Different People

The world is full of people, big people, little people, kind people, mean people. There are a lot of look-alikes and act-alikes, but there are no two people exactly alike.

I suppose a man in a service station sees all kinds come through his driveways. One cold day this past week I was calling on O. C. Turner at his place of business on the Interstate Highway. While I was there talking with O. C. a man came in—he was afoot, granted, there is nothing unusual about a man being afoot, coming into a station. This man was not dressed for the cold weather, his nose was running (he evidently was sick with a cold), and I do not believe he could speak English.

This cold man afoot began to ask for rides, we found that he was heading for Pennsylvania. O. C. told the cold hitchhiker that he couldn't stay in the station—but he didn't just kick the man out into the cold either. I don't know how soon the man caught a ride or who with. Wherever he is I think he is warmer though. You see, O. C. gave the man his own coat.

How many of us would be willing, even at this time of year, to give a coat away—to a perfect stranger. That day was not so cold anyway, for a little kindness brought a lot of warmth to someone who needed it. God blesses the hand of the giver.

Hunters Exploit

It's getting that time of year again when you might find a group of men gathered around a warm stove somewhere exchanging "fish stories", or hunting exploits. Steve Munday, farm editor for the Abilene Reporter - News, tells of a story that Cecil Vineyard of Snyder had told to him.

Around 1961 or so, Cecil and a friend were at a Snyder truckstop on the Roby Highway. Three hunters drove up in a car with out-of-state license tags.

The three men had been hunting down around Sonora, and had some real good luck. Somehow a conversation got started, and Cecil asked the northerners if they had bagged any deer.

No, they said, but we did get four real good turkeys. That information caught Cecil and his pal by the ears and, of course, the hunters were persuaded to exhibit their prizes.

They unlocked the trunk of their car and brought out four of the best-looking buzzards a Texan has ever seen.

Funniest thing is that Cecil and friend, both about to burst into laughter, kept a straight face...

A Child's Prayer

For almost two years now Scotty has been saying a pray-

er before mealtime. He has always said 'Let Him thank us for our food'. Even through our most persistent suggestions that it was God who gave us the food, not we who gave Him food—Scotty maintained that he was correct, and we were wrong.

Since Scotty has enrolled in nursery school, however, he has realized that his mother and daddy were right. He completely surprised us one noon meal by saying, 'Now we thank Him for our food.'

Scotty has been a thinking 'rascal' for some time, but now he is learning to think and talk to God at the same time. Though he may not realize just who God is and what He does, Scotty knows who to ask for things that he can't get from mommy or daddy. It's rewarding to us to hear the little fellow say with real love in his heart, 'Help Todd to get over his cold and give us a save trip to Ma's house.' A child does not separate his wants from his needs so much, if he wants it he needs it. And of course, at Christmas he needs everything. They get impatient for Christmas to get here, too. Scotty, realizing that God can do things that nobody else can, puts his request to our Creator in this way: 'And help Christmas to get here sooner! Amen.'

Tommy Pinkerton Wins Scholarship

ABILENE, Tex. — Thomas Pinkerton, a freshman at Hardin - Simmons University here, is the recipient of a \$150 per semester music scholarship, the Student Financial Aid Office reported.

Mr. Pinkerton is the son of Mr. and Mrs. Charley D. Pinkerton of Stanton.

JUNIOR CLASS OFFICERS — Leading the Jr. Class at Stanton High School this year are: L to R, Cindy Wheeler, Secretary; Dwayne McMeans, President; Debbie Lambert, Treas.; Rick Wilson, V. P.; Judy Henley, Reporter.

Greenwood Voters Approve Bonds to Build High School

Voters in the Greenwood Independent School District in northeast Midland County Saturday, by a 103-37 margin, gave school officials the go-ahead on plans to construct a combination junior - senior high school for the district.

A breakdown of the 140 votes cast on the \$750,000 bond issue shows that of the 103 yes votes, 91 were property owners, 11 were non - propertied voters and one was an absentee vote.

Twenty-nine of the 37 voters against the bond issue were property owners; five were non propertied and three ab-

Building Program Okayed

The Board of Hospital Managers of Martin County Hospital has approved the building and renovation program of the hospital. Work will begin within a short time and should be completed in approximately 90-120 days.

sentee voters said no to the proposal.

School board president James Brooks, after the voting figures were official, said, "Now we can go to work and get this school built."

Brooks said that "within a couple of weeks, the architect should have the plans ready so that we can announce a date for submission of bids. We already have a list of probable bidders, and some people who are interested in buying the bonds."

He said that the school board is planning on a September 1972 opening date for the new facility which will house junior and senior high classrooms, gymnasium, cafeteria and offices.

The new building, designed by the firm of Rihard and Huckabee of Andrews, will contain approximately 45,000

square feet and will be erected adjacent to the present Greenwood School, which now has grades one through eight.

The present school, after the new facility is constructed, will contain grades one through six, and the new building will have grades seven through 12.

"We are really pleased with this vote of approval," replied Brooks. "We have been planning this school, and now we can build one that will provide a good education through all the 12 grades right here."

Asked about how the approved \$750,000 in bonds would affect the tax rate in secretary of the school board, the school district, D. W. Lea, said, "We won't know exactly what the new tax rate will be until we receive all bids and approve one. If we don't have to spend the full \$750,000, we surely won't. We'll just use what we have to of that amount, and then we can determine the new tax rate."

The present tax rate, based on 80 per cent valuation, is \$1.43 per \$100. The Greenwood school district covers approximately 140 square miles.

The school's junior and senior high school-age students now attend Midland High School and Edison Freshman School, or schools in Stanton, according to board members.

Mrs. Mary Baugh Of Stanton Dies

Mrs. Mary Cordelia Baugh, 84, a longtime Stanton resident, died in a Midland hospital Thursday after a short illness.

Funeral services were held at 2 p.m. Friday in the First Baptist Church of Stanton, with the Rev. Warren G. Hall, pastor, officiating. Interment was in Evergreen Cemetery under direction of the Gilbreath Funeral Home.

Born Oct. 2, 1887 in Kaufman County, she married Edgar Baugh in 1907 at Coleman. The couple moved to Stanton in 1924.

Survivors include the husband; two sons, B. L. Baugh of Big Spring and Eugene of Stanton; two daughters, Mrs. Ona Hughes of Bronte and Mrs. Inez Gilmore of Stanton; two sisters, Mrs. George Collier of Kemp and Mrs. C. W. Metcalf of Seminole; five grandchildren and 12 great-grandchildren.

Stanton musicians Make All-Region at Odessa

An outstanding individual effort was made by local bandsters in competition last Saturday at Odessa, who won places in the Class AA All-Region Band. As a result of the competition, three all-region bands were formed of

110 members each, representing Classes AA, AAA, and AAAA. These bands will perform in concert in Midland on January 15.

Winning the coveted principal chair in the cornet section was Lyn Herzog, Polly Creech

places 2nd chair; Betty Anderson, 4th chair; and Jimmie Anastasio was named as an alternate. The three senior girls are all repeat winners at the all - region level.

Especially noteworthy was the principal chair in the alto saxophone section which was nailed by Ronnie Henson, an 8th grader in the Stanton Band, competing for his first year. Margie White was named alternate to this section.

The clarinet section includes Judy Costlow, Karen Anderson, and Jackie Jones. Kim Douglas, and Molly Hughes were selected for the flute section.

Other students winning in their respective sections include Zanna Angel, bass clarinet; Doyla Doggett, baritone; Diana Payne, horn; and Jimmy Jones, percussion.

The band group was accompanied by their director, George Walker, who served as flute moderator for the AAAA schools.

Participation in the annual tryouts is on a voluntary basis with all band students having an opportunity to compete for these honors.

Don't Throw Old Eyeglasses Away! Lions Will Give Them a Home

Got any Eyeglasses? Used eyeglasses needed for Lions project.

Got any old used eyeglasses at home in a drawer. Even if the frames are kinda broken or one lens cracked, they can be repaired and used somewhere in the world.

The main function of Lions Clubs everywhere is sight conservation. Lions supply new eyeglasses for children of families who cannot afford to pay for them; also eye examinations. They sponsor eye banks for cornea transplants so that someone may see from dead persons eyes. They have summer camps for blind children and all kinds of programs for the sightless.

Now you can help. If you have old outworn eyeglasses around your home, please donate them to the Lions. They will be repaired by an optical concern and given to needy in foreign lands. In Africa and India where the cost of a pair of glasses would be a year's income. Or such other places that may be selected.

Bring your old glasses to the office of the High School Principal here and put 'em in the box that has been set up to collect the glasses.

They will be forwarded in a short time to a central place for repair and later distribution. This is a project of the Lions of this district, District 2-A1 in connection with other Lions' districts over the world. Don't forget this. You could enable someone to see better in another part of the world. That's world brotherhood. And Lionism.

Lions International has distributed more than 100,000

pair of used eyeglasses in this program through the years — and many people have been benefitted.

Let's see just how many pair we can gather up here.

Band To Present Yuletide Concert

The annual Christmas Concert sponsored by the instrumental music department of the Stanton Schools will be presented on Thursday night, December 16th in the high school auditorium at 7:30. Admission will be free of charge.

Appearing on the program will be the concert band playing a host of seasonal favorites. Additional mallet percussion instruments of chimes, orchestral bells, and xylophone will be an augmented feature for the first season to add their characteristic tonal colors to the ensemble.

The cadet band, composed of 6th and 7th grade members will open the festivities with several selections suitable for the yuletide season.

George Walker will be directing both groups.

Hospital Approved For Medicare

Official communication has been received by the Martin County Hospital from the Department of Health, Education and Welfare that the Martin County Hospital continues to meet the requirements for participation under the Medicare program.

Suzanna Brown

Suzanna Brown Is State Alternate

The Make-it-Yourself-With-Wool Contest for District I was held in Lubbock December 4, on the campus of Texas Tech University. Girls representing 54 counties competed in the contest. The girls were approved for the contest by having sent in satisfactory sample of material. The costumes worn in the contest were made by the girls themselves.

There were four divisions in the contest: Sub-Deb, Juniors 14-16, Seniors, and Adults. Suzanna Brown, daughter of Mr. and Mrs. Glenn L. Brown of Stanton was named an alternate to go to the State Finals in the Junior Division.

Sheriff's Posse Elects Officers

The Martin County Sheriff's Posse met recently and elected officers for the coming year. The meeting was held in the District courtroom.

Sheriff Dan Saunders was elected president. Dan has previously served as president for 17 years. Other officers elected were: V-P, Palmer Evans; secretary - treasurer, Ohmer Kelly; reporter, Jo Henson.

Three directors were elected to serve for the coming year. They are: Lloyd Henson, Roscoe Hazelwood and Claude Tredaway.

Claude Tredaway was elected parade marshal and Chalmers Wren was named property officer. Jodie Dornor, daughter of Mr. and Mrs. Andy Dornor of Midland, was elected Posse Sweetheart. Bunny Bobo, daughter of Mr. and Mrs. Lloyd Henson of Stanton was named alternate along with Nancy Graham, daughter of Mr. and Mrs. Gene Graham of Midland.

Cotton Talks

FROM PLAINS COTTON GROWERS, INC.

The executive officers of this area's two largest commodity organizations, Elbert Harp of Grain Sorghum Producers Association and Donald Johnson of Plains Cotton Growers, Inc., have suggested to the U.S. Department of Agriculture a small change in the 1972 feed grain program rules which they say "would increase the effectiveness of the program, avoid some undesirable effects, increase producer income and not cost the government an additional penny."

As a result of heavy overproduction and depressed prices of feed grains in 1971 USDA has announced substantial changes in the government's feed grains program for 1972. The need for reduced production for the most part has gone unchallenged, and most High Plains farmers are looking with favor on the steps taken by USDA to bring it about.

Feed grain producers who participated in the government program for 1972 will be required to set aside from production an acreage equal to 25 per cent of their base allotments, as opposed to only 20 per cent this year. By meeting this 25 per cent mandatory set-aside requirement, and by planting at least 45 per cent of their base acreage, producers will become eligible for a "set-aside payment" of 68c per cwt times the farm's established yield on 50 per cent of base acreage.

In addition, farmers will have the option to set aside acreage equal to another 10 per cent of their base allotment, voluntarily, for a payment of 87.5c per cwt times the established yield. On top of that 10 per cent growers may offer to set aside up to 10 per cent more of their grain sorghum base, at the same rate of payment, and USDA will later decide whether all or any part of this offer is to be accepted.

Therefore there is a good possibility under present rules that farmers will have to plant 45 per cent, have to set aside 25 per cent and will voluntarily set aside another 20 per cent of their feed grain base. This would "tie-up" 90 per cent of the total feed grain base acreage, whereas in 1971 the feed grain program "tied-up" only 65 per cent of the base, 45 per cent planting requirement and 20 per cent set-aside requirement.

This aspect of the feed grain program, unless a change is made, when applied to the 25 counties represented by PCG where the total feed grain base is 4.5 million acres, would mean a reduction of over 1.1 million in the acres available for planting cash crops.

The change proposed by Johnson and Harp would permit farmers, for program purposes, to count as planted to feed grain the 10 or 20 per cent of feed grain bases voluntarily set aside. And since it is generally thought that most High Plains farmers will take the maximum set-aside option if available, up to 20 per cent of the feed grain base, a possible 900,000 acres, would be freed for planting to soybeans, cotton or some other income-producing crop.

According to Johnson and Harp the benefits from permitting farmers to count voluntary feed grain set-aside as planted acreage would be substantial, both to producers and to government. "First less acreage would be devoted to feed grain production both by reason of the reduced planting requirements and because of the added incentive for producers to offer the full 20 per cent voluntary set-aside, and this is an objective apparently desired by both producers and U.S.D.A. Second, producers would have more land available for the production of non-surplus crops, while their program payments would remain the same."

Thus it would seem USDA, by making a slight rule change, can do something really effective to help farmers — and without any additional cost.

USDA has the proposal under consideration, and an answer should be forthcoming shortly, Johnson said.

Mustang Soil Conservation News

Soil Conservation District and the Soil Conservation Service are two entirely different groups, explains Jake Hodges, local soil conservation technician.

The only relation between the two is that the SCS specialist provides farmers and ranchers with certain technical services.

The Soil Conservation Service is an agency of the U.S. Department of Agriculture, while the District is an association of landowners formed

by an election for the purpose of working together to conserve our soil and water resources.

The supervisors are elected for five years. They must be land owners in the district which is divided into five zones. One supervisor is elected from each zone every five years which brings a new member or re-elected member to the board each year. They do not receive any compensation for their services, and at the first meeting after the election each year these five men elect one of the number chairman, another vice-chairman and another secretary-treasurer.

A farmer or rancher wishing to place his land in a conservation program makes application to the board, explaining his soil or water erosion problem or situation and what he would like to do about it. Perhaps he doesn't know what should be done or what he can do. With his permission, the supervisors then ask one of the technicians from the Soil Conservation Service working in that area to go out and assist him and report to them. Neither the supervisor nor the cooperator is under any obligation to the Service or the Government for assistance or suggestions they receive.

These services are free to the land owners explains Hodges, since the work of the SCD is financed through funds made available by the State of Texas through the State Board of Soil Conservation Districts. The local district also has equipment available to farmers and ranchers such as grass drills, etc.

If a farmer or rancher is interested in developing a soil and water conservation plan the SCS technicians will furnish the technical assistance soil capability maps, plan maps and engineering information needed to carry out this plan. This is all free and he is under no obligation to anyone for this service says Hodges.

The State Highway Department received permission to excavate the site of its proposed new \$20 million headquarters building in Austin.

VA Plans Help For Vietnam Vets

The Veterans Administration plans special help for Vietnam veterans who draw unemployment compensation 13 weeks or longer.

Jack Coker, Director of the Veterans Administration Regional Office in Waco, said that a plan, worked out with the Department of Labor provides that state employment security agencies give VA names, addresses, telephones, social security and service serial numbers of the unemployed veterans.

Coker explained that VA, through its 72 Veterans Assistance Centers and other facilities, then makes several contacts with the veteran to interest him in going to school or taking on-the-job training (OJT) under the GI Bill.

The agency has been promoting education and OJT for some time as one means of reducing unemployment among Vietnam veterans. However, Coker pointed out, this latest plan enables VA to more effectively identify veterans, especially the disadvantaged, who are in need of jobs.

Although finding jobs is not a primary responsibility of VA, the agency helps in any way it can, and is a leader in hiring veterans under the Veterans Readjustment Appointment Authority. VA has hired 5,000 veterans since 1968.

Through specialists in its Veterans Assistance Centers, VA found jobs for nearly 15,000 veterans in fiscal year 1971, and for about 46,000 vets since 1968.

Other job-assisting activities are carried out through the agency's "Outreach Program," with job fairs, job banks, job counseling, job interview classes and cooperation with the President's National Committee on Jobs for Veterans.

Farmers Should Update Records

Before Jan. 1, Martin County farmers should check with their tax consultants on complex tax problems.

Latest information from Washington indicates that a new seven per cent investment Credit Act will likely be passed by Congress, and it may be retroactive to April 1.

Thus, you should bring your records up to date so you can make some investment decisions if necessary, says County Agent Reagor.

First, determine the income from sale of crops, livestock, and livestock products to date. Then estimate the income for the rest of the year.

Determine expenses to date and estimate the probable expenses for the remainder of the year. A quick way to estimate depreciation is to use last year's figure plus depreciation on new items bought this year.

From these figures, you can determine the probable adjusted gross income says Reagor.

If the preliminary check indicates an unusually high income, you may take steps to reduce the taxable income for 1971. You might buy needed machinery or equipment if the Investment Credit Act is passed. Also, consider buying certain supplies for next year. Income averaging and advance payment of interest on loans will also reduce this year's taxable income.

If the indicated taxable income is low, you might delay buying expensive machinery or equipment until next year.

Successful tax management is based largely on complete records kept regularly and carefully throughout the year.

Proper Grazing Of Grain Stubble Could Boost Income \$160 Million

COLLEGE STATION, Dec. 2 —Proper grazing of grain sorghum and corn stubble could boost agricultural income on the Texas High Plains by more than \$160 million. And the practice could also pay dividends in other areas of the state.

In 1970 a study was initiated by Texas Agricultural Extension Service specialists Dr. Cal Parrott and Ed Garnett of Amarillo and Castro County Agricultural Agent Charles Hottel to obtain new information about the utilization of milo and corn stubble with steer calves. Site of the study was the Bob Anthony farm in Castro County.

"With about four million acres of milo and corn harvested annually in the High Plains, a well-managed grazing program could boost yearly farm income and provide the roughage for raising seven million feeder calves annually," said Garnett in discussing the grazing study.

He said the cattle feeding industry on the High Plains will demand about 3.4 million head of feedlot replacements this year and many of these cattle are shipped in from outside the area.

"A grazing program that is well-managed could provide the opportunity to grow thousands of feeder calves up to 550-600 pounds before they are sent to area feedlots," he pointed out.

In the study 421 steers weighing an average of 405 pounds were placed on 230 acres of grain sorghum and corn stubble for a 114-day grazing period. The stubble acreage was 74 per cent corn and 26 per cent grain sorghum.

The steers were worked and backgrounded in drylot for 40 days prior to the initiation of the study and were then allowed to graze about 57 acres for 28 to 30-day intervals.

The steers received four pounds of grain-protein supplement daily to supply the extra needed energy and protein," said Parrott. "Grain sorghum made up 25 per cent of the ration with a 15 per cent protein supplement."

Ample feed bunk space allowed all steers to eat at once and each day were checked for sickness.

After grazing out the stubble, the steers were placed in a commercial feedlot where they were fed out to a little more than 1,000 pounds. Complete cost records were kept on each phase of the study, and an economic analysis was made of each phase as well as the overall study.

Each steer gained an average of 162 pounds during the 114-day grazing period for an average of 1.42 pounds per head per day. Including the supplemental feed, each acre of stubble produced 2.6 pounds of beef daily.

According to Garnett, all costs were figured, including a charge for the farmer's land use and labor.

The economic analysis showed a per head net return of \$5.98 for the background phase; \$23.25 for the grazing phase; and \$19.63 for the finishing phase.

"The most important aspect of this study is the overall evaluation which indicates an average net return of about \$48 per head," Garnett said. "The cost per pound of gain, overall, averaged 22c with a daily gain of 2.26."

The specialists emphasized that proper management is the key to this grazing program. The study can be used as a guide for producers in making management decisions.

Grazing out the stubble has other advantages, according to the specialist. The farmer can return to work the soil quicker during the late fall or winter and to gain efficiency in utilizing his land. Also, fields that were grazed were void of volunteer grain sorghum or corn even though the soil was worked very little.

The grazing study will be repeated this year to evaluate its consistency.

Sen. W. E. Snelson of Midland took over the governor's job — for a day — Dec. 4.

so that the many ELECTRIC IRONERS in charge may be used. Ladies: Arrange your household duties so that Thursday afternoons will be the "Ironing Period"

TEXAS LIGHT AND POWER COMPANY

This reproduction of an advertisement which ran in 1919 in a city we serve) makes it pretty obvious that you couldn't always take round-the-clock electric service for granted.

You can take it for granted today because Texas Electric has constantly

planned and built ahead to provide enough reliable electric power for all of our customers' needs. Needs which continue to grow.

Just 25 years ago the average residential customer served by Texas Electric used 1,000 kilowatt hours of elec-

tricity a year. Today, the average is about 8,500 kilowatt hours.

So we have to "run the Electric Light Plant" all the time now, and we have to keep planning and building ahead. Only in this way can we make sure we're always "at your service!"

ARE WE CHRISTMAS HYPROCRITES

By JAN McELRATH
Last week like everyone else, I decided to get in the Christmas spirit, since Christmas is just around the corner.

Don't Forget to Write
Don't forget, get those letters to Santa in early. Santa must know early what he needs to bring you. Bring your letters to The Stanton Reporter and we'll forward them to Santa.

purpose last Christmas. So when the holidays were over, it was put back and forgotten. The tree was sadly out of shape and still had some of the old ice circles from last year. The ornaments were wiped clean of dust. The tree stood tall and proud as the ornaments and new ice circles were hung. Once again it became a part of the Christmas season.
People remind me of this Christmas tree. From January to the 1st of December, people seem to live in their own worlds. Then, all of a sudden Christmas nears, people seem to become alive with the season. What mysterious element is hidden in this season that we become a part of this fantasy world.
Wouldn't it be nice if we were like that all year long.

First National Bank
Member F.D.I.C. Stanton, Texas

Watch Your Purse During Christmas

Linda, as she got out of her car outside the supermarket, tried to remember how much money she had been carrying in her purse. Must have been more than \$100. Her Christmas shopping money.
The purse had been in the grocery cart at her elbow when she first noticed the two young men out of the corner of her eye. She hadn't actually seen them; she was merely aware of their presence.
Then one of them approached her. "Ma'am, could you help me find the blackberry gelatin? You see, I left my glasses at home."
"Why, it's right here..." But after some seconds of looking, Linda realized that blackberry was not one of the flavors offered.
"Oh, I'll just take this kind," the young man said, and he was gone. She had hardly seen him.
At the checkout counter, she opened her purse to take out her wallet. It was gone, with all her money and identification. She couldn't even cash a check.
The store manager was not too sympathetic. Finally, she had to tell him just to put the groceries in her cart back on the shelves.
Now she must decide whether to call her husband or the police.
Christmas is prime time for purse snatchers and pickpockets. Almost every wallet contains extra cash for the Christmas shopping. You can help thwart the criminal by taking extra precautions, and by being on the alert for criminals at work. Observe and report suspicious activity. Don't be crime's silent partner.

This year will be "an exceptionally good" one for construction, according to the University of Texas Bureau of Business Research.

Philosopher Says:

Where do they keep their radios?

Editor's Note: The Martin County Philosopher on his Crab Grass Farm on Mustang Draw ought to know the President isn't going to have time to answer the question he asks this week.
Dear editor:
I know that President Nixon is going to have a lot of things on his mind when he visits Red China in February but I sure wish he had time to find out something that's bothering me about that country.
According to an interview I saw on television the other night with two Americans of Chinese extraction who talk English and Chinese fluently and who have just returned from a visit to China, everybody over there or down there I guess I ought to say knows about Mr. Nixon's forthcoming visit.
"I talked to lots of people," one of the men said, "even lots of farmers, and they all know about the coming visit. They know that Dr. Henry Kissinger has visited there twice preparing for the trip. They know he's a brilliant scholar and they're looking forward to the President's visit."
"You mean even the farmers know about it," the T.V. reporter asked.
The thing I want Mr. Nixon to find out is where abouts on those oxen-drawn plows do the Chinese farmers keep their radios? How do they

Stanton High News

Midland Will Host Regional Pecan Show - Set For December 16-18

The West Texas Regional Pecan Show has been scheduled for Dec. 16-18 in Midland at the Dellwood Plaza Shopping Mall, according to Ray D. Slegmund, District Agricultural Extension Agent. Slegmund, the show chairman, said classes have been set up for all named varieties. Additional classes will offer competition for heaviest pecan, highest per cent kernel, group of three varieties and group of six varieties. Native or seedling, pecans are also grouped in a separate class. Entries in the regional show may be either ribbon winners from county shows or open entries from growers living in areas not having county competition. Open entries must consist of a minimum of 40 pecans. Winning samples from county shows should consist of a minimum of 30 pecans. Ten nuts are processed for judging of samples. Mrs. J. A. Wilson, Stanton, entered three varieties of pecans in

the Ward County Show held at Monahans and placed 2nd with her Delmus variety. This sample will be judged at the Regional Show in Midland. Entries should be sent to Charles W. Green, County Agricultural Agent, Box 1070, Midland, Texas 79701. Samples must be received by 3 p.m. Tuesday, Dec. 14, for processing by the show committee, Slegmund said. In coming weeks pecans from all over Texas will be exhibited in more than 20 county shows and three regional shows. Winning entries in regional shows will be eligible for competition in the Texas State Pecan Show. Persons interested in exhibiting pecans from this year's crop may obtain further information from your county agricultural agent. He will also help you select your sample to enter in the regional show.

Beta Sigma Phi News

PRECEPTOR MU

Preceptor Mu met on Dec. 2 at 7:30 in the home of Mamie Roten. June Reid, president, presided over the meeting.

Irene Long presented the program entitled "Birdseye View of the Lone Star State." Several songs were sung including "Yellow Rose of Texas," "Deep in the Heart of Texas," and the state song, "Texas Our Texas," led by Mary Prudie Brown.

The program included plans for a trip first to Big Bend El Paso, Mexico, then along the border to the Valley. The leader pointed out many interesting places to stop, and unusual sights to see. She spoke of the rich heritage brought to our state by the people of other countries.

Program chairman discussed excerpts from "Book of Beta Sigma Phi."

The hostess served refreshments to the following members: Mary Kathryn Bristow, Mary Prudie Brown, Helen Dawson, Gerry Gates, Mary Grace Latimer, Irene Long, June Reid, Margaret Roueche, Jendo Turner, and Pauline Wood.

The next meeting will be a Christmas party on Dec. 16 at the home of Mary Kathryn Bristow.

Three railroad union legislative boards have merged into a single United Transportation Union, Texas Legislative Board to represent 12,000 railroad and bus line employees on legislation.

Oilpatch Outlook

Atlantic Richfield Co. filed application to re-enter and attempt recompletion in the Pennsylvania at approximately 10,330 feet, at No. 3-A June Sanders Tract, former Pennsylvania producer and link project to that pay in the Sweetie Peck multizone pool of southwest Midland County. It was completed in 1951 and became depleted in 1964.

Beta Sigma Phi News

RHO XI

The home of Mrs. Corky Blocker was the setting for Rho XI's meeting December 2. The opening ritual was repeated and the business meeting began with roll call and minutes. Eleven members were present.

Treasure's report and communications from international were given. The date for the Christmas party was changed and plans were made for the new date, set for December 17. A Christmas money-making project was discussed and the group decided that Santa Claus was coming to town.

A study of Beta Sigma Phi was given by Sarah Blocker. The program, "Love's Miracle in Marriage" presented by Beth Black was beneficial to all.

The closing ritual was repeated and refreshments were enjoyed by all. Those present were: Clara Stewart, Marilyn Newman, Mary Sale, Beth Black, Brenda Norville, Sarah Blocker, Becky Graham, Bonnie Yater, Mary Deitiker, Beverly North, and Bonnie Franklin.

ARCO re-entered the well in April of 1970 and it was temporarily abandoned at 13,360 feet, after making unsuccessful tests in the Wolfcamp zone.

It spots 660 feet south and 2,034 feet from west lines of section 16, block 41, T-4-S, T&P survey, 20 miles southeast of Odessa.

Universal Resources Corp., Dallas, completed No. 1 Slaughter as a one-mile extension to the Sulphur Draw (8,790 Dean) field of Martin County, 26 miles northwest of Stanton.

On a 24-hour potential test, it flowed 151.2 barrels of 39.6 gravity oil and 6.3 barrels of water, with gas-oil ratio measuring 1,325-1. Production was through a 20/64 inch choke and perforated section from 8,961-9,052 feet, which had been acidized with 1,000 gallons and fractured with 50,000 gallons and 100,000 pounds.

Location is 1,419 feet from south and 1,228 feet from east lines of section 5, block 36, T-3-N, T&P survey.

Collier Diamond Oils, Inc., operating from Midland, filed application to drill No. 1-II Slaughter as a 1/2-mile north and 5/8-mile southeast offset to production in the field.

Drillsite is 1,320 feet from north and west lines of section 3, block 36, T-3-N, T&P survey, 25 miles northwest of Stanton. Planned depth is 9,200 feet.

Locations were staked in the Martin County sector of the Spraberry Trend Area.

John L. Cox of Midland, filed application to drill to 9,400 feet, No. 1 Burley, located six miles northeast of Midland and 1/2 miles west of a 1 1/4 mile southwest extension to the field.

Drillsite is 1,320 feet from north and east lines of section 2, block 38, T-1-S, T&P survey. Henry & Landenberger, Inc., operating from Midland is responsible for two of the 9,400 foot projected developments.

No. 2 Mabec is 1,320 feet from north and west lines of section 14, block 38, T-1-S, T&P survey, 5 1/2 miles northeast of Midland and 1 1/2 mile west of the field area.

No. 1 S. B. Patham spots 1,320 feet from north and east lines of section 22, block 36, T-3-N, T&P survey, 8 1/2 miles north of Lenora townsite, 1 1/8 miles northeast of the Trend Area and one mile west of the Sulphur Draw (8,790 Dean) field.

Petroleum Exploration & Operating Corp. of Abilene, filed application to drill four outposts and a stepout to production in the Martin County sector of the Spraberry Trend Area.

All are scheduled to 9,100 feet and spots eight miles northwest of Stanton.

Three of the projects are in section 18, block 36, T-1-N, T&P survey.

No. 1 Loving Estate, one mile east of production, is 1,320 feet from south and east lines of the section.

No. 2 Loving Estate, 1/2 mile east, spots 1,320 feet from south and west lines.

No. 3 Loving Estate, one mile east and southwest, spots 1,320 feet from north and east lines of section 18.

Two tests are in section 18, block 36, T&P survey.

No. 1 Meek, 3/4 miles northeast and southeast, spots 1,320 feet from north and east lines of the section.

Adobe Oil Co., of Midland has completed wells in the Martin County portion of the Spraberry Trend Area.

No. 1 Glass, one mile south of production, produced 194 barrels of 39.5-gravity oil and 33 barrels of water, with gas-oil ratio measuring 831-1, on 24 hour potential test.

Recovery was through perforations at 8,234-9,235 feet, which had been acidized with 4,000 gallons and fractured with 80,000 gallons and 240,000 pounds.

Wellsite is 1,320 feet from north and east lines of section 29, block 38, T-1-N, T&P survey, seven miles west of Stanton.

No. 1 Harrell, one mile east extension, finished to pump 218 barrels of 39.8 gravity oil, with gas-oil ratio of 876-1, through shot holes at 7,831-8,831 feet, after acidizing with 2,000 gallons and fracturing with 80,000 gallons and 240,000 pounds.

Location is 1,420 feet from south and 1,120 feet from west lines of section 43, block 36, T-1-N, T&P survey, five miles northwest of Stanton.

The firm's No. 1 Glasscock, 1 1/2 miles west of the nearest well was completed to pump 166 barrels of 39.6 gravity oil and 26 barrels of water on 24 hour potential test, with gas-oil ratio measuring 821-1.

It was finished through perforations at 7,982-8,957 feet in 7-inch casing seating at 9,865 feet on total depth of 11,767 feet. Plugged back depth is 9,283 feet. The section had been acidized with 4,000 gallons and fractured with 150,000 gallons and 355,000 pounds.

Originally slated in the Spraberry Trend Area and amended to a wildcat, 1/2 mile east of the one - well Sale Ranch (Strawn) field, it spotted 1,320 feet from north and east lines of section 44, block 37, T-1-N, T-P survey.

Adobe's No. 1-D Hazelwood, surrounded by production, finished to pump 181 barrels of 39.7 gravity oil and 18 barrels

of water per day, with gas-oil ratio of 848-1, through perforations at 7,900-8,863 feet, which had been acidized with 20,000 gallons and fractured 000 pounds.

Location is 1,320 feet from north and west lines of section 2, block 37, T-1-N, T&P survey, four miles northwest of Stanton.

Adobe Oil Co. has completed No. 1-L Sale Ranch as a 1/2 mile south and east offset to the nearest producers in the Spraberry Trend Area of Martin County.

Producing through perforated section at 8,471-9,133 feet, which had been acidized with 4,000 gallons and fractured with 80,000 gallons plus 240,000 pounds, it flowed 265 barrels of 39.8 gravity oil plus eight barrels of water, thru a 16 64 inch choke, on a daily potential test. Gas-oil ratio measured 831-1.

Wellsite is 1,320 feet from north and east lines of section 17, block 37, T-1-N, T&P survey, 10 miles northwest of Stanton.

Two offsets to production have been staked in the Martin County sector of the Spraberry Trend Area.

Adobe Oil Co. plans No. 1-C Jones as a one mile east step-out, 1,320 feet from north and west lines of section 24, block 36, T-2-N, T&P survey, four miles northeast of Lenora. Scheduled depth is 9,200 feet.

Ne-O-Tex Corp. of Midland finished a 1/2 mile north and west extension to production. No. 1 Tom Glyn was completed on 24 hour potential test to flow 164 barrels of 40 gravity oil, with gas-oil ratio of 655-1, thru perforations at 8,517-9,302 feet, which had been fractured with 80,000 gallons.

Location is five miles southwest of Tarzan.

Veterans who receive an "other than honorable" discharge from military service may make application for review of their discharge from any VA office.

A recent law allows the Veterans Administration to provide up to \$30,000 worth of low cost mortgage protection life insurance for about 10,000 severely disabled veterans.

Half of all blindness, due to disease, accident, neglect or ignorance, is preventable.

Girls Lose In Try For Consolation

The Stanton Girls lost out in a bid for consolation in the Lake View tournament over the week end, losing to Eola, 44-33. The game was the third for Stanton in the tourney—the second in one day. Betty Smith scored 12 points for Stanton. Rena scored 20 for

the overtime period, hitting 2 free throws and 1 field goal to put Stanton ahead 49-47. Darla Sawyer and Betty Smith each had 16 points for Stanton, with Debbie Lambert close behind at 13. Crane's Anderegg had 30 to lead all scorers.

Eola to lead all scorers. Stanton lost the Friday night game to the eventual tourney champions, McCamey 55-43. The local girls played a good game against a good team. Debbie Lambert stood out in scoring 22 points for Stanton. Darla Sawyer scored 11 and Betty Smith 10. Branum scored 27 for McCamey, and Waddell scored 24. In the early Saturday morning game, Stanton edged Crane, 49-47 in overtime. Stanton was slow getting started, and had to come from behind to tie the game 43-43 at the end of regulation play. Fawn Briggs came into the game and furnished the winning margin. Fawn scored four points — all of them in

Tahoka Defeats Buffs, 72 - 43

Tahoka made it two in a row over Stanton Tuesday night, winning by the lopsided score of 72-43. The Buffaloes could not get thawed out from the chilly weather as Tahoka beat them on the boards and on the floor. Stanton stayed with Tahoka until the second quarter when Tahoka got hot and stretched the lead to 10 points and coasted on to victory. Lanis Zedlitz led scoring with 15, and Jeff Atwell had 10 for the winners. The Stanton B team continued to win, defeating Tahoka, 65-39. Billy Howard and Gordon Elland each had 16 points for Stanton.

STRETCHIN FOR REBOUND — David Chandler goes high in battling for a rebound against Tahoka.

Stanton Eighth Grade Undefeated, Win Fifth Over Greenwood, 47-34

The Stanton Eighth grade team remained undefeated by whipping McCamey Thursday night and Greenwood Monday night. McCamey fell to the Buffaloes 33-24. Elvin Brown led all scorers with 14 points, Terry Kelly hit 11 and Randy Conner had 8.

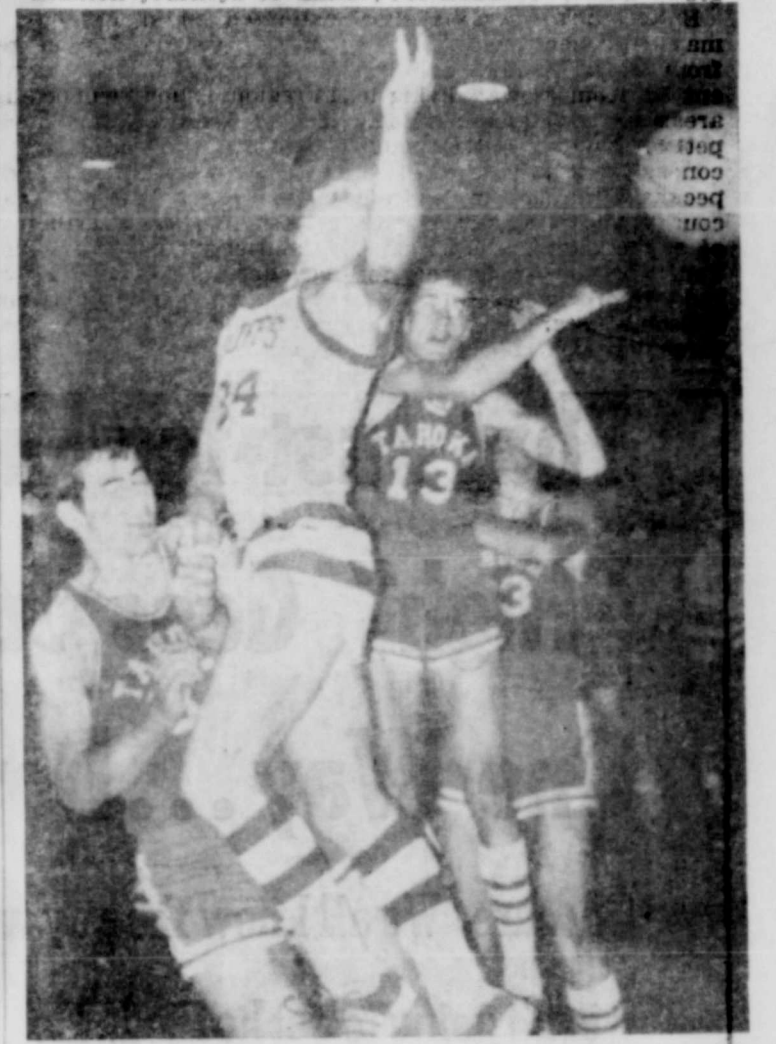

In Monday night action, Stanton downed Greenwood, 47-34. Stanton came from behind to win their third

IT'S UP, AND GOOD — Vernon Brown puts one up for two points in B game against Tahoka.

straight district game. At the end of the first quarter Greenwood led by the score of 8-7. Stanton held Greenwood to only 3 points to go ahead at half time, 16-7. Greenwood outscored Stanton in the third period, 17-10. However, Stanton came on strong in the final stanza to win the game.

Coach Richard Granado commented that this was a game marred by many fouls. He said his offense was not jelling like it should. However, his boys showed lots of hustle and played well enough to win. Stanton journeys to Sands tonight to take on one of the best Jr. High basketball teams in this area. Sands has 12 boys on their team that stand over six feet in height. They are also undefeated. The Stanton seventh grade team is having similar results when playing against other seventh grade teams, which has happened only twice. Stanton won both games, one over Greenwood, 43-23, the other over Coahoma 26-14. Coach Don Goodrum signed out five players who have been doing a good job for him on the hardwood court, Tim Glyn, Terry Smith, Scott Creech, Binbo Allred, and Joe Dean.

WHERE'S THE BALL — Dwayne McMeans finds himself in midair without a reason to be there in action against Tahoka. Dwayne scored 11 points in a losing effort.

Follow The Buffaloes As They Pop the Nets for Points

IT'S A BAD TRIP

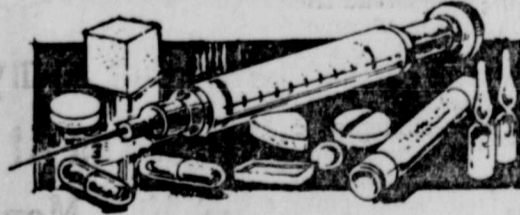

(with the nightmare of drugs)

That Just-for-Kicks "High" Goes Just One Way... Down!

Oh, sure. We all know the guy who wasn't going to get hooked. He was a real cool cat who could handle the stuff. He told us so himself. We've been reading a lot about him for some time... in the newspapers. Once he got caught stealing... he needed more bread for more junk. Then, he got busted for pushing the stuff. Same old story. He needed more and more money to feed his habit. The other day he OD'd. End of bad trip. Maybe that sounds like a very familiar story. Maybe it's someone you know. Don't experiment with drugs—even if some of the crowd do. Tripping never ends up right. It can end up wrong. Dead wrong.

KNOW YOUR ENEMY!

BEFORE IT'S TOO LATE! We must stem the epidemic of drug - abuse. We must educate ourselves and our children to the dangers. We must work with national and local organizations to set up Information Centers, Drug Rehabilitation Programs.

Card of Thanks

CARD OF THANKS
To our many friends we want to express our appreciation to the ones who have been of so much help to us during my illness while in the hospital. The ones who sat with me, your prayers, visits, flowers, food, calls, and many kind deeds too numerous to mention.

Our blessings have been multiplied many times over and may God ever be with each of you. Again we thank you.

Mr. and Mrs. G. W. Alsop, Daughter and family
Mr. and Mrs. David Givens, Marilisa and Sharon

CARD OF THANKS
We wish to express our thanks to each one that helped in any way during the illness and death of our loved one.

THE INFORMED CONSUMER

BY CRAWFORD C. MARTIN
Attorney General of Texas

Remember that unordered set of books you received in the mail along with a receipt requesting payment? Did you return the books or pay the bill? You didn't have to, you know. Recall the time you got up early so you could get to the store in time to purchase an item as a "one-day-only special sale", only to find that they were "all out" of the bargain 10 minutes after the store opened? Or how about that nice young college student who came to your door asking for a few minutes of your time to take a survey for a paper he was writing . . . and didn't leave until he had spent three hours trying to get you to buy a \$600 set of books you didn't want or need?

Unfortunately, most consumers — at one time or another — have had their anger aroused by these and similar incidents. The Texas Attorney General's files are filled with case histories of problems encountered by innocent, although sometimes gullible, consumers. Many of these legitimate gripes could have been avoided if the consumer had been aware of certain laws, or had been aware of the type of fraudulent practices typically used by unethical sales organizations. An informed consumer can be his own best protection in the market place.

The Attorney General's Consumer Protection Division enforces Texas' Deceptive Trade Practices law which presently permits the Attorney General to enjoin certain false, misleading, or deceptive acts or practices in the conduct of trade or commerce. The Attorney General has received some 4,000 complaints in the past year from Texas citizens who feel that they have been defrauded. Such complaints are processed and, if necessary, legal action is instituted to enforce the consumer protection laws. The Attorney General's office is not permitted to render legal advice or opinions to individual citizens, nor may this office obtain refunds for individuals who have been defrauded. The Attorney General may, however, obtain an injunction against those firms which violate the Deceptive Trade Practices Act. If the firm continues its deceptive practices, the Attorney General may secure up to \$10,000 in penalties for each and every subsequent violation of the injunction.

Law enforcement in this area is emphasized by my office because compliance with fair and honest trade practices benefits not only consumers, but the majority of businessmen who want an honest and ethical climate in which to conduct their operations.

This column, "The Informed Consumer", has been developed by my staff and me to give consumer facts on consumer protection laws and information on consumer related topics. It was designed to make the "buyer be wary" as well as "beware". Hopefully, it will assist consumers in recognizing and avoiding common business frauds. Included will be facts on the role of state and federal agencies in the area of consumer protection. Some topics which will be covered in the near future include: referral selling, the scheme which offers the consumer a chance for a "good deal" by supplying names of friends or prospective customers and the young mother seeking to supplement the family's income while staying at home with her children; pyramid business organizations which pay bounties for bringing others into the program; a store's responsibility for accepting returned merchandise; and a credit series.

If you feel that you have been the victim of a deceptive act or practice contact my Consumer Protection Division at the Office of the Attorney General, P. O. Box 12548, Capitol Station, Austin, Texas 78711.

Library Lines
Hours 2 p.m. to 6 p.m.
Monday - Friday
Mrs. Velma Zimmerman,
Librarian

Total circulation for the month of November was 487, \$10.43 was collected for fines and \$7.20 spent for miscellaneous expenses. 29 books were added. The library received as a gift, "The Vantage Point," Johnson.

Recent additions are: "Making Dolls," Witzig; "Creating With Beads," LaCroix; "Office Cook Book," Malls; "America's Best Vegetable Recipes," Farm Journal; "The Population Bomb," Ehrlich; "Drugs," Land; "Low Blood Sugar," Hurdle.

A memorial was given by Mr. and Mrs. Donnie L. Jones in memory of Mr. Kyle Shoemaker.

Want to Write To Congress
For readers' convenience in communicating with members of Congress, the addresses of Texas' U.S. Senators and Congressmen serving the West Texas area, are given here:

Omar Burlinson, Congressman, 17th Texas District, care of House Post Office, Washington, D. C., 20515.
Lloyd Benison, U. S. Senator care of U. S. Senate Post Office, Washington, D. C., 20510.
George Mahon, Congressman 19th Texas District, care of House Post Office, Washington, D. C., 20515.
John Tower, U. S. Senator, care of U. S. Senate Post Office, Washington, D. C., 20510.

Now the Army Starts You At \$268.50 A Month. And You May Not Even Have To Spend It.

That's because you still get free meals, free housing, free clothing, free medical and dental care, free job-training and education, and 30 days paid vacation a year. If you'd like to serve yourself as you serve your County, Today Army wants to join you.

STANTON, TEXAS

PTA Concludes 62nd State Convention, 3000 Attend

The Texas Congress of Parents and Teachers has concluded its 62nd annual state convention and thoroughly shattered its old image of a cookie-baking bunch of school carnival sponsors. The more than 3,000 Texas PTA delegates and their guests meeting in Dallas tackled issues like school financing and the property tax, prayer in the public schools, U.S. prisoners of war and the multi-sided busing situation in Texas. Two resolutions passed by the group recommended support for constitutional amendments to prevent assignment of students to schools on the basis of race, creed or color and to preserve the neighborhood school concept. A third resolution backed the majority of San Antonio

school districts against the possibility of consolidation by the federal courts. Edgewood Independent School District, also in Bexar County, is seeking establishment of a county-wide taxing agency for school financing, charging that the present district system discriminates against low-income districts. Another resolution approved by delegates also supports the local school district concept, as opposed to state control. A proposed amendment stressing quality education in integrated neighborhood school was defeated. The group voted to write Hanoi in support of U.S. prisoners of war, to back a constitutional change putting "freedom to pray" back in the public schools, to study the federal court system and to seek designation of a postage stamp commemorating the 75th anniversary of the National PTA.

for a face-to-face dialogue with delegates. Using interpreters with bi-lingual PAT's, pairing local PTA's in bi-racial teams, putting high school students in office in PTSA's and details of PTA operation were among the problems hashed out in the exchange. The group heard an array of distinguished speakers including Dr. John W. McFarland, dean of the School of Education, University of Texas at El Paso; Dr. Bernice M. Moore of the Hogg Foundation for Mental Health, UT Austin; Dr. W. C. Newberry, director of secondary education; Southwest Texas State University; Lt. Col. O. H. Entwistle Jr. of Vienna, Va., representative of the National PTA, and Dr. Andrew Holt, president emeritus U of Tenn. "The PTA has kept itself flexible," Mrs. Harris told the group. Without innovation, she said, the PTA would be dead, "because we'd be useless to our children, our communities and our schools."

16 Law Officers Attend School

Sixteen law enforcement officers from the 17-county area served by the Permian Basin Regional Planning Commission are attending a three-day civil procedure training school in Midland.

The school, which started Tuesday, is sponsored by the planning commission and is being held in the county court room in Midland.

Instructors are from Texas A&M University and the Dallas County Sheriff's Department. Local arrangements are being made by Bill Corbitt, criminal justice coordinator for PBRPC.

Santa's Reindeer May Not Make Trip Due To Lead Poisoning

Maybe Santa's reindeer can manage their Christmas trip year. But they may develop lead poisoning along the way.

Plenty of zoo animals are in real trouble just from breathing, according to a recent article in Science magazine.

Trouble surfaced at the Staten Island Zoo in New York when an 11-month-old leopard became weak, started losing its hair, and refused to eat. The leopard died 24 hours after it was taken to the hospital. Pathologists could find no evidence of disease, just an extremely high level of lead in the blood.

Researchers decided to check other animals and found concentrations of lead far exceeding those toxic in man. Snakes at the zoo had been dying after losing muscular coordination. Owls were losing feathers and getting sickly. Even the carcasses of dead mice from inside and outside zoo buildings were loaded with lead.

Outside the cages, levels of

lead in the grass, leaves, and soil were as high as that along sides of major highways, where cars spew lead-filled exhausts. But there were no cars in the zoo, and contamination from lead paint was discounted. The conclusion was lead in the atmosphere.

According to a federal report prepared by the Environmental Protection Agency, "The air over the largest American cities has a concentration of lead 20 times greater than the air over sparsely populated areas of the country and 2,000 times greater than the air over the mid-Pacific ocean." The report attributes these airborne levels to the combustion and dispersal of lead additives in gasoline.

The implications for man are not yet fully understood. But they are not heartening. Zoo animals may be man's barometer. The Federal report already indicates a specific danger for small children.

To find out ways to fight air pollution, contact your local tuberculosis and respiratory disease association. And use Christmas Seals.

VA Questions ??? And Answers !!!

Q—Is it true that pensioners over 72 years old no longer have to file annual questionnaires with VA?

A—Yes. A recent law exempts 72 year old pensioners and dependent parents drawing dependency and indemnity compensation during two consecutive years from filing these questionnaires. However, they still must report changes in income.

TURKEY FROM THE GRILL

Open all vents on a Kettle-type covered grill. On each side of Foil drip pan put 30 briquettes. Light. When white hot, add rack.

Place thawed (giblets removed), rinsed, unstuffed Butterball Swift's Premium Turkey on rack. Retuck legs. Brush on melted fat for rich browning. Cover grill.

Hourly add five briquettes on each side of drip pan. No need to baste. Juices placed deep inside baste the turkey as it roasts.

Check a 14-lb. turkey in 2½ hours. If meat thermometer in thickest part of thigh next to body reads 180° to 185°F, bird is done. Or pinch thigh. If soft, remove turkey.

New Arrivals

Mr. and Mrs. Taylor David Etchison of Lubbock, formerly of the Lomax area, announce the arrival of a daughter, Whitney Lynn Etchison, born 9:30 Friday, December 3 at University Hospital in Lubbock. She weighed 5 pounds and 7 ounces.

Mrs. Etchison is the former Susan Boren of Brady, Texas. Maternal grandparents are Mr. and Mrs. Dayton Boren of Brady.

Paternal grandparents are Mr. and Mrs. Waymon Etchison of Garden City Rt., Big Spring, Texas.

The Texas Board of Mental Health and Mental Retardation will meet December 18 to select a state school site to serve the Dallas - Fort Worth area.

Henson - Kickernick Sleepwear is sure to delight her Christmas, from perennial favorites to smart new styles. Select now from our variety of pajamas, gowns, and robes; many styles with matching sluffs.

For Good Health

Why Physical Education?

By BUDDY NORVILLE
Why do we need athletics in our public schools? Though it may come as a shock to some people, this question comes up from time to time. Let's face it, some people aren't athletically inclined, interest-wise or ability wise.

There are numerous reasons who we need athletics, or physical education in our public schools. One of the most logical being—the importance of physical fitness and good health.

Physical fitness cannot be restricted to competence in sports, although no one can be an outstanding athlete without a certain amount of endurance. Endurance comes from being physically fit.

Physical fitness is important to everyone, whether the individual is a scholar, soldier, scientist, or anyone else. A person's physical endurance determines to a large extent

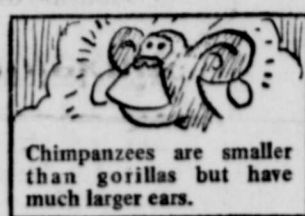

the degree of success one will attain in his chosen vocation. For example, the businessman strain of long hours without who can endure the physical becoming excessively fatigued has an advantage over his competition with less stamina.

Physical fitness has values other than endurance. In general, it can be said that physical activity helps the heart and circulatory system to function effectively, aid in relaxation and release of nervous tension and improves digestion.

Although physical fitness is only one element in total fitness, it is an important element.

In short, this is why we have athletics and physical education in our public schools. Some may think we have them merely to take up time in the schedule, or to make jobs for P.E. majors. They could not be further from the truth.

Our schools are endeavoring to give our children a complete education. How to stay healthy through physical fitness is part of that education.

Chimpanzees are smaller than gorillas but have much larger ears.
