SENATOR ROBERT KENNEDY plans to introduce three bills to regulate the cigarette industry because, he said, "it is peddling a deadly weapon." It was pointed out that \$300 million a year is spent on advertising — mostly on television. It will be really shocking if the KENNEDY bill passes which makes the medium state on the air as on the packages of cigarettes that "Cigarette smoking is dangerous to Health and May Cause Death from Cancer and Other Diseases." After hearing the "death message bit" no cowboy would be shown taking a long draw and saying: "And each cigarette gives you seven more minutes of puffing."

STANTON OPTIMIST are going to help WHITE MOTOR COMPANY sponsor the annual Punt, Pass & Kick competition this year for boys age 8 to 13. The motor company has an ad in this issue explaining the rules of entry, and how to proceed to participate. JACK IRETON, popular citizen, and associated with WHITE MOTOR, is handling the competition publicity for the annual event.

REV. RICHARD PAYNE is in the forefront of workers in the local Optimist Club. He is secretary-treasurer of the club and works on every enterprise. The young organization is planning a number of coming fall events and they are sponsoring the Punt, Pass & Kick competition sponsored locally by WHITE MOTOR. REV. PAYNE was around town selling tickets to the installation banquet held Tuesday evening in Stanton for the first slate of Optimist Club officers.

The American people are now witnessing the sorry spectacle of striking school teachers in some sections of the nation. Teachers admit they are paid above the national average in New York yet thousands of school children are kept away from the classrooms because of the strike. I like to think of all school teachers as professional people — non unionists — and it dims the lustre of the profession when members of the teacher association march in the streets like some of the wild-eyed followers of the STOKEYE CARMICHAELS.

An air mail (par avion) letter arrived Sunday from Paris, Republique Francaise, bearing postage portraying CHARLEMAGNE of France, from GUY STORY BROWN. The 18-year-old son of MR. and MRS. GLENN BROWN is a student in the American University of Paris. He was a member of our staff for a few years and possibly the youngest newsman in the nation when he gained an interview with ELVIS PRESLEY at the age of 11. GUYBO "took up" with your writer as a small boy playing around the business neighborhood. The distance from his parent's drug store to the newspaper office was not great and I can see the curly locked boy with the big brown eyes coming in the back door of the office now. He is growing up, studying in Paris, France, telling me by letter of some of his future plans such as spending Thanksgiving in Berlin and Christmas in Madrid, Spain. GUYBO BROWN will go a long way and with his built-in ability he will pleasantly and charmingly walk right into the lives of many people — just like he did mine.

Mrs. Obera Angel attended a state Order of Eastern Star meeting in Lubbock, Saturday, September 9.

Optimist Club Officers Installed

Dodge Cars On Preview At Rhodes

The new 1968 line of Dodge automobiles will be unfurled at Rhodes Motor Company in Stanton, today, Thursday, September 14.

In the last issue of The Stanton Reporter, a page advertisement announcing the new line of Chrysler Corporation produced passenger cars and trucks appeared.

Finley and Rena Rhodes, owners and managers of the local Dodge dealership, will be delighted to have their friends in Martin County drop in for refreshments and a preview of some of the new cars.

Rhodes said the new 1968 models would be on display through Friday and Saturday too.

Cotton Office Plans Sept. 1 Open House

The Abilene Cotton Classing Office has planned an open house September 21, 22, 23, and 29.

Visiting hours have been set from 8 a.m. to 4:45 p.m.

A demonstration will be given each day to show exactly how cotton is classed. The grading system and process will also be explained.

Cotton growers, ginners, and other interested parties in the area are cordially invited to attend the open house.

Co-Op Scholarships Are Announced At Meeting

Linda Faye Shaw, and Ray S. McKinnon, Jr., Elbow, were announced here Saturday evening as the recipients of Mr. and Mrs. Larry Shaw, had started her studies at HCJC in the summer. Ray, son of Mr. and Mrs. R. S. McKinnon.

Linda Faye Shaw

Ray S. McKinnon

the Cap Rock Electric Cooperative scholarship to Howard County Junior College. Linda, who is the daughter

Martin County Students Attending Many Colleges

Students from Martin County are attending colleges and universities in widely scattered and various towns, all over the State of Texas.

Some of the students and the schools they will attend are: Lubbock Christian College, Curtis Brown, and Randy Huckaby. West Texas State Teachers College at Canyon, Mike Wood. West Amarillo Church of Christ Bible School,

PRESENTATION BELL AND GAVEL — Bob Truitt, president of the Midland Optimist Club, is shown presenting charter president Gerald Hanson with the Optimist Club bell and gavel at installation of club officers here Tuesday night; Richard Payne, secretary-treasurer of the local club, looks on.

Stanton Opens Season With 14-6 Grid Victory

Stanton High's Buffaloes used a devastating ground attack and a brick wall defense Friday to defeat the Roscoe Plowboys, 14-6, to open their high school football season.

In netting 220 yards on the ground, the Buffs climaxed one touchdown drive with a pass. Quarterback David Jones connected with Ricky Corbell from nine yards out. The point after the touchdown attempt failed.

Roscoe, with the help of eight penalties for 100 yards, held the invaders until the fourth period Stanton had two touchdowns called back

after penalties. In the fourth, big Bert Decker, a 200-pound fullback and defensive tackle, crasher over from five yards out for the second tally. A pass from Jones to Corbell was good for the conversion. Decker gained almost 100 yards as the leading rusher

for Stanton chalking up about 4.6 yards a carry. He also was outstanding on defense, along with Frank Arquello, a 200-pound sophomore, Carl Herzog, Pat Hall, and Don Burns.

W. W. Bouldin Passed Away In California

W. W. Bouldin, a former resident here, and brother of two local women, passed away at Taft, California, on August 29. He was buried in that city on September 1.

Bouldin lived northeast of Stanton on the old McWhorter place in 1919 and 1920. He is survived by his parents of Hico, Texas; two sons, who are both in the service; his wife of the home, and four sisters, Mrs. Dan Saunders of Stanton, Mrs. W. D. Howell of Leno, Mrs. Marshall Yates of Lamesa, Mrs. J. A. Russell of Hico, and Mrs. Ida Mae Pruitt of Miami, Florida.

F. L. Presley Passed Away September 6

Winfred Leroy Presley, age 67, expired Wednesday, September 6, at 5:00 p.m. at Physicians Hospital and Clinic, in Stanton.

He was a resident of Euless, Texas, and was here visiting his daughter, Mrs. Calvin Scoggins and family.

He was born March 2, 1900, in Birmingham, Alabama.

Services were held Saturday September 9, at 3:00 p.m. at the First Baptist Church, with Rev. W. H. Uhlman officiating. Interment was in Fairview Cemetery in Midland, under the direction of Gilbreath Funeral Home.

Survivors include two daughters, Mrs. Scoggins of Stanton, and Mrs. Laverne Elizabeth Presley, of Saigon, Vietnam; two sons, Herchel Lee Presley of Midland, and Bobby (Continued on page 8)

Stanton Lions Hear Students Trip Report

Stanton Lions Club met Tuesday noon at Belvue Restaurant. Lion Tom Ed Angel presiding.

Lion Cecil Bridges performed the installation rites, which made J. R. Dillard, Stanton High School principal, a full fledged Lion.

Four Stanton teenagers reported on their Lions Club sponsored trip to the Texas Youth Conference held recently in Austin. Reports given by Frances Deavenport, Joyce Howard, Alan Gregston and Victor Bentley, revealed achievements made by Texas youth who have participated in these annual youth conferences. Highlighting the theme of the conference was the philosophical aspect that if perfecting a peaceful, happy life on earth is man's purpose in living, then most men are failing their purpose. Life, short as it is, is the only time man will have to work for her fellow man. Now is the time to start.

In climaxing their report, the youths expressed an eager desire for parents and adult citizens of the community to help them help themselves in becoming better citizens that they, in turn, may learn to make the community a better place for the next generation. Lion John Wood, zone chairman for Region 1, zone 11, presided at a zone cabinet meeting Tuesday evening at Belvue Restaurant. Presidents and secretaries from Big Spring, Coahoma, and Stanton Lions Clubs were in attendance. (Continued on page 8)

Gerald Hanson To Head New Stanton Club

The Stanton Optimist Club received the club charter in impressive rites here Tuesday evening at 7:30 p.m. in Cap Rock Cooperative banquet room.

The Stanton Club was sponsored by the Midland Optimist Club and started meeting with twenty-five charter members a few weeks ago. The formal presentation of the charter to the local club found several dignitaries in Optimist International present in Stanton when President Gerald Hanson received the charter for the Stanton club.

Midland Women Plan To Conduct Flower School

A special invitation to the women of Stanton, was issued for them to register and attend the Flower School Number 5, sponsored by the Midland Council of Garden Clubs, Inc., which will be held at the Holiday Inn in Midland Sept. 27, 28, and 29.

Instructors will be Miss Irene Haddon of Dallas, Texas flower arranging, and Mrs. John R. Salois, Dallas, Texas horticulture and garden design.

Each day, a buffet will be served in the Rib Room, for the convenience of those attending the school.

Examinations will be given Friday from 9:00 a.m. to 1:00 p.m. In consideration of out of towners, special arrangements will be made to take the examination at their convenience.

Fee for the complete school will be \$7.00, or one day for \$3.50, with registration fee to be in by September 18. Checks should be made payable to Midland Council of Garden Clubs.

There is a required reading list for Flower Show School Number 5, that must be completed.

For further information contact Mrs. William L. Drake, chairman, 709 Harmony Drive, OX 4-5791, Midland, Texas, or Mrs. R. L. Grubb, 1401 W. Kansas, MU 2-3447, Midland, Texas.

Bufs Open Home Season Against Iraan Braves

Stanton opens the home grid season with the Iraan Braves in the opponent's home here Friday night.

The contest is expected to draw a capacity crowd despite the fact no district honors are at stake.

The Bisons have four coaches this year. Coach Tom Blackwell was our contact man for the information on the Bufs Wednesday morning before their game Friday.

Blackwell said: "We are all happy over the victory over Roscoe last week and our squad is ready for Iraan."

Coach Blackwell said the team injuries were held to a minimum in the opening game away from home last week but for the exception of a serious

elbow injury to defensive end Pat Hall. Hall will see little, if any, action in the Friday night contest against Iraan. Coach Blackwell stated that Bryan Boyd, head coach, had authorized him to say the following players would probably start the game against Iraan: Quarterback, David Jones; fullback, Bert Decker; halfbacks, Alan Gregston and Jimmy Jones; center, Johnny McMeans; guards, Freddy Newman and Steve Hall; tackles, Karl Herzog and Frankie Arquillo; split end, David Avery and right end, Benny Avery.

Bert Decker was picked as back of the week following the Roscoe game and Karl Herzog was named outstanding lineman.

Cap Rock Meeting Draws 1,600 Members

Three directors were re-elected to the board and 1,600 members of the Cap Rock Cooperative dined sumptuously on barbecue Saturday night at the 28th annual stockholders meeting of the organization. The program was presented at the Stanton High School football field.

A highlight of the evening was the presentation of scholarships to Linda Shaw and Ray S. McKinnon, young co-op family student, and an address by Gene Linn, Rogers, Texas, formerly with a television and radio service in Lubbock.

Re-elected to the board of directors were Mrs. Lee Castle, Big Spring, Garden City route for District 4; Paul

Lubbock Operator Completes 1-B Hale Well Near Ackerly

By JAMES C. WATSON
R. H. Fulton of Lubbock has completed No. 1-B Hale as an addition to the Ackerly (Dean sand) pool in Martin County, eight miles southwest of Ackerly.

On the 24-hour potential, it flowed 198 barrels of 38-gravity crude through a 10-64-inch choke and from a series of perforations between 8,312 and 8,542 feet with surface pressure of 715 pounds. The pay section was acidized with 1,000 gallons and fractured with a mixture of 200,000 pounds of sand mixed with 100,000 gallons of oil. Gas-oil ratio was 280-1.

No. 1-B Hale drilled to total depth of 8,675 feet and set 4 1/2-inch casing at 8,643 feet.

Wellsite is 1,980 feet from south and 660 feet from west lines of section 42, block 4, T-3-N, T&P survey.

A Midland County prospect, No. 1 J. M. King will be tested through perforations by F. W. Holbrook of Midland after 1/2-inch casing was run

to the total depth of 4,231 feet.

A core cut from 4,181 feet to 4,231 feet in the San Andries had slight shows and earlier a drillstem test, possibly in the Grayburg, logged oil and gas shows.

The checking was for two hours at 4,057 - 82 feet with recovery being 150 feet of oil and gas-cut mud and one gallon of free oil.

Flowing pressure was from 43 to 72 pounds with one-hour initial and final shut-in pressures being 1,827 and 1,318 pounds respectively.

Another core at 4,043-82 feet recovered dolomite with slightly bleeding oil from 4,064-79 feet.

The venture is 10 miles southwest of Stanton, 467 feet from south and 567 feet from west lines of J. L. Veazey survey, abstract 997, in the Azalea (Strawn and Devonian gas) area. It also is three miles northwest of the Germania (Grayburg) reservoir.

How do you start your day—with God or without Him? "He who runs from God in the morning," said Bunyan, "will scarcely find Him the rest of the day." Therefore go into the presence of God before you get into the presence of man.

Resolved David in Psalm 5:3, "My voice shalt Thou hear in the morning, O Lord." No matter how brief a period you can give to prayer, in the morning, do not allow breakfast or business, family or friends rob you of it. Thy first transaction be with God Himself above, so shall thy business prosper well, and all day be love.

Reasoned David in Psalm 5:4, "In the morning will I direct my prayer unto Thee, and will look up." He meant, "I will put my petitions in order and I will watch and wait for the answer." A woman telephoned the manager of an auditorium that she had lost a diamond the night before,

and asked if it had been found. "Hold the line," he answered. The pin was found, but when he returned to the phone the call had been cut off. The woman did not wait for an answer. Many people do not expect anything to happen when they pray. That is the way to make sure that nothing does happen. Begin every day and every thing with God and you will end up with His blessings!

George Tom Returns To Naval Training

George Tom has returned to the Great Lakes Naval Training Center after spending the Labor Day week-end with his parents, Mr. and Mrs. L. G. Tom. Others visiting in the Tom home also were, Mr. and Mrs. Bob Ragland, and Mrs. C. E. Crow of Bakersfield; Troy Woody, Grandfalls, and Mr. and Mrs. Chuck Van Horn of Midland.

COOK UP A PARTY!

And what a party it's going to be with a new gas range to help. You can create all kinds of festive recipes. With a gas range you have unlimited temperature control, not just a few fixed dial settings. You adjust your gas range to the perfect temperature for the most delicate recipes. And when a quick temperature change is required, it's easy . . .

with instant on - instant off control. No hang-over heat. A gas range lets you broil with the oven door closed. Inside, grease splatters and smoke are consumed by the gas flame. No mess, no over-heated kitchen. Your friends will notice! Delicious foods always leave a good impression. So, how about it. Cook up a party with clean, economical gas.

Red's Corner

By RED GIBSON

Museums customarily have more letters than they can shake a quill pen at. Curators and guides are fond of noting that one historical figure or another changed the path of his country's future with letters to friends or enemies. Well and good. No one wants to quarrel with history. However, the skeptics among us can't help but wonder what history would have been like if letters had been different. Maybe like these examples:

Dear Mr. Revere,
We regret to inform you that our entire stock of spirited saddle horses has been chartered by another firm and we will be unable to supply you with a mount for the next two weeks.

We expect to have new models early next month and hope to serve you then.

Sincerely,
Hertz Rent-a-Horse Inc.

Dear Mr. Michelangelo:
Your proposal to paint religious pictures on the ceiling of our church was an unusual idea, intriguing in many ways. However, after due reflection, we feel that the church work would be better carried out if we continued with the present plain color scheme. Again, our thanks.

Yours truly,
The Pope.

Dear Miss DeMilo:
Although our hire-the-han-capped council has been avidly seeking employment for you, we have been unable to come up anything since you rejected that modeling job of offered last month. Do not lose hope; we'll keep trying.

Handily yours,
The Employment Agency

Dear Mr. Franklin:
We are temporarily out of the fine wire you requested in

your recent order. However, we are sending along a packet of twine that is, we assure you, sir, strong enough for the purpose you describe.

Shockingly yours,
Brown's Hardware Store

Dear Mr. Karl Marx:
We are pleased to inform you that you have passed, with flying colors, the executive testing program for our company. We would therefore like to offer you the position of vice-president in charge of advertising, at a salary double your present scale.

Sincerely,
John D. Rockefeller

Dear Mr. Columbus:
You gotta be kidding. Regards,
Isabella.

Dear Mr. Lincoln:
I don't know who started the rumor, but I want to assure you that I have no intention of publically debating you or anyone else on the slavery issue.

Yours truly,
Steve Douglas

Dear Mr. Washington:
This is to inform you that your new boat has been delivered. We wish to respectfully point out, sir, that the design of this boat is imperfect in one detail: If anyone stands up in this boat, she'll turn over sure as heck. Therefore, we urge you to caution all passengers to sit quietly.

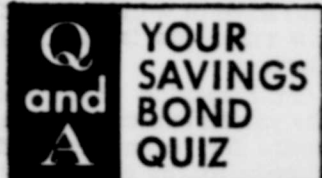

Yours for smooth sailing,
Delaware Shipbuilding Co.

Dear Mr. Gibson:
Do you call this mess of garbage a column?
Best regards,
The editor.

According to a University of Chicago study of 648 employees whose employees were organized by unions, these are five main errors the employers made that brought about unionization: "1. Giving employees only a minimum of information about the status of the company's health, financial position, its goals, sales and production achievements or nonachievements. 2. Introducing change in plant equipment, tooling or policy without advance notice or subsequent explanation to work force. 3. Making key decisions in a vacuum of ignorance as to what employees really want. 4. Use of pressure tactics, rather than leadership, to secure high production and productivity. 5. Playing down or pooch-pooching, or personal dissatisfaction in the plant."

Freedom Shares subject to tax?

Answer: Yes. Freedom Share interest is subject to Federal income tax, but not to state or local income taxes. Tax liability may be deferred until the Freedom Shares mature, are redeemed, or are otherwise disposed of. However, the same method of reporting must be used for Freedom Shares and for all Series E Bonds owned by an individual.

Question: Why aren't the new Freedom Shares sold "over the counter" the same as Savings Bonds?

Answer: A main purpose of Freedom Shares is to attract additional dollars—from current income—into the savings market without disturbing existing savings programs. Therefore, the Treasury makes them available only to regular buyers of Series E Savings Bonds.

Question: I am a self-employed steady purchaser of Savings Bonds. Why can't I also buy Freedom Shares?

Answer: You can. But you must sign up under the Bond-A-Month Plan where you bank or save. Only persons who are enrolled in regular, formal plan for the purchase of U. S. Savings Bonds are eligible to buy Freedom Shares.

Question: Is the interest of

Bible Comment—

Reaching Out Is Mark Of Christianity

"Outreach" is a good word for the Christian church. It began by reaching out, and missionary enthusiasm and activity have been its deepest characteristics through the ages.

Jesus reached out for His first disciples. He did not take those nearest at hand, or those among the officially religious, to whom a religious leader might naturally have appealed. He reached out into the common life, and took fishermen and others of lowly, but very active, occupations to be of the inner circle. He wanted workers—those who would be fishers of men—reaching out and gathering others into the Christian way. Even if the disciples had

not been ready and willing to obey the Master's command to go into all the world and preach the Gospel to every creature, events gave them little choice. The persecution that broke out scattered them, but they had learned well the Master's lesson, and everywhere they went they proclaimed the truth and won disciples.

The world needs as never before the saving, healing, purging power of Christianity and the church, if it will, can meet that need as never before. The church—that is, the people in it—must, in these days, manifest in new and powerful ways the "out-reach" in which the church began.

Philosopher Knows Now Why TV Newscasts Sponsored By Makers Of Headache Remedies

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw is having trouble handling all the news, his letter this week indicates.)

Dear editor:
A neighbor of mine said to me the other day, "You sure must be lucky, always finding a newspaper to read free of charge," but I don't know that you'd call it lucky every time a paper turns up here on this Martin County grass farm.

For instance, I read in a paper I found caught in a weed patch yesterday that hordes of hungry mice have swept across parts of Yugoslavia eating 90 per cent of the farmers' wheat, beans and potatoes.

You think it's lucky to know about this? Up till I found that paper I hadn't even thought about the crops in Yugoslavia, one way or the other, but now I'm saddled with the knowledge of one more crisis in the world.

Rapid communication by newspapers and television and radio has saddled the world with the knowledge of

more crises than I care to know about. Do you think the early American Indians centuries ago over here all by themselves would have been any better off if they'd known about the Egyptian plagues underway about that time? How many Egyptians had to worry about a prairie fire in North America?

A man has enough to fret about without having to take on all in the same breath a flood in Alaska, a mice invasion in Yugoslavia, riots in 15 American cities, an election in South Viet Nam, a speech by Fidel Castro, a forest fire in Idaho, traffic accident statistics for Labor Day, a statement by De Gaulle, turmoil in China, a tax raise in Washington, a drought in Central America, a shake-up in the British cabinet, a dead battery in his own car, the death of a baby whooping crane, the discovery that roaches cause asthma, a speech by Rap Brown, etc., just to name a few.

No wonder so many television newscasts are sponsored by companies selling headache remedies.

By the way, if you have an extra copy of last week's Stanton Reporter, send it to me. I missed mine and want to catch up on the news.

Yours faithfully,
J. A.

Beta Sigma Phi Activities

XI Epsilon Delta Chapter of Beta Sigma Phi opened their year's activities with a Mexican dinner in the home of their new president, Mrs. Russell McMeans, Thursday, September 7, at 7:00 p.m.

After the business meeting, Mrs. Homer Schwalbe presented the program, "On Being Alive," with emphasis on the art of giving and the use of our talents and time.

Those present were Mrs. Dwayne Ory, Mrs. Henry Louder, Mrs. Homer Schwalbe, Mrs. Euel Ferguson, Mrs. J. M. Payne, Mrs. Wallace Kelly, Mrs. R. C. Thraillkill, Mrs. Lois Powell, Mrs. Correne Manning, and the hostess, Mrs. McMeans.

GRAND BALLOON ASCENSIONS SET FOR 1967 STATE FAIR OF TEXAS

UP, UP AND AWAY! Bill Berry, president of the Hot Air Balloon Club of America and holder of a balloon altitude record with an ascent of 18,980 feet, will make area Grand Balloon Ascensions in his State Fair Balloon starting a week before the 1967 State Fair of Texas. Then he will make both tethered and free flights from the fair itself for a week after its opening Saturday, Oct. 7, in Dallas. The March 1966 issue of National Geographic featured Bill Berry and his balloon, which is eight stories high and holds 60,000 cubic feet of hot air.

Sen. John Tower's Column

Vietnam Air War

As you know, I have been to Vietnam three times in the last two years, and I hope to go again this fall. After each of my investigation trips for the Senate Armed Services Committee, I have frankly reported to you my assessment of the Vietnam War situation and my suggestions on steps that could speed an end to the fighting.

Nearly two years ago, after my first trip to Vietnam, I advised Texans that an intensified air war against North Vietnam would cut U. S. casualties in the South. And, I stated that the closing of the North Vietnamese supply port of Haiphong was the single, most effective way to damage the communists' war effort.

Again in the spring of 1966, and in the subsequent spring of 1967, I returned from Vietnam with identical observations. Closure of the Haiphong port is still the thing that most needs to be done against North Vietnam. It is entirely possible that had the Administration acted decisively to close Haiphong 24 months ago the war would be nearly over today.

Throughout the two years that I have been recommending this step toward victory, much of the evidence which led me to make that recommendation has been obscured by Defense Department secrecy restrictions.

Now, within the last two weeks, the Senate Armed Preparedness Subcommittee has taken evidence from our top defense officials, and released to the public for the first time many of the previously classified reasons why the air war in the North has so long concerned not only me, but also other members of Congress.

The facts are that the Administration has so restricted and hamstrung our airmen that the U. S. air effort against North Vietnam has not been allowed to achieve the pressure for victory which it could and should achieve. The Senate subcommittee reports that U. S. air power has been purposely prevented from waging the air campaign in a way best calculated to achieve results — prevented by overly restrictive controls, strict limitations, and the general Administration doctrine of "gradualism."

It should be nothing less than astounding to Americans that throughout all of 1966 our airmen were allowed to strike less than one percent of the militarily significant targets in the North. Only in very recent weeks have some of the restrictions on our air effort been lifted,

but there still remain more than 50 key targets recommended for attack by the Joint Chiefs of Staff but placed off-limits by Administration civilians.

The Senate subcommittee states that in its view "the long delay in approving targets in North Vietnam has almost certainly contributed to our aircraft and pilot losses since it has given the North Vietnamese the time to build up formidable air defenses."

Moreover, the subcommittee feels the long delay enabled the enemy to prepare for and to alleviate anticipated loss of key supplies and installations by giving the Reds lots of time to relocate and conceal such things as oil storage.

Another key point made by the subcommittee report is that, even in cases in which some major targets have been approved for attack, second attacks on those same targets after they have been repaired by the enemy have been denied, particularly in the areas around Haiphong and Hanoi. And, despite target-attempt improvements in recent days, there still remain absolute sanctuary areas in North Vietnam into which the enemy may move his supplies and operations and know with certainty that he never will be subject to air attack. These sanctuaries have enabled the North to concentrate its war-making materiel where it is safe and secure and then dash it south under cover of darkness and bad weather.

Every one of the top military experts who testified told the subcommittee again that closure, neutralization, or isolation of the Port of Haiphong is the single - most - important military action that can be taken to speed an end to the war and to save American and allied lives in the South.

The Administration's conduct of the war is now fully open for public review. It amounts to a policy of restricted gradualism. A policy which discounts the professional judgment of our top military men and substitutes civilian judgment for the smallest details of target selection and timing.

Obviously this strategy of restraint and restriction has not brought the war to an end. We have not lost, but we have not achieved our objectives and the war goes on. The price we have extracted from North Vietnam for its continued aggression is a price North Vietnam is still willing to pay.

Neither the Senate subcommittee, nor I, can support continuation of a no-win policy that ignores military jud-

Eliminate "Spearing," Authorities Caution

CHICAGO — Football "spearing" should be eliminated, warn sports and medical authorities.

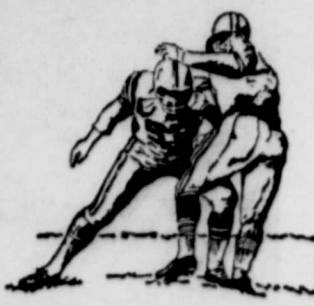

Spearing is the tactic in which a blocker or tackler uses his head as a battering ram. It's dangerous, both for himself and for the person he hits.

A group of coaches, physicians, and sports officials have joined the American Medical Association in calling for coaches to emphasize correct, head-up blocking and tackling, and for strict enforcement by officials of the rules against spearing.

Said Notre Dame football coach Ara Parseghian "I can't begin to tell of the number of clinics where I have lectured on the (spearing) problem. We don't teach this at Notre Dame; and over the years, I have done everything within my power to influence others to coach against it."

The AMA's Committee on the Medical Aspects of Sports asked for sports authorities' comments when recent studies showed that head and neck injuries continue to constitute a very high percentage of serious injuries in football.

In the correct, head-up tackle, the ball carrier uses his shoulders, arms, and chest to stop the ball carrier. In a "spear" or "butt" tackle, he drives into his opponent with his head. By spearing, the tackler may prevent the ball carrier from ad-

vancing a few extra inches—if he tackles him. With his head down, however, he risks serious injury to his head and spinal cord, and he is more likely to miss the tackle because he has a harder time seeing where he's going.

Studies of fatalities indicate that football has a good safety record, considering that virtually a million players are involved each fall. It could be even better, however, if head and neck injuries could be reduced. In 1966, head and neck injuries were responsible for 23 of the 24 fatalities directly attributed to injuries in college and high school football.

Said Murray Warmath, football coach at the University of Minnesota: "Spearing will never disappear from the game until we quit coaching it and until we absolutely disallow its use on the part of our players."

"It isn't the first man who makes the tackle," Warmath said. "It's that second tackler. He puts his head down, closes his eyes, and piles into the man who's down with one intent, and that's to maim and cripple."

Joining the coaches in condemning spearing and in calling for correct, head-up blocking and tackling were Richard C. Schneider, M.D., an Ann Arbor, Mich., neurosurgeon and member of the AMA Committee on the Medical Aspects of Sports; Donald B. Slocum, M.D., chairman of the AMA committee and orthopedic consultant to the University of Oregon football team; William E. Newell, executive secretary of the National Athletic Trainers Association and head athletic trainer at Purdue University; O. B. Murphy, M.D., University of Kentucky team physician; and the University of Oregon football team; William E. Newell, executive secretary of the National Athletic Trainers Association and head athletic trainer at Purdue University; O. B. Murphy, M.D., University of Kentucky team physician; and the University of Oregon football team.

College Bound Veterans Can Obtain GI Benefits

Texas veterans who have been accepted for college this fall should apply immediately to the Veterans Administration Regional Office at Waco to make arrangements for benefits available to them under the GI Bill.

Martin Gibson, Martin County service officer, pointed out that veterans with more than 180 days continuous military service, with any part of that time after January 31, 1955, were eligible for monthly allowances of \$130 or more.

Application forms should be obtained from and returned to the Waco VA office along with a copy of the veteran's separation document, DD Form 214.

The VA Regional Office will then issue the qualified veteran a certificate of eligibility which he should submit to the school when he enrolls.

"While the VA has to wait until the college involved certifies that the veteran has enrolled before it can start sending VA allowance checks," Gibson said, "the VA has simplified the form the college

must use, and students should receive checks shortly after the end of each month.

"However," Gibson said, "it would be wise for students to be prepared to pay their own expenses for a short period of time to be sure they are not caught short of funds before legal requirements are met and VA can start the flow of checks. Once allowance checks start, they may be expected to continue without interruption for the enrollment period certified by the school.

"But a different product applies to a course which does not lead to a standard college course. The VA will make payments each month as soon as possible after school and the student notify the VA that the applicant has been attending classes."

Under the new Viet-Nam GI Bill rates, effective October 1, 1967, full - time veteran students are entitled to the following increased monthly payments: \$130 without dependents; \$155 with one dependent; \$175 with two dependents and an extra \$10 for each dependent in excess of two. Part time students receive proportionately smaller amounts.

The amended Viet-Nam GI Bill authorizes full benefit payments "to educationally disadvantaged veterans" so they can complete high school or take certain required refresher courses without losing any VA eligibility for post-high school training.

Gibson said that veterans applying for allowances for dependents should furnish the VA a certified copy of their marriage license and birth certificates.

He urged veterans to contact the VA office if they need additional information about the education program. The phone number for the Waco Regional Office is PL 6-6511, extension 761; the mailing address is 1400 North Valley Mills Drive.

Names Negro To Be Mayor Of Washington

President Johnson has named a Negro — Walter Washington, now head of New York City's housing authority — to be mayor of the nation's Capital.

The President also named an expert in city management, Thomas Fletcher, to be executive assistant to Washington in running the capital city.

Officially, Washington's title will be commissioner of the District of Columbia, a one - man assignment to replace the three-man commission which up to now has governed the Capital and its predominantly Negro population of 800,000.

Johnson's last three major appointments have come from the ranks of negroes who are represented in this country with nine per cent of the total population.

Patronize your hometown merchants and keep your money at home

HD Club News

The Courtney Morning Club met in the home of Mrs. Norwood Holloway, at 10 a.m. Thursday morning, September 8. Mrs. Mildred Eiland gave a program on interior decorating, which was most informative. She showed us how to attain a balance with furniture in a room, several different table decors, and how to frame your own pictures.

Mrs. Howard Avery also demonstrated her Stanley products. Refreshments were served to those present: Mrs. Billy Mims, Mrs. G. P. Harrell, Mrs. Howard Avery, Mrs. Donnie Jones, Mrs. Eiland, Mrs. Herbert Schuelke, and the hostess, Mrs. Norwood Holloway.

Cooperative Program gifts for the first eight months of 1967 are ahead of last year's gifts for the same period by \$217,841.60, according to a report from the office of R. A. Springer, treasurer of the Baptist General Convention of Texas.

Baptist Coop Gifts Increase

Gifts for August reached \$1,117,859.16, Springer reported.

Total Cooperative Program gifts for the first eight months reached \$8,213,500.08, compared to \$7,995,658.48 given during the same period last year, which is \$63,500.08 above proposed budget requirements.

Designated giving for the eight - month period reached \$4,274,780.68, compared to \$4,079,947.41 for 1966. Designated giving gifts includes the Lotie Moon offering of \$2,773,102.48 and the Annie W. Armstrong offering of \$691,730.89.

Springer also reported total mission giving for August came to \$1,360,168.16 for a total of \$12,488,280.76 for the first eight months. During the same period of 1966, total mission giving reached \$12,075,605.39.

The Cooperative Program, the missionary arm of Texas Baptists, is a unified budget plan for undesignated receipts. Funds given by individual churches support Southern Baptist work in Texas and throughout the nation and overseas.

Trade at home and save!

Lyndon Foe Speaks Out

Mr. Martin Luther King Jr. said he "very definitely" will oppose President Johnson in 1968 and may endorse and campaign for another candidate if the President's Vietnam policy does not change.

King refused to commit himself or his Southern Christian Leadership Conference to either major party or to a single candidate and insisted he will not run for president.

King's vow to oppose Johnson was a new step for the veteran civil rights leader and Nobel Prize winner. Neither he nor the SCLC has ever made a political endorsement.

Air Power Could End War, Old Warrior Eaker Asserts

American air power could knock out the North Vietnamese war machine in 30 days if bombing restrictions were removed, contends a veteran Air Force general.

The lifting of restrictions on some bombing targets during recent weeks could mean that the President is moving in the direction long suggested by his military advisers, said Lt. Gen. Era C. Eaker, former deputy commander of Army air forces.

Eaker is not optimistic about a swift end to the fighting, however. He called the American military effort inconsistent and unrealistic.

He indicated that this "unrealistic" military approach galls himself and other retired military tacticians who are no longer bound by discipline to keep their views to themselves.

Eaker bases his views on

seven years of observing the Pentagon and the White House as an independent military columnist for about 45 American newspapers.

Eaker, a native Texan who lives in Washington, was a pioneer in the technique of refueling planes during flight. He held high commands in the Allied Air Force in England and the Mediterranean during World War II.

Eaker described some of the alleged "inconsistency" of U. S. strategy.

American pilots, he said, use the lights of Hanoi as an aid to navigation on their bombing runs. The same electric power which lights the city also turns the wheels of the North Vietnamese war machines, he claimed.

He noted that hydro-electric dams and some fuel-fed generators are untouched by the bombs which have knock-

ed out about half the country's electric power.

The remainder should be bombed, Eaker said.

"The North Vietnamese could not run their machines on candle power."

Eaker also said he feels the United States should shut off the flow of fuel oil through Haiphong harbor.

"It took the joint chiefs of staff more than a year to convince the administration to bomb the (oil) tank farms," he said.

"Now, reconnaissance photos show tankers loading oil into drums which are stored in neat rows in the heart of the civilian residential districts which we have said we will not bomb."

Eaker said air photos showed the first surface - to - air missiles being installed 18 months before "we started shooting at them."

Tiny Insects Used In Fighting Boll Worms In Martin County

Last spring, Gerald W. Hanson, former county agent and now operator of the Stanton Chemical & Seed Co. store here, did a thriving business selling gallons of ladybugs to Martin County cotton farmers.

He's still selling ladybugs — so far this season he has sold 180 to 200 gallons of the little crawlers.

He is also doing a good brisk business in the sale of microscopic trichogramma. There's no estimating how many million of these tiny insects he has caused to be distributed over hundreds of Martin County's flourishing irrigated cotton fields.

Like the ladybugs, the trichogramma is a natural enemy of the cotton boll worm. Unlike the ladybug, though, the trichogramma relies on the cotton boll worm moth to provide incubation systems for the trichogramma eggs.

Have you ever seen a trichogramma. Likely not. If you have even had the chance, you'd have to have good eyes to see him (or her) if one was placed before you. Actually the trichogramma is a miniature wasp so small that it takes 30,000 to cover a square inch.

The trichogramma must reproduce by stinging and ovipositing in the eggs of insects of the order of lepidoptera. The cotton boll worm is one of a host of harmful insects which are of the lepidoptera. What happens is that the trichogramma hunts out eggs of the moth, which produces the cotton boll worm. It lays its own egg in the cotton boll worm egg. The baby tricho, when it hatches, eats the host egg. Result no cotton boll worm from the egg and more trichogramma.

A corporation known as Gothard, Inc., at Canutillo, Texas, produces the tiny wasps for the multimillion. A farmer decides he wants to attack his cotton boll worm with the beneficial insect. He contacts Hanson.

Hanson determines the number of acres to be treated and calls Willard McLean, who lives in Midland.

McLean loads up his airplane with a cargo of small parcels which roughly resemble saltshakers. His plane is rigged with a sort of chute

He goes to the farms where the trichogramma are to be released and, flying over the cotton, releases the trichogramma by shaking the tiny insects out of the chute.

As soon as they alight in the cotton, they begin hunting the cotton boll worm eggs.

The farmer pays 75 cents an acre for the treatment.

Hanson said that some of the farmers who have adopted the plan so far in Martin County include Bernard Houston, Leo Turner, Richard Lewis, S. F. Britton, I. C. Graham, Bobby Kelly, and others.

There's a little oddity about the trichogramma," Hanson points out. Nature has provided the little insect with a canny knowledge that if his kind is to survive, some cotton boll worms must also be allowed to hatch, to become moths and lay eggs.

If this doesn't happen the trichogramma will have no place to lay his own eggs. So he does not puncture all of the boll worm eggs he finds. He leaves a few to become moths to produce eggs for next season."

Not New

The program is not a new one nor is it upoven, Hanson said. In the southwestern part of the United States the little wasps have been successfully employed for a number of years.

Hanson noted that always someone asks: "Suppose we use these on our farm and some get into the house? What happens?"

Hanson replies that should this happen and if the houseowner doesn't kill them with insecticides, the trichogramma will seek out the eggs of the Lepidopteros tineds (clothes moths to you) in the closets and by laying its eggs in the moth egg, parasitize

Not A Pest

Hanson adds that the tests have shown the trichogramma can never become a pest insect. They do not harm other insects than the lepidoptera.

"One thing is important," said Hanson. "If the farmer wants to make use of these little wasps, the proper time is when he sees cotton boll worm moths flitting about his cotton. After the moth has disappeared it is too late for the trichogramma to get in his good work."

Tax Man Sam Sez:

The Texas Community Property Laws can make a big difference in the amount of tax that you owe the Federal government. In Texas the husband and wife must split the income if they file separate returns. However, the extra dividend exclusion, the extra retirement income credit and the casualty loss deduction allowed under community property law can be even more important.

Document 5192, describing the community property benefits is available at all Internal Revenue Service offices, or you can write to Internal Revenue Service, P. O. Box 1738, Dallas, Texas 75221.

Bobby Hamm of Lenorah and Eddie Ray Saunders, and Linda Eaton of Midland, left last week-end for Lamoni, Iowa, where they will attend Graceland College.

SHS News

By PUG DEAVENPORT

The third week of the 1967-68 school term has disclosed new activities a football victory, and exuberant school spirit at SHS.

The victory bell, which was presented to the student body at the Friday pep rally by band director George Walker, was given a hard work out when Coach Bryan Boyd's mighty Buffaloes rolled over the Roscoe Plowboys 14 to 6. Over fifty pep squad members under the direction of President Doris White, were on hand to back the Buffs.

The SHS band presented excellent entertainment during half-time. Serving as drum major for the band is Linda Holder. Twirlers are Cindy Davis, and Debra McMeans.

Band officers were elected Monday, September 11. Bob Wilson will lead the group as president. Other officers are: Knox Bruton, vice-president; Melrae Angel, secretary-treasurer; and Rhonda Reid, reporter.

Sixty FFA members met last week to elect officers. Heading the group will be President, Jimmie Jones; Vice-President, Glenn Law-Treasurer, Claude Straub; Reporter, Donnie Jones, and Sentinel, David Adkins. Dues of \$2.00 were set and plans were made to operate the football concession stand. Nolan Parker is sponsor for the group.

Approximately forty members of the Future Homemakers of America met with Mrs. Florene King, sponsor, Tuesday, September 12. New members for the group were formally initiated Monday night. Plans are being made for the group to hold its annual magazine subscription sale. Prizes will be awarded to the top salesmen.

Officers for the 1967-68 year are: Cathy Hazlewood; Vice-President, Diana Mims; Secretary, Luan Louder; Treasurer, Mary Bradshaw; Reporter, Cindy Davis; Historian, Cindy Clements, and Parliamentarian, Sheila Manning.

The Buffalo "B" team will begin its season Tuesday, September 14, at 7:30 at Rankin. Friday the Buffs will meet the Iraan Braves in Stanton. Game time is 8:00. Following the game the pep squad and cheerleaders will hold an ice cream supper and dance for the team. Members of the Iraan pep squad, band, and football team have been invited. Buffalo Boosters are also urged to attend.

House For Sale: 7 room house with bath, carpet, screened in back porch, fenced patio with storage house. Phone Jimmy Maynard, 247-2552, Friona, Texas. 9-37-2tp

Orys Returned Sept. 5 From Visit To Alaska

Mr. and Mrs. D. E. Ory returned September 5, from an extended visit in Alaska, where they were guests of their daughter and son-in-law, Capt. and Mrs. Burley Polk, and grandchildren, Rae Beth and Mel Allen.

Capt. Polk is stationed at Ft. Richardson in Anchorage. The Orys drove up the Alcan highway and came back by way of the Ferry, down the Alaska Marine highway, stopping off at Juneau for a tour of the city, where they viewed the beautiful Mendenhall glacier.

They enjoyed fishing for silver salmon, and where in Seward for the Silver Salmon Derby.

Capt. Polk and Mr. Ory flew down to Kenal, to hunt black bear. Mrs. Ory and daughter and grandchildren, enjoyed picking wild berries, and collecting drift wood.

They also visited the Matanuska Valley, long famous for its fabulous vegetables, which is Alaska's farm center, producing over two-thirds of the commodities of the entire state.

They reported a most enjoyable trip, but stated they were glad to be home.

Mr. and Mrs. Miles of Colorado City, visited Mr. and Mrs. Shelly Basham recently.

Mrs. Gary Lee Deitiker

Miss Glaspie, Gary Deitiker Marry In Stanton Church

Double ring vows were exchanged by Mary Elizabeth Glaspie and Gary Lee Deitiker at 7 p.m. Saturday in the First Baptist Church. The Rev. J. R. Williams, officiated.

Mr. and Mrs. Claud Glaspie Jr. of Stanton are parents of the bride. His parents are Mrs. N. L. Wallace of Dallas and Glen Deitiker of Cisco. Musical selections for the wedding ceremony were furnished by Martha Bell of Lubbock, organist, and Mrs. Ulen North, Jr., soloist.

A floral background for the service was provided by double branched candelabra entwined with emerald greenery, flanked by baskets of blue gladiolus.

Helen Glaspie of Lubbock, sister of the bride, was maid of honor. Other bridal attendants were sisters of the bride couple, Mrs. Donny Thompson and Debbie Wallace of Dallas. Pam Holcombe was junior bridesmaid. Flower girls were Penny Yates of Fabens and Susan Fitzgerald of Oklahoma City, Okla.

The bride's attendants wore identical gowns of sapphire blue peau de sole, designed with lace covered bodices and lace sleeves in matching sapphire blue. Their headpieces were Dior bows. Each carried a cascade bouquet of white glamelias with sapphire blue ribbon streamers.

Kenneth Deitiker of Cisco was his brother's best man. Groomsmen were Bud Glaspie, brother of the bride, and Burt Thackerson of Midland. David Stroud was junior groomsman. Guests were seated by Ulen North and Ernest Hanner.

Candles were lighted by Harold Glaspie of Loop and Mikie Glaspie of Odessa. Kerry Holcombe was ring bearer.

The bride, given in marriage by her father, chose for her wedding a gown of white imported silk organza over peau de sole. The traditional sculptured bodice with contoured neckline and long tapered sleeves was scattered with re-embroidered Alencon lace motifs. An overskirt with front lace panels formed a full-length train which flowed from the slender silhouette. She carried a white Bible topped by a cascade arrangement of white glamelias centered with a white orchid.

Church Reception
Following the ceremony a reception was held in Fellowship Hall of the church.

After a wedding trip the couple will be at home in Stanton. She attended Texas Technological College and Howard County Junior College. She is employed in the office of the Agricultural Stabiliza-

tion and Conservation Service. The bridegroom, a graduate of Sam Houston State College, is employed by the Soil Conservation Service.

Library Lines

Mrs. Ralph Caffey, Librarian

Library Hours: Monday, Tuesday, Wednesday, Thursday, 1-5 p.m., Saturday, 9 a.m. - 1 p.m.

The following patrons have expired library cards for the month of September: Glen Pardue, Randal Papasan, Jerry Kennedy, Tommy Deavenport, Ricky Kennedy, Rosalind Welch, Ernest Gonzales, Georgia Welch, Mario Gonzales, Arthur Gonzales, Curtis Doyle, Palema Hart, Lupe Marez, Betsy Lloyd, Curtis Flanagan, Elizabeth Flanagan, Joe Villa, Dora Villa, Mary Ann Villa, Fawn Briggs, Paula Lewis, Polly Lewis, Richard Lewis, Dennis Ireton, Steve Church, Randy Henson, Cindy Davis, Connie Butcher, Cathy Woodrow, Norma Morez, Mary Salgado, Diana Morez, Linda Salgado, Bonnie Hill, Bryon Hill, Mrs. Dan McDonald, Marie Woody, Linda Woody, Antia McIntyre, Larry Watkins, Bonnie Watkins, Elodia Salgado, Janie Dering, Sandra Chandler, Scotty Fisher, Sammy Jones, and Lupe Padilla.

Also Evelyn Parker, Kathryn Pickett, Patricia Haislip, Charles Atchison, Maria Cantu, Ramona Zambrano, Marie Zambrano, Cindy Gregston, Margie Clardy, Donna Sawyer, Darla Sawyer, Tony Sawyer, Mrs. J. B. Harrell, Angelita Guevara, Tommy Haislip, Melinda Haislip, and Eddie Doyle.

All it takes to renew your library card is to come by the library and indicate that you want to.

Harvesting — Earl Sears, sales manager for Hesston Block Ginning — Carl Cox, director of the Texas Cotton Manufacturing Company, Hesston, Kansas;

Ten spray planes are scheduled to take the air on Tuesday, September 5 for the first application of insecticides in the fourth year of the highly successful Diapause Boll Weevil Control Program being coordinated by Plains Cotton Growers, Inc.

According to Ed Dean, PCG director of field service, the first application this year will cover about 75,000 weevil-infested acres in eight counties, less than half the acreage it was necessary to spray at the beginning of last year's operations and down from almost 300,000 acres infested at the beginning of the program in 1964.

"We are greatly encouraged by the fact that weevils have been found in only 75,000 acres, but we have to keep in mind that in-season migration could increase this acreage at a later date," Dean said.

Counties in the weevil control zone are Briscoe, Crosby, Dickens, Floyd, Garza, Hall, Kent and Motley.

In addition to the reduced acreage, Dean reports that weevil infestations this year are much lighter than last, with very few fields exceeding 15 per cent. This compares with from 90 to 95 per cent infestations in the Aspermont area outside the control zone.

The first three applications are scheduled at three to five day intervals and are designed to break the weevil's reproductive cycle. These will be followed by applications from 10 to 14 days apart to prevent weevils that may not be killed earlier from entering the diapause stage and going into hibernation.

On all except a small acreage ultra low volume malathion is the chemical being used again this year, at the rate of 12 ounces per acre for the first three applications and 16 ounces per acre thereafter.

For the first time this year a small area of about 4,500 acres will be sprayed at the same rate on the same schedule with guthion as a test of that chemical's effectiveness. Guthion was only recently approved for use in low volume form, and small scale tests have indicated it may be even more effective than malathion as a weevil control agent.

Entertainment, three speakers and a five-man panel to convey information important to the successful operation of a cotton gin, and the election of nine directors will take up most of Saturday, September 9 when the Plains Ginners Association holds its annual meeting at the Lubbock Country Club.

The meeting will begin at 9 a.m. and continue until about 2:30 p.m. according to Bill Thompson of Shallowater, president of the association.

In addition to activities scheduled for September 9, a golf tournament for ginners and allied industry people will be held on Friday, September 8, with tee-off times from 10 a.m. until noon.

Featured speaker for the occasion will be Troy Price,

Local Representative

 NEW FREEDOM SHARES

TIPS FOR OUTDOORSMEN

by Vern Sanford

Remember the old expression which went something like this? "When you've got horses in the barn, you've got to feed them."

Well, that was true in the old days and it's true now—when you're talking about horses. But when you're talking about horsepower, the old saying doesn't exactly fit.

'Tis often said that "The bigger the outboard motor, the less economical it is to run." Well, that's not exactly true.

In many circumstances the more powerful outboard motor is the most economical to run. This fact was proven to outdoor writers at a recent Mercury meeting for the press. To demonstrate that it is more economical to run a big motor during certain stages of motoring — be it by car or by outboard — the Kiekhafer Corporation set up a fuel economy comparison test between their 65-hp and 95-hp models.

If the old saw about feeding the horses were true, the 65-hp model would perform more economically than the huge six-cylinder model.

So, tests were made under identical conditions using a 16-foot runabout.

A check of the fuel economy curves showed that the less powerful motor did enjoy a slight advantage at lower speeds — up to about 28 miles per hour. But, from that point on the 95-hp engine showed an ever-increasing fuel economy advantage over its little brother.

At 30 miles per hour the 65-horsepower model got 5.18 miles per gallon, while the 95 horse was getting 5.6 mpg. At 33 miles per hour the smaller motor logged 4.4 mpg—the 95-hp model almost 5.4 mpg! At 33.7 miles per hour, which represented full throttle operation for the 65-horse, the 95 obtained over 5.2 mpg but the smaller motor was getting only a fraction over 4 mpg.

Unbelievable, isn't it, that the bigger engine not only had a big edge in fuel economy, but it boasted speed advantage of approximately eight miles per hour?

Actually, when you stop to think about it there's nothing too surprising about these test results. Reason for the better performance of the bigger engine at higher speeds is a simple one: the smaller engine has to work harder to do the same job as the 95, so it uses more gas.

Normally, a big engine operated at about seven-eighths throttle will run more economically than a smaller motor going full bore. So, Mr. Outdoorsman, consider these facts when you're trying to decide on a motor for that new boat.

UT Planning New Group Of Courses

Independent study and courses that cut across the usual department and academic specialty lines will get new emphasis at the University of Texas this fall. "For the first time 'university courses' are emphasized in the final announcement of classes," said Chancellor Harry Ransom.

Ransom said these courses, taught by professors holding university-wide appointments, are for students concerned with broader academic work and the interrelation-

ship of fields such as psychology and art, language and literature and the historical significance of the sciences.

"Since its whole purpose is experimental study the new plan does not establish a new department, nor does it set up new degree programs," Ransom said.

Dr. John Silber, professor of philosophy, is chairman of the program of university courses.

Ransom said all divisions of the University at Austin and other schools in the University of Texas system are actively concerned with work that is not necessarily confined to one single field of study.

Executive Vice President of the Texas Cotton Ginners Association, Dallas. He will bring the group up to date on latest labor and air pollution regulations as they apply to the ginning industry.

The other two speakers are Pete Brown, Lubbock field representative for the National Cotton Council, and President Thompson. Thompson will give the annual report and Brown will speak on the ginner's part in handling the \$1 per bale collections under the Cotton Producers Institute program.

The five panel members, selected for their respective knowledge of particular phases of the cotton industry from harvesting through spinning, will each speak for about 10 minutes, after which there will be a question and answer period with audience participation.

Subjects, and the panel member to speak on each are: Research Committee, Dallas;

Ginning — Roy Baker, now of Mesilla Park, New Mexico who has been named director of the new ginning laboratory being built at the South Plains Research and Extension Center, Lubbock;

Classing — S. C. Rademaker, USDA's Cotton Classing Division directors, Washington, D. C., and

Spinning — Charles Wilson, director of research at the Textile Research Laboratory, Texas Tech.

Donald A. Johnson, Executive Vice President of Plains Cotton Growers, who will serve as chairman for the panel, will open the discussion with a statement on the overall cotton situation and cotton needs in the Plains area.

Bernie Howell and his Trilins will furnish music for the affair, and door prizes, including six pairs of Tech football and eight pairs of season basketball tickets, will be given. Lunch will be served at noon, with Plains Cotton Growers, Lamesa Cotton Oil Mill, Levelland Vegetable Oil Co., Lubbock Cotton Oil Mill, Paymaster Oil Mill and Plains Cooperative Oil Mill as hosts.

The golf tournament is an added attraction this year and offers the opportunity for winning one of four trophies. Entry fee is \$2 plus \$5 greens fee for those who are not members of Lubbock Country Club.

The September 1 estimate of the 1967 High Plains cotton crop, jointly compiled by the Lubbock Cotton Exchange and Plains Cotton Growers, Inc., came out to 1,175,000 bales, up only 1,500 from the August 1 estimate.

Standing acreage in the estimate declined from 1,250,000 on August 1 to 1,238,000.

Estimates were increased by from 500 to 2,000 bales in Bailey, Crosby, Floyd, Castro and Hale counties for a combined increase of 6,500 bales. But these increases were almost cancelled out by Howard County, where lack of moisture to advance early prospects dropped the estimate down to 10,000 bales, one-third below the August 1 guess of 15,000.

Much of the Plains crop is late planted cotton and both the quantity and quality of the crop this year is greatly dependent on temperatures and rainfall for the remainder of the season and on the frost date.

1968 Chevrolet Trucks At Alsup-Nowlin Today

The 1968 Chevrolet truck line will be shown at Alsup-Nowlin Chevrolet Company in Stanton today.

Designed to meet current trends, the 1968 Chevrolet truck lines features continued functional styling, more powerful V8 engines, more attractive cab interiors, a redesigned city delivery series, a wider variety of optional equipment, and a long list of other improvements.

The clean angular styling is continued on light-duty conventional c a b models, with new paint treatment to give a more massive effect to the front end. Rear visibility is improved with a standard

rear window nearly twice as large as in previous models and one of the largest in the industry. The forward line-of-sight visibility to the road directly ahead of the front wheels also is among the best in the field.

New standard equipment features of the 1968 truck line include extension of backup lights to all light- and medium-duty cab models, nylon cord tires on all but 1/2-ton models and Chevy-Vans and Sportvans; side marker lamps or reflectors, clearance and identification lights on all conventional models over 80 inches wide, and exhaust emission control systems on gasoline engines used in 1/2-ton and dual-purpose models.

PERSONALS

Included among interesting new options are a dual-master cylinder self-adjusting brake system for the medium-duty line; a full line of wide-base nylon cord tires for light-duty models; rear leaf springs for 1/2- and 3/4-ton light-duty conventional models, and a wider choice of engines, transmissions, and axles.

Conventional cab models feature many significant improvements for 1968. They include as standard equipment such items as rounded edge window cranks, dual padded sunshades, yielding shank window control handles, deflecting door lock remote handles, pushbutton seat belt buckles, larger low profile control knobs, and recessed ignition switch and cigar lighter. Anti-skid strips are used on door sill plates of panels and Carryalls.

Interior are brighter and more attractive, with high gloss paint, satin finished chrome horn button, two-tone door paint treatment, new seat trims with welted seams, and many other improvements. Seating comfort and leg room both are improved through modifications to the seat.

More power is offered in light-duty conventional models with two V8s not previously available. One is a new 307 cu. in. engines developing 200 hp., and the other is the new 310 hp. version of the 396 cu. in. V8. The 307 replaces the former 283 cu. in. engine as the standard V8 in light-duty models.

The improvement in cab interiors and comfort, larger V8 engines, improved transmissions and other chassis advances in the light-duty line are of special importance in the expanding truck camper market. The dual-purpose Surburban with capacity for eight persons and excellent for trailer towing because of its durable chassis, has the same interior and chassis improvements as the light truck line. More interior colors are offered and a bucket seat option with center console and front compartment carpeting is new for 1968.

In the medium-duty line, the 366 cu. in. V8 is increased to 235 hp. A new 427 cu. in. V8 with 260 hp., the highest powered gasoline engine ever offered in Chevrolet trucks, is available as an option in the light-heavy series.

All engines used in 1/2-ton trucks and in light-duty dual-

purpose vehicles will be equipped with exhaust emission control systems of either the air injection reactor or controlled combustion type. Closed positive crankcase ventilation will be standard equipment across the line on gasoline engines.

Despite the increased power available, all Chevrolet truck gasoline engines still operate on regular grade fuel.

Of special interest to city-delivery operators is the new 3/4-ton and 1-ton forward control Step-Van line for the first time such features as independent front suspension with coil springs, power steering, and V8 engines.

The extended front design permits placing the engine farther forward and provides a full-width hood for easy access to the engine for routine daily maintenance from outside the vehicle, so that the cargo compartment can remain locked for security during servicing.

Transmission availability and design also have been improved for the 1968 line. A new four-speed manual is quieter, more durable, and easier to shift. It is standard in most 1-ton through 2-ton models and optional in 1/2- and 3/4-ton conventional and Step-Van models.

The three-speed Turbo Hydra-Matic transmission option now has been extended to 1-ton models, and a new four-speed fully synchronized manual with steering column controls is available for the first time for the Chevy-Van and Sportvan.

Weekend guests of Mr. and Mrs. Ed Robnett were their daughter and son-in-law, Mr. and Mrs. Jerry Bizzell of Falls.

Mrs. H. A. Houston is in Denver, Colorado, visiting her daughters, Mrs. Curtis Hancock and Mrs. Beth Fowler.

Mr. and Mrs. John Roueche visited his sister in Wichita Falls last week.

Mrs. Margaret Moffitt is visiting in Waco with her brother, Gene Parks, who has recently undergone major surgery.

Cecil Bridges went to Bryan Friday to bring Mrs. Bridges home. She has been visiting her son and his family, Mr. and Mrs. Sadler Bridges, Amy and Steve.

Mt. Washington, New Hampshire 6,288-foot peak, is the loftiest in the northeastern United States.

It has been estimated that 90 per cent of Canada's population live within 200 miles of the U. S. border.

More V8 Power for...

1968 Chevrolet Pickup Trucks

A wider selection of V8 power, more colorful and comfortable interiors, and additional safety items as standard equipment are offered in the 1968 Chevrolet pickup truck line. Front end appearance is more massive while retaining unsurpassed line-of-sight vision to the road. The rear window has been enlarged to nearly twice its former size. Three V8s are offered, including a new 307-cu.-in. 200-hp. standard engine and an optional 310-hp. version of the 396-cu.-in. V8 available for the first time in regular pickups. Front and rear side marker reflectors or lamps are standard equipment.

Alsup-Nowlin Chevrolet Company

219 N. ST. PETER

SK 6-3321

STANTON, TEXAS 79782

- The Exchange Desk -

THE FOARD COUNTY NEWS: "Sheriff Dan Callaway urged today that all local residents desirous of obtaining a Texas drivers license to brush up on the rules of the road, attend the special school opening Monday evening in the community center in Crowell. The school, which is open to area residents without charge, will be conducted by the Texas Department of Public Safety in cooperation with the Foard County Sheriff's Department and The Foard County News.

"Sheriff Callaway and the Foard County News arranged for the school with the Department of Public Safety officials in an effort to lower the number of unlicensed drivers operating motor vehicles on streets and highways throughout the county. Statistics on file with the Department of Public Safety show a high portion of unlicensed drivers involved in traffic accidents in this part of the state."

THE DENVER CITY PRESS: "A white horned toad is an oddity, indeed. And Farmer Carlice Edwards found one in the Higginbotham area last week while plowing. He spotted the albino horned frog running across the field away from Edwards' tractor. The farmer captured the critter."

THE MATADOR TRIBUNE: "Hunting leases on more than 100,000 acres of Motley County range lands are being advertised under the auspices of the Matador Lions Club. Secretary County Judge Forrest Campbell has prepared a list of landowners, which includes the amount of acreage, the type of game and rates. The list will be sent to hunters who are interested in this area, but negotiations must be made between landowners and those who wish to secure hunting rights.

"Acreages vary from 14 (dove) to 41,000 (quail and dove). Wild game to be hunted include quail, dove, turkey, deer and antelope. One listing is for coyote. Leasing arrangements and facilities are varied from \$10 per day per gun to \$200 per year per person. Many leases are offered at 50c per acre per season."

THE MUNDAY TIMES: "Services for Olin C. Harrison, 85, owner, editor and publisher of the Baylor County Banner since 1906, were held at 4 p.m. Sunday at the First Baptist Church in Seymour. Officiating was Rev. Don Chaffin, pastor. Burial was in Masonic Cemetery under the direction of Elliston Funeral Home of Seymour."

THE McCAMEY NEWS: "A threat of rain Monday morning failed to dampen the spirits of McCamey and Rankin citizens who turned out for the gigantic Labor Day celebration. The heavy overcast skies and a drop or two of moisture brought out a few rain scarves of the beauty pageant contestants that were the highlight of the parade. The McCamey Badger Band led the parade through downtown McCamey without un-

forms.

"We were afraid it might rain before we finished," quipped Leonard Rose, band director. Almost every McCamey girl entered in the beauty competition Monday night was represented in the parade. Clearing skies and a warm sun saw almost twice as many people as were expected turn out for the free barbecue in the Santa Fe Park. Glen Crites and his crew of McCamey Lions served beef barbecue, beans and potato salad to more than 1,300 McCamey and Rankin area citizens at the noon barbecue.

"When Jim Pirkle and John Whaley got through barbecuing that 800 pounds of beef we thought surely we would have lots of food left over," Crites said. "As it turned out, we just had enough to go around except for about a dozen people," he concluded."

THE MEMPHIS DEMOCRAT: "The well-known and popular Wills Family will return to Memphis Saturday night, Sept. 16, to give a concert at the Community Center. The program is being held in conjunction with the annual Hall County Picnic and will begin at 8 p.m. Tickets are now on sale and may be purchased at several local business houses, individuals and members of the Hall County Singing Association, or from the association president, Ernest Lee. Tickets are \$1.00 for adults and 50 cents for students."

THE EDEN ECHO: "An adult education program for people over 18 years old who have not completed high school has been approved for the Eden School System. Supt. H. V. Sawyer reports that \$1,740 had been approved for the program, which is scheduled to start the first part of October.

"A meeting of all qualified persons interested in enrolling in the program, which includes typing, bookkeeping, shorthand, etc., has been called for 8 p.m. Tuesday, Sept. 14 at the high school building. Sawyer said that Mrs. Tony Hall had been employed as coordinator of the program and anyone unable to attend the meeting, should contact her. He said that if a sufficient number of persons apply that another teacher would be hired. The program is being handled through the Texas Educational Agency."

NOTICE

Beginning Saturday, September 9, 1967, the Social Security District Office, 1009 Gregg Street, Big Spring, Texas will be open on Saturdays from 10:00 a.m. to 12:00 noon, instead of 8:30 a.m. to 12:30 p.m.

"Capital is a material thing, but capitalism is a method for inspiring the maximum in imagination, ideas and effort from free men to fulfill a useful purpose," remarked J. Wilson Newman, board chairman of Dun & Bradstreet. "If business can't provide such non-material values along with material gains, then for what do we labor?"

Trade at home and save!

Mrs. Richard Kenneth White

Charlotte Kuhlman, Richard White Wed At Lenorah

Charlotte Ann Kuhlman and Richard Kenneth White were united in marriage at 7:30 p.m. Friday in the Lenorah Baptist Church. Officiant for the double ring ceremony was the Rev. Charles Mitchell. Parents of the couple are Mr. and Mrs. Jack H. Kuhlman and Mr. and Mrs. D. M. White, all of Lenorah.

Candelabra entwined with greenery and flanked by baskets of pink Gladiolus provided background for the ceremony. Candles were lighted and guests seated by Walter Taylor of Stanton and Danny Fryar of Lomax, cousin of the bride.

Shirella Sawyer was flower girl.

Musical selections were presented by Diane Oliphant, pianist, Jerry Oliphant at the organ and Mike Springer, vocalist.

Bobby Blalock of Stanton was best man. Mrs. Richard Osborn of Big Spring attended the bride as matron of honor. She wore a floor-length A-line gown of pink satin accented by flower lace trim. Her headpiece was a pink satin rose with veiling of tulle. She carried a bouquet of gladiolus.

The bride, given in marriage by her father, wore an A-line Empire styled gown of white peau de soie with lace panel trim. A chapel veil of illusion fell from a crown of seed pearls.

She carried a lace handkerchief that had belonged to her great-grandmother. Her bridal bouquet was an arrangement of carnations centered by a white orchid atop a white Bible.

Mr. and Mrs. Clarence Fryar, grandparents of the bride, assisted in receiving guests at a reception held in the home of the bride's parents.

After a wedding trip the couple will be at home in Stanton. She attended Hardin-Simmons University and is a graduate of Commercial College of Midland. She is employed by Webb Air Force Base in Big Spring. Her husband attended schools in Garden City and is an employee of the Texas Highway Department in Stanton.

Shoes Cause Skin Eruption

If you suddenly develop a bothersome red, itchy rash on your feet — one that seems to come and go — consider that the guilty party may be your shoes. This is the advice from the British Medical Journal which pointed out recently

on the bench during games, are major factors in cutting down on serious injuries.

Precautions against the extreme heat of early season days also are important. Many coaches are now scheduling the hot weather workouts in early morning and late afternoon to avoid the heat of the day. The old rule against drinking water during drills and games has long since been proved invalid and dangerous. Water and salt is necessary to replace fluids lost through copious sweating.

If your boy is playing on an organized team, the chances are good that all of these safeguards are observed. If most of his playing is done on a vacant lot in the afternoons and on Saturdays, it becomes the parents' responsibility to see that the player has the benefit of the safe guarding principles.

Revenue Bonds

The Port of Seattle, Wash., will take bids about Sept. 26 on \$7.5 million revenue bonds.

The signature of Button Gwinnett is the rarest of all signers of the Declaration of Independence. Only 50 are known to exist.

That 'shoe dermatitis' may arise, most often, from sensitization to leather and rubber and, more rarely, to dyes and adhesives.

The eruption usually affects both feet and may be symmetrical. Its pattern can correspond with the design of the shoes. Although beginning on the feet, the dermatitis can spread to other parts of the body, being dispersed by perspiration. If the irritant shoes are worn intermittently, the rash may come and go.

What to do about the rash? Take your feet to the doctor, along with a careful account of when the trouble began and whether a pair of new shoes entered your wardrobe at about the same time. The doctor may then patch test you to find the specific irritant. Having found it, you may then have to throw away not only the new shoes — but all shoes containing the offending material.

Better than a skin eruption, isn't it?

Social Calendar

- LIONS CLUB — Each Tuesday at noon.
- ROTARY CLUB — Each Wednesday at noon.

SEASON IS HERE—

First Step In Football: Get A Physical Exam

Football season is here again.

All over the nation American males are tossing and kicking and running with footballs, all the way from eight-year-olds in the backyard to junior and senior high and college teams to the big bruisers of the professional leagues.

Football is a rough contact sport and inevitably will produce its full quota of bumps and bruises, strains and sprains, cuts and gashes. Most of these aren't serious and the lads concerned are back in the game shortly.

A thorough medical examination is highly important for boys preparing to go out for football to make certain that a lad has no physical conditions that should be noted before he begins the rigorous training and hard knocks of the game.

Proper physical conditioning hardens the body and increases resistance to fatigue, thus helping to prevent injury. A minimum of three weeks conditioning are recommended prior to the first game of the season. Coaches and physicians are alert to the fact that many injuries occur when the player is tiring and thus less alert.

Careful coaching enables the players to perform better and thus become less prone to injury. Good officiating makes for better games and also helps to protect players. Proper equipment and facilities also are important to reduce injuries. Good first aid procedures and medical care, with a physician readily available for practice drills and

FLOWER GROVE NEWS

By BETH HOLCOMB

Flower Grove classes got underway the 28th of August.

Teachers joining the faculty this year are Mr. Maupin, English; Mrs. Maupin, commercial; Sam Jones, math, high school girls basketball coach, and high school principal; Mr. McDonald, science; Mr. Carroll, agriculture, and Mrs. Bickmeyer, fifth and sixth grades. Our teachers' aides are Mrs. Carroll, and Mrs. Jones. The secretary is Mrs. C. D. Holcomb.

The seniors have elected their officers for the following year. They are Neil McMorries, president; Jimmy Walker, vice-president; Mary Pribyla, secretary, and Joy Oaks, reporter. Their student council representatives are Mary Pribyla and Neil McMorries.

The Halloween candidates are Janie Martin and Archie Dennis.

The junior officers are Gregory Gonzales, president; Neta Hightower, vice-president; Ann Haggard, secretary; Rita Hightower, treasurer, and Clivis Burton, reporter. The representatives for student council are, Brenda Topper, and Gregory Gonzales. In the Halloween carnival they will be represented by Rita Hightower, and Roy Oaks.

Sophomore officers are, Jerry Welch, president; Jim Coker, vice-president; Bonnie Hill, secretary; Brenda Graves, treasurer, and Virginia Pribyla, reporter. Their seats in Student Council will be filled by Beth Holcomb, and

Jerry Welch. Halloween representatives are Bonnie Hill, and Jerry Welch.

The freshmen elected Frank Flemming, president; Rita Pribyla, vice-president; Debra House, secretary-treasurer, and Jackie Cave, reporter. Rita Pribyla and Frank Flemming are the Student Council representatives.

The class favorites are Mary Pribyla, and Neil McMorries, seniors; Ann Haggard and Roy Oaks, juniors; Brenda Graves, and Jerry Welch, sophomores, and Rita Pribyla and Johnny Losoya, freshmen.

The Dragon's football team welcomes six lettermen back to the team this year. The team is made up of Tony Barboza, senior; Max Fly, senior; Pete Geurin, senior; Barry Hill, senior; Neil McMorries, senior; Jimmy Walker, senior; Gregory Gonzales, junior; David Lemon, junior; Roy Oaks, junior; Marty Rawlings, junior, and Paladio Garza, sophomore. Also on the team are Rodney Feaster, sophomore; Juan Barboza, freshman; Eugene Hill, freshman; Dan-ny Howard, freshman, and Johnny Rosoya, freshman. The managers are Frank Henning and Jim Coker. The Dragon coaches, Max Fly and Kirby White, are looking forward to the season, which started Sept. 8 in a game with Dawson.

The cheerleaders this year are Ann Haggard, head cheerleader; Brenda Hopper, Virginia Pribyla, and Beth Holcomb.

Zip-A-List Kits On The Way

The Stanton Post Office this week started delivery of 1,000 ZIP-A-LIST kits to every household in the area.

The Post Office Department urges all residents to use the postal cards contained in the kits to obtain the ZIP Codes needed for addresses in their personal mailing lists.

Each household will receive eight cards with spaces for the addresses to be "zipped" by the post office and for the return address.

No postage is needed to return these cards to your local post office.

The project is part of Postmaster General Lawrence F. O'Brien's program to make ZIP Codes more accessible to the mailing public and thereby increase the use of the codes in mailing addresses.

In addition to the kit, which is folded like a closed accordion, a separate card is

being delivered to remind residents of the local ZIP Code number.

Zip Code is necessary all year round to increase the efficiency of the Postal Service, but it is more important than ever around the holiday season. This year, the Post Office Department expects to handle well over nine billion pieces of mail during the Christmas rush. ZIP Code will be a great help in delivering that mail accurately and on time.

The Post Office Department reminds ZIP-A-LIST users to print clearly and to include their return address so that the post office will know where to deliver the completed form. Last year, thousands of people throughout the nation forgot to include the return address and their efforts to cooperate in their project went for naught.

teachers of the Stanton Independent School District Tuesday, September 26, 7:30 p.m. at Cap Rock Electric. District Governor J. Marvin Allen of San Angelo, will be guest speaker for the occasion.

Beta Sigma Phi Activities

Rho Xi Chapter of Beta Sigma Phi met in the Martin County Library on September 7. President Wanda Bryan was in charge of the business meeting. A short executive board meeting was held before the regular meeting. Vanita Waid was approved as parliamentarian.

All correspondence that had been received in the summer was read to the chapter. Suggestions that had been turned in to the president were read. The Ways and Means Committee, the Service and Projects Committee, and the Social Committee took the lists to use as guides in planning the activities for the year.

Hostess Wanda Bryan served refreshments to Mrs. Tom Ed Angel, Mrs. Stanley Bergstrom, Mrs. Tommy Blackwell, Mrs. Bryan Boyd, Mrs. Piji Brandt, Mrs. Charles Elmore, Mrs. Eddy James, Mrs. Bill Terry, and Mrs. Jerry Waid.

—BSP—
Fall activities of Preceptor Mu Chapter of Beta Sigma Phi got underway Thursday evening, September 7, when members met at the home of Mrs. John Roueche, 710 N. St. Mary Street.

Mrs. John Roueche, president, was hostess for the meeting and a hamburger supper served on her patio.

During the business meeting conducted by Mrs. Roueche, it was voted to give a donation to the Big Spring State Hospital Christmas fund.

Mrs. Glenn L. Brown, program chair, introduced the program, "Turn the Key to Fine and Practical Arts," studies in the arts from personal likes, desires, and personal experiences. Mrs. Brown presented the program, "Turn the Key to the Art of Poetry Appreciation." She read poetry and a playlet, "The Moral Interlude," by Edna St. Vincent Millet.

Mrs. Helen Dawson told of her trip to the Beta Sigma Phi state convention held recently in El Paso.

Attending were the following: Mrs. P. M. Bristow, II, Mrs. Glenn L. Brown, Mrs. Helen Dawson, Mrs. Glenn Gates, Mrs. Bob W. Latimer, Miss Sammie Laws, Mrs. Elmer J. Long, Mrs. Tull Ray Louder, Mrs. John Roueche, Mrs. Louis Roten, Mrs. Jesse Talton, Mrs. John Wood, and Mrs. J. N. Woody, Jr.

—BSP—
Rewarding and enriching describes the experience shared in by Mu Lambda Chapter of Beta Sigma Phi, as they rejoined their circle of sisters, in the home of Mrs. Jess Angel on September 7.

During discussion of business and correspondence, the chapter adopted the Big Spring State Hospital, as a service project to be contributed to periodically during the year 1967-68.

Mu Lambda Chapter received certification from Beta Sigma Phi International headquarters rating the chapter as a three star chapter, the

and James E. (Jim) Wheeler. The board of directors include:

Gerald Hanson, president; Russell McMeans, vice-president; Sam Houston, vice-president; Rev. Richard Payne, secretary - treasurer; Benny Welch, director (2 years); Bob Cain, director, (2 years); Charles Blocker, director, (2 years); Wayne Petree, director, (1 year); Jim Wheeler, director, (1 year), and Bob Haislip, director, (1 year).

Dick Morrow, immediate past distinguished governor, gave the main address. He challenged the Stanton Club to continue in the tradition of Optimist, and spoke encouragement and appreciation to the Midland Optimist Club who sponsored the new club in Stanton; and reminded them as parent club, they were to be responsible to assist in their activities and endeavors.

Morrow used the Optimist creed as his guide line. He reminded all the Optimists that in their creed they promised themselves that nothing could disturb their peace of mind, if they would truly follow this tenant. That it would enable them to be much more creative and constructive in their relationships with others.

He concluded his address by emphasizing the thought that certainly they would be much better persons if they were too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.

The banquet came to a conclusion with Tom Coleman leading the Optimists Creed.

County GOP Official Attends Meet

Mrs. Buddy Roper, vice-chairman of the Martin County Republican Party, attended a district conference for Republican officers and workers held September 9 at the Holiday Inn in Midland.

Some of the highlights of the morning session were a speech by Jim Collins, former Congressional candidate from Dallas entitled "The GOP Outlook for 1968," also a panel discussion on "Reporting Politics and News," featuring newsmen and women of this area. Included on the panel were Jon Whitson, KOSA-TV Odessa; Joe Dominey, KMID-TV, Midland; LaDoyce Lambert of The Midland Reporter - Telegram; David Montgomery of The Odessa American, and Mrs. Marge Carpenter of The Andrews County News.

Strategy sessions were held in the afternoon with talks by Mrs. Maxine Elam, Austin and State Representative Frank Cahoon of Midland. About sixty West Texans attended this conference.

highest rating attainable.

Beginning the year's programs from the program book, "Happiness," Mrs. Clyde Parnell gave "Definition of Happiness," concluded with a solo by Miss Melrae Angel, entitled "Happiness."

Refreshments were served to Mrs. Angel, Mrs. Clyde Parnell, Mrs. Granville Graves, Mrs. Morgan Hall, Mrs. Jim Webb, Mrs. R. O. Anderson, Mrs. Terrell Pinkston, and Mrs. Claude Nowlin.

—BSP—
The first meeting of the 1967-68 year for Xi Theta Nu was called to order September 7, by President Wanda McIntyre, in the home of Mrs. Lillie Harvard. Mrs. John Harvard served as hostess.

Plans were made for the fall banquet to be held at the Holiday Inn in Midland, October 28.

Members voted on a garage sale for Saturday, September 16, as a ways and means project for the chapter.

Those present were Janelle Britton, Jo Jon Cox, Barbara Douglas, Mary Gilbreath, Gracie Hanson, Sissy Harvard, Virginia Henson, Edna Linder, Wanda McIntyre, Kay Simpson, and Johnnye Conner.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Jack Buchanan, Bob Cox, Bernard Houston, Larry Shaw, J. D. Crawford.

The Board of Supervisors of the Martin - Howard Soil and Water Conservation District and the Martin County Chamber of Commerce are cooperating to help farmers and ranchers make hunting an income producing enterprise. To encourage prospective hunters in Big Spring, Midland, and Odessa, the Martin County Chamber of Commerce will run articles in each of the town's newspapers. Landowners interested in leasing their land should list their name with the Chamber of Commerce of any agricultural agency in the county. The Chamber of Commerce will provide all hunters contacting their office with a list of landowners wishing to lease their land for hunting.

With the approaching dove and quail hunting season, farmers and ranchers in Martin County should seriously consider the possibilities of leasing their land for hunting during the hunting season. Landowners will have a good demand for hunting rights with the large population centers around Martin County.

Hunting is one of the more popular activities of outdoor recreation that lends itself to charging of a fee. Landowners have a valuable recreation product in the farm of the right to enter private land for the privilege of hunting. Landowners in many parts of the state are recognizing recreation as an income producing resource on their land. Our present day economy is providing the average American citizen with more money and leisure time than ever before. With this extra money

and time the American people are seeking new things to do and new places to go. Many Americans in ever increasing numbers, are discovering the thrill of outdoor recreation.

Assistance in wildlife planning can be obtained by contacting technicians with the Soil Conservation Service in Stanton.

The total capacity of all electric generating plants in the United States in 1902, 65 years ago, was 1,200,000 kilowatts. By 1955 generating capacity had increased in the United States to 114,472,000 kilowatts and this capacity doubled in the next ten years so that by 1965 the total was 235.6 million kilowatts.

U. S. Representative Wilbur D. Mills from Arkansas says, "We must not let ourselves be put in the position of raising and lowering the hemline of taxation from season to season, merely to make the merchandise more salable. Ours must be a becoming utilitarian style which will wear well and serve its purpose in as attractive a design as we are able to create."

Year Of Shirdress

The year 1967 may very well be that of the shirdress. Wear it around the clock, scarved with silk or filmy chiffon, sleeves rolled high for beachy days and the assurance of always being well-groomed. Collect them in dressed-up crepe, crisp cotton checks, colorful cotton floral or in lightly dotted cotton.

All Jarman styles are "Wear-Tested" TO GIVE YOU *More Comfort*

Does "wear-tested" mean that our Jarman shoes have been worn? Hardly—but it does mean that the original Jarman model was worn and tested extensively, under ordinary day-to-day conditions, before it was ever approved for production. That is your assurance of better fit and more comfort. We have a wide and handsome selection of "wear-tested" Jarman styles. Come in and let us fit you in the style of your choice.

Deavenport's

LET'S GO BUFFALOES

We here at downtown Stanton Buff Headquarters send greetings and the best of luck to the Stanton High Bisons for a victory Friday night when they play the Iran Braves.

Remember, you will find a comfortable place to meet and visit with your friends at our store. Friendly service at all times. For school needs, supplies, fountain service, come by the drug store.

The first District game will be played with Frenship on October 6. The big homecoming game will be played in Stanton a week before the opening of District competition, September 30. McCamey will be the homecoming opponent.
