

Work With the C-C For A Better Burkburnett

NUMBER 45

By Heavy Rains ay, June 6th Monday Morning

Wheat harvest is again in full swing after a heavy rain Monday morning. Early last week rains stopped combines until Saturday and Sunday when the high and sandy land dried out enough to support the heavy machines. The Monday rain was not wide spread enough to stop combines any longer than Tuesday when Oklahoma fields were dry enough for entering. By Wednesday morning many farms around Burkburnett had a number of combines at work. Today, most every field that is ripe enough is fairly dry. Some of the low places are still boggy. To date 110,000 bushels of wheat have been brought into three Burkburnett elevators. If no more rain falls by another week most of the grain in this area will be harvested. Some late grain will not be ready to harvest for another two weeks. So far all wheat coming in

soil, taking it from the air. When the Vetch is cut, the nitrogen still remains in the ground in the form of monogules formed on roots. About \$50 worth of seed per acre may be gathered. A stop at the Howard Henderson farm revealed a sight that was thought impossible before he started conservation practices. On a hillside a beautiful field of alfalfa was almost ready to cut the second time this year. Planting soil builders and adding 250 pounds of phosphate per acre brought the land up to its present productivity. Many miles of terraces have been built in the past two years. The program, which was to cover a five year period in this district, is now 76 per cent complete. Twelve farms are cooperating under the Wilbarger-Wichita Soil Conservation setup. Farms that were once nonproductive are now being built up to high yields per acre.

Every farm visited brought new evidence of the bencht of the program. Some 12 farms of approximately 6,000 acres are in this group. These who missed the tour would do well to visit any of these farms and see just what is being done.

Britton Motors Has Classy Parts Counter

Tom Britton Motors has completed one of the most beautiful parts counters to be found anywhere. It is made of glass brick with fluorescent lights showing through from underneath. The parts department was expanded to take in a room formerly used for an office.

Mr. Britton states their parts department is now complete to take care of any model Ford car or truck. Other inside painting has made the motor company building very attractive.

Don Lohoefener and James Thomas arrived last Wednesday the ceremony and the plot. Any-Lohoefener and Carol. Both boys one wishing a picture contact the are employed in Poplar Bluff,

OUR FAMILY LIFE

The National Council on Family Life, suggests community co-operation along certain lines if we wish to build better American homes. Adequate housing makes for a safer, healthier and more wholesome family life. Home management is essential so that families can get the most from their incomes. Education for better family living for young people, the free service for counsel, promotion of medical service, are other factors. Recreation, promotion of community organizations for social welfare service, a family court for the presentation of legal problems, would all help.

An ideal community is where factory, home, school, shops and parks are so devised that there is time for leisure and the advancement of public health. There s no large BALANCED RATION city or small town in this wide land, where a program for improved family life, is not needed. The family is the foundation upon which a country rests, and to keep it stolid and safe needs painstaking effort, research into family problems, wider understandng and deeper personal discussion between children and parents. There are many ways to hold families together and to neglect these ways is to destroy our nation's constitution. The responsibility rests upon every one of us.

PURE WATER

As vacation time approaches, days beckon families to week-end drives through the country, one looks forward to the jaunts with pleasure and thinks little of the dangers involved. Articles regarding traffic accidents serve as warnings to motorists, but we neglect to speak enough of the polluted waters that are also a menace to the traveler. Who

loyalty IN THE PLAY ROOM

Princess Dolly reigns supreme in her cotton-white royal robes. Yes, and it's Texas cotton—that Queen of textiles—grown and ginned in Texas, spun and fashioned in humming Texas mills.

Texas is proud of its growing textile and garment industries—industries that are built on the use of natural resources. Texas is proud, too, of its natural gas industry—another example of the way natural resources can be given value by being put to use.

Cotton in the fields...and natural gas in the ground...would be of little value to anyone unless they could be gathered, processed and made available for use for the benefit of mankind. This is *practical conservation*, for it stimulates industrial development, creates jobs and benefits all the families of Texas.

Quarterhorse Show Raymond Hollingsworth of Amaillo, secretary, and Bob Hooper

A handsome saddle will go to the grand champion quarter for the grand champion stallion horse in the new performance class at the meeting of the American Quarter Horse Association in connection with the Texas Cowboy Reunion here July 2, 3, and 5, Roy Arlege, chairman, said this week. Other new prizes will also be offered.

The saddle will be presented by the American Quarter Horse Association. Two performance classes are being added to the quarter horse show this year for the first time when those entered in those classes will perform under saddle. Only the finals, with four animals competing, is student manager in the student will be shown in the arena when grand champion and reserve champion will be named. This Delta Pi. will probably be held on July 5, Mr. Arledge said. The same judges who judge the cutting horse contest will decide upon the winners in this new contest.

Q. How much water do laying hens need?

A. Laying hens should have about a quart of water for each pound of feed consumed. This is about six to tractive with their beautiful Since the eggs a hen lays contain seven gallons per 100 birds per day. about 65% water, it is important that sufficient water be given to laying hens. During the winter months be sure the water given your birds is not icy, as they will not drink sufficient quantities of icy water to keep

> Q. What is the best way to remove horns from two-year old heifers?

A. Actually it is better to dehorn dairy cattle when they are very young. At the Ralston Purina Company Research Farm a dehorning paste is applied to the horn buttons es, Mary Graves, Ann Graves, The action of the paste kills the horn, leaving the head smooth, and

With mature animals, the only successful way to dehorn is to have a qualified person cut the horns off with a set of dehorning shears. This will cause bleeding, and a heavy vaseline type of salve should be ap-plied immediately after the horns are removed. We suggest that a qualified veterinarian be called in to do this dehorning.

Q. Is it more profitable to market hogs at 225 pounds than at 300 or more pounds?

A. Yes, high grain prices are forcing pork producers to sell at lighter weights than usual. Iowa State College has released figures showing that for a farmer to "break even" on hogs under present conditions a 200 lb. hog would have to sell at \$21.75 per hundred, a 300 lb. hog at \$22.90 per hundred, and a 400 lb. hog at \$24.20 per hundred. Moreover, hogs weighing less than 225 lbs there is little waste in excessively fat cuts, the meat cures out evenly, and a more palatable product is obtained.

Send your questions about livestock or poultry problems to FARM FACTS, 835 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, a semice of the newsonet.

Future Homemakers Entertain Seniors

The Burkburnett Chapter of Future Homemakers of America vere hostesses to the Senior lass recently for a lovely recep-

The class colors, green and white were used in the decorations of "mock diplomas", graduation caps and gifts.

The table laid in lace was centered with an attractive arrangement of white carnations and daisies, green and white streamers from the center were lettered in gold "Senior Class 1948" and white tapers burned in crystal holders.

Plate favors were miniature square-top caps with white tassels lettered "Seniors 1948." Betty Duke and Gwenda Stev

enson presented piano selections during the evening.

Future Homemakers acting as Veta Lasseter hostesses were: Frankie Kennedy, Georgia Ann Hrazdil, Patricia Gee, Billie Ainsworth, Ida Mae Wright, Peggy Rinefeldt, Joy Bauch, Lorene Schroeder, and Mary Jo Haley

Forty seniors and their sponsors, Miss Ella Billingslea and Miss Virginia Allen registered during the evening.

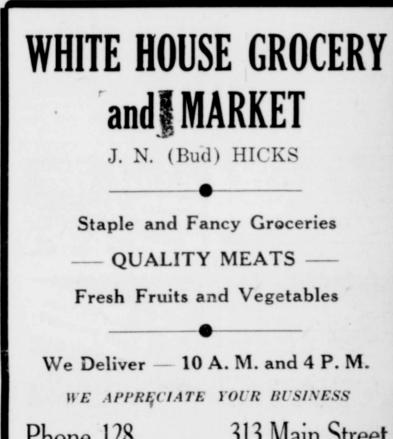

Mr. and Mrs. Allen Riddles are the proud parents of a new girl born Sunday night in a Wichita Falls hospital.

Mrs. B. J. Haggard left 'Tuesday for her home in Torrance, California, after visiting in the home of her sister, Mrs. H. M. Day.

Battle of Coral Sea Termed First Big Defeat for Japan

In the battle of that island-studd d ocean known as the Coral sea, which is near the Solomon islands and about 1,000 miles northeast of Australia, America's first real victory of the war with Japan was scored. The action occurred on May 4, 1942, and called for deeds of valor as thrilling as any in all American history.

The Coral sea battle was the first great naval defeat ever dealt the imperial Japanese fleets. And vet this battle was fought entirely in the air, by the planes of opposing aircraft carriers. The ships engaged in this battle never got sight of each other. They slugged it out without firing a single gun at another ship-the first engagement of its kind in history. In this first great victory for the U.S. in this global war the Japs lost more than 15 ships sunk and at least 20 others severely damaged. The action perhaps saved Australia from invasion. However, America paid a high price for her victory in the sultry Coral sea. In this engagement the aircraft carrier, Lexington, famed ship that laid the foundation of our modern navy's aircraft carrier operations, went to the bottom. This happened on May 7.

THE BURKBURNETT STAR, THURSDAY, JUNE 3, 1948

Instead of sewing shoulder pads into dresses, attach them with small snaps. Sew top half of snap to shoulder seams, lower half on pads. Snap out at laundry or cleaning time: one pair will do for several dresses and blouses, too. ---

An ordinary alarm clock may be used to indicate when cakes should come out of the oven, and time other household tasks.

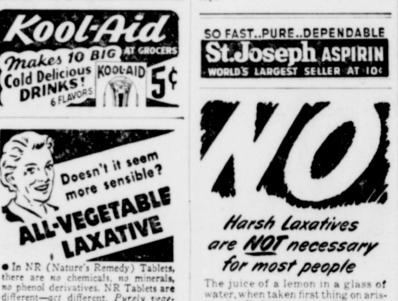

A little butter or cooking oil added to the water when cooking sweet potatoes will eliminate the "ring around the pan".

When unsetting the table, stack dishes orderly in place to be washed so that they will not have to be moved or restacked before washing. ----

Always remove colored clothes from washline as soon as they are dry: sunlight, a natural bleach, is hard on colors. Colorless nail polish makes a

good substitute for glue. Custom Work on Farms

Two reasons account, in large measure, for the beavy comand for custom work with farm machinery during the past few years. In the first place, the amount of machinery available on most farms simply is not sufficient to meet the demand resulting from the shortages of labor and increased purchasing power in the hands of farmers. Secondly, numerous farms are now and always have been too small to make effective and economical utilization of many types of farm equipment. The only way the operator of a small farm can have economical access to certain types of machinery is either to hire a custom operator to do the work for him, or, If he elects to own the machines himself, to do sufficient custom work for others to provide for economical utilization of his machin-

By LOUIE D. NEWTON, D. D. SCRPPTURE: Daniel 3:6. DEVOTIONAL READING: Acts 5:27-32.

Men Who Dared To Stand For God Lesson for June 6, 1948

FIERY furnace, and a lion's A den. These are the tests to which Sunday's lesson will put our hero about whom we studied last

Sunday, this young man Daniel. Three friends, Shadrack, Meshach and Abednego, will ungerdo the test of the fiery furnace, having been convinced by Daniel's example that God is trustworthy. And Daniel will spend the night in the den of lions.

You will need to Dr. Newton read chapters three through six to get the full story.

. . . DANIEL IN THE DEN OF LIONS THE sixth chapter must be read to have an adequate background for this study. Daniel had been chosen as the first of three presidents to rule over 120 princes who should govern the kingdom. The other two presidents and the princes could find no fault in this Hebrew. save that he believed and observed the law of his God. So, they conspired against him by persuading the king to issue a decree that no person in the kingdom was to make a petition to any God or man for 30 days, save to the king, on the penalty of being cast into the den of lions. This decree was issued by Darius, and Daniel's enemies reported to Darius that Daniel was opening his window three times a day, praying to his God. Darius was greatly troubled, but had to stand by his decree, and Daniel was cast into the den of lions. Darius spent a sleepless night, and hurried

to the den at dawn to know about Daniel. Daniel replied, "O king, live for ever. My God hath sent his angel, and hath shut the lions' mouths, that they have not hurt me.' . . .

DARIUS REWARDS DANIEL

CONVINCED that Daniel's con-victions had been miraculously rewarded by God, Darius ordered the other two presidents and the princes, together with their wives and children, thrown into the lions' dens. They were all destroyed by the lions.

Then Darius issued a decree to all the nations and people of all lan-

Build It From A Pattern

The pattern offered below takes all the mystery out of building the table to any size needed. While the pattern suggests making it six feet, it provides complete, easy to follow. directions for making it longer, if desired. All materials used in building this table are stock size and readily obtainable at lumber yards everywhere.

Building the table or other pieces of lawn furniture provides an economical solution to your household equipment problems. In many cases two articles can be made for less than one costs ready made. Besides saving money, woodworking pro-vides hours of complete relaxation. Once you've experienced the deep down satisfaction of seeing lumber turn into a useful picnic table or lawn chair, you will undoubtedly be-come one of a huge army of "Build It yourself" enthusiasts.

That in every dominion of my kingdom men tremble and fear before the God of Daniel: for he is the living God, and stedfast forever, and his kingdom that which shall not be destroyed, and A MCKESSON & ROBBINS PRODUCT his dominion shall be even unto the

end." So Daniel prospered in the reign of Darius and of Cyrus, the Persian. . . .

COURAGE TO PUT GOD FIRST

OOK now at the other test of _ faith-that of the three Hebrew children, Shadrack, Meshach and Abednego. Nebuchadnezzar, king of Babylon, had made a golden image, 90 feet high and nine feet wide, and set it up in the plain of Dura. On a certain day, when he was going to establish his state religion, he ordered every subject to fall down and worship this image.

But Shadrack, Meshach and Abednego refused to worship the image. Nebuchadnezzar was furious when he heard of their refusal. He summoned them into his presence, and warned them of their fate if they further refused to worship his gods. They answered him frankly that they would not bow down to the image. He ordered them thrown into the fiery furnace.

They decided that death was more honorable than apostasy. The men who cast them into the furnace fell dead! . . .

UNSEARED AND UNSINGED!

B UT THE three Hebrew children walked in the flames, unseared and unsinged! The king was astounded. The people were amazed. They had witnessed what the God of all the earth can and will do. Then went forth the decree.

"There is no other God that can deliver after this sort." Thus we have the golden text for Sunday's lesson:

"Be it known unto thee, O king, that we will not serve thy gods, nor worship the golden image which thou hast set up."

And what happened in the long ago when man dared to stand up and trust in God will happen today and every day.

that you the heating the water to much. A temperature of 130 to 140 degrees is hot enough for domestic hot water. When water is heated more than that, sediment is stirred up that is carried along in the water supply. You could prevent overheating by installing an automatic controll. Also, your water supply may contain a great deal of sediment, which could be controlled by a water filter.

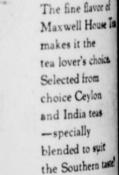

QUESTION: We are planning to put up a frame cottage of five rooms next summer. Regarding cement blocks for foundation, people have cautioned me against buying blocks that are made during the winter. Is there any reason for this?

ANSWER: It is true that cement work should not be allowed to freeze during the process of manufacture or construction. Reputable cement block manufacturers do not allow this to happen, however, even during the winter.

Leemon Smith is were placed baskets of pink glads Junior assistant and Nayland Smith, Sr. Patrol Leader.

Recent Bride Shower Honoree

A coke party and kitchen shower honoring Mrs. Franklin Greer, the former Miss Carolyn Boyd May 29 by Miss Ethel Virginia Allen at her home 119 Ave. C as-sisted by her mother Mrs. J. W.

Allen. Original decorations for the occasion were planned to follow the brides chosen color scheme of pink organdie cloth with unique ruffle trim covered the table upon which the gifts were present-

The table was centered with an arrangement of pink and white larkspurs. Elsewhere in the party suite the hostess had arranged spring flowers in artistic groupings to complete the festive decorations.

Miss Allen introduced Miss Norma Lincoln who presented ics report; Mrs. Cropper installthe group with a violin number, "Because" after which Miss Donna Browning sang "Always". Miss Vivian Suttles accompanied Miss- of Study. The following officers as Lincoln and Browning and also gave other selections. Prior to refreshments of Coke,

tiny-top hats filled with mints, Mrs. Greer was showered with tary; Mrs. J. M. Patterson, Treasan assortment of useful kitchen urer. articles.

were: Mesdames J. P. Greer, S. tion. Mrs. Cropper was presented L. Johnson, Tom Boyd, Hazel with a Gift from the club by Willis, John Shields, and Misses Mrs. Danforth, in appreciation of Beth Brookshier, Norma Lincoln, her work for the past two years. Donna Browning, Billie Jean Seventeen members and one Shields, Jessie Ruth Preston, visitor, Mother Lohoefener were Verna Maney.

Mrs. Franklin Greer Named Honoree For Shower Saturday

Women's Interests Telephone 52 Clubs - Chur

Miss Carolyn Rose Boyd, recent bride of Franklin Green was honored Saturday evening with a beautiful miscellaneous shower on the spacious lawn at the Ray Mills home.

The guests were greeted by Mrs. Ray Mills, the bride, Mrs. Tom Boyd, mother of the bride, Mrs. J. P. Greer, mother of the groom, Mrs. John Greer, the groom's aunt, and Mrs. S. L. Johnson, sister of the groom.

Mrs. T. Herbert Minga secured names for the bride's book, and presented each guest with a tick et to Love-land.

The honoree's chair was be neath an arch-way of greenery and white daisies. The bride, her mother, and the groom's mother, were presented lovely corsages.

Mrs. Fred Fewin presented clever program, the theme being, "Garden of Love." Ruthie Preston, Christine Suttles, Sue Doug-

las and Nathalie Foster sang the theme song, "Sentimental Jourwas given Saturday morning, Mrs. C. W. Of the Cotton Belt

Faith In the Future

 Some outstanding event has been needed to start the economic upheaval that will bring a new and more prosperous era to the Cotton South. We believe that event took place with the invention of the mechanical picker, the flame weeder, and the resulting promise of mechanization of the cotton industry.

Full mechanization of the cotton industry throughout the Belt is still a long way off. It may not take place in our lifetime. But it is sure to bring with it the development of our Southern Cotton States into a rich industrial empire.

The National Cotton Council is the coordinating force helping the entire cotton industry make the adjustments resulting from mechanization. The Council is helping to dispel the unjustifiable alarm and fear that mechanization means widespread unemployment in the South. It is helping people to better understand that the ultimate outcome of mechanization will be more jobs, greater prosperity, a better way of life than ever before. All that is needed is clear thinking, cooperative action, and faith in the future.

You show your faith in the future of the South when you buy cotton products for your home.

The message above is published by this institution in behalf of the cotton industry of surrounding counties in Texas and Oklahoma.

Mrs. S. I. Hill **Receives** Honor Scout Award

The Thanks Bodge, highest award in Girl Scouting, was presented this week to Mrs. S. I. Hill 5403 Irvington, by the Houston and Harris County Girl Scouts. Presenting the badge to Mrs. Hill, was Mrs. H. O. Johnson, president of the board, who praised Mrs. Hill for her "outstanding leadership and sense of obligation beyond the call of duty."

A resident of Houston for nine years, Mrs. Hill has served as leader of Intermediate Girl Scout Troop 268, a volunteer trainer, national convention delegate, day camp director of District Four, and retiring district chairman. Mrs. Hill, who came to Houston from Burkburnett, Texas, enjoys flying as a hobby, and with her husband owns a small plane. The Hills have helped train Girl Scout members of the Wing Scout troops

The Thanks Badge is awarded only in cases of the most outstanding performances of duty and service. There are about 12 wearers of the badge in the Southwestern area.

Mr. and Mrs. H. L. Malone of Vichita Falls spent Sunday with Mrs. Edna Butler and Blanche.

Carrol Cook of Wichita Falls visited a few days this week with his grandparents, Mr. and

YOUR MONEY BACK If Super-Cushion Tires Don't Give You The Softest Ride You've Ever Had!

YOU RIDE THEN YOU DEC

We mean every word we say - we'll put a set of Super-Cushion tires and tubes on your car. Drive it for a week. Then, if you don't agree they give you a softer ride than any other tires you've ever owned, we'll replace them with your old tires and give your money back!

Super-Cushion is a remark kind of tire. Bigger, softer ... on only 24 pounds of air. superior that we make this trial offer . . . for a very link only due to the great dem Super-Cushions. Don't delay advantage of this unusual on todayl

BO

TEL

JU

GOODFYEAR

HERE'S WHY THIS GREAT NEW TIRE WILL MODERNIZE YOUR CAR!

1. SOFTER RIDEI Super-Cushions run on only 24 pounds of air - give you a softer ride and a wonderful new ease and stability in car handling.

2. ABSORBS SHOCKI Super-Cushions are the first tires ever made that absorb lateral shock satisfactorily. They soak up jolts and vibration. Result: less wear on your car-fewer repair bills.

3. MORE MILEAGE, TOO! Super-Cushions consistently average more mileage than the best standard tires. Because they have a larger contact area with the road, you get better traction -less skid, quicker starts and stops!
