STANTON, MARTIN COUNTY TEXAS (79782), THURSDAY, AUGUST 18, 1966

8 Pages—Price 10c

## VARIETY

By NEAL ESTES

Beatle JOHN LENNON has apologized for a widely publicized remark that "the Beatles are more popular than JESUS." He said: "I'm sorry I said it, really, I never meant it as a lousy, anti-religious thing." He continued: "I was sort of deploring the attitude toward Christianity." Your writer is willing to accept the apology of LENNON along with millions of other people. He has reaffirmed his stand for a Supreme Being and after all, if we don't believe in the power of forgiveness, then we are lacking in understanding.

The cooling rain last Thursday morning refreshed both the soil and a lot of dispositions. Moisture drove the heat away and helped the crops. That's a pretty nice formula.

We are very proud of some of our local teenagers. MIKE SPRINGER was in our office one day recently and we learned about a very pleasant and constructive trip he made this summer. The story appears in this issue. We also have learned of trips made by BRENDA DYSON, GARY REID, GUY BROWN, BUDDY SHANKS, GENE WHEELER, CINDY BRITTON, to various places and meetings this summer. Some of the stories have been published, some are in this issue and some will be forthcoming. We are particularly interested in interviewing BUDDY SHANKS. He has had a marvelous vacation period and returns to Stanton High as a senior in the fall.

GEORGE WALKER is the new Stanton High band director and we have heard some nice things about him. He comes to our faculty with a fine group of recommendations and his record certainly sounds impressive. Let's all get behind the band! There is nothing on earth in a community the size of ours that is more thrilling than watching a high-stepping, precision marching, musically talented bunch of youngsters parade by in their colorful uniforms. Good luck to you DIRECTOR WALKER and we hope you can find the recruits you need and are so anxious to enroll in the band program.

We are pleased to have the school calendar from Flower Grove in this issue and also a fine report of pre-school activities from Grady. We wish to thank all Martin County school leaders for their very fine cooperation in helping us give our readers the complete schedules of proposed scholastic activity in the year coming up.

If you are planning on entering business in Martin County don't leave your public announcement behind the door or under a tub. Come by, telephone, or send for an advertising representative and be assured of opening your investment up in style. The day of the town crier is past. Our prize-winning, modern newspaper is here to serve you and it is our studied opinion that the merchants need the paper as badly as the paper needs the merchants.

It won't be long until football season will be in full swing over the county. We would like to have an arrangement this fall with the coaches like we used to enjoy. When BOWDEN COOK was with us, he used to come by our newspaper office on Saturday morning following the game and give us a "coaches point of view." In that way, we had the benefit of expert advice, right from the bench about the Friday games, and we were able to accurately report the plays of the game. Sometimes the key plays in a football

## New County Agent Reports For Duty

### Lamesa Chief Dies Tuesday In Temple

Morris Zimmerman, about 70, Chief of Police for the past several years in Lamesa, died in a Temple hospital Tuesday evening at 7:15 p.m.

Zimmerman was a former Martin County sheriff and well known in West Texas. Funeral services were not complete at press time but an announcement was given the press stating that the funeral would be conducted at the First Baptist Church in Lamesa, probably Thursday afternoon with interment following in the Evergreen Cemetery in Stanton.

Chief Zimmerman is survived by his wife, the former Johnnie Laws; a son Hardin Zimmerman of Lamesa, and two daughters, Mrs. Bob Stockstill and Mrs. Houston Brannon of Monahan. He is also survived by several grandchildren and one brother, Jim Zimmerman of Stanton.

### Wasted Money

Circulars in the postoffice wastebasket tell everybody that the buyer of said gimmicks that they are not worth the paper they are printed on.

Sunday was no exception in Stanton. The dodgers addressed to "Postal Patron Local" found their way into file throw-a-way, as usual.

The circular booklets were placed in the mail by an out-of-town firm. They generally come from out-of-town—these mailing pieces — because the local newspaper respects the support, business, and confidence of the local merchants to the extent we don't seek out-of-town competitive advertising.

### 218 Texans Killed In Viet Nam

Two hundred and eighteen Texans have died to date in the Viet Nam war.

The official figure was released this week by the Texas Adjutant General's office in Austin following an unofficial estimate of "well over 100" established by The Midland Reporter-Telegram in a statewide survey made last week.

Inquiries by the newspaper to the Pentagon in Washington and the adjutant general found that the two normally do not tabulate casualties by states.

However, the adjutant general's office went through all official Defense Department casualty lists to determine the figure.

### Lenorah Youth Attended Farm Bureau Meeting

Michael J. Springer, son of Mr. and Mrs. Grover Springer of Lenorah, represented the Martin County Farm Bureau at the fourth annual Texas Farm Bureau Citizenship Seminar held in Waco on Aug. 9-13.

Purpose of the four day school was to acquaint the high school student with the American system and way of life. Emphasis was placed on the economic, moral and social aspects of the American society.

Speaking to the more than 350 attending were: Dr. Clifton L. Ganus, Jr., president and head of the Department of History and Social Sciences of Harding College at Searcy, Arkansas; W. Cleon Skousen, former FBI agent and chief of police of Salt Lake City; Dr. C. L. Kay, vice president, public affairs, Lubbock Christian College, and Herbert A. Philbrick, noted author, lecturer and former co-tutor for the FBI.

### Methodist Pastor Talks To Lions Club

The Stanton Lions Club met Tuesday noon at Belvue Restaurant, Lion John Wood presiding.

Lion Allen Fisher, in his report on the sight conservation program of the club, brought the membership into to quick focus on the recent developments within this program.

Lion Allen Fisher, program chairman for August, introduced Rev. Richard Payne, who gave an inspiring talk on man's self-evaluation. Using as his subject, "The Prodigal Son," Rev. Payne revealed that to know how to humble oneself is the principal step toward glory, peace and fulfillment of purpose.

### Editor's Mail

### Rotarians Hear Band Director

The Stanton Rotary Club met at noon Wednesday at Motel Belvue Restaurant and heard George Walker, the new High School band director address the organization on "Building the Band."

ADMINISTRATOR DEPARTING: Dr. J. M. Shy is shown above presenting a plaque of appreciation to Zella Graves, who is leaving her post here as administrator of Physicians and Surgeons Hospital to join her husband, John Graves, who is presently employed with the Soil Conservation Service and living in Lamesa. Mr. and Mrs. Graves have three children who will enter the Lamesa schools this year. Mrs. Graves plaque inscription read: "Presented to: Zella Graves, for meritorious and unselfish service in the organization and development of Physicians Hospital and Clinic, giving it recognition and registration." The plaque was signed, The Staff.

### Glasscock County Draws 3 Pay Openers From Wolfcamp

By JAMES C. WATSON  
Glasscock County has drawn three pay openers — one each from the Wolfcamp, Strawn and Spraberry.

Ray Smith Drilling Co. of Midland No. 1 J. B. Calverly, the Wolfcamp strike, was potentialled for a 24-hour production of 432 barrels of 43-gravity crude flowing through an 18-64-inch choke with gas-oil ratio of 1,173-1 and surface pressure of 880 pounds.

The petroleum is coming from perforations between 7,876 and 7,920 feet which had been stimulated with 10,000 gallons of acid.

Located six miles northwest of Garden City, No. 1 Calverly is 1,980 feet from north and east lines of section 42, block 34, T-3-S, T&P survey.

It spots 6 1/2 miles southeast of the two-well Blalock Lake (Wolfcamp) pool and 3/4 mile northwest of the Garden City, West (Spraberry) area, which also has two wells. Operator is asking for a discovery allowable assignment and is requesting the reservoir be named Garden City, West (Wolfcamp).  
Murphy H. Baxter of Midland has potentialled No. 1 J. W. Cox as a Strawn discovery, four miles north of the Garden City, South (Spraberry) pool, 6 1/2 miles southwest of the Garden City (Fusselman) area in Glasscock.

plus 40 per cent water. Production was through perforations at 6,682-947 feet which were acidized with 1,500 gallons. Gas-oil ratio measured 925-1.

The project originally was scheduled as a Strawn explorer and drilled to 9,970 feet. Apparently the lower zones were found barren of commercial petroleum and operator plugged back to 7,430 feet for the Spraberry completion.

Site is 660 feet from north and west lines of section 14, block 35, T-3-S, T&P survey, 1 1/2 miles southeast of the two-well Blalock Lake area.  
Pan American Petroleum Corp. is running 7-inch casing at No. 1-B Elma L. Slaughter, Martin County explorer, and will make production tests on the Dean and the Wolfcamp.

The operation is at total depth of 10,500 feet and it is presumed that the production pipe will be cemented on bottom and the checking will be through perforations.  
No. 1-B Slaughter, 1,320 feet from south and east lines of section 80, block F, Bauer & Cockrell survey, is 12 miles north of Lenorah. It is 3/4 mile northeast of the same company's No. 1 Slaughter, recently completed Dean-Wolfcamp discovery.

That wildcard potentialled for a daily production of 196 barrels of 38.2-gravity oil flowing through a 22-64-inch choke from Dean perforations between 8,790 and 9,007 feet and from Wolfcamp shot holes extending from 9,106 to 9,442 feet.  
No. 1-B Slaughter, while making a trip when total depth was at 10,233 feet, unloaded an unestimated quantity of gas and oil. At the time, it was thought by interested observers that the petroleum came from a soft section at 10,165-170 feet.

### Dr. Woodrow Has Surgery At Physicians

Dr. Jack Woodrow, staff member at Physicians & Surgeons Hospital in Stanton underwent emergency surgery at the hospital last week.

Dr. J. M. Shy, performed the operation. Dr. Woodrow was stricken suddenly, it was said, and his condition remained critical for several hours.  
At press time this week Dr. Woodrow's condition was reported improving.  
In addition to being a staff member at Physicians, Dr. Woodrow is a member of the Stanton Independent School Board, president of the Stanton Rotary Club, and active in Methodist Church activities here.

### Brooks Rites Conducted In Midland

Mrs. J. C. Brooks, 59, longtime resident of the Greenwood community and wife of the Democratic nominee for Midland County commissioner, precinct two, died Friday in a Midland hospital.

She had suffered a stroke late Tuesday following a long illness.  
Funeral services were held at 4 p.m. Saturday in the Newbie W. Ellis Chapel in Midland with the Rev. Eddie Freeman officiating, assisted by the Rev. Walter Smith of Tower Baptist Church. Interment followed in Greenwood Cemetery.

A native of Mitchell County, Mrs. Brooks was married in 1927 at Stanton. Since that time she had resided in the Greenwood Community. She was a member of Greenwood Baptist Church.

Survivors, in addition to the husband, include a son, James Brooks of Midland; two daughters, Mrs. Jo Anna Ratiiff of Odessa and Mrs. Anna Lee Patterson of San Antonio; the mother, Mrs. H. A. Brown of Midland; two brothers, Cliff Brown of Midland and B. W. Brown of Stanton; two sisters, Mrs. Mamie Woolsey and Mrs. Nellie Roberts, both of Midland, and seven grandchildren.

### Grady School District News

By L. R. DUNN, Supt.  
It's almost time to start school for another year. Regular classes will begin on August 29.  
Teachers will meet for the first scheduled meeting on Thursday morning at 8:00 a. m., August 25. Registration for all grade school students will be from 9:00 to 12:00 a. m. on either August 25 or 26. Faculty meetings will be from 2:00 to 5:00 p. m. on Thursday and Friday, August 25 and 26.

Holidays for the 1966-67 school year will be at follows: September 5, Labor Day; November 24 through the 27, Thanksgiving holidays; December 22, 1966 through January 1, 1967, Christmas holidays; March 3, 1967, District Teachers Meeting; March 24 through March 27, 1967, Easter holidays.  
End of six weeks periods are as follows: October 7, end of first six weeks; November 13, end of second six weeks; January 13, end of first semester; February 24, end of fourth six weeks; April 7, end of fifth six weeks, and May 19, end of second semester.  
School lunches will be the  
(Continued on page 5)

### Llano Native To Head Ag Program Here

Billy Reagor, newly appointed Martin County Agent arrived in the city this week and reported for duty Tuesday morning.

Reagor is a native of Llano, Texas. He is a graduate of Texas A&M University and is married. The Reagors have no children. They are residing in Stanton in one of the Jones houses adjacent to the play park.

### Martin County 4-H Club Girls Win Ribbons

Martin County 4-H Club girls won blue ribbons at the District Six 4-H Dress Revue held in Kermit, Wednesday, August 10.

Deborah Holloway, daughter of Mr. and Mrs. Glenn Holloway of Tarzan, was in the junior show, and Doris Howard, daughter of Mr. and Mrs. Bernell Howard of Courtney, was in the senior division of the show.

Others attending from Martin County were: Mrs. Glenn Holloway and Brenda, Mrs. Sammy Yates and Judy, Mrs. Bernell Howard, and Mrs. Mildred Eiland. Mrs. Fred Hoelscher, Barbara and Karen, of St. Lawrence, joined the Martin County group for the trip. Karen entered the show and won a red ribbon.

### District Six 4-H Council Plans Mapped

Plans for District Six 4-H activities for 1966-67 were made in Ft. Stockton August 17-18. Representatives from Martin County attending were Cathy Hazlewood, and David Howard. Cindy Britton represented the State Council at the meeting.

The group made plans for District Gold Star banquet to be held in Kermit, November 5. Other district events planned were: Contest and Leadership Lab.  
Mrs. Mildred Eiland accompanied them to Kermit.

### Stanton Youth Attends Meeting In Colorado

Gary Reid, son of Mr. and Mrs. Stanley Reid of Stanton, is back home after attending a Farmers Business Conference of the American Institute of Cooperation in Colorado.

The 38th session was held at Colorado State University and Gary was one of the youthful scholars from 40 states attending. There was approximately 800 scholars who enjoyed the summer sessions. Representatives of 13 organizations serving rural youth participated with some 2,500 adult farm leaders in the largest national conference devoted to agricultural marketing, production and providing of supply, credit, electric and other services to farmers.

Getting first-hand information on current problems of the Nation's rural economy, youth delegates heard Keynote Brice Ratchford, vice president of extension, University of Missouri, stress the tremendous effects of changes on what farmers produce, how they operate their farms, how  
(Continued on page 5)

### Boosters Launch Annual Drive For Members

Fred Church, president of the Booster Club, said that the membership drive is now under way, and anyone that has not been contacted and they desire to join the club should get in touch with one of the membership committee, Delbert Franklin, Bobbie Papanas, Paige Eiland, or Jimmy Stallings.

At the last meeting the Booster Club voted to buy a projector and a new camera lens for the use of the coaches in viewing and evaluating the games on film.  
It has been decided that a vest will be given to each member of the Booster Club to wear at the games. These vests are now being made and will be distributed within the next few days to all dues paying members.

### George Walker New Director Stanton Band

George A. Walker is the new band director at Stanton High School.

Walker, currently residing in Midland with his wife, Reida and their children, Geoffrey, 12, and Gima, 9, expects to move to Stanton as soon as sufficient housing facilities are available.  
Walker is already on the job conducting rehearsals daily.

The new band director has been employed by a music firm for the past four years. Before that time he served as band director at Crane, Iraan, and George West. He was band leader of 466 ASF band in World War Two.  
Walker is a graduate of Hardin - Simmons University,

**Quacks Cost Is Billion A Year**

By LOUISE CHASE  
Women's Medical News Service

The medicine man — the quack — is flourishing in the U. S. today, bilking the unwary, the gullible, the frightened, the suffering, the aged of an estimated billion dollars a year. And what does he give in return for the hope and money he extracts? At best, useless nostrums. At worst, virtually a signed death certificate since he may cause his victims to delay prompt medical treatment.

Alarmed by the proportions of the quackery problem, the Department of Health, Education, and Welfare is sponsoring an 18-month study to find why people respond to the wiles of quacks while rejecting informed medical advice. Seven government agencies are participating in the project which will cost almost a quarter of a million dollars.

What is so peculiarly repugnant about the quack is that he takes advantage of those most severely afflicted. The cancer victim: the sufferer from such painful and crippling diseases as arthritis and rheumatism; those threatened with blindness; and those in pain from a variety of other diseases.

Psychiatrists warn that fear of finding out the truth about the nature of an illness can keep people from seeking proper medical care. The immature man or woman who needs to cling to an all-powerful healer, those unable or unwilling to face the prospect of death, the aged who long for succor from infirmity, all are potential quack victims.

**Common Frauds**

A recent bulletin of the Food and Drug Administration listed some of the leading kinds of misrepresentation and phony health products, warned against their use as a waste of money and perhaps valuable time in the scientific fight against illness:

\* There are no serums, drugs, or diets, says the FDA, which have been proved effective in curing cancer. Cancer can be cured or arrested, the health body points out by yearly detection and treatment with surgery, X-ray, radiation, or chemotherapy or a combination of these by qualified physicians.

\* As with cancer, there are no drugs, devices, or methods that can truthfully be labeled as a cure for arthritis and rheumatism. Early treatment by physicians can reduce crippling and pain, while delayed medical care can result in serious and permanent crippling.

"An inexpensive blood test by your doctor," the FDA ad-

vises, "will show whether you need to take an iron medicine for 'tired blood.'" Most people don't.

**Diet Frauds**

Self treatment should not be attempted. "Tired" blood remedies may do harm by masking symptoms of disease.

Despite the promises of a variety of get-rich promoters, there is no drug, gadget or diet plan that can guarantee a "get slim quick" result for the overweight or obese. "Overeating is the basic cause of overweight," the FWA explains, "and calories do count in weight control." Careful and proper dieting, under a doctor's supervision, combined with exercise, are best known methods of weight reduction.

**Dentures And Glasses**

Vitamin deficiency is a rare condition indeed in this country the FDA notes. Daily use of common foods such as vegetables, fruits, milk, eggs, meat, fish, and whole grain or enriched bread and cereals will supply all nutritional needs.

"Expensive vitamin products are easy to sell when recommended as fountains of youth and general cure-alls for every kind of disease," the FDA reports. But you'll save money if you see a doctor before falling for the high pressure claims of the vitamin "pusher".

\* Neither dentures nor eyeglasses should be ordered by mail. They both need careful fitting by qualified persons. The mail order variety will fatten the bank account of the quack, reduce yours and do you no good.

And oh yes. There is no sure cure for baldness. Present day cures are as effective as one prepared for Egypt's Queen Ses, about 5,500 years ago. It was a compound of dog toes, date refuse, and horses hooves.

**Butch Cain Honored With Surprise Party**

Mr. and Mrs. Nolan Sorrels were host to a surprise going away party honoring Butch Cain, who left August 8, for the U. S. Navy.

Refreshments of sandwiches, chips and dips, cokes, and home made ice cream were served to Mr. and Mrs. Tommy Newman, Mr. and Mrs. Richard Barnes, Mr. and Mrs. Butch Cain, the host couple, and Mr. and Mrs. Bobby Kelly, who served as co-host.

The group enjoyed an evening of games as well as visiting.

**The Exchange Desk**

**THE COMANCHE CHIEF:** "The city of Comanche will have two more historical markers which will be erected when they arrive, according to information received by Walter Dixon, county chairman of the Historical Survey Committee."

**THE LORENZO TRIBUNE:** "County commissioners Monday approved a slightly trimmed version of their blanket pay raise proposal for county officials and employees after some 50 persons attended a hearing in the district courtroom to protest the measure. Cuts were made in planned hikes for the commissioners themselves and for county justices of the peace. Other pay raises were approved as originally planned."

**THE FORT STOCKTON PIONEER:** "Several Fort Stockton students at the University of Texas narrowly escaped injury, or even death, this week during the rampage of the sniper on the university campus. Carol Whitley, Gaines Kincaid and Dennis McClure, all attending UT summer school or doing research, were in the immediate area of the sniper's fire Monday, and all called home to parents and relatives to say they were alright, but confused and scared."

**THE BIG LAKE WILDCAT:** "Cotton allotments and yields will be set by your county committee in the near future. You will receive these cotton notices earlier than usual this year in order that buying and leasing of cotton allotments might be facilitated."

**THE GRAHAM LEADER:** "City Water Treatment personnel set an all-time record last Friday when they pumped 4,204,000 gallons of water into the city water distribution system to satisfy the demand of thirsty Grahamites. Plant capacity is 4,500,000 gallons per day according to water plant personnel."

**THE GRAHAM REPORTER:** "Young County will receive \$24,043.88 on Sept. 1 for its lateral road account which represents the county's share of the surplus as of August 31. The announcement was made by Joe Nelson, director of the Board of County and District Road Indebtedness."

**THE DENVER CITY PRESS:** "The mother of a Denver Citizen holds the honor as Texas Department of Veterans of Foreign Wars Mother of The Year. She is Mrs. W. N. Boyd, of Lubbock, mother of Dr. Bruce Boyd of Denver City. Mrs. Boyd was named for the award following a VFW search for an honoree. She was nominated jointly by the Lubbock VFW post and by her veteran sons. She received a plaque at a special awards banquet recently in Houston. Her family, including 10 of her sons and her husband, has compiled a record of nearly 40 years of active military and naval service. Mrs. Boyd has had at least one son in the service every year since 1941. Eight of her sons served overseas during wartime and her husband, the late William Neill Boyd, was a veteran of World War I."

**STAMFORD AMERICAN:** "More than three and a half million dollars will be pumped into the economy of Jones County in the form of government checks for participation in the wheat, cotton and grain sorghum programs, it was learned by The American this week. First checks are to be mailed shortly after August 15 and the balance will be processed as rapidly as possible with sometime in November given as likely time for the work to be completed. Brad Rowland, manager of the county ASCS office, said that the total amount of checks would be approximately \$3,542,432.76 with this money representing payment for diverting acres as well as support payments."

**THE HOUSTON COUNTY COURIER:** "R. L. Barrett of Crockett, manager of the East Texas Production Credit Association, has been named county chairman of the Texas campaign to build a Texas Pavilion at the Agricultural Hall of Fame at Bonner Springs, Kansas. The county campaign is one of more than 1000 planned throughout Texas this summer."

**Examiner's Widow Sues Jet Company**

The widow of a Federal Aviation Agency (FAA) examiner has sued Lear Jet Corp. of Wichita, Kan., asking \$357,000 charging defects in design manufacturing of a plane in which her husband was killed.

Mrs. Sarah Sweep of Irving filed the suit on behalf of herself, her son and her husband's parents, Mr. and Mrs. James F. Sweep of Kansas City.

The suit charges James D. Sweep was killed because of "defects in design, manufacture and assembly" of the plane.

The plane crashed April 23, 1966 near Clarendon, Texas, while Sweep was on an examining flight with William M. Majowski of Sparta, N. J.

**Bees See**

Although ultraviolet light is invisible to humans, it can be seen by the common honeybee.

**Californian Visitor Eyes Texas Centipede**

Texas' celebrated centipedes got an unexpected plug from a California visitor to Palo Duro Canyon State Park.

The woman, staying overnight at Texas "Little Grand Canyon", described the insect as surprisingly large. "I saw what appeared to be a centipede but it was at least six inches long," she wrote to the Parks and Wildlife Department.

The department advised it's a Texas native, sort of scary looking but rarely contributing anything worse than a sting much like a hornet. This is just another person's dilemma now shared by a few million others contacting nature's curious creatures in state parks.

**Pike Failed**

Zebulon Pike never reached the summit of the peak which bears his name. Pike climbed part way up the Colorado mountain, but lost his way and had to turn back.

**Farm And Ranch Review**

**Fire Ants Are Becoming A Problem** — Estimates are that some 9 million acres in Texas are now infested with fire ants, according to John Thomas, extension entomologist at Texas A&M University. Mirex gives good, safe control, he says. The main infested area is in Southeast Texas.

**Herbicides Replaced Cultivation** — At Texas A&M University's Livestock and Forage Research Center, McGregor, cotton that was not cultivated yielded as high and higher than cotton cultivated twice.

**Cotton Production Down This Year** — Texas cotton production will be 24 percent below 1965 production, says the Texas Crop and Livestock Reporting Service. The decrease is due primarily to less planted acreage.

**More Lean Meat On Steers** — Frank Orts, extension meats specialist at Texas A&M University, says the amount of lean meat on steers is increasing.

The A&M researchers are experimenting to see if cotton or other row crops will produce high yields — using herbicides instead of cultivation.

The A&M researchers are experimenting to see if cotton or other row crops will produce high yields — using herbicides instead of cultivation.

The A&M researchers are experimenting to see if cotton or other row crops will produce high yields — using herbicides instead of cultivation.

The A&M researchers are experimenting to see if cotton or other row crops will produce high yields — using herbicides instead of cultivation.

In the last four years, lean meat on steers has increased three percent, he says. Fat thickness is less, too, he says. Reason for the changes: ranchers are selecting and breeding for leaner, meatier type animals.

**Better Insect Survey** — The 1966 insect survey program is aiming at a better, more complete and the earliest possible reporting of the insect situation. It includes the latest news about where infestations are spreading. Joe Rothe, state agricultural agent for the Texas Agriculture Extension Service at Texas A&M University, says the state has been divided into six areas, with area entomologists as coordinators.

**A&M Enrollment** — Fifty-one countries are represented by the 351 foreign students who attended Texas A&M University this past summer. Eighteen percent or 72 of them came from India. Pakistan ranks second with 54 students, followed by Mexico with 36.

**Herman Cain Left August 8 For Training**

Herman W. (Butch) Cain, son of Mr. and Mrs. Herman O. Cain, this city, left Monday, August 8, for eight weeks basic training in the United States Navy.

He will be stationed at the U. S. Naval Training Center in San Diego, California. He will serve with the Navy for four years. Butch is married to the former Nona Langley.

**Low Water Hits Bass**

San Angelo lakes, like most West Texas fishing spots, are dwindling daily due to 100 degree dry weather, but the Texas Parks and Wildlife Department reports game fish continue to spawn.

Game fish generally have best spawning success when lakes are rising, or are at least stable. However, West Texas game fish are accustomed to prolonged drought and typically rear young in spite of dropping water levels that continually expose their nests to the hot West Texas sun.

Fishery crews recently verified the hardness of West Texas game fish when they hauled in seine samples including baby catfish and bass in good numbers in spite of adverse spawning conditions.

The rose is one of the oldest of cultivated flowers.

Butch is married to the former Nona Langley.

**Tax Man Sam Sez:**

When Congress passed the highway building program, they imposed a highway use tax on large trucks and buses. If you own a truck or bus, you may be among the taxpayers who must file a highway use tax return this month. Owners of certain trucks and truck tractors and busses in use during July must file a Form 2290 and pay a yearly highway use tax before August 31. Publication 349, available at local Internal Revenue Service tells you whether you are liable or not.

**★ ★ THAT YOU, DEAR?**

James Atkins late one night saw someone coming through a broken window in his kitchen. He screamed, "It's a burglar," and punched the intruder in the mouth.

Wednesday he was found guilty of assault when a court decided he knew "perfectly well it was your wife."

**NEWSPAPERS**

**MAKE A BIG DIFFERENCE IN PEOPLE'S LIVES**

It makes a big difference to you and your family . . . to know you can rely on your newspaper for ideas, information, entertainment you need and want. Your newspaper keeps you informed . . . about local, national and international events. Socially, economically, politically, and in every way, your newspaper is your guide to what's going on in today's big, busy world.

It makes a big difference to you . . . to know where to find what you and your family need, and how to get the best values for your shopping dollars. And it makes a big difference to the merchants who serve you . . . to know where they can "meet" you and best tell you about what they offer. In the pages of your newspaper, you and your local merchants get together. Newspaper advertising is your guide to intelligent shopping and wise spending.

It makes a big difference to you . . . to know the facts, to know the truth, and to know that your newspaper is dedicated to bringing you all the facts, all the truths so vital to the preservation, and the strengthening, of our way of life. A free press in a free country is your guarantee of your right to know. Yes, newspapers do make a big difference in people's lives!

### CITATION BY PUBLICATION NO. 526

URBAN RENEWAL AGENCY OF THE CITY OF STANTON VS. MRS. E. G. PORTER THE STATE OF TEXAS

TO: MRS. E. G. PORTER, is Living, and if Deceased, her Heirs and Unknown Heirs

You are hereby commanded to appear at the hearing before the Special Commissioners appointed by the Judge of the County Court of Martin County, Texas, to assess the damages occasioned by the condemnation of the hereinafter described property, and to appear and answer in said Proceedings at the office of the County Judge in the Martin County Courthouse in the City of Stanton, Texas, at 10:00 o'clock A. M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof, that is to say, 10:00 o'clock A. M. on Monday, the 26th day of September, 1966, and answer the petition of the Urban Renewal Agency of the City of Stanton, Plaintiff in the suit styled "Urban Renewal Agency of the City of Stanton vs. Mrs. E. G. Porter", wherein the Urban Renewal Agency of the City of Stanton is Plaintiff, and Mrs. E. G. Porter, whose place of residence is unknown, is Defendant, which Petition was filed with the Judge of the County Court of Martin County, Texas, on the 10th day of August, 1966; and the nature of which suit is as follows:

The suit is a Proceeding in Eminent Domain in which the Urban Renewal Agency of the City of Stanton is condemning, at the request of its Board of Commissioners, for rehabilitation purposes, which are public purposes, the following described tract of land situated in Martin County, Texas, to-wit:

Lots 7, 8 and 9, Block 61, Original Town of Stanton, Texas (formerly Marienfeld), according to a map or plat thereof originally recorded in Vol 1, pages 258-259, Deed Records of Martin County, Texas.

You are notified that said hearing has been set for the 30th day of September, 1966, at 2 o'clock, P. M., at the County Courtroom in the Martin County Courthouse in Stanton, Texas, and to appear at same and present such evidence as you may wish. You are further notified to appear in answer said petition on or before September 26, 1966, at 10:00 o'clock A. M. If you desire to appear and answer before said date of September, 1966, do so at office of the County Judge of Martin County, Texas, located at the Courthouse in Stanton, Texas.

The interest of said Mrs. E. G. Porter, whose place of residence is unknown, and her heirs and legal representatives, if any, is that she either owns or claims an interest in said property, subject to unpaid accrued taxes and other liens.

If this Citation is not served within ninety (90) days after its issuance it shall be returned forthwith.

GIVEN UNDER OUR HANDS at Stanton, Martin County, Texas, this 10th day of August, 1966.

Section 5, block 36, Raymond Spraws, Rt. 4, Cisco, Texas. 6-23-tnc		Question: How can I determine the value of my Savings Bonds, many of which were purchased at least 20 years ago? Answer: Bond tellers at banks and many savings and loan organizations will be glad to assist you. However, by sending 15 cents (in cash) to the Superintendent of Documents, Government Printing Office, Washington, D. C. 20-402, you can obtain a Table of Redemption Values, which will give the current value of any Series E Bond you own. These tables are issued every six months, and the current edition covers the period for July through December, 1966. Question: How many Savings Bonds are still being held by citizens, dating back to the start of the Bond Program in 1941? Answer: There is no accurate way of determining the actual number of such Bonds still being held. The dollar volume of Series E and H Bonds outstanding, however, totals almost 50 billion dollars. Bonds redeemed during the same period totaled in excess of 100 billion dollars, those funds being used to serve the many needs of the Bond owners.

## 4-H Club News

The Candy - Stripe 4-H Club met Thursday, August 4, at 3:00 p.m. in the home demonstration agent's office, with Cindy Gregston, vice-president, presiding. A program on table manners was given by Mrs. Mildred Eiland, after which members worked on record books.

Those present were: Cindy Gregston, Kathryn Pickett, Diana Payne, Terelyn Hazlewood, Betty Anderson and Melissa McArthur.

Gary Reid has been on a 4-H Talent Club and Tour excursion in Amarillo, where he attended a banquet, and then went on to Denver, Colorado, where the group from Texas had an opportunity to visit various business establishments, an to observe Agribusiness in action.

### Urban Percentage

The last U. S. census, taken in 1960, showed the United States to be 69.9 per cent urban, according to the Encyclopedia Britannica.

About 25,000 acres in the Florida space center have been set aside as a national wildlife refuge.

## 7 Wounded By Sniper In Hospital

Seven persons wounded in Charles Whitman's August 1 University of Texas sniper slaughter still were in a hospital this week.

Thirty-one persons were wounded and 16 killed. Only one victim, Claire Wilson, 18, of Austin was in Brackenridge Hospital's intensive care unit.

Mrs. Mary Babour of Texarkana was in critical condition but attendants said she was improving and had been transferred from the intensive unit.

Congressman Alvin E. O'Konski of Wisconsin tells the story of two brothers in his home district. One brother was valedictorian of his graduating class. He is serving in Viet Nam for 78 a month. The other brother is a dropout who once beat up his mother and his teacher. He is serving in the War on Poverty's Neighborhood Youth Corps and is getting \$200 a month.

## Quanah Paper Awarded WTPA Service Plaque

The annual West Texas Chamber of Commerce Community Services Award was presented to the Quanah Tribune Chief in San Angelo Saturday morning at the West Texas Press Association meeting.

The award was announced at the annual breakfast, sponsored by the West Texas Chamber. Making the presentation to Mrs. Carroll Koch, publisher of the Quanah paper, was R. W. Hardy of Abilene, vice president of the West Texas Chamber of Commerce and president of West Texas Utilities Company. Also present were John Ben Shepperd of Odessa, president of the WTPA, and Jack G. Springer of Abilene, executive vice president.

The Tribune - Chief was honored because of its outstanding work in a number of community service projects, among them an intensive effort to get a mesquite and brush control and eradication project underway in Hardeman County. It resulted in a field day, attended by Secretary of Agriculture Freeman and other top national and state agricultural officials, and a great deal of positive work in brush control since then.

The Quanah newspaper, published by Mrs. Koch, assisted by editor-manager Ed M. Eakin, has also been out front in a number of other community projects in its area, including the promotion of a water festival and securing a \$900,000 county hospital. It also played a key role in the location of Spartan Industries in Quanah, an industrial plant employing 200 persons.

## C. A. Frank Speaks To Lions Tuesday, Aug. 16

The Stanton Lions Club this week received a distinguished visitor, C. A. Frank, owner and manager of the C. A. Frank theatrical agency of Hutchinson, Kansas.

The purpose of Frank's visit to this city was to make advance preparations for the appearance of the world-famous and highly successful stage production "The Zogi Variety Revue," a stage presentation with special music, produced by Clarence and Gladys who also star in the cast.

The Times of London said of this show, "Certainly one of the best." The Chicago Daily News Foreign Service said, "The State Department could spend millions and not be able to build the international good will this company is doing."

Mr. Frank, whose office has handled many smash hit theatrical productions, considers "The Zogi Variety Revue" so important and unusual that he has personally taken over the management of the tour. He reports that this production is playing to packed houses and that is the first time in several years the show has been available for one night.

## Martin Area Gets Wildcat To Wolfcamp

Southwestern Natural Gas, Inc. of Midland has scheduled No. 1 Mabee as a 10,000-foot Wolfcamp wildcat in Southwest Martin County 10 miles north of Midland.

The drillsite is 1,312 from north and 1,327 feet from east lines of section 2, block 39, T-1-N, G&MMB&A survey.

It spots about five miles east of shallow Sa n Andres production in the Mabee area.

Lela Boyd returned last week from a three weeks tour in Spain.

## Mexico Makes Own Fertilizer

Mexico will be able to stop importing chemical fertilizers by the end of next year, thanks to the growth of its petrochemical industry, the newspaper Novedades said this week.

The paper quoted an unnamed source in the Agriculture Economics Department as saying petrochemical installations being built in the state of Veracruz will, when finished, produce enough fertilizer for 2.5 million hectares.

Mexico now spends about 320 million pesos \$25.6 million a year on imported chemical fertilizers.

## Hospital Notes

Physicians Hospital And Clinic

Patients admitted Aug. 1st through Aug. 14th:

R. D. Burleson, J. M. Laird, Melvin Caldwell, Freddie Silva, Mrs. Ellen Cornelius, Mrs. Mary Harvard, Dr. Jack Woodrow, Mrs. Mary Ross, Jimmy Jones, Tarzan; M. C. Riddle, Midland; Judith Jones and baby, Big Spring; Talmadge Johnson, Barbara Matthews, Lana Pinner, Glenda Meneff, Margo Russell, Rosanell Harrington, and Betty Jo Banta, all of Odessa, and Chas. B. Cover, Dallas.

## Mrs. L. Carlile Presides At Lodge Meet

Stanton Rebecca Lodge No. 287 met in regular session at the IOOF Hall, Monday, August 15, with Mrs. Lewis Carlile, noble grand, presiding. Twenty-two visits were reported made during the week.

Mrs. C. E. Christopher and Mrs. Walter Graves were appointed a committee to make plans for family night.

Miss Sammie Laws, secretary, was presented with a certificate for having a perfect semi-annual report.

The Stanton Lions Club is happy to report that successful arrangements have been completed to present this outstanding attraction on Tuesday, November 8, and urges everybody to remember the date.

## STATE FAIR TO FEATURE RARE "SHEEP OF THE WORLD" DISPLAY

An exhibit of the finest sheep trophies of one of the world's great hunters—Herb Klein of Dallas—will be a featured attraction at the 1966 State Fair of Texas October 8 through 23 in Dallas. The rare exhibit in the Museum of Natural History will display some of the best of Mr. Klein's trophies of 13 of the 14 major species of wild sheep found on the six continents of the world. Above, Mr. Klein is shown with the most difficult trophy of them all, the North American desert sheep.

## Martin Area Gets Wildcat To Wolfcamp

Southwestern Natural Gas, Inc. of Midland has scheduled No. 1 Mabee as a 10,000-foot Wolfcamp wildcat in Southwest Martin County 10 miles north of Midland.

The drillsite is 1,312 from north and 1,327 feet from east lines of section 2, block 39, T-1-N, G&MMB&A survey.

Lela Boyd returned last week from a three weeks tour in Spain.

Congresswoman Catherine May of Washington says, "The trouble with a little inflation is that it never stays little. Once it is accepted as a national way of life, it gets out of hand. Unless the federal government takes definite steps to contain it, it hurts those who can least afford to be hurt — people in a low income group and our older citizens who have to rely on a fixed income. The man who puts aside some money for a rainy day or for retirement, as an example, has found his savings lost 2 per cent of their purchasing power last year alone. If inflation continues at that rate for twenty years, one dollar in every three saved would simply vanish."

Guests of Mr. and Mrs. Cecil Bridges the past week were: Mr. Bridges' brother and sister-in-law, Mr. and Mrs. Geo. S. Bridges, and his nephew and wife and daughter, Mr. and Mrs. Henry Bridges and Diane, all of Laurel, Miss.

**CITATION BY PUBLICATION  
NO. 525**

URBAN RENEWAL AGENCY OF THE CITY OF STANTON ) CONDEMNATION ) PROCEEDINGS BEFORE ) SPECIAL COMMISSIONERS ) APPOINTED BY JUDGE OF ) MARTIN COUNTY, TEXAS ) COUNTY COURT

VS. JOHN C. FRASER

THE STATE OF TEXAS

TO: JOHN C. FRASER, if Living, and if Deceased, his Heirs and Unknown Heirs

YOU ARE HEREBY COMMANDED to appear at the hearing before the Special Commissioners appointed by the Judge of the County Court of Martin County, Texas, to assess the damages occasioned by the condemnation of the herein-after described property, and to appear and answer in said Proceedings at the office of the County Judge in the Martin County Courthouse in the City of Stanton, Texas, at 10:00 o'clock A. M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof, that is to say, 10:00 o'clock A. M. on Monday, the 26th day of September, 1966, and answer the petition of the Urban Renewal Agency of the City of Stanton, Plaintiff, in the suit styled "Urban Renewal Agency of the City of Stanton vs. John C. Fraser," wherein the Urban Renewal Agency of the City of Stanton is Plaintiff, and John C. Fraser, whose place of residence is unknown, is Defendant, which Petition was filed with the Judge of the County Court of Martin County, Texas, on the 10th day of August, 1966; and the nature of which suit is as follows:

The suit is a Proceeding in Eminent Domain in which the Urban Renewal Agency of the City of Stanton is condemning, at the request of its Board of Commissioners, for rehabilitation purposes, which are public purposes, the following described tract of land situated in Martin County, Texas, to-wit:

Lot 6, Block 61, Original Town of Stanton, Texas, according to a map or plat thereof originally recorded in Vol. 1, pages 258-259, Deed Records of Martin County, Texas.

You are notified that said hearing has been set for the 30th day of September, 1966, at 2 o'clock P. M., at the County Courtroom in the Martin County Courthouse in Stanton, Texas, and to appear at same and present such evidence as you may wish. You are further notified to appear and answer said petition on or before September 26, 1966, at 10:00 o'clock A. M. If you desire to appear and answer before said dates of September 26, 1966, do so at the office of the County Judge of Martin County, Texas, located at the Courthouse in Stanton, Texas.

The interest of said John C. Fraser, whose place of residence is unknown, and his heirs and legal representatives, if any, is that the either owns or claims an interest in said property, subject to unpaid accrued taxes and other liens.

If this Citation is not served with ninety (90) days after its issuance it shall be returned forthwith.

GIVEN UNDER OUR HANDS at Stanton, Martin County, Texas, this 10th day of August, 1966.

M. L. GIBSON  
KATHLEEN LEWIS  
R. W. HAISLIP  
Special Commissioners

Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., was appointed recently in Washington to serve on two important committees of the American Cotton Producer Associates.

The ACPA, a coalition of cotton producer organizations across the belt, expressed concern over repeated attempts in Congress to set a limit on the amount of payments any one farmer could receive under the current farm programs. And a committee was appointed to see that proper information is compiled and disseminated to members of Congress to show the disastrous effects such limitations would bring about.

Discussion at the ACPA meeting revealed that there is considerable confusion as to just how projected yields on cotton and other crops will be established for individual farms in 1967, and Johnson was appointed to another committee to study that situation.

Members of the payment limitations committee are Johnson, B. F. Smith of Mississippi, James N. Conner of Missouri and Rudolph Miller of California.

ACPA Chairman W. W. Hart of Sinton, Texas, appointed the committee and asked that it take all necessary action to prevent any limitation of payments to individual producers.

Johnson pointed out that not only cotton producers, but producers of all agricultural commodities under farm programs, would be involved. And he said the committee will work closely with other commodity organizations to forestall payment limitations.

The most recent effort toward limiting individual payments was offered in the U. S. Senate by Senator Daniel Brewster (D-Maryland). The proposal was soundly defeated.

In the case of cotton, limitations would be especially ruinous because of the "snap-back" provision in the cotton section of the Agriculture Act of 1965. That provision states that if such limitations are imposed at any time during the full four-year term of the program, the Secretary of Agriculture shall support the price of cotton through loans or purchases. This, in effect, would be a diversion to the old high loan program, and would destroy the one-price concept for cotton.

According to Johnson, the projected yield committee to which he was appointed will simply work to see that the program is administered fairly and equitably in all instances. Others on the committee are F. H. Heidelberg of North Carolina, chairman; Jim Conner, Missouri, and Bob Heard of Victoria, Texas.

The latest U.S.D.A. report on cotton varieties planted on the High Plains reveals that considerable change has taken place.

As an example, Gregg cotton has gone from zero in 1956 to 41 per cent of the crop in 1963 and back to 10 per cent of plantings in 1966. Lankart accounted for 53 per cent of the acreage in the Plains in 1956, dropped to 21 per cent in 1964 and in 1966 climbed back to 39 per cent.

The nine principal varieties and the percentage of Plains acreage planted to each in the years 1956, 1960, 1963 and 1966 are listed below. Asterisks indicate less than one half of one per cent.

	1956	1960	1963	1966
Acala	3	5	1	2
Gregg	*	18	41	10
Lankart	53	51	21	39
Lockett	5	1	*	4

Rilecot	*	*	2	5
Storm King	*	*	2	1
Western Stormproof	3	5	3	6

Spraying in the High Plains Diapause Boll Weevil Control Program this year is slated to begin during Labor Day week, about the same time as the operation was cranked up in 1965 when more than a 99 per cent reduction of weevil populations was achieved.

The decision was made August 10 by members of the Technical Advisory Committee at a meeting called by Plains Cotton Growers, Inc., coordinator of the program.

Dr. Perry A. Adkisson, of Texas A&M's Entomology Department, said "you can't argue with success," and recommended that the same pattern of chemical application be followed this year as was used in 1966.

That means three rapid-fire shots of malathion at five to seven day intervals to break the weevil's reproductive cycle, followed by three or four more applications from 10 to 14 days apart to kill remaining weevils before they can go into hibernation. The total number of applications will be determined by the frost date.

There will be one slight difference this year. The first two applications will be at the rate of 12 ounces per acre instead of the 16 ounces used for all sprayings last year. After the first two, the 16 ounce rate will be resumed.

This change was based on research information which indicates that the reproductive weevils present in fields in early September area easier to kill than are adult, dispersing weevils later in the year.

The dosage reduction for these first two applications will reduce the cost of the program about \$70,000, according to Joe Spears, U.S.D.A. entomologist from Washington, D. C. And Spears does not believe this will materially affect results.

Based on the information supplied by the intensive survey work that has been going on since about the first of June, the total acreage to be sprayed in this year's program is expected to be about 180,000 or 190,000, as compared to 260,000 acres in the control zone in 1965.

Don Rummel of Lubbock, Area Extension Entomologist

Heinous, inhuman, unthinkable crimes — such as those that have left a trail of blood across Texas — must be stopped, say state officials.

Gov. John Connally and Atty. Gen. Waggoner Carr both have strongly recommended changes in Texas' criminal laws.

Their proposals are the result of three terrible incidents all committed over a period of two weeks. First, the sniping episode on the University of Texas campus during which Charles J. Whitman deliberately killed 16 innocent persons and wounded three dozen more; then the malicious murder of a night watchman in Roscoe, Texas, by a West Texas teenager; and finally, the grotesque murder of three youngsters in Fort Worth.

Connally said he would ask the Legislature for a law requiring a compulsory life sentence for anyone who commits murder, then is found not guilty because of insanity.

Carr concurred — adding that he plans to appear personally before the Texas House committee on revisions of the code of criminal procedure in January.

Meanwhile, the attorney general has asked the governor to appoint a blue ribbon citizens committee to draft legislation for tougher laws and stronger penalties.

Up for study are: \* Stiffer penalties for crimes of violence. \* Stiffer penalties for sex crimes. \* Clarification of laws dealing with carrying arms in public.

More effective methods of confining those who use insanity as a defense for crimes. Both Connally and Carr made it clear they are firmly opposed to stringent laws regulating the sale of firearms.

**Draft Call Increases** — Texas' draft call for October is the largest since May, 1953 when the Korean war ended. State quota for October is 2,671, compared to 3,823 at close of the fighting in Korea, according to State Selective Service Director Col. Morris S. Schwartz.

September quota also is up — from 1,585 to 1,890. National call is for 46,200.

**Attorney General Rules** — State Supreme Court chief justice may assign retired appellate court judges to duty on courts of civil appeals in case of vacancy or disqualification, Attorney General Carr has ruled. Assignment would be terminated by return to duty of regular judge.

In other opinions, Carr concluded that: \* Alien employees of Texas colleges, their husbands, and wives and children, are entitled to resident tuition rates

who is in charge of 16 two-man survey teams, reported weevil populations down sharply from 1965. He said weevils to date had been found in only 23 fields above the Cap Rock, the area which the program is designed to protect. And most of these fields were either adjacent to or very near the edge of the Cap. The only exception, he said, was the Dougherty area of Floyd County.

At this same time last year 82 fields above the Cap had weevils, with many of them several miles farther West than weevils have been found this year.

The spray program is financed jointly by U.S.D.A., the Texas Department of Agriculture and High Plains producers. U.S.D.A. matches funds provided by producers and the State.

Ed Dean, field service representative for Plains Cotton Growers, said the 1965 program's cost came to an estimated \$1,744,000. Of this total producers paid \$806,704, U.S.D.A. provided \$873,000, and the State put in \$64,470, Dean reported.

He added that producer cost would just about equal collections from producers on the 1965 crop.

After the meeting Dean told some producers present that there had been hopes that the producer investment in the program of 40 cent per bale could be reduced in 1966, but that the prospects for about 700,000 fewer bales this year practically eliminated this possibility.

However, he said, the final decision on this will be made at a later date by the Areawide Boll Weevil Committee which has representatives from each of the 23 High Plains counties.

**Sheriff's Posse, Trail Riders Make Trail Ride**

The local Martin County Sheriff's Posse and Trail Riders left Stanton Sunday, August 14, for a trail ride to Cole Park in Midland, where they were met by the mothers and wives, who had prepared lunch for approximately 75 persons.

Later the 25 riders made the return ride back to Stanton. It was termed a big success, and greatly enjoyed by all.

law change in November. Already on the November ballot is a constitutional amendment calling for annual voter registration to replace the poll tax voting requirement.

AFL/CIO is opposing this amendment, seeking instead permanent registration. Committee's recommendations will be made after the November 8 election.

**Interstate Safety** — A program to make Texas' safest highways — the interstate system — even safer has been launched by the Texas Highway Commission.

Commission approved a \$3,200,000 plan which includes replacements of conventional sign supports and illumination pole bases with new units incorporating "breakaway" safety features.

New bases and supports already are in place along newer sections of interstate highways in Texas. Program involves putting them in place of conventional equipment on older sections.

Instead of rigid, unyielding hazards, breakaway sign supports and pole bases shear on impact, pivoting up and away from an out-of-control vehicle. The vehicle then rolls to a more controlled stop.

**CITATION BY PUBLICATION  
NO. 527**

URBAN RENEWAL AGENCY OF THE CITY OF STANTON ) CONDEMNATION ) PROCEEDINGS BEFORE ) SPECIAL COMMISSIONERS ) APPOINTED BY JUDGE OF ) MARTIN COUNTY, TEXAS ) COUNTY COURT

VS. MATTIE N. HUBBILL

THE STATE OF TEXAS

TO: MATTIE N. HUBBILL, if Living, and if Deceased, her Unknown Heirs

YOU are hereby commanded to appear at the hearing before the Special Commissioners appointed by the Judge of the County Court of Martin County, Texas, to assess the damages occasioned by the condemnation of the herein-after described property, and to appear and answer in said Proceedings at the office of the County Judge in the Martin County Courthouse in the City of Stanton, Texas, at 10:00 o'clock A. M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof, that is to say, 10:00 o'clock A. M. on Monday, the 26th day of September, 1966, and answer the petition of the Urban Renewal Agency of the City of Stanton, Plaintiff, in the suit styled "Urban Renewal Agency of the City of Stanton vs. Mattie N. Hubbill", wherein the Urban Renewal Agency of the City of Stanton is Plaintiff, and Mattie N. Hubbill, whose place of residence is unknown, is Defendant, which Petition was filed with the Judge of the County Court of Martin County, Texas, on the 10th day of August, 1966; and the nature of which suit is as follows:

The suit is a Proceeding in Eminent Domain in which the Urban Renewal Agency of the City of Stanton is condemning, at the request of its Board of Commissioners, for rehabilitation purpose, which are public purposes, the following described tract of land situated in Martin County, Texas, to-wit:

Lot 5, Block 72, Town of Stanton, Texas, according to map originally recorded in Vol 1, pages 258-259 Deed Records of Martin County, Texas.

You are notified that said hearing has been set for the 30th day of September, 1966, at 2 o'clock P. M., at the County Courtroom in the Martin County Courthouse in Stanton, Texas, and to appear at same and present such evidence as you may wish. You are further notified to appear and answer said petition on or before September 26, 1966, at 10:00 o'clock A. M. If you desire to appear and answer before said date of September 26, 1966, do so at the office of the County Judge of Martin County, Texas, located at the Courthouse in Stanton, Texas.

The interest of said Mattie N. Hubbill, whose place of residence is unknown, and her heirs and legal representative, if any, is that she either owns or claims an interest in said property, subject to unpaid accrued taxes and other liens.

If this Citation is not served within ninety (90) days after its issuance it shall be returned forthwith.

GIVEN UNDER OUR HANDS at Stanton, Martin County, Texas, this 10th day of August, 1966.

## The Launching Pad

By NEAL ESTES

I used to think that HUBERT HUMPHREY was about the dumbest, parrot-mouth guy in the world. In my estimation, he has improved. HHH has apparently seen the light of day—or for voting purposes come the next presidential election, "white of the day." HUBERT MORATIO suddenly joined guys like me this week when he said: "People are sick and tired of this marching, riots, property damaging, etc. in the streets of America." I was shocked at HUBERT'S statement — but pleasantly shocked. For the second time in 15 days, I have been amazed to find how many of my good friends 'up north' have started putting out the Stars and Bars and now HHH joining the cause. I am anxiously looking forward to a testimonial from LBJ. I was LYNDON JOHNSON'S campaign manager in East Texas a few years ago. I knew LADY BIRD like I know my sister. I liked them both personally. They were in my home and office in Carthage and in Longview many times — not as the President and First Lady, but as just nice people. And in those days, LYNDON felt exactly as I did on all political, economic, and social issues. Someday, I hope, LYNDON will remember the philosophy of his wife's late Dad, and return to the thinking of men like THOMAS JEFFERSON TAYLOR, Karnack, Texas. MR. TAYLOR the father of CLAUDIA ALTA or LADY BIRD to millions now, was named for the great southern patriot.

I always enjoy a visit with my former protege, GUY STORY BROWN. The first son of MARY and GLENN BROWN is indeed my favorite boy of all time in NMMI in Roswell, New Mexico next year. The former Stanton High student entered the Roswell school at the beginning of the fall term last year and amassed many honors. He made the school paper's staff and I like to think that some of his days in junior journalism, spent practically at my knee, caused him to carry on in the student publication field when he enrolled at New Mexico Military Institute. GUY, our readers will remember, was the 11-year-old youth who got an interview with ELVIS PRESLEY, when the first of the musical hip-swingers, tutored by that great master manager, COL. PARKER of Tennessee, announced to the press that ELVIS would not talk with any newsman as he crossed Texas enroute to an engagement in the movies in California. It was not that COL. PARKER had it in for Texas. He just wanted his singer to rest. GUY STORY BROWN climbed on the T&P at Big Spring and had ELVIS talking with him before the star's train reached Odessa. The story made the rounds of the wire services. GUYBO dropped by the office one day recently with a mighty pretty girl companion—youthful, lovely, intelligent BRENDA DYSON. The lad who used to play around in the area outside the news office was home from a term in summer school in Hawaii. He wore a garb that suggested he was enjoying the ultimate in comfort and a guitar swung carelessly about his neck. While he strummed some, BREN looking on in admiring silence, and I don't mind to tell you readers that I appreciated his musical talent too. If I could call back a few years, so help me, I'd dress the same way and swing a little. As a matter-of-fact, my group in the "roar-in twenties" used to do the big apple, shake the shimmy, and do a dance we called the black bottom. How about that? But our generation took time out to fight and win two wars too. We never thought of burning our draft cards, marching in the streets or raising Cain in general though.

IN this column last week we suggested that PRESIDENT JOHNSON would possibly consider making a change in the high military command in Viet Nam. He didn't make that change but he did have a surprise visit at the LBJ Ranch in Texas over the weekend with GENERAL WESTMORELAND, our man in the war theatre. Apparently the President was satisfied with what he learned from WESTMORELAND because he returned almost immediately to his post of command. In the meantime, the casualty lists increase and the number of troops now in Viet Nam number over 300,000.

NEXT week will be the big one before students over the county go Back-To-School. Ads will be used by merchants to bring the attention of shoppers of the many values in store for them in Stanton. Dollar Day bargains will be forthcoming in early September. School opens in some areas on August 31 and in Stanton on September 6. Let's all get ready for a brisk fall session—with the books, if students—and with business, if merchants.

NEWS of the death of MORRIS ZIMMERMAN, former Martin County sheriff late Tuesday evening, shocked the community. MR. ZIMMERMAN was a highly appreciated citizen and lawman. He maintained close connections with our county through his numerous visits with relatives who still live in Stanton. Funeral services are pending but will probably be conducted Thursday afternoon in Lamesa with interment here in Evergreen Cemetery.

WITH funeral homes over the state discontinuing ambulance service due to the increased demands put on the proprietors through invoking of the Wages and Hour Law, it is good to know that Stanton will continue to have efficient ambulance service. After long study and deliberation, RONNIE GILBREATH and MARY GILBREATH have decided to keep ambulance service for Stanton. It is nice to know that our community can count on the service and we wish to say much oblige to the GILBREATHS upon behalf of all their friends.

MOST of the personnel for the B.&F.W. Construction Company departed Stanton for other destinations the past week. This company was responsible for the building of some 78 housing units in the city. This bunch of units, added to several constructed in Stanton earlier brings the total to a healthy figure. The newspaper gets questions almost daily on who is going to

## Cox-Hightower Vows Solemnized

Mrs. Leslie Lynch Hightower

Marva Frances Cox of Leno-Lynch Hightower, son of Mr. and Mrs. Prentiss Hightower, became the bride of Leslie of Stanton, in a double ring ceremony at 7 p.m. Friday in the home of the bride's parents, Mr. and Mrs. Glen Cox of Leno-Rah.

The Rev. Milton Thompson pastor of the Leno-Rah Baptist Church, officiated for the ceremony.

Given in marriage by her father, the bride wore a formal gown of candlelight silk with a fitted bodice and brief sleeves. Re-embroidered Alencon lace outlined the Sabrina neckline and natural waistline. Lace appliques emphasized the sheath skirt with hem edged in lace. The chapel train also was edged in lace.

**Bouquet of Roses**  
The bride's shoulder-length veil of imported silk illusion fell from a silk and lace bow. She carried a cascade of white roses and stephanotis centered with white orchids atop a white Bible.

Phyllis Long was the maid of honor and Euvonne Welch was the bridesmaid.

Don Hightower of Midland was best man for his brother. The usher was Jerry Cox of Leno-Rah, brother of the bride.

**Fireplace Setting**  
The ceremony was preformed before a fireplace flanked with baskets of white gladiolus and chrysanthemums. On the mantel were white gladiolus and blue chrysanthemums with greenery and tapers.

Pianist for the ceremony was Brenda Hightower.

A reception was held immediately following the ceremony. The bride's table was centered with an arrangement of blue and white carnations.

After the reception, the couple left on a wedding trip to Ruidoso, N. M. They will be at home after Tuesday, Aug. 16, at 5313 19th St., Apartment No. 7, in Lubbock.

The bride and bridegroom are students at Texas Technological College. He is employed by Williamson Washing Machine Supply Co. in Lubbock.

## Early Disease Prevention Is Necessary

It is almost never too soon to protect your children from such life-threatening diseases as diphtheria, tetanus, whooping cough, polio, measles, and smallpox. This timely reminder for parents comes from the American Academy of Pediatrics which recommends that immunization against the first four be begun at between two and three months of age.

The Academy notes that three doses of DTP vaccine, for the first three diseases, as well as oral polio vaccine, should be given simultaneously at four to six week intervals. A fourth dose and the polio vaccine should be given one year later. Another DTP should be given at three years of age.

Boosters are important to maintain the immunizations. Tetanus-diphtheria boosters should be given at 6 and again at 12, while children about to enter school should receive another dose of oral polio vaccine, the Academy says.

Vaccination against smallpox should be given to toddlers of 15 to 18 months, during a relatively cool season, and should be repeated at six and 12.

Happily, children need no longer suffer through a bout of measles, with its possibly serious complications. The Academy recommends that all infants be immunized "by the end of the first year of life." In addition children should be tested for tuberculosis at between nine and 11 months of age, annually until four, and every two years after four.

**Old Bugs**  
Scientists estimate that the planet Earth had insects for at least 200 million years before man appeared, reports World Book Encyclopedia.

First U. S. flag with its 13 stripes was raised on Prospect Point in Somerville, Mass., in 1776.

The federal government paid farmers \$2.4 billion in July for participating in the farm programs. Total payments this election year are expected to reach \$3.5 billion, \$1 billion more than last year, and one fourth of this year's net farm income, reports the Arizona Farm Bureau Federation.

## Questions-And-Answers

(This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q — I hold down two jobs and Social Security is withheld by both employers. Is there any way I can stop this withholding on one of the jobs?

A — No. The law requires each employer to withhold Social Security on the first \$6,600 of wages paid to each employee during the year. If more than the maximum of \$277.20 is withheld for Social Security from your combined salaries, you should claim the excess as a credit against your income tax when you file your income tax return next year.

Q — My company is planning to send me to another city on a temporary 3-week assignment. If I have to pay the costs to come home weekends and my company does not reimburse me, can I deduct this on my income tax?

A — The situation you describe seems to qualify as a temporary assignment. In that case, the law permits you to deduct the traveling costs of returning home weekends as long as the costs do not exceed what you would have spent for room and board if you had not gone home. You may also deduct the travel costs of getting to your new assignment and returning home after it is over if the costs exceed reimbursement from your employer.

Q — Am I taxed on the Reserve pay I get for my two week stint of military duty?

A — Yes, pay for Reserve training is generally fully taxable.

Q — If I sell my house at a profit will I be taxed on what I make?

A — Profits from the sale of a personal residence are generally taxable. Under certain conditions, however, the tax on this gain may be postponed until a later year.

This situation occurs when, for instance, you buy a new house within a year of the sale of your old house and pay more for the new house than you sold the old one for.

Gasoline is not a fixed, stable compound — it is a combination of them — so it has no chemical formula.

New Hampshire was the first American colony to adopt a state constitution.

In addition if you are 65 or older, all or part of the gain realized upon the sale may, if certain conditions are met, be exempt from tax. Further information on this subject may be found in Document No. 5017, Selling Your Home, available free from local IRS offices.

Q — I was just reimbursed by my insurance company for

some medical expenses I claimed on my 1965 return. Do I have to report this as income on my 1966 return or do I file an amended return for 1965?

A — The reimbursement should be included in income on your 1966 return to the extent you received a tax benefit from it on your 1965 tax. There is no need to file an amended return.

## DEAVENPORT'S

## All-Texas Air Tour Schedules Several Stops In West Texas

West Texas skies will be filled with airplanes during a week in October as pilots and their families from various points in the state and nation take part in a one-week All-Texas Air Tour.

The participants, taking a week's vacation by air, are scheduled to visit various points of interest in West Texas including Fort Davis and McDonald Observatory and the Caverns of Sonora.

The group will gather at Temple and all planes will depart Oct. 1 for Corsicana, Henderson and Tyler. Mount Pleasant will be the first

landing on the second day and an afternoon at Six Flags Over Texas has been planned when the planes reach Greater Southwest Airport between Fort Worth and Dallas.

Quanah will be the first stop on the Oct. 3 leg of the tour and the pilots will continue to Borger, Dalhart and Hereford, with an overnight stop planned for Plainview.

The West Texas portion of the tour will begin in Midland Oct. 4 and the group will proceed to Marfa for an overnight stop and a tour of Fort Davis and the Scenic Loop.

## Veterans Administration

(Editor's note: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.)

Q—I am a serviceman with more than two years of service, but have less than 180 days since January 31, 1955.

Am I eligible for educational benefits under the new GI Bill?

A—Yes. Two years of active service, any part of which was after January 31, 1955, qualifies you. But, you are eligible — month for month — for only that time you have served since that date.

Q — As a so-called "Six month Enlistee" am I eligible for benefits under the new GI Bill?

A — No.  
Q — Is was on active duty

from August 19, 1957 to September 20, 1960. Am I eligible for hospital treatment?

A — Yes. All veterans discharged from military service, under conditions other than dishonorable, after January 31, 1955, will be eligible for admission to VA hospitals with the same general admission priorities as wartime veterans.

## Tower Protests Income Tax Ruling

Sen. John G. Tower has protested an Internal Revenue Service proposal to deny teachers' income tax deductions for the costs of continuing their schooling.

occupy the housing units. Perhaps when all the operation gets started we can get that information from local officials. At this writing we do not have a report and have not been apprised of how many of the units have been rented, if any.

THE marchers continue to run roughshod over the American public. The latest and most disgusting such march occurred in the halls of a federal building in Washington. How much longer the President is going to tolerate this un-American mess is the big question today. We, the taxpaying people, have had enough!

In a telegram to IRS Director Sheldon S. Cohen, Tower requested that he review and reverse the proposal.

"This method of adding the teachers of our nation when improved educational opportunities are of such vital importance should certainly be continued," Tower said.

"I concur with the Texas State Teachers Association and the National Education Association's view of this matter that it seem designed to discourage teachers from improving their teaching knowledge and skills."

**CITATION BY PUBLICATION  
NO. 519**

URBAN RENEWAL AGENCY ) CONDEMNATION  
OF THE CITY OF STANTON) PROCEEDINGS BEFORE  
SPECIAL COMMISSIONERS  
VS. ) APPOINTED BY JUDGE OF  
MARTIN COUNTY, TEXAS  
COUNTY COURT

JACOB KNUDSON  
THE STATE OF TEXAS

TO: Jacob Knudson, is Living, and if Deceased, his Heirs and Unknown Heirs

YOU are hereby commanded to appear at the hearing before the Special Commissioners appointed by the Judge of the County Court of Martin County, Texas, to assess the damages occasioned by the condemnation of the hereinafter described property, and to appear and answer in said Proceedings at the office of the County Judge in the Martin County Courthouse in the City of Stanton, Texas at 10:00 o'clock A. M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof, that is to say, 10:00 o'clock A. M. on Monday, the 12th day of September, 1966, and answer the petition of the Urban Renewal Agency of the City of Stanton, Plaintiff, in the suit styled "Urban Renewal Agency of the City of Stanton vs. Jacob Knudson," wherein the Urban Renewal Agency of the City of Stanton, is Plaintiff, and Jacob Knudson, whose place of residence is unknown, is Defendant, which Petition was filed with the Judge of the County Court of Martin County, Texas, on the 27th day of July, 1966; and the nature of which suit is as follows:

The suit is a Proceeding in Eminent Domain in which the Urban Renewal Agency of the City of Stanton is condemning, at the request of its Board of Commissioners, for rehabilitation purposes, which are public purposes, the following described tract of land situated in Martin County, Texas to-wit:

Lot 1 in Block 51, original town of Stanton, Texas, according to a map or plat thereof on record originally recorded in Vol. 1, page 258, Deed Records of Martin County, Texas.

You are notified that said hearing has been set for the 16th day of September, 1966, at 2 o'clock, P. M., at the County Courtroom in the Martin County Courthouse in Stanton, Texas, and to appear at same and present such evidence as you may wish. You are further notified to appear and answer said petition on or before September 12th, 1966, at 10:00 o'clock A. M. If you desire to appear and answer before said date of September 12th, 1966, do so at the office of the County Judge of Martin County, Texas, located at the Courthouse in Stanton, Texas.

The interest of said Jacob Knudson, whose place of residence is unknown, and his heirs and legal representatives, if any, is that he either owns or claims an interest in said property, subject to unpaid accrued taxes and other liens.

If this Citation is not served within ninety (90) days after its issuance it shall be returned forthwith.

**Philosopher Regrets Committee Didn't Find  
Farmers To Blame For Higher Food Costs**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw reports on high prices this week.)

Dear editor:  
This is the first time it ever happened, but a neighbor came over to my place yesterday and handed me a newspaper, just like that and said, "Here, see what you think of this?"

He pointed to a headline on the front page which said "Farmers Cleared Of Blame For Bread Price Hike." I sat back down and looked it over. According to it, a Congressional committee, investigating the price of anything bread, said it had found conclusively that the wheat farmer wasn't to blame. This sure seems like going to a lot

of trouble and expense to prove something every farmer has known for years.

While I don't raise any wheat, it didn't take a Congressional committee to tell me that when the price of bread goes up, the extra money never trickles back down to the wheat farmer's pocket.

I have never understood mechanics of it, but there is some sort of economic shut-off valve that never lets the flow reverse itself. The committee found out that for the amount of wheat in a loaf of bread, the farmer gets about 3 cents, which is about the same he got ten

In 1789, eight mutineers from the British ship *Bounty*, under the leadership of Fletcher Christian, landed on Pitcairn Island with 12 Tahitian women and six Tahitian men.

or fifteen years ago. I don't know if the committee is going to check up on other items or not, but it can save money if it'll just take my word for it that the farmer had practically nothing to do with the high price of on any shelf in any store, and it's a shame, too.

What I mean is, farming and ranching will never come into their own until they get to the point where a Congressional committee investigates them and comes out with the announcement that they've been charging too much for what they sell.

"It's those gouging farmers that're running the price of food up" — that's what the committee ought to find. There ought to be a headline in the paper reading: "Farmers Grin When Told They're Charging Too Much."

I could go on but I've got to get into town to find out what they're going to pay me this year for milo.

Yours faithfully,  
J. A.

**Editorial . . .  
Profile In Courage**

The Teamsters Union has produced a new definition of courage.

Courage is a young member, Larry A. Thomas, who along among 2,000 delegates stood up to oppose use of union funds for meeting James R. Hoffa's legal expenses. Thomas, a negro, is president of a Philadelphia local.

Only a few teamster have even risked twice-convicted President Hoffa's wrath in such open fashion.

Hoffa, awaiting the outcome of appeals on his convictions for mail fraud and bribing a juror, not only gets a blank check for defending himself in criminal litigation; he'll run

the union from prison if he lands there. As a further protection of his power, Hoffa dictated the choice of a vice president to succeed him.

It is a pity that the teamsters cling to their puppet attitude toward their wily boss. It is all the more pathetic because of the union's public involvement.

Hoffa may end up behind bars but will his dream of paralyzing the economy with a nation-wide truckers' strike, or worse? This nightmare in power could become a reality unless more teamsters show the Larry A. Thomas brand of courage.

**Lady,  
here's your problem.**

It's the food you cook, not the fuel you use, that soils your kitchen. But a modern GAS range can keep mess to a minimum. Closed-door broiling eliminates smoke. The "burner-with-a-brain" and 1001 temperature controls guard against cook-top burning and boilovers. So don't take potluck. Go GAS for clean, cool cooking.

The flame GAS MAKES THE BIG DIFFERENCE . . . COSTS LESS, TOO!
