April 15 Deadline For Car Inspection

April 15, 1956 is the deadline for getting your vehicle safety inspected. Unless the inspections pick up there will be many car owners without their cars inspected by the deadline. Failure to have an inspection sticker on your car can result in arrest and fine.

April 15th falls on Sunday and the inspection stations will be closed on that date. Some inspection stations have advised that they may stay open on the 15th. However, don't wait until the 15th to have your car checked.

The inspection consists of the following: brakes, headlights, tail light, stop light, license plate light, windshield wiper, and horn. Trucks have additional equipment which has to be inspected. Most inspection stations advised they have found the vehicles in better condition than ever before.

In Wichita County 72 per cent of the vehicles have been inspected. This means the other 28 per cent must be inspected before April 15th. Do not wait until the last two or three days to get your inspection because you will have to wait in line.

You can save time by referring to it if you are not sure of a number or need assistance of any kind. The yellow pages are a convenient listing of almost every business in town, he added.

SUNDAY SCHOOL WEEK

This year's observance of National Sunday School sponsored by the Laymen's National Committee, an all-faiths organization—will take place April 9-15. It is not directed at those young people who now attend churches of their respective faiths—it is directed at the millions who, tragically and needlessly, are receiving no religious training whatsoever.

The Sunday School, with its roots deep in values which are timeless and eternal, can in large measure determine what kind of men and women the children of today will become. The forthcoming Week deserves and demands the full support of us all—to the end that its great spiritual and moral purpose may be successfully realized.

REFRIGERATORS AND CHILDREN

In spite of nation-wide publicity over the past several years, in spite of the fact that 36 state legislatures have passed laws designed to prevent these tragedies eighteen more children suffocated inside refrigerators in 1955.

In the past ten years, 113 children over the nation have lost their lives through the impulse to hide in an abandoned refrigerator, the perfect, too perfect, hiding place. Hence the legislation making it a misdemeanor (it should be a felony) to throw out a refrigerator without removing hinges and doors. But it should be remembered that not all of these children have died in discarded equipment on vacant lots or trash heaps. The kitchen refrigerator, empty and open for defrosting, is just as tempting when a hide and seek game is on and mother has gone to the store or is talking on the phone. In many homes, this death trap may be on the back porch or even in the basement.

But today, while Congress is considering ways and means of putting an end to those hideous mishaps, a long-range answer, better than any legislation, comes from a manufacturer. The Admiral Corporation has announced that all its new Dual-Temp refrigerators will be equipped with a safety release, by which the door may be opened from the inside. A luminous button on the inside-release, that glows in the dark and attracts the hidden child's attention, requires only a slight push to open the way to safety and freedom.

In view of the great concern of American manufacturers for the safety as well as the quality and convenience of their products, we may be sure that the rest of the industry will follow Admiral's lead. But, even so, for years to come, until the last of these old fashioned booby traps is reduced to scrap, the responsibility of removing the doors before discarding is a vital one.

Think of the 113 adventurous little people who will never play hide and seek again. Think of August 12, 1953, when five youngsters from the same family perished in air-tight blackness in Proctor, Ark., and of August 13th, 1953, when four more, three from one family, met the same fate in Richmond, Va. In a word, THINK.

PORK FROM RED POLAND

The goal of expanded world trade is a splendid one. But it would seem only sensible that we should lay the emphasis on trade with our friends, not with our enemies, and that we should also keep in mind the "two way street" principle.

The American Meat Institute tells of a rather startling development in the foreign trade field. Last year, communist Poland—an Iron Curtain country dedicated to the destruction of what we regard as free institutions—shipped 13 percent more canned pork products, especially hams, into the United States than in 1954. These imports totaled some 22 million pounds, with a value of almost \$18 million.

By contrast, shipments of canned pork by such friendly nations as Holland, West Germany and Canada all declined by 5 to 21 percent. Only from Denmark did imports increase by about 5 percent.

To top it off, the friendly countries which shipped canned pork to the United States were heavy purchasers of our own meat and other agricultural products, including tallow and hides. But in the case of Red Poland, the value of her purchases of agricultural products of every description from the U. S. was well below \$1 million, or less than one eighteenth of the value of canned pork she shipped us.

The moral seems plain. Let's have more world trade but let's have it with countries which are on our side politically and economically.

A few weeks ago the international Sunday School lesson was concerned with "The Peril of Insincerity." We may not be aware of it, but often Christians are guilty of that very thing. We go to church and sing "The Old Religion" like we really believed it. Yet, we do not live it like Grandpa and Grandma did. We sing "Jesus Saves" and never tell the unsaved about it. We pray for Jesus to return secretly hoping He won't. We preach the gospel in the power of salvation and refuse to obey it. We believe in tithing but put it last in our budget.
The scriptures warn of the dangers of this type of attitude and unthoughtful living. "Be ye not deceived, God is not mocked, for whatsoever a man soweth, that shall he also reap."

WHAT MAKES "THE ROCKET" ROCKET?

Here's why the engine that started the high-compression era still tops the field today!

THE ROCKET BROUGHT high-compression performance to motoring . . . set the standards . . . broke the records.
Today it's the same. With a high in compression of 9.25 to 1 and a displacement of 324 cubic inches, the Rocket packs a potent new wallop.
THERE'S AN EFFORTLESS SMOOTHNESS that tells you this one is a masterpiece of balance and precision. What's more this power plant's big-bore, short-stroke design means shorter piston travel for less friction, less wear and longer life.

You'll rarely use the full 230+ horsepower under the hood. But, you'll go for the Rocket's high torque—the force that makes the wheels go 'round. Even at medium speeds, your toe can call a hefty 340 pound-foot of torque into play—to move you away from a light or pass by any emergency. Add Jetaway Hydra-Matic* and you meet Rocket action at its smoothest.

VISIT OUR SHOWROOM TODAY! We invite you to "Rate the Rocket" on the road. You'll get out of the ordinary . . . into an Olds!

Enthusiasm Greet Museum Campaign

Response to the appeal for funds with which to erect a million dollar memorial museum of Texas history at Old Washington on the Brazos has been enthusiastic, according to letters received by Tom S. Whitehead, executive director of the Texas Independence Day Organization, sponsors of the campaign.
The Texas Press Association is cooperating and many of its member papers published an appeal for funds during the last week.
Contributions have averaged around five dollars each, which qualifies the donors to be listed in the Roll of Honor at the museum. Some have sent in \$100 donations so as to receive a special medal being coined by the U. S. Mint at Washington, D. C. on orders from congress.
School children are becoming interested in the campaign. At Midland, students of a class in Texas history won a \$10 award in a contest. They sent their prize plus \$16 of their own to the museum fund. They are taught by Mrs. H. E. Woolcock at Cowden Junior high school. Four

other classes at this school sent in their contributions.

Mrs. Loyce Selma Henry of Bryan wrote "This is something Texans have been dreaming of for a long, long time. something we will be truly proud of, a piece of every human heart in Texas will be molded into its walls."

Letters in a similar vein have come from all parts of Texas, a number of Texans in exile in other states have also sent in contributions with enthusiastic comment. These letters have come from such distant points as Rhode Island, Connecticut, New York, Florida, New Mexico and California.

Most Texas newspapers are receiving contributions to the fund and acknowledging them in their columns during the current period which will end on April 21, San Jacinto Day.

GABA VEAL
LOOK suggests a new veal dish . . . as this recipe below, made for LOOK by New York fashion-show producer Lester Gaba. The texture of veal-in-sauce is a delightful contrast to the accompanying stuffing, made with packaged bread stuffing and onion soup mix.
Heat ¼ cup oil in skillet. Add 1½ pounds

cubed boneless veal, 1 chopped onion, 1 clove chopped garlic; brown. Add 6 sliced mushrooms (or 1 can, 4 oz., drained mushrooms), 2 chopped tomatoes, ¼ cup dry white wine, ½ cup consomme, salt, pepper, pinch thyme. Cover, simmer 20 minutes. Uncover, simmer to reduce sauce in half. To make stuffing: Fry 6 slices diced bacon; drain well. Add 2 tablespoons butter (melt), 1 package bread stuffing, 1 envelope dehydrated onion soup mix. Mix together well, serve with veal. Serves 4.

Eternal life now is a quality of life that comes only when we have the risen Christ within.

Woman's Society of Christian Service
 Completes Study

The Woman's Society of Christian Service of the First Methodist church has just completed a five session study of "An Introduction to Five Spiritual Classics."

The first lesson presented by Rev. Felix Kindel was an introduction to the five great works, emphasizing how great would be the spiritual growth of each one taking the course. On March 19, Rev. James M. McKeown of St. Marks Methodist church of Wichita Falls, most dynamically explained the "Confessions of St. Augustine." The following Monday, the classics, "The Imitation of Christ" and Part I of "A Serious Call to a Devout and Holy Life" was given by Mrs. Bill Haws. The session closed with group discussion which greatly benefited everyone present. Preceding the noon luncheon on April 2, Mrs. Raymond Schuette program leader, continued the study of "A Serious Call to a Devout and Holy Life and then led the group in studying "The Practice of the Presence of God." Forming a circle, each one present shared a few statements from the study book of Bro. Lawrence; thereby, picking out the points of greatest interest to homemakers and how we can pray without ceasing as we go about our daily tasks. The final session on last Monday, April 9, was led by Mrs. O. E. Melton. The classic was "A testament of Devotion" Mrs. S. S. Reger gave a study of the life of Thomas Kelly.

The average attendance of the five sessions numbered twenty; the study offering was given at Monday's meeting.

Circles will meet on Monday April 16th at 3 p. m. Circle 1 Mrs. W. W. Chambers, 620 Magnolia Street; Circle 2, Mrs. A. W. Newman, 428 W. College.

Local Residents Attended Lodge In W. Falls Fri.

Mr. and Mrs. John Rogers and Mrs. Mary Cecil attended a meeting of the Wichita Canton and Ladies Auxiliary patriarch militant No. 16 at the KOOF Hall, 807 Austin in Wichita Falls, Friday evening.

Among guests introduced and welcomed were Mrs. Maude Scofield, Newport, Minn., treasurer of the International L.A.P.M., Mrs. Alto Haislip, Dallas, president Dept. association L.A.P.M. of Texas, Mrs. Myrtle Russell, Electra, Rebekah assembly secretary, Mrs. Sadie Patterson, Jackboro on Rebekah Assembly committee.

American Cancer Society Urges To Give Generously

Mayor H. D. Smith urged Burk people today to give their generous support to the 1956 American Cancer Society for \$18,000 in Wichita County. The annual fund raising and educational campaign was launched on Monday, April second.

In a proclamation citing April as Cancer Control Month, Mayor Smith noted that one third of the cancer deaths in Burk Burnett last year could have been avoided by earlier diagnosis and adequate treatment.

Burkburnett's Mayor called for increasing recognition of the Society's leadership in the fight against cancer through its program of research, education, and service.

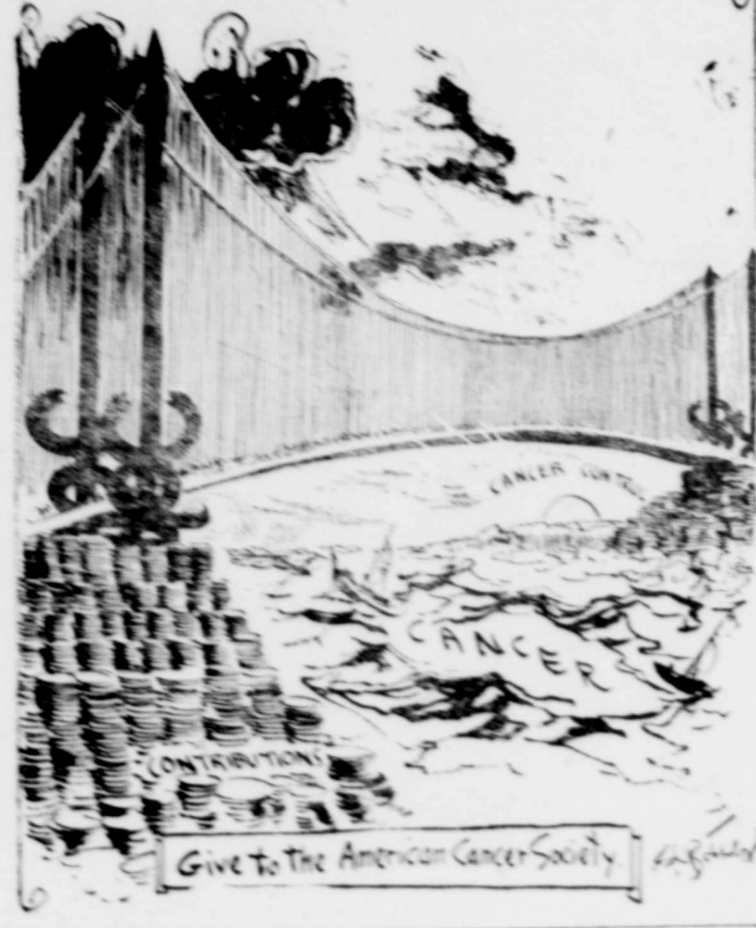

The text of the proclamation follows:

"Cancer is one of the most critical public health problems of our times. Some 250,000 Americans, many of them in our own state, will die of cancer in 1956, if present rates continue. Moreover, at present rates, one American in every four now living will some day be stricken by that disease.

"But in the last decade there has been marked progress in the diagnosis and treatment of cancer. Although one cancer in four is now being cured, two out of four patients could be saved if they were treated early enough. Approximately that many such patients were saved last year.

"The American Cancer Society plays the leading role in the national fight against cancer. Through its programs of public and professional education, the Society spreads the life-saving message of early discovery and prompt treatment, and keeps the nation's doctors advised on techniques in detection, radiation and surgery.

"By its support of more than 1,000 top-flight scientists in a nationally co-ordinated program of research, the ACS gives urgency

to the search for new cures for this menacing disease.

"That organization is the only voluntary national health agency which fights cancer through a three front program of research, education and service to patients.

As a voluntary organization, it depends entirely on the public contributions obtained through its annual Cancer Crusade. As Mayor of Burkburnett, I, H. D. Smith, do hereby proclaim that the residents of this city shall observe April as Cancer Control Month.

"Therefore, I urge generous financial support to the Cancer Society's fund raising campaign so that it may widen and intensify the battle against cancer until such time as the menace of man's cruellest enemy shall be lifted forever.

News From The County Agent

Lush spring and summer pasture can be either the daryman's best friend or his trickiest profit stealer, depending on how he manages his cows on grass.

An experiment at the Ralston Parina Research Farm in Missouri, involving 18 Guernsey cows over several years, has clearly shown that grass must be properly supplemented with a balanced grain mixture to keep the cows in most profitable production throughout the year. The cows were divided into two even matched groups. Both groups were turned onto lush pasture on April 23rd of the year the experiment started. The nine cows in Lot 1 were fed a properly balanced 18 percent milking ration to supplement the grass. Cows in Lot 2 received no grain supplement.

At the beginning, the cows

that filled up on grass without getting any grain gave slightly more milk than the others. They held this advantage for about five weeks, then began to drop back. The real difference began to show up in the fall and winter, after the grass season was over. Both groups were fed alike during the winter, but the cows that had been fortified with grain supplement during the pasture season gave much more milk for the high winter market than the others, ending the year with an average of 1750 extra pounds of milk per year.

This experiment illustrates the tricky costliness of a summer diet of straight grass for dairy cows. Grass is about 85 percent water. While straight grass may flush milk production temporarily, it doesn't provide the necessary nutrients to keep the cows in good condition. Damaging loss in milk production came in the fall and winter, when milk markets are invariably at their highest.

Research and experience have

indicated that cows on winter ration need about one-half pound of grain supplement. When the temperature is at 65 degrees or more, supplement feeding should be increased to 3-4 of the winter ration. As pastures burn brown, a full ration of grain supplement should be fed.

Nowadays, it's one money, two for the show and five bucks for the ter.

D. 1956, in this cause, No. 37223-A on the docket and styled A. E. Byers, Plaintiff, vs. E. M. Byers, C. Gordon, Walter L. Wood, Sarah Mutersbaugh, David Mutersbaugh, their unknown legal representatives and assigns, Defendants. The statement of the Plaintiff and Defendants joint owners in fee of the surface rights and rights of the hereinafter described land, and A. E. Reid, owns an undivided one-third interest in and to the minerals in and under the hereinafter described land; and E. M. Byers, owns an undivided one-fourth interest in and to the minerals in and under the hereinafter described land, and provided 5-128 interest in and under the hereinafter described land; and Mrs. Sarah Cossairt, owns an undivided one-thirty-second interest in and to the minerals in and under the hereinafter described land; and David Mutersbaugh, owns an undivided 1-128 interest in and to the minerals in and under the hereinafter described land; and the land is situated in Wichita County, Texas, and is described as follows: 40 acres of a tract of land out of survey No. 10, virtue of Land Script No. 44, issued to HT&BRR, which 134 acres is divided as follows: Beginning at a point in the line of Section No. 9 in the North line of the way of the Fort and Denver Railroad as said line; Thence with said East line at the Northwest corner of Section 24 and the West corner of Section 9 of G. N. R. R. Co. and 83 feet, the Northeast corner of said Section 9 of G. N. R. R. It is alleged that a fair and equitable division of said land cannot be made because said land is not of equal value. The East part of said land is more valuable than the West part of the same; that there is oil production on land just East of this land makes it more valuable than the West part, which has no production on or near it, makes it incapable of being divided in kind. Therefore, premises considered, the Plaintiff prays that Defendants, their unknown heirs, legal representatives and assigns, and known owners and assigns be cited by publication to this Court order the Plaintiff to issue citation by law, and that upon showing hereof that said Plaintiff is found to be incapable of being divided in kind, and that a receiver be appointed by the Court and that such land be sold by the receiver at private sale and the proceeds of said sale be divided in accordance with the findings of the Court as to the ownership of said land and each of the Plaintiff and each of the Defendants, or in the alternative, that said property can be divided in kind, that the Plaintiff and Defendants be appointed and cited to appear and the property be divided by

them among the respective owners, and that the respective owners be put in possession of the same, and for such other and further relief as Plaintiff may show himself entitled to in law or in equity.

If this citation is not served within ninety days after the date of issuance, it shall be returned unserved.

The Officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas this the 24 day of March A. D. 1956.

Grade School News

We are still having several cases of the measles in the first and second grades. We are hoping that most of these boys and girls will be back in school to take the final exams for the fifth six weeks. We are very sorry to learn that some of the children have been quite ill from the measles and we are all wishing for each of the children a very speedy recovery.

We are getting ready for the tests that will end the fifth six weeks of this school year. It is very hard to realize that we only have one more six weeks of this school term. After this we can all look forward to a nice long summer vacation. This will make each of us put out extra effort for a good finish for this school year.

University Club Recently Toured Midwestern Univ.

The University Study club enjoyed a very interesting and unusual program when it recently met in a morning session on the campus of Midwestern University. Miss Irma Pendergrass, who is head of the art museum, greeted her guests there and gave an interesting lesson on art.

Following this, Dean Juanita Kinsey as hostess, conducted a tour of University Center. Mr. Robert Yaryan, head of the art department showed ceramics in the making from the clay to the kiln, and also displayed some beautiful finished pieces. In this department, the guests also saw materials on the looms where girls were weaving cloth for their spring suits.

Mrs. J. B. Furr, head of the economics department showed what her students were doing in home making, especially in sewing and cooking.

A tour through University Center highlighted by a luncheon in the tea room with Den Kinsey again acting as hostess. Mrs. J. B. Hubbard, dietitian, showed the group thru the dining rooms and kitchens of the center.

Den Kinsey next conducted the group to Bes Wood Hall, junior-senior dormitory, where Mrs. Leitha Colburn was hostess. It was here that Miss Sakura Niimova, a student from Japan, was presented to the group and who graciously invited them to her room. She gave a discussion of Japanese customs and living conditions and modeled some of her native costumes.

Club members present were Mesdames Joy Sessuma, retiring president; Mrs. I. E. Harwell, in coming president; E. N. Cauthorn, A. E. Bunstone, L. W. Mathis, J. H. Rigby, S. S. Reger, W. R. Milam, A. W. Newman, Bill Crowley, J. M. Pogue, E. R. Burns, and R. P. Reagan.
