## The Launching Pad

By NEAL ESTES

BEDONTER THE MIDLAND REPORTER-TELEGRAM on Wednesday, May 4. Originality, background knowledge, and only a well schooled and informed man could have put the banner up on page one which is destined to catch on throughout the nation. The streamer read: "MA WALLACE WINS IN ALABAMA." We refer, of course, to the first use of the word MA. We had MA FERGUSON in Texas once and now we have a MA WALLACE in Alabama. May all the mothers join the fathers in attempting to restore some sanity to the government. Incidentally, all of the good colored people in Alabama didn't vote against MRS. WALLACE. A goodly number cast ballots for her. The truth still holds that any man, regardless of the color of his skin, admires another who is patriotic to his principles. I have many Negro friends who think a lot more of me than they do of that class of folk they refer to in private as "white trash."

WE saw JUDGE RALPH CATON in Big Spring Sunday and it was our privilege to congratulate him on being re-elected to the 118th Judicial bench without opposition. He has made a fine judge and all of us here in Martin County are proud of him, his wife, MARY, and their lovely children.

T is nice to know that recent editorials in this newspaper advocating recreational facilities for our young people have been well received. We have found renewed interest from some of the natives and nearly all of the people who have moved to Stanton in the past ten years are now ready to back a program to give our boys and girls their due recognition in the parade of community progress. Any civic program that leaves the youth element out entirely is doomed to die here in the future. Obviously, all of our fine clubs most adopt imemdiately programs to help with the ultimate goal of providing at least average recreational facilities here. As important as the water proposition might be, it cannot hold a candle to what the young folk mean to this place tomorrow.

DELEGATION goes to Austion Thursday to A appear before the State Aviation Commission. The local people will submit the city's case for an airport. The state could authorize a sizeable grant. We wish our representatives every good wish on their trip to Austin.

OUR friend, MR. GLENDENNING was slightly confused up until Tuesday of this week concerning the place where he lived. He met us on the street and asked: "Is this SNELSON country?" It could have been SNELSON country very easily but it turned out to be HARDEMAN country after PETE lost his race for the State Senate by 60 votes. By-the-way, PETE credits a pretty well known West Texan, formerly of East Texas of bringing about his defeat. We will have more on this angle of the election in the near future.

WE attempted to view the special about PRESI-DENT JOHNSON'S country the other evening but the video was blacked out. The dialogue was there and LYNDON choked up a little when he told why he loved the land there in his hill country home. We don't blame him for wanting to spend as much time in Texas as possible. That mess in Washington is enough to drive a man mad. And if the recent figures are right on who really live in Washington, D. C., then we imagine the scents on the ranch are a far cry over the stifled, skunny air prevailing in the nation's capital.

## Tips For Outdoorsmen

BURY FAULTY SHELLS-Anytime a rifle cartridge or shotgun shell fails to fire immediately remove it from your gun and bury it deep in the ground.

Sometimes these mis-fires will explode if hit or exposed to unusual heat. Never toss a mis-fire round into the brush for it could strike just right on a rock and explode.

SMOKE ODOR SPOOKS DEER-Alcohol and gun-powder don't mix. So if you hunt, don't drink or smoke.

Remember the wind can carry the cigarette, cigar or pipe smoke odor to the deer and spook that big buck before he steps into the clearing.

If the barometric pressure is low, the smoke will cling close to the ground and the odor will carry a long distance.

HANDWARMER WARNING-Careful where you keep that handwarmer. Never slip it into a pocket in which there is live ammunition.

And don't drop it into the inside pocket of plastic waders. Those warmers can get very hot and will cause plastic

TIRE PUMP PROVIDE OXYGEN-If your fishing trip takes you far from home and you want to carry live minnows with you, here's how to keep 'em alive for the duration.

Take along an ordinary tire pump. About every 30 minutes pump a few strokes into the bait bucket. This added oxygen will keep the minnows lively.

FINGERNAIL POLISH PROTCTS MATCHES - It's a sad camper who learns the hard why that wet matches won't

light. Here's one way to waterproof 'em. Dip the match head in clear fingernail polish. Polish not only sheds water but burns readily.

PEBBLE KEEPS MOUTH MOIST - If you're hiking with a dry canteen, here's a tip that will help you last until the

Put a small stone or button in your mouth and you'll find you won't be quite so dry.

COMBINATION BAIT-To jazz up a topwater lure that fish ignore, try adding a leader about six inches long to the back book. Then add a single book and minnow.

Often the first will strike the minnow when they'll ignore

#### No Rifles

U. S. Rep. Silvio O. Conte, says he is going to demand healthy, relaxing sport that an explanation from Defense Secretary Robert S. McNamara regarding a letter from a Marine in Viet Nam who wrote that his group ran out of rifles while fighting the Viet Cong. Conte's office identified tthe Marine who wrote the letter. The Marine wrote: "Mom, we ran out of rifles yesterday and don't have any. What a hell of a predicament to be in.'

#### Reel Plate

Clean your reel next to an absorbent paper plate. Plate blots up excess oil and keeps parts from becoming lost.

Stump Removal If you live in porcupine country, the way to get rid of a stump is to pour a bag full of rock salt over it. Wet down well. Porkers will gnaw wood to get the salt. Repeated applications will wear the stump away.

SOUTHWESTERN LIFE INSURANCE COMPANY

1966 CROP HAIL PROGRAM

ONLY through Ranger can you get the most competitive, well rounded crop hail program at the lowest rates in the state of Texas. In addition to rate reductions up to 15% on the standard forms, the fallowing low cost features are available ONLY through the Ranger Insurance

#### RANGER INTRODUCES TWO NEW POLICIES

The RANGER ECONOMY FORM has been developed by Ranger to reduce your insurance costs and still provide protection during the critical stages of growth when the plant is most susceptible to hail damage. This form will save you money because you pay for only the insurance you actually need.

The COTTON PROGRAM COMPANION COYERAGE policy has been designed by Ranger which truly is a companion to the 1966 cotton program. Coverage begins where the cotton program ends. By combining this coverage with the cotton program you will have comelete protection at a very low cost. Cotton programs change year to year so your crop hail insurance needs change.

Your Ranger Agent will be happy to explain these NEW policies.

In addition to the two new policies Ranger continues to offer the following programs

1. \* RANGER STAR STEPLADDER \* is again offered and is becoming very popular. 2: FULL COVERAGE POLICY-100% in force

3. STANDARD POLICY FORMS at rate reduct
