

# Farm And Ranch Review

Agricultural researchers have found a dark-green turfgrass that actually grows better in moderate shade than in the sunlight.

It's called "No Mow" and thrives in moderate shade, says Dr. George McBee, turf specialist at Texas A&M University.

Most lawn grasses do not grow well in shady areas such as under trees or along buildings, he says. In A&M test, No Mow, a variety of Bermuda grass grew better under low light levels than ordinary St. Augustine, Bermuda, Tifway and Bahiagrass.

Part of the reason it grows better under shady conditions, says McBee, is its short internodes. An internode is the distance between nodes or the joints in grass.

Ordinary grasses, with longer internodes, usually become spindly and weak under shade. But No Mow grows to just the right height and density under low light levels.

No Mow will not grow without some light, however, cautions McBee. It needs about 35 percent of the sunlight to

do its best, he says. This means it grows well under trees since some light filters through. It also grows well along shady sides of buildings, where the sun may shine for only a short time each day.

The grass offers possibilities for shopping centers that may want grass along malls or other indoor areas, says McBee. It could also be grown in parks or recreational areas where there's too much shade for ordinary grasses.

The grass was developed in Florida and it supposedly needs mowing less often than other grasses. However, in the shade, says McBee, it has to be mowed as often as any other grass.

Many nurseries have, or can get the No Mow grass, he says.

Cotton yields have been upped and production costs lowered by planting in narrow, 7-inch rows. The narrow-row experiments are being carried out at Texas A&M University's South Plains Research and Extension Center near Lubbock.

Cotton production in nar-

row, 7-inch rows has been investigated for several years on Texas' southern High Plains. Yields have been slightly higher in narrow rows, compared to standard 40-inch rows, and costs have been cut as much as 27 percent.

The system was described by Dr. L. L. May, A&M agronomist at the Lubbock Center and a speaker at the 58th annual meeting of the American Society of Agronomy Aug. 21-26 at Oklahoma State University. Ray's co-worker on the project is E. B. Hudspeth, agricultural engineer at the Research and Extension Center.

With high populations of 200,000 plants or more per acre, leaf area increases rapidly and rate of fruit set is very high, the agronomist explained. Seasonal requirement for crop production has been reduced by about 30 days, and exposure of open bolls to weather has been lowered as much as 50 days.

## Celia B. Waters, Clayton M. Black Marry In Orange

Celia Beth Waters of Orange and Clayton Michael Black of Stanton were married at 3 p.m. Saturday in a ceremony in the home of the bride's parents, the Rev. and Mrs. Cooper Waters.

The Rev. Mr. Waters, pastor of the First Baptist Church, performed the double ring ceremony.

The bridegroom is the son of Mrs. C. S. Black of Stanton and the late Mr. Black. He is a senior student at Texas Technological College, where he is majoring in park administration.

A senior student at Tech, where she is an elementary education major, the bride is a member of Alpha Delta Pi social sorority, which she served last year as president.

The couple will be at home at 2422 23rd St. in Lubbock after Sept. 15.

Michael Cooper Waters gave his sister in marriage. She wore a white raw silk suit and carried a bouquet of white Butterfly roses and stephanotis centered with a white Cattleya orchid.

The matron of honor was the bride's sister, Mrs. Ray Nieder of Cleveland, Ohio. Jim Sale of Stanton was best man.

Mrs. Clayton Michael Black

Mrs. Robert A. Ingram,

pianist, played traditional selections and accompanied the soloist, Mrs. George Sigler.

A reception was held immediately following the ceremony.

Among the out-of-city guests attending were Mrs. Ted Ellis of Andrews and Mrs. Bob Latimer of Stanton, both aunts of the bridegroom.

### Spy Bares Good Tips For Doves

For the sportsmen all ready but no place to go dove hunting, a Texas Parks and Wildlife Department biologist dropped a few guide lines.

He suggested, of course, an exploratory trip before the open to attend to vital routine besides locating the birds. That would be obtaining permission of the property owner for hunting as well as for the exploring itself.

The biologists counsel for the procedure from there went something like this:  
**Watering area** — A tank, pond or stream with clean banks is a likely watering area for the doves. They generally seek water late in the afternoon after feeding.

**Jump shooting** — Fields containing grain, weedy growths such as sunflowers, dove weeds and other native seed bearing vegetation are the best dove feeding areas. Also fields of maize hegar, Johnson grass or cane that have been cut over are favorable spots.

**Pass shooting** — Areas between the feeding grounds and watering area over which the doves will be passing.

Jump shooting and pass shooting are recommended over watering sites following heavy rainfall when abundant surface water is standing in fields and rangelands.

The biologist also noted that during this season of the year doves are given to mov-

### Gun Peril Cited For Hunt Fans

Scores of hunting trips are marred every year in Texas by shooting accidents, many of them fatal, grimly reminds the Texas Parks and Wildlife Department.

In a pre-dove season opener plea (north zone September 1), the department said that since the oldest causes are the most common causes of field tragedies, they are being repeated:

Removing a loaded gun muzzle first from a vehicle;

Crawling through or over a fence with a loaded gun;

Failing to notice that dirt or foreign substance blocks gun barrel!

Jumping up in front of a companion into the line of fire!

Dropping a loaded gun;

Pointing a loaded gun at another person;

And, of course, "I didn't know it was loaded."

Besides being careful with fire arms, hunters, according to the department, should operate cautiously in hot weather. This is because of the general utilization of air conditioning that provides a serious contrasting temperature hazard, particularly for persons not in the best of health.

ing farm area to area, or here today and gone tomorrow. If the feeding sites continue as a source for grain, weed and grass seeds, likely other flocks will see fit to us them in turn.

### THE FAMILY LAWYER

#### "All Risks" Insurance

More and more often, insurance policies on a home or its contents are using that reassuring phrase "all risks." Instead of naming the separate perils you are protected against, like "fire" or "theft" or "windstorm," the policy will wrap them all up in those two short words.

How much protection does that give you? Does it mean you are covered for absolutely everything that can possibly happen to your property?

No, it does not.

For one thing, the policy itself may spell out exceptions. But even if it doesn't, the law will read certain exceptions into the coverage anyhow.

One such exception is a loss which you yourself cause, either on purpose or by extreme negligence. Take two cases:

1) a terrible-tempered farmer flogged his horse to death;

2) a home owner remained oblivious to the obvious while his dog soiled the carpet in more than 75 different places.

Both men claimed insurance under the "all risks" policy. But neither one collected. The courts reasoned that such insurance was never intended to reimburse a person for the consequences of his own flagrant misconduct.

Another exception is a loss caused by "inherent vice" — that is, the tendency of an article to go bad all by itself. Butter spoils, iron rusts, draperies fade, paint peels — not because of any outside peril but because of the product's own inherent nature. This, too, is the kind of a loss not within the usual scope of insurance protection.

Still, in spite of these exceptions, an "all risks" policy generally does give you a lot broader coverage than a traditional "named peril" policy. If there is a loss, it is not apt to point to a clause that covers it. On the contrary, you collect — unless the insurance company can point to an express or implied exception that rules it out. Thus:

In another case of carpet damage, a woman accidentally marred the surface by the too vigorous application of a cleaning fluid. And a court granted her claim for insurance, because it found no flagrant misconduct, no inherent vice, no relevant exceptions in the policy.

This was the kind of a loss, said the court, that an average person might reasonably have in mind when he buys "all risks" insurance.

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

Mr. and Mrs. Joe Stewart visited Sunday with her brother, W. C. (Curt) Flanagan, who is in the Big Spring Hospital. He has recently had surgery, and is reportedly doing well, and is now able to enjoy company.

It is unusual for a revue of this size to appear in this area. Special arrangements for this appearance were made through the Stanton Lions Club. Advance tickets are cheaper if bought in advance.

**Veterans Administration**  
 (Editor's note: Veterans and their families are asking thousands of questions concerning the benefits their government provides for them through Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.)

Q — I receive a pension from the Veterans Administration. I have some money in the bank and I was wondering if I have to report the interest on the account to the VA?  
 A — All income, including interest from bank accounts, must be reported to the VA in the year received.

Q — Can I attend a trade school overseas under the new G. I. Bill?  
 A — A program of education may be pursued only at an approved educational institution of higher learning overseas.

Q — I bought a home with a G. I. loan in 1952. My wife is now confined to a wheel chair, and cannot maneuver steps to the basement or to the second floor. Can I sell this home and buy another one-story home with a G. I. loan?  
 A — Your wife's disability is a compelling reason for selling your present home. But the VA must be released from all financial liability on the first property. Contact your VA Regional Office for details.

Tree frogs or tree toads have sticky pads on tips of their digits. These enable them to cling to smooth surfaces.

**Two - - -**  
 (Continued from page 1) miles northwest of Garden City.

The pool opener, Pan American's No. 1 E. L. Powell, was potentialized in April to flow 254 barrels of 39.5-gravity crude daily plus 20 per cent water, through an 18-64-inch choke. Yield was from perforations at 8,200-15 feet, which had been acidized with 375 gallons. Gas-oil ratio was 976-1 and surface pressure gauged 400 pounds.

No. 1 Powell is 1,320 feet from north and east lines of section 9, block 35, T-3-S, T&P survey, 12½ miles northwest of Garden City.

The Calvin, North (Dean) field gained its eighth producer with completion of Union Texas Petroleum, a division of Allied Chemical Corp. No. 2-46 Rape, 13 miles south of Garden City in Glascock, (formerly reported to be in Reagan County.)

Daily flowing rate was 65 barrels of oil through a 16-64-inch choke and from perforations between 7,467 and 7,763 feet. The productive horizon was treated with 1,000 gallons of acid, 67,500 gallons of fracture fluid and 202,500 pounds of sand. Gravity of the crude and gas-oil ratio were not reported.

Drill site is 1,320 feet from south and east lines of section 46, block 34, T-5-S, T&P survey.

Pan American has abandoned No. 1 Winnie Powell Cooper, a wildcat re-entry operation. Total depth was 8,750 feet.

It spots 660 feet from west and 679 feet from south lines of section 36, block 35, T-2-S, T&P survey, 12½ miles northwest of Garden City, in Glascock.

## Janis Morrison Left Sept. 1 For Germany

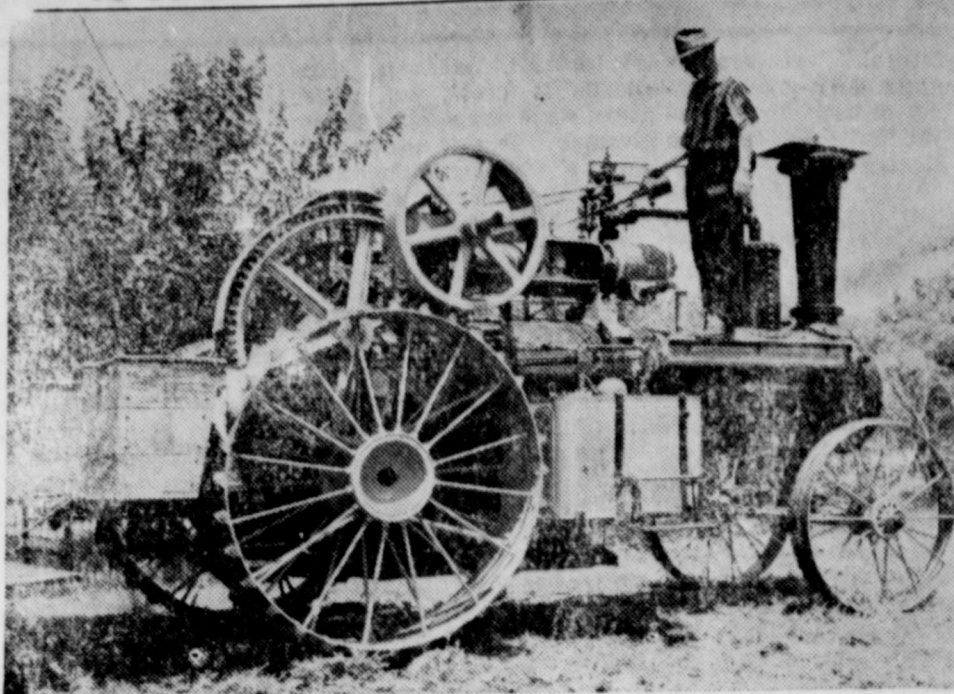

Janis Morrison, daughter of Mr. and Mrs. H. P. Morrison, left Sept. 1 from Lubbock to go to Heidelberg, Germany, for a year of study.

She joined a group of 40 people in New York City, from over the United States, who are participating in the "Pepperdine Year in Europe" program. They will tour London, Amsterdam, The Hague, and Copenhagen, before arriving in Heidelberg on Sept. 12.

Janis is a graduate of Stanton High School and Lubbock Christian College, a history major and a member of Delta Psi Omega.

She returns home on April 1, 1967, via Paris, France.

## GIANT NINE-TON STEAM-POWERED ANTIQUE TRACTOR TO STAR IN 1966 STATE FAIR'S AGRICULTURE SHOW

HOW 'YA GONNA KEEP 'EM DOWN ON THE FARM when there's going to be a big mad, mad, mad Agriculture Show at the 1966 State Fair of Texas in Dallas October 8 through 23. And Hal S. Smith of Cresson will bring his 1885 J. I. Case steam tractor to be the centerpiece in the big fun show. Here Smith oils some vital parts of the old tractor, still in running condition and still capable of furnishing power for a sawmill as it did around the turn of the century.

## 35 Die In Holiday Accidents

Americans continue to take to the highways on holidays and men and women die.

Thirty-five were killed in Texas alone this past Labor Day.

Traffic deaths across the nation during the three-day Labor Day weekend soared well above 600, a record for any period.

The National Safety Council reported a total of 363 killed in traffic when count stopped Wednesday.

Some of those injured on Labor Day in accidents are expected to extend the fatality list.

Other accidents caused the holiday death toll to climb well over the 700 mark.

**Dangerous Birds**  
 World's most dangerous birds probably are the cassowaries, large flightless birds of New Guinea. When cornered, these birds kick forward or backward with lightning speed. They have a stiletto-like claw, long neck and bill which are potent weapons.

**Austalian Holiday**  
 Australia celebrates a national holiday the Battle of the Coral Sea, in which an American task force defeated a Japanese fleet headed for Australia, thereby ending the danger of invasion.

Activities of the Community Action program could be vastly increased under this new approach. Such programs would have representation from the citizens to be helped and emphasis would be placed on maintaining local flexibility and supervision so each city and community might apply its efforts on a priority basis to its most pressing needs.

The Opportunity Crusade would initiate a new Industry Youth Corps whereby private employers would receive incentives to hire young people while they undergo on-the-job training for permanent jobs.

Careful administrative guidelines are written into all these programs to eliminate the confusion, delay and frustration which have plagued the current Poverty Program.

The Opportunity Crusade, then, would enlist state and local governments as partners in this effort. I would provide a more effective and useful framework for a truly national effort to provide education, jobs, housing and dignity for the poor. It will expand the good programs, eliminate the unworkable ones and correct the faltering ones.

Most important of all, it replaces federal dictation with community cooperation.

# Smith, Barnes Square Off On Firing Issue

A rift between two men mentioned as prospective gubernatorial candidates in 1968 has developed over the dismissal of Vernon McGee, director of the Texas Legislative Budget Board.

The argument erupted when Lt. Gov. Preston Smith launched a verbal barrage against House Speaker Ben Barnes of De Leon.

Smith said "there was simply no justification for the manner in which McGee was dismissed," and he added that it couldn't be defended.

McGee, who has headed the committee 16 years, was fired during an executive session of the 10-man Budget Board Monday. The dismissal is effective Wednesday.

The move is being interpreted by Barnes backers as a necessary first step to revision of the joint rules of the two houses to limit the power of conference committees.

Smith said the director's dismissal was "just a crusade for publicity on the part of the speaker," and added, "What worries me is how can the state attract qualified people when they don't know from

## Health And Safety Tips

From The American Medical Association

The making of safer automobiles has been much in the news of late.

Much has been written on whether it is the "nut behind the wheel" or the design of the autos themselves that is responsible for the steadily climbing toll of deaths and injuries from auto accidents.

Safer autos may be in the offing, but in the meantime Today's Health, the magazine of the American Medical Association, offers some tips to prospective buyers in selecting from models now available. Not all of these appointments are likely to be found on any one model, but they are at least a mental check list to keep in mind while shopping around. Some of them will be available only as "extras," at extra cost.

- \* Padded head supports to avoid neck injury.
- \* Padded dash and visors.
- \* Recessed dash instruments and control devices.
- \* Impact - absorbing steering wheels and column displacement.
- \* Safety glass all around.
- \* A dual braking system.
- \* Glare reduction surfaces.
- \* Back-up lights.
- \* An outside rearview mirror.
- \* Devices to cut down noxious exhaust.
- \* Electric sweep - design windshield wipers and washers.
- \* Cornering lights to illuminate the area into which the car is turning.
- \* Seat belts, front and rear. Better still, the shoulder harness.

Today's Health also points out that the paint job may be a safety factor in selecting your next auto. Light colors are more easily seen in the day or night, while dark colors blend into a surrounding background during daylight and make autos practically invisible at night.

"I'm the chairman of that board by law, and I'll call the meeting," Smith said. "But the speaker should know how we decide on meeting times. We send out cards, and the members indicate which dates would be better for them. These other members are businessmen and they have commitments. They aren't like the speaker, with nothing to do but politick."

**Part Of Appalachians**  
 The Cumberland Mountains are that part of the Appalachian system that extends across the eastern parts of Kentucky and Tennessee.

## Spell Quiz

Correct Answer is:  
**Austere**

## Star-spangled gift idea

You can put \$50 into someone's future with U. S. Savings Bonds—and the cost is only \$37.50.

You can also be pretty sure your gift will be used for something pretty important. Because most people hang onto their Savings Bonds until something important comes up. Like college tuition, a new baby, and retirement day.

Something else. You give more than money with U. S. Savings Bonds. In a small—but vital—way you give freedom, too. Because Bond dollars do a lot to help Uncle Sam stand tall in this troubled world of ours.

Prices start at just \$18.75 for the \$25 Bonds. You don't give Bonds for special occasions to all those "special" people? Yourself included.

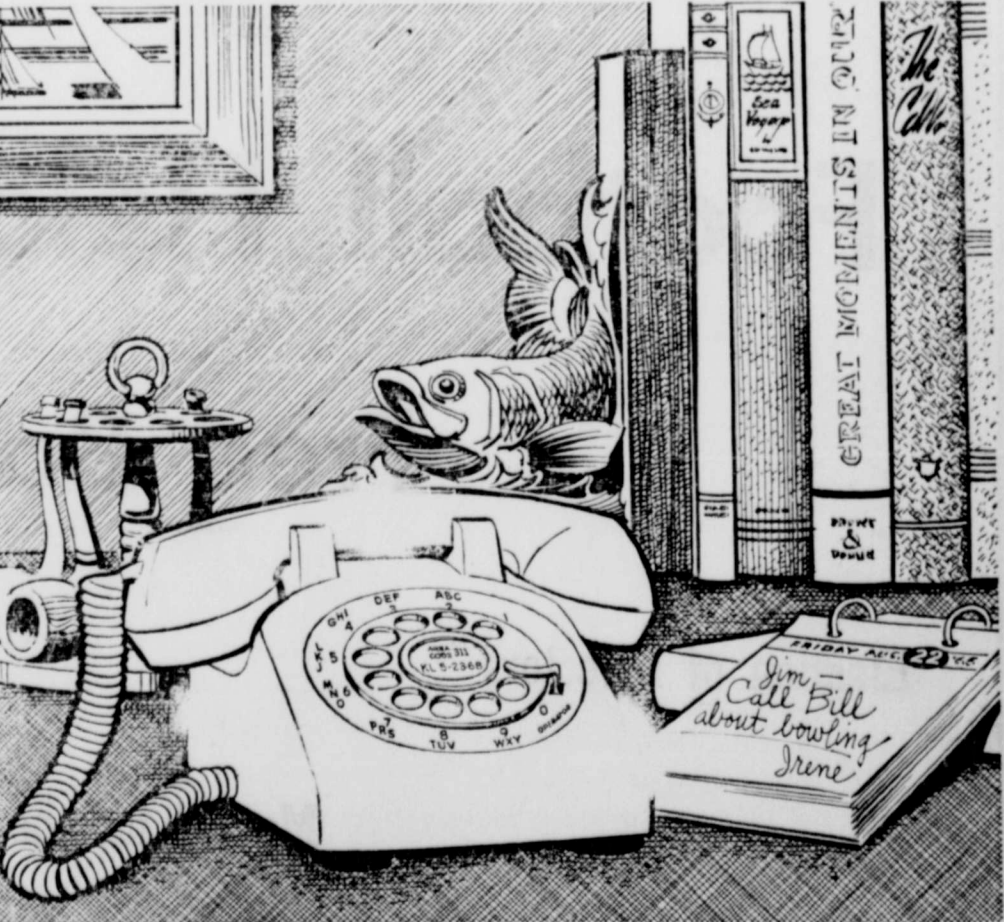

**Buy U.S. Savings Bonds**  
 STAR-SPANGLED SAVINGS PLAN FOR ALL AMERICANS

The U. S. Government does not pay for this advertisement. It is presented as a public service in cooperation with Treasury Department and The Advertising Council.

extension telephones can be located wherever you need them. No more running, just reach when the phone rings. Save steps and add personal convenience to your home. The cost for extensions is just a fraction of your regular service. Be a step-saver. Call the telephone business office or ask any telephone serviceman.

**Southwestern Bell**

# Auto Parade: Cat, Fish, Pal

Taking advantage of the obvious consumer infatuation with the "sporty, personal car," motordom's Big Three will introduce two more cars of that variety and a restyled version of a third this fall.

It's a cat, it's a fish, it's a pal.  
The cat is Mercury's Cougar, a flashy product designed to fill the personal car gap between the Mustang and the Thunderbird.

The fish is, of course, Plymouth's Barracuda which spokesmen say has been "Italianized" and now sports a vague, Ferrari-like look.  
And the pal is Chevrolet's Camaro (French for pal) which, until the 11th hour, was called the Panther.

People who have seen the three cars claim their styling is startlingly similar. All have smooth, flowing lines and slight rear-fender humps.  
The Fish and the Pal will compete with Ford's Horse (Mustang) and therefore prices will also be competitive.

Cougar, for the moment, will have no model - for - model competition and the price is several hundred dollars higher than the Mustang.  
When E. M. Estes, Chevy's general manager, announced several weeks ago that his division would have a new car he pointed out that "The Camaro is aimed at the fast-growing personal sports-type market that was pioneered by Chevrolet's Corvete in 1953 and further defined by the Corvair Monza in the 1960s."

He had a point, perhaps since Ford's Thunderbird

was introduced in 1954. But the Mustang really created the market to which Estes referred.

The Camaro, a four-seater, will be offered as a convertible or coupe and will be built on a 108 - inch wheelbase (which is also the Mustang wheelbase; the '67 Barracuda wheelbase is 106 inches). The Camaro will be introduced on Sept. 29.

Mercury's Cougar is slightly longer than the Mustang and initially will be built in only one model, a two-door hardtop.

The new car is distinguished by a long, slightly sloping hood and a short rear deck. It also has disappearing headlights which, when retracted, leave a wide, fine-barred grille broken in the center by a medallion. Basic engine is Ford's 289 - cubic - inch V-8. The Cougar will debut on Sept. 18.

Plymouth's new Baracuda, scheduled for mid-November introduction, bears only superficial resemblance to the current model. That big expanse of rear glass is gone, replaced by a relatively small rear window.

The car reportedly will be offered as a convertible and a "notched-back" - a fancy name for a non-fastback - and the styling is very European: smooth rounded lines; a minimum of chrome; a short rear deck.

Naturally, all three cars are equipped with GSA-suggested safety features and the options range from high powered engines to stereo tape players.

## HD Club News

The Courtney Home Demonstration Club met September 1, in the home of Mrs. Albert Pittman.

Mrs. Bryon McCracken gave the program on family life. Achievement day was discussed.

Refreshments were served to Mrs. Rae Davis, Mrs. Harry Echols, Mrs. Oliver Vaughn, Miss Ima Kelly, Mrs. Bryon McCracken, Mrs. Lillie Graham, Mrs. Chalmer Wren, and Mrs. Albert Pittman.

The next meeting will be Sept. 15, at the home of Mrs. Rae Davis.

The Koffee Kup Home Demonstration Club is having a membership meeting, Thursday morning at 9:30 o'clock, Sept. 8, at the library.

If you are interested in joining, please try to attend this meeting or contact Mrs. Bob Cox.

The City Council of Beta Sigma Phi met Tuesday, Aug. 30, for their first meeting of the year. Janie Boyd was elected to serve as president for the coming year.

It was decided to present an award to the outstanding Beta Sigma Phi member of the year. Regular meetings will be the first Monday of the month at the library.

Those present were: Mrs. Janie Boyd, Mrs. Nona Cain, Mrs. Bert Schwalbe, Mrs. Dannela Parnell, Mrs. Tince Ory, Mrs. Gracie Hanson, and Mrs. Kay Simpson.

## 1223 'Lope Marked For 66 Harvest

The temporary downward trend in antelope permits affects the Texas Panhandle as well as the Trans-Pecos, reports the Texas Parks and Wildlife Department which has declared 1,223 head surplus in three regulatory authority areas.

Surplus head available for harvest in the Panhandle number 301 compared with 432 in 1965 when 342 head were harvested.

In the Trans-Pecos, 534 buck permits are being issued compared with 580 in 1965 when 449 pronghorns were taken.

The Panhandle population was set at 2,167 this fall compared with 3,014 last year.

The Trans - Pecos head count was 5,630 this summer. In 1965 it was 6,259, contrasted with 4,963 head in 1964.

In the Permian Basin area, 388 permits were authorized, including 308 bucks and 80 does.

Antelope season dates are: Trans-Pecos and Permian Basin, October 1 through October 9; Panhandle, October 1 through October 4.

Alan Tate leaves of Abilene Christian College Tuesday, Sept. 6. He will be a junior. Alan is a Stanton High School graduate.

FARM FRONT

# Farm Group Feud Hurts Agriculture

By TOM MILLIGAN  
Farm Editor of The News

The 2-day hearing in Dallas on the federal order on a proposed cotton research and promotion act last week was something to behold.

If the bale upon bale of testimony proved anything it is the fact that agriculture in general and cotton in particular is beset with feuding farm organizations — both general and commodity.

And what is tragic about the whole thing is that when two professional agriculture men or two professional organizations feud the big loser in the long run is the man paying the bill — the farmer, in this case the cotton farmer.

The feud between the National Cotton Council and the Farm Bureau isn't new. It is at least 10 years old and shows every sign, if the Dallas and Memphis, Tenn., hearings are any evidence, of continuing for another 10 years—provided the cotton farmer and other farmers continue to put up their cash in the form of dues and buy insurance, tires, batteries, etc. in the case of the Farm Bureau.

The hearings, of course, are legal and required by law since Congress passed the cotton research and promotion act. If the secretary of agriculture finds there is "grower sentiment" for the act to be presented to them for a vote, he will do so. It is almost certain that the vote will be held in mid-November or early December at the same time

cotton farmers vote on acreage allotments and marketing quotas.

Two more hearings were held recently in Phoenix, Ariz., and later at Atlanta, Ga.

The financing plan and method of collection will be put into effect on the 1967 crop provided two thirds of the growers voting favor it or if simple majority of them favor it and produce two thirds of the cotton represented by the total vote.

The Cotton Council calls the plan which would assess all upland cotton produced in the United States \$1 a bale. Farmers who object to contributing would have to apply personally for a refund after the collection is made at some point as the cotton moves through the channels of trade — from the gin to the mill door.

The Farm Bureau calls this collection method compulsory. The entire hearing was devoted basically to the voluntary versus compulsory argument. Both sides paraded witness after witness by the hearing examiner to get their points into the record. The Council even had a couple of Dallas bankers testify for it.

The Farm Bureau stuck with their farmers — members — they have a goodly number of non-farmers as members.

Several Bureau witnesses argued long and possibly effectively that the promotion and research act gives too much power to the secretary of agriculture although the law and the act provides for a cotton board made up of producers to run the advertising and research program.

One witness for the Council said the Farm Bureau talks like there's a secretary of agriculture behind every cotton stalk, ready and willing to pounce on the farmers and mess up his business.

The Farm Bureau, the very same organization that had the big hand in getting the federal government into the farmer's hair, now says they want the government out so far as possible.

The Bureau and the Council got along fine so long as it was the cotton organization, which is composed of the seven interest groups of the industry, laid off supporting federal policy relating to cotton price supports and acreage.

Once the Council jumped into or got pushed into lobbying in Washington for cotton policy diametrically opposed to that of the Farm Bureau, the feud was on. It is still raging.

The pity of the thing is that cotton is in trouble, no matter who got it there—the Department of Agriculture, the State Department, the Farm Bureau or the Cotton Council. This country this year is going to produce the smallest crop in about a century—just over 10 million bales. Farmers' income is being bolstered out of the treasury because of the new cotton law putting price supports at about the world level — 22c a pound — and because the government required the farmer to not plant 12½ per cent of his allotment and paid him extra cash to cut back 35 per cent. All this was necessary because the United States has nearly 15 million bales of cotton in storage — owned by the price support and adjustment holding company, the Commodity Credit Corp.

The irony of the cotton situation too is that many acres of cotton land are being taken out of cotton, possibly never to return. And in some areas, cotton gins and other processing facilities needed only if and when cotton is grown, are having a hard time staying in business due to the reduced volume, higher labor costs, etc.

It would appear that the Farm Bureau is not going to let up on cotton commodity organizations which insist on taking public policy stands. The general farm organization seems to think they have the patented answer for all of agriculture and especially cotton. And, they persist in having their way or doing their utmost to keep any other group from having theirs.

## Jackie Leonard Wed In Stanton

Jackie Lauren Leonard and Bruce M. Carter, both of Midland, recited double ring wedding vows in a ceremony at 7 p.m. Saturday in the Re-organized Church of Latter-day Saints here.

Mr. and Mrs. Carl Leonard Jr., Route 2, Midland, are the parents of the bride, a senior student at North Texas State University.

The bridegroom, son of Mr. and Mrs. Maurice H. Carter, 3323 W. Dengar St., Midland, had most of the farming over to his son Roy, and it's unlikely that a chance for another mixup in names will occur. Red will never bring in the county's first bale. Especially is he keeps sleeping past 7:30.

Church Decorations  
Black spiral Spanish candleabra entwined with greenery and white chrysanthemums decorated the church.

Given in marriage by her father, the bride wore a sheath gown of crystal peau styled with an Empire bodice and full sleeves of lace traced with pearls. Appliques of the lace accented the bodice and scalloped sleeves. Her bouffant veil was held by a headpiece of white satin roses and petals. She carried a cascade of white rosebuds centered

## St. Louis Fire Fighters Back By Court Order

Mrs. Bruce M. Carter

St. Louis fire fighters walked off their jobs on strike and walked right back on the jobs after being ordered to do so by a judge.

It was a short march.

Mayor Alphonse J. Cervantes had called the strike illegal and said his administration "will not tolerate the irresponsible conduct" of the striking firemen.

Cervantes said, "The city firemen have for the most part abandoned their duty to protect the lives and property of the citizens of St. Louis. They have placed their personal problems ahead of this duty."

The mayor asked for the injunction to get firemen back to work.

### COMBATTING NOISE

The National Aeronautics and Space Administration have asked aircraft manufacturers to help plan a research program on cutting down noise from jet transports.

Boeing, Lockheed, Douglas and General Dynamics were asked to submit proposals by Sept. 30 for developing, marking and testing modified engine shelters.

with a white orchid.

**Attends Sister**  
Gail Leonard of Midland, sister of the bride, was the maid of honor. Eddie Ray Saunders of Midland, cousin of the bride, and Jill Carter, also of Midland, sister of the bridegroom, were bridesmaids. They wore formal sheath dresses of apricot crystal peau fashioned with scooped necklines and Empire bodices. Their headpieces were styled of apricot net roses and pearls. Their bouquets were coral-colored carnations centered on white satin and lace.

Bill Buskirk of Midland was best man. The groomsmen were Dennis Dodd and Lambert Phillips, cousin of the bridegroom, of Midland, and the ushers were Lee Heils and Jack Tyson, both of Midland.

A reception was held in the home of the bride's grandparents, Mr. and Mrs. Steve Church.

## Gibson Column

By RED GIBSON

It was sort of like an episode involving Shoeless Joe Jackson. You know the story: After Jackson and some other members of the Black Sox were found guilty of throwing the 1919 World Series, a little boy looked up at Jackson, his idol, and said:

"Say it ain't so, Joe."

That's the way I felt last week on my short visit to Stanton. Admittedly, the sin wasn't as big as Jackson's, and the offender no doubt had a better excuse. But all the same, I saw the shattering of a belief I had held since boyhood.

As a boy I used to hoe cotton for M. L. (Red) Koonce. Well, I suspect he remembers that he paid me to eat his food, frolic with his sons, swim in his tank and, occasionally, swing at a weed. I remember it as rising before dawn, eating quickly and hurrying into a field that was half jungle and half cotton — there to sweat until we could no longer tell weed from cotton in the darkness.

His recollection is probably the more accurate of the two. Anyway, Red Koonce has gotten up with the sun every day of his 60-some-odd years. I know that as a fact; you don't question some things. So I didn't hesitate to ring

URBAN RENEWAL AGENCY ) CONDEMNATION  
OF THE CITY OF STANTON ) PROCEEDINGS BEFORE  
SPECIAL COMMISSIONERS  
VS. ) APPOINTED BY JUDGE OF  
MARTIN COUNTY, TEXAS ) COUNTY COURT

JACOB KNUDSON )  
THE STATE OF TEXAS )

TO: JACOB KNUDSON, if Living, and if Deceased, his heirs and unknown heirs

YOU are hereby commanded to appear at the hearing before the Special Commissioners appointed by the Judge of the County Court of Martin County, Texas, to assess the damages occasioned by the condemnation of the hereinafter described property, and to appear and answer in said Proceedings at the office of the County Judge in the Martin County Courthouse in the City of Stanton, Texas, at 10:00 o'clock A. M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof, that is to say, 10:00 o'clock A. M. on Monday, the 26th day of September, 1966, and answer the petition of the Urban Renewal Agency of the City of Stanton, Plaintiff, in the suit styled "Urban Renewal Agency of the City of Stanton vs. Jacob Knudson," wherein the Urban Renewal Agency of the City of Stanton is Plaintiff, and Jacob Knudson, whose place of residence is unknown, is Defendant, which Petition was filed with the Judge of the County Court of Martin County, Texas, on the 10th day of August, 1966; and the nature of which suit is as follows:

The suit is a Proceeding in Eminent Domain in which the Urban Renewal Agency of the City of Stanton is condemning, at the request of its Board of Commissioners, for rehabilitation purposes, which are public purposes, the following tract of land situated in Martin County, Texas, to-wit:

Lots 5 and 6, Block 82, Town of Stanton, Texas, according to a map or plat thereof originally recorded in Vol. 1, pages 258-259, Deed Records of Martin County, Texas.

You are notified that said hearing has been set for the 30th day of September, 1966, at 2 o'clock P. M., at the County Courthouse in the Martin County Courthouse in Stanton, Texas, and to appear at same and present such evidence as you may wish. You are further notified to appear and answer said petition on or before September 26, 1966, at 10:00 o'clock A. M. If you desire to appear and answer before said date of September 26, 1966, do so at the office of the County Judge of Martin County, Texas, located at the Courthouse in Stanton, Texas.

The interest of said Jacob Knudson, whose place of residence is unknown, and his heirs and legal representatives, if any, is that he either owns or claims an interest in said property, subject to unpaid accrued taxes and other liens.

If this Citation is not served within ninety (90) days after its issuance it shall be returned forthwith.

GIVEN UNDER OUR HANDS at Stanton, Martin County, Texas, this 10th day of August, A. D., 1966.

# Glaspie-Thompson Wedding Held In Church Of Christ

Mrs. Ronny Day Thompson

Betty Jo Glaspie and Donny Day Thompson exchanged wedding vows at 7:30 p.m. Saturday in the Bellevue Church of Christ. The bridegroom's uncle, Troy Gardner, Church of Christ minister from Littlefield, officiated for the double ring ceremony.

Parents of the bride are Mr. and Mrs. Claud Glaspie Jr. of Route 1. She is a 1966 graduate of Stanton High School.

The bridegroom's parents are Mr. and Mrs. David Thompson. He attended Howard County Junior College and plans to enter Texas Technological College this fall.

After a wedding trip, the couple will be at home at 2316 15th St. in Lubbock.

Seven-branched candelabra, entwined with greenery, and baskets of Talisman gladious formed a background for the ceremony.

**Wedding Selections**

Nuptial music was provided by a quartet composed of Mrs. Shirley Watson, Jommy Thompson and Bill Bailey, all of Odessa, and Roddie Hamilton of Midland.

Given in marriage by her father, the bride wore a formal gown of imported chiffon. The re-embroidered Alencon lace bodice featured a contoured neckline and long, tapered sleeves. A flowing chiffon Watteau train swept from the slender silhouette. Her veil of silk illusion was attached to a burst of silk organza petals, dotted with re-embroidered Alencon lace and seed pearls. She carried a crescent-shaped bouquet of frenched white carnations, centered with a white orchid, and steamers of white satin picot ribbon, atop a satin covered Bible.

Mary Glaspie attended her sister as maid of honor. The bridegroom's sister, Anna Thompson, and the bride's sister, Linda Glaspie, were bridesmaids. Junior bridesmaid was the bride's cousin, Pam Holcombe.

Dale Thompson served his brother as best man. Groomsmen were Mickey Allen and Buddy Shanks. Junior groomsmen were Darrell Thompson, brother of the bridegroom; Users were Carroll Anderson of Lubbock and James Lewis.

Susan Fitzgerald of Oklahoma City, Okla., was flower girl, and Kerry Holcombe was ring bearer. Both are cousins of the bride. Candle lighters were Jackie Wells of Midland, eou-

or eight acre-inches of supplemental water as some other areas could produce with two acre-feet.

In presenting PCG testimony at the hearing, Pate will emphasize that we are not necessarily talking about water with which to raise surplus cotton. "In 15 years," Pate says, "the U. S. will badly need the productive capacity of the Plains for food crops, and there is every possibility that we will be raising potatoes and beans at that time. And with that in mind no one can rightly say at this time just how much we might be able to pay for imported water."

The second estimate of cotton production in the Plains for this season, jointly compiled by the Lubbock Cotton Exchange and Plains Cotton Growers, Inc., adds up to 1,608,000 bales, up 109,000 bales over the 1,438,750 bales estimated on August 1.

The significant factor in the increase, of course, has been the abnormally heavy rainfall throughout the Plains area during the month of August. Using the Lubbock station as an example, total precipitation for the month this year was 8.85 inches. This is the highest on record and 7.17 inches above "normal."

But observers are hedging the September 1 crop prediction against abnormal weather in September. Continued above normal moisture and below normal temperatures would undoubtedly multiply the adverse effect already seen on area crops, both in quantity and quality.

Oliver Newton, Agricultural Meteorologist with the specialized agricultural weather service here, says we can expect cool and wet weather in September. But we're hoping he's wrong — again.

"Growers and ginners should exercise extreme caution in the use of 'additives' either in the ginning or harvesting of High Plains cotton."

This quote from Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc.

Johnson points out that some cotton mill representatives are stating flatly that they will not buy cotton on which additives have been used.

The American Textile Manufacturers Institute recently passed a resolution expressing concern over the increased use of additives because mills have not had the opportunity to investigate the effect of additives on manufacturing efficiencies and cost and on yarn and fabric quality.

Some mill representatives have gone so far as to say they will not buy cotton from areas or gin communities where it is known additives have been used.

Johnson called attention to the following quote from one cotton user which indicates the gravity of the situation.

"I am afraid of any additive being put on cotton. When we get cotton in its natural state, we know how to handle it, but when we get cotton coming into our plant — some with additive and some without — there is no way for us to blend and manufacture it properly. Mills buying cotton wish to receive it in its natural state, without additives. Any additive that is put on cotton before it arrives at the mill will certainly cause complications in the manufacturing of the cotton into cloth."

# Carr Calls On More Emphasis

Atty. Gen. Waggoner Carr has called for increased emphasis on teaching Christian principles to young people as a means of reducing the crime rate.

Carr, Democratic nominee for the U. S. Senate, told a Knights of Pythias homecoming that society should install in young people "a sense of responsibility of their own actions."

He added that crime will continue to increase unless the lawless learn they will be dealt with swiftly and severely.

"What good will it do us to conquer war, hunger, pestilence and death, if we live in mortal fear of riots, murder, maiming and looting?" asked Carr.

# State Ends Fiscal Year Well Ahead

The state ended the 1966 fiscal year Wednesday well in the black, with an unencumbered general revenue fund balance of \$87.2 million, State Comptroller Robert S. Calvert reported Friday.

The solid general fund balance continued the state trend that began with passage of the 2-cent sales tax in 1961, ending years in general revenue deficits.

On Aug. 31, 1966, the comptroller closed his fiscal year books on an available balance of \$108.8 million.

The natural key in music is C major; it has no sharps or flats.

sin of the bridegroom, and Cheryl Bradshaw.

The bride attendants were attired in formal gowns of gold crystal peau. The Empire waistlines, enhanced with avocado green velvet ribbon and bows, had lowered round neckline and brief sleeves. Their cabbage rose headpieces of matching peau, surrounded by petals points, held illusion veils. They carried bouquets of Talisman carnations, with matching streamers.

Following the ceremony, a reception was held in the Cap Rock Electric auditorium.

The bridegroom's parents were the host couple for the rehearsal dinner Friday night at the Bellevue Motel Restaurant.

# Highlights And Sidelights

It seems that a power struggle between House and Senate leaders on the Legislative Budget Board cost Director Vernon McGee his \$20,000 a year job.

Board is made of five state senators and five house members. In the past they have fashioned the State budget . . . mainly behind closed doors.

House Speaker Ben Barnes maintains that the budget should be written "on the floor" by lawmakers and that all committee hearings on it should be open to legislators and the public.

Barnes wants the House to have a larger role in writing the multi-billion-dollar state general appropriations bill. He also wants to put a brake on conference committee powers.

He feels that a new budget chief, without close ties in the senate, will aid his drive for a joint legislative rules amendment to restrict conference committees to adjusting differences between bills, rather than writing new legislation in secret session.

McGee has helped process the State's \$3,600,000,000 biennial budget during the past 17 years.

Speaker Barnes, while praising McGee's ability, said the budget director had become too powerful and was too close to veteran state senators who have long dominated budget writing.

Lt. Gov. Preston Smith favored re-employing McGee. But the board voted 6-3 against rehiring. One senator joined representatives in the vote for discharge and another voted "present."

**Patrol Gets Short Week** — Uniformed Texas highway patrolmen are going on a five-day week as the Department of Public Safety moves to recruit and keep qualified officers and provide better law enforcement.

Col. Homer Garrison, director of the DPS, says there are 125 vacancies on the patrol services. Next deadline for applications is October 17.

# Judy C. Ferguson Wed To Stantonite In Houston

Mrs. James Randall Sale

Judy Cheryl Ferguson of Houston became the bride of James Randall Sale of Waco, son of Mr. and Mrs. J. Woodford Sale of Stanton, in a double ring ceremony Aug. 27. The ceremony was performed by Dr. Brooks Wester in the Park Place Baptist Church in Houston.

Mr. and Mrs. S. A. Ferguson Jr. of Houston are the parents of the bride, who will be a senior student at Baylor University this fall. She is a member of Alpha Omega social club.

The bridegroom received a bachelor of business administration degree in June from Baylor University and is an agent for Southwestern Life Insurance Co. He is a former member of the Baylor Chamber of Commerce.

After a wedding trip to New Orleans, La., the newlyweds will reside at 1710 S. 5th St., Apartment 248, in Waco.

Attending the bride, who was given in marriage by her father, as matron of honor was Mrs. Laura Lynn Pusch of Blum, Miss. The bridesmaids were Mary Ellen Barlow, Mary Lil Bomar, Charle Hilburn, Margaret Fuller and Nancy Phillips.

Mike Black of Lubbock was the best man. Groomsmen were Bill Blackman of Waco; and Robert Sale of Lubbock; T. R. Newman of Stanton, cousin of the bridegroom; Jack Arrington of Dallas, and Brian Harbour of Waco. The ushers were Jack Bookout of Waco, Jeff Bill of Arlington, Tommy Nunneley of Waco, and Larry Joe Ward of Kilgore, brother-in-law of the bridegroom.

The candles were lighted by Bell and Bookout.

Organist for the ceremony was Mrs. Ray Johnson, David Baucum of Tyler, brother-in-law of the bridegroom, was a soloist.

**NO. 529**

URBAN RENEWAL AGENCY ) CONDEMNATION  
OF THE CITY OF STANTON ) PROCEEDINGS BEFORE  
VS. ) SPECIAL COMMISSIONERS  
 ) APPOINTED BY JUDGE OF  
 ) MARTIN COUNTY, TEXAS  
 ) COUNTY COURT

JOHN C. FRASER )  
THE STATE OF TEXAS )

TO: JOHN C. FRASER, if Living, and if Deceased, his Heirs and Unknown Heirs

YOU ARE HEREBY COMMANDED to appear at the hearing before the Special Commissioners appointed by the Judge of the County Court of Martin County, Texas, to assess the damages occasioned by the condemnation of the hereinafter described property, and to appear and answer in said Proceedings at the office of the County Judge in the Martin County Courthouse in the City of Stanton, Texas, at 10:00 o'clock A. M. on the first Monday after the expiration of forty-two (42) days from the date of issuance hereof, that is to say, 10:00 o'clock A. M. on Monday, the 26th day of September, 1966, and answer the petition of the Urban Renewal Agency of the City of Stanton, Plaintiff, in the suit styled "Urban Renewal Agency of the City of Stanton vs. John C. Fraser," wherein the Urban Renewal Agency of the City of Stanton is Plaintiff, and John C. Fraser, whose place of residence is unknown, is Defendant, which Petition was filed with the Judge of the County Court of Martin County, Texas, on the 10th day of August, 1966; and the nature of which suit is as follows:

The suit is a Proceeding in Eminent Domain in which the Urban Renewal Agency of the City of Stanton is condemning, at the request of its Board of Commissioners, for rehabilitation purposes, which are public purposes, the following described tract of land situated in Martin County, Texas, to-wit: Lot 6, Block 61, Original Town of Stanton, Texas, according to a map or plat thereof originally recorded in Vol. 1, pages 258-259, Deed Records of Martin County, Texas.

You are notified that said hearing has been set for the 30th day of September, 1966, at 2 o'clock P. M., at the County Courthouse in the Martin County Courthouse in Stanton, Texas, and to appear at same and present such evidence as you may wish. You are further notified to appear and answer said petition on or before September 26, 1966, at 10:00 o'clock A. M. If you desire to appear and answer before said dates of September 26, 1966, do so at the office of the County Judge of Martin County, Texas, located at the Courthouse in Stanton, Texas.

The interest of said John C. Fraser, whose place of residence is unknown, and his heirs and legal representatives, if any, is that he either owns or claims an interest in said property, subject to unpaid accrued taxes and other liens.

If this Citation is not served within ninety (90) days after its issuance it shall be returned forthwith.

GIVEN UNDER OUR HANDS at Stanton, Martin County, Texas, this 10th day of August, 1966.

The Texas Water Development Board will be in Lubbock September 9 to hear the views of West Texans on its proposed "Texas Water Plan." The hearing will begin at 9:30 a.m. in the Municipal Auditorium on the campus at Texas Tech.

According to Joe Pate, Jr., chairman of the Water Committee of Plains Cotton Growers, Inc., "This will be the final opportunity for High Plains people to voice their opinions to the entire Water Board, and they shouldn't miss it."

Pate, who will present the testimony of Plains Cotton Growers, is concerned that with other important agricultural functions flanking the water hearing on either side on September 9 there will be small attendance, and that the Water Board might construe this to be the result of complacency on the Plains toward water.

"Those of us now in the short water areas already know what it means when a well drops to half a pipe or stops pumping altogether. And virtually all of the High Plains could be in a similar position in not too many years unless a way is found for us to share in some the nation's surplus surface water," he said.

This is the reason he says we cannot afford to miss the chance to present testimony to the Texas Water Board.

"There are many people on the Plains with a vital stake in water who are not at all familiar with the current water plan, but these people should at least attend the hearing in support of those who have studied it and will present statements."

Pate went ahead to point out that water from any out of state source, according to the experts, would be at least 25 or 30 years in coming, and that West Texas' irrigated economy will begin to go downhill long before that time. Therefore every possibility of bringing some of our state's own surplus water to this area should be thoroughly explored.

The Texas Water Plan as now envisioned doesn't even consider the possibility of this area ever getting any of the state's surplus water. It would take water from the Sulphur River Basin in northeast Texas, through a 980 mile canal, to South Texas. And a huge part of it would be used to irrigate land which has never before been in cultivation.

Pate is careful to say that it is not the desire of anyone in this area to kill the water plan. On the contrary, he feels there is probably no greater need in the state than a water plan that will trap all of the state's surplus water and put it to the best possible use before it spills into the Gulf.

"But," he adds, "we would like to see a complete engineering and economic study of all facets of the situation — including all areas in need of water and all possible water sources within the state—before the final plan is adopted."

No such study was made in the formulation of the currently proposed plan.

Among the advantages present on the Plains for making maximum and economic use of imported water are (1) large storage capability, both on the surface and in the underground formation, (2) widespread underground irrigation systems already in place and (3) an 18 inch annual average rainfall, with which this area perhaps can produce as much with six
