NUMBER 13

Oran L. Clark of Burkburnett Dies in Hospital at Belton, Texas

Oran L. Clark, 74 well-known Burkburnett farmer, banker, oil and philanthropist and, a resident here since 1893, died Monday morning in a Belton, Tex., clinic, where he had been suffering a heart attack on Oct. 2.

LIONS CLUB

Meets at Town Hall, 7:00 P. M. Each Tuesday

President Herman Miller was in charge Tuesday night when the club met at Town Hall. John Rigby gave the invocation. Guests were Tommie Oglethorpe, manager of the Chamber of Commerce and Roy Silkwood, Principal of the High School. Vernon Duke and John Durham had charge of the program. Duke introduced Tommie Auld, who played several numbers on the piano. His renditions were greatly appreciated by those present.

Next week the permanent program committee, with Roy Magers as chairman, will bring the program. Congressman Frank Ikard will be present to address the club briefly. Senator George Moffett will discuss the eleven proposed amendments to the State Constitution, which will be voted on November 2nd. Anyone outside the Lions Club who wishes to hear the Senator's discussion is invited to do so. The discussion will be at 7:30 P. M. at Town Hall. Seats will be arranged for extra visitors.

The Lions Club rummage sale will be held Wednesday, Oct. 20 and Saturday, Oct. 23rd, at the former location of Home Furniture near Adams Drug Store, now known as Home Furniture Used Furniture. The sale will continue throughout both days.

Lions Need Merchandise
The Lions are planning to gather up all the rummage they can from all over town. They will take anything of value—clothing, furniture, yard and garden tools—just anything you can spare. This will be a good time to clean out your closets, garage, storerooms, etc., and let the Lions have it. All merchandise will be tagged and the price marked on each item. The prices will be very, very appealing. If you have something for the Lions, leave it at the Fire Station, or at Burkburnett Motors before next Monday night. If you have items too large and heavy to haul in a car, or have no way to deliver it, call any member of the Lions Club, or call 52 or 300. A pickup and some Lions will be out after your contribution.

Thirty-one Attend C.-C. Luncheon Business Meeting

A record attendance was present Monday noon at Town Hall for the monthly C. of C. luncheon and business meeting. Thirty-one directors and members were present.

President Buddy Byars was in charge. Ralph Davis gave the invocation.

The president introduced Tommie Oglethorpe, new C. of C. manager, who read the minutes of the previous meeting.

The president read a request from the local American Legion Post, requesting all business houses to close November 11th, from 10:00 A. M. to 11:00 A. M. The Legion has several large flags for sale, suitable for business houses to use on such occasions.

Oglethorpe defined a Chamber of Commerce, and briefly outlined its functions. He asked for full co-operation of Burkburnett citizens and expressed the belief that this city has some of the best opportunities for progress of any city in the state.

Those present were: Buddy Byars, Tommie Oglethorpe, T. R. McCasling, C. M. Archer, T. J. Campbell, R. H. Henry, B. L. Turner, Harry Dodson, George Lyberly, J. V. Brookshear, A. H. Lohofener, P. B. Browning, Chas. Boyd, H. D. Smith, Walter Riley, Ralph Davis, Clark Gresham, Joe Hensley, Geo. McClarty, Floyd Marten, W. H. Holt, Paul Hooper, Frank Kelley, Roy T. Magers, Johnnie Herring, Francis Beaver, Weldon Nix, Lee Palacios, Tommie Baker and Cliff Wampler.

B Football Game Here Thurs. Night

The Bulldogs B football team will play here Thursday night at 7:30 P. M. They are matched with the A team from Windthorst.

The B team has shown up exceptionally well this year. Their blocking and tackling are at times ferocious for boys who have had so little experience.

Mrs. John Brookman Hostess Oct. 8th To Current Literature

The Current Literature club observed National Bible week at their regular meeting in the home of Mrs. John Brookman, October 8th.

Mrs. Ralph White presented the First Baptist church minister, Rev. T. Lynn Stewart, who as guest speaker, presented the Bible, the best literature book of all books. The Bible is the book of books. It is the incomparable book which will live forever. There are the seven wonders of the Bible which are even greater than the seven wonders of the world. They are, first, the wonder of inspiration; second, the wonder of translation; third, the wonder of preservation; fourth, the wonder of revelation; fifth, the wonder of salvation; sixth, the wonder of dispensation; seventh, the wonder of confirmation. "Open thou mine eyes that I may behold wonderful things out of thy law," Psalm 119:18.

During the period devoted to business, Mrs. F. G. Jeffers announced that Oct. 15 would be observed as "Poetry Day," also that Friday, Oct. 22 will be "Guest Day" observing "National Art week," at which time the Current Literature club will be host to the other study clubs of Burkburnett at 2:00 p. m. at the Town Hall.

A dessert course was served to Miss Ella Billingslea, Mesdames C. W. Boyd, C. R. Chambers, B. Danforth, J. W. Hamrick, Fred Hunt, F. G. Jeffers, Francis Kauer, Roy T. Magers, W. B. Short, R. W. White, John Brookman and C. M. Archer.

Mr. and Mrs. J. D. Stegall have returned home from an extended tour of several southeastern states. They visited relatives and friends in Mrs. Stegall's old home town, McMinnville, Tenn., and were present at the nationally known CBS Sunday broadcast originating in Renfro Valley, Ky. On their return trip they spent some time with their son's family in Winfield, Kansas.

Kay Morrison of Texas Tech at Lubbock spent the weekend with her parents.

Services Held Here Sunday For John W. Roach

Funeral services for John W. Roach, 65 year old carpenter and Burkburnett resident for 35 years were held Sunday 2:30 p. m. at the Church of Christ in Burkburnett with William Wilhoit, former minister officiating.

Roach, who had been in failing health more than 3 years, died Friday in the Veterans hospital in Dallas where he had been under treatment for the past two weeks. A native Texan, Roach lived in Electra and was employed by the Magnolia Petroleum Co. many years ago before moving to Burkburnett. He was married to Miss Wilma May in 1924. Mrs. Roach died 3 years ago. Roach, a World War I veteran was a member of the Church of Christ and the American Legion Post in Burkburnett. Burial was in Burkburnett cemetery.

Pallbearers were John Page, Lester Coats, Homer Brown, Finis Taylor, Cliff Cannon, and Raymond Beaver.

Survivors include one daughter, Mrs. Billie Jane Brookshier of Burkburnett, one granddaughter, Diana Kay Brookshier of Burkburnett; 3 brothers, Charlie, James and Albert of Bowie Texas; two sisters, Mrs. Della Lawyer and Mrs. Sallie Bell, both of Bowie, Texas.

CLUB REPORTERS

This week thirteen club reports had to be left out of the paper because we did not have room for them. Most of them came in Wednesday, and some of them were reports on meetings held in September! These reports will appear in next week's paper, but hereafter, reports more than a week old have lost all news value.

Mass Meeting Mon. Called by C. of C. Is Well Attended

The rain Monday evening did not dampen the spirits of a large group of citizens gathered at Town Hall for a mass meeting called by the Chamber of Commerce. The purpose of the meeting was to help lay plans for a program of work to be entered into by the C. of C.

President Buddy Byars was in charge of the meeting. After the meeting was called to order, Byars presented Ben Blanton, Public Relations man of the Times Publishing Co., a man with several years' experience in C. of C. work. Blanton opened what he called a "66" meeting. Tables were arranged for six persons at each. Each group elected a chairman and a secretary. Then each man or woman at each table talked one minute each on the topic "What I Believe Burkburnett Needs". The secretaries took the suggestions down and at the end of six minutes these reports were read. The groups at each table came up with practically the same ideas.

Some of the suggestions were: Dress up the stores and the display of merchandise; Hold a sales clinic for training clerks; Advertise more; Provide more and better recreational facilities, to mention only a few.

The group voted unanimously to hold at least one such meeting each month hereafter. A complete report, with various C. of C. committees listed will be given next week.

First Baptist Church

The Church in Bible Study, 9:45 A. M. There are classes and departments for all ages. The Lord continues to bless this school of the church. Many new members and visitors are coming each Lord's Day. GRASS ROOTS OPINION

WINDOM, Minn. Reporter: "You can't spend more than you have and remain solvent. The longer such a system is followed, the more impossible it becomes to keep afloat. Know anyone who trades in a mortgaged car on a new one and has both a newer car and a bigger mortgage? The woods are full of such people. It is bad economics. It's somewhat like drug addiction. This applies equally to a person, a business, or a government."

INDIO, Calif., NEWS: "Democratic Senator Byrd of Virginia and Republican Chairman Styles Bridges of the Senate Finance Committee are joint sponsors of a proposed Constitutional Amendment which, in the interests of America, should be submitted and adopted in jig time. In brief, this amendment would prohibit deficit spending. We think there would be a very little difference of opinion among those Americans who honor simple arithmetic above socialistic theories."

MOUNT DORA, Fla., TOPIC: "The safe-guard against the 'thinking' of communists and their efforts to worm their way into labor organizations, is best obtained thru education of adults and youth on just what communism is, and permit its disavowal under a system of free discussion."

ODESSA, Texas, AMERICAN: "There was once a young showgirl who came bustling into the dressing room breathlessly exclaiming, 'I've just met the loveliest, richest man; he owes \$800,000.' In that philosophy the United States is surely 'the loveliest, richest' country in the world since the Federal debt is now moving past the \$275 billion mark, compared to \$207 billions owed by all the other countries in the world."

NATIONAL BIBLE WEEK

The Laymen's National Committee announces that the 14th annual observance of National Bible Week will be held from October 18 thru 24th. Its purpose is to encourage everyone to read the Bible—and thus to help find the spiritual strength and courage which is so necessary to our very survival in today's chaotic world.

Abraham Lincoln once said that the Bible is "the best gift God has given to man." Its precepts are timeless and as enduring as the world itself. Read the Bible during the Week — and every week thereafter.

MONEY IN THE GROUND

Many concrete examples of the fact that oil is a highly competitive enterprise can be cited. An interesting one recently occurred in a small Oklahoma town.

Oilmen from all over America bid against each other for the right to drill for oil on lands which belong to the Osage Indian tribe. There was no guarantee that the successful bidders would find oil. All they could buy was the privilege of trying, with all the risks that involves. Since 1900 leases and royalties have brought this Osage tribe more than \$300,000,000.

This is an example of still another fact — the greatest spur to progress is the profit motive. We have all heard of the profits that have been made from Texas oil strikes. Not so well known is the fact that it costs \$100,000 to drill a wildcat hole in that state, and that the chance of finding a new field is about one in ten. In really major oil developments, money can be sunk in the ground at a terrific rate. One company, operating in Canada, spent \$25,000,000 on dry and worthless holes over a period of 25 years before a big strike was made.

Oil consumption in this country has broken record after record. Even so, our proved underground reserves are larger than ever. That's because oilmen know they can make a profit if fickle fortune smiles on them, —and so they take the long shot chances.

"In view with some alarm the rapid disappearance of one of America's most precious natural resources — our native supply, old fashioned common sense."

Benjamin F. Fairless, U. S. Steel Corp.

BUT NO SEATO SEAT

Reading the papers is a bewildering business these days. In his brief visit on Formosa, Secretary of State John Foster Dulles is reported as having told Nationalist China's President Chiang Kai-shek that the "Republic of China does not stand alone," that the orders of the US Seventh Fleet to protect Formosa "remain firm."

"The United States is proud," Mr. Dulles said, "to stand with those who, having passed through so many trials, are yet courageously sustained by faith that will not be subdued."

We don't recall that he, or any other Administration spokesman, said anything of the sort to South Korea's President Syngman Rhee when he was recently in Washington.

Faith Class Had Installation Of Officers Sept. 21

The Faith Class of the Thrift Baptist church met at the church annex on Sept. 21. Mrs. T. L. Merriott had charge of the installation services using as her theme the "Map of Texas."

Texas State Dept. of Health

Dr. Henry A. Holle, M. D.

With the advent of fall, and colds becoming prevalent, Dr. Henry A. Holle, State Health Officer, makes the following suggestions as to ways by which these seasonal illnesses may be warded off, or at least may be gotten under control before they do any serious damage.

Keep as fit as possible. Dress according to the weather. Indoors and out of doors. Put on a heavier suit when a cold snap comes. Use a raincoat, overshoes and umbrella on rainy days.

Change as quickly as possible into dry clothes if you're caught in a drenching downpour.

Look up your supply of sweaters and have them ready for use on these first chilly days. Get out some other heavy clothing and warm bed coverings at the same time.

Eat simple nourishing food. Have your meals at regular hours. Drink plenty of water. Take some exercise out of doors, every day. Get the necessary amount of rest.

If you are caught in the clutches of a cold, unawares, don't treat it lightly. It may turn into something very serious, if neglected. The quickest way to get over a cold, or, to bring it under control is to go to bed,

keep warm, eat lightly, drink plenty of water and fruit juices, and at the slightest sign of fever send for your doctor and stay in bed until he feels that it is safe for you to get up and out again.

And remember, colds are very contagious. Cold producing germs are scattered far and wide whenever the victim of a cold coughs or sneezes. They are likely to be found on anything the victim touches. If you are the victim, keep your germs to yourself. Have your own towels and wash cloths, your own drinking glass and dishes, and be sure that they are adequately sterilized with very hot water and soap after you have used them. Keep well supplied with paper handkerchiefs; dispose of them properly after they have been used.

lookout for pedestrians and for vehicles with dim lights or no lights at all.

4. Don't wear tinted glasses at night. The advantage they offer in cutting glare is more than offset by the disadvantage in reducing vision.

5. Use headlights properly. Use upper beam only on rural highways when no approaching car is within 1,000 feet. Use lower beam when oncoming cars approach, when you are overtaking another car, and when driving in cities and residential areas.

6. Dim your light even though an oncoming driver fails to dim his. Trying to get even by blinding him is risking your neck. Maintain control of your car by looking at the right shoulder of the highway.

7. Be sure all lights on your car are turned on before you pull onto a thoroughfare at night.

8. Never stop on the travel portion of the highway at night. If you must stop at night, pull completely off road leaving parking and dome lights on. Carry flares for use in emergencies.

9. Drive by the Golden Rule. Give the other fellow the benefit of any doubt in traffic. Make courtesy your code of the road.

Texas Safety Association

Cut Your Speed after Dark
Col E. B. Tilley of Houston, President of the Texas Safety Association, and Services Advisor for the Gulf Oil Corp., told the motorists of Texas today.

Col. Tilley said that this bit of advice, which is the safety slogan of the October night traffic hazards program being sponsored by the Texas Safety Association, the Texas Dept. of Public Safety, and the National Safety Council, can do a lot to reduce the terrible death toll of night traffic accidents.

Last year nighttime traffic accidents took 21,000 lives. Many of these accidents undoubtedly were due to motorists trying to drive as fast after dark as they do in daylight. But vision is reduced considerably at night, and safe practice calls for a comparable reduction in speed, plus increased caution.

He listed nine safety rules for night driving:

1. Slow down. Don't regulate your speed by posted limits alone. Remember, speed must be governed by conditions, and darkness is a condition that calls for caution.
2. Have your car checked frequently. In darkness, immediate response of the vehicle is a must. Double check all lights.
3. Be alert. Keep a constant

ORDINANCE NO 222

AN ORDINANCE REGULATING TRAFFIC UPON THE STREETS OF THE CITY OF BURKBURNETT

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF BURKBURNETT

SECTION 1: The State traffic laws regulating speed of vehicles shall be applicable upon all streets within this city, except as this ordinance, as authorized by State law, hereby declared and determines upon the basis of engineering and traffic investigations that certain speed regulations shall be applicable upon specified streets or upon certain areas, in which event it shall be prima facie unlawful for any person to drive a vehicle at a speed in excess of any speed shown on traffic signs erected in compliance with this ordinance.

SECTION 2: Whenever the Chief of Police of Burkburnett, Texas shall determine upon the basis of an engineering and traffic investigation that the 30 miles per hour speed herein before set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or other place or upon any sort of street or highway, said Chief of Police may determine and declare a reasonable and safe speed limit and the change shall be erected at such intersection or other place or part of the highway or street.

SECTION 3: THE CITY COUNCIL OF BURKBURNETT HAVING DEEMED THAT AN EMERGENCY EXISTS, THIS ORDINANCE SHALL TAKE EFFECT IMMEDIATELY UPON ITS PASSAGE.

PASSED THIS THE 27th DAY OF SEPTEMBER, 1954.

Four Year Terms For Texas Officials To Be Voted On

Widespread support of the constitutional amendment increasing from two to four years the terms of elected district, county and precinct officials was reported at Houston by Carl S. Smith, chairman of the Texas Federation of District, County and Precinct Officials.

This amendment will be passed on by the voters Nov. 2nd, Mr. Smith, Harris county tax assessor and collector, said.

The federation is composed of county and district attorneys, sheriffs, tax assessors and collectors, county and district clerks, county treasurers, county judges and commissioners, justices of the peace and constables.

Speaking for the federation, Mr. Smith said:

"The present two-year term places a heavy financial burden on the office holder, who is hardly settled in his office before he must start worrying about reelection.

"We believe the four-year term, over the long run, would persuade more competent men and women to run for office. Furthermore, the four-year term would make it possible to employ more competent personnel, who could look forward to four years of security."

Intermediate G. A. Girls Met At Church Oct. 11th

The Intermediate G. A. girls of the First Baptist Church held a regular meeting on Monday, Oct. 11th at the church. After the roll was called and the minutes read, we repeated our watchword, allegiance and sang our hymn.

We discussed community missions for Thanksgiving and Christmas.

We decided that we would have white sweaters, green skirts and gold ties for our G. A. uniforms.

HIGHLIGHTS From Your STATE CAPITOL

Gov. Allan Shivers has lashed both Republican and Democratic national parties for refusal to let the South take a full share of determining party policy. Shivers' criticism, delivered in a testimonial dinner speech at the Louisiana Governor Robert E. Ladd's home in New Orleans, singled out no particular party as major culprit.

For too long the South as a nation has been "insulted and degraded by national parties and their leaders," he said.

However, he served notice on the Democratic party that it must get in the middle of the fight to win southern favor.

Shivers appealed to people in thirty-eight states to join in sending "the last great safeguard of individual liberty" through supporting local self-government over powerful central government.

ON BALLOT
Gerald Weatherly of Rio Grande city, refused a place on the November 2 ballot by Secretary of State C. E. Fulgham, has the decision reversed by the

Supreme Court.
A writ of mandamus ordering that his name be certified for placing on the ballot was granted Weatherly by the Court.

He will oppose Sam H. Burris of Alice for District Attorney in the turbulent Seventy-ninth district covering South Texas' Geo. Parr famous Duval County.

Fulgham had rejected Weatherly's application "because so many of the 560 signatures on petition were invalid that not enough remained for Weatherly to qualify."

INDUSTRIAL ACTIVITY
Texas Industrial business is picking up while farm income is declining.

Dr. John R. Stockton, director of the University of Texas Bureau of Business Research, said the low farm income was due to months of continuous drought faced by farmers and ranchers.

However, he reported that the "high level of Texas business has been maintained by expanding industrial activity."

The Bureau's business index for the state showed a 2 percent decline in August from July. August totals were 7 percent better than August, 1953, Dr. Stockton said.

DWI LAW
Texas' motorist now face a tougher penalty for driving while

intoxicated.
A court of Criminal Appeals ruling has labeled unconstitutional the part of law that let a presiding judge, at his own discretion, commute a jail sentence handed out in DWI cases.

Minimum punishment now is a mandatory 3 day jail sentence and a fine for DWI convictions.

GAS FIRMS
A five year old suit against ten oil companies for anti-trust violation has been ordered for trial by the Supreme Court.

Charges were made against the firms in 1949 by former Attorney General Price Daniel. Daniel alleged that ten companies violated Texas antitrust statutes by upping wholesale gas prices several times after federal price controls expired in 1946.

Defendants are Arkansas Fuel Oil Co., Cities Service Oil Co., Continental Oil Co., Gulf Oil Corp., Humble Oil and Refining Co., Magnolia Petroleum Co., Sinclair Refining Co., Phillips Petroleum Co., Standard Oil Co., and the Texas Co.

TOLL ROADS
Prospects of Texas' first two toll roads have faded from view with a Supreme Court decision that the highways, to be built and owned by private firms, would be taxable.

Attorneys for the Texas Turnpike Company which had planned a toll road from Dallas to

Houston and the Sam Houston Turnpike Corp., planning a Dallas to San Antonio route, told the court the projects could not be realized without tax-exemptions.

INSURANCE
Insurance men have been warned that a move to place insurance under federal control may soon become a reality.

State Insurance Commission Chairman Garland A. Smith charged that efforts are being made to turn the "Texas Insurance industry into a national scapegoat."

Smith said he was alarmed at the number of letters his office has received in the last few months from Washington political office holders who are laying plans for insurance investigations or advocating central control of the industry.

Many of the groups have continuously singled out Texas for unfair and untrue criticism, he reported.

NEW CONFESSION
An El Paso farmer has appealed to the state Pardon Board for release from a 15 year prison sentence, the request backed by a confession of another man to the same armed robbery.

Kenneth Massey, now a 19-month prison inmate for armed robbery of a drug store near El Paso made his appeal as his attorney handed the confession to the Pardon Board.

The confession is from another convict now under death sentence in Iowa.

A big man is not one who makes no mistakes, but one who is bigger than any mistakes he makes.

Postal Receipts Show Gain Over Last Year

Postal receipts at the Burkburnett postoffice have shown a nice gain over the same period of 1953. Receipts up to and including the September quarter of 1954 are \$21,282.92 and for the same period in 1953 they were \$19,212. A gain of \$2,070.76. Box rentals and Money Order business has also shown a considerable gain.

In these days of frozen foods, a good cook is a wife who serves a meal thawed out all by herself.

A man's character is measured by what he would do if he knew he wouldn't be found out.

Money is the only thing that can go further when it's in bond War Bonds.

No matter what the labor unions do, the wages of sin remain just about the same.

FFA News

The Burkburnett FFA attended a district meeting at Quanah on Sept 22. Alden Smith, Paul Wolf, and Kerry Clack, attended from Burkburnett Chapter. Alden was elected district vice-president. Burkburnett was appointed head of the banner committee. The land judging team placed third at the T-O Fair. Members of the team were Joe Musgraves, Guy Bilueau, Jerry Gee and Norman Morgan. Norman and Joe received individual medals for high scoring. BHS congratulates the boys and hope they continue the fine job.

The Burkburnett FFA announces that Miss Pat McCabe has been chosen Sweetheart of 1954-55. Pat will represent Burkburnett at the district sweetheart contest in Vernon in December. If she wins in Vernon she will attend the area contest at Stephenville. Hats off to you Pat, and good luck!

Card of Thanks

I wish to express my sincere thanks for the many cards, flowers, gifts and visits I received during my stay in the hospital and on my return home. May God bless each of you.

For EYE COMFORT While Seeing TV

light your room properly

You'll enjoy greater eye comfort while watching TV if your room is properly lighted. This means less eye strain because tests have shown that good, general room light lessens the strong contrast between the bright television screen and darker surroundings.

Suggestions for lighting your room for television:

- When floor and table lamps are used, place them so they will not form a reflection in the screen, and where they will not make exceptionally bright spots of light on nearby walls.
- Place lamps far enough from the television set so there will be no glare in the eyes. Lamp shades should be of opaque paper or dense fabric.
- When lighted valances or torchieres are used, the room should be arranged so that these lighting arrangements are to one side or behind the viewers.

Postal Receipts Up One Percent

The University of Texas Bureau of Business Research reports Texas postal receipts were slightly less than \$5.8 million in August, a gain of \$35,745 or a scant 1 percent over July.

However, compared with the August, 1953, total, \$5.2 million, receipts were up a full 1 percent.

Largest July-August upswing occurred at Gonzales which showed a 71 percent increase. Sweetwater had a 55 percent gain, and Mercedes postal receipts were up 45 percent from July.

Biggest drops in July-August postal receipts were experienced by Edinburg, down 31 percent, and Jacksonville, down 30 percent.

No major changes were noted in Texas' five largest cities. Dallas and Ft. Worth bettered their July totals by 4 percent each, and San Antonio climbed 3 percent. Austin receipts were about the same, a change of less than 1 percent being reported. Houston was 3 percent behind its July total.

See you December 9 & 10. "Christmas Around Town."

The rubber shortage doesn't seem to have had much effect on elastic consciences.

Dairy Cows Need A "Vacation" Too

Dairy cows, too, need an occasional rest.

Unless given a good vacation between lactation periods, dairy animals may be unable to produce a strong, healthy calf and give their full quota of milk, says B. T. Haws, county agent. He refers to the dairy cow as a "complicated piece of machinery. A cow, during her dry period, must recover from heavy milk production, build a calf and store reserves for her next lactation period. How well she does these jobs depends upon the length of the rest and her feed and care during this time, says the county agent.

She'll need six to eight weeks of rest, good care and a balanced ration. A high producer will deplete her reserves of minerals and nutrients. Lowered production may result unless these are rebuilt.

The problem of feeding a dairy cow is practically solved if she has access to a good pasture, says Haws. But otherwise, hay or silage should be fed liberally.

The amount of grain to feed depends upon the condition of the cow, but generally the same grain can be fed to dry animals as to milking cows.

Every animal put into a good dry cow is a wise investment. Here's the reason: A dairy cow that is fed well and cared for during this time will often pro-

duce 25 percent more milk during her next lactation. It's the milk in the bucket that counts in the dairy business.

Texas Farmers Cash Income Up

Texas farmers' cash income for January-August of this year increased 5 percent over the first eight months of 1953, despite adverse effects of the drought upon the agricultural picture as a whole.

The University of Texas Bureau of Business Research says this increase in farm income is encouraging, in view of the damage brought by the drought in the form of dry streams, low crop harvests, and parched pastures and fields. Total 1954 farm cash income through August reached \$963.1 million.

Among individual farm commodities, sharpest increases in income were in peanuts, 59 percent; cotton, 47 percent; cottonseed, 42 percent, and corn 14 percent. Declines were registered in rice, 39 percent; milk and milk products, 19 percent; fruit and vegetables, 18 percent, and calves, 9 percent.

Comparing prices received by farmers for the first eight month period of this year and the same January-August period in

1953, the most notable difference is seen in the 44 per cent decrease in fruit prices, the Bureau said. This was overcome to some extent by a 14 per cent increase in oil-bearing crops and a 4 per cent rise in cotton prices. Livestock prices rose 4 percent, but dairy products dropped 9 percent from January-August prices of 1953.

Rail car shipments of Texas livestock increased 72 per cent in August from July shipments, indicating stockmen's continuing policy of culling their herds as much as possible in order to conserve feed and water supplies. Livestock shipments increased 42 per cent during the first eight months of the year, compared with the 1953 period.

VETERANS Administration Questions and Answers

Q—I have a 30 percent service-connected disability, which I incurred in Korea. Would that alone be enough to entitle me to Public Law 16 training?

A—No. A service-connected disability alone is not sufficient to entitle you to Public Law 16 training. You must be in need of training to overcome the handicap of your disability. Need would have to be established at a session with a VA counselor.

Q—I am going to a vocational school under the Korean BI Bill. I understand that I am allowed 30 days of absence a year. Do legal holidays and weekends count as absences?

A—No. However, other days during school vacation periods, such as Christmas and Easter, would be counted as absences.

Q—I have a permanent GI Insurance policy on the endowment plan. At the end of the endowment period, how will I be paid the money, in a lump sum or in monthly installments?

A—You may choose to receive the proceeds in either manner, lump sum or monthly installments, ranging from 36 to 240 in number.

Q—I pay premiums on my GI insurance once each year, in advance. What would happen if I were to die shortly after making

my yearly advance payment? A—The present value of premiums paid in advance of the current month would be refunded to your beneficiary.

Not Enough

He brushed his teeth twice a day with a nationally advertised tooth brush and a miraculous tooth paste that killed germs, kept his teeth white, and gave him an irresistible smile. The doctor examined him twice a year. He wore overshoes whenever it looked like rain. He slept with the windows open.

He stuck to a diet with plenty of fresh vegetables. He relinquished his tonsils and traded in several worn out glands. He golfed, but never more than 18 holes. He never smoked, drank or lost his temper.

The funeral will be held next Wednesday. He is survived by 18 specialists, four health institutes, six gymnasiums and numerous manufacturers of health foods and antiseptics.

Forum Study Club Met Oct. 8th With Mrs. Otis Stegall

The Forum Study club met in the home of Mrs. Otis Stegall, Friday Oct. 8th. The meeting was called to order by the president, Mrs. Wallace Landrum. One of the projects of the club for the coming year is to sponsor a needy child. Plans were made for a club Halloween party. The club regrets the loss of one of its most valuable members, Mrs. A. C. Todd. She and her family will be residing in Pampa, Tex. Plans were completed for the confederation Banquet on Nov. 4th. The Forum Study club will be hostess club.

Mrs. Hugh Cole Preston, Jr., won the door prize.

Delicious refreshments were served to the following eleven members, Mesdames Bruce Ford, A. G. Crosby, Jack Northcott, Charles Goins, Wallace Landrum Brack Preston, Jr., Tom Burnett, Lonnie Taylor, Winston Freeman, Hugh Cole Preston, Jr., and the hostess, Mrs. Stegall.

OIL IS AT YOUR SERVICE

The products of the petroleum industry are literally everywhere. Every hour of the day, oil or natural gas serves you and virtually every other American. Oil is indispensable to our way of life; it makes the United States a better, safer country to live in.

You may wake in the morning in a room warmed by a furnace burning fuel oil or natural gas.

You drive to work, and your car burns gasoline, uses petroleum oils and greases for lubricants, rolls on tires of synthetic rubber which had their beginning in an oil refinery.

The plant where you work may depend on oil or natural gas as the source of its power. The oil and gas industry supplies 65% of the nation's energy requirements.

Meanwhile, if you live in Texas, your children are attending schools to the support of which the oil industry pays heavy production and ad valorem taxes. And your U. S. Army, Navy and Air Force plan the national defense with confidence that the oil industry has developed the proven reserves that can fuel their machines of war. Oil also supplies munitions — TNT for instance.

Finally, the lady of the house may prepare dinner on a stove fueled with natural gas, and you may go to bed in pajamas laundered with a petroleum detergent, after reading a newspaper printed with ink made from oil, in a room decorated with a paint manufactured from petroleum.

... And that's only a beginning.

The products of the petroleum industry, oil and natural gas, head the list of our most useful resources. A progressive, competitive oil industry, encouraged in the future as in the past, will undertake the further development that will keep them there.

Unusual Weather

By R. D. LANEY

So-called unusual weather is the rule rather than the exception. Texas weather is but an example that is reproduced in many areas of the country. The full picture is a great change in weather patterns throughout the world. The zone of the world appears to be moving north at an accelerated pace. This movement is liable to affect each of us personally. It is possible that before this revolution in weather has run its course, it will have brought about a major change of people, not only in this country but throughout the world.

It is important to note that a rise in the annual temperature throughout the world, of even a few degrees, can have tremendous effect on the economic life of nations and every individual. This seems to be just what is happening today. The winters are getting shorter with much less snowfall, and the summers are getting warmer and drier. In a large part of the world, reports indicate that spring is almost eliminated, and the people are being transferred from winter almost directly to summer. These changes affect each and every one of us. What can be done about this change? First, it is important that we realize the problem. This has been done not only by individuals but also by the government. The answer is not simple, but it can be said that it will have a profound effect upon our lives.

The unusually hot and dry weather in this part of the country for the past three years, has raised a number of questions in the minds of farmers and widespread concern over our water supply. The question is asked, does it mean that this country is in for a hotter and drier climate permanently? Will the recent droughts be repeated? Or will there be an abundance of moisture for good crops in the next several years? What are the longer-range prospects for the future? Scientific weather prophets predict that the country is now in a dry cycle that is likely to hold on for seven or eight years longer. Not all these years will be totally dry, and none of them is apt to be dry in all parts of the country. Two or three of them are apt to be

fairly wet in most of the states, but, as a whole, the block of years extending to 1962 will average considerably drier than normal.

After the droughts in and for some time after the Civil War period there was more abundant rainfall, especially in the years from 1875 to 1885. This led many people to believe that increasing cultivation of the soil in the prairie states had changed the climate. But a big disappointment came with the dry cycle, which began in 1886 and became disastrous in the 1890's. Since that time these great swings in the national rainfall have continued and are more plainly evident in the records of the 20th century.

The records show that dry cycles began in 1886, 1910 and 1930, and another one started late in 1951. Wet cycles began in 1898, 1910 and 1919 and 1941. These are the averages, of course and in each of these cycles there were some wet and dry years. But in the dry cycles there were more dry years and the droughts were worse than the years of the wet years. On this basis we can look for another drought to develop in 1957 or 1958 and continue for about two years.

While there is no need to be unduly alarmed because we are in a dry cycle, since a period of years with more rain will most certainly follow in the 1960's

there is one fact we should keep in mind. The population continues to increase and the use of water, in the home and for industrial and farm uses, climbs steadily and rapidly. So each dry cycle finds us in a worse predicament.

The most dangerous feature of these broad variations in the rainfall is the reassuring effect the intervening wet periods have upon us. Unless the pattern runs out we will come into the early 1970's with frequent floods in the rivers, high waters in the Great Lakes and good rainfall in the high plains and marginal lands, with little thought about the problems another dry cycle will bring. Then will be when real trouble is just around the corner. And thus sayeth the weather prognosticators.

Monday, Sept. 27, 1954, the FHA had a formal installation of officers, Pres. Margaret Parks, Vice Pres., Marilyn Penn, Sec.-Treas., Peggy T. Reporter, Wanda Redman and Songleader, Kenya Howard. The service included candle lighting service and an explanation by each of the officers of the eight purposes. The ceremony ended with the reading of the creed in unison. The important point of the business meeting afterwards was the decision of the members to send Care Packages to four overseas countries. The meeting was adjourned with the reading of the creed in unison.

The Student Council elected the following officers — Pres. Stanley Owens, Vice Pres. Jackie Wright, Sec.-Treas. Pat Bernethy and Reporter, Marilyn Felty.

Derrick News

Isn't it wonderful that the 1955 DERRICK is to be Orange with black letters and a black Derrick? We think the Derrick is going to be the best ever this year and certainly it will be the brightest and most patriotic to BHS.

Tuesday, Oct. 5th the student body was entertained by the Fire Chief of Sheppard Air Force Base. He demonstrated how easy it is to have an accidental fire on your hands. He also gave statistic on how many casualties there were in fires over the past years. The student body was very appreciative of the program. On Thursday, Oct. 7 during activity period, all those students

who bought tickets for the program were entertained by The Gypsy Troubadors. It was a wonderful program of folk music. The Troubadors accompanied themselves on guitars and the balaika. Some highlights of the program were two marionette skits, the colorful costumes and everybody's learning to sing "London Bridge is Falling Down in Japanese."

JOIN THE MOVE TO MERCURY

JIM POTTER, Motor Trend—Conducted exhaustive road tests of thirteen leading cars. Mercury proved the lowest-cost car to own, based on 10,000 miles, among all medium-priced cars in the test. Only one of the "so-called" lowest-priced cars could nose out Mercury for over-all economy!

STAFF REPORT, Car Life—"The best to date in (its) weight and price class . . . more than enough power."

TOM McCaHILL, Mechanix Illustrated—"The place where Mercury really shines this year, aside from its speed-over-the-ground performance, is in its handling and roadability . . . what a difference ball-joint suspension makes!"

WILBUR SHAW, Popular Science Monthly—The 3-time winner of the famous 500-mile Indianapolis race, now president of the Indianapolis Speedway, reports "They've done it! . . . I was struck by the smoothness of the power pick-up."

GRIFF BORGESON, Cars—"One of the best engineered power plants in the industry, regardless of price . . . May prove to be the last word in postwar passenger car engines."

WALT WORON—DON MacDONALD, Motor Trend—"You'll like the 1954 Mercury, particularly if you like power that'll make you sit back in your seat when you stomp the throttle."
 "If there is no other reason for the increase in horsepower (now 161) the added acceleration is enough."
