By NEAL ESTES

Rep. H. Allen Smith (R-Calif) is seeking a way to justify Federal Form 1040's standard income tax deduction of \$600 for a taxpayer's dependent with what Uncle Sam is spending to support his own dependents. He found that Uncle Sam pays Aid to Dependent Children recipients \$800 per year, spends about \$2,300 annually to maintain a federal prison inmate, and provides \$11,000 to train a Job Corps youngster. The Congressman's probing drew this comment from "Washington Report," official publication of the Chamber of Commerce of the United States: "Rep. Smith makes a good point, but he's comparing peanuts and persimmons: How much you're allowed for a dependent, and how much it costs the government for dependents. What's sauce for the taxpayer's goose is not sauce for Uncle Sam's gander."

There is a saying about one picture being worth ten thousand words. It's not so. The myth should have been torn down a long time ago. Without the knowledge of the printed word a picture would mean zero. That's why cutlines appear under photographs. How on earth could a person be absolutely sure about a picture without a written explanation? I could go on with several other reasons but why bother when any fool knows that a straight line is the shortest distance between two points.

Republican RICHARD NIXON and Alabama Governor GEORGE WALLACE are said to be leading in Ector County for the White House job. Vice President HUBERT HUMPHREY is running far behind. A different kind of poll revealed that fact the past week. An individual poll of people contacted directly by mail and in person showed HUMPHREY barely in the contest with NIXON leading and WALLACE coming in a strong second. The percentage of voters not yet having an opinion would make WALLACE the leader. NIXON carried the county when he was running for president against the late JOHN KENNEDY.

The weather continues to be ideal in this area with the comfortable days and cool nights and early mornings. I remember a story a printer who worked at the paper a number of years ago used to tell about eating a double-order of hot cakes when the weather started getting brisk in the mornings. I asked him one time why he thought the cooler weather affected his appetite and he replied: "Man, even birds fly faster when the weather is slightly snappy."

MAURYNE and BILL VARADORE, former Stantonites, dropped by my home for a recent visit. MAURYNE was manager of the Martin County Chamber of Commerce here at one time. They are living in California and doing just fine. BILL is a former civilian employee of Webb AFB, Big Spring.

The annual Martin County Chamber of Commerce sponsored Farm Tour will be held September 19. Be sure to make the jaunt. Contact the Martin County Agent's office for information desired about the tour.

Stanton Meets Tahoka Here Friday

District Governor To Address Local Lions Club

President Russell McMeans of the local Lions Club, is announcing that Lions District

Conner S. Scott

2-A1 Governor Conner S. Scott, will make his official visit to the Stanton Lions Club, at their Teacher Appreciation banquet, to be held on Sept. 16, at 7:30 p.m. at the Cap Rock auditorium.

Lion Scott is a practicing lawyer in Brownwood, where he was born and reared. He has been practicing law in Brownwood, since graduating from the University of Texas School of Law in 1930. Lion Scott has been active in civic affairs of Brownwood for many years and is active in his church.

Lion Scott has been a member of the Brownwood Downtown Lions Club since 1945, and served as president of the club in 1953-54, and has served as a zone chairman, Deputy District Governor at Large, and was elected to the office of District Governor of District 2-A1 at the district convention in Brownwood, in April of 1963.

He is also serving as chairman of the Council of Governors of the State of Texas for the 1968-69 year in Lionism. He has been a life member of the Lions Crippled Children Camp since the camp was established, and is now serving on the board of directors of the camp.

He has served as a member of the city council of the City of Brownwood, and as a member of the Brownwood Independent School Board, and as chairman of the board.

He is married, and has one son, Charles, who has recently married.

Farm Bureau Is Sponsoring "Patriotic Rally"

The Martin County Farm Bureau is sponsoring a "Patriotic Rally," at Grady school Saturday, September 14, at 8:00 p.m.

Featured speakers will be Linda Holder, and David Saunders of Stanton, and Beth Holcomb of Flower Grove.

The students were sponsored jointly by the local Farm Bureau, Rotary Club, and Optimist Club, and attended a citizenship seminar sponsored by the Texas Farm Bureau at Baylor University, where the featured panelist outlined the "American Heritage vs. Communism."

Everyone is invited to come and hear these patriotic young Americans.

Local Women To Attend HD Club Meet In McAllen

Martin County Home Demonstration club women will be represented at the States Texas Home Demonstration Association in McAllen, September 18 and 19.

General theme for the conference is "The Great Force That Readjusts the World in the Home." Keynote speaker for the meeting will be Dr. H. O. Kunkel, Dean of the College of Agriculture of Texas A&M University. Other major speakers will be Mrs. Ben T. Williams, Oklahoma City homemaker and wife of Justice Williams of the Supreme Court of Oklahoma, and Gilliam T. Bryon, president of a bank in Sabin, Texas.

Program highlights will include workshops in Citizenship, 4-H Club work, Family Life, Safety, Health, Cultural Arts, and Recreation.

Mrs. Maynard Gaines, of Coleman, president of the state-wide homemakers organization, will preside at the business meeting, where annual reports will be given and officers elected.

Attending the meeting from Stanton will be Mrs. Norwood Holloway, Mrs. Donnie Jones, and Mrs. W. T. Wells.

Chalmer Wren Among Texas MBA Graduates

The University of Texas Graduate School of Business, has announced the names of 50 students who received master's degrees at the close of the 1968 summer session.

The list includes 45 Master of Business Administration degrees and five Master in Professional Accounting degrees.

Dean George Kozmetsky made public the degree recipients who include: Chalmer Wren, Jr., Route 1, Stanton.

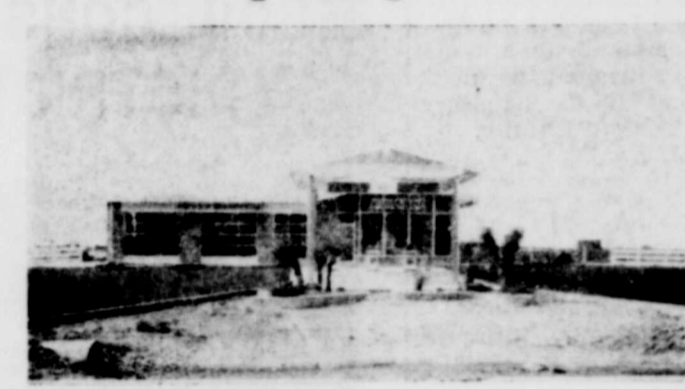

Farm Tour Is Scheduled For September 19

The Martin County Farm Tour is September 19. The tour will leave from the west side of the courthouse in Stanton at 10:00 a.m. Lunch will be served in the Tarzan area.

The tour will consist of several stops to see the following:

Formal Opening Announced

FRED HOLDER HUMBLE STATION

Fred Holder will hold Open House at his new Humble Service Station Saturday from 8 a.m. to 8 p.m. The experienced station operator has sponsoring advertising in this issue of the newspaper inviting guests to visit his station sometime Saturday for refreshments and free souvenirs. The new Fred Holder Humble Service Station is located at the intersection of Lamesa Road and IS 20.

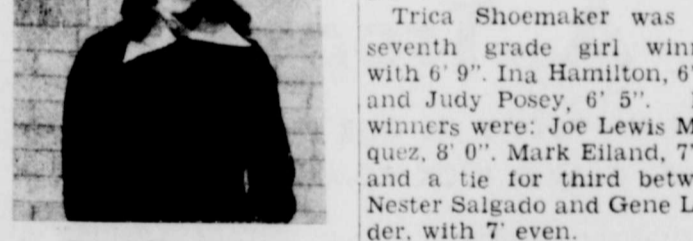

WINNERS IN P. E. TOURNAMENT

Left to right: Vernon Brown, Susie Hopkins, Joe Lewis Marquez, Tricia Shoemaker, Larry Jones, and Vicki Graves.

Junior High Physical Fitness Tourney Held

The Stanton Junior High School weekly physical fitness tournament was held September 6-9.

Linda Creech won second with 6' 9". Tying for third, was Rosa Gonzales, Patti Klein, and Brenda Creech, with 5' 8". Winner of the sixth grade boys competition, was Vernon Brown, 7' 11". Danny Fryar had a score of 6' 8", and Paul Evans came in third, with 6' 5".

Tricia Shoemaker

Vicki Graves won over the eighth grade girls, with 7' 7". Patti White, 7' 5", and Judy Henley, 7' 3".

One gold seal certificate (Continued on page 8)

TESCO Will Send Senior Student To Meet

Texas Electric Service Company will sponsor an outstanding high school senior from this area to the 1968 National Youth Conference on the Atom to be held in Chicago Nov. 21-23, according to Cecil Bridges, company manager.

The student will be chosen by a selection committee of distinguished educators and scientists on the basis of applications submitted to it. Detailed information about the conference and how students submit application has been made available to the eligible schools or can be obtained from the company. A student's grades, test scores and interest in science will be among the qualifications considered by the selection committee, Bridges said.

Composing the selection committee are Dr. E. Leigh Seest, president of the TCU Research Foundation and dean of the graduate school at Texas Christian University, who will serve as chairman; Dr. Arthur F. Beyer, chairman of the biology department of Midwestern University; Dr. H. R. Ovorak, chief scientist at General Dynamic Corporation in Fort Worth; J. W. Miller, president of Globe Exploration Company of Midland, and Dr. W. H. Nedderman vice president of research and graduate affairs and dean of engineering at the University of Texas at Arlington. Calvin A. Crumble, registrar at TCU, will serve as advisor to the committee.

Bridges said the principal of the school from which the student is chosen will be asked to name a science teacher to accompany the student to the conference also as a guest of the company. In all Texas Electric Service Company will sponsor eight students and eight teachers to the conference from high schools in communities served by the company.

Some 800 participants will attend this tenth annual event to be held at the Sheraton (Continued on page 8)

Grid Opener Cinch To Draw Large Turnout

Stanton High School's light but fancy stepping and favored Buffaloes open the 1968 gridiron season here Friday night when they play host to a tough and much heavier team from Tahoka.

It will be a non-district affair but a large crowd is expected to be there when the game starts. The Buffs have participated in two scrimmage skirmishes and left the field looking good after both games.

Stanton Lions In Regular Tuesday Meet

The Stanton Lions Club met Tuesday noon at the Bellevue Restaurant with President Russell McMeans presiding.

John Roueche led the singing accompanied by sweetheart Pauline Wood. The pledge to the flag was led by Claude Nowlin, and the invocation voiced by Cecil Bridges.

The Lions were reminded of the Teachers Appreciation Banquet scheduled for Monday night, Sept. 19, 7:30 p.m. at the Cap Rock auditorium. It is a ladies night and the District Governor will speak. There will be no meeting Sept. 17. The president also commended the Lions who worked at the Donkey Ball game held last week.

S. R. Rivera was officially received into the club at today's meeting, as Cecil Bridges presided during the installation rites. Bill Terry stood with Rivera as the sponsoring member.

Paige Eiland introduced H. B. Reagan of Big Spring. Reagan showed slides and told of his hunting trip to Alaska, which he made in August of 1967.

Head Coach Bryan Boyd has advised that his squad is in good condition for the opening contest with the exception of Rusty Hicks, who recently sustained a broken collar bone. Hicks will be out of action for six weeks, Coach Boyd said.

Tahoka will carry a big weight advantage into the game Friday night, Coach Boyd said.

"Our team is high spirited, aggressive, and small in size, but the boys have a fine attitude and want to win," Boyd said.

"If we had more depth at the defensive halfback positions it would help," Boyd said.

Stanton has a 25-man squad available for action.

Benny Avery is due to get in the opening game despite injuries that have plagued him for the past two weeks. Carl Dean is being trained for Rusty Hicks's replacement.

Coach Boyd stated that Tahoka was coming to town for the Friday evening engagement with a highly touted passing attack. He also said they were rated second in their district immediately behind Denver City.

The possible starting lineup for Stanton in Friday's fray will include: David Jones, Gary Kitchen, Johnny McMeans, Alan Gregston, Tooter Harrell, Mike Curry, Brad Posey, Frank Arguello, Glen Evans, Lindsay Jones, and Steve Stallings.

Scholarships Given, Directors Named At Co-Op Meeting

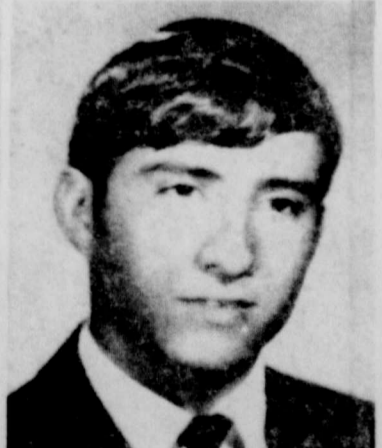

Two outstanding students were presented with college scholarships for the coming

year. Directors for the other districts were not scheduled for election.

Scholarships were awarded to Martha Elaine Couch, 18,

Martha Elaine Couch

Luis T. Garfias

year and three directors were elected at the annual membership meeting of Cap Rock Electric Cooperative, Inc., here Saturday evening.

Directors named are Edgar Phillips of Big Spring, reelected for district three; Raymond Pribyla of Tarzan, reelected in an uncontested vote for district six; and Bob Cox of Stanton, reelected for district

and 19-year-old Luis T. Garfias, both recent high school graduates. Both will attend Howard County Junior College.

Members heard reports on the operations of the organization and received a financial statement. More than 1,600 persons attended.

Editor's Mail

September 5, 1968

Mr. Neal Estes
Stanton Reporter
Stanton, Texas.
Dear Mr. Estes:

The Big Spring Concert Association, in cooperation with Howard County Junior College, is kicking off its membership campaign. The 1968-69 Concert Series is composed of four outstanding attractions of versatile programming.

It occurred to us that many residents of Stanton and the surrounding area might be happy to have news of this series, to which tickets are now on sale. Should you find it possible to include a news item in your next edition, we would be most appreciative. An informative brochure is enclosed.

Sincerely,
Big Spring Concert Association
Helen Hurt,
Publicity Chairman
263-7661.

Gilbert C. Wright No. 1 Logs Oil Show In Howard County

By JAMES C. WATSON

Logue & Patterson, Inc. of Corpus Christi No. 1 Gilbert C. Wright Estate, Northwest Howard County prospector, has shown as the second well for the Modesta, South (Cisco oil) pool. It is a location northeast of the opener and only producer in that pool.

The prospect ran a 25-minute drillstem test in the Cisco section of the Pennsylvanian at 8,889-901 feet. Gas came to the top in two minutes and oil in 20 minutes. The petroleum was flowed for five minutes at the estimated rate of 216 barrels per hour. Gravity of the crude was 43 degrees. Initial shut-in bottomhole

pressure, after an hour was 3,517 pounds. Flowing pressure, with only one gauge reported, was 677 pounds. Final shut-in pressure, with no time listed, was 3,479 pounds.

The project has set 4 1/2-inch oil string at 8,900 feet and will perforate, test and attempt completion.

An earlier check at 8,871-8,886 feet for one hour and 35 minutes, also in the Cisco, surface gas in nine minutes and oil in one hour and 43 minutes. That fluid came out of the drillpipe after the tool was closed.

The zone is credited with flowing oil at a rate comparable with that from the lower

zone. Thirty-minute initial shut-in bottomhole pressure was from 264 to 1,080 pounds. Final shut-in pressure, in 40 minutes, was 3,497 pounds.

The prospect is 15 miles northwest of Big Spring, 1,980 feet from north and 990 feet from west lines of section 32, block 33, T-3-N, T&P survey. John L. Cox of Midland No. 1 Williams, 3/4-mile northwest of the nearest wells, has been completed as a stepout to the martin County sector of the Spraberry Trend Area.

On the daily potential test it pumped 235 barrels of 40-gravity oil with gas-oil ratio of 825-1 from perforations (Continued on page 8)

Philosopher Finds It Hard To Believe The Russians Believed They'd Be Believed

(Editor's note: The Marty County Philosopher on grass farm on Mustang Draw sizes up the Russian-Czechoslovakia situation this more or less.)

Dear editor:

Finding out what people think and then saying it for them is supposed to be one of the finer points of successful politics, but knowing what they'll believe and won't believe ought to rank near the top too.

This occurred to be after I finished reading a two-week-old newspaper reporting on the Russian invasion of Czechoslovakia.

According to it, the Russians sent their tanks and troops storming into Czechoslovakia about 3 o'clock one morning, captured the whole country, made off with the president and other officials, and announced to the world they'd done it because the Czechs had asked them to.

I am afraid the Russians have been talking to each other too long. They must have been the original inventors of, along with the airplane, the submarine, the steam engine, and the ABCs, the credibility gap.

It's as though a bunch of bank robbers, having held up the bank and made off with the money and the president and cashier, announced to the world they'd done it because they'd been invited to.

It'd just be hard for the public to believe this, even harder for it to believe the gunmen believed it would believe it.

But if the gunmen did believe the public would believe them, then obviously humor has been set back a thousand years.

I'll admit I don't understand the Russians, but on the other hand I doubt if the Russians understand you and me, and it may turn out they don't understand the Czechs either.

Yours faithfully,
 J. A.

Bible Comment—

Bible Tells Us Just What Man Is

The Bible asks, in Psalms and Hebrews, "What is man?" And it then gives the answer with a completeness unequalled anywhere else in literature. Its answer is unsurpassed even in the delivings of modern psychology.

In the Bible, man is revealed in all the heights and depths, aberrations and variations of his acts and character, with nothing withheld.

In the early record man appears as an unbrotherly murderer. Cain becoming the symbol of the unbrotherly murderers of all time, including our own.

Man is a liar, even in the lapse of the good Abraham; a cheat in the weak but the ultimately better Jacob; an adulterer in the strong and great David; an oppressor in the glorious builder, Solomon.

In these any man other characters is expressed what

man has been and is, in lust and cruelty; in ruthless ambition and misuse of power; in slackness and weakness, in petty and major sins and transgressions.

It is all there—the Bible's answer to the question, "What is man?" But the uniqueness of the Bible is this: with all the realism concerning man's degradation and degradation of himself and his fellows, it also reveals man in all the heights of his possibilities and attainments.

In contrast to its Ahab and Jezebel and the Johns, Josephs and Simmons, the Annas and the Marys. In contrast with all the depths are the pinnacles of man's aspirations and glories.

Nor is this all. For man in the depths there is the favor and grace of God. The Bible is the Book of the Gospel, of faith and hope, of restoration and uplift, of a new life.

Twenty-Three Years Ago

Courtney High School entered the third week of its 1946-47 terms with the promise of a most successful school year. The following class officers have been named: Senior Class—Jimmy Holloway, president; George Anderson, vice president; Bobbie Douglas, secretary; Eldon Welch, treasurer; Johnnie Jones and W. D. Chandler, reporters. Junior Class—Billy Angel, president; Lina Howard, vice president; Ruth Parker, secretary, and Roxey Hull, treasurer. Freshman Class—Elmer Lee Stroud, president; J. T. Spencer, vice president; Joye Faye Holloway, secretary; Loreta Hull, treasurer; and Holt Priddy, reporter. Eighth Grade—Peggy Cross, president; J. L. Walrean, vice president; Patsy Smith, secretary, and Aline Fisher, treasurer.

Stanton High School seniors have elected officers for the new year. They are Van Ross, president; Jean Davis, vice president; Ruby Nell Lawson, secretary and treasurer; and Mrs. H. G. Hambrick, sponsor.

Betty Blissard was elected president of the Stanton High School homemaking class. Other officers are: Bobbie White, vice president; Ruby Nell Lawson, secretary, and Corene Herrington, reporter.

New officers of the Stanton High School junior class have been named. They include Sousa Stallings, president; Guy Henson, vice president; Patsy Madison, secretary-treasurer; Bobbie White, reporter. Sponsor is Miss Alma Lomax.

At the Monday night meeting of the Stanton Lions Club members of the school faculty were entertained. Superintendent H. G. Hambrick introduced each member of the club. Billy Roy Clements played several piano selections.

Stanton will play Loraine at 8 p.m. Friday at the Buffalo field. It will be the first of the season. The probable lineup includes Billy Avery, right end; Louie Koonce, right tackle; Billy Joe Reid, right guard; Bobby Joe Petree and Guy Henson, center; Jimmy Jordan, left guard; W. B. Criswell or Ronald Cross, left tackle; Leroy Gregg, left end; J. White, full back; Marvin Standefer, halfback, and Herbert Jones, halfback.

Draft Call For November Texas' Lowest Since 1965

Texas' draft call for November is 523 men, lowest quota since April 1965, state Selective Service headquarters said recently.

The state quota is part of a national call of 11,000 men, all for the Army, lowest such quota since March 1965.

State quotas have been declining since May, when the No longer is it just a farmers or ranchers problem. It now belongs to all—rural and urban.

Texas call was 2,131. The August call was 895; September 683, and October 774.

The April 1965 quota was 518 men.

The Moose Lost

Alton, N. H. — Mrs. Robert Wentworth was driving to the store when a 600-pound moose emerged from the woods and charged her car. She and her 4-month-old daughter escaped wits cuts and bruise. The moose was killed.

Public Hearing Notice

The City of Stanton, Box 868, Stanton, Texas, has applied to the Texas Water Quality Board for a permit to discharge an average of 200,000 gallons per day of conventionally treated domestic sewage (Imhoff tank with six lagoons) from its sewage treatment plant located one-half mile east of State Highway 137, and one-half mile south of the City limits, in Martin County, Texas. The waste will be used for irrigation purposes on farm land adjacent to the sewage treatment plant, and there will be no runoff. A public hearing on this application will be held in the Auditorium of the Texas Water Development Board, 301 West 2nd Street, Austin, Texas at 9:00 a.m. on October 3, 1968 to determine the conditions if any, under which the permit may be granted. Additional data will be developed at the hearing, but further technical information concerning any specific aspect of the discharge, if available, can be obtained by writing the Texas Water Quality Board, 1108 Lavaca Street, Austin, Texas 78701.

PERSONALS

James Rogers of Sunday, visited his parents, Mr and Mrs. Dee Rogers, last week.

Mr. and Mrs. John McIntire and family visited relatives in Oklahoma, Labor Day week-end.

Guests of Mr. and Mrs. Shelly Bassham Sunday, were her daughter Mrs. Jay Moore and daughter, Carla, from Midland.

Mrs. Margaret Moffett and Mrs. Lila Flanagan visited Mrs. Moffett's sister-in-law, Mr. Gene Parks, in Gatesville Labor Day week-end.

Mr. and Mrs. Loyd Harvey from Miami, Texas, visited last week-end with her parents, Mr. and Mrs. O. B. Bryan.

Mr. and Mrs. George Blocker of Jal, New Mexico, visited relatives here the past week.

Johnnie Louder, son of Mr. and Mrs. Marshal Louder, has come to San Marcos to enroll in Southwest State Texas Teachers College.

Mr. and Mrs. Eddy Akraze of California, are here visiting her parents, Mr. and Mrs.

Horace Blocker, and other relatives. Their son, Neal, who spent the summer here will return home with his parents.

Mr. and Mrs. Jake Hodges took their daughter, Jane, to Stephenville, last week-end, where she will enroll in Tarleton College.

Mr. and Mrs. Stuart Thompson are guests of her mother, Mrs. Fiji Brandt.

Mr. and Mrs. Leo Turner have been visiting in Arizona with Mr. and Mrs. Pete Watson.

Mr. and Mrs. P. M. Bristow and Tim, Mr. and Mrs. Elmer Long and Becky, and Mr. and Mrs. Clinton Miller spent last week-end at HemisFair in San Antonio.

Mr. and Mrs. W. J. Harlow attended the family reunion of the descendants of the late A. J. Barron in Loraine September 1. Mr. Barron was a well known resident of Gorman, and was prominently identified with that community during his lifetime. The reunion in Loraine was held in the home of Mr. and Mrs. W. F. Barron.

Modern American bicycles are built strong enough to carry to times their own weight.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH
 MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Jack Buchanan, Bob Cox, Bernard Houston, Larry Shaw,

Water, our most important resource, is abused more severely than any of our other resources, reports Jake Hodges, local S. C. S. technician assisting the Martin-Howard Soil and Water Conservation District.

Only nature makes water and there will be no more than exists today. This fact alone makes conservation of water resources of utmost importance. We must plan and conserve this resource for the future.

Agriculture has so far had first call on water supplies and has been the principle user of water resources. But this is rapidly changing. Increased use by industry, recreation, urban users is demanding a higher share of this resource. Some time in the future, agriculture could be called up to justify its use of water. In some areas, a higher priority than agriculture may direct water to other uses. As our population increases, so does the demand for water. The daily consumption of water per person now is about 1,300 gallons per day. By 1980 it is estimated this will rise to 2,300 gallons per day.

The wheat that goes into one loaf of bread requires 115 gallons of water to grow. It takes 65,000 gallons of water to process one ton of finished steel. One gallon of gasoline requires 7-10 gallons of water in the refining process. These examples show the tremendous need for water. To supply all industries now and in the future, will require careful planning.

Each cutting of alfalfa hay requires some 325,000 gallons of water to grow it. One acre of cotton requires some 800,000 gallons to mature one crop. Some citrus and vegetable crops require a million or more gallons of water per acre per season. Brush and weeds on grassland in Texas waste about 146 million acre feet of water annually. This is 40 per cent of the state total use. Irrigation uses account for the greatest use of water today.

What can be done? A lot. The Martin - Howard Conservation District is active in supporting and encouraging soil and water conservation practices.

One of the most effective practices of water conservation on cropland is the use of parallel terraces. Last fiscal year there were 486,593 feet of parallel terraces constructed in the Martin - Howard District. This is a little over 92 miles, or a little more than enough to run from Stanton to Sweetwater. Parallel terraces hold rainfall upon the slopes and spread the water evenly over the field. Contour farming with the terraces further helps to distribute the water between terraces.

Another practice that is saving millions of gallons of water annually, is controlling undesirable brush on our grassland. Brush control and follow up grazing management allows the better grasses to become established and productive. A good grass cover is very effective in reducing runoff of water. A properly designed and operating irrigation system is important to any water conservation project. Irrigation water waste is widespread. Too often too little or too much water is applied, resulting in poor water efficiency. Timely applications with the right amount of water applied each time is needed with each irrigation system. Conservation of our water resources is at a critical point.

**BOYS 8 through 13!
 Win Yourself
 A Trophy!**

SIGN UP TODAY IN OUR BIG PUNT, PASS & KICK COMPETITION!

Registration now going on for our PUNT, PASS & KICK Competition. You could win one of 18 handsome, all-metal trophies we're presenting as our local PP&K Competition awards. We're very proud of these trophies and you will be, too, if you win in our local competition. And you could go on to win all-expense trips to NFL games and the NFL Play-Off game in Miami, and a "Tour of Champions" to Washington, D.C., with your mom and dad!

In PP&K you compete against boys your own age, so your chances of winning all the better! Our 18 trophies, for instance, go to the top three boys in each age group in our local PP&K Competition.

When you enroll we give you a FREE Tips Book on punting, passing and kicking, written by NFL stars. And you get a free official PP&K Contestant's pin. So come in with your mom, dad or your legal guardian to register. Registration ends October 4. HURRY! Sign up at ...

County Agents Column

The ranchman must know the kinds of plants growing on the range, their forage value, when to utilize them properly with the right kind of livestock and at the proper season, reveals County Agent Reagar.

Grass is our basic heritage. It affords protection from floods, guards our cities' water supplies, furnishes our great cereal crops, and supplies forage for livestock and wildlife. Knowing range grasses like knowing livestock, is the foundation of the ranching business. A ranchman is in the grass business, and livestock and wildlife are his salable by-products.

The kind and amount of vegetation determines the kind and number of livestock that can be grazed for most efficient and greatest economic returns.

Certain pasture grasses are indicators like signs on a highway. They show whether your range is going up-hill or down, or if the way ahead will be crooked or straight.

Good, palatable grass is the cheapest feed that can be grown. Good management can only mean more money in your pocket.

For more information on how you can learn more about pasture grasses, ask your county agent for public ion B-132, "Know Your Grasses."

"Belly Of Dan"

The name of Dahomey, a western African nation, means "Belly of Dan." It was named in honor of a 17th-century king who ate his victims.

United Methodist Church News

Circles I and II of the Women's Society of Christian Service, and the Wesleyan Guild, met Tuesday evening at the church in a joint meeting and salad supper.

The opening prayer was led by Mrs. A. J. Stallings.

The president, Mrs. Bill Terry, conducted a business session, and read the names of the officers for the new year. Mrs. Leta Eldson read the names of the officers of the Wesleyan Service Guild for the new year.

Our vice president, Mrs. Bob Cox, discussed our programs for the new year.

Plans were discussed for all who can attend the Officer's Training School, to be held at First Church in Big Spring, Thursday morning, September 12.

Mrs. Richard Payne gave the closing prayer.

Those present were: Mrs. Nolan Simpson, Mrs. Lois Powell, Mrs. T. E. Angel, Mrs. Billy Morrow, Mrs. James Biggs, Mrs. Homer Schwalbe, Mrs. Jess Burns, Mrs. Richard Payne, Mrs. Bill Terry, Mrs. John Poe, Mrs. Eddy Butler, Mrs. A. A. Donelson, Mrs. Leta Eldson, Mrs. Dewey Williams, Mrs. Evelyn Woodard, Mrs. Edmund Morrow, Mrs. A. J. Stallings, Mrs. Aldibbe Haislip, Mrs. Bob Cox, and Mrs. Beth Barbee.

Rho Xi Sorority Begins New Year

Mrs. Tommy Blackwell presided at a Thursday meeting of Rho Xi Chapter of Beta Sigma Phi in the home of Mrs. Bobby Sale.

Mrs. Tom Angel will be hostess Sept. 19 for the fall rush party, using a shipwreck theme, it was announced.

A garage sale will be held Sept. 14 in the home of Mrs. Angel.

Mrs. Tommy Newman was elected Valentine sweetheart.

Mrs. Billy Reagar presented a program on cosmetics and the body beautiful to 10 members.

Spell Quiz

Correct Answer is:

Bamboozle

New rugged styling featured in 1969 Chevrolet Light Truck Line

Boldly restyled for a more massive front-end look, the 1969 Chevrolet light conventional truck line has numerous improvements. They include brighter interiors, tighter door sealing, new cab mounts for quieter ride, automatic choke, and foot-operated parking brake. New options include a 350-cu-in. 255-hp V8 and low-mounted side mirrors which afford better side vision and lower wind noise.

Alsop-Nowlin To Show New Chevrolet Trucks

Higher-powered base engines in three series, three new 350 cu. in. V-8 engines, major front-end restyling of light conventional models, numerous chassis improvements, and many new and expanded options highlight the changes in the 1969 Chevrolet truck line.

The new 350 cu. in. engines are optional in light-duty conventional and forward-control models at 255 hp in two versions for normal or severe operations. A third heavy-duty version, rated at 200 hp, at lower rpm, is standard in 1 1/2- and 2-ton medium-duty V8 gas models.

In 2-ton heavy-duty models, a 235 hp 366 V8 is made standard equipment, replacing the former 185 hp 327 V8. Again, all Chevrolet gasoline truck engines can be operated on regular grade fuel.

Also new for 1969 is a Chevrolet-designed 3-speed manual transmission designed to accommodate the power output of the larger V8 engines.

Light-Duty Conventional Line

Major styling changes in the light-duty conventional series give the front end a more massive appearance, with a higher, virtually horizontal hood line and new anodized aluminum grille.

New cab and sheet metal mounts, better door seals, and a new steering shaft coupling which isolates road noise and vibration make the cab interior much quieter. A new polyurethane foam seatback cushion gives increased comfort.

Other new chassis features include automatic choke with all engines, two-stage multi-leaf rear leaf springs for better ride with light loads on models where leaf springs are standard or optional, foot-operated parking brake, wide-

tires on 3/4- and 1-ton models for better ride and lower vehicle height, and optional power steering on four-wheel drive models for the first time.

Among other improvements are new optional Below-Eye-Line outside mirrors with low-mounting brackets for unobstructed side vision and reduced wind noise, a higher capacity windshield wiper and washer assembly, and relocation of instrument controls for more convenient access to light and wiper-washer switches.

Interiors are brighter, with five new colors available, and a carpeting option now is offered for 3/4- and 1-ton cabs. A new design two-spoke steering wheel is larger for reduced effort.

Optional dressup items available include vinyl bucket seat with hand-tooled leather appearance, and a variety of bright metal trim, including exterior moldings with black paint or vinyl simulated wood-grain side inlays.

Several improvements are offered in the 1969 Chevy-Van and Sportvan. New this year in both the Sportvan and Chevy-Van is a 3-speed automatic transmission, optionally available with all engines. Front bucket seats are re-designed for more comfort and trim styling is new on standard and optional seats.

For the first time, an air conditioning system is available for the two top Sportvan models. A high-capacity body-integrated unit, it has a roof-mounted condenser and full-length ceiling duct with adjustable outlets to front and rear compartments.

Medium-Duty Line

New for most 2-ton models with 366 or 427 V8 engines is an integral charging system combining a generator and

miniaturized integrated circuit voltage regulator onto one compact unit. Voltage settings remain precise because moving parts and contacts have been eliminated.

An important new option is an emergency stopping and parking brake system for 2-ton models equipped with air brakes. It starts to function when air pressure in the system falls below 60 PSI and automatically applies the brakes for an emergency stop when pressure drops to about 30 PSI. A manual control valve in the cab is used to set the air brakes for parking. Also available as a new option is a dual brake system for most chassis-cab models with vacuum-hydraulic brakes.

Other improvements include tighter cab door sealing, more convenient location of instrument controls, and new design foam seatbacks for increased comfort. New front clearance and identification lamps of inverted bowl lens design provide full 360 degree visibility for greater safety.

Heavy-Duty Line

The power lineup in the Chevrolet heavy-duty series for 1969 consists of one diesel and four gasoline engines. In addition to the standard 366 in the 2-ton heavy-duty series, a 260 hp 427 V8 is optional. The 3-ton series is exclusively gasoline powered, with a 237 hp 407 V6 standard, and 254 hp 478 V6 optional. All 2 1/2-ton models are equipped with the 318 cu. in. 6V-53 diesel, rated at 195 hp.

The heavy-duty 2-ton line shares many of the improvements made in the light or medium lines. They include the optional dual vacuum-hydraulic brake and emergency air brake systems, more convenient instrument controls, new foam seatback design, bet-

ter cab sealing, brighter cab interiors, and full visibility front identification and clearance lamps.

In 3-ton models new all-vinyl and custom cloth-vinyl seat trims are color keyed to the instrument panel. The standard driver's seat and all optional driver and auxiliary seats in the 2 1/2-ton models are new black vinyl in both 2 1/2- and 3-ton lines, instrument cluster and heater control panels have wood-grain trim and bright bezels for instruments.

Mrs. D. J. Jones Honored With Bridal Shower

A bridal shower honoring Mrs. Donnie J. Jones was held Saturday, September 7, at the home of Mrs. Pat Hull.

Punch and cookies were served by Karen Cain, and Jackie Jones, from a table covered with a lace cloth and crystal appointments featuring a miniature bride. Rita Jones registered the guests, who were received by Mrs. Donnie J. Jones, Mrs. Donnie Jones, Mrs. Robert Cain, and Mrs. Pat Hull.

Hostesses for the occasion were: Mrs. Lewis Latimer, Mrs. L. C. Hazlewood, Jr., Mrs. N. E. Holloway, Mrs. Clara Vaughn, Mrs. Homer Swinson, Mrs. H. K. Lawson, Mrs. L. C. Duke, Mrs. Burnell Howard, Mrs. G. P. Harrel, Mrs. J. L. Merrifield, Mrs. J. A. Wilson, Jr., and Mrs. Hull.

Mr. and Mrs. Ervin Myrick have returned from vacationing in Ruidoso, New Mexico, along with their daughter and family, Mr. and Mrs. Bill Corne of Morton. Their son and family, Mr. and Mrs. Rodney Myrick and family of El Paso, and another son and family, Mr. and Mrs. Redgie Myrick of Deming, New Mexico, joined them in Ruidoso.

Xi Theta Nu Starts Season

Mrs. Gerald Hanson was hostess Thursday for the first meeting of the year of Xi Theta Nu Chapter of Beta Sigma Phi.

Mrs. W. A. Douglas, president, presided. Plans were made for a skating party Sept. 16 for members and their husbands.

Mrs. Jimmy Henson was elected Valentine Sweetheart.

An area convention will be held in Odessa Sept. 27 through Sept. 29, the meeting was discussed and several members plan to attend.

"Let's Begin With Art" was the title of a program presented by Mrs. Jimmy Conner.

You say people are afraid to get involved?

...not everyone.

Many telephone people have made it their business to get involved in other people's problems. They've saved hundreds of lives in the process, often risking their own safety.

Over the years, 240 Southwestern Bell employees have been awarded the Vail Medal, an award recognizing acts which exemplify the company's highest traditions of service.

Among our Vail Medal winners are employees who... pulled a mother and her son from the rushing waters of a turbulent river... carried a baby from a blazing trailer home... dragged a man and woman from a burning car.

The list goes on and on.

And we're proud of them all. They're the kind of people you can count on to get involved.

Here! New '69 CHEVROLET TRUCKS!

Now there are even more reasons why Chevrolet is more truck.

MORE STYLE

Here's the bold new look in pickups—Chevrolet's handsome new hood profile, new aluminum grille, new interior trim colors! You get a cab and Fielet-side pickup box that are double wall, double strong. America's most popular pickup is more truck than ever for '69!

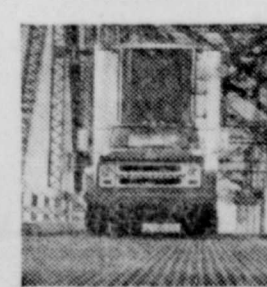

MORE LENGTH

New '69 Fleetside pickups provide cargo boxes up to 8 1/2 ft. long—haul bigger payloads or king-sized camper bodies! For work or play, you get the riding smoothness of work-proven Independent Front Suspension, the economy of Chevy truck power. Plus easier handling.

MORE COMFORT

New more comfortable seats are designed with molded foam. Thick insulation hushes road noise. Bump leveling coil springs at all four wheels on most models smooth the way. More comfort!

MORE POWER

New workpower! A spirited new 350-cu.-in. V8 is standard in medium-duty V8 models. Order it for pickups, too! And there's big V8 power in heavyweights. Chevrolet gives you plenty of workpower!

MORE VAN FOR THE MONEY

Low-cost Chevy-Van delivers loads of economy with big Sixes or work-whipping V8. Nimble maneuverability in traffic makes light of big loads. Now available with 3-speed Turbo Hydra-Matic.

At your Chevrolet dealer's now.

More trucks are Chevrolets because Chevrolet is more truck!

The 1968-69 Plains Cotton Growers, Inc. budget of \$181,750, while some \$27,000 below the 1967-68 budget, features a new "floating fund" of \$10,000 to launch an expanded drive for increased export and domestic markets for High Plains cotton.

Oon Anderson, Crosby County cotton producer and president of the 23-county cotton organization, said the new budget provides for continuing current PCG programs on behalf of area cotton at only slightly reduced levels.

"But at the same time," he said, "we have tried to put more emphasis on building market demand that will justify producing more bales on the Plains at prices high enough for growers to show a profit."

The new Export and Domestic Market Development item in the budget, according to Anderson, is to be spent for added fiber analysis and spinning tests, travel, advertising and promotion, the services of a qualified textile engineer "or in whatever category we find will give the desired results."

The organization's reduced budget for the coming year is the result of much smaller production in the area for the past two years under the Agriculture Act of 1955. PCG derives its revenue principally from paraffin, ginner, oil mill and compress dues paid on a per-bale basis.

Producer dues are 15 cents per bale, ginners pay one cent, oil mills send in two cents per ton of seed crushed and compresses submit one-third cent per bale received. Lesser dues are collected from banks, merchants, suppliers and other agri-businesses.

Major items in the commodity organization's 1968-69 budget, any of which may be increased by the Board from the Export and Market Development Fund if necessary, include:

Agriculture research, \$17,650, reduced substantially from the \$32,325 budgeted in 1967-68 because Cotton Producers Institute is now putting more grower funds into projects previously financed by PCG.

Advertising and public relations, \$22,000, covering area, national and international publications, displays, exhibits, style shows, women's cotton promotion groups and related activities.

Boll weevil operations, \$1,500. The great majority of funds for this program come from separate collections, reduced from 40 cents to 25 cents per bale this year.

Fiber quality analysis and reports, \$4,000, providing mills and merchants with seasonal quality breakdowns of area staple, grade, pressley, micronaire and elongation figures not available to them from any other source.

Travel, \$17,500, covers necessary travel of officers and staff for legislative representation, marketing efforts, industry meeting attendance, etc.

Salaries, \$52,500, for five full time employees, two field men who work about five months of the year and the service of a textile consultant.

The remainder of the budget is allocated to minor items such as insurance, rent, meetings, accounting costs, office supplies, etc.

Recent visitors with Mr. and Mrs. L. C. Stovall, have been:

Mr. and Mrs. Wayne Stovall of Wichita Falls, Vickie Payne, also of Wichita Falls, Mr. and Mrs. Travis Stovall of Fort Worth, Mr. and Mrs. Irvin Currie of Midland, and Mrs. Ted Gross and daughter, Sandra, of Sand Springs.

The Pharmaceutical Manufacturers Association commented that surveys reveal that the average retail price of lifesaving, health-giving prescription drugs is only \$3.43, including all the costs and earnings of the manufacturer,

wholesaler, and pharmacist. Maximum social security taxes for one employee over the next 40 years will total \$31,293, not counting medicare deductions, while the future maximum old-age benefit will be \$323 a month starting in the year 2008, reports the National Federation of Independent Business.

The Daimler motor car ascended the world in 1889 by racing down roads at the ten incredible speed of 11 miles per hour.

THE SEA DOES PROVIDE — Bermuda is a land that lives by the sea and her people take pride in the bounty from the ocean. This happy couple is fascinated by a Bermuda lobster, one of the colony's true delicacies, while a Bermuda fisherman makes ready a fillet that couldn't be any fresher unless it was eaten underwater.

Nixon Says Democrats Have Broken 'Faith'

Former Vice President Richard M. Nixon has lashed out at the Democratic administration as having "broken faith with the American working man."

Nixon, the Republican presidential nominee, said in a Labor Day message:

"In the last two years the average American worker has been on a government-operated treadmill. New taxes and rising prices have more than wiped out all the pay raises he has won since 1965."

This year, Nixon said, "the 70 per cent surtax was added on all incomes, and prices are now rising at more than 4 per cent annually . . . and these prices work hardships on the poor and the pensioners."

"These statistics are more than a question of economics; translated into reality, they

become a grave question of justice, and a matter of right and wrong.

"The hidden tax of inflation will weigh heavily on the final balance sheet against this administration," Nixon said.

"More than \$2 billion of the great Social Security Trust Fund, the government - held pension fund accumulated from the pay checks of workers and their employers, has disappeared in the government - generated inflation of the mid-sixties."

Nixon concluded, "The men of politics would better serve the end of honest labor if they simply abjured forever the politics of inflation — the modern curse of the working man."

Nixon opens his campaign Wednesday at Chicago at the start of a tour of the Midwest and West.

Baptist Church Activities

The Bethany Class of the First Baptist Church, met for a luncheon meeting, Thursday, September 5, with Mrs. Hattie Estes giving the devotion, and Mrs. Warner Haynie conducting the business meeting.

Present was Mrs. Hattie Es-

tes, Mrs. Roy Martin, Mr. Guy Elland, Mrs. Oma Womack, Mrs. Raymond Louder, and Mrs. Warner Haynie.

Mr. and Mrs. T. D. Barnhill have returned home from Fort Riley, Kansas, where they visited their son-in-law and daughter, Lt. and Mrs. Ray E. Louder.

Read the Ole Reliable for the latest hometown news!

Veterans Administration

(Editor's note: Veterans and their families are asking thousands of questions concerning the benefits their government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA offices.)

Q — Are widows of World War II servicemen who died on active duty or from service-connected disabilities still eligible to file applications for G. I. home loans?

A — Yes. Entitlement for these widows will not expire until July 25, 1970.

Q — I was recently discharged from military service and want to enter the state university this fall. Should I inform the Veterans Administration now or merely tell the university registrar of my veteran status when I enroll?

A — Inform the VA regional office where your records are on file as soon as possible of your intention to enroll in school this fall. By applying early for the VA Certificate of Eligibility, which you must have you will be assured of no delay in receiving your monthly educational assistance allowance check from the VA once school starts.

Q — I have designated my wife as principal beneficiary of my National Service Life Insurance policy, and selected the lump sum mode of settlement. Suppose that each of us was fatally injured in an accident and she survived me by a few hours. What would happen to the proceeds of the policy in this kind of situation?

A — Since your wife survived you, even for a short time, she becomes the beneficiary under the policy. Since she did not live long enough to be paid these proceeds, the VA must pay the proceeds to her estate, and not to the designated contingent beneficiaries. Paying the proceeds to the estate subjects these funds to the delays and expenses incident to probate proceedings. This can be avoided through the use of a "common disaster clause." An example of such a clause is: "I designate my wife, Helen, as the principal beneficiary if living 30 days after the death of the insured; otherwise the proceeds should be paid to the named contingent beneficiaries."

Thus, in the event such beneficiary fails to survive the specified period, payment of the proceeds of your NSLI policy will be made as if the beneficiary had died before the insured.

Amendments To Be Voted On In Nov. 5 Election

This proposed amendment, No. 13, H.J.R. No. 16, adds a new Section 1-f to Article VIII to provide for exemption from ad valorem taxation of "merchandise, products, goods or wares in the temporary custody of a public warehouseman . . ." under certain conditions.

ARGUMENTS

For:

1. Over two-thirds of all the states, 34 states and the District of Columbia, have some form of free port tax legislation in their statutes. The 16 states (including Texas) without free ports are placed at a disadvantage competitively and are also limited in potential growth as distribution centers for major manufacturers and processors.
2. The practical effect of the present ad valorem tax law, which does not exempt certain property temporarily stored in public warehouses from assessment, is the collection of minimal revenues from this source, because (1) manufacturers and processors, particularly the larger ones and major companies from out of state, make a practice of moving their goods prior to the January 1 date of assessment;

tion service. A limited number of carcasses can be evaluated by extension personnel. Local county extension agents, said the specialist, can supply details on the evaluation programs.

or (2) they move their goods in-state by out-of-state carriers after January 1, and thereby avoid assessment.

3. The adoption of the proposed amendment would make it possible for Texas to attract a wealth of new dollars which are now going to states in a more competitive position because of tax advantage they are able to offer warehousemen distributing interstate goods.

Guide Lines For Cutting Hay Released

There is still time to get high quality hay cuttings this season, but producers should follow some recommended guidelines to get best results, Dr. J. Neal Pratt, extension agronomist with Texas A&M University, says.

The proper stage of growth for harvest is the time when the greatest amount of total digestible nutrients per acre may be obtained. This usually means the best compromise between quality and quantity, he continues.

Generally, the younger crop at the time of harvest, the higher the quality. The more mature the crop at harvest, the lower the quality.

To achieve this balance between quality and quantity in hay, it is best to cut coastal

2. The ad valorem tax, though it may sometimes be inequitably assessed, is drawn from those most able to pay. Abolition of the tax would inevitably benefit the "haves" at the expense of the "have nots."

Against:

1. The adoption of the proposed amendment would be another step in a long series of getting "around" the "equal and uniform" provisions of the Constitution as

they relate to taxation.

2. It is impractical for the State of Texas to give up another source of revenues, when there is already a great need for new revenue sources if Texas state government is to provide the benefits and services required by a rapidly growing population in an urbanized society.

3. By exempting part of warehouse inventory for ad valorem taxes, as proposed by Amendment No. 13, the way would be clear for inaccurate renditions under the temptation to avoid taxation also on goods which could not be legitimately considered exempt.

This proposed amendment, No. 14, H.J.R. No. 22, to Section 18, Article III, is designed to modify slightly present constitutional restrictions on eligibility of members of the legislature for other offices during their legislative terms.

ARGUMENTS

For:

1. The proposed amendment

merely negates the unintended result caused by overlap in terms stemming from the 1966 amendment which set the commencing date of a legislator's term of office as the date of convening of a regular session of the legislature. The proposed amendment does not impair in any way the effectiveness of the existing restrictions designed to prevent a legislator from resigning to take another government position which was either created or had its emoluments increased while he was a member.

Against:

1. Section 18 Article III, is designed to prevent legislators from resigning to take state offices which were created, or the emoluments of which were increased, during their term of office. Any relaxation of this prohibition, even for a few days as proposed by Amendment No. 14, would set a bad precedent for future legislatures.

Beta Sigma Phi Activities

Mrs. Juil Reid, 726 West Broadway, was hostess in her home Thursday evening, September 5, to a meeting of Preceptor Mu Chapter of Beta Sigma Phi. Mrs. Reid, president, presided during the business meeting, and also introduced the program for the year, "The Science of Psychology, Know Thyself." She discussed "What is Psychology?"

Mrs. P. M. Bristow, II, Ways and Means chairman, reported that two rummage sales were held during the summer. She also reported that the chapter has recently purchased dishes for the hospital, and hypodermics to be used for indigent children.

Preceding the meeting a covered dish supper, was served. Those attending were: Mrs. Helen Dawson, and Mrs. Jess Talton of Big Spring, Mrs. John Roueche, Mrs. Stanley Reid, Mrs. Glenn L. Brown, Mrs. Bob Lattimer, Mrs. Louis Roten, Mrs. John Wood, Mrs. P. M. Bristow, II, Mrs. Juil Reid, and Miss Sammie Laws. —BSP—

Xi Epsilon Delta Chapter of Beta Sigma Phi met Sept. 5, in the home of Helen Thrailkill. The business meeting was conducted by Bert Schwalbe, president.

A very interesting and informative program on "Let's Begin With Art," was presented by Jean Koonce.

Members present were: Jean Koonce, Lois Powell, Marilyn Payne, Audrey Louder, Mary Payne, Bert Schwalbe, Nancy Cruse, Helen Thrailkill, Cris Clark, Faye Rhodes, Tince Ory, and Marjorie Ireton.

RAY E. LOUDER MADE FIRST LIEUTENANT

Lt. Ray E. Louder was promoted to first lieutenant in a ceremony at Fort Riley, Kansas, August 29, 1968. His bars were pinned on by his wife, Judy, and Lt. Colonel Bruce F. Buck, commanding officer of the Third Battalion, Eleventh Artillery. Lt. Louder is currently assigned as the Executive Officer of C Battery, Third Battalion, Eleventh Artillery.

Relatives Attend Reunion Sunday, September 1

The descendants of the late Mr. and Mrs. N. M. Madison of Stanton, held a reunion at Hogan Park in Midland, Sunday, September 1.

Relatives attended from Ft. Worth, Odessa, Monahans, Kermit, Andrews, Big Spring, Stanton, Colorado City, Coahoma, Azel, Tatum, New Mexico, Midland, and Lenora.

Among the approximately 127 attending, were 6 sons and one daughter: Lois and Carl Madison of Big Spring, Dick and Paul Madison of Kermit, Gib and Louis Madison of Andrews, and Mrs. Opal Harris of Midland.

LEGAL NOTICE

NOTICE TO CREDITORS

NOTICE is hereby given that original Letters Testamentary upon the Estate of ODESSA DAVENPORT, Deceased, No. 779 on the Probate Docket of the County Court of Martin County, Texas, were issued to us, the undersigned, on the 9th day of September, 1968, in the aforesaid proceeding, which proceeding is still pending, and that we now hold such Letters. All persons having claims against said estate, which is being administered in Martin County, Texas, are hereby required to present the same to us respectively at the addresses below given before suit on same are barred by general statutes of limitation, before such estate is closed, and within the time prescribed by law. Our residence and postal addresses are: Joseph Clay Lemon, Ackerly, Texas; and G. H. Hayward, 204 Golland, Big Spring, Texas.

Dated this 9th of September, 1968.

JOSEPH CLAY LEMON, Executor of the Estate of ODESSA DAVENPORT, Deceased, No. 779 in the County Court of Martin County, Texas.
G. H. HAYWARD, Executor of the Estate of ODESSA DAVENPORT, Deceased, No. 779, in the County Court of Martin County, Texas.

Park Bonds Sale Announced; Bids To Be Opened Sept. 23

The Texas Parks and Wildlife Department's advertisements for bidders in the \$5.75 million park improvement bond sale will appear in national financial periodicals and journals on Sept. 9, according to J. R. Singleton, executive director of the department.

This bond sale is the first of a \$75 million state park acquisition and development program proposed by Governor John Connally, passed by the 60th Legislature, regular session, and authorized by Texas Parks and Wildlife Commission action on July 30.

Bids will be opened at 1:30 p.m. Sept. 23 (Monday) in Room 105 of the John H. Reagan State Office Building, Austin. Department authorities said bond brochures and information statements will be mailed to prospective buyers during the first part of September.

Women Leaders Meet To Discuss Safety

Top officials of Texas women's clubs — civic, business, and professional groups — will gather Monday, September 16, in Dallas at the Baker Hotel for a one-day safety seminar.

The group will discuss the state's overall accident problems and how women's groups can contribute to safety programs. They will also outline coordinated program of safety activities for use by Texas women's organizations throughout the state.

Mrs. B. F. Seay, who is in charge of the affair, and is vice president for Women's Activities for the Texas Safety Association, sponsor of the Texas Women's Conference, said emphasis will be placed on programs dealing with traffic accident prevention—the state's most pressing safety need.

Attending the Women's Conference will be state presidents, safety chairmen, and other representatives of statewide women's organizations.

Newlyweds Feted At Recent Party

An introductory party was held for Mr. and Mrs. J. Stewart Thompson Saturday in the home of Mrs. Stanley Reid.

The couple was married Aug. 31 in Navasota, and the bride is the former Miss Susan Brandt of Stanton.

Cohostesses were Mrs. Lila Flanagan, Mrs. H. M. McReynolds, Mrs. Euel Ferguson, Mrs. James Biggs, Mrs. O. B. Bryan, and Mrs. Bob Bryan. Others in the house party were Miss Cindy Britton, and Mrs. Phyllis Tucker, both of Midland.

The bridal couple was joined in greeting guests by Mrs. Fiji Brandt, mother of the bride, and the hostess. Approximately 70 attended.

Key CRMWD Panels Meet In Big Spring

Two key committees of the Colorado River Municipal Water District met in Big Spring Tuesday.

The personnel committee was making an annual review in preparation for the budget reporting at the next board of directors meeting, likely the later part of this month.

The rate committee considered some sort of proposal to make to the city of San Angelo concerning cost of water from the Robert Lee Dam. San Angelo previously requested the district to make a study as part of negotiations between the two agencies. The district is on record as desiring the new reservoir now under construction.

Participating in the personnel meeting were Cody Harbour, Odessa; Lyle Deffebach, Snyder, and Dr. Lee Rogers, Big Spring.

Those in the rate panel were J. L. Rhoades, Odessa; John L. Taylor, Big Spring, and Rex Fields, Snyder. Meeting with them were Charles Perry, Odessa, CRMWD president; James Rosser, Snyder, the district's attorney, Owen H. Ivie, Big Spring, CRMWD general manager, and S. W. Freese, Fort Worth, consulting engineer for both the district and for San Angelo.

Trade at home and save!

Trans-Pecos Mule Deer In Good Shape

Trans-Pecos mule deer are in good shape according to Jack Parsons, Region I wildlife supervisor for the Texas Parks and Wildlife Department.

When the 16-day hunt begins November 30, hunters should find plenty of deer on range in excellent condition.

Parsons says hunters who intend to go after the big deer should start getting in shape now for walks into some of the most rugged terrain in Texas.

Late evening is the period in which mule deer move the most, but hunters may find early morning hunting quite productive since the animals often cross low flats enroute to high ridge hiding places at this time.

Proper Bedding Aids Health

What's the most important household article you own? More than 98 per cent of physicians asked that question responded with the same answer: The correct bed.

Here are some tips from the American Medical Association on what you bed should do for you:

A comfortable mattress and spring will help you relax easily and fall asleep. After sleep comes, the right bedding will help you change your position during the night. This might happen as often as 45 times a night, and it is nature's way of giving all your muscles a chance to relax. If you "fight your mattress" it's not right for you.

Support is as important as comfort. Too soft a mattress gives improper support. This may lead to low back pain and muscle fatigue. One too hard may not conform to your body's contours, may cause strains and "hollows" in the small of the back.

The proper mattress should have surface softness to provide gentle grading, help relax muscles, and relieve tensions.

Soft but firm, these are the keys. Any sagging and it's time for a mattress change.

The Launching Pad

By NEAL ESTES

Shortly after the conclusion of the GOP convention held at Miami Beach in Florida some of the smear boys started yelling about the vice presidential nominee on the ticket with NIXON being of Grecian descent. When the Democrats convened in Chicago a man of Japanese origin delivered the keynote address; and an Italian from San Francisco, nominated HUBERT HUMPHREY and JULIAN BOND, a colored delegate from Georgia, was nominated for the Vice-president spot. Of course, BOND withdrew and HUMPHREY'S man MUSKIE, went on to win. The man from Maine who is running with HUBERT is of Polish origin, and a generation ago his name was spelled MARCISZWESKI. Oh yes, a Jewish Rabbi offered the opening invocation at the Chicago convention. So what about ethnic groups? Not a thing — they are all Americans. That also includes SPIRO AGNEW, the Greek. I don't want to hear anymore of that old New Deal slush that rags-mag-tazz bequeathed us by fireside orator ROOSEVELT who mouthed that old refrain, "all we have to fear is fear itself." I also remember FDR saying at Soldier's Field in Chicago in 1941, how he and his wife ELEANOR nated war, and we were ig one a week later and his disciple, LBJ, has another big killing bee going full blast in Vietnam.

RICHARD NIXON is beaming his campaign for votes of the nation's middle class—the forgotten Americans—who he rightfully says are threatened with inflation, violence in the streets, and higher taxes. "They work in the offices of America, they work in the factories of America, their sons man the walls of freedom around the world," says NIXON. DICK NIXON is right when he says these taxpayers have been silent but that this year they realize something must be done to curb crime, to once again balance this nation in total equality. Every man's son should fight in LYNDON'S escalated war—rich and educated as well as the poor and those unable to go to college. The middle class man has had the hot oil of higher taxes poured on his sore back. The working woman is burdened with the highest prices in the history of this country. The extra surtax placed on the already too high cost of living by JOHNSON'S crowd has hit the average man who still loves the flag and the Constitution and wants to work a very hard blow. "The Forgotten Man" in America did not get a raise when prices went up. He did not get a raise when the surtax went into effect. His bosses could not afford to raise his salary. His take home pay has declined. Millions are going to rise up in this country on election day in November and say to HUBERT HORATIO (MONKEY-MOUTH) HUMPHREY to take his candidacy and drop it deep in the Perdenales River and if he is so inclined he can jump in after it. The tired taxpayer, the middle man, the backbone of this nation simply can't stand this mess. And when we get through cleaning out the White House there's the job ahead of shedding Congress of these representatives who are talking two ways. They tell the home folks one thing then run to Washington and support every bit of tomfoolery under the sun. JOHNSON'S rubber stamp birds are going to be chased out of the big bird roost on Pennsylvania Avenue in Washington, D. C., as fast as the voters can get to the polls.

Uprisings in colleges and universities and just recently in some public schools in the eastern part of the country makes me wonder what some students expect to gain by going to school at all. Millions are spent to keep the colleges and schools going and by far the majority of students want an education. Unless the trouble makers are eliminated from the student groups

SHS News

By PUG DEAVENPORT

This is the week! On Friday, September 13, at 8:00 the mighty Buffaloes will kick-off their 1968 football season when they met Tahoka on the home field. School spirit is soaring to new peaks as the big day approaches. The halls are rapidly filling with signs and "beat ribbons" are being sold in abundance.

The Buffaloes, who defeated Roscoe four touchdowns to none in scrimmage play last Thursday in Colorado City, have been going through extra hard work-outs this week to insure a victory over the Bulldogs.

The cheerleaders are planning a parade through town following the Friday afternoon pep rally, so bring shoe polish and crepe paper to decorate your car and join in the spirit of football season!

William E. Harrell, sponsor for the National Honor Society and Math Club in SHS, has announced the membership rolls for these two organizations.

The 1968-69 officers for the Math Club will be: David Workman, president; Chester Kokel, vice-president, and Alan Gregston, secretary-treasurer. Officers for this organization are chosen by math course average with the president holding the highest average of all. The remaining 12 members of the club, who have maintained a 92 or above average in mathematics courses are: Cindy Avery, Pug Deavenport, Scotty Fisher, LaWanda Glaspie, David Greenhaw, Mark Hursh, Roy Kelly, Mary Mashburn, Allene McMillan, Faye Ringener, Kenneth Simonek, and Jerry Smith.

Three seniors were chosen last spring to serve as NHS officers in 1968-69. Those chosen were: Linda Holder, president; Cindy Davis, vice-president, and Melrae Angel, secretary-treasurer. Other members of the National Honor Society include: Peggy Anastasio, David Adkins, Pug Deavenport, David Greenhaw, Diana Mims, Mary Ramos, and Claude Straub, seniors. Junior members are: Scotty Fisher, Stanley Louder, Johnny Means, David Workman, Alan Gregston, and Steve Stallings. Chosen from the sophomore class are: Sandy Chandler, Cindy Avery, Mark Hursh, and Roy Kelly.

Over 50 girls met with Mrs. Ruth Lewis last Thursday at the second Pep Squad meeting of the year. Pep Squad president, Doris White, presided over the meeting and briefed the girls on the rules and regulations of the organization. The group voted to order pom-pom shakers.

Color pictures will be taken Friday, September 13, at SHS. A black and white copy of this picture will be used in the annual. Picture - pas will be made available three weeks following the photographer's visit.

The Future Homemakers of America met Tuesday during activity period with their sponsor.

across the nation a bad atmosphere will continue to prevail on campus and prevent the students who do want an education to lose out. The original three R's certainly do not need replacing by raciality, rebellion and rioting.

Scholarship - - -

(Continued from page 1) Speaker for the evening was Newt Hielscher of Shreveport, La. Music was provided by the Border Brass Band of Coahoma.

Miss Couch, daughter of Mr. and Mrs. John T. Couch of Gail Route, Big Spring, was salutatorian of her graduating class of 1968 at Borden County High School.

Garfias, son of Mr. and Mrs. Joe N. Garfias, Sr. of Knott, is a 1968 graduate of Sands High School.

The cooperative provides electric service in the rural areas of 13 West Texas counties, with 6,600 member-own-

nsor, Mrs. King, Cindy Davis, president, presided over the meeting and welcomed new members into the organization. Dianna Mims, vice-president, gave a report on the FHA national convention held at Miami Beach during July. New members were informed of initiation procedures. Dues of \$1.50 were set, and new members must be paid-up by September 16, while old members have until September 23.

Other officers for the group are: Mary Bradshaw, secretary, Melrae Angel, historian; Cindy Clements, reporter; Sheila Manning, treasurer; Debbie Hazlewood, song leader, and Deborah Holloway, parliamentarian.

Class meetings were held Wednesday, September 4, for the purpose of electing class officers. Members of the senior class chose Carl Dean to lead them as president. He will be assisted by Bill Wilson, vice-president; Linda Holder, secretary, and Cindy Davis, treasurer. Junior class officers include: Alan Gregston, vice-president; Connie Henley, secretary; Rusty Hicks, treasurer, and Steve Stallings, reporter. Officers chosen by the sophomore class are: David Brown, president; Mark Hursh, vice-president; Anita McIntyre, secretary, and Vicki Glynn, treasurer. Chosen as freshman leaders were: Gary Posey, president; Glen Ray, vice-president; David Porter, secretary, and Jo Lankford, treasurer.

Sixty members of the Future Farmers of America met September 10, for the purpose of electing officers. Chosen to lead the group was Claude Strub. Other officers include Jim Epley, vice-president; Larry Franklin, sentinel; Jim Louder, secretary, David Adkins, treasurer, and Roy Kelly, reporter. Dues of two dollars were set. Nolan Parker is sponsor for the group.

The three members of the Biology II class, Jim Louder, David Adkins, and Randy Nichols, took the first field trip of the year last week, with Mr. Anastasio. The group traveled to a tank southeast of town and gathered samples for biology experiments.

Don't forget the game Friday! Be there and back the Buffs! Then travel to Big Spring Saturday morning at 10:00 to see the "B" team tangle with the Big Spring sophomores.

Trease Tucker

Mr. and Mrs. Verban Graves of Stanton, announce the engagement of Trease Tucker of Midland, to their son, Alfred Graves. The wedding to be held October 25, at the home of T. J. Chapman, Jr. She is employed at Shirley's Beauty Salon, and he is employed at Conna's Oil Company, and will make their home in Stanton.

Variety - - -

(Continued from page 1) meet Tahoka in the first game of the season. Plan to stay behind the team all the way.

Farm - - -

(Continued from page 1) parallel terraces and water way, reseeding range land, brush control (Mesquite), cotton variety, chemical weed control in cotton, dry land cotton, soy beans, and 4-H steers.

This is a tentative list of what we plan to see on the tour. We think the tour will be interesting as well as informative.

Hope to see you the 19th on the tour.

Junior - - -

(Continued from page 1) was awarded, for which a score of 90 per cent and above is required. This went to seventh grader Tricia Shoemaker. Students receiving certificates were: Twilla Stallings, Cheryl Bradshaw, Jody Henley, Linda Creech, Ruth Thomason, Paul Evans, George Franks, Lanny Fryar, Johnny Garza, Raymond Garza, Paul McAllister, Randal Papsan, Rick Wilson, Tommy Coats, Gary Henson, Kenneth Hull, Abelanda Perez, Bradford Hull, Douglas Dowden, Danny Cantrell, Marc Briggs, and Amando Rios.

Next weeks tournament will be Punt, Pass, and Kick in football. Watch the paper for these winners.

TESCO - - -

(Continued from page 1) aton-Chicago Hotel. Representing most of the 50 states, conference delegates will meet some of the nation's leading scientists and hear about the latest progress in a variety of scientific areas. In the past, discussions have ranged from nuclear fusion to weather satellites and exploring the solar system, always conducted by top authorities in their fields.

In addition to attending formal meetings and seminars, students and teachers will make field trips to Argonne National Laboratory, a principal center for peaceful atomic research, and the Chicago Museum of Science and Industry.

According to Bridges, the National Youth Conference on the Atom is designed to inspire the scientific leaders of tomorrow by giving them an opportunity to meet and talk with the leaders of today.

"The conference was conceived to reward hard work and provide these young people with additional awareness to the dramatic developments being made in the field of atomic research and other scientific area," Bridges said. "We at Texas Electric have an interest in seeing that gifted students are attracted to science and engineering, and participation in this conference is one way we can stimulate the interest of students in scientific careers."

Texas Electric is one of the 65 investor-owned electric power companies that co-sponsor the conference with the National Science Teachers Association. The theme of the conference this year is "The Power in Combining Scientific Disciplines."

Mrs. Tom Glynn Hostess For Altar Society

St. Joseph's Altar Society met Sept. 9, at the home of Mrs. Tom Glynn for a luncheon.

The program, "Putting Vatican II Into Practice," was given by Mrs. Jim Tom.

Those attending were: Mrs. Bernard Houston, Mrs. Travis Yater, Mrs. I. G. Peters, Mrs. Sam Wilkinson, Mrs. George Glynn, Mrs. Curtis Glen Flanagan, Mrs. Rob Haggard, Mrs. Kilen, Mrs. Jim Tom, Mrs. Edmund Tom, Mrs. L. G. Tom, Rev. John Pierce, and the hostess, Mrs. Tom Glynn.

Martin County Reservoir Draws Outpost

LeClair Operating Co. Inc. of Abilene No. 1 Bonnie Dyer has been finished as a 1 1/2-mile southwest stepout to the Martin County sector of the Ackery (Dean sand) reservoir, nine miles southwest of Ackery.

On the daily potential it flowed 73 barrels of 38.2-gravity crude through a 3/4-inch choke from perforation extending from 8,422 to 8,567 feet ratio was 1,174 - 1. The amount and type of stimulation was not available.

Location is 660 feet from south and east lines of section 42, block 35, T-3-N, T&P survey.

New Arrivals

Mr. and Mrs. Jimmy Miller are the proud parents of a son, James Wade, born August 31.

Gilbert C. - - -

(Continued from page 1) extending from 7,658 to 8,237 feet after a 90,000-gallon fracture.

Location is seven miles northeast of Stanton, 1,500 feet south and 660 feet from east lines of section 28, block 35, T-1-N, T&P survey.

Wildcats were abandoned in Howard and Glasscock counties.

Shaheen & Sons and Central Petroleum Corp. No. 1-212 George O'Barr probe, total depth 8,212 feet, 660 feet from north and west lines of section 212, block 29, W&NW survey, 14 miles northeast of Garden City.

Big 6 Drilling Co. No. 1 Modesta Simpson, venture, total depth 10,600 feet, 1,980 feet from south and west lines of 21, block 33, T-3-N, T&P survey, 20 1/2 miles northwest of Big Spring.

*Nov. 15	There 7:30	Big Lake

Inspection For Vehicles Began Sept. 1

The 1969 vehicle inspection period began Sept. 1, in Texas, according to Colonel Wilson E. (Pat) Speir, acting director of the Texas Department of Public Safety.

"More than six-million vehicles are expected to receive the compulsory inspection prior to the April 15, 1969 deadline," Speir said. Inspections may be performed at any of the almost 5,500 vehicle inspection stations in Texas, each of which displays the official vehicle inspection station sign. Texas law requires inspection of the brakes, lighting equipment, horns and warning de-

vice, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the manufacturer's original equipment on the vehicle, steering (including power steering) and wheels and rims (not to include removal of the wheel from the vehicle) on all motor vehicles registered in the state. Special inspection provisions apply to trailers, semi-trailers, pole trailers, or mobile homes having a loaded gross weight in excess of 4,000 pounds.

The minimum fee is \$1.55. This does not include the cost of repairs or adjustments necessary to enable the vehicle to pass inspection.

Speir said the new vehicle inspection sticker will be a two and one-half inch square replicate of a DPS patrolman's badge with red background. Motorists are urged to have the 1969 inspection performed as soon as possible to insure that their vehicles are mechanically safe for fall and winter driving.

Grandparents are Jack Saunders of Lomax, and Mr. and Mrs. Jim Miller of Stanton.

Beauty Mist Annual Hosiery Sale

Dress Sheers Regularly \$1 Pair Sale Price \$.79 6 Pairs Only \$4.70
