FINEST CLIMATE ON EARTH WHERE HEALTH HAPPINESS AND PROSPERITY AWAIT THE HOMESEAKER

Vol. LVIII—No. 40

STANTON, MARTIN COUNTY, TEXAS (79782,) THURSDAY, SEPT. 26, 1968

12 Pages, 2 Parts—10c Cents

By NEAL ESTES

The general board of AFL-CIO endorsed HUMPHREY After Chicago and the domination of the unioner goons, what else? To say that either WALLACE or NIXON even expected this endorsement would be like turning a bomb loose. The backing of HHHH by the labor bosses and their goons cost HUBIE millions of votes among the tax-paying middle men and women of this nation. I am talking about that great block of voters caught between the higher prices demanded by labor for wages and the higher prices demanded by industry for the sale of their products. I am talking about that great number of taxpayers who are caught without enough money to buy the proper amount of milk for their children and find their paychecks being docked more and more every year. The very idea of a plain Coca-Cola costing 15 cents in some places. The American people are fed up with this blackjacking in the pricing markets of the nation. They are fed up with LYNDON JOHNSON'S bunk and when HHHH goes around mouthing about "things are fine—you never had it so good." I always wonder why some guy working without a salary raise for years—and we have a lot of them—didn't pitch a creamy Hollywood cream pie right in his mushy mouth. Yeah, things are "fine" with men dying on a foreign battlefield we didn't have when LBJ-HHHH and pals took over, and prices for milk, et al, are so high the average working man can buy just enough for the children in the family. Had enough?

Three SW Conference football teams played tie games the past Saturday. Texas A&M, TCU and Baylor lost. SMU defeated Auburn 37-28. Houston University tied Texas in a 20-20 game. Cincinnati tied Texas Tech 10-10. Rice tied Washington 35-35. Sports experts are due to take a new look at Rice and SMU. Both proved, along with Baylor, that they are high scoring clubs. High scoring means good offensive technique. Texas Tech's defensive play was the best of the week-end. The Raiders yielded but 10 points to Cincinnati.

The Christmas catalogue of one mail order house has been released. No guns or toys suggesting violence can be found in the massive book. The action was taken by SEARS after the assassination of ROBERT KENNEDY in California. WARDS agreed to go along with SEARS on a new policy announced last June. Taking toy pistols away from children might be the solution to the currently growing crime problem. But I prefer to believe that the policies inaugurated along with old FRANKLIN ROOSEVELT started the whole binge. ROSEY promised to give the U. S. mints to the minority groups for their votes. He won the traditionally Republican black vote away from the party of LINCOLN, the Great Emancipator, where it has remained through all recent national elections, by baits, bribes, egg rollings on the White House lawn, by creating a "Tree Army"—that was the old CCC outfit, and general hoodluming. LYNDON JOHNSON and HUMPHREY simply brought out the old blueprints for Socialism designed by the likes of HARRY HOPKINS for FDR, dusted them off and set out to "outdo" FRANKLIN-THE-FIRST. (Continued on page 8)

County Citizens Slate Austin Trip

Stanton Stops Seagraves

David Jones and Gary Kitchens combined their talents Friday night to lead the Stanton High Buffaloes to an 18-12 victory over the highly touted Seagraves Eagles.

The victory was Stanton's second this season, while the loss was Seagraves' second. It was Stanton's first win over Seagraves in the last four games. Seagraves stopped Stanton 7-6 in 1965, 30-0 in 1966 and 42-14 in 1967.

The game was a see-saw battle all the way to the final gun with the home team taking the lead a couple of times, but the visitors tying it until only 19 seconds remained in the game.

Kitchens, a 165-pound half-back with seventh and eighth grade training at Midland's San Jacinto Junior High, put 12 points on the scoreboard for the fighting Buffs.

First tally came with a minute and 20 seconds left in the initial frame on a 9-yard pass from quarterback Jones. The ball was tipped in the air first by defensive back Jerry Hill, then snagged by Kitchens to give the Buffs a 6-0 lead.

Stanton's stubborn defense held Seagraves' only two drives in the first period, but couldn't stop the Eagles' first drive in the second period following a Stanton fumble at the 47. The Eagles inched their way to the goal line climaxing the drive with an 18-yard touchdown pass from quarterback Billy Flemmons to end Jerry Gilmore to tie the score at 6-6.

Stanton scoring: TD—Gary Kitchens, 9 pass from David Jones. TD—Kitchens, 40 run. TD—Jones, 12 run.

Seagraves: TD—Jerry Gilmore, 18 pass from Billy Flemmons. TD—Mike Thornton, 22 pass from Flemmons.

In the first half, Stanton's defense knocked the ball loose from Eagle runners and recovered them three times. One of Seagraves' drives was stopped at the Stanton seven with 40 seconds left in the first half. Kitchens recovered a Seagraves fumble and his team got the ball back to the 39 before the gun sounded.

0	Passes Int. By	0
4-5	Fumbles Lost	3-4
7-75	Pen-Yards	7-62.5
2-46	Punts-Average	3-22

Score by quarters:	
Seagraves	0 6 0 6—12
Stanton	6 0 0 12—18

Stanton scoring: TD—Gary Kitchens, 9 pass from David Jones. TD—Kitchens, 40 run. TD—Jones, 12 run.

Seagraves: TD—Jerry Gilmore, 18 pass from Billy Flemmons. TD—Mike Thornton, 22 pass from Flemmons.

The two teams could not penetrate each other's defenses during the third period, but Stanton had a drive going at the start of the third period that ended with a fumble at its own 35.

When Seagraves drove to Stanton's four, another fumble was recovered by Alan Gregston, Stanton defensive half.

With a 19-yard run by Gregston and a 21-yard pass from Jones to end Steve Stallings, the Buffs moved the ball to the Seagraves 40. Kitchens blasted his way through the Eagle line and secondary and sped into the end zone with his second touchdown of the game and 7:50 left to play in the game and his team now leading 12-6.

The Buff defense stopped still another drive by the Eagles which reached the Stanton (Continued on page 8)

Dollar Day Ad Copy Due In Next Issue

Merchants in Martin County wishing to participate in the Dollar Day vaule parade need to have their advertising copy ready for the next issue.

Dollar Day will be observed on Monday, October 7.

The monthly bargain sellabration is sponsored by the Martin County Chamber of Commerce. It is one of the continuing worthwhile projects developed and maintained through the year by the chamber.

Advertising messages will appear in the first issue in October.

Highway Panel To Hear Local Petitioners

A delegation of 39 Martin County residents will leave Stanton at 3 a.m. next Monday morning, September 30, by Chartered Greyhound bus for Austin here they will appear before the Texas Highway Commission.

The purpose of the group will be to request the building of an exit and possibly a return off IS 20 on to State 829 approximately five miles west of Stanton.

Presently, it is necessary to turn off a mile or so outside the city limits of Stanton to gain access to the northern part of the county. Cars desiring an exit to farms, some business houses, and a service station in the area west of the county seat will number approximately 300 daily, according to Paige Eiland, president of the Martin County Chamber of Commerce.

If a motorist misses the exit near the gins while traveling west to Midland and fails to get on the service road, it is necessary to drive 17 miles or to Midland, to get off.

Some of the business places bottled up because of the lack of an exit along IS 20 include Graves Welding Shop, Susan's Antique Shop, and Stewart's Grocery.

Farmers living in the area west of IS 20 have difficulty in bringing their cotton to the gins and getting back home and the school buses are inconvenienced. Taxpaying residents in the practically cut-off section of the county have been hit hard.

If the Texas Highway Commission approves the plea for an excess road to State Highway 829 it will open direct traffic to Grady, Patricia, and the Welch community.

There were 20 members present, with John Shanklin of Albuquerque, N. M., and Raymond Swanson as guests. (Continued on page 8)

Rev. A. Oakman To Speak At Local Church

The Reorganized Church of Jesus Christ of Latter Day Saints will host the Western

Rev. Arthur A. Oakman

Texas District Conference in Stanton September 28 and 29.

Rev. Arthur A. Oakman of Independence, Missouri, who is the appointed radio minister of the church, will be the guest speaker and teacher. He has served in many areas of the world, was in charge of the European Mission, and served an extended tour of ministry abroad, and was ordained to the Apostleship. He was base soloist in numerous performances of the Messiah and The Elijah. Is an expert photographer. (Continued on page 8)

Charles Yeates Slated To Talk In City Today

Charles Yeates of the Agricultural Education Specialist Program, Agricultural Education Department, College of Agriculture, TAMU, will present a program for vocational agriculture teachers in Stanton, at 3:30 p.m. on September 26, according to Hulan Harris of Big Spring, supervisor of vocational agriculture in Area II for Texas Education Agency.

The meeting is a part of the in-service educational program planned by the teachers of the district.

Charles Yeates will speak on the subject Oxy - Acetylene Welding Techniques and Safety Precautions.

About 25 teachers in the El Rancho district are expected to attend.

Mrs. Glen Gates went to Portales, New Mexico, Friday, to be with her father who has been ill for some time.

Attending the West Texas area convention of Beta Sigma Phi in Odessa, last week-end were: Mary Katherine Bristow, Mary Prudie Brown, Lavelle Reid, Mamie Roten, Jendo Turner, Helen Dawson, Latrelle Welch, Janelle Britton, Edna Linder, Jo Jon Cox, Johnnie Conners, Wanda McIntire, and Kay Simpson.

More 1969 Model Cars To Go On Display Here

Many more models of the brilliant looking 1969 automobiles will go on display in local dealer's show rooms this week in Stanton.

Alsop-Nowlin Chevrolet will show the line of Chevrolets for 1969.

Wheeler Motor Company will feature the new 1969 Buicks.

White Motor Company will display the 1969 model Mercurys and Fords.

White Motor will hold their premier showing on Friday, September 27, according to B. F. White, owner.

The Buicks and Chevrolets will be on display on Thursday, September 26.

Announcements concerning the new cars are all in this issue, along with personal invitations from dealers and many photographs of the new cars.

Premier parties have been

arranged by all of the local moter companies. Refreshments will be served at the dealerships and souvenirs will be given those attending the 1968 showings of the 1969 models.

Wheeler Motor Company is located at 202 Front Street. White Motor is located at 201 E. St. Anna and Alsop-Nowlin Chevrolet Company is located at 219 N. St. Peter.

Rev. Payne To Leave For Philippines

Richard Payne, pastor of the First United Methodist Church of Stanton, has been

Rev. Richard Payne

invited to participate in an evangelistic mission in the Philippines during the month of October. The mission is being sponsored by the General Board of Evangelism and missions of the United Methodist Church.

The group to go to the Philippines, will include 34 preachers and laymen from over the United States. They will meet in San Francisco on Monday, September 30, to begin their orientation for the evangelistic mission and will leave on a flight to Tokyo on Wednesday, October 2. The mission is undertaken at the invitation of our Methodist brethren in (Continued on page 8)

John L. Cox Of Midland Finishes Well In Martin

By JAMES C. WATSON

John L. Cox of Midland has completed a 1/2-mile south extension for the Martin County sector of the Spraberry Trend Area and has selected location for another outpost to the same reservoir.

No. 1 Woodlock, five miles northeast Stanton, pumped 216 barrels of 38 degree crude daily from perforations at 7,618-7,631 feet opposite the Spraberry and at 8,053-8,180 feet opposite the Dean sand. Gas-oil ratio was 835-1. The pay section had been fractured with 80,000 gallons of fluids mixed with an unreported quantity of propping materials.

It is 1,980 feet from south and west lines of section 34, block 35, T-1-N, T&P survey. Cox No. 1-B Bristow is scheduled as an 8,300 foot test of both the Spraberry and Dean horizon, 5 1/2 miles northeast of Stanton and 1/2 mile south

Three County Schools List All Teachers

All three Martin County school districts have mailed complete lists of faculty members to The Stanton Reporter.

Readers will find this public service feature printed in this issue suitable for clipping and keeping.

Through the cooperation of school officials at Flower Grove, Grady and Stanton, the names of all teachers and their addresses appears.

of the closest wells. It spots 1,980 feet from south and west lines of section 35, block 35, T-1-N, T&P survey. Mobil Oil Corp. No. 1-A Nail is scheduled as a 12,700-foot Ellenburger prospect in South Martin, 11 miles northwest of Stanton and seven miles northeast of Midland.

It is 660 feet from north and 1,980 feet from east lines of section 38, block 38, T-1-N, T&P survey, 2 1/2 miles west of depleted Ellenburger production in the Stanton field, three miles southeast of the Fran-Glass (Pennsylvanian) pool.

LeClair Operating Co. Inc. of Abilene will drill No. 1-61 B. T. Hill as a 9,000-foot Dean sand venture in Northeast Martin County, nine miles southwest of Ackerly.

It is 660 feet from north and east lines of section 61, block A. Bauer & Cockrell survey, 1/2 mile west the one-well Hill (Dean sand) pool and a mile southwest and the same distance southeast of Dean production from the Ackerly reservoir.

Logue & Patterson Inc. of Corpus Christi No. 1 Gilbert C. Wright Estate has been completed as the second producer and a northwest stepout for the Modesta, South (Cisco) pool in Howard County, 15 miles northwest of Big Spring.

On the 24-hour potential it produced 484 barrels of 43.1-gravity oil flowing through a 20-64-inch choke with gas-oil ratio of 932-1 and surface pressure of 625 pounds.

The petroleum came from perforated section at 8,870-8,878 after a 250 gallon acid treatment.

Location is 1,980 feet from north and 990 feet from west lines of section 32, block 33, T-3-N, T&P survey.

The discovery of the Modesta, South (Cisco) pool, Apache Corp. of Midland, No. 1 Wright, was completed in April to flow 181 barrels of oil and 36 barrels of acid water daily through a 12-64-inch choke from casing notches at 8,937-940 feet.

CREC To Pay Dividends To Member-Owners

Cap Rock Electric Cooperative, Inc., will return \$189,410.65 to its members in October. The payment will be the twelfth consecutive capital credits refund to member-owners of the organization. This one, to those members receiving electric service from Cap Rock in the year, 1961.

Individual checks, averaging about \$80, will vary from one dollar to several hundred dollars, depending on the amount of individual patronage. For farm and home consumers, this will amount to 23 per cent of their total electric bill in 1961.

Add the refund being made in October to the \$1,503,183 paid in previous years, and you have a grand total of \$1,692,593 returned to the member-owners of Cap Rock Electric Cooperative, Inc.

Mahon Huddles With Old Buddy Lyndon

Rep. George Mahon of this congressional district, enjoyed a hospitality huddle with his old pal Lyndon Baines Johnson down on the ranch Sunday.

A fast friend through the years, George in his role as chairman of the House Appropriations Committee, was designated as a "personal guest" by a Johnson spokesman.

Mahon's visit with Lyndon happened on the eve of final congressional action on several key money bills.

Congress is winding up action on defense and foreign aid spending with Johnson's appropriation requests facing cut of some \$12 billion.

Presidential press spokesmen confirmed Mahon's presence down on the Perdenales River but had nothing to report on what was discussed.

However, with the money bills at the crucial turn and Johnson facing up to making Congress imposed cuts, Mahon's presence seemed to be a bit more than coincidental.

Editor's Note: Oscar (Cotton) Fanning is the author of our well read column, "Cotton Talks." He has been a personal friend of mine for 13 years. I call him "King Cotton." He is true blue and as solid as gold.

EM—MARTIN COUNTY CHAMBER OF COMMERCE Stanton, Texas 79782 September 20, 1968 Mr. Neal Estes The Stanton Reporter Stanton, Texas. Dear Neal: On behalf of the Martin County Chamber of Commerce, I would like to take this opportunity to express our appreciation for your support and contributions to the Chamber. The fine work which you did on the labor survey is greatly appreciated. The letter and the survey were very well done and we want to express our gratitude for the contribution of the supply and work which you put into (Continued on page 8)

According to a national automobile club, more children between the ages of one and 14 dies each year from automobile accidents than from any other cause.

The bee hummingbird of Cuba is not only the smallest hummingbird but the smallest feathered creature in the world. Its total length is something over two inches.

The annual Martin County Farm Tour, sponsored by the Martin County Chamber of Commerce departed the courthouse Thursday morning September 19, with a group of 82 persons making the tour.

Ten interesting stops were made. At noon the group paused for lunch at the Tarzan Marketing Association building for a barbecue catered by Johnnies of Midland and paid for by Stanton Western

Production Credit Assn. and The Stanton Chemical and Seed Co. The group was transported by bus, courtesy of the Stanton Independent School District.

Beef Selection Programs Aid To Consumers

The beef cattle industry has enjoyed a tremendous increase in the consumption of beef, due in part to selection programs being employed by more breeders, says Dr. Frank A. Orts, extension meats specialist at Texas A&M University.

Consumers are asking for and getting more muscular beef cuts along with more quality. Quality of lean and quantity of lean are not antagonistic, so a breeder can select for these two attributes at the same time.

Marbling, which is a measure of beef palatability and tenderness, muscling, fat covering on the outside of the

carcass and fast gaining animals, are highly heritable. Therefore, all of these economic

FHA Meeting Scheduled For Angelo

A bi-district meeting of the Farmers Home Administration will be held in San Angelo, on September 26 and 27, according to County Supervisor Delton M. Costlow.

Information obtained at a regional meeting held in St. Louis, on how to check the low of rural people into urban areas will be discussed by the state office staff.

The local Farmers Home Administration office will be closed from 12 noon September 25 to September 30, due to the meeting. Those attending from Stanton, will be Delton M. Costlow, county supervisor, and Mrs. Margaret A. Moffett, county office clerk.

Costlow said that through 138 county offices, the Farmers Home Administration in Texas will loan about \$130 million to rural families and communities this fiscal year.

Last year, about \$60 million was loaned for operating expenses. Over 4,100 rural Texans received loans to improve or construct homes. More than 660 farmers became land owners through the FHA Farm Ownership loan program, and nearly 250 Texas communities received FHA loans to build or expand water systems, sewer systems, recreation projects, and grazing associations.

White Motor Co. Show '69 Cars

Ford Division passenger cars for 1969 as highlighted by all-new Ford and Mustang lines, new performance-oriented Mach I and Cobra models, a luxury Mustang Grande, new engines and more comfort and convenience across the board.

"Our 1969 Ford is an all new car from the completely redesigned body to the interior 'Better Idea' of a Flight Cockpit instrument panel," said John Naughton, Ford Motor Company vice president and Ford Division general manager.

"Mustang for 1969 introduces two new models — the hot performance Mach I and the luxury car with sports car handling, the Grande.

"Economy, high performance and luxury are available in the Fairlane lineup which introduces a new series, the performance-oriented Cobra," Mr. Naughton said.

"A new grille and a new taillamp design highlight the 1969 front-to-rear Thunderbird modifications.

"The Falcon, Ford's economical family car, includes an optional 220-horsepower engine," he said.

FORD

Ford's 21 models, with lower and longer exteriors and a wider stance for better handling, also feature a new instrument panel, an energy-absorbing frame and new engine options.

XL and LTD models feature

a new front end highlighted by classic, die-cast, hidden headlamp grille.

Hardtops and convertibles have ventless side glass and the station wagon's Magic Doorgate, an original Ford "Better Idea," can now be opened like a door with the window up.

The LTD and the Country Squire station wagon come with a 302-cubic-inch displacement, 220-horsepower V-8 as standard equipment. All other models feature a standard 240-c.i.d., 150-h.p. six cylinder engine. The 429-c.i.d. V-8 engine, introduced on the 1968 Thunderbird, is an added performance option.

MUSTANG

Almost four inches longer and about half an inch lower and wider, Mustang's three veteran models are joined by two exciting new additions for 1969.

The Mach I, a fastback design SportsRoof performance model, is available with an optional 335-h.p. 428-c.i.d. Cobra Jet Ram-Air engine. The Grande is a super luxury model with custom car touches inside and out.

Outside, Mustang features a new grille constructed in a cellular design with a low-gloss black finish. Inside, Mustang has a four-pod instrument cluster set directly in front of the driver.

The car also contains more hip, shoulder and rear leg room as well as more room to enter the rear seat passenger compartment.

New Mustang engines include a new 4.1-litre (250-c.i.d.) six-cylinder, new 351-c.i.d. V-8s with two- and four-barrel carburetors, and the 428-c.i.d. four-barrel V-8 with and without Ram-Air induction.

FAIRLANE

Fairlane's 16 models for 1969 include the Fairlane, Fairlane 500, Torino, Torino GT, and the hot new one — the Cobra.

All models have new grille and taillamp design.

The Cobra, available in hardtop and SportsRoof models, displays youthful lines and has extra handling characteristics and a hot 428-c.i.d. engine.

THUNDERBIRD

Still more luxury and more distinctive features unite with major ornamentation changes and engineering improvements in Thunderbird's three 1969 models.

Two-door Landau models provide a more formal appearance and more privacy for back seat passengers by eliminating rear quarter windows and adding wider rear roof pillars.

Thunderbird also offers a grille and taillamp design and an improved braking system.

New options include an electrically-powered sun roof, an electrically-heated back window and a "headlights on" warning light.

FALCON

Seven Falcon models add up to a complete line of smart, roomy and economical family cars. Highlights for 1969 include an optional 220-hp. 302-c.i.d. V-8, a new safety steering wheel and new side-marker lights.

Sul Ross State College Sets New Record

A record enrollment of 2,323 students have enrolled for the 1968 fall semester at Sul Ross State College, Dr. Norman L. McNeil, college president, said Wednesday afternoon (Sept. 18).

This year's enrollment figure marked the first time in the 51-year history of Sul Ross State that more than 2,000 students have enrolled. The new registration figure is a 25 per cent increase over last fall's enrollment, when 1,861 students registered. This is an increase of 462 students.

New attendance records were also set in both 1968 summer sessions, according to Glenn Davis, Sul Ross State registrar. A total of 1,148 students registered for classes at SRSC during the first semester, while 1,005 registered for classes in the second semester.

Growth at Sul Ross State this year has also been noted in building construction. A new dormitory with a capacity for 347 students was placed in service on Sept. 1. Cafeteria facilities in the new dormitory building will be ready for the students by Sept. 24.

Construction on the new \$671,847 Bryan W. W. Memorial Library began on June 1, and the building is scheduled for completion on June 9, 1969.

Other construction projects underway at Sul Ross State, include a mall, which is being built between the Administration Building and the Fine Arts Building; renovation of the women's gymnasium, and an addition to the power plant.

Political Calendar

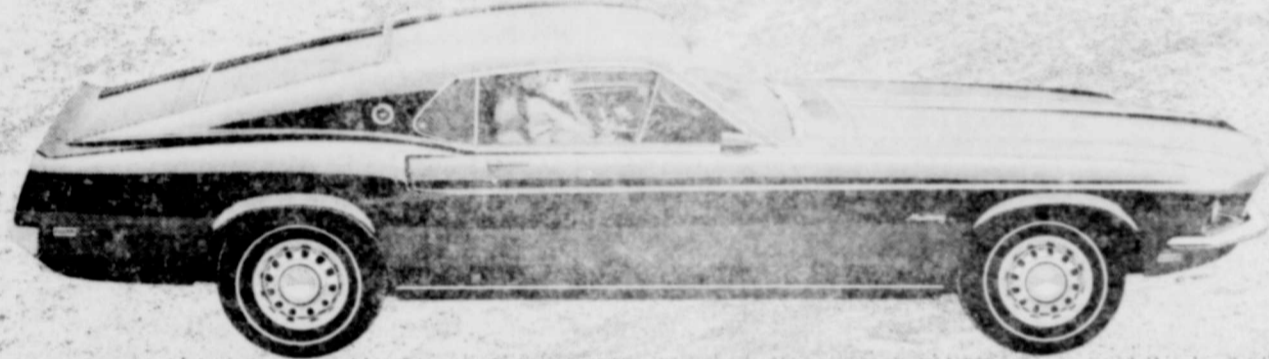

- Sec. A — The Stanton Reporter, Thurs., Sept. 26, 1968 — 3
- Oct. 1 — First day of voter registration period for 1969 elections, in County Tax Office.
- Oct. 16 — First day for absentee voting by personal appearance in County Clerk's Office.
- First day for absentee voting for persons otherwise qualified to vote with the exception of six months residence.
- Oct. 21 — First day to vote in person in County Clerks' Office for new Texas residents who made application by Sept. 20 for voting for President and Vice President.
- Oct. 31 — Last day for transfer of registration receipt in order to qualify for General Election, in County Office.
- Nov. 5 — General Election.

According to the National Association of Manufacturers, Inc., represents the difference between the per capita U. S. debt on May 31, 1967 — \$1,676 — and on May 31, 1968 — \$1,767. On May 31 this year, the total U. S. debt was \$353 billion, \$21 billion higher than he did on the same day (May 31) in 1967. This sum is one more reason why it is necessary to cut federal spending.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Jack Buchanan, Bob Cox, Bernard Houston, Larry Shaw,

The Texas Section of the American Society of Range Management, will provide recognition, through certificates or other appropriate tokens, to ranchers who have demonstrated skill and knowledge in practicing sound grazing management on their range and associated forage crops. The recognition is not intended to be competitive, but is awarded to anyone nominated who meets the criteria for a high standard of grazing management and soil conservation.

Nominations for this recognition are made by members of the Range Society, and by non-members, who are SCS technicians or county agents, and are well acquainted with the operator's ranching operation and grazing management. A standard questionnaire is filled out by the nominator and submitted to the Texas Section of the Range Society.

Some of the standard questions asked are listed below:

1. What percent of rangeland is grazed at a level that will leave adequate cover for soil protection and maintain or improve the quantity and quality of desirable forage? Proper use of rangeland will result in an increase of quality forage and as a result total pounds of beef marketed would increase.

2. How much of the range is rested a minimum of three months each year? Resting a range from grazing promotes natural revegetation by increasing the vigor of plants and permits the desirable plants to produce seed. Resting also provides reserve feed for fall

and winter grazing.

3. What is the average length and season of resting period and describe range resting sequence and frequency? Most grasses should receive a rest period every four or five years for three to five months during the growing season to give the grass plant an opportunity to increase its vigor, produce seed, and store plant food in the root zone. New plants would also be given an opportunity to become established during the rest period.

4. Amount of land in a rotation — deferred grazing system. About 80 per cent of a total operating unit should be in some type of grazing system. A rotation — deferred grazing system provides for a rest at planned intervals.

5. How are livestock kept in balance with range forage in the low producing years and in good years? The base herd (bulls and cows) should consist of 60 to 70 per cent of the estimated safe carrying capacity. To utilize excess forage, stockers could be purchased or calves normally marketed in the fall could be held over.

6. What are range condition trends on important grazing areas? On the areas where most of the grazing is produced, the important grass plants should be vigorous with long broad leaves and producing seed. There should be very few plants dying. Very few of the unpalatable weeds should be seen growing with the grass.

Sign up for the Chamber of Commerce sponsored bus trip to Austin today by contacting any chamber member. The bus leaves Monday at 3 a.m. and will return the same day.

Draft Board Expanded To Five Members

For this first time in its long history, Howard-Mitchell-Martin County Selective Service Board now has five instead of three members.

The two additional members — one additional representative for each of Howard and Mitchell counties — were appointed by the president on recommendation of the governor of Texas.

The expanded board is made necessary by its heavy registration load. The five-member board is provided when the office in an area reaches 12,000 registrants.

Mrs. Louise Nuckols, clerk said that the two new members have been duly sworn in and both have attended their first board session.

John B. Hernandez, a draftsman with the city, is the new member representing Howard County. He is a veteran of the Korean war and he pointed out that he was drafted and inducted by the very board on which he now serves as a member.

Manuel H. Rivera, assistant manager of Village Food Store in Colorado City, is the new representative for Mitchell County. He is a veteran of World War II, and served in that conflict in the U.S. Navy. Hernandez was in the U. S. Army.

Hernandez joins John W. Hughes, Big Spring, as the second representative from Howard County. Hughes is presently chairman of the board.

Rivera will be the second Mitchell County delegate with Leonard R. Morris, Colorado City, already serving. Morris is co-chairman.

The fifth member is veteran Martin L. Gibson of Martin County.

Mrs. Nuckols said that the older board members expressed deep satisfaction at the addition to their membership and were pleased with the selections made by the president.

OPEN LETTER: He Died . . . For Us

The letter left the bride of Army Sgt. Jeffrey A. Davis was marked "to be opened only in the event of my death."

Sergeant Davis, 20, was killed in Vietnam Sept. 4 and his bride of four months opened the letter to find it was a legacy for "the guys with the long hair and protest signs."

"It is too bad I had to die in another country . . . but at least I died for a reason and

a good one," the letter read. "I died for the guys with the long hair and protest signs. The draft card burners, the hippies, the anti-everything people who have nothing better to do. The college kids who think they shouldn't have to serve because they are too good."

"I died so those people could have a little longer time to try to get straightened out in life. God knows they need

it. "I died so these members of the 'young generation' could have the right to do what they do. To protest, have long hair, get to the college of their choice, wear weird clothes and run around mixed up with no direction at all. "I died so they could protest the war I fought and died in. "I died for the United States."

Beta Sigma Phi Activities

Xi Epsilon Delta Chapter of Beta Sigma Phi met September 19, at the home of Gene Koonce.

The program, "Art In Our Houses," was presented via tape recording by Chris Clark, with appropriate comments and a question session was conducted by Lois Powell.

Those present were: Bertha Schwalbe, Allie Anderson, Mary Payne, Margie Ireton, Lois Powell, Fiji Brandt, Aylene Kelly, Georgia McMeans, Au-

dry Louder, Faye Rhodes, Doris Stephenson, and the hostess Gene Koonce.

Rho Xi Chapter of Beta Sigma Phi had their fall rush party Thursday, September 19, at the home of Mrs. Tom Angel. Members and rushees attended in costumes to carry out the "Shipwreck" theme.

Rushees attending were: Mrs. Ruth Lewis, Mrs. Janell Matson, Mrs. Margaret Stovall, Mrs. Carolyn Stone, and Mrs. Janice Kelly.

The dinner honoring the rushees, consisted of sea foods, salads, ice cream, and strawberries.

Members attending were

FBI Reports Crime Increase

The FBI's Uniform Crime Reports disclosed crime in the United States rose 21 percent during the first six months of 1968 when compared to the corresponding period in 1967, according to figures released today by Attorney General Ramsey Clark.

In making those figures available, FBI Director J. Edgar Hoover stated that crime reports which were submitted voluntarily by law enforcement agencies throughout the country reveal violent crimes increased 21 percent as a group. Individually, these crimes showed increases of 29 percent in robbery, 17 percent in murder, 15 percent in forcible rape, and aggravated assault 14 percent.

Volumewise, the property crimes as a group were up 20 percent led by auto theft up 24 percent, larceny \$50 and over 23 percent, and burglary 17 percent.

upward crime trend was consistent throughout the geographic regions of the country. The Northeastern States registered a 27 per cent rise, the Western States 20 percent, the Southern States 18 percent, and the North Central States 17 percent.

Attending were: Mrs. Bob W. Latimer, Mrs. John Wood, Mrs. Glenn Gates, Mrs. P. M. Bristow II, Mrs. Helen Dawson Mrs. John Rouche, Mrs. Louis Roten, Mrs. Turner, Mrs. Brown, Mrs. Reid, and Miss Sammie Laws.

WEDDING PLANS — Mr. and Mrs. J. Fred Brown of 1901 Hughes St., Midland, announce the engagement of their daughter, Billie Carol, and Sammy Joe Badgett, son of Mr. and Mrs. O. H. Badgett of Stanton. The bride-elect is a 1967 graduate of Mary Hardin-Baylor College and is home service adviser for Pioneer Natural Gas Co. She is a member of American Home Economics Association and "Tel-A-Lady" of Farmers Union. Her fiance, a Stanton High School graduate, is associated with The Permian Corporation. The wedding is scheduled for 7 p.m. Dec. 14 in the chapel of the First Baptist Church.

Beta Kappa Chapter Meets In Stanton

Mrs. Claude Miller and Mrs. H. J. Barbee registered approximately 55 members and visitors of the Beta Kappa Chapter of Delta Kappa Gamma on Saturday, September 21, at the Cap Rock auditorium. Teachers from Big Spring, Coahoma, Sterling City, and Martin County attended.

over by the president, Mrs. B. F. Wandell, of Big Spring. Two visitors from Zeta Lambda Chapter of Snyder, were introduced. They were Miss Maydell Burnes and Miss Virginia Grove. Miss Grove gave a report on the international meeting in New York City, which she attended during the summer.

Hostesses were from the Martin County area, and were: Mrs. James Eiland, Mrs. J. M. Payne, Mrs. Grover Springer, and Mrs. A. C. Fleming. Other local members are Mrs. John Wood, Mrs. Harry Echols, and Mrs. Homer Schwalbe.

Baptist Church Activities

The Mary Stamps Circle met at the First Baptist Church Monday, September 23, with Mrs. W. H. Yater presiding.

Mrs. B. F. White read the call to prayer, and Mrs. G. A. Eiland viced the prayer.

Mrs. Paul K. Jones taught the last three chapters of the book, "Spiritual Life Development."

Those present were: Mrs. Eula Eubanks, Mrs. Roy Martin, Mrs. W. H. Yater, Mrs. B. F. White, Mrs. G. A. Eiland, and Mrs. Paul K. Jones. Mrs. Subanks dismissed the meeting.

Library Lines

Mrs. Ralph Caffey, Librarian

Library Hours: Monday, Tuesday, Wednesday, Thursday, 1 - 5 p.m., Saturday, 9 a.m. - 1 p.m.

A tip of the hat goes to the Tops Club, who were instrumental in getting the library cleaned with the County Commissioners furnishing the money. Any club or individual who now wants to use the library need not be embarrassed by the condition of the floors. Come by and see it.

Last week I attended a Legislative Workshop, being sponsored by the Abilene Public Library, and conducted by the Texas State Library, Field Services Division.

Our local public library will be affected by the proposed bills sponsored by the Texas Library Association. This workshop gave us a preview of the legislation which will develop and maintain a network of library systems throughout the state in order to give everyone access to library service.

We were informed about the expected meaning of this legislation for our library—what will be required of us and what will become available to us. You will be hearing more about this as the time approaches for the beginning of the 1969 Legislature.

HD Club News

Texas Home Demonstration Association State meeting closed in McAllen, September 19, with the installation of officers for 1968-69.

Mrs. N. E. Hollway was appointed to serve as chairman of the State Health Committee. She and her committee will be responsible for planning and directing the State Health Program of 1969.

4-H Club News

The Friendship 4-H Club met Saturday, September 21, in the county agent's office. The following officers and committees were elected: President, Theodore Wells; Vice-President, Kathryn Pickett; Secretary, Suzanna Brown; Treasurer, Willie Wells; Reporter, Elizabeth Flanagan; Council Delegate, Lisa Hopper, with Rosalyn Louder as alternate.

Refreshment committee chairman is Darrell Wells, re-

creation committee chairman is Thomas Hoggard, and program chairmen are Rosalyn Louder, and Joni Latty.

Projects for the coming year are: rifle, cooking, and photography. A program on parliamentary procedure was given by Tom Ed Angel.

Attending were: Diana Wells, Willie Wells, Darrell Wells, Theodore Kells, Kathryn Pickett, Joni Latty, Steve Cook, Rosalyn Louder, Suzanna Brown, Lisa Hopper, Elizabeth Flanagan, and guest, Leah Flanagan, and leaders, Mrs. W. T. Wells, Tom Ed Angel, and Mrs. Curtis Flanagan.

Stanton High School News

By PUG DEAVENPORT

The football game played in Buffalo Stadium last Friday night, will be remembered by the people in Stanton for many years to come. The "Mighty Mites" of Stanton High School, defeated the highly regarded Eagles from Seagraves, for the first time in five years! With 47 seconds left in the game, Seagraves tied up the score, but in a series of three quick plays the Buffaloes had marched down field to pay dirt, and claimed an 18-12 decision.

The Bisons were the first team to score. With a little over a minute left in the initial quarter, David Jones connected with Gary Kitchens on a nine yard pass play. Seagraves retaliated in the second quarter with Gilmore bringing in an 18 yard pass from Billy Flemmons for the TD. Both PAT's failed, so half time score was tied-up, 6-6.

The third quarter did not allow either team to score. The strong winds and blowing sand affected both punting and passing.

In the fourth quarter Stanton fullback Johnny McMeans, who received double attention from Seagraves defenders, fumbled the ball on the Stanton 35, and the Eagles recovered. The Seagraves squad marched on down to what looked like an apparent touchdown before they, too, fumbled. This time Alan Gregston recovered the ball in the end zone and Stanton regained possession once more.

A 19 yard run by Gregston and a 21 yard pass play to Steve Stallings, set up the next

Buffalo TD. Gary Kitchens again roared over for the six points after busting through the Seagraves line and racing down field for 40 yards. The PAT failed and the scoreboard showed Stanton 12, Seagraves 6.

The next few minutes of play were hard-fought ones for both teams. Seagraves struggled to pull out another victory and retain their reputation as a power in West Texas football, and Stanton strived to defeat the team that had been picked over them by so many people. The Bisons held off a Seagraves drive and regained possession once more, but on the second play from scrimmage the ball was fumbled and the Eagles turned to business from the Stanton 24. The second Seagraves TD came only three plays later on a 22 yard pass from Flemmons to Mike Thornton. The score was deadlocked 12-12. Stanton foiled the extra point attempt and returned to the field for the kick-off with only 47 seconds remaining on the clock.

David Jones, senior quarterback, led the action on the next three plays. The first play from scrimmage was a pass over the head of the intended receiver. On the next play Jones produced a 38 yard run from a quarterback draw, with blocking from his teammates assisting him all the way down field. To add to Seagraves woes they added a 15 yard penalty and the ball lay on the 12 yard line. It was Jones again on the next play as he maneuvered his way

around left end into victory ground. The PAT attempt was no good, but the score now viewed Stanton leading 18-12, with only seconds left in the game.

And that's how the score looked when the final buzzer rang, and a jubilant Stanton team hoisted coaches Bryan Boyd and Tommy Blackell to their shoulders! Stanton - 18, Seagraves - 12! Two in a row for the Mighty Buffaloes!

—SHS—
At the Pep Rally preceding the game, Coach Joe Cruse and Tooter Harrell gave speeches. A skit was presented by the cheerleaders, with special assistance from Jack Madison.

—SHS—
Members of the Stanton High School Student Council met Thursday, September 19, in their first meeting of the year. President, David Adkins, presided over the meeting. Two committees were appointed. Serving for two months on the citizen - of - the - month committee will be Diana Mims, Scotty Fisher, Doris White, and Bill Wilson, chairman.

Appointed to study plans for homecoming were: Rusty Hicks, Steve Stallings, Linda Hoider, and Pug Deavenport, chairman. The council discussed money-raising projects and meeting dates.

—SHS—
Twenty-one members, and the group's sponsor, J. R. Dillard, were present.

Jack Hill of Abilene, presented an informative assembly to high school students Tuesday, during activity period. Hill showed a film and gave a short talk on Evelyn Wood's Reading Dynamics course.

Mrs. Wood began evolving her new technique about 15 years ago. She calls it "a process of reading rapidly, down a page, allowing the eyes to trigger the mind directly and eliminating the necessity of saying, hearing, or thinking the sounds of words."

Hill explained that with Mrs. Wood's 12 week course, containing two lessons a week, plus an hour a day practice, a person could learn to read ten times average speed of 250 words per minute.

Big Spring will begin a Reading Dynamics course the first of October.

—SHS—
The L. M. Hays Future Tea-

chers of America Chapter met Thursday, September 19, during activity period with their sponsor, Charles Hardin. The group chose Peggy Anastasio as their president for the 1968-69 school term. Other officers include: John Anastasio, vice-president; Sandy Kay Chandler, secretary, and Gayle Haggard, treasurer. Members are reminded to turn in their dollar dues as soon as possible.

—SHS—
Officers for the SHS band and choir were chosen Monday Selected as band leaders were: Bill Currie, president; Cindy Davis, vice-president; Melrae Angel, secretary - treasurer; Lyn Herzog, reporter, and Bill Pardue, parliamentarian.

Officers for the choir are: Melrae Angel, president; David Saunders, vice - president, and Nancy Hurns, secretary-treasurer.

George Walker is director of the two groups.

—SHS—
The Southern Assembly, seen by high school and junior high school students on September 18, was hailed by many as the best assembly ever presented in SHS. Jim Manning, young man billed as a folk singer, presented an hour's entertainment to the students and faculty. He sang such popular songs as "Sunny," "Light My Fire," "Ode to Billy Joe," "You Were On My Mind," "Gentle On My Mind," and "Yesterday." He combined the songs and ballads with special sound effects to produce a very delightful program.

—SHS—
Junior class members will be taking orders for homecoming games again this year. Prices range from two dollars to ten dollars. Those interested in securing a mum for the October 11 homecoming game against Post, should contact one of these high school students: Darla Dowden, Connie Henley, Ailene McMillan, Deborah Haggard, Deborah Holloway, Scotty Fisher, Randy Nichols, and John Anastasio. Get your order in early!

—SHS—
Get your road maps out and be checking the shortest route to Rotan for the Friday night game. The Buffaloes will meet the Yellowhammers at 8:00 when they try to sky-rocket their record to three wins and no losses. Be there and back the "Mighty Mites."
Don't forget the "B" game Thursday night. They'll play in Coahoma following the seventh and eighth grade games.

Study Pends On Election Law In State

The House election law study committee decided to conduct hearings in Dallas, Harlingen and Houston, and possibly later in West Texas. The hearings will be Sept. 27 in Dallas, Oct. 14 in Harlingen and Oct. 25 in Houston. The final meeting, in Austin, has not been scheduled.

Committee members must report their findings to the legislature in January. They include Reps. Jim Stroud, Dallas, chairman; Russell Cummings, Houston; Rayford Price, Palestine; James Cole, Greenville, and Ronald Bridges, Corpus Christi.

At its organizational meeting, the committee discussed several areas for study and investigation, including:

- Whether to allow late voter registration for returning servicemen.
- The possibility of raising filing fees in special legislative elections.
- Whether filing deadlines should be reopened for offices when a candidate dies before a primary.
- How successful have been senatorial district conventions in counties with more than one senator.
- Whether primary election dates should be held later than in May, the current month for such elections.
- The possible need for stronger laws against vote frauds.
- Whether it would be better for the governor to fill legislative vacancies between regular elections rather than call special elections.
- The possibility of lengthening the voter registration period, which now is from Oct. 1 to Jan. 31.

Representatives of Plains Cotton Growers, Inc. on September 17 and 18 in Dallas participated in the naming of Texas trustees of Cotton Producers Institute (dollar-a-bale program), produced delegates to the National Cotton Council and in the nomination of members of the Cotton Board of CPI.

Under the Cotton Research and Promotion Act, trustees and alternates to CPI are named by the certified interest organizations. But the same Act calls for interest organizations to nominate Cotton Board members and alternates, two for each position, and the Secretary of Agriculture makes the final selection from those nominees.

The term of only one of the High Plains' five CPI trustees expired this year, that of Roy Forkner of Lubbock, and he was renamed for another term.

In 1967-68, the first year of the CPI program, no alternates were named for CPI trustees. But a change was made

Winners Of Punt, Pass, and Kick Tournament Of Junior High School

There was a very large number of entries in this tournament. Here is the list of winners.

SIXTH GRADE

GIRLS — First	Linda Creech	207 Yards
Second	Brenda McKenzie	136 Yards
Third	Brenda Creech	116 Yards
BOYS — First	Vernon Brown	262 Yards
Second	Raymond Garza	215 Yards
Third	José Hernandez	203 Yards

SEVENTH GRADE

GIRLS — First	Mora Dee McCalister	174 Yards
Second	Barbara Trimble	119 Yards
Third	Mary Ann Saunders	108 Yards
BOYS — First	Nester Salgado	291 Yards
Second	Gary Henson	246 Yards
Third	Tommy Coats	231 Yards

EIGHTH GRADE

GIRLS — First	Lisa Hopper	117 Yards
Second	Twila Stallings	116 Yards
Third	Elizabeth Flanagan	113 Yards
BOYS — First	Marc Briggs	282 Yards
Second	Clark Ray	262 Yards
Third	Steve Church	262 Yards
Third	Rick Wilson	253 Yards

This week we are taking up horse-shoe pitching, and will begin a tournament this Friday, 27th. Watch for the winners in next week's paper!

to provide for trustee alternates in 1968-69, and the following were named as alternates to the five High Plains trustees: W. L. Edelman of Friona, alternate for Forkner; Joe D. Unfred of New Home for L. C. Unfred, also of New Home; Jay Cannon to Plainview, for Howard Alford, Lubbock; Don Marble for J. D. Smith, Littlefield, and Donnell Echols of Lamesa, alternate for Joe B. Pate, Jr., Lubbock.

The terms of Pate, Smith, and Unfred do not expire until 1969, and their alternates terms will run concurrently. The term of Alford, who is Vice Chairman of the CPI trustees, does not expire until 1970.

Aubrey Lockett of Vernon, who also has operations on the High Plains, was replaced on the board of trustees by Maurice Clack, of Caddo Mills, and Wayne Underwood of Vernon was named as Clack's alternate.

A recent by-laws change made provision for two new Texas producer delegates to the N.C.C., and these positions were filled by PCG President Don Anderson of Crosbyton, and Loy Kilgore of Pecos. Alternates to these two were named as Don Marble of South Plains, and Newman Smith of Balinger.

The High Plains has three other N.C.C. producer delegates, John Pugh of Lubbock, L. C. Unfred, and W. L. Edelman. The alternates named for these were Joe B. Pate, Jr., Paul Bennett of Amherst, and J. D. Smith.

CPI's Cotton Board Member from the High Plains area Roy B. Davis of Lubbock, who is also President of the N.C.C., and his alternate, PCG Executive Vice President Donald A. Johnson, are serving terms that do not expire until 1969.

The term on only one of Texas' five Cotton Board members expired this year, that of Jack Funk of Harlingen, whose alternate is Frank Stubbs of Corpus Christi. Both these names were replaced in nomination, along with the names of Mike Frost and George Schemik, both of the Corpus Christi area. From these four the Secretary will choose a member and an alternate.

JOB OPPORTUNITIES

Neighborhood Center Director—

Prime qualification — ability to work with people, some record keeping involved, background in teaching desirable, but not required.

Clerk-Typist

Capable file clerk, good typing skill, shorthand desirable, but not required.

Spanish speaking ability would be helpful in either position.

Refreshments Will Be Served. Souvenirs Will Be Distributed.

B. F. White and the Friendly Personnel at White Motor Co. Will Be Looking Forward To Seeing You.

The Launching Pad

By NEAL ESTES

I have written many times that I do not believe in polls. I have failed to have proof submitted from any citizen that polls are authentic. I refer to the so-called major polls—such as the GALLUP and HARRIS polls. But some of the nation's political leaders do embrace polls and try to make hay with their results. LYN-DON JOHNSON crawled out of the race for the nomination and re-election because his stock was too low on the 'totem pole or poll. One polling operation had DADDY BIRD down to seventeen per cent. I don't think his popularity percentage was that high at the time of his abdication. Some of the pollsters now have all but eliminated HHH. The pollsters show his running odds so low at the present time that there is very little chance of his assassination.

The general or presidential election is still several weeks away. Definitely it will be decision day all over the country on November 5. I have reached a firm conclusion that any person wanting WALLACE to win should refrain from trying to cross party lines and vote for some Democratic and some Republicans for other offices. I also feel that a person wishing to cast his vote for HHH go right down the line for HUMPHREY'S buddy, BEN BARNES, et al. BARNES is, of course, JOHN CONNALLY'S political protege. He has announced he will campaign for HUBERT and he was the only state official who welcomed HHH to Texas recently. I also feel that an individual supporting RICHARD NIXON should vote the Republican ticket straight—right down to the wire. Cross voting is confusing. One might wind up having his ballot thrown out entirely.

ALEXANDER E. BARKIN, national director of the Committee on Political Education, (COPE), predicted the other day that the 1968 campaign will be "the dirtiest, foulest campaign in recent years." BARKIN proved his point at once by calling RICHARD NIXON "double bladed, triple-coated, four-faced."

U. S. SENATOR HOWARD BAKER of Tennessee, campaign manager for NIXON in that state, said this week: "The race is between NIXON and WALLACE in Tennessee. I don't find any HUMPHREY sentiment in the state." BAKER is the son-in-law of well liked U. S. SENATOR EVERETT DIRKSEN of Illinois.

SEN. JOHN SHERMAN COOPER of Kentucky said this week that "NIXON will carry Kentucky and WALLACE will run second. HUMPHREY is out of it." WALLACE has a reported strength in states ringing the Old Southern group of states that will either give him first or second place in the presidential voting in November.

HUMPHREY and MUSKIE went to see HARRY TRUMAN in Independence Missouri, Saturday. HARRY told them to "Always tell the truth even if it hurts." If HHH follows HARRY'S advise he will admit to he public that he "knows in his heart" at GOLDWATER used to say, that he has no chance to win the presidency. MUSKIE the practically unknown ultra-liberal from Maine, is adding nothing to the Democratic ticket.

GEORGE WALLACE needs to pick a candidate to run with him. The election is only five weeks away. Without a strong running mate for vice-president, WALLACE is out of luck. This nation wants two good men—not just one on any ticket. The public is going to demand who the number two man is—and they want to know in time to investigate his qualifications. Remember, one heart beat away is the way the scribes illustrate the difference in the presidency and the vice-presidency.

HORATIO HUMPHREY said this week: "LYN-DON JOHNSON went on to accomplish more of the unfinished business of America than any of his modern predecessors." What unfinished business are you referring to MR. HUMPHREY? Will the ultimate goal be the raising of the Hammer and Sickle flag over the White House?

American soldiers are fighting, being wounded and dying at a faster rate than ever before in this long, long war. Last year and the year before about 1,000 Americans were wounded each week. Nearly 40 per cent of America's casualties have occurred in the past six months. Over one third of the American deaths for the entire war have occurred this year. And DADDY BIRD and HORATIO HUMPHREY talk about peace and still call the conference in Paris, France the Peace Conference. Some humbug!

A real nice thing happened to me Saturday afternoon. As my friends know, I live alone in a green house located at the corner of St. Boniface and School streets. For sometime now, I have been in the market for a house maid who understood what cleaning meant. For the first time in a mighty long time, my efficient helper cleaned out the ice box, cleaned the stove, not just the top, and moved the furniture around to get the dirt out that had been swept under there months ago. My laundry was assembled, tagged, or listed. The rugs were thoroughly swept. Dishes were stacked in order. Not a single one fell to the floor and smashed to pieces because of improper stacking in the shelves. The skillets were free of bottom and side stuck grease and the tile in the bath and kitchen glistened like a newly minted dollar. I am as proud as peach of the new look on the interior of my house. And I wouldn't tell the name of my new found maid for a crisp hundred dollar bill. And get this, all the work described above was accomplished in three hours. And better still—my new helper didn't ask to borrow money or beg me out of

something. She was satisfied with the established going hourly scale of pay.

Paige Eiland, Chamber of Commerce chief wants a full 39-capacity busload of interested citizens to make the trip to Austin Monday when a delegation appears before the Texas Highway Commission. Purpose of that jaunt will be to launch an appeal for some relief from isolation caused by lack of a traffic artery in the northern part of the county. The special bus for Austin will leave at 3 A.M. Monday morning, September 30.

George Wallace is now slated to name his running mate on the American Party ticket next Tuesday. He says it will be a man of good name and great fame. I'll bet it's Col. Sanders of fried chicken notoriety. Boy, what a ticket! Southern fried chicken, gravy, mashed potatoes and hot biscuits every day in the week—not just on Sundays. And—Wallace boiled greens, ham-hock, 'chittlins, hotwater pone bread and buttermilk every night for supper.

Variety - - -

(Continued from page 1)
ROOSEVELT persuaded the American minority voters into sending him to Washington four times and when he died in the Little White House in Georgia with an old female friend there by his side, talk of a fifth term had also started. As a matter-of-fact the Lucky Strike Tobacco people complained that the ROOSEVELT ringmasters were playing with the company's slogan: "Lucky Strike Means

Fine Tobacco." They based their complaint on the grounds that the New Dealers were chanting: "Let's Start Mentioning the Fifth Term." No, taking toy pistols away from children won't have as much effect on their attitudes as the mixings and minglings going on these days as a result of a decision brought on by a Supreme Court largely dominated by FDR back in the early fifties. It will take 100 years or more to bring the moral standard of some races up to par now owned by the majority of children in this country. There is no such thing as an instant human being and a leopard don't change spots over-night.

County - - -

(Continued from page 1)
The local delegation is expected to arrive in Austin about ten o'clock a.m. on Monday next and will appear immediately before the Highway Commission, Judge Jim McCoy said.

Paige Eiland, chamber chief, told the newspaper that the chartered bus would return to Stanton about ten p.m. the same day.

Eiland stated that some seats are still available on the bus and anyone interested should contact his office in the First National Bank building of the Chamber of Commerce.

Judge McCoy said Martin County could and would pay the cost of chartering the bus. McCoy made this announcement after requesting and receiving an opinion from County Attorney Roy Pickett as to the legality of the payment.

Rev. Oakman - - -

(Continued from page 1)
grapher and is the author of a number of books published by the Herald House.

The following is a schedule of the conference events.

Saturday, September 28, 2:00 P.M. Opening Worship. 2:15-3:15 Classes. Men, Elwood Smith; women, Elva Oakman; youth, Wayne Church; children, Dennis Norman. 3:30-4:30, classes continued. General class (adults & Youths) Arthur Oakman. Children's classes continued. 6:00 Supper (served by the Stanton Women's Dept.) 7:30 business.

Sunday, September 29, 8:30-10:00 Prayer Service. 10:15 Preaching Service, Arthur Oakman. 12:00 Noon meal (served by the Stanton Women's Dept.)

It is people like you that will make our community and county move forward in the days ahead. We realize that the news you give us in The Stanton Reporter will aid us greatly in getting the story of our labor survey to the people of Martin County. We believe that in the future, a maybe not too distant future, some industry will locate in Stanton or Martin County. When this happens you will know that you have made a fine contribution.

Let me say again, "Thanks for a job well done." Very truly yours, Martin County Chamber Of Commerce Paige Eiland, President.

Stanton - - -

(Continued from page 1)
en's Dept.) An offering will be received to pay the cost of the meals.

The public is cordially invited to attend.

BUICK WILDCAT—Buick Wildcat for 1969 — with a longer hood and shortened rear deck—will be shown along with other Buick models in Stanton by Wheeler Motor Company. Instant Wildcat identification is provided by the six vertical chevrons behind the front wheel opening.

Rev. Payne - - -

(Continued from page 1)
the Philippines.

Visits will be made to Tokyo, Hong Kong, and Taipei, enroute to Manila.

In the Philippines, the group will work "two by two" as assigned teammates — preaching, teaching, visiting for Christ and His Kingdom, and witnessing for personal commitment and Christian social action. Each team will serve in two (and some possibly in three) different situations, traveling from one assignment to the other.

There are many languages and dialects in the Philippines, but English is taught in schools and most of the people un-

derstand and speak English. However, much of the public speaking, preaching, and witnessing, will probably be through an interpreter in order to reach those who are of older ages.

On the return trip, the group will have the privilege of spending a few days in Honolulu. Mrs. Payne will join her husband in Honolulu on his return trip to the States.

The group will have its last meeting together in Honolulu on the evening of October 30, then the Paynes will return to Los Angeles on November 1.

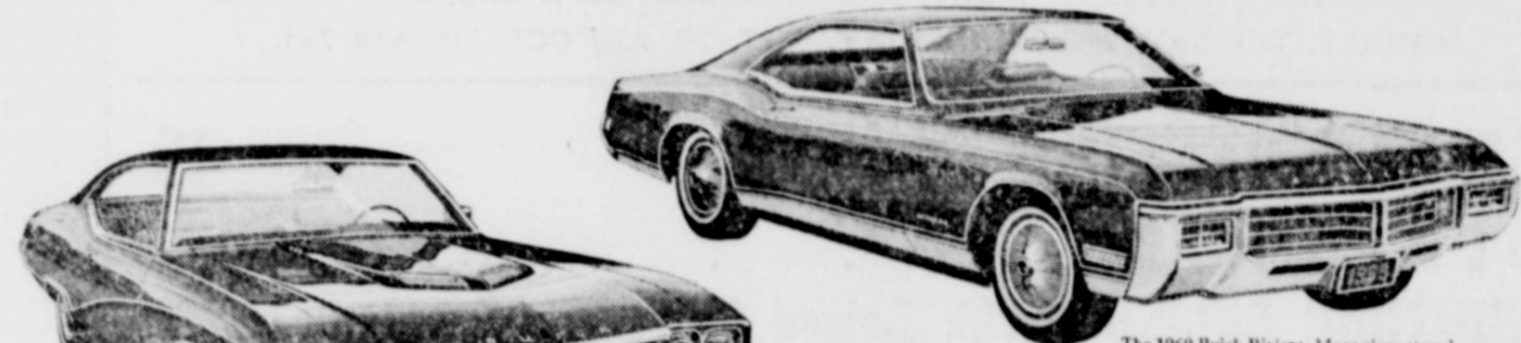

Read The Stanton Reporter for the latest news from your home county!

SALES OPPORTUNITY AGRICULTURAL WESTERN AMMONIA

Our organization is looking for a representative to market anhydrous ammonia and other fertilizer materials in the High Plains area of West Texas. A farming background is desirable, preferably with experience in handling anhydrous ammonia and other fertilizers. Sales experience would be helpful, but not essential if a candidate has a strong farming background. Salary range for this position is \$450 and \$600 per month, plus sales incentives. There is excellent opportunity for advancement for a top performer.

ELCOR CHEMICAL CORPORATION WRITE

Mr. Glenn Watts P. O. Box 1008 Dimmit, Texas 79027

The 1969 Buick Riviera. More elegant and personal than ever. With new exclusive colors, elegant new interiors and a revolutionary new suspension system for improved handling and more driving ease than you've ever enjoyed before. Completely equipped with a 430 cubic inch V8, automatic transmission, power steering, power brakes and much, much more.

The 1969 Buick GS 400. With new functional hood scoops for deeper engine breathing. A stiffer, more responsive suspension for improved handling and ride. And the new available Stage I optional high-performance package.

The 1969 Buick LeSabre. New colors, new interiors and Buick's revolutionary new suspension system for a LeSabre that's more appealing than ever before. More response and economy from a standard 350 cubic inch V8. And a long, impressive list of safety features.

The 1969 Buick Wildcat. With more Buick luxury and rakish new styling. With Buick's new suspension system and a 430 cubic inch V8 standard. And a long list of safety features.

The 1969 Buicks.

The 1969 Buick Electra 225. New. Beautifully new. A distinctive new profile. With a big 430 cubic inch V8 and TH-400 automatic transmission standard. Featuring a new 60-40 seat that you can order. Sure, straight tracking from a revolutionary new suspension system. And much, much more.

There are many new features on every 1969 Buick. Many features you'll like. See them. See if they won't turn you into a Buick owner. And a Buick salesman.

No wonder Buick owners keep selling Buicks for us. Wouldn't you really rather have a Buick?

Born with a sporty personality is
Camaro RS Convertible for '69

The Camaro, a car with a young personality for '69. Available options do 'magic' in the 'RS' and 'SS' versions. A varied selection of engines, striping, special hood with simulated ports, lower-styled rear fenders and wide oval white-lettered tires are but a few of the personal selections available in the '69 Camaro line. The RS Convertible is shown above. All Chevrolet-built passenger cars will be at Chevrolet dealers on September 26.

Bible Distribution Program Evokes Favorable Response

Officials of the Baptist General Convention of Texas are optimistic for the success of the Bible Distribution campaign currently under way. Initial reports from Dallas, Fort Worth, Brownsville, and Baptist hospitals and colleges scattered throughout the state have been favorable.

Under the leadership of BGCT Executive Secretary Dr. T. A. Patterson, Texas Baptists plan to order more than one million copies of "Good News

for Modern Man" and its Spanish language counterpart "Dios Llega al Hombre" for state-wide distribution.

The best-selling American Bible Society version of the New Testament is available to all Southern Baptist churches and associations at a special rate of 20 cents per copy when ordered in lots of 50 books. The order deadline is Oct. 10.

"Private individuals and churches are not only ordering copies for their own use,

"What is the busiest part of a supermarket?" The Arizona Farm Bureau Federation notes that, "According to a USDA report it is the meat counter. The report also shows that red meat consumption per person in 1967 was 16 per cent above 1950, and poultry . . . consumption was up almost 90 per cent."

but are planning gifts of several thousand copies to hospitals, missions, colleges and the Texas Baptist Rio Grande River Ministry. We encourage all interested citizens, civic groups or churches to join us in this effort to make God's words accessible to all Texans," Dr. Patterson said.

Two West Texas Counties Get Free Pheasants

Texas Parks and Wildlife Department biologists recently released 350 Afghan white-winged pheasants in two West Texas counties.

The 300 birds liberated in Tom Green County and fifty in Runnels County were raised in the Texas Game Bird Farm in Tyler and trucked to West Texas. Biologists say the release sites were chosen from the standpoint of food availability and favorable habitat.

Release sites and the liberation of exotic birds follow careful inspection of location and assurance that the newcomers will not compete with or interfere with existing native game bird populations.

The interest is to fill a void brought about by a change in land use patterns which results in loss of native game birds, and to supply the hunter with a new bird to hunt without endangering the native game birds remaining in the area.

The Portland, Oregon, Traffic Safety Commission stated that emotional upsets have a direct effect on safe driving ability. You are driving under a definite handicap when you are upset, depressed, angry or even overjoyed. The defensive driver's way of coping with this problem is to wait until he calms down before taking the wheel.

Trade at home and save!

Chevrolet Cars On Display Today

The widest choice of engines and transmissions in automotive history head a parade of exclusive Chevrolet features for 1969. E. M. Estes, general manager, said today. The new 1969 Chevrolets will be on display at the show room of Allsup-Nowlin Chevrolet Company.

"This unparalleled opportunity for the 1969 buyers to custom tailor his car's performance and economy typifies the variety and value which Chevrolet expects to increase its industry leadership," Estes said.

"Other exclusive Chevrolet features are computer-selected springs for improved ride, jet stream headlight washers for better illumination in bad weather, wider wheels to improve vehicle handling and a 'liquid tire chain' system to increase rear tire traction on icy streets."

Estes said 35 new Chevrolet models in seven distinctive car lines of 1969 go on sale nationally on Thursday, September 26th.

"The industry's top seller — the big Chevrolet — is all new in 1969 and has the largest base V-8 engine in its class," Estes said. "It is a 327 cubic inch V-8, increased from a base 307 engine in 1968."

"Two new 350 cubic inch V-8's are also introduced, one using regular fuel as does the base V-8. The big Chevrolet also offers a high torque, regular fuel 396 cubic inch engine, largest regular fuel engine in its field."

Other exclusive features listed for the new big Chevrolet are full door glass styling with improved Astro Ventilation on all models, variable-ratio power steering for more responsive maneuverability, an electrically-heated rear window defroster and a one-of-a-kind roofline for the Caprice Coupe and Impala Custom Coupe.

Chevrolet introduces in 1969 a new Turbo Hydra-Matic three-speed automatic transmission specially designed for six cylinder engines and V-8 engines up through 350 cubic inches. Teamed with the regular Turbo Hydra-Matic offered on larger displacement V-8's, this gives virtual across-the-board availability of this highly advanced transmission, Estes said.

Chevrolet also introduces a new heavy duty, three-speed fully synchronized manual transmission. Others in the wide transmission selection are the standard three-speed, optional four-speed, Powerglide two-speed automatic and Chevrolet's pace setting Torque-Drive "clutchless" transmission for four and six cylinder equipped Chevy Novas and the six cylinder Camaro.

Safety and security advances on the 1969 Chevrolets range from an improved energy-absorbing steering column, contoured windshield headers and front seat head restraints to an anti-theft, ignitions, steering and transmission lock mounted on the steering column.

Estes said there is also an all-new outside and inside look for Chevrolet's sporty Camaro in 1969, plus exterior and interior styling improvements in Chevelle, Nova, and Corvette and continued Corvair individuality.

Use of computer selection to get the best spring combination for each individual car increases Chevrolet vehicle quality in 1969. Each customer order is analyzed with high speed data processing equipment to determine the front and rear weight of all equipment and the proper springs to carry it. The result is carefully tailored, more consistent trim heights which insure a good ride as well as correct appearance.

Other quality improvements include stronger V-8 engine construction for greater durability, smoother, quieter engine drivelines to help reduce noise and vibration, a new air cleaner snorkel design that makes six cylinder engines quieter and new accessory drive systems of V-8 engines which give improved durability and quieter operation. Frame and sound insulation improvements give better ride.

Advanced, power-assisted front wheel disc brakes are available for any Chevrolet, Chevelle, Nova, and Camaro and are standard on SS equip-

lights only on four headlight systems) are washed by jets of windshield washer fluid. This removes accumulations of road dirt, giving improved illumination.

Chevrolet's exclusive "liquid tire chain" dispensing system gives increased rear traction on ice-surfaced roads. Activated by a button on the instrument panel, dispensers mounted at the top or rear wheel housings spray the chemical against tires. The four-ounce dispenser cans are replaced when empty through the trunk compartment.

Chevrolet air conditioning is improved for 1969 with greater air-flow through larger ducts and added passenger compartment outlets. An improved AM-FM stereo radio combination has all controls mounted on the radio.

Power door locking is offered in 1969 on Chevelle models as well as on the big Chevrolet. Chevrolet's exclusive light monitoring system that tells when front and rear lights and signals are operating is again offered on Chevrolet, Chevelle and Camaro and is standard on Corvette.

Veterans Administration

Q — Last year I attended college under the G. I. Bill. I plan to return to school this fall, but desire to enter a different college. Must I notify VA in advance?

A — Yes. This will allow VA to process your payments much quicker and will permit them to issue you a new Certificate of Eligibility for the school of your choice.

Q — May I borrow on my G. I. Insurance to help pay college expenses for my son or daughter?

A — If you have a permanent plan G. I. insurance policy, you may borrow up to 94 per cent of the cash value of the policy. The interest charge is 4 per cent.

Q — I am a service-connected disabled veteran rated 50 per cent disabled. My son is 22 years of age, is a Post-Korean veteran, and is enrolled in school under the new G. I. Bill. Am I still eligible for additional compensation?

A — Yes, you may be eligible for additional compensation (until your son reaches age 23) although he is receiving educational benefits as a veteran.

Martin County Chamber Of Commerce

STANTON, TEXAS 79782

September 14, 1968

As you know, we are actively working to develop job opportunities for residents of this area.

In our efforts to bring new industry to Stanton, we have found that we must be in a position to furnish prospects with detailed information on the available labor supply!

Your assistance and cooperation in completing the enclosed form is urgently needed — THIS IS NOT A JOB APPLICATION — but is a confidential survey questionnaire for information only.

We are presently working with a number of good prospects. Your help in completing and returning the enclosed survey — AT ONCE — is very important in helping to determine the information they have requested and which is necessary to interest future industrial prospects in locating their plant in Stanton.

We need the name of every worker available. If you know someone 18 years of age or older who has not received this Employment Survey, ask that person to telephone or come by the Chamber of Commerce office for their survey form.

PAIGE EILAND, President
Martin County Chamber of Commerce

Chevrolet introduces 1969.

Caprice. Match this, you other 69's!

There is no joy in the land of our competitors today. But let us ask you this. Should we have made Caprice shorter instead of the longest Chevrolet ever built? Or adorned it with flashy nicknacks to make it look less expensive? Just because competition doesn't, should we not have offered you washers to clean your headlights,

new variable-ratio power steering, liquid tire chain you can apply to your rear wheels at the touch of a button?

Should we have given you less power, instead of the largest standard V8 in its field? Some people think so. Our competitors.

'69 Caprice Coupe

'69 Camaro SS Sport Coupe, plus RS equipment

Camaro. Who needs to say "announcing" or "new". The Huger. And just look how it all hangs together. No gingerbread anywhere. We've improved the interior, too. Quieted the ride. Made the Astro Ventilation ventilate better. The power range is very impressive.

Standard V8 is 210 hp. SS engines available up to 325 hp. For added SS appeal: sport striping; power disc brakes; wide oval, road-hugging tires. Your Chevrolet dealer offers this advice: Go on, you other sportsters. Gnash your gears and look tough.

Maybe it will help. Putting you first, keeps us first.

Beta Sigma Phi Activities

Mu Lambda Chapter of Beta Sigma Phi met Sept. 6 in the home of Obera Angel. The president presided at the meeting.

Communications from International were read. A certificate was presented to the chapter for maintaining a three star rating for 1967 and 1968.

A note of thanks for a gift was read from Danella Parnell, who has moved to Fort Stockton, and a thank you note from Jerry Belshiem for a baby gift.

Plans for our Valentine sweetheart were discussed, and Dorothy Pinkston was elected by acclamation.

Obera Angel presented the program, "Your Day Socially." There were seven members present.

Hood County Reunion Set

Hood County reunion will be held at the Bar-B-Q Pit in Mackenzie state park, Lubbock, Sunday September 29.

All former residents of Hood County are cordially invited to bring a basket lunch and enjoy the day together with old friends. A prize will be given to the oldest person attending. A prize will also be given to

Pastoral Education Course Open

Chaplain Lee Butler of the Big Spring State Hospital has reminded ministers in this area of the clinical pastoral education course which is being offered at the hospital.

Plans are to continue on Thursdays through Nov. 7. Chaplain Butler will be assisted by hospital professional staff members in the course. Included are group dynamics, discussions, taping sessions for counseling and preaching, case studies, and personality therapies.

Ministers interested in this course, designed to strengthen personal counseling, are asked to contact Chaplain Butler at Box 231, Big Spring, or phone 267-8216, extension 260 for details. In the alternative, they are asked to be at the hospital Thursday morning.

The production of high-quality tools in Canada and the United States requires the annual consumption of more than 235,000 tons of nickel-containing iron and steel.

the person traveling the greatest distance. The party house will be open at 9:30 a.m.

Questions & Answers

(This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers for tax purposes.)

Q — Our daughter went to work after graduating from high school last month. Can we claim her as a dependent as long as she lives at home?

A — The general rule is that you cannot claim anyone as a dependent who has income of \$600 or more during the year. This rule should not apply to your daughter if she is under 19 or was a full-time student for any part of five calendar months of the year.

The other dependency tests must also be met. Among them is the requirement that you provide more than one-half your daughter's support for the year.

Q — I sold my house for about \$3,000 more than I paid for it ten years ago. Will that \$3,000 have to be declared as income?

A — Profits from the sale of a personal residence are generally taxable. Under certain conditions, however, the tax on this gain may be postponed until a later year.

This situation may occur when, for instance, you buy a new house within a year be-

fore or after the sale of your home and pay the same or more for the new house than you sold the old one for.

If you do have to report profit on your 1968 return, don't forget to deduct whatever costs you had in selling the house. These include broker's fees, advertising, etc. For further details, get Doc. 5017 by sending a post card to your district director.

Q — I'm cleaning out my files and want to get rid of old papers I've collected. What records and papers should I keep for tax purposes?

A — Records that support items on an income tax return should be kept until the statute of limitations expires for that return. Ordinarily this is 3 years from the date the return was due. Records on property acquisitions, capital improvements and the like should be kept much longer.

For example, if you sell property you should have the records to establish what it cost when you acquired it and the cost of any improvements you made to it. This might mean you would need records dating back 20 years or more.

Q — My mother paid tax on her Social Security pension last year. Is there any way she can get this money back?

A — If your mother declared her Social Security benefits as taxable income she is entitled to a refund. This is one of the things we look for when we process returns and a good percentage of these errors are caught.

Copies of Form 1040 X and instructions are available at the local IRS offices.

Q — A friend of mine works as a car-hop at a drive-in. Does she have to pay tax on her tips?

A — Yes, all tips in any amount must be reported on her tax return. And if your friend's cash tips are \$20 or more a month while working in one place she must report them to her employer. The employer will then withhold the appropriate amount of tax and Social Security on the tips from her regular wages.

Oilmen Evaluate Party Platforms

The Republicans and Democratic national platforms differ rather sharply on two major issues affecting the petroleum industry.

The Republicans once again have endorsed depletion tax allowances as a means to encourage the discovery and development of vital minerals and fuels.

The Democrats, as was the case in 1964, ignored depletion allowance except possibly by indirection when the platform called for a rigorous evaluation of all corporate and individual tax "preferences."

The Republicans said imports should not be permitted to capture excessive portions of the American market. The Democratic platform said there is a need "to lessen the hardships suffered by industries and workers as a result of trade liberalization." The Democrats said provisions of law to remedy unfair and destructive import competition should be reviewed and strengthened.

As in the past, neither platform makes use of the words "oil" or "petroleum."

Both national platform committees had been asked to spell out support for the petroleum industry's 27½ per cent depletion tax allowance and to call for stricter oil import controls.

The late President John F. Kennedy, then a senator, and Richard M. Nixon, then vice president, debated the depletion tax allowance controversy during their 1960 presidential campaign.

Kennedy, who had opposed oil's maximum 27½ per cent allowance as a senator, was campaigning on a Democratic platform that branded inequitable depletion allowances as among the more conspicuous loopholes under which "certain privileged groups legally escape their fair share of taxation." Nixon backed the Republican platform's pledge of helping to keep up the objectives to encourage "exploration for domestic sources of minerals and metals."

President Lyndon B. Johnson may be responsible for the failure of the 1964 and 1968 Democratic platforms to include direct attacks on depletion allowances. Johnson, as a

senator, was a strong advocate of the maximum allowance.

Nixon has given no indication of having changed his position since 1960. The 1968 campaign once again finds him facing an opponent who has advocated that the allowance for oil and gas be reduced.

Vice President Hubert H. Humphrey, the Democratic nominee, voted consistently against depletion while in the Senate.

Humphrey and his vice presidential running mate, Sen. Edmund S. Muskie, D-Maine, cast identical votes on at least four occasions in 1962 and 1964 when the Senate rejected proposals to reduce oil's percentage depletion.

There were roll call votes both years on two different reduction proposals.

Humphrey and Muskie were on the losing side when a plan to cut the 27½ per cent to 20 per cent over a three-year period was rejected by votes of 57-30 and 61-33. They also were on the losing side when a plan for a graduated reduction to 15 per cent was turned down by votes of 50-23 and 57-35.

The 1968 Democratic platform section on taxes says that all corporate and individual "preferences" that do not serve the national interest be removed.

"Tax preferences, like expenditure, must be rigorously evaluated to assure that the benefit of the nation is worth the cost," the Democrats said.

The Republican platform says a national minerals and fuels policy is essential to maintain production needed for the nation's economy and security.

"Present economic incentives, including depletion allowances, to encourage the discovery and development of vital minerals and fuels must be continued," the Republicans said.

to Metropolitan Life. In the United States, the birth rate has fallen by 28 per cent since 1957, from 25 per 1,000 persons, to 17.9 last year.

The California State Chamber of Commerce said, "... While society can have law

The Electoral College

Almost everyone who has written on the subject for the last 180 years or so has called for doing away with or drastically altering the Electoral College method of choosing the nation's president.

The criticism has been vigorous this year because of the possibility that the third-party candidacy of former Alabama Gov. George Wallace could throw the election into the House of Representatives. The wheeling and dealing that might accompany that eventuality gives some people nightmares.

There are 538 electoral votes, which is the total of the representatives and senators of the 50 states, plus three for the District of Columbia. When John Q. Public votes in November, he votes not for the presidential and vice presidential candidates of the party of his choice but for a slate of electors. The elected electors in turn meet in their respective state capitals in December and are morally—but not legally—bound to vote for the candidates they represented on the ballot.

The Constitution provides that when no candidate receives a majority (270) of the electoral votes, the House of Representatives must choose the president from the top three candidates, with each state's delegation casting one vote. (Senators vote as individuals for one of the top two vice presidential candidates.)

There are two main proposals for reform. One is to abolish the Electoral College outright and elect the president and vice president by direct vote, like every other elective federal official. The other proposal is to retain the college, but make its votes proportional to the popular vote in each state.

The Electoral College is not lacking for defenders, however, who argue that it is not the unmitigated evil its opponents say it is.

For one thing, it has spared the United States from the divisive and paralyzing bane of splinter parties. The electoral system gives the candidate with the most popular votes ALL of a state's electoral votes, even if his popular majority was one. (It also gives the more populous states a deservedly greater weight in the election than the less populous.)

This winner-take-all system, because it maximizes the victory of the winner in a close election, undoubtedly has served to reconcile the voters whose candidate lost.

In 1960, John F. Kennedy had a popular majority of a mere 118,000 out of 68 million popular votes, but in electoral votes he defeated Richard Nixon by 303 to 219.

Even if the president were elected by direct popular vote, there would still be the possibility, whenever there were more than two candidates, of no one receiving a majority.

The Electoral College is not ideal by any means. Yet, except for two or three elections, it has served the nation well.

—The Midland Reporter-Telegram.

and order without freedom, no society can long remain free without law and order."

Travelers Warned About Insurance While In Mexico

Travelers by automobile to Mexico for the upcoming Olympics, should be aware of rigid Mexican insurance laws, according to the American Automobile Association.

Automobile insurance is not compulsory in Mexico, but in the event of an accident a motorist can be jailed and have his car impounded unless proof of acceptable insurance is furnished to authorities. AAA says that "acceptable" insurance often means a policy issued by a company licensed to write insurance in Mexico for the period of time the motorist plans to be in the country.

Policy issued by American companies not licensed in Mexico sometimes provide limited coverage for travel in the country, but are not recognized as acceptable by Mexican authorities.

Thus, Triple-A warns, an American involved in an accident in Mexico may still be jailed and have his car impounded even though he has a covering American policy.

The ordinary way to arrange proper duration-of-visit coverage is to purchase a low cost tourist policy. These can be obtained at an American Automobile Association border office or other offices handling Mexican-licensed insurance at the point of entry.

Wallace Stirs Change In Electoral System

No matter how he fares in November, George Wallace may go down in history as the man who finally caused the American electoral system to be changed.

For 180 years the nation has been struggling with the method laid down in the Constitution for picking a president. Generally it has worked, through luck and a genius for improvisation.

As a result, attempts over the years to rewrite the Founding Father's formula in terms of modern political realities have failed to stir up much interest or support.

Now Wallace's third-party candidacy has raised the distinct possibility that the fine print in the Constitution will have to be followed again, and the prospect is appalling to many political leaders and thinkers.

What the Constitution says is that the president and vice president shall be chosen by electors appointed by each state, the number of electors being equal to the number of state's senators and representatives in Congress. It further states that where no candidate gets a majority of the electors' votes, the House shall select the President.

That has happened twice and not everybody was happy about the outcome either time.

After long jockeying Thomas Jefferson won out in 1800 and wound up with political enemy Aaron Burr, his chief rival for the top post, as his vice president.

Under rules amended enough to bar that particular outcome John Quincy Adams beat out Andrew Jackson in 1824 and became one of the few presidents to win from a competitor who had beaten him in the popular vote.

Could Win

Among the improvisations worked out over the years are the choosing of electors in each state by popular election in November, and the awarding of the state's entire electoral vote to the candidate who wins that state's popular vote.

Wallace's whole campaign is based on the electoral vote system. He could, conceivably, win the presidency by getting 34 per cent of the popular vote in a sufficient number of states where Hubert H. Humphrey and Richard M. Nixon divided the rest evenly. More likely, he could get enough electoral votes to keep either Nixon or Humphrey from getting a majority.

In the latter case, from Nov. 4, when the voters choose the electors, until Dec. 16, when the electors cast their ballots, the nation would not know who its next president was going to be. And if the electors followed the Nov. 4 returns — although there is no constitutional requirement they do so — the decision would be open until the House settles it in January.

Jitters For Many

There is even a thin possibility nobody would get the required actual majority in the House and the vice president, to be elected by the Senate, would take over.

It is this prospect of a sorely divided nation, caught up in war and domestic turmoil, drifting two months without an elected leader to succeed President Johnson — and then possibly coming up with a man chosen as a result of political trading in Congress — that is giving many people the shivers.

Demand Rising

In government, academic circles and the legal community, a demand for constitutional change is rising, and although there have been similar choruses in other election years, this time the prospect for action looks better.

House and Senate leaders of both parties are among those calling for change and promising to push for a constitutional amendment in the next Congress. The American Bar Association is conducting a persistent campaign for reform. Newspapers and magazines are giving the message wide circulation.

It remains only for the public to get fired up, and supporters of an amendment are counting on Wallace to accomplish this.

Grassroots Opinion

MEADE, KANSAS, GLOBE - PRESS: "There should be formed an association to protect the rights of the individual, a sort of conservation association, to prevent the erosion of individual rights from the constitution and also by the rules and regulations of bureaus. Latest of the rights of the individual to be attacked is the right to own and use a gun. Slowly the rights of the individual are being washed down the drain. Peoples of the old countries have had their rights taken many years ago, and many of them never had any rights to start with. That is the reason the United States of America was founded!"

DAMARISCOTTA, ME, NEWS: "We, here at the NEWS, I am sure, would not let any advertiser control our editorial policy. The space they buy we are glad to sell, but they cannot decide our point of view. As for me, I feel that our responsibility toward advertisers stops with printing their advertisements as they want them, provided, of course that they do not advertise actual fraud. Essentially a newspaper should be the voice of the community and a watchdog for its welfare."

BROOMFIELD, COLO, STAR - BUILDER: "Speaking of Americanism, a trade paper of our business has an idea which, if it can be sold to the placard-bearing, riot-starting, and sitters-in, might solve the problem. Suggest the paper: 'The letter-to-the-editor is the nation's safety valve — the place a citizen can protest, whether it be chuckholes on Main Street or foxholes in Viet Nam. We Americans have no need to march, or barricade, or brick, or burn. If you have an idea worth putting on a placard, it will sound even better as a letter in the newspaper. . . . If you aren't satisfied with things as they are, protest the American way — write your newspaper.'"

To "air condition" the decorative scheme of a room, hang white monk's cloth panels from ceiling to floor across the entire width of one wall. These panels can be put into the washer and dryer a few at a time for easy laundering.

Birthplace Of Texas 4-H Gets Marker

The Boys Corn Club, organized in Jack County in 1907 by County Agent Tom Marks, will be recognized by the Texas Historical Society as the forerunner of the state's present day 4-H Clubs. The marker will be dedicated on September 28 in ceremonies held in front of the museum of old Fort Richardson near Jacksboro. The Jack County 4-H Council will be in charge of the dedication.

Farm Production — U. S.

farmers in 1967 continued to do their part by producing 4 percent more than in 1966 and 18 percent more than the 1957-59 average. Each farm worker supplied the agricultural needs of 42 domestic and foreign consumers, reports Cecil A. Parker, extension farm management specialist. But, he adds, inputs that went into the cost of production also increased, 2 per-

cent more in 1967 than '66 and 24 percent more than the 1957-59 average. Food is still a bargain.

Water For Texas Conference

— Texas A&M University's 13th annual Water for Texas Conference will be held Nov. 25-26. Theme of the conference will be "Meeting Texas Water Needs," and all sessions will be held in the Memorial Student Center.

New Cantaloupe For Texas

— The Texas Agricultural Experiment Station's scientists have developed a new cantaloupe, especially for South Texas, and it carries the name "Dulce." R. T. Correa, horticulturist at the TA&MU Agricultural Research and Extension Center, Weslaco, developed the new variety. Local county agents can supply 1-760, which describes the new melon.

Brush Control — Individual

plant treatment methods using basal pour of kerosene or 2.4.5-T mixed in diesel oil, should be applied when the soil is dry enough to allow penetration of the material to the bud zone, reports extension range specialists.

Philosopher Comes Up With New Idea To Double The Economy Of This Country

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw comes up with an idea that's bound to have a flaw in it somewhere.)

Dear editor:

According to an article I read during the half at a football game on television the other night, this country's government is in no danger of an economic collapse so long as the economy keeps expanding, that while it's true the government is called on to spend more and more, it can do it so long as people keep buying more and more and business keeps producing more and more.

I was explaining this to a friend in town and he said sure, he believed it, he'd like to do his part and keep buying more, but he'd just figured up all his time payments each month when he made his house payment, his car payment, his television payment, and his lawnmower payment, he had just enough left to buy groceries and gasoline.

"I'd buy a boat, I need one," he said, "but I can't squeeze

in the monthly payments."

This got me to thinking and I believe I have hit on an idea to double this country's economy.

It's simple. We've got too many months. They come around too often.

The thing to do is to make every month 60 days long instead of 30, making a year 6 months long instead of 12, but keep paying everybody by the week.

A man could then double the number of things he's capable of buying on monthly installments. It would open the floodgate and produce a wave of business the likes of which has never been seen before.

I know this could confuse some people, there'd be arguments over which months to abolish, birthdays in the dropped months would be hard to keep track of, but all that'd be overcome by thoughts of getting that speed boat, that second television set, both in color, a second car, or a third one if you've already got two, and all the other things we'd like to buy to keep this country moving forward.

I was just looking over my books and with a note coming due on the first, personally I'd like to drop October as a start.

Yours faithfully,
J. A.

Bible Comment—

Pagan Diana Plays Role In Christian Drama

Christianity began with devout Jewish souls expecting a Messiah, and earnest disciples believing that they had found the Messiah. The atmosphere and environment of the land was already holy with the glory of Israel. Then as Christianity spread throughout the Roman world it soon came into conflict with the rituals, literature and great, imposing shrines and temples of paganism.

Nowhere is there conflict so marked nor so vividly depicted as in the story told in Acts, of Saint Paul's preaching in Asia Minor and of the opposition he encountered in Ephesians through the commotion stirred up by the worshippers of the Goddess Diana.

And the story has an interesting, modern application. For among the worshippers of the goddess were the silver-

smiths who made shrines and who, like some today, were more interested in the material profits of religion than in any sincerity of worship.

When they saw Paul's mission succeeding, the silver-smiths said among themselves, "Our craft is in danger." And, to conceal their self-interest from the people, they cried that "Great is Dianna of the Ephesians."

Some still use the cloak of religion to stir up prejudices or advance self-interest.

Read, and reread, this great lesson in Acts. Not just for its account of Christianity in conflict with paganism. Oh, no. Read it for its warning against those who would take the noble things of religion and patriotism, and pervert them to their own ends.

Stanton Buffaloes 1968 Schedule

Date	Team	Opponents

PFC W. H. Clements, son of Mr. and Mrs. W. H. Clements, is home on a 30-day furlough. He has just recently returned from the Italian theater of war. He had been overseas since July, 1944, and served in Africa and Italy with the 84th division under General Mark Clark.

—23 YA—

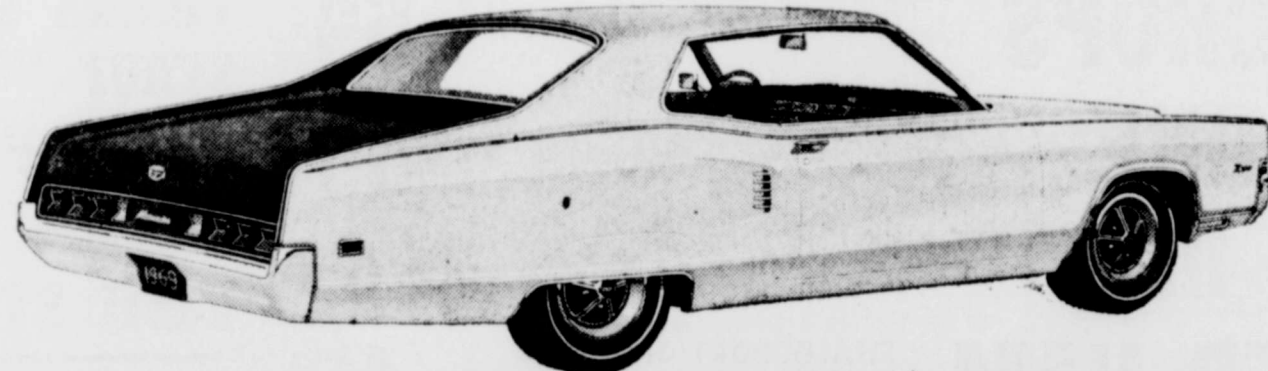

S. Sgt. and Mrs. Ben Scott have returned to Matagorda Island, where Sgt. Scott is stationed at Foster Field. They have been visiting with his parents, Mr. and Mrs. J. C. Scott.

Introducing the new Lincoln-Mercury cars.
Three different cars you've never seen before, for people who have never been in our showroom before.

New Marquis. The most dramatically styled car since the Continental Mark III.

You won't see a medium-priced car like this in any other showroom. Marquis has a dramatic elegance, a majestic beauty that only the creators of the Continental Mark III could make. With this styling and the surprising price, you have no excuse to settle for a dull little car.

New Marauder X-100. Now you don't have to sacrifice comfort if you want a sporty road car.

A full-size road car with more thrills per inch than anything that has ever been in our showroom. You get a choice of bench, twin-comfort, or bucket seats; styled aluminum wheels, a horn that blows by squeezing the steering wheel rim, a 429-cu. in., 4-barrel V-8 and rakish fender skirts—all standard.

New American Cougar with a continental accent.

Cougar owners will tell you how much fun they are to drive. That hasn't changed. But the looks have. Compare it to the foreign sports cars. Anything the Europeans can do, we can do better. Cougar is now available as a convertible. And Cougar continues to be the best-equipped luxury sports car in its class. A big 351-cubic inch V-8 is standard. So are concealed headlamps, sequential rear turn signals and bucket seats.
