

Anticipation is high as Tigers square off against the Mustangs

Anticipation is high as Snyder meets up with traditional rival Sweetwater tonight on the gridiron.

After an 0-4 start which included three one-point losses, Coach David Baugh's Tigers have put

together back-to-back victories in District 4-4A play. Snyder's sudden success has returned "Tiger Fever" to the community and that fever is further fueled because of the opponent tonight.

Kickoff is set for 8 p.m. in Tiger

Stadium.

Snyder All-Sports Booster Club will be featuring its annual supper prior to the game. Tickets are \$5 each for the steak dinner, which begins at 5 p.m. in the high school cafeteria. Out-of-town visitors are invited. The cafeteria is located just east of Tiger Stadium.

A dance, sponsored by Classmates in Action, will be held following the football game.

Tonight's meeting will be the 42nd between the Tigers and Mustangs. Sweetwater leads the

series 26 wins to 10. The teams have tied on six occasions.

Snyder is hoping to snap a Sweetwater winning string that goes back to 1980. The Tigers' last victory over the Mustangs was 24-0 in 1979. Since then, Sweetwater has won 10 straight games, including two in 1982 when the Mustangs were also on Snyder's non-district schedule.

In 1980, Sweetwater won 18-7, breaking a Snyder win streak of seven straight games.

The Tigers and Mustangs have met every year since 1974.

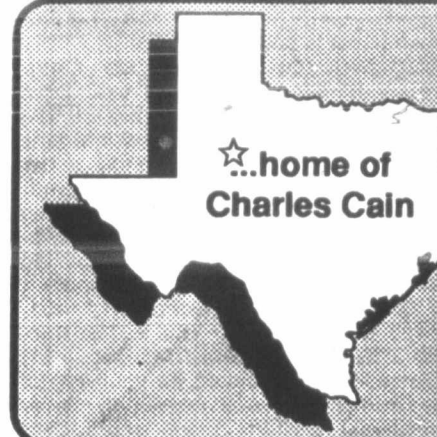

Snyder moved up in class in 1972 and 73 and Sweetwater was not on the schedule. Prior to that, the teams had met for 20 consecutive years from 1952 through 1971.

The rivalry with Sweetwater is Snyder's longest on-going series, though the Tigers and Lamesa Golden Tornadoes have squared off 46 times. Snyder and Lamesa haven't played in two years, however.

Snyder's two victories, over Andrews and Fort Stockton, gives the Tigers a 2-4 look going into the game. Sweetwater is 4-2.

Square Dance Festival planned here Saturday

Square dancers from a 200-mile radius are expected for the 18th annual Square and Round Dance Festival Saturday in Scurry County Coliseum.

A total of 200 to 300 dancers will form squares of four couples each as caller Wayne Baldwin of Fairview, in Collin County, calls the steps.

Dave and Nita Smith of Lubbock will cue the round dancing part of the event, which will begin with workshops from 1 to 5 p.m.

The Festival Dance will start at 7 p.m., request rounds will be held until 8 p.m., and square dancing will be from 8 to 11 p.m.

A newly organized clog dancing group from Snyder, the Sparkle City Cloggers, will be an added feature this year.

The Festival is sponsored by the Sparkle City Square Dance Club.

Treasurer Harold Buchanan said today that dancers will be here from New Mexico, San Angelo, Odessa and similar distances.

Proposed Amendment No. 15

Below continues the series outlining the 21 proposed constitutional amendments which will be offered for voter ratification on the Nov. 7, 1989, general election ballot.

HOUSE JOINT RESOLUTION 32: would allow the legislature by general law to authorize charitable raffles conducted by qualified religious societies, volunteer fire departments and emergency medical services, and other nonprofit organizations.

Additional Information

The original version of the constitution of 1876 requires the legislature to pass laws prohibiting the establishment of lotteries and gift enterprises and the sale of tickets in lotteries. In 1980, this was amended to provide an excep-

tion to the prohibition on lotteries and gift establishments by allowing the legislature to authorize and regulate bingo games by certain nonprofit organizations. The proposed amendment would allow the legislature to enact laws permitting charitable raffles to be conducted by qualified nonprofit organizations. Any law enacted must require all proceeds from the sale of tickets for raffle be spent for the charitable purpose of the organization.

FOR: The proposed amendment allows limited and well-controlled raffles for (see AMENDMENT page 8)

Cogdell board approves plan to provide an ADN program

Cogdell Hospital board of managers approved an agreement with Howard College for an Associate Degree in Nursing pro-

gram during their regular meeting Thursday.

The board also approved a capital equipment request of \$3,110 for an Omnigraph EKG machine, reviewed two informational items, okayed the purchase of other equipment while meeting at the Foundation Board, and took no action in an executive meeting.

"The advantage of our sponsoring the Associate Degree in Nursing (ADN) program is it is a natural complement to the Licensed Vocational Nurse (LVN) program at Western Texas College," Tom Hochwalt, hospital administrator, said later. "Through the ADN program, licensed vocational nurses who wish to become registered nurses may now take all of their RN coursework and obtain most of their clinical experience here in Snyder rather than having to go to Big Spring. This convenience should increase local in-

terest in pursuing registered nursing as a career.

"It is our goal to recruit and retain the ADN students after they receive their RN license. We hope to accomplish this through loyalties developed during the students' clinical experience phase here at our hospital as well as through the offering of tuition assistance sponsored by the Cogdell Auxiliary."

Band set to march

Snyder High School Marching Band will compete at 10:36 a.m. Saturday in Abilene's Shotwell Stadium in the first district competition for District 2 for the 1989-90 school year.

Walter Reneau, band director, said the band will be performing (see BAND, page 8)

In the agreement with Howard College, Cogdell will provide clinical experience, classroom space, office space and secretarial support for the program. Cogdell will also agree to pay a salary subsidy — depending on the amount of state funds received, which is tied to the number of students enrolled — for the instructor, Velma Clay, RN, MSN.

The program will begin in June of 1990 and graduate its first class in May of 1991.

Western Texas College president Dr. Harry Krenk this morning said there were several reasons the ADN program could not be offered through the local college.

"First, program approval has to go through the Texas Higher Education Coordinating Board. They only approve a certain number of programs in the region," he explained. "Howard (see COGDELL page 8)

Halloween events Saturday, Tuesday

Scurry County schools, organizations and businesses are planning Halloween-related activities for the weekend and next Tuesday.

Two of the six elementary schools in Snyder plan Halloween activities on Saturday. Stanfield's annual fall carnival will begin at 6 p.m. in the coliseum annex and activities will continue until 9:30 p.m. Games, food and fun have been planned for all ages.

Also on Saturday, North Elementary plans a block party which will get underway at 6 p.m. Games and other activities will continue until 9 p.m. Booths will cost from 25 to 50 cents and will include dart throw, steer roping, dart gun, Wheel of Fortune, and more, including a chili dinner for \$2.

Keeping tabs on our neighbors.

The key to all success, it is believed, is the ability to communicate. If man would just talk, and listen, then perhaps wars and even lesser conflicts could be avoided.

O.G. Nieman, in the Hereford Brand, says communicating can be difficult—especially in the face of changing colloquialism.

"No one wants to be an empty suit, so you need to get ready for prime time, make sure your stuff is wired and put it into play so you make a slam dunk before the splash."

Nieman composed the above paragraph using new terms that are not in common use. The list of words were contained in a company newsletter which said, "If you want to show off your candle power, you many want to use some of the following terms:"

- Beltway bandit: A Washington consultant or lobbyist.
- Buttons: the police.
- Candle power: intelligence.
- Clark Kent: Muscular men in big suits who wear glasses.
- To cream: to select the best.
- Drop dead condition: a final offer.
- To front-load: To acquire major benefits or interest early.
- Gearhead: A computer enthusiast.
- To get your stuff wired: To be organized.
- To grind someone's gears: To annoy him.
- Empty suit: A guy with little or no brain power.
- In the loop: Routinely informed.
- Napkin notion: An idea brought up at an extemporaneous meeting, such as lunch.
- Ready for prime time: Fully trained and prepared.
- Slam dunk: An overwhelming success.
- To splash: To terminate someone.
- Toast: Burned out, finished.

Chemical fire

GRAND PRAIRIE, Texas (AP) - Plumes of black smoke billowed from a plastics warehouse in this Dallas suburb early today, but firemen said it posed no danger to residents in the Grand Prairie-Arlington area.

The fire erupted about 11 p.m. Thursday at the Poly-America Corp., a firm that warehouses plastic bags and other plastic items, according to Assistant Fire Chief James Smith of the Grand Prairie Fire Department.

No one was injured and Smith said firemen had not been able to determine what caused the fire. Company officials had no immediate damage estimate, Smith added.

Plane crash

SAN ANTONIO (AP) — A San Antonio man was in stable condition this morning after crashing his small single-engine plane in strong winds near an airport in Bexar County Thursday.

Jim George, 54, of San Antonio was alone in the plane when it crashed shortly after takeoff at Horizon Airport at about 4:30 p.m. Thursday, authorities said. The plane only got about 100 feet off the ground before crashing in a nearby field.

Federal Aviation Administration officials were called in to investigate.

This is the second small-plane crash in the San Antonio area within a week. On Oct. 19 a plane carrying six military employees went down in a residential area after taking off from Kelly Air Force Base.

Lockhart plea

DADE CITY, Fla. (AP) — A one-time drifter already facing death sentences in Texas and Indiana stunned prosecutors at a court hearing by pleading guilty to the slaying of a 14-year-old girl, saying, "Let's get this over with."

Michael Lee Lockhart of Walbridge, Ohio, said he entered the plea Thursday against his attorney's advice for the sake of the family of victim Jennifer Colbour of Land O' Lakes.

"I thought I'd be saving the taxpayers' money and the family a lot of grief," Lockhart told Circuit Judge Maynard Swanson Jr. "The sooner this is put behind me, the sooner the family can put this tragedy behind them."

Weather

Snyder Temperatures: High Thursday, 78 degrees; low, 61 degrees; reading at 7 a.m. Friday, 65 degrees; no precipitation; total precipitation for 1989 to date, 10.99 inches.

Snyder Area Forecast: Tonight, partly cloudy with a 30 percent chance of thunderstorms. Low in the upper 50s. Southeast wind 5 to 15 mph. Saturday, considerable early morning cloudiness. Otherwise partly cloudy with a 20 percent chance of thunderstorms. High in the upper 70s. South wind 10 to 20 mph.

Lawmakers criticize Bush's new proposal for pesticides

WASHINGTON (AP) — President Bush's plan to improve pesticide regulation is being criticized in Congress as doing nothing to make food safer but praised for promoting needed bureaucratic improvements.

"The president deserves credit for reforming the outdated and extremely cumbersome procedures for removing dangerous pesticides from use," Rep. Henry Waxman, D-Calif., said Thursday. "But better procedures are meaningless if the safety standards are weakened."

The president's proposal "offers absolutely no assurances that our food will be free of dangerous pesticides," he said.

Waxman, chairman of the House Energy and Commerce subcommittee on health and the environment, has introduced

legislation of his own to reform pesticide use and said he would consider Bush's proposal during hearings within the next three weeks.

Waxman's bill is among several in Congress that have various plans for regulating the way chemicals are used in farming.

Bush's proposal includes: —Redefining the criteria to be used for temporarily removing or suspending from use a pesticide that poses a possible health hazard, making it easier to get the chemical off the market even though formal proceedings might still be under way.

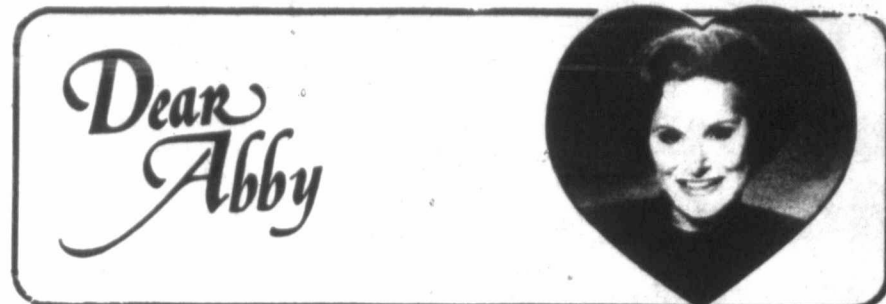

—Streamlining the procedures under which a dangerous pesticide may be permanently removed from the market. Officials said the process would

reduce by at least half the four-to-eight years it often takes for a chemical to be banned.

—Providing tougher enforcement against misuse of pesticides, including a proposal to increase penalties from \$5,000 per day to \$25,000 per day.

"President Bush's proposal ... will enhance the government's ability to remove potentially hazardous pesticides from the marketplace," said Rep. Norman Lent, R-N.Y., ranking Republican on the Energy and Commerce Committee.

"The administration is taking one step forward and two steps back when it weakens important food safety protections in exchange for some procedural improvements in pesticide regulations," said Leahy, D-Vt.

Smoke Detectors Can't Smell A Thing if Batteries Are Dead

By Abigail Van Buren

DEAR ABBY: As a firefighter, I am saddened by the number of people who die each year in home fires simply because they did not have working batteries in their smoke detectors.

During the course of our rescue attempts, we keep finding smoke detectors that did not function because the batteries were either worn out or missing.

In the early 1980s, we saw a dramatic decline in the number of home fire deaths because of the wide acceptance of smoke detectors. Now the number of deaths is on the rise again. What a tragedy!

Abby, please help us get the word out that smoke detectors are worthless unless they have batteries in them that work, so on Sunday, Oct. 29, when people should turn back their clocks an hour from daylight-saving time, they should put new batteries in their smoke detectors.

JIM ESTEPP, PRESIDENT, INTERNATIONAL ASSOCIATION OF FIRE CHIEFS

DEAR JIM: Consider it done! Readers, don't forget, next Sunday, Oct. 29, when you turn back your clocks, change the batteries in your smoke detectors.

DEAR ABBY: Now that fax machines are here, they have become almost a status symbol. They are remarkably speedy and convenient for business correspondence, but how about faxing thank-you notes for social occasions?

I hope this doesn't catch on. I just received one, and I must say it lacked the warmth and elegance of lovely stationery, as well as the personal touch. Please comment.

NO FAX, PLEASE

DEAR NO FAX: Almost any thank-you note is better than none, but a faxed thank-you is definitely a no-no. It's tantamount to sending a "collect" telegram, because the recipient must pay for the fax paper, which is not exactly petty cash.

DEAR ABBY: Enough is enough. You've turned your advice-to-the-lovelorn column into one crusade after another. Get off smokers' backs!

I just read Susan Ortez's letter about her mother who smoked herself to death (supposedly). Well, my mother has smoked two to three packs a day since she was 14 years old, and she has never coughed once. She's a tiny, fragile woman who will be 92 years old this month.

Her closest friend died of lung cancer. She was 67 — and never smoked a cigarette in her life!

HEALTHY 70-YEAR-OLD SMOKER

DEAR HEALTHY: I am glad you are a healthy 70-year-old smoker. You are very lucky, and your mother appears to be even luckier. There is no arguing with the fact that smoking contributes to lung cancer, bladder cancer and heart disease. Some smokers are luckier than others — but why gamble?

Study: most roadway shootings don't occur on major freeways

CHICAGO (AP) — Researchers who studied a wave of shootings on the roads around Los Angeles think the attacks may have been prompted by frustration over traffic, but say the data doesn't necessarily prove that theory.

The so-called freeway shootings peaked in the summer of 1987, according to California law-enforcement reports compiled by researchers from the federal Centers for Disease Control.

There were 32 reported firearm assaults or gun-brandishing incidents on Los Angeles County streets and highways in 1985, 91 in 1986 and 137 in 1987, the researchers report in today's Journal of the American Medical Association.

Seventeen of the shootings caused injuries, and two were fatal, said the authors, who were asked by California public health authorities to examine the issue.

Just 31 percent of the incidents in 1987 took place during peak traffic hours.

"Although related, freeway congestion does not cause

firearm assaults," said a news release on the study, whose lead author was Chukwudi Onwuachi-Saunders of the CDC in Atlanta.

In 1987, when the phenomenon attracted widespread media attention, 83 of the incidents, or 61 percent, were actual shootings and 54, or 39 percent, were cases in which a gun was displayed but not fired, the study said. The breakdown for other years wasn't provided.

California authorities were unable to provide 1988 figures for roadway gunplay Thursday, but a spokeswoman for the California Highway Patrol said the number of highway shootings has dropped off dramatically since 1987.

"Our last confirmed shooting was in July 1988," said Officer Jill Angel. But she added, "Highway violence is still going on, in terms of fights between drivers. We average anywhere between five and 10 incidents a week. We just aren't getting the reported shootings."

Most of the shootings and gunwaving didn't take place on freeways, but on surface streets with low speed limits, the researchers reported.

HALLOWEEN STORYTELLERS—These Drama I junior high students will present a Halloween storytime at 10 a.m. this Saturday at Scurry County Library. Pre-schoolers through second graders are

invited. A costume contest and spook parade is also planned. (SDN Staff Photo)

Halloween story time slated by Snyder Jr. High

Drama I classes from Snyder Junior High will sponsor a Halloween storytime at 10 a.m. Saturday at Scurry County Library. Pre-schoolers through second graders are invited to this dramatic storytelling event.

Youngsters are also encouraged to wear Halloween costumes as there will be a Spook Parade, and prizes will be given for the most creative and the scariest costumes.

A number of students are involved in the telling of each story, and the illustrations from the book will be projected on a screen as the story is told.

Presentations include the following:

-"Harriet's Halloween Candy" by Nancy Carlson: Amy Eicke, narrator; Kellie Davis, Harriet; Janice Villa, mother; and Chris Goebel, projectionist.

-"The Little Witch" by Margaret Mahy: Jenny Valdez, narrator; (voices) Chris Goebel, cat; Cody Shields, wind; James Moss, shadows; Juan Dominguez, baby sparrow; Amy Herrera, mother sparrow; Adam Comer, young moth; Nathan Zalman, old moth; Tommy Henderson, owl; Jamie Franks, witch woman; and projectionist, Kellie Davis.

-"The Trouble With Mom" by Babette Cole: Greg McAden, narrator; Kandy Gard, friends; and Katherine Pittaway, projectionist.

Activity break: Spook parade led by Jason Lieb and Janie Martinez.

Ellie Dryden is the junior high drama director.

Abortion clinic gets \$587,000 in damages

AUSTIN (AP) — An Austin jury has ordered an anti-abortion group to pay \$587,000 in damages to an Austin abortion clinic that was the frequent target of the group's protests, but lawyers for both sides say it is unlikely that the clinic will ever get any of the money.

The organization has no assets, making it virtually impossible for the clinic to collect the damage, lawyers for both sides said Thursday following the verdict.

Karen LaFayette, administrative assistant of The Ladies Center, said the real victory cannot be measured in money.

"The goal was to stop the harassing," said Ms. LaFayette. "I definitely think this is what we need to stop this from happening again."

Austin Rescue leader Rex Moses was also claiming victory and said the decision would not deter the anti-abortion movement "one iota."

The center was one of three local clinics targeted in the past year by Moses and his group.

Hundreds of anti-abortionists picketed the center on several occasions from October 1988

through August 1989. The protesters formed human blockades to stop people from entering the building.

The protesters refused to move when told to do so by police and were arrested. More than 500 criminal trespass cases related to the protests are pending in Travis County courts.

A state judge issued a permanent injunction against the group in August, barring them from blocking entry to the clinic and from harassing patients and staff members.

The injunction was issued as part of the same suit that resulted in the jury trial that led to the award to the clinic Thursday.

The suit, tried before District Judge Jerry Dellana, asked that a jury set the amount of damages.

Jurors deliberated less than three hours Thursday before recommending the group be ordered to pay \$44,136.62 in actual and \$543,500 in punitive damages.

Clinic attorney Charles Johanson said this may be the first time in Texas that an anti-abortion group has been ordered to pay damages stemming from its protests.

Report says female prison workers claim harassment

PALESTINE, Texas (AP) — Female workers in several Texas prisons claim in a published report they've been harassed frequently and disciplined with inadequate job assignments for rejecting sexual advances from male officers.

Dozens of women have come forward in the wake of a 7-week-old sexual harassment lawsuit filed against a prison warden by his former secretary, the Dallas Morning News reported in a copyright story today.

Union officials who represent correctional officers told the newspaper the female workers at three East Texas prison units outlined a pattern of harassment that they say has been condoned

for years. Some male officers promised female workers easy duties in exchange for sexual favors but women who refuse have been shocked with stun guns or given poor assignments in a scheme known as "play or pay," employees told the union.

Texas Department of Corrections officials at the three units — Beto I, Michael and Coffield units in Palestine — deny any knowledge of such incidents.

mond, but declarer was able to ruff in his hand with the seven of hearts. Now the deuce of hearts was led. West was left with the 8-4, and dummy had the Q-6, so declarer could pick up the trumps and make his contract.

East can make four diamonds if he guesses right in spades, but should anyone be blamed? West can't bid again when he has such great defense against hearts. And East seems to have gone far enough on a distributional hand.

Michael Jackson awarded \$130,000

TRENTON, N.J. (AP) — A federal judge awarded singer Michael Jackson \$130,000 and permanently barred a company from selling videocassettes of 26 Beatles songs that Jackson controls.

Jackson sued Video Wholesalers, Inc., and its president, David Saka, over distribution of "The Beatles at Shea Stadium," "The Beatles in Tokyo" and two other Beatles videos.

The ruling Wednesday "serves notice that bootleggers cannot expect to use the enormously popular creative works of the Beatles without penalty," said Alan Friedman, who represented Jackson and the Beatles' company, Apple Corps Ltd.

Neither the video company nor its president could be reached for comment.

Taking risks

By James Jacoby

Of course it's risky to bid two hearts over East's two-diamond overcall. But that's bridge — one risk after another. South thought East would probably make two diamonds, and hence gambled to compete. Playing in three hearts, South was astute enough to remember the bidding.

If anyone was short in hearts it would be East. So declarer won dummy's ace of diamonds and led a low heart from dummy. When East showed out, the contract got sticky. The jack of hearts forced West's ace, and West now led the jack of spades. East won the king and returned a spade. Declarer won the queen and led the nine of hearts, 10 from West, queen from dummy. Next came dummy's queen of clubs. East won the king and gave West a spade ruff. Back came a diamond. Declarer won the diamond king and played another club. West ducked the ace, then won the third club. West now played one more dia-

Owners' committee chooses Tagliabue to follow Rozelle

CLEVELAND (AP) — One of Paul Tagliabue's credentials as a candidate for NFL commissioner was the insider's view he had at the job as one of Pete Rozelle's closest advisors.
Judging from his first public appearance as the NFL's seventh commissioner, his actions may not differ much from Rozelle's, at least not for a while.
Tagliabue was elected Thursday morning, breaking an impasse that has existed since July 6 when a group of dissidents blocked the election of Jim Finks, the sole candidate proposed by the first of three committees that had a hand in the selection process.

other side to respond." The union reacted to Tagliabue's election with guarded optimism.
"I find him to be very straightforward and he wants to solve problems. He understands things have to be done and he's never been opposed to taking actions," Gene Upshaw, the NFLPA's executive director, said.
"I'm glad to see the process is

over. It gives us some certainty as to who will be leading the league in the future. The question is, will he be able to pull the owners together? The other question is how much authority will he have?"
Tagliabue's election capped 50 hours of deliberation in seven separate sessions dating back to July 6, when Finks' election was blocked three votes short of the necessary 19. Tagliabue was elected on the 12th ballot.

World Series starts up again; Game 3 in S.F.

SAN FRANCISCO (AP) — Slowly, life in the Bay area is returning to normal.
Businesses are back in business, and so is the symphony and the opera. Conventions are coming back and so are tourists.
And tonight, so is the World Series.
Eleven days after a devastating earthquake, the Oakland Athletics and San Francisco again will try to play Game 3.

Of course, this World Series will never be the same. Win or lose, tragedy will be

remembered more than any triumph.
But, just like bankers do their banking and cooks doing their cooking, the baseball players will play baseball. More than 62,000 fans will watch them at Candlestick Park when Oakland ace Dave Stewart faces Scott Garrelts in a rematch of Game 1 starters.
Rick Reuschel, scheduled to pitch Game 4 for the Giants, was scratched. He was hit in the right shoulder by a line drive in batting practice this week, so Don Robinson will fill in to face Mike Moore.
Robinson has not started since Sept. 25. He has pitched just 13 1-3 innings since Sept. 3 because of a bad knee.

Eighth grade whips Ponies

Snyder's eighth grade "A" squad scored a 32-14 triumph over Sweetwater Thursday.
David Krenek started things off for the junior high Tigers with a 64 yard touchdown gallop. Krenek added another TD, from two yards out, later in the game.
Keith Orosco set the score at 12-0 in Snyder's favor with a 48 yard jaunt against the Mustangs followed by a successful two-point attempt by Tony Hernandez to up the margin to 14-0.
Next came Krenek's second score and a 50 yard touchdown run by Orosco.
Tony Hernandez ended the scoring with a 70 yard return of a Sweetwater punt.
"Our team played as good as they could have," said coach Roger Goodwin.
"We put some second teamers in in the second half and they controlled the ball for most of the time."
"Our kids have improved dramatically in the area of intensity, desire and hustle," Goodwin concluded.
Defensive players drawing praise from Goodwin included Brian Lickey, Brian Upton, Jim Pat Griffin, Jim Henry, Jeff Armstrong, Brad Hart, Matthew Cave and Craig Lang.
The eighth grade "B" team fell to the Ponies, 34-0, the seventh grade "A" squad lost to Sweetwater, 20-6, and seventh graders on the "B" unit won 8-0.

"If things keep going on like this, Dave Dravecky and Mike Krukow will be our starters," Robinson said.
All during the record layoff, while it was debated whether the games should go on, the Athletics and Giants talked about the spirit of the series being gone. Day by day, though, the excitement and enthusiasm returned.
"It's starting to feel like a World Series again," San Francisco's Will Clark said during Thursday's workout.
Oakland, leading 2-0, also got into the swing Thursday. At the Athletics' spring-training site in Phoenix, they held their instructional league team hitless and won 7-0 in a five-inning scrimmage.

They are currently second in the loop in first downs allowed with 67, and second to the Tigers in total defense.
The 'Stangs look much the same as the Tigers on the defensive side of the ball with the exception that Sweetwater likes to slant their five down linemen and "pinch tackles."
"They'll pinch their tackles and stop up the middle and let their linebackers run to the ball," Baugh reported.

Mustangs, Tigers square off

trouncing of Ft. Stockton, has Snyder fans hopeful for a victory over loop rival Sweetwater.
Both squads are 2-1 in District play while Snyder is 2-4 on the year and Sweetwater stands at 4-2.
The Mustangs boast the circuit's best rushing offense and the top ground gainer in the district.
The Ponies have amassed over 1,400 yards of overland yardage this season.
Patrick Villa, Sweetwater tailback, has run for 554 yards, three touchdowns and an average of 6.8 yards per carry in 82 attempts.
Mustang quarterback Greg Ruffin has had to pass only 36 times in six games. He has completed 15 of those for 231 yards, two TD's and an interception.
Last week against Pecos, Sweetwater rambled for 249 yards on the ground, with Villa pounding out a 17 yard scoring run in the third quarter to up the Mustangs' advantage to 37-0.
"They'll set up in either a wishbone or an I," says Snyder coach David Baugh.
"Lately they've been turning more to the I-formation. Either way they like to run a lot of triple option stuff and they can power you, too."
To no one's surprise, Baugh listed the major strength of the Sweetwater team as the running game.

According to the SHS mentor the Mustangs defensive strength lies in the tackle slots.
"We're counting on Clint Haywood to have a good night from his strong guard position," said Baugh.
Snyder's offensive strength was bolstered last week with the addition of Randy Morris to the team's roster.
Morris, last year's varsity quarterback, is back in uniform as a split end for the Tigers.
Last week Morris caught two passes for 40 yards and two TD's in the space of less than a minute.
He was also cited by the coaching staff for outstanding defensive and special teams play.
Snyder's top receiver is still split end Jayson Presley who has caught 12 passes for 192 yards and two touchdowns.
Snyder QB Toby Goodwin had a productive evening passing against Ft. Stockton a week ago, completing five of nine tosses for 80 yards and three touchdowns.
Snyder is led on the ground by tailback Paul Anderson who has picked up 363 yards on the year and is averaging 6.3 yards per carry.
Fullback Willie Garcia has added 190 yards on 43 carries and a TD to the team's offensive totals.
The Black and Gold defense vaulted into first place in the district this week after allowing the Panthers just 62 yards of total offense and just one yard rushing.
The Tigers had done such a complete shutting down of the Ft. Stockton offense that at the half the Panthers were at minus 33 yards.
Snyder leads in rushing yardage allowed on the season, 727, passing yards given up, 605, and first downs allowed, 65.
Snyder's defensive corps has covered 12 enemy drive-killing fumbles and linebacker Bart Morton has intercepted a pass for the prowling Tiger defense.
The contest gets under way at 8 p.m. in Tiger Stadium and should feature the largest home crowd

thus far this year for the Tigers.
The game will be broadcast on a tape-delay basis on Snyder Cablevision channel 2 Saturday at 7:30 p.m.

Dr. Gott

Peter Gott, M.D.

By Peter H. Gott, M.D.

DEAR DR. GOTT: Why are doctors so secretive? I recently asked mine why he prescribed Bellergal-S, and he indicated it would relieve my hot flashes. After digging in my library, I found this is a barbiturate that will make me sleepy. I've had a terrible problem getting any rest, my hot flashes are severe, and I am constantly fatigued. I feel he has done me an injustice.

DEAR READER: I agree. I believe doctors owe patients explanations about prescription drugs, especially those — such as barbiturates — having a definite potential for abuse or addiction. I think your doctor could be criticized for not leveling with you.

Moreover, barbiturates are not appropriate medication for the symptoms of menopause, which you appear to be experiencing. If you need treatment, female hormones (estrogen with progesterin) would be preferable. I say "if" because hot flashes do not indicate ill-health. Many women choose to "ride them out" and get through menopause without drug supplements. In my opinion, you should see a gynecologist for advice about whether you need hormones and, if so, how much.

Also, I recommend that patients not take medicine until the prescribing doctor has reviewed and ex-

drugstores with no results.

DEAR READER: Since my first column on the use of bile salts to relieve constipation, I have received several letters from readers who have been unable to purchase this old remedy. Evidently, Cholacol and Caroid Bile Salts are no longer manufactured. The substances are now marketed, in conjunction with digestive enzymes, as Bilezyme (Geriatric Pharmacy Corp.) and Digepepsin (RAM Laboratories Corp.). These medicines are available by prescription.

DEAR DR. GOTT: I'm a 60-year-old female on doxepin 50 milligrams daily. Are there any side effects to its prolonged use? I've been on medication for three years and am experiencing hair loss.

DEAR READER: Doxepin is a drug used for anxiety and depression. Although its mechanism of action is unknown, it is safe when used under close medical supervision. The major side effects are: sedation, low blood pressure, dry mouth, constipation, fatigue, weakness, ankle-swelling and rash. Doxepin should be administered cautiously in the presence of alcohol or cimetidine (a medicine for peptic ulcers), both of which can increase the effects of the drug. The manufacturer does not list hair loss as a complication of doxepin therapy.

Costumed sleigh

CLARKSVILLE, Tenn. (AP) — A man who decorated his light aircraft last year to look like a Christmas sleigh now has draped it with a costume for Halloween — two witches and a spooky, flashing light.

"I really do it for the novelty ... for the kids, because they think anything's possible, and it makes them see that anything you want to do is possible," said Freddie Roberts.

Roberts, a furniture builder in this city 45 miles northwest of Nashville, flies a home-built gyrocopter. He's attached to it two foam "witches" who have green faces and warts.

Exxon plans move to Texas

DALLAS (AP) — Exxon Corp. is coming to Texas, a move gleeful local officials see as confirmation the state's economy is recovering from an energy-induced depression.

"This is kind of the exclamation point" to a recent magazine article identifying the Dallas-Fort Worth area as the nation's top business location, said Paul Whitman, executive vice president of Henry S. Miller-Grubb & Ellis, a Dallas real estate firm that helped arrange the move.

Exxon said Thursday it will move its 300 management and non-management headquarters employees to Las Colinas, a giant development in the suburb of Irving, about 15 miles northwest of downtown Dallas and adjacent to the Dallas-Fort Worth International Airport.

Beginning next fall, they will operate from seven floors of an office tower in Las Colinas before moving to a campus-style headquarters on a 132-acre site.

"We carefully considered a large number of locations over the past several years," Exxon Chairman Lawrence G. Rawl

said. "We concluded that, on balance, the Dallas area offered the best combination of factors from the standpoint of our employees' personal and professional lives and from an overall business standpoint."

Exxon received no special concessions to come to Texas, Whitman said.

"Exxon felt that it was very important to judge all the potential cities on their own merits, and in that regard no tax incentives were asked for from any cities," Whitman said.

But the availability of cheap real estate — especially compared to Exxon's current rented home in midtown Manhattan, plus the absence of corporate or personal income taxes, were cited by others as inducement enough.

Rawl said the company took into account "employee living costs and, commuting arrangements, accessibility to both domestic and international air travel, supporting business infrastructure, the overall business climate and the cost of doing business."

Exxon is the nation's third largest industrial company and the world's number one energy company with sales of \$87.5 billion last year.

The announcement caught most local leaders by surprise, although rumors had been swirling for some time that a Fortune 500 company was looking for a new home in the Dallas area.

"We're tickled pink," said Mike Murphy, a spokesman for the Texas Department of Commerce. "This confirms what we've been trying to say to the rest of the world for some time: that Texas is on the rise again."

The state's economy has been

battered since the mid-80s when the price of oil dropped to almost \$10 a barrel, scuttling a real estate expansion fueled by expectations of \$50-a-barrel oil.

Ray Perryman, director of the Baylor University Forecasting Service, said the move would add about \$49.7 million a year to the region's economy and about 350 jobs above the actual Exxon contingent.

But Perryman and others agreed the symbolism involved is as important as the economic impact.

Anderson has 5th birthday in captivity

BEIRUT, Lebanon (AP) — Terry Anderson spends a fifth birthday as a hostage today, a grim milestone in his captivity. Gunmen seized the 42-year-old Anderson on March 16, 1985, after a game of tennis that had been a brief respite from his reporting on Lebanon's civil war.

He has not held his daughter, born three months after the morning he was kidnapped. He probably does not know that his father and brother died of cancer. The fate of Terry A. Anderson, journalist and non-combatant, chief Middle East correspondent of The Associated Press, now appears to be caught up in a power struggle between Shiite Moslem radicals and moderates. He was kidnapped in Moslem west Beirut by Islamic Jihad, a group loyal to Iran whose name means Islamic Holy War. His abductors demand the release of 15 men imprisoned in Kuwait for bombing the U.S. and French embassies in 1983.

Teachers don't want less health benefits

BROWNSVILLE, Texas (AP) — The Brownsville Independent School District should be prohibited from scrapping a health plan for teachers that paid 80 percent of medical expenses after a \$200 deductible was met, three teachers' organizations say. Dozens of public school teachers rallied at the Cameron County Courthouse Thursday to call attention to a lawsuit filed in 107th state District Court by the Association of Brownsville Educators, the Texas State Teachers Association and the National Education Association. The suit asks for an injunction to prevent the district from reducing its health insurance benefits to teachers.

Islamic Jihad also holds Thomas Sutherland, 57, an American who was acting dean of agriculture at American University of Beirut. Sutherland was kidnapped June 9, 1985. Police say Lebanese authorities have no information on the whereabouts of Anderson or the 15 other Western hostages in Lebanon. Four days ago, Islamic Jihad made its first statement in a year, reviving an old offer to trade Anderson and Sutherland for their comrades jailed in Kuwait. A copy of the statement delivered to a Western news agency in Beirut was accompanied by a photograph of Anderson similar to one released Nov. 4, 1988, after his last birthday.

percent of the first \$10,000 in expenses would be covered, with a deductible of \$500. The \$1 million lifetime limit remained in effect, but other benefits and coverage were cut, the lawsuit states. On a \$10,000 claim, a teacher's expense "has risen from a \$1,200 out-of-pocket cost to \$4,500 out of pocket, so we're looking at over a \$3,000 jump in what the employees will have to pay," said Raye Lokey, TSTA representative from the organization's Harlingen office. The lawsuit was the only option left for BISD teachers, she said.

The statement was seen as a response to a declaration Monday by President Hashemi Rafsanjani of Iran that he would use its influence to free the hostages if the United States released Iranian assets worth up to \$12 billion that have been frozen since 1979. Kuwait has refused to free the prisoners, but two members of the group were released in February after completing five-year sentences. The United States has said it will not negotiate with terrorists. Anderson and Sutherland are among eight American hostages, most believed held by pro-Iranians.

Plans for the city of Chicago were laid out in 1830.

Change back to standard time due

WASHINGTON (AP) — The International Association of Fire Chiefs is trying to make the American ritual of resetting the clocks into an annual lifesaving event.

The occasion is the switch from daylight to standard time, which occurs officially at 2 a.m. Sunday.

For the record, turn the clock back one hour.

For all but a few Americans this is an event they cannot ignore without the risk of being an hour early for everything until next spring.

The fire chiefs are promoting it as an occasion to make sure they are safe as well as on time by putting a new battery in smoke detectors.

"Change your clock, change your battery," is the simple message.

While 80 percent of the homes in America have smoke detectors, as many as half don't work because the batteries are either old or missing. A lack of the warning that smoke detectors can give is a major factor in fire deaths and injuries, fire chiefs say.

While people are concerned about fires and will buy and install smoke detectors, it's easy to forget about them, the chiefs warn. And the batteries will die eventually, leaving the home unprotected.

Checking and replacing batteries is also a good idea in states where the clocks don't have to be changed. Those few, which didn't change to daylight time in the spring, include Arizona, Hawaii, parts of Indiana, Puerto Rico, the Virgin Islands and American Samoa.
