Wheat Harvest 90 Per Cent Over Very Disappointing

"One of the roughest, toughest harvests we've ever seen." That's just about the complete story of wheat harvest in the Burk area as voiced by elevator men, farmers, etc.

Total receipts at three elevators here totaled less than 325,000 bushels up to noon today. That is just about half what the total was last year.

Uncertainty was the thing that made this the "roughest and toughest." Rains kept farmers on edge all the way through. Lack of storage facilities was another factor. Then price began to tumble. Not only day to day, but hour to hour no one could guess what might happen. Elevators were promised storage (small amounts) then when trucks arrived with the grain storage would be cancelled. That made the situation nerve shattering.

Best estimates are that harvest here is about 90 per cent over. Just a few small fields and nooks and corners in fields too wet to cut remain. From an early estimate of 25 to 30 bushels to only 10 or 12 actually gathered is quite a drop. That was the facts as concerned Burk Burnett.

T. Herbert Minga Returned to Burk For Fifth Year

At the Methodist Conference last week in Dallas, Rev. T. Herbert Minga was returned to Burk Burnett as pastor of the First Methodist Church. This is the fifth year Bro. Minga has been assigned to the local church, the first time in the history of the church it has had the same pastor for five years.

Last year the budget for the local church was one of the largest since its organization. Marked progress has been shown in every department under the leadership of Bro. Minga. The church is proud of its pipe organ, a very unusual installation in churches in cities the size of Burk Burnett. Financially, the church is in excellent condition, and membership stands at an all-time high.

At Conference Bro. Minga, a Chaplain in the Marines during World War II, was presented with a leather bound book, Chaplains Who Served from the Methodist Churches. The book contains pictures of all Methodist Chaplains, and other pictures and information concerning their services.

City to Spray Flies, Bugs, Mosquitos With DDT Soon

Several new teams wanted to come into the Soft Ball League, which made reorganization a necessity. Monday night at the C. of C. officers those interested gathered to revamp the schedule and form new by-laws and regulations.

Girls' two teams, will play the first game each Tuesday night.

All games will be 7 innings, unless one team is 10 scores ahead at the end of 5 innings. In that event, the game stops at 5 innings.

WHAT IS TO COME

June 15 to July 31 will probably find a series of strikes in major industries caused by ambitious union demands, representing about 3 million workers. Steel, coal, electrical and automobile industries will probably have work stoppages. Since generally wage boosts are demanded as living costs increase, these strikes are not unusual. This time, living costs are down 3 per cent from last August's peak. The strikes will seriously affect present economic conditions, where there has been a glimmer of leveling-off of higher prices. Consumers have shown sales resistance, there is a decrease in employment right now. And then strikes? The buyer has been saying "no" in the electrical and automobile lines. Yet, steel workers are demanding an annual guaranteed wage, miners ask for equalization of production in mines of varying capacities, steel workers are said to be asking for a 30 cent-an-hour wage increase, electrical workers for \$500 a year increase per worker. If unions press the demands, there will no doubt be strikes and stoppages, if their demands are met what will the charge be to the consumer? Can we stand this, with a falling off now in employment, even though the striker gains. Worker and employer may sink together. The consumer has been trying to keep afloat for a long time now, and he is pretty winded.

A LOSS OF PUBLIC TRUST

Recent publicity about the many newspapermen who have been on the Illinois state payroll, has brought comment and criticism from all quarters. Perhaps this does not happen only in Illinois, perhaps the innocent will suffer with the guilty, but newspapermen everywhere must take a stand to protect the cause of journalism. Whether these newsmen actually earned their state salaries, the criticism leveled at such a practice is that it is a breach of ethics of the profession. Serving the public with editorials and news stories and acting for administrative interests for pay, is serving two masters with prejudice, is the charge. It is damaging to those newsmen who have tried to do their job faithfully and conscientiously.

FEET ON THE GROUND

Shedding of schoolroom manners means shedding of shoes, for the summertime pleasure of many a Burk Burnett lad. In spite of a fancy for sneakers, casuals, moccasins and crepe soles, there has been nothing found to equal bare feet, with most young fry. There is a fond childhood remembrance tucked away in an adult head, of bygone barefoot days. In fact, some of us revert to those barefoot days, in the privacy of our homes. But, with the freedom of a barefoot summer, comes the warning that, as are all good things, there is an element of danger. Upturned nails can result in tetanus infection, so barefoot boy, watch your step.

MAN'S NATURE WITH NATURE

As history and science have long proven, man lives to fight nature, though nature can be most kind to man. In the matter of water, land and wind, we must cope with many pranks Dame Nature can play. Consider the ways of soil in a yard and fields. Winter has changed the position of the fence posts, gave them a slant that resists man's efforts to reset them. Earth can be obstinate. Frost took care of rocks and pebbles that were once hidden beneath the surface. Our lawnmowers clash with nature at work. Nature can take a smooth walk, a concrete driveway and porch and make it a cracked, uneven thing with that slick touch of freeze. Winds have deposited branches, twigs, leaves, seeds, on lawns, in drains, a calling card from nature. Spring rains have watered, soaked, drenched and flooded, to bring forth green and blossom and yet to wash out flower beds, gardens and fields.

We get busy to put nature in her place, to add a touch here, to remove, discard, transplant, transfer, drain, drag, sweep and shovel. Nature is probably watching from the sidelines, chuckling at our energy and just biding her time—with tongue in cheek.

State Fair Plans Big Celebration For July Fourth

A rip-roaring, old-fashioned Fourth of July celebration, featuring a gigantic fireworks exhibition and super thrill show, has been scheduled for the nights of July 2, 3 and 4 at 8 P. M. in the Cotton Bowl at Dallas. R. L. Thornton, president of the State Fair of Texas, has announced.

Both attractions will be making their first appearance in the Southwest.

"The State Fair has planned a truly outstanding Fourth of July program for the people of Texas," Thornton said. "We have engaged one of the nation's outstanding fireworks concerns to stage the spectacle. It will be the largest, most colorful exhibition of its kind ever seen in this section."

The fireworks display will feature scenes typical of the Southwest, including beautiful floral groups, dazzling aerial displays, and cleverly staged comedy and novelty numbers.

Hi Blood Pressure

Hardening of Arteries, Pains in Left Arm and Side

Elmer G. Johnson, President of Harlingen State Bank, Harlingen, Texas, writes on Feb. 20, 1948:

"Please send another bottle of Liquid Garlic, also send a bottle to my sister-in-law, Mrs. Hulda C. Dutton, 45 Atwater Terrace, Springfield, Mass.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here, has taken two bottles and is much better; his blood pressure down about 60 points. Mrs. W. F. Nelson, San Benito, who was in bad shape, is also very much better and her blood pressure down considerable. This garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure or heart trouble."

WHAT IS TO COME

June 15 to July 31 will probably find a series of strikes in major industries caused by ambitious union demands, representing about 3 million workers. Steel, coal, electrical and automobile industries will probably have work stoppages. Since generally wage boosts are demanded as living costs increase, these strikes are not usual. This time, living costs are down 3 per cent from last August's peak. The strikes will seriously affect present economic conditions, where there has been a glimmer of leveling-off of higher prices. Consumers have shown sales resistance, there is a decrease in employment right now. And then strikes? The buyer has been saying "no" in the electrical and automobile lines. Yet, steel workers are demanding an annual guaranteed wage, miners ask for equalization of production in mines of varying capacities, steel workers are said to be asking for a 30 cent-an-hour wage increase, electrical workers for \$500 a year increase per worker. If unions press the demands, there will no doubt be strikes and stoppages, if their demands are met what will the charge be to the consumer? Can we stand this, with a falling off now in employment, even though the striker gains. Worker and employer may sink together. The consumer has been trying to keep afloat for a long time now, and he is pretty winded.

A LOSS OF PUBLIC TRUST

Recent publicity about the many newspapermen who have been on the Illinois state payroll, has brought comment and criticism from all quarters. Perhaps this does not happen only in Illinois, perhaps the innocent will suffer with the guilty, but newspapermen everywhere must take a stand to protect the cause of journalism. Whether these newsmen actually earned their state salaries, the criticism leveled at such a practice is that it is a breach of ethics of the profession. Serving the public with editorials and news stories and acting for administrative interests for pay, is serving two masters with prejudice, is the charge. It is damaging to those newsmen who have tried to do their job faithfully and conscientiously.

FEET ON THE GROUND

Shedding of schoolroom manners means shedding of shoes, for the summertime pleasure of many a Burk Burnett lad. In spite of a fancy for sneakers, casuals, moccasins and crepe soles, there has been nothing found to equal bare feet, with most young fry. There is a fond childhood remembrance tucked away in an adult head, of bygone barefoot days. In fact, some of us revert to those barefoot days, in the privacy of our homes. But, with the freedom of a barefoot summer, comes the warning that, as are all good things, there is an element of danger. Upturned nails can result in tetanus infection, so barefoot boy, watch your step.

MAN'S NATURE WITH NATURE

As history and science have long proven, man lives to fight nature, though nature can be most kind to man. In the matter of water, land and wind, we must cope with many pranks Dame Nature can play. Consider the ways of soil in a yard and fields. Winter has changed the position of the fence posts, gave them a slant that resists man's efforts to reset them. Earth can be obstinate. Frost took care of rocks and pebbles that were once hidden beneath the surface. Our lawnmowers clash with nature at work. Nature can take a smooth walk, a concrete driveway and porch and make it a cracked, uneven thing with that slick touch of freeze. Winds have deposited branches, twigs, leaves, seeds, on lawns, in drains, a calling card from nature. Spring rains have watered, soaked, drenched and flooded, to bring forth green and blossom and yet to wash out flower beds, gardens and fields.

We get busy to put nature in her place, to add a touch here, to remove, discard, transplant, transfer, drain, drag, sweep and shovel. Nature is probably watching from the sidelines, chuckling at our energy and just biding her time—with tongue in cheek.

State Fair Plans Big Celebration For July Fourth

A rip-roaring, old-fashioned Fourth of July celebration, featuring a gigantic fireworks exhibition and super thrill show, has been scheduled for the nights of July 2, 3 and 4 at 8 P. M. in the Cotton Bowl at Dallas, R. L. Thornton, president of the State Fair of Texas, has announced.

Featured attractions will include the celebrated Zucchini sisters, Victoria and Duina, in their world-renowned human cannonball act, and Peejay "Human Meteor" Ringens who will speed a bicycle into a sensational leap for life through space. Both attractions will be making their first appearance in the Southwest.

"The State Fair has planned a truly outstanding Fourth of July program for the people of Texas," Thornton said. "We have engaged one of the nation's outstanding fireworks concerns to stage the spectacle. It will be the largest, most colorful exhibition of its kind ever seen in this section."

The fireworks display will feature scenes typical of the Southwest, including beautiful floral groups, dazzling aerial displays, and cleverly staged comedy and novelty numbers.

Mrs. J. T. Brady is in Milwaukee, Wis., with her daughter, Mrs. R. B. Schmelzer. The Schmelzers have a new daughter, Elizabeth Irene, born Friday, June 3.

"I have some good reports to make on the effectiveness of garlic used. Mr. Turner, Texaco dealer here, has taken two bottles and is much better; his blood pressure down about 60 points. Mrs. W. F. Nelson, San Benito, who was in bad shape, is also very much better and her blood pressure down considerably. This garlic works, and you are doing a fine job of producing it for the benefit of those suffering from high blood pressure or heart trouble." Hundreds of other testimonials of similar nature.

There were nineteen members present.

O. E. S. Holds Annual Installation Service June 2nd

Annual installation of the officers of the Burkburnett Chapter 655 of O. E. S. was held Thursday, June 2, in the Town Hall which had been beautifully decorated for the occasion.

The retiring Worthy Matron and Patron, Mrs. Elsie Crosley and Mr. Henry Ferguson, opened the meeting by requesting the special dispensation to be read; then welcoming those present. The retiring officers were recipients of gifts from their Worthy Matron and Patron. Joan Thomas conducted them from the East at the con-

clusion of a floral Key of Friendship drill and presentation of gifts from their officers.

The key-note of love and pride was prominent in the selection of installing officer, Mrs. Mae Clark from Ashland, Kansas, mother of the Worthy Matron elect, Florence Vaughn, who also chose her sister, Freda Welch from Texhoma, Oklahoma, as her installation organist. Other installing officers were: Garland Fewin, Installing Marshal; Helen Turner, Installing Chaplain; and Mary Cecil, Installing Secretary.

As Mrs. Vaughn was installed Worthy Matron, she was presented a bouquet of American Beauty roses by her daughters, Barbara and June, who conducted their mother to the East.

Others who were given offices: Worthy Patron, B. L. Turner; Assistant Matron, Pauline Evans; Assistant Patron, O. G. Burnett; Secretary, Mabel Johnson; Treasurer, Elsie Crosley; Cond., Ruth McBride; Assistant Cond., Emily Houser; Marshal, Vera Reed; Organist, De Lois Smith; Chaplain, Delma Lee Edwards; Adah, Lois Bean; Ruth, Jo Brookman; Esther,

Opal Boren; Martha, Burnett; Electra, Bessie Warder, Evelyn Hubbard, Hattie, Henry Ferguson.

Special honors were given to the new Worthy Matron by the new officers. Wishing on a floral skit, "Wishing on a tifully attired in their gold dresses and standing in their designated colors," Mrs. Leo Foster, the vocalist of the evening, presented each installing officer with a piece of land, California pottery.

The visit occasioned a picnic lunch last Friday, June 3, at which Mrs. Lena Lawson, practical nurse now residing with Mrs. Long, was also present.

Mrs. Revier is a former nurse who cared for Mrs. Long. Mrs. Long also states that she is preparing for another trip to the hospital, which comes every three months, for a minor operation.

Mrs. W. R. Spivey entertained in her home over the week end her sister and children, Mrs. G. B. Buzby, Diane and James, and Mrs. R. E. Friend of Stamford; Mrs. Wanda Sneed and Ronnie of Sundown, and Donald Busby home on leave from submarine duty in Portsmouth, New Hampshire.

GOD IS NOT THE AUTHOR OF CONFUSION -- 1 Cor. 14:33

That there is confusion in the religious world no responsible, right-thinking person can deny. For example, one man teaches that if you are saved before your fleshly birth you can't be lost thereafter and if you are lost before your fleshly birth you can't be saved thereafter. Still another teaches that all are going to be saved. Yet another teaches none are going to be saved. And the Bible teaches that every responsible person who lives in obedience to the gospel of Christ shall be saved. Can all be right, teaching such conflicting doctrines? Should one man advance all those dogmas you would say he is utterly confused. Does several men teaching them make them any more consistent with truth? God is not the author of confusion (1 Cor. 14:33). Hence, God is not the author of all the Babel of religious voices which we hear.

Why this condition in regard to an understanding of the Bible? Someone will say, "Simply because we can't see it alike." But with our natural eyes we all see the optical chart alike unless we have impaired vision. If we can see this principle in nature, why can't we recognize its existence in the spiritual realm. There is harmony in God's Word just as there is in nature. Paul pleads in 1 Cor. 1:10, "Now I beseech you, brethren, by the name of our Lord Jesus Christ, that ye all speak the same thing, and that there be no divisions among you; but that ye be perfectly joined together in the same mind and in the same judgment." That the religious world at large has ignored the plea of the Spirit as stated by Paul above is evident. Has God, then, required more of man than man is able to do? Certainly not! (To Be Continued).

**Washington
News Letter**

Congressman Ed Gossett

Washington, D. C., June 3 — The recent Supreme Court decision in the Terminello case and the recent untimely death of James Forrestal have brought into sharp focus the whole controversial question of freedom of speech. Terminello was convicted under a Chicago ordinance for creating a disturbance by an allegedly vicious and rabble-rousing speech. The Supreme Court reversed the Illinois Courts and acquitted Mr. Terminello and held that he had a right to say what he wished, even though his speech provoked anger, invited public dispute and created unrest. A number of Justices dissented from this view. It is generally conceded in Washington that Mr. Forrestal's death was largely caused by vicious and unfair attacks upon him, principally by radio commentators. Mr. Earl Godwin, an old and reputable newspaper man of Washington and a radio commentator, said "One reason why James Forrestal ended his life was the pounding of vast cruelty inflicted on him by editors and commentators who had an axe to grind or an exclusive scandal to sell or spout. . . . Also a flood of abusive letters reached him because of his stand on Middle East oil"

Incidentally, Mr. Forrestal was the only member of the President's Cabinet who sought to keep the Administration from rushing to the defense of Israel and from precipitously recognizing the sovereignty of Israel.

A number of bills have been introduced in the Congress seeking to limit writers, commentators, newspapers, and radios, in their unsupported attacks upon individuals and organizations. This whole question of censorship, of freedom of speech and expression, is coming in for serious and controversial debate. Public officials, in particular, have been considered open targets for abuse. Other great injury is done to the public service through unfair and libelous attacks on such officials. However, democracy itself must rest upon freedom of thought and expression. Censorship itself often abuses the rights of individuals in restraining freedom of expression. More than 200 years ago, the famous French philosopher, Voltaire, said to another famous Frenchman, Rousseau, "I wholly disagree with what you have to say, but will defend unto the death your right to say it." Granting the evils and abuses of a free press and a free radio, such evils and abuses are not so great as would be those of irresponsible censorship, or of severe restraints upon freedom of expression. Indignant as we may become because of unfair attacks upon people and issues, most of us will still agree with Mr. Voltaire.

The President on yesterday approved a bill passed by the House and Senate which seeks, through the Commodity Credit Corporation, to supply additional grain storage. A number of us in conference with CCC officials have been frantically seeking more storage for grain now being harvested in our section of Texas. Plans are under way to use government warehouses on abandoned army posts—also to use hundreds of ships idle and anchored in the harbors of the country. There are several hundred of such ships in Texas ports that it is hoped may be used. Unless adequate storage is found, Texas farmers will lose millions of dollars in the price obtained for wheat now being harvested. This year's wheat crop is expected to break all records. One of my Congressmen friends from Kansas reports that his State alone will produce more than 260 million bushels.

**Goods Roads Ass'n.
Suggests Adv. For
More Tourists**

Texans are "sleeping blissfully through an unparalleled opportunity to expand Texas' biggest money crop—a year-around tourist business".

Little has been done to attract tourists to this state, Colonel Ike Ashburn, executive vice-president of the Texas Good Roads Association, said today in a speech prepared for delivery at the Texas Chambers of Commerce Managers Annual Convention.

The speaker observed that a number of corporations have spent considerable sums for institutional advertising, but: "We need a highly selective advertising campaign to secure additional tourists, to divert tourist trade from competitive areas, to increase itineraries and length of stay, and to encourage 'repeater' tourists".

The advertising campaign, Ashburn observed, "should be to seek as vacationers persons who have a contribution to make to Texas and its development".

Other states, such as Arizona, and New Mexico, have spent modest sums for advertising, and have thereby doubled or tripled their tourist income, Ashburn said.

Preaching service at eleven o'clock. The pastor will bring a message on "Soul Winning, and How God Can Use You in Doing It".

Evening services begin with the Young People meeting at 7:15 P. M. J. M. Bryan is the leader.

Preaching service at 8 P. M. After a good song service, the pastor will speak on this subject, "World Conditions Which Make It Necessary That Christ Return Soon". These things will be named and compared with the Word of God, and there we will see that God outlined them for us and gave us the solution to all world and personal problems in the coming of Christ in glory to reign on this earth. Would you like to see Him come soon, or could it be that you are not prepared to meet Him, or too engrossed in worldly things to desire His coming. Come and hear this glorious message.

Watch for the grey bus, and ride it to services.

The pastor has been busy the past two weeks in a Bible school at the Victory Baptist Church, Wichita Falls, but is filling his own pulpit on Sundays.

You have a warm-hearted welcome awaiting you at Calvary Baptist Church, the old-time, independent, missionary Baptist church.

SOIL CONSERVATION NEWS

In the spring of 1948 E. E. Welborn, a cooperator of the Wilbarger-Wichita Soil Conservation District, planted buffalo, blue grama, sand and weeping love grass in a terrace outlet waterway. Last spring the love grasses came up to a fair stand with very little buffalo or grama grass noticed. This spring the buffalo and grama grass has come up to a good stand on a portion of the waterway and this should protect the area from terrace outlet erosion.

Elevated irrigation laterals are now in the process of construction on the Orville Bullington farm South of Lake Wichita. The laterals are being constructed by a maintainer. Irrigation borders will be constructed after the laterals have been constructed. The area bordered will be planted to legumes and cool weather grasses.

In the monthly meeting of supervisors of the Wilbarger-Wichita Soil Conservation District held at Electra the following conservation plans were approved on farms of M. K. Berry, Oliver Forbess, E. J. King, F. E. Hutchins, Paul Schoppa, Karl Shoppa, Robert Rummel, Sumner Estate (11 farms), Mrs. Eliz Sumner Hanna, Towery Estate, A. M. Hiatt, Will I. Stephens, Manace Phillips, Stanley Williamson, Travis Smith, and G. H. Gwinn. These farms have a total of 6,180 acres.

Arthur Ramming and Tom Pace, supervisors in this Soil Conservation District, state a grass judging contest for the FFA and 4-H Club boys will be sponsored by the Soil Conservation District this summer and fall.

An underground drainage map is now in process of being made by the Soil Conservation Service on Turkey Creek, North and West of Kamay. The water table and water producing sand is determined by boring of holes to a depth of 10 feet. Once the underground water table and water producing sand is determined a topographical map above the ground is made. These maps assist in determining depth the drainage ditch should be cut for proper underground drainage by drag line. The Wichita Valley Irrigation Improvement Districts are furnishing the drag line and other equipment on the drainage work.

Gene Autry and Horse Champion Smoke Out a Desperate Killer In Friday-Saturday Show at Palace

Gene Autry rides herd on a killer in his latest musical Western adventure, Columbia's "LOADED PISTOLS", co-starring Barbara Britton and which will be the attraction at the Palace Theatre Friday and Saturday.

Autry, the World's Greatest Cowboy, riding Champion, the World's Wonder Horse, is reported to put on one of the greatest exhibitions of cowboy prowess ever to hit the screen. His superb horsemanship, evidenced in many stirring pursuits; the blazing gunfights and slashing fisticuffs go to make up this one-man hurricane of action which blasts the screen. Besides, Gene gives further value to your entertainment dollar by his pleasant airing of such Western ballads as the title song, "Loaded Pistols", "Jim Crack Corn", "When the Bloom is on the Sage", "A Boy From Texas, a Girl from Tennessee" and "Pretty Mary".

Miss Britton, who appeared in such big Westerns as "The Virginian", "Gunfighters" and "The Untamed Breed", has joined the ranks of the reigning royalty of Western stars by acquiring fame among devotees of rugged outdoor action players. Chill Wills and Jack Holt, established Western players, Russell Arms, a personable youngster, and Robert Shayne, deep-dyed villain, round out the cast.

Autry, aroused to white-hot fury by the ruthless murder in a poker game of his best friend, sets out on his wildest manhunt. Suspicion initially points to Arms, a young cowboy who, with his attractive sister, owns a ranch which is the object for which the killer contends. Gene re-stages the crime with all the suspects present and, narrowly misses a bullet himself, unmasks

the real killer. The ranch, it seems, contains iron ore.

Mr. John English directed from story and screenplay by Dwight Cummins and Dorothy Yost. Armand Schaefer produced this Gene Autry Production.

HIGHER AND HIGHER

Taxes higher today than ever before, are yet to be higher next year. Next year they will reach \$63 billion and that is one-fourth of our national income. Exery \$1 out of each \$4, goes to meet federal, state and local services. Why are taxes so high and going higher? For one thing, we demand more services from government and receive more.

The Hoover report for reform in the executive branch of government, dealing with waste, duplication, inefficiency, over-lapping of of bureaus and so on, if corrected effectively and rationally, would save tax money and not hinder but help the administration of government. We have good men in good departments, but hit and miss budgeting, poor buying practices, won't help good men to maintain good departments. The U. S. needs millions of dollars for operating expense, to pay millions of people employed by the government. If the people who must pay these millions of dollars can save money by being governed more effectively and less costly, through reforms, we the people would appreciate the consideration.

Rheumatic Heart Disease Takes Toll of Children

Who becomes irritable and cross without apparent cause, cries easily, and develops nervous habits, will disclose the presence of rheumatic heart disease.

Predisposing causes to this serious illness include frequent chilling, living in damp, steamy quarters, poor diet, frequent colds, and sometimes scarlet fever or other infections caused by certain streptococcus germs. All such conditions should be avoided if at all possible.

Protection for children against rheumatic heart disease, should include a thorough physical examination by a physician at least once a year; a well balanced and nourishing diet; sufficient rest and sleep, and dressing at all times in accordance with the temperature of the room or playground. Consult a physician at once if any symptoms suggest that this disease may be present or in the process of developing.

4-H Meat Animal Program Under Way In Texas

Today meat provides one-third of the food energy in the American diet, and latest U. S. Department of Agriculture figures show that almost one-third of the farmer's total cash income in 1948 came from the sale of meat animals. Aware of the vital contribution livestock makes to the nation's health and economy, Texas boys and girls enrolled in the 1949 National 4-H Meat Animal program; and learn to select, feed and show their beef cattle, sheep and pigs. More than 300,000 4-H club members throughout the country are taking part in the project, according to the National Committee on Boys and Girls Club Work.

Some of the highlights of the program are keeping records of feeding and weight gains and learning the value of balanced rations. Many of the young stockmen grow their own feed. Members practice livestock judging at club meetings, and then try out for country and state judging teams. They take great pride, too, in showing their animals. The Cooperative Extension Service directs the activity.

In addition to being educational and profitable, the program offers awards for outstanding accomplishments. Mr. Thos. E. Wilson, chairman of the National Committee, and a veteran Chicago meat packer, has provided awards for the last 20 years. There are medals for county winners; a 17-jewel gold watch for state champion; trips to the National 4-H Club Congress for eight sectional winners, and four \$300 national scholarships.

Harry Schneider of Seguin won Guadalupe county and state honors in 1948. County medals were also presented to 173 other winners. Harry Schneider, of Seguin, was one of the national scholarship winners.

Mrs. O. B. Wofford and T. Guy Willis attended the graduation exercises of Mrs. Wofford's granddaughter, Frances Jordan, in Graham, May 27th. Dr. Guy Newman from Baylor challenged the class in an address, "Building Towers".

Sylvester Says:

"Down with dictators—and little housing czars, too." Sylvester wants to leave the room when his friends propose public housing. He knows official reports show it costs \$7. more a month to keep a family in a public housing unit than it costs to rent an average privately owned apartment or house in this country for that same family. Why not, says Sylvester,—you can't add the payrolls for 17,000 government housing agency employees to construction costs and get a cheaper house.

TO HELP BAYLOR—Harlon M. Fentress, above, publisher of newspapers in Waco, Austin and Port Arthur, was appointed Saturday as State Public Information Chairman of the forthcoming Baylor Stadium Campaign. In accepting the post at the hands of R. B. Dupree, President of Baylor Stadium Corporation, Fentress said he plans in the near future to name 10 co-chairmen to carry the Baylor Stadium Campaign over all corners of Texas.
