J. V. Brookshear Invites Friends to Bank Opening

Security State Bank of Fort Worth Opening Aug. 23

I've planned for some time to write you a letter telling you about the new bank which we are opening Aug. 23rd here in Ft. Worth. If the weather is favorable, we expect quite a crowd of people for our open house since we are mailing out some 15,000 invitations in the immediate area. It may seem that this is a lot of invitations but we discovered that when we reached our potential customers in our trade area that we would need to mail at least this number.

This is a great new growing community with an estimated population of more than 60,000 people with a high percentage of the families being salaried people and earning above average in salaries. We have received a cordial reception and are very happy in this venture.

Our opening day program begins with the presentation of the authority to do business from the State Banking Commissioner, Mr. J. M. Falkner, of Austin. We will give favors to the women, balloons to the children, and register all visitors throughout the day. At the close of the day we will have a drawing and give a portable television and two transistor radios to persons whose names are drawn out of the barrel. In addition to the grown folks drawing event we will also give twenty \$5.00 savings accounts to the children twelve years of age and under.

I hope that both of you, your families, and my other friends there in Burkburnett are able to attend this occasion and enjoy it with me. I had thought that I would try to send invitations to individual persons there but the task is too large for me to attempt. I hope that both of you may be able to pass the word along up and down the streets and extend a cordial invitation for me to my friends there.

Public Invited To Open Workout

Coach Jack Robertson announced today that at 8:00 p. m. August 29th there will be an open workout of the football boys and the public is encouraged to attend. The Bulldogs will be introduced and there will be a short workout with the public invited to come on the field.

There will be many new faces on the team this year and this will be a good chance to meet these new boys.

Run-off Election Very Important

Run-off Election Sat., 23

Although the run-off ballot will be very short, it is just as important election as the primary. It is especially important to Wichita County because of the run-off race for State Representative of Dist. 81 Place 2.

In the Place 1 position, Vernon Stewart won by a big majority in the primary. He is a strong representative for this area and was given a big vote of confidence.

In the Place 2 position, Jack Connell, Jr., is in the run-off against the incumbent. We have had very poor representation in the Place 2 spot for some time. Connell has the qualifications to give this district the kind of representation we are entitled to. I believe a vote for Jack Connell, Jr., will be in the best interests of District 81, Place 2.

Fire Department Has Brand New Resuscitator For Use of Public

The Burkburnett Volunteer Fire Department now has a Stephenson Resuscitator which will be used for the public. The resuscitator is a machine which feeds a regulated amount of oxygen to be used for heart attacks, drowning victims, shock victims, gas poisoning, electric shock, drug poisoning, carbon monoxide, brain tumor or concussion, or even new born babies; in fact for any person who needs artificial assistance with breathing.

The cost of the complete machine is \$625.00 and it is to be paid for by public contributions. It will be demonstrated before the various civic organizations and will also be displayed in some public place of business.

All contributions should be made to the Burkburnett Volunteer Fire Department Resuscitator Fund. Remember, the life you save may be your own.

Grass Roots Opinion

EL DORADO, KANS., TIMES: "Teachers are going to get a break through a new Treasury Department ruling which will give them refunds retroactive to and including 1954 for sums they spent for advanced training courses each summer. "This action should serve to make teachers more eager to increase their proficiency in future years, and will be a benefit to pupils throughout the country as well as the nation itself."

WALDEN, N. Y., CITIZEN HERALD: "Forty years ago it took only one hundred horsepower to keep a combat plane in the air. Today it takes 250 horsepower to carry a 110 pound female to the corner grocery."

TERRE HAUTE, IND., TRIBUNE: "Ghost writing and ghost thinking are producing an ersatz American culture which can only signify decline in the quality of literature and of thought— Apparently the great majority of speeches given by eminent men in politics, business and other fields are ghost written. How can we expect to deepen American culture, to lift the level of American education, to impress the world with the spiritual values in American life, when this form of patent insincerity is rampant?"

LONDON, OHIO, THE MADISON PRESS: "Independent electric power companies and their association are being penalized by the Internal Revenue Service because some of their advertising has attempted to explain the issues in the private versus public power fight. Doesn't private industry have the right—possibly the duty—to inform the public about issues that might affect the survival or economic well being of that industry?"

WEST POINT, MISS., DAILY TIMES LEADER: "We are a people who have a deep respect for the lay—yet many of our domestic and international troubles flow from a disrespect for the law. Juvenile delinquency, the traffic slaughter on the highways, and moral decay leading to problems in various areas of our society stem directly from flouting of the law and falling away of respect for it."

One Woman's Warning

"While I was in the acute stage of polio, I vowed that if I lived I would write down my experiences with this terrible disease. Before the Salk vaccine there would have been no purpose in sharing my suffering with others. But now it should serve as a warning."

This is how Elizabeth Anderson, 37, a New Jersey housewife and mother of a two year old daughter, begins her account of her heartbreaking struggle with polio.

Stricken just before Thanksgiving in 1955, Mrs. Anderson endured weeks of "terrifying panic." Her story, printed in the monthly News of the National Foundation of Infantile Paralysis, continues: "I had hallucinations that I was riding a train upside down. Then days after I went in the iron lung I felt sure the end was near. That night it seemed my face was turning to cement. I spent the next several hours moving my jaws and face and wiggling my tongue. After that my arms and legs became paralyzed."

"Today I have one-third of my normal breathing capacity and use a rocking bed at night. I can move my feet around and stand without braces. My left arm I cannot use at all, but I can use my right arm from the elbow down. None of my fingers bend, but I manage to turn pages with my right hand."

"Not long ago a man said to me: 'Don't you hate the world because this has happened to you?' I admit that I've shed many bitter tears. Sometimes I feel like a spectator sitting on the side lines watching the game of life, but still find it a fascinating game."

"It is inconceivable to me that people neglect their polio shots. Even after reading my experience I'm afraid some of them will. I know I didn't think polio could happen to me. But it did!"

KEEP YOUR FINGERS CROSSED

Perhaps by 1960, we shall be rid of the out-moded electoral college system of choosing our president — by which the big cities have enjoyed inordinate political power and the potential for upsetting the will of a national majority.

Senate sponsors of the reform are now agreed on a compromise measure that combines the Daniel-Kefauver plan and the Mundt-Coudert plan, and its chief backers, Sen. Price Daniel, Dem. of Texas, and Sen. Karl Mundt, Rep. of South Dakota predict its passage.

Each of the component plans having run into opposition in the past, the new joint Senate-House resolution for amendment to the Constitution offers the states their choice of either, and seems likely therefore to achieve the necessary two-thirds majority in both houses and ratification by 36 or more of the states.

Under the Daniel-Kefauver plan, each of the three leading candidates for President would receive a share of the state's electoral vote exactly proportional to his portion of the popular vote.

But, if a state legislature prefers, it may adopt the Mundt-Coudert plan providing for the selection of electors in the same manner in which its senators and representatives are chosen.

Without going into the relative merits of the two options, selection of either would free the nation once and for all from the present vicious, unrepresentative and

HOW BOUT THAT

BY RALPH TEE

undemocratic system by which the winner of the narrowest majority in any state wins all the electoral votes of the state. It should free the states from the grip of its big cities and politics of much of its skulduggery.

THE NEWSPAPER TOPS THE LIST

Alfred G. Peterson, who is president of the National Savings and Loan League, has this to say about advertising: "I feel that advertising is a very profitable investment. But we should not buy advertising blindly. We should give careful consideration both to the appeals and the media we use."

"The medium which tops the list is the medium that reaches the greatest number of people at the lowest cost. It is my opinion the newspaper is that medium. I place the newspaper at the top of the list because it reaches the local market. All of us are really conducting local businesses. We may be bound together into a national industry, but our spheres of influence are entirely local."

"The newspaper reaches precisely the people we want to reach."

Well spoken, Mr. Peterson.

We Can't Wait Any Longer

James Hoffa, head of the Teamsters' Union, has proposed the most grandiose scheme of its kind in our history. He will attempt to organize all the truckers, all the railroad workers, all the airline pilots, and all the maritime workers into a single union.

As one report put it: "The congressional friends of labor sadly shook their heads and labor's critics smiled with satisfaction when this plan was announced by Mr. Hoffa. Other labor leaders also sadly shook their heads, and for good reason. If a labor group of this kind is ever formed, it will have the whole country at its mercy. It could call a general strike which would totally cripple the economy. The trains, the trucks, the planes, and the ships would all stop. Nothing would move unless and until the demands of the union, no matter how extreme they might be, were granted."

It is also said that, if Mr. Hoffa is successful in this incredible endeavor, Congress will have no choice save to bring the unions under the anti trust laws. But, in any reasonable view, Congress can have no excuse for waiting to see if Mr. Hoffa can achieve his aim or not. His plan simply highlights a fact that has long been evident—that the unions have a monopoly power that is denied to all other enterprises and organizations, and that this power can no longer be countenanced in a supposedly free country.

The unions must be subjected to the anti trust laws, like every one and everything else. The right to work must be made universal. All other proposals are trivial.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Everyone wants harmony at the State Democratic Convention held in San Antonio. Gov. Price Daniel, U. S. Sen. Ralph Yarborough, National Committeeman Byron Skelton and Speaker Sam Rayburn—all say they want harmony.

national convention. It is the hope of avoiding this in 1960 that lies behind the cementing efforts. Many leaders contend that a unified Texas delegation could have a key role in naming the next presidential nominee.

All the above mentioned leaders are presently agreed on one issue—support the party nominees. Point on which they part is whether the governor should have a veto over the state committee members selected by vote of district delegations.

Gov. Daniel, following the practice of past governors, bumped some of the district selected committee members in 1956 and submitted people more in line with his program.

Mrs. Randolph and Sen. Yarborough, now joined by Rayburn insist the governor has no right to do this.

But Gov. Daniel has not promised he wouldn't. He said he felt no district should propose a committee member who is dedicated to the sabotage of duly elected officers of the party. This almost certainly refers to members of the Democrats of Texas (DOT), an ultra-liberal group that has heckled and hindered the governor and other official party leaders at every turn for the past two years.

Delegates from each of the 31 senatorial districts are allowed

two state committee members—a man and a woman. It is estimated that perhaps six of these districts may be controlled by anti-Daniel forces. Therein lies the possibility for discord. If any of these districts propose a DOT'er for the state committee, the governor is not likely to harmonize.

HIGH HOPES—

Mr. Wilson went to Washington, his saddlebags full of multi-million dollar hopes for Texas school children.

Atty Gen. Will Wilson personally delivered the Texas brief in the upcoming U. S. Supreme court case on Texas tidelands. At issue is whether the state or federal government owns submerged lands between the points 3 miles out and 10.5 miles out.

Wilson carried the arguments for Texas ownership in 40 year old saddlebags that belonged to a heroic Texas Ranger. He declares optimistically that the case is jinxed in Texas favor, because the brief is dated Aug. 13, trial is set for Oct. 13th, oral arguments will last 13 hours and 13 people worked on the research.

More seriously, he noted that Texas had spent a big sum of money marshalling its facts, that a bevy of top notch legal minds from over the state, nation and two foreign countries had spent some 2,000 hours on the 400 page brief.

We feel like we have an overwhelming case he said. We feel like we will win it.

Exploration indicates that the 7.5 mile band of disputed land is exceptionally rich in oil and gas. If Texas is successful in holding its claim, revenue from these resources would go into the Permanent School Fund.

PLACE IN THE SUN—

Texas Republicans have served notices they will demand an even break at getting their can-

didates in the favored position on the general election ballot.

Desired place is the first column on the left. GOP leaders say people automatically begin reading in this column, and some never go any further.

Republicans hope to work things out on the local level with some sort of coin-tossing arrangement. But they say they will go to court, if necessary.

CITIES WIN OUT—

Cities and utility companies won the first round of a court battle to determine who pays the cost of re-locating utilities for new interstate highways.

An Austin district court ruled that the cost can be paid from Federal-State Highway funds, as provided in a law passed by the last legislature. State Highway Dept. is challenging the constitutionality of this law.

Ultimate decision will, of course be made by the Supreme Court. Some estimate the re-location costs could run as high as \$100,000,000.

PAROLE STAFF COMPLETE—

Board of Pardons and Paroles has announced the appointment of 10 new parole supervisors, rounding out the 40-man state-wide staff.

Adult parole staff was authorized by the last Legislature to allow for release of prisoners who show promise of going straight." About 3,000 persons are now on parole in Texas, and more are expected to be released as the new supervisors go to work.

Latest appointees to the parole staff are Louis Bramblett of Dallas; Julian Chafin of Sherman; Cecil Smith of Jourdanton; Walter Williford of Houston; Massey Herrera, Corpus Christi; Thomas Casso, El Paso; Herbert Gnepper, Lubbock; Alfredo Garcia, Austin; Terry Cromwell, Fort Worth and Charles Davis Gold-waite.

COLLEGE FUND SEEKERS—

Members of governing boards of state colleges have formed a committee to urge additional appropriations for the colleges. Jointly the college directors feel they need about \$13,000,000 a year more, mostly for faculty salaries.

Herman Heep, Austin oilman and member of the Texas A&M Board, is chairman of the committee. Said Heep, "It is time we point out that Texas, ranking low among the states in its support of higher education, is getting about what it is paying for.

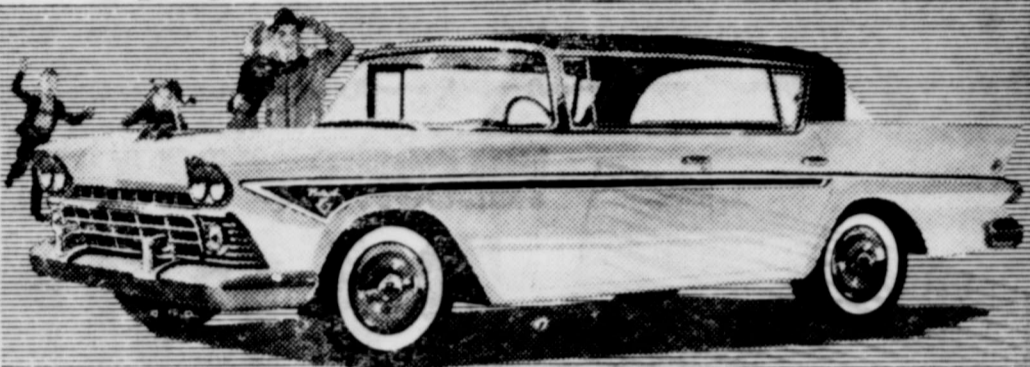

W. D. Yearly and family of Amarillo spent several days here last week with his sister, Mr. and Mrs. B. A. Browning. The Yearlys have just recently moved to Amarillo from California.

Safety on Farm Constant Chore

During the busy season on the farm it's easy to become careless and forget safety practices. Garland Weeks, Safety chairman for Wichita County, warns that modern high speed farm machinery must be handled safely if we expect to reduce serious accidents which lead to a loss of labor, or too often loss of a life.

Weeks says tractors and other farm machinery can be operated safely if you observe a few simple safety rules. Here are his suggestions:

Consult your operator's manual to determine proper operation and care of your tractor.

Be sure you kill the tractor engine before leaving the operator's seat.

Be careful around power take-off equipment and always keep moving parts well shielded.

Check machinery before using to see that it is in good working order, replace or repair worn belts and chains.

Do not allow children to play with equipment, it is better for them to miss pleasures which may lead to accidents.

CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT THE GENERAL ELECTION ON NOVEMBER 4, 1958.

HJR #31—Number Four on the Ballot.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 4, 1958.

HOUSE JOINT RESOLUTION NO. 31 providing an Amendment to the Constitution of Texas to provide that all county officials for whom four-year terms of office were authorized in 1954 must resign such office prior to announcing for a different office when more than one (1) year remains unexpired of the term for which they were elected, and providing for the filling of such vacancies in the manner now provided by law.

Section 1. Section 45 of Article 16 of the Constitution of the State of Texas is hereby amended so as hereafter to read as follows:

"Section 45. STAGGERING TERMS OF OFFICE.—The following officers elected at the General Election in November, 1954, and thereafter, shall serve for the full terms provided in this Constitution: (a) District Clerks; (b) County Clerks; (c) County Judges; (d) Judges of County Courts at Law, County Criminal Courts, County Probate Courts and County Domestic Relations Courts; (e) County Treasurers; (f) Criminal District Attorneys; (g) County Surveyors; (h) Inspectors of Hides and Animals; (i) County Commissioners for Precincts Two and Four; (j) Justices of the Peace.

"Notwithstanding other provisions of this Constitution, the following officers elected at the General Election in November, 1954, shall serve only for terms of two (2) years: (a) Sheriffs; (b) Assessors and Collectors of Taxes; (c) District Attorneys; (d) County Attorneys; (e) Public Weighers; (f) County Commissioners for Precincts One and Three; (g) Constables. At subsequent elections, such officers shall be elected for the full terms provided in this Constitution.

"In any district, county or precinct where any of the aforementioned officers is of such nature that two (2) or more persons hold such office, with the result that candidates file for 'Place No. 1,' 'Place No. 2,' etc., the officers

selected at the General Election in November, 1954, shall serve for a term of two (2) years if the designation of their office is an uneven number, and for a term of four (4) years if the designation of their office is an even number. Thereafter, all such officers shall be elected for the terms provided in this Constitution.

"Provided, however, if any of the officers named herein shall announce their candidacy, or shall in fact become a candidate, in any General, Special or Primary Election, for any office of profit or trust under the laws of this State or the United States other than the office then held, at any time when the unexpired term of the office then held shall exceed one (1) year, such announcement or such candidacy shall constitute an automatic resignation of the office then held, and the vacancy thereby created shall be filled pursuant to law in the same manner as other vacancies for such offices are filled."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday after the first Monday in November, 1958, at which election all ballots shall have printed thereon: "FOR the Constitutional Amendment providing that any District, County, or Precinct official serving a four-year term must resign before announcing for a different office if there remains unexpired more than one (1) year of the term for which he was elected."

"AGAINST the Constitutional Amendment providing that any District, County, or Precinct official serving a four-year term must resign before announcing for a different office if there remains unexpired more than one (1) year of the term for which he was elected."

If it appears from the returns of said election that a majority of the votes have been cast in favor of said Amendment, same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election herein provided for and shall cause this proposed Amendment to be published in the manner required by law and shall cause said election to be held as required by the Constitution and laws of this State.

News From The County Agent

The annual county-wide 4-H Tractor school will be held at the Boy Scout Reservation next Tuesday. William Morton will be in charge of the school. The program is sponsored by the Friberg-Cooper community. This contest is open to boys and girls. The program will start at 2:00 o'clock.

B. T. Haws, county agent says you are taking your life in your hands when you use butane or other LP gases to inflate tractor tires or to operation paint guns. These gases, he says, have the explosive power of 100 octane gasoline and if an open flame should come in contact while tires are being inflated or with fumes from a paint gun, there would be an immediate explosion. He gives one instance where a mechanic in West Texas was killed while attempting to change a tractor tire, which, unknown to him, was filled with butane.

The reason for this practice of using butane to inflate tractor tires apparently is that butane is the only gaseous material under pressure on the farm. But, as Haws point out, you are not saving time, you are actually gambling with your life when you use LP gases in paint guns or to inflate tractor tires.

Here is a note from B. T. Haws, county agent, on cow comfort as a way to keep production up during these hot summer months. He points out that comfort may be as important during hot weather as proper feeding. Tests by scientists of the Dept. of Agriculture show that the critical high temperatures for dairy cows is about 80 degrees F. Above this level, feed consumption, body weight and milk yields declined.
 Haws suggests that dairymen make every effort to provide shade and plenty of cool, clean drinking water during the hot hours. Another way to beat the heat is to graze the cows early in the morning and late in the evening during the summer.

The annual meeting of the Texas Poultry Improvement Association will be held at the Baker hotel in Dallas, Aug 19-21. B. T. Haws, county agent, describes the meeting as a must for those interested in seeing the State's poultry industry continue its forward progress. He says bring along a neighbor.

The special milk program, recently revised and extended by Congress, is ready to operate in Texas, reports John J. Slaughter, Dallas, who has charge of the program for the Agricultural Marketing Service.

Farming in the United States remains highly diversified despite the continuing developments in mechanization and automation. This is true not only in crops produced but also in size, in labor spent in production and in investment in land and equipment.

Farmers and motorists are warned by the Texas Farm and Safety Council to be extra careful as they travel the highways and byways during the coming months. The Council points out that this is the season when much farm machinery must move over the highways and they urge farmers to take no machinery onto a busy road unless it is properly flagged or lighted for night travel. Motorists are warned to be on the alert for slow moving farm machines. Records show that collisions between tractors and automobiles very often result in death for the tractor driver.

Mr. and Mrs. R. H. McPhail had as their guests over the weekend Mr. McPhail's mother, Mrs. Margaret McPhail of McAlester, Okla., and his brother, Mr. and Mrs. Jim McPhail of Denison.

 Likewise, the man who serves as his own insurance counselor may end up as a confused mind and a hazy program which is short of meeting his needs.
 The only basis on which to build a sound program is taking advantage of years of study, constant evaluation, new policies, personal experience, and the ability to meet all needs.

Prize Winner In Play Contest

Richard C. James, 17, Leonard, Mo., was named today as the winner of the \$1,000 first prize in the 23rd annual National High School Essay Contest sponsored by the National Student Reliance Auxiliary to the Veterans of Foreign Wars.

James' essay, "The Future of America," was chosen as the best among 1,000 entries from 15 states.

youth America had lived away the differences that had caused sectional strife. In other times since American youth has fought at Manila, stormed the San Hiel salient, withstood oppression in Europe and Asia. In her time of agony, America has found asangueness in the earnest response of youth.

Today the crises are even more complex and just as compelling, even more so, as those experienced by their fathers of another time. Today youth must respond to the threats of more insidious foes. Youth must ward off the undercurrent of propaganda from Communist sources which would destroy its faith in God and country. It must learn how to cope with the unseen enemy of radiation, of bombardment from cosmic particles that it will come to know in its quest for firmer knowledge of the cosmos. It must detect the inherent danger in the insistent voices that clamor for conformity, for following the leader, for losing its identity in the mass, for fearing to assert itself lest it be considered odd and impertinent. It must learn to read the semantic subtlety in the term cold before war as if the adjective made the reality less frightening. It must penetrate the contorted meaning of the word freedom which in the Soviet dogma is synonymous with slavery. In brief, the American youth must learn by hard study to discipline his inward ear so that he can detect the siren-song emanating from domestic and distant shores.

Youth must learn to see. It must learn to behold with the eyes of insight the world about it. With moral vision it must discern the inequities in facism and search out hiding places of justice and fair play. It must

seek where compromise dwells in dealing with allies and enemies alike. It must uncover Integrity from its remote island and restore it to its rightful place in the marts of business, in the halls of learning and in the hearts of men. It must penetrate the murky world of Hate to locate Charity that can destroy suspicion, selfishness and greed. It must learn to use its eyes to read the address of danger, and behold its presences in recessions, in unbridled crime, in physical and intellectual softness.

Youth must learn to think. He must not avoid the intellectual disciplines that will make him resourceful in his leisure, companionable and sociable in community, intelligent in business. He must apply himself to the sciences to help his nation gain the ascendancy over the forces of nature that can be utilized for peaceful means. He must study the humanities to gain prophecy from the lessons of history, precision from languages, and understanding from literature. The survival of the nation depends as much on intellectual brawn as it does on physical brawn, indeed more so. But youth must think in terms of perfecting the whole man, for let one organ be deficient and the whole body suffers. Youth owes it to the nation to train its mind, its body and its will.

The future is up to youth; it has ever been. America's youth has always responded, has always risen to the occasion. Today's youth knows no complacency. It understands the demands of the issues America faces at home and abroad. It responds to those demands as did its fathers in past crises and resolves that when other essays are written on the same topic years from now, its sons will record how superbly their fathers responded.

Mrs. Walter E. Tardy Arrives In Rome

News of the safe arrival in Rome of Mrs. Walter Earle Tardy and two sons, Rhodes, 16, and Tom, 12, from strife-torn Baghdad, Iraq, highlights an incident in the life of a former Wichita Falls woman.

Mrs. Tardy, the former Miss Mary Elizabeth Smith, daughter of Mrs. O. M. Smith and sister of Mrs. Carl J. Morrison of Burkburnett, contacted Mrs. Burkburnett by telephone from Rome, Italy, recently to say that she and her sons had been evacuated to Rome and that the two sons were being sent by plane to the United States. Mrs. Tardy was planning to return to Baghdad, if possible, to remain with Col. Tardy, who is military attaché with the American Embassy there. The boys will soon arrive at the Morrison home and will enter school in Burkburnett.

Mrs. Tardy has had a varied and interesting life as the wife of Col. Tardy. They have been stationed at many military posts with assignments including much active service by Col. Tardy in World War II.

Prominent among their many places of residences were Verdun, France for three years, the Artillery School at nearby Fort Sill, Okla., the Staff and Command School at Ft. Leavenworth, Kans., the Army War College at Carlisle Barracks, Pa., and a number of other military assignments.

Mr. and Mrs. C. L. Clingman of Iowa Park and Cora Lee Harmon have returned from a vacation trip. Visiting with Mr. and Mrs. Mike Thompson, Denver City, Tex. from there to Pueblo, Colo., visiting with Mr. and Mrs. Oscar Clingman, journeying on to Denver, Colo. Sunday to visit with Mr. and Mrs. Weldon Clingman and family there. Saturday was spent in the mountains sight seeing. The Rampart Range which turned out to be a mountain. Manitou Springs is located at the base of these mountains. Saturday was spent picnicking in the mountains southwest of Pueblo at a cabin known as 'Skintshin Thicket' belonging to Oscar Clingman. It was an enjoyable sight seeing trip as well as enjoyable visits.

Supreme Court Candidate Urges Big Vote Sat., 23

The leading candidate for Place One Supreme Court in the first primary has issued a statement urging all voters to take a personal interest in the run-off election to be held Saturday.

Robert W. Hamilton, who led the ticket by more than 160,000 votes in the first primary, said: "Each voter should decide for himself which candidate is best qualified, then be sure to take time to vote on Saturday, remembering that the Supreme Court has a greater potential effect upon our rights as individuals than any other office in our state or nation. Texas is one of the states which allows its citizens the privilege of voting upon members of its Supreme Court and each Texas voter should express his preference in this election even though in some cases this will be the only race on the ballot."

Hamilton is a veteran jurist now serving as Chief Justice 8th Court of Civil Appeals, just one step in rank below the Supreme Court post for which he is candidate. He has 31 years experience in general practice, as county and district attorney, district judge and including five years as Chief Appeals Justice. Justice Hamilton was selected as the preferred candidate of Texas lawyers in a secret vote conducted by the State Bar and he led the field of three candidates with a total 476,799 votes in the first primary, less than seven percent short of a majority which would have given him a victory without a run-off.
