BURKBURNETT, WICHITA COUNTY, TEXAS, THURSDAY, OCTOBER 7, 1954

NUMBER 12

Chamber of Commerce Luncheon Each Second Monday at Town Hall

You can always get credit quickly and easily if you can prove that you don't need it.

When you embark on the sea of matrimony, you sail with the tied.

Mass Meeting Monday Night 7:30 P. M.

Program of Work To Be Planned By Citizens

The Chamber of Commerce has called a mass meeting of the citizens of Burk Burnett at Town Hall, 7:30 P. M., Monday, Oct. 11.

A lightweight coat is a necessity for summer-into-fall wardrobes. To fill this need, designers have come up with the answer in coats like this denim duster, the National Cotton Council reports.

Barbecue Supper Honors Dave McNeill Retired From City

A party of unusual interest held last Thursday night at the City Light Plant when City employees got together for a barbecue party honoring Dave McNeill, retired from the City for 32 years.

Lions Sponsoring Rummage Sale October 20th-23rd

The Burk Burnett Lions are going to throw one of the biggest rummage sales ever staged in this city.

This rummage sale is different from any ever given here. This one will include everything—clothing of all kinds, all kinds of yard and garden tools, all kinds of furniture, bicycles, toys—just anything that can be found.

Now is a good time to clean out your attic, cellar, clothes closets. Give what you don't need or want to the Lions Club.

Phone 52 or 300 if you have something the Lions can use in their rummage sale.

Mrs. H. S. Thaxton Study Club Hostess

The Contemporary Study club held its regular meeting in the home of Mrs. H. S. Thaxton Thursday night, Sept. 23.

The club has enjoyed outfitting several boys with their gym clothes for school.

Delightful refreshments were served to the following members: Mesdames Francis Beaver, G. C. Beaver, J. L. Bills, F. A. Eastman, Harry Elliott, W. C. Flanagan, E. M. Kinnett, John V. Lilley, Jim Maag, C. A. Smith, H. S. Thaxton, Cliff Wampler, P. O. Wise and two visitors, Mrs. Marlene Cheney and Mrs. Helen Reed.

T. E. Oglethorpe New Manager of Burk C. of C.

Tommie E. Oglethorpe, of Groesbeck, Texas, is the new manager of the Burk Burnett Chamber of Commerce.

Mr. Oglethorpe, 35 years of age, is a graduate of Baylor University, 32nd Degree Scottish Rite Mason, member of the VFW and American Legion.

Mrs. Oglethorpe, Addie Mae, is a member of the Baptist Church and Order of the Eastern Star. Mr. Oglethorpe is a member of the Episcopal Church.

The new manager took over his duties the first of last week. He has been very busy in the office since arriving here, but he is anxious to meet every one and as time permits he will be out in town talking Chamber of Commerce work and becoming acquainted.

Revival Services Nazarene Church October 13th-24th

REV. JAMES HOLMAN

An evangelistic revival at the Church of the Nazarene, will start Wednesday, October 13 and continue through to October 24. Services daily each evening at 7:30 p. m.

Rev. James Holman, of Kansas City, Mo., has recently entered the field of full-time evangelism in the church of the Nazarene.

Mr. Holman is not only a preacher of unusual ability, but is also a tenor soloist and song leader. A dynamic speaker, he presents vividly the need of salvation and heart purity.

After graduation from Olivet Nazarene College, Kankakee, Ill., and Nazarene Theological Seminary, Kansas City, Mo., Mr. Holman pastored at Shenandoah, Iowa; Post, Tex., and Hillsboro, Tex. During his school and pastoral years he was active in musical groups and revival work.

Almost 1 In. Rain Since Saturday

According to a reliable rain gauge out in Rose Lawn, Burk Burnett has received almost one inch of rain since last Saturday. A little over one-fourth inch fell Monday afternoon. A good one-half inch came Tuesday night.

NOTICE

Tonight (Thursday) at 7:30 The American Legion will have a family night at the Legion Hall for Legionnaires, their families and guests.

ROTARY CLUB

Each Tuesday Noon Town Hall

Mr. Henry Grace of Wichita Falls was guest speaker at the regular noon luncheon of the Rotary club Tuesday.

Robert Carlton Thetford, 17, son of Mr. and Mrs. J. D. Ashton, Route 1, Burk Burnett, and Ruel Spillers, 20, son of Mr. and Mrs. Lee Spillers, 421 W. Main, Burk Burnett, are completing their Air Force basic military training course at Lackland Air Force Base, the "Gateway to the Air Force," at San Antonio.

Burkburnett Boys Completing Training At Lackland AFB

Lackland, situated near San Antonio, is the site of Air Force basic military training for men and women, headquarters of the Human Resource Research Center, and home of the USAF Officer Military School.

The meeting opened with prayer followed by song. Miss Clara Schulz, president, presided during the business meeting.

The Daisy Home Demonstration Club of Randlett will open their new kitchen at the Burk Burnett Sales Barn this Saturday, October 9th.

215 Bales Cotton Ginned to Date

Paul Hooper, manager of the Farmers Co-op. Gin announces only 215 bales of cotton ginned from the 1954 crop.

NOTICE

The Daisy Home Demonstration Club of Randlett will open their new kitchen at the Burk Burnett Sales Barn this Saturday, October 9th.

NOTICE

Circle No. 1 of the WSCS of the Methodist Church will meet with Mrs. Paul Browning, 506 Magnolia, on Monday, October 11th at 2:30 P. M.

PALACE Theatre — Friday & Saturday

Robinson Crusoe (Dan O'Herlihy) meets Friday (James Fernandez) in the United Artists release "ADVENTURES OF ROBINSON CRUSOE."

C. of C. Directors Meet Tonight, 7:30

President Buddy Byars has called a meeting of the Directors of the Chamber of Commerce for Thursday night, October 7, at the C. of C. office at 7:30 P. M.

It is most urgent that all directors be present. This is the first meeting with the new manager, Tommy Oglethorpe and one very pressing problem concerning all Burk Burnett will come up for discussion.

Look Forward to December 9 & 10 "Christmas Around Town."

Burk Masters Nocona 26 to 7

Burkburnett's Bulldogs are batting .500 for the season. They won the game from Nocona here last Friday night 26 to 7.

The opening game was won at Bowie, then the team lost to Holliday and Iowa Park in succession.

Burk was able to score in each of the four quarters last Friday night against Nocona. Nocona's lone score came in the second quarter.

In the first quarter Gerry McCabe passed to Dale Boren for 13 yards and a touchdown. Louis McDonald kicked the extra point with McCabe holding.

The second touchdown came in the second quarter when Jackie Wright went over left tackle from the 4 yard line. McDonald missed the extra point try.

Nocona scored in the second period of play when David Waldrip went around right end from the 2 yard line, Jim Storey booted the ball over for the extra point.

Little Leslie (Snake) Terry was responsible for the Bulldogs' 3rd tally in the 3rd quarter. He out ran the defense around right end for 13 yards and a touchdown. McDonald again missed the kick after TD.

Jackie Wright, playing at a new position in the backfield, crashed through left tackle from the one yard line for the final score. McDonald's aim was good for the extra point try, making the score 26 to 7.

This Friday night the Bulldogs have an open date. Next week they go to Jacksboro.

Farm to Market Road Work Set

The Texas Highway Commission has taken the first step to inaugurate a new two year Farm-to-market Road Program for Texas. E. H. Thornton, Jr., chairman of the Texas Highway commission stated that the funds for this program are being derived from the Federal Aid Highway Act of 1954, matched with State highway funds on a dollar for dollar basis.

L. B. Dean, District Engineer of the Texas Highway Department at Wichita Falls has stated that the following farm-to-market roads in this area are scheduled for work under this program:

From end of F. M. Road, 1206 northeast to F. M. Road 368, a distance of approximately 3.2 miles.

From State Highway 258, north to proposed F. M. Road at Valley View, a distance of approximately 1.2 miles.

Total in Wichita County, approximately 6.4 miles at an estimated cost of \$54,400.00.

Mr. Dean stated that this year the Commission has authorized the development of some area roads which will serve the dual purpose of service to the adjacent land as well as aiding in the development of the entire area of the state.

Burk Land Judging Team Wins Honors

The Burk Burnett FFA chapters land judging team received honors at the Texas-Oklahoma Fair in Iowa Park recently. Joe Musgraves won 4th and Norman Morgan won 5th. The team won third place and received a plaque for their high team score. Musgraves and Norman received medals for individual accomplishments. Others on the team are Jerry Gee and Guy Bilyew.

Note of Appreciation

I want to take this method of thanking the Men's Bible Class of the First Baptist Church, the Rotary Club, Bell Pipeline office, and each individual who sent me the beautiful flowers, cards, made telephone calls and visited me while I was in the hospital and while at home recuperating from a recent illness. The people of Burk Burnett have been wonderful. Thanks a million.

BARNEY LANDERS 12-11P

Lone Star Exhibit At Dallas Fair A "Must for Men"

Lone Star Gas company's 1954 Texas State Fair exhibit is a "must for the menfolk."

When the gates opened Saturday, a special "just for pappa" display had them tugging their wives in the direction of the gas exhibit building. And it isn't often that the man of the family does the tugging.

But this year 3.5 million readers of American Home, the magazine devoted exclusively to the do-it-yourself theme and home decorating and furnishing ideas for the entire family, are reading about the Lone Star exhibit.

The pages of American Home's October issue have come to life for those fortunate ones close enough to visit the Fair, in the two outstanding kitchens being featured by Lone Star, and in that workshop hobby room described as "poppa's domain."

The hobby room has one brick wall insert with gas-fired barbecue and an in-a-wall oven. It also boasts a wood burning fireplace, beamed ceiling, gun display rack, drink mixing center and ranch type furniture. There is also an area devoted to woodworking tools and work.

When pappa has feasted his eyes on this roomful of ideas strictly of masculine, gender, then mamma can lure him back into the building area featuring the two American Home kitchens.

Designed and arranged under the direct supervision of American Home editors who were in Dallas last May, they include the Bluebonnet kitchen featured in the national magazine's October issue, and the Mengel issue to be featured in November.

"Down in Texas they cook good, eat good, live good and look good," states the magazine caption introducing the Bluebonnet kitchen to American Home readers. "American Home editors designed the kitchen for the Lone Star Gas company, who built it at the Texas State Fair grounds where you can see it, if you live anywhere near Dallas during Fair time, October 9-23.

Pictures made in Dallas of the Bluebonnet kitchen are featured on the cover and three inside pages of the October issue. Models for the pictures were Aubrie Owens, Lone Star's display supervisor who installed the kitchen, and Joyce Hargrove, Dallas Division home economist who will be on duty in the kitchen during the Fair.

Both display kitchens carry out the theme of family activity centered in this important room of the house. The Bluebonnet kitchen includes a dining area and a gas rotisserie set in one brick wall. A hinged snack shelf that folds against the work counter which divides the room, can be used for children's after-school snacks. The main work center features a Universal range and Serval refrigerator, also St. Charles cabinets.

The Mengel kitchen has natural birch, wooden cabinets. Roper built in oven and separate burner section into one work counter. There is a Hobart dishwasher. In the living room area one finds a small table model television set, bookshelves and china cabinets. Furniture is contemporary and the translucent glass window is fronted with staggered shelves for homemade glassware displayed there.

The entire exhibit carries out the American Home editorial theme. At the grand entrance is a stylized framing carrying out the art theme of the magazine. In the reception room a new mural has been painted on the semi circular south wall and the room features a general display of gas clothes dryers, water heaters and other gas appliances. Serval refrigerators have their place in the spotlight facing a plain, symbolic S surrounded by ice circles, in one of the hall cubicles.

For the man of the house, it's the "Just for pappa" room.

WHAT MAKES "PROGRESS" TICK?

Just 100 years ago, the clipper ship "Flying Cloud" broke a speed record by sailing from New York to San Francisco in 89 days. Just the other day, Captain Edward W. Kenny, of the US Air Force, flew from Edwards Air Force Base, Calif., to Dayton, Ohio in three hours, 1 minute and 56 seconds. This, you might say is an example of progress—even though many people would still rather sail than fly.

But the best example of progress lies in the fact we have in the past century built a completely new world for ourselves, in health, in education, in living standards, in leisure and the means of enjoying it—all without losing our right to sail or to fly as we choose—or to do anything else we like so long as it doesn't interfere with the right of somebody else to do likewise.

We did this by stoutly maintaining the novel structure of government that our forebearers drew up for us in the Constitution; and guarding along with our political liberties the system of free enterprise, in which, paradoxically, by working for ourselves, we find ourselves working for everybody else.

As a reminder not only of what we have achieved, but of how we have done it, the more than two million Americans who produce, refine, transport and market our oceans of petroleum products have declared October 10 to 16 to be OIL PROGRESS WEEK. Their theme for this year's annual observance is "Competition", and what it means to the whole 160 million of us whose way of life is so dependent on this industry to the whole 160 million of us whose way of life is so dependent on this industry today.

Oil men would like to remind those who might guess there are a dozen or fifty oil companies in the US that there are something over 52,000; that this American industry that almost single handedly fueled and lubricated the mighty allied war machine of World War II represented 13 billion dollars in plant and equipment, and has spent more than 28 billions since that time in further expansion and development.

Only competition can produce such a mighty ferment all to the end of giving us consumers something better than the other fellow has to offer, or making it more convenient or more pleasant to buy it. And it is a force coequal with the competition for our votes by those who would represent us in the State and Nation. The one safeguards our progress. The other guarantees our freedom.

Competition is far more than "the life of trade." It is the life of this nation, as we have always known it.

Modernize Existing Roads First

In recent national discussions of the need for improving our road system, the major emphasis has been on building new super speedways. Such roads are valuable in getting us safely and quickly across long stretches of country. But even more important are the roads we use every day, roads we travel many times in the course of a week, in the immediate vicinity of our homes.

Improvement of these roads to make daily travel expedient and safe is the greatest need in planning for the handling of traffic.

The President's Highway Safety Conference has pointed out that, "Without question, the most disturbing aspect of the highway accident picture today is the mounting of rural fatalities." In 1953, the National Safety Council reports, 71 percent of the fatal motor vehicle accidents occurred in rural areas. Of these, two and a half times as many occurred by night per mile travelled, as by day, because the motorist couldn't see the hazards of the road ahead. Roads built during the days when few cars ventured out at night need modern reflectorized signs and markers, fully reflectorized for night visibility, to guide the millions who drive them during darkness.

Improvement of our rural road system right now would cost only a fraction as much per mile as new super-highways.

Highway officials report the most important general improvements needed today are widening of roads, elimination of dangerous curves, resurfacing, and proper and wider use of signs for safest and most efficient guidance of traffic in both daytime and nighttime. Proper signs and hazard markers alone could do much to make our roads safer and easier to travel, for a minimum amount of money. If we can't immediately eliminate the hazards of our roads because of costs, we can at least put up the kind of signs and markings we need to warn of hazards, reflectorized signs that will give us full protection at night as well as during the day.

Burkburnett School News

High School News

Patrolman Shields spoke to the high school on safety. It was very interesting. He warned us to be careful on the highways and on the city streets when driving. He told us that 6 out of 10 would be killed or hurt this year.

Band Headlines

In the band contest at the T-O Fair in Iowa Park, Tuesday, Sept. 26, the Burk Burnett High School Band brought back two medals and one trophy. Six bands were present at the parade and playing contest. All bands represented schools having an enrollment of 250-500. The Burk Burnett band won 2nd place in the playing contest, first place being awarded to the Frederick, Okla. High school band. Drum Major Jo Ann Thomas of the Burk Band won first place in the mapporette twirling contest and assistant Drum major, Pat McCabe, was awarded a medal for 3rd place in the twirling contest. In the marching contest first place was awarded to the Quannah band and 2nd place was awarded to the Frederick high school band. The sweepstakes award was given to the Frederick high school band.

Grade School News

We are all very happy over the small rain that helped to settle some of the dirt that had been circling down the hall and into our school rooms. We are hoping that there will be some more along in a very few days. We are getting ready for the six weeks tests and all want to do a good job so that it will make the report cards look a lot better.

We are very excited this week for we are going to get our best bib and tucker so that we may have our pictures taken.

Burkburnett History

Revealed By Star Files 10 Years Ago...

Flight Officer William H. Clement, son of Mr. and Mrs. Frank Clement, was here over the week end for a visit. He was made a flight officer at the Midland Air Field Sept. 30th, after completing 18 weeks of the toughest training offered by the Air Force.

S-Sgt. Ocie L. Reed in the New Guinea Theatre of war, met his old friend Kenneth Ferguson there by chance. The two had a real get-together talking over old times. Reed and Ferguson are both former Burk residents.

C. A. Moreman is in Houston for two weeks receiving treatment on his ear.

Betty Jean May, graduate of Burk Burnett High School, has enrolled as a Freshman student at Abilene Christian college.

Bob Hayes, student at Texas Tech in Lubbock, served as captain in the Texas Tech vs A & M football game in San Antonio Saturday. Approximately 22,000 people attended. Bob is the son of Mr. and Mrs. Jingle Hays.

Mrs. H. A. Goodwin left Thursday evening to visit her aunts in Independence, Mo.

Mrs. A. A. McKinnis and little Miss Ann Chalk won 2nd and 3rd places respectively in the division of fine arts at the Fair in Iowa Park recently.

Mr. and Mrs. B. F. Gilchrist and daughter of Ft. Worth spent the weekend visiting Mrs. Gilchrist's parents, Mr. and Mrs. T. P. Hamilton and friends.

Mr. and Mrs. A. J. Key have moved back to their home on Hayworth street after living for several months in Grand Prairie. Mr. Key was not able to carry on his work at North American plant because of his health.

Mrs. O. L. Smith has returned home after an extended visit to Riverside, Calif., with her daughter and family, Mr. and Mrs. L. W. Southerland. She also visited a son, Geo. C. Smith, at San Diego.

Jon Bear Initiated Zeta Pi Chapter At Lubbock Tech

Sigma Nu, national men's fraternity on the campus of Texas Technological college, announces the initiation of 16 new members into the Zeta Pi chapter located on the campus. The Texas Tech Chapter was installed on May 16, 1953.

The following men from your town and area were initiated: John Bear, sophomore English student from Burkburnett.

Teen-Talk Warns To Drive Carefully

When the glow goes, whether you're strictly by hoof or on wheels, dig yourself the most, man, and cut that chasis juice or you'll be real gone!"

This cryptic bit of advice in teen talk was given today by Col. E. B. Tilley of Houston, President of the Texas Safety Association, and Services Advisor for the Gulf Oil Corp.

Barely translated, it means, "When you walk or drive after sundown be cautious, take it easy, if you want to stay alive."

While Col. Tilley used the current vernacular of young people, his comment is intended for people of all ages, he said.

Nighttime is dangerous in traffic, he said. The National Safety Council estimates that the mile-death rate in an average year is two to three times as great at night as in daytime.

This is the reason, he said, for the special emphasis given to the theme "Night Traffic Hazard" in the October traffic safety program being conducted locally by the Texas Safety Association, the Texas Dept. of Public Safety and the National Safety Council.

The month long program has been planned, he said, to help people become more aware of the hazards encountered in driving and walking near traffic after sundown, and to teach them safe practices when they must travel at night.

Actually, he said "more people are killed in traffic accidents during the hours of twilight, dusk and dawn than are killed in such accidents during daylight."

And this fact seems even more significant when it is considered that less driving is done during the hours of darkness.

The high traffic death rate at night prevails in both city and country, according to Col. Tilley. In 1953, he said, more than half of all urban and rural traffic deaths occurred at night.

And the most dangerous time of all is the hours of 5 to 8 p. m. of all fatal traffic accidents last year, one out of five occurred during these three hours.

Neither drivers nor pedestrians can see as well after sundown, and they must compensate for their reduced vision with increased caution if they are to avoid accidents.

The best advice in any nighttime situation, he said, is contained in the October slogan: "Cut Your Speed after Dark."

ORDINANCE NO 222 AN ORDINANCE REGULATING TRAFFIC UPON THE STREETS OF THE CITY OF BURKBURNETT

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF BURKBURNETT

SECTION 1: The State traffic laws regulating speed of vehicles shall be applicable upon all streets within this city, except as this ordinance, as authorized by State law, hereby declared and determines upon the basis of engineering and traffic investigations that certain speed regulations shall be applicable upon specified streets or upon certain areas, in which event it shall be prima facie unlawful for any person to drive a vehicle at a speed in excess of any speed shown on traffic signs erected in compliance with this ordinance.

SECTION 2: Whenever the Chief of Police of Burkburnett, Texas shall determine upon the basis of an engineering and traffic investigation that the 30 miles per hour speed herein before set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or other place or upon any sort of street or highway, said Chief of Police may determine and declare a reasonable and safe speed limit and the change shall be erected at such intersection or other place or part of the highway or street.

SECTION 3: THE CITY COUNCIL OF BURKBURNETT HAVING DEEMED THAT AN EMERGENCY EXISTS, THIS ORDINANCE SHALL TAKE EFFECT IMMEDIATELY UPON ITS PASSAGE.

PASSED THIS THE 27th DAY OF SEPTEMBER, 1954.

J. Frank Kelley Mayor
T. R. McCasling City Secretary

Mr. and Mrs. Ed Garner and children of Irving, Tex., visited her sister, Mr. and Mrs. A. J. Harris, over the weekend.

MOVIE OF THE WEEK "ADVENTURES OF ROBINSON CRUSOE"

The sole survivor of a shipwreck, Robinson Crusoe reaches an uncharted island. Faced with an unknown wilderness, he carves out a life for himself with his bare hands.

One day, he spies footprints in the sand, he sees Cannibals burning a victim! In a daring attack, Crusoe rescues the captive savage and names him Friday.

Years later, a pirate ship is sighted on the horizons, Crusoe faces his greatest danger when the plundering cutthroats storm his fortress in search of treasure.

With Friday leaping into the fray, Crusoe heroically bears back the marauders and emerges victorious. The pair commander the pirate ship and sail home.

Most fabulous here in all adventure history!

What You Can Do in Case of Fire

If you suddenly wake up and smell smoke, do you know what to do until the firemen come? Few people do. Southwest Research Center fire technologist have discovered. And knowing what to do, and what not to do, might save your life.

Put your hand on the bedroom door, advises Calvin Yuill, director of fire technology at Southwest Research Center, who has prepared a "check list" of what to do in case of home fires. If the door is warm, don't open it.

The draft might fan the blaze, and hot gases and smoke could overcome you. Get out a window as soon as possible. Jump if you have to. A few broken bones are better than being burned to death.

However, if you must go out the door, Yuill advises you to wrap a wet blanket or towel around your head and crawl across the floor.

Heat rises and it is cooler near the floor. The wet towel will also absorb some of the gases.

Yuill has a word of advice for home fire fighters trying to put out a small blaze.

Call the fire department first. Then try to put it out. Don't wait to see if you can handle it. It may spread badly before the firemen can get there.

If a frying pan of grease catches fire, don't throw water on it, said Yuill. Grab a cover that fits and smother the flame or throw baking soda on it. Baking soda is a good homemade fire extinguisher and is used in many commercial extinguishers.

If a curtain catches fire, pull it down and stomp on it or douse it with water. Curtains will not burn easily if you rinse them in a boric acid solution when you wash them. You make it by using nine ounces of Borax and four ounces of Boric Acid to a gallon of water.

Fire prevention is the major part of cure, Yuill said. Every home should have a good garden hose permanently connected, preferably to an inside water supply, and periodic home fire drill.

Don't leave a rug over a floor furnace. It holds the heat in so that it builds up.

Don't put pennies or tin foil behind fuses or use 30 amp fuses in place of 15 or 20 amp fuses. You are throwing out the protection you had and are liable to cause a fire.

Frayed lamp and appliance cords are dangerous. Replace them.

Never have a fire in the fireplace without a screen in front of it. Don't use flammable cleaning fluids. They can cause a flash fire.

Above all, if you do have a fire keep calm, advises Yuill. The fire department can get to your house within 10 minutes.

NOTICE

The Jr. Burkburnett Garden club will meet Friday, Oct. 8th at 4:00 p. m. in the home of their chairman, Mrs. Walter Riley, 604 E. 4th. Work will be started on the club's project which is making decorations for the annual banquet of the Chamber of Commerce.

Cars will pick up the members in front of the Jr. High School at 4:00 p. m.

Mrs. Joe Bob Tyler was admitted to the Wichita General hospital Monday for observation.

Adventures Of Robinson Crusoe In Pathe Color

"Adventures of Robinson Crusoe," the film version of Daniel Defoe's immortal classic of the adventurer who lived in isolation for twenty-eight years, will open on Friday at the Palace Theatre. Filmed in Pathe Color on location in a wild uninhabited sector of Mexico, the picture stars Dan O'Herlihy as the famous Robinson Crusoe and James Fernandez in his screen debut, as Friday, Oscar Dancigers and Henry Ehrlich produced the picture and Luis Bunuel directed. Bunuel also collaborated on the script with Phillip Roll.

Cast adrift on an island in the tropics after a violent shipwreck during a storm, Robinson Crusoe discovers that he is the only person on the island. He must provide for himself, defend himself against wild beasts and the elements — or perish. Slowly, from what he is able to salvage from the shipwreck, plus the many uses he makes of the natural resources, he together with a cat and a dog he has rescued, live in isolation on the island. After eighteen years of this existence, Robinson Crusoe finds a companion. A cannibal whom Crusoe saves from the sacrificial onslaughts of his brothers, becomes his undying friend. For ten more years they live in close companionship, sharing pleasures and dangers. Crusoe teaches Friday (that is his name, having been rescued on a Friday) much English and many of the ways of civilization.

A group of mutineers who stumble upon the island are outwitted in their murderous trick and Robinson Crusoe and Friday maroon them on the island when they take off for England with the victorious captain and crew.

The Mary Collier Intermediate GA Girls met Monday, Oct 4th in regular meeting. The president called the meeting to order with the watchword and allegiance. We discussed our "Come as you are party" which will be held in the near future.
We then had refreshments and were dismissed.

Holden & Parker Star In "Escape From Fort Bravo"

William Holden, Eleanor Parker and John Forsythe star in "Escape from Fort Bravo," action filled drama opening Sun.-Mon. at the Palace Theatre.
Adventure, romance, color, pictorial grandeur, spectacular horse manship and gunplay highlights this dynamic outdoor drama of the Civil War era, filmed in Anso-color in MGM's new wide-screen process on locations in Death Valley and Gallup, New Mexico. They form rugged and picturesque backgrounds for the story of a hardbitten Union captain and his soldiers who put up a valiant fight to hold the vast desert wastes surrounding Fort Bravo against the encroachment of Indian raiders.

William Holden plays the captain. This is a banner year for the popular star, who has already chalked up two outstanding hits with "Stalag 17" and "The Moon Is Blue," and once again he reveals his versatility in a role entirely different from that of the two previous pictures, the characterization of Capt. Roper, hard-riding, two gunned hero who wins in a three fold endeavor of keeping his Confederate prisoners in line, subduing the Mes-caleros, and romancing Eleanor Parker.
The latter, cast as the story's courageous and spirited Southern beauty, makes her first screen appearance since her highly-applauded portrayal as Robert's Taylor's wife in "Above and Beyond."

Bro. & Mrs. Glaser To Conduct Services At Calvary Baptist

Bro. and Sister P. J. Glaser, missionaries to Mexico, will be guests of the Calvary Baptist church Sunday morning, and will have charge of the Sunday morning preaching service. They will have with them three little Mexican children who are staying with the Glasers in Mexico. We know that you will get a real blessing out of the devotional and musical program you will hear Sunday morning, so plan now to attend.

Calvary Baptist church can't boast of any great things we are doing, but we do help to support the work of the Lord on other fields outside our own.
Other Sunday services of the Church will be as usual.
Sunday School at ten a. m. with a class for every age. Lesson, Gen. 9.
Young peoples evening service at 7 o'clock, with Bro. Bob Busby and wife in charge. All youth welcome.
Night preaching service at eight. Special song service planned. The pastor's message subject will be, "Buy the Truth and Sell it not." We would like for you to hear this Bible message. We believe it to be of grave importance to you. You have a

warm welcome to all of our services. We love people, and want to reach all we can for the glory of God. But we are not trying to ensnare anyone by psychology or drag them in thru high-pressure methods. Neither do we intend to appeal to their ego thru worldly standards and flattery. We offer you the truth in love, and place to worship and serve God in sincerity and simplicity. Come as you are and hear God's word as it is.

From where I sit . . . by Joe Marsh

"Blind Man's" Bluff

You know how Handy Turner down at the hardware store goes in for weird advertising stunts. Well, when it came to plugging his new Venetian blind department, his enthusiasm nearly landed him in trouble.
Handy painted a warning on the tailboard of his truck: "Caution—blind man driving."
"Had driven about a mile," Handy says, "when a state trooper stopped me and told me that sign might cause trouble. Guess he was right. From now on I'll advertise in the Clarion."

From where I sit, I agree—the highway is no place for jokes. We all ought to be considerate of the other fellow when we're driving. In fact, let's respect our neighbor's right of way always. Then, when we have differences of opinion—say about the best route to Centerville, or whether beer or buttermilk is better with lunch—there will be less chance of anybody developing any "blind" spots.

Joe Marsh

GOOD LIGHTING Helps You Enjoy Bedtime Reading

Reading in bed can be more enjoyable and relaxing when you have the proper light. A good pin-to-wall lamp, centered over the bed with bottom edge of shade 30 inches above the top of the mattress, is one of several ways to provide proper reading light. A 150-watt bulb is recommended for this type of lamp. Check the FREE booklet, "See Your Home In A New Light," for many other good lighting recipes for your bedroom and the entire house.

At night and day, refineries work unceasingly to keep the American people supplied with petroleum products. This is a hydrogenation process which converts light naphthas into high grade base stock for acetone gasolines, for your driving pleasure.

In the past 25 years, almost a quarter of a million wells have been drilled in the search and development of oil and gas.

Production of oil and gas is the nation's leading mineral industry, and one of the bulwarks of the national welfare.

At the beginning of 1954, there were more than 4800 drilling rigs in use in this country.

Capacity of U. S. refineries on Jan. 1, 1954 was 8.4 million barrels per day.

An all electric drilling rig is in use in California.

Wichita Pipe & Supply Co.
Wichita Falls, Texas

History Changed By Drake Oil Discovery

In the early 1800's the flickering light of a candle, the crackling of wooden logs in a fireplace, and the muffled thump of a waterwheel symbolized the power of the new republic which proudly called itself the United States of America.

The sound of a horse's hoof on a dirt road, the windjammers of the open sea and the barges of the inland waterways represented the most advanced means of travel. Fulton's steamboat was still several years away and such things as automobiles and airplanes, virtually a century in the future.

The Drake Discovery

In 1859 a former conductor for the New York Haven and Hartford railroad made a discovery that changed the course of civilization. The man in question was "Colonel" Edwin L. Drake, and his discovery was oil — not just oil itself, but proof that it could be obtained in abundant quantities by drilling for it.

The time and place for this historic date were August 27, and the little backwoods town of Titusville, in sparsely settled northwestern Pennsylvania. The dark fluid Drake pumped from the nation's first commercial oil well set fire to men's imaginations, quickened their pulses and spelled out the beginning of a new era of invention and creativeness.

Oil Centuries Old

In the true sense of the word, Drake's achievement at Titusville was not a discovery, for oil had been known through the centuries and used at various times in limited fashion. The Bible itself notes that Noah's Ark was pitched "within and without" with petroleum; the walls of Babylon were cemented with a bitumen mixture; the chariot wheels of the Pharaohs of ancient Egypt were greased with it. History records that the ingenious Chinese as far back as 2,000 years ago, piped natural gas into their rickety homes for heating and cooking purposes. The American Indians, long before the white man ever set foot on the soil of the new world, used it as a medicine internally and externally, for man and beast. Washington's soldiers bathed their weary bones in the restorative waters of oil springs and the early settlers in Western Pennsylvania always had a bottle around for its supposed curative powers.

The coming of the wick-type lamp and the urgent need for a low cost fuel spurred the discovery of oil in Titusville a little village of 125 souls noted for its oil springs and surface seepages. Whale oil and distilled coal oil were the fuels in common usage for the new lamp but they were expensive — roughly \$1.00 a gallon. A Pittsburger named Samuel Kier worked out a distillation process through which kerosene could be extracted cheaply from the crude oil collected in small quantities from the brine wells and surface oozings. An abundant supply was mandatory, however and that set the stage for Drake's discovery.

Pioneers Cursed It

It is almost ironical to note that in the years prior to the Drake well, crude oil was looked upon by the pioneers streaming across the Alleghenies into the flatlands of Ohio as a curse of the worst sort. As they pushed the frontiers westward, one of their basic needs was salt. This was obtained through evaporation of the waters found in brine wells. When the salt well drillers tapped oil sands instead of water, they blamed the fates for despoiling their efforts. The crude oil contaminated the salt brine, and made it useless for their purposes. Those hardy men of yesterday hadn't the vaguest idea then that this same fluid which they cursed so profanely would become the life blood of civilization itself in less than 100 years.

To realize the significance of petroleum in the year 1954, it is only necessary to look around. Our entire transportation system is built upon petroleum power and petroleum lubricants; to a large extent, the mills, the mines the factories and even agriculture are dependent upon the light, heat and power contained in petroleum, and in the latter-day miracles of petrochemistry. It is not unrealistic to assume that virtually everything the average American eats, wears or does in this year 1954 is related in some way to petroleum.

Carbon Black Is Surprising Product

Carbon black, which most housewives know as common soot, is an oil industry product which unobtrusively plays a surprisingly vital role in industry, commerce, business and pleasure.

Carbon black is made by the carload from petroleum and natural gas. For example, carbon black makes it possible to read this page for its one of the principal ingredients in printers ink.

Much of the wearing qualities in the tires of motor vehicles are provided by this humble substance. It toughens the rubber helps it resist abrasion and heat and thus permits tries to roll up tens of thousands of miles of service instead of the 3,000 to 5,000 miles which were customary before its remarkable properties were discovered.

Competition At Work

The shopper who goes from store to store inspecting products and prices, is reaping the benefits of competition. Each purchase is a vote of confidence in the manufacturer, the dealer, the store owner and all others who had a hand in making the sale possible. Similarly, the shopper who goes from store to store is also competing, with other shoppers who likewise are hunting for quality, quantity and price.

In an automobile engine the layer of oil is often so thin that it makes tissue paper look thick by comparison; yet this oil protects piston rods against a pressure of two tons every time the engine fires.

Do they call it puppy love because it's the beginning of a dog's life?

Oil Paved Highways

Asphalt, one of the residues of petroleum refining, is used to pave U. S. highways. Currently more than 80 percent of the nations surfaced roads, including practically all of the vital farm-to-market highways, are paved with petroleum asphalt.

Proved reserves of petroleum are like money in the bank.

The Odds Are 8 to 1

Drilling for oil is a risky business. In rank wildcat areas, for example, for every well that is brought in there are eight dry holes, ventures in which the bulk of the financial investment is lost. The average cost of drilling a wildcat well runs around \$108,000. Thus, the oil industry may expend as much as \$972,000 to find one producing well.

OIL OPERATORS

OIL AND GAS BUILDING

WICHITA FALLS, TEXAS

17 States Use Billion Plus Gallons of Gas

One third of the states in this country each require more than a billion gallons of gasoline a year to meet the demands of motor vehicles, airplanes, tractors and stationary engines according to the American Petroleum Institute.

Those that consume two billion gallons or more in the course of a year are California, Texas, New York, Ohio, Pennsylvania, Illinois and Michigan. California is the biggest user of all, requiring 4.9 billion gallons in 1953.

Others in the billion plus league are New Jersey, Indiana, Missouri, North Carolina, Florida, Wisconsin, Massachusetts, Virginia, Minnesota and Iowa. That makes a grand total of 17 states.

In 1953, consumption of gasoline reached an all time peak of 49.5 billion gallons. Generally speaking, about 88 percent of this or 43.5 billion gallons, was consumed by the 56 million passenger cars, trucks, and busses populating the nation's highways.

Supplying these drivers not only with gasoline and motor oil but also with a host of other services are about 200,000 service stations 95 percent of which are independently owned or operated.

Indicative of the keen competition in the petroleum industry is the fact that the marketing section is spending more than \$730 million in 1954 on new facilities and services.

A new refining process, figuratively speaking, makes a silk purse out of a sow's ear. It enables refiners to make high octane gasoline from low octane materials.

Hundreds of communities have been built because of oil and gas production. This in turn has attracted many related industries, stores, shops and other facets of American life.

Research work is going on constantly to help the petroleum industry reduce its corrosion losses which amount to about \$280 million a year.

A healthy oil industry is essential to the security of the United States.

The last steam locomotive serving Washington, D. C. puffed its way into oblivion last Nov. Diesel locomotives have replaced them.

More than 170,000 miles of pipelines help oilmen reduce transportation costs. This, in turn keeps product prices lower.

There are more than 100,000 plastic outdoor signs in the U. S., all built since 1946. Plastics are derived from oil.

In states which produce oil and gas the income from these resources and the taxes paid by the petroleum industry support schools hospitals and other public institutions.

Per capital consumption of oil products in 1953 averaged 739 gallons.

Despite the record-breaking rate of consumption, U. S. oilmen are finding more new oil than the American people are using.

WICHITA FALLS, TEXAS

Testing, Testing, Over The 'Lectric Brain

"Piano roll" that "plays" a set of electronic circuits has been developed by an oil company to test automobile engines. The roll is a continuous loop of 35mm film with perforations. The perforations pass in front of an electric eye and activate various circuits. These in turn make the engine start and stop, sets its speed and load and give its oil and water temperatures exactly as they originally happened. Oil companies study and test continually to improve conditions and products for American motorists.

Atomic Watchdogs

Radioactive "tracer" materials are used by the oil industry to follow the flow of oil underground, divide batches of different products in pipe lines, locate difficulties in refinery units, and for well logging. Oil men are quick to use these and other procedures to speed their gigantic task of bringing oil and its products to American consumers.

Structure of Oil Products Studied With Microscope

A microscope that enables oil men to study objects 10,000 times smaller than a human hair is in use by an oil company in the United States. Direct magnification with a special electron microscope is 60,000 times, and by adding a photographic process can be boosted to 150,000 times. Oil men, who search for new methods as diligently as they search for oil, use the instrument to study the structure of greases, carbon blacks, petroleum chemicals and similar products. Their discoveries always mean better products at more economical prices for the American consumer.

Pipe Lines Move Oil At Low Cost

One of the many systems devised by U. S. oilmen to move oil from the wells to the consumer as economically as possible is the vast network of pipe lines created through years of continuous building.

This network now totals more than 170,000 miles. More dirt has been moved to bury these pipe lines than that required to dig all the canals since the beginning of time. The total mileage is enough to girdle the globe six and one half times.

Pipe lines have many fascinating facets, and one of the more interesting is that different products, such as gasoline, kerosene, diesel oil and others, can be pumped through, one right after the other, without getting mixed up.

Another is that shipments can be "side-tracked" like railroad trains, to allow "express" or "emergency orders" to rush by. Powerful pumping stations send these petroleum products over mountains, under rivers, and beneath forests and fields. These complex pipe lines operate so efficiently that some products like gasoline and fuel oil, may be consumed without ever being seen or touched by humans.

New Frontiers For Oil Exploration

Offshore geophysical exploration isn't exactly a new enterprise, but its importance has increased as oil men turn to offshore areas in their search for more and more oil. In the United States, the geophysical industry, comparatively young but rapidly growing, has adapted land experience and ingenuity to the new marine area needs. Land crews have been converted to offshore units. Light weight portable equipment has been designed. Recording instruments are completely watertight and buoyant. New equipment and techniques are being developed. No problem of weather, water or operations seems too difficult for these people of the progressive oil industry.

OIL PROGRESS WEEK

Phone 2-8612

Burk Burnett Road

Wichita, Falls, Texas

Oil industry development of special lubricants and greases helped to overcome friction, a barrier to progress since the beginning of man.

Keeping the American people supplied with oil products involves the efforts of almost 1,700 persons and more than 200,000 oil businesses.

OIL PROGRESS IS OUR PROGRESS

We Started In Burkburnett and We Are Still With You

STALEY OIL CO.

Joe H. Staley Jack C. Staley J. I. Staley J. E. Hall Wichita Falls, Texas

Oil Tops All Minerals

The value of all petroleum production amounts to an estimated \$7.7 billion annually. In contrast, the value of all other minerals, combined, coal, iron, gold, silver, etc, amounts to less than \$7 billion a year.

Oil Builds U. S. Economy

Income from the production of oil and gas makes a significant contribution to the U. S. economy. The purchasing power created by this income flows out through the channels of trade, stimulation business and supporting employment throughout the 48 states.

Black Magic!

Nearly 5 percent of all carbon black sold in this country goes to the rubber industry. More than 1.8 billion pounds were used last year in the manufacture of tires and in fountain pens hot water bags and other products of natural and synthetic rubber. Carbon black, a petroleum product, strengthens the rubber.

Energetic Oil

Further illustrative of petroleum's roles in the formation of the new world is the fact that in 1900 it supplied roughly eight percent of the nation's energy needs; in 1953, despite a five-fold increase in the energy needs of the nation, petroleum supplied 64 percent.

Petroleum research has come up with a way of killing two birds with one stone, getting rid of certain waste gases in refineries and simultaneously saving the equivalent of millions of barrels of fuel oil annually.

Wax sniffers' in petroleum refineries are especially trained to make sure that paraffin is odorless and pure.

An Editorial (*) From Santa Rosa, Calif PRESS DEMOCRAT Atomic Energy Doesn't Mean End of Petroleum

Now that the United States is fitting out the world's first atomic powered submarine, a lot of people are starting to wonder what development of atomic power will do to the petroleum industry.

We suggest that they relax and quit worrying.

From prehistoric times, man has been converting natural energy to his own use, and the only thing that's happened is that as we find new ways to convert energy, the demand for energy increases.

Human beings first discovered they could convert the sun's energy stored in the form of wood into heat to warm them-

selves and cook their food. They have been doing it for tens of thousands of years and still do.

Later, they found they could convert that same stored energy in the form of coal, into steam to power engines as well as to provide warmth. They also discovered chemical by-products in coal that provide many of the essentials of modern life.

Mankind found how to convert the energy of falling water into electricity, so that power could be easily transported from the place where it was converted to places where it could be more conveniently used.

Discovery of how to unlock the power contained in petroleum put energy on wheels, powering automobiles and trucks.

Now there is promise that atomic power within a few years will be driving ocean vessels and

operating power plants. But note, no type of energy conversion in the history of the world has ever made a previous type obsolete.

Petroleum will still be powering automobiles, and providing the chemicals that provide with clothing, waxes, medicines and other necessities of life after the coming time when oil powered ocean vessels will be as much of a curiosity as a burning battleship would be today.

(*) Permission to reprint editorial has been authorized by the Santa Rosa, Calif., Press Democrat.

The U. S. oil industry celebrated its 95th birthday August. That's the month which the first well was drilled in Titusville, Pa., in 1859.

WCSA Meets With Miss Jewel Reed

The Business Women's circle of the First Baptist church held their regular meeting Tuesday evening in the home of Miss Jewel Reed. The meeting was opened by all singing, "My Faith Looks Up To Thee," and was followed by prayer by Miss Hazel Wagoner.

Turkeys Entered By Wichita County 4-H Club Members

Six Wichita County 4-H members will enter turkeys in the world's largest turkey show which will be held in Dallas at the State Fair of Texas. The boys and girls who will enter turkeys are Tommy Moore, Johnny Bryant, Margaret Vaughn, Jimmy Elio, Dennis Smith and J. D. Hart.

Lawn Party Honors Miss Janette Ellis

Mrs. Madell Ellis was hostess to a lawn party honoring her daughter, Janette, on her 11th birthday, on Saturday evening, Oct. 2nd from 6:00 to 8:30 p. m. Thirty of Janette's school mates, all wearing blue jeans, enjoyed the informal evening of square dancing and games.

T. LYNN STEWART, Pastor

The Church in Bible Study, 9:45 A. M. We have twelve complete departments with many classes where God's Word is presented on the age level. God is blessing this school of the church. Many new members and visitors are coming every Lord's Day. The Lord blessed with 557 in attendance last Sunday. If you are not attending any where we urge you to come with us this Sunday and let God's Blessed Word speak to you through one of the teachers.

Dr. O. L. Powers of Wichita Falls will preach at both worship services Sunday. Our people love this good man of God and will hear him prayerfully and gladly. For many years he was the pastor of First Baptist Church in Wichita Falls. Pastor T. Lynn Stewart is in revival services at Hillcrest Baptist Church, Wichita Falls. Worship services are at 10:55 A. M. and 7:30 P. M.

Training Union meets at 6:15 P. M. There are Unions for all ages. This Training Service of the church is growing and the Lord is blessing. Babyland is open for nursery age children at all regular services of the church. Capable attendants are always in charge. Revival services October 24-31st. Dr. J. M. Bradford of Waco will preach and Bro. Ted Boya will lead the singing.

Veterans Information Center

Q—Is it possible to obtain additional Korean GI training allowance because I am supporting my parents? Or are the extra amounts limited only to married veterans? A—It would be possible to obtain the higher rate of GI allowance if you are supporting your parents, and are single. They will have to fill out a VA form, "Statement of Dependency" which may be obtained at any VA office. You must submit a certificate copy of the public record of your birth, or of the church record of your baptism. Q—I want to study law under the Korean GI Bill. Would I be allowed to take a bar review course after I complete my college work? A—Yes. On your application form, list "lawyer" as your objective. And put down both "Bachelor of Laws degree" and "Bar Review Course" as your training program leading to the objective. Q—A friend of mine is a totally and permanently disabled World War I veteran who is receiving an extra pension allowance because he needs regular aid and attendance of another person. He has just been admitted to a VA hospital. Will his extra allowance continue while he is hospitalized? A—No. The higher pension rate for regular aid and attendance does not apply when the veteran is hospitalized by VA. Q—Is it possible to get a loan on a GI term insurance policy? A—No. A GI term insurance policy has no loan value. A GI permanent plan, on the other hand, does have loan value after it has been in effect for one year.

RANDLETT NEWS

By Mollie Ruth Elliott

Open house was held Sunday afternoon in the home of Mr. and Mrs. T. S. Best in honor of their 50th wedding anniversary. They were both born in Alonthus Grove, Mo. They moved to Randlett during the opening of the Big Pasture in 1906 and have resided here since that time. Approximately 120 guests called during the afternoon. Punch and cake were served by the hostesses, Mesdames Robbie Best, Don Farley and Tom Spurlock.

Mr. and Mrs. Cecil Boggs, Mr. and Mrs. Bud Baldwin and Mr. and Mrs. F. B. Etier were Sunday evening guests in the Emery Martin home.

Mr. and Mrs. Clifford Rhoads of Waurika visited Mr. and Mrs. Eddie Tull Saturday night. Mr. and Mrs. T. J. Baber and children were Sunday guests of their daughter, Mr. and Mrs. Verlon Conway and son at Burk Burnett.

Mrs. B. O. King of Walters was a dinner guest of Mr. and Mrs. Audrey King Sunday.

Mr. J. T. Compton of Devol spent Sunday with his daughter, Mr. and Mrs. W. R. Baldwin and girls.

Mr. and Mrs. Ed Hopkins of Lawton visited Mrs. Laura Hopkins Saturday.

David Elliott, Jerry Rhoads, Howard Hatcher and Lawrence Green spent Saturday night with Jimmy Baber on a camping trip close to the Baber home.

Mr. and Mrs. John Russell of Grandfield visited Mr. and Mrs. J. T. Green Sunday.

Mr. and Mrs. Joe Lindsey of Norman visited her mother and brother, Mrs. Laura Hopkins and Bob over the week end.

Mrs. Frank Etier is showing improvement from her recent illness.

Mr. John Lucas was released from the General Hospital Sunday. He had been there the past two weeks.

Mr. and Mrs. Johnson of Iowa Park accompanied Mr. and Mrs. C. E. Williams and Ruby to Bowie Sunday evening where they visited Mr. and Mrs. Le Roy Johnson and daughter.

Franky Miller, Richard Clampitt, Buck Baber and Eugene Elliott, all of Cameron College, were home over the week end.

The Fishers held a reunion last week. The following were there: Mr. and Mrs. Robert Powell and son of Holliday, Texas; Mrs. E. C. Vernon of Olympia, Washington, Mrs. F. W. Fitzpatrick and family of Cement, Oklahoma, Mr. and Mrs. O. D. Fisher and children of Henrietta, Texas; Mrs. E. M. Fisher of Walters, Mr. and Mrs. Gus Maloy of Oklahoma City, Mr. and Mrs. J. R. Fisher, Roy and Wilma of Waurika, Mr. and Mrs. Vernon Phillips and children of Grandfield.

Mr. and Mrs. R. H. Rhoads and children and Mrs. Inez Hendricks and boys visited Mr. and Mrs. L. E. Ellis in Burk Burnett Saturday. Mr. and Mrs. O. B. Bishop and children of Grayback, Texas, and Mr. and Mrs. A. R. Compton and children of Mankins, Texas, visited Mr. and Mrs. W. R. Baldwin and girls Monday.

Mr. Tud Capps of Oklahoma City spent the week end with his mother and sister, Mrs. Alma Capps and Myrtle.

We are sorry to lose Mr. and Mrs. Bobby Williams from our community. They are moving to Wichita Falls.

Mr. and Mrs. F. W. Linkugel visited Mr. and Mrs. Arthur Ziwacker and children at Apeahonche Sunday.

Mrs. Johnny Bryant and children of Burk Burnett and Mrs. Zada Bryant who has been visiting the Bryants, visited Mrs. Inez Hendricks and boys Saturday.

Mrs. Laura Hopkins and Bob were dinner guests of Mr. and Mrs. J. R. Robbins at Devol.

Mr. and Mrs. Clarence Williams visited Mr. and Mrs. J. S. Bowman at Burk Burnett Saturday.

Mrs. N. O. Fisher honored her daughter, Norma Jean, with a birthday party recently. Refreshments were served approximately 30 guests.

Mrs. Nomie Wilkerson was called to California Saturday due to the serious illness of her daughter.

Sunday visitors in the home of Mr. and Mrs. Edd Perryman were Mr. and Mrs. Jim Green, Mr. and Mrs. Jay Lamanack and children of Comanche, Mr. and Mrs. C. R. Gilliam of Cyril, Oklahoma; Mr. and Mrs. Eddie Tull and children, Mr. and Mrs. C. R. Perryman and sons, Mr. and Mrs. Whitehead and sons, Mr. and Mrs. Clifford Rhoads of Waurika, Mr. and Mrs. Emery Bentley, Betty and Judy, of Burk Burnett and Mrs. Ralph Swinford and children of Burk Burnett.

WMU met Monday night at 7:30 P. M. for mission study. Our new mission study chair

man, Mrs. A. S. Nason, brought an interesting lesson. Opening song and a new song for WMU was When I Survey the Wondrous Cross. Prayer by Mrs. Joe McCluskey. Devotional service by Mrs. Fred Kemp.

Members present were: Mesdames Nason, R. H. Rhoads, Kemp, Flora Hatcher, Ellen Barritt, Joe McCluskey, K. P. Vaden, Mollie Elliott, Leon Underwood, R. Underwood, Sr., Beasie Miller, W. R. Baldwin and one visitor, Sharon Hatcher. Roll call was answered by quoting a Bible verse. The next lesson will be on Royal Service by Mrs. J. S. Baber. Closing prayer by Mrs. Leon Underwood.

Just How Much Poultry Feed Do You Waste?

Many backyard poultry raisers are wondering why their birds eat so much.

Visit the poultry yard of one of such producers, scratch around in the litter and this question will be partially answered, says B. T. Haws, county agent. While no feed may be evident on the surface, a great deal may have sifted to the bottom.

The total loss may be slight but the expected profit from a small flock is already gone in wasted feed. Fortunately, such examples aren't common in commercial flocks, but are not uncommon among backyard producers.

Commercial producers in many cases, however, are wasting more feed than they realize. Most feed is lost by the birds continually "hooking" at it. Some poultrymen have switched to pellets for growing birds and find it helps eliminate waste.

The best method, says the county agent, is to have poultry of the right size, wasteproof type hoppers and do not fill them too full. The "V" shape feeders in general are more wasteful than the square bottom type.

Recent tests of a large feed company demonstrate the value of not filling feeders too full. In

hoppers filled to capacity and allowed to become empty. White Leghorns wasted 49 percent of their feed. In hoppers filled to two-thirds of capacity, the same birds wasted 16 percent and when half full the leghorns wasted nearly four percent.

Feed bills take the lion's share of the poultryman's money. But these tests show much feed never sees the inside of a chicken. Haws concludes.

Dr. and Mrs. Carl Morrison attended the West Texas Dental Society meeting held in Lubbock, Tex., Friday and Saturday. They also attended a tea on Sunday afternoon given by the Kappa Alpha Theta Sorority honoring new pledges which included their daughter, Kay, who is a freshman student at Texas Tech college.

Mrs. Tex Allen, Sherry, Bill and Phil of Oklahoma City visited in the home of her parents, Mr. and Mrs. W. R. Stimpson, over the week end. Mrs. Allen is the former Elva Stimpson.

Mrs. T. P. Stimpson and Mr. Due Stimpson of Lawton, Oklahoma and Mr. Wise Stimpson and son Wiley Wayne of Bartlesville, Oklahoma, spent the week end in the home of Mr. and Mrs. W. R. Stimpson. Mrs. T. P. Stimpson is the mother of W. R. Stimpson.

H. S. Thaxton went to Oklahoma City Saturday to see a display of the 1955 Pontiacs.

Mr. and Mrs. R. P. Thaxton have returned from a vacation trip in Kansas and Nebraska.

Mrs. Mills Entertains Modern Study Club

The Modern Study club held their regular meeting in the home of Mrs. Milton Mills recently.

The president called the meeting to order. The club voted to buy a child's meal ticket at the school cafeteria for the 1954-55 school term. Plans were discussed for rolling surgical bandages for the cancer patients of Wichita County.

Mrs. Fred Hunt, member of the Current Literature club, was guest speaker for the evening and spoke on parliamentary and federation rules.

Refreshments were served to Mesdames Fred Hunt, Rita Joy Hudson, Selma Wright, Mary Joy Hagstrom, Judy Pemberton, Harriett Lam, Tommie Sue Henry Billie Jean Potts, Dana Sue Brookman, Verna Carroll, Helen Reasoner, Daphne Mills.

Burk Study Club Had Barbecue At City Park Sept. 27th

The Burkburnett Study Club had their second meeting of the new club year on Monday evening, Sept. 27th at the City Park. Very delicious barbecued steaks with all the trimmings were served to 16 members, their husbands and special guests. All reported a wonderful time.

Mrs. Mamie Long is still reported to be in a very serious condition.

The Watkins Committee

By R. D. Laney

Watkins committee has out an elaborate argument for refusing to testify and 1952 before the senate committee on privileges and immunities. This group heard testimony from Sen. McCarthy, who took a Democrat, dropped out.

Watkins committee maintained that the senate is a continuing body and that competent testimony by a senator in one Congress can be considered an affidavit for a succeeding Congress.

Watkins committee on point finds itself in dispute with the Hennis Subcommittees members were certain friends of Sen. McCarthy. For in its report to the senate just before the new session...

ate of the 83rd Congress convened in January, 1953, the Hennis subcommittee conceded that a number of aspects of the report "have become moot by reason of the 1952 election. Such facts therein as were known to people of the states particularly affected have been passed upon by the people themselves in the election."

It may be assumed that what the subcommittee was saying was that the people of Wisconsin in re-electing Sen. McCarthy, had acquitted him of the charges of Sen. Benton, while the people of Connecticut, in defeating Benton, had repudiated his case. The Watkins committee, holding that this old affair dating back to a previous Congress is as much alive as ever.

The Watkins committee recommended censure of Sen. McCarthy on charges that he was contemptuous of the senate and its election subcommittee, and abused Brig. General Ralph W. Zwicker. Sen. McCarthy, thru his lawyer, served a bill of exceptions on the committee, and contends the contempt charges as to the elections subcommittee are an "after thought;" that they should have been brought up in 1953, if brought at all. As for alleged abuse of Zwicker, it contends there is ample precedent for the kind of cross examination McCarthy gave the army officer.

Meanwhile the Watkins committee is getting more abuse than praise in the mails. An estimated 12,000 pieces of mail were received before, during, and after the committee's recent hearing. The mail hasn't been fully analyzed, but an aid to Watkins estimated it was running about 20 to 1 in favor of Sen. McCarthy before the committee's report was made public. A sampling of the mail since indicated the ratio is about 7 to 1 in favor of Sen. McCarthy.

The committee members, ap-

pointed by Vice President Nixon to evaluate accusations aimed at Sen. McCarthy by three colleagues, were described by letter writers as "boneheads," "pro-communists," "biased," and many other names. Some writers praised the committee. Watkins was singled out by many correspondents. A man named Watkins said the committee's "stupidity makes it embarrassing to have you in the family." The chairman was called, among other things, an "executioner" and "biased character," and was accused of misusing the powers of the Vice President.

Other critics termed the committee report as "outrage, despicable, appalling, disservice to the country, a shameful disgrace to the country, biased and prejudiced decision and exactly what the Kremlin and its United States followers had demanded." Scores of the letters said the committee action would hurt the Republicans and help Democrats in the coming elections.

So a case which at the time seemed to Sen. McCarthy's enemies improbable of salvage, and which an unfriendly subcommittee conceded in its report to have been rendered "moot" by reason of the verdict of the 1952 election, is now dragged up to justify a demand for censure.

Mrs. J. W. Prescott was admitted to the Wichita General hospital this week for treatment.

PTA Met Sept 21st For Regular Meeting

The Hardin PTA met in the auditorium of the Elementary school on Tuesday, Sept. 21st. Meeting was called to order at 3:30 p. m. by the president, Mrs. Jean Looney.

Our project for the coming year is to buy a merry go round for the 3rd and 4th grade students.

The PTA will also sponsor a Halloween carnival which will be held in the High School gym, Oct. 30th. Mrs. Vernon Duke and a committee were appointed to be in charge of spacing the stands.

Mrs. Ellis Gragg announced that the year books have been approved and will be available at the next meeting.

Mr. Evans introduced the faculty. A tea honoring them was enjoyed by all.

The program chairman, Mrs. Ollie Ratliff, introduced Miss Marilyn Felty who supplied music for the occasion.

Room count was won by Mrs. Pauline Evans for having the most parents present.

Parents, please co-operate by being present at all meetings possible and paying your membership dues by Oct 31st.

Council Of Garden Clubs To Present Show Dec. 9 & 10

The Burk Burnett Council of garden clubs will present a flower show "Christmas Around Town" on Dec. 9-10. Going to be around Dec. 9-10? Make it a point to be.

The business store windows will be presented on the evening of the 9th. The outside residential section will be lawn, religious, doorways and Christmas themes.

December 10th from 4:00 to 8:00 p. m. "All Around Town" in the town is the start of a traveling flower show. Next stop the home of Mrs. J. H. Cecil.

There you will hear the jingle of sleigh bells. Don't miss the tour on to Mrs. Tom Britton where you will see the "March of the wooden soldiers" and "Bright Noel" and the J. V. Brookshear home "Candy canes" and "Holiday greens" of many designs. Then complete your journey down Sycamore Road to the Carl Morrison home "Joy to the world" and "Down the chimney with Saint Nick."

See any garden club member for your ticket. Fifty cents will take the entire family to all the places.

The show is open to the public. Anyone may make an entry. There is a classification for all.

Exhibits will be received between 8 and 11:00 a. m. Dec 10th. The general chairman is Mrs. J. M. Willingham; Mrs. Tom Britton, down town; Mrs. T. J. Campbell, outside residential decorations; Mrs. Ollie Ratliff, placement in homes; Mrs. A. L. Gilbow, town hall; Mrs. C. F. Bohner, Horticulture; Mrs. Dick Chambers, Niches.

Get your ticket and the schedule is included. Only fifty cents for the whole family.

Mr. and Mrs. R. B. Swinford are the proud parents of a new baby girl born, Wednesday, Sept. 29th. The baby weighed 6 lbs 14 oz and has been named Dana Gay.

Mr. and Mrs. James Brady, Jr. are the proud parents of a new baby boy born Saturday, Sept. 25th. He weighed 7 lbs. 3 oz, and has been named James Edward.

A magnificent Premiere Showing launches

'55 automatic plus gas ranges

THE 1954 OLD STOVE ROUND-UP SALE is on! It's the only Nationwide Sale of a major home appliance. This year's Round-Up Sale is the most exciting ever because all leading dealers are premiering the '55 Automatic Plus Gas Ranges.

This very minute at the Premiere Showing a '55 Automatic Plus Gas Range is ready to make your cooking automatic... cleaner... cooler... faster and more economical. Its smart, smooth-flowing lines and scintillating chrome will give your kitchen a sparkling new look.

It's time to modernize... time to save. Take advantage of the special values and terms. Attend the Premiere Showing of '55 Automatic Plus Gas Ranges at 1954 Old Stove Round-Up Sale today.

It's Automatic Plus Lift the smooth center work top and you've a built-in griddle. Lift the griddle... you've a 12-inch extra high-speed burner. This vanishing griddle top is three times as useful — it's Automatic Plus.

It's Automatic Plus Smaller outside... bigger inside. New 30-inch width model gives you more baking capacity than standard 36-inch model. Of course, the oven turns on... cooks... turns off by clock control.

It's Automatic Plus Gas cooking top, oven and broiler build into your cabinets wherever you wish. Only gas gives you a separate smokeless broiler beneath the fully automatic, clock-controlled oven.

MODERN LIVING is making the kitchen the center of family life. This calls for a '55 Automatic Plus Gas Range in decorator's colors to keynote or complement your color scheme. Choose pastel green, pastel yellow, brilliant red or antique copper to make your modern gas kitchen pretty as a picture.

NEW TOP BURNER TIMER times coffee, eggs, and vegetables from one to 60 minutes, then turns burner off automatically. Top Burner Timer is more useful than the automatic gas oven clock control because four out of five dishes are cooked on top burners. No over-cooking or scorching. Set it and forget it!

In '54, more people than ever before are cooking with gas!

- modern gas cooking is **Automatic Plus**
- cool
 - fast
 - clean
 - safe
 - flexible
 - dependable
 - economical — cooks for 1/3 cost of any other automatic fuel

VETERANS Administration Questions and Answers

Q—I am a "peacetime" veteran, and I want to get into a VA domiciliary home. One of the requirements, I understand, is the lack of adequate means of support. I have an income of around \$100 a month. Is that considered adequate? A—No. Your \$100 a month income would not bar you from VA domiciliary care, so long as you meet all the other eligibility requirements. An income of \$125 or more a month, however, is considered adequate means, if the veteran uses it to support only himself.

Agriculture Show Includes All State. The huge Agriculture Show at the 1954 State Fair of Texas, Oct. 9-24, includes every section of the state in the district exhibits which depict the role of scientific research in improving Texas agriculture. The "Research for Agriculture" theme is carried out in a series of colorful animated displays which dramatically point up the relation of research to cotton-growing, mesquite control, water conservation, beef production, soil improvements, rice farming, pasture development, forage production, dairying, sheep and goat breeding, forestry, chicken-raising, parasite control and range management. The Panhandle, South Plains, Rolling Plains, North Texas, Northeast Texas, the Big Bend, Edwards Plateau, Heart of Texas, Piney Woods, South Texas, the Gulf Coast and the Rio Grande Plains are included. Experimental Cars Featured at Fair. "Laboratories on wheels," experimental automobiles produced by top designers of the nation's biggest car manufacturers, are spotlighted in the 38th Southwestern Automotive Exposition at the 1954 State Fair of Texas in Dallas, Oct. 9-24. The 85,000 square feet of the Automobile Building, largest exhibit hall on the fairgrounds, will be filled to capacity with every make of American car and a number of foreign-built autos. Radical new developments incorporated in the experimental models, fresh from the fertile brains of forward-looking designers, will draw aside the styling curtain of the vast automobile industry for a peek at the "dream cars" of the future.
