

# Senate sends super collider bill to president

WASHINGTON (AP) — The Senate gave final congressional approval today to a \$225 million down payment on the \$5 billion experimental atom smasher planned for northern Texas.

The bill was the first of the 13 annual appropriations bills for government agencies for fiscal 1990 to be sent to President Bush for his signature. Bush, who lists

Texas as his official residence, was expected to sign the legislation. Fiscal 1990 begins Oct. 1. Most of the \$225 million for the superconducting super collider would be for initial construction expenses of what ultimately will be a 53-mile circular underground tunnel about 25

miles south of Dallas. The rest would be for research and development. The project, expected to take up to seven years to complete, would be used by scientists to hurl beams of protons into each other in a search for the basic building blocks of the universe.

The measure also contains \$1.6 billion for cleaning up the nation's nuclear weapons plants, about 70 percent more than the \$975 million provided this year and 27 percent more than Bush requested. The overall task of removing radioactive waste from (see COLLIDER, page 10)

## Century II: Leadership class begins

The seventh Century II: Leadership Scurry County class, announced Wednesday afternoon, was to meet at 2:30 p.m. Thursday in the Baptist Student Union on the Western Texas College campus for orientation.

Dr. Gil Fleer, professor of psychology at WTC, will be the guest speaker.

The program, sponsored by the chamber of commerce and Western Texas College, is designed to acquaint class members with key aspects of Scurry County. It consists of twice-monthly meetings through May of 1990.

Dr. Jim Palmer, division chairman of social sciences at WTC, will be heading the class.

Class members are Frank Beights, Lana Chambers, Polly Echols, Scott Gassiot, Dale Hamby, Susan Key, Bill McClellan, Jimmie McGee, Helen McLeod, Gale Northcott, Jack Price and Becky Winkler. One or two others may be added to the class, according to WTC officials.

Included in the work sessions are an overview of county history, a study of city and county government, local businesses, law enforcement, the tax appraisal district, local media, Western Texas College, Cogdell Memorial Hospital, the public schools, the oil patch and farming and ranching industries.

A new topic for the seventh class will also be the Texas Department of Criminal Justice Price Daniel Unit.

The sessions will combine lectures, dialogue among speakers (see CENTURY II, page 10)

## Minus 0.07 for year-to-date...

# Sales tax returns off slightly

Snyder sales tax returns were on the negative side for the month but only slightly so for the year-to-date according to the latest report from the state comptroller's office.

The state reported Snyder had a minus 9.23 percent for the month and a cumulative year-to-date percentage of minus 0.07. In actual figures, the 1 percent sales tax collected here has generated a total of \$569,031.73 in 1989.

The 1988 year-to-date total for the same period was \$569,408.89.

The latest monthly report, reflecting sales collected during July and reported to the comptroller's office by Aug. 21, generated \$55,921.78 this year, compared to \$61,607.27 in 1988.

Across the state, the state comptroller returned \$72.5 million, an increase of 6.8 percent over payments sent during the month last year.

In addition, Scurry County received a monthly return of \$32,484.26 for the 1/2 cent sales tax it collects to offset ad valorem taxes. That figure was up 5.4 percent from the prior year, which was \$30,819.25.

Year-to-date totals for the county improved by 42.75 percent, comparing this year's total of \$338,301.82 to the previous year's total of \$236,994.73. A sampling of other area sales tax returns include:

—Lamesa: plus 8.09 percent with \$400,975.62 returned to date compared to \$370,959.59 last year. The monthly return of \$33,650.50 was an increase of 11.65 percent over last year.

—Colorado City: plus 4.53 percent with \$284,667.88 returned to date compared to \$272,325.23 last year. The monthly return of \$25,882.98 was a decrease of 14.43 percent from last year.

—Big Spring: minus 2.36 percent with \$1,057,015.76 returned to date compared to \$1,082,522.08 last year. The monthly return of \$96,966.48 was a decrease of 2.57 percent from last year.

—Sweetwater: minus 1.02 percent with \$552,641.03 returned to date compared to \$558,320.47 last year. The monthly return of \$51,931.91 was a decrease of 15.77 percent from last year.

—Post: minus 7.23 percent with \$121,149.85 returned to date compared to \$130,598.14 last year. The monthly return of \$11,145.43 was a decrease of 7.31 percent from last year.

—Lubbock: plus 8.72 percent with \$11,328,775.46 returned to date compared to \$10,420,024.32 last year. The monthly return of \$1,069,409.77 was an increase of 5.49 percent over last year.

—Abilene: plus 4.42 with \$5,945,251.09 returned to date compared to \$5,693,765.34 last year. The monthly return of \$598,248.77 was an increase of 6.46 percent over last year.

**RECRUITMENT** — Texas Department of Criminal Justice Capt. John B. Wyeth of Huntsville, who works in recruiting, was interviewing candidates for the next correctional officers' class at the Western Texas College Christian Student Center on Wednesday. Forty-eight applicants were interviewed for the fourth class, which is scheduled to begin Sept. 23. (SDN Staff Photo)

## Car-train wreck here hospitalizes passenger

Two Snyder men were injured, one critically, in a 9:04 p.m. Wednesday car-train collision at 24th St. and Ave. E.

Police said a 1980 Volkswagen driven by W.T. Sewell, 29, of Box 1053 was northbound on E and the train was going east at 40 mph when the left front of the car hit the right front of the train.

Sewell was treated at Cogdell Memorial Hospital for abrasions to his face and shoulder and released, while his brother, 33-year-old Charles Sewell, had broken arm and leg bones, a

broken collarbone and possible head and internal injuries.

Charles Sewell, who listed the same address as his brother, was transferred by ambulance to Methodist Hospital in Lubbock, where he was in critical condition Thursday morning.

A city policeman said the train knocked the car off the tracks 81 feet to where it came to rest on Ave. E.

The train was driven by Dennis Rushing of Slaton, according to reports.

The 24th and E railroad crossing is marked by lights and bells.

## Weather hampers seal-coating effort

The city's annual summer seal-coating and re-graveling of city streets is 60 to 70 percent complete, with workmen having been slowed somewhat by the addition of several miles of streets this year and the new use of gravel coated with asphalt mixed with latex.

City Engineer Don Osborn said Thursday that the recent cold weather has shut the project down but that city crews hope to get back on the job early next week, when a resurgence of warm weather has been forecast.

"We have to wait at least until it dries up," Osborn said, explaining that the latex-asphalt-

coated gravel can only be laid in hot weather. "For that project, the warmer, the better."

Osborn said street crews have already completed paving on 41st St. between Avondale and Denison Aves., on Denison between 37th St. and Towle Park Rd., Lubbock and Kerrville Aves., a half-block on Avondale and other streets in the south and southwest parts of town.

He said short sections of streets in northern Snyder remain to be done and that the crews, directed by department head Bobby Kenner, should finish in three or four working days.

(see SEAL-COATING, page 10)

## The SDN Column

By Roy McQueen

The feller on Deep Creek says, "Egotism is seeing things in self that other can't see."

School is in full swing, but there's still some time to improve before the end of the first six weeks.

An educator gave us an item off of a teacher workroom bulletin board that offers definitions—in plain English—for tactful remarks that may be noted on a student's report card:

—"Shows difficulty in distinguishing between imaginary and factual material."—He lies.

—"Needs ample supervision in order to work well."—He's lazy.

—"Needs guidance in developing good habits of hygiene."—He's dirty.

—"Has qualities of leadership but needs help in learning to use them democratically."—He's a bully.

Snyder's Skipper Joyce had this observation about the "school of hard knocks."

"By the time you're smart enough to read the fine print, you're not able to see it."

A principal received this excuse for a student's absence the previous day:

"Please excuse Harriett for missing school yesterday. We forgot to get the Sunday paper off the porch and when we found it Monday, we thought it was Sunday."

Q—Does Fluvanna have a trash pick-up and if so w. at day is it?

A—Yes, the City of Snyder handles trash pickup at Fluvanna on Wednesdays.

In Brief

### I-Condo trial

LUBBOCK, Texas (AP) — As jurors begin their 16th day of deliberations today in the bank-fraud trial of D.L. "Danny" Faulkner, attorneys are trying to resolve a legal tangle they can't discuss.

U.S. District Judge Sam Cummings called attorneys for both sides into his chambers Wednesday for two meetings totaling 35 minutes, but prosecutors, defense attorneys and the judge were mum on the nature of the conferences. Cummings has imposed a gag order.

Cummings indicated the jury would come in at 9 a.m. today.

### Talks continue

WASHINGTON (AP) — Senate Democrats are ready to work with Republicans toward a compromise anti-drug program but say they'll hold out for something close to their \$10 billion plan that President Bush threatened to veto.

"The president's plan is wholly inadequate," said Senate Majority Leader George Mitchell, D-Maine, adding that the White House is failing in its effort to paint the Democrats as big taxers and spenders for wanting to do more.

### Local

#### Game changes

David Baugh, Snyder High School athletic director, reported two scheduling changes in regard to Thursday evening's ballgames involving local freshman and junior varsity teams.

The freshman game, against Post, has been moved to Travis Field at 5:30 p.m. instead of Tiger Stadium.

The junior varsity game has been changed from 7 p.m. to 7:30 p.m. in Levelland.

#### West parents

The West Elementary Parent Council will meet Friday at 8:30 a.m. in the school auditorium.

#### Miss Snyder

A meeting of all prospective Miss Snyder Scholarship Pageant contestants will be held Thursday at 7:30 p.m. in the chamber of commerce office.

The pageant is open to young women between the ages of 17 and 26 by Sept. 21, 1989 who are high school graduates, single, have never been married and are citizens of the United States.

### Weather

Snyder Area Forecast: High Wednesday, 53 degrees; low, 48 degrees; reading at 7 a.m. Thursday, 51 degrees; .12 of an inch precipitation; total precipitation for 1989 to date, 10.66 inches.

Snyder Area Forecast: Partly cloudy by noon and then mostly sunny during the afternoon. High near 70. Northeast wind 5 to 15 mph. Tonight, mostly clear and continued cool. Low near 50. Light and variable wind. Friday, mostly sunny. High near 80. Light and variable wind.

# Vaccinations are ordered for inmates in crowded prison

HOUSTON (AP) — A vaccination program for inmates at a high risk of contracting a bacterial infection that has claimed the lives of two inmates within the overcrowded Harris County Jail is being implemented to curb the outbreak, jail officials said.

High-risk inmates also will be treated with penicillin as recommended by medical experts from the Centers for Disease Control in Atlanta as well as city and county medical personnel, said Lanny Chopin, administrator of the jail's medical unit.

Chopin said 120 high-risk inmates will receive a pneumococcal vaccine and penicillin starting Wednesday evening. Up to 1,000 other inmates, if warranted, also may receive the shot plus the daily oral doses of penicillin, he said at a Wednesday afternoon news conference.

"Commencing this afternoon the Harris County Sheriff's Department will begin a program of providing inmates and staff, who fall into the high-risk group, proper medication as recommended by the investigative team that's been here this week," he said.

Officials hope such vaccinations and antibiotics will cut down on the number of infection cases.

Jail personnel were sent a letter Wednesday from Sheriff Johnny Klevenhagan explaining

the bacterial infection and offering the vaccine if they fall into the high-risk categories.

The high-risk group includes those with cardiovascular disease, pulmonary disease, diabetes, alcoholism, cirrhosis, sickle cell disease, cancer, organ transplantation and those without spleens.

## Texas may become natural gas state

AUSTIN (AP) — Mired for years in the depressed oil patch, Texas' rebound may be fueled by natural gas, officials said.

Texas Railroad Commissioner John Sharp said Wednesday that natural gas exploration in the United States is exceeding oil exploration for the first time.

That bodes well for Texas, he said, since the state has approximately 20.7 percent of the nation's natural gas reserves.

"The rebirth of our state's energy industry to meet increasing demand for natural gas will be as significant for the Texas economy as the high technology growth we expect in the future," Sharp said.

He said the increase in natural gas drilling activity is significant for the nation's energy industry and an historical milestone for Texas.

"This is more solid evidence of what I have been saying for the last three years, that natural gas is the new 'Golden Goose' for the

The two inmates who died last Thursday of pneumococcal disease had had their spleens removed.

Chopin said 19 inmates remain hospitalized — one in critical condition — while 33 others are being evaluated in the jail's infirmary. Seven, including the two deaths, were confirmed cases of pneumococcal disease, he said.

Texas economy," Sharp said.

Lawrence Polson, a spokesman for the Interstate Natural Gas Association of America, said, "You'll be hearing more about Texas being a gas state than an oil state."

"It could be that we're seeing the beginning of what we said could happen, that the 1990s could be a decade of gas," Polson said.

Sharp, who has organized national conferences in Boston, Houston and Los Angeles to promote natural gas, said by reclaiming its share of the nation's natural gas market, Texas will create more than 50,000 new jobs.

"The fastest way to rebuild Texas' economy is by successfully marketing our natural gas," he said.

Sharp said Texas needs to convince other regions, such as the Northeast, Midwest, and Southern California, to expand use of natural gas to combat acid rain and smog problems.

Sharp quoted statistics from the most recent Baker-Hughes weekly rig count that showed natural gas drilling has exceeded oil drilling.

He said that as recently as last year, natural gas drilling accounted about one-third of all exploration.

"Three years ago, some thought I was dreaming when I said natural gas could bring back our energy industry in the state's economy," Sharp said, but added that the new statistics show "natural gas truly is leading the way for the economic recovery of Texas."

*Dear Abby*

## Mother Worries That Daughter Will Become a Fool for Love

By Abigail Van Buren  
© 1989 Universal Press Syndicate

DEAR ABBY: I am worried sick about my daughter, Cynthia. She is a professional woman who has just attained a partnership in her firm, a position she has worked for 11 years to achieve.

She is ending her second marriage mainly because, as she put it, "We cannot communicate with each other." These two non-communicators have two beautiful children — my grandchildren.

Cynthia is now involved with a married man with children who is thinking seriously of leaving his wife of 12 years to marry her. This marriage entails Cynthia's giving up her partnership, selling her home, and taking her children thousands of miles away from me and familiar surroundings.

Meanwhile, her "boyfriend" keeps promising to leave his wife — but he has not done so. I have told her not to give up what she has now for an uncertain future.

Naturally she resents what she calls my "meddling" in her affairs and giving her no support for what she wants to do. I cannot condone the breaking up of this man's marriage, her stupidity in giving up all she has worked for and her lack of consideration for her children.

How do I get through to this foolish, headstrong daughter?  
CANT SLEEP NIGHTS

DEAR CANT: You have already given her the message, so back off, Mother, lest you alienate Cynthia entirely. With all your good intentions, you cannot lead your daughter's life, nor should you try. I know you want only the best for her, but some people have to learn life's lessons the hard way. And your daughter may be one of them.

DEAR ABBY: I am getting married in the near future. I'm a very private person and do not have a lot of money to blow on a big wedding, so it is going to be a small wedding. I work in a large office, and many

of my co-workers have indicated that they expect to be invited to my wedding. I am going to invite a few, but I can't possibly invite the entire office. How shall I handle this without making a lot of enemies? Should I ask those whom I've invited not to tell the others?  
IN A QUANDARY

DEAR IN: To those who indicate that they expect to be invited, but will not be, simply explain that yours will be a very small wedding.

Do not ask those you have invited not to tell anybody. It would be easier to smuggle down past a rooster.

DEAR ABBY: Back in the '30s and '40s, when a Hawaiian girl wore a flower over her left ear, it was supposed to signal something. And when she wore a flower over her right ear, it was supposed to signal something else.

Can you please tell us what the flower placement is supposed to signify?  
FROM WAHOO, NEB.

DEAR FROM WAHOO: If a girl wears a flower over her left ear, it means she's uninvolved, approachable, not attached. A flower worn over her right ear means she is spoken for, going with someone, romantically involved, so hands off.

"How to Write Letters for All Occasions" provides sample letters of congratulations, thank-yous, condolences, resumes and business letters — even how to write a love letter! It also includes how to properly address clergymen, government officials, dignitaries, widows and others. To order, send your name and address, plus check or money order for \$2.99 (\$3.39 in Canada) to: Abby's Letter Booklet, P.O. Box 447, Mount Morris, Ill. 61054. (Postage is included.)

## Man receives death sentence

RICHMOND, Texas (AP) — A man who admitted fatally shooting a Fort Bend County Sheriff's deputy and then fleeing in the officer's patrol car was sentenced to death after being convicted of capital murder.

Francisco Cardenas, 24, was sentenced to die by injection after a jury in State District Judge Charles Dickerson's court deliberated 5½ hours Wednesday. It took the same jury a little over an hour last Friday to convict Cardenas, a Mexican national, for the March 21, 1988, slaying of Deputy Eugene Heimann.

Heimann was shot five times after a burglary spree in a rural area near Damon, about 20 miles southwest of Houston.

The punishment phase in the trial began Tuesday. Cardenas, 24, gave authorities written, videotaped and tape-recorded statements admitting to the shooting and led detectives to the .38-caliber murder weapon.

Evidence showed that Cardenas, his brother, Juan Jose

Cardenas, 19; and Elizabeth Martinez, 21, were burglarizing rural homes the day Heimann was killed. Because Ms. Martinez, their driver, was arrested earlier that day, the brothers were hitchhiking when Heimann radioed to a dispatcher that he was checking two Hispanic men on Farm Road 1462.

Cardenas told authorities he got scared and fired five shots at the deputy from a gun hidden in a potato chip bag. The brothers fled in Heimann's patrol car, and witnesses testified they saw the defendant drive by wearing the slain officer's patrol hat.

Outside Needville, Cardenas said he and his brother hijacked another car and fled to Houston. Both were arrested hours later in the Houston apartment of Francisco Cardenas' common-law wife.

Heimann's .45-caliber automatic pistol was found in a fast-food restaurant bag under the mattress where Cardenas was sleeping.

## Williams will veto income tax

AUSTIN (AP) — Clayton Williams, under attack from Republican gubernatorial opponents over his refusal to back a constitutional ban on state income taxes, says he would veto "any, every and all attempts" to pass such a levy if he becomes governor.

GOP candidates Kent Hance and Jack Rains on Wednesday said they favor an income tax ban. Hance's campaign claimed Williams' remark that he wouldn't flatly rule out an income tax was a fatal blow to his gubernatorial hopes.

"Clayton Williams today lost the election," said Mark Sanders, Hance's press secretary. Hance, who launched his campaign by signing a tax-ban pledge, called Williams "incredibly naive."

Rains said he, too, favors the ban. But he also criticized Hance for making the prohibition a cornerstone of his campaign.

"Everyone in Texas is against an income tax except a handful of liberals," Rains said. "It's a phony issue to avoid talking about the tough issues ... While Hance is signing a big income tax (ban) pledge, it's really nothing more than politics as usual."

Williams blasted Hance, charging that the Democrat-turned-Republican had a pro-tax record during his time in Congress.

"Kent Hance thinks he needs the crutch of a constitutional amendment to keep from raising taxes and — judging by his record — he's probably right. I don't," Williams said.

"If Kent would spend more time reading my quotes in the paper and less time trying to come up with cheap distortions, he would see that I said I'm opposed to a state income tax," Williams said.

The furor erupted after Williams on Tuesday said he wouldn't rule out asking for a state income tax to combat illegal drugs.

Calling Hance's proposed income tax ban "just stuff," Williams said he saw no need for a state income tax now.

"I have not taken the position that you should have a constitutional amendment for no income tax," the Midland oilman said.

"Today, I don't see that we need (an income tax)," he said. "But I hate to say that if the drug crisis has increased as much in the next five (years) as it has the last five, we may have to do it. But I'm not saying I'm for it. I'm not."

Williams said he believes strongly in the need to aggressively battle illegal drugs.

"At this point, we feel like we can get it done with privatization, prioritizing and a few cutbacks in some areas," he said.

## TO ALL INTERESTED PERSONS AND PARTIES:

The Texaco USA has made application with the Texas Air Control Board for continuance of Permit No. R-2713 for a gas treating unit near Snyder, Scurry County, Texas. The location is approximately seventeen miles north of Snyder on Hwy. 208, then 2 miles east on a private road. Additional information concerning this application is contained in the public notice section of this newspaper.

**PREPARING FOR FAIR** — Snyder Garden Club members held their first meeting of the year Sept. 7 at Martha Ann Woman's Club. They also met Tuesday to prepare for the annual flower show in conjunction with the Scurry County Fair, which will be Sept. 21-23. Pictured from left are LaVerne

Hood, club president; Polly Autry, third vice president and chairman of the program committee; and JoAnn Nunley, first vice president and chairman of the membership committee. (SDN Staff Photo)

## Blind piano tuner has an ear for music

OWENSBORO, Ky. (AP) — George Stokes doesn't believe in wasted motion.

With one hand he moves quickly but efficiently down the keyboard of a piano, playing chords. His other hand moves simultaneously over the corresponding strings in the belly of the piano, tightening and loosening them with a tuning hammer.

Stokes is a speed tuner, a person who can tune a piano in less than an hour, or even 45 minutes when he has to, compared to the three or four hours some tuners require.

He is also blind.

Stokes, 43, of Owensboro, learned his skill as a student at the Kentucky School for the Blind in Louisville. Now he supplements his income as a snack bar manager by tuning pianos for the Owensboro Symphony Orchestra, among others.

**DELTA KAPPA GAMMA** — Members of Delta Kappa Gamma held their first meeting Sept. 11. Presenting the "Let's Get Acquainted" program were, from left, Betsy Griffin, Mary Williams and Helen Mock. (SDN Staff Photo)

## Pears make relish spicy

By NANCY BYAL  
Better Homes and Gardens  
Food Editor  
**HOT PEAR RELISH**  
4 medium pears, peeled and finely chopped (4 cups)  
4 cups cider vinegar  
4 large green peppers, finely chopped (3 cups)  
3 large onions, finely chopped (3 cups)  
2 cups sugar  
3 jalapeno peppers, seeded and finely chopped  
2 tablespoons prepared mustard  
1½ teaspoons ground turmeric  
In a 5-quart kettle or Dutch oven combine pears, vinegar, green peppers, onions, sugar, jalapeno peppers, mustard and turmeric. Bring to boiling; reduce heat. Simmer, uncovered, about 1 hour or until thick, stirring occasionally. Pack hot pear mixture into hot, clean ½-pint canning jars, leaving a ½-inch

headspace. Wipe jar rims; adjust lids. Process in boiling water bath for 10 minutes (start timing when water boils). Makes 6 half-pints.

difficult, provided declarer reviewed the bidding.

West was the dealer. He had originally passed. If he held the king of clubs as well as A-K-J-10-8 of diamonds, he might very well have opened the bidding. If the odds strongly favor the king of clubs to be with East, the right play is easy enough. Declarer drew the remaining trumps, and on the last trump he discarded the ace of clubs from dummy. Next came dummy's A-K-Q of hearts, followed by the 10 of clubs. East could take the king of clubs or not, but South could not be denied entry to his hand to win the fourth heart trick for his game contract. In fact, even without the strong evidence that East holds the club king, this is the best play for declarer. But it's certainly true that on a bad day West might hold the club king, and declarer would lose a lot of tricks.

James Jacoby's books "Jacoby on Bridge" and "Jacoby on Card Games" (written with his father, the late Oswald Jacoby) are now available at bookstores. Both are published by Pharos Books. © 1989, NEWSPAPER ENTERPRISE ASSN.

Adolf Hitler became dictator of Germany in 1934 upon the death of President Paul von Hindenburg.

## Eluding disaster

By James Jacoby

An easy hand got a little sticky for declarer when trumps broke badly. West led three rounds of diamonds. South ruffed and played two rounds of trumps. When East showed out, declarer paused. If he drew trumps before cashing the A-K-Q of hearts, the heart suit would be blocked. But if he tried to cash three rounds of hearts first, he would need West to follow to three rounds of the suit — not very likely, since West was marked with five diamonds as well as four spades. The percentage solution was not that

**Astro-Graph**

By Bernice Bede Ozel

Sept. 15, 1989

Conditions in general look hopeful for you in the year ahead, but you must be careful not to make changes merely for change sake. If something ain't broke, don't mend it.

**VIRGO (Aug. 23-Sept. 22)** Guard against inclinations toward possessiveness today both in the material and social realms. Be sharing with others and don't demand too much of them. Get a jump on life by understanding the influences which are governing you in the year ahead. Send for your Astro-Graph predictions today by mailing \$1 to Astro-Graph, c/o this newspaper, P.O. Box 91428, Cleveland, OH 44101-3428. Be sure to state your zodiac sign.

**LIBRA (Sept. 23-Oct. 23)** Your mate could be a trifle more difficult to get along with today than usual, so to be on the safe side give kid glove treatment: if you don't, you might be sorry.

**SCORPIO (Oct. 24-Nov. 22)** Be safety conscious today if you are working with unfamiliar power tools. Read the instructions thoroughly before you throw any switches.

**SAGITTARIUS (Nov. 23-Dec. 21)** Steer clear of ventures today that are too speculative or "lffy." You might be lucky initially, but it doesn't look like your fortunate streak will hold up.

**CAPRICORN (Dec. 22-Jan. 18)** People in your charge may put your patience to the test today. If you let their behavior rattle you, there's a possibility you may say or do something rash you'll later regret.

**AQUARIUS (Jan. 20-Feb. 19)** Inately you are rather resourceful and a pretty good innovator, but today your thinking might not be up to par and you may saddle yourself with ideas that create complications rather than solutions.

**PISCES (Feb. 20-March 20)** Instead of getting a good deal today, you might end up outsmarting yourself. Keep this in mind if you're negotiating with a wheeler-dealer who has something you want.

**ARIES (March 21-April 19)** You're a bit susceptible to manipulation today in career situations so you must be careful that you're not maneuvered into a tight spot by someone who does not have your best interests at heart.

**TAURUS (April 20-May 20)** You might have to contend with a development today that will be similar to one that previously caused you complications. Profit from your experience by not repeating the same mistake.

**GEMINI (May 21-June 20)** A joint venture with a friend may not work out too well today, especially if both are inspired by a profit motive. Money and pals do not make a good mix today.

**CANCER (June 21-July 22)** Companions or associates will be angered with you today if you behave in a dictatorial manner. Lead by example, not by aggressiveness.

**LEO (July 23-Aug. 22)** A poor attitude will make a task you already dislike doing much more difficult today. If you want the production line to run smoothly, don't make unnecessary waves for yourself.

# Lorenzo says he is not quitting business

HOUSTON (AP) — Texas Air Corp. Chairman Frank Lorenzo insists that he plans to remain in the airline business, countering speculation that he might quit.

A defiant Lorenzo also said Wednesday that Texas Air's Eastern Airlines subsidiary will start turning a profit next year, despite the strikebound carrier's enormous debts and bankruptcy proceedings.

While about 100 Eastern strikers chanted anti-Lorenzo slogans outside the long-delayed Texas Air annual meeting, the chairman of the nation's biggest airline company told shareholders he has no plans to quit the business, won't sell Eastern and likely will have

Texas Air assume some of Eastern's financial obligations.

"I have no intentions of leaving the airline business," Lorenzo said at a news conference after the meeting. "I plan to be around for plenty of years to come, God willing."

Speculation that Lorenzo might quit was fueled by his surprise announcement Aug. 24 that he was considering selling all or part of Houston-based Continental Airlines, Texas Air's other main subsidiary. He had no comment on a statement Wednesday by Jan Carlzon, managing director of Scandinavian Airlines System, that SAS has no "immediate interest" in buying part of Continental.

SAS, which owns a 9.9 percent stake in Texas Air, has been in talks with Texas Air officials about possibly buying part of Continental. Under U.S. law, foreign airlines are allowed to own up to 25 percent of an American carrier.

Security was tight at the hotel where the shareholders meeting took place, largely because of Lorenzo's unpopularity among Eastern strikers. Stockholders had to pass through metal detectors, television cameras were banned from the meeting room and Houston uniformed and plainclothes police as well as private security guards were present.

# Parents allege that officials at school cut children's hair

CANUTILLO, Texas (AP) — Parents of a boy whose hair was lopped off at school said they are not satisfied with the school board's decision to remove hair length from the dress code.

"I send my child to school to get an education, not to get a haircut," said Steve, the boy's father who did not want his last name used.

The boy's mother, Hanna, said school officials called her Monday and said her son, Ted, had been sent to detention because

his hair was too long.

She said the vice principal had told her that morning that only one inch needed to be trimmed off her son's ponytail, which fell between his shoulder blades.

"I told him I would take care of it that afternoon," Hanna said. "But when he came home, he didn't have a tail at all."

"These people were not licensed to cut hair," she said. "It was butchered, it was cut horrible. I'm a beautician, I could have cut it easily."

According to Hanna, the youth was told he would stay in detention until his hair was cut, and was told to sign a form giving them permission to cut it.

"He's 13 years old. As far as I'm concerned he's not old enough to sign anything. I can sign for him," Hanna said.

Louis Akin, chairman of the El Paso chapter of the American Civil Liberties Union, said his organization is investigating the parents' complaints.

Steve, the boy's father, said he is trying to organize other parents whose children's hair may have been cut by school officials and see what kind of legal action can be taken.

In Houston, the father of two longhaired boys sued the Spring Branch Independent School District saying his sons are being discriminated because of the district's hair length requirement for male students.

Steve, Hanna and parents of three other students complained to the school board at a meeting Tuesday night. Ironically, the meeting had been called so a new dress code could be approved. Among other things, the new code bans T-shirts with controversial images, earrings and tank tops.

After hearing a speech by the high school valedictorian, who has long hair, school board members decided not to include hair length in the dress code. Board members also decided to allow students to wear shorts.

But Steve said he felt school officials were just humoring the angry parents.

# Soviet Union readies for Big Mac attack

OAK BROOK, Ill. (AP) — Somewhere in the Soviet Union future Big Macs are still on the hoof. But the people who will run the first McDonald's restaurant in Moscow are training hard already at Hamburger University.

Five Soviets arrived at McDonald's suburban Chicago headquarters Sunday for two weeks of training at its school for restaurant managers.

After returning to Moscow, they will be in charge of what's expected to be the world's highest-volume McDonald's, scheduled to open near Pushkin Square early next year with seating for 900.

"There is a great need for fast-food restaurants such as McDonald's that will provide Muscovites with nutritious food and excellent service," said Alexander Egorov, deputy general director of Moscow-McDonald's.

Egorov and his fellow trainees spoke Wednesday while making fast work of lunch before heading off to afternoon classes.

Moscow Mac's is a joint venture between McDonald's Restaurants of Canada Ltd. and the Food Service Administration of the Moscow City Council. Plans call for 20 restaurants and for all food — including the beef — to be raised in the Soviet Union.

"There are herds already waiting," Egorov said.

Joining Egorov at Hamburger University are four restaurant managers: Khamzat Kazbulatov, Mikhail Shelesnov,

Georgij Smoleevskij and Vladimir Zhurakovskij.

Before arriving at Hamburger U., the five spent the summer studying at McDonald's Institute of Hamburgerology in Toronto. Their training included counter work and cooking at McDonald's restaurants, but in Oak Brook they are taking advanced operations courses to learn management skills.

Their counselor, Hamburger U. professor Henry Chapoy, said the five are "typical McDonald's people."

"Opening a country, I really wasn't expecting them to be at that level, but yes, they have that level. It's called 'ketchup in the veins,'" Chapoy said.

The five spend long days in classes and were to start laboratory work today. At night, they study from manuals printed in English and Russian.

# Dr. Gott

Peter Gott, M.D.

By Peter H. Gott, M.D.

DEAR DR. GOTT: What can you tell me about pacemakers? I've had atrial fibrillation for more than 10 years and have taken so many drugs I can't begin to name them all. Now, my doctor says he can't help me anymore and suggests a pacemaker. Do I seek a second opinion or take his advice?

DEAR READER: Cardiac pacemakers are electronic devices used to trigger the heart to beat. The typical pacemaker consists of a battery pack, about the size of a cigarette pack, that is surgically implanted under the skin of the chest.

The battery-pack is connected to wires leading through the veins of the neck into the right ventricle, one of the major heart chambers. A little computer next to the battery senses pauses in the heart rate and instructs the battery when to fire a charge down the wires to stimulate cardiac contraction. The computer is programmed to fire at a certain rate, if the natural heartbeat slows or stops.

Many modern pacemakers are engineering miracles. They can sense and fire in a variety of ways to stimulate normal cardiac action. For example, some pacers will automatically speed up if a patient exercises. Pacemakers can be programmed to ignore certain heart rhythms or override others. In choosing a pacemaker, the surgeon takes into account the patient's particular cardiac abnormality.

I do not believe cardiac pacemakers are useful in treating atrial fibrillation, an irregular, rapid and usually

harmless, cardiac rhythm. The purpose in treating atrial fibrillation is to slow the heart rate; this can almost always be accomplished with medicine. Therefore, I think you should obtain a second opinion. Ask for a referral to a cardiologist, a heart specialist who can advise you about medication or, if yours is an unusual case, suggest the kind of pacemaker that would best suit you.

To give you more information, I am sending you a copy of my Health Report "Eating Right for a Healthy Heart." Other readers who would like a copy should send \$1.25 with their name and address to P.O. Box 91369, Cleveland, OH 44101-3369. Be sure to mention the title.

DEAR DR. GOTT: I play basketball, have been punched in the arms and knocked around and was even in an accident, but I still have never had a bruise. Have you ever heard of this?

DEAR READER: Yes. I assume you are a young adult and, therefore, do not bruise to the extent older adults do. This is probably because capillary blood vessels within the skin become more fragile with age. Therefore, even minor injuries produce bruises in older people. In fact, many senior citizens experience spontaneous bruising when, without trauma, capillaries burst. This is known by the unfortunate sobriquet "senile" purpura.

Also, young people bruise less easily because they have more subcutaneous tissue, which helps to cushion injuries. Finally, older people have thinner skin; consequently, bruising may be more extensive and more noticeable.

# Union votes to end strike

ATHENS, Texas (AP) — A seven-month strike against Harvey Industries is ending, with many members angered because union leaders want them to ask for their jobs back after admitting picket lines aren't working.

About 200 members of the Furniture Workers Division Local 376 of the International Union for Electronic Workers voted Wednesday night to end the strike against the television manufacturer, which assembles Curtis Mathes brand televisions.

Union representative Carl Scarborough said it was "time to change directions to win," and union officials encouraged workers to report to the plant at 6:30 a.m. and tell company officials they are ready to return to work.

"Let's go back and fight," said Scarborough, who said picket lines set up outside the company were not working.

## Rains, cooler temps refresh pastures

COLLEGE STATION, Texas (AP) — Rains and cooler temperatures rambling through the Panhandle and North Texas this week are expected to refresh pastures, refill stock tanks and boost early-planted small grains, said Dr. Zerle L. Carpenter, director of the Texas Agricultural Extension Service.

The moisture, however, will delay cotton maturity and harvesting of sorghum and corn.

Scattered rains during the past month have kept the Panhandle in a fair to good soil moisture condition, while other areas of the state continued droughty and hot, Carpenter said. Panhandle ranges and pastures are keeping cattle in good shape and hay baling has been active.

He said small grain planting is widespread in Central Texas and a bountiful hay harvest continues. Some Coastal Bermudagrass dryland meadows have produced four and five cuttings. Cattle markets remain

strong. Carpenter said the soil moisture situation is not so favorable in Far West Texas, southwestern, southern and Coastal Bend regions.

In the Trans-Pecos district, moisture varies widely. Those areas missed by spotty rains are producing skimpy cotton, livestock condition is fair to poor

and maintenance feeding continues. Pecans look good overall but there is some nut drop.

Range conditions are declining fast in west central counties of the state, Carpenter said. Hay shortages are likely if rain does not come soon and there is more livestock maintenance feeding than usual for this time of year. Pecans also are stressing.

Last week's rains were welcome in southwestern areas and pastures are responding, but Carpenter said it appears that forage will be scarce for winter grazing unless much more rain is received. Ranges, pastures and cattle are only in fair shape in South Texas, including the Lower Rio Grande Valley, and there is much maintenance feeding.

## Washington-like mall is planned

AUSTIN (AP) — In the future, the area north of the Texas Capitol may have the look of Washington, D.C.

An architect renovating the Capitol area is drawing plans for a tree-lined mall that would extend from the statehouse grounds to the University of Texas campus.

"We are looking at a mall like the one at the U.S. Capitol, but on a much smaller scale. The appeal will be a broad expanse of grass, framed by trees and a park-like

thoroughfare — something that will visually frame the Capitol from the north," said architect Allen McCree.

The four-block esplanade along North Congress Avenue would be part of a master plan for renovations of the Capitol area, McCree said.

Costs for the mall haven't been estimated, McCree said. The work wouldn't be part of a \$149 million restoration and expansion of the century-old Capitol that is scheduled to begin next

year. But McCree said the design is being drawn to complement that massive construction project.

Preliminary plans call for North Congress Avenue to be rebuilt with a wide median bordered by three rows of trees and wide sidewalks. The mall would run from 15th Street north of the Capitol four blocks to Martin Luther King Boulevard, which borders the southern edge of the UT campus.

## 'Crack' house kids taken into custody

HOUSTON (AP) — Angry residents have screamed "baby snatcher" at a Harris County social worker as she removed children from a "crack" house where their mother was smoking the drug.

But Kathy Glascock with the Harris County Children's Protective Services said she may be the only hope for such children. As part of their job, county social workers go into the houses where drugs are sold and used to take temporary custody of children. The workers don't have the authority to take children just because a mother is high on crack, but they can take them if the children are in apparent potential danger.

Workers don't need a warrant to take the children. Faced with the dilemma of removing the children from their mother or leaving them in potentially dangerous environments, Ms. Glascock said she often turns to grandmothers to take custody of the children.

Ms. Glascock said in one case, angry residents screamed "baby snatcher" at her as she took two crying children from a drug house where their mother had been smoking crack.

"It's a life-or-death decision, but we have to make it. These crack moms can't take care of their children. They're totally out of touch with reality for days at a time," Ms. Glascock said.

Workers often get anonymous telephone calls from neighbors and relatives telling them that children are in crack houses with their mothers.

Nearly three years ago, the possibility was remote that CPS workers would have to go into crack houses to get children. But with more than 60 percent of the agency's cases now being drug-related, officials said the visits are a "daily routine."

"When I knock at crack houses, I never know what's on the other side. What I do know is that I may be the only hope for the children inside," Ms. Glascock said.

CPS regional director Gene Daniel said the agency has taken safety measures to protect employees who go into the crack houses. Telephones have been installed in the cars of night-shift workers who respond to calls, and a chemical addiction expert has been hired to teach workers how to safely deal with drug addicts.

New employees first respond to calls with veteran workers, he added.

"You don't go without street sense and a double dose of courage," Ms. Glascock said. "You won't make it. You can't get the job done."

## Eight games on tap in 4-4A...

# Loop play continues Friday

Members of District 4-4A tear into action Friday as all eight teams head into their second games of the young grid season.

Last week saw district competitors split in the won-lost columns as Sweetwater, Big Spring, Monahans and Pecos were winners and Snyder, San Angelo Lake View, Ft. Stockton and Andrews were losers.

This week's contests include Levelland at Snyder, Odessa at Monahans, Andrews at Midland, San Angelo Lake View at Lubbock, Ft. Stockton at El Paso Socorro, Lubbock Estacodo at Big Spring, Sweetwater at Abilene and Pecos at Carlsbad, N.M.

Snyder will host Levelland's Lobos Friday night as the Tigers look for win number one for 1989.

Snyder showed flashes of brilliance in last week's opener against Lubbock Coronado as Shelby Bufkin gained 54 yards on only six carries for a hefty nine yard average and Willie Garcia carried the football for 71 yards on seven tries to lead SHS in rushing.

The Black and Gold defense pounded the Mustangs into five fumbles capturing three of them for the home team.

Levelland will be trying to keep its 1989 slate clean after beating Lamesa 19-14 to open their season.

The Lobos gathered in 131 passing yards and 181 yards rushing against Lamesa.

The Levelland defensive unit allowed Lamesa to gain just 87 yards in the air and 112 yards on the ground.

## Area squads play Friday

Local six-man teams are in action Friday as Ira and Hermleigh both hit the road to face Wilson and Southland, respectively, and Borden County hosts Wellman.

Ira, trying for their first win on the season after an opening 25-6 loss to fifth ranked Lazbuddie, tangles with Wilson.

Wilson fell to Klondike last week by a final tally of 34-16.

Hermleigh gets set for a football program very much like their own as they battle Southland. Southland has only six players to compete after forfeiting last week's game versus Ira.

Hermleigh will suit up eight players.

The Cardinals are coming off an opening game 66-8 shellacking by Sands. The game was called at the half by the referees on the 45 point rule.

Borden County's Coyotes will square-off versus Wellman in Gail.

The Coyotes tied New Home, 16-16, last week in a game that was called due to severe lightning.

Wellman was a 32-25 loser at the hands of Cotton Center a week ago.

All three contests get underway Friday at 7:30 p.m.

## Softball event slated Sept. 23

A Hispanic softball tournament is scheduled for Sept. 23 and 24 at Midland's Hidalgo and Washington parks.

Entry fees are \$90 and deadline for entry is Sept. 21 at 8 p.m.

Two non-Hispanics are allowed per team.

For more information call (915) 682-1714 or (915) 683-4385.

## N.M. tennis tourney is set

The Cavern City Junior Tennis Tournament is slated for Sept. 23 and 24 in Carlsbad, N.M.

Entrants will be limited to three events, one of which must be doubles.

Singles entries are \$10 while \$18 covers a doubles team.

Players must be members of the United States Tennis Association. Cards will be available at the tournament desk.

The draw for the tournament will be held at Rio Pecos Tennis Shop at 6 p.m. MST Sept. 19. Those wishing to find out their start time may call (505) 887-1980 after noon Sept. 21.

Play begins at 8 a.m. MST Saturday, Sept. 23.

For more information call Charlie Jurva at (505) 236-6597 or Vicki Griffith at (505) 887-2020.

Odessa High School travels to Monahans to test the Lobos.

Monahans, fresh off a 42-21 thrashing of El Paso Riverside, looks to send the Bronchos to a similar fate.

Monahans boasts the most points scored in week number one and the Lobos defense swarmed the Rangers causing a pair of fumbles, coming up with one and snatching two interceptions en route to the win.

Andrews, perhaps the biggest surprise of the opening week, travels to Midland High School for a showdown.

Andrews was beaten by 1-4A also-ran Frenship, 14-9, in the opening game for the Mustangs.

The Ponies were held to a touchdown and a field goal in the losing effort.

Andrews, considered by coaches in the district to be the powerhouse of the loop, will attempt a comeback versus the 4-5A Bulldogs.

Midland was thrashed last week by the visiting Lubbock Monterey Plainsmen, 33-6.

The Lake View Chiefs will attempt to get on a winning track after being embarrassed by 3A opponent Ballinger last week.

Lake View allowed 41 points in the defeat losing the ball once on an interception and twice on fumbles to the Bearcats.

Lake View running back Arturo Herrera carried the ball nine times for 76 yards and an average of 8.4 yards per carry. He also scored the Chiefs only TD on the evening.

They will tangle with the Lubbock High Westerners of District 3-5A.

The Westerners are coming off an open date.

Ft. Stockton, a 21-0 loser to El Paso Ysleta last week, seeks an easier route to victory Friday as they trek to El Paso Socorro.

The Panthers allowed all three Ysleta scores through the air last Friday.

The defense did its part on the ground, however, forcing three turnovers via fumbles, but the offense could not get into the end zone.

Wide receiver Raymond Garcia of Ft. Stockton had a 121 yard performance offensively, catching seven passes.

The Ysleta defense cancelled his yardage as they claimed four Shannon Beeles passes for their own.

Socorro, a member of District 2-5A doesn't figure to be any less a test for Ft. Stockton this week.

Big Spring, a 21-17 winner over Hobbs, N.M. a week ago, hosts Lubbock Estacodo.

The Steers allowed only 62 total

## Fishing report

**ARROWHEAD:** Water murky, 82 degrees, normal level; black bass slow; striped slow; crappie slow; white bass fair to 15 fish per string on silver slabs; catfish good to 20 fish per day to 5 pounds on punch bait.

**GRANBURY:** Water clear, normal level; black bass slow and small; striped slow; crappie slow; white bass slow; catfish slow.

**GREENBELT:** Water clear, 79 degrees, normal level; black bass good to 5 pounds on minnows and cranks in Kelly Creek; crappie slow; white bass good to 25 fish per string trolling slabs and minnows; catfish are very good on water dogs and minnows; walleye have been good to 7 1/2 pounds on slabs and worms.

**HUBBARD CREEK:** Water fairly clear, some rain in the area mid week, possibly muddy creeks later, 7 feet low; black bass slow; striped fair to 8 pounds on small perch; crappie are picking up some limits on minnows; white bass slow; catfish slow.

**MEREDITH:** Water clear, 76 degrees, normal level; black bass slow; crappie fair in deep water on minnows; white bass are fairly good with several good strings with individual fish to 3 pounds on slabs and minnows; catfish are good to 20 pounds on live bait with trotline; channel catfish are plentiful on a wide range of baits. Good rains to 3 inches were falling midweek; some flash flood warnings.

**OAK CREEK:** Water clear, 85 degrees, 6 feet low; black bass have been fair to 4 pounds on topwaters, some limits; crappie are picking up but still scattered, on minnows; white bass have been fairly good trolling slabs, no limits; catfish fair in number and small in size on shrimp baited rod and reel.

**POSSUM KINGDOM:** Water clear, 82 degrees, 2 feet low; black bass to 15 inches are beginning to hit topwaters; striped are plentiful trolling topwaters or Pencil Poppers in the 6 to 12 pound range, fishermen can catch a tub full of 10 inch fish which must be returned to the water; crappie slow, some fairly good from the barge; white bass are beginning to school, most are small, good strings caught on slabs; catfish slow due to lack of fishermen. Rains expected again midweek. So far 1 1/2 inches of rain have fallen this week.

**SPENCE:** Water clear, 80 degrees, 31 feet low; black bass fair to 6 pounds on spinners; striped good to 14 pounds on slabs, topwaters and live bait; crappie slow; white bass fair to 10 fish per string on topwaters; catfish slow.

**STAMPFORD:** Water clear, 81 degrees, 3 1/2 feet low; black bass fair to 4 pounds on buzz baits; striped slow; crappie fair to 14 pounds on minnows in 10 feet of water, no limits; catfish good on rod and reel to 5 pounds on worms and liver. Rains cooled the area considerably earlier this week.

**TWIN BUTTES:** Water clear, 1 foot low; black bass are good in the 3 1/2 to 6 pound range on rattle traps and 1 1/2 inch worms in 25 to 40 feet of water; striped slow; crappie slow; white bass slow; catfish fair to 20 pounds on trotline baited with live bait.

**GRAVES Insurance Agency**  
Home/Auto/Life/Commercial

2107 25th Street

yards on defense, to lead the district in that category, while rolling up 283 yards offensively.

Big Spring's offense was almost perfectly balanced as they gained 141 yards on the ground and passed for 142 yards.

Quarterback Rance Thompson completed nine of 19 for 142 yards and a pair of scoring strikes. He was also intercepted twice.

Tailback Otis Riffe gained 92 yards on 21 carries for the Steers.

He rests in third place among loop ball carriers with that total.

Defending district champion Sweetwater journeys to Abilene for an appointment with the 4-5A Abilene High School Eagles.

Sweetwater rolled over Merkel last week 41-12, allowing just 73 yards while amassing 344 for themselves.

The Sweetwater defense picked off a Merkel pass and recovered another miscue as they held their opponents to just 35 rushing yards and a meager 38 through the air.

Halfback Greg Ruffin and tailback Robert Williams galloped for 96 and 93 yards,

respectively, last Friday, scoring five TD's between them. Ruffin had four and Williams one six pointer.

Sweetwater's ground game was so dominating that they attempted only one pass, an incompletion, in the entire game.

They are set to face off with an Eagle squad that lost their opener 21-7 to Wichita Falls Rider.

In the final circuit contest of the week, Pecos travels across state lines to battle Carlsbad, N.M.

Pecos beat 1-5A foe El Paso High last Friday 20-14 in one of the closest contests involving District 4-4A.

The Eagles pass defense was superb allowing only 21 yards in the air and picking off one.

Offensively, Pecos relied on the 160 yard performance of split end Dani Talamentez and quarterback Monty Medanich. Talamentez snatched eight of Medanich's nine completions.

El Paso Andrews was the last victim of Carlsbad, falling 28-7 in the first week of the season.

DEFENSE — Ira safety Jason Withers, in black, stretches to break up a pass play against Lazbuddie last week. The Bulldogs lost the game 25-6 but hope to post a win Friday night in Hermleigh. (SDN Staff Photo)

# New baseball commissioner, Vincent, voted to replace A. Bartlett Giamatti

**MILWAUKEE (AP)** — It was Fay Vincent answering the questions, only it sounded like A. Bartlett Giamatti. That's just fine with the new commissioner of baseball.

Vincent, elected Wednesday to a 4 1/2-year term as his late friend's successor, said he intends to follow the agenda and implement the policies of Giamatti, who died of a heart attack on Sept. 1.

"It's a chance to influence something very precious and special in American life," said Vincent, who had been the deputy commissioner. "I have an addiction to baseball."

Giamatti, the former Yale University president, had a national reputation as a baseball nut for many years. Most people

hadn't even heard of Vincent until the last two weeks.

"Everybody wanted to get it resolved," American League president Bobby Brown said, "and we had somebody who fit the bill real well."

Vincent and Giamatti come from similar backgrounds: Yale degrees, friendships with President Bush, love of the English language.

While Giamatti had no business experience outside of Yale, Vincent ran Columbia Pictures Industries Inc. for nearly 10 years. While Giamatti was eloquent, Vincent is low-key and was somewhat shy in his few public appearances.

Vincent, 51, said he hadn't thought about whether he would want to remain past April 1, 1994,

the day his term is to expire. He said that except for partial paralysis in his left leg, his health is good and that he has regular physicals. Although he does not smoke cigarettes, he does smoke cigars.

In his "stay the course" message, he said "there's very likely to be a deputy commissioner" in his administration, but "I don't have any candidates in mind."

He was elected during a joint meeting of the two leagues, then spoke at a news conference, referring to Giamatti repeatedly and reverentially.

"I think about Bart a lot," he said, and his thoughts on the game are exactly the same as Giamatti's.

"I don't like the designated hitter. I don't like aluminum bats," Vincent said. "I do like grass. I do like baseball as you and I know it growing up."

Vincent's answers to a range of

questions were similar to those of Giamatti, if somewhat less eloquent.

— On the expected application for reinstatement next summer by Pete Rose, baseball's career hit leader who was banned from the game by Giamatti for gambling: "That application, should it arise, will be dealt with in light of the circumstances at the time."

— On Giamatti's plan to announce a timetable for expansion of the National League by two teams within 90 days of a new collective-bargaining agreement: "I think that program is correct and we will stay that course."

— On the commissioner's role in collective bargaining: "I think I will do what Bart would have done," which is to work behind the scenes, away from the bargaining table.

"I think Bart had it just right," Vincent said of Giamatti's agenda. "I think the transition ought to be relatively seamless."

**Worst coal mine disaster in 5 years...**

# 10 miners die in fiery blast

WHEATCROFT, Ky. (AP) — A fiery methane gas explosion, smoke and dust figured in the deaths of 10 miners in the nation's worst coal mine disaster in five years, officials said as a federal investigation got under way.

"It was just a big boom. The ears popped and that was it. The dirt flew," said Tony Hawkins, who was installing support timbers in the mine about a half mile from the explosion Wednesday morning. "It was just scary. My knees started shaking."

Hawkins said he and others helped to evacuate some miners who scrambled out of the smoky blast site about 1,000 feet underground in the Pyro Mining Co.'s William Station Mine.

By late Wednesday, rescue teams had removed 10 bodies, which were taken to the state medical examiner's office for autopsies, and all other miners were safely accounted for, authorities said.

Fourteen to 15 miners were in the immediate area when a jet of flame erupted, said Jim Greenlee, an executive vice president of Pyro's parent company, Costain Coal Inc.

Officials believe some of the victims survived the explosion "and succumbed to the smoke and dust," Costain President Charles Schulties said. Some of the miners were found wearing self-rescuing units, devices miners carry on their belts to filter out poisonous carbon monoxide in emergencies, he said.

Paul Tompkins, Webster County deputy coroner, noted that four of the 10 victims sustained first-degree burns.

## Mother Teresa in serious condition

CALCUTTA, India (AP) — Mother Teresa had chest pains and developed a high fever today, a week after she suffered a heart attack, her doctors said.

Dr. A.K. Ashim, chief cardiologist at Woodlands Nursing Home, said the 79-year-old Roman Catholic nun "has had sort of a (second) heart attack."

Mother Teresa, who has devoted her life to helping the poor, was admitted to the nursing home on Sept. 5. "Her condition is serious," Ashim said. "She suffered chest pains during the night which required intensive measures to relieve. These measures are continuing."

## Collider bill to Bush

Continued From Page 1

the facilities, which has been accumulating for more than 40 years, has been estimated at \$100 billion.

The cleanup money is just part of \$9.7 billion the measure provides for atomic energy defense programs, including weapons construction.

Also tucked into the bill are some of the favorite goodies lawmakers can bring home to their districts: water projects. The measure finances 33 new projects by the Senate's count,

triple the administration's request.

Overall, it provides \$3.2 billion for Army Corps of Engineers water programs and \$977 million for Bureau of Reclamation projects, both figures representing 2 percent reductions from this year.

The legislation also provides \$2.2 billion for energy research.

The House had passed an \$18.54 billion version of the bill June 28, while the Senate approved an \$18.45 billion measure July 27.

## Seal-coating continues

Continued From Page 1

Having latex, or rubber, in the asphalt and coating the gravel with it is an innovation the state highway department has already been using, and Osborn considers it a significant improvement.

"The asphalt melts at a higher temperature and is stringier," he said. "The temperature range you can use it in is extremely narrow. If it cools off a little bit, it just does not work."

He said the asphalt-coated gravel sticks to the base asphalt better and the seal-coating should last 20 to 30 percent longer with its use.

"We can sweep up the loose rock, and there is less of a problem with loose rock and damaged windshields," the city engineer said. "The red rock on the highways is asphalt-coated."

The city had used plain gravel prior to this year but ordered 3,000 tons of the new gravel for this year's project.

Latex-laced asphalt, Osborn said, will expand and contract without cracking, and cracks

that are covered will not come through the new asphalt, which had been a problem with the previous method.

The city has 80 miles of streets and has been seal-coating eight to 10 miles each summer so that all streets would get a new coat every eight years. Crews have redone eight miles so far and will complete 13 miles this year by the time they finish.

## Century II

Continued From Page 1

and onsite visits.

The final class is scheduled for Friday, May 4 and will be a day-long farm and ranch tour. The class will tour rural Scurry County before enjoying a fellowship-study session with farm and ranch spokespersons that evening, followed by dinner.

Graduation will be held at the chamber board of director's meeting in May.

## \$3 million...

# Bakkers received bonuses during financial hard times

CHARLOTTE, N.C. (AP) — PTL founder Jim Bakker and his wife were given more than \$3 million in bonuses as the ministry narrowly avoided a financial collapse during the mid-1980s, a witness and prosecutor said.

At Bakker's fraud trial Wednesday in U.S. District Court, former PTL finance director Peter Bailey read from more than 70 memos he had sent the evangelist between 1983 and 1987 detailing the TV ministry's

chronic cash crisis.

"We are continuing to operate far in excess of what is coming in," Bailey read from a memo dated April 16, 1986, two weeks after Bakker got a \$200,000 bonus. "The contributions are flat. We can have all the financial controls in the world but if we don't live within our means it doesn't mean anything."

Prosecutors contend Bakker took for his own use nearly \$4 million earmarked for lodging at PTL's Heritage USA theme park and religious retreat near Fort Mill, S.C. If found guilty of the 24 counts of fraud and conspiracy he could be sentenced to 120 years in prison and fined more than \$5 million.

Prosecutors on Wednesday presented evidence that while Bailey was warning Bakker of financial trouble, Bakker and his

## Injuries send Spokane man to hospital

A 37-year-old Spokane, Wash., man was admitted to Cogdell Memorial Hospital for 23-hour observation Wednesday with injuries reportedly suffered in a tractor-trailer rig accident.

George C.H. White III was admitted at 2:55 p.m. after he told hospital officials he was suffering neck and back pain from the Tuesday accident, the details of which had not yet been reported by a law enforcement agency.

White said he was a passenger in the truck and that he had first thought he had not been seriously injured.

## Ollie Bruton is winner at SDN

Ollie Bruton of 2103 41st Street is the August winner of a free year's subscription to the Snyder Daily News. Each month a drawing is held from the names of those who either subscribe or renew for six months or more.

Source: Roper Reports, The Roper Organization, Inc. NEA GRAPHICS  
Age is a major factor determining where people like to engage in leisure activities. More than 60 percent of those age 60 or more prefer leisure activities at home. Almost 40 percent of those under the age of 30 prefer leisure activities outside the home.

**010 LEGAL NOTICES**

TO ALL INTERESTED PERSONS AND PARTIES  
You are hereby notified of the opportunity for written public comment concerning the ap-

plication for continuance of permit No. R-2713 by Texaco USA for a Gas Sweetening Unit near Snyder, Scurry County, Texas. The location is approximately seventeen miles north of Snyder on Hwy. 208, then 2 miles east on private road. This facility is emitting the following air contaminants: sulfur oxides, nitrogen oxides, carbon monoxide, particulates, and volatile organic compounds.

A copy of all materials submitted by the applicant is available for public inspection at the Texas Air Control Board, Abilene Regional Office, 1290 South Willis Street, Suite 205, Abilene, Texas 79605, telephone (915) 698-9674, and at the Texas Air Control Board, 6330 Highway 290 East, Austin, Texas 78723. All interested persons may inspect these materials and submit written comments to the Executive Director of the Texas Air Control Board. Any person who may be affected by emissions of air contaminants from the proposed facility may request a contested case hearing from the Board on the application for continuance pursuant to Section 3.271(c) of the Texas Clean Air Act. All comments and hearing requests must be received in writing by September 30th, 1989. All written comments submitted to the Executive Director shall be considered in determining whether to continue the permit. All comments will be made available for public inspection at the Texas Air Control Board Office in Austin.

## Gunman shoots 14 people; kills five, then himself

LOUISVILLE, Ky. (AP) — A printing-company employee blazed away with an assault rifle as he went from floor to floor of the plant today, killing at least five people and wounding 14 before taking his own life, police said.

"It looks like a battle zone ... with the blood and the people involved there," Mayor Jerry Abramson said after touring the three-story building adjacent to The Courier-Journal newspaper offices.

Police searched every floor for victims because of the Standard-Gravure Co. building's many "nooks and crannies," Chief Richard Dotson said. Two victims were found during the mayor's tour.

"We also found a fellow sitting in a corner that was just shuddering in fear," Abramson said. "He hadn't been shot, but he was in shock."

The gunman, Joseph T. Wesbecher, entered the building at 8:30 a.m. with a duffel bag, an AK-47 rifle and a 9mm semi-automatic pistol and randomly fired at people with the rifle, which had ammunition clips of about 25 rounds, Dotson said.

"It started on the first floor. By the time our officers arrived he had gone up to the third floor ... and he eventually ended up in a pressroom in an annex area, which is where he killed himself."

Dotson described Wesbecher, 47, as a disgruntled employee of Standard-Gravure, which prints newspaper inserts and Sunday newspaper-supplements. He was on permanent disability, although the nature of his disability was not immediately known.

The chief said an officer who knew Wesbecher told him the man had been "argumentative and confrontational for a number of years."

Bill Leezer, a maintenance worker for The Courier-Journal who said he knew Wesbecher, talked to one of the shooting victims. He said the man saw Wesbecher and said, "What are you doing here? You're supposed to be on disability leave." The gunman responded, "Get out of my way. Get out of my way." Wesbecher then shot him.

After the shootings, the gunman lay face-down in a pool of blood on the floor of a pressroom. The pistol was discovered under his body and the AK-47 was a few feet away. The gunman apparently shot himself with his pistol, Dotson said.

The newspaper building was evacuated following the shooting. At least two blocks were sealed off and about a dozen ambulances lined the streets.

It was the worst one-day mass killing since Jan. 17, when a 24-year-old drifter opened fire on a Stockton, Calif., schoolyard with an AK-47 semi-automatic assault rifle and other weapons. Five children were killed and 29 others and one teacher were wounded before the man killed himself.

# Roberts to close hospital, medical school

TULSA, Okla. (AP) — Evangelist Oral Roberts, the faith healer who built a religious empire on the credo "expect a miracle," says he can't wait for divine intervention to save his ministry's hospital and medical school.

Because of \$25 million in debts, the hospital will be closed by the end of the year and the medical school next year, Roberts said Wednesday.

His home, four other ministry-owned houses and a university housing complex will be sold to pay off the debts, he said.

"I hope we can look back at this and say this wasn't a failure," the 71-year-old pioneer of television evangelism told reporters. "I don't think it's as bad a day as it seems. I think we'll look back on this and think it's the right thing."

Roberts said the action would help keep the 4,300-student Oral Roberts University financially secure.

Mayor Rodger Randle agreed, adding that the City of Faith hospital, which opened in 1981, "was born in controversy and was a big gamble on the proposition that a national medical market could be created."

Roberts built the hospital with a 777-bed capacity, but state regulators only approved filling 294 beds, and the highest average occupancy was 148 in 1984. Still Roberts said, "I would do it again."

The ministry's financial problems were compounded by a drop in monthly contributions that Roberts blamed on a "spirit of skepticism" in the wake of

scandals involving fellow evangelists Jim Bakker and Jimmy Swaggart.

Roberts, himself, caused a furor in 1986 when he announced he needed \$8 million for his medical school by April 1, 1987, or God would end his life. The money was raised.

On Wednesday, Roberts raised the possibility of "some miracle" providing a \$50 million endow-

ment he says is needed.

"Integrity means we have to tell our students now," Roberts said. "We feel that integrity demands that we give them a full year's notice."

Dr. Larry Edwards, dean of the medical school, said its charter will become inactive when classes end next May, but its accreditation could be reactivated later.

# Money might be saved if earnings limits were dropped

WASHINGTON (AP) — The government could save \$140 million a year by letting older Americans earn unlimited outside income without forfeiting Social Security benefits, two private research groups report today.

The new taxes paid by older workers who rejoin the labor force would more than offset the higher Social Security benefits that would be paid, the study said.

"Because the penalties for working are so high, many elderly workers are simply dropping out of the system and becoming more dependent on government instead," Rep. Dick Arme, R-Texas, said in an introduction to the report.

The report was sponsored by two Dallas-based groups, the Institute for Policy Innovation and the National Center for Policy Analysis. They released the report in conjunction with the

House Republican Research Committee.

Under current law, older workers between the ages of 65 and 69 lose \$1 in Social Security benefits for every \$2 they earn above \$8,880. The limit is \$6,480 for workers under age 65, and there is no limit for those 70 or older.

Starting in 1990, benefits for those age 65-69 will be reduced by \$1 for every \$3 earned above the limit, which rises with growth in

average wages.

Almost 1 million Social Security beneficiaries lose some or all of their benefits each year, and another 100,000 people in the 65-69 age group do not file for Social Security benefits, according to the Social Security Administration.

The researchers said their best estimate was that if the earnings limit were scrapped, at least 700,000 additional elderly retirees would enter the labor market.

The nation's output of goods and services would increase by at least \$15.4 billion, and government revenue would rise by \$4.9 billion, outstripping increased Social Security payments by \$140 million, they said.

Members of Congress have repeatedly made proposals to relax or repeal the earnings limits, including a plan approved by the House Ways and Means Committee to raise the earnings limit for those age 65-69 to ap-

proximately \$10,440 by 1991. The Senate also has gone on record in favor of a higher earnings limit.

Today's study estimated the Ways and Means proposal would increase federal revenue by \$700 million.

Proposed legislation to exempt senior citizens who take jobs as child care workers from the earnings limits was the focus of a hearing Wednesday by a subcommittee of the House Select Committee on Aging.

## PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 7, 1989

### PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 102 proposes a constitutional amendment that would increase the salary of members of the legislature to one-fourth of the Governor's salary and increase the salary of the Lieutenant Governor and the Speaker of the House of Representatives to one-half of the Governor's salary. The annual salary of members of the legislature, the Lieutenant Governor, and the Speaker of the House of Representatives is currently \$7,200. Under this provision, the annual salary of the Lieutenant Governor and the Speaker would be \$46,716, and the annual salary of members of the legislature would be \$23,358, based on the Governor's current annual salary of \$93,432. The increase for the Speaker and the members of the legislature would take effect when the legislature convenes for its regular session in January 1991. The increase for the Lieutenant Governor would take effect when the term of that office begins in 1991. The salary increase for the Lieutenant Governor would not make members of the legislature ineligible to run for the office of Lieutenant Governor.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to limit the salary of the lieutenant governor and the speaker of the house of representatives to not more than one-half of the governor's salary and to limit the salary of a member of the legislature to not more than one-fourth of the governor's salary."

### PROPOSITION NO. 2 ON THE BALLOT

Senate Joint Resolution 5 proposes a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$500 million of Texas water development bonds. The additional bonds are to be used as follows: \$250 million of the bonds are to be used for water supply loans and facilities acquisition; \$200 million of the bonds are to be used for water quality enhancement projects; and \$50 million of the bonds are to be used for flood control. The legislature may provide that \$100 million be used for subsidized loans and grants to economically distressed areas of the state for water and wastewater facilities.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the issuance of an additional \$500 million of Texas water development bonds for water supply, water quality, and flood control purposes."

### PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 51 proposes a constitutional amendment that would authorize the legislature to provide for the issuance of general obligation bonds to provide money to establish a Texas agricultural fund, a rural microenterprise development fund, a Texas product development fund, and a Texas small business incubator fund in the state treasury. The Texas agricultural fund would be used to provide financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced in Texas by Texas agricultural businesses. The rural microenterprise development fund would be used to stimulate the creation and expansion of small businesses in rural areas. The Texas product development fund would be used to aid in the development and production of new or improved products in this state. The Texas small business incubator fund would be used to stimulate the development of small businesses in the State.

The principal amount of bonds outstanding at one time could not exceed \$25 million for the Texas agricultural fund and \$5 million for the rural microenterprise develop-

ment fund. The financial assistance offered by both funds could include loan guarantees, insurance, co-insurance, loans, and indirect loans or purchases or acceptances of assignments of loans or other obligations. To carry out the Texas product development fund, the legislature could authorize loans, loan guarantees, and equity investments, and the issuance of up to \$25 million of general obligation bonds for initial funding. To carry out the Texas small business incubator fund, the legislature could authorize loans and grants of money, and the issuance of up to \$20 million of general obligation bonds for initial funding.

Bonds authorized under this amendment would be paid out of the first money coming into the treasury in each fiscal year that is not otherwise appropriated by the constitution, less any amount in any interest and sinking account at the end of the preceding fiscal year that is pledged to payment of the bonds or interest.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for the recovery and further development of the state's economy, with goals of increasing job opportunities and other benefits for Texas residents, through state financing of the development and production of Texas products and businesses."

### PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 13 proposes a constitutional amendment that would authorize the legislature, by general law, to exempt from ad valorem taxes property owned by nonprofit veterans organizations that are chartered or incorporated by the United States Congress.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to authorize the legislature to exempt property of nonprofit veterans organizations from ad valorem taxation."

### PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 11 proposes a constitutional amendment that would provide an exemption from ad valorem taxation for goods, wares, merchandise, other tangible personal property (including aircraft), and ores (other than oil, gas, and petroleum products) if the property is acquired in or imported into the state and is destined to be forwarded out of the state, regardless of whether the intention to forward the property existed when the property was acquired or imported into the state, if it remains in Texas for 175 days or less for assembly, storage, manufacture, processing, or fabrication. The proposed amendment would authorize the governing body of a county, municipality, school district, or junior college district to prevent the exemption of this tangible personal property from taxation by taking official action before April 1, 1990. A county, municipality, school district, or junior college district could rescind a decision to tax the property, in which case the exemption would become effective in the year of the rescission and the property could not thereafter be taxed.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment promoting economic growth, job creation, and fair tax treatment for Texans who export goods to other states and nations by restoring and allowing, on a local option basis, an ad valorem tax exemption for certain personal property that is in Texas only temporarily for the purpose of assembling, storing, manufacturing, processing or fabricating."

### PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment that

would enable the legislature to provide, by general or special law, that members of a hospital district board may serve terms not to exceed four years. Currently, hospital district board members' terms are two years.

The proposed amendment will appear on the ballot as follows:

"Authorizing the members of a hospital district governing board to serve four-year terms."

### PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 40 proposes a constitutional amendment that would change the format of the oath of office for officeholders in this state. All elected and appointed officers would be required to take an oath or affirmation swearing to faithfully execute the duties of office and to preserve, protect, and defend the constitution and laws of the State and the United States. In addition, each elected and appointed officer would be required to sign a sworn statement that he or she had not paid, offered, or promised anything of value for a vote or to secure appointment to an office, as applicable. The written, sworn statement would be filed with the secretary of state. The information in the statement is currently contained in the oaths of office taken by elected and appointed officials.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to require that a member of the legislature, the secretary of state, and an elected or appointed officer, before assuming office, sign a written oath stating that the member, the secretary of state, or the officer did not engage in bribery to obtain the office."

### PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 24 proposes a constitutional amendment that would allow the legislature to authorize the issuance of up to \$400 million in general obligation bonds. The proceeds of the bonds could be used to acquire, construct, or equip new corrections institutions, mental health and mental retardation institutions, youth corrections institutions, and statewide law enforcement facilities and to repair and renovate existing facilities of those institutions. The bonds would constitute a general obligation of the state. The bonds and interest on the bonds would be paid from the first money coming into the treasury that is not otherwise appropriated by the constitution, less any amount in a sinking fund at the end of the preceding fiscal year that is pledged to payment of the bonds or interest.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds for projects relating to facilities of corrections institutions, youth corrections institutions, and mental health and mental retardation institutions and for the expansion of statewide law enforcement facilities."

### PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 101 proposes a constitutional amendment that would authorize the legislature to pass laws to organize and combine state agencies that perform criminal justice functions. The legislature could combine into one or more agencies all agencies that have authority over the confinement and supervision of convicted criminals, that set standards for or distribute state funds to political subdivisions with authority over the confinement and supervision of convicted criminals, and that gather information about criminal justice administration. Agencies that could be combined would include the Texas Department of Corrections, the Board of Pardons and Paroles, and the Texas Adult Probation Commission. The amendment would also authorize the legislature to pass laws authorizing the appointment of members of more than one department of government to serve on the governing body.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to organize and combine various state agencies that perform criminal justice functions."

### PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 4 proposes a constitutional amendment that would authorize the legislature to enact laws requiring or permitting judges to advise juries that a defendant convicted of a criminal offense can receive credit for good conduct that results in a shorter prison term and that eligibility for parole or mandatory supervision can also affect the length of time a convicted criminal serves in prison.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to require or permit courts to inform juries about the effect of good conduct time and eligibility for parole or mandatory supervision on the period of incarceration served by a defendant convicted of a criminal offense."

### PROPOSITION NO. 11 ON THE BALLOT

House Joint Resolution 102 proposes a constitutional amendment that would increase the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount allowed for federal income tax purposes as of January 1 of that same year as a deduction for living expenses, incurred by a state legislator. The per diem of \$30 would increase to \$81, which is the current maximum living expense deduction.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to set the amount of per diem received by a member of the legislature at the amount allowed for federal income tax purposes as a deduction for living expenses incurred by a state legislator in connection with official business."

### PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 53 proposes a constitutional amendment that would authorize the legislature to provide for the use of the permanent school fund and the income from the permanent school fund to guarantee bonds issued by the state for the purpose of providing loans or purchasing the bonds of school districts to acquire, construct, renovate, or improve instructional facilities. If the permanent school fund were required to make payment as a result of its guarantee of bonds issued by the state, the fund would have to be reimbursed immediately from the state treasury. The amount of bonds guaranteed by the permanent school fund could not exceed \$750 million unless a higher amount was authorized by a two-thirds vote of both houses of the legislature. If a school district were to become delinquent on a loan, the amount of the delinquency would be offset against other aid to which the district was entitled.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for using the permanent school fund and its income to guarantee bonds issued by the state for the purpose of aiding school districts."

### PROPOSITION NO. 13 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that would provide a bill of rights for crime victims. This constitutional amendment would give crime victims the right to be treated with fairness and respect and to be reasonably protected from the defendant. On his request, the crime victim would have the right to notification of court proceedings, the right to be present at all public court proceedings unless a court determines that the victim's testimony would be affected by hearing other testimony, the right to confer with a representative of the prosecutor's office, the right to restitution, and the right to information about the conviction, sentence, imprisonment, and release of the defendant. The legislature would be authorized to enact laws to define the term "victim," to enforce the rights of crime victims, and to provide that certain public officers and agencies are not liable for a failure to protect a victim's rights.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment

providing a bill of rights for crime victims."

### PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 71 proposes a constitutional amendment that would require the district attorney in Fort Bend County to be elected and serve terms at the same times as criminal district attorneys in the state. Currently, criminal district attorneys are elected in gubernatorial election years and district attorneys are elected in presidential election years.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment requiring a district attorney serving in Fort Bend County to be elected and serve a term in the manner provided by general law for criminal district attorneys."

### PROPOSITION NO. 15 ON THE BALLOT

House Joint Resolution 32 proposes a constitutional amendment that would authorize the legislature, by general law, to permit charitable raffles conducted by qualified nonprofit organizations. The amendment would require that the raffles be conducted, promoted, and administered only by members of the qualified nonprofit organizations and that the proceeds from the sale of raffle tickets must be spent for the charitable purposes of the organizations.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to permit and regulate raffles conducted by certain nonprofit organizations for charitable purposes."

### PROPOSITION NO. 16 ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment allowing the legislature to pass general laws authorizing the creation of hospital districts upon approval of a majority of the qualified voters of the district. The amendment would also permit the legislature to authorize the creation of hospital districts by general or special law in counties with populations of 75,000 or less and to authorize the commissioners courts of such counties to levy ad valorem taxes and issue general obligation bonds for the support and maintenance of such districts.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment granting to the people the right to decide whether to create and maintain hospital districts to protect the public well-being in a manner independent of the legislature."

### PROPOSITION NO. 17 ON THE BALLOT

House Joint Resolution 33 proposes a constitutional amendment that would allow the legislature, by general law, to authorize the use of public money to provide local fire departments and other public fire-fighting organizations loans or other financial assistance to purchase fire-fighting equipment and to aid in complying with federal and state law. The legislature would also be allowed to authorize the use of public money for scholarships and grants to educate and train members of these organizations. Part of the money could be used for administrative costs of this program. The legislature would provide for the terms and conditions of all such scholarships, grants, loans, and other financial assistance.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the state to provide scholarships, grants, loans, and other financial assistance to local fire departments and other public fire-fighting organizations to purchase fire-fighting equipment, to aid in providing necessary equipment and facilities to comply with federal and state law, and to educate and train their members."

### PROPOSITION NO. 18 ON THE BALLOT

Senate Joint Resolution 44 proposes a constitutional amendment that would repeal subsection (e) of Article III, Section 50-d of the constitution. Article III, Section 50-d currently allows the Texas Water Development Board to issue and sell Texas agricultural water conserva-

tion bonds in an amount not to exceed \$200 million, if two-thirds of the members of each house of the legislature approve. Under subsection (e), this authority will expire in November, 1989. Repeal of subsection (e) by passage of this amendment would continue in effect the authority to issue and sell the bonds.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to eliminate certain time limitations relating to the issuance of Texas agricultural water conservation bonds."

### PROPOSITION NO. 19 ON THE BALLOT

Senate Joint Resolution 59 proposes a constitutional amendment that would allow local governments to invest their funds as authorized by the legislature. Currently, the constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company prevents local governments from making some kinds of investments. This proposed amendment would allow local governments to make any investments authorized by the legisla-

ture.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize local governments to invest their funds as provided by law."

### PROPOSITION NO. 20 ON THE BALLOT

Senate Joint Resolution 16 proposes a constitutional amendment which, if passed, would abolish the office of county surveyor in Cass, Ector, Garza, Smith, Bexar, Harris, and Webb Counties. A majority of the voters in an affected county must vote in favor of this proposed amendment before the office is abolished in that county. If the office of county surveyor is abolished in any of these counties, the powers, duties, and functions of the office are transferred to a county officer or employee designated by the commissioners court of the county in which the office is abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in Cass, Ector, Garza, Smith, Bexar, Harris, and Webb Counties."

### PROPOSITION NO. 21 ON THE BALLOT

Senate Joint Resolution 74 proposes a constitutional amendment that would authorize the legislature to enact laws authorizing the Texas Higher Education Coordinating Board or its successor to provide for, issue, and sell an additional \$75 million in general obligation bonds as college savings bonds. The form, terms, and denominations of the bonds would be prescribed by law. The interest rate and installments would be prescribed by the Texas Higher Education Coordinating Board or its successor. The maximum net effective interest rate would be set by law. Proceeds from the sale of the bonds would be credited to the Texas opportunity plan fund, which is used to make loans to students to attend institutions of higher education in Texas. The bonds and interest on the bonds would be payable from the first money coming into the treasury in each fiscal year that is not already appropriated by the constitution, less the amount remaining in the sinking fund at the close of the prior fiscal year.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the issuance of general obligation bonds as college savings bonds to provide educational loans to students and to encourage the public to save for a college education."

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the issuance of general obligation bonds as college savings bonds to provide educational loans to students and to encourage the public to save for a college education."
