The fastest delivery system in the world.

When you place an order for electric service by flipping a switch or plugging in an appliance, you get instant deliverybecause electricity travels at the speed of light, 186,000 miles per second.

In fact, the electricity you use is not even generated until you flip the switch! The light by which you

may be reading this is using electric power that is being made and delivered in the same instant that it is used. Since electricity cannot be

stored, we must have the generating capability to provide enough power for all our customers when it is needed, and we must have the delivery system to get it where it's needed.

That's why we have to design and develop our power system well in advance of growing needs.

And that's why we are engaged in the biggest construction program in our history, to provide the facilities that keep instant energy at your service.

Sheriff's Now, this Sheriff's job is a curious one;

Like the housewife's work, it's never done. Calls come by night and come by day; They may be near, or miles away. Do hurry up, says the voice of the caller; You're badly needed in Possum Holler. Paw's on a rampage; he's got a gun; Been looking for Maw since half-past one So we jump in our flivver and hit the trail; And drive like a streamliner carrying mail. Our only hope and all we can figger, Is to be on hand before Paw pulls the trigger. We finally arrive and amid confusion-We learn the affair was a simple delusion. Paw with his gun was just hunting squirrels; Maw had gone to school with the two oldest girls. Next day we're hunting a mottled-faced cow; That night we referee a nice family row. Now, that's just a sample of what we do: An endless variety of the old and the new. It may be a prowler, a burglar, a drunk; He will steal your billfold, your watch or your trunk. We set out to catch him, and we do our best; We catch our percentage and lose the rest. We can't catch them all, for some leave no clue -They don't leave their cords, like the candidates do. Sometimes they plead guilty, and the judge will scold, And half the country will want them paroled. They blame the depression, the New Deal, the tariff-But most of the folks put the blame on the Sheriff. So it's quite a game if you stay right in -You'll get a pat on the back, and a sock on the chin. But I like it, and I'm shedding no tears -And I'd like to be your SHERIFF for another four years
