AUSTIN — Senate hearings on a multi-hundred million dollar tax bill are under way, and where they stop nobody knows. Lt. Gov. Ben Barnes indicated they may continue for a week or two.

Key argument as hearings opened centered on whether the state should have a corporation income tax.

Texas economy will be slowed down by the corporate income levy, argued Tom Sealy of Midland, representing the new Texas Association of Taxpayers, at hearings before the State Affairs Committee.

Corporate profit tax, countered AFL-CIO President H. S. (Hank) Brown, will meet revenue needs and "create balance between corporate and consum-

er taxes." Sealy backed the House-passed increase of sales tax from 3.25 per cent to four per cent, but said his group needs more time to formulate a complete tax plan.

Brown favored a six per cent corporation profits tax, which he said would raise \$600 million over the next two years.

Business, said Sealy, already pays 34 per cent of the state sales tax.

Consumers, and non-business interests, said Brown, pay 62 per cent of all state taxes, while business pays 31.7 per cent in direct levies, including its share of the sales tax.

Maximum tax bill, said Sen. A. M. Aikin Jr. of Paris, based on the Senate's Finance Committee budget proposals, would be \$643 million for the coming biennium.

Lieutenant Governor Barnes said he hopes to have the tax bill on the Senate floor for debate by April 12.

House of Representatives, said Appropriations Committee Chairman Rep. W. S. Heatly of Paducah, will have the budget bill ready for debate by Easter.

WELFARE CUTS ORDERED — True to advance warnings, Welfare Board ordered a cut in Aid to Families with Dependent Children effective May 1.

Average grant of \$118 a month will be reduced to approximately \$80, about one-third of current payments. Cutback also will eliminate 4,500 families from AFDC rolls.

Gov. Preston Smith expressed regrets, but said he has no legal authority to alter the cut, since the state has reached the \$90 million year ceiling for welfare outlays.

Smith gave his endorsement to the constitutional amendment (Amendment 3) to be voted on May 18 which will raise the ceiling.

APPOINTMENTS — Governor Smith designated Joe K. Butler of Houston chairman of Texas Board of Mental Health and Mental Retardation and Robert W. Baker of Houston to fill the unexpired term of Manuel C. DeBusk of Dallas on the Coordinating Board, Texas College and University System.

He named Dr. Leonides Gonzales Cigarroa of Laredo, Dr. Olin Burr Gober of Temple, Dr. Walter Allen Brooks of Quanah and O. J. Baker of Prairie View to MH-MR Board.

Leon Jackson Coker Jr. of Texarkana and Thomas Brazelton Stealy of Paris were reappointed to Board of Regents of East Texas State University, and E. G. Pharr of Lubbock was placed on E.T.S.U. Board.

Tom Foster of Center was appointed to Fleet Admiral Chester W. Nimitz Memorial Naval Museum Commission.

Dr. Edward B. Evans, Prairie View, was designated honorary consul of the Republic of Senegal for Texas.

Smith chose for Texas Surplus Property Agency Bill Bitter of Centerville, Grady J. Hester of Terrell, Dr. William J. Hamm of San Antonio, Garland F. Ferguson of Gladewater, Jess M. Irwin Jr. of Austin, Dr. Thomas Spencer of Pasadena, Cyril O. Lanye of Austin, Ed F. Riedel of Austin and Clarence A. Roberson of Fort Worth.

Ret. Brig. Gen. James U. Cross is the new Executive Director of the Texas Parks and

Wildlife Department. **COURTS SPEAK** — State Supreme Court upheld an injunction against a Coleman businessman who sold liquor and food in the same building. Texas attorney general's office is studying the case to determine how far-reaching it is.

High Court rejected a Bryan discount store's appeal to stop district judge from ordering it closed for failing to observe Sunday blue laws.

Court of Criminal Appeals held in a San Patricio County case that inmates serving life sentences are eligible for parole after 15 years if sentenced before the 1967 change of law. Same court, reversing its own ruling, knocked out murder convictions of two men for a Weslaco knife slaying.

AG OPINIONS — A special district judge elected during one term of court who continues to serve without objection during the next term without being re-elected by members of the Bar should be paid for all his services, Atty. Gen. Crawford C. Martin has held.

In other recent opinions, Martin concluded that: Bill to allow counties to collect either a county registration fee of \$5 per vehicle or personal property taxes on the vehicle is unconstitutional.

State Board of Registration for Professional Engineers does not have authority to make and enforce a rule requiring every applicant for a professional engineer's license to take a written examination.

Bill authorizing state-supported colleges and universities to close a street or alley running through the campus would be valid and a constitutional law.

A barber school teacher may be employed in more than one school.

Commissioners Court has authority to sell unmatured U. S. government bonds belonging to the permanent school fund of the county for their present market value if the value is now in excess of the price paid for the bonds yet less than par value.

CRIME FUNDS RECEIVED — Texas has received an additional \$10.78 million for funding crime fighting projects in the state during fiscal 1971.

New award was made on approval of the 1971 Criminal Justice Plan for Texas prepared by the staff of the governor's office. It brings to \$18.393 million the total block action grant for crime control projects for the current fiscal year.

Texas' plan sets out a five-year program for upgrading criminal justice with 12 broad programs subdivided into 62 categories. Funds are administered by the governor with advice of a 22-member Criminal Justice Council.

INSURANCE PAYBACK ORDERED — Attorney General Martin has directed 105 insurance companies to pay back \$2 million in premiums to state political subdivisions for property damage liability coverage.

Martin advised the companies they issued policies in violation of the Texas constitution. Under the tort claims act, Martin noted, local governmental units are liable only for personal injury liability in connection with motor vehicle accidents and not property damage.

Attorney general said he intends to file suit within 10 days if premiums are not returned to the local governmental units. Course of action was determined before Martin was hospitalized with a heart attack.

DEATH TOLL RELEASED — Department of Public Safety said 3,560 Texans died on streets and highways in 1970, nine more than for 1969.

In addition to the death toll, there were 223,000 injuries last year, about the same as in 1969. Economic loss from traffic mishaps was \$1,042,200, compared with \$955,300 in 1969.

DPS noted there were many more miles traveled in 1970 than in the previous year.

GOVERNOR SMITH CONCERNED ABOUT 1970 TRAFFIC DEATHS

AUSTIN — Governor Preston Smith recently expressed deep concern and disappointment over the 1970 Texas traffic toll.

In reviewing Department of Public Safety statistics for the year, he noted: "There were 3560 fatalities in 1970 compared to 3551 in 1969, an increase of nine." The Governor said. Fatal accidents increased from 2913 to 2965 and the estimated economic loss soared past a billion dollars. The official death rate remains approximately at the 1969 level. "The only encouragement in this unbelievable toll of bloodshed and heart-break is the fact that there were nearly 500,000 more drivers in Texas at the end of 1970 than there were in 1969 at the same period. In addition, there were at least a billion more miles of travel than the preceding year."

"I know of no time in Texas history when a more concerted effort has been made in the area of traffic safety than during the past two years. The newspapers, television and radio stations, private citizens, the legislature, government agencies are all making an increasing effort to make an impact on the driving public."

"Our court judges throughout the state know what treatment is needed to curtail violations, particularly drunk driving, and I appeal to every judge to be as forceful and effective in treatment of violators as possible."

"This carnage involving men, women and children somehow has to be stopped," he added. "I sincerely hope that every Tex-

an will heed this plea and "Drive Friendly," he concluded.

District Attorney Ed Paynter Speaks To Thursday Club

CLYDE — District Attorney Ed Paynter of Abilene, spoke to members and guests of the Thursday Club in the home of Mrs. Blanton Scott March 25. The program theme was Welcome To Our World of Law, and Mr. Paynter's subject was Woman's Responsibility and the Law. Mrs. R. O. Cloud, president, welcomed those attending, and Mrs. James Briscoe presented the speaker.

Mr. Paynter discussed the methods of selecting jurors, the importance of weighing evidence without prejudice or emotion and the value of witnesses who are willing to testify in court. He suggested that Federated Club Women study the Texas Penal Code, and support a move to delay revision of the Code. He gave comprehensive answers to questions from the floor. His talk was very well received.

Business was dispensed with except for a summary of Mesquite District Convention proceedings by Mrs. John Berry who represented the Club. Approximately 190 persons, including guests, attend the meeting in Colorado City on March 24-25. Mrs. Berry gave her report on the Shell Oil Co. Environmental Responsibility contest that runs for this biennium, and the President's report for Mrs. Cloud who was unable to attend. Mrs. Berry voiced the invocation at the Thursday luncheon.

During the In Memoriam service, Mrs. Dan South was remembered.

Notice To Wheat Producers in County

BAIRD — J. C. Earp Jr., Executive Director of Callahan County ASCS, urges all farmers who have signed up in the wheat or feed grain program to come to the office and certify their wheat acreage as soon as possible. They will need to certify their acreage of oats and barley also.

Earp points out that all persons with a wheat allotment and those substituting wheat for feed grain will need to certify before May 1. Wheat producers with an allotment who did not plant must certify to "zero" acres.

The name of Mrs. Paul Shanks was included on the Golden Book Roll for outstanding service while president of the Thursday Club.

Mrs. Berry brought back from the Convention several awards for the Club: a second place certificate for Consumer Affairs; a certificate for 100 per cent subscription to the Texas Clubwoman; one second place and two first place certificates and a Jones County stone pendant for poetry written by Mrs. Harrell Cheves; and a second place certificate for the Yearbook, prepared by Mmes. Ben Wilson, E. A. Connel, James Briscoe and R. O. Cloud.

Delicious refreshments of cake and coffee were served by Mrs. Scott and Miss Ann Grace Scott to Mr. Paynter, guests Mmes. J. E. Burdick, Frank Bailey,

Sybil Dickey, Bob Smashey, M. M. Tabor, Ashby White and Oscar Wise, and members, Miss Aida Nordyke, Mmes. James Berry, John Berry, Briscoe, Cheves, Cloud, Connel, W. C. Holley, Bailey Johnson, Von Ray McClure, Benton Pruet, Blanton Scott, Joe South, Douglas Swanzy and Wilson.

This is a very worthwhile project and one that will be of service to many young people.

Lisa Carrico Honored On 7th Birthday

As It Looks From Here

OMAR BURLESON, M. C.
WASHINGTON — For two centuries we have assumed that the issue of "taxation without representation" was settled when American colonists broke free from British rule to establish the United States of America. In our republic is was decreed taxes would always be controlled by the elected representatives of the people.

how a serious gap could develop between theory and practice in assuring taxpayers of this protection. Local, State and Federal Governments, along with their budgets, have grown and a system has developed to diminish control over expenditures. Local governments find much of their budget dictated by its participation in Federal-aid programs. At the Federal level, where so many strings of responsibilities gather, Congress

bows to a host of recurring spending requirements, all built in by long-range commitments. In the budget for the coming Fiscal Year, there is this type of spending amounting to close to \$100 Billion over which there is really no discretion.

"Taxation Without Representation" in colonial times was a battle cry against a monarch across the seas. As we view our current tax bills, of which we are all soon to be painfully reminded, we can direct complaints closer to home. Over the years, we have allowed to develop an abdication of authority by creating ungovernable demands on the public purse.

It is perfectly well to meet a portion of our local needs by voting bonds to pay for them. It is a capital investment to improve our community facilities serving all people alike. This becomes a matter of collective community judgment.

Likewise, it is a matter of collective judgment to contribute to efforts to promote our personal and collective interests. An example is farmers and ranchers spending their own money to promote their products. We have a program which by vote, cotton farmers permit a collection of \$1.00 per bale to develop new uses for cotton. On April 19-30, goat raisers will decide if they want 1½ cents deduction per pound for the promotion of the use of mohair. Sheep raisers will decide on June 7-18 whether they are for or against 1½ cents deduction per pound for wool and 7½ cents per hundredweight on lamb in order to continue deductions to promote the use of this natural fiber and to promote the sale of lamb in the market place.

This is self-help and the idea of doing something from themselves.

The DuPont Company and other big synthetic manufacturers have been spending millions for 20 to 30 years in developing man-made fibers in competition with natural fibers and have taken away a goodly part of the market.

The sheep and goat industry is a highly important part of the agricultural economy of Texas. It is an amazing statistic that 97 percent of all the goats in the United States are raised in Texas and about 50 percent of the goats in the world are in our State. The sheep industry and its tremendous importance to Texas is in need of promotion and unless the raisers are willing to take the initiative it is not likely anyone else will. This is true both in the uses of wool, as well as lamb for the table.

From all indications there is a great potential for the use of lamb in the markets of cities which have not been exploited to the extent necessary to keep a healthy sheep and goat industry.

Our sheep and goat people can have an effective promotion program which they finance themselves. In a way it is a self-imposed tax but it also buys good representation in commerce for the sale of their products in which they depend for a livelihood.

TEL Class Holds Social In Burns Home

CLYDE — The T.E.L. Class of the First Baptist Church met in the home of Mrs. Artie Burns on March 30, with Evalde Dixon as co-hostess. Mrs. Jewell Swanzy was in charge of the meeting and Cora Estes led in prayer. Annabelle Tabor brought the devotional "The Art of Growing Older," from the 71st Psalm.

Sandwiches, cake, cookies and punch were served to Anna Belle Tabor, Lillian Fewell, Maud Hannaford, Irene Hansen, Dolle Norwood, Alda Nurdyke, Cora Estes, Betty Walker, Kate Brown, Jewell Swanzy and the hostesses.

Tops Club Elects New Officers

CLYDE — Teresa Holmes was in charge of the installation of the new P. M. TOPS officers. She gave a very inspiring installation, giving the duties of each office.

Jeanne Burfield was crowned Queen of the Week. Lotta Pounds will be in the homes of Barbara Worcester and Pannye Mae Miller.

Bea Reynolds was winner of the Piggy Bank, having lost for six consecutive weeks. The members enjoyed a salad supper.

BAIRD — We received a note from Mrs. M. L. Stubblefield this week and she reports that she really enjoys her Callahan County Star. It keeps her up to date on her friends, the people who come and go, and the people who move in and out of town, the happenings of the church and school and in general, what goes on in town.

The human heart rests about eight-tenths of a second between each contraction.

60-Day Restriction Ordered On Movement of Swine in Texas

COLLEGE STATION — The Texas Animal Health Commission has ordered a 60-day restriction on the movement of swine in Texas, effective March 29 to control hog cholera.

The movement of all feeder and breeder swine within the state will be allowed only by permits issued after inspection of the herd from which they originate.

Hogs for slaughter can move to a packing house or to a public market without inspection and without written permits, according to Woodrow B. Bailey, extension livestock and meats specialist.

He cautioned producers that hogs leaving the farm without a permit must be headed for slaughter. Once at the market they can't be legally taken home or sold as feeders. Offenders are subject to fines, according to Bailey.

Bailey also said that any special or feeder sales must be cleared with authorities in the animal health commission. Written permission can be granted with certain requirements, including on the farm inspection.

Hogs going to shows must be inspected on the farm, earmarked or tagged, and accompanied by a written permit.

Bailey added that hogs can

be moved one time with no diversion enroute from one farm to another if they are inspected on the farm and moved under permit.

The USDA announced March 24 that producers may no longer remove apparently healthy animals from their swine herds infected by or exposed to hog cholera.

Officials of the USDA Animal Health Division say that all animals exposed from infected or exposed herds must be destroyed by burial, rendering, or special processing. Herd owners are paid state and federal indemnities to help compensate for losses.

Under the old salvage procedure, all animals from infected or exposed herds were examined by animal health officials. Those showing no signs of hog cholera could be sent out for immediate slaughter.

With salvage there was no danger to human health if traces of hog cholera virus showed up in consumable park products. However, there was the risk of spreading the infection to susceptible hogs.

The 60-day Texas restriction and the discontinuing of the salvage procedure are designed to help in the complete eradication of hog cholera by December 1972 target date.

WHY INSTRUMENTAL MUSIC IN CHRISTIAN WORSHIP IS WRONG

Christ told His apostles to teach Christians to observe "all things whatsoever I have commanded you." (Matt. 28:19) The apostles gave no teaching for having instrumental music in worship, therefore it is not the command of Christ. Is it right to teach and practice something that Christ has not commanded?

Since Christ did not command it, those who use it do so by the authority of man and not by the authority of God. Jesus said, "But in vain do they worship me, teaching for doctrines the commandments of men." (Matt. 15:9)

Christ told His apostles that the Holy Spirit "will guide you into all truth." (John 16:13) But, since the Holy Spirit did not guide them to include instrumental music in the worship of God, it is not a part of the truth. If it is not according to truth, can any Christian conscientiously engage in it?

Paul the apostle said the scriptures furnishes us completely unto all good works (2 Tim. 3:16,17). They do not furnish us with authority on instrumental music in worship, so can using such in worship be "good works"?

Paul tells us "faith cometh by hearing and hearing by the word of God." (Rom. 10:17) The word of God does not teach men to use instrumental music in worshipping God in the Christian age, therefore man cannot so worship in faith. And, Paul says that "Whatsoever is not of faith is sin." (Rom. 14:23)

These are just a few of the many reasons why instrumental music in Christian worship is wrong. Why does man persist in that which is without divine authority before God?
