To The Point

By BUDDY NORVILLE

To our friend who likes to play chicken with small cars: Let me ask you one question. Would you do the same thing if you knew George Wallace was driving the car? I would go off the road to keep from hitting you, but not everyone would. Let me ask you another question. What if you caused an accident by your stupid strutting? That's right, STUPID. This just about sizes you up. Think next time, before you so boldly claim your civil rights as a pedestrian.

While I'm on a tear I have something else to grip about. I've always heard the old saying that "speed kills." Well I believe that. But I also believe that Slowness can kill. I was driving down IS 20 Monday afternoon at 65 MPH. Suddenly there was a car in front of me, driving slow, the driver was talking on his two-way radio. I quickly looked in my rear-view mirror to see if I was clear to pass. I wasn't, there was a car coming up fast. So I had to throw on my brakes to avoid an accident. This just shouldn't happen on a 4-lane highway. The point to this gripe is: That highway patrolman could have pulled off on the side of the road to talk on his radio. As it was he could have caused an accident.

RECIEVES DEGREE

Texas Tech University President Grover E. Murray awarded approximately 1,550 degrees in 1971 commencement exercises in August. It was a record number for summer graduation ceremonies. From Lenorah was: Jerry Glen Cox, Bachelor's in Management.

Museum Of The Southwest To Open Gates Saturday

MIDLAND — The gates of the Museum of the Southwest in Midland, will swing open Saturday evening, Sept. 11, for "Septemberfest," a unique musical - evening - under-the-stars. This third annual fund-raising project of Las Manos — "The Hands" — an auxiliary service organization of the Museum, will feature fun, refreshments, and music to suit every mood. Serenading guests as they enter the Museum grounds Saturday evening will be Los Mariachis, popular mariachi

HIGH SCHOOL BAND OFFICERS — The High School band officers for 1971-72 are front row: Polly Creech, reporter; Twila Stallings, parliamentarian; back row: Walt Haislip, president; Lyn Herzog, vice-president, and Judy Costlow, secretary-treasurer.

Information Center On Economic Actions Is County ASCS Office

All residents of Martin County may obtain answers to questions on operation and interpretation of the Presidential order of Aug. 15, on prices, rents, wages and salaries from the Martin County Agricultural Stabilization and Conservation Service (ASCS) office, according to Bob Hill, chairman of the County ASC Committee. County ASCS offices throughout the United States have been chosen as information centers to answer questions from all citizens on President Nixon's Executive Order which is designed to stem inflation and strengthen the national economy. The Martin County ASCS Office is receiving official answers to questions concern-

ing the President's action, and any person in Martin County who wants or needs precise information should get in touch with the County Office, Hill said. The Martin County ASCS Office is located at 107 E. Broadway. The mailing address is Box 928. The telephone number is 756-3324. In charge of the office is George Glynn, county executive director. The office has a staff of five persons: George Glynn, Mary Ivy Briggs, Mary Deltiker, Raymond Walton, and Herb Sorley. "Ours and all ASCA offices throughout the nation, will function as information centers in all locations outside of highly urbanized areas," Hill said.

County ASCS offices are not to handle complaints or appeals, he said. They will serve only to provide official information. Persons with complaints will register them with the most convenient district or sub-district office of the Internal Revenue Service. "Neither will interpretations or guesses be made by ASCS county office people. They will

Justice Of Peace Court

Justice of the Peace Court cases for August 29, 1971, through September 4, 1971: One theft case and warrant of arrest issued for same. Traffic cases completed were: 18 cases with fines amounting to \$402.00.

Noble W. Morgan Rites Held Here

Noble William Morgan, 64, died Monday in the Veteran's Administration Hospital in Big Spring. Services were held at 3 p.m. Tuesday at First Baptist Church in Stanton. Burial was in the Evergreen Cemetery under direction of Gilbreath Funeral Home. Mr. Morgan was born Oct. 15, 1906, in Menardville. He was a retired farmer, and a veteran of World War II. He moved to Stanton in 1928 from Beaumont. Survivors include four brothers, Alvin Morgan, Tilman Morgan, and Jay Morgan, all of Stanton, and Johnny Morgan of Odessa; five sisters, Mrs. Clyde Geurin of Stanton, Mrs. Idone Grizzell of Grants Pass, Ore., Mrs. Robert Needham of Seattle, Wash., and Mrs. Lavern Cheatham and Mrs. Alton Turner both of Midland, and several nieces and nephews.

Mrs. Blackerby Died September 2

Mrs. Letha Madeline Blackerby, 74, died Thursday, September 2, at 12:45 a.m. at St. Mary's Hospital in Lubbock. Services were held at 4:00 p.m. Friday in the Stanton Church of Christ. Burial was in the Evergreen Cemetery under the direction of Gilbreath Funeral Home. She moved to Stanton in 1912 from New Mexico. She was married to J. O. Blackerby at Stanton on March 16, 1916. She was born Nov. 11, 1896 in Coryell County. Survivors include her husband, a daughter, Mrs. Jack Bentley, of Lubbock; a brother, Jim Youngblood, of Raymond, Calif.; a sister, Mrs. Ethel Dooley, of Ceres, Calif.; five grandchildren, and two great-grandchildren.

FOOTBALL IS SERIOUS BUSINESS — To Richard Perez, football is serious business. He is shown here in his Pee Wee Football uniform.

FIRST BALE OF COTTON — Jerry Graham of Stanton, is shown here with his first bale of 1971. It was also the first bale of the year in Martin County. With Jerry is his son, Marty, who helped gather the cotton.

QUESTIONS AND ANSWERS

The Wage-Price Freeze

This column of questions and answers on the Wage and Price Freeze is provided by the local office of the U. S. Internal Revenue Service, and is published as a public service. The column answers questions most frequently asked about the Wage and Price Freeze announced August 15 by President Nixon.

Q — How did the Internal Revenue Service get involved in answering questions about the Wage-Price Freeze?

A — The Internal Revenue Service undertook the assignment at the request of the Office of Emergency Preparedness which is the operating arm of the new Wage-Price program. Utilizing its nationwide taxpayer assistance network, the IRS receives, analyzes, and investigates complaints, and answers questions at 360 of its offices throughout the country.

Q — What does the IRS do after it receives a complaint of a Wage-Price Freeze violation?

A — The IRS will acknowledge the complaint and, if there is a reasonable basis for concluding that a violation may exist, it may contact the alleged offender to obtain voluntary compliance with the Presidential order or conduct further investigation. The IRS will report to the Office of Emergency Preparedness when further action is required. Actual prosecutions are the responsibility of the Justice Department.

Q — Do complaints of Freeze violations have to be in writing?

A — No. Although the IRS prefers that complaints be written to make referrals to the Office of Emergency Preparedness easier and to establish whether there is any pattern of problems in a particular area, all complaints are recorded, analyzed, and investigated.

Q — I'm supposed to get a promotion in October. Can I still be promoted despite the Freeze?

A — Yes. Actual promotions to establish positions with greater responsibilities are allowed, as well as increases in (Continued on page 8)

Capt. Ray Louder Completes Course

Captain Ray E. Louder recently graduated from the Field Artillery Officers Advanced Course at Fort Sill, Oklahoma. This is a nine month course taken by career officers to prepare them for battalion, brigade, and division level staff work. Captain Louder will remain at Fort Sill, where he will be assigned to the 75th Group, 1st Battalion, 30th Field Artillery. Mr. and Mrs. H. D. Barnhill attended their son-in-law's graduation. Captain and Mrs. Louder, and Darrell, have returned home after visiting in Stanton this past week.

KIDDIES PICTURES THIS YEAR TAKEN IN COLOR

For many years The Stanton Reporter has been running a pictorial feature of the youngsters in this area as "Citizens of Tomorrow." In the near future we will again be publishing free a picture of all the children who are brought by their parents or other guardian to the Belvue Motel between 10 a.m. and 5 p.m. on Friday, September 17.

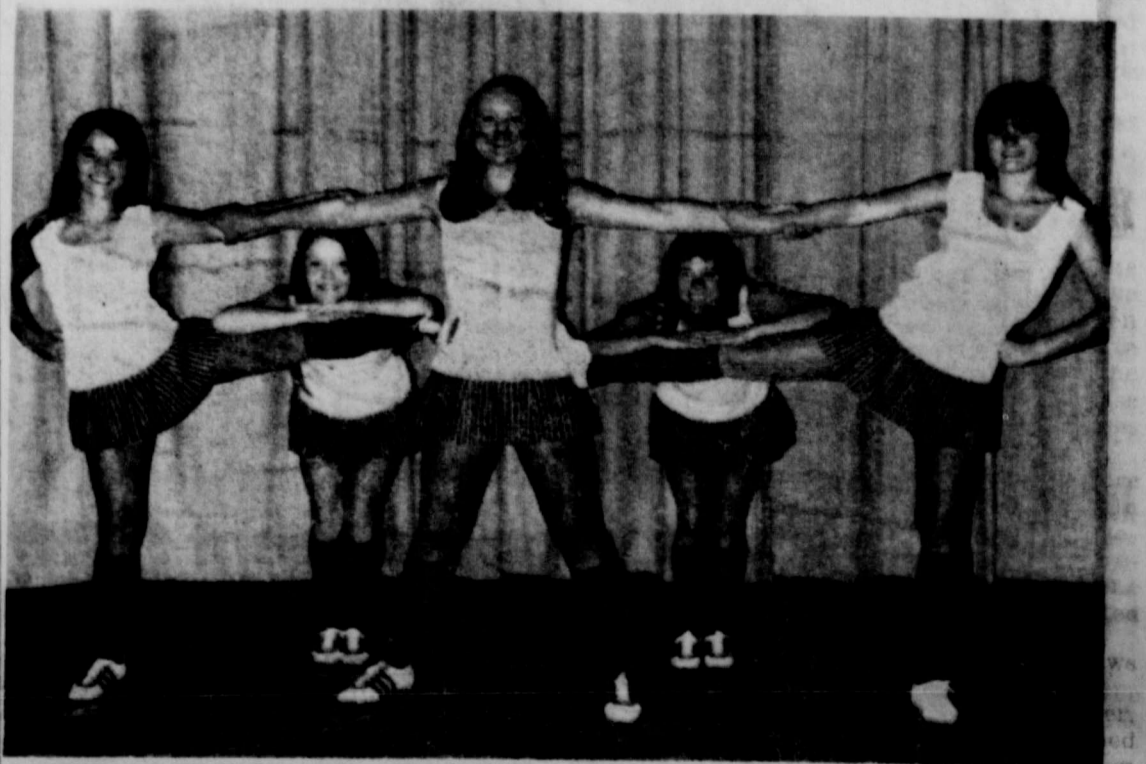

LIVING COLOR
An expert children's photographer will take the pictures to assure uniform quality and size for best reproduction... and this year will be taken in natural living color. Please dress your children colorfully to take full advantage of the beauty of color photography. The pictures will run in black and white in the newspaper.

NO COST TO PARENTS
There are absolutely no strings to the invitation nor

are there any charges to the parents... they do not have to be subscribers or even readers of this newspaper to participate. Neither are the parents obligated to purchase any of the color pictures taken.

Those who might desire color photographs may obtain them by making arrangements with the Studio Representative when they select the pose they wish to see printed in The Reporter.

APPOINTMENTS
Appointments may be made by calling Linda Perine, phone number 756-3344. While appointments are not necessary to have your children photographed, it could avoid your having to wait. Check this date on your calendar now September 17th, and help us make this a memorable community feature.

CHEERING THE BUFFALOES AT TAHOKA will be Teresa Louder, Cindy Wheeler, Darla Sawyer, Twila Stallings, and Fawn Briggs.

GATES WILL OPEN — At the gates of the Museum of the Southwest, which will open Saturday evening for "Septemberfest," are Tom M. Sloan, left, general chairman of arrangements, and James Gambino, music coordinator for the popular annual fund-raising event. Septemberfest will begin at 8 p.m. on continue until 11.

Enrollment Increases Stanton School

There are more students attending Stanton schools this fall than there were last spring. Stanton High School reports 263 enrolled, Junior High reports 245 enrolled. There are 312 enrolled in the lower grades. All totaled, there are 830 students enrolled. At the close of school last spring there were 815 enrolled. This is an increase of 15 students.

Stanton Home Demo. Club Met On September 1

The Stanton Home Demonstration Club met on Sept. 1 at 2:30 p.m. at the home of Mrs. Jim Webb. Members present were: Mrs. Eubanks, Mrs. Morgan Hall, Mrs. W. C. Clements, Mrs. DeWayne Ory, Mrs. John Atchison, Mrs. Jim Webb, Glenna Mims, and two new members, Carol Anderson, and Doris Oldaker. The next meeting will be in the home of Mrs. Atchison on September 15.

Philosopher Is Aghast At The Viet Nam Rule Against Political Handshaking

(Editor's note: The Martin County Philosopher on his grass farm on Mustang Draw discovers a peculiar custom in use in Viet Nam).

Dear editor:

I was reading along in a newspaper last night not thinking much about what I was reading, you know, like a man listening to his wife carrying on a conversation with him while his mind is on tomorrow, when I hit a paragraph that made me sit bolt upright.

According to it, when you're campaigning for office in Viet Nam you can't shake hands with more than five people in one place without risking getting arrested for disturbing the peace.

That's exactly what it said, and I believe it's worse than the other practice they have over there, you know, looking up your opponent if you win the election. After all, it's sort of a universal habit not to care much what happens to a defeated candidate, regardless of what country he gets beat in. How many defeated candidates for Vice President can you name?

But can you imagine what would happen to a candidate in the United States if he was limited to five handshakes in one place?

I have never understood it, but it's a pretty well established that the candidate who shakes the most hands gets the most votes, makes no difference what office he's running for or whatever other left handclasp-less, would collapse in frustration from sheer lack of a platform.

Has Congress looked into the matter of how many returning Viet Nam veterans have picked up this no-handshaking habit.

It may be all right to Vietnamize Viet Nam, but you introduce that handshake limitation over here, and you'll wreck our political system.

In fact, the handshake is such an effective medium for getting elected, even more effective than television which charges big for its services, that I don't see why the voters don't catch and on cash in on it. Charges say 15 cents per handshake, and double if he gets to you twice at the same rally.

Why should the most effective medium for getting elected, owned entirely by the people, allow candidate to use its services scott free?

Yours faithfully,
J. A.

Veterans Administration

Veterans, widows, and others can write, phone, or visit any VA office for details about the whole range of veterans' benefits, services, and programs. Such help is also available via veterans service organizations which have representatives and service officers on duty throughout the country as part of their counseling and informational programs.

Veterans eligible for "wheelchair homes" can now get up to \$30,000 low cost mortgage insurance partially subsidized by VA.

"Compensation." VA payments to veterans and dependents for service connected injury or death, is often confused with "pension" paid on the basis of need to veterans disabled from non-service connected causes.

Beta Sigma Phi News

Preceptor Mu Chapter of Beta Sigma Phi met on September 2, in the home of June Reid.

After a business meeting in which plans were formulated for the ensuing year, guest speaker, Grace Jones, presented a program on, "The Art of Traveling." She gave many hints and ideas on making traveling easy, which she had learned in her many travels.

Refreshments were served to the following members: Mary Kathryn Bristow, Mary Purdie Brown, Helen Dawson, Gerry Gates, Mary Grace Latimer, Sammie Laws, Helen Ruth Loder, Mamie Roten, Margaret Boueche, Pauline Wood, and guest Grace Jones, and hostess, June Reid.

The next meeting will be held on September 16, at the home of Jendo Turner.

The first regular meeting of Rho Xi Chapter of Beta Sigma Phi was held the home of Mrs. Skipper Driver Sept. 2. The meeting was called to order by President Mary Sale.

A report from Beth Black was given on the plans for the fall rush party, and it was decided that the theme, "Life Begins at 40," be used as party costumes and decor. A speaker for the fall book review discussed and tabled.

Beverly North was elected the 1971-72 Valentine Sweetheart. The chapter's state project is the Kidney Foundation, and Halloween candy will be sold with proceeds going to the foundation. As the local project, it was decided to do something to help our school system.

The meeting was adjourned and a study of Beta Sigma Phi was given by Vice-President, Sarah Blocker.

The program, "Invitation, and Introductions," was given by Mary Dietiker. The 11 members present, enjoyed a salad supper following the meeting.

Morning Club Has Meeting

The Courtney Morning Club met on September 2, in the home of Mrs. Chalmers Wren. Mrs. Francis Pitman presided over the meeting.

The roll call was answered by: a hint on how to add a fall touch to a summer dress.

There were seven members present, and one visitor.

County Home Demonstration Agent, Mildred Eiland, spoke on "Homemaking Work Today." "It's a still a full-time job," she commented. Items such as, budget, foods, and clothing ideas were discussed.

The next meeting of the club will be held September 16, in Big Spring, at the Rest Home with Mrs. Lillie Graham.

Veterans News

Martin L. Gibson, County Veteran Service Officer, states the following instructions to be used in obtaining Disabled Veterans License Plates:

1. To qualify for Disability Vet License Plates, a veteran must:
 - (a) Be a Texas resident
 - (b) Be a veteran of the United States Armed Forces
 - (c) Have a service-connected disability of at least 70 per cent
 - (d) Now be receiving compensation from the Federal Government as a result of such disability
 - (e) Texas title must be in applicant's name before application for Disabled Vet license plates can be approved
2. Only one set of free plates may be obtained annually for either a passenger or a light commercial vehicle having a manufacturer's rated carrying capacity of one (1) ton or less.
3. Registration of vehicle must be in the name of the disabled veteran, but not necessarily in his name solely. Joint ownership is permissible.
4. Vehicle must be used for veteran's personal use only.
5. Section 1 of the application must be completed by the applicant, and then forwarded to the Veteran's Administration, or appropriate branch of the Armed Forces for verification of the veteran's disability rating.
6. Upon confirmation of the disability rating by the appropriate office, the applicant may mail or present the application for registration, and the application fee of (\$1.00) to the:

Texas Highway Department Motor Vehicle Division 40th and Jackson Avenue Austin, Texas 78703

7. If approved, Disabled VET License Plates will be mailed to the veteran at the beginning of the registration renewal period (February 1st).

NOTE: Application must be submitted to the department by October 1st, preceding the registration year for which requested.

These applications may be obtained at the Veterans Service Office, or the Sheriff-Tax Collector's Office.

Serving in Germany

Frankfurt, Germany — U. S. Air Force Staff Sergeant L. E. Jones, son of Mr. and Mrs. Hebrew Jones of Stanton, has arrived for duty at Rhein-Main AB, Germany.

Sergeant Jones, a fuel supervisor, is assigned to a unit of the U. S. Air Forces in Europe, America's overseas air arm assigned to NATO. He previously served at Phan Rang AB, Vietnam.

The sergeant is a 1962 graduate of Carver Junior Senior High School in Midland. His wife is the former Betty M. Minitt.

*—These games will be played at 1:00 p.m.

"BE STILL SON." — Juan Gonzales got involved with Pee Wee Football last week. His son, Ralph, will be among the 50-plus who will play their first game this Saturday.

HD Agents Report

Information the sofa customer gives the retailer can mean the difference between a satisfied shopper and return of the merchandise, reports Mrs. Mildred Eiland, county home demonstration agent.

Customers can aid the retail interior designer by giving him a floor plan of their living room, Mrs. Eiland suggests. In the plan, include dimensions of the wall or area where the sofa will be used, and show placement of other furniture in the room. Special formal, semi-formal, and casual design, plus preference of color and texture of fabric for the sofa.

If the sofa is for a first home, it should be the first piece of living room furniture selected, the specialist says. And, she will still need a floor plan as a guide.

If the customer selects an over-sized sofa, she should know the length and height of the elevator in her apartment building, and the width of doorways through which the sofa must pass. If there are stairs, the width of the staircase and height of ceiling above are also important. If the customer has a home, she should include the width of the doorway and foyer in the plan.

Sheriffs Plan Trail Ride September 11

The Martin County Sheriff's Posse plans a trail ride for Saturday, Sept. 11, at 9:30 a.m. The group will start at Chalmers Wren's home and proceed to the Old Houston headquarters for pot luck dinner, then return to Wrens.

Anyone with a horse and a sack lunch is welcome to come. Jo Hesson is food chairman for the event, and welcomes everyone to attend, and bring a covered dish. For further information call 756-2540.

Lakeview HD Club Met Sept. 1

The Lakeview Home Demonstration Club met Sept. 1 at 2:00 p.m., in the home of Mrs. E. L. Reynolds. Mrs. Bill McVain led the business meeting. The following business actions were taken.

It was the beginning of the year, and the new club book was passed out, and the club prayer was recited, and the roll was called and was answered with a hint on how to add a fall touch to a summer dress.

Year books were filled out, and a motion was made that \$1.00 was the cost of the book, and that the fee was voted by the club to be paid out of the treasury.

Mildred Eiland, home demonstration agent, spoke on home making today.

Chocolate supreme cake, and line punch were served. Mrs. Eiland, Mrs. Bessie Chapman, Mrs. Bertha Stewart, Mrs. J. R. Hopper, Mrs. Bill McVain, Mrs. Alfred Franks, Mrs. W. D. Bryant, Mrs. W. J. Harlow, and Mrs. E. T. Reynolds.

no compromise engines

Step up in engine power without increasing engine bulk

With John Deere Tractors, you get the power you need in the size tractor you need. John Deere 95-h.p. 4000 and 4020, 116-h.p. 4320, and 135-h.p. 4620 Tractors are powered by engines designed to fit comfortably into these sensibly-sized tractors... with no compromise of visibility, handle-ability, or versatility. Whether you farm 600 acres or 16 sections, your tractor must fit the same-width rows, middles, and furrows... and these do. No Compromise!

Tailor-Made Air-Supply Systems. John Deere engineers increased engine air supply instead of engine bulk. With John Deere's Turbo-Building and exclusive Intercooling, air supply is matched to each engine's specific power output. You get all muscle. No Compromise!

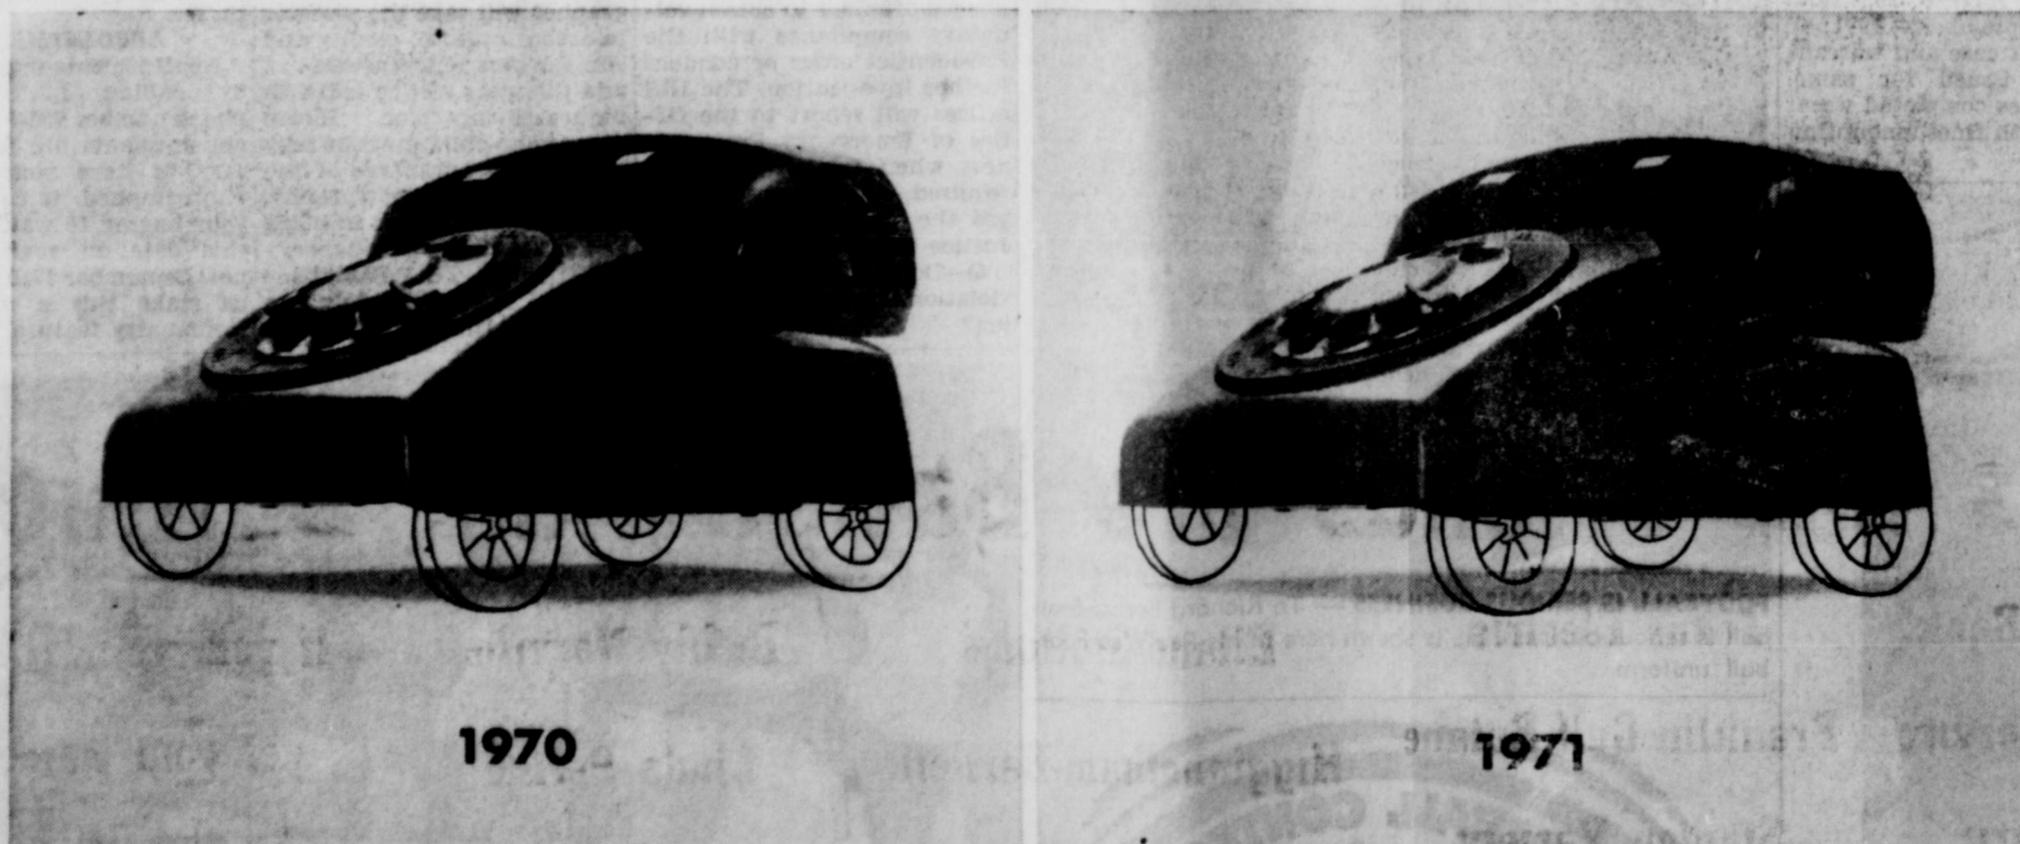

Stronger, Longer-Wearing Parts. John Deere engineers strengthened parts rather than just fattening their size.

Engineered for Farm Tractors. John Deere Tractor Engines are designed first and foremost for farm tractors: Naturally-aspirated, Turbo-Built, and exclusive Turbo-Built and Intercooled Tractor Engines that will work long hours under heavy loads that would quickly take toll of lighter-built engines in some tractors. Stop in soon and arrange to test drive a new "No Compromise" 4000, 4020, 4320, or 4620.

Cave-Bowlin, Inc.

STANTON, TEXAS

Last year we spent \$740 million on your telephone... and it still looks the same.

The changes don't show. But they are ways of making your phone — the one you've had all along — work better. For instance, the money went for more Long Distance circuits so your

call will go through faster. It also went for more training so that telephone employees serving you will know their job. The money went for new switching systems to speed up connections for

the 56 million calls we handle daily. At Southwestern Bell, we keep working every day, every year, to put a new phone inside your old one. Even if it does look the same. "We may be..."

Buffaloes Take On Tahoka Friday Night

The Roscoe Plowboys were successful in defending their goal line Friday night in a scrimmage against the Stanton Buffaloes. The Buffaloes didn't lose the scrimmage, but they didn't win it either. The whole shooting match was one that brought much needed experience to the Buffaloes. For one thing they discovered what it is like to be scored on (Wink couldn't do it). Scrimmages like this are good for a ball team. They find out how different two teams can be. Wink was slow, without much desire to hit. Roscoe, on the other hand, moved the ball and played hit and run football. Roscoe threw the ball, found a weakness, and threw the ball some more. The Buffaloes secondary will have to be on its toes against Tahoka Friday night. Tahoka likes to throw the ball. In their two scrimmages thus far they have thrown the ball over 24 per cent of the time. And, they are good at it. Buffalo defenders Charles Atchison and David Dillard drew praise from the coaching staff. Consistency describes the two 'ad's work on defense. On offense Frankie Barnhill, Jackie Swanson, and David Dillard were stand-outs. Dillard was praised for his exceptional downfield blocking. Barnhill is running good with the ball, his quick bursts through the line are looking good. The Buffaloes will be attempting to break an 18 game losing streak against Tahoka Friday night at Tahoka. This is THE game for the Buffaloes. Light 'em up Buffaloes.

"We're For You Buffaloes. Beat Tahoka!"

- SOIL CONSERVATION - DISTRICT NEWS OUR SOIL ★ OUR STRENGTH MARTIN-HOWARD-MIDLAND SOIL CONSERVATION DISTRICT

How many times have you seen wind-swept waves splash against the edge of your favorite lake, steadily eroding the shoreline?

Or watched the wave action gouge away the sod of an earthen dam?

Probably too often, especially if the dam or lake have a long surface area facing the prevailing wind.

One way to stop this damage is with expensive stone riprap. But Soil Conservation Service plant scientists are hoping they can find plants that will do the same job under most conditions — and with far less cost.

Clyde W. Graham of Temple, state conservationist for

SCS, says several water tolerant grasses and shrubs appear to have promise for helping reduce wave action damage. SCS constantly searches for superior plants that will help solve a wide variety of conservation problems.

"For cutting shoreline erosion, we are looking for plants that will do a better job than bermudagrass," Graham says. "Common reedgrass, giantreed, switchgrass, and indigo-brush are some of the plants that have shown up best so far."

Graham explained that bermudagrass will usually protect a shoreline or dam unless the surface fetch is too long. The problem is aggravated if a

long fetch faces north, north-west, or south.

"After analyzing wave action damage on upstream watershed lakes in Texas, we decided that you can expect damage any time the fetch exceeds one-half mile to the north or northwest. Longer fetches to the south also cause trouble."

SCS, in cooperation with the state's 190 local soil and water conservation districts, is trying to find combinations of water-loving plants with strong root systems which can hold against constant pounding from wind-blown waves. Since availability of trial planting stock is a problem, SCS workers first have had to dig up most of the promising plants, then transplant them at the SCS plant materials center at Knox City. Here, along with hundreds of other plants, they are propagated and grown for increase. The center is the focal point of the SCS search for superior conservation plants.

Plants with shoreline protection values may also help stabilize eroding streambanks. Conservation leaders hope plants which prove superior for those purposes will eventually be grown commercially by seed producers for sale to the public.

"Right now, however, we need to learn more about which will prevent wave erosion under a variety of conditions," Graham stressed. "Further studies will have to be made to determine the best combinations of plants. We were also just beginning to learn something about proper planting patterns."

Graham said that the first shoreline evaluation plantings were made in 1969, and so far have been done largely by hand. He hopes easier and faster methods can be developed in the future.

Here are traits of some of the plants which appear most promising:

Common reedgrass—Spreads rapidly from thick rhizomes (underground shoots). Canes grow 10-12 feet tall in one year, die back in the winter. Produces very few seed, but spreads quickly when 8 to 15-inch rhizomes are planted. Is relished by cattle so it needs protection from grazing.

Giantreed—Often called Georgia cane. A tall, coarse perennial commonly planted for erosion control. Short rhizomes at the base form a

woody mass highly resistant to erosion. Appears most valuable as backup plant for use with other species on lakes or dams where the surface elevation fluctuates widely.

Switchgrass—Spread from short rhizomes to form a dense sod of tough fibrous roots forming a hard mass at the soil surface. It is readily established from seed which gives it a distinct advantage over plants which have to be transplanted. Highly relished by livestock, it needs protection from grazing.

Indigo-brush—An attractive native shrub which has both beautification and erosion control values. Good seed producer. Often grows 12-15 feet high. Sprouts freely from the base to form a thicker or shrub-like barrier. It is not rhizomatous, so erosion protection is dependent upon surface root development. Competes well with grass sod and apparently is not eaten readily by livestock.

Graham said several other plants are also being evaluated but little is known as yet about their long term value. Some of these include button-bush, switchcane, giant cut-grass, maidengrass, sandbar willow, and African cocksbur.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

If prognosticators of High Plains cotton production are correct, area farmers in 1971 will harvest the biggest cotton crop since 1965, the sixth largest crop in Plains history — and may well reap an all-

time record crop of cash dollars for their efforts. The estimate, compiled jointly by the Lubbock Cotton Exchange and Plains Cotton Growers, Inc., sets production prospects of the 25 counties

represented by PCG at 2,015,000 bales, assuming "normal" weather conditions through September and October. Normal rainfall at the Lubbock Weather Station for September is about 2.25 inches, average minimum temperature is 57 degrees, average maximum is 85 degrees, and the average freeze for frost date is November 4.

A BALE OF COTTON? — To those who have never seen cotton in the raw, this is a bale of cotton before it is ginned. The cotton belonged to Jerry Graham, who ginned the first bale of cotton in Martin County.

The estimate is up 214,000 bales from the guess made on August 1, primarily due to errors in acreage figures on the earlier assessment, and to beneficial rains on dryland cotton during August. Standing acreage is now estimated at 2,392,000, up from 2,222,000 estimated on August 1 before firm criteria were available on which to judge the extent of cotton plantings. Farmers were required to certify planted acreage to county Agricultural Stabilization and Conservation Service offices by August 1, and ASCS office managers now have a much better idea to the acreage devoted to cotton production. Some how- ever still have not announced an official total.

Value of the Plains crop, at 2,015,000 bales, could pass the \$400 million mark this year for the first time. In 1961 when the Plains grew its biggest and most valuable crop, 2,457,703 bales, cash value to farmers was calculated at just below \$400 million. Other years in which production was greater than prospects now seen for 1971, include 1958, 1962, 1963, and 1965. Respectively, production for those years totaled 2.1, 2.4, 2.2, and 2.3 million bales.

The 1971 crop could pump a total of \$412,355,000 into the High Plains economy, basing its value on an average 24 cents a pound for lint, and \$55 per ton for cotton seed, and including \$136.3 million in price support payments already made in the area.

A crop in line with the current estimate would exceed last year's production of 1,734,767 bales by over 280,000 bales. It would even farther outstrip the crops of 1966, 1967, 1968, and 1969, when gin- nings came to 1.3, 1.3, 1.6, and 1.5 million bales respectively.

Officials of PCG and the LCE point out that the September 1 estimate, as is the case to some extent every year, likely will require adjustments as the season progresses. "With ideal weather conditions for the next two months," says Jerry Boothe, Chairman of the LCE Statistics Committee, "this crop could yield as much or even more than the crop of 1961. On the other hand," he cautions, "if rainfall, temperatures, and an early freeze should all work against us, our rosy predictions could go right out the window, and production could drop to a million-and-a-half bales."

The long range weather forecast for the Plains calls for September temperatures one to three degrees below normal, and for rainfall of two inches or more in most sections. Effects of such factors, if they materialize, will depend on timing of rainfall and low temperatures, conditions that follow in October, and of course on the freeze date.

Donald Johnson, executive vice president of PCG, says "If weather conditions are not extreme, either good or bad, the estimate should be well within the ball park."

News Of Insects

By BOBBY GRAVES

The boll weevil still has not made an appearance in Martin County. This may be due to the long dry spell during the past winter. If so, the cotton farmers have received a great deal of good from the dry winter.

The bollworm activity has decreased during the past week, but there is a possibility of another significant increase during the first two weeks of September. However, there is a large build up of lacewing flies over the county, which may hold the bollworm in check.

Mr. and Mrs. Graves Attends Pilgrimage Day

Mr. and Mrs. Walter Graves attended the 23rd annual Pilgrimage Day, Sunday, for the Oddfellows and Rebekahs at Corsicana and Ennis, Texas. Walter Graves has been a member both of the Oddfellow Stanton Lodge, and the Stanton Rebekah Lodge for 25 years. Mrs. Graves also has been a member of the Stanton Rebekah Lodge for 25 years.

Comfort is...

Fresh, warm air gently circulating from floor to ceiling . . . down-to-earth dependability . . . easy-on-the-budget operating costs. Comfort is gas heating. There's no heat more comfortable.

And there's no heat cleaner than gas. Gas burns clean. It's one energy source that doesn't dirty the air.

Air-circulating gas heating systems also give you the first-half of a built-in gas air conditioning system. Adequate heat ducts can carry cool

air to your whole house too — so you can add-on gas cooling right away or later if you prefer. Together, gas heating and gas cooling are an unbeatable combination for year 'round total comfort.

If you're building a home or planning to replace an out-dated heating system, choose thrifty gas heat. Check with your heating contractor.

Dallas Is A Nice Place To Visit — Not To Live

By LINDA PERINE

Do you think you have problems? Well, after spending the long week-end in big "D," I feel like I have it made as far as free from disasters. By the way, next time it enters your mind "You can't stand your children," take a tip from me. Go to the great Southwest Texas "New York." I thought Los Angeles was bad this time last year, but believe me Dallas has caught up with L. A. I would be scared to attempt to go to L. A. now.

Really, it is disgusting to be surrounded with all those negative thinkers. First of all the people there just as soon walk over you as run over you with a car! And even a little small town "sass" doesn't help either. You go in the restaurant, and you have to pursue the waitress to give you some service. The department stores are the same, you walk for what seems hours to find a salesperson to wait on you, and just as you find something you just love, and know you can't possibly have it until you see another pay check, here comes this inconsiderate sales person, and they start the line on how "this becomes you," and how "you won't regret this purchase."

When you know more about what disasters might hit you before another check than they do! I must say this upsets me totally.

And Mothers and Fathers this is the truth. The young and old boys are wearing wigs o school to disguise their waist long hair. And about the Hot Pant situation, I'd say 90 per cent of this category needs to attend the Health Spa daily.

You name a disaster and it's there in Texas' "New York." There are families that live in Oak Cliff, which is the richest part of Dallas, who live across the street from the age level school their child should attend, and their child is being bussed across town.

Mothers are leaving their children with sitters while they work, it has been proven their children were given paragon to make them sleep until their mothers picks them up!

The theory to this is money isn't everything! I know the people around Dallas make lots more money than we do, but are they better off. Go to Six Flags, or the State Fair, or just visit Dallas before winter comes, and believe me you'll think you've been somewhere, and seen it ALL!

Texas Baptist To Raise \$1 Million To Meet Needs

Texas Baptists in nearly 4,000 churches across the state will seek to raise \$1 million in a special offering in September as part of their greatest effort in history to apply Christ's love to the spiritual and physical needs of all Texans.

The \$1 million goal for the Mary Hill Davis Offering, named after a pioneer missionary, accompanies a week of prayer for state missions in Texas Baptist churches Sept. 12-18.

"We are urging every Texas Baptist church to have a part in the largest offering of this type in history," said Dr. Charles McLaughlin of Dallas, secretary of the denomination's State Missions Commission.

Sunday, Sept. 28, has been suggested as "Ingathering Day" when the church members bring the offerings and share in a special service of dedication.

About 400,000 dime banks, each of which will hold \$5, have been sent to Texas Baptist churches throughout the state, said Miss Eula Mae Henderson, executive secretary of the Woman's Missionary Union.

About one third of the offering will be used for new mission work in metropolitan areas where such ministries couldn't otherwise be started. Other urgent missions needs which the offering will undergird include aid to church in transition communities, new church buildings and land on which to build, mission starters, a "are and share" program to provide adequate facilities for Latin American

congregations, and disaster relief mobile units, scholarships for worthy Latin American and Negro students, the Rio Grande River ministry, missions in Minnesota-Wisconsin, more student summer missionaries, the Mexican Baptist Bible Institute, San Antonio, and the Valley Baptist Academy, Harlingen.

Local News In Brief

Mr. and Mrs. Tull Ray Loudner, Mrs. John McIntyre, and Mrs. James Jones attended market in Dallas over the week-end.

Lora Bell Tom visited with her sister last week in San Antonio. Her sister underwent surgery in a San Antonio hospital.

Mr. and Mrs. W. M. Carr, and Mr. and Mrs. Robert J. Carr from Houston, and Mr. Preston Carr from Mesquite, Texas, have been visiting their mother, Mrs. Virginia Knoblock.

Mr. and Mrs. D. E. Ory had as their guests this past week-end, Mr. and Mrs. John Ory, and son, Dewayne John; Mrs. Virginia Henson, and children, Randy, Ronnie, and Glee, of Stanton; Mr. and Mrs. Tom Alexander, and sons, Gregg and Steve; Mr. and Mrs. L. A. Griffith, Big Spring; Mr. and Mrs. G. C. Griffice, Big Spring; Mr. and Mrs. Billy Griffice, and children, Cheryl, Kay, and Bruce, from Ras Taunara, Saudi Arabia, and Mr. and Mrs. Ray Simpson, and children, Carl, Janis, and Kim, of Hereford.

State (in San Antonio North Expressway case) is testing a federal court ruling that it cannot build a highway with its own money if application for federal assistance is rejected.

Seventh Grade Footballers Are Eager To Play

Coach Don Goodum, seventh grade coach, reports that he has 32 boys out for football. That's just about every boy in the seventh grade.

This is the first year any of these boys have played any

football, other than sandlot. However, Don, says he is very pleased with the progress these boys have made. "They are enthusiastic, eager, and coachable," Don says. "I feel that there is some very definite talent in this group of young men."

Potentially, this could be the best class of boys to come Stanton way in a long time—in regard to size, intelligence, and desire to be winners—not just winners.

The boys have learned the basic offensive, sets plays, and strategy. This is a big step in the right direction.

Boys out for football in the seventh grade are:

SEVENTH BACKS
Tommy Haislip, Terry Smith, Bimbo Allred, Kenny McCallister, Bobby Klein, Marty Douglas, Richey Irvin, Jerry McIntyre, Richey Lewis, Ike Odaker, George McCallister, and Kerry Gregg.

SEVENTH LINEMEN
David Louder, Russell Conner, Carlos Carrillo, Floyd Sisson, Raymond Villa, Craig Alsup, Douglas McCallister, Randy Doshier, Tim Glynn, Frank Atchison, Felix Aquirre, Mike Hudson, Randy Huddleston, Vernon Cox, Roger Owens, Joe Dean, Wayne Pinkerton, Gary Barnes, Baxter Brown, and Richey Fleckenstein.

Stanton School Lunch Menu

Sept. 13 Through Sept. 17:
Monday: Spaghetti rings and meat balls, stuffed celery, buttered corn, baked spinach, mixed fruit, hot rolls, buttered and milk.

Tuesday: Chicken fired steak and gravy, apple and calary salad, parisey potatoes, buttered squash, chocolate cake, milk, and rolls.

Wednesday: Hamburger on bun, lettuce, tomatoes, pickles, onions, ranch style beans, potato chips, fruit gelatin, orange juice, and milk.

Thursday: Barbecue weiners, pinto beans, potato salad, peach cobbler, corn bread, butter, and milk.

Friday: Salmon patties, English peas, macaroni and cheese, carrot sticks, banana pudding, butter, milk, and hot rolls.

The best way to care for your own interest is to look after your Master's interests.

Martin County Hospital News

Admitted August 30 to September 5, 1971:

August 30: Bessie Ward, Ralph Ortiz, Yolando Ortiz, Bertha Bernam, and Jesse Oliver.

August 31: Esta Kelly.
September 1: Angela Bobo, Gloria Gossett, Dillia Scoggins, Jeanette Perkins, and infant son.

September 2: Mae Petree, and Grace Mayberry.

September 3: Bessie Gail.
September 4: George L Stewart, and Jose C. Hernandez.
September 5: Lela Bassham, and O. B. Harrison.

Dismissed August 30 to September 5, 1971:
August 30: Jimmy B. Dean.
August 31: Josephine Hinojosa, and infant girl.

September 1: Esta Kelly, September 2: Yolanda Ortiz, and Gloria Gossett.

September 3: Ralph Ortiz, Angela Bobo, and Thomas J. Walker.

September 4: Bessie Ward, Jeanette Perkins, and infant son, May Petree, and Grace Mayberry.

Beihany Class Has Luncheon

A luncheon by the Bethany Sunday School Class of the First Baptist Church was held Thursday, September 2, at the Church. Seven class members, and five guests were present.

Members present were: Mrs. Oma Womack, Mrs. Ruth Holloway, Mrs. Eruda Towery, Mrs. Hattie Estes, Mrs. Clyde Geurin, Mrs. Jane Stovall, and Mrs. Mac Yater.

Guests were: Rev. Warren Hall and wife, the Music and Youth Director, Danny Pennington, and wife, and Mrs. Lillian White.

SEVENTH AND EIGHTH GRADE SCHEDULE

September 16 — Coahoma — There — 4:30 P. M.
September 23 — McCamey — Here — 4:30 P. M.
September 30 — Rankin — There — 4:30 P. M.
October 9 — Wink — Here — 9:30 A. M.
October 21 — Crane — There — 4:30 P. M.
October 28 — McCamey — There — 4:30 P. M.
November 4 — Rankin — Here — 4:30 P. M.

A Team In The Making - Size And All

If size makes a football team — consider one in the making in the eighth grade. That's what I said, they're big in the eighth grade. And coach Richard Granado expects them to be a good team by the time they are seniors in high school.

The boys have been working out about three weeks now in pads, and they have worked out a lot of kinks. They looked a little rusty at first, but they're coming around now. "I am well pleased with the way they are looking," Coach Granado said.

Some new players who are expected to make a contribution to the team are: Elvin Brown, Mark Cook, and Ruben Sanchez.

Stitch And Chatter Club Has Meeting

The Stitch and Chatter Club met recently with Mrs. Mary Haislip.

Those present were: Mrs. Eddie Butler, Mrs. John Poe, Mrs. A. J. Stallings, Mrs. Rene Matthews, Mrs. Oma Womack, Mrs. J. A. Wilson, Mrs. Edmund Morrow, Mrs. M. L. Gibson, Mrs. Hattie Estes, Mrs. Ruth Holloway, and a visitor, Mrs. Ray Kelly.

The hostess served ice cream, cake, and coffee. Mrs. Edmund Morrow will host the next club meeting to be held September 15.

Weekly Laughs

By GUY MARBLE

Overheard last week in a local bank . . .

Could I please speak with someone about a loan," a gentleman said to one of the tellers.

"Sorry," the teller replied, "but the loan arranger is out to lunch at this time."

"In that case, let me speak with Tonto," the gentleman said.

Read it out loud the second time if it got by you on the first round.

Equipment Required On Farm Tractors In Texas

Farm Tractors — Self propelled unit of arm equipment or implement of husbandry.

I. Hazard Warning Lights

A. Required on vehicles manufactured or assembled after January 1, 1972.

B. Front
1. Two
2. Mounted at same level

3. As widely spaced laterally as practicable
4. Display simultaneously flashing amber or red lights, or any shade of color between white or amber.

C. Rear
1. Two
2. Mounted at same level

3. As widely spaced laterally as practicable

SCHOOL BELLS RING

School bells rang Monday for some former Stantonites.

At Angelo State University this year are Johnny and Debra McMeans, Rusty Ricks, George and Carl Dean, Rhonda Kuhlman, Allan Gregston, Debra Robinson, Joy Dunn, and Bobby Hall.

At Baylor are Robbie Dickinson, and Larry Adams.

Texas Tech has David Workman, Sheila Manning, Chuck Harris, David Hicks, Steve Stallings, and Randy Nichols.

And Pam Petree, Bert Decker, and Scotty Fisher are in San Marcos for another year.

Motorists no longer can stop and then pass a school bus loading or unloading children under a law effective August 30.

ally as practicable
3. Display simultaneously flashing amber or red lights, or any shade of color between amber and red.

D. Visible not less than 1,000 feet to front and/or rear in normal sunlight

E. Shall be displayed whenever such vehicle operated upon a highway

II. Head Lights
O. Two head lamps — meeting requirements of either Sec. 126-128 or 129

III. Tail Lights
A. Red tail light
1. Visible not less than 1,000 feet

2. Mounted as far to the left of the center of the vehicle as practicable

IV. Reflectors

A. Two red reflectors visible from 600 feet to 100 feet to the rear when in front of lawful lower beams of head lamps

V. Combination of Farm Tractor and Towed Farm Equipment or Towed Implements of Husbandry
A. Operated during time mentioned in Sec. 109

1. One half hour after sunset of one half hour before sunrise
2. Any other time when due to insufficient light or unfavorable atmospheric conditions, persons and vehicle on the highway are not clearly discernible at a distance of at least 1,000 feet

B. Farm Tractor equipped as I. above if manufactured or assembled on or after January 1, 1972, and equipped as II, III, and IV. above at all times when operated upon a public

highway at time mentioned in Sec. 109.

C. Towed Unit

1. If unit or load extends more than 4 feet to rear of tractor or obscures any light thereon, it shall be equipped with at least 2 red reflectors visible 600 feet to 100 feet to rear when, directly in front of lawful lower beams of head lamps.

2. If towed until extends more than 4 feet to the left of the center line of the tractor, it shall be equipped on the front with an amber reflector visible from 600 feet to 100 feet in front of lawful lower beams of head lamps.

a. Shall be so positioned to indicate, as nearly as practicable; the extreme left projection of towed unit.

3. The 2 red reflectors shall be so positioned on the rear to show, as nearly as practicable, the extreme which of the vehicle or combination carrying them.

4. Provided all other requirements are met, reflective tape or paint may be used in lieu of the reflectors.

Sec. 126 — require multiple-beam lighting equipment — high and low beams.

Sec. 128 — defines single-beam road lighting equipment.

Sec. 129 — alternate road lighting equipment — 2 lighted lamps revealing persons or objects 75 feet ahead and operated not over 35 miles per hour.

Oilpatch Outlook

Albritton Exploration Co. of Bryan and Midland, has struck its No. 1 Heald-Beckham, a 12,500-foot Fusselman explorer in Martin County, 5 1/2 miles south of Fusselman production in the Tex-Hamon multipay field Dawson County.

The site spots 660 feet from north and west lines of section 7, block 36, T-3-N, T&P survey, 14 miles northwest of Lenora, and about 1 1/2 mile northeast of a west extension area of the Sulphur Draw (8,790 Dean) field.

Drilling is to commence immediately. Tri-Service Drilling Co. of Midland, is the drilling contractor.

Adobe Oil Co. of Midland, has completed No. 5-H Sale Ranch as a new producer in the Martin County sector of the Spraberry Trend Area.

On a 24-hour potential test it pumped 217 barrels of 39.8-gravity oil, plus 11 barrels of water, through perforations at 8,191-9,077 feet, which had been acidized with 3,000 gallons, and fractured with 80,000 gallons, and 240,000 pounds.

Wellsite is 1,320 feet from north and east lines of section 10, block 37, T-1-N, T&P survey, 11 miles northwest of Stanton township.

The Martin sector of the Spraberry Trend Area gained three new producers.

RK Petroleum Corp., Mt. Carmel, Ill., completed No. 1 Joanna Woodward as a 1 1/2-mile northwest extension, to pump 80 barrels of 37-gravity oil, and 90 barrels of water daily, with gas-oil ratio meal surging 827-1.

Production was through perforations at 8,256-9,190 feet, which had been acidized with 3,500 gallons, and fractured with 100,000 gallons, and 200,000 pounds.

Location is 1,320 feet from north and east lines of section 6, block 37, T-2-N, T&P survey, two miles north of Tarzan.

RK completed No. 1 Hous-

ton Woody to flow 234 barrels of 37.8-gravity oil daily, with gas-oil ratio of 800-1, through a 12-64-inch choke, and perforations at 8,344-9,173 feet, which had been acidized with 3,500 gallons, and fractured with 100,000 gallons, and 200,000 pounds.

Location is 1,320 feet from south and east lines of section 4, block 37, T-1-N, T&P survey, four miles south of Tarzan, and surrounded by production in the Trend Area.

Adobe Oil Co. of Midland, finalized No. 1-K Sale Ranch, to pump 217 barrels of 39.90-gravity oil, and 11 barrels of water daily, with gas-oil ratio of 805-1, through perforations at 8,880-9,081 feet, after acidizing with 2,000 gallons, and fracturing with 80,000 gallons.

A 1/2-mile south and east extension, it spots 1,320 feet from north and west lines of section 29, block 37, T-1-N, T&P survey, 10 miles northwest of Stanton.

Belco Petroleum Corp., Midland, plans No. 2 Woodard as a 1 1/2-mile southwest outpost to the Spraberry Trend Area in Martin, but separated from production in the field by a well assigned to the Sulphur Draw (8,790 Dean) field.

Scheduled depth is 9,400 feet for the test, which spots 1,320 feet from south and west lines of section 26, block 36, T-3-N, T&P survey.

An outpost and an offset to production have been planned in the Martin sector of the Trend Area.

Morueco Corp., Mt. Carmel, Ill., plans No. 1 Sedgwick as a 1 1/4-mile southwest outpost to the area, 3/8-mile south of production in the Sulphur Draw (8,790 Dean) field, 10 miles north of Tarzan.

Slated to 9,300 feet, the project spots 5,093 feet from north, and 6,296 feet from east lines of league 252, Ward CSL survey.

John L. Cox of Midland, plans No. 2 Schenecker as a 1 1/2-mile north offset, 1,320 feet

from south and east lines of section 18, block 38, T-1-N, T&P survey, 12 miles northwest of Stanton. Projected depth is 9,400 feet.

Hanson Oil Corp. of Roswell, N. M., has repotentialized as a Devonian oil opener No. 1 W. H. Butler, former Fusselman oil producer, and Devonian gas well in the Midland, Southwest field of Midland County.

Through an 8-64-inch choke, and perforations at 11,888-12,025 feet, which had been acidized with 3,000 gallons, and fractured with 50,000 gallons, and 140,000 pounds, it finalized to flow 72.2 barrels of 51.5-gravity oil per day, with gas-oil ratio of 7,461-1.

It was completed March 23 for a calculated, absolute open flow of 1.1 million cubic feet of gas per day, with gas-condensate ratio of 9,915-1, through perforations at 11,838-11,951 feet.

Dual completed was from of 51-gravity oil daily, through the Fusselman for 240 barrels a 24-64-inch, and perforations from 12,522-12,544 feet. It is depleted in that pay.

Drilled to 12,960 and plugged back to 12,880 feet, it has 7-inch casing set on total depth.

The following tops were picked on kelly bushing elevation of 2,829 feet: Yates, 2,282; San Andres, 4,611; Glorieta, 5,860; Spraberry, 7,870; Dean, 9,150; Wolfcamp, 9,360; Strawn, 10,407; Atoka, 10,617; Bend, 10,719; Mississippian, 11,644; Woodford, 11,727; and Devonian, 11,824 feet.

Location is 660 feet from south and 1,320 feet from west miles of section 5, block 39, E-2-S, T&P survey, one mile southwest of Midland township.

The field has one marginal Fusselman oil well, and one Devonian gas well. Enleburger oil production is depleted.

North American Royalties, Inc. of Midland, plans No. 1-5 TXL as a 3/8-mile southwest outpost to Devonian gas production in the Azalea multipay field of Midland County.

Drill site for the test, slated to 11,700 feet, is 1,320 feet from south and east lines of

section 5, block 37, T-4-S, T&P survey, 17 miles southeast of Midland.

William E. Hendon Jr. of Midland, plans to plug back from 11,200 feet to 9,350 feet, and test at No. Brunson, Glasscock County wildcat failure, 14 miles west of Garden City.

Originally drilled by K. M. Jastrow of Midland, as No. 1 Glen Brunson, it was plugged and abandoned Sept. 13, 1969, after flowing gas at the daily volume of 160,000 cubic feet, through a 1/2-inch choke on a drillstem test in an unidentified formation between 9.1 183-9,250 feet.

An earlier drillstem test from 8,386-8,429 feet, recovered 300 feet of oil, and 700 feet of fresh water.

It is two miles northwest of the Bialock Lake (Wolfcamp) field, 1,980 feet from south and 660 feet from east lines of section 33, block 35, T-2-S, T&P survey, abstract 309.

Tom Brown Drilling Co., Inc., of Midland, was waiting on cement after setting 5 1/2-casing at 8,157 feet, total depth, for completion attempt at No. 1-40 Free, 1/2-mile south offset to the two-well Schiemenz (Spraberry) field of Howard County.

No drillstem tests have been reported.

The test spots 1,320 feet south and east lines of section 40, block A, Bauer & Cockrell survey, 12 miles northwest of Big Spring.

Continental Oil Co. staked site for No. 19-C G. O. Chalk as a 3/4-mile southwest outpost to middle Clearfork production in Howard-Glasscock multizone field of Howard County.

Location for the 3,900-foot test is 2,173 feet from north and 1,650 feet from east lines of section 140, block 29, W&NS survey, five miles east of Forsan.

Colorado Oil Co., Big Spring, will drill No. 3-D Reed as a 3/4-mile southwest offset to the nearest middle Clearfork producer on the southwest side, in the Howard-Glasscock multizone pool of Howard County.

Drill site for the project is 1,980 feet from north, and 660 feet from west lines of section 142, block 29, W&NS survey, six miles east of Forsan. Scheduled depth is 3,800 feet.

High school equivalency examinations are offered to hospitalized veterans at 97 Veterans Administration hospitals.

LET'S GET ACQUAINTED—Jomamae Cox, daughter of Mr. and Mrs. Bob Cox, of Stanton, got acquainted with George Mahon in Midland. She was one of hundreds to honor Mr. Mahon on his special day in Midland.

Freeze - - -

(Continued from page 1) apprentice's and learner's rates under the programs set up before August 15. However, merit and longevity increases are not permitted during the Freeze.

Q — What sort of penalties will be invoked against businesses that violate the Freeze?

A — The Justice Department may seek an injunction to stop an individual or business from violating the Presidential order. Failure to comply with the injunction may place the violator in contempt of court, and result in the handing down of civil penalties on an escalating daily basis.

The law also provide a \$5,000 fine which may be imposed for each violation.

Q — My college announced last spring that it would raise tuition for the fall semester. Is this increase covered by the Freeze?

A — No. Increases in tuition rates announced before August 15 may still take place, even though they do not go into effect until September, because commitments and, in many cases, playments have already been made.

Q — My landlord sent me a notice the first week of August that my rent was to be increased as of September 1. Do I have to pay the increase?

A — No. Rents on apartments and houses cannot be raised during the Freeze period. Even if an agreement had been signed before August 1, and scheduled to go into effect after the 15th, the increase would not be allowed.

Q — I'm moving into a new apartment. How can I tell if my landlord is over-charging me for rent and violating the Freeze?

A — Check the rents charged for comparable apartments in the immediate area. The rent you pay cannot be any higher.

Stanton Students Receives Degrees At Texas Tech

Texas Tech University President Grover E. Murray awarded approximately 1,505 degrees in 1971 commencement exercises in August. It was a record number for summer graduation ceremonies.

From Stanton were: Philip Marlow Payne, Bachelor's Degree in Accounting; Manny Houston Pointer, Bachelor's Degree in Engineering Physics, and Sherry Lynn Vest Cox, Bachelor's Degree in Government.

Equipment Requirements On Farm Trailers In Texas

- A. Only one required until January 1, 1972
- B. Two required after January 1, 1972, visible 1,000 feet
- C. Only required on rear-most vehicle in combination
- D. Both mounted on same level
- E. Widely spaced laterally as possible
- F. Mounted 15" to 72" high

II. White light on license plate

- A. Lighted when head lights (or auxiliary lights) lighted
- B. Make license plate legible 50' to rear

III. Reflectors

- A. Visibility
 - 1. After January 1, 1972 on vehicles assembled or manufactured prior to that time, must be visible 100' to 350'
 - 2. On vehicles assembled or manufactured after January 1, 1972, must be visible 100' to 600'
- B. Required
 - 1. Two or more on rear, red
 - 2. 15" to 60" mounted height
- C. If vehicle is 80" or more in width
 - 1. At front, mounted on each side, one amber reflector
 - 2. At rear, mounted on each side, one red reflector

IV. Stop Lights

- A. Two required after January 1, 1972
- B. Visible 300 feet
- C. Activated upon application of foot or service brake
- D. Must be red or amber

V. Clearance lights (Required if 80" or more in width)

- A. At front, two amber lights, one on each side
- B. At rear, two red lights, one on each side
- C. Mounted on permanent part of structures so as to indicate width and height of vehicle

VI. Side marker lights (Re-

quired if 80" or more in width)

- A. At front, two amber lights, one on each side
- B. At rear, two red lights, one on each side.

After January 1, 1972 if vehicles is 30" or more in overall length, one amber side marker lamps, and one amber reflector will be centrally located on the side of the vehicle.

VII. On vehicles over 80" wide after January 1, 1972,

- three red identification lamps will be grouped in a horizontal row, the lamp centers spaced not less than six, nor more than 12 inches apart, mounted on permanent structure at vertical center line, shining to rear.

VIII. Turn signals

- A. After January 1, 1972, electric turn signals on every vehicle
- B. Flashing light required
- C. Lamps showing to front to be mounted on same level, and as widely spaced as practical
- D. Lamps showing to rear, white or amber or any shade between white and amber
- E. Lamps showing to rear, to be mounted on same level and as widely spaced as practical
- F. Lamps showing to rear, red or amber or any color between red and amber
- G. Visible for a distance not less than 500 feet in normal sunlight
- H. Turn signals may be incorporated with other lamps on vehicle

IX. Brakes

- A. No brakes required on any farm trailer if gross weight does not exceed 10,000 pounds and speed does not exceed 30 MPH
- B. No brakes required on any farm trailer used solely to transport cotton if gross weight does not exceed 15,000 pounds and speed does not exceed 30 MPH
- C. Farm trailers, to be eli-

gible for brake exemption, must meet all requirements for total or partial exemption from registration fees

X. Inspection

A. Farm trailers, meeting all the requirements for total or partial exemption from registration fees are exempt from motor vehicle inspection regulations.

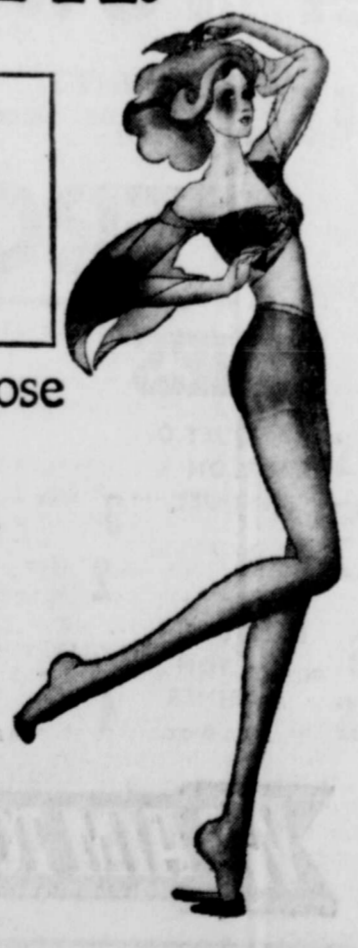

XI. Hazardous warning light (on vehicles over 80" in width or 30' or more in overall length)

- A. After January 1, 1972, hazardous warning light required
- B. Lamps showing to front to be mounted on same level and as widely spaced as practicable
- C. Lamps showing to front, white or amber or any shade of color between white and amber
- D. Lamps showing to rear to be mounted on same level and as widely spaced as practicable
- E. Lamps showing to rear, amber or red or any color between amber and red
- F. Must flash simultaneously
- G. Must be visible for a distance not less than 500 feet.

reinforced engines
reinforced from fan to flywheel with 11 years of engineering developments and the longest warranty in the industry
You're hearing a lot about new tractor engines these days. Engines with replaceable wet-sleeve cylinder liners... with counterbalanced crankshaft and seven main bearings... with valve rotators... and other advanced features. They're good features. John Deere engines have had them for years. And over the years, we've reinforced and refined those features—giving you a reliability bonus. "newcomer" engines don't offer.
Reinforced with specially-cast ring carrier. A non-flexing, iron-alloy carrier for piston rings is cast within each aluminum-alloy piston. It provides a solid foundation for both top and middle rings—not just the top ring as in other engines.
Reinforced with double keystone rings. Wedge-shaped design prevents ring sticking better than the square-cornered rings others use.
Reinforced with specially-coated rings. An exclusive process electroplates the top ring with a super-hard space-age alloy. These coated rings have twice the working life of commonly-used chrome-plated rings.
Hundreds of such reinforcements make John Deere engines the most reliable in the business... backed by the longest warranty in the business. Good reason to make your next tractor a 95-h.p. 4000 or 4020, 116-h.p. 4320, or 135-h.p. 4620.
