Memory Expert At High School

WILLIAM WALLACE

William Wallace, memory wiz-
ard, has been featured in Robert
L. Ripley's "Believe It Or
Not" cartoons and radio drama-
tizations; in John Hix's "Strange
At Is Seems"; and in Dave El-
man's "Hobby Lobby".

Wallace will appear at the
High school auditorium Wed-
nesday, March 1, at 1:30 P. M.
There will be an admission
charge of only 15c.

William Wallace was born
near Hazelton, Penn. His boy-
hood was normal, except that
he enjoyed school! Having an
unusual memory, he memorized
page upon page of home work.

One fateful day, he and his
wife were given two compli-
mentary tickets for a vaudeville
show in New York, and for the
first time he saw a memory ex-
pert at work in public. Wallace
turned to his wife and said, "Do
you know, I can do that." "Do
you know," she replied, "I think
you're crazy."

The next day he went to the
library, but could find nothing
to help him. Then he began by
memorizing small numbers of
objects and gradually increased
the size and complexity of the
combinations used.

Then, one day, just to see if he
could do it, he decided to mem-
orize the world's largest mail
order catalogue. The catalogue
contained about 1100 pages. Af-
ter a total of twenty hours of
intense concentration, the larg-
est catalogue was memorized
from cover to cover!

We had no control over the temperature and thus suffered a tremendous loss in flavor and palatability of our meats. How much nicer it is now to be able to butcher when we want to and know we can put the meat in a frozen food locker where it will stay fresh, clean and retain the delicious flavor it had when we first placed it in the locker. For complete protection of the flavor all foods are first given a quick freeze at 20 degrees below zero.

BELTONE OF WICHITA FALLS

The ideal hearing aid has often been defined as one which would allow the individual using one to hear as clearly as if his hearing were not impaired. This is a misleading statement. No hearing aid can make a person with a hearing impairment hear perfectly. However, in many cases the correctly prescribed hearing aid can almost accomplish the utopian ideal.

The rational definition of an ideal hearing aid must be limited to the following: A device which would assist the individual to make use of his or her impaired hearing to the fullest extent for certain specific purposes—speech, enjoying music, control of one's voice, etc.—with a definite setting of the controls for each purpose.

For many years laboratories have been perfecting a hearing aid that measures up to the above statement as nearly as is possible. As a result the BELTONE Hearing Aids come as near giving perfect performance as is possible.

If you have a hearing impairment, consult your physician, then see your Beltone Hearing Aids dealer in Wichita Falls or telephone 2-3041 for an appointment.

They are located on the ground floor at 421 Eighth St. It is completely air conditioned and has a private fitting room. Come in and see them. They have just received their new 1956 "Better Than Ever" BELTONE Hearing Aids.

FARM FACTS WORTH KNOWING

1. Question: How much time should it take to milk a cow properly?

Answer: Actual farm figures have shown that the milking machine is left on cows an average of 6.5 minutes. But close studies show that cows can be trained to milk in 3 minutes or less, and some cows can be milked in 3 minutes.

2. Question: At what age should pigs be weaned in order to have the sow bred in time to raise two litters in one year?

Answer: At the Research Farm of the Ralston Parina Company where the two litter a year program is followed, all pigs are weaned at 3 weeks of age. In weaning the pigs, remove the sow from the litter allowing the pigs to remain in the same lot until they are completely weaned.

3. Question: We have been getting watery eggs from our hens. What causes this?

Answer: Watery eggs may be caused by the storage place being too warm, or this may be an inherited condition which can be corrected only by culling the diseased birds.

The Time The Anti-Trust Lawyers Killed Their Own Case!

For ten years the anti-trust lawyers have been attacking the business methods that make it possible to give the public the best quality food at the lowest prices.

In our last ad we told you how Federal Judge W. H. Atwell, at Dallas, threw the anti-trust lawyers and all their inflammatory charges against A&P right out of his court.

But the anti-trust lawyers were not satisfied with decisions against them by three federal judges.

They still wanted to destroy A&P.

They Appealed to New Orleans

So they appealed Judge Atwell's decision to the three-judge Circuit Court at New Orleans.

One of the three, Judge Curtis L. Waller, agreed with Judge Atwell that the case should be dismissed.

The other two members of the Circuit Court, Judge Joseph C. Hutcheson, Jr., and Judge Allen Cox, although saying the case should be tried, agreed that the indictment was vague and contained many allegations which were inflammatory.

They decided that Judge Atwell at Dallas should protect A&P from these inflammatory allegations and could order the anti-trust lawyers to supply the defendants with a bill of particulars.

So the case was back in Dallas again.

Judge Atwell, carrying out the decision of the Circuit Court, struck out the inflammatory matter.

He said that without this inflammatory and prejudicial matter the Grand Jury might never have returned the indictment.

Judge Atwell said to the anti-trust lawyers:

"There are many statements in the indictment which are not at all in violation, and are highly prejudicial and inflammatory."

The anti-trust lawyers objected. They advanced an amazing argument. They said that the removal of their inflammatory allegations (which all four judges had agreed did not belong in the indictment) destroyed their case.

Judge Atwell instructed the anti-trust lawyers to furnish the court with a bill of particulars. In short, he wanted specific charges instead of vague generalities. He set the deadline for furnishing this material at January 15th, 1944.

When the anti-trust lawyers twice asked for more time, pleading sickness among their staff, Judge Atwell extended the time to February 25th because he believed that they were honestly trying, in good faith, to prepare the material he had requested.

Actually, it developed, they were using the time to get ready to drop the case in Dallas and start it in another court.

They Quit in Dallas

On February 26th, while the judge was still waiting for his answer, and without any previous notice to him, the anti-trust lawyers gave a story to the newspapers in Washington, announcing that they were dropping the case in Dallas.

They said that it was their intention "to file a substantially similar suit in an appropriate jurisdiction at an early date."

The "early date" turned out to be the same day.

As soon as one anti-trust lawyer killed the case in Dallas, another anti-trust lawyer filed a new case in Danville, Illinois. This new case made most of the same allegations that had been made and dropped in Dallas; and that are being made against us today.

So now, according to the anti-trust lawyers, all four judges who had ruled on the Dallas case were wrong.

Despite defeats in three federal courts in widely separated parts of the country, they continued their campaign to destroy A&P.

When Judge Atwell heard of their action he ordered the anti-trust lawyers to prepare an order for his signature dismissing the Dallas case.

In signing this order he said to the anti-trust lawyers:

"This nolle prosequi does not have the sanction or approval of this court. That is not necessary, nor that the government ask for the court's approval."

"It is, however, a matter that may be presented to the other court and may be of interest to the people at large."

So after their efforts to destroy A&P had failed in Washington, D. C., Wilson, North Carolina, and Dallas, Texas, the anti-trust lawyers moved on to Danville, Illinois.

They were still determined to destroy this company which had brought more and better food at lower cost to millions of American families.

They Were Wrong Three Times Before!

Three times the anti-trust lawyers went into federal courts and made serious and damaging charges against A&P.

Three times federal judges said the anti-trust lawyers were wrong and rendered decisions against them.

In previous ads in this series we told you about these other anti-trust "cases" involving us, which the judges said were not cases at all.

We think you should know about these previous cases, because once again the anti-trust lawyers are making damaging "allegations" that could seriously affect our business if they were believed by the public.

There was the time in Washington, D. C., when they said we and other good American citizens conspired to fix the price of bread in that city.

This was the time Federal Judge T. Alan Goldsborough ruled that A&P and the other defendants did not even need to put in a defense. He instructed the jury to bring in a verdict of "not guilty".

It was the time Judge Goldsborough said to the anti-trust lawyers:

"If you were to show this record to any experienced trial lawyer in the world, he would tell you that there was not any evidence at all."

"Honestly, I have never in my over forty years' experience seen tried a case that was as absolutely devoid of evidence as this. That is the honest truth. I have never seen one like it."

There was the time in Wilson, North Carolina, they said we and other good American citizens conspired to fix prices paid farmers for their potatoes.

This was the time Federal Judge C. C. Wyche directed the jury to bring in a verdict of "not guilty".

It was the time Judge Wyche said to the anti-trust lawyers:

"In my opinion there is no testimony produced from which it can reasonably be inferred that the defendants entered into a combination to depress or lower the price of potatoes."

"I might say that I never tried a case in my life where a greater effort, more work, more investigation had been done, combing almost with a fine-tooth comb to gather evidence."

"But, as was said a long time ago, you can't make brick without straw, and you can't make a case without facts."

There was the time in Dallas, Texas, when they made practically the same "allegations" they are making today.

This was the time Federal Judge W. H. Atwell ruled that the case should not even be tried. He said that the indictment contained inflammatory statements that he would not permit to be presented to a jury.

It was the time Judge Atwell said to the anti-trust lawyers:

"I know of no American rule, and I wish I had the power to underscore the word 'American,' which permits us to try a man because of his size."

"If I thought I was presiding over a court and that I might have to sentence some person because he was a great big fellow, or because he was a Lilliputian, I would feel like resigning. God knows we don't want it ever to occur in America that the size is going to determine whether a man is guilty or innocent."

Burkburnett Scouts Visit Sheppard Air Force Base

U. S. Air Force Photo—Sheppard AFB, Texas

FRONT ROW, left to right: Scouts Gary Stubblefield, Dale Shufflin, Winford James, Kim Dody, Johnny Veach, Royce Miller, Gene Henry, Randy Morrison, Jon Evans, Delmer Lake, Ronnie Haggart, Leon English, Richard Lasater, Robert Nixon, Floyd Lehan, James Burk, and Robert English.

BACK ROW, left to right: John T. English, Member of Scout Committee; 2nd Lt. Glen Dody, Assistant Pack Master, and Charles Morrison.

As a part in the observance of National Scout Week, the base flight line was opened last Friday to the inspection of 17 members of Cub Pack 32 of the Central Christian Church of Burkburnett. We wish to thank Captain Hunt of Public Relations for making this trip possible. We also wish to thank T-Sgt. W. S. Tarkington and S-Sgt. Paul McBenett for showing us around the school and Cpl. Kenneth Greenwald, the photographer, for the nice pictures. We thank all the others that were connected with making this wonderful trip possible, which was enjoyed.

Inspect they did, for nothing in eyesight went unobserved by this organization of young boys, as they made their tour from Base Operations to and through the Engines and Operations Branch. Accompanying the Scouts were Charles Morrison, Cubmaster; 2nd Lieut. Glen Dody, Hq. and Hq. Squadron, 3750th Air Base Group, Assistant Cubmaster, and John T. English, Committeeman.

Capable T-Sgt. W. S. Tarkington of the 3383rd Training Squadron acted as host for the Base to the little men of America, and provided them with sights which bulged their eyes many times and caused them to produce an expression of amazement. G. I.'s of the Base stared awkwardly at the Cubs at first, but then gave a smile of approval when they recognized the emblems which the youngsters wore as they walked from place to place in columns of two, holding the hands of partners.

Highlighting the afternoon was their tour through a C-47 airplane. Here the Cubs were permitted to enter the airplane and by twos allowed to sit in the seats of the pilot and co-pilot, while the crew chief of the plane explained details to them.

Anti-Trust Lawyers "Killed Own Case" In Court Says A&P

The anti-trust lawyers previously defeated three times in different Federal courts "Killed their own case" against the Great Atlantic and Pacific Tea Co. at Dallas, A&P will say in advertisements appearing in newspapers throughout the country this week end. But this did not end the 10-year campaign against A&P according to the fourth advertisement in a series discussing previous unsuccessful attacks upon the pioneer food chain by anti-trust lawyers. "The anti-trust lawyers were not satisfied with decisions against them by three Federal Judges," the ad says. "They still wanted to destroy A&P."

The advertisement tells how in 1944 the Dallas case based on allegations similar to those in the current suit to put A&P out of business had been thrown out of court by Federal Judge W. H. Atwell.

On appeal, the ad says, the circuit court at New Orleans, although reinstating the indictment, agreed that it was "vague and contained many allegations which were inflammatory." The court decided Judge Atwell "should protect A&P from these inflammatory allegations by striking them out." Judge Atwell struck these statements, the ad says, and instructed the anti-trust lawyers to furnish him "specific charges instead of vague generalities."

"On February 26th while the Judge was still waiting for his answer in Dallas, and without any previous notice to him," the ad states, "The anti-trust lawyers gave a story to the newspapers in Washington, announcing that they were dropping the case in Dallas." In dropping the case, the anti-trust lawyers were quoted as saying they intended "to file a substantially similar suit in an appropriate jurisdiction at an early date."

The "early date" proved to be the same day, A&P says in the advertisement. "As soon as one anti-trust lawyer killed the case in Dallas, another anti-trust lawyer filed a new case in Danville, Ill." the ad continued. "This new case made most of the same allegations that had been made and dropped in Dallas and that are being made against us today. "Despite defeats in three Federal courts in widely separated parts of the country, they continued their campaign to destroy A&P."

Smith - Crane Exchange Vows

The home of Mr. and Mrs. Truman Garland was the scene of nuptial rites performed Sunday afternoon to unite Miss Frances Crane, daughter of Mr. and Mrs. Newt Crane of Burkburnett, and Vernon Smith, Jr., of Carrollton, Texas.

Vows were recited at 3:00 o'clock under the direction of Rev. Lamar Lewis, pastor of the Thrift Baptist Church.

The bride was lovely in a suit of navy blue with which she wore white accessories. She completed her costume with a corsage of white camellias.

Mrs. Billie Jean Potts attended the bride as Matron of honor, while Johnny Crane served as best man for the groom.

Music for the occasion was provided by Mrs. Maxine Creel at the piano, and Mrs. Joe Bob Tyler, vocalist, who sang, "Because", "I Love You Truly", and closed the ceremony by singing the Lord's Prayer.

Mrs. Smith is a 1948 graduate of the Burkburnett High school and since that time attended Midwestern University in Wichita Falls.

Immediately following the ceremony, a reception was held in the Garland home.

The house was beautifully decorated with arrangements by Mrs. Gilbert. Especially effective was the refreshment table, laid with a white cut work cloth and centered with a Sweet Pea Tree.

Mrs. Don Short served the three-tiered wedding cake which was topped with a miniature bride and groom. She was assisted at the tea service by Miss Beth Brookshear. The bride's Book was placed at the door for names of the guests.

At present the couple are making their home in Houston.

History of Grace Lutheran Church To Be Dedicated Here Sunday, Feb. 26th

The history of Grace Lutheran Church in Burkburnett does not begin with a specific date. Rather one must look back and see that the establishment of a Lutheran Church in Burkburnett was the logical fruit of the labors of the Rev. Paul Kaiser.

In 1917 Rev. Kaiser was installed as the pastor of Trinity Lutheran Church at Clara, Texas, seven miles West of Burkburnett. Clara was an agricultural community that was suddenly to be activated with the oil boom in Burkburnett in 1915. Soon the Clara countryside was dotted with the derricks of oil wells, with a great influx of people. Here Pastor Kaiser worked and included in his parish Iowa Park, Electra and Burkburnett. Burkburnett became his trading center and here he earned the respect of the merchants and people. As the oil boom came to an end, many people moved away from Clara, and, naturally, some of the Lutherans who moved settled in Burkburnett. In the late 30's and early 40's Clara again developed into an agricultural community with the greater part of the people belonging to a church. It was inevitable that more and more of the adult converts to the church were being gained from the towns and Burkburnett was the most responsive.

In 1942 Rev. Kaiser began conducting Sunday night services in the Presbyterian chapel on East Main Street. The building was soon sold and the services were dropped. However, in 1943 evening services were started again. In 1944 a Lutheran Sunday School was organized in Burkburnett, because Lutheran parents, who were unable to send their children to the Trinity Sunday School due to transportation difficulties during the World War II, were sending them to non-Lutheran schools.

During these years, as the number of Lutherans in Burkburnett increased, the fact that a Lutheran Church should be established in Burkburnett became obvious. On December 1, 1944 the first of a series of family meetings was held at the home of Mr. and Mrs. Arthur Evert for the purpose of determining the feasibility of establishing a Lutheran Church in Burkburnett. These meetings crystallized the thoughts of all attending them and set forth the conviction that Christians are obliged to bring the Gospel to others, and that as Stewards in the Kingdom of God, our talents and abilities could best be used if a Church of our faith were established in Burkburnett. Therefore a petition was presented to Trinity congregation of Clara, requesting the peaceful release of a number of members for the purpose of establishing a Lutheran church in Burkburnett. This release was granted on February 11, 1945.

On February 18, 1945 a congregational organization was perfected. The following were the first officers: elders, Ivan Zeck, H. A. Mills, and Arthur Evert; chairman, Arthur Rammings; secretary-treasurer, Loy Nichols; finance chairman, Earl Rinefeldt. The name Grace Lutheran Church of Burkburnett was adopted. A call was extended to the Rev. Paul Kaiser of Trinity congregation at Clara, to become the pastor of Grace Lutheran Church. Pastor Kaiser accepted the call and held his first service in Town Hall on March 18, 1945. Pastor Kaiser was duly installed by the Rev. J. A. Birnbaum of Vernon on April 1, 1945.

A committee consisting of H. A. Mills, Loy Nichols, Arthur Evert, Herman Frieling, Ivan Zeck, Arthur Rammings and Pastor Kaiser, was selected and charged with obtaining acceptable plans for the construction of a church building.

On April 8th Grace Lutheran Church submitted its constitution and applied for membership in the Evangelical Lutheran Synod of Missouri, and other states, Texas District. This application was duly approved and granted. On October 7, 1945 the tentative plans of the building committee were accepted by the congregation and it authorized James N. Foster of Wichita Falls to draw up blue prints.

Grace Lutheran congregation was blessed and its first year saw the membership increased to 120 souls. Pastor Kaiser had confirmed one adult class, and when he had another group under instruction, he was forced to discontinue his work. On March 7, 1946 Pastor Kaiser had become ill and on July 11, 1946, the Lord called him to his rest.

Grace congregation was then served by the Rev. H. Leimer of Clara with evening services until September. In September, 1946, the Rev. H. C. Schelter accepted the call to Grace congregation. On October 6, 1946, Grace congregation approved the final blue prints and in November authorized the construction of the new church. A parish hall was added to the original plans. The lay out for excavation was begun in November. Due to bad weather, however, the final concrete for the foundation was not poured until March, 1947. All of this work was done by the members themselves. The pouring of the concrete itself involved a total of 93 man days of labor. A member, H. M. Steinert, also donated the use of his cement mixer. On September 7, 1947, the Rev. Schelter accepted a call to Cypress, Texas. Once again the Rev. H. Leimer of Clara served as vacancy pastor. Reading services each Sunday morning were conducted by Oscar Frieling. On October 23, 1947, a contract was perfected between Grace congregation and Mr. Chas. Kinsey for the construction of the new church.

The Rev. Henry C. Schroeder of Kerrville, Texas, accepted the call to Grace congregation and became its pastor on June 1, 1948. On the 1st of August, 1948, with the new church well on its way to completion, the corner stone was laid. Mr. Charles E. Kinsey, contractor, secured the corner stone in its permanent resting place, and pastor Schroeder officiated.

In March, 1949, Rev. H. C. Schroeder accepted a call to West Jacksonville Beach, Florida, and Rev. H. L. Young was called from Pampa, Texas. He was installed August 7, 1949.

The church has now been completed and on February 26, 1950, it will be dedicated. The Rev. J. A. Birnbaum of Vernon will deliver the dedicatory sermon, the Rev. R. L. Young, the present pastor of Grace Lutheran Church, will perform the dedication rites.

Cobs Proved Poor Steer Feed

Early in 1949, two hundred white face steers were placed on feed at the Ralston Purina Research Farm at Gray Summit, Mo. They were divided into uniform lots and fed varying experimental rations.

The cattle, in two lots, instead of receiving grain and supplement, as the others did, were fed a ration of ground corn cobs and supplement, but no grain. Hay was fed, but the amount was restricted.

The experiment was planned to run for 180 days, with each individual steer scheduled for weighing every 30 days. After 60 days on feed, the cob-fed steers had gained less than 1/3 pound per day as against an average of nearly 2 pounds per day for those fed grain and supplement. Cost per pound of gain was running approximately 3 times the cost of the grain fed lots.

It was so obvious cobs could not profitably replace grain that this part of the experiment was discontinued after 60 days and these cattle were switched to a grain and supplement ration.

They ate ravenously and began to make rapid gains, but went weighing 200 pounds less per animal, even though remaining on feed from 30 to 45 days longer.

Mr. Merle Martin, Chief Petty Officer who has been stationed at Newport, R. I., visited his Aunt and Uncle, Mr. and Mrs. Byron Cozby and other relatives last week as he was enroute to San Francisco, California, where he will enter Electronics school. The Baptist Church has been for several weeks engaged in building a Sunday School building East of the Church. Funds had to be raised, and one of the means used by the ladies has been quilting quilts. The one completed recently, donated by Mrs. Ona Slabaugh, was taken to the sale at Burkburnett last Saturday by Bob Hinkle. The result was very pleasing to all and the ladies of the Baptist Missionary Society wish to express their thanks to those who so liberally contributed to the quilt fund. Thanks to these men: Messrs. Jim Anderson, Brown Lee Graham, J. V. Brookshear, Charles Bowles, Joe McCluskey, J. C. Hinkle, Bob Hinkle, Joy Sessums.

Mrs. K. B. Uthe, President
Mrs. J. B. Stevens, V.P.
Mrs. Lloyd Clemmer, Sec'y.

The Mock radio show last Thursday evening attracted a large crowd of patrons and visitors. The participants of the shows, Beulah, My Friend Erma, Kate Smith, Lone Ranger, Double or Nothing and the Oklahoma Hill Billy Hot Shots, were pretty good imitators, or at least every one had a good laugh.

This entertainment was planned and presented by the Devol Ladies Demonstration Club to purchase covering for the floor of the school lunch room. The proceeds at the door were over \$110.00. The program was followed by eats and a food sale. The inlaid linoleum was purchased the next day and laid by the Garland Furniture Co. of Burkburnett. The club and the Devol community wish to express their thanks to all those of Burkburnett who so generously contributed to this fund and for their many kindly helps in past events, also. And to our own local business men, school board and Supt. who have been so happy to assist in this local improvement. Thanks, to the friends and lady patrons who furnished the baked goods, thanks.

"You build your community-- it will build you."

OUT OF GODFREY'S TEABAG

The prices of things! It's just awful! Things are so expensive it costs you fifteen cents to get change of a dime.

I love those Russian fellows. Didja hear their conversation the other day at the UN? Vishinsky says to Molotov: "We firmly believe in peace." You know what Molotov said? "Where's the bomb shelter?"

Ah, my fans--I love 'em. To them I'm Godfrey--Hackensack's answer to "Enchanted Evening." They write me letters, too. One of them just wrote: "Dear Godfrey, I don't like your pan, but you do have a lovely pot!"

I have a lot of fun on radio and television. Just the other day my sponsor came up to me backstage just before I was going on. "Arthur," he says, "you're representing a certain brand of soup. Now go out there and use your noodle!"... Yes, I love radio and television. What I can't stand is what's on when I'm off!

I see where President Truman is going around again laying cornerstones. He's become kinda interested in stones lately. Maybe it has to do with the new tax situation. Stones are what his advisers tell him you can't get blood out of.

Compared with the British inch, the American inch is two millionths of an inch too long; which is the least we Americans have ever stretched anything.

Uncle Sam Says

The life of Abraham Lincoln, whose birthday anniversary we observe this month, provided an example of hope, courage and thrift which is just as important to you today as ever before. And this applies to all of my nephews and nieces. Together with all of that hope and courage each of you possesses, there must be the respect for thrift. And one of the safe, sure ways of saving is by investing in U. S. Savings Bonds. Each \$3 invested today will bring you \$4 in ten short years. START SAVING IN 1950 FOR 1960. U. S. Ramblin' Around By H. C. D.

The Jaycees have appointed their committees and are getting ready for some constructive activity. That group of young men has a lot of spizzierintum and may be just what the older organization needs to keep it on its toes. The old group is solidly behind the youngsters and will be the first to applaud their accomplishments.

Since I thought about it, I don't remember being solicited for membership, but then, so much of the time I am bare-headed and the receding brush doesn't look like good Jaycee timber.

There can be humor, even in near-tragedy. Recently a small lad of seven or eight ran from behind a car parked on Main Street into the path of an approaching vehicle. The little fellow was brushed by a fender, knocked down, but no serious injuries resulted. H. D. Smith happened along about that time and said: "Sonny, you had a narrow escape, didn't you?" The youngster looked at him grinning and said: "A little more and I would have been a DEAD DUCK!"

H. D. is a wonderful fisherman, but he can also be a humorous looking figure. Recently he and the local newspaper guys were fishing at Possum Kingdom near Graham. In the morning, about 7 o'clock the three loaded in a boat and started for the rock bluff on the other side of the lake. It was warm enough; a light coat was more than enough. The boat was fashioned after the Big Mo—and not much smaller. High sides and a flat bottom made 2 m. p. h. a fast clip. When half way across the lake, a sudden norther hit and the temp. fell some 20 degrees in a very few minutes. The boat was turned around and headed for the dock, facing the waves. White caps were breaking over the front of the boat and raining down on H. D. who sat on the middle seat, hands on his knees and looking straight ahead. Water was streaming over his glasses and on down to his knees where it was beginning to freeze. I said "H. D. it's cold". Without looking up he said "Brother, you can say that again". He said the white caps were not what we thought—they were chunks of ice being tossed about by the wind.

Went over Tuesday to see the B-36. After going all through it I felt like the Irishman who went to the zoo and saw his first giraffe. "H - - - there ain't no such animal!" It is just so big it leaves you wondering if the thing will really fly. That I can't vouch for, because I didn't see it. They told us it would—that it had come in there on its own power. So maybe it will fly after all.
