Dial Telephones Expected Ready for Service Sept. 22nd

Home workers are rapidly pulling the pieces to get Ruel's new dial system for service on Sunday.

C. A. Deuschle, manager of Southwestern Bell Telephone Company said this

work is being done in the new dial system. The work is being done in the new dial system.

Electric workers are installing the intricate, tailor-made equipment in the new dial system.

The work is being done in the new dial system. The work is being done in the new dial system.

National Bank Installs Night Depository Box

Night depository facilities are almost complete at the First National Bank, according to A. R. Hill, president.

This improvement will be a decided convenience for those who wish to put their money in a safe place after banking hours.

The depository is located at the front of the bank, built into one of the former windows. Two windows were torn out and replaced with glass brick. The semi-circles above the windows were bricked and plastered.

The deposit box will accept letters in bottom slot, or larger packages above which must be opened by a key. The vault inside the bank is opened by dual combinations and can be opened only by two bank employees who have access to only one set of combinations each.

According to Mr. Hill, other improvements on the bank building are under consideration, but definite plans have not been decided upon.

Local Births

Marcus Engene Grover, boy, 10 months
Milton Wayne Stevenson, girl, 10 months
William Otto Smith, girl, 10 months
Pamela Diane, girl, 10 months
Ralph Earl Tanner, girl, 10 months
Vicky Louise, girl, 10 months

Glenna Kay Landes Candidate Farm Bureau Queen

Miss Glenna Kay Landes has been selected as a candidate for the Wichita county Farm Bureau Queen contest to be held Friday, August 9th at the Valley Farms Community House at 7:00 p. m.

Glenna is the 16 year old daughter of Mr. and Mrs. H. K. Landes of this city. She will be a junior in school this year, is a majorette with the high school band and has a perfect attendance record all through school.

Local members of the Farm Bureau are urged to attend the meeting on Aug. 9th and support their candidate.

Geo. Byerly Returns From Port Arthur

George Byerly, local Magnolia Wholesale Agent, and president of the Chamber of Commerce, has returned from a trip to Port Arthur where he visited his father and mother and other relatives. Enroute home, Geo. stopped at Fort Worth where he visited Mr. and Mrs. Charlie Grace, former Burk residents.

Local Girl To Narrate County Dress Revue

Charlotte Simons, well known in state 4-H circles will serve as narrator of the annual Wichita County dress revue next Wednesday at the YWCA.

A sophomore at East Texas State, Charlotte has won the county revue for seven years, district twice and entered the state revue in 1955. As she attended Congress last fall she wasn't eligible to enter this year.

As narrator, Charlotte will write the script and comment on the thirty girls who will enter the revue. A 1956 national winner in dairy foods, Charlotte will enter records this fall in 4-H achievement.

Charlotte has conducted 4-H projects and takes part in 4-H activities on district, state and national levels.

Ruel W. Spillers - Wanda Niblet Married July 12th In Mobile, Alabama Church

Pleasant Valley Methodist Church of Mobile, Ala., was the scene of a lovely wedding on Friday, July 12th uniting Miss Wanda Marguerite Niblet and Ruel W. Spillers in marriage. The bride is the daughter of Mr. and Mrs. W. D. Niblet of Mobile and the bridegroom is the son of Mr. and Mrs. Lee Spillers of Burk Burnett.

Bob Hinkle Raises Fine Cantaloupes

Bob Hinkle left some fine specimens of cantaloupes at the Star office this week. They were grown on his farm near Devol, Oklahoma.

The cantaloupe crop has been exceptionally fine this year. Big ones up to 6 to 8 pounds are not unusual. In some instances cantaloupes grew so fast they popped open on the end opposite the stem. Many local crop melons have been sold here this year and they compare favorably with any of the product shipped in.

Dr. G. H. Briister Will Enter Air Force

Dr. G. H. Briister, son of Mr. and Mrs. R. H. Briister, 701 Reagan, St., Burk Burnett, has received notice that he is to enter active duty as Captain in the Air Force on August 2nd. He has been in the USAF reserve as Lieutenant since last November.

Dr. Briister is to attend the medical officers indoctrination course at Gunter Air Force Base, Montgomery, Ala., for three weeks prior to leaving for his permanent duty station at Itazuke, Japan early in Sept.

Dr. Briister has been visiting with his parents since the completion of his internship July 1.

Smith Speaks On Farm Safety

With farm safety being the theme of last week, Alden Smith appeared on the Glen Shelton radio program last Friday. He estimated that over one half million 4-H clubbers have included safety among their projects this last year. He also spoke about the many hazards found around the farm. The program was broadcast over station KTRN in Wichita Falls.

Senior MYF Meeting

A regular meeting of the Senior MYF was opened by discussing the business Sunday night. Sharon Boyle was asked to play the piano for the members to sing. For The Beauty of the Earth. After song, Leslie Boyle brought us the lesson with the help of Jerry Thomas.

The meeting was brought to a close with the MYF benediction. There were 16 members present, two new members, Paula Garland and Thomas McDonald, and two visitors, making a total of 20 persons present.

Mr. and Mrs. Woodrow Elrod and boys of El Paso are visiting her mother, Mrs. Will Wright, and other relatives here this week.

Biggest Paint Job Just Completed At Mills Elevator

The biggest paint job in town has just been completed. It was the job of painting the 325,000 bushel grain elevator of Harlin A. Mills.

Nine men did the job in less than three days. The paint was applied to the walls by means of paint rollers some ten to twelve inches long, rollers similar to those used to paint plaster or textured surfaces.

According to the paint contractor, they covered 390 square feet, or 39,000 square feet. If spread out flat the elevator walls would cover almost an acre of ground (which is 43,500 square feet).

When the paint job was completed a sign painter went up near the top and painted in black letters four feet tall, HARLIN A. MILLS GRAIN CO.

This 152 foot tall elevator can be seen for some fifteen miles from Burk Burnett in some directions. It is an impressive sight as one drives toward Burk Burnett.

Billions Lost In Car Accidents

The economic loss from accidents in the United States in 1956 would have built about 224 Empire State Buildings, the National Safety Council said today. And that's almost 23,000 floors.

The 1957 editions of "Accident Facts," the Council's statistical yearbook, just off the press, lists the nation's loss from all accidents in 1956 at eleven billion dollars.

Motor vehicle accidents during the year cost 5 billion dollars, and work accidents nearly 4 billion, the booklet states.

Palace Cafe Reopens With Refrigerated Air Conditioning

Mr. and Mrs. Huck McDonnell re-opened their Palace Cafe Tuesday after being closed a little over two weeks. During the time closed the place was repainted and refrigerated air conditioning installed.

The air conditioning unit is something new in Burk Burnett. It is run by natural gas, which runs a four cylinder engine. The engine runs the compressor and large fan. Freon is compressed, pumped to an air handling device which distributes cool air. The liquid returns to the radiator in the form of gas. There it is cooled, run through the compressor again then back to the air handling unit. Inside temperatures 25 degrees lower than outside temperatures can be maintained.

LIONS CLUB Town Hall Each Tuesday 7:00 P. M.

Roy Silkwood, in charge of the program, presented Donald Redman and Kenneth Estes. They are two of the boys from Burk who attended Boys State in Austin. Dan Fowler also attended from Burk.

Redman and Estes each gave their impressions of Boys State. Both boys praised Boys State and expressed their appreciation at being able to attend such a wonderful gathering. The Lions Club has sponsored a boy to Boys State for the past several years.

Charlie Croft was the guest of Harry Dodson. Ted Roark had as his guest Mr. Wilson. Next week Andrew Suttles will bring the program.

In a directors meeting following the regular meeting, the group voted to give \$25.00 toward the purchase of a public address system for Town Hall. Installation of the system will be made this week.

Mrs. W. A. Roberts of Dallas visited Mr. and Mrs. Ray Mills here Tuesday and Wednesday.

Mrs. I. E. Harwell and Mrs. R. P. Reagan visited Mrs. Reagan's sisters, Mrs. Brown and Mrs. Arnold, in San Angelo last week.

PRINCESS STYLE

Here's a cotton knit dress designed by Anne Fogarty for the talented miss to make at home. The princess style, with its uncluttered detail, can be easily knitted from a new all cotton yarn. The dress is perfect for year round wear.

1st Baptist Church Devol, Okla., Starts Revival, Aug. 4th

A revival meeting will be held at the First Baptist church in Devol from Sunday, August 4th to the 11th. Evangelist will be J. Roberts of Fort Worth, Tex., and singer will be Don Cureton from Shawnee, Okla.

Services begin each evening at 8:00 p. m. in the air conditioned auditorium. Everyone is urged to attend.

Eastern Star Chapter No. 655 Met Tues., July 23

Burkburnett Chapter No. 655 O. E. S., met for a stated meeting and initiation Tuesday evening, July 23rd. The meeting was called to order by Robert Morine, Worthy Patron.

A hearty welcome was given to visitors from Faith Chapter, J. A. Kemp Chapter, Byers Chapter, Petrolia Chapter, Purcell and Devol, Oklahoma.

A beautiful initiation ceremony was held and the degrees were conferred on one candidate. Gladys Carswell and Connie Stegall rendered a vocal selection, accompanied by Zelpha Foster.

Mabel Johnson announced that confirmation was received for reservations for Grand Chapter to be held October 14-17, in Dallas, Texas.

Delicious refreshments were served in the dining room to sixty-three members and guests. A beautifully decorated birthday cake was cut by the Worthy Matron, Pauline Morine, and served to all present. A birthday gift was presented to Mrs. Morine by the officers of the chapter.

Members serving on the refreshment committee were Mesdames Ruby Harris, Lilla Turpin, Opal Matthews and Thelma Fowler.

The next stated meeting and initiation will be Tuesday evening, August 13, at the Masonic Hall.

Mr. and Mrs. Ray Mills were accompanied to Dallas over the weekend by Mrs. Mills' sister, Mrs. Joe Watson and Debby, who will return to Germany by plane after several weeks visit here. The Mills visited their son Mr. and Mrs. H. L. Mills.

Mr. and Mrs. Charles Bege and Charlotte and Glenna Landes have returned home from a vacation trip to Galveston, Austin and San Antonio.

Mrs. Mildred Audus and children, J. T. and Sandra, of Glade-water visited her aunt and uncle Mr. and Mrs. J. T. Deckard, here recently.

Mr. and Mrs. W. A. Minick spent last week in Temple, Tex., where Mrs. Minick underwent treatment for her eyes at Scott White clinic.

Mr. and Mrs. Ray Mills visited relatives in Oklahoma City Sunday.

Water Plentiful Says City Mgr. Use All You Want

City Manager A. W. Newman states he believes they can take care of all the water needs for all purposes. The "big inch", sixteen inch water main to town is in operation. A twelve inch gathering line at the pump station has been giving trouble but it is believed that this has been remedied. The new wells drilled East of the Prescott station are proving out to be better than expected. The source of supply seems to be plentiful, the lines to handle it are ample, and pumps at the station are plenty large to push the water to town.

Yards, shrubs, and gardens are beginning to suffer from hot dry winds. A fresh drink will do wonders to revive growing plants.

In the West part of town users will still find the pressure low when the storage tank is full. Part of the distribution pipe in that part of town is four inch. Just as soon as possible this small line will be replaced with at least six inch.

COUNTY CLUB CHATTER

by Alden Smith

The big month for 4-H club activities has arrived. From now until the last day of August, Wichita County clubbers shall be taking part in numerous events.

Tomorrow is the big day for county 4-H'ers. The annual camp begins at ten o'clock at the 4-H Center in Wichita Falls. A full day and evening of activities have been scheduled. I'm hoping to see the Burk Burnett clubs well represented as there will be an attendance prize given the best represented club. County 4-H'ers helping to conduct the camp will be Goldy Shook and Garland Weeks in 4-H records; Charlotte Simmons in safety; Mary Stewart in youth problems; Shirley Van Huss and Jackie Wisdom in wildlife and Alden Smith in electricity.

I hope to see many of you there as this promises to be the best camp ever.

Having trouble with your records or standard report? If so don't forget to attend the annual record work shop to be held this month. So far no date has been set. Each year Wichita County 4-H'ers turn out an exceptional number of state winners and many receive their training at these meetings.

The annual County Dress Revue will be held this coming Wednesday at 2:00 p. m. at the YWCA in Wichita Falls. If you are interested in girls club work let me urge you to attend. A large number of girls are entering this year and among them are Kathryn Siber and Patricia Simons of the Burk Burnett clubs. Don't forget the date Aug. 7th at the YWCA.

National 4-H Congress will be here before you know it and several Wichita County boys have dreams of attending this year. Trying for a trip to Chicago are Willie Morton in tractor, Olen Bailey in electricity, Larry Culley in the boys agriculture program and Ralph Swinford in achievement. Last year Wichita County had four state winners and this year we hope to double that number.

Until next week and more club news from 'round the county, don't forget Camp. It takes you to make it a success!

Mr. and Mrs. Martin Wright and Gail have returned home from a visit with Mr. and Mrs. Pete Nunn and Alan in Premont, Texas. The two families visited points of interest in Old Mexico, Corpus Christi and Austin.

Mr. and Mrs. P. D. Vaught are the proud parents of a baby girl born Tuesday morning at 7:15 a. m. The baby has been named Keri Kim and mother and baby are reported doing fine.

Mr. and Mrs. Cliff Cannon are visiting their daughter, Mr. and Mrs. Bill Parr and children, in Monahan, this week.

Outside These Counties \$2.50

GRASS ROOTS OPINION

OMAHA, NEB., PUBLIC LEDGER: "New Hampshire Fire Marshall Aubrey G. Robinson—singled out gasoline filling stations for special commendation 'because they have demonstrated the effectiveness of a continuing, industry-wide campaign of fire prevention.' So here hats off to our own fire preventing filing station operators. They set a good example for all of us to follow."

OWATONNA, MINN., PHOTO NEWS: "A newspaper has by its very nature accepted a public trust that it will print impartially all of the news worthy of publication without fear or favor. What it considers news, and how it is presented is part of this public trust and is based in large measure upon the attitudes and taste of the locale and times."

DENVER, COLO., MINING RECORD: "With the public debt of the United States now over \$274 billion dollars and with good reserves of only \$21,793,000,000, the future of the nation financially should require a building up of our gold reserves. An incentive is needed to speed up the mining of gold in our idle U. S. gold mining districts—It would be good business on the part of Washington to invite miners to sell their newly mined gold to the government at a price that would allow a profit."

PHARR, TEXAS, PRESS: "To pay off the national debt in one year would take almost the entire income of everyone in the nation. The per capita debt stands at \$1,613.38 while the nation's per capita income is only \$1,935."

LENNOX, S. D. INDEPENDENT: "All the time 'saved' by speeding drivers is nothing compared to the lifetime lost by just one innocent victim of a speeding accident."

Tungsten - A Word For Tomorrow

Continuing efforts of a stubborn group in the House Appropriations committee to thwart the Mineral Purchase Act of 1953, designed to protect U. S. production of strategic metals against imports from low-wage foreign countries, assume graver proportions as new Communist diversions appear in Formosa, in Japan, in Latin America and the Red threat continues to grow in Korea.

The purpose of the act originally passed in 1953 was extended by new legislation in 1956, authorizing the expenditure of \$91 million for the purchase of tungsten, fluorspar, columbiumtantalum and asbestos through 1958. But the extension merely authorized the expenditure, it did not appropriate the money. Just before adjournment, Congress appropriated \$21 million for the balance of 1956, promised \$30 million more for 1957 and the balance of \$40 million for 1958.

Since 1953 America has been able to develop a tungsten mining industry capable of making us independent of foreign sources—in Red China, Korea and elsewhere behind the Iron Curtain or close to it—sources that hostilities would quickly cut off. But since January, and at a time when tungsten is fast becoming our most critical defense material, there has been no money. Most of our tungsten mines are closed others are closing and hard-rock miners are idle or drifting away to other jobs.

Three times the Senate has sought to keep faith on the promise of 1956. Twice that willful group in the House committee has cut the \$30 million strategic minerals item out of the \$300 million urgent deficiency appropriations bills. At this writing, it is back in committee, among those who are deaf to the earlier pledges of their honorable body, and blind to the fact of defense. This obstinate opposition has claimed that but 20 pounds of tungsten is used in a modern jet engine when the fact is nearer 145 pounds (in the J-57). To produce the higher speed, higher temperature engines of the future, and the planes they will drive above Mach Two, alloys of 50 percent of tungsten or more are the engineers' best bet to crack the "heat barrier. In the light of predictable demand, the six year stockpile of last June is now estimated as sufficient for a year and a half. When it takes 1,500 pounds of tungsten to build a 5,000 engine, a year's production could use up as much of this metal as was mined in the US in our best year.

Captive Workers

In our column on the labor union problem, Dorothy Thompson quotes Lord Acton's famous saying — "all power corrupts and absolute power corrupts absolutely." Then she adds: "The policy makers of powerful unions control a captive membership. They exercise a monopoly over their jobs. A man cannot work without a union card; his dues are usually collected automatically out of his pay envelope, some unions require very high initiation fees; the worker cannot resign."

Later in her column Miss Thompson makes this significant statement: "Workers themselves are revolting, charging unfair practices in their own unions. Organizing campaigns are slowing down. The movement against the closed shop is growing."

The Senate investigation into labor racketeering has led to a host of legislative proposals. Many of these are designed to prevent union treasuries and welfare funds from being looted by crooked officers. That is certainly a necessary step—but it is not all that is needed by any means. The monopoly power of union heads can be broken only in one way—by outlawing the closed shop and the union shop. And the way to do that is through right-to-work laws, of the sort that now exist in 18 states. These laws put union membership on a straight voluntary basis. The union cannot force a man to join in penalty of dismissal from his job, and the employer cannot prevent a man from joining if he so desires. The individual worker has freedom of choice—and he isn't anyone's captive.

DEMI-LONGEUR

New longer length, so named by the French, is featured in Claire McCordell's frock of Everglaze Supima cotton by Everfast—as handles head for the floor.

Texas Safety Association

A truly significant step towards increased traffic safety was taken recently when the Automobile Manufacturers Association adopted a recommendation that the automobile industry should stop using speed and horsepower in promoting the sale of their cars.

In the essence, the Association stated that it believed the manufacturer should stress the useful, efficient and safe features of their products.

P. A. Musick, General Manager of the Texas Safety Association and one of the state's leading traffic safety experts, said "This move, if complied with, could be one of the biggest booms to traffic control in many years."

"Safety is largely dependent on the individual's attitude," Musick said. "If the manufacturer emphasizes a car's speed and horsepower in his sales talks then the public is bound to utilize what they've paid for. The same will hold true in a reverse approach to a large extent."

The resolution of the AMA Directors, who are the heads of the major auto manufacturers urged member companies to:

"not participate or engage in any public contest, competitive event or test of passenger cars involving or suggesting racing or speed, including acceleration tests, or encourage or assist employees, dealers or others, or furnish financial, engineering, manufacturing, advertising or public relations assistance, or supply 'pace cars' or 'official cars' in connection with any such contest, event or test, directly or indirectly."

"Not participate or engage in, or encourage or assist employees, dealers or others to engage in, the advertising or publicizing of (a) any race or speed contest, test of competitive event involving or suggesting speed, whether public or private, involving passenger cars, or the results thereof; or (b) the actual or comparative capabilities of passenger cars for speed, or the specific engine size, torque, horsepower or ability to accelerate or perform in any context that suggest speed."

In discussing this new move for safety, Musick said, "Of course a resolution is not binding, but it is a step in the right direction and the AMA should be applauded for their interest in the public's welfare."

Mrs. Cliff Cannon is in Fort Worth this week visiting her sister, Mrs. Lawrence Smith.

Mrs. S. S. Reger is in Coffeyville, Kans., visiting her mother who is 90 years of age.

Mr. and Mrs. Jack McClain are spending their vacation visiting his parents in El Paso.

Corinthian architecture is characterized by columns, usually elaborately fluted and carved.

KEN GIBSON ENROLLED IN COACHING COURSE NT SC FOR SECOND TERM

Kenneth Gibson, son of Mr. and Mrs. W. L. Gibson, 718 W. Third St., Burkburnett, has enrolled in a course on advanced methods of coaching and management of athletics at North Texas State College for the second summer term.

A teacher in the Greenville Public schools, Gibson is a graduate student working toward the Master's degree in health, physical education and recreation.

Seven championship coaches and athletic specialists are serving as visiting consultants for 2 such classes, which will run thru Aug. 22. Enrollment in the two courses is more than a hundred, most of whom are coaches and physical education teachers doing graduate work.

Guest speakers are coaches Chuck Moser, Al High and Claude Gilstrap, North Texas College; Abilene Oliver Jackson, track coach; Worth North Side High School; Ralph E. Owens, Oklahoma State University; E. O. (Doc) Collins, Lakewood Country Club, golf professional.

DIAL TELEPHONES

are being installed in Burkburnett

PLEASE DO NOT USE THE DIAL NOW

DIALS are being installed on telephones here in preparation for the change to the new dial system. Many weeks—eventually months—will be required to complete this phase of the job.

In the meantime, of course, other work will be going on to finish the new telephone building and install the dial equipment.

When the dial is installed on your telephone, please remember these two things:

1. Continue to give your calls to the operator — just as you have in the past.
2. Do not turn the dial while telephoning — this may disconnect you from the person you are talking to.

Installation of dials on telephones here is another step toward the day when your dial system will be placed in service.

We'll let you know when the new system is completed and the dial on your telephone is ready for use.

Randlett News

By Mollie South Elliott

Mrs. Mollie Elliott and son David visited Mr. and Mrs. J. W. Hicks and son in Burkburnett Saturday.

Mr. and Mrs. John Duke and children of Lawton visited her parents, Mr. and Mrs. T. E. Spannagel, from Wednesday until Friday.

Mr. and Mrs. Louis Due and children of Duncan spent the weekend with their parents, Mr. and Mrs. A. S. Nason and Mrs. Florence Due.

Mrs. Fred Hill of Houston spent last week with her mother, Mrs. Florence Due.

Mr. and Mrs. G. L. Ousley and baby or Norman visited his parents, Mr. and Mrs. Dewey Ousley over the weekend.

Charlotte Hatcher spent last week with Mr. and Mrs. Leslie Tuel of Burkburnett.

Mr. and Mrs. Louis Due and children of Houston visited his mother, Mrs. Florence Due over the weekend.

Mrs. Jessie June Fore visited her parents, Mr. and Mrs. Jess

Butler over the weekend.

Mr. and Mrs. Jack Wingfield of Archer City visited her parents, Mr. and Mrs. T. L. Wileman over the weekend.

Mrs. Patsy Brown of Burkburnett visited her parents, Mr. and Mrs. Jess Butler, Saturday and Sunday.

Paula Sue Bridges spent Saturday night with her grandmother, Mrs. Martha Linkugel of Temple.

Mrs. Inez Hendricks and daughter and niece of Ardmore were in Randlett over the weekend on business.

Lloyd Hicks of Burkburnett spent from Monday until Wednesday with his aunt, Mollie Elliott.

Mr. and Mrs. Bill Darter of Walters visited Mr. and Mrs. R. H. Rhoads Tuesday night.

Mr. and Mrs. Jerry Baber of Burkburnett visited his parents Mr. and Mrs. T. J. Baber, Wednesday night.

Karry Lou Rhoads visited her sister, Mrs. L. E. Ellis in Burkburnett Wednesday.

Marsha Due of Duncan spent last week with her grandmother Mrs. Florence Due.

Mr. and Mrs. Jason Spannagel and children of Burkburnett visited his parents, Mr. and Mrs. T. E. Spannagel, Thursday.

Mrs. S. W. Adams and Mrs. J. W. Penick were in Burkburnett on business Friday.

Mr. and Mrs. Bill Hill of Burkburnett visited Mrs. Eva Green Sunday.

Mrs. Edd Evans of Okla. City is visiting her father, Mr. O. L. Burton.

Mr. and Mrs. N. O. Fisher visited his mother, Mrs. M. E. Fisher in Walters Sunday night.

Peggy Purman is visiting her sister, Mr. and Mrs. Roy Martin, of Marlow this week.

Mr. and Mrs. Gene Barnes of Lawton visited her parents, Mr. and Mrs. D. L. Alexander, over the weekend.

Mr. and Mrs. Roy Braden and son of Hastings visited Mr. and Mrs. S. M. Braden Sunday.

Mr. and Mrs. Bobby Crow and Jerry of Wichita Falls visited his parents, Mr. and Mrs. Herb Crow, Sunday.

Mrs. Eddie Bryant and daughter, Mrs. Marybelle Terry, and Mrs. Tom Pirtle and Carolyn Horten returned home Monday from a trip to Canada.

Mrs. Gordie Mae Palmer visited her parents, Mr. and Mrs. Albert Nolen and children, last week.

Mr. and Mrs. Paul Bridges and girls and Mrs. Mollie Elliott and David visited Mr. and Mrs. J. W. Hicks and sons of Burkburnett Sunday evening and made ice cream.

Mr. and Mrs. H. M. Warren, Mr. and Mrs. George Warren, Mr. and Mrs. Herschel Warren, Mrs. Willie Cozby, Mrs. W. E. Morrow

SEAFARING

Here's a smart seafaring outfit for the miss who loves the water. This winning combination by Phil Rose of California features lined cotton knit shorts in bold red and white stripes. Overblouse of white cotton sailcloth is trimmed with matching knit.

Mrs. Ralph Postelwait, Mr. and Mrs. Emery Bentley attended funeral rites of Mr. Frank Warren in Cee Vee, Tex., Saturday. He was the brother of Mr. H. M. Warren and was 89 years of age.

Mr. and Mrs. Johnnie Jones and son attended funeral rites of a brother-in-law of Mrs. Jones in Sherman recently. The man was killed in a car wreck.

Miss Ella Green returned home last week after a two weeks visit with her brother, Mr. and Mrs. Jack Green of Amarillo.

Mr. and Mrs. D. H. Barnes of Amarillo spent Thursday night and Friday with Mr. and Mrs. N. O. Fisher and family.

Mr. and Mrs. Jodie Boles and children left Sunday to visit her parents, Mr. and Mrs. L. F. Head, of Little Rock, Ark. They will return home around the 7th of August.

Mr. and Mrs. Clifford Rhoads and girls spent Saturday night and Sunday visiting her parents, Mr. and Mrs. Edd Perryman.

Mr. and Mrs. Herbert Knight-step and family of Walters visited Mr. and Mrs. N. O. Fisher Sunday afternoon.

Mr. and Mrs. Carl Turner are the parents of a son born Thursday in a Wichita Falls hospital. The baby has been named Matt Shaylon.

Mrs. A. L. Anderson and children, Shirley and Travis, and Mr. and Mrs. Edwin Anderson went to Amarillo to attend the

Webb family reunion over the weekend.

Mr. and Mrs. Raymond Schuette of Denver, Colo., are the parents of a new baby girl. They have named her Carol Ann. Maternal grandparents are Mr. and Mrs. T. H. Sanford of Randlett.

Mr. and Mrs. Herbert Struck of Odessa are the parents of a baby girl born Friday. Maternal grandparents are Mr. and Mrs. W. J. Marrow of Randlett.

Mr. Fred Simmons, Mrs. Raymond Hale and Mrs. Robbie Best visited relatives in Kirkland, Sunday.

Miss Myrtle Capps will leave Thursday by plane for Seattle, Wash. From there she will go to Okinawa by boat.

Mr. T. L. Wileman, Mr. Jack Wingfield and Larry Wileman went to Lake Murray over the weekend for some fishing.

Mr. and Mrs. James Anthony and son Jimmie of Atlanta, Ga., are visiting Mr. and Mrs. Howard Bentley this week.

Mildred Etier of Ft. Worth is visiting her sister, Mrs. T. J. Baber and family this week.

Mr. and Mrs. F. E. Eastman, accompanied by Mr. and Mrs. Dickie Eastman of Wichita Falls spent the weekend at Lake Murray fishing. Mr. and Mrs. R. L. Eastman and girls spent Saturday at the lake.

Mrs. Bill Null and children, Moore, Mary Elizabeth and Margaret Nell, of Wichita Falls visited her parents, Mr. and Mrs. C. H. Dunn, Sunday.

Mr. and Mrs. J. S. Baber and girls and Mr. and Mrs. R. L. Eastman and girls are visiting in Hot Springs, Ark., this week.

Mrs. Alma Capps and Myrtle were 6 o'clock dinner guests of Mr. and Mrs. J. D. Turner of Burkburnett last Tuesday.

Mrs. J. C. Goode is reported confined to her bed with a back ailment.

Mrs. Marie Brown of Odessa visited her parents, Mr. and Mrs. K. D. Vaden last Tuesday.

Wayne Fowler left Friday nite for Pueblo, Colo., to attend Mid West College of Commerce.

Mr. and Mrs. Paul Knowlten and children of Sheppard are visiting his uncle, Mr. and Mrs. C. H. Knowlten, this week.

Mr. and Mrs. Fred Spoon visited Mr. and Mrs. C. W. Wilson of Munster from Thursday until Saturday.

Mrs. J. D. Majors of Burkburnett and granddaughter, Sandra Majors of Corpus Christi, recently accompanied Mr. and Mrs. Garland Johnston and children of Vernon on a vacation trip to Colorado.

Mrs. Marie Woods and Janie of Tampa, Fla., are visiting friends here this week.

Mrs. J. C. Adams is a visitor in Ft. Worth this week.

Vacation Thoughts

Here are some thoughts on late summer vacations:

An employer's and an employee's conception of a vacation differ considerably. The employer emphasizes rest and relaxation for the vacationer. The employee thinks in terms of fun and activity.

Possibly more attention should be given to rest in connection with vacations. Too many people returning to work after their two weeks off sigh wearily and say "I'm glad to get back to the office for a rest."

The annual vacation in the United States has become an actual necessity for health and well-being. But for maximum benefits it should be restful above all.

Rest the mind, rest the eyes, rest the body, is good advice to the late summer and early fall vacationists.

The annual "rest period" should be spent so that you return refreshed rather than fatigued.

Here are some tips on taking vacations for rest and relaxation:

Don't get into a cross-country driving marathon. Realize that you can't see the whole United States in two weeks. Settle for a leisurely sightseeing trip if you spend the time in travel.

Rest the mind with books if you are going to settle down somewhere; if traveling visit historical places on the way. This kind of visiting will take your mind off present-day worries and troubles.

You use your eyes more on vacation than you do normally.

They are also subjected to unusual strain. For tired eyes wear sun glasses that are effective. It is also a good idea to buy a bottle of Murine in the dashboard compartment. Turn it off the road when you feel and take a nap.

Keep the body relaxed by exercise. Don't attempt a vigorous athletic program. If you are going to do a lot of walking, do it in easy stages. Uniforms are in really good condition. A few vacationers are—start sports activities in mid-morning until your muscles are limbered up.

And, finally, remember the sun will burn the vacationer's skin. Use skin lotions and don't stay out too long. A sunburn isn't relaxing.

Remember, let the word rule your vacation at all times.

Insight, Study Can Dramatize The Familiar

"STE. GENEVIEVE TRAIN FERRY" — by Gerald R. Massie, Jefferson City, Mo., second prize-winner in the professional class, 1956 Graflex Photo Contest, is taken with Speed Graphic at 1/100 and f/11 on Super XX film.

"I WONDER how many people passed this scene hundreds of times without seeing in it the picture visualized and captured by this photographer?"

This was the question asked by T. T. Holden, photo director of Graflex, Inc., Rochester, N. Y., when he first saw this prize-winning picture.

In a photo like this, the picture subject matter was only the beginning. The most important ingredient was the thoughtfulness and care with which the photographer studied out his problem.

He saw first of all, the need for a dramatic cloud formation, against which to set off the black smoke billowing from the locomotive. Unable to get both at the same time the photographer shot the cloud formation separately. He saw the need for framing the right side of the picture with pilings, and finally he found — undoubtedly with some experimentation — just the right angle from which to shoot the locomotive. Using both negatives he succeeded in producing a striking photograph by double printing.

"The art of dramatizing the familiar is a good bit of the whole art of photography," points out Holden. "All around us every day are scenes which can be turned into fine photographs. Almost every fine photo you've ever seen — with the exception of once-in-a-lifetime spot news breaks — contains material that many others, including other photographers, have been exposed to."

"This means that photography embodies much the same artistic qualities and personal element that apply to the worker in oils or water colors. Most of the time, the fine photograph is the unique expression of one individual's insight into the familiar and his ability to so dramatize it on film as to attract and hold the interest of others, including perhaps hundreds who have viewed the same scene repeatedly, yet have really not seen it at all."

White Satin Ribbon, Candlelight and Butterflies

Candlelight gleams on white satin ribbon. And only the way the bride's bouquet trembles . . . only the way the groom nervously straightens his tie . . . tells the secret of the butterflies fluttering in their hearts as they start out on one of life's greatest adventures.

Whether or not the young couple lives happily ever after usually depends on how successfully they meet and share the problems of everyday living. And not the least of these problems is financial. A family's sound financial standing depends as much upon a woman's ability to manage money as it does her husband's ability to make it. And a family savings program is as much the wife's responsibility as it is her husband's.

Many young couples today are working towards financial security by investing regularly in U. S. Series E Savings Bonds on the Payroll Savings Plan. It's the easiest way to save—and one of the safest.

Now Savings Bonds are better than ever!

Every Series E Savings Bond purchased since February 1, 1957, pays 3 1/4% interest when held to maturity. It pays higher interest, too, in the earlier years, and matures in only 8 years and 11 months. Now, more than ever, it's smart to save with guaranteed-safe U. S. Savings Bonds. Buy them regularly where you bank or through the Payroll Savings Plan where you work.

STATE CAPITOL News

BY VERN STANFORD
Texas Press Association

While the static about treasuries, Gov. Price Daniel held a special session of the Texas Legislature to discuss the state's financial condition. House Speaker Waggoner and others suggested that the state might not be able to meet its obligations without a session costs without a tax. But the governor said that a brief session, limited to three subjects could be held for as little as \$250,000. He estimated that some \$618,416 would be needed to cover the session. This is considerably more than any previous session indicated.

Cricket season came early this year in the Capital city. The pesky block jumpers which pay Central Texas an annual visit in great numbers, are here.

But marion Toole aquatic biologist for the Texas Game and Fish Commission, says it's a lucky season for fisherman. Crickets, it seems are considered a real delicacy by all game fish. But sunfish and bass bite them best, he says. "It's too good an opportunity for any fisherman to pass up."

So while merchants fight them in downtown areas and home owners spray and dust around porches and patios, both

Because of lowered demand for Texas oil, the Railroad Commission set the August allowable at 13 producing day, same as for July. It is the lowest producing pattern ever used in the state.

Individual Incomes Up—
Texans are getting richer, according to Uncle Sam's tax reports for fiscal 1957.

For the five state Southwestern area federal tax collections hit the all-time record total of \$4,346,149,316. More than half of this—\$2,560,867,402—came from Texas. This is a 7 percent increase for the state over last year's collections.

Of this total, 75 percent comes from income taxes, the remainder from employment taxes, excises, etc. Revenue officials attributed the big jump to higher salaries in the Southwest.

It's An Ill Wind—
Cricket season came early this year in the Capital city. The pesky block jumpers which pay Central Texas an annual visit in great numbers, are here.

But marion Toole aquatic biologist for the Texas Game and Fish Commission, says it's a lucky season for fisherman. Crickets, it seems are considered a real delicacy by all game fish. But sunfish and bass bite them best, he says. "It's too good an opportunity for any fisherman to pass up."

So while merchants fight them in downtown areas and home owners spray and dust around porches and patios, both

fish and fisherman can have a field day. "And they'll be with us until early September," Toole added.

Traffic Toll Up—
Texas traffic deaths and injuries jumped an estimated two percent for the first six months of this year as compared to 1956.

Reports from the Department of Public Safety for January-June, 1957, show 96,785 accidents. Total for the same period in 1956 was 91,555 accidents. Final figures on deaths and injuries are not yet tabulated.

One bright spot, however: deaths dropped from 5.7 per million vehicle miles to 5.5 for this year.

Vets Due Refunds—
Some \$16,271 in fees will be returned to veterans who started, but did not complete, transactions with the Veterans Land Board.

Before it was amended by the last Legislature, the law did not allow the board to return fees to veterans who changed their minds about buying land.

Average refund will be about \$70, largest \$100, according to Land Commissioner Earl Rudder.

"Flu" Watch On—
An outbreak of Asiatic "flu" in Texas is likely, says State Health Department officials.

Many Texans were believed exposed at a church conference in Grinnell, Iowa, and at the Boy Scout Jamboree in Valley Forge, Pa.

Adding to the uneasiness was

a report that 50 sailors stationed at Corpus Christi had been stricken.

Present vaccines are ineffective against this Asiatic virus, said Dr. J. E. Peavy, chief epidemiologist. "But I hope a new vaccine will be ready by fall."

Vice Campaign In The Red —
Atty Gen. Will Wilson's department is having to use "rubber checks to carry on with its campaign against organized gambling.

Because of its extra activities, the department ran out of money, with no more due until the new fiscal year begins, Sept. 1. Gov. Daniel granted the department \$11,425 from his special emergency fund of \$200,000. But because of a technicality in the wording of the bill, this money isn't officially available either until 1959.

Hence, the checks written on the fund are deficiency warrants which, said the comptroller, are really "hot checks." Banks can't get their money from them until the Legislature meets and makes them good.

Optometrists Wrangle—
Texas Optometrists are still in

a hassle as to whether the state can regulate their advertising, and if so how much.

Prior to the last Legislature the State Board of Optometry Examiners tried to set up advertising regulations. Suit was brought challenging its authority and the effort was dropped.

Last session a new law was passed barring "fraudulent, deceitful or misleading" advertising. At a recent meeting the board is reported to have set machinery in motion to form an advisory committee from the profession with powers to set restrictions. But some practitioners objected and talked of trying to get advertising media to bring suit to test the constitutionality of the new law.

A board spokesman promptly explained the board wasn't contemplating a ban on advertising. He said the statewide advisory committee was only to make recommendations which would not be binding.

Short Snorts—
Half as many legislators with twice as much pay has been proposed by Austin's Sen. Charles Herring. "I've found it difficult to deal effectively with such a

large number of lawmakers, said Herring, but added that he doubted the halving plan would be adopted. A total of 92 new firms employing 1,587 persons was started in Texas last month, reports the Texas Employment Commission. Low bids totaling \$14,063,208 were tabulated by the State Highway Department in its July bid opening for road construction projects. One of the largest organizations in Texas Texas was launched this week at a convention leading up to the merger of state labor groups into the Texas AFL-CIO.

Ira Hardcastle of Bentonville, Ark., was here last week visiting old friends and looking after his business interests.

Your Magic Link to Better Living!

Modern Home Wiring for FULL HOUSEPOWER

It takes more than modern appliances to get full benefit from your dependable electric service. It takes modern home wiring, too... with a large enough service entrance and enough electrical outlets and circuits to operate your appliances with maximum efficiency, convenience and economy. A 100 ampere service entrance is the minimum recommended for most homes.

If your lights dim when your refrigerator comes on, if heating appliances operate sluggishly, if fuses blow repeatedly due to over-loaded circuits, it's a sign of low HOUSEPOWER. You may need larger wire, an additional circuit or more outlets to get best performance from your work-saving appliances.

Your electrical contractor will gladly make a check of the wiring in your home and tell you what you need for full HOUSEPOWER. See him about it soon. Live Better... Electrically!

the Snapshot Guild

Graduation memories are on a must list to be recorded on film.

Thoughts on Filming "The Graduation Story"

Today's boy or girl graduate is a full-fledged star, given feature billing in a week-long series of events and activities—those shared with members of his class at school, as well as others in which his family plays host at home. Graduation Day itself has become merely the climax to a round of functions and frolics!

That's why the "graduation story" demands an active camera throughout the week preceding the actual commencement exercises—continuing right up to the Great Day itself when that diploma finally becomes part of family history!

As on most family occasions, Dad or Mother will probably be the official picture-taker—unless some friend or relative has the foresight to present the graduate with a handsome gift of a camera. If so, you can expect the new camera to cover both the high-points and the sidelights of the occasion. In fact, if the young graduate himself is doing the shooting, you can be sure everything worth remembering will be recorded on film for the future.

Some of the best albums we've ever seen have been ones filled with snapshots taken with a camera that came as a graduation gift. And the fun of taking pictures at graduation time was the beginning of a snapshotting habit that has given each recipient countless hours of pleasure and many hundreds of wonderful pictures.

If you're trying to make up your mind about a suitable graduation gift, why not stroll over to the nearest camera shop and see the assortment of fine gift possibilities on display? There's a camera to suit every taste and budget—and it's a gift practically every young person would be pleased to receive.

A camera with its own flash attachment—a stereo camera—or one of the new low-priced movie cameras—any of these will mark you as a most generous, thoughtful giver of good wishes. Young people lead busy lives—so much happens so fast that pictures are the only way to record the happy times they want to remember.

That's why camera gifts are so warmly welcomed by each year's new crop of graduates—and that's why we say Commencement Day can be the beginning of some fine camerawork, too!

—John Van Guilder

Don't Despair If Aging Roof Starts to Leak

No home-owner is happy to find he has a leaky roof, but it's a fact that prompt discovery of leaks can be a blessing in disguise.

First, the early discovery of a leak in an old roof lets the home-owner prevent serious damage to the interior of his house by reroofing right away.

Second, he can choose colorful asphalt shingles for the new roof. Chances are that the old roof has given many years of trouble-free service, and was applied before today's exciting pastel, solid and blended colors were available. Reroofing in one of these up-to-date colors results in a brighter, more attractive home that can give a lift to the entire neighborhood.

Another advantage of reroofing with modern colors available in asphalt shingles is that the new roof can be used as a key color in choosing a new decorating scheme for the rest of the house.

Third, the home-owner can stop worrying about leaks after the reroofing job is done. Asphalt shingles are durable and give a tight roof which will resist years of harsh weather in all seasons.

Why a completely new roof? Why not patch up the old one? The National Bureau of Standards has the answer: "A single apparent leak in a badly weathered roof," the bureau says, "is probable evidence of other similar leaks that have not been noticed, and is usually the forerunner of other, larger leaks that will appear in a relatively short time."

The bureau adds that locating the leaks in an old roof is difficult and that walking around on the roof to find and repair leaks frequently results in starting new ones.

For these reasons, an old, weathered roof should be completely reroofed, since attempting to patch it is generally a waste of time, labor, and materials.

HOME OWNERS' QUESTION BOX

Q—My husband left a cigarette burning in an ash tray and it caused a blister on one of my veneered tables. Is there any way I can repair this myself?

A—Try injecting some glue into the blister with an eye dropper or a syringe. If you use the eye dropper, first slit the blister lengthwise with a razor. After you've spread the glue, weight the surface heavily until the glue dries.

Q—We're planning to build on a heavily wooded acre overlooking the sea near San Francisco. Can we use light pastel colors on the outside of the house, or shall we stick to a rustic decor?

A—A house in a wooded setting needs color to keep it from being "lost," says Ned Abrams, prominent San Francisco architect. "A light pastel roof of asphalt shingles, for example, keeps a house from looking like it's covering under the trees," Abrams says. Stone planting boxes, split-rail fences and red-wood stains on siding, windows and doors will contribute the "rustic" theme and harmonize with most pastel roofing shades.

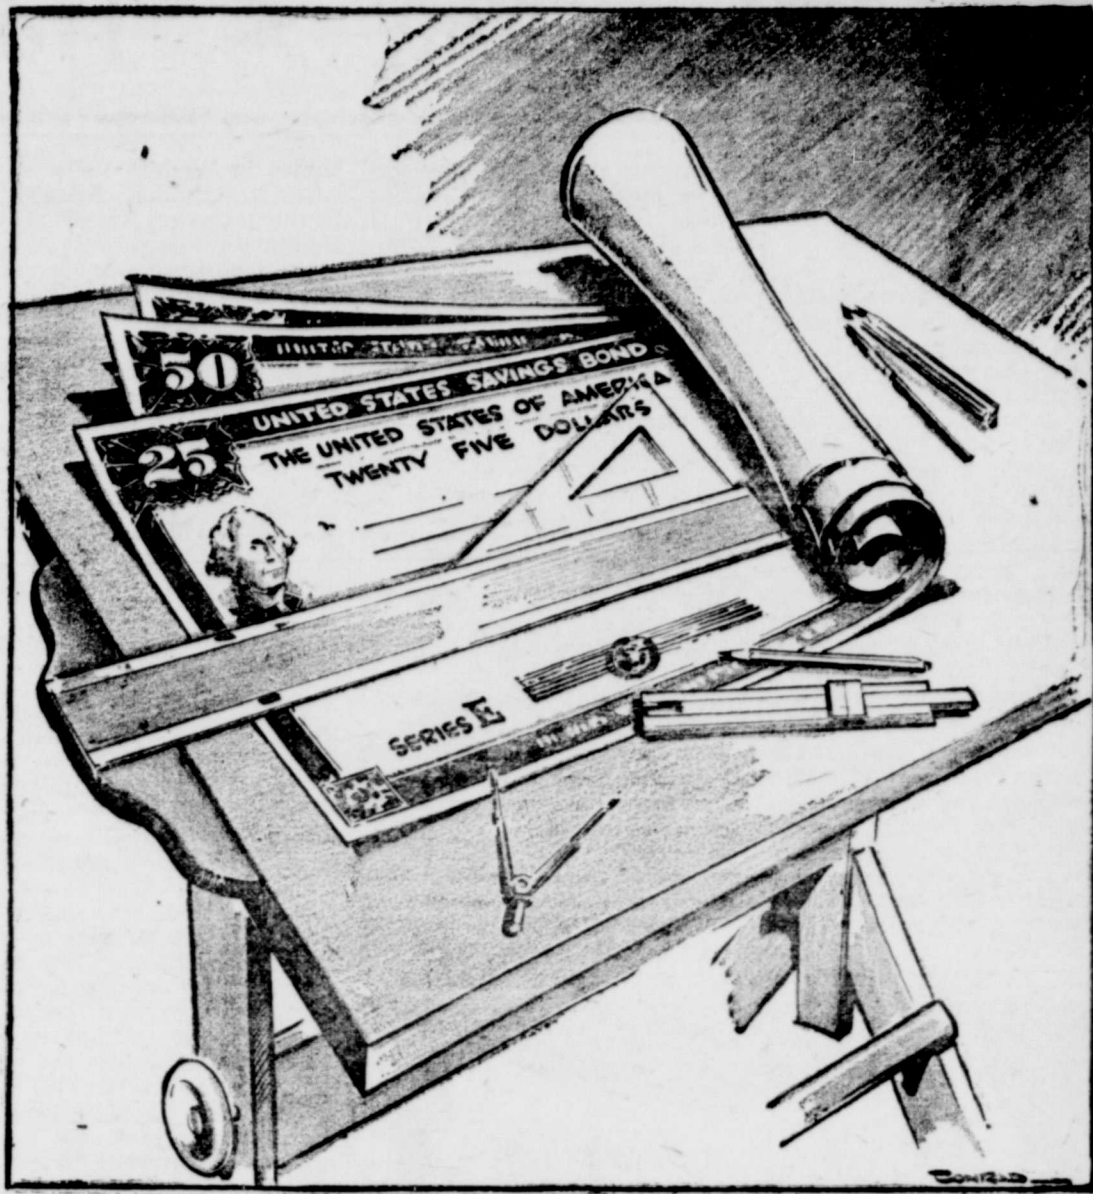

Q—Most of the rich topsoil around my new house was buried by the building contractor when he backfilled the foundations. What can I do to the areas to help a nice lawn to grow? The subsoil is sandy.

A—Add a one-inch layer of organic matter, such as peat or commercial humus, and mix it in with the sandy subsoil to a depth of six inches. This should make the subsoil capable of supporting a respectable lawn.

Q—What could I plant in a bare, shady, one-foot-wide strip between my driveway and the foundation of my house?

A—Lilies-of-the-valley, plant-lilies or pachysandra each will provide greenery and some flowers. You also might use a hard, native fern such as the Christmas fern.

PLAN TODAY — BUILD FOR THE FUTURE

SHORT ITEMS

Dull, Nearly-Flat Roofs Now Can Have Color

Owners of homes with low pitched, nearly flat roofs can re-roof their houses in modern color today, thanks to recent advancements in roofing application methods.

Roofs with as little as two inches of pitch per foot now can be covered with asphalt shingles. This means that thousands of home-owners can give their houses new life with color in place of the dull, uninteresting roofs they now have.

Wood Window Institute Extends Approval Seal

The Seal of Approval of the American Wood Window Institute has been extended to include awning, casement and stationary sash windows of ponderosa pine.

The seal guarantees that the window meets the specifications of the U. S. Department of Commerce as published in the department's commercial standards.

CHECK POWER CIRCUITS

Modern electrical appliances can cause more harm than good if they overload outdated power circuits. To determine if a circuit is overloaded add the number of watts needed by each light bulb, appliance, or other fixture on the circuit. The total should not exceed the circuit's voltage multiplied by its amperage, as indicated by the capacity of the specified fuse.

SILENCE DOOR RATTLES

Few people would think of attempting a repair job on a rattling door in the middle of a windy night. But it doesn't take long to wedge a strip of cloth between the door and the jamb, tying the ends around the door knobs. Then you can go back to sleep and wait until the weekend to get at the real seat of the trouble.

NUMBER TWO ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 2 proposing an amendment to Article III, Section 51a of the Constitution of Texas, so as to increase the limit on the maximum monthly payment to needy aged persons from state funds and on the total yearly expenditure of state funds for assistance to needy aged, needy blind, and needy children; and allocating and appropriating additional sums, supplementing current legislative appropriations, for payment of assistance grants.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51a of Article III of the Constitution of the State of Texas be amended to read as follows:

"Section 51a. The Legislature shall have the power, by General Law, to provide, subject to limitations and restrictions herein contained, and such other limitations, restrictions and regulations as may by the Legislature be deemed expedient for assistance to, and for the payment of assistance to:

(1) Needy aged persons who are actual bona fide citizens of Texas and who are over the age of sixty-five (65) years; provided that no such assistance shall be paid to any inmate of any state-supported institution, while such inmate, or to any person who shall not have actually resided in Texas for at least five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one (1) year immediately preceding such application, provided that the maximum payment per month from state funds shall not be more than Twenty-five Dollars (\$25) per person; and provided further that no payment in excess of Twenty-one Dollars (\$21) shall be paid out of state funds to an individual until and unless such additional amounts are matched by the Federal Government.

(2) Needy blind persons who are actual bona fide citizens of Texas and are over the age of twenty-one (21) years; provided that no such assistance shall be paid to any inmate of any state-supported institution, while such inmate, or to any person who shall not have actually resided in Texas at least five (5) years during the nine (9) years immediately preceding the application for such assistance and continuously for one (1) year immediately preceding such application.

(3) Needy children who are actual bona fide citizens of Texas and are under the age of sixteen (16) years; provided that no such assistance shall be paid on account of any child over one (1) year old who has not continuously resided in Texas for one (1) year immediately preceding the application for such assistance, or on account of any child under the age of one (1) year whose mother has not continuously resided in Texas for one (1) year immediately preceding such application.

The Legislature shall have the authority to accept from the Federal Government of the United States such financial aid for the assistance of the needy aged, needy blind, and needy children as such Government may offer

not inconsistent with restrictions here-in set forth; provided however, that the amount of such assistance out of state funds to each person assisted shall never exceed the amount so expended out of federal funds; and provided further, that the total amount of money to be expended out of state funds for such assistance to the needy aged, needy blind, and needy children shall never exceed the sum of Forty-seven Million Dollars (\$47,000,000) per year.

The Legislature shall enact appropriate laws to make lists of the recipients of aid hereunder available for inspection.

"Supplementing legislative appropriations for assistance payments authorized by this section, the following sums are allocated out of the Omnibus Tax Clearance Fund and are appropriated to the State Department of Public Welfare for the period beginning December 1, 1957 and ending August 31, 1959: Four Million, Nine Hundred Thousand Dollars (\$4,900,000) for Old Age Assistance, One Hundred, Seventy-Five Thousand Dollars (\$175,000) for Aid to the Blind, and Five Hundred, Twenty-five Thousand Dollars (\$525,000) for Aid to Dependent Children. Such allocations and appropriations shall be made available on the basis of equal monthly installments and other wise shall be subject to the provisions of currently existing laws making allocations and appropriations for these purposes."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified electors of Texas at an election to be held throughout the State of Texas on the 5th day of November, 1957, at which election there shall be printed on such ballot the following clauses:

"FOR the Constitutional Amendment increasing the limit on the maximum monthly payment to needy aged persons from state funds from Twenty Dollars (\$20) per month to Twenty-five Dollars (\$25) per month subject to certain conditions for payment in excess of Twenty-one Dollars (\$21) per month and on the total yearly expenditure out of state funds for assistance to needy aged, needy blind, and needy children from Forty-two Million Dollars (\$42,000,000) per year to Forty-seven Million Dollars (\$47,000,000) per year, and allocating and appropriating additional sums, supplementing current legislative appropriations, for payment of assistance grants."

"AGAINST the Constitutional Amendment increasing the limit on the maximum monthly payment to needy aged persons from state funds from Twenty Dollars (\$20) per month to Twenty-five Dollars (\$25) per month subject to certain conditions for payment in excess of Twenty-one Dollars (\$21) per month and on the total yearly expenditure out of state funds for assistance to needy aged, needy blind, and needy children from Forty-two Million Dollars (\$42,000,000) per year to Forty-seven Million Dollars (\$47,000,000) per year, and allocating and appropriating additional sums, supplementing current legislative appropriations, for payment of assistance grants."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published as required by the Constitution and laws of this State.

FRONT LINE OF FREEDOM

JUST a Newsstand? No.

It is a battleground. In this tiny territory rival publications fight for the attention of the public. From left to right you can find all shades of political and social opinion, freely expressed. And because of this a newsstand is more than just a convenience in the life of an American town.

It is a front line. There is another battle going on around a newsstand, more far-reaching than the com-

petitive rivalry of paper against paper, magazine against magazine. For there are always people—yes, even here—who dislike to see opinions freely expressed...and who attempt to bring all sorts of restraining pressures on those who champion the Press's freedom.

But those who write and print and publish the free opinions of America, they see a threat to that freedom as a threat to all freedoms, and vigilantly hold back pressure-wielders from closing in on the newsstand.

For the newsstand is freedom's front line.

There's no need to tell this young man to be careful with that ice cream cone, for he's wearing washable cotton knits. The cardigan is red with white and navy trim, while the shirt comes in white, red or blue. Du Pont Vat Dyes have been used, so colors will stay bright and clear and will not run into white trimming on the cardigan.

Devol News

Mrs. C. O. WOODLEY

Mrs. J. B. Stevens was hostess when the Devol Demonstration club met Thursday in the club house for the year book meeting of the month. Mrs. Helen Dahms, home demonstration agent and Miss Linda Urice, both of Walters, were present. Mrs. Dahms gave a demonstration on baking an upside down cake in an electric skillet while Miss Urice gave a demonstration on the care of a sewing machine and how our basic dress could be worn on many different occasions by choosing different types of accessories. The devotional was read by Mrs. Stevens from Psalms 121 and the Lords Prayer repeated in unison. During the business session, it was decided to send pot plants to Mrs. Jack McCasland Mrs. A. S. Patterson who were patients in a hospital. The next meeting will be with Mrs. K. L. Smith.

sandwiches and punch were served to Mesdames W. C. Charboneau, Claud LeMonde, F. J. Uthe, R. A. Odom, K. L. Smith, F. G. McClendon, C. O. Woodley, Dollie Hardin, Callie Baumhardt, Willie Cozby, Mrs. Dahms and Miss Urice.

Mrs. Jack McCasland underwent surgery Thursday, July 25 in a Wichita Falls hospital and is reported doing nicely now.

Tandy, the little son of Mr. and Mrs. Andy McCasland, underwent surgery Monday for hernia in the General hospital in Wichita Falls.

Mrs. A. S. Patterson, who is a patient in the General hospital in Wichita Falls, is said to be improving very satisfactorily and is expected to be returned home the latter part of this week.

Mr. and Mrs. George Douthitt of Electra visited in the V. E. Lagrone home and W. M. Harrison home Sunday.

Mr. and Mrs. C. O. Woodley and Linda Rae Woodley were Sunday visitors in the Gordon Woodley and Bob Woodley Refreshments of cake, ritz

homes in Wichita Falls.

The intermediate GA girls met in the home of Mrs. F. J. Uthe Monday evening. Refreshments of watermelon was served to Sharon McClurkan, Linda Kay Robbins, Oleta Doty, Mrs. Ruby Doty and Emma Lou.

Mr. and Mrs. F. J. Uthe spent Saturday with their daughter and son-in-law, Mr. and Mrs. Charles Shipnough and family.

Frank Morton Awarded Lone Star Farmer Degree

The State of Texas Future Farmers of America held their annual convention in Ft. Worth recently. Those attending from Burkburnett were William Morton, David Waddell and advisor, B. A. Farris, local vocational agriculture teacher. The chapter's voting delegate was David Waddell aided by William when selecting the state sweetheart.

Frank Morton received the Lone Star Farmer Degree although he was in summer school and could not attend the annual banquet. The degree was awarded to Frank for his outstanding farming program. He had to make \$500.00 from his projects to be eligible for the award. Frank has been a member of the FFA chapter for the past three years. He has been on live stock, dairy, dairy products and chapter conducting teams, is an outstanding member of the football team and will be a senior this coming year at Burkburnett high school.

The FFA chapter was awarded the silver emblem award given by the state for its outstanding program of work.

The chapter plans to attend leadership training camp Aug. 5 through 10th.

Mr. and Mrs. J. B. Leith spent last weekend in Austin with their granddaughter, Mr. and Mrs. Carl McDonald, and their great granddaughter, Sharon Kay. They spent Sunday night in Jacksboro with their daughter, Mrs. H. D. Hurd and family.

PURE WATER is distributed in a typical scene duplicated many times in the flood-ravaged areas of eastern Kentucky, Virginia and West Virginia. To meet the recent flood situation which had cut off 10,000 families from drinking water supplies, four dairy firms put their eight plants to work preparing 60,000 gallons of safe water in their cardboard milk cartons and milk tank trucks. It was the first time the Federal Civil Defense Administration's plan for emergency water distribution had been put to practical use in a disaster.

TOURS EASTERN USA

Recently Cora Lee Harmon returned from a 3 weeks vacation in the Eastern United States. Going to Washington, D. C. by plane by way of Dallas; visiting the Capital Buildings, the Capitol grounds and the city itself; visited the Capitol of Maryland; Annapolis and the Naval Academy there; visiting parts of Virginia, the tobacco fields, the drying barns and the auction barns; sight-seeing in Baltimore and other points of interest in Maryland; visiting points of interest in Pennsylvania and New York and on into Canada; visited Niagra Falls, New York and

Niagra Falls, Ontario, in Canada; returned to Washington, D. C. by way of Buffalo, N. Y. Penn. and later visiting in Wilmington, Del.; crossing the Chesapeake Bay Bridge on the way back to Washington, D. C.; returning to Burkburnett by plane from Washington.

While in Canada 3 days were spent visiting in Hamilton, Ontario; a very beautiful place to see.

Mr. and Mrs. J. P. Hickerson of Burkburnett and Miss Mary Ruth Clement of Wichita Falls are visiting Mrs. Hickerson's mother, Mrs. Lefors, at Boyd, Texas this week.

American Legion Officers Installed

Lewis W. Brocker installed the new officers of Frye-Vaughn Post, No. 264, Burkburnett, at a regular meeting of the Post on July 18, 1957. The following officers were installed for the next year:

Commander, Jos. A. Jancke, 1st vice Commander, H. S. Thaxton; 2nd vice Commander, Morris Cheney; 3rd vice Commander, Sid Askins; Finance Officer,

John Larson; Sergeant, Jack Alexander; Serving James T. Brady, Jr.; Cashier, Jim Johnson; Hal Mabry; Historian, W. Brocker; Adjutant, Huddleston.

A regular business meeting followed and refreshments served to all present. A meeting is held at 8 p. m. Thursday night at the Hall on Ave. C. in Burkburnett, and all are urged to attend and persons who are interested in coming members are to attend the meetings. The meeting night is on Aug.

News From The County Agent

Cotton farmers should check their cotton, weekly, for cotton insects. The insect count is light in Wichita County at the present time. We did find thrip, fleahoppers and boll weevils in fields in the irrigated valley and Burk Burnett community.

The proper use of fertilizers on crops is one of the best ways to make more money from your farming operations, says B. T. Haws, county agent. The best method of knowing just what fertilizers to apply to your own farm is to have a soil test. The reason for the soil test is because you may not need but one or two elements in the soil and it would be a waste of money to buy a fertilizer that you do not need. If you add nutrients that are not needed in the soil they may throw the other nutrients out of balance and cause more harm than good.

Here's a reminder that you can get a 3 cent refund on gas used for farming for the govern-

ment. Last year the refund was for 2 cents per gallon.

There is a special form that you can get from the county agent's office to fill out the tax refund. This refund form must be sent in to the Revenue Service by Sept. 30, 1957.

County agents have a publication called "Farmer's Gas Tax Refund" that is designed to help you with the refund forms.

Texas beef cattle producers who are interested in the latest research findings on problems which are today having a tremendous impact on the industry can't afford to miss the August 12-14 Beef Cattle Short Course at Texas A and M college.

The farm tractor, if improperly handled and used, can be a killer. Farm activities are now at a peak and this means that tractors and farm machinery must move over high ways to and from the fields. The Texas Farm and Ranch Safety Council passes on this suggestion—courtesy makes friends and prevents accidents. Pull over for faster traffic to pass on the highway—it only takes a minute and might save a life. County Agent B. T. Haws says

that proper range management at this season should include feed reserves, deferred grazing and brush control. Excess forage should be stored for future use. Deferred grazing should be practiced even if it is getting dry and best brush control at this season will come from individual tree treatment.

Egg producers are cautioned by B. T. Haws, county agent, that nicarbazin should not be used to control coccidiosis in laying flocks. Repeated tests have shown that it drastically reduces egg production and has other effects which are undesirable. It should be used only as the manufacturer directs. protein content of the grain mix

Some Things To Check:
1. Make plans for winter pasture. Temporary winter pastures are the most dependable source of grazing in late fall, winter and early spring.
Proper seedbed preparation and fertilization are important.

Good grazing can make a tremendous difference in the feed bill.

2. Check Protein balance. The kind of roughage and its stage of maturity should determine the protein level of the ration. As summer pastures mature, the protein content of the grain mix should be increased. Attention to this will help prevent a slump in summer milk production.

3. Fit and Train Animals for Fall Shows. Champions are made at home and not in the show ring. Whether your animals are in good condition and perform well before the judge depends on the feed and care given weeks before the show.

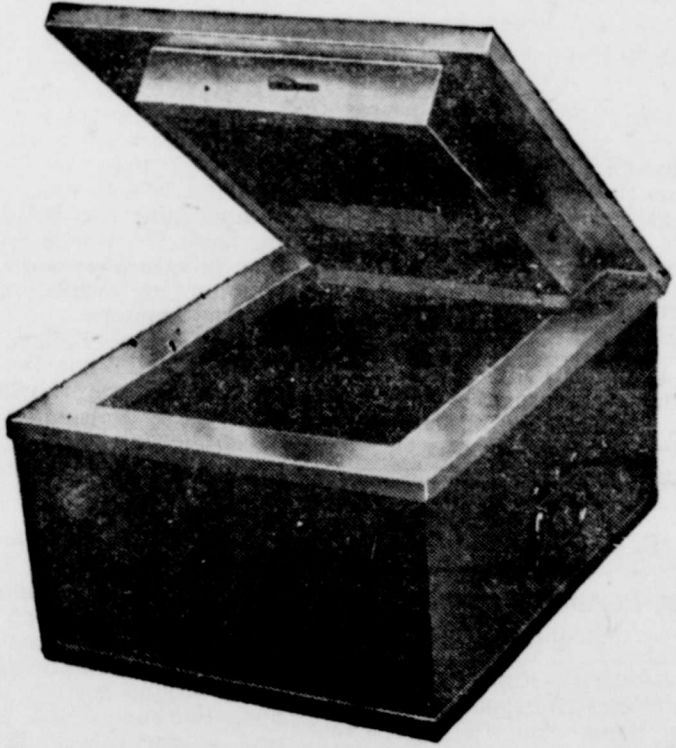

Card Of Thanks

I wish to express my heartfelt thanks to friends and neighbors for the cards, flowers and visits I received during my stay in the hospital. Your kindnesses will be long remembered.
Mrs. Jack Duke

The New High Quality, Low Cost Fire Protection Chest

Protect Your Valuable Papers From Fire

Your Bonds, Insurance Policies, Notes, Mortgages, Contracts, Income Tax Receipts, Birth Certificate, Discharge Papers, Leases, Rent Receipts, Your Will, Livestock Registration Papers, Canceled Checks, Stamp and Coin Collections, and many other things of personal and sentimental value, which would be destroyed (and could not be replaced) if you had a fire—and you could! There is one about every 20 seconds.

\$19.95

DESCRIPTION AND SPECIFICATIONS Fire Protection Chest

Made of heavy gauge steel inside and out, all electric welded. Between these steel walls is 1 1/2 inches of solid Fire Proof Vermicule Insulation which has over 300,000 tiny air cells to the square inch. It has the universally used tongue and groove principle around the door with a 1 1/2 inch Fire Proof Seal completely around it. No chest, regardless of price, has a better insulation.

Outside Dimensions 14x11 1/2 x 7 1/2 in.
Inside Dimensions 8 1/2 x 11 x 4 1/2 in.

Equipped with a heavy standard type lock, with 2 keys. Color, Gray, very attractive.

Everyone Can Afford This New Fire Protection Chest

At The Lowest Price In History

Texas' first railroad building charter was granted Dec. 16, 1836.

First automobile was driven over Texas roads by Col. E. H. R. Green of Terrell in 1899.

Value of Texas crops rose from \$166,000,000 in 1899 to \$1,200,000,000 in 1955.

Donald R. Blackwell Miss Virginia Bailey Married July 27th

Miss Virginia Bailey, daughter of Mr. and Mrs. C. D. Bailey of Electra, and Donald Ray Blackwell, son of Mr. and Mrs. J. W. Blackwell, Jr. of Burkburnett, were united in marriage in the Electra First Baptist Church Saturday evening.

Rev. Loyd Lester, pastor, performed the ceremony before arrangements of jade foliage interspersed with fan-shaped bouquets. Pyramid arrangements of white tapers centered the nuptial space.

Mrs. J. M. Hunt of Wichita Falls, organist, and Mrs. James R. Fish of Houston, soloist, furnished music.

Given in marriage by her father, the bride wore a gown of slipper satin over a net and tulle floor-length skirt. Seed pearls decorated the bodice. Her veil of tulle was attached to a crown of seed pearls and sequins. She wore elbow length net gloves and carried a white orchid atop a white Bible with streamers tied with tube roses.

Miss Dorlyne Bailey of Electra, served her sister as maid of honor. She wore a waltz-length dress of pale blue embossed polished cotton with a pleated cummerbund and large bows in the back. She wore a hat of pale blue tulle and carried a colonial bouquet of white snowdrift chrysanthemums.

Misses Dolores Ballard of Wichita Falls and Dixie Dru Everett of Electra were bridesmaids. Marcia Ann Holcomb of Electra served her aunt as junior bridesmaid. The bridesmaids wore dress identical to that of the maid of honor.

James Nolan Swafford of Arlington, Tex., was best man. Ushers and groomsmen were Kenneth Coffman of Wichita Falls and James Estes of Burkburnett. Lloyd Muhlinghouse and Jack Wright both of Burkburnett, lighters of the candles. A reception was held in the parlor of the church following the ceremony. Mrs. J. Curtis Holcomb, sister of the bride, poured, and Mrs. Billy Joe Taylor of Ninkah, Okla., sister of the bride, served from a refreshment table covered with a white organdy cloth over white taffeta. An arrangement of white carnations centered the table.

Mrs. Dale Willard of Ft Worth registered guests. Members of the house party were Misses Winelle Jones, Glenda Holbrook and Linda Smith. Following a two-week wedding trip to Oklahoma and central Texas, the couple will establish residence at 1808 Fillmore.

The bride is a 1953 graduate of Electra High School and attended Draughon's Business College. She is a former member of the Electra Music Club and is a member of the Electra First Baptist church and is a member of its choir.

The groom is a 1953 graduate where he was active in schools sport, and was cheerleader for 2 years. He is a graduate of Arlington State College where he majored in electrical engineering and was a member of the Engineers Society, Phi Kappa Theta honor fraternity. He is employed with the Texas Electric service Co. as an engineer.

Parents of the groom were hosts for the rehearsal dinner in the dining room of the church Friday evening.

More than 174,040 Texas farms are equipped with one or more tractors.

Spray Pets' Bedding To Kill Fleas, Ticks

Seventh in a series on bug control prepared by the Home Insect Control Bureau for the Real-Kill Co.

The most elusive of all insects is the tiny flea. Because of his ability to evade the fingers of man and the teeth of animals, this agile menace leads a relatively unrestricted life in carrying such dread diseases as bubonic plague and typhus. A flea, no bigger than the head of a pin, can leap 13 inches horizontally and seven inches high. An equivalent leap for a man would carry him 275 feet in the air and 450 feet horizontally.

Adult fleas, the ones which do the biting, can be found any place in the home. The young reside in the nests of rodents, in the bedding of pets or in any crevice where organic debris can be found.

A flea bite can be extremely painful, and can cause allergic reactions.

How To Control Fleas

Spray the bedding of pets with a residual spray containing an effective killing agent such as Dieldrin. This will continue to kill the fleas for many weeks. Allow the area to dry thoroughly before reuse by pets. Spray all areas, including furniture, frequented by pets.

Spray all cracks and crevices around the pet's sleeping area. Seek the advice of a veterinarian on ridding pets of fleas.

Ticks Are Serious Problem
Ticks are parasites. They attach themselves to human beings, animals, birds and reptiles. They remain on the host several days while feeding. Certain ticks, feeding on the neck or near the base of the skull of their host, inject

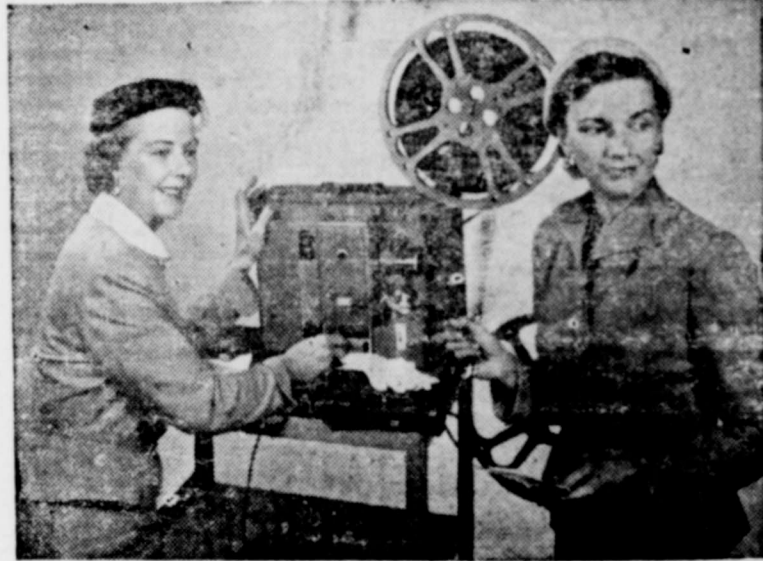

venom that produces paralysis. This paralysis can be fatal. The most important tick-borne diseases are Rocky Mountain Spotted Fever, Relapsing Fever, Texas Cattle Fever and tularemia. Ticks are often found in buildings and sheds, under porches, and within the home on baseboards and wood trim.

How To Control Ticks

For home control, spray thoroughly into all cracks and crevices in areas where pets frequent. Spray the bedding of pets, allowing it to dry thoroughly before reuse. Spray all baseboards and wood trim. Use a residual insecticide containing a powerful chemical such as Dieldrin.

the Snapshot Guild

Be sure that everything is in order for projecting your film before the meeting opens. That's the secret of a good smooth showing.

Films Give Variety to Club Programs

Many clubs and organizations have heard their first "meeting come to order" for the season, and program chairmen are looking for good material.

That's why we feel it's a good time to talk about the vast fund of program material that's currently available in professionally-made movies—and at prices well within the budget of even the smallest club group. We think you'll be pleasantly surprised to learn that it's possible to provide an interesting program for as small a rental fee as \$1.25 to \$2 per film!

Movies are really hard to beat as program material. For they not only offer fine fare for a tiny price, but present a wide enough choice of subject matter to fit any type of program you may be planning. General interest, pure entertainment, special interest, educational—dramatic or documentary—you can have what you want strictly a la carte! If yours is a literary group, look into the classics of literature available on film. A Mothers' Club and the Parent-Teachers Association will be interested in films on child care and development. The garden club

will be pleased with films on flower growing and arrangement. An internationally-minded group would probably be attracted by films about distant lands or perhaps a visit to the United Nations. For farm groups, a film program devoted to specific agricultural problems might well be your best choice.

If you're not familiar with the sources from which rentals may be made, just go to the public library for information. In some cases, you'll find that the library itself has a film-rental department. If not, you will be given a direct lead to a convenient source. You might also like to know that the Government Printing Office publishes a little fifty-cent handbook, called "A Directory of 2,660 16mm. Film Libraries." If you order a copy, you'll discover an extensive list of film sources in your area—including your state film library—along with a description of the type of film carried by each source.

So we say, never underestimate the power of a movie—it may turn out to be the best program material your club ever had!

—John Van Guilder

Miss Ruth Davey returned to her home in New York Wednesday after a three weeks visit here with her brother, Dr. and Mrs. J. A. Davey and children.

J. T. Deckard was a business visitor in Jacksboro Monday.

Liz Barker of Wichita Falls visited Mrs. C. W. Gilbert here Tuesday.

Mrs. I. D. Russell of Wichita Falls was a Burk visitor Tuesday.

Mrs. G. A. Reeves and George of Wichita Falls visited her mother, Mrs. Charles Kirsh, Sunday.
