CROP AND ENESTOCK REPORTING SERVICE CELEBRATES 100 YEARS OF CONTINUOUS REPORTS

Cary D. Palmer, Agricultural Statistician in Charge of the Texas Crop and Livestock Reporting Service in Austin, reads a proclamation from Governor John Connally, designating 1966 as Crop Reporting Centennial Year in Texas. Accurate and timely statistics of agriculture help Texas farmers and agri-businessmen make intelligent production and marketing decisions.

Over a century ago, farmers began to realize that they were at a disadvantage when bargaining because they knew little about crop and livestock supplies outside their area. They asked the government for help and a system of crop reporting was begun to fill this need. This year marks the 100th anniversary of continuous reporting of acreage, yield and production for the United States.

Cary Palmer says that the crop reporting system of collecting agricultural statistics relies heavily on some 40,000 farmers and agri-businessmen. Their voluntary reports month after month and year after year have an important role in providing Texas agricultural statistics and make the American farmer the best informed of any in

The Launching Pad

THE Twelfth District Conference of the Texas Federation of Music Clubs will be held in Stanton Friday and Saturday of this week. Several members of the executive family will be present in the city during the two-day meeting and outstanding choral groups will appear in a special concert Friday evening at the First Baptist Church. MRS. GLENN BROWN, well known over the state and outstanding Martin County personality, is in charge of the conference arrangements.

SGT. LOYD E. WEBB, Longview, veteran officer in the Texas Highway Patrol for most of his adult years, died in a Temple hospital the past week. SGT. WEBB was a long time personal friend of ours and he had many other good friends in East Texas. WEBB was serving his 30th year with the Department of Public Safety when death cut short his career. WEBB was buried in full uniform of the service to which he gave so many years of his life and his name plate and badge were on the uniform. His badge number will never be assigned to another THP. He was a Methodist, a Mason, and a Shriner.

THE lack of interest in the approaching general election to be held in November is alarming. We will ballot on numerous constitutional amendments, all of them important, and a U. S. Senate seat is at stake. It's true enough that just one race of state level holds the spotlight but voter apathy should never seek an excuse. We should all study the amendments and then visit the polls to vote.

MRS. W. W. CARR brought us a jar of mesquite bean jelly this week. Her husband actually brought it to the office and found us out due to illness. We deeply appreciated this gesture of goodwill on the part of the CARR family. And MRS. LEE CASTLE telephoned us about another lady who makes the jelly. She is MRS. R. W. DARROW of Big Spring. From our brief investigation into mesquite bean jelly we gained the following method of preparing it. Cover some choice mesquite beans in water and boil until the skin is tender and the water red. With each three cups of the drained liquid add a half package of unflavored gelatin, three cups of sugar, half teaspoon of almond flavoring, and boil five minutes before letting it jell. Use small jars to bottle.

BY-THE-WAY, we have a very splendid mesquite tree growing in our back yard out here in West Texas. When we lived in Carthage, East Texas, a number of years ago our lawn was loaded on the front with beautiful oaks. The distinguished lady president of the Texas Federation of Music Clubs is visiting in our city this week from Carthage. She is MRS. DELLON BUM_ GARDNER. When we owned and edited the newspaper in Carthage several years ago the BUMGARDNERS did not reside in the city. They moved to Panola County after we moved out. That part of the great state of Texas is just marvelous and we have many long and lasting friends living in all directions out of Carthage. Some of the finest and happiest years of our life were spent there in the city and county bordered by the gentle flowing Sabine River. The tall pine trees, the fertile soil and abundance of rainfall and area lakes and recreation spots made the East Texas county named for the Indian word for cotton -Panola-one of the finest

TEXAS voters are becoming more sensitive annually about who they vote for. They don't like to favor the candidacy of any candidate who would roll into a place of public trust on the coat tails of another politician. Individualism and personal fortitude should be the trademark of any man or woman seeking public office at any level.
