6 PAGES—PRICE 10c

Do You Need a Helping Hand? . . . Try the one on the end of your arm.

Jess Thinkin

by: a. jess atkins

The end of school is in plain sight with only about three more weeks to go. This is the time of the year that the last concerts are held, the last banquets given, and the last big output is given in preparation for the final grades and exams for school. It is a time of "Do or Die" for the students and everybody needs to get hot on the books.

The FFA banquet was held Tuesday night and the members held a very efficient program and awards night. I couldn't believe that the teams had won so many awards this year all over the state but they took up most of the front of the room on the banquet table and wall.

The magazine, "Saturday Review of the Society," in two separate articles presents a debate concerning the question of whether business or government should take the lead in meeting our social needs. Mr. Peter F. Drucker, sociologist and authority on the U. S. business system, takes the view that the resources, creativity and productive power of private business will have to be utilized in meeting social goals because the job is too big for government. Mr. Edward K. Hamilton, the deputy mayor of New York City, though agreeing with Mr. Drucker on many points, takes the position that in the case of many social problems, "There is no substitute for a massive federal investment of money and manpower."

There seems little question but that both government and business will be increasingly involved in many social areas. Whether the emphasis is on total dependence on government action or on utilization of the private sector will have much to do with such things as levels of inflation, degrees of economic freedom and, in general, the political character of the country. We are, for example, likely to always have some people living below levels of economic affluence which many people consider adequate. And being realistic about it, the itinerant farm worker is probably not going to have as good medical care instantly available to him as, say, the President of the United States. In many of our national goals, a little touch of realism wouldn't hurt a bit.

Politically, the problem of achieving our big list of social goals is a tough one. The public is rebellious on the subject of higher taxes and inflation, but most of the people seem to want more public services and government responsibility for this or that. Government can't achieve results in all areas in which it has assumed responsibility without vastly increasing the size of bureaucracy, the level of taxation or inflation. We are not going to see any shrinkage of government but that it is inevitable that we will see government utilizing to an ever-larger degree the talents of nongovernmental organizations, particularly business . . . to help carry what is rapidly proving to be an unbearably heavy load for the taxpayer."

Our failure to achieve all social ends is not because we turned our back on the private sector or that the right mechanisms have not yet been devised. Mr. Hamilton suggests the failure of government in many social programs lies not so much in the inefficiency of government as it does in the difficulty of the tasks undertaken. We should get on to the business of devising incentives to promote the general welfare instead

Briggs & Shoemaker Earn Top Honors

O. B. BRYAN RETIRES

LOCAL EXECUTIVE RETIRES — Mr. O. B. Bryan, long time Stanton Business Executive and Civic leader, retires.

O. B. Bryan, General Manager of Cap Rock Electric Cooperative, is announcing his retirement effective August 1. He joined Cap Rock as its first manager in 1940, when the organization was less than a year old.

Prior to accepting the rural electric post, Bryan had worked with Texas Power and Light and Texas Electric Service Company and had operated a grocery in Stanton.

Under his 33 years of leadership, Cap Rock has grown to serve over 8,000 members in 13 counties. He helped organize and manage a Cap Rock Refrigeration Cooperative and Wes-Tex Telephone Cooperative.

Regarded as one of the best informed men in Texas, Bryan served on numerous committees and twice was elected to two-year terms on the board of directors of Texas Electric Cooperatives and was president in 1969-70. Bryan also served two terms as chairman of TEC Group Five, and currently is serving on the insurance committee and on the Texas Rural Electric Education and Research Committee of Texas Tech.

Bryan is a director of the First National Bank. Has been a member of the loan committee and is a trustee of the Millhollen Educational Trust Estate.

He is an active supporter of the First United Methodist Church and a certified lay speaker. He has headed the administrative board of his local church; served as district director of the Methodist Mens Association; is vice chairman of the board of pensions of the Northwest Texas Conference; and is secretary of the board of directors of the Ed Robb Evangelistic Association of Abilene.

A native of Whitesboro, Texas, Bryan married Johnnie Bess Richards in 1931. They have one son, Bob, and a daughter, Mrs. Tom Ed Angel, living in Stanton. Another married daughter, Mrs. Lloyd Harvey, lives in Houston.

He has served as president of the Stanton Lions Club, the Martin County Chamber of Commerce and the Martin School Board. He is a Mason and a Shriner. He has aided the Boy Scout movement in many fields and was presented the Silver Beaver award by the Buffalo Trail Council. He is an honorary member of the F.H.A. and supported a number of other youth organizations. He devoted a great deal of time and effort to the establishment of the Martin County Country Club and served as its first president.

Bryan plans to continue with his civic and church

MARC BRIGGS AND TRINA SHOEMAKER NAMED VALEDICTORIAN AND SALUTATORIAN

VALEDICTORIAN — Gregory Marc Briggs earns top scholastic spot in Stanton.

Stanton High School announces the 1972-73 valedictorian and salutatorian. The valedictorian is Gregory Marc Briggs, the son of Mr. and Mrs. Paul Briggs, with a four year average of 95.392. Marc's future plans are to attend Midland Commercial College for training to become a draftsman.

The salutatorian is Trina Carolyn Shoemaker, the daughter of Mr. and Mrs. L. R. Shoemaker, with a four year average of 91.887. Trina's future plans are to attend Angelo State University and major in speech.

SALUTATORIAN — Trina Carolyn Shoemaker, earns the next to highest scholastic honor in Stanton.

Cynthia Sides Makes U. T. Honor Roll

Cynthia Davis Sides has been named to the Dean's List at the University of Texas at Austin for the fall semester of 1972. Gerald F. Mosely, assistant Dean of the College of Natural Sciences, announced that Mrs. Sides was Cum Laude Ampla Et Magna, among the upper 2.7 percent of the 5,494 students enrolled in the college of natural sciences.

Cindy is a 1969 graduate of Stanton High School and is completing work this semester for the Bachelor of Science Degree in Home Economics, with a specialization in Nutrition, which she will receive in May of this year. She is, also, a member of Omicron Nu, National Home Economics Honor Society and Phi Kappa Phi, a National Interdisciplinary Honor Society.

The Honor Students are being presented by the Committee of Honors Day at the twenty-fifth annual Honors Day Convocation of the University of Texas which was held on Saturday, April 29 on campus.

Cindy is the daughter of Mrs. Mozelle Peterson, Odessa, and Mr. George Davis of Stanton.

Recent guests in the home of Mrs. Flora Morris were: Mr. and Mrs. P. B. Wilkinson and sons, Peter and Paul of Brownfield; Mr. and Mrs. W. E. Neill and son Jamey of Tornillo.

Mrs. Sale Rites Held Wednesday

Mrs. Beulah Sale, 86, former Stanton resident died around 1 p.m. Monday, April 30 at Midland Memorial Hospital.

Services were at 10 a.m. Wednesday at the First Baptist Church in Stanton with burial in Evergreen Cemetery under the direction of Gilbreath Funeral Home.

Officiating the services was Rev. Warren G. Hall of the First Baptist Church of Stanton, assisted by Dr. L. L. Morriss of Midland.

She was born Nov. 30, 1886 in Centralia, Mo. She moved to Stanton in 1903 from Tula and had lived in Midland. She was married to J. R. Sale Jan. 7, 1906 in Stanton. Mr. Sale died on Oct. 31, 1948. Mrs. Sale was a Baptist.

Survivors include two sons, J. Woodford Sale of Midland and E. B. Sale of Bryan; a sister, Mrs. Vina Beal of Midland; eight grandchildren and 13 great-grandchildren.

FFA STATE MEETING

LUBBOCK — The Stanton Chapter of Future Farmers of America placed 1st in the

Odessa To Host State 4-H Horse Show

COLLEGE STATION — 4-H horsemen over the state have their sights set on competing in the State 4-H Horse Show which will be held in the Ector County Coliseum in Odessa the first four days of August.

For 4-H members with horse projects, the state show ends a year of practicing and working with their horses with the hopes of capturing some of the top honors at the annual event, points out B. F. Yeates, horse specialist for the Texas Agricultural Extension Service.

Sponsoring this year's show along with the Extension Service is the Odessa Chamber of Commerce.

Area II Grass Contest judging contest held at Texas Tech University Saturday, April 21. Team members were Darrell Bradshaw, Route No. 1 Stanton, Dennis Ireton (Box 114 Stanton) and James Franks (Box 1004, Stanton). Their parents are Mr. and Mrs. Troy Bradshaw, Mr. and Mrs. Jack Ireton; Mr. and Mrs. Alfred Franks.

James Franks was high individual in all phases of the Grass Contest, Plant I. D., characteristics and overall judging.

The contest was the 46th sponsored by the Texas Tech University.

Stanton placed 2nd in the Area II Land judging contest held. Team members were Brad Hull, Dennis Hull and George Franks. Their parents are Mr. and Mrs. Homer Lee Hull, Mr. and Mrs. Alfred Franks.

The contest was the 46th sponsored by the Texas Tech University College of Agricultural Sciences. Contests were See FFA, Page 6

Stanton May Hire City Manager

The City of Stanton is seeking a city manager, which will be the first time that it has employed an administrative officer to operate the business of the city.

J. C. Epley, mayor, said that the city commission decided that the business of op-

erating a city is becoming increasingly complex and "we need the services of an expert."

Stanton has been advertising in the Texas Municipal League magazine and is carefully interviewing all applicants."

Grady Seniors To Choose H. S.

Note concerning Grady District Senior Students for 1973-1974 and all transfers for 1973-1974 school year.

Students who will be seniors during the 1973-1974 school year will attend high school in the district of their choice. The Grady Consolidated Independent School District will pay tuition for those seniors attending Stanton High School and Flower Grove School only. Arrangements for transportation for seniors going to Stanton High School only will be made. Arrangements for transportation and tuition for students oth-

er than seniors as mentioned above will be made by the students and parents.

Students who wish to transfer to or from the Grady district must do so by June 1, 1973, except for emergency transfers. The transfer requires the signature of the parent and the superintendent of the receiving district only. If you want to transfer to the Grady District contact Bill Baker at 459-2445 or 459-2444. If you want to transfer from Grady District to another district, contact the superintendent of that district before June 1, 1973.

Grady High School To Operate On Quarter System

Grades K-11 will be on the three quarter basis for the 1973-1974 school year.

The school year will have 180 teacher training days and 180 teaching days. Each trimester will be 60 days and reports to parents will be sent at the end of each six weeks period. The quarter system will allow for mini-courses.

The following teachers were re-elected to serve for the 1973-1974 school year: Gary Harrell, high school principal and coach, Allan Wooten, art and junior high coach, Irene Springer, Grover Springer, Laura Baker, Margaret Miller, Lois Laxson, Judy Wooten, Shirley Fox and Jane Harrell.

Employees retiring are Mrs. Vera Johnson and Margaret Lueb.

Vira Waltman, music teacher, has resigned.

New teachers employed for 1973-1974 as of this date are Buddy Stewart, general agriculture and Charlene Pennington, high school math and General H.E.

Mr. John Laxson, maintenance, plans to re-enter college next fall.

Auxiliary personnel employed for 1973-1974 thus far are: Tillie Pribyla, cafeteria manager, Lola Graves, and Elizabeth Springer, cooks.

Bus drivers are Allan Wooten, Cora Henson, and Wanda Nelson. Judy Fulfer has been re-elected as school nurse.

SOFTBALL LEAGUE

Any Martin County resident 15 years or older is eligible to participate in the Stanton Softball League to be sponsored by the Stanton Jaycees. There will be a \$5.00 fee for each participant. The fee

will be used to cover uniforms and game costs. Play will begin around the first of June. If any one is interested please contact Dewey Anderson or Jimmy Graves by May 8th.

Grady I.D.S. Slates Kindergarten Enrollment For New School Year

The Grady Consolidated Independent School District has set pre-school enrollment for the kindergarten for 1973-74 for Friday, May 18, 1973 between the hours of 8:00 a.m. and 3:30 p.m.

Kindergarten is for the children who live in the Grady District plus any approved transfers. The deadline for transferring kindergarten stu-

dents from another district will be June 1, 1973.

Attendance in the Grady kindergarten is not compulsory but is highly recommended by the administration.

Any child who will be five (5) years of age on or before September 1, 1973 will be enrolled since Grady accepts all 5 year olds. Age is the only See GRADY ISD, Page 6

MAYOR'S PROCLAMATION

WHEREAS the period of May 6 through 13, will mark the 50th annual observance of National Music Week; and WHEREAS music is a vital part of the culture of every civilized nation; and the people of the United States are proving themselves to be a great music-producing and music-loving nation; and

WHEREAS it is incumbent upon all of us to join together to advance the cause of music as an art and harmonious force, and to extend the radius of its influence among nations, groups, and individuals; and

WHEREAS the pursuit of music, whether it be through study, composing, listening, performing, or participation, gives rich experience in human life; and

WHEREAS the National Federation of Music Clubs through National Music Week provides an opportunity for the organized musical forces of the country, as well as religious and civic groups, to join music lovers in emphasizing the joys and pleasures to be gained from making music;

NOW, THEREFORE, I, J. C. Epley, mayor of the City of Stanton, do hereby proclaim the week of May 6 through 13, 1973, to be NATIONAL MUSIC WEEK in Stanton and Martin County and urge the citizens in every community to participate in making music; to foster a deeper appreciation for musical talent; and to encourage with interest and enthusiasm the music programs offered in special events arranged for this week. Dated this 3rd day of May, A. D. 1973.

J. C. EPLEY, Mayor, City of Stanton.

SPRING BAND CONCERT

George Walker, director of the instrumental music department of the Stanton Schools has announced that their annual spring band concert will be presented in the high school auditorium on Tuesday evening, May 15th, at 8 o'clock.

Tickets may be purchased from any of the band members during the next few days or may be purchased at the door on the concert date.

An interesting feature will be special program numbers

featuring the entire flute and cornet sections. Headlining the concert will be several members of the faculty making their debut as soloists with the band.

Lisa Hopper, band sweetheart, will receive special recognition and the outstanding bandsman award will be announced.

All members participating in the band program will be presented in one of the three separate bands on the program.

Band Returns From San Antonio

The Stanton High School Marching Band returned Sunday evening from San Antonio where they participated in the Fiesta Flambeau parade which climaxed the ten day annual Fiesta San Antonio celebration.

The Fiesta Flambeau is sponsored by the Festival San Jacinto Association and is now one of the greatest illuminated night parades. Not only are all band units, floats and other entries illuminated, but thousands of torch bearers further illuminate the spectacle.

Other activities include strolling mariachi bands along Paseo del Rio, art fairs, and "A Night in Old San Antonio" in La Villita featuring an extravaganza in a colorful world of tacos, balloons, pinatas, popcorn, and casarones.

Thousands upon thousands of parade watchers gather along sidewalks, streets, bleachers, and grandstands to view the festivities. This year's lineup of 133 units including 54 floats, 51 bands, 14 caudales, and 14 amusement figures insured something for everyone at this 78th annual Fiesta San Antonio.

FFA Range Team Places 7th In State

The FFA Range team composed of George Franks, Dennis Ireton and Darrell Bradshaw and Dennis Hull placed 7th in the State Range and Pasture Judging Contest held at Tarleton on April 18th.

Competing at Tarleton on the same date was a Land judging team composed of Jackie Rudd, Lynn Romine, James Franks and Brad Hull. This team did not place in the top 10 teams.

Jimmy Graves-Jaycee of the Quarter

Jimmy Graves was chosen as the Jaycee of the Quarter for his outstanding work in the advancement of the Stanton Jaycees.

Jimmy has been very active on many of the Jaycee programs during the past year. He was the chairman of the recent Jaycee Invitational Volleyball Tournament held March 1, 2, and 3. The fans and spectators termed the tournament a very successful and efficiently run tournament.

Legal Notice

In obedience to an order of the board of Equalization regularly convened and sitting, notice is hereby given that said Board of Equalization will be in session at the Grady Board Room, from 10:00 a.m., Wednesday, May 16, 1973, for the purpose of determining, fixing and equalizing the value of any and all taxable property situated in the Grady District, Martin County, Texas, for taxable purposes for the year 1973, and any and all persons having business with said board, are hereby notified to be present.

Pollution Starts In The Heart

"It is not enough to have a directive from Washington. It is not enough for us to make pronouncements and pass laws and penalize polluters while we throw beer cans out the car window, while we drop our own sewage into the rivers, while we leave our campgrounds filled with litter, or while we burn our leaves and our trash in our own backyards.

What we need is a national individual effort built in the hearts and minds of millions of Americans — an effort that will go hand in hand with government creation and enforcement of necessary antipollution measures."

—Mrs. Rogers C. B. Morton, Secretary of the Interior.

Lions Clubs Achieve One Million Members

OAK BROOK, ILLINOIS — Bernard A. "Barney" Gill (left), of Virginia Beach, Va., has been recognized as the one millionth member of the International Association of Lions Clubs, according to Lions President George Friedrichs, Anney, France. Lions International is the world's largest service organization with more than 26,000 clubs in 148 countries and geographical territories around the world. It is the first service association to reach one million members. In special ceremonies conducted at the Association's Oak Brook, Ill., headquarters, Gill received a special plaque

from Phil W. Sterker, of Basalt, Colo., Chairman of the Membership Club Service Committee of the International Board of Directors.

Gill, 45, a retired Army Lieutenant Colonel and Viet Nam veteran, is Executive Director of the United Drug Abuse Council, Inc., a planning and coordinating agency for all drug related problems in the Tidewater region of Virginia. He resides in Virginia Beach with his wife, Nancy, and their five children, and is a member of the Virginia Beach Oceana Lions Club.

Oil News

KCM Co. of Midland has made plans to drill No. 4 Holt, 1 1/8 mile northwest of the nearest production in the La-caff (Dean) field of Martin County. It is 25 miles northwest of Midland.

Scheduled to 9,800 feet, it spots 1,320 feet from north and 1,371 feet from west lines of section 6, block HA, Hartley CSL survey.

Four wells have been completed in the Martin County Spraberry Trend Area. UV Industries, Inc., have completed No. 7-A Scharbauer, with a flowing potential of 230 barrels of 36.8-gravity oil per day. Gas-oil ratio measured 900-1.

Production was through a 12-64-inch choke and perforations at 8,750-9,492 feet, which had been fracture treated with 140,000 gallons plus 220,000 pounds.

Drilled to 9,610 feet, where 5 1/2-inch casing was seated, it was plugged back to 9,572 feet.

Location is 4,127.70 feet from south and 1,427.73 feet from southwest lines of labor 16, league 325, LaSalle CSL survey.

No. 1 Henry Orson has been completed by Chaparral Drilling Co. as a 3 1/4-mile southwest extension in the Spraberry Trend Area, five miles northwest of Tarzan.

It potentiated pumping 200 barrels of 39-gravity oil, plus 18 barrels of water daily, with gas-oil ratio measuring 610-1.

Drilled to 9,540 feet, where 4 1/2-inch casing was seated, it was plugged back to 9,497 feet.

Completion was through perforations at 7,937-9,457 feet, after being acidized with 3,000 gallons and fracture treated with 100,000 gallons plus 200,000 pounds.

It spots 1,320 feet from south and east lines of section 138, M. Curtis survey.

John L. Cox, Midland, has completed No. 8-C Mabee, 1/2-mile north on a 3 1/4-mile southwest extension to the Trend Area.

The 24-hour pumping potential was for 105 barrels of 40-gravity oil, plus 10 barrels of water, with gas-oil ratio of 630-1.

After being fracture treated with 120,000 gallons, it produced through perforations at 8,569-9,320 feet.

Drilled to 9,400 feet, where 4 1/2-inch casing was set, it spots 1,320 feet from south and west lines of section 6, block 38, T-1-N, G&MMB&A survey, 11 miles northeast of Midland.

RK Petroleum Corp., Mt. Carmel, Ill., has completed No. 1 Woodward-Hall, et al, 3 1/4-mile northwest and southwest extension to the Trend area, 2 1/2 miles northeast of Tarzan.

Drilled to a total depth of 10,854 feet, where 4 1/2-inch casing was seated, it was then plugged back to 9,310 feet.

A pumping potential of 112 barrels of 39.3-gravity oil, plus 74 barrels of water was produced daily, through perforations at 8,227-9,259 feet, after being acidized with 2,500 gallons, and fracture treatment of 100,000 gallons plus 200,000 pounds. Gas-oil ratio measured 730-1.

Well site is 1,320 feet from south and west lines of section 3, block 37, T-2-N, T&P survey.

Petroleum Exploration & Operating Corp., Abilene, completed as a 3 3/8-mile northwest extension to the Midland County portion of the Spraberry Trend Area, its No. 1 Leona Bryant Smith, 10 miles southeast of Midland.

It was completed to pump 72 barrels of 39-gravity oil and 60 barrels of water daily with gas-oil ratio of 848-1, through perforations at 8,328-9,342 feet, which had been acidized with 4,000 gallons and fractured with 140,000 gallons and 280,000 pounds.

Location is 660 feet from north and east lines of section 12, block 38, T-3-S, T&P survey.

'Recall Of Drivers 'Unsafe At Any Speed' Recommended As Step Toward Highway Safety

Steps should be taken to "recall" and "recondition" the hundreds of thousands of American motorists who are as "unsafe at any speed" as some of the automobiles Ralph Nader has condemned as highway boobytraps.

More than 50,000 people die in traffic mishaps every year and nearly 5,000,000 are injured. The total cost has soared to nearly \$17 billion according to the Insurance Information Institute.

The automobile is man's worst enemy and the safety counselors noted that every highway accident must involve at least one person behind the wheel of a car.

Therefore, they recommend, accident prevention should encompass driver education and re-education as well as the improvement and adjustments on automobiles that are being urged by consumer groups.

The need for recall and re-conditioning of some drivers was emphasized in light of the fact that nearly half of all fatal highway crashes involved drivers who have been drinking alcohol. Two-thirds of those who die in one car-smash-ups are intoxicated at the time of death, according

to the National Safety Council.

Mastery of the art of defensive driving is the only ofensive in dealing with the Mr. Milquetoasts of the world who become raging tigers on the road, the safety experts added.

Here are some recommendations for safe, defensive, mature driving compiled by the Combined Department of Safety and Research:

—Don't argue with the other fellow; let him have the road if he wants it. In other words, always yield the right of way.

—Never tailgate; — try to keep out of the path of those who get too close to you.

—Observe speed limits and reduce your speed at night, on slippery or wet roads of when the road surface is in a state of disrepair.

—Keep an eye out for children playing in or near streets, for pedestrians and for cyclists.

—Watch the fellow in front of you closely for any clues as to what he plans to do, for he may be one of those who does not believe in signaling. Also, don't forget the man behind you.

—Be alert for the opening of doors on the street side of parked cars.

—Observe common courtesy and good sportsmanship on the road, giving other drivers the same kind of treatment you expect.

—Try not to get behind the wheel when tired, depressed, angry, worried or upset. Cool off and calm down before turning the ignition key lest you take your troubles out on your fellow motorists.

—Realize that you are in control of a powerful machine designed for comfort, convenience, utility and pleasure, and accept the seriousness of your responsibility as the "pilot."

In other words, as the American Automobile Association succinctly puts it "self-control is the key to car control."

 Sells BUSINESS FORMS

No Pesticides, Less Cotton?

COLLEGE STATION — Cotton production in the United States may someday drop by 10 percent. Producing an acre of cotton could cost almost \$10 more than it does now.

It's hard to believe, but it could happen. The figures result from a study by the Texas Agricultural Experiment Station on the effects of withdrawal of different pesticides currently used in cotton production.

Jim Casey and Dr. Ronald Lacewell, two TAES economists, arrived at the results by using a computer program to compile and "average" the opinions of more than 100 entomologists, agronomists and economists.

Cotton was chosen for study because out of the 140 million

pounds of pesticides used on croplands annually in the U.S., most are used on cotton. The withdrawals, they said, had a significant effect on yield and costs.

For example, when the organochlorine pesticides family, which includes DDT, was withdrawn, per acre yields in non-irrigated farms dropped by 10 percent in Louisiana, Arkansas and all of the southern states east of the Mississippi River.

Yields declined by three percent or less in Texas and Oklahoma, Arkansas, California and New Mexico were not affected at all.

One farm worker today produces food and fiber products for himself and 48 others.

LINDA KATHY LINNEY IS HONORED WITH BRIDAL SHOWER

Linda Kathy Linney, bride-elect of Bradford Jakin Hull, was honored with a bridal shower Thursday, April 24, in the home of Mrs. Delbert Hopper.

Decorations throughout the home were in the bride's chosen colors of bright green and white.

The refreshment table was beautifully decorated with a ring of green carnations around the crystal punch service.

Around 50 guests were registered.

The hostesses included: Madams Burnell Howard, Bud Glaspie, Delbert Hopper, Richard Lewis, Corky Blocker, Curtis Flanagan, Nolan Simpson, Charles Erick, Joe Gray, Lawrence Adkins, Bob Cox, Homer Henson, James Doyle, Bill Decker, M. L. Graves.

Out-of-town guests included: Mrs. Tom Hale of Midland; Mrs. E. T. Standefer of

Monahans; Mrs. Alan Standefer of Austin; Mrs. James Doyle of Big Spring; and Mrs. Clyde Auwater of Big Spring.

Historical Society

The Martin County Historical Museum will have a display for the opening of the South Campus of the University of Texas at the Permian Basin at Odessa, Texas, on May 11th and 12th. Mrs. Glenn Brown and Mrs. Stanley Reid are working this display up and we feel it will be interesting for all of our Martin County people. There will be several displays from the Museum of the Permian Basin.

WOMAN OF THE YEAR—

Mu Lambda Chapter has named Polly Atchison of Stanton as its Woman of the Year. Mrs. Atchison is operator of the Fina Cafe in Stanton. She is justly proud of her three sons, Tommy Atchison of Stanton, Dwight Atchison who is stationed in England as a member of The United States Air Force, and Charles Atchison, who lives in Stanton.

Get an air conditioning checkup before the heat's on.

Now's the time to call your air conditioning serviceman. Because right now he can work your call into his schedule. And get your unit ready to deliver dependable, efficient cooling through the summer ahead.

We know that many people wait until the heat's on to have their units serviced. Later on, your dealer or serviceman may have a waiting list. Although Texas Electric does

not service, sell or install air conditioning equipment, we do want you to get full value from your electric service. One way we can help is to remind you to get the jump on summer by calling your serviceman early.

Martin County Farm-Ranch Report

MUSTANG NEWS

Crop Reports From Farmers Needed

CONSERVATION PLANNING

Would you build a house or a barn without a plan to go by? No, of course you wouldn't and neither should you operate your farm or ranch without a well thought out farm plan to follow. The Directors of the Mustang Soil and Water Conservation District want to encourage all landowners and operators in the Mustang District to make use of the service provided by the Stanton Field Office of the Soil Conservation Service and develop a conservation plan on their land.

There is no charge for their service and the SCS technicians are experienced in handling all types of farming and ranching problems.

"Developing a conservation plan on your farm in no way ties you down as to what you can do with your land," says Jack Elrod, District Conservationist, with the Soil Conservation Service in Stanton. According to Elrod, a conservation plan is simply the result of the landuser and SCS technician getting their ideas and experience together on what needs to be carried out on a tract of land.

The landuser doesn't have to follow the plan, but using the latest information available to carry out your operation certainly makes good sense.

Contact the Soil Conservation Service in Stanton and set up a date to plan your

LOCAL LANDOWNER
Gene Clements, and soil conservationist, Gary Deitiker review Gene's recently completed conservation plan.

operation, it's a step in the right direction.

During the last half of May some 24,000 Texas farmers will receive a crop acreage questionnaire from Charles E. Caudill, Agricultural Statistician In-Charge of the Texas Crop and Livestock Reporting Service, Austin, Texas.

This information will be the basis for determining the planted acreage for the State of Texas and for each county. There are 254 counties in Texas, and reports are needed

from many farmers so that each county will be well represented. Accurate estimates are of great importance to farmers in planning production and marketings and in providing an unbiased picture of Texas agriculture.

Founders Day Set For May 4th

Highlight of the Hardin-Simmons University Founders Day, May 4, at 10 a.m. in Behrens Chapel will be the presentation of the professor emeritus citation honoring Dr. Hoyt Ford.

The program will also include the presentation of memorials at the Memorial quadrangle by class officers. Mrs. J. Morgan Hall (formerly Beulah Mae Houston) was among those receiving a memorial for her husband.

Exports Key To Gold Drain

COLLEGE STATION—The export situation is the key to the longterm outlook for feedgrains.

"If export sales continue at or near current volumes, above average prices are anticipated at harvest," says Roland Smith. "However, if the U.S. returns to a low level of export marketing, prices of grains could be sharply reduced."

Massive grain purchases by the Soviet Union beginning last July are having a major impact on the current U. S. grain situation. Soviet wheat imports are projected to be four times that of 1971 and the U.S. will supply most of this trade. U.S. exports of corn, grain sorghums and soybeans are up due to production problems in many foreign countries.

"Domestic grain usage has gone up as well," points out Smith. "Increase in livestock numbers is the primary cause. Cattle on feed last fall were up 19 percent in the Southwest — 30 percent in Texas."

Severe cold, wet weather this past winter also brought increased livestock feeding, according to the specialist, thus adding to the demand for grain.

Farmcast

A Weekly Report Of Agri-Business News
Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

Texas Number Nine . . . Commercial Vegetable Outlook . . . Citrus Crop Up Again.

Texas continues in the top 10 states in dairy production and number of milk cows, according to a report titled "1972 Texas Dairy Statistics." The major dairy section of Texas is located in the eastern half of the state.

Total receipts to dairymen during 1972 amounted to about \$250 million.

The top 10 counties in milk production in Texas are Hopkins, Erath, Wise, Grimes, Johnson, Tarrant, El Paso, Parker, Bexar, and McLennan. The top 10 counties in cow numbers are Hopkins, Erath, Wise, Grimes, Johnson, McLennan, Parker, Tarrant, Harris, and Comanche.

"Texas" dairy producers — about 4,000 of them — are included in 10 federal milk marketing orders.

And as costs of production continue for the dairyman this year, he is expected to be caught in a cost-price squeeze which may force some dairymen to liquidate their herds.

Complete facts and figures on the Texas dairy industry for 1972 may be obtained free by writing to Texas Agriculture Commissioner John C. White, Texas Department of Agriculture, Box 12347, Austin, Texas 78711. Ask for 1972 Texas Dairy Statistics.

Production of milk in Texas during March, the Texas Crop and Livestock Reporting Service notes, is up four per cent from a year ago.

Milk production in Texas per cow averaged 860 pounds, which is 30 pounds above a year earlier.

WEATHER conditions have curtailed commercial vegetable plantings in the Lower Rio Grande Valley and are also delaying harvesting.

Cabbage harvest has been slowed due to rains. Spring for harvest during the spring quarter will be above previous years because of some carry-over acreage from the winter quarter.

Excessive rains and freezing weather have reduced acreage planted to cantaloupes. Crop progress is two to three weeks behind schedule. Harvest is expected to begin about mid-May. The crop at Laredo is making good progress with harvest to start in May.

Carrot harvest has been de-

layed, and the supplies of carrots during April-May are expected to be above normal.

Increased acreage of sweet corn is expected in the Winter Garden area and the High Plains. Heavy rains in the Valley prevented growers from planting a normal acreage.

Replanting of the watermelon crop was necessary in the Valley and coastal bend areas of Texas. The crop is two to three weeks behind normal. The Winter Garden crop is making good progress.

CITRUS producers are enjoying a good season. Based on April 1 conditions, the 1972-73 citrus crop is estimated at 18,400,000 boxes; this is 23 per cent above the production of the previous season.

Citrus trees remain in good condition, although some erratic blooming has been noted in some groves.

School Lunch Menu

Monday—Sloppy Joe on buns, french fries, vegetable salad, milk, banana pudding.

Tuesday—Spaghetti rings and meat balls, blackeye peas, scalloped potatoes, hot rolls, milk, butter, peach cobbler.

Wednesday—Cheese and beef enchiladas, pinto beans, buttered spinach, cornbread, butter, milk, coconut pudding.

Thursday—Beef and cheese pizza, green beans, new potatoes, celery sticks, milk, fruit gelatin.

Friday—Steak fingers, gravy, whole kernel corn, buttered peas, hot rolls, butter, milk, flying saucers.

NURSES WORKSHOP SCHEDULE MAY 11-12

Physicians and registered nurses from Big Spring, Midland, San Angelo, Lubbock and Odessa will be among the speakers who will discuss cardiac care at the Howard County Chapter Nurses Workshop scheduled to be held at Howard County Junior College in Big Spring on May 11-12.

Theme of the meeting for Regional XIII of American Heart Association will be "The Myocardial Infarct, Challenge to Creative Care."

GOING STEADY—WISE OR OTHERWISE . . .

COLLEGE STATION — Steady dating — whether it's wise or otherwise—depends on the maturity of the couple involved.

"Although there's no universally accepted definition, 'going steady' is considered an understanding between boy and girl to date one another regularly and exclusively," Dorthy Taylor, specialist in family life education, Texas Agricultural Extension Service, Texas A&M University, explained.

"A generation gap between parents and teens may exist when it comes to steady dating—mainly due to their different views.

"Contemporary steady dating — a new type of dating relationship — is an invention of the modern era. It no longer corresponds to the marriage-oriented going steady pattern of earlier decades, and yet it's not random dating either. It combines two types of relationships — casual involvement in non-marriage-oriented steady dating with other partners taboo.

"Parents sometimes have difficulty grasping one-to-one steady dating since random dating was preferred by their generation. At that time a teen's popularity was largely based on number of boy or girlfriends, with some

qualifications, of course. "Parents should also realize that steady dating doesn't necessarily lead to marriage," Miss Taylor emphasized.

"Whereas engagement usually leads to marriage, steady dating isn't supposed to lead to anything — it's an end in itself."

Although some steady relationships do eventuate in matrimony, most begin without marriage in mind, she pointed out.

According to the specialist, chief motivators for going steady are a sense of insecurity and escape from competition or pressures from society.

"On the other hand, a steady relationship has its limitations. "It limits the variety of friendships while it narrows the choice of a marriage partner."

"In addition, it may lead to marriage by default—that is, the couple is expected to marry because they went steady so long."

Steady dating also may limit social activities — and cause the couple to become so involved with each other that little else matters, Miss Taylor contended.

Other hazards involve partners being "taken for granted," too much intimacy or too early marriage, the specialist concluded.

High School Happenings

Hi, guys!!! Well, only 21 days of school left to go, and as a sad Senior, I hate to see it end. But the people who want to see it end outweigh those who don't. We are a slight minority. Mostly boo-hoo, sniffly-nosed, red-eyed girls.

Well, most of the news written up is about the students at S.H.S., but this week, I have the honor to tell you of some of the teachers here that have put up with all the hassles and problems we give them. Four teachers of S.H.S. were chosen as "OUTSTANDING EDUCATORS FOR 1973." They include Mrs. Mary Haislip — B.S., McMurry College, library certification, Texas University, Mr. John Anastasio — A.B. Syracuse University, and he also received the National Science Foundation Grant to Wayne University in 1968-1969. Mr. William Harrell — B.A. North Texas University majoring in physics. Mrs. Florence King — B.S. Texas Tech University, Home Economics Education. This is a national award and expresses an appraisal of these teachers' ability by the administration. CONGRATULATIONS!!! You really deserve it after all you go through. S.H.S. is proud to have such fine teachers.

On Friday, April 27, the Seniors of S.H.S. received their invitations. The invitations are pretty this year, and they are part of every Senior's memory of their final year at S.H.S.

Mrs. Haislip would like to announce the Annual Staff officers for the coming year. They are, Editor, Dale Henson; Asst. Editor, Nancy Glynn; Business Manager, Jackie Jones; and Ex-officio Advisor, Cheryl Bradshaw. All will be seniors next year. Other members are Jimmy Anastasio, senior, and Mindy Haislip, junior. Applications are being taken this month from the freshman class for three places on the staff.

Mrs. Haislip also would like to announce there are still a limited number of annuals available at \$7.35.

Connie Christon, S.H.S. girl Speed Demon, went to Regional last weekend, and she won 6th in the finals of the 220-yard dash. Congratulations, Connie!!! You have three more years to make S.H.S. proud of you, so don't quit now!!!

Cheerleading try-outs for Cheerleaders of '73-74 will be Wednesday, May 9. There are a lot of fine girls trying out for Cheerleader this year, so lots of luck!!! See y'all later!!! Chow!!!

BIG SPRING FESTIVAL '73

Howard County Junior College hosted a month long festival, "Sights and Sounds of Now" during April. The talented pianist, Donna O'Steen Edwards, of Dallas presented a concert last Saturday at the college auditorium. Sponsoring the concert was Big Spring Music Study Club and the Big Spring Piano Teachers' Forum. Following the performance a reception was held in the home of Mrs. Ann Gibson Houser. Special guest was Mrs. Glenn L. Brown, president, Texas Federation of Music Clubs.

Mrs. Brown also attended the closing afternoon of the festival on Sunday when Miss Enid Little of Midland presented an art lecture in the SUB Lounge and Mr. James Gambino, also of Midland,

gave an exhibit-demonstration of fine Italian violins. The afternoon was concluded with the production of "Trial By Jury." Mrs. Brown was accompanied by her daughter, Suzanna.

Plants As Noise Barriers
Properly designed landscape plantings can deflect, absorb and mask excessive environmental noise, says a landscape horticulturist for the Texas Agricultural Extension Service.

Plantings 25 to 50 feet wide placed close to the noise source have been shown to reduce high frequency noise more than 50 percent. Combinations of trees and shrubs generally provide the most effective noise control. Vines on exterior walls of buildings also reduce noise.

Governor Briscoe signs proclamation designating May 6-12 as a period of public support for the National Guard and Reserve. On Governor Briscoe's right is Maj. Gen. Thomas S. Bishop, Adj. Gen. State of Texas. On his left is Col. James C. Craig, USAFR, National Vice President of Reserve Officers Association and Col. James D. Isaacs, Jr., USAFR, who is President of the Delaware Punch Company. Both Col. Craig and Col. Isaacs are members of the National Committee for Employer Support of the Guard and Reserve.

SENTENCE TROUBLES JUDGE

"The time has come for soft-headed judges and probation officers to show as much concern for the rights of the innocent victims of crime as they do for the rights of the convicted criminals."

The Newsletter's call for examples of soft-headed justice across the country has struck a nerve. Some samples:

—In Atlantic City, a man apprehended four youths at gunpoint breaking into a

building next door to his motel. The youths, two of whom had been in reform school, were judged as juveniles, given suspended sentences and placed on probation by a New Jersey judge. The man who apprehended them has been indicted by a grand jury and now faces prosecution for carrying an unlicensed gun.

—A New York judge, required by law to sentence two men to 15 years to life because they were caught with \$800,000 worth of heroin (22 ounces), complained that he was "really troubled" by having to sentence the men. He added: "The irony is that if

they had slightly less than one pound, I could have given them probation."

—In San Francisco, court conduct was so lax that evidence used in two murder trials was tossed out by janitors.

—In Baltimore, a judge suspended a six-year term given a man convicted of second-degree murder and fined him \$500. The charge carries a 30-year maximum sentence. The judge said the man had held a steady job.

—In Washington, D.C., Police Chief Jerry V. Wilson told the House Select Committee on Crime that 60 to 70 percent of armed holdups in the Nation's Capital are committed by persons on parole or out on bail.

Perhaps the best summation of readers' views on soft-headed justice came from J. F. Mangin, in a letter to the editor of the New Orleans Times-Picayune. He wrote: "Unfortunately, the families of victims seldom are the wives and daughters of judges; and, if they were, you may rest assured the laws would be radically changed." Send in examples of soft-headed justice in your area—newspaper clippings will be fine. Send them to the GOP Newsletter, Room 512, 300 New Jersey Avenue, S.E. Washington, D.C. 20515.

FFA Chapter Wins Again

(Continued From Page 1)

held in the judging of livestock, dairy, dairy products, poultry, wool, agricultural mechanics, cotton, crops, meats, grass and land.

Approximately 1,500 FFA members from Areas I and II participated in the competition, according to Dr. Anson R. Bertrand, dean of the College of Agricultural Sciences. Nolan Parker, Vocational agriculture teacher said that the team will participate in state competition.

Other Stanton FFA teams winning honors at the Texas Tech Judging contest were: Crops team placed 2nd in Area II; Wool team placed 4th; and Cotton classing team placing 3rd in stapling and 4th in cotton classification. Members of the crops team were: Jackie Rudd, Steve Hull and H. Baker. Jackie placed 3rd overall high individual in the crops contest. The wool judging team was composed of Ronnie Mims, Jack Romine, Kevin Shoemaker and Clay Harris. Ronnie Mims placed 8th high individual and Jacky Romine placed 9th high in wool judging. The cotton team was composed of Duane Clary, Alan Cuary and Benton Posey.

FHA Has Motto

"Up, Up and Away with FHA" is the theme of the 1973 state meeting of the Texas Association of Future Homemakers of America to be held at the Convention Center in San Antonio, May 3-5, 1973.

Representatives of the Stanton club will be Trica Shoemaker, Trina Shoemaker and Mollie Adkins. Trica will be voting delegate.

Mrs. Florene King and Mr. King will accompany the girls.

Keynote speaker will be Marilyn Van Derbur, Denver, Colorado, former Miss America and renowned youth speaker. Miss Van Derbur will challenge the delegates to make of themselves the very best possible persons in today's society.

LOCAL

Mr. and Mrs. Ben Mott of Dallas spent the Easter holidays with his parents, Mr. and Mrs. J. C. Mott. They also visited with the Corky Blockers and his grandmother, Mrs. Ben Nutter.

Stanton Jaycees Met Monday

The Stanton Jaycees met Monday, April 23, at the Texas Electric Reddy Room.

Carrol Yater met with the board and gave a program on cerebral palsy. Bobby Kelly, chairman of city-wide cleanup, said May 18 had been set for the clean-up. He urges everyone in Stanton to start getting their trash ready. Anyone wanting to help be at the city hall between 7:30 or 8:00 Saturday, May 18.

The Jaycees annual softball league was discussed and Dewey Anderson was appointed as chairman.

The Jaycees suggestion box was placed in the Bank, anyone having a suggestion please share it with us.

The winners of the Easter egg hunt given by the Jaycees were:

Dianne Vasquez—3 year old. Joe Cantu—4 years old.

Andrea Marquez—5 years old.

Rosemary Reyna—6 years old.

Regina Sanchez—7 years old.

Dana Pinkerton—9 years old.

Each winner was given a prize. Approximately 175 children participated in the hunt.

The meeting was adjourned with 23 members and 2 guests present.

Roy Challis was added to the membership.

TSTA Meeting

The District Texas State Teachers Association meeting was held at Flower Grove on April 30 to elect and install new officers for the 1973-74 school year.

The new officers are: President, Norman Wright; First Vice President, Grover Springer; Second Vice President, Sue Walker; Secretary, Lois Laxson, and Treasurer, John Anastasio.

Mrs. Alma Wiggins is the out-going president.

...Jess Thinkin

(Continued From Page 1)

of arguing over who should do the job.

In summing up, one can only observe that common sense is still a priceless ingredient when it comes to running the affairs of a country. The price of perfection will be prohibitive whether government seeks to achieve it directly or tries to pay the bill for hiring others to do the job for it.

'Water' Exhibit Opens At The Museum of Southwest In Midland

Who used your water yesterday, and where? This question is one of many asked in the current WATER exhibit at the Museum of the Southwest in Midland.

Because of nature's water cycle, there is as much water on earth today as there ever was or ever will be. It only changes from one form to another, and moves from one

Grady I.S.D.

Continued From Page 1

ly guideline used.

Those students presently enrolled in the kindergarten will be pre-enrolled in the first grade for next year. Children who will be six (6) years of age on or by Sept. 1, 1973 who are not enrolled in kindergarten will need to come May 18, 1973 to enroll for first grade. This includes transfers from other districts.

You will need to bring or send birth certificates and immunization for the students on the day of enrollment.

The school nurse will be on hand to advise you concerning required immunizations and to "set up" health records.

For more information or explanations, contact Supt. Bill Baker at 459-2445 or 459-2444.

...Southwestern

John Mallory, Chairman of the Southwestern Wholesale Market Committee, has announced that the Southwestern Wholesale Market Back-To-School and Fall Showing will be held May 6 and 7 at the Koko Inn and Koko Palace Convention Hall. The Market is sponsored by the Lubbock Chamber of Commerce.

The Show will run Sunday (open 9:30 a.m.) and Monday (open 8:00 a.m.) and should serve approximately 150 to 200 buyers until 4 p.m. Monday at which time the exhibitors will start to close their booths.

place to another. The water you bathed in last night could have flowed down the Nile River last month, or perhaps Alexander the Great drank it more than 2,000 years ago.

The show, which fills the entire back gallery and is expanding into the natural science room, explains in detail such areas as: Water and the course of history; what water is and how it behaves; forms of water in our daily lives; fresh water; how water becomes polluted; purification and distribution of water; water supply problem; and the city water system.

Tires.... Tires.. Tires

With warm weather coming around with vacations and more driving you will need tires—if you want a wide selection at lowest prices see—
