ON UNIFICATION

"We stand at the crossroads between the annihilation of the West and the unification of humanity." The fate of the West, even the whole of mankind, depends on the strategy of the United States. If the United States should fail, the world would become Communist overnight.

The times have changed, we are no longer the thriving young nation of pre-Civil War days. We have been pushed into a position of world leadership by two world wars. Perhaps we were not mature enough to assume the responsibilities of the position, for instead of being a world power any way but statistically, the years of prosperity have seen us become lazy, satisfied and hypocritical. We say we want the world to be free and democratic, yet we do nothing to advance democracy. On the other hand we have sat back and watched as the creeping tyranny of Communism spread over seventy - five per cent of the earth. Did we do anything when the Communist took hold in Hungary, China, North Korea, and Cuba? In Vietnam we have been putting on a half - hearted, extremely expensive show of resistance.

There is an old saying, "money talks," and that is exactly what our money is doing. Our foreign aid dollar says: "We want you to be free from Communism, we want to help you build up your economy, but we haven't time to help you or to show you how this is done. So take our money and learn the best way you can." And the world seems to say in reply: "We need your time, but will take your money."

Thus we have lost influence, and many countries have turned to Communism. Yes, the world is becoming unified, through Communism, not Democracy, and if this isn't a threat to our siesta - may we rest in peace.

STANTON LIONS' CLUB NEWS:

From The Lions' Den County Judge Gives Report

Speaker for Tuesday's Lions Club meeting was Carol Yater, County Judge. Judge Yater brought a very informative and interesting talk on "The Situation of The County."

Carroll began his talk by stating the Official results of the 1970 census for Martin County. The county population in the 1970 tally was 4,774, a decrease from 5,086 in the 1960 count. The city population is now 2,117. The school population of Martin County is 1,138. Judge Yater said there is a mistaken idea by many that the majority of people residing in the county are elderly. "This is incorrect," he said. "County - wide, there are only 658 people over 60 years-of-age. But there are 2,092 residents under the age of 20 years."

The judge reported that the financial situation for the County looked better now than it has in many years. The only major indebtedness that the county has is some 1951-52 Road Bonds, amounting to \$286,000. This debt will be paid off in 1981-82. There was an increase of \$5 million in last year's evaluation. At present the evaluation for the county is \$16,400,000. About \$11 million of this comes from minerals and pipelines. In 1970 there were 166 oil

wells completed in Martin County. The unofficial count for 1971 is around 291. As of January 1 there are a total of 915 wells in the county. The 1972 evaluation should be around \$20 million.

"The financial situation is looking good for Martin County. We are getting to the point where we can enjoy our prosperity. The oil business looks good for the county. There will be more oil wells drilled in the future. The future looks bright for the county." The judge was very optimistic for the future of Martin County.

Mr. Yater also explained some changes that have come about laws that affect Martin County. One in particular, the filing fee of politicians was declared unconstitutional by a Federal judge. Up to now this filing fee was the only way to finance the primaries preceding the November elections. Unless an alternate plan is presented there could be no primaries.

The jury Commission is no longer valid. The Jury Wheel has replaced it. All jury prospects' names are placed in the wheel. And every name drawn will be notified. The only people exempt now are citizens over 65 (they may choose to serve, however), and mothers who have custody of minor children under 10.

Barnes Calls For Gov. Smith To Revise Trailer Law in Legislature

Lt. Gov. Ben Barnes Friday called on Gov. Preston Smith to include revision of the portion of the "Rules of the Road" law involving trailers in legislation which can be considered by a special session of the Legislature due later this year. Barnes said the bill - S. B. 183 - contains language "which apparently is working hardships on many thousands of Texans who pull trailers behind their vehicles."

The bill requires trailers over 3000 pounds to have brakes on all wheels which can be operated from the towing vehicle plus emergency brakes for the trailers. "During my travels, I have heard complaints from farm-

ers and ranchers who have to haul farm products and livestock, and from sportsmen who pull boats and trailers," Barnes wrote the Governor.

Barnes said these Texans "are being penalized in a manner that was not the intent of the Legislature."

"The cost of this law will run from \$250 to \$800 per trailer, and that will mean we are talking about \$100,000,000, which I am sure you will agree is punitive," Barnes said.

He said a lesser requirement could be worked out to meet the necessary safety needs, in urging the Governor to include the legislation in matters to be considered,

554 Entries In Cowntown Rodeo

FORT WORTH (Sp1) — A record 554 cowboys will have their eyes on a Fort Worth Rodeo purse of \$90,400 during the 20 performances of the 54th edition of the World's Original Indoor Rodeo Jan. 28 through Feb. 6 in Will Rogers Memorial Coliseum.

Entries have been received from each of the present world champion cowboys and Kent Youngblood of Lamesa, a 22 year old Tarleton State College student who was the 1971 Rookie of the Year.

Current champs include Phil Lyne, 24, of George West, all around champion cowboy and holder of the calf roping title. Recipient of the coveted Bill Linderman Memorial Award, Lyne is one of the few cowboys who contests in all the rodeo sporting events.

Lyne is entered in bareback and saddle bronc riding, bull riding and calf roping here. He also contests in steer wrestling and team roping.

Other current world champs are Joe Alexander of Cora, Wyo., bareback bronc; Bill Smith of Cody, Wyo., saddle bronc; Bill Nelson of San Francisco, bull riding; and Billy Hale of Checotha, Okla., steer wrestling. Hale also won steer wrestling here last year.

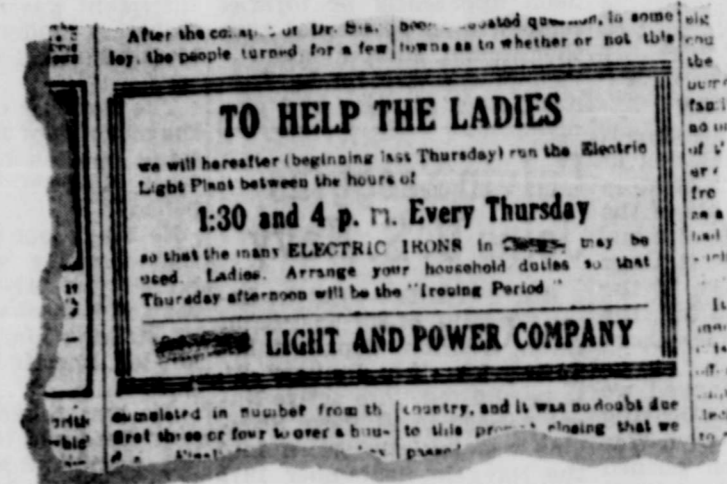

Represented at the Fort Worth rodeo will be cowboys from 33 states, three Canadian provinces and Australia. Entries in the six major contests are bareback bronc, 69; saddle bronc, 80; bull riding, 127; and steer wrestling, 159. Seventeen young cowboys have entered the Wild Horse Race.

At your service:

Electricity—24 hours a day!

This reproduction of an advertisement which ran in 1919 (in a city we serve) makes it pretty obvious that you couldn't always take round-the-clock electric service for granted. You can take it for granted today because Texas Electric has constantly

planned and built ahead to provide enough reliable electric power for all of our customers' needs. Needs which continue to grow. Just 25 years ago the average residential customer served by Texas Electric used 1,000 kilowatt hours of elec-

tricity a year. Today, the average is about 8,500 kilowatt hours. So we have to "run the Electric Light Plant" all the time now, and we have to keep planning and building ahead. Only in this way can we make sure we're always "at your service."

"We Goofed"

We made a mistake (mistakes) and we're not ashamed to admit it.

We made a mess of the Rebekah Lodge news last week, so we are attempting to rectify it this week.

Also, in the High School News, we said Twilla Stallings was Most Athletic Girl, when Audry Brown was correct.

We apologize to the parties concerned and hope it doesn't happen again.

McCamey Slips by Buffs, 65-57

We lost again. That's about all one can say. The scores were a little further apart and the opponent went home with the victory but up until the 4th quarter we kept the score within 4 points of the other team. Although this will never win a game, it shows we at least tried. The scores for each member of both teams and the scores for both teams at the end were:

Stan Bowman scored 14 points for the winners while Tommy Deavenport scored 22 for Stanton. Rick Wilson managed 15 points for the losers.

The district win lifted the Badgers into a second place tie with Coahoma. The Badgers own a 3-1 district record while Stanton fell to 0-4 in loop play.

Deadline For W-2 Forms Is Monday

DALLAS — The deadline for employers to give employees their 1971 W-2 forms is Monday, January 31, 1972, Ellis Campbell, Jr., District Director of Internal Revenue for North Texas, said today.

The form should show earnings, income tax withheld and Social Security information.

A W-2 from each employer has to be filed by the employee with his income tax return. Therefore, it is important that employers furnish W-2's to their employees by the date required to permit timely preparation and filing of employees' tax returns.

A penalty may be charged an employer for each late W-2 he sends out.

CHILD ABUSE: DIFFICULT PROBLEM DOES HAPPEN EVERYWHERE

It can, and does, happen everywhere.

The case of a young girl held down by her older brother and burned over her arm with a cigarette.

The case of a 7-year-old beaten by his stepmother with a shovel handle until his eyes were swollen shut and his head was twice its normal size.

The case of a baby — now brain damaged — thrown against a wall in punishment.

The case of an adopted child (in an independent adoption situation) being jerked up in anger by his arms until both shoulders were broken.

The only ones who see the actual assault are the ones who won't testify—the child itself, the other parent, some one in the home.

Not all complaints are valid. Some calls may be those of a disgruntled partner in a divorce suit or some could be attributed to a cranky neighbor who doesn't want children running through his yard.

Mental or physical illness, alcoholism, drugs and finan-

cial problems are possible factors to child neglect and abuse.

A child can have a problem that parents cannot cope with—a hyperactive child for instance—and the parents do not know how to give proper treatment and care.

Every community should show great concern for the problems of child neglect and abuse and why it occurs. When it happens next, will it be in your family, in your relative's family, or a close friend.

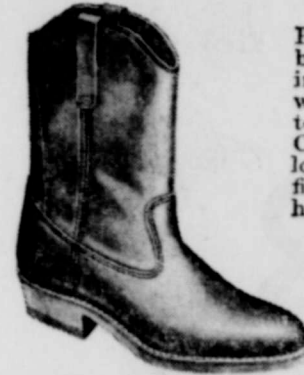

Veterans Administration

Q — I was attending college under the G. I. Bill and changed to vocational school. Can I change back to college?

A — Yes. VA may approve the second change if, after counseling, it is determined that the change is in keeping with your abilities and interest and there is a reasonable chance you can successfully complete the program.

A hog cholera quarantine order was issued for 13 South Texas counties.
