## Wayne Bowles Thanks Rescuer A. W. Newman

TO A. W. NEWMAN, OUR CITY MANAGER: I sincerely wish to express my appreciation for your wonderful and successful rescue of me atop side of a well blown up elevator.

I am sure the upward climb, almost vertical required much skill and a man with nerves of steel.

Mr. Newman, after making the ascent to the top side on the quivering top portion of the ladder, although very tired and short of breath, immediately tied me off to start the downward treak.

Mr. Newman let me down one-half step at a time, as I had an injured foot and leg. Any way, I was real happy to be standing on mother earth again, with great relief.

My thanks also to Harlin Mills for his calm and quick decisions in calling in the Ft. Sill helicopter and the Wichita Falls Fire Dept. with their gigantic telescopic truck ladders.

I am getting along real good, considering. WAYNE BOWLES

## Horse Sense for Horsepower

The Highway Research Board in Washington, D. C. has just received a report from the University of Illinois on the first national study of auto license plates. The study, undertaken at the request of the Illinois secretary of state, reveals what license plates should be and do.

Tags should be bigger, the researchers say. They should be 6 x 14 inches instead of 6 x 12 inches, the recently established national standard. To make plates easier to read, advertising slogans should be removed from them and the numbering system on them simplified, the researchers reported.

Another significant part of the study claims that plates should be reflective so they are easier to see. Covered with a material that reflects headlights, such tags can be seen at night from as far away as 2,000 feet.

Seven states now issue these "safety" plates to all registered motorists, and 14 other states issue them to some cars, trucks or buses. Considering the difficulties of driving at night and the problems police officers have in reading license plates, recommendations for simplicity and visibility contained in the Illinois study should be followed in all 50 states.

## Government's Function

We live in an era in which, apparently, vast numbers of people regard the government as the proper source of almost every kind of handout, grant, and so-called "benefits."

So something that Henry Hazlitt has to say in Newsweek about government is important. In his words: "Its true function is to maintain peace, order and justice; to protect life and property; to refrain from burdensome and inequitable taxation; to remove the punitive laws and deterrents that previous governments have imposed. Its function is to permit and preserve a sound currency. When it fails to do this, it must bear sole responsibility for the failure."

Once government breaks its historic bonds and goes beyond these functions, the result is always the same: Oppressive taxation, a degraded currency, diminished incentive, and steady whittling away of the free of all citizens.

## Taxes and the "Little Fellow"

There's one fact about taxation which can't be repeated too often: The great bulk of the tax burden is not borne by the rich, but by people of very modest means.

Economic Intelligence tells what happened in a recent year. Total federal individual income taxes came to just under \$30 billion. Of this, more than 85 percent was accounted for by the lowest tax bracket of 20%. Less than 15 percent came from the higher brackets which reach a 91 percent top.

Putting it another way, if the per capita exemption in that year had been \$800 instead of \$600, government revenue would have been reduced by a whopping \$5 billion or about 17 percent. It's the "little fellow," in the aggregate, who is important to the treasury.

The point is, of course, that there aren't enough rich and not enough big incomes, to make more than a small dent in the tax burden. It must primarily be borne by families of modest means, simply because there are so many of them. And it is these families which have the most to gain from tax reforms.

## GRASS ROOTS OPINION

WALDOBORO, ME., PRESS: "Russia owes us ten billion eight hundred million or better than 1-18 of our national debt. 'The joker? Our generous taxpayers' representatives have offered to cross off the ten billion and settle for eight hundred million. But to date Russia has only offered three hundred million and if we don't settle for that she will probably start charging us interest on the total figure of OUR money and some generous soul in Washington is liable to pay it. With tax money, by the way, it figures out better than \$60 for every man, woman and child in the country."

DUBLIN, GA., COURIER-HERALD: "The budget dollar will be collected by Uncle Sam from the people and businesses of the nation. Individual income taxes will provide 52c of each dollar collected; corporation income taxes will provide 28c of the tax dollar; excise taxes will provide another 11c and other revenues will provide 9c. You can figure from there."

## News From The Congress

By Congressman Frank Ikard

The tempo of Congress activities is stepping up as we approach mid February. Committees of the House of Representatives are spending long hours formulating legislation for presentation to the full body, and at the same time issues of National importance are taking shape here which will doubtfully emerge full bloom in the election campaign this Fall.

For example, the Committee on Ways and Means, of which I am a member, last week concluded a series of public hearings on the

subject of cooperative taxation. This is a complicated topic in which the Committee must consider its responsibilities toward maintaining the cooperatives' valuable contributions to agriculture while at the same time making sure that tax laws are fair to all taxpayers.

In other committees of the House, important legislation also is in progress. The House Committee on Banking and Currency for instance, is considering a bill which will promote the construction of middle and low income housing. The Committee on Science and Astronautics is hearing a series of witnesses from the Dept of Defense and the Armed Forces in an examination of our military space and missile programs. The Appropriations Committee is examining the President's budget for the 1961 fiscal year and will soon begin reporting out its decisions on various parts of the budget.

These few brief examples perhaps, will provide an illustration of the scope of the work confronting Congress during this session. They also suggest the broader issues with which voters will be confronted this Fall. The latter subjects defense and spending, well could be the most

important. Our Nation's defense is rightfully the subject of examination by the Congress, since it is a matter of vital importance to the American people. Congress will have to determine if adequate provision is being made to provide new weapons, and maintain old ones, in the face of an ever increasing threat from Soviet Russia. We should not allow ourselves to be lulled into complacency by sporadic friendly overtures by the Communists.

Our preparedness is related to another topic which could develop into one of the major issues of this Fall's election campaigns. This deals with our Nation's economic policies, the management of the staggering public debt and spending in general. All these factors are closely tied in with what is apparently an economic race with Russia and should be examined to provide for our greatest possible growth.

Visitors from home this week were Mr. Harry James and Mr. Gerald W. McCombs of Denton and Mr. Bobby E. Riggs of Jacksboro.

The only way women could have equal rights nowadays would be to surrender some.

### It's The Law In Texas

**Everyone Needs Records**

Back in pioneer times our forefathers found they could keep track of the family history pretty well with a few notations on the flyleaf of the family Bible. But life's not quite that simple any more. Great grandpa was not covered by social security or workmen's compensation. He didn't have a bank account or safe deposit box, a car and a dozen home appliances being bought on time payment, or a half dozen insurance policies. We have taxes great grandpa never heard of and wouldn't have believed if he had. And had you asked him for a certificate to prove his birth, he'd have

thought you'd taken leave of your senses.

The point of this is that the average American today has a good many important papers to keep track of. There are birth certificates, receipts, copies of tax returns, sales contracts and a host of other papers. With a little tidy record-keeping, you can make life easier for yourself and your family when you are gone.

Here are some suggestions:

1. Get a heavily bound notebook or file folder as a central collecting point for all the records of your affairs.
2. Put your especially important papers in your safe deposit box, but make a list of those papers and a brief summary of their contents to put in your home file.
3. Get for your files copies of birth certificates for all mem-

bers of the family, and add them to the file. Add your marriage license or at least a statement as to when and where you were married and by whom.

4. Insert your will or a copy of it. If your will is kept elsewhere, include a note telling where it may be found.
5. During the year, put into the file your income tax withholding statements and receipts for expenditures which may be deductible. Then keep a copy of each year's tax return in the file.
6. Make a list of all the stocks and bonds you own and where they are.
7. List all the places you have lived and worked and the names of persons there who you know. Include the schools you have attended and the dates you left or were graduated.
8. If you may have benefits

coming under a profit-sharing plan where you work, make a note of that too.

9. If you're in doubt about whether an item should be included, put it in. This takes time initially, but it will save you both time and worry in the long run.

B. T. Haws, county agent, says he has often heard the comment that the albumen of eggs (egg white) doesn't contain any food value. He says that research shows that the albumen contains over 50 percent of the protein in the egg and about 75 percent of the riboflavin. Don't, he adds, waste the albumen and rob yourself of much of the protein and Vitamin B in the egg.

The United States imports one half of all Latin American exports.

### Forum Club Has Valentine Party

The home of Mrs. H. C. Preston, Jr. was the scene of a Valentine party entertaining members of the Forum Study Club on Feb. 11th with Mrs. Winston Freeman as co-hostess.

Mrs. Don Mills presided over a short business meeting. The members voted to help support the Game Night to be held Feb. 26th to raise funds for the swimming pool. Plans for a float for the rodeo parade was discussed.

After the meeting adjourned, members enjoyed playing games of "42", Canasta, Bridge and Scrabble.

Refreshments were served from a beautifully decorated table using the Valentine motif.

Those present were Mesdames Gene Bankhead, Tom Burnett, Charles Goins, Forrest Green, Don Holtzen, Wallace Landrum, Clyde McDonnell, Eugene McNish, Don Mills, Jack Northcott, B. H. Preston, Jr., Don Swan, Lonnie Taylor, Joe Wolfe, T. M. Cornelius and the hostess and co-hostess.

Two of our members have entered the sewing contest to be held Tuesday, Feb. 23rd, Mrs. Charles Goins and Mrs. Don Holtzen.

Mrs. Don Swan won the door prize.

### Mrs. Sydney Askins Hostess Monday to Modern Study Club

Members of the Modern Study Club met Monday evening in the home of Mrs. Sydney Askins for their regular meeting. The meeting was called to order by the president. Roll call and reading of the minutes followed. During the business session, president, Helen Reasoner, reminded members that Saturday, Feb. 27th was set as a work day to work on the beautification of the swimming pool area.

A discussion of the style show which is to take place in the grade school auditorium followed. Some members from other federated clubs will also model dresses they have made and one winner from each club will be chosen by qualified judges. These winners will take their garments to the district convention in Ft. Worth and enter them in competition there. The winner of district will then compete for state honors.

A "Game Night" which is scheduled for Friday night, Feb. 26th was then discussed. Members turned in the number of tickets they had sold and were urged to sell as many as possible. Proceeds from this project will go to the Swim Fund. All federated clubs are participating in the project.

Members decided to have a bake sale Saturday, April 16. Special orders will be taken for homemade pies and cakes. Further information on this bake sale will be announced at a later date.

Following the business session, Mrs. Daphne Mills gave a review of the Clubwoman. Two very interesting programs were then presented. Mrs. Sydney Askins spoke on "The Education System of our City" and "Our Youth, Our Tomorrow" was presented by Mrs. Mary Jo Hagstrom. Both programs proved to be very educational.

The hostess served a delicious refreshment plate to the following members: Mesdames Daphne Mills, Pat McClure, Evelyn Nichols, Selma Wright, Billie Jean Potts, Frances Smith, Betty Crane, Rita Hudson, Doris O'Brien, Mrs. Jo Hagstrom, Jean Dolan, Dorothy Harris, Judy Pemberton, Elaine Hubbard, Jo Ann Thomas, Hellen Reasoner and Barbara Browning.

Mrs. Rita Hudson won the door prize. A covered dish supper is scheduled for our next meeting in the home of Mrs. Selma Wright.

### QUESTIONS AND ANSWERS CONCERNING THE NEW CITY SEWER SYSTEM

At the present time the sewer contractors are working on the installation of the sewer line system and construction of the disposal plant. There have been numerous questions asked about it, such as, when will it be completed, what will it cost to connect, etc. The following will maybe answer some of the questions:

**Question—When can I tie on?**

**Answer—**No one will be able to connect and start using it until the disposal plant is completed, which could be sometime in the late summer. When the plant is completed each water customer will be called a notice that he can connect and start using it.

**—What will it cost me to connect to the sewer?**

**—**It is the opinion of the city commission to give any connection charge for 90 days or possibly 120 days after the sewer is put into operation. After that time there will be a connection charge made. It is very possible that you will be contacted by a plumber about running your service line about the same time the main line is installed. By getting your service line in as far as your septic tank, it will save both time and also tearing up your yard a second time. This will be a deal between the property owner and the plumber.

**—Can I install my own sewer service line?**

**—**Yes. The state plumbing law provides for the property owner to be permitted to do his own plumbing work in his own home, provided, that he secures plumbing permit from the city and has the work inspected by the city plumbing inspector.

**—Will the sewer main be laid where the stakes are driven?**

**—**Not necessarily. Those are grade stakes to be used for laying the pipe to grade and are usually set from the pipe location from 3 to 4 or 5 feet. The line will be located so as to miss the most obstructions and to cause the least property damage. Where there are obstructions in the way or there is a utility easement, you will be contacted about it before the line is installed.

**—Will the line run in front or to the rear of the house?**

**—**With but a few exceptions, the line will be at the rear. That is the way most of the houses are plumbed and it will be less expensive to the owner to hook on that way. Of course, there will be a few places where the line may be in front for some reason, but very few.

These are some of the questions that seem to be uppermost in many people's minds and it is hoped that this will enlighten them to some extent. Wherever there is progress there will be problems arise that require the co-operation of everyone concerned to work them out.

If you have any questions concerning the sewer system, please feel free to call the city manager's office and we will try to answer them as nearly as we can with the information we have at hand.

# U. S. Tops World In Production of Electric Power

The continued argument about whether the United States or Russia is predominant in the production of guided missiles overlooks another important measure of a nation's strength, the production of electric power and its efficient distribution, a field in which the U. S. holds a wide margin of superiority, J. B. Thomas, president of Texas Electric Service Company, said today.

At the end of 1959, the United States had more than three times the generating capacity for electric power than the Soviet Union, Thomas reported. This is one of the greatest advantages this country possesses, he added.

A report on Russian electric power development just released by the Edison Electric Institute sets out the finding of two delegations of American electrical industry leaders who toured the Soviet Union at the request of the United States State Dept and makes clear that this country will continue to increase its lead over Russia in electric power supply during the next five years, Thomas stated.

The report estimates that the total capacity of the United States in 1965 will be 245 million kilowatts, as compared with the Russian goal of 110-112 million kilowatts. This is a difference of 134 million kilowatts.

Information in the report, Thomas pointed out, tends to correct any impressions that Soviet Russia is in any way likely to out-strip the United States in the production of electric power.

In the field of power transmission, Thomas reported that in 1957 Russia had only about 46,500 miles of power transmission lines of 35,000 volts and above. That year the United States, with about one-third Russia's area, had more than five times as many miles of comparable transmission lines, a total of 240,000 miles.

Thomas also said the relative standard of living of the peoples in Russia and in the United States might well be measured by the average residential use of electricity which is about 400 kilowatt hours a year in Russia and 3,500 kilowatt hours a year in the United States.

"Communism and an all powerful state have surely failed to approach the tremendous advantage in electric power supply for factory and home that private industry has brought to this country," Thomas said, "even though some ardent proponents of federal ownership of the electricity supply facilities of the United States, and of other industries and businesses as well, are continuing to try to convince our people that this nation should follow the Russian example."

## World Day Of Prayer To Be Observed At Methodist Church Fri.

The 7th observance of World Day of Prayer will be held Friday, March 4th at the Methodist church at 10 a. m. Members of all denominations are invited to attend.

The annual observance was begun in 1887 becoming world wide in 1920, and is held the First Friday in Lent. Thousands of Christians around the world will be united in a service of prayer and thanksgiving in 60 languages and 1000 dialects.

Theme this year will be "Labourers Together With God."

Services begin on the Tonga Islands, west of the International Date Line, where Queen Salote leads her subjects in prayer. Throughout the day observances will be held in 145 countries on six continents, ending on St. Lawrence Island, Alaska. The purpose of the day is to unite all Christians in a bond of prayer to pray for all peoples of the world and to make an offering for Christian missions at home and abroad.

Each year the service comes from a different country and this year it comes from the Women's Inter Church Council of Canada.

The offering is channeled into action through the Division of Home and Foreign Missions of the National Council of Churches. After the cost of promotion and extension has been met, the gifts will help to develop Christian leadership in India, Pakistan, Korea, Japan, Africa, and Latin America; provide Christian literature for women and children in those lands; develop villages in west Pakistan where Christians are 90% illiterate; furnish two nursery orphans in French Cameroun; broadcast Christian programs in Korea; carry on a program of

Barbara Wilson, Reporter

Mrs. T. J. Potter of Anson, Tex., is spending a few days here with her daughter, Mr. and Mrs. Harry Mayes.

Have you ever brought home a bargain hat or bag or shoes of a delightfully "different" color only to find that they didn't go with a thing you had? In that case, they may have been expensive accessories after all.

To get the most for your money, plan carefully before you buy, remembering the color and design of your basic dresses or suits. Accessories should accent or complement a costume, according to Thelma Wirges, county HD agent. They can add spice to a simple, solid color dress or suit, or supply the unifying note with a striking print dress or plaid suit.

Avoid using too many different colors in one costume. The eye jumps from one spot to another, and you lose the effect of unity. A general rule for the use of contrasting color, texture or pattern in accessories is never to repeat more than three times, generally two are smarter; for example, shoes, bags and gloves or shoes, bag and hat, or bag and hat.

Intensity of the color is important. Don't overdo it. The more brilliant or intense the color, the smaller the area it should cover. Unusual colors draw the eye just because they are complex in makeup. Use them with care. Basic colors in accessories, namely black, brown or navy, are always in good taste and easy to use.

Color in shoes is a fashion to be used with caution. It calls attention to the feet and ankles. Be certain yours can stand the spotlight.

A final suggestion: Look smart but not extreme. Don't overdo. The best dressed women are often the most simply dressed.

**Accessories Around the Clock** a bulletin written by extension service clothing specialists, gives lots of ideas and suggestions. Get a copy from your county HD agent.

Miss Wirges will also give a series of demonstrations on accessories in the near future. There will be demonstrations in all sections of the county. Contact Miss Wirges or your local HD club members, if interested in attending.

Wichita County HD club members are making some of their accessories for spring. Workshops have been conducted and more are planned on making hats. Mrs. Sidney Smith, Mrs. Emil Flusche, Mrs. J. L. Graham and Mrs. Howard Smith are serving as leaders for these workshops. The leaders received their training in a district workshop.

If interested in learning to make hats contact one of these leaders, Mrs. Raymond Krull, clothing chairman or Miss Thelma Wirges, county HD agent.

The Wichita County Clothing committee has completed plans for a clothing workshop for homemakers never reached before by a home demonstration workshop. Each homemaker participating will construct a dress. If interested contact your county home demonstration agent or Mrs. Raymond Krull.

Have you ever bought a lovely garment or piece of fabric that looked "sad" after the first laundering?

Much of the success or failure in laundering synthetic fibers lies in following directions given by manufacturers, Miss Thelma Wirges county HD agent reminds us. Read your label carefully before buying if you want to be sure you can launder the fabric at home. Follow directions given. Your label may say something like this: "Hand Wash." Specific directions may be given. In this case, the fabric cannot be handled carelessly or washed in a tub with strong soap and very hot water.

"Wash at home or in commercial laundry with careful methods."

"Can be washed in commercial laundry with ordinary methods."

"Color fast." Homemakers should be able to wash this with regular laundry if she is sure of the reputation of her dealer and manufacturer.

Labels should tell you what the fabric is, how to handle it, and what you can expect from it in the way of service. Look for a good description label when you buy.

You have what we call Taxpayer's Syndrome, Limp, lifeless and lethargic.

# TAKE YOUR PROBLEMS TO CHURCH -- MILLIONS LEAVE THEM THERE

## Almost an Orchid

This iris is a gorgeous flower, so beautiful that one feels that it is almost an orchid. But on the flower market the iris brings no premium; it is no substitute for an orchid. There are substitutes for many things in life, but as there is none for the orchid, just so is there none for Christianity. Only the real thing gives life and that abundantly. Go to Church this week and partake of the blessing God offers to you.

Is something wrong with your life— an inner restless dissatisfaction? The answer to every human problem comes only from God our Maker. He alone can forgive and reassure. Through the church God has committed the provision and proclamation of His forgiveness and redeeming love. Without a church relation no one is securely related to God. *Everyone should be in the Church and the Church in everyone!*

### R R Commission Grants Lone Star Raise Privilege

Mr. L. T. Potter, President of Lone Star Gas Company, today said that the Texas Railroad Commission's reported order of February 15 authorized Lone Star Gas Company to raise its intra company city gate charge for gas for Residential and commercial customers by 5.4 per one thousand cubic feet. This order has the effect of increasing the cost to Lone Star's Distribution Division, but the level reached is still 4.6 cents below the cost in effect prior to 1942.

"Lone Star's Transmission Division will begin charging the Company's Distribution Division this additional 5.4 cents on the effective date of the Commission order. Although the increase is not as large as requested, the company is accepting the Commission order because of our Transmission Division's immediate need for additional funds with which to continue to obtain adequate gas supplies in today's competitive market.

"On December 10, 1958, I wrote the mayors of the cities served by Lone Star and informed them that we were asking the Railroad Commission to authorize the Company to increase its city gate charge. In this letter I stated that 'Lone Star, in carrying out its public service obligation, may be required in the future to file an application for an increase in residential and commercial rates.'

"It now appears that our Distribution Division will probably be required to seek authority from each council to increase the charge to our residential and commercial customers in an amount sufficient to offset this increased cost of gas. This will average slightly more than 1 cent per day per residential customer.

### American Legion Memorial Hi-way Passes Thru Burk

A whirlwind tour of U. S. Highway 281, which is known throughout its length as "The American Legion Memorial Highway," is now being organized to nationally commemorate the naming of the Highway by all the states that it traverses, according to Donald I. Peters, Dept. Commander of The American Legion.

Two caravans of automobiles loaded with American Legionnaires, Chamber of Commerce and City officials and members of Highway 281 Association, will meet at Great Bend, Kans., on Wednesday, March 30th, at 3:00 p. m. where a full evening will be spent in fellowship and enjoying a top notch program, in the beautiful spacious American Legion Home.

On March 28th, the South Caravan will begin its four day trip at Brownsville, Texas and travel north, overnighting in Texas and Oklahoma. The North Caravan will originate near the border of Canada and travel south spending one night at the southern border of each state. Each caravan will pick up additional representatives as they travel their respective directions.

The immensity of the task might be better understood when it's realized the caravans will cover a distance of 2,226 miles, passing through more than a hundred towns from Mexico to Canada and involving six states, which include Texas, Oklahoma, Kansas, Nebraska, S. Dakota and N. Dakota. The six State Governors involved are lending every possible assistance to the movement.

In this program, most of his training will consist of firing his rifle at pop-up targets at unknown distances on terrain which duplicate combat areas.

### Card Of Thanks

I wish to express my sincere appreciation to friends, neighbors and my wonderful children for their many kindnesses to me during my stay in the hospital and since my return home. The food, cards, flowers and visits were especially appreciated. Your thoughtfulness will be long remembered. Mrs. G. W. Pemberton

### Time Running Out For World War II Veterans Loans

About five months remain in which World War II veterans may apply for GI home, farm or business loans, Sumner G. Whittier, Administrator of Veterans said today.

Under present law, July 25, 1960, is the cut-off date set for World War II veteran participation in the post war program that has seen more than 5 million world war II veterans take advantage of the GI Bill loan provision since June 22, 1944.

Veterans who submit their applications on or before the deadline of July 25, 1960, will be allowed an additional year, or until July 25, 1961, in which to have the loan processed and actually closed.

Mr. Whittier pointed out that these dates do not apply to Korean conflict veterans who have until January 31, 1965, to make GI loan applications.

**Relations Officer**

Fellow legionnaires, we wish to announce that Mr. Floyd (Shorty) Fleming, our service officer, has been confined in the McKinney VA hospital near Dallas, for a short period and is expected to be bed ridden for a period unknown yet. He has been suffering from a prolonged agitating illness and not knowing what the diagnosis declared. To his wife and his lovely and wonderful children, we legionnaires from commander on down the line of officers and fellow members express our deepest sympathy and wish Mr. Fleming a very quick and satisfactory recovery. May God bless you and your wonderful family, Shorty Fleming.

Tomorrow night, 8:30 to 12:00 p. m. is dance night and we want all you lovers of music and good singing to come on down to post 264 and let's all enjoy a wonderful evening of good wholesome and right down to the old spinning wheel music. Ladies 18 yrs. and up, gentlemen 21 yrs and up. Legionnaires, bring your wives or girl friends and also invite as many guests as you wish. We want to meet new and old friendly faces. So come on down

The Important Question

and let's get acquainted. Last Friday night a good time was had by all. We honored Robert W. Martin and Morris D. Cheney two fine and distinguished gentlemen. Our doors will open at 7:00 p. m. so come early and have a good night of entertainment.

Tomorrow night at our dance we will have the honor of recog-

nizing another gentleman who is known throughout Texas by everyone. It gives us the greatest pleasure in introducing in the spotlight, Mr. Wayne D. Butler of Burkburnett. He has been one of the most active members mentioned at anytime. His lovely wife, Opal, is right with him to help in any possible way. Our hats are off to you Mr. Wayne D. Butler and we salute you and also your wonderful better half, Mrs. Opal Butler. You two will never be forgotten for your wonderful personalities and kindness to everyone. We legionnaires and auxiliary club members are behind you all the way.

Don't forget, members of the Post 264 American Legion Ladies Auxiliary club will meet tonight in a regularly scheduled business meeting. You ladies who joined this club, be sure to come out and give your president, Mrs. Helen Fleming, wife of Floyd (Shorty) Fleming, who mentioned in our news, a helping hand. Helen Fleming is a lady who is always faithful and has one of the kindest hearts any lady can have. Show her that you will stick with her and accomplish the mission that is set forth. Let's defend our precious democracy, freedom of speech and live up to the preamble to the constitution. Don't let bad weather handicap you from attending unless the situation is so dangerous that transportation is hampered. We would love to see every member present. Refreshments will be served after the business meeting.

The Meadowlane Garden club entertained their husbands with a Sadie Hawkins Day party Friday night, Feb. 12th in the home of Mr. and Mrs. Arlis Key. Signs of "How to Catch a Man" decorated the walls. Also clubs, ropes and bear traps were on sale with Marris Sam standing by waiting for a fee.

The centerpiece for the dining table was an arrangement of greens, turnips and onions centered around two slightly used candles. Prizes were given to Don Mills and Mrs. Wallace Landrum for the most unique costumes.

Games of bingo were played and pictures were taken through

out the evening. Refreshments were Kickapoo Joy juice punch served in jugs with sandwiches and molasses cake wrapped in cotton print napkins.

Those attending were Messrs. and Mesdames Don Mills, Joe Crowley, Cliff Wampler, Joe Wolfe, Wallace Landrum, Morris

Cheney, Edwin Green, James Metz and the host and hostess, Mr. and Mrs. Arlis Key.
