## Burk Dogs Subdue Olney Cubs In 48 Minute Thriller

The Burkburnett Bulldogs defeated a powerful Olney club in a 48 minute thriller last Thursday night on the Bulldogs home field by the score of 20-13. Coach Short's Bulldogs staying on the ground most of the night battered their way through the Cubs' line seemingly at will when they wanted a six-pointer, but at times the visitors presented a rough and ready defense that made a real fight out of the ball game. Just one game stands between the Bulldogs and the District championship, that with Holiday which will be played in Holiday Friday night November 18. All the boys are confident they will bring home the bacon. The boys are in tip-top physical condition, and with such fine coaching staff as Don Short, Jo Bob Tyler and Richardson they should have no trouble in their tussel with Holiday.

## Fred C. Brookman Presented Orchid Outstanding Job

Every week the citizens of Waco, Texas, in cooperation with the Radio Station KWTX and Wolfe, the Florist, present a program over the radio entitled, "An Orchid To You". This orchid is presented to someone they feel is doing an outstanding job for the community and on November 6, this orchid was presented to Fred C. Brookman, former Burkburnett resident.

During the presentation, the script read in part as follows: "Today is our privilege to honor one of the outstanding men of Central Texas—one who has a splendid record of service done for his fellowmen. We take great pleasure at this time in saluting Mr. Fred Brookman, of Rt. 10, Waco and naming him as our honored guest of today, and in so doing, honor him for the outstanding work he is doing with and for the Veterans and their families. We feel that it is especially appropriate that we honor him today on this Sunday just before the annual Armistic Day holiday.

Mr. Brookman began his newspaper career at the age of 8, working after school for the Whitney Messenger. After serving in World War 1, he came to Burkburnett, which was then a boom town. He was employed by the Burkburnett Star for five years and then bought the paper for himself. While living in Burkburnett, he served as President of the Rotary Club and of the Burkburnett Chamber of Commerce. Mr. Brookman was one of the charter members of the Burkburnett Post of the American Legion. In 1944 he sold his paper and accepted a position as Service Officer for the Veteran's State Service Office. He spends most of his time on his job, even though his schedule calls for only eight hours a day.

It has been said of Mr. Brookman that he doesn't have just a job, but that his job is his life. He is always for the veteran and has fought hard for them in every instance where he believes the case is right. His constant good humor and cheerful attitude do much to bring encouragement to those in need of it, and he spends as much time as he can spare visiting veterans in hospitals. We consider him an outstanding citizen of Texas and are privileged to pay honor to him today. And so, Mr. Fred Brookman, because of your exceptionally fine work with the veterans of America, because you give of yourself and of your means to the benefit of others and because you go far above and beyond the call of duty in helping your fellowman, we are indeed proud to present, An Orchid to You.

Mrs. Dave Holtzen spent the week-end visiting her daughter in New Orleans.

Rex Smith of Boulder, Colorado, visited Sunday with Mr. and Mrs. Ray Hill.

## Area Farmers to Hear R. L. Stone

Mr. J. V. Brookshear, president of the First National Bank in Burkburnett assures farmers and agriculturally interested persons that they are sure to enjoy hearing "A Challenge to Ingenuity" a talk by Mr. Robert L. Stone, Agricultural Representative of Texas Electric Service Co., which will be a part of the Saturday night, November 19, program of the Farmers Club which will meet at the Town Hall at 7:30. Mr. Stone, a former county agricultural agent, vocational agriculture instructor, and agricultural college graduate, comes highly recommended by agricultural leaders and civic leaders of numerous West Texas communities in which the talk has been given.

"Routine, the daily grind of making a living, plowing our fields, harvesting our crops," states Mr. Brookshear, "leaves many of us inactive and overlooking dormant opportunities which abound about us while waiting for interest and leadership to establish new crops, new

sources of agricultural revenue, new agricultural and related industries. Mr. Stone will keep you thoroughly awake and interested through the last word of his talk. With the array of interesting charts and actual products of agriculture and industry, he will keep before you at all times what he is talking about. If you have any idea which you have been sleeping on, you will be more likely to go to work on it after you hear the success stories Stone tells and some of the unusual and profitable products from materials most of us now consider waste and unwanted."

"Texas abounds with opportunities for resource development. We need to become more acutely aware of our agricultural problems and possible solutions and perhaps less satisfied with our tremendous productions which for the major part are attributable to vast acreages and numbers of livestock. The by-products of agricultural production lay in unlimited quantities as

waste while the doors of opportunity are open for processing waste into useful chemical ingredients, raw materials, and various useful household, commercial, and industrial products."

"What can farmers do themselves to help alter conditions of surpluses in agricultural production? What new markets could possibly be tropped thru new crops which could be grown? What kind of new and useful industries might bring new markets to our area? These and many other thoughts are discussed in a practical and factual manner by Mr. Stone in "Challenge to Ingenuity." Attend the meeting and evaluate for yourself the ideas to be discussed. The talk is pitched on an informal level and does not attempt to pinpoint for discussion specific local problems. Perhaps you may come with a new brand of thinking which will develop an idea which will make your farm more profitable and ours a better community in which to live."

## Plans Completed For County Xmas Seal Sale

At a dinner meeting of the Christmas Seal Sale chairmen in the Marchman Hotel on Tuesday evening, November 8, attended by Mrs. Daniel T. Sheriff of Burkburnett, plans were consummated for the county-wide Christmas Seal campaign to be conducted from November 21 to December 25.

Looking toward a record breaking Seal Sale campaign to enable the Wichita County Tuberculosis Association to carry on an extended prevention control program in 1950. Alan T. Bryce, Seal Sale chairman, and Mrs. Joella Terrill Butler, president of the Association, emphasized the importance of participation in the Seal Sale by every group and every individual in each community of the County because Mrs. Butler pointed out "everybody benefits from the year-round activities of the association in providing free chest X-rays given to all food handlers, all high school graduates, all school teachers, all baby sitters, all practical nurses, all members of all hospital staffs, all persons of all races who are unable to pay for X-ray service from private physicians." Mrs. Butler said that although the death rate from tuberculosis has been decreased 85 per cent since the first Christmas Seal Sale was conducted in 1907, the disease still kills nearly 50,000 Americans a year. In Texas last year, more than 13,000 new cases of tuberculosis were discovered.

### Rock Bottom Thursday

November 13, 1929 was a day that will never be forgotten by many oldsters who suffered through months of mental anguish. Look back 20 years ago and recall the spring and summer of '29. It was the time of prohibition and speakeasies and gangsters, golf knickers, short skirts for "boyish" figures, shingled bobs and cloche hats. Lind-

berg and Earhart, Tilden and Wills, Garbo and Guinan, Dragonette and Amos and Andy, were as big names almost as the former engineer in the White House named Hoover. What a summer it was, with folks talking stock market and easy money, investing in a big way or a small way, but investing. The booming stock exchange had financiers to wrapping clerks buying and selling. You couldn't lose with all the big money that was there for the taking. Production in industry was about double, national income had increased 93 per cent in ten years. It was all simply wonderful, a gilded summer. There was a slowing down, but not enough to worry the investors. It gave them time to catch their breath. In September some of the heavy stock holders started to unload. A small rally and then Black Thursday in October, when all records were broken in the stock exchange. Frenzy, panic, sweat and suicide. The small investor was met with the broker's cry of "more margin, more margin", but he had nothing to meet the crisis, in many cases not even his nerve. Rock bottom was hit, November 13, when the paper house collapsed. So ended the '20's to give way to the depression and the '30's.

There are some in Burkburnett who will remember the day, and there are others who need to be reminded of it. It behooves us all to think back.

## BETTER HEALTH

by Do. Geo. W. Cox

Dr. Geo. W. Cox, State Health Officer declares there's hardly anyone who hasn't caught cold at one time or another. The common cold is common indeed. Besides making you feel miserable colds steal your time and your money. They fool you, too, because the early signs are often the same as those of more serious illnesses. And long-continued colds may pave the way for an attack of pneumonia, tuberculosis, or a chronic infection of the nose, throat, ears, or sinuses. So do your best to keep from catching cold. And if you do catch one, take proper care of yourself so you can get rid of it.

When you have a cold:— Get as much rest as possible. Stay in bed or indoors for the first day or so if you can.

Keep comfortably warm and dry. If you must go to work, wear clothes that will protect you adequately when you go outdoors, and avoid drafts and sudden chilling when overheated.

Drink plenty of citrus fruit juices, water, and other liquids. Eat simple foods which agree with you.

Protect other people as much as possible. Cover your mouth and nose when you cough or sneeze. Use paper handker

chiefs or paper napkins that can be burned. Wash your hands frequently with soap and water.

Blow your nose gently. If you don't, you may force infected material from your nose into your sinuses or middle ear and develop sinus trouble or serious ear infection.

If a cold starts with chills, fever, or aching, or seems more severe, or last longer than usual, consult a physician without delay.

Mr. and Mrs. Joe Ferguson of Wichita Falls were business visitors here Saturday evening.

Mr. and Mrs. John were called to Kingsville as Monday night of last week due to the death of their in-law, Mrs. Rual Williams, who returned to Burkburnett following Thursday. Mr. Williams is Mrs. Rigby's brother.

Casey Logan of the Logan Battery and Electric Company today announced receipt of entry blanks in a \$200,000 nationwide contest to name the new low-priced automobile to be introduced by Kaiser-Frazer Corp. in 1950.

First prize is \$10,000, with 1,023 additional cash prizes. Kaiser-Frazer will match the "Name-the Car" prize money dollar for dollar in a contribution to the Damon Runyon Memorial Cancer Fund in honor of each individual winner, according to Mr. Logan, head of the local dealership in Burkburnett.

An additional feature of the contest is the fact that the prize money for each winner will be doubled if he has his present car appraised when he obtains his entry blank. Contestants need only write their name suggestion on the entry blank and explain in 25 words or less the reason for the selection.

"I want the American people to name this new car," Henry J. Kaiser, chairman of the board of K-F said in announcing the contest. "It is a car for all America. It will be a companion to the other Kaiser and Frazer cars we are now producing, completing the full line in every price range."

**1950 FORD**

**IT'S HERE FRIDAY AND 50 WAYS NEW!**

**WITH THE EXCLUSIVE NEW 100 H.P. FORD**

**V8**

**ITS QUIET WHISPERS QUALITY**

It's the quiet of new super-fitted pistons, new "hushed" timing gear, new fan designed for better cooling at slower, quieter speeds. And what power! There's a full 100 horsepower wrapped up in this V-8 design that makes you master of any road. It delivers more power than any other car anywhere near Ford's low price and sells for less than most conventional "sixes." And Ford offers a Six, too—an advanced Six with 95 horsepower.

**NEW SOUND CONDITIONING**

New "sound conditioning" in floor, doors and body panels insulates Ford's "Lifeguard" Body against road noises. More extensive body insulation and sealing in 41 areas give additional interior quietness and protection.

**NEW "HUSHED" RIDE**

Ford's famous "Mid-Ship" Ride is now so quiet you can talk in whispers while traveling at highway speeds. So smooth (with its great team of "Hydra-Coil" and "Para-Flex" Springs) that it virtually erases every bump.

**NEW QUALITY FEATURES**

New quality is easy to find in this 50-way-new Ford. You find it in the new push-button door handles, in the new rotary door latch that needs only a feather touch to open, yet closes so securely. You find it in new sparkling upholstery colors.

**NEW DRIVING COMFORT**

Not only does the 1950 Ford offer you more hip and shoulder room than any other car in its field—it offers you the long-lived driving comfort of a new foam rubber front seat cushion over new non-sag seat springs. Arrive relaxed after hours of riding.

But see it for yourself. Drive it so you can feel and hear the difference. And price it and see how much less it costs than any other really fine car.

**SOIL CONSERVATION NEWS**

Several farmers in the Clara Conservation Group now report good stands of winter cover crops of Vetch and Austrian Winter peas. Farmers in this Group who have winter cover crops are Wilbur Prechel, Walter Kasper, Edwin Muller, Herbert Kiesling, Frank and Josephine Foster. Most of the above farmers harvested their own vetch seed the past spring. The above farmers are also cooperators of the Wilbarger-Wichita Soil Conservation District.

T. J. Pace, District Supervisor of this Soil Conservation District from Iowa Park, attended the annual meeting of the Texas Soil Conservation District Association at San Antonio this week. Supervisors from approximately 160 Soil Conservation Districts over the State of Texas were represented. Governor Shivers addressed the meeting on the 2nd day of the meeting.

Clyde Bryant of the Barwise Conservation Group now has good pasture of vetch, rye, and

alfalfa mixture. This is the second year he has used this area for pasture. The vetch reseeded itself and the alfalfa responded from the cultivation.

District Supervisors will meet in their regular monthly meeting at Electra in the Chamber of Commerce office, Thursday, Nov. 3rd. The Iowa Park Work Unit will send to the meeting Conservation Plans on the farms of Louie McCarthy, Herman Mengwasser, Tony Anthony, Cecil H. Longley, Arnold Holtzen, and W. F. Ramming for the Supervisor's approval.

Irrigation borders are now being run on the Gordon T. West farm west of Wichita Falls. The Soil Conservation Service is running the lines. Mr. West has a good stand on approximately 75

acres of alfalfa which has come up since the recent rains.

man for 1950. Plans were made for a Christmas party on December 14 at the home of Mrs. Bert Lepley. At our next meeting which will be at the home of Mrs. H. L. Martin on Nov. 24 Miss Sands will be with us. Mrs. C. E. Martin had charge of the recreation period.

**Jesus, The Son of God**

It is our intention to present in the next few weeks a series of articles on and about Jesus, the Son of God. We shall consider what He has done, what He will do, Christ as our example and Christ as a teacher.

Jesus, in his farewell discourse to his disciples, said: "I am the way, and the truth, and the life; no one cometh unto the Father, but by me." (Jno. 14:6) Jesus is the truth. He lived and preached the truth. The truth he spoke is eternal. "Sanctify them in the truth: thy word is truth". "Heaven and earth shall pass away; but my words shall not pass away". His teaching and the perfect life he lived should strike a responsive cord in the heart of every man and woman and inspire them to follow in his steps. He loved the world with the love that never fails. "For God so loved the world, that he gave his only begotten Son, that whosoever believeth on him should not perish, but have eternal life." (Jno. 3:16). His teaching of love to enemies: "Ye have heard that it was said, Thou shalt love thy neighbor, and hate thine enemy: but I say unto you, Love your enemies, and pray for them that persecute you; that ye may be sons of your Father who is in Heaven. . . For if ye love them that love you, what reward have ye? Do not even the publicans the same? And if ye salute your brethren only, what do ye more than others? Do not even the Gentiles the same?" (Matt. 5:43-47). There is no other person in history like Jesus, the Son of the living God.

He offered himself a sacrifice for all. When the blood of animals could never take away sins, Jesus offered the sacrifice of himself for sins forever. Note Hebrews 9:26. Jesus made reconciliation possible as we see from a plain statement found in Hebrews 2:17, and another statement of the fact found in Romans 5:10. He bought us with a precious price, and that price was his blood. "For ye were bought with a price: glorify God therefore in your body." (I Cor. 6:20). Christ is doing much in every way for us now. He is guiding, blessing, sympathizing, and interceding for his followers today. We should manifest our love to him by keeping his commandments. "For this is the love of God, that we keep his commandments: and his commandments are not grievous." (I Jno. 5:3).

**Don't Fail To See the Bulldogs Beat Holliday at Holliday Friday Night**

**The Manly Art of Boxing**

The superior sex has been exchanging blows for fun, fame, fortune, and for the fairer sex, for many many long years. "Prize fighting" took the form of a combined wrestling and boxing event in the ancient Olympic Games. The rivals battered each other with hands wrapped in metal-studded leather straps, and many contestants lost their lives in this sport.

Jack Broughton, bare-knuckle heavyweight king in 1740, introduced a set of rules in England in 1743, and also invented the first boxing gloves, which were used in teaching and training. All championship bouts were without gloves until the 1892 Sullivan-Corbett event in New Orleans. Corbett, at 26, weighing 178, defeated Sullivan, 34, who weighed 212, in twenty-one rounds for the title.

The "Queensberry Rules" were put forth in England in 1866, and called for gloved contests. Amateur and professional rules vary slightly in every part of the world today, but a boxer doesn't have to change his style appreciably to ply his trade in any country.

**Light up for Better Seeing . . .**  
**... BETTER LIVING!**

**BETTER LIGHT MEANS BETTER SIGHT**  
Dark, dreary days may be expected frequently during fall and winter months. This means that your home lighting is most important this time of year. From morning until bedtime, your lamps and lighting fixtures must all put out enough of the right kind of light for better seeing. Visit your favorite store which sells electric appliances and see the new and modern lamps now available.
