SUMMER DRIVING

Will the summer vacation be a pleasure, a carefree trip, a happy occasion, or will it be a calamity? Many summer vacations have tragic endings. The American Automobile Association states that last year set a record for vacation motor trips. This summer's record may exceed that. Highway accidents are the most frequent tragedy to end a vacation. Strange roads, new scenery, congested highways, make driving a hazard, because sight-seeing makes us careless in watching traffic that is ahead, behind and beside us. Often auto accidents are caused, not due to improper operation of our own car, but of what the OTHER driver is doing. As some one has said, you have to be a mind reader to be safe on the highway. At least we can observe good driving habits and keep an eye on the other fellow. Caution shouldn't dampen your vacation enthusiasm.

SUMMER CONFERENCES

With summer comes the summer conference for young people and adults. The church, through religious education, renews enthusiasm and zeal for development of its holy work. Young people find, in such conferences, fellowship and religious guidance with able leaders. These youngsters discover what church membership means, if they have not appreciated it before. Clergymen are offered timely courses that recruit them for giving more in their home parishes. Directors, officers and church workers are given new heart and insight into religious subjects. Newspapers are reporting signs of an increasing

There Are Two Kinds Of Bills . . .

... First, the kind you get for hard work . . .
... Then, the kind you get on the first of every month!

There should be enough of Uncle Sam's kind of bills to cover all expenses, with a little left over for savings. If there isn't, we'll be pleased to arrange a low cost personal loan, and work out a budget for you and your family to bring your accounts in balance. Why not drop in today.

THE FIRST NATIONAL BANK

religious revival through increased church membership and attendance, evangelists are attracting larger crowds, more colleges and universities observe "Religious Emphasis Week," large sale of fiction and non-fiction books dealing with religious themes, intellectual circles finding it "respectable" to discuss Christianity seriously again. Such a report is encouraging, if reliable, though facts can't be proved. We hope for a religious revival, for in it there lies hope for present living. Faith and prayer are needed in every conference between men.

THE FEAR OF SILENCE

Numerous cities have anti-noise campaigns to try to reduce traffic horn-bonking. Some people take cases to court protesting against noisy neighbors, noisy taverns. Noise seems to be an unavoidable feature of our civilization. As a whole, we are in sympathy with those who object to the lack of peace and quiet. Many of us don't realize though, how we surround ourselves with unnecessary noise, contribute to the din. Take a room full of people chatting with a radio going full blast. They aren't listening to the radio but are trying to talk above it. They are aware of the radio but are not bothered by it, perhaps fearing the quiet. Psychologists might explain all of this as humanity's unrest, its desire to get away from thoughts, from selves.

Is it that we don't like silence? Consider the number of people you know, who never like to be alone. There are many of these. They resist the idea of a quiet space, they must have others around them. Or else they must have a radio turned to high and loud. What is it these people fear?

What's the Matter With Czechoslovakia

If there is one country in Europe that owes more to the United States Government than any other, it is Czechoslovakia.

After the first World War, the statesmen of Czechoslovakia gathered in Washington, D. C. by the wholesale and their pleas for independence won the support of our Federal Government.

The officials of our own State Department were assigned to draw up and submit the Constitution for Czechoslovakia. Delegations of leading Czechoslovakians came to Washington and made speeches declaring that all they wanted in the World was to be free and govern themselves.

The United States Government has just ordered 35 Czechoslovakians out of the country—that will leave 17 bluffing Communist Czechoslovakians in our country. And you may bet your last winter's bonnet that everyone of them will be watched, and likely some of them will "get the boot."

CHICK CHATS

By Clark Gresham

Worm Monthly The Growing Birds

With your growing flock on the range, or around poultry yards, remember that worm problems are just as prevalent now as they were during the confinement period. Since worm eggs are present most everywhere — with large numbers found in the soil—your birds require special attention now that they are on the range.

A good many of your worries about worms can be eliminated if you simply do this: Adopt a systematic worming program. Plan to give your birds flock and individual-bird treatments at regular intervals throughout the year.

Worm Early
To put such a program into effect, plan to follow a monthly worming schedule. Start worm control early—usually when birds are 6 to 8 weeks of age—and continue worming the birds monthly until market time. Laying stock may be treated with an individual treatment just prior to housing. Monthly flock treatments are recommended while they are in production, with care to give birds only a non-toxic wormer.

Large round worms, the commonest internal parasite, cause the most worm trouble. This worm is capable of reproducing at an amazing rate, and the female may lay 50 million eggs during her lifetime. Because the worm's life cycle is 28 days, monthly worming is essential. By effectively breaking this cycle, the worms can be eliminated.

Numerous Worms
But there are other worms too. The life cycle of the cecal and intestinal capillaria worms are similar to that of the large round worm. A continuous worm control program will also do away with these worms. Then there is the tapeworm, plus numerous other kinds of worms—all notorious enemies of poultry and all threats to your birds. Their very existence points out the need for effective worm control methods in modern day poultry raising.

Heavy infections of worms are especially harmful to the young, growing birds. Stunting of growth is a common effect of heavy infection.

To protect these birds, as well as the older stock, supplement flock treatments with regular cleaning of the premises, equipment, and shelters. Filth accumulates. Clean all equipment often and give your birds the benefit of a clean, sanitary home.

Burkburnett . . . History

Revealed By Star Files 10 Years Ago

Thirty members of the football squad of the Burkburnett High School made their annual trip to Diversion Lake Monday and Tuesday of this week.

S. A. King of Woodward, Oklahoma was transferred here this week by the M. K. & T. Railway Company to succeed the late J. W. Butz as agent.

Miss Jacqueline Kirsh, daughter of Mr. and Mrs. Charlie Kirsh, will receive her degree in nursing from the University of Texas Medical Branch in Galveston May 31.

Gordon Jeffers Graduated From Schreiner Institute

Gordon Frank Jeffers of Burkburnett was a member of the graduating class of Schreiner Institute from the high school department at commencement exercises held on Tuesday afternoon, May 30, in Robbins-Lewis auditorium. Almost 100 candidates received certificates or diplomas at the exercises.

Dr. James I. McCord, dean of the Austin Presbyterian Theological Seminary, delivered the baccalaureate sermon Sunday and the Rev. William Logan, pastor of the First Presbyterian Church of Kerville, delivered the commencement address.

USE T-4-L FOR ATHLETE'S FOOT BECAUSE . . .

Leonard Mattingly and Guy C. Pryor attended the Lions convention at Sweetwater this week.

Mr. and Mrs. W. B. Griffin owners of the City Barber and Beauty Shop have recently completed the remodeling and re-decorating of their establishment.

W. R. Hill, manager of the Burkburnett Chamber of Commerce, will be Master of Ceremonies of a special program honoring this city which will be heard over KWFT on Tuesday evening, at 7 o'clock.

Mrs. J. Barnett Is Honoree For Lovely Shower

Mrs. Jimmie D. Barrett, the former Miss Helen Lucille Lasseter, was named honoree at the delightful miscellaneous shower given at the home of Mrs. Frank Greer, 311 S. Ave. D.

Decorations in the party rooms followed a color scheme of pink and white. Of special interest was the gift table which featured a cover of pink and white crepe paper. The centerpiece was of pink and white larkspur in a beautiful white swan container surrounded by white satin ribbon frills.

The honoree was presented with an assortment of lovely gifts. She was also presented with a corsage of white carnations.

Mrs. Tom Boyd gave a clever reading. During the evening, party games were directed by Mrs. Greer and Mrs. Boyd. Included on the invitation list for the party were approximately 125 friends of Mrs. Barnett.

"The stormy March has come at last. With winds and clouds and changing skies." -Bryant

The month of March is commonly associated with high winds and violent storms but we in the insurance business know that there is not a month in the whole year which has escaped the fury of storms which have destroyed thousands and even millions of dollars worth of property.

Yes, no matter what the month or the section of the country, there is the ever present threat of destruction from the elements. Fortunately, you can guard against this peril and several others at small additional expense by having what is known as the Extended Coverage Endorsement added to your fire insurance policies.

May we tell you more about it?

E. L. Blum Gets Degree at Lubbock

Mrs. Minnie Blum has returned from Lubbock after attending the 24th annual commencement exercises at Texas Technological College. Ervin Blum was one of the class of 1091 to get his degree.

Preceding the exercises, Mr. and Mrs. H. D. Lewis of Dumas gave a dinner in the Yucca Room of the Herring Hotel in honor of their son, Henry Delbert, who was also getting his degree. Included in the guest list were their graduating relatives and their visitors, thirty in all: Henry Delbert Lewis, of Dumas; Ervin L. Blum, a nephew of Burkburnett; Betty Willis Southern, a niece of Amarillo; Leo Southern, nephew of Amarillo; Daniel N. Pope, a cousin of Alto, Texas; and Mrs. Marian Mayes of Lubbock.

Mr. and Mrs. C. W. Goins announce the arrival of a daughter, Sharon Elizabeth, born May 17th. Mr. and Mrs. Goins have a three year old son, Mike. Mr. and Mrs. W. E. Goins of Burkburnett and Mr. and Mrs. E. O. Saylor of St. Louis, Mo., are the grandparents.

Mrs. W. H. Lewis is spending awhile with Mr. and Mrs. H. D. Lewis in Dumas.

The SNAPSHOT GUILD

Are you a railroad enthusiast? Whatever your hobby, let your camera keep a picture record.

Combine Your Hobbies

ONE nice feature about this picture-taking hobby of ours is that it is not only fun in itself, but it can frequently be combined with many of our other hobbies. In fact, when this is done, very often the net result is that the two hobbies are enjoyed much more together than they would be individually.

One such use that many camera fans make of their photography equipment is in conjunction with their organized club and hobby groups. In the winter, skiing clubs take many pictures of their outdoor activities. These pictures are then used later on for a multitude of purposes—keeping a history of the group, providing club programs, decorating club rooms, etc.

For groups which operate in the warmer weather, there would, of course, be even more chance to make good use of their cameras. Hiking clubs, nature study groups, sailing enthusiasts, and many, many others could utilize their cameras for this purpose.

For individuals, too, the camera can be used in conjunction with other activities. There are certain types of hobbyists who are interested in things which just cannot be collected physically. The camera

would be invaluable to people who like trains, boats, trees, and other items which can be seen but not brought home except in pictures.

Then there are a lot of camera fans who use their equipment in conjunction with their handicraft work. Some keep progress records in pictures and others make photographs of the finished product. This is a good idea, especially where the item is expendable—like a model airplane, for example.

For most ordinary hobby work, your regular camera will work nicely. But for those who wish to go more seriously into picture taking with other hobbies, there is frequently special photographic equipment that can be very helpful. For example, for the fan who wishes to record his handicraft activities, a close-up attachment might be a valuable thing to have. So would a filter for fans who are looking for dramatic pictures of trains or boats.

Whatever your other pastimes, that camera of yours can frequently be of great assistance. And, as I pointed out earlier, the chances are that you will enjoy them both more if you use them together.

—John van Guilder

FARM FACTS

FARMING NEEDS SPRING CHECK-UP, TOO

by John M. Wear, Jr., Manager, Purina Research Farm (Gray Summit, Missouri)

Good farmers are continually checking their operations to find "leaks" that may be stealing potential profits. Even the best-made plans have to be revised, due to changing conditions. Smart operators see these signs of change and adjust their plans quickly.

Poor breeding stock is a robber of profits. Successful farmers buy stock on a quality basis, not on cost alone. A good breed improvement program is essential to high profits.

Disease is a heavy contributing factor to farming failures. Those who make full use of the services of competent veterinarians and plan specific disease control measures, such as vaccination and adequate sanitation, reap dividends.

Poor management is costly. Most farmers who go broke don't make big management mistakes, but they do fail to check a lot of small leaks. There must be a definite management program because operating just any old way to get by leads to failure.

Satisfactory profits are realized only when the right tool is used in the right amount at the right time. Good feeds and good feeding programs are tools used to produce profits. Poor feeds and feeding programs probably cause as many failures as any one thing.

Farmers whose herds and flocks are not producing to capacity should change to programs of better breeding, better management, better disease control and better feeding. When this happens, there will be fewer farm failures and more high profits, high standards of living, pride, self-respect and self-satisfaction.

Send your questions about livestock or poultry problems to FARM FACTS, 838 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

The SNAPSHOT GUILD

Here's a good picture you might make of one of your companions. This one was taken at 1/50 second at f/8.

Fishing with a Camera

THE camera doesn't lie—or so many people believe. You may know that there are ways to make it do so, but that's beside the point when you are using it to back up your fishing stories.

So now that spring has come and your day dreams are of rods and reels, bait and flies, think about tucking a camera into your gear the next time you go out. A compact miniature, loaded with either black-and-white or color film, will ride along easily in your pocket.

You won't lack subject material. You will have plenty of making a series of pictures that will tell an interesting story of where you fished, with whom you fished, and last, but not least, we hope, of the fish you caught.

I realize that the fish will be uppermost in your mind and that you won't have much concentrative power to spare; so plan to make

your picture taking as easy as possible. You can do this by selecting a standard exposure, according to the weather of the day, and sticking with it. If you're not always sure about your exposure, take along one of the very handy, inexpensive, pocket photo guides. Then all you'll have to do is squint at the sky, twirl the dial on the guide to existing light, and there you are with all your exposure information.

If the day is sunny, you can count on black-and-white shots with a setting of 1/50 at f/11. For Kodachrome film, 1/50 at f/8.3 is about right. If the sky is overcast, or you are shooting in the shade, keep the same shutter speed, but change your lens opening to f/8 for black-and-white and to f/4.5 for the color film.

Just remember, keep your camera dry—and, above all, don't get excited and drop it in the lake.

—John van Guilder

DEVOL NEWS

Clara Stofor

Mr. and Mrs. J. C. Cates returned home this week from a week spent visiting with relatives in Arkansas. Mr. Cates will be employed at the Shuhart elevator thru the harvest.

The recent rains delayed harvest but some of the machines are now in the fields, and with no more rain, the wheat will soon be in the elevators.

Mrs. Herb Cozby received word last Friday of the death of her niece, Miss Jo Ann Johnson. Miss Johnson was killed in a car accident near Sparks, Okla. Three others in the car also lost their lives. Jo Ann, 18, was a graduate of the Sparks High school, having received her diploma the previous Friday.

The Cotton County Chest X-Ray was in Devol Saturday A. M. and all day Monday. The response was fairly good, about 140 taking the test, but when you consider the result that may be obtained, without cost, from this service it is amazing how few avail themselves of such opportunities when placed at their door.

Mrs. Roy Stacy and daughters visited with her sister, Mrs. Homer Tanner and family at Sayre last week. Mr. and Mrs. Tanner and children accompanied her home and spent Sunday in the Cates and Stacey homes.

Mrs. J. T. Compton has returned to her home from the hospital and is reported some better.

Miss Jean Pettigrew of Lubbock, Texas, arrived last week and will spend a few weeks with her uncle and aunt, Mr. and Mrs. K. B. Uthe and her cousin, Patsy.

Sunday visitors in the Earl Palmer home were Mr. and Mrs. Cecil Taylor and daughter, Linda Rae.

Palmer home were Mr. and Mrs. Cecil Taylor and daughter, Linda Rae.

Mrs. Lysle Henifin and her daughter, Miss Sally of Kingman, Arizona, arrived Sunday to spend the summer with Mrs. Henifin's parents, Mr. and Mrs. Oles Stofor, and visiting friends in Oklahoma and Texas. Mr. and Mrs. Jack Jeter spent Sunday evening in the Stofor home.

Mrs. J. N. Loftin has been ill the past week. Mrs. Loftin spent a few days at the home of her daughter, Mrs. Rex Frye in Burk Burnett where she was under a doctor's care.

Mr. and Mrs. Dwayne Doty were Sunday visitors in Devol. They plan to attend school this summer.

Guests in the C. O. Woodley home Saturday night and Sunday were Mrs. Artie Allred and son Bobbie, Mr. and Mrs. Gordon Woodley, all of Electra, Texas.

Miss Dorothy Ann Davis, daughter of Mr. and Mrs. Joe Davis received her degree from Oklahoma Central Teachers College at Edmond, Okla., last Friday evening. Mr. and Mrs. Davis and Donald Ray attended the graduation exercises. Miss Davis will be employed at the Helton Elevator this summer, and will teach school this fall.

Mr. and Mrs. Vernon Lagrone spent Sunday with their daughter, Mrs. John Helms and Mr. Helms and granddaughter near Temple, Oklahoma.

Sgt. John Coker of Randolph Field, San Antonio, spent the week end with his parents, Mr. and Mrs. J. W. Coker and other relatives.

Mrs. Robt. Hopkins was admitted to the General Hospital in Wichita Falls for treatment. She has returned home, and is reported getting along well.

Mrs. H. W. Beasley is reported improved. She has been returned to her home at Burk Burnett.

Mr. and Mrs. Raymond Smart and son Charles spent the week end in the Ridley Odom home.

Mr. Buster Rogers visited in Lawton Sunday.

Visiting in the Ross Wright home Sunday were nephews of Mr. Wright, Calvin and Ross, sons of Mr. Emery Wright, of Odessa, Texas, and Mr. Ross' daughter, Dora Lu.

Mr. and Mrs. W. R. Hill visited in Weatherford over the week end, then went on to Dallas to attend the North Texas Conference of Methodist Churches. They returned Wednesday.

Mr. and Mrs. Doyle Stoker returned recently from a two weeks vacation which they spent visiting Mrs. Bill Stoker and children in North Carolina.

OUR DEMOCRACY — by Mat

'EARMARK' — A TERM THAT ORIGINATED LONG AGO WHEN, IN PARTS OF OUR COUNTRY, THE LAW REQUIRED FARMERS AND STOCKMEN TO MARK THE EARS OF THEIR ANIMALS SO THAT STRAYS COULD BE IDENTIFIED FOR RETURN TO THEIR RIGHTFUL OWNERS. LATER, THE TERM BROADENED IN MEANING AND TODAY WE SPEAK OF SOMETHING BEING 'EARMARKED' WHEN IT IS SET ASIDE FOR A SPECIFIC USE.

WHEN WE EARMARK A CERTAIN PORTION OF OUR INCOME REGULARLY FOR LIFE INSURANCE AND SAVINGS WE BUILD SECURITY THAT ENABLES US TO PLAN WITH CONFIDENCE AND ACHIEVE THOSE GOALS WE SET FOR OURSELVES AND OUR FAMILIES.

John E. Moreman Of Plainview Died May 24th

John E. Moreman, 72, brother of C. A. Moreman of Burk Burnett, died Wednesday, May 25th, following an illness of four months.

Funeral services were conducted from the First Methodist Church at Plainview and interment was made in the Strip Cemetery.

Moreman was a familiar figure in his boots and broad brimmed hat, as he had visited in Burk Burnett many times. He was possessed of a keen memory and loved to talk of early ranching days in the West. He was considered a fine judge of cattle. He was a life long member of the Methodist Church. Mr. Moreman had never married. He is survived by four brothers and 2 sisters.

Mr. and Mrs. C. A. Moreman attended funeral services and returned home Tuesday.

H. D. Smith and Soda Beldon went to Tichomingo, Oklahoma last Friday to spend the week end fishing. The water was too muddy for good results, but they did not come back empty handed.

OUR DEMOCRACY — by Mat

THE LABORER'S HIRE

THE BASIC TEST OF ANY WAY OF LIFE IS HOW IT PAYS OFF IN COMFORT AND WELL-BEING FOR THOSE WHO "DO THE WORK FOR WHICH THEY'RE PAID THE WAGE."

THE AMERICAN WORKER BENEFITS FROM THE HIGHEST STANDARDS OF LIVING AND FAMILY SECURITY IN THE WORLD TODAY. WITH THE EARNINGS OF AN 8-HOUR DAY, FOR EXAMPLE, HE CAN BUY MANY TIMES THE GOODS AND SERVICES THAT A WORKER UNDER COMMUNISM CAN FROM THE SAME AMOUNT OF WORK. HE ENJOYS THIS ADVANTAGE BECAUSE OUR FREE SOCIETY ENCOURAGES THE EMPLOYER TO DEVELOP NEW MACHINES AND IMPROVED PROCESSES SO THAT THE WORKER CAN PRODUCE MORE WITH A GIVEN AMOUNT OF LABOR — AND GET MORE FOR WHAT HE PRODUCES.

MORE IMPORTANT, TO HIS COMFORT AND WELL-BEING, IS THE FACT THAT THIS GREATER PRODUCTIVITY AND GREATER REWARD GROW LOGICALLY OUT OF THE AMERICAN WORKER'S FREEDOM TO WORK, THINK AND LIVE AS HE WILLS, WITH NO SHACKLES ON HIS SOUL, NO BARRIERS TO HIS OPPORTUNITIES.

Highway Department Operations Traffic Safety -- Center Lines

The Texas Highway Department is pulling no punches in an all out war on rural traffic accidents that enacted a toll of 1,395 lives, left an estimated 24,926 injured and maimed, and resulted in an estimated economic loss of \$43,710,600 during the year 1949. Taking not of this tremendous toll of human lives and property, a safety-conscious Highway Commission has decreed that every possible measure within the power of the Highway Department be applied to make Texas highways as safe as possible for all who use them. The decree of the Highway Commission was not an idle one; it was backed by an appropriation of \$500,000 for center lines, lane lines, and barrier lines for no-passing zones during the year 1950 alone. This sum will be applied on some 25,000 miles on the State Highway System on which the center lane lines are marked and about 23,000 miles on which the barrier stripes for no-passing zones are marked. These lines are just one of many weapons the Highway Department is employing in the battle for traffic safety.

Have you as a motorist ever thought of the meaning of center-line on a pavement should convey to you? It should tell you that the right-hand half of the road is yours; it should tell you that it was not put there as a challenge to your driving skill to keep one wheel on it; and it should tell you that when you cross it to overtake and pass another car that you should be sure the other half of the road ahead of you is clear.

Failure to observe the simple but important meaning of the center line can result in a tragic end for you. Last year (1949) on rural highways there were 3,625 accidents caused by the thoughtless drivers who were on the wrong side of the road, and they were not even in the act of passing another car—just driving on the wrong side of the road for no good reason whatever. These needless "on the wrong side of the road" accidents cost the lives of 253 people; maimed and injured 2,316 others; and caused property damage of \$7,927,400. Take a good look at that center line when you drive and think what it can mean to you.

And what happened to those who made a mistake in passing another car when the road way ahead was not clear? These mistakes cost the lives of 46 people; maimed and injured 462 others and added more thousands of dollars to the toll of property damage. It is not too hard for the average motorist to make a mistake in judgment on the distance ahead a roadway must be clear for him to overtake and pass the car ahead of him.

Take a look at the sketch showing the distance required for a car traveling 60 m.p.h. to overtake and pass a car traveling 50 m.p.h. when there is a car traveling toward him at 60 m.p.h. in the opposite lane—2,360 feet or 6 1-2 city blocks! If the car in the sketch had failed to complete his overtaking and passing maneuver safely and had met the opposing car head on at 60 m.p.h., the

Washington News Letter

(By Congressman Ed Gossett)

Washington, D. C., May 26th—In a newsletter of sometime ago, I promised to tell you of at least one reason why our China policy was not successful.

Today's newspaper carries a story that a Senate Committee has called upon Secretary of Commerce, Sawyer, to fire Michael J. Lee, (real name Leiberman) chief of the Department's Far Eastern Division. This man Lee, is a Russian Jew who was born in Harbin, Manchuria. He was reared by a Chinese communist family, his foster father, in fact, being a Chinese Ambassador to Moscow. Lee came to this country in 1934 or 1935 under the Chinese quota for white persons. Three times he was refused American naturalization. However, in 1941, he did secure his naturalization papers.

In 1943, Henry Wallace, then Secretary of Commerce, gave Michael Lee a big job and placed him in charge of the Far Eastern Division desk in the Commerce Department. No material could be shipped to China without an export license approved and granted by said Lee. Last year, China's Nationalist Military Mission in this country bought from the City Service Company, and paid for in American dollars, a large quantity of aviation gasoline. When they called on Lee for an export license, he demanded details on ships, planes, and other vital military information. He kept the Chinese Generals waiting for months until he drained out of them every bit of data he could, which presumably he sent to the communists. He then finally denied them an export license entirely.

Mr. Lee's record in Commerce developed by the collision would be as great as though one car had been driven off the top of a 21 story building. Head-on collisions are deadly!

Respect that center line and stay on your side of the road; cross that single center line to pass another car only when you are sure that the roadway is clear far enough ahead for you to do so safely, but don't ever cross that double center line unless directed to do so by an officer.

HERE'S A NEW WAY TO HEAR!

Let me prove it to you. Come in today and let me show you how well you can hear with the new Beltone. So stay in the car and let me show you how well you can hear with the new Beltone. It's unbelievable. No one can believe it. Just drop in. Hearing Book FREE.

merce reminds me of the record of the late Harry Dexter White, Economics professor who was Assistant Secretary of the Treasury under Morgenthau. White's name had been changed from Weiss. He too, was of Russian-Jewish ancestry. According to incontrovertible evidence gathered by the House Committee on Un-American Activities, he was a big cog in the Hiss-Chambers-Communist group. Dr. White, alias Weiss, was the father of the so-called Morgenthau plan, announced about a year before the war was over. The Morgenthau plan as you recall, was an announcement that we would insist on unconditional surrender of the Germans and would see to it that Germany was reduced to a pastoral country. The Morgenthau plan undoubtedly prolonged the war many months and has been a big reason why we have thus far been unable to win the peace. We are now trying to rebuild German factories which we helped destroy pursuant to the Morgenthau plan.

This week many papers carried a story of the arrest in Philadelphia of one Harry Gold who admits being a collaborator of the Britisher, Fuchs, in supplying atomic secrets to the Russians. Harry Gold's name was Golonditsky—doubtless also of Russian-Jewish lineage.

Let's not blame the Jews for this perfidious record. Most American Jews, like most of us, are good citizens. Russian Jews are of a different breed. Most Russian Jews are non-Semitic and have little or no Hebrew blood in them. They are of Mongolian origin. This, however, is too long a story to relate at this time.

My biggest objection to the extension of the DP Act is that it is being done primarily to facilitate the admission to this country of many thousands of Russian Jews who came from behind the iron curtain and into our DP camps, with the connivance of the communist governments, one year after the war

was over. Reports of progress in collaborating with Atlantic Past Nations is extremely encouraging. However, there are many obstacles to our making a real democratic ally out of Western Germany. First, is the Morgenthau plan above mentioned. Secondly, is the old problem of the French hatred and suspicion of the German people, and their reluctance to agree to the actual rehabilitation of Germany. Again, some tactless Americans have left the impression with the German people that we would not try to stop the Russians short of the Rhine. Intelligent Germans probably say to themselves: "If we are to be abandoned to the Russians immediately, perhaps we should have a communist party card in our pockets."

CHECK YOUR CAR • CHECK ACCIDENTS

est of all American institutions, the home. The security of the nation depends upon the strength of the home and the spiritual unity of its members. Harmony of thought and action go hand in hand with the practice of harmony in sound. School musicians advance into manhood and womanhood they will bring to their own new generation a deep understanding of the value of music in the home. Thus the full harvest of school music education is realized in a better understanding of worthy home membership.

Music is Worthy Use of Leisure

Of deepest concern to the educator and the parent is cultivation of useful habits for leisure time. Children are not bad by nature. Child delinquency is the result of poor planning of spare time. The ability to play a musical instrument is a wholesome lure to every leisure moment.

Music Advances Civic Education

The school band or orchestra is a laboratory course in self-government. Here, as in no other school activity, the will of the individual is subordinated to the good of the whole; as there is no IQ division of personnel in the community, neither is there such a division in the band or orchestra. The quick students play the simpler parts, but together they produce a well rounded performance. They learn to live with their neighbors.

Music Builds Ethical Character

Group playing of musical instruments is a rigid disciplinary, demanding industry, punctuality, honesty and integrity from every student who takes part. Upon the shoulders of each individual in the group lies personal responsibility for successful performance of the group. Self reliance, respect for authority, cooperation and leadership are cardinal principles of good character that are learned through music.

Kyle Vick Favors Land Program For The Veterans

An additional issuance of \$50,000,000 bonds for the Veterans' Land Program plus additional appropriations for increasing the staff of the office to facilitate the handling of loan requests will be urged before the next legislature by Senator Kyle Vick of Waco, candidate for Lieutenant Governor of Texas. "This increase in bonds and staff allotments can be handled without a penny cost to the Texas taxpayers," Senator Vick said. "Of the \$25,000,000 bonds issued last year, \$5,000,000 have already been used, another \$10,000,000 in bonds have been cashed, leaving only a \$10-

Music Valuable In Developing School Children

The playing in the Band and the training gotten there upholds and uses more of the basic objectives of Education than most any other subject or activity. Here are the objectives and how they are put to use in the study of music or band and orchestra.

Music and the Basic Objectives of Education

Music contributes to health. The playing of a musical instrument contributes to the healthful development of the growing child through two channels — the body and the mind. The very habit of playing an instrument compels him to sit erect, with shoulders back, head up, feet squarely on the floor. This correct posture becomes his natural posture.

The playing of music relieves nervous tension; it helps the student forget himself and his troubles and gives him a satisfying sense of well-being.

Music Develops Command of Fundamental Processes

Playing a musical instrument develops accurate coordination of eyes, ears, lips, tongue, fingers and breathing. The musician must read the note; he must think the tone, the pitch, the time, simultaneously with the physical operations of fingering and blowing. He must think expression, phrasing, rhythm dynamics. He must watch the conductor and interpret his thinking. He must keep time and maintain a subconscious alertness to every other part and player in the group.

Music is A Profitable Vocation

The demand for teachers of music is increasing every year. Composing, arranging, song writing have become so important to entertainment productions that musicians are specializing in these fields. Radio, Television, recording and motion pictures employ thousands of well-paid musicians.

Music Prepares for Worthy Home Membership

The primary social problem today is to preserve the great-

est of all American institutions, the home. The security of the nation depends upon the strength of the home and the spiritual unity of its members. Harmony of thought and action go hand in hand with the practice of harmony in sound. School musicians advance into manhood and womanhood they will bring to their own new generation a deep understanding of the value of music in the home. Thus the full harvest of school music education is realized in a better understanding of worthy home membership.

Some Veterans' applications have been in the mill for from six to eight months with no action in sight. "This is not the fault of the Veterans Land Board," Senator Vick emphasized. "The staff is just not large enough to take care of the flood of loan applications, and the original bond issue will not be sufficient to cover all applications."

The Veterans' Loan Bill authorized the issuance of \$25,000,000 in State bonds to cover loans to GI's of the last war for the purpose of buying farm and ranch loans. Veterans may borrow as much as \$7,500, less a 5 per cent down payment at 3 per cent interest for a 40-year period. The loan is repayable in monthly installments.

Mrs. G. W. Ferguson has returned home after visiting in Houston with her daughter, Mrs. D. C. Lowery and family.

Miss Dorothy Ellen Boyd, bride-elect of Bill Matthews of Dallas, was complimented with a delightful miscellaneous shower given Friday evening in the Wesley Room of the First Methodist Church. Hostesses for the affair were: Mesdames Joe Nichols, Sam McCafferty, Will Teal, Ray Mills, C. R. Chambers, J. W. Roach, Coy Jones, F. E. Cruce, Lester Coats, O. E. Melton, W. A. Roberts, Will Elkins, Sid Gamblin, J. M. Pogue, A. A. McKinnis, R. D. Revier, G. W. Fleming, B. H. Preston, J. H. Cecil, E. W. Roderick, A. H. Lohofener, Joe Slama, Leslie Tuel, J. V. Brookshear, Wiley Browning, Lee Johnson, G. C. Rankin, Jim Pirtle, Jim Morris, Truett Majors, W. A. Minick, Monroe Prinzing, Blake Browning, Paul Stevens, J. M. Patterson, Joe Majors, J. M. Goins and Miss

Ethel V. Allen.

Colors of green, yellow and white were carried out in the flower arrangements placed in the party rooms. The refreshment table was covered with a lovely lace cloth and was centered with a beautiful arrangement of mock orange, daisies and roses. Streamers of wide white satin ribbon with gold letters inscribing "Bill and Dorothy" were used to complete the table arrangement. Mrs. F. E. Cruce presided at the punch bowl, and Mrs. Joe Nichols and Mrs. O. E. Melton served the cake. Mrs. Harlan Eades secured names of the guests for the bride's book. Mrs. E. W. Roderick presented Miss Nathalie Foster in a solo accompanied by Mrs. Geo. Yarbro. Miss Alice Millikin sang "Through The Years", also accompanied by Mrs. Yarbro. Miss Grace Revier gave the presentation of gifts reading. This reading was written for Dorothy by Mrs. Yarbro. The

honoree was presented with a shower of useful gifts by the guests.

She also received a beautiful set of China from the hostesses. Seventy-five friends of the honoree attended the party. Members of the Mary Hardin Circle of the First Baptist Church met in the home of Mrs. Q. L. Howard for their Mission Study last Thursday night. The study was directed by Mrs. Loretta Hunt. Refreshments were served to: Mesdames Loretta Hunt, Thelma Newton, Nelda Frye, Evelyn Klantchneck, Ruth Hattaway, Mae Welborn, Anita Dowdy, Marjorie Pierce, Virginia Simpson, Joanna Presley, Helen Grizzle, Shirley Malone, and the hostess, Mrs. Howard.
