There will be an organizational meeting of those interested in Little League Football Saturday afternoon at 4:00 o'clock.

Burkburnett School Enrollment To Be By Grades Certain Days

NOTICE

Burkburnett Public Schools will begin the 1962-63 school year on September 4, 1962. All new students regardless of grade who did not attend school in Burk Burnett during the 1961-62 school year will enroll at their respective schools during the week of August 20-24.

Newcomers Welcomed to Burk Burnett

Zeidler, E. P., Collier, Donald Blair, Richard Helmer, Robert Holland, Walter Lowrance, L. D. Roark, Bruce Vandagriff, Otis Duke, G. D. Compton, J. T. Wendell, Snider

First Methodist Date Set for Kindergarten Day School

The Methodist Week Day Education Committee, headed by J. B. Riley, Jr., announces the first day of school to be September 4th.

Mrs. R. A. Neal Died Thursday Following Long Illness

Mrs. R. A. Neal, long time resident of Wichita County, died at her home, Thursday morning after a lengthy illness.

IF IT'S FOR SALE ADVERTISE

Funeral services for Mrs. Ella Groves, a resident of Burk Burnett for the past 33 years, were held Sunday at 2:30 p. m. in the Church of Christ.

Emergency Exists Until Further Notice Is Given

The City Council met in an emergency session Sunday afternoon and declared an emergency water situation. At the time of the meeting the large storage tank had only three feet of water.

Local Births

Herman Kyle Bearden, girl, Lura Ann. Art Willis Williams, boy, William Arthur. Freddie Earl Harrison, girl, Lorri Lee.

Mrs. Iva Johnson Visiting from Calif.

Mrs. Iva Johnson, a past resident of Burk Burnett, has been visiting here from California with her son and daughter-in-law, Mr. and Mrs. Louis Johnson, for the past four weeks.

Methodist Youth To Gather At Burk Monday, Aug. 20

Young people representing some thirty (30) local churches in the Wichita Falls District will meet at the First Methodist Church in Burk Burnett on Monday evening August 20th.

NOTICE

Pre-school rehearsals for Jr. High Band will begin Monday, August 20th at 8:00 a. m. Rehearsals will be held Monday through Friday until school begins.

WATER EMERGENCY!

to become unduly excited about. Last year citizens used one million gallons of water only three days. The past week the pump station has been pumping from one and a half to two million gallons a day.

is not sufficient settling tanks and storage tanks at the pump station to take care of the present demands. There was only one immediate solution—ask people to curtail use of water.

It may not be the last time. Here is the conservative watering schedule set up by the City Council which charged the City Manager with its enforcement:

skip two days and water again Sunday. CAR WASHING Cars may be washed any morning, but not in the afternoons.

The emergency is so serious that for a time last Saturday night it appeared three residences would be lost to fire. The water mains were dry and the fire trucks with tanks were fast being used up.

In Wichita and Cotton Counties **\$2.50**
Outside These Counties **\$3.00**

IT'S YOUR MONEY

Too often the citizen, preoccupied with making a living does not take time to inform himself about his government. Yet history teaches that democracy survives only as long as the people take an active part in the making of governmental decisions.

One third of the average citizen's income goes to pay various kinds of taxes. That makes government his biggest cost.

Businessmen who spend many sleepless nights trying to figure how to cut unit production costs by a fraction of a cent, or reduce overhead by a few dollars, are prone to ignore one of their greatest single cost factors—taxation.

Husbands and wives perspire and argue over family budgets but are unwillingly to pay any attention to one item—government—which is now costing them more than food, clothing and medical care, according to the Citizens Public Expenditure Survey of New York.

Once started on the path of growth, many government agencies are like Topsy—they just grow whether there is any reason or not.

Citizen interest in government is sorely needed now. Without a sound economy, and that means government on a solid financial base, we will pay a dear price.

GRASS ROOTS OPINION

BETHEL, ME., CITIZEN: "Tax experts reveal that if Uncle Sam seized all individual income over \$25,000 a year, it would run the government not quite 3 days. If he

confiscated all income over \$10,000 a year, it would carry the government only 18½ days. Lincoln said that God must have loved the poor people, he made so many of them. By the same token, you can't run the government on the rich, there are so few of them.

WYNNE, ARK., PROGRESS: "The government has virtually completed its expensive research project into the factors that contribute to bruises on tomatoes.

"You, through your government, paid to learn that if tomatoes are dropped on a hard surface they are likely to be bruised—We might add that if a truck runs over a ripe tomato it virtually ruins it. We are sending a bill to the government for this information."

remember how
cold it gets
around here?

count on **GAS** heat to pour on the
comfort when other kinds of heat fail!

Hard to believe now — but it does get chilly here. Doesn't bother GAS heat. It never gives up because the air gets too frozen for "heat pumping." Never needs repairs for complicated moving parts (needs none to produce heat). Never gouges your pocket-book for doing the job — GAS is the lowest-cost heat you can buy!

It's smart to
modernize with
GAS heat now...

Burk Burnett, Wichita County, Texas

BOOK'S COOK

Author's Note. The following was submitted by the Enterprise, Frost, Texas, August 2, 1962.)
 Truly dedicated teacher, Beatrice Jones this year completed 25 years of teaching in second and third grades in Texas Public Schools. Before her career at Mertens, she taught at Slay. At that time she came to the elementary school where she remained until three years ago when she went into the Burk Burnett Public school.
 Jones graduated from High School in 1928, received her BA degree from

Trinity University, which at that time was located in Waxahachie, and then, in 1951, received her MA degree from North Texas University.
 Although for the past three years Miss Jones has spent only holidays and summer vacation in Frost, she was for many years active in the Worthwhile Club. A life time member of the Methodist Church, Miss Jones has been assistant teacher of the Lura Harrison class, and while at home in Frost is active in the church. A life member of the Delta Kappa Gamma, Miss Jones has held several offices in the teacher's fraternal organization, among them the important post of program chairman. She is, also, a life member of the Parent-Teacher Association having been presented the membership while a teacher in Frost elemen-

tary school in recognition of her untiring work in the field of parent-teacher cooperation. Miss Jones is a member of the American Association of University Women, an organization in which she is very active in Wichita Falls.
 As teacher representative of Junior Red Cross in Navarro County, Miss Jones through the years did an outstanding work. Through her interest and zeal the elementary school age children of Frost were given an opportunity to participate in this worthwhile organization through their gifts of handiwork to those less fortunate than themselves. Since going to Burk Burnett, Miss Jones has become the teacher representative there for the Junior Red Cross.
 Miss Jones' choice for Cook's Book is Mrs. O. K. Vinson.

MOLDED HAM LOAF
 1 can condensed tomato soup
 1 cup water
 1 1/2 tablespoon unflavored gelatin
 1/4 cup cold water
 3 ounces cream cheese
 1/2 cup mayonnaise
 2 tablespoons vinegar
 2 teaspoons prepared mustard
 2 cups ground cooked ham
 Heat soup and water. Soften gelatin in the cold water and add to soup mixture. Blend in the cream cheese and cool until coagulating begins. Add mayonnaise, mustard, vinegar and ham. Chill.
 The first telephone connection linking Texas A&M College and the nearby City of Bryan was made in 1883.

WHAT ARE YOU UP TO?
 You will be noticed if you take more than the expected interest in your job. This is done by working early, and working late. The hands on the clock are purely incidental, and coffee breaks are a waste of time. Do not become involved in bull sessions. Come back for an evening or two each week. And the day will come when the boss calls you into his office and says, "Been watching you for some time—just what are you up to?"
TRIANGLES
 Lumber siding isn't always applied in conventional horizontal or vertical patterns to home exteriors. According to the Southern Pine Association, some homes have wood siding placed diagonally on either side of triangular windows.

The amateur sportsman who had just returned from a safari was telling his friends about the lion hunt.
 "... then the lion charged me full speed," he said, "and I turned to run for the nearest tree. Above me was a branch some twenty feet in the air... I leaped for it."
 "Did you make it?" an anxious voice asked.
 "No, not on the way up," replied the sportsman, "Luckily, though, I caught it on the way down."

A Life Saver

Parents would not dream of permitting their children to venture out on the waters without some protection. Yet, only too many of these same parents do not prepare their children for the dangers of everyday life. The Bible says:

"Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand."

Begin now, to safeguard your children by taking them to church.

Wichita County, Texas

Capitol News

Members of National Guard—Members of the National Guard returned to their homes in front of the Capitol.

Guardsmen—Guardsmen returned to Congress Avenue after being dismissed from their civil jobs.

500 Spectators—Over 500 spectators gathered for the return of the active army in the Berlin crisis last week.

Responsibilities—The Texas National Guard has accepted its responsibilities since the Anahuac and Gonzales cases.

Returning Soldiers—The returning soldiers and their families, including the Cheshire, both the patrolmen with the Department of Public Safety.

Cheshire—Cheshire, a chief war officer with the 49th, or 42 other department including his son, into the Texas DPS during the stay at Fort Louisiana.

Reported Back—He reported back to his boss, Col. Homer J. DPS director. But his unit still is 100 men.

Money For Well Study—Daniel has okayed the \$105,000 from Texas Commission funds to purchase additional equipment.

personnel and other expenses connected with the investigation of slant-well drilling and oil producing operations and pollution of public waters.

He also authorized Atty. Gen. Will Wilson to adjust his present appropriations to cover slant-well and anti-trust investigation expenses.

Meanwhile, the Railroad Commission called a temporary halt to oil well testing in East Texas and Hawkins fields, in order to rearrange personnel.

Two Term Limit?—Another effort may be made to limit the term of office of the governor.

Similar resolution was unsuccessfully sponsored in the 57th Legislature. New proposal would set the governor's term at four years. It provides that he could not succeed himself in office.

Many legislators feel that such a system actually stretches a political life rather than limiting it.

Pressure Possible Hazard—When Brad Smith, the governor's traffic safety assistant, learned that a fatal automobile crash occurred every other hour and a car wreck every hour, for three consecutive days, he decided it might be due to the weather.

Study revealed that the barometric pressure had dropped to a low point the day previous and stayed low through the three day period.

Smith, a former newsmen, said that reporters always look for unusual happenings when the barometer falls and remains low for a few days.

"I am now convinced that oppressive weather has a decided effect on some personalities," he said. Scientists call the effect

of weather on people "bio-climatology."

Divorce Study Starts—House Interim Committee on Divorce held its first meeting.

Committee, headed by Rep. Renal B. Rosson of Snyder, was created by the 57th Legislature to study divorce laws, with special attention to: Rights of children; methods of promoting and protecting family life; and possible ways to encourage reconciliations.

Texas now has the fifth highest divorce rate in the nation. More than 28,000 divorces were granted here in 1961.

Members of the study group include Reps. David Crews of Conroe, Paul B. Haring of Goliad, Henry Fletcher of Luling and Charles Whitfield of Houston.

Mental Hospitals Crowded—State mental hospitals are crowded with elderly persons physically but not mentally ill.

Dr. C. J. Ruilman so reported to the House Committee on Saving Taxes.

Dr. Ruilman, director of mental health for the State Hospital Board, said about 26 per cent of the 16,000 patients in state hospitals are more than 65 years old.

"Our problem (in cutting state hospital costs) rests with patients who are physically sick," he said. "Of 3,500 elderly patients in state hospitals, only about 1,400 have serious psychiatric disorders."

Help for Rural Hospitals—Although federal funds have financed construction of more than one-third the hospital and medical facilities in the state, under the Hill-Burton Act, most of the aid has been given to big-city institutions.

Officials of the State Health Department, who make recommendations for the aid, feel that smaller communities have been penalized under former measuring standards. When new building allotments are authorized for Hill-Burton assistance in September, requests from rural areas will be weighed according to "relative need."

So far Hill-Burton projects around the state have been built at a total cost of \$310,433,369, with the federal government footing \$110,102,770 of the bill.

The Hill-Burton program is so popular in Texas that federal financing is twice the national average of 15 per cent of total cost.

Crime Explosion—Texas prison wardens and agencies interested in rehabilitation of "first offenders" are being haunted by the expected population bulge just as are colleges, universities, and for that matter, all future planners.

Post-war bumper baby crops which started in 1947 are expected to hit the cell as well as the campus in full force in 1964.

Three phases of clemency—a suspended sentence, judicial probation and state parole—are being studied as a means of keeping youthful offenders out of the penitentiary.

Objective is to make the prison an old settler's home for hardened congenital criminals who cannot be rehabilitated.

and who have aged in making their record.

Market Testing Helpful—"People who have never known—and cared less—about brucellosis eradication are now getting their herds cleaned up," Dr. Seymour J. Smith told state animal health commissioners.

Awakened interest is due to the state-federal plan of market testing, under which a county can be modified or certified brucellosis-free without testing every herd.

Another animal health officer, Dr. H. H. Payne of El Campo, told the group that he never had seen anything like the mosquito menace in May, June and July, which caused an estimated loss of 50,000 cattle and ruined many more in Jefferson and Chambers counties alone. "Some cattle are permanently warped from the long period of stress," he said.

Payne said cattlemen in the two-county area may be "wide open" for more trouble if fall showers cause the same conditions that began when spring showers made mosquito-breeding beds out of brackish pools created by Hurricane Carla.

Screwworm Battle Rages—Weekly production of sterile screwworm flies has hit the 50,000,000 mark and is expected to reach 75,000,000 by September 1, according to Dr. G. D. Stallworth of the Texas Animal Health Commission.

He said the battle against screwworms, initiated a year ago, is going so well that the Kerrville sterile fly plant is being closed down and all production centered at Mission.

Outcome of the fight for screwworm eradication this year may depend on winter's weather whims.

"We're at the mercy of winter weather," Dr. Stallworth said. "If a very mild winter occurs, the overwintering line that serves as a boundary for release of sterile flies, will have to be pushed farther north, and more resources and more flies will be needed."

No Death for Taxes—Robert S. Calvert, State Comptroller, warns that merchants must pay the state sales tax on gross receipts despite a recent court ruling by District Judge Herman Jones.

Calvert expects a lot of merchants to quit paying the tax reading about the ruling.

Judge Jones ruled that the state has no right to make the merchants pay while at the same time prohibiting them from collecting.

"There won't be any change until the suit finally is settled by the higher courts," Calvert said.

Advocates Efficiency Studies—Rep. George Preston of Paris, member of the committee on Saving Taxes, thinks the state can save a "big hunk of money" by efficiency studies.

"I have a feeling that some agencies in government may have ten people on the staff with work for only two of them," Preston stated.

Safe Driving Discounts—Safe drivers have received a belated boost from the Texas Association of Insurance Agents.

More than 400 of its members meeting in Austin, unanimously recommended that the state board establish a new system of credits for good-record drivers.

Urged was five per cent discount to policyholders with an accident-free year; ten per cent for two years; and fifteen per cent for three accident-free years.

Texas' controversial "merit rating" plan was revoked on August 1.

Cheaper School Buses—Texas school boards shopping for new school buses this year will find prices sharply below last year.

Competitive bids received by the Texas State Board of Control show a substantial reduction in the prices since March of this year, and an even greater reduction over last year.

First Steps Taken—Land Commissioner Jerry Sadler reports that an informal meeting early this month between the School Land Board and Submerged Land Advisory Committee marked the beginning of development of Texas' submerged lands.

He said the meeting "for all practical purposes initiated state industrial development of 1,500,000 acres of submerged lands and islands under the Reagan De la Garza Act."

Sadler also plans to ask the Legislature to amend the act

to include development of recreation facilities.

Vet Land Insurance—Veterans Land Board has reaffirmed its plans to offer credit insurance through a Dallas firm to 30,000 land purchasers despite a complaint lodged by Rep. Don Garrison of Houston.

William A. Harrison, insurance commissioner, advised Land Commissioner Jerry Sadler that a complaint concerning the company which will insure the veterans who borrow money from the state to buy land "seems to be an isolated case."

Texas Out of the Red—Treasurer Jesse James reports that Texas' general revenue fund is out of the red after having been in deficit almost continuously for the past four years.

Revenues deposited to the credit of the general fund wiped out the deficit and raised it to a cash balance of \$4,601,020.

General fund may dip again periodically, but is expected to at least break even at the end of the current appropriation biennium, a year from now.

Outdoorsmen Meet—Henry LeBlanc, president of the Sportsmen's Club of Texas, invited members of outdoor clubs, the Boat Trades Association and water-skiing groups to meet with the SCOT Boat Safety Committee in Dallas on August 24. Enforcement of the Water Safety Act, regulation of boating, and building of boat ramps will be on the agenda. Also to be discussed will be the fees now being charged on some public waters for hunting, fishing and recreation.

RED TOWEL TIP

Deer hunters, why didn't you think to tell your wife to buy some red towels last time she raided the department store. They are perfect in the woods for scarfs, seats, rub downs, and are insurance when tied around the horns of your buck. Off season, they work just as well as any other towel.

TELEPHONE TALK

C. A. Deuschle, Manager

WE MADE IT!

New! Telstar made it. Couldn't be prouder if I'd pushed the button that sent the satellite into orbit.

As you probably know, Telstar is the Bell System's new communications satellite. It acts as a sort of moving microwave relay tower in space. Signals from the earth are received by the satellite, amplified within it, and then transmitted back to the ground.

Everyone here at the telephone company had his fingers crossed that Telstar would be successful. After that little 170-pound ball opens a whole new world of communications possibilities. Voices, television pictures and data messages can now leap thousands of miles in a new and exciting way.

IT WASN'T EASY

Looking back and reflecting on the many developments that made Telstar possible, three things come to mind:

1. Since the end of World War II, the Bell System spent over one billion dollars for research and development in fields pertinent to satellite communications.

2. Communications by satellite would be impossible without six Bell System contributions—the Transistor, the Battery, the traveling wave tube, ruby masers, the guide, and new antennas for the ground stations.

3. The Bell System paid the National Aeronautics and Space Administration for the launching of Telstar. We got a free ride.

I could go on and on about Telstar, but I'll just make one comment:

I am convinced that if there's ever a better way of making communications — we'll do it.

Telephone Tips For School Activities

With less than a month before Burkburnett Schools again, it is time to plan your home telephone service for increased school activities and calling. Now is the time for a straight line for your teenage youngster or an adult listing in his or her favorite color with a school day activities increase calling not only for your daughter but also for Pop and Mom, too. Take a look at your home telephone service and let us help you improve service to your whole family today.

Call by number. It's twice as fast.

NEW, LOWER RATES ANNOUNCED FOR BUSINESS DIRECTORY PAGE

Due to the expense of the Ad-Rime copyrighted mats, the News is discontinuing this feature. Although this page has created a great interest among our readers, we feel that by eliminating the cost of the mat service, we can give the advertiser more space for his money,

which should make his advertising just as effective, if not more so.

On this page you will see spaces from one column one inch to one column by five inches. The price of each size space is printed inside the border for that particular ad.

The new page will be called **BUSINESS and PROFESSIONAL DIRECTORY**. Classified headings such as **AUTO PARTS, LUMBER, MOTELS**, etc. will be in one-quarter inch type for easier reading.

A very special invitation to the Air Force, School Faculty, Preachers of all denominations, New Comers, all wives and children. All are expected to come and enjoy the party.

In fact we are inviting the entire community. "YALL COME". Eat all the free watermelon you can and have a good time visiting.

We will have Dr. R. M. Sims and his excellent Municipal Band. Dr. Sims organized these musicians in 1961 and has done a wonderful job. You will enjoy them while you enjoy the watermelon.

Miss Carolyn Clement, Texas Pageant runner-up, has agreed to entertain us. We know you will want to see, hear and meet her.

Your hosts will be our Mayor, Jim Frye; the Chamber of Commerce President Jack Mathis, City Manager J. H. Whatley; Alvin Hill, president of the First National Bank; Jerry Thomas, vice-president of the bank, and many others, along with the above listed merchants and their employees. Everybody will be made to feel at home.

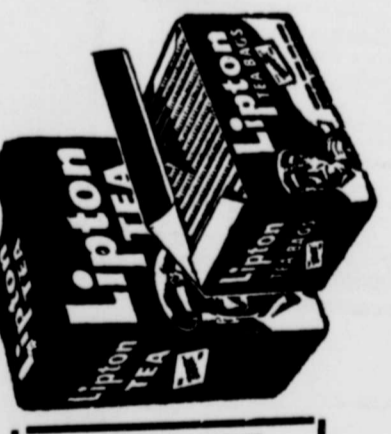

THE 200 BLOCK ON MAIN (3rd) STREET WILL BE ROPED OFF AND LINED WITH TABLES. THERE WILL BE PLENTY OF WATERMELON FOR EVERY ONE. PLEASE COME.

For Clowning Entertainment, see Roy Magers and C. J. Lippard do their famous Spanish Twist. It's a scream.

Something you should think about
if you're about to buy a truck:

If all trucks were built the same way,
 cost the same to keep up, were worth the
 same at trade-in . . . then probably the
 price tag would be your only concern.
 It can't be, of course, because some trucks
 have more quality than others. And marks
 of quality are the real keys to low cost.
 Chevrolet trucks, for example, have
 double-wall construction, which gives
 bodies and cabs more strength. Cabs are
 insulated against heat, cold and noise. A
 big part of road shock, which shortens
 truck life, is damped out by Chevrolet's
 suspension system; it also makes riding
 in the truck a pleasure. Pickup bodies
 and cabs are separated to eliminate stress
 between them.

Value such as this has induced more
 people to invest in Chevrolet trucks every
 year since 1937.

This can be a good time to buy
 a modern new Chevrolet truck

Late summer traditionally is the season
 for all-around savings on a new Che-
 vrolet truck . . . selection is still good . . .
 deliveries are prompt . . . and Chevrolet
 dealers are doubly anxious to put you
 into a new vehicle in order to make way
 for next year's models. Coupled with the
 efficient performance a new Chevrolet
 truck will give you, it seems evident that
 you couldn't buy at a better time.
 Come in and take full advantage of it!

CHEVROLET CHEVROLET TRUCKS
 Quality trucks always cost less!

Burk Theta Epsilon Sorority Style Show Aug. 20 in Town Hall

Burkburnett Theta Epsilon Sorority has selected "Prelude To Autumn" as the theme of their annual style show to be held August 20, in the Town Hall. Proceeds will be used on charitable organizations, and on our community projects. Models for the evening will be furnished by the Elite Dress Shop, and cool refreshments will be served by the members at the door.

Immunization Shots for Polio Sun., Sept. 16

Immunization shots for Polio will be given in Burkburnett Sunday, September 16th. These shots are being offered to everybody from 3 months of age up to 100. Dr. P. A. Carpenter is in charge of the Burkburnett part of the county-wide campaign. Tentative plans are to use the Elementary schools as headquarters. A complete report will be given later as the campaign progresses.

The method of giving the vaccine is very simple. Three drops of vaccine are placed on a cube of sugar. You swallow it and that's all there is to it.

This campaign is being sponsored by the Wichita County Medical Board. Dr. Jack Maxfield is president. Dr. Harley Sullivan is county chairman and Dr. Kenneth Bebb is in charge of publicity and public information.

The Burkburnett campaign is not limited to local residents. People living in Southern Oklahoma who missed the shots are also invited to come to Burkburnett for vaccine cubes.

Although the vaccine is administered free, and everyone is urged to participate, those wishing to contribute 25c may do so to help defray incidental expenses.

Mike Matherly left Monday for Lackland Air Force Base, San Antonio for eight weeks' basic training. He has been accepted in the Air Force Band at Sheppard Air Force Base and will return there for duty at the end of his basic training.

Annual Camp Meeting of Church of Nazarene Aug. 20-26

The Annual Camp Meeting of the Abilene District Church of the Nazarene will be conducted August 20 through 26 at "Camp Arrowhead," 69-acre District Center located on the Brazos River near Glenrose. This year's Camp will be the ninth consecutive year these facilities have been used.

The camp Meeting addition dates back many centuries in church history. Its counterpart is found even in the Old Testament "Feast of the Tabernacles." Since its birth date in 1908, the Church of the Nazarene has carried on this tradition of summer encampments.

The daily service schedule is as follows: 6:30 a. m. - Prayer meetings, 9:30 a. m. - "People's Meetings," 10:30 a. m. morning preaching, 4:30 p. m. Prayer Meetings, and 7:30 p. m. evening preaching service. Attending the camp will be ministers and laymen from the 98 churches which comprise the Abilene District. Over 400 persons will live in the Camp provided facilities with several hundred others driving in for the daily activities.

Special speakers for this year's camp are Rev. Harold Daniels of Springfield, Illinois, and Rev. Bert Daniels of British Columbia. These ministers are brothers and make up the only "brother team" in the District Superintendency of the denomination. In charge of the music and directing the 100-voice teen-age choir, will be Mr. Paul W. McNutt of Kansas City, Missouri. Mr. McNutt is nationally known through both personal appearances and a number of religious recordings which feature his singing. On the final Sunday afternoon Miss Eunice Clegg, missionary nurse from

Epilepsy - Scleroderma

Q. This question is being submitted after I read your article on epilepsy. A relative of mine has spells in which he loses consciousness and he very often has a pale face but does not lose his mouth or jerk. After a few minutes he gets over it. Is this epilepsy, what drugs should he take?

A. This is more or less typical of petit mal epilepsy. Do not encourage your relative to get a self-diagnosis and treatment but urge him to see a physician. The doctor should give a complete and accurate description of just what is occurring during the attacks. There are a great many different types of epilepsy, but the doctor decides which to treat.

Scleroderma

Q. I have an incurable disease called scleroderma. My right arm is affected. How will it be before my arm comes useless?

A. It would be impossible to say, because scleroderma progresses through periods of activity and inactivity. In some cases the disease will tend to clear up at the same time a new attack becomes involved. Scleroderma can appear suddenly and progress rapidly. More often, however, onset is slow, the process extending years for full development. (For the benefit of scleroderma is "hardening" of skin and underlying tissue, including muscle.)

Send questions to Dr. J. W. Shaffer, P. O. Box 1174, Lawton, Okla.

Prescriptions called promptly and delivered.
