HAVE YOU DRIVEN A - - -1967 PONTIAC

IN ALL FAIRNESS TO BEFORE YOU BUY ANY OTHER CAR

"DEALING IS ALWAYS FAIR" AT PERMIAN PONTIAC

Midland, Texas

There've been some changes made

There was a time when our telephone operators wore "floor duster" dresses and sat on high wooden stools. Not so today.

New equipment and new work techniques have revolutionized the familiar world of "Number, please." And the operating room of the future incorporates the most dramatic and far-reaching changes ever. In these new rooms, there are no plugs, cords or jacks. Instead of being lined up along a multi-position switchboard, operators sit at desk-like consoles widely spaced through the room. Everything is bright and modern.

Already operational in a few Southwestern Bell

cities, these newest operating rooms represent more than a change in looks. The new consoles make many new services possible. Customers can dial person-toperson, credit card and collect Long Distance calls.

Service is faster and more efficient. More and more of these new consoles will be installed as time goes by. But despite the changes in equipment and techniques, one thing will remain the same. Our operators will still be dedicated to giving the best possible service to our customers. The "voice with

a smile" is as important and meaningful as ever. Some things just don't need changing.

Top Stars To Appear At Prison Rodeo

Some of the nation's topflight entertainment personalities have been booked for personal appearances at the 36th Annual Texas Prison Rodeo each Sunday in October at Huntsville.

H. H. Coffield of Rockdale, prison board charman and chiarman of the rodeo commite, announced that three artists of the Lawrence Welk television s h o w will appear the first two Sundays. Jo Ann Castle, Welk's piano stylist, will give out with her own brand of honky tonk piano playing on October 1, followed by Norma Zimmer and Larry Hooper on October 8. Both Miss Castle and Miss Zimmer were favorites during the 1966 rodeo series. Miss Zimmer's singing has brought her many honors. Hooper doules as a genial pianist and deep-voiced singer. His rendition of "Oh Happy Day" piled up an impressive sales record of one million discs.

For the October 15 show the featured attraction will be Judy Lynn and the Judy Lynn Show said to be the most colorful figures in the countrywestern stable of music.

Starting the October 22 limelight will be two wellknown country music stars, Buck Owens and Floyd Tillman. Both have reputations as real crowd pleasers. Owens will be supported by his own musical group, The Buckaroos.

Closing the 1967 rodeo series on October 29 will be Roy Acuff, no stranger to prison rodeo fans. He will again bring his own brand of country muthe king that spelled fame and fortune for this native son of Tenneessee.

Also on the bill of fare all five Sundays will be former inmate Candy Barr, who proved to be a popular attraction last year. The famous Zoppe Family will be presented dur-

SUCCESSFUL SEWMANSHIP

Professional Tips for Sewing Stripes

A Symphony of Stripes

That's the fashion effect that clever scissoring gives in a season when stripes run every which way-on purpose.

Gone are the days when ver-

tical stripes were used solely to create an illusion of slenderness and horizontal stripes were the tall girl's trick for looking shorter. Today's stripes, used in new ways, offer a fresh fashion look—and can turn the simplest shift into a conversation piece.

Fashion sewing experts from The Singer Company offer these tips for sewing with

Look at the Pattern Envelope

Some patterns are not suitable for siripes and they say so, right on the envelope. Although the experienced designer can do wonderful things with stripes and complicated cut, the home sewer will find it easier to select patterns with simple lines, and a minimum number of pieces.

Plan Carefully

If the pattern doesn't match when it is laid out, it certainly won't match when it's sewn. In laying out the pattern, remember that the seam line, rather than the cutting line, is what

Go by the Stripes

Sometimes printed stripes are slightly off grain. When this is the case, place the grain lines of the pattern pieces with the direction of (or at right angles to) the stripes-rather than with the grain of the fabric. Woven stripes are always on grain.

Check the Balance To do this, fold the fabric in half, if both halves are the same, the stripe is balanced. If they are not, the stripe is unbalanced (or irregular). When using an unbalanced stripe, cut the garment out so that the right side is a mirror image of the left. This may necessitate

cutting pattern pieces separately in opposite directions on the stripes—and even adding a center seam, if the pattern is designed to be cut on a fold.

Key Cutting To the Dominant Stripe

The dominant stripe may be the widest one-or the brightest one. Squint at the fabric to see which stripe stands out - or which one you prefer. The dominant stripe is usually used for the center (divided in a seam, so that it retains its width, or centered if there's no seam); it is also usually used down the

center of the sleeves (starting at the shoulder mark). It may also be used for the waistband placket, cuffs, and pockets. In a horizontal stripe, the dominant stripe should be used at the

Let Stripes Suggest Effects

Frequently stripes can suggest effects: a yoke cut on the horizontal, and a skirt cut on the vertical or the horizontal; bias binding used to edge a vertically striped jacket or a horizontally-striped wrap-around skirt. The only rule is PLAN, so that stripes look as though they were meant to be where they are. To match stripes, arrange pattern pieces notches fall on the same stripe. When making a two-piece garment with vertical stripes,

make sure the center front and back of the top match the cen-ter front and back of the skirt or pants. When using horizontal stripes, work upward from the hem, so the fold of the hem of the top is on the same stripe as the hem of the skirt.

Adjust Stripes

If, as most do, the pattern calls for a bust dart, match stripes from the hem up-and at the shoulders. If stripes under the arm don't match, it's not too noticeable. For set-in sleeves, match stripes at the front armhole notch.

Pin Fabric When **Cutting Double-Thickness**

When cutting two thicknesses of fabric, make sure that stripes don't shift by pinning the two layers of fabric together every two inches or so.

Piece Stripes

In a stripe, piecing can be done almost invisibly by making the seam at the edge of a stripe. Just make sure stripes are in the order in which they're printed or woven. When possible, piece in the seam allow-

Match Up Facings The stripes on a collar should match the stripes of the facing.

If the collar is cut on the bias, this is not always possible.

Adjust Buttonholes Frequently buttonholes have to be adjusted to stripes. On vertical stripes, they should be aligned on the same stripe. On horizontal stripes, they may need adjustment so that they appear in stripes, rather than at the edge of stripes.

Stitch Straight

Before stitching, baste pieces together carefully. When stitching, guide fabric through machine slowly enough so that seams are absolutely straight.

SEMINOLE SENTINEL: "The Seminole City Council, looking to economy in the new city budget, trimmed \$23,213 off proposed city spending for 1967-68 at their regular meeting Monday night. The council proposed a budget calling for estimated expenditure of \$258,150, well below actual spending of \$281,363.72 in 1966-67. If spending for the coming year can be contained within the proposed limits, the city will spend nearly 13 per cent less than last year.

'Each department head took a good, hard look at expenses with an eye to operating as economically as possible,' reported city secretary Mrs. Bill Frost. 'We just tightened up in every department,' she concluded. Councilmen also set the tax rate at \$1.15 per hundred dollars valuation, same as last year. Estimated city property valuation is \$13,860,246, which reflects an increase of some \$178,000 over last year, Mrs. Frost reported."

THE MERKEL MAIL: "Directors of the Merkel Chamber of Commerce met in a called meeting Tuesday afternoon to further discuss possible industry for Merkel. C-C president Herman Carson brought board members up to date on an 'electronic firm from the East with a net worth of over \$750,000 desiring a location in the Big Country area.' Carson pointed out that the firm will 'make a decisioin this fall and would employ 100 persons with 90 per cent of them being famale."

MATADOR TRIBUNE: "There is no demilitarized zone between the City of Matador and the mosquito population since the advent of heavy rainfall which enhanced the 'invasion' of the pesky and dangerous insects. Fogging machines operate almost every night in order to cover the entire townsite, and control the mosquito nuisance. The fogging machines operate in streets and alleys at night, when weather conditions

THE MITCHELL COUNTY NEWS: "'What A Wonderful Name,' is the name of the long play record recently cut by the Loraine quartet, and which should be out this week. The record consists of 12 songs. Sales of the record will be through local merchants or from members of the quartet."

MORTON TRIBUNE: "Assembly and instruction work are now being carried on by the Electronics Division of Sound Tronics Inc., as three women were hired Monday to begin the operation of the Morton plant. Bob Cash, consultant for the electronics company, said the training of the women was progressing well and that an additional three women would be hired in two or three weeks. He said that present plans call for 10-15 women to be employed by the plant at the end of August."

THE EDEN ECHO: "Washington, D. C. — Congressman Omar Burleson (D) Texas announced today approval of a \$29,-635 Office of Economic Opportunity grant to Central Texas Opportunities, Inc., Coleman, for special summer program for two months to benefit an estimated 2,670 young people of low income families, to provide variety cultural and recreational activities, as well as employment opportunities in Callahan, Coleman, Concho, McCulloch, Runnels, Brown, Comal, Blanco, Mason, Mills, Llano and San Saba Counties."

Why are more and more families buying Total Electric homes? Here's what owners say:

"IF WE EVER BUILD AGAIN, WE'LL BUILD ANOTHER TOTAL ELECTRIC HOME

These comments from some of our customers explain why more and more families are choosing Total Electric living in a Gold Medallion home. Owners report matchless new comfort, convenience and cleanliness in homes where flameless electricity does everything - from operating work-saving appliances to lighting, cooling and heating the entire house. They have found that this better way of living is economical, too, on our low rate for Total Electric homes. Before you build, buy or remodel, let us tell you about the many advantages of Total Electric living.

Martin County Farmers Advised Of Profit, Loss

Proper timing of irrigation water can mean the difference between profit and loss for cotton farmers in Martin County, says Reagor, county agricultural agent.

Research results at the South Plains Research and Extension Center at Lubbock indicate that one four - inch early to medium maturing stripper cotton varieties yield the greatest returns from irrigation water.

The key to increased income from one four - inch summer application, includes the cotton variety and its growth stage. At peak bloom the plant when application is made earlier or later than this stage.

Approximately \$6 to \$8 more per acre can be obtained by compared with the same wasummer irrigation is delayed until 40 to 45 days after first bloom, a loss more than \$14

Late maturing stripper and non-stripper types can be irrigated as late as 30 to 35 days after first bloom.

Timing is also critical in Any delay in applying irrigation water can delay maturity per bale can result from a micronaire below 3.5.

Production of maximum fibtion of irrigation water tends swift growth is forecast for to increased income for South both business and personal air Plains cotton producers, travel over the next decade These and other factor can according to Federal Aviation Plains Development (SPD) ach 266 billion passenger miles

Included by the House were appropriations of \$502,800 to carry out this year's High Plains Diapause Weevil Control Program, \$275,000 for a reasearch project on uitilization of short staple cotton and instrument classing, and \$241,000 for staffing and equipping a ginning research laboratory at the South Plains Research and Extension Center, Lubbock

"It now appears that these items will meet no strong opposition in the Senate," Johnson said, "but we can't afford to take anything for granted."

Prize Missouri Recipes

Perhaps the most famous recipe from Missouri is the one for PREMIUM Saltine Crackers, the largest selling cracker in the United States if not in the

The recipe originated some ninety years ago in the Missouri town of St. Joseph. The F. L. Sommer and Company, a candy and baking company entered their "XXX" soda cracker in the St. Joseph's County fair where it took first prize and was judged "Premium" in the soda cracker category. The company, distributing its products primarily in the Missouri Valley, became American Biscuit ch eventually, in with three other

companies to form National Biscuit Company. The basic recipe and method of production has changed little since 1876 except that, today, an electronic control panel con trols the mixing of ingredients. The list of ingredients or formula used for the thin-crisp saltines now being produced

reads like this: about a thousand pounds of flour, some 35 gallons of water, one pound of east, 10 pounds of salt, varying amounts of soda (up to 12 pounds depending on the climate of the bakery), and almost 100 pounds of shortening

features two of Missouri's top income producers. HAM AND CORN CUSTARD

2 cups cubed, cooked ham (about 3/4 pound)

cups fresh corn kernels 3 eggs, beaten 4 cup all-purpose flour tablespoon sugar 4 teaspoon salt

Russo is the main witness in

1/4 teaspoon ground white pepper

1/4 cup butter or margarine, melted

2 cups light cream or milk
1 cup crushed PREMIUM Saltine Crackers (about 24 crackers) 3/4 teaspoon basil leaves Parsley sprigs

Spread ham on bottom of a 12x8x2-inch (1½-quart) baking dish. In a medium bowl, combine corn with eggs. Stir in flour, sugar, salt and pepper; add 2 tablespoons melted butter or margarine and cream; mix thoroughly. Pour over ham. Bake in a preheated slow oven (325°F.) for 35 minutes. Combine cracker crumbs with basil and remaining butter or margarine. Sprinkle in an attractive attern on custard. Bake 10 minutes longer, or until custard is set. Garnish with parsley sprigs. Makes about 6 (1 cup) servings.

Crushed saltines combined with butter and basil form the topping for this second prize recipe which

The Launching Pad

By NEAL ESTES

STANTON golf fans followed the play of CHRIS BLOCKER, Jal, New Mexico, in the Odessa Pro-Am the past week-end. A lot of cheers went up Friday morning at the OPTIMIST CLUB meeting when it was announced that CHRIS was among the tournament leaders. His cousin, CHARLES (CORKY) BLOCKER is an official in the OC. As a matter-of-fact, Stanton is full of CHRIS'S kin people. We were in RHODES MOTOR Friday and found an uncle and aunt of the young Jal golfer ready to take off for Odessa to watch their nephew play. RENA RHODES, sister of GEORGE BLOCKER, who is the father of the professional golf player, could hardly stand hearing about the reports coming in on the Pro Am. CHRIS wound up in fourth place with his partner, JIM HERRING of Amarillo and a fat check for \$1,250. The MASSENGALE brothers took first money of \$7,500 but had to set a new course record to do it.

SAM MARTIN says the dome in Houston is the largest place he has visited to date. MR. and MRS. MARTIN, their daughter's family, MR. and MRS. ROSS HAY and children, spent part of their vacation watching a baseball game in the large air-conditioned structure. SAM said it was definitely one of the eight wonders of the world as far as he was concerned. "I never saw the other seven but the dome is something." The two families traveled hundreds of miles on their vacation journey and never left the state of Texas, SAM said.

TUST by coincidence the following happenings preceeded violent carnage. MARTIN LUTH-ER KING visited in Chicago and a riot broke out after he departed. STOKELY CARMICHAEL spoke in Houston and rioting and property destruction occurred in Houston on a college campus. LYNDON JOHNSON met KOSY-GIN in Holly Bush, New Jersey, and after they left the state was torn with violence. In Newark, Plainfield, and in other towns and cities the mobs have looted, committed murder, engaged in theft, defied authority, and snipers have shot at duty pledged policemen. GOV. HUGHES, host governor to the Holly Bush conference, has failed to stop the stealing and common theft practices going on in his state. The 'Second Front' opened up in Newark the past week. Make no mistake about it, if this mob-style, window - smashing, police - killing type of anarchy is not stopped in the U. S. we will have to mobilize all the military might in our power to fight a war ten thousand miles away from our shore in Vietnam and another in the streets of this country.

BEFORE LYNDON JOHNSON appoints another member to the Supreme Court, I have a suggestion to make. Why not have a law making it mandatory that a person have a record of military service before going on the big bench for life. Such a law would do away with questions like those now being asked THURGOOD MARSHALL I firmly think that any man who fought for civil rights in the uniform of his country would automatically be considered 'safe' on the Supreme Court.

EV. RICHARD PAYNE observed a birthday Tuesday. We send our personal congratulations. The Methodist Church is fortunate in having a young pastor of his calibre preaching and the community has gained some alert civic-minded citizens since the PAYNE family move to our city. RICHARD is taking part in the proceedings of the Stanton Aero Club, the Optimist Club, the Rotary Club, the Lions Club, and other community organizations. He is secretary-treasurer of the newly formed Optimist Club, having been a very vital member of that organization while living in Midland.

QUR congratulations are in order this week to KAREN KAY THERWANGER, daughter of Deputy Sheriff and Mrs. G. B. THERWANGER. The Texas Tech student made the Dean's Honor List for the spring semester. The young lady was possibly destined to take her place in the honor groups of our colleges because of her personal charm, intellect, and other good qualities owned by her parents. I have maintained for years that heridity and a good home life gives this country its most worthy girls and boys. I would give a lot if KAREN KAY could have been present in our office when her dad's eyes blazed with parental pride on announcing his daughter's fine honor. And most certainly, this paragraph of congratluations to a nice young lady cannot be closed without mentioning that her mother is one of the community's most talented and intellectual person-

SPORTS authorities of the 1920-1930 era had the habit of pinning titantic names on great personalities. The habit covered characters from the baseball, football and golf field to the boxing ring. When PRIMO CARNERA died last week in Italy at age 60, we were reminded of the ring moniker the writers of the day tagged the giant Italian with. He was called "The Ambling Alp." CARNERA was champion less than a year. He won the heavyweight title on June 29, 1933 by a knockout over JACK SHARKEY. MAX BAER took the title from him on June 14, 1934. Just to name a few of the champions in the different arenas of sports in the two decades from 1920-1940, we had JACK DEMPSEY, known the "The Manassa Mauler," and BABE RUTH called, "The Sultan of Swat," and LOU GEHRIG, known as "The Iron Man." In baseball, of course, JEROME HERMAN DEAN was called "Dizzy" and his brother, PAUL, "Daffy." The DEAN brothers played with the St. Louis Cardinals in 1933 - 34 - 35, when that entire ball club was tagged "The Gashouse Gang." Two other outstanding members of the Card team answered to the nicknames of "The Lip," and "The Wild Horse of the Osage." These players were LEO DUROCHER and PEPPER MARTIN. I could go on and on from sport to sport, but suffice to say, they simply don't tag the greats with those awesome names anymore. What's happened?

AN Independence Day I spent an hour on researching some facts about our Presidents: LBJ is the thirty-sixth chief and is a member of the Disciples of

OSYGIN stopped by France for a talk with DE K GAULLE before coming to New York recently. He stopped over on his way home to snap CASTRO of Cuba in line and proceeded to France where he stopped for a second chat with DE GAULLE. Naturally, CHARLES DE GAULLE wanted to know what LBJ had to say at Holly Bush. KOSYGIN told him. Now the news comes that France and Russia will coordinate efforts to rebuild warshattered Arab power. There it is in a nutshell. The clouds of conflict loom again in the Middle East and the disgusting thing about it all is that KOSYGIN was allowed to enjoy a fine vacation to Niagra Falls at our expense. And the latest word out of Washington is that our taxes are to be raised again and postage stamps on first class mail -plain letters-are due to jump to seven cents.

in the play. They are, from left, Cindy Britton, Vicki Neeley, Myrtle Tool and Susan German. The Summer Mummers, during its 1966 season, played to 6,100 persons, the best attendance in the production's history. It is hoped a new record will be established during the current run, for all proceeds go to the Midland Community Theatre's Building Fund. Cindy Britton is a Stanton graduate and formerly resided in this city. She is the daughter of Souval Britton and the late Mrs. Britton.
