy Mattingly, Jerry Holloway, and Rosalind Welch.

Parents attending were: Mrs. Glenn Holloway, Mrs. Sammy Yates, and Mr. and Mrs. Mattingly.

The next meeting will be held March 7 in the home of Mrs. W. O. Chandler.

supplied by county agents, said approximately 21,000 landowners leased 33 million acres for all types of hunting in '65. The income from hunting leases was up \$1 million from 1964.

Over sixteen thousand of the leases were for deer hunting. The state average charge for annual leases for deer hunting was 46 cents an acre. In the Edwards Plateau area, average charge was 80 cents an acre.

For day leases, the state average return was \$1.10 per acre. Klusmann points out the day method of leasing is not necessarily more profitable, since increased labor and other costs are involved.

Soybeans are rapidly becoming an important cash crop in Texas.

Last year some 80,000 acres of soybeans were harvested in Texas, says R. J. Mears, extension agronomist at Texas A&M University. Production was estimated at 2.3 million bushels; up 30 percent from 1964. The average yield per acre in Texas is 28 bushels, one of the higher in the U.

High School Menu

Menu for the week of March 14 through March 18:

Monday — Roast beef and gravy, creamed potatoes, combination salad, spice prune cake, hot rolls, butter, milk.

Tuesday — Meat and potato burgers, blackeyed peas, carrot salad with raisins, hot biscuits, butter, milk, brownies.

Wednesday — Bean chaulupes, taco sauce, candied sweet potatoes, turnip greens, fruit cobbler, corn bread, butter, milk.

Thursday — Hot dogs, pork and beans, potato chips, relish, milk, cookies, and orange juice.

Friday — Topsy turvy tuna, corn bread, glazed carrots, English peas, fruit jello, hot rolls, butter, milk.

S. Production of soybeans in Texas was formerly centered in the South Plains, according to Mears. But today the acreage is rapidly expanding to other parts of the state, he said.

Farmers and ranchers who haven't yet purchased fertilizer for spring crops and pastures still have time to get the soil tested.

C. D. Welch, extension soil chemist and in charge of Texas A&M University's Soil

Testing Lab, reports tests results are now being mailed in about seven days after the soil samples are received.

"We are up-to-date, he said, hence, the faster than usual service."

Wet soils have delayed soil sampling in some areas of the state, but this condition also makes the outlook favorable for the production of crops this spring and summer. Adequate moisture, points out the chemist, improves the prospects for fertilizer use; however, the right amount and

SAYS DEAN THOMAS OF TECH

College Ag Grads In Big Demand

Only one of every 10 college agricultural graduates returns to the farm, according to Dr. Gerald W. Thomas, dean of agriculture at Texas Tech.

The other nine, he said, are quickly grabbed up for an ever-increasing number of white-collar jobs in the business and scientific aspects of farming.

"In America, there are two jobs available for every graduate, and we're falling behind in meeting the demand," said Thomas, current president of the Texas Agricultural Workers Association.

Thomas pointed out that 30 to 40 per cent of the U. S. labor force is employed in the broad agricultural field.

"There are more college graduates on farms in West Texas than most major agricultural areas, but today's student can't necessarily expect to stay in the area in which he was raised," he said.

International Aspect

Thomas, who has served as a consultant with the U. S. Department of Agriculture, said the agricultural businessman often "is a world traveler and will become increasingly so as underdeveloped areas expand their food production to meet the needs of the growing population.

"Thus we're training students not just for West Texas,

the state or the nation," he said, "but for international agriculture."

He pointed to the expanding world population as a reason for the greater need for men trained in utilizing national resources. The extensive research program in Tech's Agriculture School is designed with this goal in mind.

"We think we can do three things to facilitate international agriculture development — train the foreign student, train American students for foreign service and work with foreign institutions," said Thomas, a member of the American Association for the Advancement of Science and often a consultant in overseas agriculture studies and research.

Helped Market Grain
Part of Tech's contribution has been to supply faculty members for consultation projects in 19 countries throughout the world since Thomas became dean in 1958.

He was part of a team that helped market the first U.S. grain sorghum to Greece. Dr. J. Wayland Bennett, associate dean of agriculture, was appointed by Gov. John Connally to a team to study the European Common Market.

The School also has won national recognition for the development of all-concentrate feeding in research dir-

combination of plant foods should be used for best results.

Welch says the amount of water in a soil sample does not affect the soil test results. All samples are dried before the tests are run. The important factor to consider, he says, is the effects of the wet fields on collecting a representative sample. Samples should not be collected if the soil is too wet to prevent the taking of a representative sample.

HD Club Activities

The Courtney Home Demonstration Club met March 3, in the home of Mrs. Owen Kelly with eight members and seven visitors present.

A demonstration was given by Mr. Childres from Midland, on the dressing and grooming of hair, after which the regular business meeting was held.

Members present were: Mrs. Albert Pitman, Mrs. Joe Stewart, Mrs. W. E. Kelly, Mrs. Claude Davis, Mrs. Wayne Stroud, Mrs. Chalmers Wren, Mrs. Lillie Graham, and the hostess, Mrs. Owen Kelly.

Visitors were: Mrs. John Roueche, Mrs. W. T. Wells, Mrs. Bill Hull, Mrs. Eugene Atchison, Mrs. Melva Cross, Mrs. Homer Lee Hull, and Mrs. Bobby Kelly.

The next meeting will be held at the Cap Rock Electric auditorium, with "Driver's Education Course," as the program.

Beta Sigma Phi Activities

Preceptor Mu chapter met in the home of Mrs. Glenn Brown, Thursday night, March 3rd.

Mrs. Glenn Brown, president, presided over the business meeting. The chapter presented the local hospital a check for 24 individual coffee servers for the patient's trays.

Plans were discussed for the Refreshers Course to be held at the next regular meeting.

Mrs. John Wood, program chairman, introduced the program, "What Makes a Community Vital and Alert," presented by Mrs. Louis Ruten.

The serving table was decorated in a St. Patrick's theme. Mrs. Brown, the hostess, served refreshments to the following members: Mrs. P. M. Bristol, Mrs. Glenn Gates, Miss Sammie Laws, Mrs. Bob Latimer, Mrs. Elmer Long, Mrs. T. R. Louder, Mrs. Stanley Reid, Mrs. Louis Ruten, Mrs. John Roueche, Mrs. John Wood, and Mrs. J. N. Woody, Jr.

M. McKaskles Had Birthday Party Sunday

The M. McKaskles had a birthday party of a daughter-in-law, his 88 year old dad, J. B. McKaskle, and a niece Sunday.

There were 24 guests for dinner and supper including an aunt, Mrs. Myrtle Head, From Darnell, Louisiana.
