

To The Point

By

BUDDY NORVILLE

I read an article which will interest you Little League fans. Galyn Wilkins, writer for the Fort Worth Star-Telegram, tells about a director of Little League and his experiences with the fans.

It seems as though the people in the stands rode the umpires so hard that they couldn't get anyone to call the plate.

Quoting Wilkins, "The Director was pretty sharp. He obtained an umpire who is deaf."

"It pretty well solved the umpire situation," said the director. "They could scream at him all they wanted, didn't make a hang to him. The coaches still were sore though. One of them was hollering one night, 'foul tips, how's he gonna call a foul tip if he can't hear it? They're having to pay umpires up in Abilene and that's what they'll have to do here. No man's gonna take that abuse for the fun of it."

The Director tells of the effect this hollering can have on the kids, too.

"A super athlete," said the Director. "When he pitched he struck out everybody. Good hitter, too. One night, though, he had an off night. His arm was sore and he walked a couple and hit one kid. He even struck out a couple times. The adults behind home plate—those were always the worst—really nailed him. They yelled about him being washed up. This is an 8-year-old kid! It was a humiliation a kid shouldn't have to take."

Wilkins says that, "the adults simply spoiled the Directors tastes for the minors' leagues."

I never played Little League baseball, because we just didn't have it where I grew up until I was out of school. I have never been associated with the Little League in any way, so I don't have a lot of room to talk. But, is this the way it is in every town. Do fans really ride the Little League like that? If so, shame on them. This game is supposed to build the confidence of the youth, not destroy it. I know how the kids feel when they are hoored and booted by the home crowd. It's not fun, let me tell you. Some kids can overlook these remarks, while some cannot. Why take the chance of ruining some little guy's entire life, when you can encourage him just as easily.

Well, the Little League season is over for this summer, but think about next year. Treat 'em right would you.

There is a firm on the outskirts of Wiener, Texas, which says, "WANTED! 4 INCHES OF RAIN!" People of that area mean it when they say, "We need rain!" I was up that way over the weekend, and things are looking bad. I saw more than one farmer pulling a tank of water to his place. This is just a dry year everywhere. According to Al Smith, Alpine has only had one-half inch of rain this year. That's bad. You know what people used to do when they needed rain? Or anything else. They prayed to the Rainmaker. Let's try it. I'm willing to bet it will work. Amen.

Pug Deavenport Head Cheerleader

Frances J. Deavenport of Stanton, is serving as head cheerleader during the coming term at McMurry College. McMurry College has the participation of students at almost all levels of decision making on campus. Aside from class officers and Student Association Government, students sit on faculty committees, and the President's Administrative Council.

Miss Deavenport's parents are Mr. and Mrs. Bob Deavenport of Stanton. Miss Deavenport is a 1969 graduate of Stanton High School.

Miss Deavenport is majoring in Physical Education, and minoring in English.

STANTON, MARTIN COUNTY, TEXAS 79782 THURSDAY, JULY 22, 1971

6 Pages—Price 10c

State President Meets Farmers

Texas Farmers Union president Jay Naman, organization directors, Kenneth Moss, and Vernon Chandler of District 8, met with members of the Martin County Farmer's Union in Stanton, July 16, to become better acquainted with the thinking of Martin County farmers on various issues of concern to agriculture.

President Naman states that Texas Farmers Union has been instrumental in having a bill introduced by Representative Pickel of Austin, to amend the 1970 Farm Act, so farmers will not be penalized in coming years by having their yields reduced 20 percent each year their projective yield is not reached because of drought or some other natural disaster. Mr. Naman says a farmer suffers enough in the year of disaster without having to suffer for it in the following years because of a lower yield payment.

Mr. Naman requested that area farmers use their organization by letting the state office know of any local problems. The state leadership is often able to bring to the attention of government officials local problems we sometimes consider too small to matter.

Kenneth Moss, organization director, brought plans for the fall membership drive that is aimed at getting another delegate from Texas to the national convention to be held in Houston in early 1972.

Bob Deavenport Honored By Lions

Bob Deavenport was recognized by the Lions Club Tuesday as an outstanding Scout Leader. Charles Elmore presented Bob with a plaque commending him for some 28 years of work with the Stanton Scouts in a leadership capacity. Bob has now officially retired as Scout leader, but still is a great supporter of the Scouting program.

Bob had this to say about his many years of Scouting: "I got a lot more from your boys than I ever gave to them." Bob remarked that he would like to continue as leader, but that "I can't tromp the hills like I used to." He expressed his gratitude to the Lions Club for their support of the Scouting program in Stanton.

A Proclamation By The President of The United States

Primitive man's first discoveries about cultivating the land came by chance, and for thousands of years thereafter agriculture progressed only slowly out of the realm of guesswork. Even in the early days of this Nation, when we were a people of farmers and planters, the process of coaxing life out of the earth remained far more an art than a science. But today American agriculture has become a fully realized technology largely subject to human planning and control—a bountiful producer of food, clothing, and the makings of the good life for America and the world.

Thus there is sharp irony in the fact that this great industry, so accomplished in the scientific nature of plant and animal life, remains among the industries in which human life is most precarious and accident rates are highest. The farm and ranch environment abounds in potential hazards—powerful machinery, exposed working conditions, physically demanding jobs—but experience has shown that caution, common sense, and protective equipment can do much to counter them and keep accidents and injuries to a minimum. All who live and work on America's farms and ranches owe it to themselves, their families, and the nation that depends on them, to put safety first. Let us set the goal of eliminating chance from the rural life just as we have learned to exclude it from agricultural production.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week of July 25, 1971, as National Farm Safety Week. I urge farm families and all in the rural community to make every effort to reduce accidents occurring at work, home, in recreation, and on the highway.

IN WITNESS WHEREOF, I have hereunto set my hand this 7th day of April in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-fifth.

RICHARD NIXON

Fire Damages Hamilton Home

SCENE OF FIRE—The Hamilton house was damaged by fire last Friday afternoon. The house was the site of the first Old Settler's Reunion in 1930.

The Stanton Volunteer Fire Department was called out Friday afternoon to fight a fire at the residence of Mrs. Nobye Hamilton. The fire was under control in forty-five minutes from the time the alarm was sounded. Cause of the fire is not known. Damage is said to be extensive to the upstairs where the fire originated. The downstairs section of the house received some water damage. With the aid of friends and neighbors the furnishings of the house were taken out in time to prevent extensive damage.

The Hamilton house was the site of the first Old Settler's Reunion. The first get-together was held on the Hamilton's lawn on July 14, 1930. Mr. H. Hamilton served as a vice-president of the Reunion in its beginning. The affair was held on his lawn until 1936.

The Fire Department expressed appreciation for all the help given during the fire. They would also like to remind people to give them plenty of room to combat fires. The Fire Department had to have two cars removed before they could get in close enough to fight the fire. This delay was unnecessary. A few minutes could be the difference sometimes in saving a house or losing it. If you follow the fire trucks, please park as far away from the fire as possible.

Scurry Rodeo Cancelled

Due to the embargo on the movement of horses, the 35th Annual Scurry County Rodeo scheduled for July 21 through 24, 1971, will not be held.

Stanton Is Site of Bi-County Meet

In case you have seen some strange faces among the younger generation around town this past week, they were the smiling faces of 4-H Club members from Orange County, Texas. The Martin County 4-H Club has sponsored a bi-county exchange program July 13 through July 20. Twenty-seven boys and girls from Orange County came here by a chartered bus to spend the week as house guests in the homes of Martin County 4-H Club members.

This is the first time in the history of 4-H Clubs throughout Texas that this has been

tried. And as we have all witnessed, it has been a success. It was hard to decide who was the most anxious for the bus to arrive, the 4-H'ers or their parents. These exchanges were set up with the theory of improving understanding of ones self and of others. Each individual can give and also receive new ideas and come to know that each of us, young and old, have a responsibility for the destiny of humanity.

While the Orange County

BIG CATCH — Supt. Russell McMeans, and principals J. M. Yater and J. R. Dillard are shown displaying part of their catch.

School Heads Tell Big, Big Fish Tales

Superintendent of Stanton Schools Russell McMeans, and principals J. M. Yater and J. R. Dillard, attended the Annual Fish Rodeo at Freeport this past week. They reported catching over 200 pounds of fish at the meet.

Their catches included red snapper, spotted mackerel, king fish, bonita, and amberjack. Mr. Dillard's 40 pound amberjack was close to winning the prize. A 600 pound shark, caught and kept by a companion, took the prize.

While attending the three day affair, Mr. McMeans won a first place golf trophy, and Mr. Dillard received two golf trophies.

4-H'ers were in Stanton, they were well entertained. Their week wasn't only filled with recreation, but they all took a place in the home where they were housed as guests, helping to carry out the usual task of running a home. All of the girls exchanged ideas on cooking and sewing; while the boys helped on the farms moving pipes and baling hay.

It was a fun time for the 4-H'ers as well as the parents, for this gave the parents a chance to see what the youngsters accomplished thus far.

This is a list of the Orange County 4-H house guests and their Martin County hostesses. Sharon Simoneaux — Vickie Graves; Becky Stephen — Guadina Hilliard; Terri Hazlewood — Kathy Davis; Karen Kachtik — Joni Latty; Betty Dukon — Tahita Blake; Cheryl Smith — Peggy Barnes; Donna Dorman — Suzanna Brown; Janice Kay McIntyre — Wendy Tunnell; Debra Jean Davis — Carolyn Holloway; Kathy Aubin — Lisa Hopper; Glendian Kanor — Glenda Langston; Patty Jordan — Betty Smith; Patricia Dougherty — Peggy Barnes; Becky Brown — Rhonda Kuhlman; Fran Broussard — Karen Linney; Barbara McIntyre —

Dennis Ireton Will Attend Tokyo Jamboree

Dennis Ireton, son of Mr. and Mrs. Jack Ireton, of Stanton, will attend the 1971 Scout Jamboree in Tokyo, Japan. Dennis will be among 7,800 Scouts from the United States making the trip to Japan. There will be 20,000 Scouts from 100 different nations attending the Jamboree. Dennis will leave Lubbock, July 27, enroute to Anchorage, Alaska.

The Jamboree will be held August 2-10. The Scouts will be taking guided tours of several cities and scenic spots before and after the Jamboree. While in Japan they will tour the ancient capitol of Japan, Kyoto. Other attractions will be Nara, Nikko, and Tokyo. The theme for the meeting will be "For Understanding."

Dennis went to Canyon for a shake-down week-end June

Dennis Ireton

"Granny" Davidson Retires From Walgreens

Edna Davidson came to Stanton with her late husband, Otis Davidson, over forty years ago from Coahoma, The couple had one child, Doylene, who is married to Eugene Baugh here in Stanton. The Baughs have two children, Jerry of Dallas, and Martha Lambert of Stanton, whose husband is Charles Lambert. The Lamberts have four children, Debbie, Randy, Becky, and Doug.

In 1951, two weeks before the opening of Stanton Walgreen Drug, Edna went to work for the store, and helped stock the new merchandise, and assisted in planning the cosmetic department. She worked there for twenty years before illness forced her to retire.

At the drug store Edna picked up the name "Granny," and became known by that name to all the personnel of the store, as well as salesmen who called on the store, and most of the people in Martin County. Edna states that, "The Glenn Browns are like my own children and I love them very much. Stanton Drug was home to me, and it was very hard for me to retire, but it was the doctor's orders. I made many friends at the store. I enjoyed waiting on people, and I will certainly miss all of you, but I will be visiting the store and hope to continue to see you often. Love to all of my customers for the past twenty years and best of luck to all of you."

Edna says since her retirement she plans to rest, watch

Mrs. Edna Davidson

TV, travel as much as she can, and enjoy her great-grandchildren.

In losing Edna, the Stanton Drug owners say they have lost not only "Granny," but their only employee who has been with them continuously since the opening of the store. They would like to take this opportunity as one means of expressing their appreciation to Edna, and to all the employees who have worked with her so faithfully over the years, and also to express thanks along with "Granny" to all the wonderful customers who keep the store going!

Cadet G. Hodges Attending Camp

FT. RILEY, KAN. (AHTNC) — Cadet Gene Hodges, 21, son of Mr. and Mrs. Jake D. Hodges, Stanton, received six weeks practical work in military leadership at the Army Reserve Officers' Training Corps advanced summer camp at Ft. Riley, Kansas, from June 5 - July 16.

Hodges, who is attending Texas A&M University, College Station, is one of more than 13,000 students attending ROTC summer training at six installations in the United States.

The Army ROTC Advanced

Camp is devoted to the practical application of leadership principles. Field training emphasizes the exercise of command and the making of sound decisions under pressure. These lessons reinforce the essential mission of Army ROTC — to provide the nation with young men who have excellent civilian educations, and who voluntarily qualify themselves during their student days for commissions in the Army.

His wife, Kathy, lives at 300-A Ayrshire, College Station.

Area Oil Roundup

Anderson Oil & Gas Co., Inc., Midland, completed No. 1 Bertha M. Stone as a 1 1/2-mile north extension on the east side of the Sulphur Draw (8,790 Dean) field of Martin County.

On 24-hour potential test, it pumped 53 barrels of 38.4-gravity oil and 12 barrels of water, through perforations at 7,387-8,171 feet and 8,709-8,886 feet, which had been fractured with 120,000 gallons and 197,000 pounds. Gas-oil ratio was 1,115-1.

Location is 1,320 feet from north and west lines of section 69, block B, Bauer & Cockrell survey (amended from 1,120 feet from north and west lines of section).

Collier Diamond C. Oils, Inc., Midland, staked No. 1-G

Slaughter as a link well on the north side of the Sulphur Draw (8,790 Dean) field of Martin.

Drill site for the test, slated to 9,200 feet, is 1,320 feet from south and west lines of section 3, block 36, T-3-N, T&P survey, 20 miles north of Martin.

No-O-Tex Corp. completed No. 2 Mary Badgett as a 1/2-mile north and west extension to the Martin County sector of

the Spraberry Trend Area, six miles southwest of Tarzan.

It finished to pump 224 barrels of 40-gravity oil, with gas-oil ratio of 630-1, through perforations at 8,513-9,303 feet, which had been fractured with 80,000 gallons.

Location is 1,320 feet from north and east lines of section 3, block 36, T-1-N, T&P survey.

John L. Cox plans to drill (See Oil on page 6)

EVERYTHING NORMAL

Bell Signs New Contract With Communications Workers

A new three-year contract representing an increased cost of \$386,213,000 was signed Sunday, July 18, by Southwestern Bell and District 6, Communications Workers of America, according to a Monday afternoon announcement by A. S. Alston, president of Southwestern Bell.

The cost in Texas will be almost \$196 million, more than one half of the company settlement expense.

The agreement is part of the nationwide settlement negotiated by the Bell System and the CWA. It is to be effective at midnight July 20. CWA ratification is required by August 14.

The Southwestern Bell-CWA agreement, signed after approximately four weeks of negotiations, covers 57,000 non-management employees in some 900 cities in Arkansas, Kansas, Oklahoma, Texas, Missouri, and a part of Illinois.

The national settlement brings wage and benefit improvements averaging about 31 percent of the life of the contracts.

In the first year alone,

wage and benefit improvements will average more than 16 per cent. The contract calls for additional wage increases in 1972 and 1973, plus cost of living adjustments.

Immediate wage increases under the new contract range from \$4.50 at minimum rates to \$25.00 a week at top rates.

Other major provisions in the contract include improved vacation treatment, a ninth holiday (Washington's Birthday), improved medical benefits and pension plan improvements.

The contract also will permit a "modified agency shop" in two states were allowed by law, Missouri and Oklahoma. Employees in the bargaining unit of those two states would be required to pay dues to the union, whether a member.

(See Bell on page 6)

What's Happening

All Lions are urged to attend the July 27 meeting at the Phillips Cafe. There will be several important items of business to be taken care of.

Farm And Ranch Review

Temik Makes Good Showing
Temik, a new systemic insecticide, is showing excellent results in cotton insect control demonstrations in Bell County. Cotton treated with Temik is producing more squares and larger stalks than cotton subjected to other treatments. However there are problems with the new insecticide including high cost, hazards because of high toxicity, and possible appearance of bollworms or budworm following use of Temik.

Screwworm Situation
The first screwworm case ever to be recorded in Arkansas was confirmed June 29, from a larvae sample collected in Miller County, near Texarkana on the Texas-Arkansas line. Just across the line in Texas, Bowie County had its second case of screwworms confirmed within a week on

July 1. A team of state and federal livestock inspectors is collecting sample and spraying herds in the areas with infestations. Officials of the eradication program urges stockmen to send a sample of any worms found in animal wounds to the Mission Lab for positive identification.

Hot Weather — A Danger To Hogs

Hog producers are urged to take some extra care in handling and shipping their hogs during the hot, humid summer months. Caution should be taken when the temperature reaches 80-85 degrees, and extreme care should be taken when higher temperatures are reached. Poorly ventilated vehicles and crowding if the animals are the first things to avoid.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Some High Plains farmers, with no real hope for producing anything like a normal cotton crop because of extremely poor stands, are faced with a critical decision between now and the August 1 deadline for "certifying" acreage to the Agricultural Stabilization and Conservation Service.

They have two choices. They can apply to county ASCS offices for "failed acreage credit and plow up the cotton, or they can leave the cotton and harvest whatever crop it may produce.

According to Donnell Echols of Lamesa, president of Plains Cotton Growers, Inc., there are at least three factors that should be taken into consideration before the decision is made, including (1) market price prospects (2) possible effect on future payment yields, and (3) the need for maximum production across the cotton belt to meet market demands.

"And it appears to me that when all three factors are considered the odds are in favor of leaving the cotton for harvest if there is a chance for even a very low yield," Echols said.

"The supply-demand situation, current spot market prices, and the future markets all point to a strong demand for all qualities of 1971-crop cotton," he continued, "and with higher market prices it will be to our advantage to harvest every acre we can."

As the regulations now read, the effect on future payment yields where sub-normal crops are harvested would be no different from the effect of cotton acreage declared total failure. In both cases the county ASCS committee is authorized to use up to 80 percent of the farm's 1971 payment yield in calculating payment yields for 1972 and 1973.

However in 1969 farmers who harvested a "piece of a crop" were given the 80 percent adjustment while farmers with failed acreage were allowed to substitute 100 percent of their previous three year average yields. And this is the cause of farmer concern this year.

Echols has investigated the matter and does not believe there is any likelihood this 1969 ruling will be revived. He quoted ASCS Administrator Kenneth Frick as saying "We can't give you an ironclad guarantee of anything, but as of now we can see no reason why one situation should be treated any different from the other, and I can assure you I'll be doing everything I can to see that the man who makes an honest effort to produce a crop gets just as much weather adjustment as anyone else."

On the third factor, Echols said "If we are to retain our present markets and have hopes for market expansion we need to produce every bale of cotton possible from the 12.3 million acres planted across the belt."

Texas Senators John Tower and Lloyd Bensen have a rare opportunity to show their support for Texas agriculture over the next couple of weeks. During that time the Senate will be considering the Agricultural Appropriations Bill

sent to them by the House with a \$20,000 per crop limitation on cotton, feed grains, and wheat payments to producers.

Unless Senators Tower and Bensen and others in the Senate can be prevailed upon to remove the limitation, all hope is lost. The present limitation is at \$55,000 per crop, written into the Agriculture Act of 1970.

Senator Tower has issued a public statement deploring the lower limit, saying it would be a breach of faith with American farmers and a catastrophe for agriculture. He deserves a round of applause for that statement. And it is hoped he can impose that view on enough of his fellow senators to carry the day when the vote is taken.

Senator Bensten has made no public statement, but privately has said he will vote against the lower limitation.

Donald Johnson, executive vice president of Plains Cotton Growers, Inc., has pointed out that defeating the limitation amendment on the floor of the Senate will not be the end of the battle. The measure will still have to go through a House-Senate Conference Committee, and the Conference Committee's report will still have to be approved by both bodies.

"But getting the appropriations bill through the Senate without a limitations amendments is the first challenge," Johnson said, "and if through our Texas Senators and other friends we are unable to meet the challenge, the battle will be lost."

Agriculture "dodged lightning" again July 15 when the Senate voted 56 to 29 against another move to lower the maximum eligibility of producers to receive payments under current cotton, feed grains, and wheat programs. But observers close to the scene in Washington warn that the storm is by no means over.

The Senate vote came on an amendment to the \$13.6 billion appropriations bill for the Agriculture Department and environmental and consumer protection programs. Offered by Senator Birch Bayh, D-Ind., the amendment would have cut the present \$55,000 per crop ceiling to \$20,000.

The House adopted a \$20,000 per crop limitations amendment to the appropriations bill one June 23 by a vote of 214 to 198. Differences between the House and Senate versions, including the limitations issue, now will have to be settled in a House-Senate Conference Committee after which both houses will have the opportunity to accept or reject the Conference report.

Congress plans a month long recess in August, so it is expected that action on the appropriations bill will be completed this month. Senate conferees have already been appointed.

House conferees will most likely be appointed early in the week of July 19, and it is at that point that low-level limitations proponents may make their next move. They will no doubt consider the possibility, and perhaps make an all-out effort, to have House conferees instructed to insist on retaining the limitations amendment.

However, according to Donald Johnson, executive vice president of Plains Cotton Growers, Inc., the wide margin by which the amendment was defeated in the Senate, and the narrow margin by which it passed the House both should work against the success of such a move. There is also doubt as to the parliamentary acceptability of instructing House conferees on an issue which the Senate specifically rejected.

Johnson, who was in Washington at the time of the vote both in the House and Senate, said "The consensus now is that the lower limit on payments can be avoided for 1972, but the storm clouds continue to build and we dare not become complacent."

Johnson went on to say that Texas Senators Tower and Bensen, along with the Department of Agriculture, and other administration officials worked very hard to defeat the

limitations amendment in the Senate. "There is little doubt," he said, "that there is now a majority in both the House and Senate who favor a lower limitation level, and without the strong opposition of the administration we could never have won on this issue."

Thus it became obvious that the Senate vote against the limitations amendment was a

Championship To Be Held

The National Rifle and Pistol Championships will be held at Camp Perry, Ohio, July 28 through August 24. National champions will be decided in high power rifle, pistol, and smallbore rifle.

The matches are conducted by the National Rifle Association and its membership. In addition to the competitions, there will be two schools conducted by the NRA — Police School, and Instructor-Junior School.

This year's "World Series of Shooting" will encompass all of the matches held in the past at Camp Perry, including the famed 1,000-yard Wimbledon and Leech Clup high powered rifle events. Last year's championships drew over 2,000 entries and this is expected to be surpassed this year.

A special feature of the 1971 U. S. National Championships will be a four country battle for the Palma Trophy, the symbol of long-range rifle supremacy. Twenty-man teams have been entered from Australia, Canada, Great Britain, and the United States for the August 21 match at 800, 900, and 1,000 yards.

Beef Cattle Short Course

Texas A&M University will host its 21st Annual Beef Cattle Short Course August 16-17 at the Memorial Student Center on the Texas A&M campus. The theme for the program is "Improving Reproductive Efficiency in Beef Cattle." Information feature subjects on breeding heifers, feeding programs for breeding animals, and calving difficulties. Reports on studies in calving and calf performance in exotic cattle will also be made.

- SOIL CONSERVATION - DISTRICT NEWS OUR SOIL ★ OUR STRENGTH MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

Farmers with skip-row cotton can provide adequate cover and soil improvement by planting the blank rows in a high residue producing crop, such as forage soybeans.

High residue crops will improve the soil fertility by adding much needed organic matter, and also help control wind erosion. Forage sorghums, Africa millet, and small grain can be used for strip cropping. Strip cropping can be done by planting the banks in 40 inch rows buy July 1 or 4 — 20 inch rows by August 15th, or small grain can be drilled in by Oct. 1. Strip cropping will reduce soil losses due to wind and water erosion. The residues produced from strip cropping will increase water infiltration, and store moisture in the soil. Certain plant diseases can be controlled or eliminated by crop rotation including high residue crops. A sound cropping system should include some soil improving crops each year.

Cotton and blank rows each year tend to deplete the soil and increase the erosion hazards. Strip cropping is a valuable soil management practice that is often overlooked. The residues produced from strip cropping can be easily managed and will result in increased crop production. Assistance is planning cropping systems and residue management is available through the Soil Conservation Service in Stanton.

Food production depends primarily upon arable land, and the United States is letting the soil slip through its fingers at a rate not generally realized. — Fort Worth Star-Telegram.

At Texas Electric,
People Power
is at your service.

Trouble? Call us when you have a problem.

There may come a time when you'll need the help of a troubleshooter from Texas Electric.

A troubleshooter is the man who shows up in a hurry in any kind of weather—any hour of the day, any hour of the night—when you call Texas Electric to report a problem with your electric service.

Perhaps the lights keep dimming and flickering at the houses in your neighborhood. Or the power has gone off at your home.

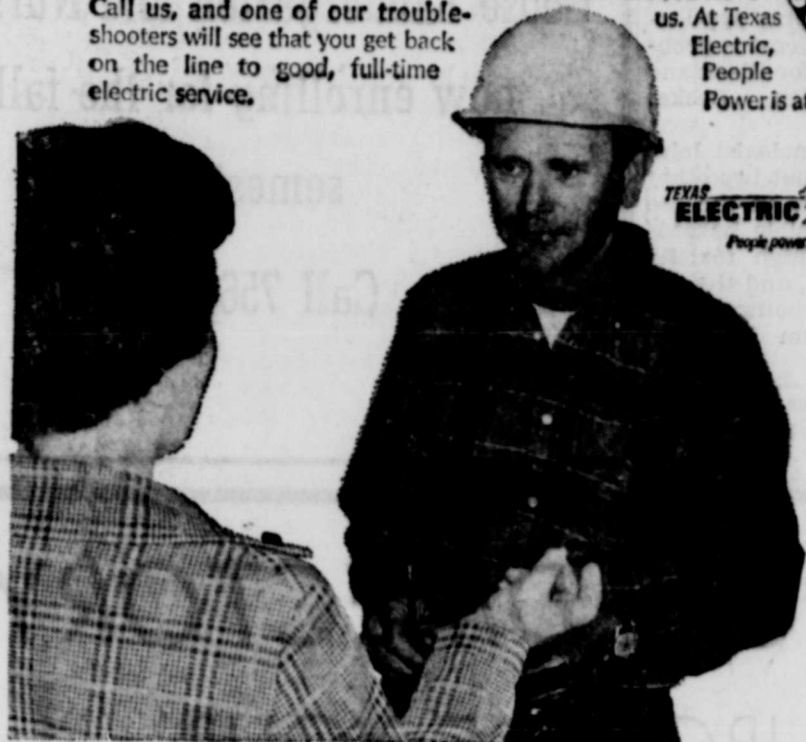

Call us, and one of our troubleshooters will see that you get back on the line to good, full-time electric service.

Or, if he finds that the company's lines are functioning properly, he'll suggest ways you can solve the problem with the help of your appliance repairman or electrician.

There may be other, less urgent things you'd like a troubleshooter to do. Remove your child's tangled kite from our electric lines. Or get a stranded cat down from one of our electric utility poles before there is trouble.

All this is just part of our job, so let us know when you need

us. At Texas Electric, People Power is at your service.

TOTAL	55,200	100.0	5,100,000	100.0

I am the voice . . . the voice behind the wheel. Most of the designers of the new safety hardware for the automobile have given up on me. They come up with all sorts of seat belts . . . and I don't use them. They design anti-skid brakes as an optional feature . . . and I don't buy them.

In their frustration, they have even found a polite name to describe devices that I will have to use whether I want to or not . . . passive restraints.

I welcome these . . . let's have more of them. Because 55,200 dead and 5,100,000 injured on our highways last year are frightening figures. Bring on more safety, in whatever form, even if its costs a bit more. It will cost less in the long run.

But let's not lose complete sight of the fact that I'm still sitting behind the wheel and making conscious decisions. And by concentrating on my driving I can improve my chances of reaching my destination with my car and me in one piece.

Rags to Recipes

Poultry is one of our favorite meats, and usually we have it fried. But I like to have several tasty recipes for chicken because it is one of the best buys today. With various chicken dishes it enables us to serve this economical and nutritious meat more often. This main dish is also easy to prepare, and is great in the summer served with a crisp salad and hot buttered rolls.

Chicken Spaghetti

1 three pound hen cooled until tender (a fryer may be used or left over turkey)
1 large onion
1 can mushroom soup
1 can tomato paste
1 tablespoon chili powder
1 package long spaghetti
½ pound cheese

Brown chopped onion (floured). Add tomato paste, 2 cups chicken broth, mushroom soup, and chopped chicken; simmer about 20 minutes. Add salt and chili powder. Mix cooked spaghetti with other ingredients in casserole dish. Top with ½ pound grated cheese. Bake slowly (300° F) 20 to 30 minutes.

Please send your recipes to Box 577, Stanton, Texas 79782.

Visiting in the home of Mr. and Mrs. Ezell McKaskle this past week-end were their son and daughter-in-law, Mr. and Mrs. Conrad McKaskle and children, from Andrews.

Mr. and Mrs. Dan Scudder of Eules, visited her parents, Mr. and Mrs. J. C. Mott, over this past week-end. Also Mrs. Marshall Huffman, Collinson, Carry, and Chrisee of Pecos, were here for the week-end of the Old Settler's Reunion.

Garage Rackets Flourishing In Many Parts Of Country

Reports made to the American Automobile Association from motorists driving through Southwestern states indicate that garage rackets are flourishing. This is not simply the slipshod, inept sort of service that irritates and frustrates car owners. Rather it is the employment of deception by a few garages and service stations to defraud motorists into buying unneeded tires, parts, and accessories.

In Arizona garage rackets are so prevalent that the state's attorney general's office has recently initiated a statewide campaign to combat unscrupulous service station practices. Travelers are warned of fraudulent practices by radio messages prepared by the attorney general's office

and teams of investigators driving protected vehicles are making spot checks on stations along the states' interstate highways.

A variety of methods to defraud the traveler is being used. Slashing tires with a sharp instrument is often done. Squirting oil on or under fuel pumps and shock absorbers are common plays.

Sometimes the deceptive methods are more crude—such as disconnecting a wire to the starter, then removing the starter, allegedly replacing it with a rebuilt one which turns out to be the same starter that was there before.

Victims all but invariably are in cars with out-of-state license plates.

LLOYD BENTSEN:

Horse Disease Problems

Horses and horse diseases are subjects of great interest to Texans currently as a dread disease threatens the half a million horses in our state. And there is some concern accompanying the spread of the disease because the effect the virus could have on humans.

The horse disease is known by the tongue-twisting name of Venezuelan Equine Encephalomyelitis, or more commonly by the initials VEE. It spread up from South America — apparently coming in Texas via flies or mosquitoes which are believed to be carriers.

There is a vaccine available which is being widely used by horse owners. The vaccine is still experimental, but it is

the only known means of combatting the disease in horses. Once contracted by horses, the disease is fatal in 85 to 90 percent of the cases.

The Department of Agriculture was naturally reluctant to make a mass release of a vaccine which had not been fully tested. However, horse owners argued that it was the only too available. The government did release the vaccine for use by veterinarians only and on a voluntary basis by horse owners.

Early reports indicate that the vaccine seems to be working in those cases where it has been used. Some ranchers have used the vaccine on hundreds of horses, and have prevented death losses while others who did not vaccinate lost horses.

There is great hope that the vaccine can stop the spread of the dread disease. There is also hope that it will lessen the dangers to humans.

As the disease swept upward last month along the coast of Mexico, I urged the Department of Agriculture to join with our Mexican friends to begin a program of vaccination in Mexico. The department was slow in acting, but it did finally comply. The U. S. furnished the vaccine and the work in Mexico gave officials assurances that it was effective. When the disease pumped the border, the vaccine was used in South Texas, and it seemed to work there, too.

While the final results are far from in, the effort is an example of joint work by the federal, state, and local governments in an attempt to stop a fearful disease that threatens the horse industry in Texas, and even has overtones of danger for human beings.

Midland Theatre's Box Office Open

The Midland Community Theatre's box office is open for reservations to performances July 16, 17, 23, and 24, of the rollicking, fun-filled 1920's musical "Good News," celebrating MCT's twenty-fifth anniversary. Reserved tickets are \$3.50. Telephone reservations may be made by contacting the box office at 682-2544.

"Good News" is presented jointly by Act IX, the women's auxiliary at MCT, and Ham Hocks, an organization of backstage workers of the theatre.

The show which bowed on Broadway in 1927, was one of the first of the big "football musicals" of the 1920's and '30s.

The "Good News" cast is headed by Larry Carter of Odessa, in the role of football star Tom Marlowe, who must pass his astronomy course to be eligible to play in the Big Game, and Beth Griffith as the shy coed who undertakes to tutor him. College sheiks and shebas, the coach and trainer, and collegiate men's and women's choruses complete the cast.

A special feature of "Good News" will be the "Faculty Follies" sequence written into the show by director Edward Graczyk which will utilize the talents of a host of Midlanders.

Audiences have come to expect special movies in Summer Mummies productions, and the "Good News" production not surprisingly is included in plans for a movie. It is, as they say, in "living color." We'll not give away the plot of this hilarious movie. Instead, we'll just say you'll see some rare Roaring Twenties characters up there in the grandstand rooting for dear old Tait College in the big game against its rival.

It promises entertainment for the entire family. Call Theatre Centre today!

53rd Legion Convention To Be Held July 22-25

The 53rd Annual Convention of The American Legion, Department of Texas, to be held in Dallas July 22-25, promises to be one of the most colorful and entertaining in history, according to William C. Farmer, the general convention chairman.

Department Commander B. B. Hester of Houston, will preside over the Legion conclave with all general sessions being held in the Crystal Ballroom of the Baker Hotel. Heading the American Legion Auxiliary will be Mrs. Goldie Bewley of Sourlake.

Senator John G. Tower, is scheduled to deliver the keynote address on Friday afternoon as the opening joint session of the Legion and Auxiliary in the ballroom of the Baker Hotel.

According to Commander Hester, The American Legion will have some 3,000 delegates, and alternate in attendance, and the Auxiliary anticipates approximately 1,000. In addition to the official delegation, Legionnaires and Auxiliary members from all over Texas will attend, many of them bringing their families to vacation in Dallas following the convention.

Outstanding speakers on Saturday will include the Department and National Oratorical Contest Champion, William H. White of San Antonio, who will deliver his winning oration.

Friday evening at 5 p.m. the Parade of Champions Contest for Uniformed Organizations, Albert Brandesky, chairman, will take place at the Dallas Memorial Auditorium. More than \$2,900 in prizes will be awarded the winners of the colorful contest. This will be followed by a barbecue for registered delegates and guests. A Bathing Beauty Pageant will follow at the Baker Hotel, where Miss American Legion of 1971 will be crowned.

Aside from the color and entertainment the Legion and Auxiliary have mapped out a full four-day program of serious business pertaining to the last Texas program of the Legion and Auxiliary. The Executive Committee, Board of Trustees, and key standing committees will be busy throughout the convention.

The Memorial Service, under the direction of the Rev. (Fr.) Marcus A. Valenta of Praha, Department Chaplain, is scheduled for 9:00 a.m. Sunday. The election of Department Officers for the ensuing year will conclude the convention.

Guests in the home of Mr. and Mrs. Martin Gibson this week-end were Mrs. Gibson's sister and her husband, Mr. and Mrs. W. J. Howard of Garland, Texas.

Temik Does Good Job

A new systemic insecticide called Temik is showing excellent results, and indicating great potential in cotton insect control demonstrations in Bell County.

Cotton treated with Hemik granules at planting time has more squares and a larger stalk than cotton subjected to other treatments in the test says Bell County Agent Don Decker.

Treatments used in the trial include 10 pounds of Temik time, Thimet treated cottonseed, and a check plot with no insecticide. The Temik treated cotton produced 6.8 squares per plant, while the Thimet treatment plus three spray applications has 4.8 squares per plant. The test plot with no insecticide has 2.8 squares per plant.

Cost of treating the cotton with Temik was about \$15 per acre, compared to \$6.50 per acre for the Thimet treated seed plus three spray applications. The Temik cost is probably prohibitive for Blackland cotton production, Decker noted.

Extension entomologist John Thomas pointed out two other problems involved in the use of Temik — possible hazards because of the high toxicity of the insecticide, and the appearance of a bollworm or budworm problem following use of Temik.

Stick candy was the first confection in the United States.

Pee Wee Football

To all parents of boys in fourth, fifth, or sixth grades. Would you be interested in a Pee Wee Football Program here in Stanton? Approximate cost to each player would be \$15. This amount could be worked off by the boys in some way. If you are interested please reply in care of:

26,000 Veterans To Use GI Bill

This fall is expected to bring 26,000 veterans to Texas colleges and universities under the GI bill, according to Jack Coker, Waco VA Regional Office Director.

Veterans planning to attend college for the first time should have applied for their GI bill certificate of entitlement by this time, but if they haven't they are urged to do so immediately.

Some delayed or late payments to veterans will be caused by failure to secure the certificate before their school starts classes.

Coker said in cases of veterans who have their certificates at the time of enrollment their school can certify the enrollment promptly and activate their veterans GI bill payment file at the Waco Regional Office. This permits the VA to start payment with a minimum time lapse, normally two to three weeks after the end of the first month of school.

"We want the veteran to receive his check on time," Coker said, adding, "Each delay works a financial hardship on the veteran which we want to avoid."

Veterans with questions about their school plans, anticipated change of schools or educational objectives would do well to contact the VA now rather than wait until school starts.

FINAL LITTLE LEAGUE RESULTS

MINOR	MAJOR
Red	Red
Black	Black
Green	Green
Blue	Blue

In the all-star games, teams composed of Red and Blue players defeated the team made up of Black and Green players, 13-9 in the Minor League. In the Major League, the Black-Green team won over the Red-Blue team, 5-4.

Directors of the Little League program would like to express appreciation to all who helped with this year's program. All players are urged to turn in uniforms to Bob Deavenport.

Local News In Brief

Visitors in the home of Mrs. Jim Webb over the week-end were: Mr. and Mrs. Jerry Webb, Los Alamos, N. M.; Mr. and Mrs. James Webb, Midland; Mr. and Mrs. Jimmy Webb, Odessa; Mr. and Mrs. Gene Stormes and Jim, Midland, and Mr. and Mrs. Jack Mims, Pam, and Todd, of Stanton.

Bimbo Allred celebrated his 12th birthday with a party on July 20. They had a cookout with ice cream and cake. Games were played outside. Favors of suckers and bubble-gum were given. Those present included: Becky Lambert, Donna Sue Hale, Terri Wilson, Leta Cox, Tami Briggs, Laquanna Jones, Trudy Gerdes, Tamala Allred, Mrs. O. D. Green, Tina Glynn, Mike Swinson, Ricky Fleckenstein, Ronnie Mims, Russell Mims, Bobby Mims, Marty Douglas, Joe Dean, Terry Smith, and Keyv Allred.

Mr. and Mrs. O. D. Green, Trudy and Lynette Gerdes, Mr. and Mrs. Lonnie Green, Marty and Sherril; Mr. and Mrs. Bud Green, David and Darla; Bonnie, Keyv, Bimbo, and Tamala Allred, and Kay Mims and boys attended the Green reunion at Christoval State Park, Saturday and Sunday, July 17 and 18. Over 150 attended including those from Tucker, Georgia; Beaumont, Brownfield, Odessa, Jal, New Mexico, Fort Worth, and Springfield, Missouri.

Mr. and Mrs. J. H. Maricelli and their daughter, Peggy, visited his sister, Mrs. Ezell McKaskie, while on vacation last week.

STEPPING OUT of a protective tractor cab to promote Texas Farm and Ranch Safety Week, July 25-31, is Texas Farm Bureau Queen Harietta Capps of Vernon. The theme for this year's observance of Farm and Ranch Safety Week is "Protection-make it work for safety." Tractor overturns accounted for 60 per cent of the accidental deaths involving tractors in the U.S. in 1970. It is estimated that 90 percent of the lives lost in tractor overturns could have been saved by protective cabs or roll bars and safety belts. Special emphasis on accident prevention in agricultural pursuits are being made during the week by the Texas Safety Association, Texas Farm Bureau, and other agricultural organizations.

Summer Recreation News

SRA Swimming Party
July 16th, the Stanton Recreation Assn., sponsored a free swimming party at the Midland YMCA. Eighty-five youngsters made the trip, plus ten sponsors. The swimmers swam for an hour in the indoor heated pool at the "Y," then went to the Dennis the Menace Park, where they were treated to hamburgers and cokes by the S.R.A. The swimming party, track meet, and tennis tournament officially ended the summer recreation program for this year.

Food Preservation Projects Are Fun For 4-H Clubbers

Young people having fun together find it difficult to break up without a call for food. And the well-prepared hostess easily meets the challenge with a variety of home-canned foods and a well-stocked freezer.

Among the strongest advocates for home canning and freezing are the 90,000-4-H'ers

enrolled in food preservation projects. They never are at a loss for exciting and nourishing foods to delight friends. And the variety is nearly endless as they choose from home-preserved fruits, vegetables, meats, jams, jellies, pickles, and other goodies.

Although home preserved foods fill the needs for quick-tasty snacks and spur-of-the-moment get-togethers, they are a boon to nutritious family meals and a balanced budget. And the 4-H'ers find home-canned foods much sought

after and appreciated when given as gifts.

Supervised by the Cooperative Extension Service, the 4-H food preservation program has been sponsored by Kerr Glass Manufacturing Corporation for 43 years. And during that period, the corporation has provided 4-H members with incentives and recognition, including nearly \$75,000 in education scholarships.

In 1971, Kerr Glass Manufacturing Corporation again will recognize the accomplishments of 4-H members in the

CARD OF THANKS

To Our Friends Of Stanton and Martin County: We've known for many, many years that there is no place like Stanton and its wonderful people, especially when it comes to lending a helping hand. This fact was again proven last Friday, July 16, about 5:00 p.m. when our home caught fire and burned. In no time at all, it looked as though all Stanton was on hand to assist the Fire Department; men, women, and even children. Some life-long friends, others complete strangers; and in a very short time the house was virtually emptied of all furniture and furnishings.

Please accept our sincere thanks and heartfelt gratitude for this tremendous deed. It's amazing how much one can accumulate over a period of fifty years in the same house! Some items were found that had been lost twenty years or more!

Sincerely,
Mrs. Nobby Hamilton,
and Family.

Martin County World War One Veterans and Veterans of World War One Barrack 1474, Big Spring, and Ladies Auxiliary wish to thank Cap Rock Electric for the use of their building on July 8. Thanks again for all favors. Post Commander, Barracks 1474, T. J. Walker.

(Continued from page 1)
No. 2 Jefferson Davis as a 1/2-mile west offset to the Playa sector of the region, four miles east of Stanton.

Location for test, slated to 1,500 feet, is 1,980 feet from south and 660 feet from east lines of section 9, block 45, T-1-S, T&P survey.

Petroleum Exploration & Operating Corp., Abilene, completed one project and staked another in the Martin portion of the Trend Area, about 12 miles northeast of Midland.

No. 1-B Lewis McCreeles was finished to pump 99 barrels of 29.2-gravity oil per day, plus 25 barrels of water, with gas-oil ratio of 707-1.

Production was through perforations at 7,376-9,212 feet, which had been acidized with 5,000 gallons and fractured with 210,000 gallons and 400,000 pounds.

Location is 1,980 feet from south and 660 feet from west lines of section 15, block 37, T-1-S, T&P survey.

Site was staked for No. 3-A Olton Dickenson, 1/2 mile north of the nearest completed producer.

Slated to 9,300 feet, it spots 1,320 feet from north and east lines of section 17, block 37, T-1-S, T&P survey.

Petroleum Exploration & Operating staked two projects in the Trend, 14 miles northeast of Midland.

Both are slated to 9,300 feet, and are in section 16, block 17, T-1-S, T&P survey.

No. 1 Rhodes-Snodgrass, 1/2 mile north of the nearest, spots 1,320 feet from north and east lines of the section.

No. 1 Ollie Smith, 3/8 mile northeast and northwest of the nearest production, spots 1,320 feet from north and west lines of the section.

Adobe Oil Co. of Midland, staked six sites on the Sale Ranch leases in Martin County on the Spraberry Trend, about 11 miles northwest of Stanton.

All are scheduled to be drilled to 9,200 feet.

No. 4-H Sale Ranch is 1,320 feet from north and west lines of section 10, block 37, T-1-N, T&P survey.

No. 5-H, 1/2 mile south and west of the nearest wells, is 1,320 feet from south and east lines of the same section.

No. 6-H, 1/2 mile west of the nearest, is 1,320 feet from south and east lines of section 10, block 17, T-1-S, T&P survey.

No. 7-H spots 1,320 feet from south and west lines of section 10, and is one mile south and west of the nearest completed production.

No. 2 Blocker, one mile south and west, spots 1,320 feet from north and east lines of section 10, block 17, T-1-S, T&P survey.

No. 1 Blockers, 1/2 mile south and east of production, is located 1,320 feet from south and east lines of section 3, block 37, T-1-S, T&P survey.

Ne-O-Tex Corp. of Midland, will attempt to extend the Sulphur Draw (8,790 Dean) field six miles north and 5 1/4 miles northwest and into Dawson County with the scheduling of No. L. D. Freeman, two miles south of Patricia.

Drill site for the project, scheduled to 9,600 feet, is 990 feet from south and 900 feet from east lines of labor 24, league 261, Borden CSL survey.

The Martin County portion of the field has recently spread to the north and west with completion of several projects.

Roden Oil So. of Midland, has announced intention to drill an 8,000-foot exploratory test in Howard County, 1 1/2 miles northeast of Luther township. It is No. 1-7 Finley.

Located 2 1/4 miles east of Luther, Southeast (Siluro-Devonian) field, but separated by failures, it is 660 feet from south and 990 feet from east

lines of section 7, block 31, T-2-N, T&P survey.

It also is 3/8 mile northeast of a 7,870-foot failure and the same distance northwest of a 9,717-foot dry hole.

Petro Dynamis, Inc., of Amarillo will attempt to re-open Spraberry-Dean production in a north portion of the Varel (San Andres) field of Howard County, with the scheduling of No. 1 T. L. Higginbotham, eight miles north of Big Spring.

The project is five miles northwest of the original Spraberry opener. Scheduled depth is 8,100-feet.

Location is 1,320 feet from north and 1,300 feet from east lines of section 6, block 33, T-1-N, T&P survey.

The depleted opener, Texaco Inc. No. 1 Guitar Estate, finished in 1962 to pump 18 barrels of 35.4-gravity oil and 57 barrels of water daily, through perforations at 6,783-6,994 feet.

Cal-Mon Oil Co. of Midland, No. 1-B Hutto, assured second producer and location west extension to the Hutto (Wolf-camp) field of Howard County, continued tests through perforations between 7,321-7,348 feet.

It flowed 45 barrels of load water, 66 barrels of load oil, and 79 barrels of new oil in 22 hours, after being acidized with 3,000 gallons.

Location is 660 feet from south and 1,980 feet from east lines of section 4, block 31, T-1-S, T&P survey, two miles southwest of Coahoma.

The field opener, Clinton Oil Co. No. 1-A Louis Hutto, was finished March 10, 1950, by Stanolind Oil & Gas Co., to pump 27 barrels of 35-gravity oil daily, through perforations at 7,370-7,430 feet.

Southland Royalty Co., Fort Worth, filed application to drill No. 1 Talbot as a 1/2-mile east offset to the two-well Schliementz (Spraberry) field of Howard County.

Scheduled to be drilled to

8,200 feet, it spots 1,320 feet from north and west lines of section 25, block 34, T-2-N, T&P survey, three miles south of Knott township.

Forsan Well Service, Inc. plugged No. 1 Ray Wilcox, an offset to the Hutto, South (Leonard) field of Howard County.

Drilled to a depth of 6,595 feet, it spots 467 feet from south and 780 feet from west lines of the east half of section 6, block 31, T-1-S, T&P survey, six miles east of Big Spring.

ber or not. Employees who are not dues payers at present would be exempted.

Alston said the contract takes into consideration the high rate of inflation in recent years and is designed to protect employees from further increases in the cost of living.

"We feel the new agreement will help us attract and hold the quality of people we need to provide quality telephone service," Alston said.

"We're confident, too, that we can offset some of the cost of the settlement through improved technology and operating efficiency," the company president declared. "However, rising cost in general are exerting pressures on earnings and we must continue to review ways to improve our avenues."

Yates; Scooter Smith — Theodore Wells; Robert Smith — J. C. Tunell; Brent Buck — Jerry Holloway; Ronald Bradley — Mark Greenhaw; and the Orange County Home Demonstration Agent, Mrs. Dorothy Ives — Mrs. James Eiland.

This past week was filled with activities for the young 4-H's. Martin County Home Demonstration Agent Mildred Eiland, had her schedule well planned or it couldn't have been done.

Orange County 4-H'ers were given a welcome on the day they arrived by the Martin County 4-H'ers and parents, and by County Judge Carrol Yater, who gave them a nice "Welcome to Martin County," and, Bob Deavenport, president of the Chamber of Commerce, gave the visitors a welcome.

Monday night, July 19, the group had their annual 4-H Junior and Senior Dress Revue. Debbie Hazlewood was the narrator for the evening. She welcomed visitors, and presented each applicant. There was a "mock" revue before the original revue was under way. Peggy Barnes modeled her fox dress. Teri Hazlewood in her ball gown, Becky Steven of Orange County, was in her tea dress, and Waldina Hillard showed off her hose dress.

Those in the Junior Division to win blue ribbons were Glenda Langston, Dianna Wells, Cyndie Mullins, Belynda Blake, Tahita Blake, Judith Yates, and Karla Simpson. Red ribbons in the Junior Division went to Tracy Kline, Paige Lou Eiland, Tressa Hull, Polly Lewis, Debra Glendenning, Tammy Webb, Joanna Graham, Wendy Tunnel, and Amy Hazlewood. The Senior Division blue ribbon winners were Lois Howard, Peggy Barnes, and Teri Hazlewood. The red ribbons were taken by Suzanna Brown, Rosalina Welch, Dianna Hoicomb, and Debbie Hildreth.

Chosen by the judges to represent Martin County in the District Dress Revue in Fort

Stockton on Thursday in the Senior Division are Lois Howard, and Peggy Barnes, as her alternate. In the Junior Division is Glenda Langston, with Cyndie Mullins, and Dianna Wells as her alternates.

There were also three boys recognized as the Dress Revue drew to a close. David Green, Randy Graham, and Ray Blake were presented a blue ribbon for their Better Grooming project. After the ribbons were all given out, Billy Reager, county agent, presented the Orange County 4-H'ers with a Honorary Citizen's of the Sore Head's Certificate. Scooter Smith, Orange County 4-H'er, then recognized Mr. and Mrs. James Eiland, and Mr. and Mrs. Billy Reager, for all the kindness shown the Orange County 4-H'ers, sponsors, Jimmy and Bobby Young, and their home demonstration agent, Mrs. Dorothy Ives.

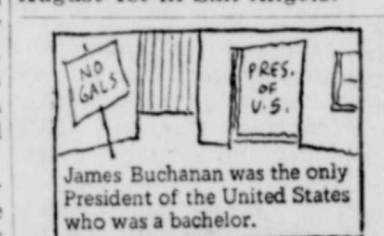

Shown making ice cream for the AfterGlow are; left to right, Fran Broussard and Barbara McIntyre from Orange County, and Kathy and Karen Linney of Stanton. The 4-H girls from Orange County have been staying in the Linney home this week.

Stanton Lions On Cabinet

Lion's International District Governor Homer J. Hodge of Winters, Texas, has announced his appointments for the Lion's District 2A1 Cabinet Officers for the year 1971-72. District Governor Hodge has appointed the following Lions from Stanton, as members of his cabinet.

The Zone Chairman for Region I, Zone 2, is J. R. Dillard, 707 Broadway, and serving on the district cabinet as chairman of the Leo Clubs is John J. Wood, Box 442. The District 2A1 Cabinet is composed of 31 members, representing 64 Lions Clubs with some 2,800 Lions that covers an area of 25 counties. The first cabinet meeting has been slated for August 1st in San Angelo.

James Buchanan was the only President of the United States who was a bachelor.
