Pvt. Otis M. Waddell At Ft. Jackson, S. C.

Private Otis M. Waddell, son of Mr. and Mrs. Otis Waddell of 206 East 5th Street, Burk Burnett has begun his Basic Combat Training at Fort Jackson, S. C., where he has been assigned to Company B, 18th Battalion, 5th Training Regiment of the U. S. Army Training Center, Infantry. During his basic training he will be introduced to a wide variety of infantry skills, along with intensive physical conditioning. He will attend classes in the traditions of the service, character guidance, and the role of the Army in the world today. Many of his instructors are combat veterans of World War II and the Korean conflict. Fort Jackson uses the U. S. Army's TRAINFIRE method of teaching rifle marksmanship. Simulating actual battle conditions, TRAINFIRE enables the Soldier to become a better rifleman in less time. Under the program, the trainee fires at pop-up targets at unknown distances on terrain which duplicates combat areas. Other highlights of his intensive basic training schedule include squad tactics, bayonet drill, hand-to-hand combat, and a night problem against an "aggressor" force. He will also crawl the infiltration course while live machine gun fire pops overhead. During his seventh week of training, he lives in the field under conditions similar to a combat zone. Here, moving over rough terrain, he has a chance to participate in realistic combat situations and to apply his newly acquired skills. Basic training is climaxed by a graduation review before the commanding general of Fort Jackson. Outstanding performances are recognized in a ceremony that is open to parents and invited guests.

LAMBERTVILLE, N. J., BEACON: "The President used some unusual methods in preventing an increase in the price of steel. WASHINGTON AND "SMALL BUSINESS" By C. WILSON HARDER

In a recently conducted poll by the National Federation of Independent Business, 69% of the nation's independent business people expressed approval of the bill introduced by Congressman Kolwaski to permit retired people drawing Social Security to earn up to \$2400 per year without penalties.

At present retired people are permitted to earn up to \$1200 per year. After this, they give up \$1 in benefit for every \$2 earned in excess of \$1200 per year up to \$1700 per year. After that, they forfeit \$1 for every \$1 earned.

Thus, at present, if a retired person makes \$1700 in a year, he or she loses \$250 in Social Security payments. The maximum benefit is only \$124 per month, the average is \$78. Thus, for the average making this amount of money in addition to the pension, the monthly benefits are cut to less than \$50.

Therefore, the bill by Congressman Kolwaski seeks to correct one of the most fantastic situations of the times.

It is quite obvious that most people under today's prices cannot live in anything approaching decency on a pension of less than \$1,000 per year. It is also equally as obvious that the benefits are not a free hand out from government, or manna from heaven, because both the recipient and his or her employers have been compelled to contribute to a fund to pay these benefits.

Thus, severely limiting the amount of additional income a recipient can make is somewhat akin to the situation that would exist if an insurance company refused to pay on an annuity policy unless the policy holder agreed to conditions laid down by the company.

Additionally, it is quite odd that retired people should be discouraged from making additional income at the same time a drive is on to boost social security deductions on the basis that elderly people cannot pay for medical care.

In addition, there is a sheer economic waste involved here. People vary greatly in their physical stamina in the late sixties. Many people are quite active for many years after reaching this age. Many women in their sixties, experienced from raising their own families, can earn \$1800 per year caring for children. Many men are quite capable of doing light clerical work, serving as watchmen, and serve in a host of other capacities.

There is also a human respect. Many people, if forced to do nothing productive, quickly fade and die. This is especially true if forced to exist on a pension that keeps them on the edge of want.

Eskimos of the Far North, because it requires full vigor merely to exist, have the custom of leaving their old people sitting out of the ice to die of exposure and starvation. It would seem that with the restrictions placed on those who are drawing on the Social Security fund they have contributed to, that there must be a substantial number of Eskimos making policy in Washington.

agricultural department won't be given grain allotments, so apparently you haven't a farm unless you have the papers to prove you have a farm. It all boils down to the fact that the independent farmer is being penalized for exercising the freedom of choice which has set the farmer as a man apart for many years. Small wonder people are leaving the farms. They are being driven from them by farm programs, paper work and red tape that hamstring the hope of future growth."

SIKESTON, MO., DAILY STANDARD: "Try to be nice to everyone until you have made your first million—after that they'll be nice to you."

ELECTRA, TEX., STAR-NEWS: "Instead of going socialistic, why not get a bed at a reasonable hour, get up early, bathe, shave, put on clean clothes, eat a leisurely breakfast, and get to the job without rushing? I try it occasionally, and it makes me feel good all day."

This Week's Ideas — for Sportsmen

Fish, fowl and meats are delicious when broiled over charcoal fires. For those who like that flavorsome hickory taste, here are some suggestions:

Get someone who owns a wood-lot to give you a log or two of hickory. Saw the log into sections only five or six inches long. Split each section into small billets about finger size. Store until they are dry. These hickory billets burn down to long-lasting coals, with or without added charcoal.

Place a layer of these billets side by side, close together, on the fire-bed of the outdoor grille. Lay more billets crossways on the two ends. Place a "Sterno" Charcoal Lighter Cube in the center of the wood, and light it. Lay more billets crossways on top; then either add charcoal or additional billets to provide as big a fire as needed.

The object is not to smother the flame, and to let it burn up through the criss-crossed billets to get a good fire going quickly. If no "Sterno" Charcoal Lighter Cubes are handy, a gob of "Sterno Canned Heat" dug from the familiar can with a stick will do as well. This pink-colored fuel is solidified alcohol which is smokeless and nearly odorless. Since it remains solid even when burning, it is very safe to use; far superior to newspapers and other types of sooty kindling.

Wait until the fire has burned down to coals before starting to cook. If you want more hickory smoke flavor than the dry hickory provides, soak a few of the hickory billets in a pail of water. Lay a wet billet or two directly on the coals. If flameless cooking is desired, wrap a billet or two in aluminum foil, and then puncture the foil in several places. Lay this on the coals. The foil-wrapped hickory won't flame up, but it will provide enough hickory smoke to give delicious flavor to the foods which are being broiled.

Education isn't play — and it can't be made to look like play. It is hard, hard work. But it can be made interesting work. —Thomas A. Edison

Water heater need replacing?

INSTALL A FLAMELESS ELECTRIC WATER HEATER AND ENJOY ALL THESE ADVANTAGES

- SAFE—NO FLAME**
Perfectly safe in any location, an electric water heater has no flame to blow out accidentally, no fuel to leak, no pilot light or flue to worry about. And the outside of an electric water heater is always cool to the touch.
- EFFICIENT**
Electric heating elements are in the water, inside the tank. The tank is completely insulated, even on the bottom, to prevent heat loss. And no heat is wasted up a flue. You get hotter water faster and it stays hot longer.
- LONG LIFE**
With an electric water heater, the tank bottom is not subjected to the corrosive action of flames. There are no valves to stick, no burner to adjust. An electric water heater assures you many years of trouble-free service.
- INSTALLS ANYWHERE**
Because an electric water heater requires no flue, it can be installed anywhere in the house, close to the point of greatest use. This saves long pipe runs and consequent waste of heat due to water cooling in the pipes.
- SUNSHINE CLEAN**
With an electric water heater, there are no by-products of combustion to soil walls or ceilings. No unpleasant fumes. No flue to accumulate soot. An electric water heater provides the cleanest method known for heating water.
- MODERN—COMPACT**
Choose from round or table top models at your plumber's or appliance dealer's. Compact round models require only four square feet of floor space. Table top models provide additional counter space in kitchen or laundry.

\$50 INSTALLATION CERTIFICATE
OFFER EXPIRES AUGUST 31

Good for \$50 on the retail purchase and installation of a new electric 40-gallon (or larger) glass-lined quick recovery water heater, replacing your present water heater. Offer good for installation in any home served by Texas Electric Service Company. Certificate available now and through August 31 only, from your appliance dealer, plumber or electrical contractor. See about it soon!

TAKE YOUR PROBLEMS TO CHURCH -- MILLIONS LEAVE THEM THERE

LEARNING GOOD HABITS EARLY

"Train up a child in the way he should go: and when he is old, he will not depart from it."

This statement (made by Solomon, thousands of years ago) is just as true and vital today as it was then.

Teach your children the good practice of saving for the future. Teach them to attend worship services in God's house by taking them each Sunday.

**EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Mary Ann Herron and Richard Hall Pledged Marriage Vows Fri., July 20

Miss Mary Ann Herron of Dallas became the bride of Mr. Richard V. Hall of Midland, Texas, in an impressive ceremony read Friday July 20 at 3:00 p. m. in the Scyene Road Church of Christ, Dallas. Minister Joshua R. Lewis, Sr., officiated.

Parents of the bride are Mr. and Mrs. Nolen C. Herron, Dallas, and Mr. and Mrs. W. H. Hall, Sr., Burkburnett, are parents of the groom.

Music for the wedding was presented by Mrs. Phillip Perley, Mrs. Frankie Waster and Mrs. Joshua R. Lewis, Jr., all of Lancaster, Texas.

For her wedding the bride chose an exquisite gown fashioned of pure silk organza combined with imported peau d'ange lace. The molded bodice featured a deep lace yoke which formed a Sabrina neckline edged in natural lace scallops. The brief sleeves of lace were edged in scallops.

The regal skirt billowed from a pointed waistline over taffeta giving a bell shape to the skirt front. Garlands of the peau d'ange lace were lavished in motifs over the skirt sides and the back bouffance was created by a multitude of gathers at the center back. Three silk roses held the fullness which extended to form a sweeping chapel train. Her shoulder length veil of imported pure silk French illusion fell in misty scalloped tiers from a crisp cross hat of matching peau d'ange lace.

Matron of honor was Mrs. Ann Dowd McCulley, Dallas; bridesmaid, Miss Alva Nell Herron, sister of the bride, Dallas; and flower girl, Miss Kathy Dee Herron, sister of the bride, Dallas.

Louie Hall of Burkburnett served as best man for his brother. Groomsman was Ray Johnson of Midland and ushers were Nolen Glenn Herron, brother of the bride, Mesquite, Texas, and Tommy Turns, Dallas.

A reception was held following the ceremony at the Oak Cliff Savings and Loan Building in Pleasant Grove. Members of the house party included Mesdames Glenn Herron, Mesquite, Jerry Sims, Garland, Julius Hardie, Dallas, Ewell Teer, Jr., Mesquite, and Misses Helen Luke, Dallas and Cherry Shaw, Fort Worth, Miss Donna Kay Herron, Grand Saline, and Miss Kathy Dee Herron, Dallas presented rice bags at the reception.

The bride is a graduate of Pleasant Grove High School, Dallas and received her BBA degree from North Texas State University. Sorority affiliations include Pi Omega Pi, Phi Beta Lambda, Senior Mary Arden Club, Student National Education Association. Her occupation is a teacher.

The groom is a graduate of Burkburnett High School and received his BS degree at Midwestern University and an M. Education degree at North Texas State University. He is a member of the Texas and American Personnel and Guidance Associations, American School Counselor Association, and National Vocational Guidance Association. He is a counselor at the Midland High School, Midland, Texas.

Following the wedding trip, the couple will be at home in Midland.

It's The Law In Texas

RIGHT OF WITNESSES By far the most vital people in our system of justice are witnesses. Everyone else in a trial exists to hear what they have to say.

Our courts need witnesses. A jury to find the facts. The judge to apply the law. The lawyer to tell his client's story.

On some rare occasions you could be called upon to testify about something affecting your own standing in the community.

As a witness you too may have the right, for example, not to testify against yourself in somebody's else's lawsuit or crime trial.

If you are ever in such a bind, consult a lawyer of your own choice on what to do. The lawyer who called you to testify has a sworn duty to protect HIS

Mrs. Loyd Gray was honored with a bridal shower Thursday, July 19 in the home of Miss Ann Jackson.

Mrs. Loyd Gray is the former Ada Whitney. Many beautiful and useful gifts were presented to the Honoree.

Those present were Mrs. James Stubblefield and Janie Mrs. Monroe Gray, Mrs. V. L. Stubblefield, Wanda Jewell Rile, Wanda Rushing, Joyce Byers, Pat Archer, Mrs. Dollie Sanders, Edith Whitney, Mrs. Cora Whitney, Mrs. Kenneth Benson, Mrs. O. M. Givens and Becky Gum. Hostesses were Mesdames Sis Parks, Francis Jackson, Hellen Schlaulauf, Nicholls, Sis Bowman, Sis Stubblefield, J. G. Cheney and Pauline Varner.

Many sent gifts but were unable to attend.

client, NOT you. But your lawyer is sworn to keep what you tell him secret and to advise you in your own interests within the law.

Wise lawyers tell their witnesses to obey twelve rules:

1. Go to the place (say, the scene of an accident.) Check your memory before you go to court. People forget and get caught up on details. But if you check what you saw and heard you are on solid ground.

2. Visit a court. Hear how other witnesses testify. It will help you see your role on the witness stand.

3. Wear clean, conservative clothes.

4. Don't memorize your story word for word. That is the surest way to sound bad. But think of what you saw and heard.

5. Listen to the questions you are asked with care and answer thoughtfully.

6. Give a simple, direct answer in your own words. Don't be rushed.

7. If you err — and people often do — correct yourself at once. If you can't remember some detail, say so. Don't bluff.

8. Tell the truth. Don't figure which side you may help. Don't identify yourself with either side.

9. Stop when the judge breaks in, and don't try to sneak an answer in before he can stop you. What you might say could end in a "mistrial."

10. Keep cool and don't sass back.

11. If they ask you: Certainly, you have talked to other people — the lawyer, for example; and yes, you may be reimbursed for certain of your expenses incurred in attending the trial.

12. Remember, without witnesses our law would fail to do justice. If you are called, be a good witness.

THREE FACTS ABOUT COMMUNISM

By Rosalie M. Gordon

(Editor's Note: Rosalie M. Gordon is editor of ALL-AMERICAN BOOKS, ALL-AMERICAN BOOK DIGEST and AMERICA'S FUTURE.)

It is an amazing thing how we in America have fallen for the technique of the Big Lie—the technique used so effectively by Hitler and perfected by the communists by repeating a false statement over and over until people begin to believe it. Unfortunately, we see Americans who are not communists swallowing and propagating such statements, often without realizing what they are doing. They themselves are sincere—and therefore effective in spreading the falsehood—because they have convinced themselves it is true.

A current example of this sort of thing is the oft repeated statement that there is little or no internal threat from communism in the United States because the number of hardcore communists—that is, members of the Communist Party of the U. S. A.—is at its lowest ebb. It would be a wonderful thing if this were true, but it overlooks three important facts about communism and the communist conspiracy.

1. The communist conspiracy knows no boundaries—geographical or otherwise. It is not only foolish but very dangerous to maintain, as many of our modern liberals do, that there is a foreign communist threat

THE CHANGING SCENE

but not an internal one. Communism is a world-wide conspiracy with its headquarters in Moscow, and its threat to the free people of the United States or any other nation does not stop at the three-mile limit.

2. The number of open and avowed communists in any given nation is of no great importance. Contrary to a carefully nurtured popular belief, communism does not depend on masses of people to attain its ends. The communist take-over in Russia was engineered by a mere handful of dedicated Reds compared with the entire population. To this day the Soviet

Union is ruled by a communist elite comprising less than three per cent of the peoples of Russia. The same is true of Red China, where the percentage is probably even less. Also, Americans by now should be well aware of the tremendous harm a single communist can do. Our atom secrets were not delivered to the Kremlin by thousands of American Reds. It took only two—Julius and Ethel Rosenberg.

3. Perhaps most important, it is not membership in the Communist Party of the U. S. A. which constitutes the great internal threat. In fact it might be better if all American communists and their dupes were actually members of the Party. Then they would know them for what they are—a fact of which the communist conspirators, you may be sure, are well aware. What counts so far as the internal threat is concerned is not membership in the Party, but those who fall far and follow communist ideology and communist objectives, often without even knowing that this ideology and these objectives constitute the prime base of communism. This is why it is so important that Americans understand what communism is and what its objectives are, and why it is also important to understand that many people work for communist objectives without knowing they are communist and who themselves are not avowed communists—in fact, consider themselves anti-communist or at least non-communist.

In this connection there was some little-noticed but important testimony given to a Senate committee not long ago by Major John H. Buchsbaum, a military intelligence officer. He said that the United States Army screens EVERY MONTH approximately 150 cases of questionable loyalty in the ranks. He pointed out that of these, very few are hard-core communists or connected with subversive organizations. Incidentally the Major blamed both schools and parents for this situation and confirmed what many other experts have testified to—that American prisoners who gave in to communist brainwashing in Korea did so "because they were ignorant of what America is and what she stands for."

It was also interesting to note that Major Buchsbaum testified that the most effective training instrument on communism in the Army was the film OPERATION ABOLITION, showing the Red-inspired riots against the House Un-American Activities Committee in San Francisco. But strange as it may seem, the Pentagon, under pressure from our duped liberal-leftists, removed this excellent documentary from the list of Army training films.

The theater usher was astonished to see a kangaroo sitting in the front row munching peanuts. Leaning over, he whispered, "Where'd you get the peanuts? I thought the machine was broken!"

Mickey Simmons, President

Wade Nickens of Burkburnett F.F.A. Attended Convention

Wade Nickens, member of the Burkburnett Future Farmers of America Chapter attended the State F.F.A. Convention in Fort Worth, July 18-20, according to Mickey Simmons, President of the chapter. The three-day meeting of representatives of over 900 F.F.A. Chapters throughout the state included the awarding of advanced degrees, scholarships and awards to outstanding members of the organization.

Wade Nickens was elected by chapter members as delegate of the Burkburnett Chapter to the state convention.

Among the important business transacted at the convention was the election of a state president from the ten state officer nominees, who have been elected by members in the ten areas of the state. Voting delegates to the National F.F.A. convention in Kansas City in October were elected. In addition, delegates elected a sweetheart from the ten candidates

electd by the areas and selected the top talent team in the state.

Nearly 800 members from the 38,000 membership of the organization received the state's highest award, the Lone Star Farmer Degree. The membership conferred Honorary Degrees on adults who have contributed in an outstanding way to the accomplishments of the organization. A Vesper Service was conducted on Tuesday evening, preceding the convention sessions. Lyle Carpenter, Uma, Colorado, immediate past president of Future Farmers of America and Bob Murphy of Nacogdoches were among the speakers to address the 3000 farm youth convened in the Hotel Texas Grand Ballroom in Fort Worth, July 18-20.

B. A. Farris, Jr., Vocational Agriculture Teacher, accompanied F.F.A. members to the Fort Worth convention.

"Mummy, that dentist wasn't painless like he said."
"Why, did he hurt you?"
"No! But he yelled just like any other dentist when I bit his finger."

How Planned Burk Burnett RCA Rodeo Delayed Due To Losses

The year's performance of the 10-year-old professional rodeo in Burk Burnett was delayed the last according to the board of directors of the Burk Burnett Chamber of Commerce Wednesday.

an alternate annual program will be set up and is currently under consideration by the directors.

Alternate Program
Due to the costs of producing a rodeo using professional riders, commercial stock and other special items—this constituted the biggest expenditure of all expenses—it was suggested that a substitute such as an amateur rodeo, jubilee, homecoming or event of that nature be programmed.

These proposals and the possibility of a combination of events is being discussed. Professional showmen have been approached for advice on how to handle the matter. Sharp in pointing out the dramatics of sponsoring the rodeo this year said that last year's rain during the three nights of the show put rodeo committee members on edge.

Rain Scare
This year rain fell for ten straight days up until two nights before the event was to begin, and the storm clouds continued to threaten the other two days.

Perfect weather followed, to the relief of the chamber of commerce. However, the profit might not have been realized if not for the concession sales.

A nation deprived of liberty may win it, a nation divided may reunite, but a nation whose natural resources are destroyed must inevitably pay the penalty of poverty, degradation, and decay.

Jehovah's Witnesses District Assembly July 27 to 29

Jehovah's Witnesses of Wichita Falls Congregation will join 5,000 associates at the Courageous Ministers District Assembly in San Angelo Coliseum, July 27 to 29, according to Harold P. Bruce, local minister.

Delegates will come from 135 congregations in Texas, Oklahoma, New Mexico and seven other states for the three-day meet.

The Witnesses have undertaken a door-to-door canvass of the entire city of San Angelo to obtain accommodations to supplement the 1200 hotel and motel rooms that are available in the city.

"This method of obtaining rooms is not new for Jehovah's Witnesses," said Bruce. "We did the same thing in Houston, Oklahoma City and in New York for some of our larger conventions."

The meetings at the local Kingdom Hall will be discontinued during the convention week as members of the Wichita Falls Congregation will attend the convention. Twenty ministers have been appointed by the Watchtower Society to participate in the three-day program that will climaxed Sunday at 3 p. m. with the talk "Take Courage—God's Kingdom Is At Hand," according to Bruce.

Fallout

Planning
Last week we defined the "alert" level of radiation. When this is reached it becomes important to determine the amounts of different radioactive substances present in the fallout area. This is necessary because different fallout materials are distributed in the body differently and are retained in the body for different periods. The retention time will depend upon the "half-life" of the fallout components. "Half-life" is the time required for a radioactive substance to lose one half of its radiation strength. From a health standpoint the most important fallout elements are:
Iodine¹³¹: half-life 8 days
Strontium⁹⁰: half-life 58 days
Strontium⁹⁰: half-life 27 years
Cesium¹³⁷: half-life 27 years

Having determined the composition of fallout material, the next step is to determine the health hazards by use of guide-lines set up by the Federal Radiation Council. These guide-lines express the potential hazards of the radiation against the reasons for accepting the hazards. The answers are expressed in three different ranges, which help scientists determine what action is called for. As our readers are by now aware, the fallout problem is very complex and involves top-level planning on the part of many people to assure maximum protection.

THE STATE OF TEXAS

TO: ALENE M. FORD, Defendant.
YOU ARE HEREBY COMMANDED to appear before the Honorable 78th District Court of Wichita County, at the Court-house thereof, in Wichita Falls, Texas, by filing a written answer at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 10th day of September A.D. 1962, to Plaintiff's Petition filed in said court, on the 18th day of July A.D. 1962, in this cause, numbered 70,460-B on the docket of said court and styled ALTON E. FORD, Plaintiff, vs. ALENE M. FORD, Defendant.

A brief statement of the nature of this suit is as follows, to-wit:
Plaintiff alleges that he and Defendant were first married on or about the 11th day of February 1933, and lived together as husband and wife until said marriage was dissolved by divorce on January 26, 1957 in cause number 3335-D in the District Court of Garvin County, Oklahoma. That after living separate and apart for several months, Plaintiff and Defendant did on or about the 15th day of June, 1957, commence living together again as husband and wife, without obtaining a marriage license and going through a marriage ceremony, and that said marital relations continued until on or about the 1st day of February, 1958, when by reason of the Defendant's actions and conduct towards your plaintiff, he was forced and compelled to permanently abandon her, since which time they have not lived together as husband and wife.

Plaintiff alleges that during the time he and Defendant were cohabitating and living together as aforesaid, he was kind and affectionate to her and did all that was in his power to provide for her maintenance and well being, but that shortly before their final separation, your Plaintiff was transferred by his employer to Archer County, Texas, and Defendant stated that she would not live in such wild and uncivilized surroundings and complained so bitterly and so often about their mode of living and environment that she kept your plaintiff constantly worried and upset, causing him loss of sleep, loss of appetite and inattentiveness at his work so as to constitute mental cruelty.

Plaintiff alleges that Defendant's actions and conduct towards him generally were of such a nature as to render their further living together as husband and wife insupportable, the premises considered.

Plaintiff further alleges that there was no community property accumulated by the parties of this action during the time of their marriage, nor were there any children born of this marriage, necessitating any action on the part of this court.

Wherefore Plaintiff prays the Court that Defendant be cited to appear and answer herein for judgment, dissolving said marriage and for such other and further relief, special and general, in law and in equity, to which your Plaintiff may be justly entitled.

Issued and given under my hand and the Seal of said Court, at office in Wichita Falls, Texas, this the 23rd day of July A.D. 1962.

Wayne Wiggins, Clerk
78th District Court, Wichita County, Texas.
By Lenna Cutbirth, Deputy. 46-41C
