CORNUCOPIA OF RICHES

On a November day in 1621 the Pilgrims of Governor Bradford's Plymouth Colony were unanimous in their thankfulness to God.

Their gratitude was based on a few assets which, by today's standards, would be held very slight cause for thanksgiving. They had weathered a hard year in the hostile New World. Several of their original number, including their first governor, John Carver, had perished.

Yet the survivors saw reason to thank God. Their log cabins were sound; there was fuel for the fireplaces, wild turkeys and other game in the woods. Perhaps most important: they had harvested a crop of corn. Corn stood between them and starvation. Their imported wheat had failed but the native grain grew for the white settlers as it did for the Indians.

Long before Plymouth, the Aztecs, Mayas and Incas had given thanks for corn, worshiped their corn gods, offered human sacrifices in gratitude for a bumper harvest or to placate the divine wrath which they believed brought crop failure.

Corn continues today its long record of serving man and is among the things to be thankful for at this season. This year, an all-time record harvest of 3.7 billion bushels will be, as feed, a bountiful basis for America's supply of meat, milk and eggs.

Products made from corn starch, syrup, sugar, oil and others have literally hundreds of uses which add to the ease and comfort of everyday life. A host of foods ranging from bread, baking powder and salad dressing to ice cream, candy and soft drinks, contain products of corn. Non-food items that rely on corn for some step of manufacture include clothing and other woven goods, cigarettes, rugs and carpets, paper, colored inks, adhesives, automobile parts, gasoline, dynamite, life-saving antibiotic drugs and other medicines.

Corn, as someone aptly said, serves man from the cradle to the grave, for a corn product is in baby foods and another is in embalming fluid.

The Pilgrims, giving thanks for their harvest in 1621, could not possibly have foreseen what a cornucopia of riches the familiar grain would become.

The varied contents of this cornucopia illustrate one small aspect of our vastly increased blessings, the manifold things we can be thankful for. If the Pilgrims had a few simple reasons to start the Thanksgiving custom, we have a hundred to carry it on.

The Missing Issue

One of the most important issues of the day was completely overlooked by the 86th Congress. This issue is the urgent need to reform the federal income tax rates which are crippling the nation's economic growth.

Economic growth currently is a much used and little understood term. Actually it means increasing the gross national product—the total of all goods and services produced in America. Economic growth means building more businesses, more jobs, more goods, more services.

If you're going to build a business, you must have capital. To get capital, you must have savings—either your's or someone else's. That's where high tax rates hurt. They make it hard to save up money to invest, and they make investing unattractive to those who do manage to build up some savings. Why should people put money into a business when they know that if the business fails they will lose their investment and if it succeeds the government will tax away most of the profits?

This is how high tax rates drain off and bottle up the investment funds needed for economic growth. Now, while our congressmen and presidential candidates are campaigning for election, is a good time to ask them what they intend to do about reforming income tax rates in the next session of Congress.

Miss Charlotte Simon, bride-elect of Jan Warren Percy, was honored at a bridal shower recently at the town hall.

Music was played by Mrs. Imogene McLean and Phyllis Kiesling and vocal numbers were rendered by Karen Burton and Karen Metz, accompanied by Miss Blanche Butler.

Mrs. Wanda Mills and Mrs. Carol Roderick presided at the cut crystal antique punch bowl, an heirloom in the Smith family and cake was served by the bride-elect's sister, Patricia Simons.

Charlotte opened the lovely gifts presented by approximately 50 guests and hostesses with her mother, Mrs. E. J. Simons and sister, Patricia Simons, as assistants.

Thinking of Christmas

By R. D. Laney

I am thinking of the wonderful tradition we have built up around Christmas, where all our planning, shopping, fixing, decorating is calculated to show the ones dearest to our hearts that we love them. However divergent have been the family paths during the years, they all merge at Christmas time when in celebration of the Lord of love, we strive to make up for all the opportunities we lost during the year to manifest our love to those who mean the most to us.

In the celebration of Christmas, it will mean one thing to some persons and something else to others. Some will think it as a day of merrymaking, some a day of revelry, some a day of rejoicing, while others will spend the day at home in quietness.

All around us we hear talk of peace on earth and good will toward men. These are pretty words, but there can be no peace on earth when half of the people on earth are hungry and 60% are illiterate. Good will toward men has little meaning in the absence of mutual trust and faith among the world's leaders.

Soon another year will have dawned and we look forward with anticipation toward the holiday of Christmas when we celebrate the birthday of our Lord and Savior, Jesus Christ. Down through the centuries, 3 shadowy figures have moved mysteriously in and out of the Christmas story. They are the Three Wise Men, from the East the three kings of the Orient, the Magi, they have many labels, but however they are called, this trip of stately patriarchs remains a familiar part of the religious drama wherever the birth of Jesus is commemorated.

The star the shepherds saw in the sky nearly two thousand years ago continues to light the way for those who will see. This star reveals the way of those who will see. This star reveals the way of the higher ideals of life the way of peace and brotherhood of love. Ideals are like stars, no one can touch them with their hand, but like the sea faring man, you choose them as your guides and following them you reach your destiny.

Three ancient kings once went on a long journey to visit a

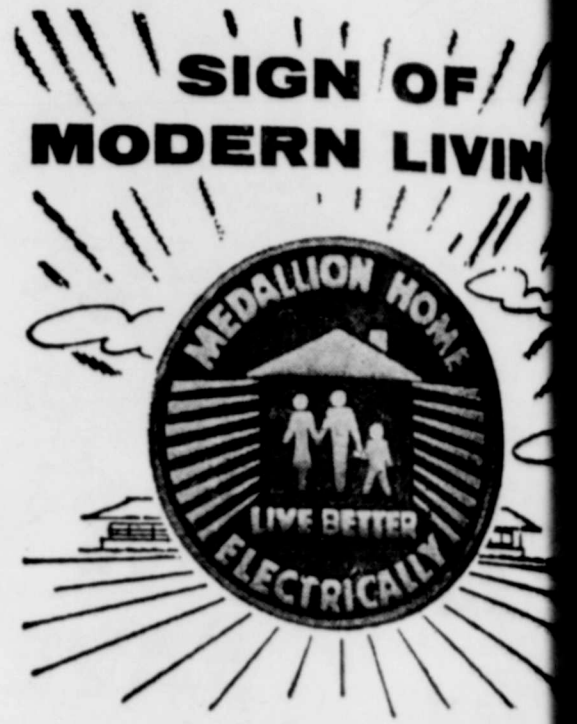

newly born prophet. They carried with them gold, frankincense, and myrrh as a means of determining whether the prophet were a God, an earthly king or a physician. The Wise Men reasoned that if he took the gold he must be an earthly king, if the incense he must be a god, and if the myrrh, he undoubtedly was a physician.

To the shepherds, Christmas was heavenly music and singing to the wise men the star in the East, to Herrod, envy, fear and hate, to God, "my only begotten Son." to the angels, on earth, peace good will towards men. What will Christmas mean to you? What's Christmas about

anyhow? It's a bit noble Galilean. It's a philosophy. It's the birthday of the fact. It's mean to we see it, makes it religious or other. May the bright Christmas inspire new ideas over the anxieties of the New Year hope of Peace on will to men.

AMERICA'S LOWEST-PRICED 6-PASSENGER CAR!

Sometimes I amaze myself!

FALCON TUDOR SEDAN, with standard trim, is America's lowest-priced 6-passenger car. Car shown has deluxe trim and whitewall tires, optional extra cost.

Even more amazing, Falcon is priced as much as \$505† less than the new-name compacts recently introduced. But maybe you think more money means more compact car? No! Fact is, Falcon gives you more—much more—of what you buy a compact for.

You see, these new high-priced compacts are just too big and heavy to handle and park as easily as Falcon. That's why they make extra-cost power brakes and steering available. With all their excess bulk, how would they go up to 30 miles on a gallon like Falcon? And although they're bigger outside . . . where you don't want it . . . they have about the same room as Falcon inside. Falcon takes 6 people in the same comfort and luxury as the highest-priced compacts.

Pay more? What for! Only Falcon has that winning combination of compact features. That's precisely why Falcon is America's best-selling compact car . . . over 500,000 richer owners already!

THANKSGIVING DAY November 24

A special day was set aside by our forefathers in recognition of how God had provided food and clothing, and for the freedom he gave them to this great land. In a world of unrest and turmoil we still have prosperity and freedom. We should be especially thankful at this time and pray for the future.

"Enter into his gates with thanksgiving, and into his courts with praise: be thankful unto him, and bless his name."

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny. The truth which alone will set him free to live as a child of God.

the constant interruptions while making final preparations for dinner.

Begin with the menu. Check it for interesting color, appetite appeal, texture variety, harmonious flavor, ease of service and possibility for advance preparation.

Now think through the steps necessary for preparing the dinner. Write out a work plan or schedule as you plan. Include the grocery order, time for shopping, table decorations and arrangements, equipment needed for cooking and refrigerator space needed. If there are several babies visiting, refrigeration for individual bottles may be necessary. Schedule time for working on foods which can be prepared ahead of time. List foods and details that must wait until the last minute.

A good plan will keep last minute preparation to a minimum. It will help you come out even at mealtime. That is, all foods will have the proper time to turn out in perfect condition at the right time.

If it's a family affair, let your guests help with the final preparation and serving of the meal as well as with the dishes. They will feel more at home and a part of the celebration if they have contributed in some way.

Mrs. Raymond Krull, followed just such a plan last Christmas & found the meal as much fun and as interesting to her as it was to others in her family. Mrs. Krull had the entire dinner prepared and frozen, so it was just a matter of removing the food, heating it and a very delicious dinner was on the table with little last minute effort.

Fruits give special touch to stuffings, whether you make your own stuffing for the Thanksgiving turkey or buy ready prepared packaged stuffing, you can add chopped cranberries, chopped dried apricots, raisins or orange juice to improve the keeping quality of the mixture, according to Thelma Wirges, county HD agent.

Even with these additions, be sure to keep stuffing cold and refrigerated from the time you make it until you stuff the turkey.

A West Texas Congressional Forum Dec. 2nd

A west Texas Congressional Forum will be staged in Fort Worth Dec. 2nd, jointly sponsored by the West Texas and the Ft. Worth Chambers of Commerce.

Six U. S. Congressmen from West Texas will face the public in the ballroom of the Texas Hotel, answering questions from 2:00 until 5:00 p. m. Former Congressman Ed Gossett, now general counsel for Southwestern Bell Telephone Co., will serve as moderator.

Similar forums have been presented in previous years with attendance ranging up to 1,000 persons. Portable microphones in the audience relay questions to the congressional panel.

We expect the greatest interest and the largest attendance for this Forum than ever before. E. H. Danner of San Angelo reports. Well publicized platforms and issues during the recent general elections, some uncertainty about possible trend in the new Congress & aspects of the promised new frontier program should inspire lots of questions.

Danner is chairman of the WTCC's National Affairs Committee which is arranging the program.

The public is welcome, Danner said.

Congressmen who will participate are W. R. Poage of Waco,

Jim Wright of Ft. Worth, Omar Burleson of Anson, Frank Ikard of Wichita Falls, Geo. Mahon of Lubbock and Walter Rogers of Pampa.

The three other congressmen whose districts include part of the regional chamber's 132 county territory will all be away on official business. They are O. C. Fisher of San Angelo, J. T. Rutherford of Odessa and Olin Teague of College Station.

WTCC President J. Carter King, Jr., of Albany has called a meeting of the West Texas Chamber's board of directors for the morning just preceding the Forum. Principal items on the agenda, King has announced will be reviews of state and national legislation possibilities & of tax issues.

Board members from the West Texas region will begin assembling on the evening of Dec. 1st at a reception and dinner for them in the Texas Hotel.

Mrs. Lerah Inman and Mrs. Joe Beaver visited their son and daughter, Mr. and Mrs. Don Inman in Houston last week. Don is in business in Houston.

and Social Security

If you are going to retire at the end of this year, now is the time to file a claim for your social security benefits, for a valid claim may be filed as much as 3 months before you reach retirement age-65 for men and 62 for women. It takes a little time to start benefits because you must apply and furnish certain proofs, and the amount of your benefit must be figured. It's a good idea to apply before the first of the new year as the necessary work on your claim can be finished by the time you retire so that your checks can start on time.

A lot of people worry about proving that they are old enough to get social security

benefits. Some people think a birth certificate is required and they don't have one. Although the best proof of age is a birth certificate, many people of retirement age don't have one. Many other kinds of documents can be used as proof of your age, so don't delay filing your claim because you don't have a birth certificate. Your date of birth can be proven from an old family Bible, insurance policies you've had for some time, or your child's birth certificate showing your age at the time of the child's birth. World War I draft records or census records

or voter's registration can be used also.

Remember to file your application early so that your social security checks will be started at your retirement. The Social Security Office in Wichita Falls is in Room 421 in the Federal Building.

News From The County Agent

It is time to make plans for the Wichita County Junior Livestock Show. There will be a meeting at the 4-H barn in Wichita Falls on Tuesday, Nov. 29, beginning at 7:30 p. m. The purpose of the meeting will be to set a date for the show, select a judge and make other arrangements. Club boys and girls feeding steers or beef heifers, along with their parents, are urged to attend.

Agriculture is burdened with too much government, too much politics and too little common sense. Ezra T. Benson
