BURKBURNETT, WICHITA COUNTY, TEXAS, THURSDAY, SEPTEMBER 18, 1952

NUMBER 9

Mrs. Douthitt Henrietta Queen To T - O Fair

Mrs. J. W. Douthitt has been selected as Clay County Pioneer Queen to represent Clay County at the Texas-Oklahoma Fair on Pioneer Day.

Mrs. Douthitt was born in 1874 in a log cabin in Johnson County where Cleburne is now located. She was married in 1893 to Joseph White Douthitt and began her long married career in frontier Clay County in a small box house. She learned to meet the emergencies, failures and disappointments of farm and ranch life with fortitude, courage and optimism. She and her husband's willingness to work long and arduous hours brought them success and from this humble beginning established the large ranch still owned and operated by Mrs. Douthitt and her family.

Mrs. Douthitt has had a book published, "Romance and Dim Trails" which concerns the pioneer days in Clay County.

"Kangaroo" Made In Australia, At Palace Fri.-Sat.

Travelling 9,000 miles to film KANGAROO, (The Australian Story) its Technicolor production of the dangerous life on a large "cattle station" or ranch in Australia, 20th Century Fox set new production precedents. The picture, which will run at the Palace Theatre on Friday-Saturday, is the first full-length Technicolor movie to be made in Australia and it also is the first film to be made in the last discovered, yet ancient continent, by a major American studio.

Maureen O'Hara and Peter Lawford, the stars, traveled by air, boat and motorcade to reach the location where they spent seven months filming the picture.

Thaxton Motor Co. Furnishing Pickup

The 1952 model GMC pickup truck that will be used this year by the FFA was donated by Thaxton Motor Company as a courtesy service. It is used to haul the livestock and for the trips to the fairs along with many other causes.

The members of the FFA and their leader wish to express their gratitude to Thaxton's for this service.

These tickets will be used in making awards which include a Coffee Maker, Toaster, Radio, 100 per cent Wool Blankets, Three Table Lamps, Nylon Hose, and a Red Wagon. The new store is self-service, with everything fresh and new and clean, out in plain view for easy shopping.

The building has undergone considerable remodeling in the past few weeks. New front, new floor, walls and ceiling repaired and painted, and all fixtures are brand new.

Open hours are 8:00 A. M. to 9:00 P. M. every week day.

The new store will carry a complete line of Variety Store merchandise, Dry Goods, including children's wear, Housewares, all types of cotton fabrics, and a Horticulture and Plant Dept. second to none. According to Mr. Allen, the store features prices cheaper than those found in Wichita Falls.

Butler's 5 and 10 will be managed by Mr. and Mrs. P. K. Allen, who for the past 3 1-2 years have made their home in Wichita Falls. Upon first coming to Burkburnett the Allens purchased a home at 706 Reagan Street. They have one child, Mickey, 3 1-2 years old.

Mr. Allen is a Texan, born in Hunt County. He attended the public schools in Dallas and is a graduate of SMU. He has been associated with the W. T. Grant Co. since 1933, except while serving four years in the Finance Dept. of the Air Force, 1942 through 1945. While with Grants, Mr. Allen served in 26 states, from California to Ohio, with many years spent in Texas in most all the principal cities.

Mr. and Mrs. Allen are members of the local Methodist Church, and Mr. Allen will move his Lions Club membership from Wichita Falls to Burkburnett.

Mrs. Joella Terrill Butler, for whom the store is named, lives at 2000 Elizabeth St., Wichita Falls. She has resided in Wichita Falls since 1915, going there from Henrietta. She was engaged in the general insurance business before entering the oil business in 1924. She owns and operates producing leases in Wichita, Archer, Shackelford and Throckmorton counties.

Mrs. Butler will not be a newcomer to the business circles of Burkburnett, as she has owned some farms real near the town, and owned and operated the shallow oil field near the Cashion School for several years.

Mrs. Butler has taken a great interest in all the civic affairs of Wichita County for the past several years; is serving her 7th year as President of the Wichita County Tuberculosis Ass'n. She is on the Board of Directors of the Community Chest, the Colored Day Nursery, the Mexican Day Nursery, the Young Women's Christian Ass'n., and the Altrusa Club. She is a member of the Highland Heights Christian Church, the Woman's Forum and the Chamber of Commerce. Mrs. Butler is a member of the Solicitations Control Board of Wichita Falls. In 1946 Mrs. Butler was the recipient of the Altrusa Club's Civic Award for meritorious services for that year.

Mrs. Butler feels that there are great business opportunities in the City of Burkburnett and its trade area. "I am very proud to be associated with Mr. and Mrs. Allen in this business venture." Mr. Allen's broad experience in this field has made him one of the most outstanding young merchants in the Southwest. He and his family will soon become a real part of Burkburnett's civic and religious activities as they have long admired the town and this is the realization of a dream," Mrs. Butler stated.

TOMORROW'S LARDER

For thousands of years hay and forage, man's oldest crops, have been taken for granted. Grass, like Topsy, just grew. But now with a steadily increasing population and the national appetite accounting for about 60,000,000 pounds of meat a day, it's time to put into practice some of the things that have been learned about pasturage in order to meet this country's vast future needs for livestock products.

Research in this important branch of agriculture has been going on for less than 20 years—a relatively short time. Yet with what has been learned, the productivity of our billion-plus acres of grassland could be boosted by two to six times. According to a recent article in Country Gentleman, cattle and sheep could be increased in the West about 50 per cent, in the North Central and Northwest 240 per cent, and in the Southeast 475 per cent.

The farm implement industry has made a tremendous contribution to grassland farming through the development of ingenious machines which save labor and make possible higher yields at the same time. Much of the back-breaking work has been taken out of getting in the hay with the development of field pickups, balers, choppers and blowers. Expensive \$1.00 a pound ladino seed can now be harvested with an amazing self-propelled thresher which picks the clover up off the field, threshes it, cleans the seed, and saves straw for a second run. To top it off, a huge vacuum attachment goes along behind to pick up any seed that may be left on the ground. Use of such machinery has boosted output by as much as one-third.

The problem of feeding America's millions in the future years is being solved ahead of time. A climate of freedom is the best tonic for individual achievement. This is the sparkplug of any business enterprise and agriculture is no exception.

Prices and Wages Move Together

Many of the complaints about high prices stem from too limited a perspective. We see the price tag on some article and kick about it—but we fail to take into consideration the great rise in the income of the average family that has accompanied inflation.

Since 1939 the total number of dollars in circulation has tripled. When increased productivity on the farm and in the factory is balanced against this fact, we find that there are nearly twice as many dollars per unit of goods as there were then. So each of those dollars buys only about half as much in the way of goods.

But most of us have many more fifty-cent dollars to spend than we had 100-cent dollars in the old days. The result is that, in the majority of cases, purchasing power has actually risen even more than prices.

Meat is a good example. Considerable consumer resentment has been expressed against current levels of meat prices. Yet a short time ago a Senate committee reported that the average manufacturing employe can buy as much round steak and 29 per cent more pork chops with an hour's wages than was possible in 1947-48. It further reported that this average worker can buy more of all the important foods with an hour's wages than in any earlier peacetime period, including 1935-39 and 1925-29.

The point is that there is a very definite relationship between prices and average wages and family incomes. As a general rule, they rise or fall together.

GRASS ROOTS OPINION

OSKALOOSA, IOWA, DAILY HERALD: "It will be a great day for this country when a man's freedom of choice as regards union membership is as zealously guarded by labor leaders as they guard the right to strike."

DOVER, DELA., STATE NEWS: "While the Federal government is aggressively carrying on a campaign for comprehensive and liberal social security, it has been undermining the foundation of the program by diluting the purchasing power of the dollar through deficit financing during eighteen of the past twenty-one years. By following unsound fiscal policies, the government is making it increasingly difficult for the American people to provide for their own security, and this in turn compels them to turn to the government for aid."

EMPORIA, KANS., GAZETTE: "All of us today are suffering from too much 'taking away' and none of us like it. The next pay envelope or pay check you receive will reveal what we mean. Take a look at the amount of Federal withholding tax which the government tells your employer must be 'taken away' from your earnings and the shrunken condition of your take home pay, and you'll join with everybody—even with the Demo politicians, the big city machine bosses, the New and Fair Dealers, the Palace Guard and the social planners in hollering loudly, 'Don't let 'em take it away.'"

SOMERSET PENNA., DAILY AMERICAN: "It is

time that the line should be drawn between Americans who believe in individual liberty and those who believe in human slavery; those who believe in freedom and those who believe in governmental controls, those who follow the precepts of the Founding Fathers and those whose eyes turn towards Moscow."

Ben L. McDonald Retires Due to Ill Health

Ben L. McDonald, who has worked at the Burk Star for several years, was forced to retire last week due to ill health. He plans an extensive rest and will take some health treatment in South Texas in the near future.

The entire staff at the Star office will miss Ben and hope he is enjoying better health real soon. Ed's Note: A good many years ago Mr. McDonald owned the Burk Star, and once you get printer's ink on your hands, it's hard to forget the print shop.

Several years ago Ben came by the office and said he'd like to work one day a week, or two, or three—it didn't matter—just couldn't stay away from ink any longer. Ben didn't need to work for the money, other interests took care of that, but his one or two days a week turned into five days a week as business at the Star expanded. Ben make a faithful, dependable hand. We'll really miss him!

Officers for FFA Elected Friday

The officers for the coming year for the FFA were elected at the first meeting held last Friday. They are as follows: President, Donald Young; Vice-president, Donnis Kasper; Secretary, Billy Arrington; Reporter, Gaylan Siber; Treasurer, Bill Lundberg; Sentinel, Bill Jennings; and Advisor, J. Albert Lancaster.

Mrs. Sam Wood and Charlie Martin and wife were visitors in Old Mexico this week. They will return to their homes here Friday.

Hardin Grade School News

We have enjoyed the weather very much this week. It has not been so very unpleasant inside the building.

We had our first chance to buy defense stamps this past Wednesday. Several of our boys and girls bought stamps last Wednesday. We are sure there will be many more to join them next week. A stamp a week will soon grow into a U. S. Defense Bond.

We would like for you to know another one of our teachers. This teacher is Mrs. Othello Hooker. She taught last year at Union Valley, Oklahoma. She is the new teacher in section three of the second grade. We are glad to welcome her over from Oklahoma and wish for her a very pleasant school year. We would like for you to come by and meet Mrs. Hooker.

Mrs. John Shields was returned to her home in Burkburnett last week from the Wichita Falls General Hospital. Her many friends will be happy to learn that she is doing fine.

Pride and Fear

Journalism Class Met Thursday

The journalism class at Burkburnett High school met Thursday with Mr. Saunders of the Taylor Publishing Company, to make plans for the 1953 Derrick. Mr. Saunders made a brief talk to the class and demonstrated the new system recently created to make it easier to put out an annual. Mr. Saunders had a brief discussion with Jim Whitaker, journalism teacher, and Don Blackwell and Norman Dodson, associate editors. The class will begin work on this year's Derrick about the latter part of next week.

PUBLIC POWER FOR BETTER LIVING

Burkburnett Municipal Light Plant

Wichita County, Texas

As this was the first meeting of the group, it was mostly social, but much interest and enthusiasm was shown for the coming year's activities. Immediate plans are being made for the Side Walk Art Show. Date of the show will definitely be announced after the next meeting on September 18th with Mrs. Margaret McCabe, hostess. Entries for the show may still be sent to Mrs. Virginia Sheriff.

Representatives of Gardens Club Met To Form Committee

Representatives of the Unity Garden Club, the Blue Bonnet Garden Club, and the Burk Burnett Garden Club met in the home of Mrs. Milton Archer to form a temporary civic committee. Mrs. Ralph White was elected chairman of this committee.

This group was formed to make plans for the betterment of the clubs and the city. After the clubs year's work starts it is hoped to make this committee a permanent working organization.

Those present were Mesdames Bertha Johnson, Virgie Reeves, B. M. Cauthorn, Ralph White, W. B. Short, J. Troy Miller, C. M. Archer, A. L. Gilbow, Carl Morrison, Tom Britton, Tom Boyd and Jude Willingham.

We wish to stress an open membership invitation to all who are interested in this type of work. Call 367-W for information.

Those enjoying the lovely hos-

pitality at this meeting were: Mesdames Margaret McCabe, Madolyn Hill, Katherine McKinis, Maude Bohner, Velma Bohner, Elma Kelley, Vivian Cannon, Gayle Devriese, Grace McIlheran and the hostess.

30 per cent Are Violating Rent Law

Approximately 30 per cent of the landlords in Wichita County are violating federal rent laws, according to partial results of a county-wide rent compliance survey released last week.

Henry Goeman, acting area rent director, said the survey has been under way for the past three weeks and has yielded 3,000 answers. Approximately 900 of these show alleged violations of one type or another.

However, Goeman added, after re-screening of the survey forms is completed the number of actual violations probably will total only about ten per cent. This assumption was based on results of a similar survey recently completed in Lawton, Oklahoma.

"Mistakes are often made by tenants in filling out the forms, indicating violations which are later found to be unfounded," he said.

Violations have fallen into 3 brackets: (1) Overcharge on rent rates set up by the area rent office; (2) Non-registration of rental property; and (3) evidence of security deposits taken

by landlords. The survey was ordered last month by the Wichita County rent advisory board and has been conducted by personnel from the regional office in Dal-

las. Approximately 5,000 responses to the survey are expected. Goeman, a regional officer, is replacing Andrew E. Gilbert, area director, who is ill.
