Variety

By NEAL ESTES

The colder weather struck Stanton sharply Tuesday afternoon and most of us had no advance notice of the coming of the cooling breeze. Some raindrops hit the ground with a slow, measured thud but moisture was not one of the changing weather patterns ingredients. Blankets were brought from storage closets early and they helped chase the chill from beds. Wednesday morning found residents wearing heavy clothing.

A good book is good company anytime but it has always seemed to me that the reader appreciates the content of an interesting novel more on a winter-type evening. I found time to re-read a chapter or two of the late SHINE PHILLIPS novel, "Big Spring" on Tuesday night. The reference concerning rabbit drives reminded me of the first such drive I participated in. My experience was first gained on the HOUSTON property south of Stanton in Glasscock County. The drives, once held frequently, seem to have faded from the scene in recent years. The drives were held to keep the big jackrabbits from eating up the crops.

Perhaps all Texans were pulling for the Texas Aggies the past Saturday night when they took a 20-18 victory from Louisiana State's Tigers in Baton Rouge. It was one of the best games I have listened to in a long time and when A&M racked up the deciding points with 13 seconds left on the clock in the final period, the fans went wild in the stands down in the Pelican state. There is no sweeter music in the land to the ears of an Aggie than their famed stirring War Hymn. I'll admit the song sounded pretty good to this Texas teasipper Saturday night.

The high fashion in women's clothing these days of course, is the midi. Mini skirts and dresses are strictly out of style this season, according to the experts. Some women, however, are hedging by purchasing the new pants suits. Hemlines on the new midi skirts break at midcalf or just below the kneecap.

The temperature in Stanton Wednesday morning registered 44 degrees. This reading represented a drop of about 30 degrees in less than 24 hours. Rains, not big rains, came in 18 area cities but none of these had showers of over an inch.

The big three political races in Texas to be decided in the November general election, have started picking up power. Former Texas governor JOHN CONNALLY, a visitor to Abilene Tuesday, predicted close races between GEORGE BUSH and LLOYD BENTSEN for the U. S. Senate, and PRESTON SMITH and PAUL EGGERS for the governorship. In the third major state race, BYRON FULLERTON is opposing BEN BARNES for the lieutenant governor's place.

ANNOUNCEMENT

On Tuesday, September 29, the Martin-Glasscock Neighborhood Center will hold a meeting at 8:00 p.m. for the purpose of electing new board members, and the introduction of the new director for the center. The public is cordially invited to attend this meeting.

Local Couple Named To Area Theatre Board

Mr. and Mrs. Paige Elland have been appointed to represent Stanton on the newly organized Area Advisory Board of the Midland Community Theatre.

They join leading citizens and community theatre supporters from nine other Permian Basin cities on the new board.

George F. Harley, president of the Midland Community Theatre board of governors, explained that the advisory group was organized to help develop MCT into a regional theatre whose programs could be enjoyed by a larger number of West Texans.

Board members will meet semi-annually in Midland to advise the theatre governors on items of policy, membership, and programming as they affect each member's community.

The Midland Community Theatre, which gained wide prominence by representing the United States as an international amateur theatre festival in Monaco several years ago, will celebrate its 25th anniversary next April. It produces 6 plays each year on a regular program plus five plays for young people, a Junior Matinee series for children, eight classes per week in a Theatre School, a summer melodrama and one to three extra shows each year.

The theatre's managing director, Art Cole, is past president of the Southwest Theatre Conference, and the American Community Theatre Association.

Other members of the Advisory Board are Dr. Dean F. Dukerksen of Fort Stockton, Dr. and Mrs. James Gossett of Rankin, Mr. and Mrs. Jeff Halberstadt of Odessa, Leonard Hough of Big Lake, Mr. and Mrs. Joe B. McShane of Monahans, Dr. and Mrs. Pete Rhymes of Big Spring, Mr. and

YEARBOOKS ARE FUN — Stanton High School's yearbook staff gets a little fun out of putting together this year's yearbook. Staff members, from left, are Gayle Haggard, Lyn Herzog, Sandy Chandler, Polly Creech, Curtis Flanagan, and Walt Haislip.

Tulsa Firm Plans Howard Producer As Martin County Gets Extender

National Associated Petroleum Co., Tulsa, Okla., scheduled No. 1 John Quinn as a 3,600-foot prospector in west central Howard County, six miles west of Big Spring.

It spots 1,980 feet from south and 660 feet from east lines of section 27, block 34, T-1-S, T&P survey, 1/2-mile west of a depleted San Andres discovery and 1 3/4 mile southeast of a San Andres strike, but separated from it by a Spraberry failure.

The Spraberry Trend Area production in Martin County was extended 1/2 mile south with completion of Adobe Oil Co. of Midland, No. 2 Williams, 12 miles northwest of Stanton.

It was finalized to flow 233 barrels of water daily, through a 16-64-inch choke and perforated interval at 7,950-8,335, which had been acidized with 4,500 gallons and fractured with 80,000 gallons and 240,000 pounds.

Drilled to 9,020 feet, it has 5 1/2-inch pipe set at that depth.

The extender spots 1,320 feet from south and west lines of section 46, block 37, T-1-N, T&P survey.

Adobe Oil Co. filed application to drill three more projects in the Martin County portion of the Spraberry Trend Area.

No. 1 Howard, 1,320 feet from south and west lines of section 38, block 37, T-1-N, T&P survey, eight miles northwest of Stanton and 1/2 mile south of the nearest completed well, is slated to 9,150 feet.

No. 2 Fortune, 1/2-mile west offset to production, is 1,320 feet from south and west lines of section 32, block 36, T-2-N, T&P survey, 13 miles northwest of Stanton. Scheduled depth is 9,150 feet.

No. 4-D Sale Ranch, 1,320 feet from north and west lines of section 11, block 37, T-1-N, T&P survey, 11 miles northwest of Stanton, is 1/2 mile north and west of production, and is scheduled to 9,200 feet.

Western States Producing Co. of Midland, completed No. 1 Cross as a 1/2-mile east extension to the Martin County portion of the Spraberry Trend Area, nine miles northwest of Stanton.

On 24-hour potential test, it flowed 227 barrels of 36-gravity oil and 36 barrels of water, through a 20-64-inch choke and perforations at 8,027-8,930 feet. The producing section had been treated with 3,500 gallons of acid and 80,000 gallons and 180,000 pounds of sand.

Drilled to 9,100 feet, and plugged back to 9,049 feet, it has 4 1/2-inch casing set at 9,099 feet.

It spots 1,320 feet from south and 1,170 feet from west lines of section 36, block 37, T-1-N, T&P survey.

John L. Cox of Midland, completed No. 1-D Meek as a 1/2-mile south extension to

the Playa part of the field, five miles east-northeast of Stanton.

On 24-hour potential test, it pumped 96 barrels of 38-gravity oil, with gas-oil ratio of 725-1, through perforations at 6,704-8,239 feet, which had been fractured with 130,000 gallons.

Drilled to 8,300 feet, it has 4 1/2-inch casing set on bottom. It spots 1,980 feet from south and west lines of section 3, block 35, T-1-S, T&P survey.

RK Petroleum Corp., of Mt. Carmel, Ill., staked site for No. 1 Glen Cox, 1/2-mile east and slightly north of a recent 1 1/2-mile north extension to the Martin County portion of the Spraberry Trend Area.

Drill site, two miles southeast of Tarzan, is 1,620 feet from south and west lines of section 30, block 37, T-2-N, T&P survey.

John L. Cox of Midland, No. 1 Kenneth Cox, completed Aug. 2, as a 1 1/2-mile northwest extension to the pool, spots 1,320 feet from south and west lines of the above section, rather than south and east lines as previously reported.

The Midland County portion of the Spraberry Trend Area was extended 3/4-mile west and slightly south with completion of John L. Cox, of Midland, No. 8 Buchanan, 10 miles southeast of Midland town-site.

It was completed to pump 81 barrels of 40-gravity oil and 10 barrels of water per day, through perforations at 7,257-8,865 feet, which had been fractured with 130,000 gallons. Gas-oil ratio measured 833-1.

It is 990 feet from north and east lines of section 34, block 37, T-2-S, T&P survey, (L. A. Webb SF 6098).

Joseph G. Kluthe of Midland, plans No. 1-C Golladay as a 1/2-mile west offset to production in the Azalea (Grayburg) field of northeast (Continued on page 6)

Alsup Motor Company To Show New Cars

The new line of 1971 Chevrolet passenger cars and trucks will be displayed at Alsup Chevrolet in this city on Tuesday, September 29.

Announcement of the new car showings, along with some of the new model trucks, was made this week by G. W. Alsup, owner of the firm bearing his name in Stanton.

The Vega member of the 1971 Chevrolet family was previously presented to the public in an individual premier.

General Motors is currently the strike victim of the automobile workers union but negotiations are proceeding and the production stoppage is expected to be shorter than originally anticipated.

An advertisement appears elsewhere in this issue of the newspaper concerning the presentation of the 1971 Chevrolets.

Alsup Chevrolet invites all old friends and new ones to come in and view the new model cars and trucks.

Bufs Looking For First Win On Home Field

The Stanton High football team will meet one of the top AA teams in West Texas when they tangle with the Frenship Tigers in the local stadium Friday night.

Frenship has swept to two easy victories with a 54-0 win over Lubbock Christian, and a 49-0 whitewash of a good Morton ball club. Neither opponent was able to cross midfield. On the strength of these two games, Frenship has moved into the eighth slot in the statewide ratings.

The Tigers start an offensive unit of nine seniors, and two juniors. Their strongest back is 190 pound Joe Rogens. His 205 pound brother, Jake Rogens, is a stand out at end.

The offensive lineup for Frenship:

LE, 85, Jake Rogens, 205, senior; LT, 61, Gaston 195, senior; LG, 65, Hurley, 170, senior; C, 69, Tayler, 155, senior; RG, 55, Wright, 180, senior; RI, 58, Ontiveroz, 215, senior; RE, 80, Burnam, 190, senior; QB, 10, Morris, 165, senior; HB, 25, Strong, 180, senior; FB, 40, Joe Rogens, 190, junior, and HB 21, Queillar, 160, junior.

The Frenship team operates most of the time from a basic T, with emphasis on their ground game. Their quarterback, Morris, has been very effective on option plays.

Coach Bill Young, Stanton coach, reports his squad came through their Rotan game without any significant injuries. He feels Frenship could be the best team his youthful Bufs will face.

Kickoff time is 8:00 p.m.

Thank you and your staff once again.
In His service,
W. H. Uhlman.

Coahoma Team Defeats Local Junior Eleven

The Stanton Junior High football teams met the Coahoma Bulldogs here this past Thursday night in their first game of the season.

The seventh grade teams fought tooth to nail with Coahoma coming out victorious over the Buffaloes by a score of 6 to 0. The eighth grade teams played the next game (Continued on page 6)

FHA INITIATION — Officers of the Stanton Chapter of the Future Homemakers of America are, from left, Zanna Angel, vice president; Judy Mims, president, and Diana Payne, parliamentarian. Several freshmen were initiated into the organization at a recent banquet at Stanton High School. They are Angela Hinojosa, Pam Hazlewood, Cheryl Bradshaw, Barbara Trimble, Darilyn Stewart, Trica Shoemaker, Janie Barrera, Mary Barrera, Debbie Payne, Nancy Glynn, Gloria Bryant, Mirta Rivas, and Mary Ann Sandoval. Junior degrees were conferred by Diana Payne on Trica Shoemaker, Molly Adkins, and Kathy Decker. Mrs. Florence King is the chapter adviser.

PREMIUM FOR FIRST BALE — Wallace Kelly, well known Martin County farmer and stockman, who recently brought the first bale of cotton to Stanton, is pictured receiving a check in the amount of \$304 from Chuck Elmore, president of the Martin County Chamber of Commerce. Looking on is Bob Deavenport, vice-president of the chamber. The premium check compared favorably with the amount of money raised in the past at the Chinese auctions conducted for the purpose of collecting an appropriate purse for presentation to the grower for the first bale of cotton in Martin County.

Shower Honors Miss Bradshaw

Miss Mary Bradshaw, bride-elect of Richard Martel, was honored with a miscellaneous shower, September 10, in the home of Mrs. R. S. Lewis.

Hostesses were: Mrs. Claud Glaspie, Mrs. Sid Cross, Mrs. Kenneth Holcombe, Mrs. Billy Mims, Mrs. R. R. Hazlewood, Mrs. Cliff Hazlewood, Jr., Mrs. Earl Creech, Mrs. Lila Flanagan, Mrs. James Biggs, Mrs. G. P. Harrell, Mrs. M. Bohanan, and Mrs. R. S. Lewis.

Serving in the house party were: Jo Mims, Judy Mims, and Cheryl Bradshaw. The honoree was presented with a corsage of her chosen colors, yellow, lime, and avocado.

Miss Bradshaw and her fiancé plan to be married October 3, in the First Baptist Church.

County Agent's Column

By BILLY REAGOR
County Agent

A cotton harvesting machine is a boon to modern farmers, but like anything with dangerous moving parts, it should be treated with respect.

There is potential danger in every drive belt, conveyor or pulley on a cotton stripper or picker, reminds County Agent Billy Reagor.

Shields on machines are put there for a purpose—to protect the men working around them. When they must be removed for repair work, they should be replaced immediately, he points out.

Reagor cautions that no machine should be worked on while it is operating. Disengaging the gears could prevent many costly accidents at harvest time.

A small spot of grease on the machine or sole of a shoe can result in a serious injury and can be avoided if the machine is kept clean at all times.

Fire, points out the agent, is also a major hazard in the cotton field, and a dry chemical type or CO2 fire extinguisher should be on every machine. It is also important to be sure that the spark arrester is in place on the exhaust pipe, and that matches and smokes are kept out of the cotton.

First medical school in America opened in Philadelphia in 1765.

Mrs. Standefer Presides Over Cancer Society

Mrs. Marvin Standefer presided when the Martin County Unit of the American Cancer Society met recently in the Martin County Library.

The program consisted of a talk by the District 2 Director from Midland, Charles Miller. Miller told of the past year's work, and of new film that is available. He also awarded Mrs. Standefer, current president, and former crusade chairman, a certificate from the National Office, saying, "For Bettering Our Best."

Tom Ed Angel, former president, was made a member of the district advisory committee, and presented with a certificate. Martin County residents reached 28 cents per person, and raised more money than ever before. Martin County is one of two counties in all that district who bettered their best.

Mrs. Standefer gave reports on Jimmy Rivas, the boy from Tarzan that has been aided by the society, also Mrs. Clyde Morris, who is now in a Galveston hospital. Contacts were made by the society for Mrs. Morris before leaving.

Plans were made to have the Cancer Mobile Unit at the County Barn for the Capon Show in November, also for the Livestock Show in January.

Mrs. Glenn L. Brown, vice-president, will have an educational film for the next meeting in October. Six members were present.

Midland Club Will Sponsor Annual Musical

"Septemberfest," Midland's

Refreshments of watermelon, cokes, and cake were served to the members.

Rho Xi Chapter of Beta Sigma Phi met in the home of Mrs. Bill Stone Thursday evening, for their second regular meeting. Eleven guests and ten members were present for a get acquainted party. Guests included the following:

Beth Black, Donna Boyce, Mary Deitiker, Loyce Fincher, Bonnie Franklin, Loyce Laxson, Melba Luna, Sandra Pinkerton, Clara Steward, Robbie Tollison, and Nancy Yates.

The theme "Happiness is Rho Xi" was carried out in the decorations by the use of "Peanuts" characters, and also in the table service for a salad supper.

Mu Lambda Chapter of Beta Sigma Phi met Monday, September 21, in the home of Maxine Kelly. President Gene Nowlin presided.

It was announced that the chapter will sponsor a rummage sale Saturday, September 26. Several other business were discussed by the chapter and tabled for a later date.

The chapter elected their Valentine Sweetheart, and will announce the winner at the next meeting.

The program on "Speech" was given by Bonnie Faye Sorley. She stressed the need for relaxation in giving a speech. Other things she pointed out were speaking distinctly, good topic for a speech, knowing something about your topic, and the necessity of using words according to your audience. The chapter joined in on several questions asked, one being "What is a bore?"

The meeting was adjourned with the closing ritual being repeated by members: Gene Nowlin, Bonnie Faye Sorley, Peggy Sorley, Judy Thompson, Crystal Webb, Polly Atchison, and hostess Maxine Kelly.

popular annual open-air musical entertainment, comes Saturday evening, (Sept. 26) on the grounds of the Museum of the Southwest.

The fun-fest will be held from 8 until 11:30 p.m. Tickets, priced at \$2, have gone on sale at the Midland Chamber of Commerce and Gibson Discount Center, and will be on sale at the gates of the museum on September 26 evening.

There will be "islands" of musical entertainment on the museum lawn, featuring music to suit every taste. There will be a mariachi band, a string orchestra, a jazz combo, a rock group... and more.

The emphasis will be on fun and informality. Popcorn and beverages will be served.

Septemberfest is sponsored by Las Manos — "The Hands" — museum auxiliary organization. Proceeds from the evening will be used to finance projects undertaken by Las Manos during the year to support the museum.

NOW IS THE TIME

TO CHECK YOUR HEATING SYSTEM

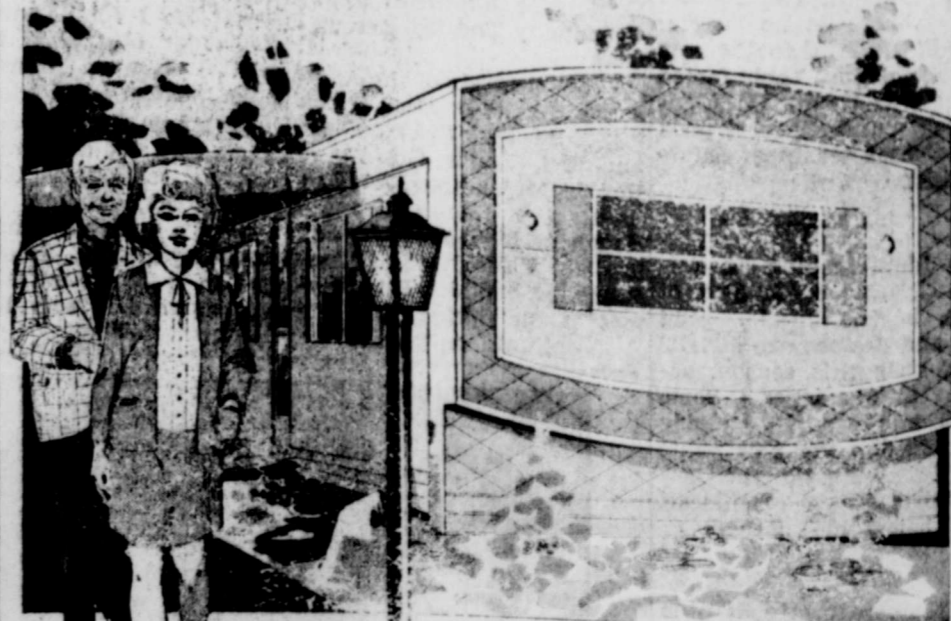

Don't wait until the cold weather is here to see if your heating system is in tip-top shape. Check it now before the first cold snap.

For complete heating service call your plumber or heating contractor. Ask him to change filters, oil the fans, and check the vents. But call early and avoid the rush.

PIONEER NATURAL GAS COMPANY

Now you can own a Total Electric mobile home.

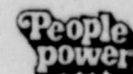

You'll make a sound investment by going Total Electric when you buy your mobile home. Here's why:

Convenience: One connection does it. Electricity does everything — heats, cools, cooks and heats the water.

Comfort: Additional insulation in Total Electric mobile homes lets heating and cooling equipment work with greater efficiency. You get the most in year-round comfort.

Cleanliness: Electricity is flameless clean.

Economy: A Total Electric mobile home qualifies for our low Total Electric rate and assures many other savings.

People Power Service: The good service you get when Texas Electric people listen, find answers and look after the customer's interests. This is how People Power works for you.

LOOK FOR THIS SIGN: It identifies dealers who sell Total Electric mobile homes and parks equipped to serve them. Or call our office or a Total Electric mobile home dealer for additional information.

College ROTC Here To Stay, Pentagon Says

Despite fire-bombings and condemnations from radical groups, ROTC is important to the military and is on the campus to stay—as far as the Pentagon is concerned — a key official said this week.

The Pentagon's manpower chief, Roger Kelley, told a news conference that instead of retreating, the Reserve Officer Training Corps is working toward a better relationship with school administrators, trying to improve its curriculum, and boosting the number of military scholarship.

"We see ROTC as the continuing, primary source of officers. The dissident activity on campus directed toward ROTC has not had the effect of interfering with ROTC objectives," Kelley said. As support, Kelley pointed to

a poll which showed the majority of students in favor of keeping ROTC on their campuses, a separate 4-1 plurality in favor of ROTC at Kent State University.

He asserted the estimated \$1.1 million in damages to ROTC facilities so far has been the work of only a handful of dissidents.

Further Kelley said ROTC will stick by its external symbols such as campus drills and the wearing of the uniform. In the past year, six schools dropped ROTC, while only one campus added the program. All told, Kelley said, some 23,000 new officers were in last June's graduating class at 347 campuses, 24 fewer schools than had ROTC in 1966.

Kelley said in most cases where ROTC was dropped it was because of faculty opposition to the war in Vietnam.

The Ivy League has virtually abandoned the program with Harvard, Yale, Princeton, and Columbia joining schools as Stanford and New York University which have dropped ROTC or are in the progress.

Trade at home and save!

Preston Smith To Visit In Big Spring

Governor Preston Smith of Lubbock, will bring his campaign for re-election to a second term to West Texas Thursday, September 24, at a

supporter reception in the Community Room of the First Federal Savings and Loan Building in Big Spring, beginning at 3:30 p.m.

Governor Smith, the first West Texan to serve in the governor's office in a score of years, is expected to speak briefly, explaining the progress of his campaign.

Prior to arriving in Big Spring, the Governor will be

in Snyder for the dedication of the Mobile home plant. After the reception he will be in Sweetwater for dedication ceremonies of the Texas State Technological Institute.

Supporters from Howard, Mitchell, Martin, and Scurry are expected to attend the Big Spring reception, which is open to the public.

Governor Smith won the Democratic nomination unop-

posed, the only candidate in history to do so.

George J. Zachariah of Big Spring, is directing arrangements for the supporter reception. Mrs. Joe Darden of Coahoma, Jack Buchanan of Big Spring, Morgan Hall of Stanton, and Harold A. Laek of Snyder, are serving as city chairmen for Governor Smith's campaign.

High School News

By KAY HANKINS

In a recent FTA meeting the officers chosen last year were introduced to the new members of the organization as well as to the student body. The introductions were as follows: president, Susan Vest; vice-president, Judy Costlow; secretary, Kathy Linney; treasurer, Jackie Cook, and reporter, Karen Linney. The main highlight of this organization, is the earning of points to gain eligibility for the state meet held each year. This year the meet will be held in Houston.

The FHA officers have also been announced recently. They are president, Judy Mims; vice-president, Zanna Angel; secretary, Jackie Cook; treasurer, Rosalyn Louder; song leader, Betty Anderson; historian, Carol Smith; parliamentarian, Dianna Payne; and reporter, Susan Vest.

Monday marked the date of the freshman FHA informal initiation. The rules were: 1. wear a cute apron; 2. wear a tape measure as a bow in your hair; 3. wear anklet of thread spools; 4. wear a marshmallow ring or necklace; 5. carry contents of purse in shoe box; 6. bow once to old members and twice to officers; 7. recite F-HA song when asked, and 8. don't talk to boys or you will be fined 10 cents.

The formal initiation took place Monday night in the au-

ditorium at 7:00.

Student Council representatives have been selected from each class. In the senior class, Cindy Avery, Steve Fryar, Rickey Mims, and Susan Vest at alternate, were selected. Chosen in the junior class are Judy Costlow, Doyla Doggett, Lyn Herzog, and alternate Don Robinson.

Sophomores are Dwayne McMeans, David Chandler, Cindy Wheeler and alternate, George Franks.

Freshman class includes: Trica Shoemaker, Becky Graham, Dale Henson, and alternate, Debbie Payne. The Council's activities lately have been the sales of "The West Texas High School Football" magazine. They can be purchased from officers of the council for \$1.50.

The Junior class ordered their rings Wednesday, September 23, during activity period. These students will receive their rings sometime before Christmas.

During activity period Tuesday, September 22, the First Southern Assembly of the year was presented. The program was based on aerial maneuvers starting Jerry Smith and Virginia Dolan.

The game this week will be here on our homefield. The Buffs will battle the Freshmen Tigers. Game time is 8:00, so be there and back the Buffs.

Philosopher Says He Knows Why Hurricanes Are Always Given Feminine Names

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw is on his own this week as far as we're concerned).

Dear editor: Somebody who didn't sign his name has sent me a clipping from a newspaper — I don't care whether his name is signed or not but it looks like it'd been just as easy to send me the whole paper — with a note asking me what I thought about it.

The clipping reported that the Women's Liberation Movement is complaining because the Weather Bureau gives female names to hurricanes. In fact, they were doing more than complaining, they were raising Old Ned about it.

"Would like to see what you have to say about this," the anonymous note said.

He, or maybe she, has come to the right source if a fair and impartial answer is wanted, as hurricanes and women are two things I'm no authority on.

However, there are certain characteristics about both a person is bound to detect.

For example, the Weather Bureau will report Hurricane Felice say is headed for a certain point on the coast, reporters and TV people rush there, and an hour later Felice has changed her mind and gone in another direction. You never know where she's going or when she's going to arrive. In the entire history of hurricanes, nobody has ever been able to predict one with any dependability. In the entire history of women... And why do they refer to it as a tropical disturbance before it

becomes a full-fledged woman, I mean hurricane?

I don't want to get tangled up with the Women's Liberation Movement, but would it seem right reading that Tropical Disturbance Albert is headed toward the mainland? Or to take protection against Hurricane Teddy?

No, Celia... Felice... such feminine names just sound more accurate and ominous than Thomas and Donald.

However, on the other hand, there are some male characteristics about hurricanes. For example, you have to clean up after them.

Yours faithfully,
J. A.

PUPILS AND TEACHERS TREATED TO VISIT TO SHRINE CIRCUS

On Wednesday, September 23, the pupils and the teachers of the Martin-Glasscock Daycare Center were treated to a visit to the Shrine Circus held in Big Spring.

Members of the local Shriners made the trip possible for the youngsters. The pupils and the teachers at the Center want to thank these members for the wonderful time that was enjoyed by all.

France's "Legion of Honor" was instituted in 1802.

Germany was the first country to use poison gas in warfare.

Washington, D. C. was selected as the national capital in 1792.

Airplane service was begun between New York and Chicago in 1919.

Girl Scouts were organized in 1912.

1971. You've changed. We've changed.

Worth seeing. Worth owning. Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

See what we mean by putting you first? September 29 at your Chevrolet dealer's.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Plans are complete for the field day to be held at the Soil Conservation Service plant materials center at Knox City Wednesday, September 30, a local conservation leader said today.

Jake Hodges, Bob Cox, and Jack Buchanan, are among those who plan to attend from the Martin County area.

Jake Hodges, SCS District Conservationist at Stanton, said guided tours are planned through the 60-acre center starting at 9:00 a.m. Bus trips will run continually until about 3:00 p.m.

To get to the center, Hodges said, you go north of Knox City on Highway 283 about two miles, then turn left on FM 1292 for two and one-half miles. There are signs at both the turn-off and the center, he said.

Hodges also said Knox City has a new 3,200-foot all-weather runway near the plant center for those wanting to fly to the field day in private or chartered planes. Transportation from the airport to the center will be furnished by the Knox City Chamber of Commerce.

Grass seed dealers, seed growers, conservation district directors, research workers, wildlife enthusiasts, livestock producers, and other interested in the search for better plants are invited to attend. The center serves both Texas and Oklahoma, and a large crowd from both states is expected.

Grasses which are attracting wide interest at the center include a desert strain of sideoats grama; a southern strain of sand lovegrass; a western wheatgrass selected for bottomlands and waterway plantings in west central Texas; a grass called old world bluestem collected from an arid region west of the Mediterranean sea; and a blue grama selection adapted to the redbed soils of western Oklahoma and Texas.

Forbs broad-leaved, herbaceous plants, native legumes, and woody plants relished by wildlife and livestock are also being evaluated at Knox City. Such plants may have great values, especially for deer, turkey, quail, dove, songbirds, and other wildlife when used in mixtures with range and pasture plantings.

Forbs which appear most promising include selections of englemann daisy Maximilian sunflower, bushsunflower, and showy menodora. Legumes under evaluation include trailing wildbean, least snoutbean, prairie clover, and western indigo. Woody plants being grown at the center include

littleleaf leadtree, Texas kid-

Seed or rootstock are collected from promising plants, then are grown and evaluated at Knox City, Hodges explained. Those that show the most promise for solving certain problems are then grown under field conditions on farms and ranches of soil and water conservation district cooperators. Selections that prove they can solve a specific problem other strains available are then released by conservation districts to commercial seed growers. These producers then grow seed and sell it to the public.

A new grass variety, Selection 75 Kleingrass, was certified and released last year as a result of work done at the center in cooperation with the Texas Agricultural Experiment Station. Other grass strains proven and put into use by SCS include: El Reno, Uvalde,

Mrs. C. E. Crow Honored On Her Birthday

Mr. and Mrs. Bob Ragland gave a birthday dinner for Mrs. C. E. Crow on her 81st birthday, September 20 in their home in McCamey.

Attending were Mr. and Mrs. J. A. Wilkes, Sandra and Kevin of Midland; Mr. and Mrs. L. G. Tom, Stanton; Mr. and Mrs. Bill Carnes, Kim and Cara, and Mr. and Mrs. Don Woodley, Troy and Tammie, all of McCamey.

Mrs. Crow's two sons, Bill of Bedford, and Harold of New Orleans, Louisiana, called to wish their mother a happy day.

and Vaughn sideoats grama; King Ranch bluestem; green sprangletop, and Greenville switchgrass.

Hodges said SCS plant materials work developed ways to harvest and plant most of the range grasses being planted in Texas and Oklahoma today.

Some of the groups who cooperate with SCS in its plant materials work in Texas include Agricultural Research Service, Texas Agricultural Experiment Station, Texas A&M University, Texas Tech University, Prairie View A&M College, Abilene Christian College, U. S. Air Force, U. S. Corps of Engineers, Texas Parks and Wildlife Department, and soil and water conservation districts.

HD Club News

The Martin County Home Demonstration Council met Tuesday, September 15, in the library. Mrs. Dwain Ory presided over the meeting.

The purpose of the meeting was to discuss the various activities of the different Home Demonstration Clubs. Several other businesses were discussed before the board of the council. The next meeting will be held October 8.

The Koffee Kup Home Demonstration Club was hostess to a senior citizens' party held at Cap Rock Auditorium last Tuesday, September 15. Approximately 30 were in attendance for games, dominoes, and singing. The next party will be October 20, with all senior citizens welcome.

Members of the Koffee Kup Club include: Anita Johnson, Patsy Odom, Mickey Lander, Barbara Bowlin, Jo Jon Cox, Jean Doyle, Faye Fleckenstein, Jimmie Hopper, Jo Ann Henley, Peggy James, Virginia Morrow, Kay Simpson, Torchy Swinson, Melba Webb, and Joyce Jones.

HD Club News

The Lakeview Home Demonstration Club held a meeting September 17, in the home of Mrs. W. D. Bryant.

The members met at 10:00 to work on a project, and then at noon a salad luncheon was enjoyed with each member bringing a salad.

Mrs. Alfred Franks, president, called the meeting to order with the club prayer. For devotion, Mrs. Bryant read a poem, "The Gift of Friendship," by Helen Rice.

Delegates, Mrs. E. P. Madison and Mrs. W. J. Harlowe, gave council reports, stating that November 12 was voted "Achievement Day." Members were appointed to various jobs.

The club voted on the year book changes.

The next meeting will be October 1, in the Texas Electric Reddy Room, with Mrs. Alfred Franks as hostess. Reports from the FHDA will be the program.

Explorer I, the first satellite put into orbit by the United States, weighed 30.8 pounds and was launched Jan. 31, 1958.

The British coronation chair in Westminster Abbey has a seat of stone — the Stone of Scone.

Quail Hunting Due To Be Good, Not So Good

Natives have scattered wildlife across wide areas of West Texas and the Panhandle this year, especially bobwhite and blue quail. Some areas are due to have good hunting, some not so good.

Wildlife biologists of the Texas Parks and Wildlife Department usually are cautious about forecasts and predictions of quail populations until all census information has been compiled and analyzed. This year is no exception. Census data bear out the need for careful study before saying the hunter is in for either a good or bad year when the season opens.

In some counties of the upper Panhandle the quail crop is down as much as 44 per cent, while farther south the population appears to promise another good year. In the

Trans-Pecos region there is a marked decline in a few areas, a fine huntable crop in others.

According to Jack Parsons, wildlife supervisor for the 90-county area of the Department's Region I, portion of the Permian Basin show a five per cent increase over the fine crop of last year, with a few game management officers pinpointing spots where blue quail hunting should be extremely good, bobwhite hunting good, and a few counties with both species showing evidence to a plentiful supply of birds.

Areas that suffered from drought condition during winter and spring months hold little promise. Spots where rains came during the summer have birds enough to make the hunter's trigger finger get itchy.

ANNOUNCEMENT

Mr. and Mrs. J. R. Hopper, Star Route, Stanton, announce the engagement and approaching marriage of their daughter, Brenda Gail, to James Robertson of Tarzan, son of Mr. and Mrs. Ollie Robertson, of Marble Falls. The couple will be married October 16 at Lakeview Baptist Church, Stanton.

Boy Scouts were incorporated on February 8, 1910.

have been placed in file with Martin County.

The State's Relocation Assistance Program, the benefits and services for displaced and information concerning the relocation assistance office will be discussed.

Tentative schedules for right of way acquisition and construction will be discussed. All interested citizens are invited to attend this public hearing. Written statements and other exhibits may be submitted to the Resident Engineer's office but must be received not later than 10 days after the public hearing.

LEGAL NOTICE

NOTICE OF PUBLIC HEARING CORRIDOR (LOCATION) AND DESIGN (COMBINED HEARING)

The Texas Highway Department will conduct a public hearing on October 29 at 10:00 A. M. in the County Courthouse in the Martin County Courthouse at Stanton, Texas, for the purpose of discussing the construction of Farm to Market Road 1212 from the end of existing Farm to Market Road 1212, 6.7 miles northwest of Farm to Market Road 1208, north approximately 8.0 miles to State Highway 176 (FM 87). The proposed highway project is located within Martin County.

The proposed project provides for the improvements of an existing two-lane county road on approximately 100 feet of right of way to provide for current design requirements established by the Texas Highway Department. The location of the project follows the existing route of a paved county road.

Maps and other drawings showing the proposed location and geometric design will be displayed at the public hearing and together with any other available information about the proposed project are on file and available for inspection and copying at the Resident Engineer's office at 2701 Elizabeth, Midland, Texas.

Also, the drawings showing the proposed geometric design

The Launching Pad

By NEAL ESTES

I want to call the attention of our readers and subscribers to a very significant fact this week. The surviving merchants doing business in Stanton these days have consistently used the columns of the "Ole Reliable" to carry their commercial messages to the public through the years. A lot of merchants have come and gone in Martin County in the past five years. The ones, in the main, who have ceased to exist, never patronized the hometown newspaper consistently. Billboards, television, radio, direct mail, circulars, have all failed to bring the kind of results it takes to stay-in-business. So, read the ads, patronize the merchants whose messages are to be found in the "Ole Reliable" week after week. After all, they are the merchants who learned a long, long time ago, that a hometown newspaper is a very good thing to have around. It prints the news of the community free of charge, and week-after-week, the local paper records the history of the community. I wouldn't want to live a minute in a county seat town without a newspaper. Would you?

The "BILL UHLMAN DAY" proclaimed in the city last week by Mayor J. C. EPLEY and concurred in by community leaders and real old-fashioned Christians all over the area, was a distinct success. Messages of goodwill and heartfelt appreciation for the fine things REV. W. H. UHLMAN, pastor of the First Baptist Church, caused to happen in Martin County during the past decade, were received by the family throughout the day. Truly, the UHLMAN tribute was one of deserved admiration and recognition. The editor fully realizes that BILL UHLMAN'S teammate in life, his devoted wife LILLIAN, and their children made his leadership in our community forceful and fulfilling indeed.

The Stanton football team lost another contest in Rotan the past Friday night. The score told the story. This next Friday evening, on the home field, the Bisons tangle with an eleven from Frenship. The visitors will be bringing a powerhouse to town. The lads from the plains country won their outing Friday evening by a top-heavy score. The loyal fans of Stanton are urged to be in the stands when the opening kickoff sails down the field. Back the boys—show them we are all behind them by being present for the encounter Friday evening on the Stanton field.

A regular epidemic of "numbleitis" has invaded the ranks of television announcers. Have you noticed recently how hard some of the announcers are to understand? They are just not talking plain. HUGH DOWNS is the individual with the big guilt thing these days. JACK PAAR once called HUGH down when he was announcing on his old show for "mumbling." DOWNS has always been bad about dragging his voice but these days he is almost impossible. A colleague on a morning tv show, BARBARA WALTERS never could talk plain. She sounds more like a duck quacking than a person talking. About the only way I have been able to understand BARBARA is by resorting to lip reading.

Oil . . .

(Continued from page 1)

Midland County. Drillsite for the project, slated to 4,150 feet, is 1,980 feet from south and west lines of section 12, block 38, T-2-S, T&P survey, five miles east of Midland townsite.

Roanoke Oil & Gas Corp. plugged and abandoned at 3-265 feet, Glascock County No. 1 Ina Anne Ratliff, wildcat 1-960 feet from south and 660 feet from east lines of section 186, block 29, W&NW survey, 14 miles south of Big Spring.

Stanton Coaches Introduced At Lions Meeting

The Stanton Lions Club met Tuesday at noon for their regular weekly meeting. J. R. Dilard presided, and introduced the guests, coaches Jackie Burns, Don Goodrum, and Tommy Gregory.

Coach Bill Young was guest speaker, and was introduced by the program chairman, Richard Payne. Young discussed briefly the Stanton athletic program, emphasizing how adult friends, as well as parents, can aid the players by visiting with them on the street and in the home, and encouraging them to attend church services.

Jimmy Conner introduced Joe Neel, a Stanton teacher. The Lions Club Teachers Appreciation Night will be held Monday September 28, at 7:30 p.m. at the Cap Rock Auditorium. The teachers and their spouses will be guests of the Stanton Lions.

Guest speaker for the occasion will be the Rev. Don Timberlake, a well known speaker, and pastor of the Oak Street Baptist Church in Colorado City.

AWARDED PLAQUE — Alsup Chevrolet Company was the recipient of a plaque presented to the local motor company by W. E. Albers, assistant zone manager of the Chevrolet Division of General Motors in El Paso recently. Claud Nowlin of the Alsup firm is shown accepting the plaque. The inscription on the citation read: "For attaining sales leadership in your area responsibility."

Rotan Chips Buffs In First Road Game

The Stanton Buffaloes battled the Rotan Yellowhammers to a scoreless first quarter Friday night, but the potent Rotan squad exploded to take a 55-13 victory over the locals. Although the rain stopped before the kickoff, the field was well soaked by a one inch downpour shortly before game time.

With 8:50 to go in the second quarter, Rotan's Walter Hargrove connected with end Norvelle Kennedy on a thirty-three yard pass play. Stanton's Jackie Swanson pulled Kennedy down on the two; but the Rotan squad pushed over the touchdown on the next play, and with a good conversion went ahead 7-0. Following the kickoff, the Buffs lost a fumble on their 46; in three plays Rotan scored, with the big gainer being Mickey Early's twenty-five yard scamper. The kick failed, and with seven minutes left before halftime, Rotan led 13-0.

It only took Rotan a half minute to put another six pointer on the board; following the kickoff, the Buffs fumbled on the first play. Early again was the big gainer, with a twenty-seven yard touchdown run. Rotan's kick was wide, leaving the score at 20-0. Rotan's kickoff was short, and Stanton's Gary Kitcher returned it to the Stanton 46. After two incompletions, Stanton got a first down on the Rotan 39, on a pass interference call. Barnhill picked up four yards, then Ray hit Adams for an eight yard completion and a first down on the Rotan 27. Ray then hit Swanson with a fine pass for the Stanton touchdown. After a delay penalty, the PAT failed; leaving the Buffs trailing 20-6 with five minutes to go in the half.

Rotan returned the kickoff to their 36; then used six plays to get their final tally of the half, on a fifteen yard pass play to end Chico Garcia. Hargrove picked up the two touchdowns during the first half, and Odell Smith from the Detective Division of the Midland Police-Narcotic Force. Narcotics and drugs, their problems and effects were discussed by Smith and Moseley. They also discussed the ways to solve these problems, and showed a film on the drug problems.

THE WINNER — Miss Josie Moreno is pictured above after winning the Cap Rock Electric Cooperative scholarship. Miss Moreno is the daughter of Mr. and Mrs. Juan F. Moreno, Garden City Route, Big Spring. She was awarded the scholarship on the basis of her outstanding high school scholastic record.

Cystic Fibrosis Drive Set For September 28

The Beta Sigma Phi City Council will sponsor a Cystic Fibrosis drive here Monday, September 28. The various sorority chapters will be involved with the president of the city council, Irene Long, in charge of the drive. Margaret Hemphill, president of the Permian Basin Chapter of the National Cystic Fibrosis Foundation, will meet at the library with the chapters Monday afternoon, September 28, at 5:00 p.m., to give information and aid in the drive.

On Friday, September 25, at the Frenship - Stanton football game, several members of the Beta Sigma Phi City Council will be stationed at various points at the

appointed in the loss; but he did single out several reserves for praise. He felt that Wilson did well for his first stint as a varsity quarterback, and that receivers Haislip and Standefer made fine catches in heavy traffic.

THE STATISTICS

Stanton	Rotan

4-37.5 Punts & Avg.	3-35
Score By Quarters:	
Stanton 0 6 0 7-13	
Rotan 0 28 21 6-55	

Again Rotan's Hargrove proved a thorn in the Stanton pass offense, as he pulled down another interception and scampered in for the touchdown; the PAT was good giving Rotan a 49-6 margin with 8:45 to go in the third quarter.

The Buffs managed to contain Rotan the balance of the third quarter. With a minute gone in the fourth quarter, Stanton fumbled with Rotan taking over on the Stanton 43. A Rotan pass failed, but again Rotan's Early struck for a TD. The kick was blocked, but the Rotan margin reached 55-6.

The Buffs took the kickoff back to the Stanton 38. On a series of passes by reserve quarterback Rick Wilson, to receivers Walt Haislip and Bubba Standefer, the ground gains by back Steve Douglas and Dwayne McMeans the Buffs punched to the Rotan six. Wilson scored on a roll-out. Glen Ray's conversion attempt was good; putting the score at 55-13. The Buffs contained Rotan for the last six minutes of the game, with neither team mounting a scoring threat.

Coach Bill Young was dis-
