## Variety

By NEAL ESTES

We want to open our column up this week by reminding our friends and customers that pictures to be published in the newspaper must be in the office no later than noon on Monday of any week. The photographs have to be sent to Midland for processing and they don't arrive back in our office until Wednesday, press day. Therefore, it is essential the pictures be in on time. It might be well to mention here that colored photographs are not acceptable for the simple reason that they will not allow a clear image when printed.

DOUGLAS MEADOR, editor of The Matador Tribune, is one of my favorite country editors. DOUG wrote in his column this week: "Somewhere in the jungle of society the generation gap appeared after discipline suffered the loss of influence once generated by the razor strap." The razor is no longer an instrument used by the male head of the household on the back proch to shave with anymore in this age of generous facial foliage. The strap has long since disappeared from a hanging position near the washstand. Even the washstands have faded from the scene. But as DOUG wrote, there was a time when a couple of licks administered by a stern parent to the back parts of an erring offspring could command complete obedience and with no back talk at all. The use of the razor strap had a definite purpose in ending all dialogue.

A very interesting letter-to-the-editor arrived a few days ago from ZELDA ATCHISON BENNETT, now a resident of Ozona, Texas. The native daughter of Martin County described, in part, her early day newspaper experience when she served as a stringer for the MIDLAND REPORTER-TELEGRAM, and at one time, she declared that she used to be on the staff as a contributor of society items to this publication. As she suggested in her communication, I plan to pick out the most interesting part of her letter and pass it along to our readers in a future issue.

A couple or maybe three light showers have bathed Stanton during the past week. The temperatures have been down and the rain has not been sufficient enough to keep farmers from working their fields—particularly in thinning out the weeds. Surface conditions have not been altogether ideal to get rid of the weeds but fear of heavier rainfall has caused weed destroying activity to continue.

An authoritative source advised the newspaper this week that the unofficial census had revealed the fact that Stanton's total population now amounts to sixty-two per cent Mexican-American. For sometime, especially during the past four years, we have watched the exodus of several Anglo families from the community.

An unfortunate decision or a play that backfires can make or break the ultimate outcome of a football game. Stanton was riding high over Tahoka here the past Friday night with a 7-6 score until that pesky two-point safety scored by the visitors turned up. After that two-point was posted on the scoreboard the game seemed to turn, and Tahoka posted another final period touchdown to tie the contest 14-7.

# Cotton Crop May Reach 45,000 Bales

## Official Proclamation

By  
J. C. EPLEY  
Mayor Of Stanton, Texas

WHEREAS, Sunday, September 20, 1970, is the 10th Anniversary date of the service by William H. Uhlman as Pastor of the First Baptist Church, and

WHEREAS, the citizens of Stanton gratefully acknowledge the outstanding Christian leadership to the community and to its Spiritual welfare by William H. Uhlman; and

WHEREAS, the City of Stanton takes pleasure in declaring this day as a special time to recognize the ever-increasing importance of the role of the church in the City of Stanton, in the State of Texas, and in the United States of America; and

WHEREAS, William H. Uhlman through his unselfish devotion has continued to provide our community with an excellent facility for worship for which we acknowledge with sincere gratitude; now therefore

BE IT RESOLVED that I, J. C. Epley through the powers vested in me as Mayor of the City of Stanton, do hereby proclaim Sunday, September 20, 1970, as

WILLIAM H. UHLMAN DAY  
a day of sincere appreciation for his immeasurable contribution to Stanton, and do urge all citizens to acknowledge this day of gratitude to William H. Uhlman for the public service he has rendered.

IN WITNESS WHEREOF I have hereunto set my hand, and have caused the Seal of the City of Stanton, Texas, to be affixed this 17th day of September, Nineteen Hundred Seventy.

J. C. EPLEY, Mayor.

## White Motor To Show New Automobiles

White Motor Company will show the new line of 1971 model Ford and Mercury automobiles here Friday, September 18.

The nationwide strike called by the United Automobile Workers Union will have little, if any effect, on the production of new Ford products in the year ahead, according to B. F. White, owner of the local motor company. Ford is not a strike target this year as the company was in 1967.

The premier advertisements detailing some of the finer features of the Ford and Mercury cars appears elsewhere in this issue of the paper.

As has been the firm's custom in the past, the general public will be welcomed at the premier showing of the 1971 model vehicles and refreshments will be served. Literature telling the story of the 1971 line of cars will also be available to prospective purchasers in the showrooms of the motor company here Friday.

Mr. and Mrs. Ottie Cain

## Mr. and Mrs. O. Cain Celebrated 50th Wedding Anniversary Saturday

Mr. and Mrs. Ottie Cain of Midland, celebrated their 50th wedding anniversary with a reception from 2 to 5 p.m. Saturday in the home of their son-in-law and daughter, Mr. and Mrs. Owen Kelly.

The reception was given by the children of Mr. and Mrs. Cain, who are Herman Cain and Mrs. Kelly of Stanton, Mrs. Ruby Faye Calhoun of Monahans, Mrs. Oleta Flowers and Mrs. Dolores Boyer of Denton.

Mr. and Mrs. Cain were married in Aubrey Sept. 11, 1920. They moved to Midland in 1931, and in 1935 moved to a farm south of Stanton in Midland County. They retired from farming in the 1950s and now reside at 210 S. Terrell Street in Midland.

## Mobil Oil Completes New Pay Opener In Howard

Mobil Oil Corp. has completed No. 28 Owen-Chalk as a new pay opener in southeast Howard County, 14 1/2 miles southeast of Big Spring, and has proposed field designation of Chalk (Hutto-Credo).

On 24-hour potential test, through Wolfcamp lime perforations between 7,370-7,441 feet, it pumped 129 barrels of 36.6-gravity oil, with gas-oil measuring 1,655-1. The producing section had been acidized with 26,000 gallons.

Drilled to 9,300 feet, it has 7-inch casing seated at 9,233 feet.

It spots 2,170 feet from north and 480 feet from east lines of section 113, block 29, W&NW survey, surrounded by shallow production in the Howard - Glasscock field, 8 1/2 miles west-southwest of the depleted Wolfcamp sand opener in the field.

The Wolfcamp sand strike, Continental Oil Co. No. 45 W. R. Settles, was completed in 1966 to pump 17 barrels of oil daily, through perforations at 8,914-8,942 feet.

The new discovery is nine miles southeast of the Hutto, South (Wolfcamp) field, and the same distance north of the Credo, North (Wolfcamp) field of Sterling County.

McGrath and Smith, Inc. of Midland, continued testing at No. 1 Lockhart, north Howard County Canyon reef pay opener, 3/4 mile east of Fusselman production in the Luther, Southeast field, four miles north of Luther.

It flowed 21 barrels of oil, no water, in 24 hours, with gas volume rated at 116,000 cubic feet per day. Production was through an unreported choke and from open hole at 8,006-8,012 feet.

Location, corrected from 1-320 feet from south and east lines is 660 feet from south and east lines of section 38, block 32, T-3-N, T&P survey.

Monitor Petroleum Corp. was drilling ahead below 10,837 feet in lime and shale at No. 1 Jones-Holton, Martin County deep searcher, 22 miles northwest of Stanton, and 4 1/2

miles east of the Lacaff (Dean) field, after it recovered gas, oil and water on a drillstem test in an unidentified formation.

Tool was open an unreported time on a test taken from 8,680-8,740 feet. Recovery was 80 feet of slightly oil-cut drilling fluid. Subsequent investigation from 9,280-9,410 feet, time unreported, recovered 2-160 feet of gas, 35 feet of oil, 35 feet of oil and water, and 90 feet of drilling fluid. Flowing pressure was 134 pounds; one-hour initial and two-hour final shut-in pressures were 853 and 641 pounds, respectively.

The project spots 4,625 feet from south and 5,500 feet from east lines of league 246, Wheeler CSL survey, 1/2 mile southeast of the depleted opener and lone producer in the Holton (Strawn) field, and seven miles south - southeast of the Breedlove (Devonian) pool.

Adobe Oil, of Midland, filed application for five projects in the Martin County portion of the Spraberry Trend Area.

No. 1-A Williams, one mile west of production, is 1,320 feet from south and east lines of section 5, block 38, T-1-N, T&P survey, 12 miles northwest of Stanton. It is slated to 9,200 feet.

No. 3 Williams, 1/2 mile east of production, is 1,320 feet from north and east lines of section 46, block 37, T-1-N, T&P survey, eight miles northwest of Stanton.

No. 4 Williams, 3/4 mile southeast, is 1,320 feet from south and east lines of section 46. Both of the projects on the Williams lease area slated to 9,200 feet.

No. 1 Greenhaw, 1 1/2 mile west-northwest, is 1,320 feet from north and east lines of section 11, block 37, T-1-S, T&P survey, six miles west of Stanton. It is also slated to 9-200 feet.

Planned as 9,150-foot project, 3/8 mile northeast and one mile southwest of production on the north side, is No. 1 Mamy Foreman 1,320 feet from

north and west lines of section 33, block 36, T-2-N, T&P survey.

The north portion of the Spraberry Trend Area, of Martin County, has gained a one-mile west extension with the completion of John L. Cox No. 1 J. N. Woody.

On 24-hour potential test, it flowed 249 barrels of 40-gravity oil, no water, through a 16-64-inch choke and perforations at 8,331-9,083 feet. Gas-oil ratio was 805-1.

Producing section had been treated with 80,000 gallons of fracture material.

It was drilled to a depth of 9,109 feet, with 4 1/2-inch casing set on bottom.

It spots three miles south of Tarzan, and is located 1,326 feet from north and 1,370 feet from east lines of section 38, block 37, T-2-N, T&P survey.

John L. Cox of Midland, plans No. 1 Kewanee as a 3/4-mile southwest offset to production in the Playa region of the Martin County portion of the Spraberry Trend Area, five miles northeast of Stanton.

Location, on a 640-acre lease is 1,980 feet from south and 660 feet from east lines of section 4, block 35, T-1-S, T&P survey. Scheduled depth is 8,500 feet.

John L. Cox of Midland, plans No. 4 Dickinson as a one-mile north outpost to the Martin County part of the Spraberry Trend Area, 12 miles northwest of Stanton.

Drillsite for the 9,500-foot project, is 990 feet from north and east lines of section 7, block 37, T-1-N, T&N survey.

Tom Brown Drilling Co., Inc. of Midland, completed No. 2-A (formerly No. 2-11) J. C. Sale, 1/2-mile north and west of the nearest production in the Martin portion of the Trend Area, 10 miles northwest of Stanton.

On 24-hour potential test, it flowed 263 barrels of 40.3-gravity oil and 13.5 barrels of water, through a 24-64-inch choke and perforations at 8-332-9,012 feet, which had been acidized with 3,250 gallons

(Continued on page 6)

## Five Million Dollar Yield Is Possible

The cash value of the 1970 cotton yield in Martin County could reach as high as five million dollars, authorities said here this week.

The possibility of a 45,000 bale crop looms brightly on the horizon at this time.

## Stanton Buffs To Meet Rotan In Next Game

The Stanton Buffalo varsity takes to the road for a non-conference tilt with Rotan Friday night. Rotan is rated as a title contender in their district.

In their season opener Rotan handed Spur a 38-12 defeat, with Rotan reserves playing the last five minutes of the game. Rotan features a balanced attack, with senior Walter Hargrove at quarterback and an outstanding running back in 175 pound Mickey Early, who is a 9.9 sprinter. The Yellowhammers operate from a wing T.

In other football action, the Stanton Junior varsity journeys to McCamey for a 5:00 p.m. game on Thursday, while the Junior High teams face Coahoma on the local field at 4:30 p.m.

The 45,000 bale estimate for Martin County depends strongly on favorable weather from now until the harvest season is concluded. The next forty or fifty days could change the production picture and an early frost would be a determining factor in the final yield.

The five million dollar price tag placed on a 45,000 bale crop was figured on the unit price of \$120 per bale. The cotton in Martin County is grown on both dryland and in irrigated fields. Practically all of it is machine harvested and ginned locally. Martin County is also one of the few counties in the area favored by the location of a cotton compress.

Local businessmen, cotton growers, those serving in key positions in cotton culture in the county expressed the consensus of opinion that the 1970 crop could have been a boomer one if much needed moisture had fallen earlier in the season.

Former Martin County Agent Gerald Hanson, presently en-

(Continued on page 6)

## Stanton Loses Opener To Tahoka Here Friday

The Stanton High School Buffaloes took up where they left off with the 1969 season here Friday night and lost to Tahoka by 14-7. Last year, the Bisons dropped the initial game of the season by one point, 7-6.

The Buffalo backs had trouble gaining ground in the second half of the game after holding their own in the first two periods. Stanton scored first and held a 7-0 lead for a time.

The visitors put together a series of plays netting them 87 yards and a touchdown in eight thrusts through the Stanton line. With the game tightened up following the Tahoka touchdown, the game was destined to wind up in a close finish and it did.

Stanton turned in their only touchdown of the evening on a pass plan from Glenn Ray to Larry Adams. Ray annexed the single point after TD.

The score resulted after the Buffaloes had swarmed into the Bulldog backfield and recovered a fumble following a bad Tahoka snap of the pigskin from the center. It was the third time the visitors had fumbled, Stanton recovering all three times. Previously, Jackie Swanson and Mark Hursh had picked up loose balls for Stanton.

Bulldog quarterback Cliff Gardner started Tahoka toward the Bison goal by calling for a series of line plays that appeared to wear down the right side of the Buffalo line.

Fullback Franky Barnhill led Stanton advances with 18 yards. Dwayne McMeans picked up 11, and Roy Kelly got five. Quarterback Ray travel-

## Forsan Graduate Named Winner Of Scholarship

Josie Moreno, 1970 graduate of Forsan High School, was named winner of the 1970 Cap Rock Electric Cooperative scholarship to Howard County Junior College Saturday night at Cap Rock's 31st annual meeting.

Miss Moreno, daughter of Mr. and Mrs. Jaun F. Moreno of Garden City Route, Big Spring, was awarded the sch-

olarship on the basis of her outstanding high school scholastic record.

While attending Forsan High she was a member of the Future Homemakers and the Future Teachers. She was a member of the Stamp Club, and Coin Club, the Spanish Club, and the Thespians.

Miss Moreno was treasurer

## OFFICIAL MEMORANDUM

By  
JIM McCOY,  
County Judge

Stanton, Texas

GREETINGS:

A prosperous agriculture is vital to the economic well-being of Martin County.

The Texas Farmers Union is the oldest farm organization in Texas and was founded at Point in 1902.

The Texas Farmers Union is a general farm organization that represents the producers of all farm commodities.

Texas Farmers Union represents its membership in behalf of programs to improve the economic and social well-being of Martin County farmers and ranchers.

Texas Farmers Union members will celebrate Farmers Union Membership Week September 21 through 26, with a statewide membership campaign for the purpose of enrolling thousands of farmers and ranchers as new members in Texas Farmers Union.

THEREFORE, I, as County Judge, do hereby designate the week of September 21-26, 1970, as

FARMERS UNION MEMBERSHIP WEEK

in Martin County, Texas.

In official recognition whereof I hereby affix my signature this 14th day of September, 1970.

(SEAL)

JIM McCOY,  
County Judge  
Martin County, Texas

**Philosopher Points Out An Unconsidered Danger Of Continuing Spiraling Inflation**

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw discovers an off-shoot of inflation this week. We hadn't thought about it).

Dear editor:  
I knew everything was going up, for example it used to be that one terrorist was worth say one hostage, but now one is claimed to be worth around a hundred according to Arab mathematics, but it took a report by a bunch of economists to really underscore the notion.

According to an article I read last night in a Sunday newspaper which would have cost me a quarter if I'd gotten it off a newsstand in town instead of a fence out here, these economists have figured that if the present rate of annual rise in the cost of living index continues for the next 30 years, by the year 2,000 a \$3-500 car will cost \$17,000, a \$400 color TV will cost \$2,800, a \$20 bag of today's groceries will cost \$114, and a \$25,000 home will cost \$147,000.

Now you understand that farmers have never been brought under the cost of living

index, that is, not completely, only half way—they pay more for what they sell (cattle prices on the hoof are a little less now than they were 15 years ago), so I have done a little figuring and find that while today for example it takes 11,666 dozen eggs to buy a \$3-500 car, 30 years from now it will take 56,666 dozen, which will certainly be a strain on chicken farmers, and I won't even mention the fright of their chickens.

Or take wheat farmers. If it'll take five times as many bushels of wheat to buy a car 30 years from now as it does today, what in the world are they going to do with all that wheat? I don't have the time or the head for it, but you figure up how many 500 pounds of cotton it'll take to buy a \$147,000 house. It staggers the imagination and strains an adding machine.

I don't know anything about how to control inflation and if anybody else does he hasn't shown up, but at least somebody had better start raising the prices us farmers get if they don't want the country swamped up to its neck in cotton, grain, fruits, vegetables, eggs, and chickens. Fifty-six thousand dozen eggs for one car is a lot of eggs.

Yours faithfully,  
J. A.

**Bible Comment—  
Reaching Out Is Mark Of Christianity**

"Outreach" is a good word for the Christian church. It began by reaching out, and missionary enthusiasm and activity have been its deepest characteristics through the ages.

Jesus reached out for His first disciples. He did not take those nearest at hand, or those among the officially religious, to whom a religious leader might naturally have appealed. He reached out into the common life, and took fishermen, and others of lowly, but very active, occupations to be of the inner circle.

He wanted workers — those who would be fishers of men — reaching out and gathering others into the Christian way.

Seven of the disciples had

not been ready and willing to obey the Master's command to go into all the world and preach the Gospel to every creature, events gave them little choice. The persecution that broke out scattered them, but they had learned well the Master's lesson, and everywhere they went they proclaimed the truth and won disciples.

The world needs as never before the saving, healing, purging power of Christianity and the church, and the church, if it will, can meet that need as never before. The church — that is, the people in it — must, in these days, manifest in new and powerful ways the "outreach" in which the church began.

**Seeds From The Sower**

By Michael A. Guido, Metter, Georgia

A man with his eyes swollen and his face bandaged was asked by a friend what the trouble was. "Nothing," he explained, "except I was talking when I ought to have been listening."

Not wanting for bandages but the blessings, the Psalmist insisted on listening to the Lord. For some of his friends

Fences keep livestock in, the terraces keep soil and water in the field. Terraces slow down the water so that more of it can soak into the soil, and be available for future crops. It is not the amount of rain we get that counts, but the amount that we keep on the land.

Parallel terraces are getting more popular each year in Martin County. One of the reasons for having terraces parallel is that they make farming faster and less expensive because point rows are eliminated. The Soil Conservation can cost-share 70 percent of the cost of parallel terraces through the Great Plains Conservation Program.

had left the Lord's hush for the world's rush. Instead of tranquility, the found turbulence. Claiming themselves to be wise without listening to the Lord, they became fools.

So he recorded in Psalm 85:8, "I will hear what God the Lord will speak: for He will speak peace unto His people, and to His saints: but let them not turn again to folly."

This morning we auditioned an album for our broadcasts. On the jacket was a familiar trademark—a little dog sitting before a big speaker. Underneath was the caption, "Listening to his master's voice." I could not help but wonder if man's pets have more sense than God's people. Are you bewildered or broken-hearted? Do you want God's blessings and benefits? Listen to the Master's voice.

Freshly hewn birch chips sink when they fall into water since birch has a high porosity of green wood, that is, cells filled with sap instead of air.

**Forty Years Ago**

Last Week The Reporter started its fall Bargain subscription by reducing the yearly rate of \$1.50 to \$1.00 W. M. Wozencraft was the first to take advantage of the bargain rate. He lives on Star Route out of Stanton.

—40 YA—

Recently the Valley View School District, 13 miles north and four miles east of Stanton, voted a \$15,000 bond issue to build a new brick school building. The building is to be six rooms and auditorium with a seating capacity of 300.

W. P. Reid, president of the school board, gave The Reporter notice to publish asking for bids. Heretofore the school has employed two teachers, but with the increase in growth, this year, the school will employ four teachers. School attendance is now 120 pupils.

—40 YA—

Headline over a story appearing in The Stanton Reporter: "\$20,000 Ranch Home Destroyed By Fire Early Friday." It was the home of E. R. Wolcott, on his ranch 22 miles north that was destroyed by fire. The home was a 10-room structure and of the Old English style. It is believed that fire originated from faulty electric wiring.

—40 YA—

The Midland Bulldogs and the Stanton Buffaloes fought four quarters to a 0-0 tie. Midland spotters had it figured the Bulldogs would win by four touchdowns.

**The Stanton Music Club**

The Stanton Music Club met recently in the home of Mrs. Guy Eiland, with Mrs. Edmund Tom as co-hostess, for the new club year.

Mrs. Arthur Wilson, president, presided. The meeting was opened with the singing of the Federation Hymn, and the Hymns of the Month for June, July, August, and September. The September Hymn was discussed by Mrs. C. R. Welch, who was also the accompanist for the group singing.

Mrs. Glenn L. Brown outlined the course of study for the year entitled "Music Relates to Modern Man." She also showed the certificate that the club received for its outstanding American Music program given last year.

Special guests for the day was Mrs. Robert Sewell, president of 12th District, Texas Federation of Music Clubs, from Odessa. She presented

her plan to work for the district, and gave information concerning the 12th district conference to be held in Big Spring in October.

Gifts of appreciation were presented to Mrs. Sewell, and to Mrs. Paige Eiland, immediate past president of Stanton Music Club.

Refreshments of party sandwiches, cookies, and coffee served from a beautifully appointed tea table to Mrs. James Jones, Mrs. Homer Schwalbe, Mrs. R. O. Anderson, Mrs. George Dawson, Mrs. Glenn L. Brown, Mrs. Arthur Wilson, Mrs. C. R. Welch, Mrs. Paige Eiland, Mrs. Edmund Tom, Mrs. Guy Eiland, and two guests, Mrs. C. F. Huling and Mrs. Robert Sewell.

# Active Life Lived By Poster Boy

**EIGHT-YEAR-OLD DOUGLAS LAMBERT**  
... One Of The More Fortunate

To most third grade boys, "cystic fibrosis" is just a big word with an alien definition. But to Douglas Lambert, son of Mr. and Mrs. Charles Lambert of Stanton, the meaning is very clear and the results are a way of life.

Douglas, who says he is "eight and a half," is the poster child for the 1970 fund drive of the Permian Basin Chapter of the National Cystic Fibrosis Foundation. He will represent all the area children afflicted with the hereditary disease.

Mrs. Lambert explained that the disease affects the lungs and pancreas and causes a thick mucus to coat the two organs, preventing them from functioning properly.

The disease has no cure and the controlling treatment is complex and costly.

"Doug is one of the more fortunate ones. Some of the kiddos can't even get out of bed," she said, adding that her son is "very active." "They (doctors) want them as active as possible, although

some of them can't be." Mrs. Lambert said that Douglas must sleep under a special compression tent which helps loosen the mucus in his lungs. He must also take breathing treatments four times daily with a special mask, followed by a "postural drainage" session.

The session includes the necessity of another person striking Douglas firmly in the back and chest regions with cupped hands to help dislodge the mucus, in somewhat the same manner as a doctor strikes a newborn baby to in-

flaminate the breathing process. Mrs. Lambert added that medication includes a pill three times daily to aid Douglas' digestion, plus a rotation antibiotics program to help guard against infections.

"They catch colds and everything that comes along very easily. That's the only reason why they have to miss school," she said.

"It's hard on the child and it's hard on you," she continued, explaining that each treatment takes about 20 minutes apiece, and that trips to

the Houston rehabilitation center must be made about twice yearly.

Mrs. Lambert said the local cystic fibrosis chapter had helped Douglas through lending equipment and "helping the kids get to a special camp once a year."

She continued, "there was no hope in sight" for improved conditions of her son. "The research drive is working on more control," she said.

"I think it is very important that we give to this so we can help find something for these kiddos," she said.

## Hoover Says Serious Crime Up 148 Per Cent In Decade

FBI Director J. Edgar Hoover said Wednesday serious crimes in the United States rose 148 per cent during the decade of the 1960s.

Atty. Gen. John N. Mitchell

### Tax Man Sam Sez:

In a recent report on federal tax collections the Internal Revenue Service says that the total Internal Revenue collections for the United States in the calendar year 1969 was \$195,141,923,000. Texas tax collections ran more than \$8 billion for the first time.

Releasing FBI crime statistics for 1969, and reviewing crime rates in the past 10 years, Hoover reported that serious crimes went up by 12 per cent in the last calendar year.

Mitchell, perhaps setting the stage for a fall election issue, noted that the corresponding rate of increase in 1968 was 17 per cent.

claimed the rate of increase "slowed down substantially" after President Nixon's Republican administration was installed in 1969.

All violent crimes — a category distinguished from property crimes such as theft — increased at a lesser pace during the first year of the Nixon administration with one exception: forcible rape, which was up 17 per cent in 1969.

The corresponding increase for this offense in 1969 was 15 per cent.

Property crimes, which include burglary, larceny of more than \$50, and auto theft, increased 12 per cent in 1969. The 1968 increase was 17 per cent.

Violent crimes in addition to rape, include murder and non-negligent manslaughter, aggravated assault, and robbery. Violent crimes increased 11 per cent over-all in 1969, compared to 19 per cent in 1968.

"While we can find encouragements in the fact that crime increased in 1969 at a much slower rate than in 1968, the important fact is that the total number of serious crimes continued to increase in all categories," Mitchell said.

Coming less than four months before Republicans hope

## Stanton School Lunch

September 21 Through 25

Monday — Chicken fried steak and gravy, green beans, vegetable salad, pink applesauce, hot rolls, butter, milk, and buttered rice.

Tuesday — Corn dogs, potato salad, buttered peas, fruit gelatine, hot rolls, butter, milk, and mustard.

Wednesday — Chili pie, beans, mixed greens, corn bread, butter, and milk.

Thursday — Hamburgers on buttered bun, lettuce, tomatoes, onion, pickle, French fries, one-half orange and milk.

Friday — Beef stew with

to gain control of Congress, however, the Justice Department announcement emphasized the positive. It began:

"During the decade of the Sixties, serious crime in the United States increased by 148 per cent, but the rate of increase slowed down substantially in 1969, Atty. Gen. John N. Mitchell announced today."

The statistical rundown showed there were 2,471 serious crimes per 100,000 population in 1969, an increase of 11 per cent over 1968.

## Veterans Administration

(Editor's Note: Veterans and their families are asking thousands of questions concerning the benefits their government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.)

Q — I plan to enter college under the G. I. Bill and will be taking 16 semester hours. How much will VA pay me since I have no dependents?

A — If you have no dependents and carry the full-time load you anticipate, your monthly payment will be \$175 at the present rate.

Q — Upon my discharge from the service, I received a lump sum disability severance payment. Will I have to pay this back to the government if I am awarded VA compensation for the same disability?

A — The law requires that VA monthly compensation payments be withheld until the amount received is equal to the amount of severance pay you received because of the disability.

Q — May I purchase a home with a G. I. loan over the VA appraisal?

A — Yes, provided you pay in cash the difference between the reasonable value determined by the VA and the price of the house.

monthly payment will be \$175 at the present rate.

Q — Upon my discharge from the service, I received a lump sum disability severance payment. Will I have to pay this back to the government if I am awarded VA compensation for the same disability?

A — The law requires that VA monthly compensation payments be withheld until the amount received is equal to the amount of severance pay you received because of the disability.

Q — May I purchase a home with a G. I. loan over the VA appraisal?

A — Yes, provided you pay in cash the difference between the reasonable value determined by the VA and the price of the house.

### LEGAL NOTICE

## Public Notice

A public hearing on the 1971 Budget for Martin County, Texas, will be held on Monday, September 28, 1970, at 10:00 o'clock A. M. in the Commissioner's Courtroom in the Court-house.

**Jim McCoy,**  
County Judge,  
Martin County, Texas.

## Mr. and Mrs. Donald Anderson Married Friday In Baptist Church

Mr. and Mrs. Donald G. Anderson are on a wedding trip to Fort Worth and Dallas following their marriage Friday evening, Sept. 11, in College Baptist Church. The bride's traveling costume was a pink two-piece suit accented with gold buttons, brown accessories and a corsage from her bridal bouquet.

Mrs. Anderson is the former Miss Anita Sue Gibbs, daughter of Mrs. Russell Tidwell, Lomax, and Larry Gibbs, Woodland Hills, Calif. The bridegroom is the son of Mr. and Mrs. Floyd Anderson, 2302 Roberts Drive, Big Spring.

The Rev. Byron Orand performed the ceremony before an altar enhanced with gladioli and emerald palms.

Given in marriage by her father, the bride was attired in an iridescent green silk suit complemented with a single strand of pearls. Her headpiece was a circle of pearl

de sole accented with seed pearls and attached to a short circular veil. She carried a bouquet of daisies and gardenias tied with green streamers.

Mrs. Jackie Crawford, sister of the bride, was the matron of honor. She wore a beige knit suit and gardenia corsage. Jackie Crawford, brother-in-law of the bride, served as best man.

Following the ceremony, a wedding dinner was held at the Brandin' Iron Inn.

The bride is a graduate of Stanton High School, and is attending Valtai Reeves School of Hairdressing and Cosmetology. The bridegroom was discharged from the Navy in February, and is now employed by Safeway Stores. He is a graduate of Big Spring High School, and attended Howard County Junior College. The couple will make their home at 709 E. 5th, Big Spring.

## New Arrivals

Mr. and Mrs. Donny Thompson are the proud parents of a baby boy born Friday, September 11, in a Big Spring hospital. The baby is named Dory Day, and weighed six pounds, 13 ounces.

Paternal grandparents are Mr. and Mrs. D. B. Thompson, and maternal grandparents are Mr. and Mrs. Claude Glaspi.

## Cheerleaders Elected Recently

Cheerleaders for the 1970 school year were elected recently with three representatives from the eighth grade, and two from the seventh grade.

Head cheerleader will be Susie Hopkins, eighth grade; Lynette Haggard, eighth grade; and Gay McIntyre, eighth grade; Tonya Ray, seventh grade, and Jo Anna Haggard, seventh grade.

The pep squad officers were also elected, and includes: Brenda McKenzie, president, and Peggy Barnes, secretary.

## Baptist Church News

A luncheon was served Thursday, September 3, to the Bethany Sunday School class of the First Baptist Church.

Mrs. Mary Brothers, president of the class, presided.

Mrs. Sid Cross brought the devotional.

The minutes of the last meeting were read and approved by the class and the treasurer's report was also given.

Mrs. G. E. Eiland, teacher of the class, discussed the changes in the Sunday School work for the next year.

Attending the luncheon and business meeting were: Mrs. Oma Womack, Mrs. Sid Cross, Mrs. Roy Martin, Mrs. Clyde Geurin, Mrs. Ruth Holloway, Mrs. G. A. Eiland, and Mrs. Mary Brothers, who closed the meeting with prayer.

## County Agent's Column

By BILLY REAGOR  
County Agent

Fields treated with most defoliants, dessicants, insecticides, and some herbicides should not be grazed by livestock, says Billy Reagor, county agricultural agent.

Agricultural chemicals, commonly used as herbicides, insecticides, defoliants, and dessicants, are necessary for profitable cotton production in Texas. Some of these chemicals are highly toxic to livestock and animal death can occur when treated fields are grazed.

Besides causing direct death to animals, chemical residues from treated fields may contaminate meat or milk, and make them subject to seizure under state and federal regulations, advises the county agent.

It is a producer's responsibility to adhere to specific restrictions on grazing fields treated with any pesticide or harvest aid chemicals. Follow all label instructions, and if in doubt about grazing restrictions, check with your county agricultural agent before livestock are permitted to graze treated fields.

## High School News

As the fourth week of school nears an end, we find the different organizations, and classes electing their representatives for the year.

In the senior class the students elected for president, Robby Dickenson; vice president, Dennis Jones; secretary, Steve Fryar, and treasurer, Gary Kitchens.

Representing the junior class are: president, Mike Adams; vice-president Judy Costlow; secretary, Teresa Louder; treasurer, Billy Coggin, and reporter, Lyn Herzog.

David Chandler will serve as the sophomore president. Followed by vice-president, David Dillard; secretary, Judy Henley, and treasurer, Clint Creech.

Freshman president is David Standefer; vice-president is Skeeter Straub; secretary, Becky Graham; treasurer, Debbie Payne, and reporter, Cheryl Bradshaw.

The Stanton Chapter of the FFA also elected officers this week. They are as follows: president, Steve Fryar; vice-president, Gary Posey; secretary, Dennis Jones; treasurer, Rickey Mims; reporter, Mark Hursh, and sentinel, Roy Kelly. This organization has represented our school with great success in the past years, and they deserve real credit for the fine work that they have done.

A new organization has been added to our athletic department this year. It is the Fellowship of Christian Athletes, and its purpose is to promote Christianity among athletes. This is not just a

high school organization, it is found in college and pro athletics. This fellowship meets every Friday morning at 7:30. Each summer this organization sends two boys to a summer camp in Colorado. These boys are usually prospective athletes for the next year, and they are to return with ideas of developing a better relationship between their fellow athletes. This organization is open to athletes as well as parents and promoters. Officers are Captain, Robby Dickenson; captain elected was Billy Coggin; secretary-treasurer was Mike Adams, and bulletin chairman, Rickey Mims.

The Buffaloes will meet the Rotan Yellowhammers this Friday night at 8:00. The game will be in Rotan, so follow the Buffs and back them to a victory.

Appointments are now being set up for senior pictures. So seniors be sure and sign up. The photographer will be here October 3.

## SCALE STEPPERS TO BUY RECORD PLAYER

The Stanton Scale Steppers made plans recently to buy a record player to make use of exercise records. The group met in the Martin County Library, where Mrs. Richard Payne was named program chairman. Leaves were granted to two members, Mrs. Joe Barber and Mrs. Billy Louder.

An Old Fashioned Country Sale will be held by Xi Epsilon Delta Chapter of Beta Sigma Phi all day Saturday, September 19, at the former Jee Stewart Grocery, 5 miles west of Stanton on Interstate 20. Grab bags, toys, jewelry, clothing, furniture, knick-knacks, etc. will be offered.

## Beta Sigma Phi Activities

Beta Sigma Phi City Council met Monday, September 14, for their first meeting of the new year.

Irene Long, president, called the business session to order. The banquets and book reviews were discussed. The Fall Banquet will be hosted this year by the Rho Xi Chapter on October 22, at the Permian Chateau in Midland. Mrs. Cullen Wilson will be guest speaker on that night, and will speak on lights, lamps, and draperies.

The fall book review will be hosted by Perceptor Mu on November 19; spring book review on March 18, by Mu Lambda; Founders Day Banquet on April 30, by Xi Theta Nu, and Mother - Daughter tea on May 2, by Xi Epsilon Delta.

The Cystic Fibrosis march will be held on September 28, starting at 5:00 p.m. A spokesman from the Odessa Chapter will meet with the members of the various sorority chapters on that afternoon, and will brief them on the drive.

On the night of September 25, at the football game here, members of the Beta Sigma Phi chapters will be stationed at various places inside the football field grounds, and will take donations for the Cystic Fibrosis Crusade.

Several other businesses were discussed and tabled for a later city council meeting.

The meeting was adjourned with the closing ritual and mizpah being repeated by members of the city council.

Mu Lambda Chapter of Beta Sigma Phi met Monday, September 14, for their first meeting in the home of Bonnie Faye Sorley. The meeting was held in honor of the three rushees present: Billie Pinkerton, Margy Douglas, and Dixie Brooks.

A salad supper was served to the members and rushees before the traditional business meeting held for the rushees.

Gene Nowlin gave the city council report, and told the chapter about the Cystic Fibrosis Drive being sponsored by the city council with all the chapters participating.

The area convention to be held at Marfa the 9th, 10th, and 11th of October, was discussed and literature was handed out on the business meetings.

Peggye Sorley handed out the yearbooks, and explained several new changes in the programs this year. The books are organization books with different sheets added for the Mu Lambda Chapter use. These books were voted on by the chapter to be sold as a ways and means project. Any member of Mu Lambda will be selling them for \$1.50 per book.

Carol Anderson, ways and means chairman, announced that a rummage sale was to be held September 26. She told the chapter that a place would be found to hold the sale, and it would be discussed at the next meeting.

The business session was then closed, closing ritual and mizpah was repeated by members: Carol Anderson, Peggye Sorley, Judy Thompson, Bonnie Faye Sorley, Gene Nowlin, Maxine Kelly, Polly Atchison, Dorothy Smith, and the three rushees.

Perceptor Mu Chapter of Beta Sigma Phi held a beginning day salad supper recently at the home of Mr. and Mrs. John Roueche, 710 North St. Mary Street. Yearbooks were distributed by Mrs. Stanley Reid, program chairman. Mrs. Reid gave a brief resume of program assignments. Mrs. Leo Turner, ways and means chairman, reported that tentative plans have been made for several fund raising events.

# Warm Fresh Air

... direct from the manufacturer

Natural gas is the healthiest, most economical way to heat your house this winter. Gas is economical because it's the direct way to produce heat — you don't pay to convert heat to another energy source and then back to heat. And with gas you can afford to bring clean outside air into your home this winter instead of having to re-heat the same old stale air time after time.

So, if you're building or remodeling, be sure to specify gas heating. Gas is the "natural" fuel. It's like buying direct from the manufacturer. Call your heating contractor, plumber, or Pioneer Natural Gas.

## PIONEER NATURAL GAS COMPANY

# The Launching Pad

By NEAL ESTES

Friends of CECIL BRIDGES, retiring manager of Texas Electric Service Company, this city, will be delighted to learn that he is reported recovering nicely from surgery performed in a Big Spring hospital last Wednesday and is expected home anyday now. CECIL was scheduled to leave TESCO on October 1, but was forced to respond to surgery when an emergency arose. Some of CECIL'S friends have been working on plans to bestow the honors on him he so richly deserves for his accomplishments as an area civic leader. BRIDGES has been a leader in his church, in Lionism, Boy Scouting, and Chamber-of-Commerce work for decades. He has spearheaded many worthwhile projects in our community and has truly been a wonderful local leader and first rate citizen.

It pays to advertise! Just ask the owners, managers, and all the help at the Chuck Wagon Cafe in Stanton. After opening up for business in Stanton and authorizing the publication of only one advertisement, the Chuck Wagon, has been doing business like an old business trooper. Last Friday night, after the football game, the editor personally counted twenty-seven automobiles in front of the cafe and people were swarming all over the inside of the building. GEORGE CURRIE, a next door neighbor to the Chuck Wagon, said the restaurant people didn't get to close up and go home until after midnight. The cafe announced that formal opening for Thursday of last week and the place has been crowded ever since. Yes, it pays to advertise, when you place your ads in the "OLE RELIABLE."

MRS. MARVIN STANDEFER is taking over the chairmanship of the Cancer Crusade in Martin County. She has succeeded TOM ED ANGEL. MRS. STANDEFER has entered her new assignment with enthusiasm and with a deep feeling of responsibility. She is mindful of the vital importance of the crusade she is to lead in the future in our community. In talking with her, the editor gained the impression that here was a lady truly dedicated to head a splendid cause—a person full of praise for the fine leadership exemplified by TOM ED and other chairmen before him, and an individual ready to mobilize all influences to make future fund raising drives successful events so that someday, with the continued support of research projects, the formulae for the prevention and cure for cancer might be forthcoming. Congratulations MRS. STANDEFER!

The 1971 model Mercury cars and the 1971 Fords will be displayed in Stanton Friday at WHITE MOTOR COMPANY. In this issue of the newspaper, B. WHITE, local Ford dealer, has extended an invitation to the friends and customers of the automobile firm bearing his name to come in and see the new cars.

Coach BILL YOUNG of Stanton High School is to be congratulated for advocating the Fellowship of Christian Athletes program. The new coach likes to win football games but he also wants to win men for Christ in the process. Coach YOUNG is not unlike TOM LANDRY head mentor of the Dallas Cowboys, in heading the FCA work in Stanton.

In the last issue of the paper a story appeared concerning the collection of money to fight the boll weevil situation in Martin County. Some of our readers gained the idea that the weevil program had been terminated. No such thing. The headline or caption over the weevil story caused some misunderstanding. It read: "Money is still needed to be sure that the weevil problem does not spring up in the future."

MAYOR J. C. EPLEY has proclaimed Sunday, September 20, as WILLIAM H. UHLMAN DAY in Stanton. The tribute is a genuine gesture to express appreciation for a good man and minister. REV. BILL UHLMAN is a man of deep understanding and he has been my personal friend and a friend of many in our community. He does not dispense the dialogue and doxology of the dissidents. His sermon topics rests solidly upon the scriptures. There is no diversion from the guidelines set down in the Bible in BILL UHLMAN'S prepared pulpit deliveries. He is truly a disciple of spiritual dividends and the merit of his words and weight of his wisdom consistently draws admiration and appreciation from his congregations. There is not a petty thought in his mind at anytime. He finds no favor in criticism. His preaching rubs off easily on any individual hungry for spiritual help and assistance. Brother UHLMAN is a man of kindly affection toward his family and his fellowman. He is truly a man of God and all of us are fortunate in having him in our community.

## Forsan - - -

(Continued from page 1) of her freshman class, vice-president of the Pep Squad, and was Senior Favorite of the 1969-70 Forsan High graduating class.

She plans to study business administration at HCJC, and after graduation would like to attend Texas Women's University in Denton with an eye on becoming a secretary.

Other action at the annual meeting included electing C. Ray Russell of Garden City, as director for District 4 in

the Cooperative to replace Mrs. Lee Castle who is retiring after 31 years on the board; incumbent D. W. McDonald of 811 W. Storey St., Midland, as District 9 director, and incumbent Paul Adams of Ackerly, as District 5 director.

Bill Sarpalius, past president of Texas Future Farmers of America, was keynote speaker for the event. He spoke on patriotism.

The board also honored O. B. Bryan, manager of the Cap Rock Cooperative, with a plaque for 30 years service. He

The 1971 Ford LTD is highlighted by this new front end treatment featuring a forward-thrusting center grille section and dual exposed headlamps. This LTD two-door Brougham includes a new, standard high back bench seat which eliminates the need for separate headrests. Ford's new side impact protection system, flush door handles, concealed windshield wipers and a new two-tiered, coved instrument panel also are standard features of the 1971 Ford.

## White Motor Co. Displays New Cars

Ford Division's 46 models in six car lines for 1971 range from the all-new Pinto, and hot-selling Maverick in the economy market, to the restyled Ford, and elegant Thunderbird. And the most completely changed Mustang since this car started it all in 1964 will kindle anew the interest of sporty compact buyers.

"1971 stacks up as nothing short of a vintage hardware year in the auto business," says John Naughton, Ford vice president and Ford Division general manager. "Our product line-up not only includes a new entry in a new size for us, but exciting changes in Mustang and Ford as well. This significant investment in new design and engineering changes should add real momentum to recent indications of an upturn in auto sales."

"The action in '71 is bound to be in the small car arena," Naughton says, "and our little Pinto is going to be right in the thick of the donnybrook. Combined with Maverick in both the two-door and new four-door version, we've got a one-two small car punch that gives us the strongest entry in the industry in this increasingly important market."

**PINTO**  
Pinto sports the flair and style of its stablemates, Mustang and Maverick, while targeting in directly on the size and economy characteristics of the leading imported cars it was created to challenge. This smallest of the domestic sub-compacts is four inches longer, eight inches wider,

and seven inches lower than the leading import. But Pinto — the car that looks small and feels big—offers considerably more interior room than the leading import along with better comfort, roadability and maneuverability. Like the imports, Ford stylists have created a design that is expected to remain unchanged, eliminating changes for the sake of change.

"The Pinto we're introducing this year will look essentially like the Pinto we expect to sell in 1975," Naughton said. Pinto will be powered by a standard four-cylinder water-cooled engine with a displacement of 1600 cubic centimeters (97.6 cubic inches) and a horsepower rating of 75. The front-mounted overhead valve engine, built by Ford of Britain, has been proven by years of use over millions of miles in the popular Ford Corolla and Capri cars. This engine has delivered more than 25 miles per gallon in simulated city-suburban driving.

As an option, Pinto offers a new 2000-cc (122 cubic inches) overhead camshaft engine designed specifically for Pinto. The powerplant delivers 100 horsepower. The overhead cam engine is built in an ultra-modern Ford engine plant in Germany.

Standard transmission on the Pinto is a fully synchronized, floor-mounted, four-speed gear box. The optional engine will be available only with an automatic three-speed transmission until December when it also will be available with a four-speed manual transmission.

## Veterans Administration

Some 172,909 veterans of the 3,180,457 veterans receiving disability compensation or pension from the Veterans Administration are from Texas. Of these 111,793 are receiving disability payments for service-connected reasons, and 61,166 for reasons not related to military service, according to Jack Coker, director of the VA Regional Office in Waco, who cited statistics made available today based on June 1970 reports.

Nationally, 2,091,466 veterans receive payment for injuries or illnesses relating to their military service.

Of the 168,772 Vietnam era veterans receiving compensation or pension, 10,664 are from Texas, and 13,686 of the 264,850 Korean Conflict veterans are from this state.

Most veterans receiving compensation and pension are from World War II — 1,786,638 nationally, of which 98,543 are from Texas.

Because World War I veterans are now reaching an average age of 76, most who receive payments do so because they performed military service and are not disabled, rather than for service-connected disabilities — 685,889 to 84,595 and, 35,714 to 3,908 in Texas.

An additional 185,363 veterans who served in other periods, including 10,384 from Texas, receive VA compensation because of service-related illnesses or injuries.

Some 1,850 persons attended the meeting held at Stanton High School football field.

## Cotton - - -

(Continued from page 1) gaged in the feed, seed, and fertilizer business in Stanton, voiced optimism over the cotton crop outlook but was cautious about the factors that could change the yield total as much as ten thousand bales if any unfavorable conditions spring up.

The weevil conditions in the county are extremely good at this time but a sudden surge could always surface before the current crop is gathered.
