

From This Corner:

By GEORGE GAINES

"Get out and vote" is a phrase often read or heard in these few remaining days before the election. Have you begun to give serious thought to the implication of these words?

November 7 is the day of reckoning — when no longer will you be able to complain about the state of the nation and then in good conscience stand around and "Let George Do It" when it comes to improving matters. You should make it a point to learn about the issues that will affect you and yours. Study the problems and ask questions when in doubt. Ask your elected representatives their opinion of specific legislation, reforms, taxation, inflation, etc. If we are to make any real progress toward controlling the ruinous impact of government on our pocketbooks and freedom of action, we have to first become acquainted with the issues. November 7 is the big day—get informed and then get out and vote according to your best judgment.

The Stanton Reporter wants to make special mention of the photography work done by Chuck Elmore recently and also say thanks to Mary Halslip for her help in obtaining news pictures for The Reporter.

We need to remind everyone of the annual Martin County Chamber of Commerce Capon Show being held Saturday, November 4th in the county barn.

Saturday, November 4th, also will see the Mu Lambda chapter of Beta Sigma Phi hold its annual Luncheon and Style Show at the Cap Rock Auditorium.

Well, that old Central Standard Time is finally back with us again. Hope you have changed your clocks and aren't that far behind.

Ole Man Weather just isn't going to cooperate with the farmers in this area, it doesn't look like.

Last week's issue of The Reporter was well received, we are proud to note, with nearly all issues sold. However, the engravers over at Midland had a couple of our pictures messed up. Thanks to everyone for understanding. If you had trouble finding a copy, drop in and place your subscription now.

The Booster Club's Halloween Carnival was a beehive of activity Saturday night. Everyone seemed to be having a good time. Members of the Club were expressing their thanks for the response.

Don't forget to vote Tuesday, November 7th. This is one of your freedoms of the Constitution, so regardless of your choice, make sure your vote counts.

Jaycee-Ettes To Provide Rides To The Polls

If you need transportation to go vote, Tuesday, November 7, you can call one of the following numbers and free transportation will be provided.

Call 756-3476 or 756-3655 or 756-2595 or 756-3385 and one of the Stanton Jaycee-Ettes will pick you up, take you to the polls and return you to your home.

JERRY HOLLOWAY

LOIS HOWARD

... Gold Star Winners

Holloway, Howard Named 4-H Gold Star Boy And Girl

Jerry Holloway was named Gold Star Boy and Lois Howard was named Gold Star Girl at the annual 4-H Club Banquet Wednesday night.

This award is decided by the achievements, awards earned, over-all participation, and record books prepared by the 4-H members.

The banquet, a covered-dish meal provided by 4-H Members, was held at Cap Rock Electric Auditorium, J.C. Tunnell served as master of ceremonies for the evening. Jody Yates led the ceremonies.

Friends of 4-H, who were presented plaques in appreciation of their efforts, were Tommy Newman, Bob Sale, R. P. Odom, John Campbell, and Roger Fleckenstein.

The program for the banquet was provided by the 10 members of the County 4-H Clubs who made an Exchange trip to Orange County last summer. Participating in this were Morgan Cox, Mark Eiland, Tahita Blake, J. C. Tunnell, Lisa Hopper, Carolyn Holloway, Gary Hanson, Pam Hazlewood, Tere Hazlewood, and Belynda Blake.

4-H Club members who have received awards during the year, were presented medals.

Booster Club Carnival A Big Success

Interest In Nursing Home At Meeting

The "Talk of the County" meeting held Monday night was opened by Ed Lawson noting that the meeting was open to the public to discuss the needs of Stanton and Martin County for the establishment of a nursing home. Some 23 persons were on hand at the Reddy Room of Texas Electric Service Co.

The idea had been around for some time, and the meeting was for the Martin County Chamber of Commerce to disclose the facts that they had compiled. A definite need

Miss Faye Deal Services Held Wed. At Rusk

Funeral services were held at 2 p.m. Wednesday in Rusk for Miss Faye Deal, 56, who died there Monday.

An employee of the United Gas Company there for 25 years, she was also a long-time member of the Baptist church. Burial was in Mt. Zion Cemetery.

Survivors include three sisters, Mrs. Roy Wyrick, Coahoma, Mrs. Homer Schwalbe, Stanton, Miss Sadie Deal, Rusk; and three brothers, Paul Deal, Rusk, Hal Deal, Waxahachie, and George Deal, Dallas.

Field House Debit Decreased

The annual Booster Club Halloween Carnival, was termed a great success in that the purpose of the Carnival was to raise money toward the indebtedness on the Field house, and approximately \$1,500.00 was the amount profited from this event for that purpose. This will leave a balance of some \$2,500.00 to be paid on the Field House.

Melvin Graves was the lucky person whose name was drawn Saturday night for the color television. It was stated that the raffle was one of the main factors of the carnival's success.

The Booster Club President, Ed Lawson, and all the members are very appreciative of all the donations made for the Carnival. The generous donations of pies, cakes, prizes, and especially the work and time are what made the Carnival a success.

November 3rd Last Day To Vote Absentee

Friday, Nov. 3, will be the last day for absentee voting. If you plan to be out of town on November 7, you can still go to the County Clerk's office and mark your ballot before 5 p.m. Friday (tomorrow).

There are no contested races in Martin County, with the only new names on the ballot being those of Kathleen Lewis, who was appointed by the Commissioners' Court to fill the office of County Treasurer after the death of Elmo Reed, and Troy Bradshaw, who won the Democratic nomination for County Commissioner of Precinct 1 in the May Primary.

However, there are several state and national races to be decided, so voter turnout in Martin County should be fairly heavy.

HD Club Program Has Holiday Theme

There will be a county-wide Home Demonstration Club program presented by Sara Williamson, Texas Electric Home Economist, on November 14 at 2 p.m. in the Texas Electric Reddy Room. Everyone is invited to attend.

The program will be on "Holiday Foods and Lighting Decorations."

THIS IS THE WAY TO CATCH 'EM—These three Stanton lassies were caught on film as they seemed to be enjoying the ole fishing hole Saturday night. Top to right are: Kimberly Click, daughter of Coach and Mrs. Phil Click; Amy Erick, daughter of Coach and Mrs. Charles Erick; Kimberly Gregory, daughter of Coach and Mrs. Tommy Gregory.

Farmers Union President To Assist 69th Annual Convention Policy Draft

Ronnie Deatherage of Tarrant will be in Waco on November 13 and 14 to participate in preparing a rough policy draft for consideration by delegates attending the 69th annual Texas Farmers Union state convention. The farm organization's annual convention will be held at the Inn of the Six Flags in Arlington, Texas on December 7-9. At that time, the rough policy draft will be given thorough consideration by delegates representing approximately eighty Texas counties.

The Program Drafting Committee on which Deatherage serves is charged with the responsibility of compiling, classifying, as well as organizing the resolutions which have poured in from annual meetings held by TFU chartered counties during the fall months.

Deatherage and wife Jessie have three children and are active farmers in Mar-

tin county. Deatherage farms 1600 acres, of which cotton and milo are his principle crops, as well as running a cattle operation. Deatherage is currently the President for the local Farmers Union organization and is active in the Flower Grove Baptist Church.

RONNIE DEATHERAGE ... to attend Convention

Martin County Chamber Of Commerce Capon Show This Saturday, 8:00 a.m.

One of the big events of the year that places Martin County in the news, scheduled for 8 a.m. Saturday, November 4, 1972, is the Martin County Capon Show. The annual auction sale will follow the show at 1 p.m.

This year there will be approximately 30 county 4-H members competing for the top spots, all hoping to show the Grand Champion.

Mr. Marshall Miller, Poultry Marketing Specialist, Texas A&M University, will be the judge for the show.

Mr. Eddy Owens, Howard County Deputy Sheriff, will do the auctioneering for the Annual Event.

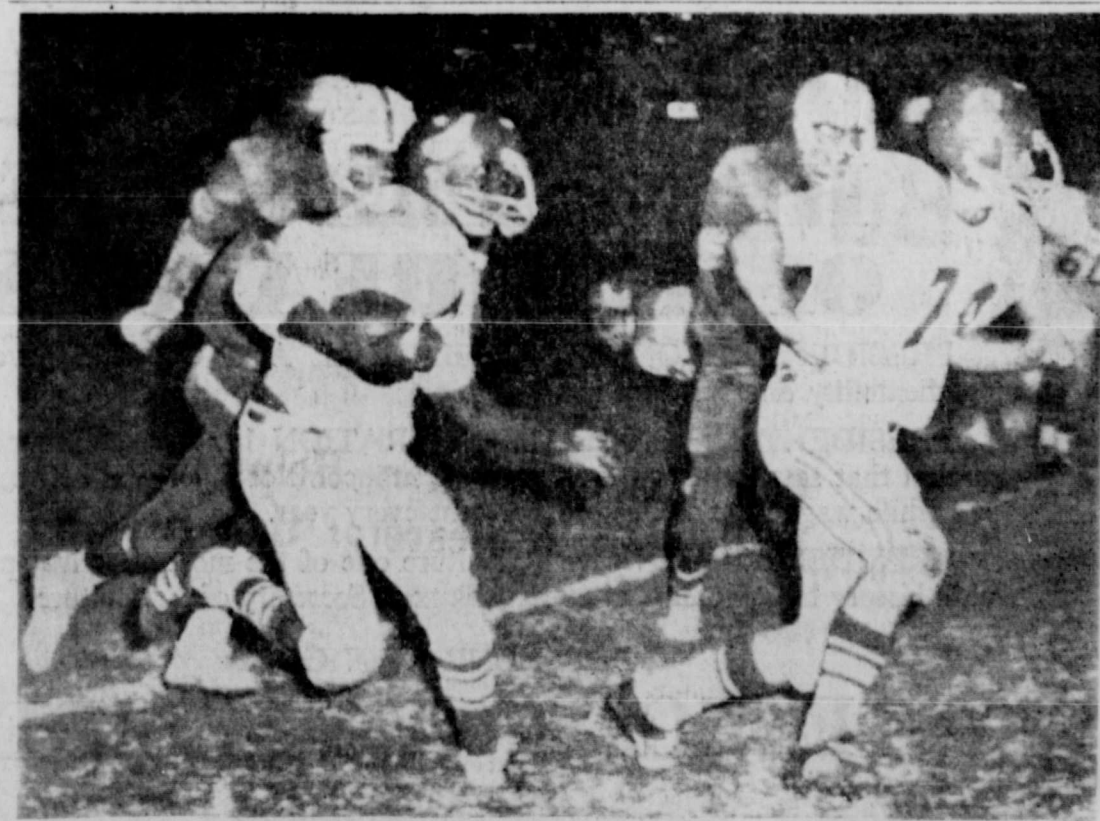

The public is invited to come out Saturday and support the County 4-Hers.

Businessmen and friends of 4-H are urged to be present at 1 p.m. Saturday for the annual sale event. Your participation is what makes the Capon Show a success. Buyers who will not be able to be present on Saturday, may contact Chuck Elmore, Agriculture chairman, and make your wishes known regarding purchase of a bird in the sale.

There will be a barn clean-up Thursday evening, beginning at 7 o'clock. Interested persons are urged to be present.

The Agriculture Committee of the Martin County Chamber of Commerce, who sponsors this event each year, are hoping for the biggest show yet and urge merchants and citizens of the community to come out and support this year's show.

They staff their centers See NURSING HOME, Page 8

BUFFALO RAMBLES FOR YARDAGE—Unidentified Stanton player follows blocking of tackle Duane Clory (74) to gain yardage during action Friday night against Crane. The Buffs moved the ball well, but saw numerous fumbles cancel out drives. (Photo courtesy Mrs. Mary Halslip)

Stanton Stumped By Crane, 7-0, Buffs To Host McCamey

The Stanton Buffaloes moved the ball well against the Crane Golden Cranes Friday night, but with Crane being fired up by their homecoming crowd on hand stifled the Buffs for a 7-0 District 7-AA win.

The first half saw Stanton moving good only to have the ole loose ball being covered by Crane. The birds just received too many opportunities to be kept out of the end zone.

The few Stanton fans on hand didn't have much to cheer about as everyone realized that this is not the same team that startled everyone with upsets to now own a 4-2 record. Coach Bill Young has his work cut out for him to find the missing pieces and put it all together again this Friday night as Stanton hosts

McCamey in the Buffs' third District 7-AA match. Coach Young noted Steve Cook received lineman of the week honors and Dwayne McMeans, back of the week. He

Cold, Damp Weather, Helps Keep Halloween A Peaceful One Here

The morning after Halloween, Police Chief Rogers said the kiddos of Stanton are certainly some of the best, that they deserved a pat on the back. He stated this due to no serious pranks being played that were reported or any type of property damage.

A cold front that has been keeping local skies cloudy and some precipitation falling

also stated that Billy Howard will be in the starting quarterback role against McCamey. Rick Wilson remains on defense. McMeans received a bruised muscle against Crane

was certainly a big factor also. The drizzle Tuesday night turned to sleet at times and some reports of hail stones were noted in various parts of the city. Wednesday morning residents woke up to find a glaze of ice on windshields and the temperature setting around 32 degrees. Chief Rogers said the only reports turned in included

See COLD, Page 8

and is listed as a question mark on starting duties.

Rick Wilson received the kickoff from Crane and brought it out to the 18, where Crane's Louis Stone made the stop. Two incomplete passes and a run saw the Buffs face a 4th and 7 to go.

Chuck Hickman took the Wilson punt at his own 35 and brought it back to the Buffs' 26. Jeff Moore tried the Buff line twice, then QB Tinker Cadena hit Steve Caldwell for the 1st down at the 15. Steve Cook and Duane Clary broke through on a 3rd down pass attempt and dropped Cadena for a 10 yard loss. The Cranes 4th and 18 pass was incomplete.

Stanton took over on downs at the 23. The Buffaloes then were sparked by the running

Stanton Teachers Will Attend Meeting And Lectures In Midland

On Monday, November 6, 1972, Stanton teachers will be attending meetings and lectures in Midland as part of inservice training programs for the school year.

Separate programs for elementary school teachers are planned.

The keynote speaker for elementary school teachers will be Dr. Jo M. Stanchfield from Occidental College, Los Angeles, California. She is one of the leading authorities in the field of elementary reading. Elementary teachers will gather at Midland High School auditorium to hear her.

Floyd Parsons, Superintendent of Little Rock Public Schools will address the secondary teachers in Lee High School Auditorium. He has taught classes at the University of Texas, Hardin-Simmons University and the University of Arkansas.

Following the general sessions, teachers will attend luncheons and sectional meetings to the secondary teacher's field or elementary grade assignment.

Shorts From The State Capital

Two hundred thirty-three of the 254 counties have been paid more than \$1.5 million by the state for issuing voter registration certificates for the 12 months ending January 31.

Your Abilities Create Your Own Satisfaction In Wardrobe Selection

Getting the most satisfaction for your clothing dollar depends on your buymanship abilities.

Your season's wardrobe budget will have more buying power if basic rules, such as selecting the correct size, checking the fit, analyzing workmanship and reading handtags, are followed.

In discussing effective selection of wardrobe items, other considerations team with basic rules for success in buying. They are the budget itself, fabric care after purchase, and flexibility of style.

Completing your wardrobe and being fashionably dressed can be done without overspending. Your budget is the best guideline for getting the clothes you need at prices you can pay.

Avoid impulse spending sprees. It's easier to buy one outfit at a time to coordinate with your total wardrobe and to observe the new arrivals at stores periodically.

Be sure to set aside enough money for large purchases—especially if they won't be the first selection you make in the season.

Don't go overboard on price of any one article. Many changes may be more satisfying for an on-the-go female than one or two high-quality outfits. Fashion turnover seems to be frequent, and the 'in' look may be easier to achieve with a moderate price.

A second major consideration in selecting wardrobe fashions is upkeep required of

the fabrics. Easy-care fabrics may be more suitable to the budget as well as the time schedule.

Flexibility of style marks the third consideration. To extend your wardrobe as far as possible, think in terms of different effects you can get by switching separates around. Dual-purpose outfits add flexibility to the wardrobe.

Accessories are important, too, as they help make your wardrobe go further. They're fun to buy but often are fun, so you won't want to put a lot of money into any one thing. Remember, prices often are reduced to a modest level soon after they first hit the market.

Look to the basic rules of buying, for checking fit and style:

Before you make the final decision, check the appearance of the outfit from all angles.

Look to see how it appears from the back.

It should be comfortable and look well while you're seated and while you're walking.

One of the best rules of thumb is never buy anything unless it does something for you. It should emphasize figure assets, flatter you with color to highlight your skin tones, the color of your eyes and sheen of your hair, and it should make you feel great.

Consider your selection carefully, and you'll love wearing your seasonal-fashion wardrobe.

A \$48,000 national grant will help Texas A&M Agricultural Experimental Station finance a study of the gulf shrimp industry.

Sen. John Tower advised Texas farmers and ranchers who suffered crop, livestock or property losses from natural disaster since June 30 they may be eligible for federal assistance.

A charter is being sought for Heritage Bank in Montgomery.

Former Partners Suspended As Livestock Dealers For Violation Of Packer-Stockyard Act

WASHINGTON—Olan Wise and D. J. Dean, former partners in Lamesa Hog Co., a buying station at Lamesa, Tex., have been suspended as livestock dealers for violating bonding, scales, weighing and recordkeeping requirements of the Packers and Stockyards Act, the U. S. Department of Agriculture said recently.

The partners consented to the order. They waived oral hearing, and neither admitted nor denied the charges contained in an administrative complaint issued by USDA's Packers and Stockyards Administration.

The firm is no longer operating. The cease and desist order — like a permanent injunction — was issued to insure future compliance with the Act.

USDA Judicial Officer Donald A. Campbell suspended the partners' registration under the Act for 20 days, which started Oct. 12, 1972, and thereafter until they comply fully with the bonding requirements of the Act. They may not operate as livestock dealers during that time.

Olan Wise and D. J. Dean, individually and as partners with each other or with other persons, in connection with the purchases of livestock in commerce, were also ordered to cease and desist from:

— Weighing livestock at

other than the true and correct weights;
— Issuing scale tickets and accounting to, and paying the sellers of livestock on the basis of false and incorrect weights;

— Failing to operate their livestock scales in accordance with P&S regulations; and
— Engaging in business in commerce in any capacity for which bonding is required under the Act without filing an acceptable bond.

The partners were also ordered to keep complete accounts and records which correctly disclose all transactions

involved in their business under the Act.

P&S requires livestock dealers to provide bonds as a measure of financial protection for sellers.

The P&S Act is a fair trade practices law. It promotes and maintains fair and open competition in the marketing of livestock, poultry and meat. The Act is administered on a nondiscriminatory basis.

The record in this case is open to the public. Copies of the order, P&S Docket 4647, may be obtained from the Information Officer, Packers and Stockyards Administration, USDA, Washington, D. C. 20250.

It takes more than eight minutes for the light of the sun to reach the earth.

Baked with family pride.

Why You Should Re-Elect President Richard Nixon Nov. 7

LET'S LOOK At AGRICULTURE And STOCK RAISING

WE HAVE one of the most abundant supplies of food in history. Our exports of livestock, fresh meats, grain sorghums and grain are going to add many dollars to the general economy.

WE'RE SELLING COMMODITIES of which we've had surpluses—and we're helping provide jobs on trucks and ships at the same time.

HERE ARE SOME OF THE REASONS

PRESIDENT NIXON'S AGRICULTURAL ACT OF 1970 gave producers more flexibility and freedom in operations.

PRESIDENT NIXON'S ADMINISTRATION has turned around the farm situation that saw farmers get an increase in income of 6 per cent between 1951 and 1969 while wage rates went up 6 per cent every year.

PRESIDENT NIXON gave agriculture one of the most effective spokesmen in recent history by appointment of Earl Butz as Secretary of Agriculture.

FOR YOUR OWN GOOD

RE-ELECT THE PRESIDENT

AND REMEMBER

The Only Way to Have Your Say

IS TO

Get Out and Vote Nov. 7

Third Quarter Earnings Show Adobe Corp. Increased Revenue

MIDLAND—Adobe Corporation, an oil and gas exploration and production company, recently reported increased revenues, earnings, and gas and oil production for the nine months ended September 30, 1972.

Total revenues were \$6,525,247, an increase of 47% over \$4,425,822 reported in the corresponding 1971 period. Net earnings were \$1,386,624, or 30 cents per share, an increase of 27% over \$1,093,370, or 24 cents per share, reported in the prior year period. Cash flow in the first nine months of 1972 increased to 65 cents per share, compared to a restated 47 cents per share for the like 1971 period.

Earnings for the 1972 third quarter were \$583,982, or 12 cents per share, compared with \$466,770 or 10 cents per share, for the same period in 1971. This is a 25% increase in net earnings, and 20% in per share earnings. Total revenues for the 1972 third quarter amounted to \$2,274,682 compared with \$1,681,642 for the 1971 third quarter, an increase of 35%. Cash flow in the 1972 third quarter was 24 cents per share, compared with 19 cents per share in the 1971 third quarter.

All 1971 figures have been restated to give effect to both reduced shares outstanding and an investment credit during this period in 1971.

Stockholders equity on September 30, 1972 was \$11,549,312, a 114% increase in equity on September 30, 1971.

B. J. Pevehouse, president of Adobe, also announced that the company has just com-

pleted a new gas well near Carlsbad, New Mexico, which shows indications of delivering five million cubic feet of gas per day. Adobe owns a 39% interest in this well.

During the third quarter of 1972, Adobe completed 17 gross (8.35 net) producing oil and gas wells. A total of 40 gross (18.47 net) producing wells have been completed during the first nine months of 1972.

Mr. Pevehouse stated that Adobe's partners, Burmah Oil and Cities Service, presently are drilling at 6,000 feet on a well scheduled for a total depth of 10,000 feet, on acreage in Somalia, East Africa, where Adobe Africa owns 15% of a 9,152,000 acre concession. Adobe Africa, Inc., is an 80% owned subsidiary of Adobe Corporation.

"Daily average net oil production has increased from 2,293 barrels in the 1971 nine months to 2,744 barrels in the 1972 period. Daily average net gas production was 24,974 MCF, an increase of 71% over the 1971 nine month daily average," Mr. Pevehouse added.

Trading of Adobe Corporation's shares on the American Stock Exchange is expected to begin on November 2, 1972. The symbol "ADO" has been assigned to the company's stock.

Letter to the Editor

Dear Editor:

I was very pleased to read the October 26th issue of the Stanton Reporter in which it was mentioned that Police Chief Rogers will begin a driver's license check. It is something that I feel should have been done long ago.

Those persons driving cars, motor scooters, and minibikes without licenses should definitely not be allowed to do so. But, let me say one thing on behalf of the "underage children." There are many adults that, for various reasons, are driving cars without a license. They are setting a bad example for the kids by doing that! Then, there are parents that actually allow their "underage children" to drive their cars when they are going to or coming from neighboring towns. Usually, when they return to Stanton, the "underage children" beg their parents to allow them to continue driving around Stanton.

The permissiveness of the parents is merely being taken advantage of by the kids. Parents should realize that times have changed drastically since they were kids and today's children, because of current temptations, cannot be allowed to "get away" with things such as driving without a license. Parents must realize that in doing such a "harmless" thing such as driving, can, in the long run, lead to tragedy or near

tragedy. The fact that "underage children" should not drive is something that every parent should start preaching early in a child's life. But, for those boys and girls that are illegally driving now—let's stop them and then have the parents assume some of the consequences, too. And, these adults that are driving illegally must be stopped, too! Teaching respect is done only by setting a good example.

What we adults don't always realize or want to admit is that we are the ones to be blamed for a lot of the wrong doings that kids are involved in. I only hope that Chief Rogers will be able to accomplish this "driver's license check" thoroughly. And, only will he be able to do this job thoroughly if he or a helper are able to stop everyone, and those that think they'll never be checked on suddenly realize what a terrible wrong they are doing—not only towards themselves but, also, towards others, namely the younger generations!

There are a lot of unfortunate mistakes or accidents that happen that cannot be helped—let's not have a n y happen that are caused by something that we can help —by doing something to prevent! Let's not just talk about it—let's do something about it!!!

Anonymous.

Re-Elect Senator —TOWER—

He's Doing A GOOD Job for Texas!

Paid for by the Martin County Committee to Re-Elect Nixon and Tower, Suzanna Brown, Chairman.

November Will Be Observed As Texas Food, Fiber Abundance Month

The entire month of November will be observed as "Texas Food and Fiber Abundance Month."

Consumers can be assured of highest quality and large quantities of Texas food and fiber products at reasonable prices, officials emphasize.

The month-long observance is being promoted by agricultural groups of the state to inform and reassure consumers of the quality and

abundance of food and fiber materials.

Never before have consumers had such a wide array of food and fiber products at such a reasonable cost from which to choose, program officials emphasize.

It is most appropriate that Texas Food and Fiber Abundance Month be observed in November and that Texas consumers and others join in placing emphasis on the blessing and abundance of food and natural fibers that come from farms and ranches around the state, said Jack Barton of Houston, president of the Food and Fiber Abundance Month observance.

The salute to agriculture—and the general emphasis on quality food and fiber products—will be implemented in virtually every county of the state in November, traditionally a time to show appreciation and give thanks for the abundance, value and wide choices of excellent products, says County Extension Agent Billy Reagor.

The Food and Fiber Abundance message is being directed toward the urban dweller, with special emphasis on reaching homemakers who do most of the buying.

Calling attention to Food and Fiber Abundance month will be a wide variety of educational programs, including displays and exhibits at shopping malls and other strategic locations such as grocery stores and banks; school observances; talks before civic clubs or on radio and television; youth activities, and articles in daily and weekly newspapers and magazines.

Rebekah Lodge News

Lillian Bevers presided as Noble Grand, Pro-Tem, Monday night at the IOOF Hall, when the Stanton Rebekah Lodge 287 met.

A vote carried for the Rebekah Lodge to meet twice a month, on second and fourth Monday nights at 7:30 p.m.

Margie Clardy presided as Vice-Grand Pro-Tem for the meeting and Vera McCoy, secretary, read the minutes of the last meeting. Lillian Coggin is treasurer. Pauline Graves acted as warden. Lynn White was inside and outside guardian.

Seven visits were reported made during the week.

A Thanksgiving supper was discussed and will be decided upon at the next meeting, November 13. It is a yearly Thanksgiving supper, joint with the Oddfellow Lodge.

Mason Coggin, Chaplain, voiced the prayer.

Shorts From The State Capital

Presidential candidate George McGovern received an exceptionally warm welcome to the Texas capitol during his last visit to Texas.

Efforts to raise hunting and fishing license fees failed in the House of Representatives. Another try will be made next year.

Sen. Wayne Connally of Evansville will head a national campaign for a constitutional convention to prohibit forced busing to achieve racial balance in public schools.

SEAT BELTS and SAFETY

What's your excuse for not wearing safety belts when you drive? "Too much trouble," "I only drive around town," or how about the old stand-by, "they wrinkle my clothes."

No excuse is worth it. Since the majority of auto accidents occur within 35 miles of home, and at less than 40 miles an hour, safety belts are worth the "trouble" to buckle no matter how short—or slow-paced—the trip.

Although more than half the cars on the road have safety belts, only one in three of us takes the seconds necessary to fasten them. In a recent report, the National Safety Council says some 10,000 lives could be saved annually if belts are used. Based on that alone, it seems a wrinkle or two could be tolerated.

And don't stop with your own belts. Children under four years should be buckled into a safe child seat. Under nine months—use a well-restrained car bed or infant carrier. Beyond four years, use a lap belt. If the child is over four-and-a-half feet tall, a shoulder harness should also be used.

"Seat belts are no good unless they're used," says American Oil Company manager of safety, F. Curtis Smith. "So, buckle up for safety."

CAR SAFETY CHECK LIST

Some states or municipalities have regulated systems of mandatory periodic car-safety checks. But in areas where there are no such programs, you're on your own in making sure your car is road-worthy—and safe.

Keep the following safety check list handy on visor or in glove compartment. Use a pencil to check each item, enter the date, and erase and up-date during your next "check-up."

Your service-station dealer will be happy to assist in checking some items, like spark plugs, hoses, muffler and tailpipe, and brake fluid level.

Cotton Crops Have Pink Bollworm On The Increase In Martin County

Pink bollworms are increasing in cotton in Martin County, according to County Extension Agent Billy Reagor.

Since this devastating insect pest has caused serious damage during the past two production seasons, producers are urged to use cultural control practices wherever possible. The battle to reduce this major cotton pest to a non-damaging level must be initiated at harvest time and is a year long job, emphasizes Reagor.

Cultural control measures are aimed at the "weak link" in the life habits of this pest, explains the agent. Populations naturally become lowest during winter months and cultural control measures are designed to increase larvae mortality during this time. Cold, wet weather is especially "deadly" to the larvae.

For effective cultural control, cotton growers should take the following steps:

1. Harvest early.
2. Destroy stalks promptly and thoroughly, observing stalk destruction deadlines established by the Texas Department of Agriculture.
3. Destroy all green boll piles left at turn-rows after stripping.
5. Clean up and gin all seed cotton.
6. Keep soil moisture as high as possible.
7. Plant early and uniformly.

The agent discourages discing after stalk destruction with a tandem or off-set disc plow since this only mixes crop residue and thus protects diapausing pink bollworms from extreme cold temperatures.

The pink bollworm overwinters in the larva stage in old bolls and cotton locks left in

the field or in seed taken from the field. The grown larva is pinkish in color, giving it the common name, "pink bollworm."

As bolls develop, the larvae cut paths through the immature lint and feed on the seed kernel. Both seed and lint are damaged during the feeding process. Overwintering female pink bollworms may lay over 200 eggs the following spring.

Yield and quality losses will be significant in 1973 if measures aren't taken to reduce worm numbers following the harvest season, contends Reagor.

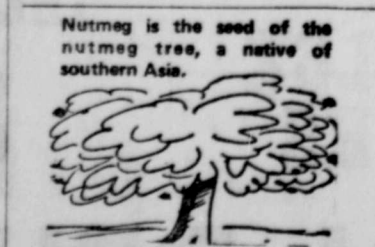

Where cotton fields will not be harvested because of immature crops, stalks should be shredded and the residue plowed under as soon as possible to reduce the insect food supply, he adds.

Roy Pickett Highlights Lion Tuesday Meet

The Stanton Lions Club met Tuesday, October 31, in their regular weekly meeting at the Belvue Restaurant, with a good representation of members present, and two guests, Bob Deavenport and Danny Fryar.

Roy Pickett, County Attorney, gave a presentation of Tax and Revenue Sharing, a Federal program for states, counties and cities. The club voted to sponsor the Moore's All-American Red Heads, a woman's professional basketball team, to be presented here in January.

J. R. Dillard, District Zone Chairman presented an award which was won by the Stanton Lions Club for being a 100 per cent Club. The award was a clock which was hung on the wall in the Dining Room of the Belvue Restaurant, the regular meeting place for the Lions.

4-H'ers Suggest Foods

Have you ever had the need to give someone a little gift? One that says "thank you", or "get well soon", or just "glad I've got a friend like you"?

According to the Cooperative Extension Service, one of the most appreciated gifts to give for these occasions is preserved food: jams, jellies, fruits and vegetables.

Over 103,000 4-H'ers in the national 4-H food preservation program, sponsored by the Kerr Glass Manufacturing Corporation, enjoy preserving foods, as gifts for others and for quick and easy meals at home. And they find canning and freezing an economical way to use foods in season.

4-H'ers who enroll in the

program may preserve foods from their own gardens or realize savings by purchasing plentiful foods. They look for quality produce and then follow recommended preserving practices in assuring tasty, nutritious meals.

Daisy Langford, of Meadville, Miss., was one of six national winners in the 4-H food preservation program, last year. Miss Langford not only canned fruits, vegetables and jellies, but she also froze meats, bread and pastry goods. She also compiled and distributed pamphlets on food preservation to others in her community.

"We really saved a lot of money by canning and freezing fruits and vegetables for winter," Miss Langford said. "During the summer we spent most of our time raising, har-

vesting, canning and freezing fruits and vegetables."

Kerr Glass Manufacturing Corporation has sponsored the 4-H food preservation program for over 44 years. During that time the company has provided 4-H members with incentive and recognition awards and some \$80,000 in educational scholarships.

State winners in the food preservation program receive an expense-paid trip to the National 4-H Congress in Chicago, Nov. 26-30. There, six national winners will each receive \$700 scholarships from Kerr County winners receive medals of honor for their achievements.

For more information about the 4-H food preservation program, contact the county extension office.

4-H Club News

By Jimmy Mitchell

The Martin County 4-H Club Council meeting was held October 26 at the Court House.

The food show was discussed and set for December 9 at Cap Rock.

The Capon Show will be held November 4. The 4-H Council will run the concession stand for that day.

The program for the Achievement Banquet was planned.

4-H members present at the Council Meeting were Sharalyn Holcomb of the Flower Grove 4-H Club; Lanny Hanson and Diania Wells of the Friendship 4-H Club; Faye Welch, Joe Lozano, and Jimmy Mitchell of the Grady 4-H Club; Jody Yates, Leslie Welch, and Curt Howard of the Senior 4-H Club; and Lois Howard, Elvin Brown, and Morgan Cox of the Wild Bunch 4-H Club.

PROPOSED CONSTITUTIONAL AMENDMENTS

INSTRUCTION NOTE: Place an X in the square beside the statement indicating the way you wish to vote.

No. 1 () FOR () AGAINST	The constitutional amendment to provide annual salaries of \$8,400 for members of the Senate and House of Representatives.	No. 8 () FOR () AGAINST	The constitutional amendment to provide a four-year term of office for the Governor, Lieutenant Governor, Attorney General, Comptroller of Public Accounts, Treasurer, Commissioner of the General Land Office, Secretary of State, and certain statutory State officers.
No. 2 () FOR () AGAINST	The constitutional amendment abolishing the Lamar County Hospital District.	No. 9 () FOR () AGAINST	The constitutional amendment to provide that directors of soil and water conservation districts are not disqualified from holding of being compensated for more than one office.
No. 3 () FOR () AGAINST	The constitutional amendment to require the commissioners court in all counties of the state to compensate all justices of the peace on a salary basis.	No. 10 () FOR () AGAINST	The constitutional amendment revising provisions on the time and method of proposing amendments to the state constitution and the time and method of publishing notice of proposed amendments.
No. 4 () FOR () AGAINST	The constitutional amendment providing for a constitutional revision commission which precedes the convening of the members of the 63rd Legislature as a constitutional convention in January, 1974, for the purpose of submitting to the voters a new constitution or revisions of the existing state constitution.	No. 11 () FOR () AGAINST	The constitutional amendment to provide a salary of \$22,500 for the Lieutenant Governor and the Speaker of the House of Representatives.
No. 5 () FOR () AGAINST	The constitutional amendment allowing certain tax exemptions to disabled veterans, their surviving spouses and surviving minor children, and the surviving spouses and surviving minor children of members of the armed forces who lose their life while on active duty.	No. 12 () FOR () AGAINST	The constitutional amendment permitting State employees, who are not State officers, to serve as members of the governing bodies of school districts, cities, towns, or other local governmental districts, without forfeiting their State salary, and specifying exceptions to the constitutional prohibition against payment of State funds for compensation to any person who holds more than one civil office of emolument.
No. 6 () FOR () AGAINST	The constitutional amendment providing that the various political subdivisions of the State may exempt not less than Three Thousand Dollars (\$3,000) of the value of residence homesteads of all persons sixty-five (65) years of age or older from ad valorem taxes under certain conditions.	No. 13 () FOR () AGAINST	The constitutional amendment to set a six percent (6%) weighted average annual interest rate for bonds issued pursuant to constitutional authority presently having a specified interest ceiling.
No. 7 () FOR () AGAINST	The constitutional amendment to provide that equality under the law shall not be denied or abridged because of sex, race, color, creed, or national origin.	No. 14 () FOR () AGAINST	The constitutional amendment to allow a county to reduce its county permanent school fund and distribute the money to independent and common school districts to a per scholastic basis.

Agricultural Experiment Station Develops Greenbug-Resistant Sorghums

COLLEGE STATION—Two greenbug-resistant sorghum breeding stocks—TAM Bk-41 and TAM Bk-42—have been released by the Texas Agricultural Experiment Station.

The stocks are agronomically improved sources of resistance to the greenbug but are not yet suitable for commercial production.

They were developed at the Texas A&M University Agricultural Research and Extension Center at Lubbock by Dr. J. W. Johnson, sorghum breeder, and Dr. G. L. Teetes, entomologist. A grant in aid for the project was provided

by the Texas Grain Sorghum Producers Board.

Johnson said TAM Bk-41 and 42 are being released to expedite development of a wide range of commercially acceptable greenbug-resistant sorghum hybrids.

"Greenhouse and field trials have shown the sorghums to be highly tolerant to greenbugs in both the seedling and adult plant stages of growth," Johnson said. "Preliminary studies indicate that insecticides would not be required to prevent greenbug damage to sorghum plants possessing the resistance found in TAM

Bk-41 and TAM Bk-42." Greenbug-resistant sorghum research was begun by Johnson in 1969. The pest was costing Texas sorghum producers an estimated 10 million dollars annually in yield losses and chemical costs.

Breeding progress has been more rapid than expected, the agronomist pointed out.

When resistant types were found, they were very poor agronomically, and nothing

was known about inheritance of resistance. But studies the past three years show resistance to be an incompletely dominant characteristic that can be transferred to good types.

"TAM Bk-41 and 42 are good enough agronomically that one more cross with good commercial varieties should provide excellent greenbug-resistant varieties that will need no insecticide application," Johnson said.

Commercially acceptable greenbug resistant hybrids should be available to sorghum producers in 1976, he added.

Stantonite Attends TFMC Convention, Featured In Dallas Morning News

The following story, featuring an interview of one of Stanton's local citizens, was written by Sharon Cobler, Club Editor of the Dallas Morning News, and was taken from the October 27 edition of that paper:

By SHARON COBLER
Club Editor

Mary Prudie Brown sees her duties as "impacting the gift of music" to others.

"In whatever capacity possible, I feel those who love music should give of themselves," the woman from Stanton says.

"I'm not a concert artist, but I'm glad to organize for those who are and who do not have the temperament for organization."

President of the Texas Federation of Music Clubs, Mrs. Brown is in Dallas Friday for the convention of District V, which opens at Highland Park Methodist Church.

She will speak to members at a luncheon Friday. Her main emphasis will be that those who love music need to encourage music education in school programs.

"Music is part of the educational process. We do not come to any sort of wisdom without knowledge."

"We've always been for keeping music in the schools. It tends to be phased out."

Through scholarships and programs for students in public schools and colleges, the Federation of Music Clubs encourages the young artist.

In addition to a department for senior clubs, the TFMC has activities for juniors and for students (college age).

Included in these activities is a festival for students in each of the 12 districts each spring.

One of the primary reasons for the organization of the National Federation of Music Clubs 75 years ago was to promote American music and composers. Texas also studies music done by persons from the state.

Another important aspect of the coordinated music activities is community service which gives music to the community and in areas where music volunteers are effective.

Mrs. Brown, who holds degrees from Abilene Christian College and the University of Colorado and who has done graduate work in radio at the University of Minnesota, is very vocal on what music programs have to offer hospitals and mental institutions.

The TFMC would like to have a certified musical therapist in every mental hospital in the state and it is working on a scholarship specifically for a musical therapist.

Work in hospitals until this time has primarily been done by volunteers.

Programs for blind children and students are also a part of the federated activities.

A life member of the national federation, Mrs. Brown says that there are 600,000 members on the national

level.

The federation is the only nongovernmental, noncommercial music organization which has an accredited representative in the United Nations.

The Texas president is the wife of Stanton druggist Glenn L. Brown, whom she helps with various businesses.

She has been recognized as an Outstanding Civic Leader by the Stanton Chamber of Commerce and the Texas Federation of Women's Clubs named her Outstanding Club Woman for the Western District.

She is listed in Outstanding Personalities of the South for 1972.

One son, Guy Story Brown, is a graduate student at the University of Dallas in political science. His wife Sheryl is in the graduate program at SMU.

Her other two children, Suzanne and Baxter, reside in Stanton.

Former Stanton Resident Plans Return To Area

Hilton Kaderli, former Stanton resident, visited in the office of The Stanton Reporter last week to request a change of address on his paper. Mr. Kaderli advised The Stanton Reporter that he had moved from Tulsa, Oklahoma, to Midland.

He also stated that he plans to reopen the offices of Martin County Abstract Co. in Stanton, a business which his father, the late W. A. Kaderli, operated for many years.

Mr. Kaderli first plans to remodel and refurbish the building at 308 N. St. Peter, which was the office and residence of his parents, and will reestablish the business here in the near future.

House-To-House Campaign, Nov. 6 By Jaycee-Ettes

The Stanton Jaycee-Ettes will conduct a house-to-house March to collect funds to support research on progressive muscular dystrophy in Stanton, November 6, 1972. The Jaycee-Ettes have taken the M. D. Campaign on as a special project with Mrs. Jimmy Barnhill serving as Campaign Chairman.

Muscular Dystrophy is presently an incurable, slowly progressive, and usually fatal disease which afflicts about 200,000 in the nation About two-thirds of these are children. In their case, average life expectancy is about twelve years after the onset of the disease.

A research breakthrough by scientists at the Muscular Dystrophy Associations of America Research Center, The Institute for Muscle Disease, has provided, for the first time, a successful treatment for hereditary muscular dystrophy in animals. The Stanton House - to - House March is one of the number of special campaigns being conducted throughout the nation in effort to provide funds. The timely achievement of this goal is of particular urgency from the standpoint of Texas Muscular Dystrophy Patients, in the later stages of the disease.

Hayworth's Visit Relatives In Stanton

Mr. and Mrs. Raymond Hayworth of Kerman, California, have been recent visitors in Stanton. While they were here, they attended the Standefers' 50th wedding Anniversary Celebration.

They visited with relatives in Stanton, including Mr. and Mrs. Leo Payne and Mrs. J. L. Ballard.

They also went to Dallas, where they attended the wedding of Mrs. Hayworth's nephew, Philip Payne.

Training Cattle and Livestock Buyers

LOCALS
Lyn Herzog, daughter of Mr. and Mrs. George Herzog, visited over the week-end with her parents and her grandmother, Mrs. Tant Lindsay. Lyn is attending St. Mary's U.

A wildcat was planned in Martin County and field locations were scheduled. Offset was scheduled to a recent strike in Howard and two steepouts were planned in another Howard field.

Monitor Petroleum Corp., New York City, staked No. 7-C Jones-Holton as a 4,300-foot searsher in Martin, seven miles northwest of Tarzan. Drillsite is 2,399 feet from south and 6,814 feet from east lines of Wheeler CSL survey 246, five miles west of the Phoenix (Grayburg) field. Ground elevation is 2,863 feet.

Phoenix Area
Belco Petroleum Corp., Midland, staked No. 3 E. E. Hatchett as a location south and northeast steepout to production in a northwest area of the Phoenix field.

Slated to 4,100 feet, it spots 660 feet from north and east lines of section 23, block 36, T-3-N, T&P survey, seven miles north of Lenorah.

Fran-Glass Field
Henry & Landenberger, Inc., of Midland staked No. 2 Nail as a one-mile northwest outpost to the lone current producer in the Fran-Glass (Pennsylvanian) field of Martin, and 1/2 mile north of the firm's No. 1 Nail, prospective confirmer, which is now shut in.

Location is 1,320 feet from south and east lines of section 35, block 38, T-1-N, T&P survey, 5 1/2 miles northeast of Midland. Planned depth is 11,000 feet.

The No. 1 Nail made production tests through perforations at 10,517-10,585 feet. On the last reported gauge, it flowed 260,000 cubic feet of gas, plus 88.98 barrels of oil and 3.10 barrels of water

in 24 hours through a 10/64-inch choke.

Trend Area Spreads
Operators have added two new producers to the Martin County part of the Spraberry Trend Area.

Hanley Co., Midland, completed No. 1 McMurray through shot holes at 6,962-8,886 feet, which had been acidized with 10,500 gallons and fractured with 190,000 gallons and 702,000 pounds. It finished for 115 barrels of 37.8-gravity oil, plus 73 barrels of water daily, with gas-oil ratio of 1,191-1.

Location is 1,320 feet from south and east lines of section 42, block 35, T-1-N, T&P survey, five miles northeast of Stanton and 1 3/4 miles east and 2 1/4 miles west of production.

Adobe Oil Co. No. 2-C Glass has been finished as a 1/2-mile south and west extension to production in the Trend.

On 24-hour potential test, it pumped 187 barrels of 39.7-gravity oil and 14 barrels of water, through perforations at 8,294-9,278 feet, which had been acidized with 2,000 gallons and treated with 80,000 gallons and 240,000 pounds of fracture gas-oil ratio measured 904-1.

Location is 1,320 feet from south and east lines of section 12, block 38, T-1-N, T&P survey, 15 miles northwest of Stanton.

Sites Surveyed
Two locations have been staked in Martin County's Trend Area. UV Industries, Inc., Salt Lake City, No. 5 Scharbauer, 3/4-mile northwest outpost, is seven miles southwest of Tarzan and spots 1,350 feet from south and 1,320 feet from east lines of labor 23, LaSalle CSL sur-

vey 325. Planned depth is 9,600 feet.

John L. Cox of Midland staked No. 6-B Mabee as a 1/2-mile north and west offset to production in the Spraberry Trend Area, 12 miles northeast of Midland.

Drillsite is 1,320 feet from north and east lines of section 3, block 38, T-1-N, G&M-MB&A survey. Planned depth is 9,500 feet.

Howard Confirmed Set
The Desana Corp., Midland, plans No. 1 McDonald as a north offset to the Pennsylvanian reef, North opener and lone well from that pay in the Modesta, North field of Howard County.

Slated to 9,150 feet, the project spots 467 feet from south and 2,173 feet from west lines of section 19, block 33, T-3-N, T&P survey. Ground elevation is 2,762 feet.

The discovery, Desana Corp's No. 1 Armstrong, was completed July 20, to flow 207 barrels of 42-gravity oil per day, with gas-oil ratio of 640-1, through a 16-64-inch choke and perforations at 9,044-9,068 feet.

Howard Offsets
Charter Petroleum Co., Abilene, has staked two offsets to production in the Sara-Mag (Canyon reef) field of Howard County, about 20 miles northeast of Big Spring. Both are scheduled to 7,600 feet.

No. 2 R. T. Shafer, one location west, spots 1,790 feet from south and 2,725 feet from east lines of section 13, block 25, H&TC survey.

No. 3 R. T. Shafer, 1/4 mile northwest of production, spots 2,795 feet from south and 2,530 feet from east lines of section 12, block 25, H&TC survey.

Midland Trend Area
John L. Cox of Midland will drill No. 1-C Crespi, 1/2 mile west of the nearest producer in the eastern part of the Midland County portion of the Spraberry Trend Area.

Scheduled depth is 9,200 feet for the project which spots 1,320 feet from north and west lines of section 18, block 38, T-2-S, T&P survey, eight miles southeast of Midland.

National Cotton Advisory Council Calls Meeting On Cotton Crisis

LUBBOCK — U.S. Senator Dan Tower said recently he is urging Secretary of Agriculture Earl Butz to order a consideration of the 1973 cotton program and an increase in the loan level.

"We are facing a crisis in the cotton market and I have been working with the U.S. Department of Agriculture on this several weeks," said Tower.

"In a recent meeting with Undersecretary Philip Campbell and Kenneth Frick, Administrator of the Agricultural Stabilization and Conservation Service, we considered several possible solutions to the problem and I have come to the conclusion that a reconsideration would be the best course to follow.

"In my opinion, we must face the cold, hard fact that if there is no profit in growing cotton, our production is going to dry up," said Tower.

"A loan increase would restore profitability without being detrimental to export markets or domestic usage of cotton. On the other hand, if we do nothing to bolster the market price of cotton, the export markets seem certain to suffer from the lack of Texas production.

"A recent report prepared by cotton experts from several universities and economists from the National Cotton Council said a 24.1 cent level on domestic spot markets should enable us to at least hold our own in the export market and possibly even increase our average.

"Therefore, I have sent a telegram to Secretary Butz requesting reconsideration and I will continue to press for such action," said Tower.

In addition, I have been requesting the USDA to call an emergency meeting of the National Cotton Advisory Council. I have been informed that such a meeting will be called to meet on Nov. 2, (today.)

Letter To Editor

HOW WILL YOU VOTE
An Open Letter to the Editor
In our political government it's very important how we vote and if we vote, but this isn't the only way we vote. We vote each day on our way of life.

Do you realize when you buy a dirty book, you are casting a vote for the publication of bad literature?

When you go to an X-rated movie you are voting for bad movies and upholding the people who make them.

When you uphold liquor — well, you stop and think about all the tragedy you support.

How many religious books have you bought in the past year? What good moral things do you vote for or uphold, other than pitching a buck in the collection plate on Sunday? How do you vote?

...Buffaloes

(Continued From Page 1)

of Dwayne McMeans, Mitchell Irvin and Larry Jones to the Crane 43 before running out of downs. Irvin netted 17 yards on one scamper and Jones went 13.

Crane took the ball on the 20 after the punt went into the end zone, but fumbled on the second down. Stanton recovered on their 23, then fumbled it right back on their first play.

Vernon Brown tipped a first down pass incomplete and Crane kicked the ball to Stanton on a 4th and 6.

The Buffs put together a series of 4 first downs, one on a pass interference by Crane. This drive was the Buffs' deepest penetration to the 21 of Crane. Then the second period began and the first play saw a fumble recovered by Crane on their 26.

Jeff Moore and Jerry McGee picked up a 1st for Crane, but the Buff defense stiffened and held.

Stanton received the kick on their 35, then on the second play, Tony Morgan of

Crane busted through a d caused another fumble of a handoff in the Buff backfield and Crane had the ball on Stanton's 30.

Crane drove to the 3 yard line where the Buffaloes said no and took over on downs. Then Stanton fumbled on 1st down, but recovered it. But the second play saw the ball pop loose again with Crane recovering on the Buffs' 6 yard line with 4:58 remaining in the first half.

Jerry McGee then sliced off right tackle to the TD and the PAT was good for the only score of the game.

Stanton then went to work in the air with a Wilson pass being complete to Paul McCallister for 4 yards. The Buffs punted, but a Crane penalty put them back in business. A Wilson pass to David Dillard went for 12 yards, but the Crane defense held.

Crane then ran out the clock in the first half.

Third Quarter

Crane took the ball to the Buffs' 15 at the start of the second half only to see Cook and Wilson pushing them back and incomplete passes letting them run out of downs.

The Buffs didn't go anywhere and kicked to Crane. They then fumbled and Stanton recovered on Crane's 49. But the Buffs couldn't get going.

Crane had 3 plays stopped by the Buffs and penalties. Ted Hogan punted to Stanton only to find the ball loose again at the 26 of the Buffs. The Buffalo defense came through again and took over on downs at the 30 of Stanton with 1:45 remaining in the game.

The Buffs held and Crane kicked. Larry Jones rambled for 11, two passes went incomplete. Wilson found Vernon Brown open for 21 yards, then the next play produced a fumble.

Crane then ran out the clock.

Game statistics were:

Stanton	Crane
12 First Downs	12
81 Net Yds. Rushing	139
51 Net Yds. Passing	13
26 Passes Attempted	7
5 Passes Completed	2
0 Passes Int. By	0
6 Fumbles Lost	2
5-40 Punts-Avg.	6-31
2-26 Penalties-Yds.	6-60

High School Happenings

By Debbie Lambert

Well, it's me again! Brrr!! I sure don't like the weather, do you? It's too cold and winter hasn't even come yet, but it sure seems like it. I hope it isn't like this Friday night, cause I sure hope that there are so many people out to back the Buffs, that there won't be enough places to sit, and we have to give up the pep squad space for people to sit. Let's all "BACK THE BUFFS" this Friday night.

Well, the Buffs are now 2-0 in district standings. The Mighty Buffs lost their second district game to Crane Friday night by a score of 7-0, Crane's favor. The Buffs just couldn't "get it going" to "put it on" the Cranes.

This Friday night the "BIG RED" team plays the McCamey Badgers. The game is here at the SHS field, at 7:30, so there better be a lot of Buffalo Boosters at the game. OK? OK! This game will also be "DAD'S NIGHT" since it was called off at the Coahoma game due to the weather.

High School Lunch Menu

Nov. 6-10

Monday — Spaghetti rings and meat balls, vegetable salad, black-eyed peas, butter, milk, cornbread, pineapple upside down cake.

Tuesday — Hamburgers, lettuce, onion, tomatoes, milk, pickles, french fries, banana pudding.

Wednesday — Tamales, pinto beans, cornbread, buttered cabbage, butter, milk, cherry gelatin.

Thursday — Beef stew with vegetables, cheese wedges, cornbread, butter, milk, plum cobbler.

Friday — Fried chicken, gravy, pea salad, buttered rice, carrot sticks, hot rolls, butter, milk, spiced apples.

Read the Want Ads first!

So all ya'll dads be sure and come out and watch your son play his heart out, cause that is just what they are going to do this Friday night! Did ya'll hear that Buffaloes? I'm telling ya'll the truth. That is what all ya'll better do so I won't be wrong. Come on Buffs!!! TRAP THE BADGERS!!! YOU CAN DO IT BUFFS!!! BADGER THE BADGERS!!! PUT IT ON 'EM! VICTORY, VICTORY IS OUR CRY!!!

The B-team didn't have a game last Thursday, but they do have one this Thursday night, and it is here, after the 8th grade game, and it is with the Rankin Red-Devils. So ya'll come on out and watch the MIGHTY B-TEAM BUFFS GIVE THE RANKIN RED-DEVILS HECK!!!

There was an assembly at High School this week. The performers were Foy and Fay, two world renowned international jugglers. They were very entertaining and they were well enjoyed.

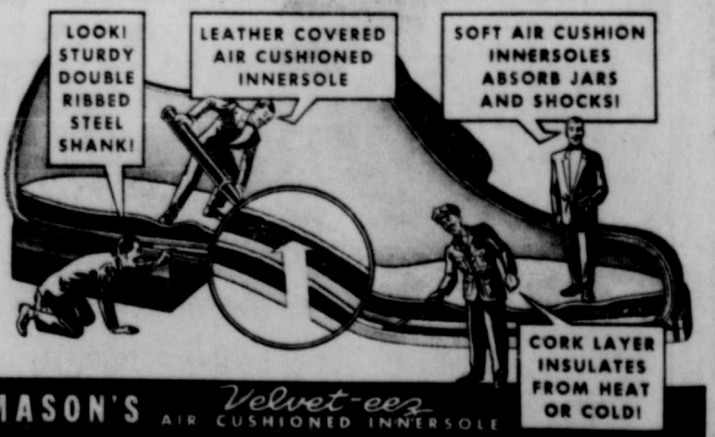

We have a new face at High School now, and that face is that of Mr. Bill Tillman. Mr. Tillman is an English teacher for the freshmen and sophomore classes. He is taking Mrs. Gail Goodrum's place as she resigned at the end of nine weeks.

The group and organization pictures will be made this week. The picture schedule goes as follows: Tues. — Class Officers. Wed. — Honor Society and M a t h Club. Thurs. — Science Club and Student Council.

Mrs. Haislip would like to remind you that there will be only one day of annual sale this year, and that day is Nov. 7, and the price is \$6.30. There will also be circulars sent out this week explaining about the annuals.

Well, that is about all there is this week, so I guess I will go... Ya'll be sure to sleep late this Monday, Nov. 6, cause there will be no school. Well, G-bye!!!

BOOSTER CLUB BINGO SATURDAY NIGHT—David Pinkerton, Herb Sorley, and Raymond Walton were kept busy Saturday night at the Booster Club's Bingo Booth as it proved to be one of the popular spots.

Jenson Now B Team Coach

Stanton's B team had the week off last week due to a game being rescheduled. They resume play Thursday (tonight) against Rankin here. The 7th grade game is set for 4:30, and the 8th grade game will follow. Then the B team will kick off.

Coach Bill Young announced the recent moving of Coach Alvis Jackson to command the defense of the Buffalo varsity. Coach Jim Jenson has assumed duties as B team coach.

Sheep: Deana Holcomb; Lesa Angel.

Swine: Elonna Airhart; Judith Yates; Brad Tunnell; Frank Atchison; Kendall Blocker.

Citizenship: J. C. Tunnell; Montie Foster.

I Dare You: Jay Mullins; Morgan Cox; Mark Eiland.

Field Crops: Curt Howard; Gordon Howard; Frank Douglas; Russell Mims; Ronnie Mims.

Veterinary Science: Ricky Hightower; Janie Roper; Darla Holcomb; Melinda Davidson; Jeff Douglas; Jim Atchison.

Electric: Elvin Brown; Ray Blake; Kerry Holcomb; Tony Douglas; Tom Atchison.

Texas Historical Marker Dedicated Recently To Anderson Cemetery

On October 8, 1972, a Texas Historical Marker was presented by John Plath Green, Chairman of the Dallas County Historical Survey Committee at the Anderson Family Cemetery near Rose Hill.

William Anderson and his wife, Celia Lair, who are buried in the square acre plot were both products of the late 18th century Kentucky frontier. In 1827, the couple and their family followed the rapidly advancing frontier into the new state of Missouri, settling just west of the Mississippi River in Lewis County. They were the parents of four sons and four daughters. One son, John Lair Anderson, and his wife, Emily Peak Anderson, were the first of the family to move westward when they came to Peters Colony, now Dallas County, in May, 1846. He

built his log cabin home just northwest of the present intersection of Centerville Road and Highway 66. Later the remainder of the Anderson clan followed John Lair and his wife into the Dallas County Area.

A son of John Lair and Emily, George Washington Anderson donated the land for a school and church where the Anderson Family Cemetery is now located.

Several children of George Washington Anderson found their way to Martin County. Bessie Ward, a daughter, still resides in Stanton. Raymond Anderson, now of Seminole, formerly lived here. Two other children, Mrs. G. P. (Emily) Harrell and Dewey Anderson, long-time Stanton residents are now deceased. Two grandchildren, G.P. Harrell, Jr. and Dewey Wayne Anderson are also Stanton residents.

Flower Grove Homecoming Set Saturday, Nov. 4

Flower Grove will hold its annual homecoming on Saturday, November 4, 1972. There will be a football game between the Flower Grove Dragons and the Union Terry Wildcats at 7:30 p.m. The half-time activities will include Football Sweetheart and Hero and a "Coming Home Queen" will be chosen from the graduating class of 1957.

The Senior Class will host a supper from 5 p.m. to 7 p.m. in the Cafeteria. You may purchase frito pie, chili, sandwiches, drinks, and desserts. If you wish to purchase a mum, please contact the Senior Class of Flower Grove.

Hope to see you at Flower Grove on Saturday, November 4, 1972.

COACH GOT 'THE WHOLE THING'—Coach Bill Young was coaxed into the hot spot for his turn at the sponge throw Saturday night, but somebody slipped in a thick, creamy, coconut pie.

...Nursing Home Meeting

(Continued From Page 1)

ters to provide the best care available.

(2) Maintain and operate on a profit basis.

He also went on to say that many nursing homes are operated on a "chain" or central type organization, but that Pioneer operates on the basis of each home being its own center. Thus if one were feasible for Martin County, an administrator would operate it here and employ local help.

It was stated that a 75 bed home would employ about 35 people. Thus, Martin County would have increased annual income to boost the economy. Mr. Smith noted in his past experience that some centers fill up faster than others, there's not any set pattern to regulate how soon it might be full.

He went on to state that government regulations are changing constantly to update nursing homes to provide better care for patients, but that Pioneer attempts to stay ahead by providing the best facilities and care available.

Mr. Smith said that the future for nursing homes providing better care and making profits have an excellent outlook for the future. Then

he brought out that Mr. Newland is doing a good job in his capacity as administrator and that anyone who thinks that nursing homes are all "easy money" has another think coming. He noted again they had been successful through their two point program for service.

Truman Smith then cleared the air that Pioneer Nursing Center is not trying to sell Martin County a nursing home, but that Stanton and Martin County have to convince themselves that they need and want to locate a nursing home here first. Pioneer is also on the lookout for other locations at the present and might not be locating here, rather than coming in and selling the people of the area, on a nursing home.

It was also noted in the past experience of Pioneer that a smaller community has a much better chance of success for a nursing home. That the general attitude of people is to come to a quiet, established community, than stay in the larger cities.

Mr. Smith and Mr. Newland then opened the floor to a question and answer period that saw the Martin County group on hand respond to.

Mr. Smith stated before the meeting broke up that he was impressed with his first look at Stanton. It was to be brought out that he'd never seen a nursing home go out of business, that the operation of such a center is the main key.

A summary of the meeting resulted in the reassuring feeling that the need is here in Martin County and that if funds can be raised, the area will be seeing plans shaping up in the near future.

Anyone not able to attend the town meeting concerning the nursing home Monday night, or if you still need a question answered to contact Ed Lawson or any Chamber member.

Retired County HD Agent To Be Honored Today

Mrs. Mildred Eiland will be one of five West Texas County Extension Agent retirees who will be honored Thursday (today) at the Ramada Inn in College Station.

This annual banquet is sponsored by the Extension Service and the Alpha Zeta Chapter of the Epsilon Sigma Phi, the national honorary Extension fraternity, to honor those who have retired from Extension work during the last year.

Mrs. Eiland has served a total of 30 years as Home Demonstration Agent, 23 of those years in Martin and Glasscock Counties. She retired in January of this year.

Dr. John E. Hutchison, Extension Service director, will serve as master of ceremonies at the banquet. The Hon. Robert N. Barnes, Nueces County judge and president of the Texas Association of County Judges and Commissioners, will present a special recognition plaque to each retiree.

Band News

By Lisa Hopper
The Stanton High School Band is having a party Friday night November 3. It will be held in the band hall immediately after the McCamey game. Each band member may bring one guest. The fee will be .50 per person.

All Region music is still being prepared by members of the band. Students from SHS certainly wish them the best of luck.

A stage band will be formed after football season. Members will be selected by auditions.

Mrs. Zimmerman Attends Workshop In Midland

Mrs. Velma Zimmerman attended a workshop at the Midland Public Library Oct. 27. The study was, "Source-books for Prose & Poetry Criticism." All the librarians in the Lubbock district who attended received free books valued at \$110.00 for their local library.

Read any good clothes lately?

You'll find some very interesting reading on the labels in the new clothes you buy.

After July 3, 1972, all garments manufactured that require care and maintenance for their ordinary use must carry a permanent label giving instructions for care and maintenance.

Any questions you have about whether to wash and dry or to dry clean will be answered right on the label.

For home laundering,

You'll find electric dryers are designed for a wide range of modern materials—including polyesters and other permanent press fabrics.

This is just one of many reasons why the flameless electric dryer is America's favorite.

Here are a few tips on how to keep your new permanent press clothes looking their best without spending hours ironing:

1. Never dry more than one washer-load at a time.
2. For truly wrinkle-free clothes, try drying half a load, so they'll have lots of tumbling room.
3. Try fabric conditioners. They not only make clothes softer, but they cut down on the static electricity that makes clothes cling together and wrinkle while drying.
4. Clean your dryer's lint trap after each load, to increase drying efficiency.
5. Read your instruction book carefully to get the most out of your dryer's unique features. File instructions for future reference.
